The Standard.

ST. ANDREWS, NOV. 2, 1859.

To our READERS .- The Standard to day is published on half a sheet; and we feel confident our subscribers and patrons will make allowance, when we state, that seven of our children have been prostrated by the fearful epidemic now so prevalentscarlet fever and putrid sore throat-and that one of them, a beloved son, principal assistant in the office, has been taken from our midst, by an All-Wise G o D, to whose will we humbly bow. We feel unable mentally and physically to issue the Standard in it's usual form; and in our bereavement and affliction, rely upon the sympathy of our readers, to excuse any omissions in the contents or size of the paper, until we can make arrangements for publishing it in the usual form, which we trust to accomplish as soon as possible. To our friends in St. Andrews, we tender our warmes thanks, for their numerous kind offices and expressions of sympathy.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poofs. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrothous taint is variously caused by muscariad disease, low living disordered or unhealthy food, impure air, filth and fifthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children. stitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers up their children."

will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or alcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eraptions or sores. This foul corruption, which igenders in the blood, depresses the energies of hire, so that serofulous constitutions not only suffer from scrofulous constitutions not only suffer from scrofulous constitutions and the attacks of other discases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this tame in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lunking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the tystem from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as Emparemental State Diseases, St. Anthony's Fire, Rose, or Environemental Fire, Rose, Public, Protuces, Public, Rose, or Environemental Bushams and Bolls, Trucon, Truta, and Salv Rheum, Scald Head, Ringworm, Rehematics, Strenditte and Mengenesa Diseases, Droper, Distriction Defiliation, and indeed, all Complaints arising propuler behind in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions. Compound Extract of Sarsaparilla,

Ayer's Cathartic Pills.

FGR ALL THE PURPOSES OF A FAMILY PHYSIC, are so composed that disease within the range of their action can rarely withstand or evade them Their penetrating properties search, and cleanes, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every day complaints of every body, but also many formidable and dangerous diseases.
