TO THE ELECTORS OF THE NORTH RIDING OF LANARK.

ENTREPRENEUR.—It may appear somewhat strange to address you at this early date, as a candidate for the Commons at the approaching general election, especially as there is one session of the present Parliament yet to be held, but the main reason of my doing so is, that the main object of my election is, to have the name of my party published in the newspapers printed in this country, and to have it read to you at this early date, so that you may be able to place yourself in a proper light before the electors.

You are all familiar with the names which, in 1864, led to the resignation of B. Bell, Esq., and the advent to this bidding of the late Charles Sheppard. Many of the electors at that occasion, who favored the Confederation, were nevertheless opposed to the election of any other than a local candidate. Sympathizing with this feeling, which was not confined to any one party, I complied with a requisition, signed by nearly four hundred electors, asking me to be the local candidate in opposition to Mr. McDougall. The result was not unanticipated by those who were in favor of the influence of Sir John A. McDonald and his Government, and of many influential members of the Confederation, who were excited against me, and this, added to the fact that I was brought out, allowing no time for canvass, rendered the result at best doubtful. And here would I explain to you as to my resignation on that occasion. On receiving the returns the evening of the first day's polling, it was found that I was behind at every polling place, and that the election was virtually lost. To save our friends further labor, the contest was discontinued by my resignation, which was afterwards a very anxious step, giving serious cause of offence to many, as it was found impossible to communicate with them in time to accomplish the object for which my resignation was intended.

Since that time I have taken very little part in politics, in fact nothing more than to support Mr. Galbraith as your representative in the Ontario Parliament, and to take an active part in agriculture, and to have him out as a candidate for the Commons when it was understood Mr. McDougall was your Representative.

The condition formed in 1864, for the purpose of bringing about Confederation, has had other results than those which were intended. It has been a source of contention. Old party lines have been almost obliterated; issues, the struggle over which, on one time or another, we have fought, have been settled, and to-day we find men who, under the old regime, were called Conservatives and Reformers, working together in harmony, and in support of, or in opposition to, the Government of the day, itself a mixture of men of both parties.

It is the motto of the Confederation, "to be as well as measure," and the question of the hour is "the honest and faithful administration of the affairs of the country, and the economical management of its finances." I am confirmed in this view from the fact that many members of the Government, and of the Opposition, are now in the ranks of the Liberal party as represented in the Ontario Government.

Holding these views and bearing in mind that at the approaching session of Parliament, new issues may arise, which may be made which may give us reason to modify our opinions, I will now briefly state what course I feel it will be my duty to take, should you elect me to your representative.

Whatever foundation there may have been at one time for the claim that the present Government should be an accomplished fact, none such can now exist. The motto of the Confederation, "to be as well as measure," and the question of the hour is "the honest and faithful administration of the affairs of the country, and the economical management of its finances." I am confirmed in this view from the fact that many members of the Government, and of the Opposition, are now in the ranks of the Liberal party as represented in the Ontario Government.

As it is a recognized fact that manufacturing and mercantile industry is the life of the country, their encouragement will always receive my hearty support. Tending to the improvement of the property of the people, and to the necessities of life, so as to cheapen the cost of living to the laboring population, and to the production of those manufactures which are so much needed in the country, and a judicious arrangement of the tariff for revenue purposes, which while it should not be open to the objection of being specially protective.

The adoption of a wise and liberal policy, having for its object the encouragement of the immigration of farm laborers, is urgently demanded; and the opening up of the back and by railroads, and the opening of a permanent settlement of the now unoccupied lands of the country, shall have my warmest support.

Since North Lanark was set apart as a separate Riding, it has never been represented by a resident member of the Legislature, and the continuance of this humiliating state of things must be regarded as a reflection upon ourselves. At the recent meeting of the Council, I have consented to test the feeling of the people in this regard, by soliciting your suffrages as a local candidate at the forthcoming election, and am resolved in due time to present the canvass vigorously and to continue the contest until the last vote is polled.

Your obedient Servant, B. BOWEN.

THIS OIL has been in very general use in Ontario for the past two years, and has met with the greatest satisfaction, as may be seen by testimonials from many of the best mechanics in Ontario. It will not thicken in cold weather nor gum, and is without question the cheapest and best lubricant in the market. Sold in quantities to suit purchasers by W. M. FULFORD, Wholesale Agent, Brockville, Ontario. From the Joseph Hall Works, Ontario. I consider Mr. Stone's Oil cheaper at \$1.00 per gallon, than Olive Oil at 50c. Yours Respectfully, F. W. GLEN, President, Feb. 23, 1872.

WE the undersigned, take this our earliest opportunity, of rendering thanks to Dr. Wilson, of Carleton Place, for his kind assistance rendered on the death from Smallpox, of the late Charles Sheppard. We esteem his services more highly as none of our relatives of deceased could be found to do or coffin the body. We will ever gratefully remember this voluntary kindness on his part, more especially as he was not the attending physician. James Flava, Wm. McEwan, Carleton Place, Feb. 23, 1872.
