CLOSE CONTESTS MARK WESTERN ONTARIO VOTING

Woman Seeking Re-election To Board of Education Leads Brantford Poll.

VOTE TIED IN DELAWARE

Brinkman Defeated At St. Thomas For Third Term by Raven.

Throughout the Dominion, Monday, with a few exceptions, municipalities held their annual elections. For the first time in its history London did not vote on New Year's Day, having held its balloting a month earlier. In Western Ontario many keen contests for office were observed, but in a great number of cases last year's officers scored easy victories. In one case, that of Delaware Township, there was a tie in the voting for reeve, Alton Ryckman, warden of Middlesex County for 1921, obtaining exactly the same number of votes as Duncan Gordon. At Port Stanley, where many Londoners who own property there voted, Reeve William Jackson and three of the present councillors were returned. At Durham a hot contest for reeve between William Calder and A. A. Cotton was averted by Calder signing a legal declaration stipulating that if he were unopposed this year he would never seek the office again. At Brantford, Miss Mary Collier, running for re-election on the board of education, finished at the head of the poll. A bylaw for a new trunk sewer to provide work for the unemployed was also given hearty approval by the voters of that city. At St. Thomas, Frank Brinkman, who has occupied the chief magistrate's chair for the past two years, was defeated for a third term by Charles E. Haven. The following mayors of cities and towns and Reeves of incorporated villages in Western Ontario have been returned to office. The list includes officials elected by acclamation.

DEFEAT RAIL PURCHASE

OTTAWA, Jan. 2.—Ottawa electors today voted heavily against the corporation purchasing the Ottawa Electric Railway Company, and also defeated the proposal for service at cost by a large majority. The vote was strongly in favor of a further extension of the company's franchise. The official figures, compiled shortly after midnight, follow: For municipal ownership, 6,003; against, 8,420. For extension of franchise, 8,415; against, 6,070. For service at cost, 3,345; against, 10,522. Electors defeated the proposal to grant \$50,000 for playgrounds work and the bylaw asking authority to grant \$10,000 to the Great War Veterans' Association for relief purposes. Mayor Frank Platt won his right to a second term by a majority of 6,225 over Jos. Kent, his nearest opponent. Mayor Platt's majority over W. M. McManus was 10,682.

LABOR GETS SETBACK

HAMILTON, Jan. 2.—Labor got a severe setback in the municipal elections here today, when the P. P. A. slate appeared to meet with the most popular approval of the electors. The Mountain route bylaw carried by a majority of 110, while the street railway bylaw providing for a straight fare of 5 cents was defeated by 2,025 votes. A surprising feature of the board of control contest was the remarkable comeback by ex-Controller Thomas Jutten, who, not only headed the poll, but was accorded the largest vote any controller ever received. Mr. Jutten was defeated in the majority contest last year. Following is the new board: Thomas Jutten, F. F. Treleaven, John Tope, Calvin Davis.

Chatham Barber Proves Match For Two Armed Thugs. CHATHAM, Jan. 2.—While on his way home Saturday evening James Ronson, a local barber, was held up by two bandits, who demanded that he hand up his hands. Ronson stepped back one pace and pulling a revolver fired point blank at one of the bandits wounding him. Both bandits turned around and fled, Ronson accelerating their flight by firing another shot. The event took place at the corner of Barber and Park streets, near Ronson's home. Ronson had a considerable sum of money, Saturday's earnings, in his pocket, and had a permit from the police to carry a gun for protection.

EXPECT BRITISH ELECTION IN FEBY.

LONDON, Jan. 2.—(Canadian Press cable.)—Political prophets were active on the platform and in the press over the week-end and many of them now maintain that February is likely to see a general election. Premier Lloyd George is said to be in favor of an election next month, although he is meeting the opposition of an influential group of coalitionists. The Pall Mall newspaper tonight says there are two camps, one headed by Lord Bickenhead favoring an appeal to the country later, after the government plan for reforming the House of Lords has taken definite shape. The premier's speech to the coalition Liberals in London on Jan. 21 is keenly awaited.

TORONTO GIVES HYDRO BYLAWS SAFE MAJORITY

Proposal To Pay Queen City Aldermen \$1,200 a Year Beaten 8 to 1.

DEFEAT ELECTION CHANGE

Voting Lacks Vigor As Result of Acclamation of Mayor Maguire.

TORONTO, Jan. 2.—Pro-hydro sentiment is still a dominant factor in the province, judging by the results of the voting today. Toronto carried the two hydro bylaws on which the people were asked to vote and the municipalities of the Niagara peninsula carried the bylaw to authorize the purchase of the Niagara, St. Catharines and Toronto Railway from the federal government independent of a provincial government bond guarantee and tie it over to the provincial hydro-electric power commission to operate. Toronto voted on a bylaw to acquire the Toronto Suburban Railway from the federal government and turn over the section between this city and Guelph to the provincial hydro commission to operate. This bylaw carried by a vote of 15,000 to 12,000 against. The other bylaw to authorize the purchase and completion of the Toronto-Bowmanville Railway in conjunction with the other municipalities concerned without an Ontario Government guarantee, was carried by 15,500 votes to 12,500 against. These three radical propositions were originally promoted by Sir William Mackenzie and associates, and came into the possession of the federal government through the assets of the Canadian Northern Railway.

Beck Got Options

Sir Adam Beck, chairman of the provincial hydro commission, acting for the municipalities concerned, secured options on the radials and when, following the recent adverse report of the radial commission, Premier Duffry declined to provide the usual bond guarantee, a vote of the municipalities was called for on the question of proceeding without the guarantee. The provincial government has recently shown a disposition to discourage the radial program, even though the government is not asked to guarantee the bonds, holding that the government is in reality responsible for the acts of the hydro commission, and the next step in the dispute is awaited with interest in the proposed radial belt. The Toronto civic elections lacked special interest this year, the majority having been decided by acclamation. There is only one change in the board of control, Thomas Foster, former M. P. for East York, having captured the seat vacated by A. C. Maguire, who resigned promoted to the mayor's chair. The members of the 1922 board are: Mayor Maguire, and Controllers Foster, Hiltz, Gibbons and Nesbitt. The vote was eight to one against a proposal to pay the Toronto aldermen a salary of \$1,200 a year. They now receive an allowance of \$300 a year.

DEFEAT PAY BOOST

The proposal to pay the members of the board of education a salary met with a similar fate. On the question of changing the date of the municipal election in Toronto from Jan. 1 to the first Monday in December was 20,500 to change, with 12,000 against. There will be no change. Seventy per cent of the votes were cast in favor of requiring all vehicles using the streets after sundown to carry a light or lights.

GHANDI FACTION IN INDIA TAKES DEFIANT STAND

Declare Republic On Receiving Support of Anti-British Element in U. S. WASHINGTON, Jan. 2.—(By Canadian Press.)—The report of the declaration of a republic by a section of the Nationalist faction in India, which was announced by a representative of the "American commission to promote self-government in India" last night, was brought about by messages of support sent by certain United States senators, who have been considered anti-British in their attitude, it was revealed today. The cable from India announcing the new Nationalist move there, as given out by the Indian Nationalist propaganda organization here, reads: "Republic declared; American messages received; Army defense sanctioned; Boycott extended to individuals, women, children safe." The "American message" referred to was said to be that signed by Senators Norris of Nebraska and Walsh of Massachusetts, and "a number of other prominent publicists and jurists," pledging "United States" support to the Indian "campaign for independence."

Pick Provincial Bodies

"It is permissible to announce now that, in preparation for the declaration of independence, provisional governments have been organized in all the provinces. A central government has been formed with Gandhi at its head, which means that as long as Britain remains there will be a state within a state." Suppression of the drug and liquor traffic has been undertaken as one of the first reforms of the "United States of India," according to a statement issued by Ghose. He declared that within the last month seventy per cent of the opium shops and sixty per cent of the liquor shops in British India had been closed through the activities of the Nationalist volunteer pickets. "Suppression has now been decreed," he added, "in districts where the provisional government is functioning, drugs and liquor will only be obtainable for medicinal purposes." Mr. Ghose said that revenue from the traffic, from which Britain derived an income of many millions, were cut off by the decree.

Liberals and Progressives.

THE formation of the King cabinet clears the way for work. There is every reason to expect co-operation from the Progressives, because the latter have many things in common with the government.

Although there is nothing in black and white in an official way to indicate that any working understanding was arrived at in conferences held between the premier and the leaders of the Progressives, it is safe to surmise that the situation would be fairly well discussed.

There is no reason to believe that the Progressives stand in any danger of losing the identity of their party by giving support to the Liberal government at Ottawa. A coalition with the Conservatives, under the leadership of Meighen, is not to be thought of. The whole trend of the Conservative campaign was an onslaught against the Progressives.

The Conservatives sent their strongest speakers into several of the rural ridings, and in many of these the whole tenor of the appeal was that the farmers were making money, and at the same time dodging the payment of their taxes—that they were paying very little of the income taxes of the country, and were therefore entitled to very little consideration when they kicked about taxation.

The one big move and bid the leader of the Conservatives made for farmer support was when he offered his grain pool idea to the westerners. It was so plainly nothing more or less than an eleventh-hour political sop thrown out as a vote-catcher that it was not even seriously considered.

All through his campaign the Liberal leader made much of the point that there was a great deal to be gained by the Progressives giving support to the Liberal platform rather than opposing it.

The Late W. B. Burgoyne.

ST. CATHARINES lost a big, whole-hearted citizen in the passing of W. B. Burgoyne, editor of the St. Catharines Standard.

When the word whole-hearted is used in reference to the late Mr. Burgoyne, it is with care and knowledge that it is done. He was whole-hearted. When there was a battle to be fought Mr. Burgoyne's stand was whole-hearted. Seldom would he be found in the ranks of those who dined with faint praise.

Mr. Burgoyne loved St. Catharines, and the success and beautification of that snug little city was one of the greatest hobbies he had. Were one to be asked off-hand for his greatest love, the answer would probably be flowers and public parks. For the outsider who dropped into the home-like atmosphere of Mr. Burgoyne's office in the rose season it meant that after a few minutes' talk about things in general, there would surely come the suggestion that "we take a little walk and see the city." Mr. Burgoyne knew every person who had a special kind of rose, knew where he got it, and what success he had had with it. Then there was his rose garden, not planted in his own backyard, but right out in one of the public parks, where every person could see and enjoy it. For several years he put up a sum of money to get this place under way and to improve it. The result is that St. Catharines has a public rose garden, which, in the right season of the year, is almost unrivalled in its beauty as an incentive to the thousands of citizens who pass through and see it, to develop beautiful and lovely features around their own homes.

No gathering of the Canadian daily newspapermen seemed quite complete until W. B. Burgoyne of St. Catharines was present. He was loved, not because he was conducting a successful newspaper business, but for the genial, whole-hearted personality that found room for action in so many ways in different channels.

Up In Wingham.

THE WINGHAM TIMES has discovered a councillor who takes a very impartial view of his work during the year. The Times reports him as follows: "Perhaps the speech of the evening, because the most candid and cheerful, was that of Councillor Sam Bennett, who said he had done nothing during the year to be ashamed of, and that he had done nothing that would justify him in putting medals on himself.

Be It Ever So Humble!

—THE TREAT—

In short, he had honestly tried to do his best, and the ratepayers would have to let it go at that.

Surely it puts the voters in a queer way to know how to deal with such a case. On his own admission he has done nothing of which he has reason to be ashamed, neither has he covered himself with glory.

Why should we vote for him? Because he has done nothing of which he is ashamed.

Why should we vote against him? Because he has not covered himself with glory and medals.

The more we think it over, the more we are forced to conclude that Sam Bennett of Winton is a pretty fair campaigner.

No Strikes in 1922.

IF THE building trades and the Building Exchange of Toronto start the year 1922 with a strike they will be engaged in poor business.

The members of these various unions need work. There are plenty of concerns that are considering building plans to be carried out this year.

A reduction in the price of building costs will bring more money into the building market. Those are the actual conditions. Against that we have the desire of some investors to see prices stay up because they invested their money at the peak.

Then we have the desire of the building trades to keep their wages up as high as possible, quite a natural inclination, as no man cares to see his standard of living come any lower than possible, although figures show there are some decreases being registered in living costs.

Toronto or any other city cannot afford to have its 1922 program of getting down to business tied up at the very start with a series of strikes.

It will spoil the year for the men, and it will spoil the year for the builders, and it will spoil the year for a great many industries, the success of which depends on the success of the building program.

There is going to be a settlement finally—there must be. So, why not arrive at that "finally" right now?

LITTLE 'TISERS

We don't know whether the old year blew out or the new one blew in, but they were both going in the same direction at an awful rate.

The question of serving the "big interests" entered even into the civic elections of Goderich. Which sounds as though the place were growing.

Elmira reports a hen that is laying three eggs a day. Owner of said bird will soon be wearing a silk hat on his head and a set of spats on his feet.

Some men are lucky enough to get the snow blown off their walks, and they have the nerve to talk about some other chap who hasn't got his drift tunneled out at 7:30 in the morning.

The French attitude at Washington leads to the belief that France has forgotten that it was a British navy that in the long run kept her from having to lick German postage stamps today.

The Orilla Packet remarks that "house-heating, in bitter weather, with little or no snow, is quite a different problem. The snow seals many a crack and crevice." Doesn't the editor of the Packet know how to get out and bank up his shed if he feels the floors a bit cold?

The Canadian dollar does well, and in a short time he will be able to look Uncle Sam's dollar square in the eye on the basis of equality, and when that time comes of equal-

ers of Canadian dollars should remember that there's lots of use for them right up here in this fine north country.

St. Thomas churches are making a drive to get people to go to church. It would do a lot of folks a lot of good to try it for a month. In fact, the St. Thomas churches, if conditions are normal there, might find it expedient to prod their own membership into turning out regularly for a month.

Hon. Bob Rogers is in the West again, and from Winnipeg he calls out that a National Conservative convention should be called immediately to select a leader, and added that there were insistent demands for "a real Conservative organization."

Waterford voted this year as to whether it would raise a necessary \$14,000 for the completion of its waterworks by a cash payment or 20-year debentures. The debenture plan is quite right in this case, because the benefit of a waterworks system is something that is going to be spread over a term of years, and the citizens of the future will have just as much benefit as those up of 1922. There is a danger of the debenture idea getting too much of a start on the pay-as-you-go plan in some cases, but the building of a waterworks system can hardly be put in that class.

For some years Sarnia has had a whistle that blew a fine, far-reaching blast every night at 9, which shooed all the wee residents off to bed, and acted as a signal to dad to put on his carpet slippers and get ready to shake the furnace for the night, and put the milk bottles out on the back porch. But of recent weeks, with elections coming on, some of the thrifty city fathers have figured out that each blow was costing Sarnia about \$7.50, so the blowing is to cease, the final blast taking place on the last night of 1921. It will now be necessary for these whistle-regulated Sarnia homes to find some other means of keeping their household affairs straight.

London manufacturers look forward to 1922 as the start of a period of greater activity. Many of these firms have been going through times that have called for their very best efforts to keep sweet. Canadian manufacturers, for the most part, have piloted their businesses through a period that has seen prices for labor and material go out and beyond all previous markets. Then, following quickly on this, they have come to the stage where they had to consider more than ever the buying power of their consumers, which, in many cases, was considered.

To plan so that they could keep their customers from staying out of the market for too long a period has called for the exercise of a vast amount of business sagacity. The lot of the average manufacturer during the past two years has not been an enviable one.

From a statement presented by George Hastings, city manager of Guelph, that city is securing the best of co-operation between its various departments. That is something worth while, and something that a good many cities can hardly claim to be securing. Guelph had a large number of utilities, such as gas and electric light, waterworks, street railway, etc., each of them operating as a separate unit, some borrowing from the bank, while another had a balance in the same institution. Guelph set out several years ago with the intention of changing all this, and apparently has succeeded to quite an extent in establishing

a better working basis. The foundation for the work was well laid by the late T. J. Moore, city clerk, and J. O. Rose, city treasurer, who performed a great service for Guelph in straightening out a debenture tangle that went back almost to the start of civic business in Guelph.

Thursday night the Sunday school of Trinity Church, Lambeth, held their Christmas entertainment at Masonic Hall. Rev. READ YOUR CHARACTER

[By Digby Phillips.]

NO. 77—BULGING BROW AND SLOPING CHIN.

This is a combination of character indications which is rather rare; also interesting.

It has been shown in previous articles that the forehead which slants backward indicates quickness and vigor of thought, combined with varying degrees of impatience and aggressiveness; whereas the forehead which is high and bulges somewhat denotes virtually the opposite thought tendencies. It indicates slower but deeper and more persistent mental processes, with an introspective rather than an objective trend.

Likewise you have read of the chin indications, which are illustrative marks of those thought tendencies which are connected with or result in actions. The prominent chin indicates a personality slow to act, even though thoughts may be racing. The receding chin denotes a tendency to quick and impulsive action.

It is not hard to understand, therefore, that when you find the combination of the bulging brow and the receding chin you have found a person who will be interesting, if nothing else. Slow and sure of thought—impulsive and probably inaccurate of action—it is a combination likely to keep you guessing. Some people make mistakes, but never realize they've made them; but these people always think of the clever or the appropriate answer a couple of hours after the opportunity is past. But if you want to estimate the true worth of them, don't make the mistake of judging them by their manner or appearance or hasty actions. Judge rather by the evidences of their mature thought.

It Winter Comes

BY DR. WM. E. BARTON.

WINTER has come and with it a book "It Winter Comes."

It is strong in its character analysis, and portrays the tragedy of an inner-peace soul. A man who had ideals which other people could not understand. The author has worked overtime on his crisis, endeavoring to help the soul out of its hero.

In the war the hero loses his health, gains little honor and comes home unloved.

His business he achieves success only that it may turn to failure. His business associate cannot understand him; his wife cannot understand him.

He loses money, position, reputation, but keeps his ideals.

And after a winter which simply knocks the bottom out of the tube of mercury, he has a much belated, and it must be chilly, spring.

Now, in this world in which we live, an idea is not worth unless a man expresses it. A plan is hardly worth the forming unless it can be built upon.

In this book, which thousands now are reading, the blame rests, as it ought to rest, on an unintelligent group of neighbors, business associates and more or less friendly friends, including the hero's wife, who is not a very good friend; but some blame must rest, too, upon the man who, having great visions, does not invent some way of revealing them.

Alas for those who, having anything wherein mankind may benefit, do not somehow convey to mankind some part of their vision. The world is very stupid, and preoccupied, and full of a number of things, but the singer must sing, and sing to be heard.

The inarticulate saints must pay a little less attention to their visions and a little more to their publicity. Otherwise it will be a long and cold winter for them.

A HOUSEHOLD REMEDY. Grandma—Did you cut my finger? Come, gran'ma'll kiss it and make it well.

Little Waldo—No thank you, grand-mother. A kiss not only has no curative value, but is highly insanitary.

AN ESTIMATE. Sedan—I hear you got a new car. What horsepower is your engine? Henrick—It seems to be a scant one horsepower, but it has a four donkey-power horn.

COMMON SENSE WAYS TO KEEP WELL BLOOD PRESSURE

BY DR. R. H. BISHOP.

BLOOD pressure is something few people understand. Many know that a high blood pressure means Bright's disease or hardening of the arteries, but few know that a low blood pressure is often an indication of some serious ailment, too.

The blood pressure of a baby under one year is about 76. It rises a few points each year and reaches 100 at about 10 years.

There are some who have a low blood pressure as a normal condition. Such are in a state of hypotension. In tuberculosis blood pressure is low.

In profound anemia the blood pressure is low. A moderate case of anemia causes a low blood pressure, and not until it rises is the disease arrested. Further, they who are prone to develop low blood pressure, it rarely develops in those with high pressure.

In typhoid fever blood pressure is low. It falls a little each week. This tendency is especially noted in those who are going into the typhoid state—the stage of now muttering delirium and high vitality. If during the course of the disease the pressure drops suddenly look out for internal hemorrhage.

During a hemorrhage, internal or external, which a pint or more of blood is lost, the blood pressure drops sharply 30 to 40 points. At once the fluids begin to drain into the blood, and the pressure is restored within a few hours.

In apoplexy the amount of blood escaping into the brain is never large, and in consequence the blood pressure does not drop.

We have had inquiries as to how the anemia of heart disease and Bright's can be distinguished from hay fever. Among other differences is the difference in blood pressure. In heart and kidney asthma the blood pressure is about right for the age of the sufferer.

In profuse anemia the blood pressure is low. A moderate case of anemia causes a low blood pressure, and not until it rises is the disease arrested. Further, they who are prone to develop low blood pressure, it rarely develops in those with high pressure.

and of all ages and weights. The most impressive fact was always that members of the same family were strikingly similar in their reactions to the inoculations, the resistance or the susceptibility being definitely transmitted to the offspring by the parents. If one parent came from a resistant family, and the other from a susceptible family the progeny resembled most closely the better parent in being generally strongly resistant.

The common roadside sulphur butterflies take little food, but their caterpillars eat voraciously of growing clover leaves, whose coloring matter, chlorophyll, colors their blood a grass-green. In some inbreeding experiments two races of new and different colors have been discovered. One has olive-green instead of yellowish-green caterpillars. These change into butterflies with olive eyes and orange wings. Caterpillars of the other race have blue-green skins and become butterflies with bluish-green eyes. The blood of this race is also distinctly blue-green and lacks all of the usual yellow cast. Evidently the race inherits some capacity of digesting completely the yellow coloring matter of the clover plants, leaving only the blue-green to tint the blood which then determines the color of skin and eyes.

This review of the electoral returns completely discredit the efforts to belittle the electoral support given to the two prohibition measures. ERNEST THOMAS, Board of Social Service, Toronto, Dec. 28, 1921.

HISTORIC BATTLES. Editor Advertiser: Sir—Russell, in one of his admirable Crimean war dispatches, cites Campbell as saying in regard to the formation of the Ninety-Third Regiment in this action: "I did not think it worth while to form them even four deep, the ordinary British line; too deep, was quite sufficient to repel the attack of those Muscovite cavaliers."

Thus, in one breath, he makes the stand of the Highlanders rather commonplace, and belittles the prowess of the Cossacks, usually regarded as among the finest cavalry in the world. It is only characteristically human, however, to minimize a grave danger after it has been averted. The regiment saved his sharp eye a tendency to advance, when riding down the line he shouted angrily: "Ninety-Third! Ninety-Third! Damn all that eagerness!"

The reprinting of the old general struck the line. We may forget alike the unwise "overcares" and the profanity in the heat of battle as we admire the splendid morale of men who thus needed to be restrained from advancing to meet a sma hairy cavalry charge. Better surely fiery impetuosity even than the weak-kneed cowardice of the Turk. D. STEWART, Toronto, Ont.

TO THE EDITOR. ELECTION RETURNS. Editor Advertiser: The statement has frequently been made that the votes cast in the referendum which sustained the Ontario temperance act, and in the referendum last April on non-importation of liquor, showed such a small proportion of the electorate as to discredit the mandate. We have now had a general election on substantially the same voters' lists. Let us compare the results.

General election, December, 1921, 1,067,391 votes cast. Referendum, April 1921, 922,238 votes cast. Referendum, October, 1919, 1,137,406 votes cast.

The figures for the referendum are official, and for the recent election the best available and approximately correct. Despite the fact that three political organizations worked the polls to bring out the vote in December the vote polled last April is almost 90 per cent of that which was just secured. More significant still is the fact that when the Ontario temperance act was sustained 80,000 more voters went to the polls than in this last general election.

In the referendum of 1919 the vote given for sustaining the Ontario temperance act was 100,000 in excess of the combined votes of the Liberal and Progressive parties in December, and the actual majority by which the act was sustained, was itself almost identical with the total Conservative vote in this recent election. In the vote last April the majority for non-importation was twice the majority of Conservatives over the Liberals in December.

Moreover in this recent election 48 out of 52 members are seated in spite of the fact that a majority of the votes cast in their constituencies were opposed to them. The Progressives although a majority of their members representing a majority of their constituencies. If we bear in mind that this is the one party which has a clear record and definite policy in favor of prohibition.

WHEN YOU FIRST FEEL SORE THROAT. DON'T neglect a sore throat! The inflamed tissues invite the attack of those dangerous disease germs which lodge in your throat every time you draw a breath. Safeguard your health with Formant Tablets, which will soothe and ease the painful throat, and check infectious germs before they can make headway, possibly resulting in laryngitis tonsillitis or influenza.

You will find Formant Tablets very pleasant to the taste, convenient-to-take. Yet powerfully antiseptic. Dissolve one slowly in the mouth now and then. An efficient antiseptic is released and mixing with the saliva, bathes the deepest tissues of the throat. Children like them. Relieves hoarseness. Spends for singers, speakers, actors, lecturers, etc. See all druggists.

DRUMBO JUNIORS TAKE FIRST GAME FROM LONDON ALERTS

VISITORS SCORED WINNING COUNTER IN LAST MINUTE

London Defence Gave Way in Closing Session—Tucker and Totten Show Up Well For London—Cohen Was Drumbo's Star—Good Crowd Out.

[By C. S. G.]

Drumbo beat London Alerts Juniors 6 to 5 in the opening clash of Group 13 at the east end rink last night. The Londoners faded badly on end, and from the position of 5 to 4, and the edge they held at the beginning of the last period, went down in dizzy circles, while the Drumbo youths netted the two counters which gave them the first nick of the season.

There was just a little over four minutes to go when Cohen took a pass from the rear of the London goal and beat Cliff with a waist-high shot, and nothing between. The winning tally came when Binkley, Drumbo's star left winger, took a pass that had been handed by four of the faded blue shirts, and slipped around Grainger, as the big Londoner was trying to seal him in, took a shot for a beautiful shot off the lumber.

On Even Terms.
The two teams were on fairly even terms throughout. Binkley, the Drumbo captain and left wing, was the best man on the ice, and after getting clear down the rear of the London goal and beat Cliff with a waist-high shot, and nothing between. The winning tally came when Binkley, Drumbo's star left winger, took a pass that had been handed by four of the faded blue shirts, and slipped around Grainger, as the big Londoner was trying to seal him in, took a shot for a beautiful shot off the lumber.

Cliff was good. Several that beat him were excusable. One dropped out of his glove, and his view was obscured by three of his own men when Drumbo's fourth goal happened. Cohen, the big Londoner, was a fine defence man, was threatened with freedom from the spotlight the first period with a series of rushes and a turn of speed that was hard to follow. Cohen was to keep the puck within hailing distance, and to keep away from the one-way route down the right-hand side of the rink, spoiled a good deal of his promised effectiveness. Totten and Totten were both good, and will develop fast. The game will be a very through, and the game last night will do a lot to bring the needed experience.

Appeared "Stage Struck."
Both teams appeared "stage struck" during the first few minutes of play, but after the fans started cheering a bit this was soon forgotten and they went right in and did their best. Judging from the play they were evenly matched. Drumbo showed poor combination but had a good defence. London had good combination but they could not get through the visiting defence.

With but two minutes of the first period left, W. Cook penetrated the London defence and by a wicked shot scored the first goal of the game. Only one minute of the second session had passed when Crittle took the pass from Tucker and outgusted Cook, making the score one all. Binkley put Drumbo ahead at four minutes from almost center ice. It was a beautiful shot and brought forth some applause. Woods tied the score again, six minutes after Binkley netted his Tucker was off the ice when this was scored. Soon as Tucker got back he made London's third goal which broke the tie. Right after the puck-off Totten and Tucker again made it look as if London was going to clinch the game, when he accepted a pass from Crittle and pushed the goalie. This was London's last goal. Binkley gave the Drumbo six their fourth counter one minute before the final sounded.

At 18 minutes Cohen tied the score. Cohen was off the ice when this was scored. Tucker again made it look as if London was going to clinch the game, when he accepted a pass from Crittle and pushed the goalie. This was London's last goal. Binkley gave the Drumbo six their fourth counter one minute before the final sounded.

Jack Dempsey May Quit For Two Years.

LOS ANGELES, Calif., Jan. 2.—Jack Dempsey, heavy weight champion of the boxing world, is planning a temporary retirement from all stage, ring and society activity. It is doubtful if he will appear in the ring the coming year to defend his title and it may be two years before he will don the gloves again. Dempsey, himself, is authority for the statement that he is on the verge of a nervous breakdown, and that he is seeking the cancellation of all contracts that require his presence in the United States for a year. It is known that he has asked Alexander Panagos, the vaudeville magnate, to release him from his theatrical engagement. The champion long has had aspirations to become a big game hunter, and it is said he is planning a trip to Africa to realize his ambition. His journey proves beneficial he may visit Australia and engage in several exhibition fights before returning to this country.

PRESIDENTS WIN AT L. C. C. SPIEL

Defeated Vice-Presidents in Annual Games 88 to 64.

The London Curling Club officially opened their season Monday afternoon with the president and vice-president games. The former rinks won by 88 to 64. Only in one game were the losers near the score of the presidents when Wanless skipped his rink to a tie with McKeay's. Tom Shaw's rink had the biggest margin, 11, against L. Martyn's four.

The weekly 'spiel' of the club will be held Thursday afternoon, commencing at 4 o'clock.

NEWMAN BREAKS WORLD'S RECORD

LONDON, Jan. 2.—(By Canadian Press)—Playing against C. Faulkner in the London tournament at Burying Hall yesterday, T. Newman established a new world's record in English billiards by making a break of 1,274. The former record of 919 was made by H. W. Stevenson in 1912. Newman's former record of 844 was made in October, 1919.

Faulkner was a top-liner for several years. He lost the professional championship to William Smith of Darlington in 1920.

JUDGE LANDIS made a very wise and popular move when he cast the deciding London tournament at Burying Hall yesterday.

The nine-game series was entirely too long. Mix in a couple of bad days on account of the weather, plus inability to play on successive days, due to a long railroad jump, and it would extend the series over practically two weeks.

That is entirely too long. Interest will have waned long before the completion of the event.

However, the real big thing to be gained by going back to the seven-game series is the added confidence that it will create in the game with the enthusiasts who support it.

Going back to the seven-game series will make a lot of people believe that baseball is something of a sport, rather than a purely commercialized amusement.

The world series will once again take on the aspect of a sporting event rather than an enterprise for gain.

The nine-game world series was not

"22" Proved Jinx For Tommy Gibbons

TWENTY-TWO proved the jinx for Tommy Gibbons, generally considered a logical contender for Jack Dempsey's title. After scoring 21 consecutive knockouts, Bartley Madden of New York, trounced the St. Paul heavyweight. When Madden was matched with Gibbons, fight experts began figuring how long the New Yorker would last. Most of them dooped it out that five rounds would be long enough. Hardly a soul thought he would stay the limit. Madden not only stayed the ten rounds in their bout at Grand Rapids, but was never seriously in danger of taking the count. Ordinarily a knockout occasions surprise. However, the failure of Gibbons to score a knockout, after having put 21 opponents to sleep, set the fight experts talking. Is Gibbons as good as the critics have insisted he was? Was his knockout record of 21 straight the result of matching him with a lot of set-ups? Who is this fellow Madden who stayed the ten rounds without once kissing the floor? Those are questions among boxing enthusiasts since the Gibbons-Madden bout. In Madden, Gibbons met a tough, game fighter. Within the last year he has met such good men as Captain Bob Roper, Bill Center, Ed. Gerb, and went the limit with all of them. When a fighter can go against four men like Brennan, Gibbons, Greb and Roper and stay the limit, he must be pretty fair. Gibbons is a great fighter. Of course, a lot of his victims in his run of 21

CANADIAN SKATER DEFEATS YANKEE

Miss Gladys Robinson of Toronto Shows Up Well At Newburgh Tourney.

NEWBURGH, N. Y., Jan. 2.—Miss Gladys Robinson, Toronto, Canadian woman skating champion, defeated the United States national champion, Miss Elsie Muller, New York, in one of the feature events of the Middle Atlantic speed skating championship tournament today. The Canadian skater crossed the line first in the 400-yard championship event. Miss Muller was second. Joe Moore, international speed skating champion, won new laurels at the meet by capturing three first and two second prizes.

With 105 entries and ideal weather conditions, the tournament was one of the most successful ever held here, being witnessed by a crowd of several thousand. Moore took first honors by winning the Donaghy Memorial, three-mile championship. He was hand pressed by the boys' champion, Lake Placid, who won the mile championship, came second in the Donaghy Memorial, third in the 220-yard event and second in the 400-yard event.

French Government Plans Big Things For 1924 Olympic Games

PARIS, Jan. 1.—If the French government, which is now in the hands of the ministry of foreign affairs to handle all the preparatory work. It has already been decided that the games will not be held in the Pershing Stadium, which is one of the legacies left to France by the U.S. army. Instead, in the Auteuil section of greater Paris, an entirely new stadium will be erected. In the meantime, the thought of the transportation companies will be concentrated upon the subject, so that street car, subway and omnibus service will all be capable of carrying the crowds which are expected to attend. Although this has not definitely been decided upon, there is a proposal to arrange the contests in three periods. If this were done, the winter sports would take place in February or March in the mountains—either the Pyrenees, the Vosges or the French Alps. The second period would occur in May and would be devoted to association and rugby football. Finally the Olympic games proper would commence about June 1st. As this is the high tide of the season of American travelers, it is believed the games would be in attendance at world records, especially as it is incidentally expected that America will send a very large band of contestants for honors.

PRESIDENT OF TORONTO CLUB SERIOUSLY ILL

Toronto, Jan. 3.—Early this morning Lawrence Solman, treasurer of the Toronto baseball club, was notified by telephone from Atlantic City that President James Johnson McCaffery of the Toronto club had become seriously ill, and was not expected to live until daylight. The physician who has been attending Mr. McCaffery at Atlantic City telephoned Mr. Solman after the latter had first been apprised of Mr. McCaffery's condition by Percy Ryan, trainer of the Leafs, who was in the seaside with his employer. Half an hour later came a second message from the attending physician, which said that the patient had recovered slightly, but no encouragement was offered other than that the sick man might rally for a time.

LEONARD TO MEET MITCHELL JAN. 9

MILWAUKEE, Wis., Jan. 2.—Benny Leonard, lightweight champion boxer, will meet Pinky Mitchell of Milwaukee Monday night, Jan. 9, in a 16-round decision bout instead of this afternoon as originally arranged, the postponement being occasioned by a muscular affliction suffered by Mitchell. Leonard went through the formalities of weighing in this afternoon, tipping the beam at 137½ pounds.

STOMACH TROUBLES ARE DUE TO ACIDITY

Tells Safe, Certain, Speedy Relief For Acid Indigestion. So-called stomach troubles, such as indigestion, gas, sourness, stomach-ache and inability to retain food, are probably nine cases out of ten, simply evidence that excessive secretion of acid is taking place in the stomach, causing the formation of gas and acid indigestion. Gas distends the stomach and causes that full, oppressive, burning, and sometimes known as heartburn, while the acid irritates and inflames the delicate lining of the stomach. The trouble lies entirely in the excess development or secretion of acid. To stop or prevent this souring of the food contents of the stomach and to neutralize the acid, and make it bland and harmless, a teaspoonful of bicarbonate of soda, a good and effective corrector of acid stomach, should be taken in a quarter of a glass of cold water after eating or whenever gas, sourness or acidity is felt. This sweetener, which neutralizes the acidity in a few moments and is perfectly harmless and inexpensive remedy.

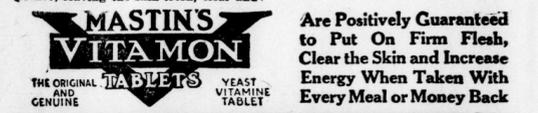

CELEBRATE BIRTHDAY OF GENERAL WOLFE

LONDON, England, Jan. 3.—(Canadian Press Cable)—At the annual dinner in honor of the birthday of Gen. Power Commission Finds Storm Caused Slight Damage to Transformer.

ST. THOMAS, Jan. 2.—The threatened tie-up of the St. Thomas Street Railway has been averted for the time being. Temporary repairs were made to a damaged transformer early this morning, and the service, which was at a standstill Sunday evening, was resumed today.

It was believed Sunday evening that the ring of the single converter which supplied the street railway with power was damaged so badly that it would have to be replaced, and at that time it was stated by W. K. Sanderson, chairman of the hydro commission, that one week or perhaps ten days would be required to repair the damage.

Mr. Sanderson was out of town on Monday, but J. Roberts, superintendent of the hydro commission, stated today that the breakdown was due mainly to the heavy snowstorm which swept the city.

The system is working on only one unit, and the officials of the street railway fear that unless some permanent remedy is adopted a complete tie-up will result in the near future.

SHERIFF OF KENT DIES IN 81ST YEAR. J. R. Gemmill Held Responsible Post For Over 25 Years.

[Special to London Advertiser.] CHATHAM, Jan. 2.—J. R. Gemmill, for over 25 years sheriff of Kent County, died shortly after 2 o'clock this morning. He was in his 81st year, and up to a short time ago attended to his duties.

He was born in Sarnia in the year 1841, and came to this city in 1864. In the early part of 1865 he started the Chatham Daily News, now the Chatham Daily News. He continued in newspaper work until his appointment as sheriff. Mr. Gemmill took a keen interest in municipal affairs.

He is survived by three sons and three daughters. The funeral arrangements will be announced later.

ST. THOMAS TAXI DRIVER HAS NARROW ESCAPE. [Special to The Advertiser.] ST. THOMAS, Jan. 2.—J. M. Conway, taxi-driver on the route between this city and Aylmer, had a narrow escape from death Saturday afternoon when a car which he was driving tumbled over an embankment on the New Sarum hill. The car was badly smashed, but both Conway and a passenger whose name was not learned escaped without injury.

The brakes on Conway's car refused to work while he was on the hill. While endeavoring to change the gears the car slipped and he lost control of the car, and it left the road near the bridge.

CHATHAM LAWYER APPOINTED K. C.

Served As Crown Attorney in Kent Many Years.

CHATHAM, Jan. 2.—The appointment of Col. H. D. Smith of this city as a king's counsellor, has been received with a great deal of satisfaction. He has been crown attorney in Kent County for many years and has attended to his duties in a very capable manner.

Shortly after the war broke out, although too old to go overseas, he volunteered his services to the country and was appointed G. S. O. of the division, taking charge of the training of the men enlisted from Western Ontario.

The excellence of the fighting men of Western Ontario when overseas has been credited to his keen administrative ability and thoroughness. Last year he was retired from the active list to the reserve list on full pay.

EXPECT SENATE TO RATIFY PACT. Republican and Democratic Leaders Work To Pass Four-Power Treaty.

WASHINGTON, Jan. 2.—(By Canadian Press).—The four-power treaty which has been negotiated at the conference on limitation of armaments will probably be ratified by the United States senate in due course of time. This is not only the prediction of the Republican leaders of the senate, who have been studying the situation impartially. Moreover, it is doubtful if many of the opponents of the treaty in the senate have much hope of defeating it.

One of the chief reasons for believing the treaty will be ratified is the fact that the Harding administration is able to line up most of the senate republicans for what it recommends. The Republicans have a large majority in the senate, and by far the greater percentage of these Republicans are disposed to go along with the organization.

Also, Democratic Leader Underwood, who is also one of the delegates to the armament conference, will be able to muster a considerable group of the Democratic senators back of him.

Under such circumstances it becomes difficult for the opposition to the treaty to bring to its support a third of the senate and defeat the treaty. Moreover, although the four-power treaty is not strictly related to the limitation of armaments, the Harding administration is presenting it to the country as a factor for world peace.

Question of United States public wants limitation of armaments and wants to promote world peace. To Disseminate Idea.

Realizing this, the opponents of the treaty in the discussion on the floor of the senate will endeavor to disseminate the idea that the four-power treaty is not related to armament limitation and, on the contrary, is what Senator Borah calls a "war alliance" which spells trouble for this country in the future.

Present indications are that most of the Wilson Democrats in the senate will oppose the treaty. They have not declared their position, but it is certain they are inclined to oppose it. This will serve to bring about long debate, but there is no sign yet that it will prevent ratification.

Unless there should develop a reaction of public sentiment against the treaty to an extent not now in evidence, it does not look as if ratification could be prevented. Of course, there are always possibilities of strong anti-Japanese agitation in the Pacific coast states and far western states, and it is conceivable this might flare up and make ratification extremely difficult.

All that can be said on this subject is that thus far anti-Japanese feeling has not been disclosed to such an extent as to offer a fatal obstacle to the treaty.

The opponents of the treaty will endeavor to prolong the debate for weeks, in the belief that this may serve to mobilize public sentiment on their side. They are duplicating plans which were successful in preventing ratification of the Versailles treaty and the League of Nations covenant. They are also watching the anti-Japanese feeling in Canada and other British dominions, feeling that if there is any hostility to the

Refuse a Third Term as Mayor to F. Brinkman. Electors of St. Thomas Give C. E. Raven Majority of 246.

ST. THOMAS, Jan. 2.—Charles E. Raven was elected mayor of this city Monday by a majority of 246 over Frank L. Brinkman, mayor for the past two years.

By their vote the electors of this city showed conclusively that they are opposed to a third term for the chief magistrate, for the question of the third term was undoubtedly the chief issue of the election.

Mr. Raven carried the fight in all parts of the city, winning in each case by comparative small majorities. The mayor-elect stood on his record as chairman of the finance committee of the city council for the past three years, while ex-Mayor Brinkman had to his credit twelve years as councillor and two as mayor.

The voting was the heaviest ever experienced in the city. Never before at any municipal election had the people taken such an interest in the majority or the aldermanic race.

Three new aldermen, John Burger, E. O. Boehmer and J. L. Jago, were elected to the council, while every alderman who served in 1921 and who entered the race again this year was re-elected. Among them was Patrick Meehan, dean of the council, who was fourth on the list. Mr. Meehan is now entering his 42nd term as alderman, making him perhaps the oldest councillor in Canada.

Dr. Curtis headed the list of aldermen with the largest number of votes ever received by a single candidate in a municipal election. Ald. Lemon was second and William Stokes was third. John Burger secured fifth place on the council.

Carry Industrial Bylaw. The industrial site bylaw carried by a majority of 234, finding favor in all parts of the city, excepting the advance poll. The credit for the victory for progress goes to the newly-organized chamber of commerce and the Kiwanis Club, which rendered valuable assistance throughout the campaign. As proof of the thoroughness by which the city was canvassed by the teams organized by J. R. Harmer, the secretary of the chamber.

WILL SIFT DEATH OF MRS. R. WELLS. Inquest To Be Held Tuesday Into Fatal L. & P. S. R. Accident.

ST. THOMAS, Jan. 2.—An inquest into the death of Mrs. Roy Wells, who was killed at Stop 12, three miles north of this city, by a London and Port Stanley car during the storm of Sunday evening, will be held in St. Thomas Tuesday of next week.

A jury empaneled by Coroner Dr. Edwin, viewed the remains at Towers' undertaking rooms at 10 o'clock today and decided to adjourn until the evening of Jan. 10, when the evidence will be heard. The jury consisted of J. C. Taylor, foreman; William P. Fairbrother, Angus Willison, Wm. Kimble, Samuel Oxford, Floyd Stinchcombe, Percy Smiley and Albert Cook.

The inquest will be held in this city because death occurred after the victim had been brought to St. Thomas.

Alkali in Shampoos Bad For the Hair. If you want to keep your hair looking its best, be careful what you wash it with. Don't use prepared shampoos or anything else that contains too much alkali. This dries the scalp, makes the hair brittle, and ruins it.

The best thing for steady use is just plain mulsified coconut oil shampoo (which is pure and greaseless), and is better than anything else you can use. One or two teaspoonfuls of mulsified will cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rinses out easily, removing every particle of dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and silky, bright, lustrous, fluffy and easy to manage.

You can get mulsified coconut oil shampoo at any pharmacy. It's very cheap, and a few ounces will supply every member of the family for months. Be sure you get Mulsified. Beware of imitations. Look for the name Watkins on the package.—Adv't.

Robert's SYRUP OF Cod Liver Oil & Tar. Is a scientific remedy in which the pure curative properties of Cod Liver Oil and Tar are combined. The mucous effect of the oil having been removed, it leaves the scalp soft, and it builds up wasted strength and energy. The irritation set up by Coughs, Colds, Bronchitis and other affections of the respiratory organs. Try it, for it does stop coughs!

MAJESTIC DRAMA DRAWS BIG HOUSE

"Smooth As Silk" Presented by Grew Players This Week Delights Audience.

If "Smooth as Silk," the drama of the underworld, presented at the Majestic Theatre by the William A. Grew Players Monday, is to be taken as a criterion, a most successful 1922 season in London is assured the above company. This presentation, which played to capacity holiday crowds, and which will remain on the bill at the Majestic Theatre all week, possesses a plot of the most gripping and enterprising variety.

Dramatic situations, which are not overdone, abound in the lines of "Smooth as Silk," which is from the pen of Willard Mack. The main characters are those of the underworld, and the story is an original one to Londoners.

"Silk" Ulane, an international crook famed as an expert safe opener, and Johnny Daly, his pal, are sentenced to penitentiary for ten years on a trumped-up charge. However, to their surprise they are informed at the end of the first six months in jail that they are to be allowed to escape.

They avail themselves of the opportunity presented, and are later informed upon gaining their freedom that their services are required by a high police official to obtain incriminating papers locked in the safe of Freeman Holding, a criminal investigator. Upon turning these documents over to the police official involved, permanent freedom is to be their reward provided that they leave the country.

With this information presented to the audience during the first act, the remainder of the performance reveals "Silk" Ulane, so named because of his smooth manners, at his best, in an effort to fulfill his obligation for liberty. Master minds are pitted against him, but "Silk," to the delight of the audience, wins out, by clever work, which is a credit to the playwright Robert Hyman, in the stellar role of "Silk," surpasses his previous good work in this city, and proves himself master in his chosen profession. However, his honors are ended by the excellent dramatic talent of Virginia Mann and Gertrude Gustin, Thomas Myerscough and Edy, 228 Darling street, Brantford. Bell phone 12433.

Follow Style of Oberammergau Play

Scene from film version of the Oberammergau Passion Play, produced at Freiberg. This depicts Jesus taking leave of Magdalene.

BY JAMES W. DEAN. NEW YORK, Jan. 1.—Germans have completed the first film version of the famous Passion Play as it is presented at Oberammergau.

First pictures of the film play to reach Canada came from this department's European correspondent. These pictures indicate that the Germans have produced the Biblical story on the same lavish scale that characterized their historical dramas "Passion" and "Descent."

Although the photoplay was made at Freiberg in the famous Black Forest it follows in detail the spectacle as it is enacted at Oberammergau. That doubtless is due to the cooperation of the well-known Bavarian players, the Fassnacht brothers, Adolf and George. The stage erected in the Black Forest for the production of the film is said to be the largest in the world. It is 600 feet wide and 300 deep.

Viva Daron At Grand Scores Decided Hit With Londoners

Variety and Excellence Throughout Characterize Program For First Three Days of Week.

Variety and excellence characterize the Grand Theatre program for the first three days of this week, and for the latter half, too, so far as Viva Daron and the Charlie Chaplin feature are concerned.

Viva Daron on Monday opened a week's engagement before an audience that packed every corner in the theatre that the fire ordinances permit patrons to be stowed in.

Miss Daron will change her program for the latter half of the week, but the same Chaplin comedy, "The Idle Class," will be continued the entire week.

With all reasonable deference to Chaplin, he has only appeared in a few pictures which are really pictorial headlines. "The Idle Class" is undeniably one of these. It is cleverly planned, executed, staged and acted throughout. Instead of more repetitions of Chaplinesque mannerisms, in this one Chaplin picture original comedy is offered in every scene. Charlie's performance on the golf links, where part of the picture is staged, is especially brilliant.

"Gilded Lies," starring Eugene O'Brien, is a bit disappointing. It starts off at McNaughton's Post, Northwest Territories, with the sole

TRAVELERS NAME REPRESENTATIVES

Select Delegates To Various Committees and Boards.

The appointment of representatives to the Children's Aid Society, the Chamber of Commerce and of standing committees for 1922 occupied the attention of the inaugural meeting of the newly elected board of directors of the Ontario Commercial Travelers' Association with President E. N. Hannah presiding.

A. E. Barbour, treasurer of the association, was appointed representative to the Children's Aid Society, and Geo. T. Hair, secretary of the Ontario Travelers, representative to the Chamber of Commerce.

Geo. C. English was appointed chairman of the railway committee, J. H. Laughton, of the membership committee, A. E. Cowley, of the sick and relief committee, President E. N. Hannah, of the legislative committee.

The report of the banquet committee to the board management set the date for the big "get-together night" of the association to be held in the Masonic Temple for Friday.

The meeting Saturday was the first regular monthly discussion of the new board.

The Snowshoe Trail
Edison Marshall
© 1921 by Little Brown & Co. and NEA Service

BEGIN HERE TODAY
Bill Bronson is guiding Virginia Tremont in her search for the snowshoe trail that led from the forest to the cabin. He was curiously sober and intent, perhaps even a little pale. "Go to sleep, Miss Tremont, he advised. "I'll make a fire for breakfast."

GO ON WITH THE STORY
They forced their way through the evergreen thickets of the river bank, walking up the stream toward the ford. He broke through the brushy barriers with the might of his body; he made a trail for her in the snow. The darkness deepened around them. The snow fell ever heavier.

But they conquered at last. Partly by the feel under his feet, partly by his woodsman's instinct, Bill kept to the moss trail that led from the ford to the cabin. And the man was swaying, drunkenly, when he reached the door.

"There are blankets in there, plenty of 'em," he told her. "It's my main supply cabin. Spread some of them out and take off your wet clothing and get under the covers. I'll build a fire as fast as I can."

She turned to obey. She heard him take down an axe that had been leaning against the cabin wall and heard his step in the snow as he began to cut into kindling some of the pieces of cordwood that were heaped outside the door. She undressed quickly, then lay shivering in the warm, heavy blankets.

In a moment the man faltered in his arms heavy with wood. Then a match gleamed in the gloom. She watched him feed the fire with strange, heavy motions.

She dozed off, then awakened to find him sitting on the edge of her bed, holding a cup of some steaming liquid. He put his left arm behind her and lifted her up, then fed her spoonfuls of the hot liquid. She didn't know what it was other than it contained whisky. "Take some of it yourself," she told him at last.

He shook his head and smiled—a wistful yet manly smile that almost brought tears to her eyes.

In the stress of that first hour after the disaster of the river, Lounsbury and Vosper had a chance to test the steel of which they were made.

For the first few seconds Lounsbury sat upon his horse and simply stared in mute horror. Then he half-climbed, half-fell from the saddle, and followed by Vosper, started running down the river bank. Immediately he lost sight of Virginia and Bill. Almost at once thereafter the cold and the darkness got into his spirit and appalled him.

"They're lost, they're lost," he cried. "There's not a chance on earth to get them out."

"It's a death trip. I knew it was a death trip," Lounsbury moaned. "And what's the use of going farther. They haven't a chance on earth."

"I ain't the first this river's taken," Vosper told him. "And they never even found the bodies."

"And we won't find these, now," Lounsbury replied. "What do you suppose we'd better do?"

"I don't know. What can we do?" "There's no chance of saving them. It seems to me the wisest thing for us to do is to go back—and build a big fire—so they can find their way in if they did get out."

"That's their bid," Vosper said. "Of course we'll never find the bodies," Lounsbury suggested at last. "No chance, that I can see," agreed Vosper.

"You think—" Lounsbury's voice wavered, "you think—we can get back all right ourselves?"

"Sure. That is if we start first thing tomorrow."

"They didn't try to sleep. The snow and the cold made sleep impossible. At dawn Vosper packed the horses, stily depositing portions of their supplies and equipment in the evergreen thickets to lighten his own work.

Then they rode away, these two worthy men, back toward the settlements.

CITY OPENS YEAR WITH TWO MAYORS
Mayor Little Continues Till Inauguration of New Council.

This week will see the new council get under way with the making of the striking committee to prepare recommendations for the consideration of the council at its inaugural meeting on Monday morning next.

The striking committee, composed of Mayor-elect J. C. Wilson and the four aldermen who secured the largest vote in each ward, Aldermen-elect May, Bean, Wilkinson and Childs, will prepare a draft of the various committees, and such draft is usually accepted as it is frequently a cut and dried matter. The same may be said of the chairmanships of the committees.

In the meantime, from now on the city has two real mayors. Mayor E. S. Little, whose term expired on the last day of the year, carries on until the inauguration of the new council and mayor on Monday next.

Wilson, however, is also mayor in the full sense of the word, though not acting, as he has already taken the qualifying declaration.

The date of the meeting of the striking committee of the new council has not yet been announced.

OPPOSE MARRIED WOMEN AS TUTORS

Board of Education Debate Question in Last Hours of 1921.

Should the London Board of Education place any restriction upon married women as teachers in either the public schools or the collegiate institute? This question has been bandied about time and again to no definite purpose and again cropped up for free and easy discussion by the school trustees in the dying hours of 1921.

The December report of the collegiate institute, submitted by W. H. T. Mooney, principal of that institution revealed the fact that two married women are included on the staff of instructors. Trustee David Eggett, whose retirement from the board became effective Saturday night, raised strong objection to the placing of any married women if single men or women are available.

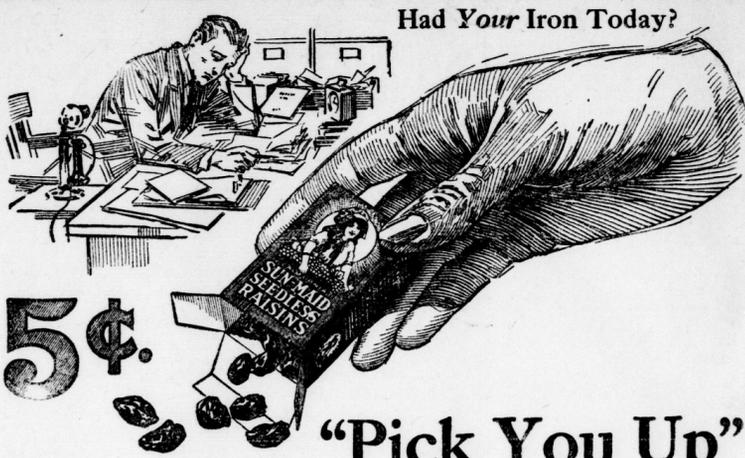

Trustee Mrs. Hunt, however, contended that it made but slight difference under the circumstances and that competency was the essential feature to be considered. Principal Mooney claims that the two married women in

question are but temporarily employed at the collegiate institute and were so placed, he strenuously avers, only after every effort was made to get either single women or men.

This problem is not a new one or has it been confined to this city alone. Op-

ponents to married women as school teachers hold that boards of education who thus employ these women who have husbands capable of supporting them, are to a certain degree guilty of a breach of trust and are actually furthering some of the very tendencies

against which some of the best known educators of today are said to protest. Arabs are said to make the finest vinegar in the world. Some 48,000,000 workers in the world are organized.
