## ARE PUBLIC SCHOOL TEACHERS EARNING SUFFICIENT SALARIES?

A Woodstock Resident Writing To The Planet Thinks Some Are Deserving Of Increases And Others Are Not Worth What They Get.

A short time ago this journal gave an editorial comment on the question of the smallness of teachers' salaries and the scarcity of good teachers. We have since been in receipt of the following letter from a resident of Woodstock, who has something to say in the matter: To the Editor of The Planet:

Sir,—The Globe of to-day quotes some remarks of yours referring to teachers being able to do much towards increasing their wage earning powers. I have often wondered at the wages that seem to prevail as a rule and the question perhaps turns on the point as to whether they are after all worth more than they get. Doubtless many of them are worth more and some are unquestionably worth less. A teacher (so called) who tells some children to "move them there things" or asks another "when did you come" is not the sort of person who might reasonably expect to obtain a very large salary. Yet it is deplorably true that such cases are not as rare as one would wish to see. Of course there should not be any, but there are those who to-day are teaching in our schools, who need to learn instead of trying to teach. The number of such solecisms one hears nowadays would indicate that there is something very unsatisfactory in our schools. As an instance, a young

lady in a public office in a small town some miles distant from here, was asked if she had seen a certain party. Her reply was to the effect that she "had not saw him since morning." This kind of error so exceedingly gross is becoming more and more common. And those who make such horrible mistakes would be much amused if some English person should fail to emphasize the h, in "had" for instance with a gust of wing strong enough to blow over a barn. If larger wages are to be paid, then we shall have a right to expect some better results from our teachers work. At present it is the exception rather than the rule to hear young persons indicate an object, in other terms than "that there."

One thing is certain, teachers that are teachers are born and not made, and it is the kind that can impart knowledge with tact and judgment that is wanted and that is worth large salaries. The other kind that is so numerous and follows the profession simply to pass away a year or two, and make a few dollars is a menace to the progress of public education. If the schools are open only to teachers of the right kind there will be no need of unions, etc., for the supply will scarcely ever be so large as to bring down the wages below a reasonable and proper level. Yours truly,

A. B. C.

## THE VILLAGE OF MERLIN SHOULD HAVE CUSTOMS OFFICE

H. S. Clements, M. P., Has Taken The Matter Up With The Customs Department At Ottawa Who Refuse Request—Clements Still Working For It.

Herbert S. Clements, M. P., took up a very important matter some time ago with the Minister of Customs at Ottawa in reference to providing a customs office at Merlin. In his letter to the Department he pointed out that owing to the development of the oil territory around Merlin, many foreigners are coming in with goods and people are put to endless trouble through not having a customs office at that point. It seems that the Minister is not favorably disposed towards the scheme and he writes the following letter to Mr. Clements:

Ottawa, Aug. 9th, 1906.  
H. S. Clements, Esq., M. P.,  
Chatham, Ont.

Dear Mr. Clements,—I have your letter of the 6th inst., in which you strongly urge that a customs office be established in the village of Merlin.

I am anxious at all times to facilitate the business of the country as much as possible, but to be frank with you, I am somewhat averse to adding to the number of custom offices at small places, as I have found by experience that the more small

customs offices we have the more difficult it is to ensure uniformity in the collection of the revenue, which is so desirable in the public interest. Then there is the financial aspect. Every office we open at a small place means additional expenditure without corresponding increased revenue.

We have been very generous indeed in the past in the matter of establishing customs offices, but I think the time has arrived when we should go somewhat slow. You may not be aware of it, but it is an actual fact that there are more customs offices in Canada to-day than there are in the whole of the United States, although that country has thirteen times our population and a much larger settled area.

In the circumstances, I cannot promise you now to open an office at Merlin. I would ask you to believe, however, that I am not discriminating against the people there. For some time past I have had before me forty or fifty applications for new offices, but I have steadily declined to take action.

You say the importers at Merlin are obliged to go to Tilbury or Blenheim to release their goods. Could they not obviate the necessity for doing so by employing a customs agent at Tilbury or Blenheim? Yours very truly,  
WM. PATTERSON.

## SPENT NIGHT ON THE STREET

Visitors To The City Last Evening Were Unable To Get Hotel Room

## ANOTHER HOPEL NEEDED

The circus brought immense crowds to the city last night and this morning, and by ten o'clock the streets were quite dense with people. The large number of city guests has proved too much for the local hotel accommodation. The visiting delegates to the Sons of England convention and the oil men had previously taken up much of the available accommodation, and when the extra crowds commenced to flock into the city last night, conditions turned out to be very bad.

A number of persons who could not secure rooms at the hotels were supplied with accommodation at private houses, but it is said that there were some who were unable to get in anywhere, and had to stay on the streets all night. James A. King and John Liddy, who were talking about the matter this morning, informed The Planet that they met people who were still looking for some place to stop at a very late hour last night.

Claims Agent Archie Skirving, of the Pere Marquette, says that he also saw a number of persons who were unable to secure a night's lodgings in the city. One man and his wife who came to town last night, after endeavoring to get accommodation without success, were forced to leave town for the night and return this morning.

The liquor interests are taking advantage of the opportunity to point to the fact that there is not at present sufficient hotel accommodation in this city, and they claim that there should at least be one more good hotel in Chatham.

A great many of those who came to the city this morning were unaware that the great Barnum & Bailey shows have done away with the old time idea of holding a street parade. They lined up the streets and when, on asking, they were informed that there was to be no procession, they appeared very much disappointed. Others, though, who had come to see the big show, expressed themselves as believing that the doing away with the parade was quite a sane idea. The merchants say that the parade interferes with business to quite an extent and it is detrimental to traffic.

It is estimated, however, that the crowd in the city to-day is just as large, or larger, than on occasions when a street procession has been a feature of circuses. Undoubtedly, the worthy show will be largely attended both this afternoon and this evening.

No man can be provident of his time who is not provident of his choice of his company.

The alleged action of the managers of McKeough School in letting contracts for work on the building without properly calling for tenders has been the cause of considerable dissatisfaction among certain contractors, and more particularly among the painters, a number of whom believe that they have been deliberately done out of a chance to tender for quite an expensive job. To judge by the remarks of some of the men of the brush, there will be more trouble than enough before they let the matter drop, and they want an explanation for the seeming peculiar action of some of the managers.

At a special meeting of the School Board, held in the Central School on Wednesday night, Trustee McArthur reported that he had asked Tilt & Hildreth what they would charge for tinting the walls of the building. Their price was \$325. It is claimed that Mr. McArthur did not approach any of the other painters—at least he did not mention that he had when he brought the matter up.

When some of the other painters read the item in the report of the meeting, which appeared in last night's issue of The Planet, they were very indignant that the contract for the work should be awarded in such a hasty, high-handed manner. The Planet received a call from one of the painters, Frank Jud-

son, last evening, who expressed himself in no uncertain way.

"I have seen some pretty sly deals," said he, "but this is about the shabbiest in my experience. Why didn't Trustee McArthur call on some of the other painters to find out what they would charge for the work. It is not like as if there was only one firm in the city who did painting and tinting, but it does look as though a firm who paid taxes over the river stand a pretty good chance of getting what is going at McKeough School."

The painters want to know by what authority Mr. McArthur decided it advisable to recommend the work being done by any one firm without asking for prices from some of the others.

It seems that one of the painters met Mr. McArthur some time ago and asked him if the managers of the school intended to have any painting done. His reply was that he did not think that they would. The next thing they heard was that a certain firm had been awarded the contract for painting the metallic ceilings. They claim that this work was never tendered for, either. Some pertinent questions are being asked as to who all are authorized to order work to be done at the school. It is also claimed that H. Brackin ordered the cellar of the school whitewashed without consulting the other trustees till after the work was completed. At the meeting Wednesday night he asked to have his action ratified.

But the principal grievance is that with regard to the tinting of the walls, and the painters will patiently wait to see how Mr. McArthur will explain his action with regard to the letting of the contract.

## GO TO TORONTO

The 24th Regiment rifle team will leave for Toronto Monday to take part in the rifle matches to be held in that city from Tuesday till Friday of next week. The team will be in charge of Lieut. Neil Smith and will be composed of himself, J. W. Smith, T. Tilbury, C. J. Oliver, of Merlin, and M. Kerr, of Tilbury. These gentlemen are among the crack shots of the county, and Lieut. Smith and his father have at their home in Tilbury many trophies which they have won at rifle matches.

When the matches at Toronto are concluded the team will leave for Ottawa, where they will compete all the following week in the contest to be held there. The local team have been keeping in steady practice and are in splendid shape for the matches.

## PIONEER DEAD

Ridgetown, Aug. 16.—Another old resident is dead, in the person of John McKellar, who had lived here for the past thirteen years.

Deceased, who would have been 63 years of age had he lived until the 28th of this month, was born in Scotland and was, therefore, numbered among the pioneers of the township.

In 1879 he was married to Miss Janet McTavish, of the Township of Orford, who survives him with a family of five children—John T., of Wingham; Wabita McTavish, Mrs. Edward Millen, St. Thomas; Mrs. V. Goldhawk, London; Mrs. A. J. Conineau, of Windsor; and Miss Jennie, at home.

Wanted, 500 men, women and children between one and 90 years of age to enjoy the I. O. F. excursion to Detroit Tuesday, Aug. 21st, per steamer City of Chatham; one hour extra in Detroit; first class orchestra. Tickets 50c, children 25c.

## THE ANNUAL ARNOLD PICNIC

Large Crowds were in Attendance and Enjoyed the Outing

## A FAST FOOTBALL GAME

The annual picnic of the Arnold clan was held Wednesday at Arnold's Grove, under the most successful auspices. The attendance was very large, it being estimated that over two thousand were present.

One of the features of the day's program was the football contest for the Arnold trophy, which was played off between two Kent Bridge teams, a team from Mitchell's Bay and a Fletcher team. The game between Mitchell's Bay and Kent Bridge resulted in a tie. Spectators say that this was one of the fastest and most interesting games that they ever had the pleasure of witnessing. As Mitchell's Bay and Kent Bridge still remain a tie for trophy, it will be necessary to play off another game. It has been suggested that this game be played off in Chatham on Tecumseh Park. Kent Bridge was last year successful in holding the trophy.

Mr. S. B. Arnold speaks of Wednesday's game between the two teams as one of the most interesting he has ever witnessed. He thinks that if the tie game were pulled off on Tecumseh Park it would undoubtedly draw quite a large crowd.

Mr. M. Arnold, of Blenheim, acted as chairman over the program, and the following were among the speakers of the day—D. M. Arnold, of Bracebridge; P. H. Bowyer, M. P.; H. S. Clements, M. P.; A. B. McCoig, M. P.; S. B. Arnold, George Langford, and James Houston, of Dresden.

The refreshments were supplied and served by the ladies of the Methodist Church, Northwood, who deserve much credit for the tasty meals and the efficient manner in which they were served. The Opera House Orchestra supplied the music, and the calling-off at the dancing in the evening was done in a most satisfactory manner by George Pritchard, of Chatham.

There were representatives of the clan present from all over Canada and the States.

Love may be blind, but it has a faculty of being convinced at first sight.

Dr. B. C. Langford, of Blenheim, was a city visitor this morning. Dr. and Mrs. Langford have just recently returned from a trip to England, Scotland and the continent. While in London the doctor visited all the large hospitals. He says that both he and Mrs. Langford had a very pleasant trip and have returned very much benefited by it.

## NEW AUTOS

Mr. and Mrs. W. A. Hadley, accompanied by their chauffeur, made the trip from Walkerville to this city last night in their new Ford auto car, which Mr. Hadley recently purchased.

Mr. Reg. Miller, accompanied by Mrs. McKeough and the Messrs. McKeough, arrived in the city last night with Dr. McKeough's new Ford machine. They had a very pleasant trip out around the lake.

This makes four new Ford machines recently purchased by residents of this city. The other two belong to Dr. Cornell and Mr. O. L. Lewis.

## CHATHAM LOSES PREVENTION OF ACCIDENTS

**GOOD CITIZEN**  
W. N. Warburton Will Go to Windsor and Manage W.E.L.S. Ry

**MR. R. E. KIZER STEPS UP SUBJECT FOR SCHOOLS**

General Manager W. N. Warburton of the C. W. & L. E. has received the appointment as general manager for the Windsor, Essex & Lake Shore Railway, whose lines are under course of construction. The many friends of Mr. and Mrs. Warburton will regret to hear of their departure from this city. Mr. Warburton will leave this Monday morning. Not only the citizens will be sorry that Mr. Warburton is leaving, but also the railway employees, with whom the genial manager was very popular.

Mr. Warburton is a born railway man, and is peculiarly fitted to his calling. His experience in railway matters has been a long and successful one, dating back to the eighties. Chathamites are familiar with the success which he achieved as manager of the C. W. & L. E., coming to this city as he did, and tiding the affairs of the company over its most trying time. Mr. Warburton came here March 1, 1905, and superintended matters during the construction and early operation of the road. Thoroughly acquainted with his work, he has proven himself to be a most efficient manager, and the citizens have found him a most courteous and obliging official, at all times interested in the city and its affairs.

Mr. Warburton first came to Chatham when the old Erie & Huron line was opened here. He was ten years with the Erie & Huron as general freight and passenger agent. After a short lapse he returned again to Chatham to assume his former office with the Erie & Huron. Later he received a similar appointment on the T. H. & B., which was then under construction in Hamilton, and from there he went to St. Catharines to superintend the electric line under construction in St. Catharines. He returned to Chatham from St. Catharines in March, 1905. Mr. Warburton is unexcelled in his ability to manage the affairs of railways while they are under construction. This is conceded to be a railway's most difficult time, and its management requires experience and ability. The citizens of Chatham wish Mr. Warburton every success in his new position in Windsor.

Mr. R. E. Kizer will be acting general manager after Mr. Warburton's departure, and his many friends here hope to see him retained permanently in the position. He is the manager of the Chatham Steam Heating Company.

## A PECULIAR CASE

Medical Health Officer Hall and Health Inspector Mounter are today making an investigation of a peculiar case reported on Degge St. A family by the name of Huffnace are reported to be living in a house on that street, on which there has been no roof for some time. Some time ago the roof was burned off in a fire, and it has never been repaired. The family have been cared for and had their wants supplied by some of the local charitable societies, who have made every endeavor to persuade the people to leave the house, but have been unsuccessful. The family state that they will not leave the house for love nor money, despite the fact that the charitable society has offered to supply them with more comfortable quarters. The case was reported to the health authorities by some of the members of the society.

The family consists of two maiden ladies and a bachelor brother.

## BAUSLAUGH—SNELL

A pretty wedding was celebrated Thursday evening at seven o'clock at the home of Mr. and Mrs. John R. Snell, Richmond street, when their daughter, Miss Jessie E. Snell, late of the Central school staff, became the bride of Mr. Lloyd Bauslaugh, of Brantford. The ceremony was performed by Rev. Dr. Hannon.

## FOR SALE BY TENDER

The undersigned will receive sealed tenders up to the 25th of this month for the sale and removal of the large frame dwelling situated on the east side of William street next to the St. Andrew's church, and now used as a boarding house. Builders and contractors will do well to look this building over, as the same must be removed to clear the land for other purposes. No tenders will be received later than the 25th. For further information apply to E. E. PARROTT & SON, Real Estate Dealers, Seane Block, Chatham.

**Miss Jones Recovering.**  
Owen Sound, Aug. 17.—Miss L. Jones, who was assaulted on the highway Saturday by an unknown, was much better yesterday, but is still unable to give any account of her assailant.

Some Valuable Suggestions are made on this Important Subject.

The following letter on the prevention of accidents will be read with interest, coming as it does after the recent unfortunate fatality at Erieau, when if a little presence of mind had been exercised the results might not have been so serious:

To the Editor of The Planet:  
While the newspapers are commenting on the great number of accidents resulting in death or injury to so many persons, why have they never suggested any method that would tend to reduce the number? Does it not seem reasonable to think that instructing children in the schools in the best manner to avoid accidents and in the way to act when the accident is unavoidable, would eventually result in a population amongst whom accidents would be a rarity. And if this idea seems reasonable, would not an agitation by the press be the best method to induce our educational department to establish a code of instructions to be taught to the children, and for which they should receive marks at examinations.

Children will never forget them, and it will be carrying to its proper conclusion the principle of self preservation that originated first in drill. Practical education in all lines is what mankind requires, a little help before death is worth more than all the pity after.

Human beings without instruction, when in mass, are very little superior to brutes. They are subject to unreasoning panic, which so often results in many deaths, when a little cool judgment would prevent any.

Before railroads crossing the Mississippi were numerous, a drover was taking a flock of about 1,000 sheep from Iowa to Illinois, over a bridge at Burlington, Iowa; there were two or three boards off one side of the bridge, the leading sheep seeing the opening, and with a bleat sprang through in a faint panic, every sheep was struggling in the water. Several years after I took steamer at Fulton, Illinois, for Quincy, at a time when the river was in flood. In one or two places a couple of miles inland to land passengers on a high land. At Quincy the river was said to be ten miles wide.

At Burlington the centre pier of the bridge was struck, quattering by the current. Before we reached the pier it was reported that another boat had been wrecked against the pier and many lives lost. This naturally made the passengers—mostly ladies on our boat—rather nervous. Boats on the Mississippi are all flat bottomed and only draw four or five feet of water, on this account they are propelled by a shallow running over shot paddle wheel across the stern of the boat. As this wheel had little power when reversed, when we arrived near the bridge they turned the boat up stream and kept paddling up stream so that the time when we would strike the pier, which could not be avoided, would be as light as possible. When we struck it was with something of a crash, and owing to the nervous tension quite a number seemed to be surprised to find myself practically helpless in the embrace of a number of ladies; two had their arms around my neck, others held my arms and I could not return the hug (a horrible predicament). They did not know what a passenger I was, and that I would have been a better anchor than life buoy. And what chance was there for any of us; it was worse than the sheep, as the sheep did not hold each other.

Another time when I was attending military school in Toronto I, with a comrade, went to a literary entertainment in North Toronto, held in a large hall at the top of a winding stairway. The hall was packed from platform to entrance. About ten o'clock some foot came to the door and yelled fire! fire! The crowd were nowhere to that panic. In a few seconds the doorway was jammed with a mass of struggling, swearing men, unable to get out or back in. I saw men tramp on women as they sprang from seat to seat; I saw men (I claim their feet on women's shoulders and springing on the heads and shoulders of the packed mass of humans, and crawl on their hands and knees towards the door. If there had really been a fire that mass would have roasted where they were. If they had got out, numbers would have been trampled to death on that crooked stairway. It was afterward reported that a lamp had exploded across the street. The fool who yelled fire in such a place, should have been hanged just before he yelled.

In contrast to these experiences, compare the cool discipline of British soldiers in shipwreck, where they passed women, children and civilians into the boats, and when there were no boats for themselves, cheered them on to safety, and then presented arms to each other, how often do we read of school children drilled for fire purposes, marching out of their flaming school house to safety, without the loss of a life.

Their safety is owing to their discipline, discipline simply means trained forethought. Then if forethought is of such benefit in case of fire, will not a training in other directions tend to reduce the number of accidents.

Of course the training will be more theoretical as it will be from reading, yet when occasion arises their teaching will naturally come to mind and influence their actions. How easy for a child to remember, if taught to handle a gun, always to first examine and see if a gun is loaded, and take no one's word for

## An Interesting Story of Shirtwaists

Values don't really enter into consideration at all in the new prices we have set on the remaining stock of shirtwaists. Prices are low enough to sell even unattractive styles, which these decidedly are not. A splendid chance to pick up pretty White Shirtwaists for a mere shread of their value.

**48c.**

Shirtwaists of white lawn and a few of striped dimity, made with clusters of fine tucking or wide pleats, combined with lace or embroidery insertion, sold regularly up to 98c.

**\$1.48**

Of fine sheer lawn with front of eyelet insertion. Others of organdy trimmed with fine insertions, regular prices up to \$2.25.

**98c.**

Waists that sold formerly up to \$1.75. They are of Victoria and sheer lawns, open back or front, long or short sleeves, embroidered fronts or trimmed with insertions.

### DEAFNESS CANNOT BE CURED.

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

### SHE WAS WILD WITH PAIN.

From Willow Creek, Ont., Miss E. Diegel writes: "A few years ago I was drenched with rain and got lumbago. It was like a steel rod piercing my back. I also earache and was just wild with pain. I applied bating soaked with Nerville to my ear and rubbed on Nerville for the lumbago. That rubbing relieved and in a few hours was well. No other lumbago could do this." It is the penetrating power of Nerville that makes it superior to all other liniments. Nothing beats it, 25c. at all dealers.

### When Thackeray Struck.

A letter written by Thackeray to the proprietor of Fraser's Magazine is quoted under the head of "When Thackeray Went on Strike." As a matter of fact, Thackeray, so far from acting on the principle of unionism, acted on precisely the opposite principle and asserted his right to individual preference. "Well," he says, "I dare say you will be very indignant and swear I am the most mercenary of individuals. Not so. But I am a better workman than most of your crew and desire a better price." He ends amiably, "You must not, I repeat, be angry or, because we differ as tradesmen, break off our connection as friends."—London News.

### BARELY LIVED THROUGH IT.

A terrible experience had Edw. J. O'Connor, of South St. Marie, "From boyhood," he writes, "I have been a constant sufferer from asthma and catarrh. My nose and throat was always stopped up and I had droppings in the throat. When attacks came I thought I could live through the night. I would sit up, gasp for breath and endure great distress. Catarrh of the nose and throat was entirely well. No stronger proof is required. Use 'Catarrh' and your recovery is guaranteed. Two sizes, 25c. and \$1.00, at all dealers.

### Inherited Memories.

A writer in the Nineteenth Century tells a strange story of "inherited memories." The ruins of an ancient Roman fortress rise from the grounds of a Mr. Phillips. A clergyman called upon the owner one day and asked to see the ruins. "He told me he had a distinct recollection of living there and that he held some office of a priestly nature in the days of the Roman occupation," said Mr. Phillips. "One fact struck me as significant. He insisted on examining a ruined tower which had bodily overturned. There used to be a socket in the top of it. He went on, 'In which we used to plant a tent, and archers used to be hauled to the top in a basket protected with leather, from which they picked off the leaders among the ancient Goriellians.' We found the socket he had indicated."

Minard's Liniment Co., Limited. Gentlemen,—In June, '98, I had my hand and wrist bitten and badly mangled by a vicious horse. I suffered greatly for several days and the tooth cure refused to heal until your agent gave me a bottle of MINARD'S LINIMENT, which I began using. The effect was magical; in five hours the pain had ceased and in two weeks the wounds had completely healed, my hand and arm were as well as ever. Yours truly, A. E. ROY, Carriage Maker, St. Antoine, P. Q.

## OFFER OF POWER AT \$10

Made to Hydro-Electric Power Commission of Ontario.

Tenders to Be Opened To-day.—A Boomerang For the Critics.—Healey Falls Power Development.—Lease Granted at Request of Twelve Municipalities.—How the Government is Safeguarded—Rentals to Be Paid.

Toronto, Aug. 16.—Tenders were received yesterday at the offices of the Hydro-Electric Power Commission for the supply of power as required by the municipalities and will be opened to-day. Hon. Adam Beck was in town, but neither he nor Cecil B. Smith would discuss the probable range of the figures.

From other sources, it was learned, however, that among the tenders was an offer for power up to 160,000 horsepower at \$10 per horsepower per annum, and at \$8 beyond that quantity, to be developed at DeCew Falls.

This figure will be a powerful argument for diligence among the municipalities which have shown signs of slackness in the union of the towns and cities of Western Ontario for the purpose of bringing cheap power and light to the doors of their people.

It will be remembered that \$12 per horsepower was the rate, chargeable at Niagara Falls, upon which the calculations of the Hydro-Electric Power Commission were made.

Healey Falls Power. J. T. Culverwell and Frank M. Field of Cobourg were in the city yesterday in connection with the lease of the Healey Falls water power acquired from the Government two months ago. They expect to proceed under the charter of the Northumberland-Durham Power Co., with the development of 4,400 horsepower there at an early date.

The lease was granted at the request of twelve municipalities in the counties of Western Ontario and safeguarded according to recommendations made by the Hydro-Electric Commission.

It is not the policy of the Commission to build power plants, but such a semi-public corporation as the Northumberland-Durham Co. will enable the people of the district to be supplied with power at the most advantageous rates.

The lease is for a period of thirty years, and every ounce of power available must be developed. The rentals to be paid the Government are 75 cents per horsepower for ten years, and \$1 for the balance of the term. The officers and directors of the Healey Falls Co. include prominent business men of both sides of politics in the two counties. Sam Nesbitt, Brighton, is president, and D. Ewing, Mayor of Cobourg, is secretary.

### Preceded by Revolution.

St. Petersburg, Aug. 16.—In addition to the details of the sweeping changes of regime, presented by the reform party in Persia, and to which the Shah has given his tentative consent, another telegram yesterday says the Shah's action was preceded by fighting the revolutionaries, characterizing during which many persons were killed by the troops.

### Woman and Slave Drown.

Bic, Que., Aug. 16.—Tuesday, about 2:30 p. m., the yacht L'Étoile de Mer, from Bic, Que., bound for the north shore of the River St. Lawrence, arrived here. Her passengers, including Capt. Bouchard, Miss Bergeron, J. N. Dugal, Mrs. Dugal and baby in arms, left the yacht to come ashore in a canoe, which, when about 150 feet from shore, upset, and Mrs. Dugal and her baby lost their lives. The bodies were recovered half an hour afterwards.

Michigan Doctor Drowns. Bala, Muskoka, Aug. 16.—Dr. Archibald Links of Michigan was drowned yesterday morning in the rapids on the Moon River, a few miles below this place. He was accompanied by his brother in a canoe, which accidentally upset. The body has not been recovered.

Powder Explodes, Boy Hurt. St. Thomas, Aug. 16.—Gordon Gallagher, 12-year-old son of W. H. Gallagher, dropped a lighted match into an old can of powder, which exploded. The boy's clothes were burned off and his face, hands and body terribly burned, and it is feared the sight of one eye is lost.

Killed by Rock Fall. Victoria, B. C., Aug. 16.—James Tunstall, the oldest employe of the Nanaimo Mines, was killed by a rock fall yesterday afternoon. He was a shot light and was carrying a gun. A shot had been fired and Tunstall went to examine the formation when the rock roof gave way instantly crushing out his life.

Trench Men Scorched. Hamilton, Aug. 16.—A careless smoker passed the corner of James and York streets yesterday afternoon. He threw a lighted match into an open natural gas trench in which there was a number of men working. There was a leak in the feed main and the gas ignited. The flame shot up as high as the top of the City Hall. All the workers were more or less scorched, but the only one at all seriously burned was P. A. Fandras of the Court House Hotel. The firemen had a serious task to smother the flames.

Legs and Arms Severed. Quebec, Aug. 16.—A man engaged in a terrible manner the arms and legs having been cut from the trunk of a train during the night, the lifeless body of Honoré Roberge, aged 27 years, of St. Romuald, was found on the railway track near Lévis early yesterday morning.

Mangled by Trolley. Montreal, Aug. 16.—A sadden named Roux, from Timewick, Arthabasca, was knocked down and killed by a car proceeding at a high rate of speed last night and dragged a distance of 200 yards before the car could be brought to a standstill. The motorman disappeared.

Fatal Fire at Buffalo. Buffalo, Aug. 16.—One person was burned to death, another fatally burned, and a score had narrow escapes in a fire at the foot of Main street, near the water front, yesterday afternoon. The dead man is Capt. James Robinson, a veteran lake captain. Charles Johnson, a sail-maker, was fatally burned. The loss on the building and stock of the ship supply concern is estimated at \$75,000.

## The Wear of Office-Life.

Sitting in an office all day, in bad air shut off from the sunlight, stooping over desks, or back-breaking chairs hour after hour, is a very wonderful break down with kidney troubles. Bu-ju will offset the bad effects by building up weakened organs. Made on a most scientific formula. People find it the greatest help in preventing the bad effects of sedentary life. We recommend it because people have convinced us. They have proved it to be most beneficial. Come and get a sample of this guaranteed remedy.

## The Polite Burman.

In the cities of Burma, where the natives have been long in contact with Europeans, says the author of "Burma, Painted and Described," they have lost some of their traditional politeness, but in the country districts old school courtesy is still the custom. An English gentleman who had bought a new pony was trying him out on a Burman road when the animal bolted and ran at top speed down a narrow road. In the way ahead was a native cart, in which was a family party out holiday making. The pony dashed into the back of the cart, threw his rider into the midst of the merry-makers and severely injured the Burman who was driving. Before the Englishman had an opportunity to explain his unexpected onslaught the Burman picked himself up and bowed low. "My lord, my lord," he said apologetically, "the cart should not have been there."

A puny child is always an anxiety to the parents. There seems generally no reason why the little one should be weak when it is so well fed. But the fact is that it does not matter how much food the child takes if the stomach cannot extract the nutriment from it. No benefit can be derived from just eating. That is the condition of many a sickly child. The stomach and organs of digestion and nutrition are not doing their work, and the body is really starving. It is little use to give fish foods, like cod liver oil or emulsions, in such a case, because these also have to be digested; they may lighten the stomach's labor but they don't strengthen it. Strength is what the stomach needs. Dr. Pierce's Golden Medical Discovery strengthens the stomach, nourishes the nerves and increases action of the blood making glands. It is superior to every other preparation for children's use, on account of its body building qualities, and also because it is pleasant to the taste and contains no alcohol, whiskey or other intoxicant. Dr. Pierce's Pleasant Pellets are a valuable aid when the bowels are irregular. They are small. Children take them readily.

## When Paris Was Dirty.

It takes the laborers of 4,000 to keep the city of Paris clean today, but in times past that capital did not care so much about the matter and was not always pleasing to look upon. In 1849 King John of France made the request that Parisians should not allow their pigs to roam the streets. Charles VI. (1366-1422) complained that the practice of throwing rubbish into the Seine made it a "great horror and an abomination to look upon." Until the seventeenth century everybody who could went about Paris on horseback in order to avoid contact with the filth of the streets. Various ordinances were made to compel the people to sweep the road before their own doors, but it was not until 1791 that the dust cart became an institution.

Of all persecutions that of calumny is the most intolerable.

## Mozart's Quick Work.

On one occasion Mozart was making merry with his friends at midnight when not a single note was written of the overture to "Don Giovanni," which was to be produced on the following evening. When he had said goodby to his friends he calmly went to bed and slept until 5 o'clock in the morning. Awakening refreshed he set to work on the overture, dashing off sheet after sheet with incredible rapidity and dispatching them to the copyists. The opera was to begin at 7 in the evening, and a few minutes after that hour Mozart was in his place as conductor, baton in hand, while the parts with the ink still wet on some of them were being handed to the orchestra.

## A Lullaby.

Magistrate—You are accused of attempting to hold a pedestrian up at 2 o'clock this morning. What have you to say in your own behalf? Prisoner—I am not guilty, your honor. I can prove a lullaby. Magistrate—You mean an alibi. Prisoner—Well, call it what you like, but my wife will swear that I was walking the floor with the baby at the hour mentioned in the charge.

Like crystals fair of morning dew, Your complexion now can be, If you will take this good advice, And drink Rocky Mountain Tea. A. I. McCall & Co.

## ROYAL ADVISERS MEET

King and Kaiser Kiss Each Other on Both Cheeks.

Their Majesties Heartily Cheered on the Way to Friedrichshof—Streets of Cronberg Gladly Decorated—Visit of His Majesty of England May Be More Than Personal, and the Political Guesses Are Busy—Press Cordial.

Cronberg, Hesse-Nassau, Prussia, Aug. 16.—King Edward arrived here yesterday. Emperor William and Prince and Princess Frederick Charles, of Hesse-Nassau, met him at the railroad station. The Emperor assisted the King in alighting and they kissed each other on both cheeks. The meeting was very cordial.

King Edward was accompanied by Sir Charles Hardinge, permanent Under Secretary of the Foreign Office; Major-General Stanley Clarke, chief of staff; and Major Frederick E. C. Ponsonby, equerry to His Majesty, Sir Francis Lascelles, the British ambassador to Germany and the British consul-general, Frankfurt. After introductions had been exchanged the royal party and their following proceeded to Friedrichshof in automobiles. The streets were profusely decorated with evergreens, flags and streamers. The Kaiser's party, after being cheered by the crowds and school children who were lined up all along the route. Many Englishmen from surrounding watering places were also present.

After reaching Friedrichshof the royal party breakfasted and then the Emperor and King spent some time together. At about 11 o'clock they, with Prince and Princess Frederick Charles took a drive to see the monument erected in honor of Emperor Frederick in the Schloss Park. After lunch, at the King's wish, a visit was made to Homburg and the Roman camp at Saalburg.

A program of assiduous sightseeing and drives has created the impression among those surrounding their Majesties that the visit will have a prolonged political discussion.

## Strictest Silence Reigns.

London, Aug. 16.—The strictest silence is maintained in official circles as to the subjects to be discussed by King Edward and Emperor William at their meeting at Friedrichshof. Up to the last moment it was not admitted at the Foreign Office here that Sir Charles Hardinge, permanent Under Secretary of the Foreign Office, would accompany the King. He had been away on a holiday and broke it up to join the royal party on the continent. His presence adds significance to the meeting, for as the permanent Under Secretary of the Foreign Office, he is really the man who carries on the foreign affairs of the British Empire. It is considered likely that the monarchs will talk over Russian affairs, and undoubtedly they will try to remove the ill-feeling between the two peoples, so manifest for the last few years.

## German Press Welcome.

Berlin, Aug. 16.—The press of all sections treats King Edward's visit to Emperor William from the standpoint of being a sign of improved relations between him and the Emperor and the belief and hope are generally expressed that the visit will have a beneficial effect on the peoples of both countries, besides putting their political relations on a better footing. The papers, however, avoid all extravagant hopes in this direction, evidently trying to keep up the safe minimum of practical results.

A tone of sincere admiration for the King prevails all the leading articles. The Cologne Gazette greets His Majesty with feelings of reverence. The National Zeitung calls him a practical statesman as well as the German press. The Neuste Nachrichten, while complaining that the King's policy has been to isolate Germany, pronounces him a "political artist."

"His Majesty, the Emperor, met His Majesty the King of England at the Schloss of Friedrichshof this morning. We rejoice that this meeting between the two monarchs has been hailed sympathetically nearly everywhere by the English as well as the German press. We cannot share in the supposition heard here and there regarding special political reasons for this meeting. Even without such suppositions the actual value of the meeting, it appears to us, is not slight. We hope that the exchange of views between the rulers of Germany and Great Britain will serve to further the peace of the world and promote harmony between all persons of conciliatory sentiments on both sides of the channel. We welcome the King with homage."

Got to Pay Says Appeal Court. Toronto, Aug. 16.—The judgment of the Privy Council in the suit of the Michigan Central Railroad and the Canada Southern Railway against the Lake Erie & Detroit Railway, has been entered at Osgoode Hall. The Privy Council upholds the judgment of Chancellor Boyd, and says the defendant must pay the plaintiffs the sum of \$14,084.58.

At Law Over Two-Cent Rate. Toronto, Aug. 16.—Yesterday morning Miller, Ferguson and Hunter, solicitors representing The World, applied to Mr. Justice McMahon at Osgoode Hall for a writ of mandamus to compel the Toronto & York Radial Co. to carry the plaintiff over its lines at a maximum passenger rate of two cents per mile.

Canadian Grain Commission. Ottawa, Aug. 16.—The Royal Commission on the grain trade, which was authorized by Parliament at its recent session, will probably visit England, to study any complaints that may be forthcoming from dealers in the old country as to the grading and receiving of Canadian grain.

A Barbarous Policy. After the Dutch had taken the Moluccas from the Portuguese they introduced the cultivation of the clove into their own possessions, cut down all the clove trees of the Moluccas and pronounced death on any one who would plant a single clove bush or gather or sell a pound of the product. Expeditions were sent from their eastern possessions every year to cut down any bushes that might have accidentally started in the Molucca islands. This barbarous policy made the islands a desert, for, deprived of their forests, the volcanic soil was washed away, and the population starved or was deported.

His Fair Share. The Chinese always have understood the great art of making the punishment fit the crime. Man or Joss, if he offends, gets exactly his deserts. Yesterday Shun, who was anxious to see the end of the heavy rainfalls, was very angry with the guardian Joss of Canton, who remained deaf to all prayers to bring about a little sunshine. A Weyuen was dispatched to the temple with orders to uncover the roof over the Joss' head and let him have his fair share of the rain.

## Logical.

She—I think we should be able to live nicely on \$3,000 a year. He—But my salary is only \$2,000. She—I know it, dear, but my clothes come to \$1,000 a year, and I have enough now to last for the next twelve months.

—When a woman suffers from oedema, she then keeps realizing how helpless—how thoroughly worthless she is. Dr. Shoop has brought relief to thousands of such women. He restores the system, restores a woman to two direct, specific ways—a local treatment known as the Shoop's Night Cure, and a constitutional or internal prescription called Dr. Shoop's Restorative. Dr. Shoop's Night Cure is applied locally, and at night. It works while you sleep. It reduces inflammation, it stops discharges, it heals, it soothes, it comforts, it cures. Dr. Shoop's Restorative (tablets or liquid form) is a constitutional, nerve, tissue tonic. It brings renewed strength, lasting ambition and vigor to weak, listless women.

These two remedies, singly, or used together, have an irresistible, positive, helpful power. Try them a month and see.

## Borrowing in India.

India is a nation of pawnshops, according to an English authority. The people think the cleverest man to be he who borrows the largest number of ways by which to borrow money. They put in pledge their lands, oxen, jewelry, themselves, their children and their grandchildren, and cases have even been known where a father, to obtain money to defray the expenses of his daughter's wedding, has pledged as collateral the first child to be born of the union.

## Massacre at Warsaw.

Warsaw, Aug. 16.—There were many sanguinary conflicts here yesterday with revolutionists, who have organized wholesale massacres of policemen, gendarmes and infantry patrols. These conspirators shot and killed seventeen policemen, four gendarmes and seven infantry patrolmen, and wounded a score more.

Soldiers fired a volley into a crowd, killing 15 and wounding with bullets and bayonets 130 others.

Catholic Emigration Association, of England, is Sending Out A Good Class of Citizens

The Catholic Emigration Association, of England, whose headquarters in Canada are at St. George's Home, Hintonburg, Ont., (a suburb of Ottawa) have placed out either for apprenticeship or adoption the last twelve months about 800 children, the boys on farms and the girls in domestic service. Their records show that of that of the children placed during the past five years, of whom absolute detailed particulars are filed and tabulated, only four per cent. of the boys and seven per cent. of the girls turn out unsatisfactory. This term is adopted to designate those who change their places a number of times and who are difficult to settle and does not mean that their characters are necessarily bad. Where a boy or girl shows a bad or depraved character, he or she is deported rather than sent to the country to be a menace to the good name which others are endeavoring to keep up. This being so, the association are persistent in enforcing the fulfillment of the obligations assumed by an employer of one of its wards, and also require that the child shall receive proper treatment.

While the association recognizes that all children are not equally satisfactory they require an employer who may have an unsatisfactory child in his care to return such child to the Home, when they will replace the same at their own expense, rather than subject it to treatment which must be construed into cruelty or undue harshness. Recognizing that during the time elapsing between the annual visits to every child, some may be receiving unnecessary hard treatment, the Catholic Emigration Association well come information which may be furnished them on these matters and treat with strict confidence, such communications, at the same time taking immediate action upon the same.

Forms of application containing full information for the guidance of those applying for children are readily sent, on application to Mr. Cecil Arden, Hon. Agent St. George's Home, Hintonburg, Ont., and full enquiries are made regarding applicants before a child (boy or girl) is committed to their care. The association has always a number of boys to place out, but fewer girls, though their applications for girls exceed by some two or three hundred per year, those for the boys.

**SONS OF ENGLAND**

At yesterday morning's session of the Sons of England Supreme Grand lodge, a resolution was adopted to appoint a committee to consider the question of enlarging the official organ.

Regarding the purchase of a new Sons of England headquarters in Toronto, it was stated by the supreme secretary that he had received a written offer for the purchase of the present headquarters at a price of 40 per cent. higher than the amount paid for it. No action was taken on the report.

Mr. Saunders spoke on the establishment of a provincial grand lodge in the west.

Mr. Saunders, of Winnipeg, gave a denial to the press report that the Winnipeg lodges threatened to leave the organization and form one of their own if they were not granted grand lodges. A committee was appointed to consider the request of the western brethren.

In the afternoon the delegates were entertained to a trip down the river to Lake St. Clair, and in the evening they were treated to a banquet in the Rankin House.

**CANNING FACTORY**

One May Come To Chatham This Fall—Matthias Moore is Forming It Now

The Planet has learned that another canning factory will shortly be located in Chatham, and may possibly be in operation this fall.

The company which will locate here is being formed by Mr. M. Moore, and the prospects are at present said to be very bright. They are very anxious to get in shape to handle apples this fall, and if everything goes as well as at present the indications are that the factory will be in operation by that time. If they are not ready to commence business (this fall), Mr. Moore feels confident that things will be under way next year at any rate.
