GOT HIS PENSION

On Friday last B. Loverin received. official notification from the pension office at Washington, D.C., that his application for a pension for William impson, at present in the House of from the time the application was received up to 4th September, amount-

many years resided at "Saginaw," near Elbe Mills. For several years his eye sight has been failing him, until at the eing able to earn a livelihood, he asked to be received into the House of Industry and his wife secured a home with Mrs Carson of Plum Hollow.

Several attempts had been made to ecure this much needed and well. earned pension, but all failed, as the persons acting for him were not duly persons acting for him were not duly qualified to execute the required President Halladay and Secretary affidavits. Mr Loverin's experience in Phelps, upon whom so much of the the line of securing pensions was such Fair's success depends, and the board that only one set of pension papers had of directors may rest assured that their adjustment of Simpson's claim.

Although Mr Simpson is in his 76th year, he can concisely relate his war in 1908. experiences. He came from Ireland when a boy and wandered out to Nebraska, where he enlisted in the regular army and had served about half his time when the civil war broke out. He was sent to the front and was in many of the most desperately fought battles, was shot through the wrist, was taken prisoner at Malvern Hill and spent several months in Libby prison. On his release he was again sent to the front, and his term of enlistment expiring he again enlisted and served until the close of the war aud was discharged on the 25th May,

There is no doubt that if proper representation had been made to the U.S. government he would have received a pension many years ago, but under late acts of the senate of the U.S. he may yet receive a bounty and arrears of pension, as application for the same has been forwarded, but if he receives no more than the present allowance of \$20 per month it will enable the old couple to again settle down in a little home of their own and enjoy the few remaining vears of life ease and comfort. When told of his good fortune he could hardly grasp the idea that after over thirty years of anxious waiting for his well deserved recompense for faithful service he was actually in receipt of enough to keep himself and faithful partner in comfort for the remainder of their days.

Hood's Sarsaparilla helps tired others in many ways—it refresher the blood, improves the appetite, and sures restful sleep.

DELTA'S GREAT SHOW

The annual Fair at Delta has beome an event that is looked forward to with pleasure by a large number of the people of this county. It has been constantly under careful management. the enterprise of the board keeping pace with its prosperity. Its foundation has been based on a constant recognition of the fact that it was an gricultural exhibition for the benefit of the agriculturists, and so whether the class in the prize list related to the field or fireside, its revision from year to year has always been made with a view to encouraging farmers to bring out the best that the skill of them selves or their families could produce

Surely, the Fair on Wednesday last was an abundant vindication of their policy, for every department was full to overflowing with the products of the needle, the loom, the artist's brush and pencil, the dairy, the garden, the syth, Charlie Greenham and Basil evidence in the quantity and quality Connerty (equal), Delbert Layng, of the display. 4
The live stock branch was particu

larly creditable, and from the poultry to the horse with the red ticket there was not a cull in the lot. There are a number of progressive cattle men in Delta district who delight in their herds of Holsteins, Ayrshires and Jerseys and they count fitting them for exhibition not too much trouble. In fact, the patrons of Delta Fair are not

of the "too much trouble" variety. The exhibit of sheep and swine, too, was good, fine specimens of all the favorite breeds being shown.

The exhibit of horses was a show in itself, and the interest in the perform ance of the many fine animals never Industry, Athens, had been favorably flagged The great array of teams and decided. Accompanying this was a single drivers made picking the wincertified cheque for \$20 per month ners no easy task; but the experts made their awards promptly, passed out the tickets, and we heard no Many readers of the Reporter will remember "Uncle" Billie Simpson as a hard working sober laborer, who for question raised as to the wisdom of admired and was the subject of much

Mr Lewis' party color will be red and W. S. Buell will be his financial Mr Donovan's party color will be blue and his financial agent will be J. A. Hutcheson.

MODEL SCHOOL NOTES

We enjoyed Wednesday afternoon at Delta Fair.

Observation begins next week and teaching the week after. What a pleasant prospect!

The Literary had a gramme on Friday. Mr McLean gave an instructive and interesting address on "Radium." Mr Hanna and Mr Eaton sang a duet. The choruses "Canada" and the "Maple Leai" were heartily sung. Miss Graham's recita tion was a gem, and we must mention the President's address on "Woman Suffrage."

Remember our motto-"Bound

BROCKVILLE SMITH'S FALLS London Season Has Been Busy, But Intermittent- Continentals Rushing There-Passages Home at Big Premium-Mr. Hepburn on the English Railways.

A London cable says: Aithough the tourist season is nearing its end, American visitors are still arriving at the hotels, mostly from the Continent on their way home. The demand for steamer passage is such that while it is pos aible to secure a few first class berths for the end of September no second class accommodations are obtainable until mid-October. The officers of the steamship companies continue to be be-sieged by applicants. In several cases some of the wealthiest people have trav-elled in the steerage because they were unable or unwilling to wait sevenal weeks for better accommodation. The steam for better accommodations. The steamers Oceanic, Republic, Arabic and Kaiser withelm der Grosse sailed during the week with full complements.

This rush has benefited one class of

officials in a manner not generally-known. It has given the commanders of known. It has given the commanders of steamers as opportunity of turning their perquisites to profit, in other words of letting their suites to passengers who are prepared to pay for the accommodation. An official of the Hamburg-American Line in speaking on this subject said the practice had become so general that the income received from it might be regarded as a fixed part of a captain's salary. There is no doubt that the present senson has put large amounts in the pockets of the captains, one of these suites being worth something like \$1,150, of which the dispossessed officer receives

There have been many estimates of the number of American visitors to Europe this year, but all have been exceeded by that of the London manager of the American Express Company. According to his estimate seventy vessels a month bring Americans to Europe during the season. The vessels average 450 passeng ers each. For at least three months this year they arrived full to their utmost capacity, giving a total of 94,500, so he thinks that 100,000 would be well within the mark for the season. Regarding the sums expended by these tourners, he consider an estimate of \$400 each moderate giving a total of the money taken out of America and spent in Europe in three months of \$40,000,000.

While the hotels, restaurants and tradesmen have benefited this year by the influx of Americans to a great ex tent, it is held pessimistically that the benefit has not increased proportionately with the increase of Americans coming abroad. A West End hotel manage contends that a strict analysis would show that London this year gained less from Americans than the Continent. Said

he:
The London season has been peculiar.
One day the hotels were jammed and
the following day almost empty. In former years we could count on being full
from early in May till the latter part
of September. This year the American rush was intermittent, but we did not suffer as the increase of Continentals who visited London has been tremendous The entente with France and Spain is unquestionably largely responsible for this influx.

"Americans, save these who are visiting Europe for the first time, do not seem to care to remain in London for any lengthy period, and the more prominent Americans pay their visits here when the crowd of visitors has departed. "One thing that has hurt London per-

ceptibly has been the transfer of the White Star boats to Southampton white Star boats to Southampton, touching at Cherbourg. When Liverpool was their home port passengers were obliged to come to London on their way London to the steamer. Now after visiting London once, they do not return, being able to catch the steamers at Chorbeing. Thus we lose a double visit. Next year this ill effect may be somewhat neutralized by the new fast Cunarders bringing their passengers to Liverpool, so, aside from national pride in seeing England regain the blue ribbon, we have a somewhat selfish interest in the per-formances of the Lusitania and Mauri-

The most distinguished passenger on the American liner St. Paul, which sailed to-day, was Congressman Hepburn, who has just completed his first trip to Europe, and while over for a vacation found an opportunity to investigate railroad management conditions in England. peaking to the Sun correspondent he

Railroad problems in the United States arise principally from the dual nature of our Government, and nothing I have seen here could be introduced in America. Mr. Willis, who has charge of America. Mr. Whils, who has caurge of the railroad department of the Board of Trade, gave me every facility for inves-tigation, and the tremendous power, which this organization has over trans-portation impressed me.

For instance, a new railroad is projected. The route and the amount of capitalization must meet with the approval of the Board of Trade before the project is sanctioned. When the road is completed inspectors thoroughly examine every detail of the equipment. re too light they must be replaced; if the bridges are unsafe they must be strengthened, and the road cannot be utilized until every detail satisfies the inspectors. This inspection is no currently but in the property of the strength of the s

sory thing, but is done by responsible and highly paid officials.

"This initial investigation would have been a good thing for America when the railroads in that country were in their infancy, but I think it is too late to try to introduce it now."

A close friend of his says that when Mr. Hepburn returns to Washington he will make a determined effort to do away with the large coterie of army and navy officers now stationed there and will make them return to active duty. Mr. Hepburn characterizes this coterie as nothing but a governmentally paid lobby, which answers no more useful purpose than wire-pulling.

Iapanese Forestry.

The first Japanese school of forestry was started twenty years ago; now Japan has an organization embracing was started twenty years ago; now Japan has an organization embracing sixty-two schools for the training of students and the directing of popular attention to the science and practice of forestry. The forests proper appertain to the imperial domain and are administered by the Department of Agriculture. The forest area of Japan, about \$6.000.000 earcs is nearly equally divid-60,000,000 acres, is nearly equally divided between the Imperial Government and the miscellaneous holdings. In the ten years ended 1001 (latest available fig-

years ended 1991 (latest available ingures) Japan's lumber exports were of the value of \$25,000,000.

The climate of the Hokkaida country, the present principal forest area, like that of California and British Columbia, is favorable to forest growth. In older Japan reforestation finds scope mainly on the rugged slopes of the mountain ranges. Japan has been using timber since a time long antedating the cedars of Lebanon. Many grand old monarchs of the forest are maintained with care in

public parks and line great avenues. Unfortunately, the Japanese are wasteful of young forest growth. The framework of buildings is largely of rough hewn poles, and far too much young timber goes for charcoal, which is so generally used in Japan.

Minard's Liniment for sale everywhere Easily Turned.

A small boy was asked to take dinner in Princeton. The lad's mother, in fear lest he should commit some breach of etiquette, gave him repeated directions to what he should and should not

Upon his return from the great occasion, says the Youth's Companion, the mother's first question was, "Harold, did you get along at the table all right?"

yes, mamma, well enough."
"You are sure you didn't do anything that was not perfectly polite and gentle

"Why, no—nothing to speak of."
"Then something did happen. What was it?"
"But I fixed it all right, mamma."

"Tell me at once." "Why, I got along pretty well until the meat came, but while I was trying to cut mine it slipped off onto the floor. But I made it all right."

What did you do?" "Oh, I just said, sort of carelessly, "That's always the way with tough meat."

HOW TO BRUSH THE TRETH.

to have the brush slightly concave, to fit the arch of the teeth, but in that case one must have a second one for brushing the backs of the teeth.

The teeth should never be scrubbed by moving the brush from side to side across them, as most peaces do, for it is that that pushes the gume back and tears them. This motion, especially when the brush is a stiff one and a gritty powder is used, may also injure the enames of the teeth. The teeth should be cleaned by rolling the brush in a direction from the gums toward the cutting edge, so that the bristles will not only scrape the surface, but sweep between them. This motion will also coax the edge of the gum over the neck of the toothe, instead of pushing it away, and as the movements in this direction can be neither so rapid nor so forcible as when they are from side to side, the gums are less liable to be heerated by the bristles.

The backs of the teeth are to be brushed in the same way, while the grinding surfaces must be cleaned by a to-and-fre as well as a lateral rubbing.

Lukewarm water is best for the teeth, and some good dentifrice should be used once a day.

The Power of the Black Vote.

The recent Republican State conven tion in Kentucky refused to endorse Taft for the candidacy in 1908, although most of the Republican papers in that State at the home of a distinguished professor favor him, and a majority of the white Republicans of the State are believed to prefer him to any other person for the candidacy, except Roosevelt. It is said, however, that negroes threatened to cut the State ticket in the election of 1907 if the convention endorsed Taft for 1908, and that this was the reason why it refused to declare any preferer anybody, although it recommended the selection of somebody in accord with Roosevelt's polities. The reason assigned for negro hostility to Taft is his connection with the order to disband the black troops for the Brownville incident. In ordinary canvasses the negroes hold the balance in many States which are In ordinary canvasses the negroes hold the balance in many States which are usually Republican—New York, New Jersey, West Virginia, Ohio, Indiana, Illinois, and others. Kentucky, which has been a close State recently, has 75,000 negro voters, and Kentucky is one of the southern States in which the negro who wants to vote is allowed to yote. While the Kentucky Republican vote. While the Kentucky Republican convention was refusing to endorse Taft, his rival, Senator Foraker, was delivering the annual commencement address at Wilberforce University, in Ohio, the leading negro college in the middle West, and he was condemning the stand taken by koosevelt and Taft in the Brownsville matter. It is said that the negroes are organizing in Ohio to fight Taft in the naries in that State so as to defeat, they can, his endorsement for Presi dent there. Possibly Brownsville will figure in the election of 1908.—From Leslie's Weekly.

How Charles Son Got His Name.

Charles Son, proprietor of the Lyceur Theatre Cafe, was Charles de Capus when he landed in this country from Italy several years ago. When he cam to New York to make his home in America he went to work at his trade as stonecutter. Employed with him were many other Italians, many of them with names difficult to pronounce and even more difficult to remember. For that reason the employers made a practice of having the Italians all numbered, and they were paid off each week by num-ber instead of by name. After that Son, or De Capus, worked at other places and he was again merely a number. It was galling to him to be shorn of all individuality and go by a number the same as a convict. He decided that he

vould change his name.

One day he was walking along Broad way and noticed a great number of firms having such names as Taylor & Sor, Gray & Son and others in which Son figured. He decided that Son mus be one of the prominent families in New York, and as the name was simple and easy to remember he decided to adop it. From that day he has been known as Charles Son.—Cleveland Plain Dealer

GOOD BECAUSE IT DOES GOOD. The common ailments, while few, are to arise at any time. The best

liable to arise at any time. The best-kept horses, and those receiving the least care, are alike liable to the erdinary troubles as spavins, ringbone, splint, curb, lameness, cuts and bruises.

It is well for horse owners that these diseases all yield to the same treatment, and can all be cured completely with the same remedy. This dependable remedy—which is very inexpensive—is Kendall's Spavin Cure. Even the most stubborn cases which vertinaries have failed to cases, which veterinaries have failed to relieve, yield to Kendall's Spavin Cure. In the thirty years in which this re-liable remedy has been used by farmers, stockmen, live ymen and in private and racing stables, it has given complete sat

Oertainly, those who own horses are not consulting their own best interests if they do not keep a bott'e of Kendall's Spavin Cure in the barn.

Dr. B. J. Kendall Co., makers of this famous preparation, publish a book entitled "A Treatise on the Horse and His Discases," which is invaluable to those who want to keep their horses well and save veterinaries' bills. A copy may be obtained at most dealers or will be sent free by addressing the above company at Enosburg Falls, Vermont, U. S.A.

Sunday Labor. (Acton Free Press.)

The movement for Sabbath rest is gaining The movement for Sabbath rest is gaining in popular support. Men of all classes are in it; there are no denominational or sectarian lines; there are no party abundaries. The appeal is made to all employers of labor to give their men the day of rest which belongs to them. In this the highest interests of both parties are involved. The man who rests on the Sabbath is a beter man for the remainder of the week. Workingmen are better in every way for a day at home and in the church. A machine requires rest; much more does a man. Ever bending to toil, the man in the mill, the woman in the shop, is wasting vital strength. The Sabbath is necessary for man's higher nature, and without

HOW TO LIVE LONG.

Rules for attaining an active old age by adopting a rational scheme of living are given by General Booth.

"The possibility of prolonging one's life by living rationally is far greater than most people suppose," he said. "Anyone with normal health by making an effort can live if not a full cantury at least much longer than they otherwise would. I agree with the Harley street physician who said that a man was as old as his organs. I totally disagree with another correspondent in the 'Daily Mail' that life beyond fifty is not worth while.

the Daily Mail' that life beyond firty is not worth while.

"Take myself. Had I died at fifty half my life's work would have been left undone. People call me old, but I dany it. I sometimes say I am seventy-nine years young. At any rate, I don't feel old, and I expect to live a great many years yet. "After my motor tour I am going to tour Canada and the United States, and

tour Canada and the United States, then I am going to hurry back to attend a convention in Berlin. What is the sec a convention in perim. What is the secret of my vitality. I will tell you later
on. First, let me say I dislike the conventional notion of associating old age
with helpleseness. When a man gets to
be sixty or seventy he thinks he must
quit work and sit in a chimney-corner
or or or in the garden to play with the or go out in the garden to play with the

is family regard him as such.
"I deplore this idea. I believe old person who is not physically dis-abled should be profitably employed. For my part, if I live to be 150 I shall keep on working to my dying day.

THREE MEN KHLLED BY OIL EXPLOSION.

Drawing Oil from a Tank to Sprinkle Track When it Took Fire.

New York, Sept. 27.—Twenty thonsand gallons of crude oil stored in a tank in the Borough of the Bronx exploded with terrific force while three men were drawing oil from it early today, killing the men almost instantly. The dead are James Cooper, of Unionport, James Reilly, of Westchester, and Richard Smith, of Van Nest, all of which villages are in Westchester county. Cooper was employed by the officials of the Morris Park race track to sprinkle the track with oil in preparation for an automobile race. Reilly and Smith were sent to the top of the tank and sent it flying into the yard of the Catholic flying into the yard of the Catho

DR. FALCONER INSTALLED.

A BRILLIANT FUNCTION HELD AT TORONTO UNIVERSITY.

Many Degrees Were Conferred- Sir Wilfrid Laurier Refers to Catholicity of Spirit Manifested by the University of Toronto.

A Toronto despatch: The attendance and sympathetic spirit displayed at the formal installation yesterday afternoon of Mr. R. A. Falconer as President of the University of Toronto was the best possible concrete evidence of the approval previously expressed through the press and other mediums of the choice made by the Board or Governors. The cere-mony took place in Convocation Hall, which was well filled, the gathering in deed, being as brilliantly representative of the religious, educational, professional and business life of the country as one could ever hope to see assembled in any specified place. Sir Wilfrid Laurier, his Honor Sir William Mortimer Clark, Premier Whitney, as well as a number of others, recipients of degrees in con-nection with the afternoon's proceedings, were among the scores of promin-ent men on the platform. Sir William R. Meredith, Chancellor of the University, was in the chair. The address of the afternoon was that of the new President, who devoted himself chiefly to sity in the State and the duty of the State to the university. It was a well-considered and admirably sustained effort in every portion, delivered with an incisiveness and clearness which carried with them conviction, and in so distinct a tone—aided by the fine acoustic properties of the hail—that not a word was lost by the large audience. That they appreciated it was shown by their keep. appreciated it was shown by their kee ness in noting its telling points and their acknowledgments thereof by frequent spontaneous and quite hearty applause, culminating at the close of the address

in an ovation.
Dr. Henry S. Pritchett, of Washington, President of the Carnegie Founda-tion for the Advancement of Teaching, who brought the congratulations of United States Universities to President Falconer, provoked a good deal of laugh-ter by some of his allusions to affairs in this country. This gave to Sir Wil-frid Laurier, who made the closing adwhich he was not slow to seize, and his remarks were, as usual with him under such circumstances, inimitable in their charm and appropriateness.

A reception to the delegates from other universities, the presentation of addresses, and a conversazione comprised the successful evening programme. afternoon the formal opening of the new Physics building takes place. Auxinary,

Sailboat Found on the Beach at Whitehead, Man.

Winnipeg Beach, Sept. 30.—Word was received here to-day that a small twomasted sailing boat was found on the beach about a mile and a half south of Whytewold, on Tuesday morning, with both sails set. Mrs. Taylor, a lady who lives at Whytewold, claims to have seen a sail boat half a mile out on Monday; and, as near as she could tell, it contained three persons. While watching the boat something appeared to go wrong with the sails, apparently causing the boat to capsize, as it was lost

A very heavy sea was running at the time, with a strong north wind. A light grey overcoat and a valise were found in the locker. The valise contained two three razors and an unopened bottle

NO ABROGATION OF TREATY.

MANUFACTURERS URGE GOVERN MENT TO GO SLOWLY.

More Protection Demanded for Wooller Industry-Close of Manufacturers' Association Convention.

Toronto despatch: One of the last and nost significant acts of the convention of the Canadian Manufacturers' Associa tion, which closed yesterday afternoon, was to place itself on record as opposed to any precipitate action in regard to the Asiatic problem in British Columbia, which might result in the abrogation of the treaty between Great Britain and the treaty between Great Britain and Japan. The pronouncement took the form of a resolution, which declared that the treaty had already done a great deal towards the development of trade with Japan, and that its abrogation would be diametrous not only to the existing trade, but to the hope of future extended relations, and urred upon the Government. tions, and urged upon the Government the desirability of taking no hurried ac-tion. The wisdom of the resolution was questioned by one or two members, one of whom characterized it as dangerous but outspoken speeches in its support were delivered by Mr. W. K. George and Mr. W. Robins, and it was carried by an immense majority. Mr. Robine claimed that the interests of the mother country and her relations with Japan should stand above Provincial or petty trade interests. Another resolution was passed in favor of immediate steps being taken to urge the Government to af Montreal, Sept. 30.—Further important developments took place to-day on the ocean rate war. The Canadian lines, a

ocean rate war. The Canadian lines, a few days ago, threw down the gauntlet to the New York lines by making a cut in rates. The gauntlet had been taken up by the American lines, which to-day not only made a further cut in cabin rates, but cut down their second class dustry.

Office-bearers were elected as follows: President, Hon. J. D. Rolland, Montreal; Vice-President, John Hendry, Van couver; Ontario Vice-President, R. Hob-son, Hamilton; Quebec Vice-President, D. L. McGibbon, Montreal; Treasurer, According to advices received by the Montreal agents of the Mercantile Marine, the following rates will go into immediate effect: On the Oceanic the maximum saloon rate is to be \$57, a cut of \$10 below the former cut of \$22.50, making a total cut of \$29.50 since the incom-Geo Booth Toronto: Secretary, G. a Pulley and Clothing Torn Off.

Olinton, Dasp.—W. J. Nediger of the Chinton Electric Light Company had a narrow secape from death yesterday. He was working about the machinery, when his overfalls caught on a rapidly-revolving pulley, and in an instant he was wound around the shaft. At the same moment he called for help, and Mr. Stevenson, his partner, who was in the office at the time, quickly threw the belt off and stopped the machinery.

All this happened in about twenty seconds, yet Mr. Nediger's clothes were torn to shreds and in a few seconds more he would certainly have been killed. As it was he escaped without any serious injuries, beyond some bruises and burns. It was a very narrow escape.

LIGHTNING HATCHER CHICKENS Governor Magoon has 5,000 American soldiers and 5,000 rural guards ready to crush any movement the instant it is started.

YOUNG WOMAN STABBED.

She is Now in Red Cross Hospital at

Cobalt, Sept. 30.-A serious quarrel occurred in a house near Argentite on Wednesday evening, which resulted in the stabbing of a young woman, who was brought into Cobalt late last night by Chief Calbeck and assistants, and was brought into Cobalt late last night by Chief Calbeck and assistants, and removed to the Red Cross Hospital, where she is resting nicely, although very weak from loss of blood. The man lies in Cobalt jail, remanded for a week in order that the woman may appear

It was reported in town late this evening that an enormously rich strike on the Nipissing was made to-day. Of-ficials deny it over the 'phone.

MADE SUCCESSFUL FLIGHT. TAG DAY AT BRANTFORD.

Baldwin Airship Manoeuvred at Halifax How Money Was Raised for the Nurses Fair Grounds.

Halifax, N. S., despatch: The feature of the Procincial Exhibition grand stand show to-day was the flight of Baldwin's airship. Just before sundown the breeze died away, and made it possible fo Baldwin to set out on his voyage, which was accomplished most successfully. The airship rose gracefully, pointing into the wind, and manoeuvred for several minutes in different directions over the

A second flight was made to show the tendency of the airship to constantly turn to the right unless guided by the rudder. This the airship did automatically, making a complete circuit over the grounds. Then the full descent was the grounds. Then the full descent was made, the airship coming back to the ex-act spot from which it had risen.

OPERATORS APPAIGNED

Men, Held Responsible for Vaudreuil

Wreck, Plead Not Guilty. Montreal, Sept. 30.—Sares Staeta, operator at St. Dominique, and Loyal Streets, operator at Vandreuil, two of those held criminally responsible for the train wreck at Vandreuil on the 18th inst., through which Albert Robertson lost his life, appeared before Judge La-fontaine to-day to answer to the charge lost his life, against them. Both pleaded not guilty and were remanded until next Thurs-day at 10 o'clock. Bail was granted in each case, personal bail of \$1,000, with two good bondsmen in \$1,000 apiece.

DIED IN TAIL.

John McTiernan, Arrested in Connection With His Brother's Death.

Society's Medal.

Toronto Despatch—Guy Armstrong, the fourteen-year-old boy who so pluckiny attempted to save the He of his cousin, Wim. Claude Russell Armstrong, son of Mr. Claude Armstrong, of the Dominion Bank, on the evening of July 22 last, when the latter lost his life in a vain attempt to swim across the hospital cut at the Island, was rewarded for his bravery yesterday, when Mr. H. P. Dwight, on behalf of the Royal Canadian Humane Association, presented Master Armstrong with the society's medal and praised him for his conspicuous courage and persistence on the occasion.

Three times young Armstrong had got his cousin to the surface, twice having to dive for him to find him, and finally obliged to relinquish his efforts through exhaustion after a struggle for the life beneath the surface. Ottawa despatch: John McTiernan who was arrested last month in con-nection with the death of his brother, Thomas, presumably through violence prison at Bryson, Que., yes The deceased, who seemed terday. The deceased, who seemed to feel his position very keenly, had been in failing health for some weeks, and death was due to natural causes. The two brothers, while coming home from Shawville on Aug. 19, are said to have quarreled while intoxicated. Thomas McTiernan was found dead on

TOWNS SWEPT AWAY.

Great Destruction of Life and Property in Spain.

Madrid, Sept. 30.— Unprecedented rains in Andalusia caused immense de-struction of life and property. The Guadalmadina River has been converted into a raging torrent three miles wide, and bridges, houses and even entire vil-

lages have been swept away.

The streets in the lower part of Malaga have been inundated and many families rendered homeless. Thirty persons were drowned at Malga, 23 at Velez de Benamargoza, 13 at olemar, and about 100 in other place

in the valley. POACHERS' NETS SEIZED

Outfit Worth \$300 Confiscated by Essex

Inspector. Windsor, Ont., despatch: Seven hun dred feet of what is known as "trimble net" was seized by Inspector Chauvin yesterday at the lower end of Grassy Island. The nets were the property of a Wiandotte, Mich., poacher named Clarke, and are valued at over \$300. The nets will be destroyed, their use being illegal on both sides of the river. This is the second seizure made by Inspector Chaptin within the past two Inspector Chauvin within the past two

NOT 28 KNOT LINES.

North German Lloyd Company Will Not Try to Build Them.

London, Sept. 30.—The Daily Mail's

not intend to build any more.

LUSITANIA BROKE ONE RECORD ON HER LATEST OCEAN TRIP.

But Slower Than on First Trip---Rough Weather. Poor Coal and Poor Stokers.

Queenstown, Sept. 30.—The Cunard Line steamer Luistania, from New York September 21, arrived here at 3.56 a.m. to-day, the passage thus occupying 5 days 4 hours and 19 minutes, or 3 hours 25 minutes more than her outward run. The only record broken was that of the Lucsnia of the same line. Sandy Hook lightable, was passad at the control of the same line.

Sandy Hook lightship was passed at 6.37 p.m. on Saturday, September 21, and the Lusitania had covered 369 miles up to noon on Sunday, September 22. On Monday at noon the steamer had added 524 miles to her previous run. At noon on Tuesday she had covered 525 miles more. At noon on Wednesday she had made an additional run of 530 miles. At noon on Thursday she had 523 miles more to her credit, and at 3.56 a.m. to-day she had run 336 miles from noon yesterday to Daunt's Rock, mak-

wind, with a rough sea, was encountered.

The American coal was said by the engineers not to have been so satisfactory as the coal used during the westward trip and the stoke hole work was not altogether up to the proper mark. But the confidence of the engineer in the Lusitanian ability to beat all compettors when things are running smoothly is not diminished.

The new liner behaved splendidly during the very heavy weather of the last three days of the trip and the passengers were lavish in their praise of the comfort which they enjoyed on board the vessel.

OUR JUVENILES.

PUNISHMENT FOR ADULTS WHO ENCOURAGE TUVENILE CRIME.

Vhat J. J. Kelso Says About It-Men Responsible for Many Boys Committing Crime-Bill Dealing With the Matter Before the Government.

Speaking of juvenile delinquencies Mr. J. J. Kelso, superintendent of neglected and dependent children of Ordario

In nearly every case where boys com mit crime it will be found on close investigation that there is some adult who is responsible. The child is punished but the really responsible person goes but the really responsible person goes free. Not long ago two boys were arrested for breaking into a store and stealing tobacco and cigars. They were placed in jail, and, their guilt being clearly established, were committed to the reformatory. After the trial, however, the boys told how they had been bribed to commit the crime by a man who had received and disposed of the goods. The authorities were informed goods. The authorities were informed entence of the boys was reversed, an they were allowed to return nome under supervision, with the result that they have been doing well since that time. About a year ago a similar case was brought to my attention, in which a boy of fifteen was arrested for stealing a of fifteen was arrested for stealing a large quantity of goods from his employer. He was put up to do this by an elderly man of apparent respectability, who received and disposed of the stolen property. Pending trial, the boy was kept in jail, while the man was granted bail, and when the trial came on the man, through legal and other influence, was able to escape, while the boy was given a sentence of imprisonment. was given a sentence of imprisonment.
Only a few days ago the magistrate at Toronto Junction committed a boy

of ten to the reformatory for stealing, and is creditel with the making the remark, "If I could only send some of the parents to jail they might look after their children better." There is a general feeling throughout the country that there should be a more

careful inquiry into the offences of children, so that the punishment could be placed on the right shoulders.

In a bill now before the Dominion Government relating to juvenile delinquency, there is the following clause: "Any person who knowingly or wilfully encourages, aids, causes, abets or connives at the commission by a child connives at the commission by a child of a delinquency, or who knowingly or wilfully does any act producing, promoting or contributing to a child's being or becoming a juvenile delinquent, whether becoming a juvenile delinquent, whether or not such person is the parent or guardian of the child, or who, being the parent or guardian of the child and being able to do so, wilfully neglects to do that which would directly tend to prevent a child being or becoming a juvenile delinquent, or to remove the conditions which render a child a juven-ile delinquent, shall be liable on summary conviction before a juvenile court of a justice, to a fine not exceeding five hundred dollars or to imprisonment for period not exceeding one year, or to

both fine and imprisonment."

In my opinion the passage of such an ndment and its vigorous enforcement

ONTARIO VEGETABLE CROPS.

RECENT RAINS HAVE IMPROVED THE SITUATION AND PROSPECTS ARE BRIGHTER.

The vegetable outlook in Ontario, as reported by the crop correspondents of the Ontario Vegetable Growers' Associa-tion, is much better than it was last month. Most of the crops look fairly well, as the situation has been greatly improved by rains. The craps with most gardeners will yield more than was anticipated, as good growth is being made. Since the rains started the growth has been steed and are proved. growth has been steady and sure. Prices in general have been good. The reports indicate that the cabbage

crop will be good. The same may be said of cauliflowers, except in the districts around Toronto and Kingston. Celery promises to yield a good crop of excellent quality. Tomatoes turned out a little better than was expected, but London, Sept. 30.—The Daily Mail's Bremen correspondent telegraphs that Herr Wiegrand, director of the North German Lloyd Steamship Company, says the report from New York that his company will build 28-knot steamships is rubbish.

He adds that the company would gladly do it, but such speed in a merchant vessel cannot be attained. The North German Lloyd has enough fast ships for the immediate future. It does not intend to build any more.

excellent quality. Tomatoes turned out a little better than was expected, but the crop on the whole has been very light; prices have been high. The onion crop will not be up to much; in some sections it will be fair; but in others the reports are discouraging. In the district around Scotland, where large quantities usually are grown, there will be only about two-thirds of a crop, and is of fair quality. There has been an expected, but the crop on the whole has been very light; prices have been high. The onion crop will not be up to much; in some sections it will be fair; but in others the reports are discouraging. In the district around Scotland, where large quantities usually are grown, there will be only about two-thirds of a crop, and is of fair quality. There has been an expected, but the crop on the whole has been very light; prices have been high. The onion crop will not be up to much; in some sections it will be fair; but in others the reports are discouraging. In the district around Scotland, where large quantities usually are grown, there will be only about two-thirds of a crop, and is of fair quality. There has been an expected, but the crop on the whole has been very light; prices have been high. The onion crop will not be up to much; in some sections it will be fair; but in others the report of Take Post-Graduate Course in English University.

Montreal, Sept. 30.—Blind Trooper to Take Post-Graduate Course in English University. cucumbers are scarce. Swest corn is less

than half a crop. Late beans are fair to plentiful. Table roots, such as car-rots, beets, paranips and turnips, are good in all localities, except that the paranip crop around Ottawa will be short, and the turnips are a failure in the Kingston district. There has been some improvement in some improvement in the potato out-look, but on the whole the crop yill be

EXPELLED NUNS.

They Are Cheered While Troops Drive Them From Home.

suline nuns were expelled from their residence yesterday by a detachment of troops, assisted by gendarmes. sisters, who keep a large girls' school, are very popular in the neighborhood, and a large crowd gathered and expressed their displeasure at the proceedings. They cheered the nuns repeatedly, and the gendarmes were powerless to disperse them.

TORONTO MAN SHOT IN CHICAGO. Fatal Result of a Fracas With a Bartender.

skarritt, 30 years of age, whose home is said to be in Toronto, Can., was shot and mortally wounded shortly before and mortally wounded shortly before 2 o'clock this morning in a fight with Charles Thayer, 36 years old, in frome of the saloon of Joseph Cohen, where Thayer was employed as a bartender.

When taken to the Emergency Hospital and revived the wounded man gave the name of Frank Kelly, and said he was employed as a section-hand by the Northwestern Railway. Later he admitted his identity, but refused to talk about the shooting.

The police suspect that an attempt at robbery by Skarritt and a companion may have caused the shooting.

may have caused the shooting

MINERS' PRESIDENT ARRESTED Row at Meeting in Haileybury-Interfered With Police

Cobalt. Ont., Sept. 30 .- President Mc. Guire, of the Cobalt Miners' Union, was last night locked up at Hailevbury as a result of trying to conduct a union meet-ing there. When Organizer Roadhouse, who was with McGuire, started to speak in a vacant lot, a number of Haileybury's juveniles formed into a band and began vigorously blowing tin horns, whistless

and flutes. McGuire, who became annoyed at the interruption, cuffed one of the boys, and when a police officer interceded a row began. The president of the union and some of his sympathizers were arrested for interfering with an officer of the law. Roadhouse tried to speak again at the station, but was prevented by a crowd of Haileybury's citizens.

GOULD HAS CONFESSED

The Former Montreal Milliner a Cruel Murderer.

oMnte Carlo, Sept. 30.—Vere St. Leger Gould, who lived for some time in Montreal, and carried on a millinery business there, has written to a local judge confessing that he and his wife. Violet, murdered Emma Levin, whose dismembered body was found in their baggage, August 6th, at Marseilles. They robbed the wo-man after knocking her unconscious, and when she screamed they killed her.

KINCAID-LEE NUPTIALS

The Sault Ste. Marie Express.

St. Luke's Pro-cathedral was the scene of a very pretty wedding, when at 6,30 Wednesday evening Miss Alma Lee, niece of Mr and Mrs. Wm. Van. Abbott, became the bride of Mr. O. A. Kincaid, of Duluth. Rev H. A. Precke preferring the correspondent Brooke performing the ceremony. The church was prettily decorated with green and gold. Banks of golden rod and golden glow decorated the chancel, while garlands of green and gold festooned the aisle. The decor-ations were the work of St. Luke's Girl Auxiliary, of which Miss Lee has been a prominent member for a number of years. The bride, who was given away by her cousin, Mr R. H. Carney, was daintily gowned in Egyptian silk madras over white taffets with the conventional veil and orange blossoms. She carried white Miss Julia Luscombe, who atdress of white point d'esprite over vellow silk, with picture bat of white silk and yellow roses. Her bouquet

Little Madge Begg, as flower girl, was in white and carried a basket of white asters.

A reception at the house followe the ceremony, and refreshments were served it the dining room, which was decorated by Miss Nellie Towriss, in pale pink and white, the foundation ing white tule and pink roses. The rest of the house was decorated with green and yellow in accordance with olor scheme of church. The bride's going away gown, which was of helio-trope broadcloth with lace waist, was imported, as was much of her trousseau

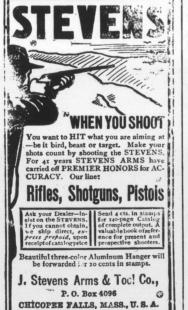

Mr and Mrs Kincaid left for Duluth at 9 p. m., amid showers of rice and confetti, with the best wishes of their many friends, among whom Mrs Kin caid will be greatly missed.

The bride's presents, which were both numerous and costly, consisted principally of cut glass, linen and china. A number of substantial checks were also presented including one from the groom. The groom's present to the bridesmaid was a gold pracelet, to the flower girl a gold brooch, and to the ushers gold cuff links. The groomsman, Mr Elliott of Duluth, presented the bride with a grandfather's clock.

THE DECIARED POLICY

After questioning the wisdom of that part of the Ontario Government's edu-cational policy which includes the abolition of Model Schools, the Brockville Recorder says :-

"Take the one at Athens, for example. All over this part of Ontario are ound teachers who have received their practical training at that institution, and the impress of their work has been for good. Not only has the work of practical teaching been well o looked after, but a moral tone has pervaded the Model school which has been echo ed and reflected in every schoolhouse where the teachers trained at Athens have taught. It is not to be wondered at that under such circumstances, the policy of the Government to abolish these schools is regretted by not a few people. But this is the announced policy of the Government, and just as soon as the proposed Normal schools are completed, the Model schools will ease to exist, and their work will be only a memory. This was announced by the Premier during the last session of the Legislature, and the Government to that policy

The Best on the Market

Guaranteed to Cure Lame Back or money refunded!

An excellent remedy for Reheums tism, Lame Back, Etc., Etc.

Read the following testimonial from a man you all know: Forfar, Feb. 6, 190

Mr. W. A. Singleton, Crosby, Ont. Crosby, Ont.

Dear Sir,—Being laid up with lame back, I thought I would drop you a line to tell you that your St. Legis Lumbago cure will do all you claim for it, as I have only used part of the bottle and I feel no returning symptoms of the Jlanace. dleease. I may say I have been troubled with lame back for the last ten years, and tried several other patent medicines but without results. I can heartily recommend it to any troubled with lame back, and I feel safe in saying that it's the cheapest medicine on the market.

Yours Truly,

- JAMES McCUE If your dealer does not keep this medicine kindly ask him to order same for you as any sized order will be filled promptly.

First order, freight prepai 14

MARTIN ZIMMERMAN, W. J. CURLE,

GREAT INDEED

Will be the Advantages Derived from an Old Remedy in New Form

Messes. J. P. Lamb & Son, Our Local Druggists, Interested

diseases that we now have news of a wonderful discovery—one that is bound to revolutionize the science of medicine and startle the world. Everyone is familiar with methods that have been employed by physicians for years, in cases that they were afraid would develop into a decline. In all troubles of the throat, lungs, bronchial tubes and other similar ailments that were known to end disastrously, about the successfully conducted a farm, latterly known to end disastrously, about the known to end disastrously, about the first thing the doctor would do would be to recommend cod liver oil, for cod liver oil has been recognized for a great many years as possessing poculiar medicinal properties particularly adapt-ed for the cure of such troubles.

many people have actually been unable to take a single dose of it. Many others have made heroic efforts to take the medicine, but have been obliged to the medicine to the medicin abandon it after struggling with the

horrible stuff for a few days.

The consequence is that thousands have drifted into incurable diseases who might have been saved, had it been possible to administer this potent medicine. Enough people have been able to assimilate cod liver oil to prove to the medical profession and the world at large, its intrinsic value. Such patients as were blessed with unusually trong stomachs derived benefit from form of it be devised to be administered to patients whose digestive organishad been weakened by disease?

This is exactly what scientists and chemists have been aiming at for years, and this is exactly what has been accomplished by two prominent French chemists. Their secret has been brought to America and our local druggist Messrs J. P. Lamb & Son have suc ceeded in connecting themselves with the prominent firm of Boston Chemists who are placing this new preparation on the market. The preparation in question, now that it has been discovered, like all other great inventions, is

Vinol, which Messrs J. P. Lamb & Son are presenting to the public. It is combined with Organic Iron and Beef Peptone, dissolved in a specially made that to me and to the congregation medicinal wine, and the result is a the coming of the vicar, Rev W. F.

Messrs J. P. Lamb & Son have indeed been fortunate in making arrangements to handle this new remedy, which goes under the name of Vinol. It is worth any one's while to talk to ent strength and straightforward them about it and learn directly from courage and devotion in the service of them the good that is being done by God and God's church. We are all finding a way to administer what has always been a horrible and much dreaded medicine, in a form that is actually delicious, to say nothing of being a hundred times more efficient

A SUDDEN DEATH

On Friday morning last the people of Greenbush were shocked by news of the death of Mr George F. Moore, a prominent farmer of the vicinity. had been in his usual health and his passing was not known until he was called for breakfast. About four years ago he suffered a stroke of paralysis, but had been able to render assistance in the management of the farm.

Mr Moore had spent the 60 years of his life on the farm on which he died and was active in the social and business life of the community and sat at the council board of Elizabethtown for

several years.

He married Miss Olds of Greenbush, sister of John Olds of Brockville, who with three sons and two daughters, survive. They are: Allan and Gordon of Francis, Alta., Morton at home, Mrs mother is also living besides one sister Mrs Gardiner of Lyn and one brother, Lewis Moore of Winnipeg.

Trial Catarrh treatments are being mailed out free, on request, by Dr Shoop, Racine, Wis. These tests are proving to the people—without a penny's cost—the great value of this scien tific prescription known to druggists thandles his part to perfection and Mr Graham is an expert with the engine.

Graham is a fine yield to what was expected at one time.

Messrs Henry Graham and Samuel Hogaboom are doing a rapid business with their 25 h.p. engine and immense Banner separator. Mr Hogaboom —The Reporter can effect a big saving to any boy or girl who contemplates expected at one time. Remedy. Sold by all dealers.

DEATH OF BLMER J. HALLADAY

Truly, death has been a frequent visitor in Athens and vicinity this month. One by one, as the leaves fall, friends are passing away.

On Wednesday morning last an esteemed citizen of Athens, Elmer J. Halladay, departed this life in the 62nd year of his age. He had been critically ill for a long time, so his death was not unexpected.

Mr Halladay was a native of Elgin where as a young man he followed

Probably no branch of science has made such wonderful strides as have been made in the practice of medicine. Diseases that a number of years ago were considered fatal, are now known to be curable. Even consumption is no longer looked upon with the dread that it formerly inspired.

It is right on this line of wasting diseases that we now have news of a wonderful discovery—one that is bound where as a young man he followed farming and cheesemaking. He left the factory one day to assist in the hay field in view of an approaching storm, over exerted himself and suffered a sunstroke that affected his whole future life. Though by this no longer looked upon with the dread that it formerly inspired.

It is right on this line of wasting diseases that we now have news of a wonderful discovery—one that is bound where a young man he followed farming and cheesemaking. He left the factory one day to assist in the hay field in view of an approaching storm, over exerted himself and suffered a sunstroke that affected his whole future life. Though by this misfortune his activities were handicapped, he bravely faced the new conditions and by his fidelity to duty and patient industry he succeeded where would have failed.

successfully conducted a farm, latterly purchasing a home and retiring to He is survived by his wife and two

liver oil has been recognized for a great many years as possessing peculiar medicinal properties particularly adapted for the cure of such troubles.

Every one knows the objection, however, to the use of this nauseating remedy. So extrnmely disagreeable is the taste and smell of cod liver oil that many people have actually been unable beartfelt sympathy.

ministry he was converted several years ago, conducted an impressive funeral service in the Methodist church, preaching forcefally from the words found in John 7:17.

During the hour, Rev Mr Crossley sang very effectively, "Oh, what a change!" after which Rev S. J. Hughes, pastor, and Rev E. W. Crane read the burial service at the church, when the body was borne to Elgin, to rest near the scenes of his childhood. est near the scenes of his childhood.

Stomach troubles, Heart and Kidney ailments, can be quickly corrected with a prescription known to druggists everywhere as Dr Shoop's Restorative. The prompt and surprising delief with this remedy immediately brings is entirely due to its Restorative action upon the controlling nerves of the Stomach, etc. Sold by all dealers.

Oak Leaf Entertainment

The Junior Branch of the W. A. in connection with Trinity church, Oak Leaf, will hold an entertainment ed, like all other great inventions, is simple. By a peculiar process the liver of the cod is treated in such a manner that there is obtained an extended by the Rev W. F. Fitzgerald of Kingston. tract which contains all, and only all, of the curative properties that have made cod liver oil famous. The hor made cod liver oil famous. The hor rible smelling, nauseating tasting fat that has always been a part of this remedy has been entirely discarded.

This curative extract is the basis of Vinel, which Messrs J. P. Lamb & Son Vinel, which West J. P. Lamb & Son Vinel, which West J. P. Lamb & Son Vinel, which We

have known the vicar for over eight years and his work in Montreal Dio cese and in the parish of Leeds Rear and I am proud to declare bim a man of great power and ability and consist proud of him."

CAINTOWN

Mr Chris Connolly returned this week to Toronto to continue his studies.

Hunting coons is now the order of the evening with the boys.

Mrs Ira Andress is still poorly. Mr E. J. Kahnt carried off several irst prizes at the Lansdowne Fair. Mr and Mrs John Kincaid attended the Crossley & Hunter services in

Athens on Wednesday. Mr H. W. Powell is fast shipping way his apples to ottawa.

Mrs George Lee of Athens spent a tew days here last week, the guest of Mrs John Kincaid. Mr Nellice Cain wears a broad smil

-it's a boy. Miss Mary Ferguson is spending a few days in Mallorytown.

Miss Andress, Brockville, is this week the guest of Miss Mabel Gibson. Mr and Mrs Harry Franklin and Anglin of Odessa, Ont., and Miss Mr Chris Connolly were delegates to Emma Moore at home, His aged the Lyn convention on Tuesday. Miss Essie Earl of Mallorytown was

the guest of Miss Nora Kincaid on Sunday. Grain is a fine yield to what was

A. M. Chassels

I have found a tried and tested cure for Rheumatims! Not a remedy that will straighten the
distorted limbs of chronic cripples, nor turn bong
growths back to flesh again. That is impossible
but I can now surely kill the pains and pangs of
this deplorable disease.

In Germany—with a Chemist in the City of
Dermsadt—I found the last ingredient with
which Dr. Shoop's Rheumatic Remedy was made
a perfected, dependable prescription. Without
that last ingredient, I successfully treated many,
many cases of Rheumatism; but now, at last, it indformly cures all curable cases of this herstolote
mitch dynaded disease. Those sand-like granular
wastes, found in Rheumatic Blood, seem to dissolve
and pass away under the action of this remedy as
the pass away under the action of this remedy as
the pass are super when added to pure waster.

Add y as does sugar when added to pure waster,
Add y as from the property of the property of the

THE ATTITUDE BECOME THE SEPT. 25.100

Why leave for the evening shadows
The duties of early day?
Why grudge until bleak December
The kindness we owe in May?
This time for the bud and blossom When skies are serene and blue; Who soweth in chilly autumn Reaps harvest of bitted rue.

Thy frown or thy harsh unkindness,
As bitter as draught of gall,
May sting thee as scourge of nettles
Ere lowers night's sable pall;
Beware lest thy tardy kisses
Fall madly on lips of clay,
Or heart thou this morn couldst con

fort
Be pulseless ere close of day.
Be kind while Life's morn still linger:
Thy love and thy helpful hands
Shall be as the founts of water
To wander o'er desert sands;
A word from the heart, in kindness, May pierce the gray mists of pain,
And arch o'er the hills eternal
The rainbow of hope again.

—Mary E. Killilee.

Wear Your Troubles Inside Many a man gets into the habit of carrying his troubles in his face. The eyes tell it, the droop of the lip speaks it, and bowed head reveals it, and the tfall is full of it. He has run up the lag at half-mast, and he carries it every-where, so that his whole little world is compelled to know his sorrow. Is this natural? Possibly. Is it wise? Proba-bly not Is it fair? Surely not. Is it a sign of weakness? Undoubtedly it is. Is there a better way? Surely there is. First, a man must make up his mind to expect his share of trouble, and perhaps a little more. Then he should make up his mind to bear his trouble manfully, . e., with patience, with courage, and with hope. The world has enough trouble of its own: let us not add to its burble of its own; let us not and of every christian man and woman to become strong, and when strength is won to use that strength in bearing the burdens of others. Every sorrow mastered, every burden borne inside instead of outside, burden borne inside instead to obtain makes us stronger, and leaves the world brighter. Learn to smile, get the habit of it: learn to sing, make it also a habit; and you will be surprised how much brighter it makes the world, not much brighter it makes the only to others, but to yeurself! The smile and the song lessen the burden and light up the way.—Christian Guardian.

The Paths of Death. There are two folds upon the hill, And one is lone and very still Only the rustle of a leaf Gives happy sound of life and stir, And warbles bubbling bright and brief Where the bird skims with fearless whire Or a bee rifling on his way The honey from a wild-rose spray, metimes a soft and summer Drops gentle music hour by hour, Or a long breath of wandering air Makes melancholy murmur there, And all is calm and full of peace There where the dead have sweet ere where the dead have sweet su

The heart gone out of them, the soul
Fled onward to some unkniwn goal. r them no glad and further year, Ashes the rose, and beauty Without a wish except to fill Their eyes with dust—the dead who still With ruined hope and joyless mirth Go to and fro upon the earth! -Harriet Prescott Spofford, in Scrib-

The Omnipresence of Ged.

It has been well said that there is no part of the Bible in which the great at-tributes of God—His omniscience, His omnipresence and His omnipotence—are stated with such impressive splendor as in Psal m137. It is the utterance of a deart of the Bible in which the great atvout and reverent and noble soul, awed and humbled by the thought of One whose knowledge embrases the whole de-tails, and before whose all seeing eye the secret things of life are naked and open. His mind is overwhelmed at the tho of the divine omnipresence, so that His presence and power are felt in the uttermost reaches of infinite space as well as near at hand. It is no local or tribal as near at hand. It is no local or tribal deity that rises before the mind of the Psalmist, but One who is all knowing, everywhere present, and all powerful, the great First Cause, the energizing and controlling force at the heart of the uni-

And it is no Pantheistic conception of God that we find in this psalm. God is imminent in the universe, but He also transcends it. The personality of God as distinct from all created things and as distinct from all human personalities is clearly stated.

To us children of an hour, living our little round and with our narrowed range of vision, this conception of the divine omnipresence is one at once to awe and respire. The thought that God is everywhere, and that nothing can separate us from His love and protecting care is a precious thought to the one who has learned to know Him in Jesus Christ as

And so it continued, hour after ho love. By sea or by land, in sunshine or in storm, amid all the varied experiences of life, we know that He is near, and our hearts are made glad and brave and strong. Distance from home and friends strong. Distance from home and friends cannot separate us, and no dark cloud of trouble can hide us from the sunshine of His presence. The divine omnipresence of his presence. The divine omnipresence is more than a metaphysical conception: it is a blessed practical reality, full of comfort and cheer to those who have learned that at the heart of all things, controlling and energizing all things, and present in every part, there is one to who mwe can look up with loving trust and call our Father. and call our Father

But there is another side of the shield. The truth that is full of comfort to the one who is seeking to bring his will in-to harmony with the divine will, is full of terror to the one whose life is in antagonism to the great law of righteousess, and in whose deepest heart there the sense of guilt and unforgiven sin.

the presence of his fellows and seeks to bury himself out of the sight of all who know him, but many a man has realized in his own bitter experience the truth of the Psalmist's words: "If I say, surely the darkness shall cover me; even the night shall be light about me. Yea, the darkness hideth not from Thee: but the night shineth as the day: the darkness and the light are both alike to Thees'—M. McGregor.

The Power of Christ.

There is an invisible source of energy of which everyone may avail himself; but this energy is available only for good, never for evil It is more than a match for all the evil forces which combine to the combined of the co a match for all the evil forces which combine to turn us away from the right way. It is abundantly sufficient to support us in all the adversities of this world. It is fully adequate to any burdens of duty which may be laid upon us. Paul was greatly afflicted. He calls his affliction a thorn in the flesh. What that was we know not, except that it was some exceedingly sharp pain. He prayed three times for its removal, and this is the answer he received, "My grace is sufficient for thee." The grace of Christ is an inward energy which grace is sufficient for thee." The grace of Christ is an inward energy which He bestows on all those who follow Him and trust in Him. Paul felt himself stronger with his affliction than without it, because of the support of this grace. Therefore he says, "I will glory in my infirmity." He had other things in which he might clory. He had a won-Therefore he says, "I will glory in my infirmity." He had other things in which he might glory. He had a wonderful vision. He was caught up into the third heaven, where he saw and heard things which it was not lawful to tell. But he would not glory in this vision. He rather glories in his affliction, because this furnishes a splendid opportunity for the grace of God to manifest itself through him. No matter what comes so it be a channel for the grace of God to flow into the soul. "I will glory in my infirmity that the power of Christ may rest upon me."

Let no one flee from his affliction. Let him not fear tribulation. Terrible as it may seem, grace is more than a

as it may seem, grace is more than a match for it. The power of Christ is the chief thing. We may be weak and helpless in ourselves, but nothing is too hard for us if the power of Christ shall rest upon us.

The Gospel of the Out-of-Doors.

God's great, bright, free, living, out-ofloors was meant for man, and man was meant for it, and he cannot be separated from it without suffering loss. The truth of this the wearied nerves, the weakened muscles, the lowered vitality of the city dwellers abundantly attest. It is hard to live the artificial life without paying the penalty of it. It seems natural for healthy man to love the out-of-doors. a healthy man to love the out-of-doors. The mountains excite him, the lake anchants him, the forest seems like a long-forgotten friend, the freedom of the unpoisoned air gives strange zest to life. The quiet sunset hour is full of a never-to-be-forgotten glory and a strange yet welcome peace. To the wearied son of Adam comes the thought that Jacob voiced so long ago, "Lo! God is here." Here is health, vigor, freedom, and he must be of peculiar temperament who does not feel the gladness of this gospelof the out-of-doors. It is sane and refreshing; it is wise and true; it is pure and strong; it is freedom incarnate. and strong; it is freedom incarnata Thank God for the sunny welcome wearled workers find in this great outdoor world.

A Tornado of Stars.

Scattered throughout the unfathom able realms of infinite space, some travelling in a defined orbit round the sun, some apparently aimless wanderers of the aether, some weighing many tons, some not more than an ounce or two, are countless myriads of bodies, mostly are countless myriads of bodies, mostly metallic, ever careering through the void at a velocity computed at about twenty to thirty miles every sec and of time, (the speed of the swiftest projectile fired from a modern cannon is considerably less than three housand feetabout half a mile—in a second). And ever onwards and onwards through the wilderness of the illimitable these errant rness of the illimitable these errant wilderness of the illimitable these errant wanderers pursue their lightning career; until, coming within the attractive power of some sun or planet, they plunge headlong into its midst; in the former case in a moment transmuted into incandescent gas and adding to its fuel; in the latter, if small, burnt up by friction with the atmosphere and chang ed into meteoric dust; if large, probably exploding by the sudden and intense heat caused by that friction, or with a roar as of thunder—hence the name thunderbott—burying itself deep in the ground. ground.

In November, 1866, our earth passe through a vast aggregation of these met eoric stones, the result being a rageant of weird and unsurpassed splendor and sublimity. As night approached, from time to time a faintly apparent, curved streak of light, almost as bright as the gradually appearing stars, coursed across the skies; soon, as the daylight waned more and more, increasing both in brilliancy and in number; until, twilight liancy and in number; until, twilight having disappeared, the heavens were on fire, the constellations ablaze, and myriads of fiery stars, no longer placidly scintillating in the midnight sky, but wildly hurtling downwards toward the earth, leaving in their train a long trail of throphing light, as though the toesin of throbbing light, as though the tocsing of the day of doom had been struck and some mighty force were overwhelmin And so it continued, hour after hour

ceased, and the scintillant constellation once more glittered placidly in the skies But a day will come when, in the met-aphorical language of Scripture, the stars shall fall from heaven and the powers of the heavens shall be shaken. And then shall those who have served and obeyed their God be filled with exquisite joy. For He, by whose stripes they were healed, will then appear in his glory and will accord to them His loving we come, and gracious recognition. But those who had forgotten Him will tl.cn be transfixed with terror and with more tal dread.—By a Banker.

A Sunday school teacher was giving a lesson in Ruth. She wanted to bring out the kindness of Boaz commanding the is the sense of guilt and unforgiven sin.
It is a commonplace and yet an important thought that a man, go where he will, can never get away from himself for from God. The guilty man flees from said one of the boys.

JUDGE MACMAHON REBUKES JURY.

REMARKABLE ENDING OF MYRTLE COLLISION CASE.

Cook Found Not Guilty-His Counse Pleads That Mistake Was F t Crime -The Jury Take That View and Refuse to Convict on the Only Charge the Judge Would Permit to

Whitby despatch: "I hope, gentlem of the jury, if you should happen to be on a train when there is a collision and you are injured that perhaps your ideas of the duty and care of officials will

These were the words with which Judge MacMahon greesed the verdict returned by the jury to-night, after nearly three hours' consideration, acquitting Conductor Fred P. Cook on the charge of manelaughter in connection with the Myrtle collision case. The verdict came as a complete surprise to everyone who had heard the evidence in the case, not excepting the prisoner's counsel, Mr. T. C. Robinette, K. C. Judge MacMahon summed up strongly in favor of a conviction, and his remarks to the jury show his opinion of the verdict.

Cook was immediately discharged, the Judge making no further comment. A statement made by the foreman of the jury after the adjournment of the court would show that the verdict was returned on purely sentimental grounds. returned on purely sentimental grounds.
When the jury first retired ten were
in favor of acquittal, their reason being
that in the event of a verdict of guilty being returned the sentence would be on the basis of the charge of manslaughter and that Cook would be too heavily pun-ished for his mistake. It was not until the last minute that the last of the two jurymen who stuck out for conviction on the grounds that the definite rules of the company had been broken by Cook was persuaded by the majority to agree to acquittal.

During the afternoon the Grand Jury returned a true bill against Despatch returned a true bill against Despatcher Wilkinson for criminal negligence, but it was decided to let that case stand over until the next Assizes, Wilkinson being released on his own bail of \$400. Cook was indicted on four counts: the first of which amounted to a charge of manslaughter, while the fourth charged him with having, through the omission to perform an act he had undertaken to do, caused grievous bodily injuries to Charles Jones and Henry

injuries to Charles Jones and Henry Howe. Before any plea was entered Mr. Robinette took exception to the fourth count. The Judge said he did not think the prisoner could be indicted on the last count at all, the case concerning the deaths of two persons concerning the deaths of two persons and not merely their injuries.

The Judge—He is either guilty of manslaughter or he is not guilty of anything, for death resulted. Before charging the jury, I will consider the question. He can be tried under the

common law of England without reference to the statutes for manslaughter.

Mr. Arnoldi, in his opening address, strongly dwelt on the fact that Cook and Kyle were fully notified of the number of the train they were to pass at Myrtle. That train was number 1,488. Another train altogether, numbered 1,492, was passed there, and Cook thinking it the train recorded in his orders went on, with disastrous results. A most important omission was the fallure of the despatcher's office to notify Myrtle that Cook's train was scheddled to pass train 1,488 at that point. There were over two and a half ommon law of England without refer ing until it was too late, and the only

hing left for him to do for a wrecking crew.

Despatcher George H. Wilkinson, To ronto, was the first witness called, and Mr. Robinette at once requested that he receive protection under the Canada he receive protection under the Canada Evidence Act. He swore that the train deepatcher's record showed that orders were issued, providing that "up extra 1.488" should meet the second section of train 50 at Bethany and the third section, that of which Cook had charge, at Myrtle. It was therefore necessary. at Myrtle. It was therefore necessary that provision should be first made for the meeting of 1,488 with the second section of train 50, and for that he called up Manvers, where the trains were to meet, and notified the operator. Then he tried to get Myrtle to provide for the meeting of 1,488 and the third section of train 50. He failed to get Myrtle, and went on to send train orders to the operator at Locust Hills.

operator at Locust Hill.
Wm. Henry Ivory, the despatcher who succeeded Wilkinson, told a dramatic story such as one oftener hears in melo-drama than on the stage of action. Wilkinson, it will be remembered, said nothing to him of having been unable to tell Myrtle that trains 759 and 1.498 must Myrtle that trains 750 and 1,835 must cross there, although a book was pro-vided for the entry of just such matters. Ivory was working on the wire to Myr-tle several times that morning, and could easily have given warning. About the several times that morning, and could easily have given warning. About 0.30 he discovered by chance that Myrtle had not been warned of the meeting. He then tried to catch train 1.488, but it had left the station next Myrtle. Then he called Myrtle and told what had happened. The agent there, hoping that the heavy grade outside of Myrtle might delay train 750, which was going to an inevitable collision with 1.488, tried to catch it on a velocipede. He failed, and the collision followed.

The pressure of work in the despatcher's office was so great that rarely a despatcher having failed to get the agent at the meeting place when the creder was first sent out have a chance to go back and complete it.

go back and complete it.

Frank E. Harrison, agent at Myrtle,

ply took his fireman's word that it was

Yes.

Could anyone have blamed you if you had stopped and made sure of the number? A. No.

Could anyone have blamed you if you had stopped and made sure of the number? A. No.

Reviving to Mr. Robinette, Kyle stated that his fireman said: "It's all right, Hughe; that's the train. Don't stop. If you do we shan't get up the hill."

No evidence in defence was called.

Mr. Arnoldi, for the crown, and Mr. Robinette, for Cook, addressed the jury, the latter holding that Cook had been guilty of no crime. He had made a mistake as to the trains he was to meet and had admitted it, but it was doubtful if the law ever contemplated prosecution in such a case. Let punishment begin higher up with the C. P. R. corporation. The operator at Myrtle had so many duties that he was away from his keys fewer hours that day.

Mr. Justice MacMahon, in summing up, wald it was only by strict adherence to the rules of the company that the lives and property of the public can be preserved, and if rules are not honestly lived up to a passenger's life is liable to be endangered at any moment. Proceeding he said: "It is not an error of judgment, but a neglect of duty with which this man is charged. If it were a question as to the adoption of one of two methods of doing a thing and an accident resulted it would be an error of judgment, and a man would be free of responsibility. But here is a positive order to do a particular thing, and it appears to me that it would have been the simplest thing imaginable to have adverted to the order in his possession and to have prevented the dreadful loss of life which occurred." His Lordship directed the jury, that the only count which they were to consider was that indirected the jury that the only coun which they were to consider was that in volving the charge of manslaughter.

SEWED ON HEAD.

DOCTORS SAVED LIFE OF MAN ALMOST DECAPITATED.

Bernard Rush Was Badly Injured in Elevator Accident-Largest Muscles of Neck Snapped-Over Twenty Nerves, Muscles and Blood Vessels Had to be Sutured.

New York, Sept. 30 .- Three surgeons at St. George's Hospital had a hard struggle yesterday to save the life of a man who was almost beheaded by an elevator in a building at No. 213 Front street. The patient, Bernard Rush while taking a load of fish from the first to the second floor, slipped and became wedged between the floor and the platform of the elevator. The elevator was stopped in time to save his head from being torn from the shoulders. At the hospital it was found that in addition to the large muscles of the neck being severed, several small arteries and veins were separated. The patient was conscious throughout the operation, which was performed without anaesthewhich was performed without sharest tics of any kind. Rush was powerless to move his head because the largest muscles of the neck were snapped in

two.

The physicans worked over the patient for nearly three hours, sewing to-gether blood vessels and various struc-tures of the neck. The jugular vein and the windpipe were not seriously in-jured. The neck was cut from ear to ear as cleanly as though it was done by a rasor.

ear as cleanly as though it was done by a razor.

According to the physicians, more than twenty-two blood vessels, nerves, muscles, veins and arteries had to be sutured. The operation was a tedious one, some of the vessels being so small that the finest catgut had to be used. The physicians said that the only thing that saved the man's life was that the head was forced backward. If it had been thrown forward it would have broken the spinal cord and several of the vertebrae, causing certain death. man is expected to recover.

TRAINMEN ARE NERVOUS.

Because of Prosecutions by the Government.

Toronto despatch: A large delegation of trainmen waited on Hon. Mr. Foy a the Parliament Buildings yesterday to protest against the activity of the Attorney-General's Department in the prosecution of railway men held responprosecution of railway men held responsible by Coroners' juries for accidents. The Attorney-General was presented with a memorial citing at some length the views of railway employees. It was recognized that as the head of the department he presides over Hon. Mr. Foy must enforce the law as it stands today. But the railway men held that they were entitled to liberal interpreta-tion of the law, and should not be treated as being guilty of criminal neglect as they claimed was done in many in stances, when such was not the case. One result of actions by the Crown in recent cases was that experienced men were leaving the employ of the rail-ways because of the feeling of nervousness that had arisen, and younger and less experienced men were taking their

to-day, the locomotive, without a hand at the throttle, rushed full speed to-ward the Jersey City terminal, threatening destruction to the train and its passengers. Fireman Fleming, noticing that the speed did not slacken at places Frank E. Harrison, agent at Myrtle, acknowledged having received order giving 1,494 right of way over Cook's train, but 1,494 having arrived at Myrtle and being in the siding, there was no need to notify Cook. Before Cook's train rrived 1,494 had been in the siding 40 minutes. Ignorant of the meeting arranged for Cook's train and 1,493 at Myrtle, he gave 759 a clear line.

Hugh Kyle, Cook's engineer, stated that he did not see the number of the train standing in Myrtle siding, but sim-

perce 125 car londs, compaged of 1.815 caluse, 1.155 hose, 1.94 sheep and hambs, with 150 calves.

Trade was brisk for good to choice estite, the percentage of which was small. The common to medium graces were also much at low prices.

Emporters—Designe reported no streight loads of caperture on each A few exports bulls subtle at \$1.55 to \$4.55 per cert.

Butchers—Piched hels of butchers sold at \$4.76 to \$2.50; come and common of \$4.76 to \$2.60; come and common dead, \$2.50 to \$3.60; come and common cattle, \$2.50 to \$3.60; come and common lands should be \$4.50 to \$4.60; come and common cattle, \$2.50 to \$3.60; come and common lands should be \$4.50 to \$6.50 he. storn, \$2.60 to \$3.75 for good; \$2.60 to \$5.00 he. storn, \$2.60 to \$3.75 for good; \$2.60 to \$5.00 he. storn, \$2.60 to \$3.75 for good; \$2.60 to \$5.00 he. storn, \$2.60 to \$3.75 for good; \$2.60 to \$5.00 he. storn, \$2.60 to \$3.75 for good; \$2.60 to \$5.00 he. storn, \$2.60 to \$3.75 for good; \$2.60 to \$5.00 he. storn, \$2.60 to \$3.75 for good; \$2.60 to \$5.00 he. storn, \$2.60 to \$3.75 for good; \$2.60 to \$5.00 he. storn, \$2.60 to \$5.00 per cw.

Sheep and lambs—The run was one of the largest this encount of \$4.00 to \$4.50 per cwt.

Host-Rossipts were light, about 1,150. Mr. Harrie reports the market easy, at unchanged quotations; selects, \$6.13% lights and \$6.50.

Bradstreet's Trade Review. The ues a big factor of trade. The feeling that the situation is slowly improving continues to grow. There is still a very great demand for money. Wholesale trade generally holds brisk. In drygoods it is now stated waterland trade generally. Montrea -Tightn ies better than at this time a year ago. A very heavy trade is being done in men's ready-made clothing. The output this season during the fall and winter will be very large despite the fact that prices show a general advance. The demand too, is particularly heavy for lines of quality. Cotton manufacturers have of quality. Cotton manufacturers have orders for far into 1908. Groceries are more active. Teas hold firm, Butter and cheese are firm, Exports of these lines continue light. Hides are weak in tone. light. Hides are weak in tone. Boot and shoe manufacturers are and good orders are coming forward for

> to move satisfactorily here. Wholesale trade is brisk and there is a general feel-ing of satisfaction regarding the outlook for future trade. In all lines of trade healthy conservative tone is notice able. The period of tight money and of slightly lessened briskness in some lines of activity have been a warning that has been taken to heart in a way that promises well for the trade of the country at large. Dry goods men report a brisk trade. The better lines of dress goods are in heavy demand. Prices are generally steady to firm. No decline is looked for in cotton prices. Orders to mills continue heavy. Grocers report an excellent bus-iness from the west and the northern country. Staples are in good demand and generally firm in tone. Sugar is firm. The demand for canned goods is active. The hardware trade holds a tone. Sporting goods and general win-ter lines are moving well. It is said here there will be rather less building going on a year from now, which will mean a somewhat less active demand for supplies. At the present they are in good demand. Country trade is fair and expected to improve towards next month. Country produce is coming forward in moderate volume and prices hold steady

Toronto-All lines of business continue

in many parts of the country ed considerable apprehension. It is not leared that the damage will have been sufficient to seriously affect the total relume of trade, but the effect will have

has gradually subsided during the past week and general trade has been but little affected. Wholesale lines are mov-ing well, general-orders being heavy from all parts of the province. Groceries are moving well and values hold firm. Can-ned goods are particularly so. There is a brisk movement in all lines of whole-sale hardware. General retail trade is brisk and collections are good. A good trade is being done in fruits. Almost all crops of small fruits are turning out well.

Hamilton—Wholesale trade there holds a steady tone. Retail trade is moderatively active, but in the country the movement is a little flow. Collections are fair. All lines of local industry continue active.

London—There is a brisk tone to all lines of business there. Wholesale goods

London—There is a brisk tone to all lines of business there. Wholesale goods are moving well and manufactories tere are well supplied with orders. Rétail trade moves well and the outlook for future business is bright.

Ottawa—General business continues estiffactory. The demand for winter wholesale lines is brisk. Retail trade is fairly active. Collections, however, are still a little slow. Country trade has a quiet tone. Produce is coming forward fairly well and values are firm.

IMPORTANT JUDGMENT.

No Crime to Import Aliens to Start a New Industry.

Mew Industry.

Montreal, Sept. 30.—Judge Choquest to-day rendered judgment in two important cases under the Alien Labor Act. By that Act any person or corporation who brings into Canada any alien to perform labor or service of any kind in Canada, or who knowingly assists or encourages or selicits the importation of any alien, is liable to pay a fine not exceeding one theusand dollars and not less than fifty dollars. Two prosecutions for infraction of this law were instituted before the Court of Special Sessions by Gustav Franc, president of the International Trades and Labor Council, and seven actions for seven penalties of one thousand dollars, each were instituted by the same complainant in the Superior Court against the Dominion Car and Foundry Company, Limited, and its efficers.

The company pleaded that the establishment of a plant for building steel cars was a new industry in Canada, that skilled labor for that purpose could not be obtained in Canada, and that they were consequently exempted from the provisions of the Act and obliged for the provisions of the Act and obliged for the provisions of any industry to be incompany to incompany to the provisions of the Act and obliged for the provisions of the Act and obliged for

were consequently exempted from the provisions of the Act and obliged for the prosecution of such industry to bring skilled steel car builders from the Un-

ited States.

Judge Choquet maintained this defence
and held that the manufacture of steel
cars was a new industry in Canada;
that the defendants had advertised in that the defendants had advertised in the Montreal newspapers for hammer riveters, and had made enquiries through their officers to obtain skiled labor for this purpose, without avail. The judge held that while importation and employment of aliens was prohibited for the protection of the Canadian workingman, the application of the Act could not be pressed so far as to cripple any new industry established in Canada requiring the employment of skilled labor and that it was not shown that any Canadian workingman skilled in this work had been prevented or deprived from obtaining employment.

DROWNED BOY

Because He Would Not Let Them Sail His Boat.

trade generally holds brisk. In drygoods it is now stated retailers' stocks are unexpectedly light owing to good brisk selling of summer lines during August. Orders for winter lines continue brisk and values hold firm in tone. Manufacturers of made-up goods report deliverturers of made-up goods report deliverturers of made-up goods report deliverturers. With him were his little sister and soveral other boys, three of them strangers. New York, Sept. 30.-Envious boys eral other boys, three of them strangers. The strange boys were racing pieces of wood across the tank, and they became jealous because Andrew's boat beat their crude craft. They demanded a chance to sail his boat, and when he refused to give it up, they pushed him into the tank. His sister screamed and the trio ran away over the roofs. Andrew's father dragged the boy from the bottom of the tank, but he could not be revived.

AVOIDING THE MINISTRY.

Statement by Pastor at Congregational Meeting.

Toronto, Sept. 30.—Something of a note of danger was sounded by Rev. Dr Warriner at the autumnal meeting of the Western District Congregational Asocia tion in Olivet Church vesterday, with re

for in Onver Cauren yesterday, while re-ference to the searcity of young mer who are entering the ministry.

During the evening session Dr. War riner made a strong plea in behalf of the college at Montreal, which, he said was as well equipped as any in Canada In an address on the "Present Possibities of Congregationalism." Rev. Edward Hamilton, of Grimsby, stated than it became the church to adjust itself to present-day surroundings. The Gospel he argued, had to be brought to mer of the time, and it had to meet moders

AN IMPOSSIBLE MONSTER.

British Scientists Discredit Story Fron Vancouver.

Winnipeg—Until the past day or two them has been the most confident feeling regarding future trade throughout Western Canada. The recent frost which arrived while grain was still standing to the calculation.

<u>anannananananananananan</u> The True and The False

"I thought every one knew that."
"Lady!" said Nelly, suddenly rising, and coming forward, and sinking again at Augusta's fast, "I came here to plead for my husband's pardon—for the parden of William O'Leary, now in prison under sentence of —"

inder sentence of ——"
The sight of Augusta's face and form uddenly froze the prayer upon the

widely froze the prayer upon woung wife's lip.

Augusta reeled and shivered as if unlar the effect of some stunning blow; and now her elbow rested on the table, wer head bent upon her hand, her ringests concealed her face, and her whole form bowed over the table and she mur-

form bowed over the table and she mur-mured, in a choking voice:

"Oh, God! is it so? Can it be pos-siblec Was only this wanting? You, Ellen Falconer! You married to this man ,and he to die so soon!"

So sudden and great was the distress of the lady that Ellen herself turned as

comforter, saying:
"But he is not to die, lady—he is innocent! We know that; but we want the reprieve to-night that the suspense may be over, and we may go home to-morrow and leave this dreadful place be-hind forever."

"Ch. Ellen! Ellen!" was all the lady

could say, bowed down in pity and in

grief.

"We know that he is going to be reprieved, because the governor has positively promised it, lady!"

"Oh. Ellen! Ged pity you, Ellen!" was all the answer.

But instantly Norah O'Leary, who, fill now, had stood near the door, at till now, had stood near the door, attracting but little notice, and supposed to be only an attendant of the young woman—Norah O'Leary came forward; and, speaking in short, quick gasps, she

To-night a last effort has been made by some of the first men in the State. I have been told that it has failed. I have no hope left but in you. You have great power with Daniel Hunter, I come to entreat you — to pray

"Alas! would to heaven 1 had the power you ascribe me! I would use it for your sake." Augusta's countenance expressed great sympathy with the sufrer: but as she entirely recovered her melf-possession, her manner seemed cold to the excited woman, who exclaimed: to the excited woman, who exclaimed:

"And you refuse to intercede for me?
You, a mother—and to have such a
stony heart for a mother's anguish! How
know you, woman, what may be the fate
of the babe in yonder crib?—how he may

sin and fall, and sue for mercy?" "It is a girl, thank God!" said Augusta, thrown into a momentary tremor by

this second act of bringing her idolized child into the wretched connection.

"A girl, is it? Then pray God, lady, to have mercy on you and on her! And show you, meanwhile, mercy to my child! For God promises mercy only to the merciful, and will visit the sins of the father upon the children!"

"The Lord of truth and mercy, who hears me now, knows that if I had the influence you impute to me. I would use

influence you impute to me, I would use it gladly ta save your son! But, alas; I have not the power. Only one thing in this affair influences Mr. Hunter—a sense of justice!"

"A sense of justice! then he believes

"And you believe it."
"I do not know the circumstances."
"Oh," said the mother, speaking rapidly, "these were the circumstances—strong enough against him, poor fellow! nurdered man, Burke, was a shop-r at St. Inez. in our county. He keeper at St. Inez. in our county. He insulted Nelly more than once, when opportunity offered. At last she complained to William. William is very, rash and hot-headed; he challenged Eurke William is very, rash Burke.

Burke refused to meet him. William then swore that he would thrash the villain, and if he resisted, shoot him. He left the house for the purpose. And the same night Burke was found shot through the ead, and William, on his return home, was arrested. You know the "A fearful chain of evidence, indeed!

nat could your son say in defense?".
The truth—that he went in search of Burke for the purpose of inflicting summary chastisement upon him, but that he never found him." "A weak defense, alas!" said Augus-

ta.
"A weak defense, lady, and yet those who know him best believe him innocent, who know him best believe him innocent, who know him best believe him innocent, who was that he

It was a relief that, just at this moment. Daniel Hunter entered the room. He came in by the private door communicating with his own apartments.

Noah O'Leary saw him when he entered, and tecognized him instinctively; she watched him when he stepped up to the side of that crib, and drew the curtains: she continued to watch him as he gazed upon the little sleeper with a softening countenance. It was, indeed, strange to see that whilom, grim, severe politician and statesman—that firm, immutable hear and grant my prayer, and spar hear and grant my prayer. the sleeping child! And the wretched Norah watched to draw a hopeful aug-ury from that tender mood! Drawing the curtains gently together, Daniel the curtains gently together, Daniel | Hunter left the crib, and came forward

pale children is magical.

by little folk.

STATES AND THE STATES first time, her two visitors, whom he evidently considered to be women of humble life—probably seamstresses in distress, or something of the kind—hemorely nodded a kindly acknowledgment of their presence, and then, standing by his wife, entered into conversation with

her.

It was only for a moment that he stood speaking with Augusta, and then the earnest, elaquent eyes of Augusta turned from the face of her husband, turned from the face of her husband, and fixed themselves upon the women standing near. He understood and followed her glance, and instantly his quick perceptive faculties received the truth, and, thinking within himself: "This is another trial, and the most series." ous one yet, he inquired, in a kind tone, "Well, my good women, what is

"Oh, sir," exclaimed Norah O'Leary, sinking at his feet, and raising her hands and strained gaze to his face. "Oh, sir! prayer. I am a poor, old, heart-broken mother, come to beg for the life of my only child. Sir, I have been told that you have rejected every petition for his pardon. I hear that you have turned away from the pleadings of the very greatest of men in the State? Yet you will not turn away from mine? You will not turn away from mine? You will not see a grey-haired woman at

rising pity of his heart; but his manner rieing pity of his heart; but his manner was compassionate and reverential, as he stooped and gave her his hand to assist her to her feet, and said:

"Rise, madam, I beg of you."

"You pardon my son?" she asked, with a wild, appealing gaze, as she grasped his hands, but remained on her knees.

"Madam," said Daniel Hunter, in a grave, sorrowful voice, "I feel at this grave, sorrowful voice, "I feel at this the tortured heart of Norah.

a wild, appealing gaze, as she grasped his hands, but remained on her knees. "Madam," said Daniel Hunter, in a grave, sorrowful voice, "I feel at this moment a pain only second to your own "Oh, do not utter what you were

about to say! You, and you only, can save my child You have so much powmy God, that any human being er. Oh, my God, that any human being should have power over my one child's life, to take it away at his pleasure! Oh, sir, have mercy! Oh, grant me my child's life, for you can do it! You can do it by only writing your name. Good heaven, when I think of the horrible power that resides in this hand! this hand of yours! You have but to take head of yours! You have but to take a pen in it and make your autograph, and my son is free to live and be happy. Do it,

son is free to live and be happy. Both, sir. Do it—oh! where is there a paper and ink? Lady, won't you send for it?" And so wildly, incoherently she pleaded, as they who sue for life.

Augusta looked on in the deepest distress, and turned her eyes occasionally toward the distant form of Nelly, who

Daniel Hunter saw the distress of his wife, and, stepping to her side for an instant, said, in a low voice:

stant, said, in a low voice:

"Retire, my dearest love; your presence here can do no sort of good, and this interview grows to painful for you."

But Avgusta mournfully shook her head, saying, in a whisper: "I will not leave them, if you please, Mr. Hunter!"

Daniel Hunter did not insist, but came back to where Noah O'Leary still knelt, and once more attempted to raise her. and once more attempted to raise her, saying:

sake, rise." "Never! while my boy lies condemned

to die," said Norah, wildly.
"This is most distressing to us all, besides being perfectly unavailing—"
"Oh, sir, do not say that!" exclaimed
Norah, interrupting him suddenly; "do
not, sir! oh, sir, I implore you by the
love you bear your beautiful wife, to
bear with me farther. You word not suffer her to be pained, even by the sight of another's woe; oh, sir, by that tender care of her, I entreat you to pity me! Sir, this broken, gray-haired wo-man at your feet, was not many years ago a wife beloved and cherished; but who cared for her lives in his grave; and now the heaviest storms of sorrow

beat upon her bare head, and there is none to pity and to save!"

Daniel Hunter was deeply moved; with all his salf-control bis countenance still betraved the greatest mental pain. At length she spoke again:

My child is doomed to die a murderer's horrid death-my child, who is even now as innocent and-God pity him!-as simple and as harmless as the babe in yonder cradle! Oh, Daniel Hunter, by the love you lavish on your child, pity a wretched mother's heart. My love is as great, my hopes were once as confident for him who lies in yonder cell, as peace in youder crib! Oh, Daniel Hunter, by all the fond, high hopes embarked in that babe's life and future fortunes hear and grant my prayer, and spare my child." And in the abjectness of her ruler, gazing with so soft a smile upon the sleeping child! And the wretched grief and supplication, she cowered and grovelled at his feet, and then lifted her clasped hands and strained eyes in the

ther. Augusta turned deadly pale, and reeled, and caught the dressing table for support. A conflict of many emotions was overpowering her strength. It was not only an agonizing sympathy with the suffering mother, but it was a vague, unreasoning fear of her. Every time, when in the course of this interview, the dark, desperate-looking woman had in any way alluded to her sleeping babt, Augusta had trembled through all her frame.

Daniel Hunter, seeing her great disturbance, without divining the whole of its cause, stepped up to her and said.

"Augusta, you should have retired

its cause, stepped up to her and said"Augusta, you should have retired
when I recommended you to do so. This
scene is too much for you. Go at once."
"You are right," said Augusta, in a
faltering voice. "I will go."
Daniel Hunter's face was pale and
stera. He felt the necessity of bringing
this scene to an instantaneous end. He

"Mrs. O'Leary, I have not the power to save your son, without a sacrifice of principle, and that I will not make."

"You would make it for one of your own! Yeu would make it for one of your own!" she cried, in a passion of grief.

grief.

"No. Understand me, poor woman! I have said upon a former occasion, and I repeat—if it were my brother in your son's place, and if my aged mother were here at my feet, praying for her child's life as you pray, I should act as I do now. I should refuse her prayer as I refuse yours!"

"You would not! Tiger-heart as you are you would not!"

are, you would not!" "I would, so help me heaven!"

"He should die!"

"And you will not—oh, my Godi you wil lnot save my son?"

"I campe!"

"I cannot." With a terrified shrick, the wretched woman threw up her arms, and fell prone to the floor.

An hour after that three foot passen gers, weary in frame and crushed in heart, took their mournful way toward your feet praying to you to spare the life of her only son, and spurn her away to madness? Oh! no, you will think of your own mother, and pity the widow's grey hairs and broken heart!" She paused, but still held up her strained gaze to his face in silent supplication.

Daniel Hunter kept sternly down the rising pity of his heart; but his manner whose sorrowful task it was to convey whose sorrowful task it was to convey

the tortured heart of Norah.

The streets had been very dark, for the moon had not yet rison; but suddenly, as by a given signal, every window glared with light. It was the illumination in honor of the Governor. And every house, every street, the whole city, was in an absolute blaze of splendor! And at the signal, as it were, every house emptied itself of its excited inmates, and speedily the streets were filled with crowds as numerous, as gaily dressed, as joyous and as noisy as those of the day.

of the day.
Our sorrowful pilgrims made their way
as well as they could through the merry, jostling multitude.

At length they reached the jail. The

warden was anxiously awaiting them, and came forward to meet them, asking, breathlessly: "What hope?"
"None, but in Heaven," answered the

pruiest. "Then in his turn, he inquired: How is your prisoner?" "Full of confidence, poor boy! waiting impatiently for his reprieve!"
"Heaven support him in the terrible disappointment. Mr. Thomas, let me immediately into his cell. I am charged

by the Governor to inform him of approaching death!" 'A very sorrowful duty, sir, and I am truly grieved that you should have the pain of performing it. Do these women accompany you to the cell?" inquired the warden, in a subdued tone, pointing to where Norah O'Leary stood propped against the wall, with her arms and head

hanging down, in the very desolation of misery—and Nelly sat upon the ground, sobbing like a heart-broken child:
"No, I think not," answered the priest, in a low whisper. "I think it best that I should break the matter to the poor lad alone. Then, when that is done, and I have had an opportunity of talking to him, and, it may be, calming and preparing him a little, I will send for them."

The warden procured the keys, and the

priest went to Norah, and, taking her arm, said: "Mrs. O'Leary, I wish you to go into Mr. Thomas' room, and wait there till I send for you. I am going to your son's

Norah liited her inflamed and straining eyes in an appealing gaze to his But he replied to that silent pleading

But he replied to that shert pleading by eaying:

"Mrs. O'Leary, it would greatly impede all the good I might do your son, and very much distress him, besides, were you to accompany me now to his presence. Take your daughter into the warden's room, and wait there till I send for you."

With one of those dreadful groans which, once heard, might never be forgetten. Norsh turned to obey.

gotten, Norah turned to obey. CHAPTER VI.

When the priest reached the warden's room, an hour later, he found Norah standing midway the floor, with an eager, almost frenzied look from her eyes. almost frenzied look from her eyes.
Nelly sat at a table with her arms
thrown over it at full length, and her
head bowed upon them.
"You have told him, Father?" asked

"You have told him, Father" asked Norah, in a hollow voice.

"Yes, my daughter, and he bears it with the resignation of a Christian. Imitate his pious fortitude, my dear daughter, rather than disturb it by giving way to your feelings. He is ready to see you," said the good priest, and, going to Nelly, he touched her on the shoulder, saying: "Come, my child! come, my poor girl! let me go with you to William's cell."

Nelly lifted up her head and wiped the tears from her wasted cheeks, and joined her mother, and they followed Father Goodrich out. When they enter-ed the cell, they found O'Leary on his knees by the side of the cot. He remainthat mushrooms, if grown under size that mushrooms, if grown under size to finish his prayer, and then arose, But Nelly overset the composure of the whole party by throwing herself upon Wilmake an impression on a heart of stone.

JAP A SPY sionate burst of grast. Avral stood seaming against the wall for support, and her bloodless cheeks and stramed,

and her bloodless cheeks and strained, yet sunken, eye, and ghastly countenance, spoke of a despair so deep and utter, that the passionate sorrow of Nelly seemed but a childish grief beside it. O'Leary gave all his attention to the task of soothing and comforting his young wife. But every word he spoke, and every caress he gave her, seemed only to open a fresh fountain of tears any sobs. At last:

"Speak to her mother" he said. "do

anr sobs. At last:

"Speak to her, mother," he said; "do speak to her, and try to quiet her."

Norsh came to her side and took her away, and when she had set her down in the chair at the other end of the cell, she said, in a deep, hoarse voice:

"Nelly, hush! If you love him truly, you would not distress him so! Keep hoarse woman! There well hands your tears woman! There well During the recent Japanese troubles

back your tears, woman! There will be leisure enough to shed them after-ward, when they can hurt nobody. With a few convulsive, sufficating tobs, poor Nelly swallowed her tears

and assumed an unreal composure.

"Father," insuired Norah of the priest,
"is this understood to be our last visit

—our farewell?"
"I do not know, my poor child, it will depend upon William himself, I suppose. But I should advise that it should be. But I should advise that it should be. I would have the remaining hours of the boy undisturbed by thoughts of earth, pure even as family affection is. I will-speak to him." And the father went to the cot where O'Leary sat exhausted, after his efforts to console Nelly. "William," he said, "would you like that this should be your parting interview with your family, or would you prefer to see them again in the morning?"

"Oh no, Father, oh no! It is too painful for them—they suffer too dreadrully. No, Father, let the bitterness of death be passed to night, and let the remaining

be passed to-night, and let the remaining hours be given to Heaven."

"You are right, my son, perfectly right, and may these last remaining hours be blessed to your soul's highest good!" said the priest, and then he went to Norah and said: "Mrs. O'Leary, it is as I expected. Your son wishes that this should be the final interview-but why not speak to him yourself, my dear

"I cannot! I cannot! Then this is

"Yes."

"Nelly," she said, stooping to speak to her daughter in a low voice, "if you really do love your husband, prove it now, by your self-control! Go to him and receive his last directions, for in something less than an hour we must leave him; and we shall not see him again in life."

gain in life."
Gasping and sobbing, and gulping her ears, Nelly went to the cot, and sat own by William, and dropped her head down by William, and dropped her head upon his shoulder, saying: "Oh, Willie, tell me if there is any

think in the world you would have me to do, and I will do it! Oh, Willie! it will be the only comfort I shall have left in the world when-you are gone!" And here a fresh burst of tears threatened to overtake her, but she struggled and gasped, and repressed them. "Tell me, Willie, tell me what I can do for you, and if mortal woman can do it, I will, be it what it may." (To be continued.)

EGYPT'S GREEN SUN.

Peculiar Phenomena Commented Upon by
Ancient Mile Dwelfers.

The appearance of green light at sunset, like many other phenomena supposed to have only recently attracted
scientific attention, was noticed and commented upon by the ancient Egyptians,
and more periodally see because in the and more particularly so because in the clean air of Egypt the tints of sunset are

As the sun there descends nearer and As the sun there descends nearer and nearer to the horizon and is immensely large and flaming, it becomes, for an instant, a brilliantly green color, and immediately a series of green rays suffuses the sky in many directions, wellnigh to the zemith. The same phenomenor appears at sunrise, but to a smaller extent. Sometimes, just as the last part of the sun's disk vanishes, its color changes from green to blue, and so also after it has disappeared the sky were the horizon often is green while also after it has disappeared the sky near the horizon often is greeen, while

This was alluded to in Egyptian writ-ings. Day was the problem of life and night that of death, and the nocturnal sun, being identified with Osiris, thus rendered Osiris king of the dead. The setting sun was green; therefore, Osiris, as the nocturnal deity of the dead, was painted green. The splendid coffins of the high priests of Ammmon frequently depict the green sun and the funeral dei-ties are all colored green.

There are innumerable instances in the Egyptian relics of representations to death being colored green. relative The practice undoubtedly arose the green tints of sunrise and su The green sun disk is referred to 5,000 years ago, in Egypt. This is the earliest known human record of an astronomical phenomenon.

What She Called Him.

"Not much," interposed a third; "it's "Ah," interrupted another, "here comes

Bruce Cornwall. He's a prominent mem-ber of Stanford parlor, lawyer, and all that; and, besides, he runs a machine, so cautioned one of the group "Bruce has only been married a few weeks and the thing that would please

him most would be to ask him how Mrs. Cornwall pronounces 'chef-fear.'" "Hello, Bruce, old man! Glad to see "Hello, Bruce, old man! Glad to see
you. Accept my congratulations! Say,
by the way, what does your wife call the
fellow who drives her auto?"

"Well," and Cornwall crimsoned,
"" and Cornwall crimsoned,
" and I making corns together and I

we're all native sons together, and don't mind telling you. She calls him 'dearie.'"

When Mushrooms Are Dangerous. During an inquiry into the death, from eating fungi, of a girl at Reading, England, the other day, Dr. A. C. Mayor said it should be made generally known mushrooms, if grown under elm

FOR RUSSIA.

TRAITOR TO HIS COUNTRY, HE WAS HACKED TO DEATH.

Discovered in Tokio-Attempt of Russianized Japanese to Secure Naval Secrets-The Spy Killed by an Accomplice After He Had Betrayed

on the Pacific coast various persons hought they discovered Japanese spies taking measurements and making notes about the coast defences thereabouts. The Japanese War Office may have a more or less perfect system for gathering information about the defences of other countries, but it is a safe guess that it never before had to investigate the opertions of one of Japan's own people in spying on Japan's own forts in the interests of a foreign power. The Tokio Asahi prints an interesting story of this

Asahi prints an interesting story of this unique treason of a Japanese.
Seji Mayeda, a former instructor in the Oriental Languages School of Vladivostok, and a naturalized Russian citizen, dropped into Tokio about two months ago, after a continued absence of more than ten years. Ha was highly educated and passed among the gentlemen of the better class in the Tokio political clubs as a personable man of refinement. Because he spoke Russian fluently and had lived many years in Siberia it was not considered a matter of suspicion that Mayeda spent a great defit of his time with Russian Military Attaches of the Legation.

the Legation.

About the same time that Mayoda came to Tokio another man from Siberia, Kuzuki Imamura, came down from the Japanese fisheries at Nikolaevsk in the Primors' Province, where he had been varieties gives the war. He went to his working since the war. He went to his home in the slums of the city and nobody knew that he ever met Mayeda, the gentleman, or that he knew anything about Mayeda's movements.

That night when Mayeda and the coolis went to Shimbashi station to take the train for Yokosuka an Ashai reporter and a detective followed. Mayeda thought to throw possible process. to throw possible pursuers off the track by taking a Shimonoseki train and changing at a junction beyond Volce by taking a Shimonoseki train and changing at a junction beyond Yoko-hama, but the reporter and the detective

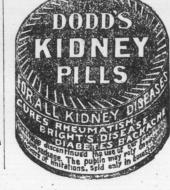

two pursuers muffled their faces their kimono sleeves, as the art of dis-

The suspect and his informing servant spent the night in riotous drinking. The reporter and the detective crawled into a nearby room to hear what Mayeda might say through the thin paper shoji. He said enough to convict him.

The next morning when the spy hap-pened to catch sight of the two trailers he decided that it was getting warm for him, and tried to double on his tracks, going for a time to the Yoshiwara on the outskirts of a neighboring town, then trying to make a quick loop back in the neighborhood of the forts. All the time the faithful reporter and the detective,

faces presumably still muffled, followed like shadows.

Mayeda evidently grew suspicious, for he gave up the trip through the fortification zone on the following night, and returned to Tokio. There it was that his cerear of treson came to a sudden his career of treason came to a sudder end before the intervention of the police Kuzuki Imamura, the coolie who had known Mayeda in Siberia and who had come down from the fisheries to live in the slums of Tokio, had got an intimation through some channel that the police believed that he and Mayeda were in the same plot. On the same day that Mayeda returned after the fruitless Yokosuka trip Imamura went to May-eda's home and stabbed him a dozen

finally dropped from exhaustion and soon died. Imamura gave himself up, saying that he had done his country a good service in killing a spy of the Russians.

The police subsequently searched Mayeda's papers and found confirmation of their suspicions—that he was trading in military secrets. They also found evidence enough to convince them that the patriot Imamura was in the plot with the gentleman Mayeda. So Imamura will get the punishment that Mayeda escaped.

HUNTING THE MISSING LINK.

German Scientific Expedition Will Look

Dr. Max Moskowski, a German scientist, has arrived at Java in charge of an expedition sent out to find the "missing link" between man and ape. The dition is being financed jointly by the Royal Prussian Academy of Science and the Dutch Government, and Dr. Moskowski, who is a zoologist. He is ac-companied by geologists, engineers and an escort of troops provided by the Dutch authorities. Java was chosen as the destination of this expedition be-cause a Dutch scientist, Professor Du-bots, said he found the "missing link" bois, said he found the "missing link" there some twenty years ago. In the course of his excavations in Java Dubois unearthed the remains of a savage being which could have been neither man nor ape, but something between the two. These remains showed a striking resemblance to those of primitive man belonging to the Neanderthal race found in Wurtemberg. Dr. Moskewski will begin his excavations in the valley of the Solo River, near the volcane Lavu, and will carry on the work for at least a year in the hope of finding the lost link.

MONTHS OF AGONY

A Severe Case of Rhenmatism Cured by Dr. William's Pink Pills.

Primore: Province, where he had been working since the war. He went to his home in the slums of the city and nobody knew that he ever met Mayeda, the gentleman, or that he knew anything about Mayeda's movements.

On Aug. 9 a Japanese coolie of the low class visited the office of the Toklo Asahi and desired a word with the news editor. When the coolie had that functionary carefully secluded in an inner room he told him that if a reporter from the Asahi would follow Mayeda, the gentleman and club man, on the train to the Yokosuka naval station that night he would learn that the Russianized Japanese was a traitor and that he was preparing reports of the defences at Yokosuka for the Russian Government.

Maruo, the coolie, told the Asahi editor that Mayeda had gained his confidence by hiring him as a servant and that the day before, Mayeda had asked in to take a night trip to Yokosuka, promising that for the work he would dethere would be large rewards. Maruo, had suspected his master of being in league with the Russians because of his constant association with the Legation staff officers, and this Yekosuka and the notified the central office of the police.

That night when Mayeda and the coolle went to Shimbashi station to take the train for Yokosuka an Ashai immediately assigned a man to follow Mayeda and then notified the central office of the police.

That night when Mayeda and the coolle went to Shimbashi station to take the train for Yokosuka an Ashai reporter and a detective followed Mayeda thought went to Shimbashi station to take the train for Yokosuka an Ashai reporter and a detective followed Mayeda the coolle went to Shimbashi station to take the train for Yokosuka an Ashai reporter and a detective followed Mayeda thought to the province of the police.

That night when Mayeda and the coolle went to Shimbashi station to take the train for Yokosuka an Ashai reporter and a detective followed Mayeda should the province of the police.

That night when Mayeda and the coolle went to Shimbashi station to take th est touch of rheumatism since. The change they have wrought in my case is simply miraculous, and I can strongly recommend Dr. Williams' Pink Pills to anyone suffering from any form of rheu-

Rheumatism is rooted in the blood. chama, but the reporter and the detective were not fooled.

When Mayeda stopped overnight at an inn near Yokosuka the sleuths on his trail camped there also. The Asahi's account says they were suitably disguised, but this probably means that the two pursuers muffled their forces with anaemia, headaches and backaches, neu-ralgia, indigestion and the secret all-ments that make miserable the lives of so many women and growing girls. Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50, from the Dr. Williams' Medicine Co., Brook

BACKING IN THE FIRE TRUCK.

ville, Ont.

Nice Job Performed Skilfully by the Driver and the Tillerman.

The nicest job to be seen in the way of backing up is that done in getting a fire truck into its house. It is really done by two men, the driver and the tillerman. two men, the driver and the tillerman.
Coming alor down the street, back
from a fire, with the big team trotting
briskly, the driver goes on past the door
of the truck house to a point which to
the layman seems much too far beyond
it, but which the driver knows by experience is just the right distance, and
there, and always at exactly the same
point, he holds up his team. Then instantly without any doubt or hesitation

point, he holds up his team. Then instantly without any doubt or hesitation he begins backing.

It might seem as though backing from where he is he would simply back the other end of the truck past the door of the house, but here is where the expert tillerman comes in. The tillerman guides that end, and he guides it surely and easily around to point in at the truck house Yokosuka trip Imamura went to Mayeda's home and stabbed him a dozen times in the neck and body with a short sword.

Even when Mayeda tried to escape down the street, the coolie followed, hacking at him with the sword. Mayeda

There were only inches, and very few of them, between the ends of the long ladders and the jamb of the door, but there was room and to spare with such a man at the wheel.

man at the wheel. so foot by foot the truck goes rapidly back into the house, with the driver all the time swinging and straightening his fine and well-trained team, and be fore you realize it half the length of the great truck is in the house and the team is now square in front and backing, backing, steadily, and in a moment the truck is standing straight and true in its place within and the harness has been hooked and hoisted up and the horses are trotting off to their stalls.—

New York Sun. Boyce—You didn't spend much time at the seashore. Joyce—No, but I spent everything else.

The Late Daniel C. Wiltse

Daniel C. Wiltse, an esteemed resident of Athens, died at his home, Main street, on Friday last, in the 72nd

year of his age. He was a son of the late Martin Wiltse and was born and always resided in this vicinity. In the business years of life he followed farming successfully and retired a few years ago to his comfortable home in Athens to enjoy the rest that a well tearned competency ensures. A man of quiet habits, he never sought prominence in public affairs, but by those who knew him best he was highly esteemed.

The funeral service was conducted in the Methodist church on Saturday tics. Good for feverish children, 48 printed in Tiffany Text or Invitation
