

THE ACADIAN.

WOLFVILLE, N.S., JULY 3, 1914.

Our National Birthday.

The Dominion of Canada was 47 years old on Wednesday, July 1st, 1867, the confederation of Nova Scotia, New Brunswick, Quebec and Ontario became an accomplished fact, and Canada started on her journey as a nation.

A few facts regarding the growth and development of the Dominion should be of interest.

Canada is but a child among the nations. Only forty seven years have elapsed since her birth and divided provinces combined their fortunes to build a new British nation in America.

Through stress of racial, religious, financial and commercial strife the Federal Union has passed unshaken.

The vast regions of the North and West have been acquired, opened to settlement by thousands of miles of railway, and peopled with a million and a half of souls.

Two sister colonies on the seaboard, Prince Edward Island and British Columbia, have been won to the cause of Union, and three great daughters of the plains, Manitoba, Saskatchewan and Alberta, have sprung up to complete the group of nine great Provinces which lead the way in the world conquest of peace and plenty.

Canada has demonstrated her possibilities, and now offers welcoming arms, free lands, just laws, broad education and religious freedom to the world wide recruits who yearly flock to her standard and share in the bloodless conquest of an empire the vastness of whose riches can only be surmised.

Although Canada's greatest wealth is to be found in her boundless opportunity and her developed resources yet in other things which older nations treasure she is already rich.

Eight million people, drawn from that element in all races which combines the courage, hardihood and enterprise of the pioneer and conqueror; 35,000,000 acres of growing crops; 30,000 miles of railway; canals which carry 44,000,000 tons of traffic per year; 14,000 post offices, handling 600,000,000 communications per year; 35,000 miles of telegraph lines; 400,000 telephones; churches and schools wherever they are needed; colleges and universities in every province, and an external trade now far surpassing a billion dollars per year—these are some of the indices of Canada's achievements in self-development.

Canada is becoming widely known as a great world source of raw and partly manufactured products. Her grain, lumber, minerals, fish and furs each year contribute increasing supplies for the homes and workshops of Europe. To day her production of these materials exceeds all past records, while her quick development as a manufacturing country claims for her the attention of the world's buyers of finished products. Her farm produce reaches more than \$600,000,000 per year, her forest yield \$180,000,000, her mines \$130,000,000, her fisheries \$15,000,000, while of manufactured goods, her pulp, paper, vehicles, machinery, agricultural implements and leather hold honorable place in the markets of foreign lands. With her forest and mineral resources as yet but partly developed, her great water powers only beginning to be harnessed, her splendid transportation systems and her unrivalled situation between the markets of Europe and the Orient, Canada's productions are sure to increase beyond any present means of estimation.

Editorial Notes.

Under the Agriculture Instruction Act of last session, Nova Scotia's share of the \$800,000 Federal Grant, on a per capita basis, will be \$60,144 this year.

The provincial elections in the province of Ontario on Monday resulted in the return of the Whitney government by practically as large a majority as was in the last house.

With the last issue of the Hants Journal the publisher, Mr. James J. Anslow, retires from active journalism, after a period of continuous work extending from June, 1856. His son, Mr. Harold S. Anslow, is taking up the work left down by his father. Mr. Anslow has been a good news paper man, and the fraternity generally will wish him many years of well-earned leisure.

Monday was Declaration Day at Kentville for the election taken for the repeal of the Scott Act in this county. Returning Officer J. W. Ryan held his court and declared the result of the vote as follows:

For the Act.....1481
Against the Act.....1904
Majority against the Act.... 423
There were twenty three spoiled ballots, making the total vote polled 3408.

According to our understanding of the law governing the operation of automobiles many of the drivers of cars in this vicinity are taking unnecessary chances of accident and rendering themselves liable for heavy damages in case an accident should occur. We have frequently noticed well after night fall cars running at good speed without any lights. The law requires, we believe, that front lamps be used on all cars must carry lights. In the matter of passing lanes and crossing streets we note that many drivers very seldom make use of the horn or give any notice of their approach.

Missionary Summer Conference.

WOLFVILLE, JULY 24 31 1914

The third annual Missionary Conference for the Maritime Provinces, under the direction of the Missionary Education Movement, the Movement in which the various Denominational Missionary Boards unite, will be held in Acadia College, Wolfville, July 24 31.

Eight of these conferences are being held this season throughout Canada. These Missionary Conferences or summer schools have come to be centres of remarkable interest and influence. Former delegates will tell you that of all the experiences of the year, those they have enjoyed at these conferences are the most inspiring and helpful. The aim is to train leaders for the local congregation, to discuss methods of Missionary education, to give a vision of world conditions and to relate the individual life of those needs.

The program will include as its chief features:

(a) Bible Study, under the inspiring leadership of Professor Falconer.

(b) Mission Study, conducted by experts.

(c) Open Parliament, for the discussion of methods of work in the various departments of the local church.

(d) The Missionary Hour, when missionaries from widely separated fields and representing different denominations will tell the story of their respective work.

(e) Recreation. The afternoons are devoted entirely to rest and recreation.

(f) Twilight talks on Life Problems.

(g) Platform Meetings, when inspiration addresses, dealing with various phases of the Missionary Task of the church, will be given by outstanding representatives.

Among the leaders already secured are: Professor Falconer, of Halifax; Mr. H. W. Eames, New York, Educational Secretary of the Missionary Education Movement; Mrs. Chas. F. Chase, New Jersey, an outstanding leader in Women's Missionary work; Rev. J. C. Robbins, Candidate Secretary to the Student Volunteer Movement, who has spent some years in missionary work in the Philippines; Rev. H. C. Priest, Canadian Secretary Missionary Education Movement; Professor Spidle, of Acadia and other representative leaders, in addition to missionaries on tour through from various fields.

The uniform testimony of those who have attended these conferences is that pastors, Sunday School superintendents and teachers, leaders in Young People's Societies, Members of Church Missionary Societies, workers in Mission Circles and Bands, receive inspiration and training along missionary lines, which cannot be secured at any other gathering. As many of the delegates combine the Conference with their vacation special attention is given to the recreation feature. For a happy combination of study and recreation, employment and restfulness, pleasure and profit, for a week's outing at a moderate cost, no finer opportunity can be brought with in reach.

For programs and full information write to Rev. M. E. Fletcher, Box 299, St. John, N. B.

Presbyterian Notes.

The Presbytery of Halifax will meet at Casard in the Presbyterian church on July 27th at 2:30 p. m. In the evening a public meeting will be held at the same place to celebrate the ministerial jubilee of Rev. M. G. Henry and Rev. Andrew Burrows. Addresses will be given by men prominent in the Presbytery and familiar with the work and worth of these two faithful servants of the church.

On the following morning, July 28th, a meeting will be held in Kentville when the corner-stone of the new church being built there will be laid. In the afternoon, at 2:30, a public meeting will be held in Wolfville for the formal laying of corner-stone of the new Presbyterian church. The program of the service will be as follows:

Prayer by Rev. Dr. Annsand, Missionary to the New Hebrides. Singing, 100th Psalm. Scripture reading, by Rev. Anderson Rogers, D. D. Address by Rev. John Forrest, D. D., Ex-Moderator of the General Assembly.

Laying of the Corner Stone and address by Prof. James Falconer, D. D., Moderator of Halifax Presbytery.

Prayer by Rev. John McMillan, D. D., Clerk of the Halifax Presbytery. Singing, "Oh, God, of Bethel." Benediction.

During the afternoon the ladies of the church furnishing a city will serve tea on the grounds of Mr. E. I. Gould.

Gasoline at 25 cents per gallon. In 5 gal. (or more) lots, 30 cents in less than 5 gallons. A. V. RAND'S.

RAPID TRANSIT VIA INDIAN MOTORCYCLES

When you own an Indian you possess your own railroad or trolley line. You are independent of schedules, you can make your own time tables, start when you please, ride as far and as fast as you like.

Mounted on an Indian you have the assurance of ample power, perfect brake control, absolute ease over the roughest roads and trustworthiness of every mechanical part.

The Indian twin motor has a reserve power that is equal to any demand that can be made upon it. A twist of the wrist gives it any speed from 4 to 60 miles per hour.

The smooth-acting cradle spring frame, the greatest comfort feature ever devised, absorbs all road shocks and vibrations.

All models are equipped with foot boards. The new Indian models for 1914 retain the many mechanical and comfort features which have given the Indian the supremacy it enjoys today. In addition they embody many new points of excellence.

Come in and get a demonstration of the only machine with the electric equipment.

FARMERS

THE DRAIN TILES

manufactured by the Nova Scotia Clay Works, Limited, are made at the Elmdale plant of the Company.

The 'Clay Worker', the leading clay worker's trade paper of the United States a short time ago in speaking of Clay Products plants in various parts of the country made the following reference to the Elmdale plant of the Nova Scotia Clay Works, Limited.

"The quality of the clay at Elmdale is without doubt the finest clay in Canada and the products manufactured by this Company has gained a reputation which is second to none."

This Company is manufacturing by the most modern equipment drain tiles that are giving the utmost satisfaction to farmers wherever they are being used. Send for price list to-day.

A Little Time, a Very Little Money and our Beautiful New Wallpapers Will Work Wonders

Nobody can afford to let the walls of any room stay faded, soiled and shabby with the splendid values we are offering in 1914 Wall Papers.

Here are papers of wonderful beauty and quality including the latest novelties of the new season, and yet all are priced within the reach of everyone.

If you have the idea that such beautiful papers must be costly come in and see them and get prices. You will surely be pleasantly surprised to find what you figure it up how little it will cost to entirely redecorate several rooms.

This cost you will soon forget but the enjoyment of the Wall Papers will last for a long time to come.

Local Happenings.
See posters for attractions at the Church Street Garden Party, July 8th.
The Kentville Band (45 pieces) at the Church Street Rectory Grounds, on Wednesday evening next.
The R. A. E. Club will meet on Monday evening next at the home of Mrs. J. W. Vaughn, Summer street.
Don't fail to attend the Tea to be given by the ladies of St. Andrew's church next Wednesday afternoon.
JUST RECEIVED. Empress of Ireland memorial post cards at A. V. RAND'S.
The congregation of the church of St. John are holding a Garden Party at the Rectory Grounds, Church Street, on Wednesday evening, July 8th.
Just a pleasant drive to the Garden Party, Rectory Grounds Church Street, next Wednesday evening to hear the Band and see the grounds beautifully lighted and all the other various attractions.
Call and let us explain why you should use B. & S. goods.
F. G. GODFREY, Hardware.

The Women's Christian Temperance Union business meeting will be held this afternoon at 3:30 o'clock, at the home of Mrs. J. W. Vaughn. Members are requested to be present and strangers are invited to join.

Mr. A. T. McCoull has recently purchased the property on Gasperau avenue opposite where he has been residing and will build a fine bungalow residence for himself thereon. Mr. Ernest Ragles will have charge of the work.

Mr. J. L. Franklin has sold his property on Scavien avenue to a lady from Cape Breton, who is coming to Wolfville to reside. Mr. Franklin has purchased the old Elder place and will build in the near future on the new street on the south end of that property.

Gasoline engines and equipment put in first class order at the WOLFVILLE GARAGE. Now is the time to bring them along and get them ready for spring.

Dr. Rosch has purchased from Mrs. (Capt.) Rose the fine dwelling on Linden avenue, now occupied by her. We understand Mrs. Rose and family will leave Wolfville the first of August to take up their residence in California. Many friends will regret their departure from our town.

Look! Think! Listen! After the laying of the Corner Stone of the new St. Andrew's church, on Wednesday afternoon, July 8th, at 2:30 o'clock, afternoon tea, ice cream, strawberries and candy will be served on the grounds of Mr. Edward L. Gould. No charge for admission. Tea: 30c; afternoon tea: 15c.

Who does not hate to iron in a hot kitchen these warm days? You can keep cool by using a Self Heating Flat Iron. H. P. DAVIDSON, Agent.

The Labrador Relief Workers of the W. C. T. U. have recently completed their year's work. Those who were permitted to hear a detailed report of what has been done, can only realize the industry and faithfulness of the workers of this department. Twenty-two meetings were held during the year. As a result of these meetings coupled with the work in the homes, of which no record has been made, two large boxes and two barrels were sent to Labrador containing bedding, clothing for men, women and children, toys, magazines, etc. The year's contribution consisted of sixteen dressed dolls for the children's hospital. The workers wish to have expressed the thanks due Mr. J. D. Chambers, who contributed so many of materials at the beginning of the year, and to Mrs. Fitch who gave freely of her rooms for the bestowment of the work until the time of packing.

Prayer service for the women of the town was held, under the auspices of the W. C. T. U., in the vestry of the Baptist church on Tuesday, June 23rd. The subject of the meeting was, "The Rights of the Scott Act." The service was conducted by Mrs. Irene Fitch. Many earnest prayers were offered that the issue of the election might be such as would be for the extension of temperance and morality and for the overthrow of evil. As the leader pronounced the closing hymn, the president rose and called attention to the fact that the leader in the day was a charter member of the Wolfville Union, and not only that but on the introduction of the Scott Act had been the means of having the open bar abolished from the town. The president further stated that the leader had had a birthday recently and called on Mrs. George Bishop to speak further on that subject. Mrs. Bishop gave forward and with a few fitting words, presented Mrs. Fitch with an umbrella as a slight indication of the appreciation of the Union for her recent work both past and present. Before Mrs. Fitch had time to respond the meeting closed by singing "Hail to the Tie."

PRIMAVERA STOPS YOUR PAIN or breaks up your cold in one hour. It's Marvellous. Applied externally. All Druggists.

C. H. BORDEN WOLFVILLE.

Gasperau River Fishing. The following communication and extracts from the new Fishery Act have been received by the fishery officers and guardians:

Sir, I would definitely direct you to notify, either verbally or in writing, all owners of nets of square-nets in the Gasperau River, to remove all such nets within 48 hours. As the expiration of that time you will expect compliance at least any persons who have not carried out these instructions. Forms of complaints are enclosed. You will make them out carefully and forward to me at once. In respect to the right claimed by the square-net fishermen to continue square-net fishing I would call your attention to the fact that square-nets can be used only during the Gasperau season. Square-nets cannot be used for salmon fishing. It is very apparent that the fishermen desire to continue the use of square-nets for the purpose of taking salmon. You will make separate complaint for every case where the regulation regarding salmon fishing is violated. It is of greatest importance that from this date until the close of the salmon season, particularly during the month of July when there is a large run of salmon on the Gasperau, that special patrol be made on the River. The officers and guardians should be able to handle the situation as there is no possible excuse of square-nets after the close of the Gasperau run.

12. Salmon fry, parr and smolt shall not at any time be fished, caught or killed, and no salmon or grilse of less weight than three pounds. No salmon shall be caught or killed otherwise than by angling with hook and line; but no penalty shall attach if such fish are caught and if they are liberated alive at the cost and risk of the owner of the fishery on whom, in every case, the proof of such actual liberation shall devolve.

13. Should any nets, seines or other fishing apparatus be set or used in violation of this Act or any regulation thereunder for more than one day, then each day during which such seine, nets or other fishing apparatus shall remain, so set or used shall constitute a separate offence, and may be punished accordingly; and should any violation of this Act, or of any regulation thereunder, continue for more than one day, then each day during which such violation continues shall constitute a separate offence, and may be punished as such.

14. When not otherwise specified, every proprietor, owner, agent, tenant, occupier, partner or person actually in charge, either as occupier or servant, shall be deemed to be jointly and severally liable for any penalties or monies recovered under any of the provisions of this Act, or of any regulation made thereunder.

Don't forget that we have the agency for the famous B. & S. Ball goods. F. G. GODFREY, Hardware.

Private Sale. Having disposed of my residence in Wolfville I will offer at private sale, at once, all the furniture contained therein. This includes some very fine articles in dining-room and bedroom furniture, rugs, etc. Persons desirous of obtaining some are requested to call. MRS. ROSE, Linden avenue.

Strawberries. Anyone wishing to be supplied daily with fresh strawberries at 10c per box throughout the season should notify H. PERCY BROWN, Telephone 145. First come, first served.

CORSETS. The Spirala Co. of Canada have appointed Mrs. V. A. Johnson, 215 Main Street, as their representative for Wolfville and vicinity. Those who will be pleased to call upon their Wolfville Corsets, Waists, and etc.

AUTOBINSON'S Livery and Automobile Service. WOLFVILLE, N. S. Teams or Autos always ready for a drive through the Evangeline Land. Teams for all trains and boats. Weddings carefully attended to by Auto or team. Give us a call. Telephone 64.

T. E. HUTCHINSON, Proprietor.

VICTORY FLOUR IS GOOD FLOUR

Personal Mention.

Contributions to this department will be glad to receive.
Miss Eleanor Wood, who has been spending some weeks in Boston, returned home on Monday of this week.

Mrs. E. D. Ross, of Middleton, has been visiting in town this week, a guest at the home of her brother, Mr. N. H. Parsons. Her mother, Mrs. Parsons, accompanied her.

Miss Isobel D. Davidson, of the teaching staff of the high school at Beverly, Mass., is spending her vacation at the home of her mother, Mrs. J. B. Davidson, Summer street.

Mrs. H. S. Taylor, who has been visiting her daughter, Mrs. John A. McDonald, at Upper Dyke Village, has returned to California, where she will remain until after the Panama Fair of 1915.

Miss Kate Thorpe, the efficient teacher in the Lower Wolfville school for the last year, and her sister, Miss Violet Thorpe, left Wolfville yesterday to spend a month of their vacation in Delaware.

Mrs. E. H. Martell, started yesterday for Port Hillfort, Guysboro county, where she will join her husband who is the pastor in that field. Mrs. Martell will return to her home here next October.

Mr. Robert Beale is home spending a brief holiday with his parents. Mr. Beale has a fine position in the traffic department of the Imperial Oil Co. at Montreal. He is accompanied by a friend, Mr. Coleman.

Mr. and Mrs. L. H. Eaton have returned to Wolfville and are living in the dwelling on Locust avenue formerly occupied by the late J. T. Jackson. Their many friends are glad to welcome them back.

Mrs. Ashley Harrison, of Mungerville, N. B., (see Miss Clara Rosch) paid a week-end visit to her uncle, Rev. M. P. Freeman. Mrs. Harrison studied at Acadia College fifteen years ago in the same class with her brother, the late Rev. Howard Rosch.

Dr. and Mrs. D. J. Munro spent Dominion Day in town, returning in the afternoon to Halifax, where Dr. Munro is engaged in the practice of his profession. His many Wolfville friends are glad to know that he is meeting with excellent success.

Mr. W. C. B. Card, who has been studying during the past year at the New England Conservatory of Music, Boston, arrived at his home at Billtown for the holidays on Saturday last. He is now visiting in Wolfville where many friends are glad to welcome him.

Rev. D. B. Hemmison, of Hamilton, Bermuda, is visiting in Wolfville, at the home of his parents, Rev. and Mrs. J. B. Hemmison. In company with Mrs. Hemmison and family he will spend some weeks here before proceeding to his new field of labor in Newfoundland.

Prof. Eugene Morris, of Ossonge, N. Y., with Mrs. Morris, formerly Miss Avon McLeod, a graduate of Acadia in the class of '01, and little son Richard, arrived in Wolfville on Monday and took the Prince Albert on Tuesday for Parrtown, where they will spend the summer.

Mr. L. A. Walley, of Lompoc, California, has been a visitor to Wolfville this week. Mr. Walley, who is a native of Hants county, was formerly a resident of Wolfville for some years. He left here over twenty-five years ago, and has since resided in California. He expressed himself as much pleased with the progress made by our town. His friends of former days were very glad to welcome him back.

The Yarmouth Service. The summer schedule of the Yarmouth Line steamships, Prince George and Prince Arthur, between Boston and Yarmouth, is now in effect, with six trips per week in each direction.

These two ships have been very extensively overhauled and improved during the past winter, at a cost of approximately two hundred thousand dollars. The most notable improvement, from the passengers' point of view, is the addition of fifty five new steamers of steel construction to the propellers and bow decks.

Special dining arrangements, and the installation of first class plumbing, an extension of the boat deck to give ample space for chairs, and a complete overhauling of the machinery.

The S. S. Boston will be reserved as an extra boat, to accommodate those who have not made sufficiently early reservations on the "Princes". For this purpose the Boston will make two trips a week in each direction during the latter part of the season.

For schedule of sailings, see advertisement of the Boston and Yarmouth S. S. Co., Ltd.

Condomiums (willing to let over my store, 8 rooms.)—J. F. HERRIN.

MARRIED. BERRY—MORINE. At Walbrook, June 17, by Rev. A. C. Powell, Mr. Caleb Berry to Mrs. Lella Morine.

IT PAYS TO BUY FOR CASH

Boy Scouts. In spite of wet weather the trip to Windsor on July 1st was a pleasant one particularly as the prize was captured by our boys.

The thanks of the boys are due to Mr. Sam Reynard who kindly collected \$5.00 to defray the expenses of the trip.

The victorious team were: Leander Therber, Robert Eldergin, Walter Johnson, Max Brown, Harold Weath erbe, Archie Forsythe, George Nowlan, Karl Nowlan, Arthur Ting ley, Spare man, Stanley Morrison.

Saturday afternoon there will be practice in Shooting, Fire Lighting and Baseball on the Campus at 2 o'clock.

The annual tournament open to all the Scouts of Nova Scotia will be held at Windsor on July 16th.

Get Bumper Crops This Year

by using the proper fertilizer—one containing from 6% to 10% of POTASH.

Plants are like human beings; you must feed them properly if you wish them to thrive and produce maximum yields.

You must feed them a balanced ration—that is, with the proper proportions of Nitrogen, Phosphoric Acid and POTASH.

Having purchased these goods right, we can save you money on all your fertilizer material. Call in and let us quote you.

Good Fruit.

The most successful fruit growers of the Annapolis Valley have for years followed the practice of applying Muriate of Potash mixed with Basic Slag and Bone Meal, or other Phosphatic fertilizer, to their orchards; depending on a crop of clover to supply the necessary Nitrogen and Humus.

There is no doubt that the adoption of this ideal system is directly responsible to the remarkable color and quality of Nova Scotia apples, which features have gained for them so many awards and established their enviable reputation in the markets of Britain.

We can supply you with all high grade fertilizer materials, Potash, Nitrate of Soda, Acid Phosphate, Basic Slag, etc., at lowest prices. You can mix these yourself at home and save 25 to 40 per cent. in fertilizer cost.

VITALITY REGAINED KIDNEYS CURED

Health Restored By
"Fruit-a-lives"

HAGERSTOWN, ONT., Aug. 26th, 1913.
About two years ago, I found my health in a very bad state. My kidneys and liver were not doing their work, and I became ill run-down. I felt the need of some good remedy, and having seen "Fruit-a-lives" advertised, I decided to try them.
Their effect, I found more than satisfactory. Their action was mild and the results all that could have been expected.
My liver and kidneys resumed their normal action after I had taken upwards of a dozen boxes, and I regained my old time vitality. Today, I am as well as ever, the best health I have ever enjoyed, and I unhesitatingly give you this testimonial for publication if you wish."
B. A. KELLY.
In hundreds of letters received by the Fruit-a-lives Company, the same expression is used. "Fruit-a-lives is the best kidney remedy in the world." At any rate, these tablets have proved the best to the hundreds of men and women who have been cured by taking them. See a box, 6 for \$2.50, trial size, 25c. At all dealers or sent on receipt of price by Fruit-a-lives Limited, Ottawa.

A Benediction.

If after Kirk you bide a wee
There's someone would like to speak to ye.

If after kirk you rise and see
We'll all seem cold and stiff to ye.
The one that's in the seat with ye
Is stranger here than you, my dear.
All here has got their fears and cares,
Add you soul unto our prayers,
Be you our angel unawares.

A Temperance Dog.

A farmer was one day standing beside his wagon in a market town. Many who passed noticed his honest, cheery face, his well fed horses and the fresh green vegetables with which his wagon was loaded.

They also noticed the farmer's dog, a fine large Newfoundland, with a jet black coat and a big white patch on his breast. There were a few white hairs about his muzzle, and any one could see that the dog was no longer young.

He seemed quiet and gentle, and he let the children stroke his curly hair. But when a tipsy man came along the street he showed his white teeth with a growl, and kept close to his master. A gentleman who saw this said to the farmer:

"Your dog has no look for the strong drink, my friend, though he is no doubt quite at home in the water. I suppose he is a temperance dog?"

"That he is, and no mistake," said the farmer, "and a temperance preacher as well. I could tell you something of Neil's preaching if you cared to listen," he went on patting the dog's head.

"Please do; I should like to hear it," was the answer.
"Well, a good many years ago this dog belonged to a young farm laborer called Jim Snow. Jim bought him cheap from a tinker, who was often tipsy, and at such times was very cruel to him. That, no doubt, explains Neil's dislike of drunken people."

"Some weeks later Jim was in town one day, and, as usual, he was pretty nearly drunk when he got home. Neil went to meet him, but as soon as his master came near the dog ran back growling as you saw him do just now."

"Jim followed him, and put out his hand to take hold of the dog but he got a sharp bite from those long white teeth, so Jim was glad to leave him alone."

"Next day the dog was as good as tured and as fond of his master as ever, and all was right again, until Jim's next visit to town."

"When he came home the dog set up and barked at him. Then Neil smelt the drink, he ran away, growling, and hid himself. This time Neil kept away from his master two whole days and spent the time lying in an outhouse."

"Jim began to think over this, and at last it came into his head that the dog was ashamed of him when he had been drinking. The end of it all was Jim began to feel ashamed of himself, too, and from that day he never touched a drop of strong drink."

"What became of Jim, then, and how did you come to see the dog?" asked the stranger, who had listened with much interest.

"Oh, well, you see, I'm Jim!"

farmer said. And then he added: "I have my good dog to thank that I am not still a poor farm worker and drinking all my wages. He taught me this, that a tipsy man is not fit company even for a dog; and I never for got the lesson. By his help I began to save up, and now I have a very good farm of my own."—National Advocate.

Equal Moral Standard and Prevention of Traffic in Women.

One of the gravest problems which confront the people of Canada to day, is the great social evil. While every thoughtful citizen has some general ideas as to its nature and magnitude, yet few understand, even approximately, the real facts.

In this one vice \$15,000 are spent annually in Chicago alone; and no less an authority than Dr. Kelly, of John Hopkins University, has started the so-called Christian work by claiming that white slavery, directly and indirectly, costs the people of America three billions of dollars each year. As regarding Canada, careful investigation has proved that the condition of our Dominion is scarcely less appalling; all our cities, and many of our towns and villages, have within their borders palpable evidence of this evil.

It is estimated that on this continent, there are over 300,000 girls and women of the night, and the Vice Commissioners who have investigated say there are ten men to every one of these women. As the life of the girl is so short, it requires 60,000 victims each year to supply the demand, and many of these victims come from Canadian homes.

Only perfectly fresh eggs should be preserved, and it is largely a waste of labor and money to attempt keeping eggs that are more than two or three days old when placed in the preservative. They should be allowed to settle twelve hours after being laid, but the sooner after this time they can be treated the better will they be when they are wanted for use. Dirty eggs do not preserve at all well, and if there is any dirt on the shells they should be washed. A dirty egg has an injurious effect not only on its own contents, but on all those that come into contact therewith. As infertile eggs preserve better than those containing a germ, it is advisable when producing eggs with this end in view to keep the hens apart from the male birds.

DEAR SIRS.—This fell upon me a fever and hurt my chest very bad so I could not work and it hurt me to breathe. I tried all kinds of treatments and they did me no good. One bottle of MITCHELL'S LINIMENT, warm oil on breast and applied on my breast, cured me completely. C. H. COSSABOOM.
Rosway, Digby Co., N. B.

The largest railway station in Europe, estimated to cost \$35,000,000 is now under construction at Leipzig, Germany. This station is designed to serve as a terminal for all railways entering Leipzig.

Children Cry FOR FLETCHER'S CASTORIA

Brown was an easy-going old fellow He believed in taking things as they came. No so Mrs. Brown.

"Don't you think," she remarked one day, "that we should be considering Mary's future? It's time she was married—she is already 35 years of age."

Children Cry FOR FLETCHER'S CASTORIA

A woman wearing an anxious expression called at an insurance office one morning. "I understand," she said, "that for five dollars I can insure my house for a thousand dollars in your company?" "Yes," replied the agent, "that is right. If your house burns down we pay you \$1,000."

"And," continued the woman anxiously, "do you make any inquiries as to the origin of the fire?" "Certainly," was the prompt reply; "we make the most careful inquiries, madam." "Oh!" and she turned to leave the office—"I thought there was a catch in it somewhere."

DOCTORS DID NOT HELP HER

But Lydia E. Pinkham's Vegetable Compound Restored Mrs. Bradley's Health—Her Own Statement.

Winnipeg, Canada.—"Eleven years ago I went to the Victoria Hospital, Montreal, suffering with a growth. The doctors said it was a tumor and could not be removed as it would cause instant death. They found that my organs were affected, and said I could not live more than six months in the condition I was in."

"After I came home I saw your advertisement in the paper, and commenced taking Lydia E. Pinkham's Vegetable Compound. I took it constantly for two years, and still take it at times, and both my husband and myself claim that it was the means of saving my life. I highly recommend it to suffering women."

"Mrs. OUIDA BRADLEY, 254 Johnson Ave., Winnipeg, Manitoba, Can."

"Why will women take chances or drag out a sickly half-hearted existence, missing three-fourths of the joy of living, when they can find health in Lydia E. Pinkham's Vegetable Compound?"

For thirty years it has been the standard remedy for female ills, and has restored the health of thousands of women who have been troubled with such ailments as displacements, inflammation, ulceration, tumors, irregularities, etc. If you want special advice, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman, and held in strict confidence.

VARIOUS METHODS OF PRESERVING EGGS

They Must be Fresh in the First Place and Should be Scrupulously Clean

There is no better method of preserving eggs than in water-glass, a soluble silicate of soda, which is not an expensive material to buy, as a pound, which only costs a very few cents, dissolved in the correct proportion of water, will preserve a large number. The amount of water to be added depends upon the sample, but as full directions are usually sent with each tin, it is difficult to go wrong. The eggs are placed in a glass vessel, and covered with the liquid, care being taken that all the eggs are submerged. When they are wanted for use, they should be lifted out of the liquid, wiped dry, and used as speedily as possible.

The oldest, but still a very accurate method of preserving eggs, by means of salt, lime and water. Four gallons of lime, one of salt, and twenty of water, should be mixed together, and when the water has taken into solution as much lime and salt as it is capable of doing, it should be allowed to settle, the clear liquid being used to pour over the eggs, which have previously been placed in a suitable vessel. This method has the disadvantage of making the shells rough and extremely brittle—so much so, in fact, that, as a rule, eggs that have been preserved in lime cannot be boiled, the shells cracking with the least touch. When eggs are to be preserved for only a very short time, for two or three months—dry salt answers admirably, but this is an unsuitable method for a longer period. If a new-laid egg be dipped into boiling water, it slightly coagulates the white, and so prevents the air getting to the contents. For eggs to be preserved in this manner, it is not recommended for more than a month.

Only perfectly fresh eggs should be preserved, and it is largely a waste of labor and money to attempt keeping eggs that are more than two or three days old when placed in the preservative. They should be allowed to settle twelve hours after being laid, but the sooner after this time they can be treated the better will they be when they are wanted for use. Dirty eggs do not preserve at all well, and if there is any dirt on the shells they should be washed. A dirty egg has an injurious effect not only on its own contents, but on all those that come into contact therewith. As infertile eggs preserve better than those containing a germ, it is advisable when producing eggs with this end in view to keep the hens apart from the male birds.

OUR PUBLIC SPIRIT

Scotchman Says Unpleasant Things About Canadians

A young Scotchman, after three years in the Canadian West, wrote a letter to the London Evening Standard in which he described the character of the Canadian character, says "The Ottawa Citizen. They can hardly be said on the whole to be complimentary, which doubtless makes their expression all the more valuable from the Canadian standpoint. It is always well to 'see oneself' at all well, and a touch of Scotch opinion may in this case help to improve the spirit of the Canadian. One of his criticisms regarding the latter is as follows:

"Nor does the public spirit of the Dominion strike a stranger as abundant. It does not find its expression in the Territorial forces, at any rate, which are manned, out of all proportion, by home-born Britons. Certain Canadians suffer from the gratifying belief that the Dominion saved the empire in 1861, and are indignant when told that of the Canadian contingent sent to South Africa eighty per cent. were home countrymen. Nor does public spirit find its expression in local government, where the 'best people' are conspicuously absent—too busy making money to bother with such matters. Without discussing the incident of 1901, The Citizen says by way of comment, the truth of the criticism must be confessed. Canadians have been so busy with the multifarious tasks of a new country that they have not had much time to devote to the interests of the country at large. But surely Canada has now advanced in development to such an extent that more attention can be given to the public interest. Unless such attention is given, no greatness of future can be safely predicted. This public spirit that makes a citizen think and feel and act for Canada, as for his larger self, is without doubt the great need of Canada to-day. Others recognize the fact, and Canadians cannot too soon follow their example, and profit by it."

Newly-laid Eggs

Bacteriologists tell us that in an egg evaporation and the action of bacteria are evident by the third or fourth day. There are some who believe that from that time on the egg is not perfectly "fresh," or "new laid," nor any other name that should mean the best. It is a matter for some time after that, if kept properly, but it is not of first quality, and all the statements to that effect cannot make it so. If the farmer has to have longer than three days to get his eggs to the consumer, he should have to classify them other than the highest, and he cannot expect to compete with the best man who delivers his product 72 hours old.

Beets For Cattle

If beets are fed to cows in the barn in large quantities the place should be well cleaned up and aired before each feeding, else the effect on the atmosphere will be so bad it will taint the milk.

Children Cry FOR FLETCHER'S CASTORIA

A Sunday School teacher was giving her class of boys on the strength of their desire for righteousness. "All those who wish to go to heaven?" she said, "please stand." All got to their feet but one small boy. "Why, Johnny?" exclaimed the shocked teacher, "do you mean to say that you don't want to go to heaven?" "No, ma'am," replied Johnny, promptly, "not that bunch is gone."

"Papa," cried James, "wasn't it you glad if I saved a dollar for you?" "Certainly," my son," said papa, so delighted at this evidence of budding business ability that he had to the youth—

"Well, I saved it all at all," said James, disappearing. "Yes," said I, "I bought a good report from my teacher would give a dollar but I didn't."

RED ROSE TEA "is good tea"

Getting Even.

Some time since a peevish-looking citizen was seated in a cafe when a man entered, leaving the door wide open. Instantly the peevish party became violently agitated.

"Shut the door, you chump!" he loudly exclaimed. "Where were you raised—in a barn?"

The other quietly closed the door, and then taking a seat at a nearby table, he buried his head in his arms and began to sob. Naturally, this touched the heart of the peevish one.

"My friend," said he, going over to the sobby citizen. "I didn't mean to hurt your feelings. I merely wanted you to close the door."

"I am not crying because you hurt my feelings," he sobbed. "I was raised in a barn, and every time I hear a mule bray I get homesick."—New York Globe.

CASTORIA For Infants and Children.

The Kind You Have Always Bought Bears the Signature of J. C. Watson

A farmer rushed up to the home of a country doctor in the village one night and begged him to come at once to a distant farmhouse.

The medicine man hitched up his horse and they drove furiously to the farmer's home. Upon their arrival the farmer said:

"How much is your fee, doctor? Three dollars said the physician. In surprise. Here y'are, said the farmer handing over the money. The blamed livermen wanted \$5 to drive me home."

Concrete walks need no repairs

THEY are not only best at first but are cheaper in the end than any other kind of walk. They are clean, permanent and safe. There is nothing to become loose nor are they slippery. They improve the general appearance of a house and are a source of great satisfaction to every housewife because they keep children out of the mud, prevent colds from wet feet and prevent dirt from being "tracked in" on floors and carpets. Equally important is the fact that they never wear out and never need repairs.

This free book "What the Farmer can do with Concrete" tells all about concrete walks and how to build them, and a score of other things needed on every farm. Write for it to-day.
