FALL FAIRS.

Successful Shows in Various Parts of Ontario.

WESTERN.

LONDON, Oct. 4.—The attendance at the Western fair to-day was very large, \$3,200 being taken at the gate. The weather was fine, and the different trials of speed were witnessed by thousands of spectators.

SHEEP.

The sheep classes are fairly represented in numbers and quality. Contrary to the usual rule at fairs in recent years, the longwool predominates here. In Lincoln County there was a number of animals of their own breeding and importation. Wm. Walker, London, shows sixteen head of Lincoln County sheep.

A few Durhams, Ayrshires, and Devons are shown. Mr. B. Oliver, of Ardenville, has a very creditable-looking herd of Devons. This gentleman has taken first prizes for Oxon, aged Devon bull, yearling Devon bull, Devon cow and calf, and for the best first milk cow with pedigree here.

Slight & Sons, who manufacture so largely these vehicles, being right at home here. In this horse show, during the day the contests in the speed trials for all classes of horses... The events included driving in the open, and the best of the events were keenly contested...

MARKHAM, Oct. 5.—The attendance on the annual and the old established exhibition is not declining in interest and attractiveness. A large number of visitors came to the fair by train from Toronto and intermediate points, as well as from those to the north, and every available corner was occupied with teams and exhibitors.

WEST DURHAM AND DARTMOUTH. BOWLING GREEN, Oct. 5.—The annual exhibition of the West Durham and Dartmouth Agricultural Society was held here to-day. The exhibition was a great success both in regard to attendance and number of entries. The weather was fine and cool to-day, and the grounds were in capital condition for both visitors and exhibitors.

COMPARISON OF ENTRIES. The following comparison of the entries for this and last year will prove interesting. It may be remembered, however, that the entries this fall would have been even more numerous but for the fact that many of the farmers have too much to do at home to think of the exhibition.

Table with columns for 1933 and 1934, listing entries for various classes like Sheep, Cattle, Horses, etc.

TOTAL 1933 392 741

GREAT CENTRAL FAIR.

HAMILTON, Oct. 4.—The weather to-day was most charming for exhibition purposes, and the morning sun had only a short respite before the horizon was obscured by clouds.

The number of swine on exhibition is not a large one, but the former Western Fair, but it somewhat deficient in this respect, the show has the merit of being pretty well up to the average in point of quality. Two well-known exhibitors, Messrs. Main and Featherstone, take the lead in Yorkshire and Suffolk. Mr. Featherstone also shows a number of Essex pigs, the only exhibit noticed in that breed.

The exhibition of horses is of a very creditable description, and far in excess of that of last year, which was of a superior character. J. W. Thompson, of Orkney, exhibits a splendid two-year-old roaster stallion, sired by King Tom.

The exhibition of cattle is made here this year, reflecting much credit upon the farmers of this locality and the fancy stock breeders generally. The exhibit was, though by no means up to what it was in former days, when such noted importers and breeders as Messrs. Geo. Coach, John Snell, J. R. Craig, and others contended for the prizes with magnificent displays in each particular class, and the price of fancy pigs went up into the hundreds.

NEWARK, Oct. 3.—The sun shone out gloriously all day, and the town to-day on the occasion of the second, or rather chief day of the annual fall exhibition, which was formally opened at the Lyndhurst Hotel, by the Mayor and the Lieutenants-Governor.

There were several varieties of white winter wheat which were fit for any exhibition, and worthy of this district. The winter wheat was, in general, of a superior quality, and the birds were, in general, well shown, and the birds were, in general, well shown, and the birds were, in general, well shown...

dark grapes were not so sensibly affected by the damp weather, and consequently they presented a much better appearance. Only a few seedlings were shown, and no new varieties were introduced. One, however, was a new variety, which came to the front last year, could not stand the winter, and so it is to be hoped that the fruit of the year will be better than that of last year, except in horses and grain, which were superior classes.

MARKHAM, Oct. 5.—The attendance on the annual and the old established exhibition is not declining in interest and attractiveness. ALGOMA.

It is very clear that the election of Mr. Lyon in Algoma cannot stand. The utter infamy of the whole proceedings for his election must make every respectable liberal who yet remains on Mr. Mowat's side forsake his doubtful allegiance.

THE POLICY OF SILENCE.

Our morning contemporary expresses a surprise, which is very artificial, at the silence of the Conservative press in regard to its slanders.

the man he tries to assassinate. He dares not adopt the language of his organ nor father its charges.

THE POLICY OF EVASION. We have so often pointed out the bad habits of the 'Grit' organ that a fresh exposure may seem superfluous.

On the 25th of September the organ said: 'Sir John above to persuade the working class that when he resigned power to shape the legislation of the country he would change the law that thereafter every one willing to work could find employment at good wages for six days of the week.'

We immediately challenged the organ in the face of all the workmen to state in the face of all the workmen to state:

On Sept. 28th again the organ said: 'In 1877-78 business was depressed all over the world, and there was much lack of employment and much distress.'

It is impossible for us to exaggerate the systematic ill-will and dishonesty which prevailed among the Local Government supporters.

THE LATEST FINANCIAL CRASH.

The fall of the Exchange Bank in Montreal reveals as usual a disaster coupled with a crime, both resulting from ignorance and recklessness.

THEY ARE 'BOOMERS.'

ACCORDING to a recent visitor to Dakota three classes of men are to be met there, the 'boomers,' the 'rustlers,' and the 'henderfoots.'

THE POLICY OF SILENCE.

in the light of their Dakota speculations, be understood. When in the future they say: 'The traitor's hand is on my throat, Ontario, Ontario.'

THE DAKOTA LAND GRABBERS. It is a deep game that HARDY, PARDEE, PACK, McCRAE, HUNTER, SPINKER, FITZGERALD, and their fellow Dakota speculators have been playing.

THE ALGOMA OUTRAGE. This Grit organ has hardly taken the trouble to deny the charges made against the Local Government in regard to Algoma: the record of corruption, intimidation, and illegality was too glaring to be denied.
