New Town Council Meets

A special meeting of the New Town Council was held in the Police Court room on Friday April 23rd at 8 p. m. Present, Mayor Doyle, Ald. Atkinson, Crocker, Dalton, Durick, Jeffrey, Mackay, Russell and Witzell. The report of the Town Clerk on the results of the election was read and on motion of Ald. Crocker seconded by Ald. Russell the same was received and ordered filed.

It was moved by Ald. Durick seconded by Ald. Mackay and carried that the Mayor appoint a Nominating Committee of three to name Standing Committees for the ensuing year. The Mayor appointed Ald. Mackay, Durick and Russell as such committees. The nominating committee recommended the appointment of the following Standing Committees for the ensuing year.

Finance
Ald. Russell, Atkinson, Durick.

Light, Water & Sewerage
Ald. Crocker, Dalton, Mackay.

Public Works
Ald. Durick, Dalton, Jeffrey.

Petitions, Bye Laws and Licensing
Ald. Mackay, Durick, Crocker.

Park & Fire
Ald. Dalton, Witzell, Jeffrey.

Police & Appointment to Office
Ald. Atkinson, Russell, Witzell.

It was moved by Ald. Durick and carried that this report be received and adopted. The Mayor called the attention of the different committees to the duties of each, and also spoke of the advisability of having a Clean-Up Day.

After discussion it was moved by Ald. Durick seconded by Ald. Dalton and carried that May 11th be appointed Clean-Up Day.

Murder Family In North Dakota

Turtie Lake, S. D., April 25—Eight persons were found dead yesterday at the farm home of Jacob Wolf, three miles north of here, the victims of a mysterious tragedy. The dead are:

Jacob Wolf, and his wife, their five daughters, Bertha, Lillie, May, Lydia and Martha and Jake Hofer, who was employed on the farm. Only one member of the family escaped, Emma, 8 months old. Indications are that a murder was committed in the kitchen of the Wolf home and the weapon used was a hatchet.

Bodies of the mother, three daughters and the hired boy were thrown into the cellar by the slayer or slayers and those of the father and two daughters put in a cow shed and barn and covered with hay.

Contracts For Two Bridges Are Awarded

Tender of \$49,000 for Burnt Church R. Mouth Bridge—Porter Brook Bridge \$9,000.

The Department of Public Works announces the award of two bridge contracts.

The contract for Burnt Church River Mouth Bridge, Parish of Alnwick Northumberland County has been awarded to Messrs. J. E. and E. B. Connelly of Bathurst. The contract price was in the vicinity of \$49,000.

The contract for Porter Brook concrete arch culvert and roadway embankment parish of St. Mary's, York County has been awarded to Messrs. W. D. Stoores and Frank S. Berryman of Woodstock. The price was in the vicinity of \$9,000.

Income Tax Take In Unmarried, Married And Stock Co's

The income tax returns are now being made out by many citizens, while others have already forwarded their returns. These returns must be made out by all unmarried persons widowers or widows, (without dependents) who in 1919 earned, or received \$1,000 or more.

All other individuals who received or earned \$2,000 or more during 1919 come under the act and must make out their returns. Stock companies and corporations whose profits for the fiscal year 1919 were \$2,000 or more, come under the act. All returns must be in by April 30th.

INCREASED STIPENDS

The matter of increased stipends was discussed at the meeting of the Anglican Synod held in Fredericton last week and Mr. Fairweather, the treasurer, moved as follows: "That the minimum stipend of the clergy of the diocese be \$1,100. That the stipend of priests during the first five years of service as such be \$1,200, with a residence, or \$1,300 if there is no residence provided. That after five years of service the stipend shall be \$1,300 with a residence or \$1,400 if there be no residence provided. That this increase go into effect on January 1, 1921."

Horace A. Porter seconded this motion.

A resolution stating that \$200 be allowed to clergymen who used a horse or automobile was embodied with this and the whole was passed with a provision regarding railroad fares, etc.

Both clergy and laymen were unanimous in their desire for the raising of the stipends of the clergymen and particularly advocated the education of the farmer parishioner, in giving more freely.

Skunk Skins Bring Record High Price

New York, April 24—Sales for the first week of the Fur Auction in the Madison Hall here, reached \$5,976,000 today, due largely to the good average prices brought by about 188,000 skunk skins that were sold. Sixes for the day were \$1,250,000. Much of the skunk appeared to be bought for export and the choicest skins reached \$9.20 each. The proudest brock day was registered by Polar bear, the top in this case being \$99. Of the smaller skins, Wolverine touched the best market at \$22, with a low price of \$4. Compared with the prices obtained at the sale of the New York Fur Auction Sales Corporation here last April the biggest advance today was shown by Russian fish, which went up 75 per cent. German fish advanced 60 per cent. Kolinsky came next with 40 per cent. Australian opossum and skunk followed with advances of 35 per cent. each.

FRANKLIN'S MAXIMS OF SUCCESS

Do not be dull; drink not to excess.
Speak not but what may benefit others or yourself; avoid trifling conversation.
Loss no time; be always employed in something useful; cut off all unnecessary actions.
Use no hurtful deceit; think innocently and justly, and, if you speak, speak accordingly.
Tolerate no uncleanness in body, clothes or habitation.
Be not disturbed at trifles, or at accidents common or unavoidable.
Drive thy business; let not thy business drive thee.
Early to bed, early to rise, makes a man healthy, wealthy and wise.
He that hath a calling hath an office of profit and honor.
One today is worth two to-morrow.
Buy what thou hast no need of, and ere long thou shalt sell thy necessities.
They that want be counseled can't be helped.
A man may, if he knows not how to save as he gets, keep his nose all his life to the grindstone, and die not worth a great deal at last.—Selected

Belgium's Recovery

Belgium has made rapid progress toward industrial recovery since the Armistice, largely owing to the fact that the country has had no serious strikes, says M. Jasper Minister of Economic Affairs. He estimates that the nation's industrial output has now attained perhaps 70 per cent of its pre-war record, and that its mines are producing as much coal as in the year before the war.

About 70 per cent of the material which was taken out by the Germans has been returned to the Belgians. The money taken by the Germans from the Belgium treasury has been returned, but Belgium has thus far received no indemnity from Germany. At the beginning of the Armistice 100,000 of the Belgian people were without work. Recovery has been made in spite of the fact that more than one-half of the Belgians who had to flee before the Germans are still in France, unable to return because they have no homes.

Belgian villages destroyed in the war are being rebuilt, said M. Jasper in the district of Ypres eighteen villages have been restored to such an extent that local administrations has been resumed. "If the United States would do for Belgium what she has just done for Poland, establish a credit for her, most of our problems would be solved," declared the Minister of Economics.—(Halifax Chronicle)

Do you know that the Salvation Army maintains a "Missing Friends' Bureau" which serves to find persons in any part of the world? Over 1,000 missing persons are located by the bureau every year.

Borings At Coal Branch Find Gas

Moncton, April 19.—The Anglo-Persian Oil Company, who have been boring for oil at Coal Branch, Kent County, for some months, recently struck a moderate flow of gas. The discovery of gas was made after drilling through a thick bed of granite rock and at a depth of about 2,300 feet. Soon after striking gas, salt water made its appearance in the well, much to the surprise of the borers. At the present time repairs are being made to the boring machinery and efforts made to shut out the heavy flow of salt water.

JUST RIGHT

A southern colonel, according to Senator McKellar of Tennessee, called in his colored man, Sam, and gave him a drink of liquor.

"How is that liquor, Sam?" the colonel asked.

"Jist right," Sam replied.

"What do you mean by 'jist right'?" the colonel inquired.

"Well, Sam said, "if it was any better you wouldn't give it to me, and if it 'twas any worse I wouldn't drink it." —Cleveland Plain Dealer.

YPRES

Thursday was the fifth anniversary of the second battle of Ypres, that historic engagement in which the Canadian expeditionary forces established a record for gallantry, courage and endurance in the face of overwhelming odds which will stand forever.

It was the first important battle in which the Canadian troops took part, and the wearers of the Maple Leaf were given the task of holding back the Hun at a point where the Germans had massed the pick of the first army corps. The story of the second battle of Ypres is one that has thrilled the world, for it was there that the first Canadian Division fought through the day and then the night and then through another day and night, and gained for itself a proud reputation as a fighting unit of the first rank.

Lord Beaverbrook, in his book, Canada in Flanders, describing this engagement, said that the battle which raged so many days in the neighborhood of Ypres was "bloody, even as men appraise battles in this callous and fighting war. But so long as brave deeds retain the power to fire the blood of Anglo-Saxons, the stand made by the Canadians in those desperate days will be told by fathers to their sons; for in the military records of Canada this defence will shine as brightly as, in the records of the British army, the stubborn valour with which Sir James Macdonnell and the Guards beat back from Hougoumont the division of Foy and the army corps of Reille."

Twice Thought Time Had Come

Case Was Pronounced Hopeless Gratitude To Tanlac Is Unbounded, He Says,

What is doubtless one of the most remarkable statements ever published in connection with a medicine was made by Georges Boudreau, a grocery clerk, living at 1288 Notre-Dame Street West, Montreal, a few days ago.

The story of Mr. Boudreau's restoration to health is profoundly interesting and is given below just as related by himself in a conversation with a Tanlac representative.

"Two and a half years ago I began suffering from stomach trouble and twice during that time my case was pronounced hopeless and it was thought I could not live. My trouble began with a feeling like a big lump after nearly every meal, in the pit of my stomach. I would then have to drink a great quantity of hot water in order to get a little relief. I had to live mostly on milk and my stomach pained me so at times that I fainted and thought I would surely die. The least efforts would cause me to perspire a great deal, my legs were swollen terribly and my heart would palpitate at a frightful rate. Six months after my troubles started I had to give up all idea of work. If I ventured to go for a walk on the street the least little breeze would almost take my breath away and I had to go back in to the house. I could not sleep at night and had to prop myself up in bed with pillows. I was bloated all the time with the gas on my stomach, was constipated the worst kind, and had absolutely no appetite. I also had rheumatism in my joints so bad that I had to take something to ease the pain. My case seemed to be a puzzle, as no one understood it, and I got worse in spite of all that was done for me. I was often caught weeping in despair over my condition.

"But I am now a happy man and my gratitude towards Tanlac is unlimited. It has not only restored my health, but I believe it has saved my life, and I can see that I will soon be able to take up the work again that I was doing before my troubles began. Why, my appetite is so ravenous that I simply can't get enough to eat and my digestion is so good that I never have a pain or an uncomfortable feeling no matter what or how much I eat. My legs do not swell any more, the rheumatic pains are gone, and I sleep every night just like a child. In fact, I am feeling perfectly well and I mean to say by that what I haven't an ache or a pain of any kind. My recovery has been a surprise to just lots of people and some who have met me on the streets lately seemed absolutely amazed at the wonderful change that has taken place in me. All the praise and gratitude belongs to Tanlac. It is simply wonderful and I wish everyone knew its value as I do."

Tanlac is sold in Newcastle by E. J. Morris, and in Redbank by Wm. M. Sullivan.

Mr. Turgeon In Criticism Of C.N.R. Affairs

Ottawa, April 21.—In parliament yesterday the house in committee passed \$2,000,000 vote for completion of parliament buildings.

In opposing increased rates on the Canadian National Railways, O. Turgeon of Gloucester, N. B., strongly criticized the administration of Canadian government railways by the board of management. He contrasted the record of the C. P. R. with that of the government railway. The former concluded its year with all fixed charges paid and a profit of some millions. He said the latter, with no fixed charges paid, turned in a deficit of \$47,000,000.

C.P.R. To Spend Many Millions

The Canadian Pacific Railway officials are preparing for a busy season and will have many millions of dollars of equipment construction and repair work done this year. It was reported yesterday that the railroad is to take over a foundry in St. John and use it for repair work, but neither H. C. Grout, retiring general superintendent of the New Brunswick division nor his successor, J. M. Woodman, had heard of such a plan.

It was announced yesterday, however, that the Angus shops of the rail road are to be doubled in size at an estimated cost of \$1,000,000. The addition will give employment to hundreds of new employees who are to be taken from McAdam, as reported, is not known here. Eventually the railway to St. John will be double tracked, it is expected.

The Canadian Pacific programme for this year calls for the construction of forty-three sleeping cars, sixty seven air-dump cars, 2,500 60 ton box cars and five hundred refrigerator cars. Many other additions and improvements are to be made, the entire programme calling for an expenditure of \$74,000,000.

There are some 60,000 Canadian freight cars in the United States at the present time and because of the strike in the states it is difficult to get them back. The railroad managements in this country are endeavoring to get them returned.

A Constipation Cure

CERTIFIED SEED POTATOES

This term is applied to potatoes which have passed two inspections made by inspectors of the Division of Botany, Experimental Farms Branch, Department of Agriculture. These inspections are made (1) of the growing plants during the blossoming period, and (2) after they have been placed in storage.

While purity of variety is given due consideration in determining the claims of a crop to certification, the prime object of this work is the abridgment and, incidentally, the control of disease, particularly of constitutional diseases such as Leaf Roll and Mosaic, which have proven to be responsible for a serious reduction in yields in many parts of the country. As the only possibility of distinguishing the presence of these diseases lies in the inspection of the growing plants, it is obvious that in order to ascertain the presence of, or freedom from, Leaf Roll or Mosaic in any crop, inspection must of necessity commence in the growing season and preferably during the blossoming period as it is at this time a matter of small difficulty to distinguish any impurity of variety. Thus the twofold object is attained.

At the conclusion of the inspection of a field of potatoes, the inspector hands to the grower a record showing the exact condition of his crop. Should the field be found to measure up to the required standard, the grower is again visited at, or after harvest time and an inspection made of the tubers to ascertain to what extent, if any, diseases such as Common Scab, Rhizoctonia, etc. are present. Should this final inspection prove satisfactory, the potatoes are graded as either No. 1 or No. 2 Grade Seed Potatoes, and a sufficient number of tags to cover the number of bags or other containers necessary for the shipping of the amount of potatoes inspected, are issued by the inspector. These tags certify that the contents of the bags or other containers to which they are attached, have been grown by the person whose name appears on the tags; that they have been inspected by an officer of the Dominion Department of Agriculture and found to be sufficiently vigorous and free from serious diseases, other pests and foreign varieties to warrant them being classed as No. 1 (or No. 2) Grade Seed Potatoes.

On the other hand, if a field fails in the field inspection to measure up to the required standard owing to the presence of a larger percentage of diseases or impure varieties than is allowed, it is given no further consideration; the grower being advised to change his seed and to procure

ROYAL YEAST CAKES

are now packed in square packages. Each package contains five cakes, which are equal in quantity to six round cakes. All dealers are authorized to guarantee that the quality of the round and square cakes are identical in every respect.

cure for this change, seed potatoes from some grower whose stock has satisfactorily passed both field and tuber inspection.

This work is being carried on at present chiefly in Northern Ontario, in parts of New Brunswick, Quebec, Nova Scotia and Prince Edward Island. It is proving of value to the grower in that it frequently reveals to him the loss which he is incurring by the use of diseased seed, and is also a means of putting him in touch with the grower from whom it would be advisable to obtain a supply of "Certified Seed Potatoes" as outlined above.

WHY DIDN'T SHE MARRY?

Teacher (to the party of school children visiting local museum)—Here children, you see the state of Minerva.

Tommy (after gazing at statue for a few moments)—Please, mum, was Minerva married?

Teacher (smilingly, patting Tommy's head)—No, my child, Minerva was the goddess of wisdom—London Ideas.

While it is well known that Aspirin, being a Bayer manufacture, is subject to the same strict inspection, the Tablets of Bayer Company, Ltd., will be stamped with their general trade mark, the "Bayer Cross."

INFLUENZA, 1920

The Metropolitan Life issues an interesting little brochure dealing with the epidemic of influenza during the past winter. The most marked characteristic was that in the epidemic of last year the young and middle-aged suffered most severely, while in 1920 early youth and old age seemed to be hit the hardest by the disease, and pneumonia succeeding the influenza was the cause of carrying off a very large number of people.

Dealing with general health conditions, the pamphlet says that the length of life of their industrial policyholders on the average seems to be reduced by about three and a half years in the case of white males, and about five years with colored policyholders. The average life expectancy of their white males appears to be about 46 years, and if tuberculosis could be eliminated, the average life time would be over 49½ years. They sum it up in these words, that if tuberculosis could be eradicated, more years would be added to the average lifetime than have been added to it by all the sanitary improvements of the past century.

One great fact is that tuberculosis could be eliminated absolutely, if the disease were treated as it should be treated by absolute quarantine of the individual under such circumstances as would prevent others being exposed to the disease, and as would give the patient himself the greatest possible chances for recovery. Imagine what it would mean if the average life in New Brunswick were increased by about 12 per cent. What an addition it would mean to the wealth of the Province, and, east or west, what an addition it would mean to the health and happiness of our people.

The Bank Clerk And Marriage

In imposing a rule that a clerk shall not marry unless he is in receipt of a salary of \$125 per month, or unless the bride-to-be has employment, the Federal Reserve Bank in Chicago is simply perpetuating a condition which sooner or later must be rectified, not by the compliance of the employees with the rule, but by the banks themselves. This interference with marriage assumed by our banks is not tenable from any standpoint. It is so patently an invasion of the rights of the individual and is so opposed to national welfare, that argument is superfluous. For a corporation to harbor in its business a worker of marriageable age and inclination, to set him at a task which cannot be done save by an expert man and one, therefore, long in the service, and at the same time to pay that worker a sum which is not sufficient to support a wife, is so illogical and one-sided that there is only one solution that will spring to anyone's mind: pay him enough to get married on.

The Strength Of A Bubble

The soap bubble is a simple thing, yet it has always been more or less a mystery to scientists. They consider it perhaps the best phenomenon existing for the study of the habits and idiosyncrasies of the mole cule. Scientists now claim, on the strength of the experiment made by Sir John Dewar, wherein he succeeded in keeping a bubble intact for over a year, that when a soap bubble becomes very old, say in three or four days, it offers the only possible example of the molecule visible to the naked eye. Most parts of the bubble are estimated to consist of about one hundred layers of molecules. But by various methods of treatment the bubble is induced to perform "stunts" until 'n black spots which appear it represents only a single layer of molecules. This layer is so thin that Sir James estimates it would take one and one-third million like it, superimposed, to make an inch. Yet, when the soap bubble is permitted to mature in air that has been freed of its natural enemies, it is so strong that it will support drops of water many times its own weight before breaking. Sometimes a bubble is torn from its supporting ring by the weight before, the molecules release their building grip.

IN LIGHTER VEIN

Jones was very much surprised to see a lot of quite nice-looking cloaks displayed in a window, marked \$5 each.

He went inside and asked to see one.

"I don't know how you can do it at the price," he remarked. "It must cost that to make one of these."

"It does," replied the jeweler.

"Then where does your profit come?" asked Jones in amazement.

"In repairing them," the jeweler informed him bluntly.

TO PERMIT PARTY-RIDGE SHOOTING

Hon. Mr. Smith has introduced a bill in the local legislature to amend the game act and to provide that the law for the purpose of permitting the "Hone" season on partridge next autumn, if the increase of the number of birds is warranted.

Save the surface and you save all Paint's Costs

Make a real job of it.

PAINTING becomes necessary as your property increases in value, and as property was never so valuable as today there is a greater need than ever for that kind of paint which actually preserves the surface and thus saves the entire house.

This spring, to make a real job of it, use

B-H "ENGLISH" 70% Pure White Lead
(Brandram's Genuine B.H.)
30% Pure White Zinc
100% Pure Paint

because it combines permanence, covering capacity and economy.

If B-H "English Paint" was dearer than it is, it would still be the most economical—the shorter life of other cheaper brands makes them more expensive in the end.

It contains the famous Brandram's Genuine B.H. finely-ground white lead—70%—to which is put 30% of pure zinc—a guaranteed formula that no other paint can boast. To this mixture is added fine turpentine and linseed oil from the B-H mills, which is of a quality in keeping with the other ingredients.

When you use B-H Paint you will notice its "body" and brilliance—you will compare the extreme covering capacity with other brands—the permanence you will be able to prove by other exteriors painted with B-H paint years ago.

This Store sells B-H Products—Color cards free on request.

PERMANENT ROADS

Hon. P. J. Veniot, minister of public works, announced on Thursday morning that during this week tenders would be called for the construction of a tarria road between the towns of Newcastle and Chatham, and later on tenders would be called for the construction of a permanent road between Newcastle and Fredericton.

**A Desire To Eat
What You Want**

How Stomachs Can be Restored to a Vigorous, Healthy Condition

Not to be limited in diet, but to eat whatever he pleases is the dream of every dyspeptic. No one can honestly promise to restore any stomach to this happy condition, because all people cannot eat the same things

with equally satisfactory results. It is literally true that "what is one man's food is another man's poison." But it is possible to so tone up the digestive organs that a pleasing diet may be selected from articles of food that cause no discomfort.

When the stomach lacks tone there is no quicker way to restore it than to build up the blood. Good digestion without rich red blood is impossible, and Dr. Williams' Pink Pills offer the very best way to build up and enrich the blood. For this reason these pills are especially good in stomach trouble attended by thin blood, and in attacks of nervous dyspepsia. Proof of the value of Dr. Williams' Pink Pills in even the most obstinate cases of stomach trouble is given by Mrs. S. Morrison, Varney, Ont., who says:—"I shall always feel indebted to a friend who advised me to use Dr. Williams' Pink Pills. I had been a sufferer for upwards of twelve years with stomach trouble which resulted in a general weakness of the whole system. My meals always caused me great discomfort, and at times I would go hungry rather than undergo the suffering which followed meals. I was constantly taking something or other recommended for the trouble, but without finding a cure, and often the trouble kept me in bed when I should have been about doing my housework. My friend, who had had a similar attack came to see me and urged me to try Dr. Williams' Pink Pills which had cured her. I got a supply at once and began taking them, and soon found relief. By the time I had used eight boxes I was again enjoying the best of health, and with a good appetite and a stomach restored to normal. Had I known of this medicine earlier it would have saved me years of suffering, and I urge any who may be in a similar condition to try these pills at once."

You can procure Dr. Williams' Pink Pills through any dealer in medicines or they will be sent you by mail at 50 cents a box or six boxes for \$2.50 by writing direct to The Dr. Williams' Medicine Co., Brockville, Ont.

CAILLAUX IN GREAT LUCK
Sentence of three years imprisonment was imposed Friday upon former Premier Jos. Caillaux, convicted by the High Court, of commerce and correspondence with the enemy. The time during which he was under arrest will be deducted, however, leaving him but one month to serve.

WHAT HE SOMETIMES DID
A henpecked little man was about to take an examination for life insurance. "You don't dissipate, do you?" asked the physician. "Not a fast liver, are you?" The man hesitates a moment, looked a bit frightened, then replied in a small, piping voice: "I sometimes chew a little gum."

HOW'S THIS?
We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Medicine. Hall's Catarrh Medicine has been taken by catarrh sufferers for the past thirty-five years, and has become known as the most reliable remedy for Catarrh. Hall's Catarrh Medicine acts thru the Blood on the Mucous Surfaces, expelling the Poison from the Blood and healing the diseased portions.

After you have taken Hall's Catarrh Medicine for a short time you will see a great improvement in your general health. Start taking Hall's Catarrh Medicine at once and get rid of Catarrh. Send for testimonials free. F. J. CHENEY & CO., Toledo, Ohio Sold by all Druggists, 75c.

Overland Has Real Sensation

Interest is Attached to Beautiful New Light Overland Four

Distinctive in body lines and of unusual quality in mechanical achievement, the new Overland Four models of the Willys-Overland Company are a feature of the automobile show.

The new Overland Four marks the greatest advance in years in light car construction. The models displayed are attracting unusual attention because of new engineering ideas which provide high priced car comforts at small operating and maintenance costs.

Salesmen in charge of the Willys-Overland booth in the automobile show are besieged constantly with questions concerning three-point suspension tripler springs which give the Overland Four models a cushion between road shocks and the car body providing a riding comfort hitherto unknown in light cars.

This particular improvement, an exclusive Overland Four feature, is regarded as the most notable achievement of automobile engineers in years. Some have termed it the greatest improvement in motor car comfort since pneumatic tires.

The interest manifested in the Overland Four touring models is emphasized with earnest "ahs of admiration over the Sedan models. The Sedans are finished in Copenhagen blue; the body lines are beautiful. The Sedan models are making special appeal to women.

Overland Four not only satisfies the demand for a light, economical, comfortable car, easy to handle in traffic, but it is in every particular a quality car. Light weight and reliability could not be combined with out the best of materials.

The tripler springs, for example, are of chrome vanadium steel. The front axle, steering gears and arm, the steering knuckles and knuckle arms, propeller shaft, axle shaft, transmission gears, axle drive, gear and pinion, clutch shaft, valve tappets and all important keys and bolts are of alloy steel.

The frame of the car is of heavy 3-16 inch steel pressed into channel, form 3 1/2 inches deep and 1 1/2 inches wide. The body of the car is of heavy pressed steel. The fenders all so are of heavy pressed steel. It is only because of this all steel body that the Willys-Overland Company is able to give it that high gloss, per magnet finish.

Quality in Overland Four goes further than materials. It applies to design which has given that perfect balance that means years of life to the car and economy of operation and upkeep.

For Sale and on Demonstration by Wm. J. Hogan, Newcastle, N. B. T. F.

CITY CHILDREN LEARN FARMING

Except for the interest and untiring efforts of individual teachers agriculture would never have found a place in schools where it is being successfully taught today. To make the work successful untiring effort on the part of the teachers and the doing of many things not regularly expected of them. In the Agriculture at Gazette for March, Norman Davie, B. A., Teacher of Science and Agriculture at Renfrew, shows that agriculture in the school curriculum is valuable from a practical as well as a pedagogic standpoint. The lessons serve to train the mind and enlarge the general ideas of the pupil. School gardening is not intended to be vocational but rather its function is to broaden the mind and make the pupil better able, through small experiments in Nature's own great laboratory, to decide as to his future course in life.

A rather unique innovation at the Renfrew Collegiate Institute is the poultry house on the school grounds in which pullets are housed and cared for throughout the year. Records are kept and practical instruction on poultry raising is given by the teacher in charge.

DON'T BLAME TOWN COUNCIL

Every person is requested to clean up their premises on or before May 11th which is Clean Up Day. If Clean Up Day is to be a success every one must help.

If the citizens in general do not assist, it will be a failure, and they will have to blame themselves, not the Town Council. The Town Council will do its part and the citizens should do theirs.

Shoes, if they squeak at all, squeak loudest in church.

Dye Old, Faded Dress Material

"Diamond Dye" Make Shabby Apparel Stylish and Bright as Ever

Don't waste your money on the "Diamond Dye" which is a poor dye. It does not dye, it only covers up the color. It is a waste of money. Buy "Diamond Dye" which is a true dye. It dyes and it stays. It is the only dye that will dye your clothes and keep them bright and new.

OBITUARY

MRS. ANN WARWICK

Nelson, N. B. April 10—Word has been received here from St. Stephen N. B. of the death of Mrs. Ann Warwick, on March 31 at the home of her daughter. Mrs. Warwick was formerly Ann Bateman of this place. She leaves to mourn one daughter, Mrs. Harry Hanson, St. Stephen and two sisters, Mrs. Maurice Tulp of Derby, and Miss Sofia of Irma, Alberta.

MRS. DANIEL SAUNTRY

The death occurred at her home in Nelson on Saturday afternoon of Mrs. Daniel Sauntry, wife of the station agent of the C. N. R. at that point, leaving her husband and four small children to mourn their great loss. Mrs. Sauntry was formerly Miss Patterson of Chatham, and is also survived by five sisters and four brothers who with her husband and family have the sympathy of the community in the first sad bereavement.

The funeral was held Monday morning to St. Patrick's church, Nelson at 9 o'clock and requiem mass was sung by Rev. Fr. Power. Interment was in St. Michael's cemetery, Chatham.

MRS. JOHN ROBINSON SR.

There passed away at her residence, Newcastle on Tuesday evening at 11 o'clock, Mrs. John Robinson, Senior, relict of the late John Robinson in the 93rd year of her life. The deceased was well and favorably known and numbered among her friends those of all classes of society. With the exception of the first few years after her marriage which she spent in St. John, the late Mrs. Robinson spent her long life on the Miramichi. She was a daughter of the late Wm and Isabelle Reid, of Aberdeen, Scotland. They were among the first settlers on the North Shore.

In religion she was a staunch Presbyterian and a life-long member and supporter of St. James' Presbyterian Church.

Mrs. Robinson was predeceased by her husband over eighteen years ago. She was the mother of a large family, the following are living:—Miss Isabelle M., and Margaret, at home; John Robinson Jr., Newcastle; Rev. W. R. Robinson, of St. John; Charles Robinson, Secretary of the Returned Soldiers, St. John; Major N., of Boston, and Alexander of the same city.

The following children predeceased her:—James B., of Moncton, Mich., U. S. A.; Allan A., Los Angeles, Calif.; Mrs. Henry Ingram of Newcastle. Besides the children living there are nineteen grand children, and six great grand children, and one sister, Mrs. W. M. Rust of this town. The funeral was held from her late residence on Saturday afternoon at two o'clock. Interment in St. James' Cemetery.

WEDDINGS

McKINNON-SACKLER

A quiet wedding took place on Wednesday April 21st at the Highfield street Baptist parsonage Moncton, when Rev. E. H. Cochrane united in marriage, Miss Helen P. Sackler, of Moncton and Mr. Peter A. McKinnon of Campbellton.

The bride who was a stenographer in the Maritime Sabbath Sunday School Association for the last year, is well and favorably known.

The groom is a well known C. N. R. brakeman.

After the ceremony the young couple left on the Ocean Limited for Campbellton, and other points north. On their return they will reside in Moncton.

The Best Medicine For Little Ones

Thousands of mothers state positively that Baby's Own Tablets are the best medicine they know of for little ones. Their experience has taught them that the Tablets always do just what is claimed for them and that they can be given with perfect safety to children of all ages. Concerning them Mrs. Joseph Therrien, St. Gabriel de Brandon, Que. writes: "Baby's Own Tablets are the best medicine I know of for little ones. I thought I would lose my baby before spring the Tablets but they soon made him healthy and happy and now I would not be without them." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

POOR FELLOW

"Yesterday," said Jabson, "I refused a poor woman a request for a small sum of money, and in consequence of my act I passed a sleepless night. The tones of her voice were ringing in my ears the whole time."

"Your conscience of heart does you credit," said Hobson. "Who was the woman?"

"My wife."

The Robinsons are leaving for their summer home at the Miramichi. They will be away for several weeks. The children, cleaned, bright, brushed and combed, will be with them.

You've Got to be Warm to be Happy

A COLD HOUSE is more than disagreeable. It is miserable. There is no relief. Warm Air—the simplest and least costly of all heating systems, is the best for cleanliness, health and comfort. Stoves and base-burners throw their dust all over the house and only heat parts of it. They heat the same air over and over again. The Enterprise Blazer combines heating and ventilation and it furnishes the moisture your lungs must have. The

ENTERPRISE BLAZER WARM AIR FURNACE

is a comfort that you owe to yourself and your family—to your pocket-book, too—for it is a money-saver on the coal. After thirty-five years of furnace building, it is the most economical furnace we know how to make.

Health and Comfort

Furnaces look alike—but they differ. Talk the matter over with your dealer and write us for our free booklet on the subject—"Warmth and Comfort". It will give you a lot of useful information.

Great Britain Bears Burden of War-Weary World

Nowhere, we believe, and least of all in Canada, is there any desire to minimize the effective part played by the United States in the Great War. It is recognized and universally acknowledged that the entry of the great republic into the war on the side of the Allies had a tremendous moral effect—it disheartened Germany and forced conviction on the German army, government and people that in the end they must acknowledge defeat, and to that extent helped to hasten the German surrender. On the other hand, it put new life and energy into the war-weary and war-burdened people of Europe, and more particularly of France and Italy. It is recognized, too, and cheerfully acknowledged, that the throwing of the enormous financial and material resources of the United States into the struggle was a potent factor, while the American army did excellent work after it got to France.

The United States alone did not win the war, but it certainly assisted greatly towards achieving victory, most assuredly helped to shorten the terrible struggle. A report issued by the French Government is, however, illuminative, as revealing how helpless the United States army would have been in the closing days of the war in 1918 had it depended solely on its own Government for supplies and equipment.

The items of the report show that there was handed over by the French Government to Pershing 57,000 machine guns, 222,500 rifles, 807,000 protection equipments, 2,800 revolvers, 3,800 airplanes, 3,838 cannon of all calibres, 240 tanks, 206,450,000 cartridges, 10,000,000 high explosive shells, 948,000 gas shells, 150 tons of gas, 136,881 horses, 15,000 officers in France and 500 in America, 17 camps, 6 artillery camps, 43 barracks, 2,000 square miles of cantonment, 30,000 hospital beds, 100,000 rooms for sick soldiers, and 300 trains per day. Counting in all the supplies, along with enormous quantities of food, wood and gasoline from French stocks, the report computes that French aid to the United States represented a saving of \$3,831,507 Maritime tons, French computation, of the percentage of French material used by the American Expeditionary Force, in comparison with totals of 100 per cent. for light and heavy artillery and tanks 98 per cent for airplanes, 57 per cent for naval guns, while of the 65,000,000 shots fired by American gunners from the 75's and 155's every shell came out of French factories.

Turning to the financial side of the account it is to be noted that some United States papers are making a great howdy-do over the fact that the United States during the past five years loaned \$9,450,000,000 to the Allies. This is being hailed by them as an unparalleled feat in finance, and they make the claim that it establishes the United States as the world's greatest creditor nation.

No one will question that such loans constitute a remarkable achievement even for a nation of over one hundred millions of people. But great as it is, it is outdistanced by Great Britain's record. Sturdy John Bull got into the fighting right at the outset, wholly unprepared as he was for the enterprise upon which he embarked. For a non-military old gentleman he put armies of millions of men in the field, carried on the war in all parts of the world, kept the seas of the globe clear of the enemy, supplied his allies with food-stuffs, munitions and money, and kept this up for years before the United States entered the war, and while the latter country was accumulating vast reserves of wealth at the expense of the fighting nations, Great Britain, with a population of approximately 45,000,000, people, was thus impoverishing herself while the United States, with its more than 100,000,000 people, was waxing rich and prosperous.

Great Britain became a heavy borrower in the United States to the extent of something like \$4,250,000,000. But Great Britain, while borrowing from the States, loaned \$8,700,000,000, or more than twice the total of her borrowings, to her other allies. In other words, with less than half the population, Great Britain loaned almost as much to her allies as did the United States. Long before the Allies have liquidated their indebtedness to him, John Bull will have paid off every cent he owes the United States.

The truth is, as one Ontario paper puts it, that John Bull is a sturdy Atlas, bearing the burdens of a war-weary and war-wrecked world. He fought with his back to the wall for years, putting every ounce of effort into the struggle, and now, when it is all over, he is feeding half of Europe from his own meagre world. He is a weary Titan, but he is no quitter.—Regina Leader.

A THOUGHT FOR TODAY

"When you go out in the morning to begin the work of the day, don't forget the little chamber of your stomach. It is the engine of your life. For the getting stomach's burden, and with words to lighten fate, you will find your own cares lighter, and under due to them."

Walking in Sleep P. E. I. Man Meets Death in Vancouver

Vancouver, B. C., April 13—Evidently walking in his sleep, Colin C. MacLennan manager of the Dunsmuir Hotel, fell out of a bathroom window of the hotel yesterday morning, and suffered injuries which resulted in his death.

He was a native of Prince Edward Island and a brother of Mrs. W. A. Hickson, Newcastle, N. B.

Cause Of Our Discount

Mr. D. A. Cameron, manager of the Toronto office of the Canadian Bank of Commerce, showed before the Board of Trade recently that the reported favorable balance of trade of Canada did not actually exist. Discussing the discount on Canadian funds in the United States, the banker pointed out that while this country last year exported more than \$300,000,000 in excess of imports, there was an offset against this which more than wiped it out. This was comprised of interest charges on Canadian securities held in Europe, amounting to \$125,000,000, and similar charges on securities held in the United States, of \$65,000,000, or \$190,000,000 in all, to which should be added payment for shipping charges and insurance premiums last year totalling \$60,000,000, with another \$60,000,000 for credits supplied to European countries buying Canadian goods, or \$310,000,000 in all. That put the balance on the wrong side of the Canadian ledger by \$10,000,000. Mr. Cameron added to this a further sum paid for securities bought back by Canada from Europe, which he estimated at from \$25,000,000 to \$50,000,000.

"Therefore, our real position for the year in foreign trade was an adverse balance of between \$30,000,000 and \$50,000,000," said Mr. Cameron, "and this accounts for the present discount of the Canadian dollar in the United States. The excess of imports over exports bring this about, and it is as accurate as a thermometer is in indicating a temperature."

It doesn't take nine tailors to break a man.

EAT What You Want
without distressing after effects. There is no reason why you should not, now that you know there is a medicine that will unfailingly counteract dyspepsia and other stomach troubles.

HAWKER'S DYSPEPSIA REMEDY

gives quick relief to stomach troubles, regulates and invigorates the digestive system, and permits proper eating without distress and pain.
Give Hawker's Dyspepsia Remedy a chance to relieve your suffering.
Sold at all drug and general stores, 50¢
The Canadian Drug Co., Limited
St. John, N. B.

END STOMACH TROUBLE. GASES OR DYSPEPSIA

"Pape's Dispepsin" makes sick, sour, gassy stomachs surely feel fine in five minutes.

If what you just ate is searing on your stomach or lies like a lump of lead, or you belch gas and eructate sour, undigested food, or have a feeling of dizziness, heartburn, fullness, nausea, bad taste in mouth and stomach-headache, you can get relief in five minutes by neutralizing acidity. Put an end to such stomach distress now by getting a large 50¢ bottle of Pape's Dispepsin from any drug store. You will see in five minutes how needless it is to suffer from indigestion, dyspepsia or any stomach disorder caused by food fermentation due to excessive acid in stomach.

Corn Planting

In the rotation, corn should follow clover hay or pasture. It may also be grown after grain or even following a hood crop, provided the soil is rich or a heavy application of manure has been made.

Fresh or green barnyard manure is the best plant food material, 12 to 15 tons per acre may be expected to give good returns. The application should be made in the fall, winter or early spring. The most practical method is usually the most satisfactory, and gives uniformly satisfactory results. The manure should not be buried too deeply in order that there will be the least possible chance for the leaching of valuable plant food constituents to depths in the soil beyond the reach of the immediate and future crops.

The aim in the preparation of the seed-bed should be to have it deep, moist, clean and fine. Clay land to be used for corn should ordinarily be fall ploughed, turning a fairly deep furrow but no deeper than the previous year. The soil should be broken and leveled, shallow spring ploughed, provided the most favourable conditions for corn planting, the soil, the growth of weeds, the dressing of manure or warm condition. In a cold soil, no cessary for the quick germination of the seed and the rapid growth of the plant, the secret to successful corn growing.

Moisture is a factor which must be duly considered in all seed-beds. No seed bed is complete until the surface and sub-surface soil are connected, with the manure well incorporated, so that there is no hindrance to the rise of soil moisture from the depths of the soil to where it may be available as required by the growing plant.

Sugar Jumps Two And a Half Cents

Montreal, April 15.—Advances on sugar, because effective today of the Canadian Sugar Institute, have raised their charge by 2 1/2 per cent, making their price now \$13.50 per hundred pounds, and the St. Lawrence and Atlantic Sugar Refiners' each advanced \$2.50 per hundred pounds, bringing their sale prices to \$15 per hundred pounds. These being prices at the factory.

Retail merchants here say that their prices will now range from a minimum of twenty cents to a maximum of twenty-three cents per pound.

STAR STRIKE IS STILL ON

Montreal, April 15.—Mr. Thos. Black, president of Local 176 of the U.P.M.W. of America, called today on the strike of the Star printers and said: "The situation is just the same as on Saturday."

The method where seed production is the aim or in short season districts, since hill planting is conducive to a quicker maturity of the crop than row planting.

Row planting 36 to 42 inches apart, is preferred on land in a good state of cultivation. No special machinery is required since the ordinary seed-drill answers the purpose and ear on the corn harrower than is observed in hill planting.

The rate of seeding is an important consideration. For each hill from 3 to 5 seeds of strong vitality are sufficient. For rows, 15 to 20 pounds per acre of high quality seed will usually give a stand thick enough to permit of harrowing.

The right time for planting corn depends upon soil and weather conditions. It should not be planted until every indication of cold weather is thought to be past. Neither should corn planting be left so late that there is danger of an insufficient moisture supply and a too short season for growth. The right time for planting can hardly be explained. The experienced planter feels in his bones that suitable conditions exist. The beginner can acquire this knowledge only by observation and practice.

The range of dates is between May 15th and June 10th.

The varieties of corn for ensilage or row depend upon the district where seeding is to be done. The first varieties including Longfellow, Champion's Early and Salter's North Dakota, among the earliest maturing varieties, are therefore, suitable for the first season corn growing districts in the longer season districts besides the firsts already mentioned, the best varieties, Wisconsin No. 7, Golden Bion, Bailey and White Cap Yellow dent prove satisfactory. In the Prairie Provinces North Western dent is popular.

Choice seed only should be used, this can be most easily procured by selecting from seed purchased before planting in order that there will be no chance of too thin planting. Fine seed deep enough to be in moist soil. Follow the following directions stimulate the germination of the seeds and to destroy weeds. After the shoots are through the ground begin inter-row cultivation. When the plants are 3 to 4 inches high, and if too thick in the row, use a light drag narrow crosswise of the drills.

Keep the plants growing by maintaining a loose, mellow surface soil. Cultivate deeply at first and as the secondary root systems develop and spread just under the soil surface or four inches of surface soil between the rows, cultivate shallowly in order that the root systems will not suffer injury through pruning and thus prematurely check the growth of the crop.

WHY IS IT

that chronic skin diseases which have defied all other treatments yield to Zam-Buk?

It is because Zam-Buk is germicidal, and also has such powerful penetration that it reaches disease in the underlying tissues and cures only by a permanent cure on the affected.

Mr. H. C. Buehler of 461 E. Broadway, Portland, Oregon, says: "For chronic skin diseases there is nothing like Zam-Buk. For fifteen years I had eczema, and I tried an 'cure', but nothing was capable of curing me permanently until I used Zam-Buk. Ten months use of Zam-Buk has effected a complete cure."

For ulcers, abscesses, boils, ring-worms, and other skin diseases, Zam-Buk is equally good. All dealers or Zam-Buk Co., Toronto, 506, box, 3 for \$1.25.

"I Wonder Would It Help Me?"

THIS question has been answered by many thousands of women who have found health and happiness in the use of Dr. Chase's Nerve Food.

Disappointment, irritable nervousness, depression and discouragement—these are some of the symptoms which tell of exhausted nerves.

In order to avoid nervous prostration or some form of paralysis it is well to get the building up process established at once by use of Dr. Chase's Nerve Food.

It costs a box, 6 for \$2.00, all dealers, Keanan, Bates & Co., Ltd., Toronto.

Dr. Chase's Nerve Food

IF YOUR CHILD IS CROSS, FEVERISH, CONSTIPATED

Look, Mother! If tongue is coated, disease little bowels with "Call-Fornia Syrup of Figs."

Mother's can rest easy after giving "Callifornia Syrup of Figs," because in a few hours all the clogged-up waste, sour bile and fermenting food gently moves out of the bowels, and you have a well, playful child again.

Sick children need to be coaxed to take this harmless "Fruit Laxative." Millions of mothers keep it handy because it is so safe and so effective. Ask your druggist for a bottle of "Callifornia Syrup of Figs," which contains directions for babies, children of all ages and for grown-ups.

PROSPERITY ON 160 ACRE FARM

Raising Hogs On a Western Farm.

Can a man farm and make money on 160 acres of non-irrigated land in Western Canada? D. E. Baldwin, of Kingsland, answers "Yes," and he is speaking from experience. Before taking to his homestead in the Kingsland district, tributary to the prairie city of Saskatoon, he had prospered in four states of the Union, his parents moving from Ohio, where he was born, to Iowa, when he made a home in Nebraska, near David City, and in Kansas, where he lived sixteen years, and Oklahoma, where he homesteaded in 1918. After about ten years in Oklahoma, he came to the Canadian prairie, where he has since prospered in 1918.

Here he has prospered, though he has not made a fortune, on 160 acres of land, and he has consistently reaped the profits of his investments. He has a fine home, a fine barn, and a fine stock of hogs, which he raises for the market. He has a fine crop of wheat, which he raises for the market. He has a fine herd of cattle, which he raises for the market. He has a fine herd of horses, which he raises for the market. He has a fine herd of sheep, which he raises for the market. He has a fine herd of pigs, which he raises for the market. He has a fine herd of chickens, which he raises for the market. He has a fine herd of ducks, which he raises for the market. He has a fine herd of geese, which he raises for the market. He has a fine herd of turkeys, which he raises for the market. He has a fine herd of rabbits, which he raises for the market. He has a fine herd of guinea pigs, which he raises for the market. He has a fine herd of hamsters, which he raises for the market. He has a fine herd of mice, which he raises for the market. He has a fine herd of rats, which he raises for the market. He has a fine herd of squirrels, which he raises for the market. He has a fine herd of chipmunks, which he raises for the market. He has a fine herd of chipmunks, which he raises for the market. He has a fine herd of chipmunks, which he raises for the market.

Partner, of Wainwright, recently. "I never went into grain farming, but made my money out of cattle, hogs, horses and potatoes. I follow the rotation of barley, wheat and oats without any summer fallow whatever. I fall plow for all my grain crops and plow it again in the spring. In the summer I have a crop of alfalfa, and in the fall I have a crop of alfalfa. I have a fine herd of cattle, which I raise for the market. I have a fine herd of horses, which I raise for the market. I have a fine herd of sheep, which I raise for the market. I have a fine herd of pigs, which I raise for the market. I have a fine herd of chickens, which I raise for the market. I have a fine herd of ducks, which I raise for the market. I have a fine herd of geese, which I raise for the market. I have a fine herd of turkeys, which I raise for the market. I have a fine herd of rabbits, which I raise for the market. I have a fine herd of guinea pigs, which I raise for the market. The Duty Of The Educated Man

We do not believe that there can be any doubt that in the long run and in the great majority of cases the knowledge of the educated man has been of distinct service to his brother of little or no education. To know that the educated man serves the public continuously we have only to think of the advances that have been made in medicine and surgical science and of the faithful service to the community of thousands of educated physicians; of the vast debt we owe to the educated common sense of the founders of our government; of the comforts and conveniences that the intelligence of educated men has brought into our daily life through the countless inventions of modern times; of the help—spiritual, mental, and moral—that unselfish and conscientious ministers, teachers, lawyers and business men of our acquaintance are daily giving to persons less learned than themselves.

Unfortunately, not all educated men comprehend the obligation that is laid upon them. Many of them are selfish thinking only of their own advantage, scornful of their neighbor, among such men are the quack, the shyster, the demagogue, the swindler and many, too, who cannot be written down so contemptuously, but who regard their abilities not as reasons for helping to bear the burdens of others but as means of winning prizes.

In the end it comes to this: that no education is true and admirable unless it trains the character as well as the mind. The reader who asked us the question must have seen instances of men who took frequent advantage of their cleverness and superior knowledge to defraud or deceive some one else. We have all seen such men. The truth is not that they have too much education, but that they have not enough. Their moral natures have been neglected while their brains have been sharpened; and that always makes dangerous men. We need more education of character; more moral discipline both at home and in the school. When we pay as much attention to moral training as we pay to training our boys and girls in languages and mathematics and science, no one will ask of asking our friend's question—Exchange.

sequently, the poultrymen found their returns were not sufficient to meet their expenses, and the increase in poultry raising has been very slow to what it might have been, had there been sufficient profits realized out of the poultry industry.

While it is not intended to mislead you into the fact that big money can be made out of poultry and their products with the prevailing high price of feeds, yet this can be said, that your returns may be increased very materially by producing winter layers. The following results, which were obtained on the Experimental Farm, Nappan, from five of the best winter layers, also five of the lowest, from October 1st, 1919 to March 31st, 1920, will bear this out.

The five best birds laid 413 eggs at a total cost of \$8.21. The total value of eggs laid and sold for eating was \$23.78, leaving a profit of \$15.57. The five poorest laid a total of 24 eggs at a cost of \$8.10 with a total value of \$1.99, making a loss of \$6.11 for the six months. Figuring on a basis of 100 hens like the first five you have a profit of \$312.00 against a loss of \$122.00 from the latter. In computing the above, only the actual food consumed is taken into consideration, labour and interest on investment neglected. Now it can readily be seen that the winter layer is by far the more profitable hen to have. More especially when the high cost of feed is taken into consideration.

In order to produce profitable winter layers, we must select eggs for hatching from not only our most healthy and vigorous birds, but from our best laying strain. Hatch these along about the first of April and not later than the last of April. When the chicks are hatched, great care must be taken that the baby chicks do not get stunted, otherwise, they will not be as good as later hatched birds at maturity. Keep brooders and brooder house clean, light and free from dampness and draught. Give them plenty of whole some chick foods, such as baby chick scratch grain, baby chick grit, oyster shell, charcoal and sprouted grains. Keep an even temperature at all times during the early stages, for that is the most critical time in the development of the winter layer. Keep them growing well throughout the summer. Do not over crowd your house. Feed plenty of good growing feeds, such as grain mixture of 200 lbs. cracked corn, 200 wheat, 100 of oats, together with a dry-mash mixture of 100 lbs. bran, 100 corn meal, 100 crushed oats, 100 shorts and 20 lbs of beef scraps. Keeping at the same time plenty of grit, oyster shell and charcoal where they can have access to it.

Producing Winter Layers

Why should we produce winter layers? Because there is an increasing demand, not only at home but abroad, for poultry and poultry products. What has caused this great demand? There are several reasons which, when taken collectively, are very convincing why such a shortage should exist in poultry and, of necessity, poultry products. Firstly, because Canadians are eating more eggs every year. Secondly, because there is a greater export demand for Canadian eggs and poultry to meet the demands in foreign countries, the latter having been depleted of their laying stock during the war. Thirdly, because of the high prices of feed and the comparatively low price of market poultry during the third and fourth years of the war, meant that a great many laying hens were killed off. Fourthly, because not sufficient attention had been given to the hatching of early chicks for winter layers. Con-

tinued from page 7. We all know the "typical boy." Well there are thousands on thousands that are not like him.

REGAL

The Big Value in FLOUR for Bread, Cakes & Pastry

NATURAL GAS DEVELOPMENT

The first discovery of natural gas in the Province of Alberta of which we have record, took place in May, 1884, at Alderson, a station on the main line of the C.P.R., 30 miles west of Medicine Hat. The railway construction gang, boring for water, struck a heavy pocket of gas at a depth of 1,300 feet. A little later in the same year, gas was also discovered at Cassis, 6 miles further west, but while this well soon choked, that at Alderson continued to flow for many years.

In 1890, Medicine Hat, then but a small town, sank a well and found a small supply at 700 feet; four years later another attempt was made, and history tells how at the eleventh hour, with money all spent—facing bankruptcy—and despair and gloom in the hearts of the mayor and city council, a sensational flow was uncovered at a depth of twelve to thirteen hundred feet. The cheap, apparently unlimited fuel supply, both for commercial and domestic purposes, is largely accountable for that city's growth and present prosperous condition.

There are several known gas fields in the Province of Alberta, but as yet only two have been utilized for commercial purposes to any considerable extent, namely, the Medicine Hat and Bow Island fields. Bow Island lies on the railway line about half way between Medicine Hat and Lethbridge, 180 miles south-east of Calgary.

In 1912 the supply was piped into the city of Calgary, as well as distributed en route to the city of Lethbridge, Macleod, and other towns, where it is used for both domestic and commercial purposes. In the neighborhood of Pelican Rapids, Athabasca River, gas springs were known at least a century ago, and travellers going up and down the river, into the Peace River Country have cooked their meals there. Further well-known gas reserves are the Foremost Field, south of Bow Island, the Barnwell Field, midway between Bow Island and Lethbridge and the Viking Field, 83 miles east of Edmonton and west of the difficulty of obtaining adequate piping. It is probable that this supply would have been utilized two or three years ago to furnish light, heat and power to Alberta's capital.

Prospecting is now going on in the Monarch Field, 40 miles southwest of Calgary, and at the Okotoks Field 27 miles south. Along the foothills of the Rocky Mountains, in the vicinity of the apex of a well definite anticline similar to that one in the Okotoks Field, there are many pronounced gas seepages and it seems probable that as in the former field, which had also a gas seepage, it will be a commercial producer.

The Imperial Oil Co. has commenced prospecting for petroleum along the last mentioned anticline, and it is stated, it intends to carry vigorous prospecting from the International Boundary northwards to Hudson Hope on the Peace River. The production of both petroleum and natural gas seems favorable. This company also proposes further prospecting at other points away from the mountains, where it has selected grounds for operation. In many parts of the province in drilling for petroleum, gas has been found; and

Gas Well at Medicine Hat, Alberta.

indications are that there is an immense gas field remaining yet to be tapped, the exact location, size and probable capacity of which can only be proven by testing.

According to the report of the Canadian Bureau of Mines, in 1915, there was produced 4,378,947,000 cubic feet valued at \$1,037,919, which is equivalent to 23.7c per thousand cubic feet—the heat that could be obtained from upwards of two hundred thousand tons of coal.

The Natural Gases of Alberta are known as "wet" and "dry." The former is a profitable source of gas line, and already a considerable amount of that fluid has been produced, with a probable greatly increased production in the near future. The Medicine Hat and Bow Island fields are "dry," but there is no reason to conclude that much of the gas yet to be found will be "dry"—rather the reverse.

Helium, a non-combustible gas, very nearly as light as hydrogen and invaluable for balloons, has been extracted in considerable quantity from the Bow Island gas at Calgary, and shipped to Great Britain for war purposes. The termination of the war, has stopped the manufacture, probably, however, only temporarily.

Whatever vice you haven't is much more reprehensible in your opinion than the vice you have.

EDISON'S VOICE IN RECORDS

Inventor of Phonograph, for the First Time, Makes Short Speech Which Will Be Preserved.

Our Corner of the Earth

is charming in a thousand ways, but it has the dampest winters of all Canada and the winds are cold and "raw". Coughs and colds are prevalent.

WILD CHERRY TOLU AND CHERRY BALSAM

will protect you and your family from coughs and colds. Keep a bottle always in the house. Colds demand prompt treatment.

Read what Thos. McAvty, of St. John, N. B., has to say about Hawker's Tolu and Cherry Balsam: "I take great pleasure in stating that I have used Hawker's Tolu and Wild Cherry Balsam in my family for years and find it an excellent remedy for coughs and colds."

Sold by all druggists and general stores. The same price everywhere—50c. per bottle. None genuine without Company's name.

THE CANADIAN DRUG CO., Limited, ST. JOHN, N. B.

Thomas A. Edison, who invented the phonograph 42 years ago, has for the first time consented to have his own voice recorded on a phonograph record. The reproduction, which is on the back of a record containing the national anthems of our allies, was heard recently for the first time in the Edison laboratory at Orange, N. J.

Mr. Edison celebrated his 72nd birthday on February 11. The talk, which is Mr. Edison's first comment about the war since America entered the fight, follows:

"Our boys made good in France. The word 'American' has a new meaning in Europe. Our soldiers have made it mean courage, generosity, self-reliance and modesty. We are proud of the North Americans who risked their lives for the liberty of the world, but we must not forget, and we must not permit demagogues to belittle the part played by our gallant allies. Their casualty lists tell the story.

"However proud we may be of our own achievements, let us remember always that the war could not have been won if the Belgians, British, French and Italians had not fought like bulldogs in the face of overwhelming odds. The great war will live vividly in the minds of Americans for the next 100 years. I hope that when we do reverence to the memory of our brave boys who fell in France we shall not forget their brothers in arms who wore the uniforms of our allies.

"I believe that the national airs of France, Great Britain, Italy and Belgium should for all time to come be as familiar to us as our own 'Star-Spangled Banner.'"

ESKIMO CANDY

If you were a little Eskimo, you would have a very queer kind of candy. It is nothing but tallow, but the Eskimo boys and girls like it very much. Their mothers and sisters put it up in bright red packages made out of the feet of water fowl. The men kill the birds, which are called doves, and then the women cut off the bright, red feet and draw out the bones, so as to make little bags or pockets of skin which they fill with tallow for the children. They like it as well as you do your chocolate drops or striped red and white peppermint sticks.—Ex.

Mrs. Smith: Does the baby take after your husband, Mrs. Jones?
Mrs. Jones: Yes, indeed. We have taken his bottle away from him, and the other day the little darling tried to creep down the cellar steps.

Crisis Safely.

Lascelles, P. Q.—"During the Change
of Life I felt so weak and run down I
could hardly do my work. The per-
spiration would pour over my face so
that I couldn't see what I was doing.
We live on a farm, so there is lots to do,
but many who felt as I did would have
been in bed. I took Lydia E. Pinkham's
Vegetable Compound and it did me a
world of good. I tried other remedies
but I put Vegetable Compound ahead of
them all, and I tell every one I know
how much good it has done me."—
Mrs. DUNCAN BROWN, Lascelles, Prov.
Quebec.

Such warning symptoms as sense of
suffocation, hot flashes, headaches,
backaches, dizziness, hot and cold
chills, sounds in the ear, palpitation
of the heart, sparks before the eyes,
irregularities, constipation, variable ap-
petite, weakness and dizziness should
be heeded by middle-aged women, and
let Lydia E. Pinkham's Vegetable Com-
pound carry them safely through this
crisis as it did Mrs. Brown.

You are invited to write for free advice
No other medicine has been so suc-
cessful in relieving woman's suffering
as has Lydia E. Pinkham's Vegetable
Compound. Women may receive free
and helpful advice by writing the Lydia
E. Pinkham Medicine Co., Lynn, Mass.

—At Pretoria, South Africa, by
legislative enactment a tax was
placed upon bachelors. A young
man from Nova Scotia filling an
important position there was fined
\$130 being unmarried. The fine
was paid, but he has not yet left
the benedict.

Quit Laxatives, Purgos; Try NR

NR Tonight—Tomorrow Feel Right

It is a mistake to continually dose
yourself with so-called laxative pills,
calomel, oil purges, and cathartics
and force bowel action. It weakens
the bowels and liver and makes con-
stant dosing necessary.

Why don't you begin right today to
overcome your constipation and get
your system in such shape that daily
purging will be unnecessary? You
can do so if you get a 25c box of
Nature's Remedy (NR Tablets) and
take one each night for a week or so.

NR Tablets do much more than
merely cause pleasant bowel ac-
tion. This medicine acts upon the
digestive as well as eliminative organs
and promotes good digestion, causes the
body to get the nourishment from all
the food you eat, gives you a good,
heartily appetite, strengthens the liver,
overcomes biliousness, regulates kidney
and bowel action, and cleanses the
body a thorough cleaning out. This
accomplished you will not have to take
medicine every day. At once one NR
tablet will keep your body in condi-
tion and you can always feel your best.
Try Nature's Remedy (NR Tablets)
and prove this. It is the best bowel
medicine that you can use and costs
only 25c per box, containing enough to
last twenty-five days. Nature's Rem-
edy (NR Tablets) is sold, guaranteed
and recommended by your druggist.

Better than Pills GET A
For Liver Ills. 25c Box

TAKES OFF DANDRUFF, HAIR STOPS FALLING

Save your Hair! Get a small bottle
of Danderine right now—Also
stops itching scalp.

Thin, brittle, colorless and scraggy
hair is mute evidence of a neglected
scalp; of dandruff—that awful scurf.

There is nothing so destructive to
the hair as dandruff. It robs the hair
of its lustre, its strength and its very
life; eventually producing a feverish-
ness and itching of the scalp, which if
not remedied causes the hair roots to
shrink, loosen and die—then the hair
falls out fast. A little Danderine to-
night—now—any time—will surely save
your hair.

Get a small bottle of Knowlton's
Danderine from any drug store. You
surely can have beautiful hair and lots
of it if you will just try a little Dan-
derine. Save your hair! Try it!

Stiffness

It is astonishing how
quickly Minard's Liniment
relieves stiff-
ness and lameness.

Gives Great
Relief

Mrs. A. E. Calvert, 26
Park Ave., South-
west—My husband has
frequently, always with
ease and relief, used
Minard's Liniment. I
have given great relief
to many others who
were suffering from
stiffness.

Mrs. Fred Johnson, Box 735, Thibault, Ont.—
"I suffered very much with arthritis in my face last
winter, was unable to try Minard's Liniment, and
was relieved immediately after first application.
I recovered in a matter of a few days. I have since
used it on my face and neck, and it has done me
much good. I can get on without trying up my face
and neck with ointment. I have told several people about Minard's, and others are
using it."

Lloyd George Is Defended In The Senate

Ottawa, April 21—Sharp cross-
fire between Senators Beaubien,
of Montreal and Fowler, of Sussex, on
the war achievements of Great Bri-
tain and France, respectively, and a
glowing tribute to the statesmanship
of Lloyd George from the latter mem-
ber of the upper chamber featured the
afternoon session of the senate.

Discussing a bill introduced by Sen-
ator Lynch-Staunton, which seeks to
compel persons selling German-made
goods to exhibit a sign to that effect
outside their place of business, Sen-
ator Beaubien agreed with many
other members that those responsi-
ble for the great world war should be
punished and made to feel the con-
sequences of their guilt, which at
present they were not doing. He
would have a resolution sent to the
British house urging more sympathy
for France.

"Do I understand the honorable gen-
tlemen to charge Britain with lack
of sympathy for France?" queried Sen-
ator Fowler.

Senator Beaubien replied that he
was disappointed that when France
protested against Germany sending
troops into Ruhr district, Lloyd
George had failed to say "we are by
your side."

"It is to be regretted that there is
a certain type of mind in this cham-
ber which cannot make a speech
without showing dislike for Great
Britain," said Senator Fowler with
vehemence. France had done nobly
in the war but where any one declar-
ed that she had done more than Eng-
land he, the speaker, must hurl
such a falsehood back in their teeth.
England had not only been bled white
herself, but had it not been for the
English borrowings in the United
States on French account the pound
sterling would be at par today. He
said the gentleman who had just
spoken never missed an opportunity
to get a stab at England.

Senator Beaubien interrupted to
say that he had not sneered at Eng-
land but had criticized Lloyd George
for the position referred to.

"Lloyd George is the greatest living
statesman today," replied Senator
Fowler. "If he had not stepped in
at the crucial moment there was no
telling what would have happened.
The change for the better in the
Allied war fortunes was noticeable
the very minute that he took over
the reins of power." He added that
he was accomplishing as great work
now that peace had come as he did
during the most critical period of
the war.

It was to Lloyd George more than
any other one man that credit was
due for winning the war and yet
such puny persons as the member for
Montreal sought to criticize him. The
mind of the member for Montreal
was not worth bothering about.

Senator McSweeney asked how
the bill would be enforced. He saw
difficulties. England, France and
United States, as well as other na-
tions, were sending goods to Ger-
many and receiving German goods in
return. In spite of Senator Lynch
Staunton's high falutin' talk of Char-
lemagne and Hannibal, he believed
the bill would be found impossible
of operation. How were merchants
to distinguish German goods that
might come to them through Eng-
land?

Senator Dandurand did not see how
any country would be able strictly to
apply the proposed bill. Nations
were already trading with Germany.
Britain had ships there to bring away
a large quantity of dyes, and British
American and Canadian makers were
saker to get a stock of these today.

Senator Domville favored the pur-
pose of the bill but believed there
would be difficulty in its application.
Those responsible for the war should
be punished.

Senator Thorne of St. John desired
to explain briefly why he was not in
favor of the bill. There was now a
sentiment against the use of German
Goods, but that sentiment would die
out in a few years. If shops aver-
tised the sale of German goods the
people would go to those shops if
the quality was good and the price
of the goods lower. He held that
the best barrier against German
goods would be a tariff barrier. The
bill was given second reading.

Will M. P.'S Don Overalls And Brave Speaker

Ottawa, April 19—Parliament in
overalls is not an immediate probab-
lity though "They do say" that Isaac
Ellis Pedlow, Liberal member for
South Renfrew has dared John Flaws
Reid, member for MacK-zie, to
brave the speaker's eye in denim.
The Saskatchewan member has not
absolutely refused to pick up the
glove thus thrown down, pointing out
that farmers know how to wear them
and still feel at their ease. Wearing
overalls is being seriously dis-
cussed by some branches of the civil
service, and there may be results be-
fore the weather becomes very warm.
No senators have made any prom-
ises, but members of the press gallery
threaten an old clothes campaign.

Children Cry for Fletcher's CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children.
Foods are specially prepared for babies. A baby's medicine
is even more essential for Baby. Remedies primarily prepared
for grown-ups are not interchangeable. It was the need of
a remedy for the common ailments of Infants and Children
that brought Castoria before the public after years of research,
and no claim has been made for it that its use for over 30
years has not proven.

What is CASTORIA?
Castoria is a harmless substitute for Castor Oil, Peppermint,
Drops and Soothing Syrups. It is pleasant. It contains
neither Opium, Morphine nor other narcotic substance. Its
age is its guarantee. For more than thirty years it has
been in constant use for the relief of Constipation, Flatulence,
Wind Colic and Diarrhoea; allaying Feverishness arising
therefrom, and by regulating the Stomach and Bowels, aids
the assimilation of Food; giving healthy and natural sleep.
The Children's Comfort—The Mother's Friend.

LUMBER WENT WITH ICE
A considerable quantity of lumber was carried out to the mouth of the river with the ice last week.

DIGGING BASEMENT
Mr. G. G. Stothart has commenced digging his basement, for the new residence which he intends building on King's Highway.

NEW LAWYER FOR MIRAMICHI
Mr. Wm. H. Teed, Barrister, has taken over the law business of Mr. De'ron, in Chatham, and will occupy the same office, over Sedgwick's store.

INCREASED RATES
With the increase in operating expenses the Newcastle Steam Boat Co. Ltd. steamer rates for passengers and freight have been advanced for this season.

H. C. OF L. SALE
Mr. James Stables is putting on a H. C. of L. Sale on Thursday, Friday and Saturday of this week. Read his advertisement on Page 10. A number of good bargains are being offered.

KICKED BY HORSE
Mr. Earl Underhill of Blackville was brought to the Miramichi Hospital last week, suffering from a wound in the head, which he received from the kick of a horse. He is doing as well as can be expected.

BOY ESCAPES
George Phair, of Newcastle, has escaped from the Boys' Industrial Home at East St. John. It was thought that he might try to get away on a train out of town, but there was no trace of him up to last evening.

DANCE IN TOWN HALL
Tomorrow night the A. Y. P. A. of St. Andrew's Church will entertain their friends to a social dance in the Town Hall. The chaperones are Mesdames Chas. Sargeant, A. V. Tracey Gould, F. C. Morrell, W. A. Park and A. J. Ritchie.

EXCHANGE RATES
New York, April 23—Funds in Montreal are once again up to 10 p.c. premium. Sterling in New York has strengthened to \$3.38 3/4 for demand and \$3.39 1/4 for cables, which makes sterling in Montreal \$4.27 5/8 for demand and \$4.28 3/8 for cables.

TO BE GIVEN SALARY
Hon. Dr. Roberts, Minister of Public Health, is to be given a salary of \$2,100 a year, the same figure as other ministers, and will thus have to contest an election in the City of St. John, a decision to that effect was reached at a caucus of the supporters of the government.

AT HOME
Invitations for an At Home, to be held in the Town Hall on Friday evening May 21st, will shortly be issued. It is expected that the entertainment will be one of the most elaborate social events held in Newcastle for some time. Perry's Orchestra of Moncton has been engaged to supply the musical programme.

ELECTION OF OFFICERS
The annual meeting of the League of the Sacred Heart was held Sunday afternoon April 17 at 3.30 o'clock. Miss M. Hennessy read a statement for the past year, which was very gratifying. Fifty dollars was voted for the Chinese missions. The following officers were elected for the ensuing year:—
President—Mrs. G. F. McWilliam.
Secy.—Mrs. M. Hennessy.
Auditors—Mrs. D. P. Doyle and Mrs. W. A. Craig.

PRICE OF OVERALLS
The prices of overalls have gone up in expectancy of the increased demand by reason of the overall campaign about to invade Canada, and now it remains to be seen if a decreased demand for the better styles of clothing will result in a corresponding decrease in the cost of same. If so, then it can be safely assumed that demand and not value is responsible, to some extent, for the high cost of living, and the question naturally arises just how much profiteering is going on because of demand.

GAME ACT TO BE AMENDED
A bill to amend the Game Act has been introduced in the legislature and provides for the extension of the close season on beaver to 1923; to impose an increased fee for the taking of beaver under permit; renewal of close season on snails; to supply three tags with big game licenses; repeal trapper on wild cats; non-resident trapper licenses to be increased from \$25.00 to \$50.00; to increase penalties for killing big game; to impose a royalty on all pelts, and to require buyers to make returns of shipment.

PILES
Do not suffer another day with itching, bleeding, smarting Piles. No matter how long they have been there, Dr. Chase's Ointment will relieve you at once and at a very low cost. A box of Dr. Chase's Ointment, 25c. Sold by all druggists, or direct from Dr. Chase, 100 N. 2nd St., St. Paul, Minn. Sample box free if you mention this paper and enclose 5c. stamp to pay postage.

SUCCESSFUL FOOD SALE
The Ladies Catholic Club held a successful Food Sale at Durick's Drug Store on Saturday afternoon.

MOVING DAY
Next Saturday, May 1st, is Moving Day, but many have no place to move to. A most deplorable condition.

RESOLUTION VOTED DOWN
The Bone Dry Resolution was voted down by a 22 to 13 vote in the Local Legislature last Friday.

ARBOR DAY
May 14th has been selected as Arbor Day for this year. All schools throughout the Province have been notified to this effect.

OVERALLS IN CHATHAM
Chatham Gazette: The Overall cult has struck Chatham and the new social garb made its appearance in town last evening.

TO INCREASE INDEMNITIES
On Friday, Premier Foster introduced a bill to increase the indemnity of the members of the Legislature from \$500 to \$1000.00.

LOSS SMALL
The loss by fire to Mr. F. D. Swim's Portable Mill in Doaktown was small only the roof of the mill being burned. Mr. Swim's Lumber cut this year will aggregate \$250,000.

VISIT OF EDITORS
Preliminary arrangements for the entertainment of the 210 members of the National Editorial Association of the United States who will visit Moncton in June, were made at a meeting in City Hall on Wednesday evening at which His Worship Mayor Chapman presided.

FRASER BILL AGREED TO
The Corporations Committee of the Legislature met Wednesday morning in private session and agreed to the Fraser Paper Company bill. The promoters and the other lumbering interests on the Tobique River conferred yesterday afternoon and reached an agreement on the points of flowage, sluicing and driving.

SNOWSTORM
On Friday night snow began to fall and continued all day Saturday, and Sunday making the roads very bad indeed. The roads are now in a sea of mud again. A warm sun will make them much worse and with the frost coming out we may be prepared for muddy roads for some time.

TWENTY-FIVE YEARS AGO
(The Daily Times, April 23rd, 1895) Chatham.—The Board of Trade, at a meeting yesterday, agreed upon 8.30 p. m. as the standard hour for closing business houses. There was a discussion on merchants cutting rates and it was decided to sell 27 lbs. brown sugar for \$1.00 instead of 30 lbs. and 22 lbs. granulated instead of 25. American oil will sell at 35 cents and Canadian at 27 cents. Canned goods 12 cents per can.

NEWCASTLE IGNORED
Paul Dufault the well known Tenor appears in Campbellton Wednesday night. Last season Paul Dufault included Newcastle in his coast to coast tour, and gave Newcastle an opportunity of hearing some choice music. However he was greeted at the Opera House with an audience of about 50, and some of those in attendance kept up a continuous noise throughout the evening, and had to be spoken to from the stage by Mr. Dufault.
This is the manner in which a Newcastle audience treated an eminent musician, and it is obvious why Newcastle has not been included in his 1920 tour. Such actions as these are to say the least disgraceful, and in consequence of such, those of our community who appreciate high class music are prevented from being given an opportunity to hear some. Is it not high time for our citizens to think over a matter of this kind and to take steps for the advancement of music in our town?

The accounts of the Salvation Army are audited regularly and at frequent intervals. Every cent expended goes for the community.

FUNERAL OF MRS. MARGARET LESLIE
The funeral of the late Mrs. Margaret Leslie was held from her late residence last Tuesday afternoon, April 26th at 3.30. Service at the house and grave was conducted by the Rev. Mr. Bertram. Interment in Miramichi cemetery.
The pallbearers were Messrs. Chas. Crammond, Cummings Reid, William Corbett, Jr., Phineas Harriman, Blackstock Matheson and Archie Russell.
The floral offerings were as follows:
Pillow—"Mother"—The family
Wreath—"Grandma"—Grand child
Pillow—Mrs. Hubbard and Mrs. Amy
Wreath—Mr. and Mrs. B. Matheson and family.
Wreath—Edward and Bruce Hubbard.
Spray—Mrs. G. Delano and Lent. Painting.

LEGISLATURE PROROGUED
The Local Legislature prorogued last Saturday.

CLEAN-UP DAY
Tuesday, May 11th has been appointed Clean-Up Day by the Town Council.

SOME DIFFERENCE
Sugar today is selling at 21 cents a pound. Twenty-five years ago it was worth 4 cents, some merchants offering 27 pounds for a dollar.

BILLS AGREED TO
The Tobique Dam Bill and the Miramichi Light, Heat and Power Company Bill were agreed to by the Legislature on Thursday.

ST. JAMES' CHURCH
The Rev. F. T. Bertram occupied the St. James' Church Pulpit on Sunday morning and the Rev. Wm. R. Robinson in the evening.

RESIGNED POSITION
Mr. Chas. M. Dickson, who has been identified with the local drug firm of Dickson and Troy has severed his connection with that firm but is still attending to his Optical Business as usual.

RECEIVES SUPERANNUATION
A Bill to provide superannuation for Geo. W. Mersereau, who for a great number of years was School Inspector in this section has been agreed to by the Legislature.

35 CENT SUGAR
It is predicted by many sugar dealers that when the food canning season opens about July 1st, sugar will retail for 35 cents per pound. Decreased production and increased consumption are blamed for this condition.

SOME BAND MUSIC
The Newcastle Concert Band deluged a large audience last Tuesday night with a Band Concert in the Band Stand. The music was much appreciated. Between the Band numbers the successful Town Council candidates addressed the citizens in short speeches.

PURCHASED TIMBER GRANT
Mr. John Maloney has purchased from Mr. A. Butenschon of Sweden a grant containing about 211 acres of timber land situated on Cow Brook. Mr. Butenschon expects to return shortly to Sweden, and consequently is disposing of the property purchased by him last year.

CASE AT CAMPBELLTON
Chief Game Warden, L. A. Gagnon, has returned from Campbellton where three out of six charges of violation of the Game Act laid by the Chief Warden, were heard before the magistrate. No decision was given in these cases and the others will be heard next week. Chief Warden Gagnon will visit other places in the Province this week.

LITERARY NOTES
The Derby Literary Club concluded the study of Longfellow's "Tales of a Wayside Inn" at their usual meeting which was held April 8th at the Parsonage.
Last week's meeting was largely attended when the programme was varied a little by the reading of a short story by Rev. E. Rowlands. Roll call was answered by jokes from the members, after which the meeting dissolved and gave itself up to organizing for the Debate to be held next week. The subject of which is "Resolved that City Life is preferable to Country Life."
There are signs of active preparation on the part of the members and a keen contest is expected.
