Richard Dalimadge, was on duty as usual and at 8.45 was in the yard near the far end of the long two-storied frame building, about 400 feet in length, when he saw smoke coming from near the centre. At first he thought it was only smoke from a passing engine, but as he neared it he saw that the place was on fire. Rushing inside the found the building, occupied as a general workshop with the rear end as a storegroom, in a blaze, and so quickly did it appeal that he had to run for his life, the dry old wooden building with the working material and shavings taking fire like a match box. He sounded an alarm from the corner of King and Stafford streets and in a few minutes the Porthand and Dundas street brigades were on hand. They found themselves bady landicapped in the matter of hydrants and tertiform a hydrant at the entrance to the Central Prison, but within five minutes from the sounding of the alarm they had two streams playing. Them a general alarm was sounded and the divisions from the St. Mark's Hall, Queen, College, Bay, Lombard, Wilton Avenue, Berkeley, Yonge and Yorkville-avenue halls were soon in attendance. The Parkdate fire brigade did its first duty to the city by turning out but its services were not required. The outlying divisions of Over-lie-Den and Rose-avenue were not called out.

In the Senate yesterday in the debate on the subject of the resources of the Mackensie River basin introduced by Mr. Girard, Senator Turner of Hamilton made an interesting speech. He had sent to England a large number of reports of the evidence taken before the Senate Committee last year on this subject, and from several places he had received letters of acknowledgment expressing surprise at the immensity and riches of the country. He advocated the building of a railway to Prince Albert, where connection could be made with navigation extending 600 miles westward. He expressed regret that the Stoney Mountain herd of buffalo had been allowed to be taken south, but declared his Stoney Mountain herd of buffalo had been allowed to be taken south, but declared his belief that there are buffalo in the Mackenzia River reserve, and pressed upon the Government the preservation of these animals,

The question of granting aid to railways ought to have been considered at an earlier stage of the session. But gentlemen opposite proposed to dangle these grants at the coming elections. [Hear, hear from the Opposition.] So far as the new districts were concerned he was not opposed to aiding them, but he entirely dissented that the timber districts were the property of those settlers. These timber limits were rather the heritage of the whole people, In conclusion Mr. Meredith moved in amendment:

That all words after "that" be struck out and that there be inserted the following: This House regrets that in opening the question of aiding out of provincial funds the building of railways a more just, equitable and satisfactory scheme has not been submitted for its consideration.

The Amendment Gets the Laugh. There was a good deal of laughter from the There was a good deal or suggest from the supporters of the Government when Mr. Meredith moved this amendment, probably because it was not strong enough. But almost immediately Mr. Balfour stood up and moved as an amendment to the amendment:

Only four members supported this amendment, They were Messrs, Balfour, Evanturel, Monk and Robillard. Mr. Balfour then moved a third amend of a somewhat similar nature to that which he had moved first. This The Resolutions in Committee.

Then Mr. Fraser moved in amendment to the amendment that all words of the amendment after the first word "that" be omitted and instead there be inserted these words: This House approving of a reasonable amount of provincial aid being given to needful and desirable colonization reliways within this Province do forthwith resolve itself into committee to consider the resolutions relating to railway aid heretofore ordered to be considered in committee of the whole House, and that Mr. Speaker do accordingly now leave the chair. AMATEUR ATHLETIC ASSOCIATION A Committee Appointed to Walt Upon the T.L.C. and Rosedale Ground Co.

A meeting of the delegates of the local clubs interested in the formation of an Amateur Athletic Association was held last night at the Granite Rink Club House. Mr. Jas. Several delegates of other clubs sent word that as their clubs had not held a meeting they were not in a position to speak authoritatively as to the decision of their organizations.

After an hour or so was spent in a lively discussion the following decision was arrived at to metion of Mr. D. A. Rose, and seconded by Mr. H. J. P. Good, it was resolved.

That a committee be named by the chairman, with authority to wait upon the toronto facrosee Club and Rosedale Athletic Ground Company and enquire upon what terms, if any, the Rosedale arrived at a committee association proposed to be formed, and the terms to be obtained in writing.

Ages and ages ago, geologists tell us, the waters from the upper lakes swept down the galley to Lake Ontario instead of discharging over the majestic precipice at Ningara. This was some time before the days of "John A." and this first conspiracy has never been directly attributed to him. In more modern times time and circumstances have worked many changes, and every change seemed to have an adverse induence. It was laid out in 1801 and being at the converging points of the roads to Waterloo and Guelph it soon became a place of considerable importance. After the shrewd Frenchman Peter Desjardins dug the canal through the marshes and around Burlington Heights a tree menous trade was done, particularly in stares and bolts, and it became the shipping port for the surrounding towns of Galt, Waterloo, Preston and others. Then commenced the sivalry between its and its youngers ster Hamilton, and Dundas seemed to have the best of ft. The opening of the Grat Western Railway directed commerce into a new channel and Dundas gave up the fight. The iron horse supplanted the canal boat, and tradually the boats and barges disappeared and were seen on the waters no more. It is now hiefly associated in people's minds with the outcast of the town.

Great dissatisfaction as present exists with the express trains do not stop here. It seems that owing to the alleged steepness of the grades engrees trains do not stop here, and passengers have to go to Hamilton to each express frains either east or west. The high price of loading as are of grain in Dundes has had the effect of diverting the grain trade to other places. A proposition has been made lately to do sway it the present G.T.R. station, run everything to Hamilton and work Dundes by a spur line along the canal bank to the centre of the town. By this arrangement they thing the grain trade can be recovered and the people better accommodated generally. The matter is now being agritated, and negotiations are going on with the G.T.R. relative to it.

"I am in my 64th year. Have been afflicted in several ways—could not sleep, had no appetite, no courage, low spirits. I commenced using Paine's Celery Compound, and felt relief from the third day after using it. I now have a good appetite and can sleep well. My spirits and courage are almost like those of a young man." S. C. Kinkaid, D. D., Gonzales, La.

Paine's Celery Compound Strengthens and builds up the old, and cures their infirmities. Rheumatism, indigestion and nervousness yield quickly to the curative power of Paine's Celery Compound,

A Perfect Tonio and Invigorator, it "I am now 69 years old and have tried several remedies, but none had any effect until I used Paine's Celery Compound. I feel entirely different for the short time I have used it. I can walk nearly straight, sleep sound and well, and feel as though there was new life and energy coming into my whole system."

H. MYLIUS, Cleveland, Tenn.

Federal Block, 13 Victoria-street (up stairs). Mysterious Healing Power By "Laying on of Hands." PROF. LEMON. Office over Imperial Bank Branch, corn-Queen and Youge-streets.

Esoteric Physician and Magnetic Scientist. Formerly of the Medical Faculty of the University of Buffulo. Wonderful case of Capt. Nelson Smith of Hamilton, paralyzed and fell on the floor on getting out of bed last September. Since then lad to be helped every way, could get down stairs alone by sitting on each step and lifting the helpiess limb with the sound one. He was brought to Dr. Lemon at the Itevere House, Toronto, Thursday, March II, who treated him by the "Laying on of Hands" and fervent prayer for his restoration. The Captain on leaving desired to walk down stairs alone, joyfully exclaiming, "I can doit," but his devoted wife kept a firm hold of him. He returned on Saturday, 18th, for further treatment and left still more improved, saying, "Doctor, I will circulate you in the papers for this."

Dr. Lemon is the only regularly educated and legally qualified physician in the world who goes on the stage and in full view heals the sick. goes on the stage and in full view heals the sick.

A young lady's blood turning to water, she was chalky white to her lips, and dropsical looking, had seen nothing and was 17 years old, catarrh and dyspepsia also. After six weeks she is a new girl, red as a rose is she.

This is to certify that I have been a great sufferer for some length of time from NEURAL-GIA OF THE NERVES, and am happy to state that I am feeling much better from the "magnetic treatment" of Prof. Lemon, M.D.

thanks God daily for His infinite goodness to him.

Miss M. C. Haslett (by permission), 77 Huron street, was a very great sufferer from dyspepsia, could not bear anything on her stomach, and the pain was as bad when empty, inflamed with catarrhal ulceration, liver inactive, stools white, urine red from kidneys trying to do the work of the liver. She writes: "Dr. Lemon saved my life. I was a perfect wrock, dying by inches. Could not sheep or eat."

Jno. B. Partridge of Massey, County Grey, stiff knees from rheuhatism, very painful, could not work, crooked, contracted, went bome rejoicing, walking freely without pain, limbs struight in a week.

On no account does Dr. Lemon ever put his paients to sleep in his office, neither does he ask embarrassing questions, or make delicate examinations.

35 years' experience render both unnecessary—requires bonnet or hat, no overcout or cloak to be removed, places his hands on the head, implores the blessing of God and then makes the Magnetel passes. This is done once or twice weekly to each until cured.

Dr. Lemon is, without the shadow of a doubt, the most powerful magnetic healer since King Charles II. of England, who cured 90,000 people by his mighty touch.

I hereby certify that my daughter, Miss Lily Lucas, who has suffered from "Ulcerated Catarrh" for the last 8 years, is now perfectly cured after two months' treatment by Prof. Lemon.
