## BANQUET FOR R. C. WHITEWAY

Popular Citizen Tendered Farewell Banquet by Rothsay Lodge. Departure Regretted

Mr. Ronald C. Whiteway, who has for over ten years been manager and controller of the Annapolis Valley Cider Co., now merged with the Graves' interests, was tendered a farewell banquet on Monday evening at Riverside Inn by the officers and members of Rothsay Lodge, A. F. & A. M.

The banquet was largely attended by the Masons of the town and a choice menu was provided by Mr. O. C. Jones, proprietor of the Riverside Inn.

There was no formal toast list but those present uttered in brief speeches, testifying to the general esteem in which Mr. Whiteway was held in the community and expressing regret at losing him both as a citizen and as a Mason.

On behalf of the Lodge, Bro. Fred R. Fay, P. G. W., presented Mr. Whiteway with a Past Masters' Jewel and expressed the general hope that he would return later and become once more a resident of Bridgetown. Mr. Whiteway was visibly affected by the genuine and spontaneous tributes of esteem expressed by those present and made a fitting and feeling reply. One thing particularly he was pleased to say that during sixteen years residence in Bridgetown he had had no angry word with anyone nor anyone with him.

Among the tributes to Mr. Whiteway was one from Mr. Francis Graves who had found him a gentleman in the business as square a competitor as he was a Mason.

Mr. Whiteway expressed the hope that he would return to Bridgetown as a resident. He leaves on Thursday for Montreal to take passage for England where he will look after business interests for his father. He goes accompanied by the best wishes of all who had the honor of his acquaintance.

UPPER GRANVILLE  
Mr. and Mrs. Bartlett Gillis are enjoying a brief visit with their sons at Yarmouth this week.

Mr. Charles Parker, wife and two children, from Cuba, are visiting Mr. and Mrs. R. F. Parker at the old home.

Guests at the home of Mr. and Mrs. A. Clark, recently, were Mr. and Mrs. Fenwick Balcom, near Annapolis; and several members of Kentville Sanatorium staff.

Fruit blossoming is about over and transitory was never more beautiful. A drive through the Valley at this season can scarcely be surpassed in natural scenery. Road and bridge repairing is noted at different parts of the country with good results. A marked improvement being visible. Recent rains give promise of a bountiful hay crop.

BASEBALL GAMES GALORE  
Baseball is on the boom locally. Today Lawrencetown plays the local team and on Friday Bridgetown and Berwick contend here. On Monday afternoon and evening the G.W.V.A. team of Halifax plays a double header with the local boys. A game at three in the afternoon and another at 6.15. The fans are in for a well filled programme.

## MT. HANLEY

Mr. and Mrs. B. M. Armstrong attended the baptism at Hampton last Sunday night and were guests of Mr. and Mrs. Henry Chute.

Mr. Archie A. Pierce has been the guest of his brother, Mr. and Mrs. Percy Pierce, at Brooklyn, a few days last week.

Mr. and Mrs. S. A. Barteaux attended the funeral of Mrs. Foster, at Clarence, recently.

Miss Helen M. Fritz, from Wolfville, Kings County, is home on her vacation.

Rev. Freeman, returned missionary, spoke very eloquently in the church on Wednesday evening to a large crowd, on the life and ways of India people and their country.

Miss Adelaide I. Fritz went to Wolfville to attend the closing exercises of the Academy and to accompany her sister, Helen, home.

Miss A. I. Fritz and Miss M. H. Fritz, were the week-end guests of Mr. and Mrs. Frank Miller, Hillcrest Orchard, Kentville, Kings County, and report a very pleasant time.

Misses Zelma Fritz, Alice Weaver and Eleanor Lynn, from Port George, were the guests of Mrs. B. M. Armstrong, quite recently.

Mr. Parker G. Banks, Outram, spent a few days quite recently, the guest at the home of Mr. Israel Fritz, Mt. Hanley.

Recent guests at I. Fritz's were: Charles and Doris Healy, Lena and Lenley Banks, Mable Andrews, Outram, and George Risteen, Port Lorne, and Archie Pierce.

Much sympathy is felt in our community for Mrs. Silas Daniels, Middleton, who is very sick at time of writing.

Mr. Robert Earley, Margareville, spent one day last week, guest at the home of Mr. F. Mosher.

## DR. JOST GOES TO UNIQUE REUNION

He Meets With Classmates of '62. Senator Cole, of Class '47, Will be Present

The venerable Rev. C. Jost, D.D., accompanied by Mrs. Jost, leaves today for Middletown, Connecticut, to attend the closing exercises of the Wesleyan University in that town. A unique and unusual feature will be a reunion of the members of the graduating class of 1862 of which Dr. Jost is still living.

The reunion and exercises in connection with it have been kindly arranged through the kindness and generosity of Mr. J. E. Andrews, Head of the Arlington Chemical Company, of Yonkers, New York.

A feature still more unique than the one referred to above will be the presence at the closing exercises of Senator Cole, a member of the class of 1847, who is now over one hundred years old. He is the only man now living who stood on the platform with President Lincoln when the latter delivered his celebrated Gettysburg speech which closed with the notable words "A Government of the people, for the people and by the people". The hundreds of friends of Dr. and Mrs. Jost wish them what they will undoubtedly have on this unique and memorable occasion, a most pleasant and enjoyable visit.

Mrs. Milledge Stevenson, of Clarence, left this week on a trip to Vancouver.

Harry McKenzie handled the game in his invariably fair and impartial manner. Davidson, of Berwick, was base umpire.

Score by innings:

## BERWICK LOSES TO BRIDGETOWN

Local Ball Team Has Played 21 Innings Without Being Scored Against

Well, twenty-one innings played without a score against them is not a bad record for any baseball team and that is just where Bridgetown stood at the close of the game with Berwick here on Wednesday afternoon. Twelve innings of scoreless ball with Middleton the previous week and the nine on Wednesday with Berwick makes up this total. Berwick team came here with an excellent reputation and have been the subject of many well deserved boasts in the Valley press and partly from the fact that Wigmore had been secured as their main heater. Mr. Wigmore pitched good ball particularly during the first half of the game. During the last few innings he weakened, while Jack Malcolm got better the longer he went. Good heater as he undoubtedly is, there is one thing which Mr. Wigmore should understand, and that is this—that it is no part of a pitcher's duty to leave the box and engage in disputing the decisions of an umpire, particularly an umpire whose decisions are so fair and generally accepted as those of Mr. Harry McKenzie. Mr. Joe Howe Cox was the umpire whom Berwick desired but he was not acceptable to the locals on the ground of insufficient knowledge of the fine points of the game. He did not appear the least pert out at the incident, though some of the visiting team did. The only advice, if we might tender it to the Berwick team, is this—Keep cool, and play the game. You have a good team, but the cool head wins. The public patronizes games as exhibitions of sport and skill with the very lowest minimum of yap. Chief of Police Boyd Bishop escorted behind the ropes Manager Thomas of the Berwick team. Mr. Thomas delayed play by disputing the umpire.

With these few preliminaries which may not be pleasant reading to all, but are well-meant and in the interests of clean sport, we pass on to the game. It was essentially a splendid pitchers' contest, and outside a few features, including those mentioned above, was a source of much interest to the four hundred or more fans who witnessed it. Malcolm struck out fifteen men, Wigmore 11. There were four hits off Malcolm and five off Wigmore, and during the first three innings, while no runs were scored, the advantage of play was rather with Berwick, as they got two men to third while Bridgetown got only one man past first. Roy Donaghy in the fourth, had the honor of scoring the first run of the season for Bridgetown, getting base on balls, he stole second and third and came home on an error. Austin, while still suffering from injuries to his leg received in the previous game, caught splendidly. The second tally was made in the eighth, when Grimshaw drove a nice two bagger to right garden went to third on a sacrifice by R. Donaghy and come home on a hit by Austin. In the ninth, with two men down, Bellevue made a two base hit for Berwick, but it came too late, for Thomas following fanned. Scriven played his usual star game and had a base hit for once at bat. Jackson was, for this game, replaced by Kennedy, as the former has not yet completed his thirty days residence. O'Hearn, for Berwick, batted well the first couple of times up, with a two bagger in the first innings and a base hit in the fourth, thereafter Malcolm made him fan.

Harry McKenzie handled the game in his invariably fair and impartial manner. Davidson, of Berwick, was base umpire.

Score by innings:

## MOUNT ROSE

Mrs. Horace Marshall and son, Charles, of New York, were visiting at Mr. Edward Marshall's on Tuesday and Wednesday.

Mr. and Mrs. Harry Hines spent the week-end with friends in Middleton and Brooklyn.

We are sorry to state that Mrs. Christopher Grant is still seriously ill.

Mrs. Sarah Grant has returned to the home of her daughter, Mrs. Asabel Whitman after a few weeks' stay in Outram.

At the ice cream sale held at Mr. David Milbury's on Monday evening, June 5th, the sum of \$12.50 was cleared after all expenses had been paid.

Mr. and Mrs. Edwin Whitman, of Clarence, were visiting at Mr. Asabel Whitman's on Friday.

Rev. D. W. Crandall, of Wolfville, who has been spending the week at the home of his daughter, Mrs. Asabel Whitman after a few weeks' stay in Outram.

On Sunday afternoon we had the pleasure of listening to Rev. S. C. Freeman, returned missionary, from Parla Kimeidi, India. Mr. Freeman's address was "The Greatness of India" and was most interesting to all who heard him.

Mrs. Norman Burbridge and children and Mr. Geo. Burbridge, of Brickton, were visiting at Mr. Allister Banks' on Thursday.

Mrs. Charles Banks, of Brooklyn, was a recent guest at the home of her sister, Mrs. Wm. Morse.

A quiet home wedding was solemnized on Wednesday, June 7th, at five p.m. at the home of Mr. and Mrs. Parker Sabean, when their son, Reid Shaw Sabean, was united by marriage to Pearl Banks, daughter of Mr. and Mrs. Wallace Banks, of Brickton. To the strains of the wedding march played by Miss Vera Graves, the couple took their places and the ceremony was performed by the pastor, Rev. D. W. Dixon, in the presence of a few of the immediate friends and relatives. In the evening a miscellaneous shower was given them by their friends and they were also serenaded by a number of the boys. Refreshments were served to all and a very pleasant evening was spent.

The chief feature of the evening's entertainment being violin music furnished by Mr. Robert Early, of Margareville with accompaniment by Mrs. Harry Hines. On Thursday and Friday afternoons Mr. and Mrs. Sabean were entertained at the homes of Mr. and Mrs. Israel Banks, of Port Lorne, and Mr. and Mrs. Harry Hines. They will spend the summer in Clarence before returning to their home here. The community extends congratulations and best wishes.

Mrs. Wm. Brown has returned home after a two weeks' visit in Bridgetown.

DR. PRINGLE PREACHES HERE ON SUNDAY

Dr. Pringle, of St. Andrew's Presbyterian Church, Sydney, C.B., will be the special preacher next Sunday in the Gordon-Providence United Church. The pastor will be away at Sydney attending the annual conference and Dr. Pringle has been secured to preach in Bridgetown for that day. This is a fine opportunity for the citizens of the town who may care to hear this distinguished Frontenac and Pioneer of the Presbyterian Church. Dr. Pringle is an ex-Moderator of the General Assembly of Canada, and spent some eight or ten years as Missionary in the Yukon. The committee in charge of arrangements are in hopes of making arrangements for the doctor to deliver a lecture on the Monday evening (the 19th instant) following the Sunday to a lecture on his experiences in Yukon. Dr. Pringle went overseas with the First Contingent and did not return until after the close of the war.

WEST INGLISVILLE  
Mr. Stanley Banks found ripe strawberries June 6th.

Mr. and Mrs. Lorne Banks and baby, Arnold, of Paradise, visited his parents, Mr. and Mrs. John Banks, on Sunday, June 4th.

Mr. and Mrs. Stanley Cross, of Nicotax, were recent guests at the home of the latter's aunt, Mrs. John McGill. Mr. Wilbur Banks and Manley McGill left on Wednesday for Dalhousie, where they spent several weeks in the employ of J. H. Hicks & Sons.

Mr. and Mrs. Primrose Durling and Carroll McGill spent a few days last week with friends at Dalhousie.

The apple and hay crops look very promising at present. The frequent showers are very much appreciated.

An interesting historical article from Dr. Armstrong, a wedding account of much local interest, and a number of small items will appear in next issue.

## LOCAL JUNIORS BEAT ANNAPOLIS

Score 2 to 1 in a Splendidly Played Game—Pitchers Well Supported

Bridgetown Junior baseball team journeyed to Annapolis on Thursday evening and added another victory to their list getting the long end of a 2 to 1 score.

The game was attended by about three hundred fans including a number from here, and the style of play delighted all present. The small score and very small error list only one for each team tells the public that the boys played real baseball. There was no scoring till the third inning, when Bridgetown made some very timely hits. Walter Dechman drove a nice one out to right field for a two bagger. J. Roberts got first on a bunt. Dechman going to third. Hoyt hit a two bagger and brought Dechman and Roberts home. Annapolis got their score in the fifth. Ritchie their heaver got a walk and stole to second and third, coming home on a sacrifice hit by Goldsmith. This ended scoring for the game. Among other features was a two base hit by McPherson of Annapolis. Ritchie had seven strike outs to his credit and Roberts two. While there were four hits off Ritchie and five off Roberts. Both teams gave splendid support to their bearers, Bridgetown particularly.

Line up as follows:  
Bridgetown—J. Hoyt (c.), James Todd (2 b.), Harry Troop (c.f.), Jas. Fay (1 b.), James Little (3 b.), Harold McLoughlin (l.f.), Herbert Gatti (s.s.), Walter Dechman (r.f.), John Roberts (p.).

Annapolis—R. Goldsmith (3 b.), McPherson (s.s.), H. Miller (c.), W. Nelson (3 b.), M. Rippey (l.f.), W. Ritchie (c.f.), E. McClafferty (1 b.), W. Ritchie (p.), Patterson (r.f.).

Umpire at plate: Reg. Buckler, Annapolis. Umpire on bases: E. Grimshaw, Bridgetown.

## WHY WOMEN TALK

Those who maintain that women are more voluble than men do not perhaps know that there is a scientific explanation for the phenomenon discovered some years ago by a French investigator. The average male, he asserted, speaking for one hour, expends sufficient energy to enable him, in another sphere of work, to lift a 2 lb. weight 40 ins. from the ground every minute. But that is only one-fifth of the energy wasted by a typical tub-chumping open-air speaker, who might as easily be lifting coal from the floor to his shoulder. The female voice, however, is of quite a different calibre, for its mechanism requires so little horsepower to operate that a woman can, we are assured, talk four times as long and four times as easily as a man for the same expenditure of energy, which explains Professor Jespersen's discovery, as well as the widespread belief that in a discussion the woman invariably has the last word.

Mr. and Mrs. H. M. Smith, of Whitman, Mass., left via Monday's east bound express for Cape Breton, Mr. Smith's former home, after a week's visit at A. B. Clarke's.

## CENTENNIAL COMMITTEE MEETS

Further Progress Made in Arranging Details. Athletic Sports, Trade Procession, etc.

A meeting of the general committee of Bridgetown's Centennial celebration was held Monday afternoon in the Board of Trade rooms, Dr. M. E. Armstrong, President, presiding, and considerable detail work was done.

The program as now planned will begin on Sunday, September 3rd, when sons of the town will fill the various pulpits. In the Baptist Church Rev. A. M. Marshall, D.D., of Ottawa, has been asked. In St. James' Anglican Church, Rev. Canon Troop, whose parents were among the first settlers in this part of the county, is expected to occupy the pulpit of his home church on that day. At the Gordon-Providence United Church, Rev. E. O. Armstrong, M.A., of Manitoba, will be the speaker. While Rev. Mr. Armstrong is not a son of the circuit he is a grand son of it, his mother's people being residents here and for many years conducted mills at Bloody Creek. Mr. Armstrong attended school here as a young man.

Monday (Labor Day) will be given up to Athletic sports and a trade procession with one of the best baseball games of the season.

On Tuesday there will be appropriate school exercises with musical program and an exhibition of historic pictures at the local theatre and a drive through the various historic places along the river.

Wednesday is to be French history day, when the exercises will take place at Bloody Creek, one mile from town. Here will be produced the short battle between the English soldiers of the 43rd regiment, stationed at Annapolis Royal at the time, and the French refugees, Hon. Rudolph Lemieux, speaker of the House of Commons, and Dr. Beland, M.P., will be present on Wednesday and will deliver addresses in the evening, and it is hoped that these gentlemen will stay over until Thursday when arrangements will be made for a big banquet at Riverside Inn.

## ANNAPOLIS CO. CRICKETERS WIN

Bridgetown and Annapolis Players Defeat Kings Co. Exponents. Score 137 to 61

A team composed of ten members of the Bridgetown Cricket Club and one from Annapolis went to Wolfville on Saturday last to play a representative Kings County team selected from the best players of the Kentville and Wolfville Clubs. Kings batted first and put up the very creditable score of 61. Annapolis County started disastrously, losing four wickets for 8 runs but on the brothers Ollerhead coming together an effective stand was made and the Kings total was easily passed. C. S. Bothamley also batted well.

Special interest was attached to this game as it was the farewell appearance of the brothers Ollerhead and R. Whiteway who are leaving for England on Saturday. After the game a dance was given in their honor by Mr. and Mrs. Elliott Smith at their beautiful residence in Wolfville. The members of both teams were invited together with their friends and a number of prominent people from Wolfville and Kentville and a very enjoyable evening was spent.

The Bridgetown Cricket Club are holding their annual dance on Wednesday evening, June 14, the Bridgetown orchestra furnishing the music.

SITUATION IN EAST ALARMS

That it was extremely interesting but also somewhat alarming to visit the Near Eastern countries after an absence from them and to note their progress in some of their activities was the statement made last evening by W. Jessup, National Secretary for the Foreign Work of the Canadian Y.M.C.A., who arrived in the city. During the course of an interesting interview, Mr. Jessup touched on the situation prevailing at present in the Near East and also told of the work which the Y.M.C.A. was doing to bring the more rational viewpoint into prominence in these countries.

Mr. Jessup has been stationed in Egypt for the last twelve years. He visited St. John two and one-half years ago and since that time has travelled almost around the world, having visited Egypt, the Near East, India, China, the Malay States, Korea and Japan. Mr. Jessup visited the chief cities in each of these countries, noting the work which the Y.M.C.A. was carrying on in each. He met the leading nationals in each, many of whom are not of Christian beliefs but all of whom proved most sympathetic toward the missionary cause, particularly to mission schools, medical missions and the Y.M.C.A. Mr. Jessup attributed their sympathy for the latter to the character of the work, specializing in training the student body in Christian ways; because of this it appeals to the official classes.

One of the things that strikes a visitor most, said Mr. Jessup, was the progress made in a physical way. At the Far Eastern Olympic games held in Shanghai last year more than 100 athletes from China, Japan and other countries took part, and a wonderful spirit of co-operation was shown. The people of north and south China, then as now at loggerheads in a military way, sank their differences to enter into friendly competition. The officials at Shanghai expressed their amazement that such a thing could come to pass in a country torn by civil war.

But, said Mr. Jessup, the significant thing that strikes a traveler in those countries was the unrest among the Mohammedan people, stretching from Morocco on the west to China on the east. But still more alarming was the growing alliance of the Moslem and the Bolshevik. Someone had said that the unrest in the east was the protest of the colored races against white domination. Islam recognized no color barrier, nor did Bolshevism. The Turks, having lost in the great war, were now using their position as leaders of the other Mohammedan races to demand the restoration of Turkey and the custody of the holy places now in British hands, which was denied them by the Sevres treaty.

Another interesting thing was that in any great movement of the world except Bolshevism, Mr. Jessup said, both declared that might was right. Both had lower ideals of social and married life. Both had a theory that there was lots of property that should be alienated by force. The Moslem wanted the property of the non-Moslem and the Bolshevik wanted the property of the rich. Because of the great war they both had suspicions of the western nations and hated with desperate hatred the British Empire. The unrest really was due to the aspirations of these eastern nations, brought about by education and closer contact with the western nations. They realized that they must assert themselves if they were to avoid being exploited by the western peoples.

In speaking of India, Mr. Jessup said that the moderate party there was willing to work with the government in order to try out the new reforms, and in time India would become a self-governing nation, although still a part of the British Empire. In China, the whole situation depended upon the co-operation of Dr. Sun Yat Sen with the leaders in the northern section. If they united, Mr. Jessup was of the opinion that China was in for better times. In conclusion, Mr. Jessup said that for the whole distracted world to-day there was nothing but the Christian solution adequate to meet the world situation. What was needed, he said, was a practical application of the sermon on the mount as individual with individual and nation with nation. Never before had the opportunity been so great nor the need so urgent for a practical demonstration of vital Christianity. The Y.M.C.A., with its physical gospel for the body, education for the mind and moral and spiritual basis for life, had the correct programme for the needs of the day and one that should challenge the attention of every thinking man who had the welfare of his fellows at heart. The world was now in a state of transition, he said, and a new order would succeed the old and this was the opportunity for Christians and Christian organizations to show for what they stood.—St. John Telegraph.

PAINS IN BACK AND SIDES

Relieved by Lydia E. Pinkham's Vegetable Compound

Lindsay, Ontario.—"I used to have very bad pains in my back and sides and often was not fit to do my work. I tried many medicines before I began to take yours. I saw Lydia E. Pinkham's Vegetable Compound advertised in the Toronto Globe and now that it has helped me I recommend it to all of my neighbors. I keep it in the house all the time and take it once in a while no matter how well I feel, for one ounce of prevention is worth a pound of cure."—ELIZABETH CAMERON, 13 St. Paul St., Lindsay, Ont.

To do any kind of work—and you know there is much to be done—is next to impossible if you are suffering from some form of female trouble. It may cause your back to ache or a pain in your side; it may make you nervous and irritable. You may be able to keep up and around, but you do not feel good. Lydia E. Pinkham's Vegetable Compound is a medicine for women. It is especially adapted to relieve the cause of these troubles, and restore them to normal health.

IRELAND'S CHOICE OF FREEDOM MAY BE LOST BY FOLLY OF HER OWN PEOPLE

Haggardstown, Dundalk, Ireland.—Cardinal Logue, Primate of Ireland, in the course of a sermon here, said that for seven hundred years the Irish had been sighing for their freedom, and it seemed within their grasp at last. Unfortunately, however, continued the Cardinal, "owing to the folly of our own people, instead of taking what is likely to secure that great blessing, there is danger through dissension among ourselves of its slipping away altogether and of our being thrown back into the terrible state of chaos and confusion in which the country has been for the past two or three years."

A GOOD MEDICINE FOR THE BABY

Nothing can equal Baby's Own Tablets as a medicine for little ones. They are a laxative, mild but thorough in action, and never fail to relieve constipation, colic, colds and simple fevers. Once a mother has used them she will use nothing else. Concerning them Mrs. Salaste Pelletier, St. Damas des Arnaques, Quebec, writes:—"I always keep a box of Baby's Own Tablets in the house. They are the best medicine I know of for little ones and I would not be without them." The Tablets are sold by medicine dealers or by mail at 25c. a box from The Dr. Williams' Medicine Co., Brockville, Ont.

HOW SCIENCE PAYS

By the use of fertilizers and scientific methods England grows 32.5 bushels of wheat to the acre as against Canada's 15.5. The Council of Scientific Research at Ottawa is trying to perfect methods of providing cheap fertilizers for Canadian farmers from raw materials now wasted in Canada. At 32.5 bushels per acre our last wheat crop would have been increased roughly \$398,000,000.—Calgary Herald.

THE RURAL MAIL CARRIERS

The rural mail contractors are again presenting their case to the government. They want the contract system abolished and the carriers engaged permanently at a uniform rate of \$70 per mile. Under the contract system there is a tendency to underbid the existing holder of the contract.

This is done by men who have had no experience in making estimates and tenders, and no adequate knowledge of the service required and the necessary expenditures. The system is the cause of much hardship. Last year 125 mail carriers were sold out of house and home, largely through expenditure for horsehoes, feed and repairs to wagons. One who had formerly enjoyed a comfortable house left Barrie with two suitcases containing all his possessions after a seizure and sale.

The contract system is suitable for large public works, for which tenders are made by men of experience. It is not applicable to a mail carrier in the country any more than to a city postman. A fair rate should be fixed and adhered to. Economy in public expenditures should not involve gross injustice and hardship to public servants.

The work is done under great difficulties. The roads are sometimes bad, and cases of horses so badly injured that they had to be shot are not infrequent. Many rural mail boxes have wrong names or no names at all, and the carrier must spend time in obtaining the information necessary for accurate delivery. Sometimes the box is left in the ditch instead of being fastened to a post, and the farmer expects the carrier to get off his wagon or place the box in position himself. Another cause of trouble is that boxes are sometimes on the right-hand side of the road, sometimes on the left, involving the danger and inconvenience of frequent crossing. Two carriers were killed in this way.

There is at present an expensive system of inspection, for which the country does not obtain an adequate return, because so much of the inspector's time is taken up in dickering with intending contractors. If the contract system were abolished, the inspectors would be free to devote all their time and energy to improving the service. They could insist upon the boxes being properly placed and named, and could call attention to the need for repairing bad pieces of road. They could encourage good service, and criticize failure to discharge the duties properly. To the credit of the carriers it must be said that out of 1,500 only six have been found guilty of wrong-doing.

In the United States, where there is rural mail delivery on a very large scale, the carriers are paid \$75 a mile, and they have three weeks holidays in a year. The Canadian carriers ask for only ten statutory holidays. Many recipients of mail have expressed their willingness to do without holiday delivery. We hope that the men who are making a modest request for fair treatment will receive a favorable hearing and will not be put off again. Let the new government make a good beginning.—Toronto Globe.

ANOTHER GOLD STRIKE REPORTED IN NOVA SCOTIA

Truro.—A rich gold strike has just been made at the long-discovered Oldham Mines, said to be one of the richest in the history of the Province; and as a consequence there is much excitement in that and adjoining localities. Recently, George A. Cameron, of Eureka, Pelton County, the veteran prospector and miner, representing himself and associates, took up property in that district and began prospecting. They came upon a lode, and without firing a shot, broke off a piece of the lode that it is estimated contained fifteen ounces of gold. Experts say the lode will run from 50 to 75 ounces to the ton. In the sixties and early seventies Oldham was a rich goldfield, and old timers always contended that there was a very rich lode there.

**OLD SHIPS MUST NOW BE SCRAPPED**

This is Declared to be the Only Solution of the Present Difficulties Arising Out of Surplus Tonnage.

New York.—Next to the reduction of the world's navies, the cutting down of the world's merchant shipping is admitted to be one of the most urgent needs of the present time, nearly half of the existing vessels having been tied up for want of cargo. The United States Shipping Board has hundreds of steamers on its hands for which employment cannot be found, while shipowners in other lands are facing a similar condition.

So acute has the situation become that it has even been proposed that each Maritime nation should agree to scuttle a specified quota of its idle ships, chiefly the older and less serviceable vessels, the shipowners receiving a certain amount of compensation from their governments.

This subject was discussed at some length last week by J. W. Clark, General Manager of the Royal Mail Steam Packet Company, the oldest and largest British shipping organization, who is returning to England after spending two weeks in New York. In speaking of the large fleets of idle vessels now rusting at their piers in England, France, Japan and other countries, Mr. Clark commented on a recent proposal that an international conference should be called with the object of reaching an agreement in regard to the scrapping of useless tonnage. He expressed opinion that such a solution of the problem was impossible.

**NEED FOR SCRAPPING OF SHIPS**

"An international agreement for the reduction of merchant shipping is not practicable," said Mr. Clark, "and consequently the only alternative seems to be the scrapping of old and inefficient vessels by the shipowners themselves. As to the superabundance of ships, it has been pointed out that many vessels still afloat would have been relegated to the scrap heap long ago but for the duration of the war. A large number of the steamers making up the total tonnage of the world, in fact, are considerably more than twenty years old, and many of these are quite obsolete. It would certainly never pay to keep them in service."

"Many shipowners are already recognizing this fact and the scrapping process has begun. If it is accompanied, as seems probable by an improvement in trade, it may reasonably be anticipated that excess tonnage throughout the world will eventually be absorbed. Stringent economic conditions are now consigning large numbers of old vessels to the shipbreakers and this is likely to continue. Of the tonnage now tied up in Europe as well as in the United States, it may safely be predicted that a considerable portion will never be put into commission again."

In referring to government control of shipping operations, Mr. Clark said that such a policy was strongly opposed by the majority of British shipowners on the ground that it is injurious to private initiative and enterprise.

**GOVT CONTROL NOT FAVORABLE**

"Government ownership in connection with the shipping industry no longer exists in England," said Mr. Clark. "Not only the tonnage built and acquired by the British government during the war, but also that portion of the German mercantile fleet handed over to Great Britain has been sold to British and other private shipowners, thereby re-establishing the principle of private ownership as the accepted policy of the United Kingdom."

In spite of the superabundance of shipping and keen competition for business, the Royal Mail's service in all parts of the world are receiving a satisfactory share of passenger and freight traffic. The company's reports show that international trade is slowly but steadily improving.

"One indication of better conditions," said Mr. Clark, "has been the success of the Royal Mail's trans-Atlantic service, which was established about a year ago. Owing to the increase of business it has been necessary to put on more vessels and early next year we expect to have weekly sailings from New York to Cherbourg, Southampton and Hamburg instead of fortnightly, as at present. At that time two more steamers, the Orca and Ohio, now approaching completion, will be added to the service."

As to the possibility of trans-At-

"I am perfectly delighted with the results I have obtained from Tanlac. My general health has not been better in years," said Mrs. Blanche Stockall, 50 1/2 Oxford St., Halifax, N. S.

"For the past seven or eight years I have been in a dreadfully run-down condition. I had an extremely poor appetite and never relished anything I ate, and always suffered from a distressing nauseated feeling after every meal. To make matter worse nearly every day I would have a blinding headache and was so nervous I was almost a wreck."

"Tanlac has given me a keen appetite and put my stomach in such good condition that nothing disagrees with me now. I have gained twelve pounds in weight and feel fine all the time."

**VALLEY TOWNS WILL FORM JUNIORS BASEBALL LEAGUE**

The future of baseball in the Valley is assured and in a few years the Valley towns will be turning out baseball teams able to compete with the best in Nova Scotia.

On June third at a meeting held in Middleton it was decided to form a Junior Valley League, the following teams having voted to enter: Digby, Annapolis, Bridgetown, Lawrencetown, Middleton, Berwick. Most of these towns are already supporting a senior team in the Valley League, but all have agreed that the supporting of a junior team is equally important.

Several of these towns entered the Herd and Mail League last year and made a creditable showing, and this year they are back again stronger than ever.

A meeting to elect officers, draw up a constitution and arrange a schedule is to be held on June 17th at Bridgetown.

This Junior League will be followed with keen interest throughout the Valley.—Herald.

**SOME GET MACKEREL FOR TWO CENTS EACH**

Halifax, N. S.—More than two million pounds of mackerel were taken by Nova Scotia fishermen last week, according to officials of the eastern division of the Dominion Fisheries Service. The average price received by the fishermen was about 3 1/2 cents a pound, though the inability local fish plants to handle big catches obliged some fishermen to sell mackerel weighing three or four pounds for two cents each.

American seiners landed thousands of barrels of mackerel here last week for transshipment in bond to Boston.

**THIRTY-FOUR DROWNINGS IN 'TIME PROV. THIS SPRING**

The number of drownings in Maritime Province waters has been larger than usual this spring, the total for the three Provinces being thirty-four. Of the number twelve lost their lives in New Brunswick waters, nineteen in Nova Scotia and three in Prince Edward Island. All of these fatalities occurred with a space of two months and a half, six in one day—June 1st.

Atlantic passenger fares being reduced, Mr. Clark pointed out that fares are governed by the cost of operating ships, which, at present, is far in excess of the pre-war scale. "When operating expenses fall to a point that will justify a reduction of fares," he added, "the trans-Atlantic passenger lines will undoubtedly recognize such a condition in their own interest as well as that of the travelling public."

**Is Yours A Marconi?**

Marconi is the outstanding name in the wireless world and is now making the pioneer move in Radio in Canada. Their large factories and extensive laboratories are now working to capacity turning out the wonderful Marconi Radio Receiving Sets and accessories. For some years they have gradually been securing more and more exclusive patents along the radio line until today they have something over two hundred Canadian patents which makes Marconi Radio products distinct and most advanced.

**A Marconi Broadcasting Station**

A Marconi broadcasting station is being erected in Halifax. From this station we shall give musical concerts of all kinds, lectures, sermons on Sunday, etc. The latest news will be sent out several times daily. Results of sporting events, stock market reports, weather reports, etc., will be sent out at stated periods daily. All matters of interest or good amusement will be available from this Halifax Marconi Broadcasting station to anyone in Nova Scotia if they own a Marconi Radio Receiving Set. In fact, our broadcasting will be heard many miles beyond the confines of this Province. This means that the owners of Marconi Receiving Sets will not only hear the programme given in many American cities, but will also get the Halifax programmes as well. It is all very wonderful.

**Present Stock Situation**

For many months it will be impossible for the Marconi factories to catch up with the tremendous demand. Until the time arrives when surplus stock will be available all orders must be booked in advance. This means that for a long time to come it will only be possible to secure Marconi Radio equipment by placing your order with your dealer, which order will be filled from each shipment of stock received by us according to dates orders are received. At the most the present situation indicates that this will only mean a delay of from two to four weeks after order is received before it is filled. We have arranged for this Province to get a particularly generous share of the Marconi output at all times, which will place us in a better position than possibly any other Province in Canada in respect to filling orders.

**Wholesale**

Place your order early and avoid disappointing delays. We are now appointing representatives to cover Western Nova Scotia. All inquiries receive prompt attention. Address all correspondence to Wolfville, N. S.

### DIVERTING OUR TRADE

Commenting on the changes made by the Fielding tariff, The New York Commercial says:—

But what is to be our attitude toward "protection" of those commodities which we normally import from Canada? Nothing has been gained and nothing will be gained by excluding Canadian wheat, for instance, from our markets only to force it to Liverpool, there to compete with ours just as effectively as it would in Chicago. The same or closely similar situations exist with regard to a good many other Canadian products. Can we gain our own consent to take a leaf from Canada's non-book and adopt a more reasonable policy in such matters? Whenever the United States tariff has been made more restrictive as against imports from Canada, the effect has been such as The Journal of Commerce describes. To such an attitude may be ascribed, in part at least, the confederation of Canadian Provinces, the British preference and the increased attention paid to the British market. Our trade is diverted into new channels.—Toronto Globe.

#### SEE ALSO PAGE SIX FOR CLASSIFIED ADVERTISEMENTS.

#### OBITUARY

The funeral took place on Saturday afternoon, June 3rd, at Belleisle, of Mr. Seth Young. Mr. Young had been in poor health for the past five or six months and some weeks ago his condition rendered necessary an operation at Victoria General Hospital. Unfortunately he was unable to rally from its effects and passed away at that institution on June 1st. His nephew, Mr. John H. Young, of Halifax, accompanied the remains home and the funeral services were conducted by Rev. E. Underwood in the Church of England at Belleisle, and at the grave in the cemetery there. Mr. Young leaves to mourn his loss one brother, Joseph, and one sister, Miss Annie Young, with whom he resided. The late Mr. Young never married, was of a quiet unobtrusive disposition, and enjoyed the esteem of many friends during a life long residence of sixty-nine years on the farm at Belleisle. The funeral was quite largely attended and many beautiful floral tributes were tendered.

W. G. Rees, Editor of the Halifax Herald, is spending a vacation at Yarmouth.

JACK PINE COMES BACK

Many travellers along the lines of the Transcontinental Railway between North Bay and Lake of the Woods, have been struck by the evidence of forest fire devastation and the interesting phenomenon of the regrowth of Jack Pine. The Canadian Forestry Association has provided the following explanation: "One of the main reasons that this section has been so seriously burned over is that the soil is nearly all gravel and consequently contains moisture to offset the tendency for fire to run during any dry season. The result has been enormous forest fires which passed repeatedly over the same area after new growth had been established. Young and old Jack Pine burn very rapidly and at the same time recuperates very quickly immediately after any fire provided the fire has not burped the seed or the roots. Forest Engineers appear to be agreed that Jack Pine will be almost as valuable in a few years from now as spruce is to-day, and that the protection from fire of Jack Pine regions will pay the country handsomely."

LINGERING WEAKNESS FOLLOWING DISEASE Due to the Fact That the Blood Has Become Thin and Watery In almost every case the victims of la grippe, influenza, fevers and contagious troubles, are left weak, ailing and despondent after the disease itself has disappeared. They do not pick up strength as they ought, and remain tired, listless and discouraged. The only reason for this is that the blood has been impoverished by the ravage of the disease through which the victim has passed. Strength and full vitality will not return until the blood has been restored to its normal condition. The blood can be enriched and purified quickly and surely by Dr. Williams' Pink Pills. To enrich the blood and strengthen the nerves is the whole mission of these pills, and thousands have found them beneficial after disease had left them weak and run down. Among those who have proved the value of these pills in cases of this kind is Mr. Charles A. Turner, light-keeper, Thrum Cap light station, N. S., who says:—"In January 1917, I took a severe cold which I neglected until it developed into pneumonia, which confined me to bed for some weeks. When I was able to get up and sit around the house, I found that I was not regaining my usual strength; in fact I seemed to be growing weaker and was reduced almost to a skeleton. I took an emulsion, but it did not help me. Then one day a friend who came to see me said, 'Here's some Dr. Williams' Pink Pills; just the thing to put you on your feet again.' I took them and then got six boxes more and soon could feel they were helping me. By the time the last box was empty I was doing my work again and feeling fine, and I had gained in weight. My health has since continued good, and I give the credit to Dr. Williams' Pink Pills." You can get these pills through any medicine dealer, or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

MEMORIAL TREES FOR SOLDIERS

The planting of memorial trees along Roads of Remembrance has been taken in hand by the Canadian Forestry Association which has volunteered to give free advice with detailed instructions to any local society intending to undertake such work. Scores of Roads of Remembrance planted with memorial trees contributed by the relatives of soldiers who fell in the great war have been planned by various women's organizations in Eastern and Western Canada. The movement is making rapid headway and promises to result in establishing a great many beautiful planted highways. The offices of the Canadian Forestry Association are at Ottawa.

TWO QUEENS OF THE SEA

It was a dramatic sight that the port of New York saw on Tuesday when the Majestic, newest and greatest of the liners, passed on her first trip to Quarantine the Mauretania, outward bound. The new queen saw the old and both saluted. The old queen, we say, although it seems a short time since the Mauretania and her ill starred sister, the Lusitania, were among the sights which every visitor in New York went to see. It is fifteen years, however, since the Mauretania made her first trip and it is twelve years since she ran from New York to Queenstown in the record time of four days, ten hours and forty-one minutes. The famous Cunarder is no longer the biggest of ships, for she is surpassed in length by the Majestic, the Leviathan, the Berengaria, the Olympic, and the Aquitania. But so far she has had the foot of them all. None has surpassed that voyage record of 1910. It is thought that the Majestic may do better when her machinery has been well worked in. The average speed of her maiden run was less than twenty-three knots and her best spurts sent her along at twenty-five and three-quarters knots—a record for a first voyage. The Mauretania made an average speed of 26.06 knots in her record breaking trip a dozen years ago. If the Majestic should hang up a new Atlantic record it will be because of her tremendous horse-power and not because of a driving ambition on the part of her owners or her titled skipper, Sir Bertram Hayes, to establish new time. The liners of to-day have great speed but they are built for comfort and safety rather than for swiftness. In the last generation the time for crossing the Atlantic has been reduced from the six-day voyage of the Etruria in 1888 to the four and one-half day trip of the Mauretania. Sea gones do not ask more speed than the biggest liners now afford. Should the Majestic set a new trans-Atlantic mark the Mauretania will put aside the crown of speed with honor, for she has held it longer than any other ship of the last seventy years.—New York Herald.

SLIPPING AWAY

(By Request) They are slipping away—those sweet, swift years Like a leaf on the current cast; With never a break in their rapid flow. We watch them as one by one they go Into the beautiful past. As silent and swift as a weaver's thread Or an arrow's flying gleam; As soft as the languorous breezes hid, That lift the willow's long golden lid, And ripple the glassy stream. As light as the breath of the thistle down, As fond as a lover's dream; As pure as the flush on the sea-shell's throat, So tender and sweet they seem. One after another we see them pass Down the dim-lighted stair; We hear the sound of their steady tread In the steps of the centuries long since dead, As beautiful and as fair. There are only a few years left to love; Shall we waste them in idle strife? Shall we trample them under our ruthless feet, Those beautiful blossoms rare and sweet, By the dusty way of life? There are only a few sweet years—ah, let No envious taunts be heard; Make life's fair pattern of rare design, and fill up the measure with love's sweet wine, But never an angry word! THE LITTLE TREE "Why did our beautiful leaves drop down And make us barren and sore, I shiver with cold," said the little tree To its big tall brother near. "I think my heart is really dead, For I feel no pulses beat. In my veins there runs no wine of life, And the snow drifts round my feet." "My child, the winter will quickly pass." The kind, big brother said; "Your heart has only gone to sleep For a while, be comforted, For soon we'll hear the south wind blow, And feel the soft warm rain, And our hearts will beat and our veins will fill With the wine of life again!" And the little tree stood by the streamlet's bank, And steadied its arms to wait For the robin's note and the south sweet wind, And Spring to open the gate, And when the ice began to melt, And violets starred the sod, The little tree felt its arm-a-thrill, And lifted them up to God. —Emma A. E. Lente.

### PROVINCIAL NOTES

The Wanderers senior team will play Middleton at the latter's grounds on June 23rd. The Middleton team was defeated by Springhill for the championship of the Province last year and are represented by a fast team.

The lobster fishing season just closed. Along our coast has been the poorest in the recollection of the oldest fishermen. During the month of April the fishermen made scarcely enough to pay expenses, and in May the catch was not half of what it was in the same period last spring. —Lunenburg Progress.

The teaching staff for Berwick school has been secured for the ensuing school term. The personnel of the staff is as follows: Principal, Miss Annie I. Roney, of Annapolis; Advanced Department, Miss Saele Parker; Intermediate, Miss Marguerite Savage; Primary, Miss A. M. Borden; Assistant Primary, Miss Fernie Freeman.—Register.

Plans are being made at Bridgewater for the Provincial Tennis Tournament in August. The contract for the new club house has been let and it will be completed by July 1st. It is to be of bungalow type and to have a large verandah for dancing. The courts are being recovered. It is hoped all five will be completed for the first regular tea, June 17th.

An inquest was begun by Magistrate A. G. MacLean in the case of little Eileen Northam, aged four, who died in the City Hospital from injuries received when she was run down by an automobile at Westmount Friday afternoon. Angus MacDonald, a truckman, was learning to drive his new car when the little girl ran under the wheels. A sad coincidence in the case is that MacDonald's wife was run down and killed by a bicycle on George Street about a year ago.

The Smith's Cove Reading Room has been progressing favorably. Since the opening on the 4th of last November 550 books have been loaned, and reading tables have been well filled. A number of magazines also have been taken out. The rent for the next six months has been provided in the form of gift, by a lady greatly interested in the project. The circle of interest in the Library is widening as evidenced by the receipt of books from Halifax, donors unknown. The committee is now planning for the further extension of the work during the summer.

Purchased by Capt. William Burns, of Sandy Cove, Digby County, to be used as a freighter between Weymouth, Little River, Sandy Cove, and St. John, the schooner Ruby arrived at Halifax recently from Chatham, N.B., her hailing port, in command of Capt. Burns. She was built at Parraboro in 1905 for A. Loggie & Co., Chatham, and is a vessel of fifty three tons net, length sixty feet breadth twenty-two feet, six feet depth of hold, and will make an ideal craft for a Bay of Fundy freighter. She was staunchly constructed. The Ruby brought a cargo of lumber from Chatham to Mulgrave.—Courier.

### THE PRICE OF CARELESSNESS

Just now is one of the periods in the year that bush fires are common. The dead brushwood and dried grass have been uncovered by the retreat of the snow, and the tiniest spark is enough to begin a destructive fire. Fishermen, picnickers and excursionists are again invading the woodlands and valleys, and they are also again lighting fires on which to boil water for tea and smoking pipes and cigarettes to solace their desires. To do this they take into the woods thousands of matches, each one a potential agent for fire.

Matches are inert enough when carefully stored and carefully extinguished. But not all persons are careful when they go abroad for a good time in the country. They forget that they are not walking on hardwood floors and concrete sidewalks, and unconcernedly cast aside half-burnt matches. Or perhaps they neglect completely to put out a campfire they have made. And because they do not exercise just that little bit of extra care, that additional small precaution, hundreds of acres of forest are burned down in Canada every year.

In doing so they burn down their own resources, for, according to the magazine of the Canadian Forestry Association, published at Ottawa, the Canadian people are the greatest forest owners in the world. They own almost 55 per cent. of the national forest area. It is true that frequently this timber growing on portions of the 55 per cent. is leased to lumber companies, but the fact of the lease does not diminish the significance of public ownership and control of the land on which the timber grows. Sometimes the ordinary citizen will criticize the lumber companies either as to their right to the forests they feel or as to the manner of their feeling. It is sometimes said that they take too great a toll of timber wealth.

But the cold facts are, as the Canadian Forestry Magazine points out, that the Canadian citizen himself burns down by wilful carelessness five times as much timber as it cut on all the timber berths from ocean to ocean. That is the weak spot in forest conservation. So that when the Canadian citizen protests against the lumber companies, he should remember also that 113 parties of fishermen in the Ottawa Valley during 1921 did their best to burn up the forests of the valley and that 305 camping parties left nothing undone that would have turned British Columbia into a black and desolate waste. All because of carelessness, because of lighted matches thrown aside and camp fires left burning when they should have been cold and extinct. —Ottawa Citizen.

### HOW LOSSES IN CURLING FISH MAY BE AVOIDED

Serious losses occur in the green salted cured and dried codfish of the Atlantic Coast by pink or red discoloration, affecting its market value and reaching sometimes as high as forty per cent. of the output, which is of special significance considering that the value of these products exceeded \$5,000,000 in 1921.

Through an investigation carried on under the auspices of the Research Council of Canada, by Dr. F. C. Harrison at Macdonald College, it has been discovered that this is due to the salt used in curing, and a simple and practical process has been worked out for avoiding these losses. The results of this valuable experiment show that the sea salts usually employed contain organisms causing discoloration, and that if no others are available they should be sterilized by heating in a kiln at the temperature of boiling water for thirty minutes; otherwise mined salt only should be used. Establishments in which sea salt has been used should be disinfected by steam, and all parts and utensils washed with fresh water. The Research Council of Canada has published a report embodying the results of this investigation of which copies are enclosed, and it is probable that fishermen will avail themselves of this information for immediate use during the present season.

### BONDS OF EMPIRE

"The British Empire", says the London Morning Post, "seems at times too vast and shapeless to be real, and sometimes the imagination wearies and falters before the dividing seas. But how real and close and united it becomes as one reads the words which the King spoke in Terlichthun Cemetery. The spirit which broods over that sacred resting place is of unity as well as of peace. The men who lie there came from the uttermost ends of the earth, but the cause for which they fought is stronger even than death. The King's pilgrimage, then, must quicken that feeling of kinship and brotherhood which is the Empire's very life-blood."

The spring run of mackerel which usually means a harvest for Nova Scotia fishermen of \$1,000,000 has now reached the coastal waters and good catches are being taken by the shore fishermen.

### Local Happenings

The Maritime Library Association is meeting in Wolfville on Tuesday and Wednesday of this week. Addresses were given on Tuesday evening by a number of librarians and educationists of the Maritime Provinces, also a good musical program. On Wednesday the matter of incorporation of the Association is being discussed.

In the classified ad. referring to the Roney place, Granville, for sale by Mrs. John McCormick, a slight error occurred by reason of the ad being received over phone, where the word "hotel" occurred, should have read "hall". "Five minutes walk to station and less to general stores. A little further on are churches, Fraser's store, hall and steamer pier."

A quantity of cider disappeared mysteriously from the premises of Capt. Willett, Round Hill, recently. The identity of the party involved is more or less a matter of conjecture and the case is made more complicated and mysterious from the fact that the cash was not removed from the place and signs point to a spilling of the fluids. Hence the query of local interest. "Who dumped Captain Willett's cider?"

"Jimmy" Scriven, of the staff of the Royal Bank of Canada, has been transferred to the Wolfville branch of that bank and left for the College town on Tuesday. He will be greatly missed in baseball as well as in social circles. He was one of the best men on the ball team. Wolfville will be very fortunate in securing such an all round athlete as Mr. Scriven. His place in the bank will be filled by J. W. Mackay, of Halifax.

On Sunday next there will be no preaching service in the Baptist Church as the pastor, Rev. C. W. Robbins, will be attending the Association at Bridgewater. There will be Sunday School at 12 o'clock. There will be no preaching service at Centrella in the afternoon but Deacon Lantz will conduct the meeting. In the evening at Bridgetown the Women's Missionary Aid Society will have charge of the service. A special programme is being prepared.

N. H. Phinney, Ltd., are establishing a Marconi Radio Broadcasting Station at Halifax, at a cost of \$15,000. From this station they will give musical concerts of all kinds, lectures, sermons on Sunday, etc. The latest news will be sent out several times daily. Results of sporting events, stock market reports, weather reports, etc., will be sent out at stated periods daily and will be available to all persons in Nova Scotia owning Marconi Radio Receiving Sets. For full particulars see ad. on another page of this issue.

The senior C.G.I.T. of Gordon-Providence Church made their first bow to the public on commercial lines, by holding an exhibition of dolls and curios on Saturday, June 10th. The dolls numbering over two hundred were of all kinds and conditions. No color line was drawn; we saw the lady of high degree hobnobbing with the scullery maid and the Esquimaux with the French belles. Conspicuous in the show was a well-equipped dolls' house; also a hospital. The foreign curios made the fair attractive to adults as well as to children. The home-made candy was good and had no lack of patronage; so the affair was a success, and the Group had the satisfaction of going well over the top in their objective.

A meeting of the building committee and all others interested in the building of an extension to the Baptist Church for Sunday School and general meeting purposes, held last Wednesday evening at the close of the regular prayer meeting. It was decided not to take any definite steps in this work until some further plans had been laid, and another meeting held in the near future. There is to be a meeting of the officers and teachers of the Sunday School on Thursday evening to make some arrangements for the grading of the school. This part of the work of the Baptist Church has certainly shown progress, as it has increased since the arrival of its new pastor, Rev. C. W. Robbins, from an average attendance of 95 or 100 to around 250.

The cut worms and flies are bad in this vicinity. Our roads are good and the auto-lets have the privilege of a scenic trip and enjoy a view of the bay breeze without climbing the North Mountain, and they are coming.

### ANNUAL CADET INSPECTION

This week Major General Thacker and Lieutenant Col. Willis inspected Cadets at Annapolis, Bridgetown and Middleton. The boys received compliments on their smart appearance and the excellent manner in which they went through the drills. The local Cadet corp numbers forty-six. Lieut.-Col. Willis, in the course of a short address to the boys, emphasized the physical value of the drill and expressed the hope that every boy of Cadet age would become an active Cadet.
