

THE Exchange News. COMMERCIAL ADVERTISER

A SUMMARY OF FINANCIAL, COMMERCIAL AND MINING NEWS.

Vol. 2. No. 9.

MONTRÉAL, SATURDAY, JUNE 10 1899.

Price 3 cents

Montreal Stock Market.

The shares on the list most dealt in seem to be very strong, due largely to the fact that holders fail to realize on advances, fearing a favorable turn in the money market, the tightness of which alone prevents an aggressive bull campaign. Pacific is declining because the continental markets are at present disturbed by political complications with the Transvaal. The buying in Street Railway was similar, the past few days, to that of a couple of months ago, when it advanced to the 330 mark and over. Speculative buying was more conspicuous than investment, though there was undoubtedly some of the latter also. The mining list was affected by the unpopularity of these shares as collateral. The buying of Dominion Cotton was by speculators, and the advance was brought about by operators who saw but slight supplies of the stock. Whether the advance can be maintained is doubtful. The important changes of the week were advances in Cable, Street Railway and Gas. The chief declines were in the mining issues. Bank shares are scarce, and have an upward tendency, owing to the favorable business outlook. Money remains scarce, and that an advance in many cases has occurred, proves that under different circumstances a strong bull market would be prevalent.

THE MINE BOOMER.

(Western Miner and Financier.)

The mine boomer is not an absolute necessity to the advancement of this great industry, for it would exist very easily without him and, in many instances, the industry would be greatly aided if there were no mine boomers, as their representations very often do serious injury. Once in a while, by accident usually, he does some good. He tells extravagant stories about veins of enormous width and fabulous richness, indulging in the grossest exaggeration. At home he does little harm, for no one believes him; but when he gets away from home, he is often the means of inducing people to invest in worthless properties, as for some reason the majority of people who are not familiar with mining matters, who do invest, seem ready to believe the most absurd stories, and the more absurd they are the more anxious they are to invest. There is where the real harm of the mine boomer comes in. He excites people's imaginations and makes them believe that fabulous wealth can be got for nothing. He gets them so imaginative that unless they are offered an investment which is promoted by a boomer, they will not invest at all, and when they do invest, they usually lose their money and become embittered against the industry.

We are almost daily in receipt of prospectuses published by boomers, but not usually of so exaggerated a kind as the one which we recently noticed embodied in the following extract from the Mining and Scientific Press:

"Some of the prospectuses issued by newly-created mining companies are very interesting, as they frequently make statements of the most surprising character. One which was recently noticed asserted

that the mine which the company proposed to develop was situated on a hill 1,000 feet above the neighboring stream. A tunnel had been run in, gaining seven feet in three; the vein was 130 feet wide and the claim 3,000 feet long. The ore was worth 18 per ton, and could be mined and milled for 80 cents per ton. The proposition was simple enough: The entire length of the claim 3,000, the vein 130 feet wide, and the depth to which it could be worked by tunnel, it was stated, showed in sight 30,000,000 tons of ore worth, net, \$17.20, or say \$15. This latter was a liberal concession, cutting off a net revenue of more than \$60,000,000, to which the stock-holder is rightly entitled, and it suggests that in making such unreasonable discounts some one was foresighted enough to make at this early stage of proceedings plans to absorb the \$2.20 per ton."

But it will appeal to those in the East, who seem to think that they can make a fortune out of nothing in a mining enterprise.

Editor EXCHANGE NEWS:

Sir,—I have read, with a good deal of interest, your remarks re the flotation of the Canada Western Mining and Exploration Company, and having the best interests of our mining industry at heart, beg to thank you for the independent stand you have taken, not only in this but in other matters regarding this most important branch of Canadian industry.

It is a great pity that the daily press allow their columns to be used to further the promotion of properties of questionable value, for although those who have any experience in this class of security are not likely to be deceived, there are a number who, knowing only the fact, that some of their friends have made money in similar ventures, allow themselves to be persuaded by the glib talk, and in many cases perverted facts, of the promoters, to buy stock, with the result that in many cases money so invested is lost.

It is well known that claims which promised well at the start have proved signal failures, because the promoters, having made their little pile by the sale of the property in question to the company, cared very little for its future. Frequently large sums are required for the successful development of a property, and the original investors being either unwilling or unable to contribute further, the result has been work ceased for lack of funds, the original investment was lost, and the only individuals who came out ahead were the original promoters.

NEW YORK EXCHANGE.

ST. PAUL'S RECORD EARNINGS— BANK STATEMENT IGNORED— MONEY PLENTIFUL.

The London market for Americans shows fractional declines. The Southern Railroad stocks, Norfolk, and L. N. are fairly firm.

There is no news this morning, but conditions generally bearing on values in the local stock market, seem to be unfavorable.

These conditions were reflected in the strength of yesterday's market, which was one of the most buoyant we have had for some time. The strength extended throughout almost the entire list and carried prices in some cases very much higher.

Sugar was the most active stock, the total sales being nearly 100,000 shares.

The most prominent figure in this stock was a large room trader, who, it is said, is going to Europe in a few days. He was a large buyer of the stock but very probably reaped his profits when the market advanced in the late afternoon.

Buying later in the market was of an excellent character, and was said to be for account of a house closely allied to inside interests. St. Paul continues to beat records, earnings for 1st week of June show an increase of \$102,000.

It is expected that to-day's Bank statement will not make a favorable showing. Gold shipments in the early part of the week and buying of stocks by Commission Houses will probably be reflected in the Statement, but money is so easy now that little attention will be given to it.

Most of the big roads have published their April earnings since last week.

Atchison shows a gross increase of \$22,211 and a net increase of 362,177 showing that the extraordinary expenditure we have so often referred to is at or, near an end.

St. Paul shows a gross increase of \$330,854 and a net decrease of \$9,122. The surplus of St. Paul over the dividend is already so large that it is merely a matter of account whether extraordinary expenses are charged directly to revenue or whether the yearly surplus is put into new property.

Reading (both companies) have a gross increase of \$136,997, and a net increase of \$8,898.

Reading 4 p.c. bonds seem to us likely to reach higher prices, but it is not very clear why anyone on the figures should buy Reading preferred stocks at current figures.

Wabash for April has a gross increase of \$28,024, and a net increase of \$5,190.

Northern Pacific for April has a gross increase of \$34,996 and a net increase of \$36,842.

For the 10 months of the fiscal year the gross increase is \$1,788,637, and the net increase \$419,132.

C. C. C. & St. L. for April has a gross decrease of 271 and a net increase of \$26,638. For the 10 months the net increased \$583, 01.

C. B. & Q. for April has a gross increase of \$5,503 and a net increase of \$17,733. For the year C. B. & Q. will earn nearly 7 p.c. on the stock besides the large sinking fund.

Union Pacific for April has a gross increase of \$164,374 and a net decrease of \$117,255, owing to a large expenditure on permanent improvements. For the ten months of the fiscal year the net has increased \$1,060,005. We do not pretend to know what the dividend policy of Union Pacific will be, but it will be discreditable to the management if 4 p.c. is not paid on the preferred stock, as it will be far more than earned. We look on the stock as a solid investment.

Chicago & Northwest in the preliminary report for the fiscal year which ends 31st May, shows a gross increase of \$1,882,738 and a surplus over all dividends of \$3,619,413. This means that Northwest has earned over dividends paid 9 p.c. on the stock, and has this much more property then it had a year ago.

Answers To Correspondence.

As we have special facilities for obtaining correct information on all matter pertaining to the value of stocks, we shall be pleased at all times to give our subscribers the benefit of same.

All correspondence must be accompanied with the name and address of the writer, as only enquiries from bona fide subscribers will be answered.

E. G. F., Toronto.—In answer to first question: The stock will increase its dividend in time. It yields nearly 8 per cent. on investment now. Will be on new basis this month, perhaps next week. It is good. The second mine asked about is in Texada Island, Nanaimo, B.C. Capital \$5,000,000; E. Bennett, president, owns the Copper King and Little Billie. Head office, Seattle, Wash. Sells around 7 $\frac{1}{2}$ cents a share. Is a gold mine with copper mixed. There is no talk of listing the other stock mentioned.

CHICAGO MARKET.

GOVERNMENT REPORT TO-NIGHT
EXPECTED TO SHOW 72—CABLES
CLOSE FIRM.

REVIEW FOR THE WEEK.

We have had a week of strong markets. Last Saturday July wheat was selling over 78 and since then it has maintained its strength even in face of weaker cables and a very poor export demand. Crop damage scares have been the ruling influence, this in fact, has been all that the bulls have had to work on, for statistics, and estimates have invariably been in favor of the bears.

A large increase of 1,193,000 bushels in the visible supply last Monday was certainly an unfavorable item. The enormously large shipments of wheat from this and other countries, swelling the European and English visible to much more than present requirements was also a bear argument, but failed to exert more than temporary influence.

Weather reports from European centres are generally favorable. France—warm weather has improved the appearance of fields. Earing will take place under normal conditions in the south and central departments. In the north and west the crop is said to be late for the season. Germany—Fair growing weather has prevailed, and crops are all making satisfactory progress. Hungary—Crops are generally good. In some districts the growth is almost too luxuriant. Italy—The outlook is very encouraging. It is the same in Holland and Belgium. Spain—Spain's crops in the aggregate will be inferior to last year's. Russia's winter wheat and rye are sadly in need of rain in the South and Southwest. In Roumania the grain crop is almost a total loss, owing to the drought.

Comparing our home supplies with former years, the Trade Bulletin says of the wheat situation. That the supplies of flour and wheat in all positions on July 1st, 1898, were equal to about 42,000,000 bushels. Crop of 1898 was 675,000,000, making total supplies for the crop year 1898-99, about 727,000,000 bushels and of this there will be disposed of as follows: consumption 325,000,000; seed 72,000,000; export 220,000,000; total 61,300,000; and leave on hand in all positions on July 1st, 1899, 100,000,000 bushels. Calculation now is winter wheat yield of 1899 will be about 275,000,000 and spring wheat 275,000,000, or a total crop of 550,000,000 and with the quantity remaining on hand on July 1st, the total supply for coming crop year would be about 650,000,000 or 67,000,000 bushels less than the year of 1898-99.

Corn—The reports on the corn acreage are satisfactory. In most localities the loss of the wheat fields were replaced by corn planting, with present prospects realized the corn crop for the season will be considerably in excess of first expectations. Of severe storms, which are the kind that really damage crops, there has not been one, and corn which so many reports say is in a bad way owing to cold, wet ground, etc., is looking better than it is represented. Many fields are undoubtedly backward, but anybody who knows the corn country knows that plenty of corn has been grown in seasons that start out worse than this.
