The inland steamship lines will be the heaviest losers, as the great steel coal unloading bridge which they had crected at the New Ontario dock, at heavy expenditure, today is lying a mass of twisted girders and cables across their railway tracks. For the past three months two hundred men have been employed in the erection of the bridge, in order that it might be in readiness to handle the fall supply of coal, and, according to a statement of Mr. S. L. Penhorwood, the company's agent here, would have commenced operations on Monday.

The crash came at 8.15 p.m., when the wind had gained a velocity of about eighty miles an hour. As the New Ontario dock handles the main coal supply of the city, it is expected that the setback in the handling of the coal supply may affect the prices very materially.

His clothing was covered with blood at the time, the woman declares. Pickell's first exploit which brought him into public notice was in 1904 following the slaying of Patroiman John F. Daly of Detroit, who was shot in an alley near the corner of Michigan avenue and Wayne street. Pickell sought to capture the assassin and risked his life in an attempt. A builet in the body was the reward for his bravery, and for weeks his life was despaired of by hospital physicians. He finally recovered, however, and resumed his work.

During the last ten years he had been employed a s special officer for the M.C.R. and Wabash as watchman and special officer for numerous other concerns. Several months ago he was arrested, following the shooting of a Kentucky boy in the Wabash yards. The lad had a bullet in his leg and the police claimed that Pickell exceeded his rights in the shooting. The special officer thought the boy was trying to steal a ride, but his justification failed to impress itself on the jury in Records Court. Individuality In Mantles

In the higher grades of coats, suits and dresses exclusive designs are a part of the value of the garment, and are paid for accordingly. In less expensive cloaks and dresses this exclusiveness is quite as desirable, but more difficult to obtain.

The Simpson Store goes a long way toward protecting its customers from the discomfort of "meeting" their clothing on some one else, for we do not handle large quantities of single styles. The variety is almost limitless. See the stocks now when you have first choice of the many styles for fall and winter.

CHARMING SILK DRESSES.

Made with or without the new peplum effect; chic novelty collars; side or front fasteners, and tiny self buttons as ornaments. The graceful skirts are finished at the waist by sashes with pointed ends; colors are tan, Copenhagen, navy, black and grey. Specially priced, \$10.50, \$11.50, \$16.50 and \$19.50.

STYLISH SUIT CORRECTLY STYLED.

After Vacation Peel Your Discolored Skin

(From Broadway Weekly.)

Women returning from the seaside with browned, reddened or freckled complexions will be wise in immediately taking, up the mercolized wax treatment. Weatherbeaten skin had best come off, for no amount of "beautifying" will ever make such skin pretty to look at. The surest, safest, easiest way to shed the despoiled cuticle is with the treatment suggested. Put the wax on before retiring, as you would cold cream, and rinself off next morning with warm water. Minute particles of scarf skin will peel off day by day, gradually showing the healthy, youthful skin beneath. One ounce of mercolized wax, obtainable at any drug store, is enough to make any discolored or spotted complexion clear, white and satiny soft, its action is so gentle no injury is caused and the face shows no trace of its use.

Burning heat, irriating winds and dirt are such wrinkle-makers that the daily use of the following astringent-tonic lotion at this season is highly advisable: Powdered saxolite, I oz., dissolved in witch hazel, ½ pt. Used as a face bath this is a spiendid wrinkle-remover and preventive.

FAMILY'S NARROW ESCAPE FROM FIRE

Hiram Day and His Wife and Children Have to Jump From Bedroom Window.

KINGSTON, Aug. 22.—(Special.)— Hiram Day, a Kingston cheese mak-er, his wife and two little children, came within an ace of being burned to death last night, when the Model Cheese Factory at Inverary caught fire and was burned to the ground. All four were sound asleep when the fire started from the engineroom. The Day family like in quarters adjoining fire started from the engineroom. The Day family live in quarters adjoining the factory, and when Mr. Day awoke, he found the entire place in flames. They had no time to drezs, but escaped in night clothes. Mr. Day dropped out of the upstair window to the ground and Mrs. Day threw the children into his arms and then climbed out of the window herself, and was caught in her husband's arms. All escaped injury. The factory was valued at \$3,000 and was insured for \$2,000. Sixty boxes of cheese were destroyed on which there was insurance. Lieutenant Col. Frederick Ferguson and T. Thompson owned the building.

WITHOUT SHIELD AND YOKE FACING

North Lanark Conservatives
Will Choose Their Candidate Next Thursday.

OTTAWA, Aug. 22.—(Special.)—The approaching by-elections, three of which will be in Ontario constituencies, were informally considered by the cabinet during the week. The three aspirants in North-Lanark today agreed upon a convention to be held next Thursday.

SLEEVES.

The blouse suit is a pronounced favorite for the younger boys and this one is made with straight trousers. The blouse is drawn on over the head in middy style and can be worn without a shield. The yoke is simply applied over the plain blouse foundation and can be used or not as occasion requires. The sleeves are set in a little below the shoulder line in true sailor style and can be made long and finished with cuffs or can be finished short and loose. For mid-summer, the latter style is particularly attractive. The straight trousers are closed at the front with pockets inserted in the side same. Suits of this kind are made of serge for the cool weather and from galatea, khaki, linen and madras for the warmer days. For the afternoon suit,

For the 8 year size, the suit will require a yards of material 27, 3½ yards 36 or 2% yards 44 inches wide, with ½ yard 27 for the collar, cuffs and shield or ½ yard for the collar only.

NATIONAL CHORUS REHEARSALS SOON

Dr. Ham Has Selected Exact- Eddie Ward and Tom McDon ing Program for Next Season's Concert.

The National Chorus of Toronto will begin rehearsals for the season of 1913-14 as soon as the Exhibition rush is over. Dr. Albert Ham, who returned from Aigonquin Park this week, has prepare a program of unusual merit for the eleventh annual concert, and in addition the chorus will have the honor of the assistance of Mmg.Marte Rappold, the famous soprano of the Metropolitan Opera, and Miss Vera Barstow, the rising young violinist, each of whom will make her initial appearance with this organization. The choral program indicates that selections have been made with a catholicity of taste that will make a strong appeal to all music lovers. The Russian (modern) a capella style is represented by two splendid specimens, in the "Cherubim Song" by Gluika, and "Sunrise," by Taneyeff, each in six parts. Both are full of warmth and vigor, and only so carefully trained a chorus coould hope to give them a proper interpretation. There are also on the program two fine examples of the English madrigal, "Come, Let Us Join the Roundelay," by Beale, an old composer, and "Flora's Queen," for double chorus, by Sir John Stainer. The American composer, MacDowell, will have two numbers to his credit—one, a charming Barcarolle for full chorus, and "Summer Wind," a four-part song for ladles' voices, unaccompanied. Mme. Rappold will take the soprano solo in Max Bruch's beautiful setting of "Jubilate, Amen," and both she and the chorus will have an opportunity to distinguish thepiselves. Dr. Ham has decided to repeat the "Ballade of Spring," sung with great success three seasons ago, and the choral rhapsody, "Seadrift," that pleased Toronto and Buffalo so greatly last winter. Shorter pieces by Elgar, Wood and others complete a program that will put the capabilities of the chorus to the test. will begin rehearsals for the season of 1913-14 as soon as the Exhibition

I was sitting at the extreme right I was sitting at the extreme right under one of the exits leading to a fire-escape. I opened the inner door, to find an iron or steel door tightly closed on the outside. A man came to my assistance, but our efforts failed to open that door (marked exit and indicated by a red light), leading onto the fire-escape. I promptly went to another fire-cscape and tried the door. I was able to open it, and went to another fire-escape and tried the door. I was able to open it, and people, right and left, while amused at my officiousness, gasped with relief. Fromptly a small boy of tweive or fourteen yars," with all the pride that's born of brief command," closed it again. I naturally thought that the curtain was going up, and that the door was closed to shut out the street noises and the bright sunlight—but, nothing of the sort!—the curtain didn't go up for another ten minutes. This was, of course, nothing more nor less than 'impertinence upon the part of a juvenile employe of the theatre, but the lecked door is a matter of real importance to each and every Toronto-Onter!

Surely, for the safety of the public.

theatre-fire-escapes are in condition to be used at a moment's notice. I cannot say how many exits were closed, but the discovery of one locked exit, especially in the gallery, in case of fire, would certainly precipitate a panic in the most self-possessed audience. If that door is not in use the sign "exit" should be removed. But I don't suppose that there are more exits than the fire regulations demand.

Your Children?

It seems to me that this business of appointing judges for life is a very bad business for the public. If the judges of the country were only elected by the people for a term of years such disgraceful lenlency as exists in our courts would be an impossibility. For instance, would Judge Morgan be reelected to office, do you think, after fining a man fifty dollars for an unspeakably indecent crime upon a little boy? True, the penalty was raised to one hundred dollars following the indignant protest of the prosecuting attorney, but why was this vile beast allowed the option of a fine?

My dear Toronto-Onters:—

August is drawing to a close and the Percy Haswellites are mourning, and quoting Shakespere (or Alice in Wonderland). public schools and lure little children away with promises of candy? And do you know that these men are FINED for their crimes?

I know a little girl of five who ran home from kindergarten this spring shrieking hysterically of a man who had behaved (according to an older school child who, hearing her cries, had run to the rescue) indecently, right in the shadow of the school. That mere baby still wakes up screaming in the middle of the night, and clings to her mother, crying that the "ing man is chasing her."

Next day Mr. and Mrs. Gordon Kelly startd for Washington, the Mecca of honeymoons. Arriving there Gordon registered at the hotel as "Mr. and Mrs. Kelly. Ga." Two weeks later they were in New York, on the morning of the day the Red Sox and the White Sox were to meet in the play off of the triple tie. Gordon asked Mildred if she would like to attend the game. Mildred would be delighted, at a very fancy price Gordon secured a box that turned out to be directly behind the Rea Sox bench.

Who could remain passive under the stress of that game? As inning after inning wore on. Gordon found he was hardly able to control himself. He longed to be out on the field to help, if possible, the red-legged players he did not know—to help the club that had paid the unheard-of price of \$50.00" for his services. SATURDAY MORNING, AUG. 23.

THIRD DAY SOUP.

"Caull kail het again" was the Poric verdict delivered on reading the editorial that occupied two-thirds of a page in Tne Telegram last night. The argument is the usual garble arising, either from inability to see both sides of a question, or the desire to conceal the side that The Telegram does not want to be considered. Starting with the fact that twenty per cent. of the gross takings of the street railway have to be paid to the city it argues that the receipt of this twenty per cent. would make it inadvisable to buy the franchise at the present time, because the shareholders. are losing what the city gains. It is not the first time The Telegram has recommended the process of biting off. your nose to spite your face.

It must not be forgotten that the committee of experts on transportation recommended the unification of the whole city street car system. That twenty per cent. clause in the agreement which The Telegram declares

Does The Telegram stand up and yell its denial that had there been no twenty per cent. clause the street railway company would not have refused to go outside the city limits and to add to its traffic receipts?

This is the crux of this whole twenty per cent. argument. And "now The Telegram declares that the city should the itself up to the street railway company's disabil-. VETERAN LAMENTS HIS YOUTHFUL LOVE

ST. JAMES, Mo., August 18.—The oldest inmate of the Federal Soldiers' Home lière is one of the few surviving veterans of the Mexican war. He is William C. Simpson, who is 102 years old. The average veteran in the home, past eighty years of age, is feeble and no longer able to do work of any kind.

Simpson was born in Little York, Pa. June 3. 1811. He was an orphan Pa. June 3. 1811. He was an orphan at the age of two years.

Frail health in his youth caused him to plunge into the west, settling on a homestead in Taney County, Mo. in the pioneer days. He herded sheep till life in the open air of the Ozarks brought health to him.

He disposed of his homestead and moved to Rogers, Ark., where he engaged in the grocery business. Fire

gaged in the grocery business. Fire deprived him of everything he possessed, and sixty years of age, when most men are thinking of retiring, found him starting life over again. He became a farm hand, and the rest of his life was spent farming. He entered the home here eight years

breaking out of the Mexican war, and took part in many of the imand took part in many of the important engagements. He was at the fail of Chapultepec, and marched with the victorious legions into the City of Mexico. During the heavy cannonading at Chapultepec one of his ear drums was ruptured and he has been partially deaf ever since.

Simpson was never married. When young man the girl he expected to marry died a few days before the date set for the wedding. He never date set for the wedding. He never ceased to grieve for her.

The old veteran attributes his longevity to moderation in eating, corn bread and bacon having been his principal diet during his life. Advancing years have not entirely destroyed his energy. Only last fall he visited in Lebanon and walked a mile

mitted a scant hour and a half's cricket n the match at Rosedale yesterday beween the Australians and All-America. but, short as the time was, the Cornstalks, who won the toss, succeeded in knocking up 83 runs for the loss of two wickets. The heavy rain of the morning prevented a start until 4.30, and it was a very slender band of enthusiasts who saw Cody and Mayne face the deliveries of Wookey and Baber.

Runs came slowly from the start, the first three overs only realizing three singles. Later, however, Mayne opened his shoulders to Baber and sent him to the boundary for a four. Cody punished Wookey, but the left-hander had his revenge a minute later, when he knocked

the Cornstalk's stump out of the ground. With Macartney in, runs came at a great pace, the diminutive Australian playing a great game. His cutting was delightful to watch, and his leg shots, always his long suit, were clean and sure. The partnership caused a change of trun dlers, Anderson, the big Philadelphian, relieving Baber at the north end.

The change was justified, for after

Macartney had hit the new bowler to the clubhouse Anderson disturbed Mayne's timber with a clinking good length ball. With the score taken to 83, rain came down and put an end to the day's cricket. Today play will commence at 11.30. The score.

For America's Cup Race

NEW YORK, Aug. 22.—Contracts between the New York Yacht Club and the Royal Ulater Yacht Club for next year's race for the America's Cup have been signed, sealed and delivered, and now nothing stands in the way of the contest. The official announcement to this effect will be made in a day or two.

The New York club is going ahead with it plan for the defence of the cup, and announcement will also soon be made as to the size of the boat which will meet Sir Thomas Lipton's seventy-five footer, Shamrock IV., as well as the owner or owners of the boat or boats to be built to meet him.

That Lipton will be met with a yacht of the same size as his own is believed to be a certainty, and that there will be at least three yachts striving in trial races for the honor of defending is also practically assured.

INDIANS MEET THE IRISH.

The Tecumsehs left for Montreal last night, where they play the Irish-Canadians this afternoon at Mascotte Park. If the Indians can beat the Irish today, and win all the rest of their games, they can tie the league up, providing the Irish are beaten once more by some other team. Today's game promises to be a hummer from start to finish, and both teams will pur up a great battle. If the Irish win, it is hardly likely that the Nationals will be able to catch them in the race.

C. G. Macartney, diminutive Austra-lian, who hit up forty-five runs be-tween showers yesterday at Rose-dale and is still at the wickets.

DEATH VALLEY WELL NAMED

Weird Tales of Sufferings of Victims Recalled by Miner's Fate.

recent death of Peter A Busch, a Colorado miner, in Death Valley, recalls many instances of the treachery of that portion of California, which was denominated by the early tribal Indians as the "Valley of Fire."

The Piutes, Washoe and other tribes in early days condemned their criminals to the country surrounding Death Valley. When an outlaw Indian violated the most sacred laws of his tribe he was condemned to the "Valley of Fire," where he was ex-

"Valley of Fire," where he was expected soon to perish.

Of the hundreds of bodies found in Death Valley, where men perished from heat and thirst, they are almost universally naked to the waist. The trail made by the men before death also shows a circuitous course.

At a certain stge, after being attacked by the heat, the person begins to run and claw at his breast. First his hat is abandoned. Then he begins to claw at his shirt, and finally tears it from him.

Runs in a Circle.

Then he turns in a circuitous route and narrows the circuit until finally he falls exhausted in a heap and never rises again. Delirium comes on instantly.

never rises again. Delirium comes on instantly.

It is at this point that the victim begins to tear at his upper garments and run. It is presumed that the terrible suffering from the heat and thirst feels like a load on his lungs and makes breathing difficult, and that the victim imagines by running he is getting away from the thing, and that in clawing off his upper garments he is releasing the weight.

Scientists who nave visited Death Valley in warm weather and had a touch of the heat state that the extraordinary effect of the heat there is caused by the peculiar situation of Death Valley. It is from 100 to 400 feet below sea level and is shut in on all sides by high mountains.

All Moisture Out.

The Panamints range shuts out the moist air from the Pacific Ocean, and the Funeral and Grapevine ranges shut out the wind from the slight vegetation on the eastern side, so that the only wind that reaches Death Valley, and that the atmosphere of that region, is the dryest of any place on earth: it absorbs from every liv-

region, is the dryest of any place on earth; it absorbs from every living thing, both human and vegetable, every particle of moisture.

This is illustrated by the fact that at certain places in Death Valley, when the thermometer is at its highest—often 137 degrees in the shade—a man never can satiate his thirst. As soon as he takes the canteen from his lips the thirst returns just as his lips the thirst returns just as

strong as ever. When the system is drained of all moisture the brain yields, the victim's eyes stare like a madman's and he runs his circuitous course of death,

He Knew the Answer.

STRENGTH THE GLORY OF MAN

DALL AT MY OFFICE WHEN YOU VISIT THE EXHIBITION AND TAKE THE

OPPORTUNITY TO CONSULT ME FREE.

Every day we have evidence that the weakling has no place in the busy, humdrum life of to-day. It takes nerve and strength to go up against the obstacles we are now forced to encounter, and this the weakling lacks. Look about you and see the successful man of to-day; it matters not whether he be a merchant, lawyer or lab-rer—with his head erect, eye clear, strength in every movement, he is ready to tackle any problem with that enhusiasm which assures success.

I can make just such men of weaklings. I care not how long they have been so, nor what has failed to cure them. Let them wear my

every night as I direct, and in place of a weak-nerved, debilitated being I will show you a strong man—full of vigor and life, with nerves like steel, and inidy to look any man in the face and feel that he is equal to the best of them, and can do what they can do.

You will say this is promising a great deal. I know it, and can show you evidence that I have done it for thousands of weak men, and every one of them had spent from \$50 to \$500 on drugs before he came to me as a last resort. Are you weak or in pain? Are you nervous or sleepless? Have you Rheumatism, Weak Back, Kidney Trouble, Weak Stomach, Indigestion or Constipat'n? Are you lacking in vivality? I can give you the blessing of the and strength. I can fill your body with vigor, and make y seel as you did in your youth. My Electric Felt is worn while you sleep. Controllers Establish Rate of Fares on Civic Car Lines.

REPORT OF VALUATORS

Mayor Says That It Will Probably Be Made Early Next Month.

Civic car line fares were established by the board of control yesterday at two cents for straight single fare,

and 6 tickets for 10 cents. These rates apply to the St. Clair, Danforth and Gerrard lines.

"We may reasonably hope to have the rates re-adjusted in a few weeks, by which time we will be completing our arrangements to purchase the Toronto Railway Company's system," Controller McCarthy remarked smilingly.

Controller McCarthy remarked smilingly.

"When will the valuators report?"

Controller Church enquired.

"Probably later than September 1st."

Mayor Hocken replied. "The valuation of the two properties is being made very thoroly."

"Some of the members of the council who are favorable to the purchase of the properties tell me they would prefer to have the bylaw submitted on January 1st." Controller Church said.

"I would prefer to have it earlier."

Mayor Hocken said. "The purchase of \$30,000,000 of public utilities should be a big enough issue to stand by itself."

"It would be a tremendous mistake to have the bylaw go to the people on January 1st." Controller McCarthy declared. "The matter should not be mixed up with the influences and personalities of a municipal campaign and election."

Controllers Church and Poster challenged the authority of Sir William Mackenzie to act for the shareholders of the two companies

Mackenzie to act for the shareholders of the two companies.
"Don't split hairs," Mayor Hocken advised.
"You have nothing to worry about if Sir William is acting without authority, for you do not want the deal to be made," Controller McCarthy said to Controller Church.
"We should take up the appointment of a city architect," said Controller Church.
"And also the appointment."

"And also the appointment of a pur-chasing agent," said Controller Fos-

chasing agent," said Controller Foster.

"We will deal with both of those matters early next week," Mayor Hocken stated.

Fruit Men Complain.

"Fruit dealers are complaining that the ched supplied by the G.T.R. at the foot of Yonge street is much too small to accomodate the shipments of fruit into the city," said Controller Foster. "Much fruit is going to waste by being spoiled by holding it in the cars. The dealers want only a floor and roof to relieve congestion."

"The board will personally investigate the matter early next week, and give relief." Mayor Hocken promised.

"Rentals will have to be paid for all street encroachments in all parts of the city." Mayor Hocken declared, when J. A. Murphy applied for permission to have a bay window at 207 Youge street, encroach on the street. The application was referred to the property commissioner.

Goos to England.

corporation counsel Geary is going to England in October, and he should take up before the privy council the case of the diversion of the Metropolitan tracks at North Yonge street." Controller Church said.

"We are not ready with the case yet." Mayor Hocken stated.

City Solicitor Johnston reported that express delivery limits cannot be extended to the city boundaries in every direction, owing to some roads being impassable to vehicles in the spring and fall.

"We will find out what districts are not served by express delivery, and the conditions of the roads, and then we will apply for a new zone for express delivery." Controller McCarthy advised. This was adopted.

D. D. Reid headed a deputation that objected to short term payment on local improvement plan of Duplex agenue extension north of Eglinton avenue.

"The term fixed is ten years and

"The term fixed is ten years, and should be 20 or 30 years." Mr. Reid said. "The cost of the extension will be \$200,000. What we wish to insist upon is a longer term of payment."
"We will recommend to the committee on works to make the term
20 instead of 10 years," Mayor Hocken

Uncollected Taxes.
"There are \$800,000 in taxes uncollected for 1903, 1910, 1911 and 1912,"

Clerk McQueen reported. "We have already ordered that the 1903, 1901 and 1911 rolls be returned forthwith and the collectors pay no attention to it." Mayor Hocken said. tention to it." Mayor Hocken said. It was decided to deal with the matter

next week.

The recommendation of the property committee, that the city cattle market annex be not transferred to the street cleaning department, was sent back with a request that the committee visit the annex and reconsider the recommendation. recommendation

SHERBROOKE, Que., Aug. 22.—
(Can. Press).—Harry Thaw had a quarrel with his many attorneys to-day. They had warned him to issue no statements, but he insisted on talking about what he described as an omission on the part of the newspapers in Canada and the United States in not printing in full a recent statement of his lawyers quoting William Travers Jerome as saying Thaw was sane.

"This omission has outraged the British idea of fair play," said Thaw. "They believe in a square deal." He fidgeted as he spoke, bit his nails to the quick and fussed with a pile of letters and telegrams on the pine table in his cell. On the window sill stood a bouquet of wild flowers sent him by an anonymous woman symble.

LOWER PRICES FOR NEW ISSUES

Macdonald and Spanish River Shares.

LOCAL MARKET HEAVY COVERING BY SHORTS

Little Support for Stocks Buying Orders Instilled Fear When Pressed for Sale -Mackay Firm.

A further drop in Macdonald and Spanish River caused an all round tone of depression in the local market to day, the effect being specially noticeable in shares of local concerns of comparatively recent date. The break was a continuance of the down turn begun yesterday with no definite news to account for it. There has been foreign selling pressure on both Spanish River and Macdonald for some time. Spanish River closing at 15 showed net loss of 3 points for the day and Macdonald at 25 a net loss of 4%.

Canners lost a couple of points at the morning board and Canada Bread was depressed but some of the issues with a milder market showed a good tone. Mackay was in good demand in anticipation of the dividend and fairly large offerings of Brazilian were readily taken.

There was little business in the more purely investment class of securities.

NEW YORK, Aug. 22.—A slow recession, which carried down a dozen or more stocks from 1 to 2 points to day, was succeeded by an equally slow recovery, and at the end of the session, which carried down a dozen or more stocks from 1 to 2 points to day, was succeeded by an equally slow recovery, and at the end of the session the leading shares were close to yesterday's final quotation. The day passed without important news consequently a general disinclination to do much in the way of speculation.

The decline was concentrated on Steel, Union Pacific and Reading, and the heaviness of these shares affected the remainder of the market. There were no signs of weakness, however, and with the appearance of sale buying orders on recessions, shorts grew under the morning board and canada Bread was depressed but some of the issues with a milder market showed a good tone. Mackay was in good demand in anticipation of the dividend and fairly large offerings of Brazilian were readily taken.

ANOTHER BREAK

Ten Point Drop at Montreal Followed by Rally-Spanish River Off.

MONTREAL, Aug. 22.—Further weakness in a few of the local specialties was again a disturbing feature on the Montreal exchange today. Weakness centered in Macdonald, which broke 10 points to a new low of 20, and Spanish River, which broke to 15, also a new low record. Liquidation, mixed probably with a certain amount of short selling, was sufficient to cause the 10 point break in Macdonald in the morning; Spanish likewise slumped on a light volume of transactions. In the late morning both stocks began to score a moderate recovery, which was continued in more pronounced form in the aftermore pronounced form in the after-noon. Macdonald rallied to 251-4 and closed there with the net loss reduced to 45-3 points. Spanish regained 11-8 of the early decline. Weakness in these two issues spread

gained 11-8 of the early decline. Weakness in these two issues spread to another stock of the same group. Dominion Canners, which, while less active than the other two, broke 33-4 to 641-4, recovered a point and finally closed at 65.

Good Support Given.

In the face of the disturbance created by this outburst of liquidation the general market continued to give a good account of itself, declines in few cases exceeding a point and closing quotations showing rallies of good sized fractions from the low. Power eased off 1 to 209, but closed 209 1-4 bid with no stock offering. Iron declined 11-4 to 49, but sold 491-4 in our appeal marketed practically all our 4 per cent. securities and from how on we will have the advantage of offering only 4 1-2 per cents." said Mayor Hocken. "Four per cents do not appeal much to brokers, bankers or investors these days. However, we have worked them off at very reasonable results.

"We have marketed practically all our 4 per cent. securities and from how on we will have the advantage of offering only 4 1-2 per cents." said Mayor Hocken. "Four per cents do not appeal much to brokers, bankers or investors these days. However, we have worked them off at very reasonable results.

"We are now in a position to meet all obligations until next March without offering any more bonds for swithout offer guotations showing rallies of good sized fractions from the low. Power cased off 1 to 209, but closed 209 1-4 bid with no stock offering. Iron declined 11-4 to 49, but sold 491-4 in the afternoon and closed 497-8 bid. Richelieu fell to 1063-4, ex-dividend, a loss of 13-4, but closed at 1071-5 bid. Detroit on the other hand scored a gain of 1 to 701-2. Other stocks were dull and changes for the most likely be back to normal condition, and we can market the remainder of the bonds authorized last January. "Our policy is to have all the bonds now ready to market placed before the first of next August, so that we will have the way cleared for the bonds that will have to be sold to provide for the betterment of our system of water supply. There will probably be about \$8.000.060 required for that work. It involves a plant for West Tecronto, the doubling of the plant for the central portion of the city and a plant at East Terofito large enough to supply the whole city in an emergency."

Brantford Industrial Commissioner Anxious to Get Coniagas Company's Plant.

Industrial Commissioner C. H. Emerson of Brantford was in Toronto yesterday afternoon on business, and while he was not communicative about his plans, it is thought that he was here in connection with the Coniagas Smelting Company's proposed removal from its present plant which is located at Thorold, to a place to be selected by the directors. The Telephone City is known to have made a very attractive offer to the concern to locate there, and they are hopeful of securing the industry.

The plant which the directors propose to erect will be of the most modern construction and will cost considerably over \$250.000, and the employment of 175 incn will be necessitated. Several other cities are in the field to secur; this industry, and the Brantford industrial commissioner is hopeful of bringing the concern to his city.

The weather map today showed precitation over the entire southwest, and in Illinois, Indiana and Ohio, and bearish sentiment quickly made itself felt in the corn. The bulk of the grain business was in corn and the market for the session was nervous and active. Several of the leading houses,

market for the session was nervous and active. Several of the leading houses, which have lately been on the buying side, became sellers. The downward trend of values was aggravated by an trend of varioes was aggravated by an easing in cash corn which was ½c lyder. A little check was given to the sagging market toward the close by renewed talk of crop shortage, some traders holding that the rains have come too late to prevent a serious curtailment in output. urtailment in output.

Better Outlook in Canada.

Improved weather conditions in the Canadian northwest, France and Gernany, served to depress wheat tho he easing of prices was partly due to the dip in corn. An increase of 15,000,000 in the estimate of the wheat 15,000,000 in the estimate of the wheat crop in the spring belt was another feature that helped the bears, as did also a falling off in export business. Exporters asserted there had been no export business for two weeks except to fill previously engaged ocean freight room and that this had been done at

The oats market was without special feature. Prices weakened with corn. Primary receipts were heavy.

Provisions ruled dull and weak all day. The market eased off early on selling of lard and did not recover to any event.
