The copy filmed here has been reproduced thanks to the generosity of:

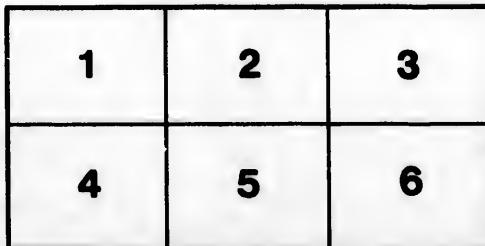

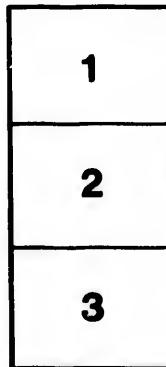

Library of the Public Archives of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shell contain the symbol → (meaning "CONTINUED"), or the symbol ▽ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

La bibliothèque des Archives publiques du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole → signifie "A SUIVRE", le symbole ▽ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

## **REQUIRED ASSESSMENT.**

de lo que se dice en el libro de la Biblia

**GUELPH:** The Guelph and Waterloo Agricultural Society will hold its annual exhibition at the Agricultural Hall, Guelph, on Saturday, August 25, 1877.

PRINTED AT THE "HERALD" OFFICE, WYNDHAM STREET,  
1898.

## PROSPECTUS

# NORTH WEST RAILWAY.

1. It is proposed that the Municipalities interested in the construction of the Railway, instead of attempting to provide any portion of the capital required for the enterprise, should simply agree to guarantee to the Company, a sum equal to the interest on the amount of the capital employed for the first five years, as follows; the interest to be paid to the Company on the amount actually expended in the construction of the road calculated, at the end of each year until completion, and for the whole amount of the capital for two years thereafter, and then all payment of interest to cease.

2. The profits ensuing from the working of any portion of the road, until the end of the five years, shall belong to the Municipalities, and shall be credited by the Company, on account of the Interest guaranteed by the Municipalities.

3. The Railway to extend from the Town of Guelph, adjoining and connecting with the Freight Station of Grand Trunk, and Galt & Guelph Railway in said Town, and passing about midway between Fergus and Elora, hence through the Northwesterly Townships of Wellington, through the County of Bruce, to the waters of Lake Huron.

4. The Capital Stock of £1,000,000 currency, to be subscribed in England by Capitalists there, who are to build and complete the Railway, equal to the average character of similar undertakings in the Province, and to equip the same completely, and operate the same on its completion.

5. The plans of location of the line of Railway, to be submitted to the County Councils of Wellington and Bruce, and to the Town Council of the Town of Guelph, in order to obtain their approval of them, before the work is commenced within the limits of their respective Municipalities.

6. The work to be commenced and carried on simultaneously in both Counties.

7. The Railway to be in operation in three years, or less, from commencement, and a fair proportion of the work to be executed each year.

8. In order to make the five years guarantee of interest fall lightly on the ratepayers, its liquidation is proposed to be spread over 20 years by issuing guaranteed debentures having from one to twenty years to run.

9. These debentures to be placed in the hands of Trustees, until the Railway be in operation, as an interest fund for the Security, and benefit of the Stockholders.

10. None of these debentures to be paid over to the Company, until the Railway is in operation.

11. The debentures to be issued, to be under authority of By-laws to be passed by the County Councils, and Town Council of the Town of Guelph, the By-laws distributing the liability, or guarantee over the several Municipalities in certain proportions hereafter referred to.

12. That at the end of the first year, when it shall have been ascertained, the amount expended on the construction of the Road up to that time by the Company, the several Municipalities shall pay over to the Trustees, debentures to the amount of the interest on such expenditure in their due proportions, such debentures to bear date from one to twenty years in equal amounts, and bear six per cent interest.

13. That at the end of the second year, the amount of expenditure having been ascertained for that year, a further amount of debentures to be issued, as above provided in section 12, shall be paid over to the Trustees, which amount shall include the interest in first and second years expenditure.

14. That at the end of the third year, provided the Railway be then in operation, a further issue of debentures as above provided, be made and paid to the Trustees for the amount of the interest in the Capital Stock of £1,000,000, and if the Railway be then completed, the Trustees shall then pay to the Company, the whole of the debentures in their hands, as a payment in full of interest, for three years.

15. That for the fourth year, the Road now being completed, in operation, and earning receipts, it being ascertained at the end of that year, what the net receipts of the road are, over and above the working expenses of the same, if it shall be found that the net receipts do not equal the interest at 6 per cent on the Capital Stock of £1,000,000, then the Municipalities shall issue debentures at the dates, and after the manner provided in section 12 to the Company, for the amount of such deficiency, and for the fifth year if any deficiency shall arise, it shall be provided for, in a manner similar to the fourth year, but after the fifth year, the Company shall have no further claim for any such compensation, but shall work the road at their own risk of remuneration.

16. According to the above scheme, the following issue of debentures would require to be made, supposing that the receipts from the working of the road, during the fifth year, over the working expenses, would equal half the amount of the interest on the Capital.

1st year, one third Interest on Capital,.....	£20,000.
2nd " two thirds " "	£40,000.
3rd " whole " "	£60,000.
4th " do. "	£60,000.
5th " one half "	£30,000.
	£210,000.

And it is proposed that the following apportionments be made among the Municipalities interested:

County of Bruce.....	£76,000.
County of Wellington.....	£76,000.
Town of Guelph.....	£ 9,000.
Other Townships interested, not in either County.....	£ 9,000.
Toronto, Hamilton, G. W. R. Road, G. T. R. Road.....	£40,000.
	£210,000.
