AUSTRALIA WILL ABIDE BY NAVAL POLICY

Will Not Use Its Squadron Independent of Imperial Control—On Contrary, Expects Canada to Add Unit to the Pacific Fleet—Asks Inclusion in Panama Canal Protest.

LONDON, Aug. 30.—(C. A. P. Cable.)—The London Times recently published a leading article anticipating the possible eventual use of the Australian squadron to enforce an independent Commonwealth policy in the Pacific. This telegraphic Sydney correspondent this morning would mean the abandonment of the naval policy of 1909. Such a course is not expected here. On the contrary, in view of Canada's interest in the Pacific it is hoped that a Canadian unit will be added to the fleet in the near future. Secondly, Australia views the squadron as defensive only and not aggressive except when co-operating as part of the fleet under imperial command. Thirdly, the external policy of Australia with regard to the Pacific is equally unaggressive.

The federal cabinet is most anxious to deal with all matters of external policy in consultation with the imperial government. Regarding the Panama rates as a grievance, Australia has twice communicated with the imperial government seeking information and asking to be associated in any protest, but no answer has been received.

MUSHROOMS KILLING MANY

Almost as Fatal as Epidemic of Plague in France—People Eat Poisonous Fungi in Mistake.

PARIS, Aug. 30.—(Can. Press.)—Poisonous fungi of the mushroom species are proving almost as fatal in France this summer as an epidemic of the plague. No fewer than thirteen deaths of persons who have eaten what they believed to be mushrooms were registered to-day in various parts of the country. Near Bethune practically an entire family died after having partaken of the poisonous plants, the wife of a miner named Gerinick, five of her children ranging in age from five to thirteen years, and a lodger in the Gerinick home. Gerinick himself and three other lodgers of his house died, and the lives of Mme. Rossette and a friend are despaired of. In the vicinity of Saint Die, Chief of Customs Clenquet and his wife and five children were all poisoned by a feast on the fungi. Two of the children died today and the remaining members of the family are in a grave condition. This is the heaviest death toll of a single day, but for the past fortnight several deaths daily have been recorded of persons who had eaten the poisonous plants.

Board of Conciliation Settles Dispute Between Railway and Station Agents and Telegraph Operators.

OTTAWA, Aug. 30.—(Can. Press.)—The conciliation board, appointed by the Dominion Government in the dispute between the Canadian Pacific Railway Co. and its station agents and telegraph operators, has rendered a decision granting a ten per cent. increase, the same to be divided between the agents and operators as their services may warrant the importance of a station varying from time to time. The arbitrators were P. McDonald of Woodstock, Ont., J. G. O'Donoghue, Toronto, and J. E. Duval, Montreal. The decision is a compromise between what was asked and what the railway company was willing to give, and it is likely will prove acceptable to both parties.

GRANT MURDERED IN STREET QUARREL; MOTHER'S PLEA VAIN

Grant Appleby, Who Attended Ontario Veterinary College in Toronto, Stabbed to Death by "Wild Pete" Collins in Renfrew County, and a Possé of Farmers is Searching for the Murderer.

CORBEN, Renfrew County, Ont., Aug. 30.—(Can. Press.)—Grant Appleby, aged 27, a student in attendance at the Ontario Veterinary College, Toronto, who was spending his vacation with his parents, Mr. and Mrs. Thomas Appleby, Ross Township, was foully murdered tonight immediately in front of the parental homestead, being stabbed twice to the heart by "Wild Pete" Collins, a farmer of the district. Collins made his escape, and although traces have been out for hours, no trace of him has yet been found.

The murder was the direct result of a quarrel which occurred last night in the village. Collins is said to have insulted Appleby, and the latter retaliated, a three hand-to-hand fight ensuing. Collins went for Appleby in a vicious manner, chewing his ear to shreds. Although the bigger man, Appleby contented himself with ending the quarrel speedily and the pair were separated by friends.

Collins evidently did not forget the incident and carried his hatred to great extremes during today. He has been known to be of a very vicious disposition and at times has been regarded as insane.

Mother Thrown From House

Early today his brothers sent for his mother to assist in pacifying him, but in his rage he threw her out of the house and ordered her to keep away. Tonight about 8 o'clock Collins went down the road in the direction of the Appleby farm. Grant Appleby, seeing

SOME OF CABLE RATES TO BE REDUCED

Postmaster-General Pelletier Announces Reduction of Atlantic Tolls, But Not Entire Series—Will Come Into Effect in Fortnight—Negotiations Partly Successful.

LIVERPOOL, Aug. 30.—(C. A. P. Cable.)—Postmaster-General Pelletier made the following statement before leaving with Premier Borden on the Victorian this afternoon: "When I first arrived in London I said one of the most important objects of my visit was to try and obtain a reduction in cable rates. I then promised to make public a statement before I left.

"These rates in my opinion are unfair and should be considerably lower. The Right Hon. Albert Samuel, Postmaster-General of England, has received me with the utmost kindness and courtesy. We had together many interviews, conversations and negotiations with the manager of one of the two cable companies. We also met the president of the other company, with some important officers of Mr. Samuel's department. At that moment I thought it preferable to bring to an end the protracted negotiations and to suggest respectfully to the British postmaster, amongst other things, that he might, under authority given him, by recalling the cause of one of the companies (subject to appeal provided therein), fix rates himself. I had several reasons for so doing, first, that too long to suit what I humbly considered to be business methods; secondly, not having the power to force the solution on unwilling people I thought Canada should stop at a point where it becomes undignified for a country like ours to continue to ask in vain, even from a powerful company, that which it considers just and fair. Moreover as I could clearly see those negotiations were not likely to realize anything like our just expectations and those of our sister Dominions, Australia and New Zealand.

"To a certain extent my hands were tied, consequently I then turned my mind in another direction and told the principal negotiator on the companies' side I was doing so whilst I was working for something better than the cable companies seemed disposed to grant. Postmaster Samuel, who had more power in his hands with his landing license, and who could to a certain extent command the companies, responded agreeably to the suggestion with view to bringing the cable companies to a point where some of the rates, at least, would be reduced by consent, instead of by unilateral decree. This is a good move on his part, inasmuch as it will render unnecessary an appeal which would have entailed considerable delay. Mr. Samuel has informed me of the progress made so far, and his hopes of further progress in the early future with regard to some other rates. All I can say now is that it has been decided, so far, that some of the rates will be reduced, and such reduction will be made within a fortnight. But all rates will not be lowered.

"Mr. Samuel being unavoidably away, I do not care to announce to-day what are the reductions now decided upon, and that whole the public will be in better position to appreciate the value of these reductions if they are made known, altogether in a not placid manner. Mr. Samuel will wire me all reductions which are to be made when all the details have been worked out."

Toronto Board of Trade To Banquet R. L. Borden In the Arena on Sept. 23

Prime Ministers of All the Provinces Will Be Present to Give Addresses, and Ten Thousand Invitations Will Be Issued.

OTTAWA, Aug. 30.—(Special.)—Arrangements are being made by the Toronto Board of Trade to hold a banquet in the Arena, Toronto, on Sept. 23, in honor of the Right Hon. R. L. Borden. It is proposed to make this the biggest banquet ever held in Canada. Ten thousand invitations will be issued, and the prime ministers of every province in Canada will be invited to attend and give addresses. A strong committee will be appointed to complete the arrangements. Further particulars will be announced during the next few days.

CANADIAN CADETS LEAD IN KING'S PRIZE SHOOT

Nova Scotia Corps Got 76 Out of a Possible 84 In Difficult Snap Shooting Match Between the Imperial Cadets at Long Branch Yesterday—British Columbia Second, England Third

Canada is ahead in the shoot for the King's challenge trophy. The first stage of the match between the imperial cadets took place yesterday morning at Long Branch, when Nova Scotia and British Columbia cadets took first and second place over England, the third place team. Snap shooting, which heretofore has not been taught to any great extent to the cadets, occupied the first stage of the big competition, which continues until early the end of next week. Out of a possible 84 points the Nova Scotia team won first place with a score of 76. British Columbia was second with 74, and England third with 72. Of the corps other than Canadian, New Zealand got the lowest score, 48, landing them in ninth position. New Zealand was fourth and Australia fifth.

The shooting was in charge of Major Curran, 13th York Rangers, and Captain W. P. Butcher of the headquarters.

CONDITIONS IN WEST IMPROVE

Cutting in Some Sections, it is Hoped, Will Be Resumed on Monday—Frost Has Done Some Damage.

WINNIPEG, Aug. 30.—(Special.)—After heavy rains for the last week the sky is clear and bright, offering for the first time in ten days prospects of settled weather. Temperatures were generally high today in Manitoba, but prophets today say fair and cool, but at no far off freezing point in many districts of central and northern Saskatchewan during last night.

At one or two points in Alberta a couple of degrees of frost was recorded, but rather higher temperatures are promised for both the more western prairie provinces.

With the wheat kernel everywhere so nearly ripened very severe frosts would be necessary to even considerably affect grades. There has been nothing of this and so far the country has been unusually free from early frosts. The weather map of western Canada is not encouraging to an early resumption of harvesting operations, rain having fallen again in many districts, but it is generally clear today and on high lands bladders can get to work.

REGINA, Sask., Aug. 30.—(Can. Press.)—It is clear and cold here today, but the sun is shining and farmers are hopeful for the harvest. If the sunshine of today continues cutting will be general again by Monday. Frost was feared last night, but the mercury did not go lower than 35, and the district escaped.

WETBURN, Sask., Aug. 30.—(Can. Press.)—Rain fell yesterday, but cleared toward night. The weather is warm and no frost is reported. To-day opened warm and clear, but cutting is delayed by wet fields. As much as 96 1-2 has been offered in the district by an elevator company for wheat now in the shock, grading No. 2 for October delivery.

HIGH RIVER, Alta., Aug. 30.—(Can. Press.)—Frost was reported through this district last night, varying from two to eight degrees. Garden stuff was injured, and wheat on low lands probably damaged.

EDITORS FROM ALL DOMINION

Three Hundred Newspapermen Are Guests at the Exhibition, and Help to Make New Record.

Press Day at the Exhibition broke a record for attendance, although the official figures were not given out by the management last night. On this occasion last year 60,000 attended and according to those who should know about 10,000 or 15,000 more were in the grounds yesterday. Today is Hamilton Day, when the inhabitants of the Ambitious City will have but one ambition, and that is to see the fair. The million mark seems an easy thing to conquer. If the weather continues the same, there is practically no doubt that the great and glorious achievement will be a reality.

Rural editors turned out in force, there being about 300, their wives, families and friends as guests of the exhibition. The editors were dined twice by the directors, and last night a section of the grand stand seating about 200 was reserved for them. The newspaper men came from every corner of the Dominion, from as far west as British Columbia, and east to Cape Breton. One even came from Newfoundland. They all held the key to freedom in the Exhibition City.

SOLD BOGUS CALGARY LOTS

Ernest Burleigh, 102 Adelaide St. E., Was Arrested for Receiving Money on False Pretences.

Sergeant Detective Miller of headquarters staff made a smart capture yesterday evening at about 5:30 when he took in two Ernest B. Burleigh of 102 East Adelaide street, just outside Childs' restaurant at the corner of Yonge and Richmond streets. For many months Burleigh has represented himself as being a representative of Bellinger & Lawell, 115 Home Life Building, and was, apparently, selling Calgary lots, which he sold to many people in Toronto. Two ministers bought holdings. One paid out \$300 and the other \$350. All they received in acknowledgment was a receipt, which later proved to be absolutely worthless.

Mr. Samuel being unavoidably away, I do not care to announce to-day what are the reductions now decided upon, and that whole the public will be in better position to appreciate the value of these reductions if they are made known, altogether in a not placid manner. Mr. Samuel will wire me all reductions which are to be made when all the details have been worked out."

TWO HORSES DIE OF BURNS

Heavy Loss Suffered by Cartage Agent on Guelph Avenue—Sub-Tenant Also Lost Furniture.

Two horses were burned to death and a monetary loss of \$1100 was entailed when the roughest gable house owned by Wm. Squira of 14 Guelph avenue was burned to the ground last night in a fire. The origin is unknown. A sub-tenant of the house, Norman Stevens of 305 Withrow avenue, lost \$250 worth of furniture. The fire broke out about 11:45 p.m., and burned itself out by 12:30 a.m. It is understood that the majority of the loss is covered by insurance.

\$10,000,000 FOR VANCOUVER

Railway Will Reclaim 200 Acres of False Creek for Terminals if City Will Grant Land.

VANCOUVER, B.C., Aug. 30.—(Can. Press.)—Representatives of the Canadian Northern Railway Company have formally applied to the city for a grant of that part of the bed of False Creek which has not been used as the site of the terminals of the Great Northern Railway here. Two hundred acres will be reclaimed by the Canadian Northern Railway. If given the land the railway agrees to spend ten million dollars in improvements. The company proposes to spend a million and a half on depot buildings. Its line between Vancouver, New Westminster and Port Mann, which is about 15 miles out, will be electrified.

BETTER TRADE BETWEEN TWO COUNTRIES

Dr. Hammann of Berlin is Getting in Touch With Manufacturers and Exporters in Canada, With a View to Increasing German Imports From the Dominion.

For the purpose of promoting better trade relations between Canada and Germany, Dr. Hammann of Berlin, secretary of the German-Canadian Economic Association there, is now visiting the principal cities in Canada, and will spend several days in Toronto. Today Dr. Hammann goes to Northern Ontario to look over the mining agricultural country, but will return to Toronto in a few days. He has opened an office at 41 West Queen street, where manufacturers and all others interested in better trade relations will be supplied with information.

Dr. Hammann came to Canada last year on a similar mission, and as a result of his visit Canadian imports in Germany increased 50 per cent. He hopes to see as large an increase this year as a result of his present trip. German exports and imports are especially interesting to Canadian markets, he says. He hopes to form corresponding association, with head office in Montreal and branches in all the other large cities in the Dominion, by means of which manufacturers and exporters in Canada can keep in touch with importers in Germany. In Berlin there is a similar association, of which he is secretary. This is composed of the proprietors and heads of the biggest firms in Germany, industrial men and members of the chambers of commerce of the German empire.

Needs Raw Materials

Germany, says Dr. Hammann, needs raw materials, especially wheat, agricultural products, linseed, flaxseed, fruit (particularly apples), agricultural implements, boots and shoes and typewriters. He is in Canada for the purpose of urging on exporters the possibilities the German market offers to Canadian manufacturers and merchants. Canada and Germany, he thinks, should work hand in hand.

Better ship relations between the two countries are needed, as well as a better cable service.

Dr. Hammann spent yesterday at the Exhibition, where he met many of the best known manufacturers in Canada. He will go to Winnipeg, and will then return to Berlin.

TRIES IN VAIN TO SAVE AUNT

Miss Isabella McKay Drowned Near Kincardine—Niece Leaps From Row Boat After Her.

KINCARDINE, Aug. 30.—(Special.)—Miss Isabella McKay of Ripley met a tragic death at Bruce Beach, a summer resort, six miles south of here, to-day.

She and her niece, Miss Mayme McInnes, went rowing, intending to do some fancy work on the placid waters of Lake Huron. Suddenly, Miss McKay, who occupied the lazy seat in the stern of a cedar rowboat, fainted and fell headlong into the cold water. Her niece jumped out of the boat and endeavored to make a rescue, but both having heavy clothing and sweaters on, the struggle was intensely difficult. Miss McInnes, who swims well, had finally to turn for the shore. After a long search the body was finally recovered before dark. The funeral will take place from the late residence to Kincardine Cemetery on Monday afternoon.

Ever Feel Your Chest Swelling With Pride and Pleasure, and Try to Keep From Showing It?

That's just how we feel these days over the nice things that are being said about our new Fall and Winter garments. Sales are numerous, and we have in view an early clearance of all of our best lines, and that means coats up to \$50.00 each, made from hand-loom fabrics, woven by the best weavers in the old land. We have proved beyond the shadow of a doubt that if we can produce the goods we can get the buyers, and Fifty-Dollar Coats sell just as readily as Ten-Dollar ones to the man who knows worth and wants something for his money that is not sold by every house in town. You see, we are an all-round Clothing Store, catering to the needs of everyone, and we carry a range of garments to satisfy every purse, from \$10.00 up, and we give the same careful attention to every customer. Clothing men and boys, young and old, is easy work for us, and the reason is best illustrated in our handsome collection of new Fall clothes.

TRULY, we can't please everyone, but we'll go a long way round the corner of Obligation to help you in your selection and hold your trade when once we have your confidence. FOR AN ALL-ROUND CLOTHING STORE YOU'LL FIND US HARD TO BEAT.

FORESTERS' TENT ALWAYS CROWDED

Visitors to Toronto's Big Fair Accept Freely-Given Hospitality — Growth of a Great Order.

Those familiar with the wonderful growth and prosperity of the Independent Order of Foresters remember the care and courage with which the future was then planned on broad philanthropic lines. Under the magnificent efficiency demonstrated by those who have had the carrying into effect of those far-reaching plans they have become accomplished, triumphant and historic facts. It is conceded that in the administration of the affairs of so great an international organization, as the I.O.F., high qualities of statesmanship are indispensable. The members of the order who are present at the Exhibition in large numbers speak with enthusiasm of the wonderful achievements of the supreme chief ranger, the Honorable R. G. Stevenson. Gifted with remarkable initiative ability he has also been conspicuous in bringing to a splendid consummation many great endeavors of the I.O.F. for the public good. Many Foresters have found their way first of all in entering the Exhibition grounds to the I.O.F. headquarters to enter their names on the roll book, and to give expression to their enthusiasm over the success of the order.

Amplification is frequently expressed that those charged with the administration of so vast an insurance and sick benefit organization as the I.O.F. should be able to devote the requisite time to the establishment and management of such additional institutions as the widely formed I.O.F. Orphanage and the I.O.F. Sanitarium. It is recognized that this additional grand humanitarian work is only accomplished because the supreme ranger and his associates have their hearts in the work, and find their greatest joy in the amelioration of suffering and the prevention of distress.

Many interesting and inspiring incidents are constantly coming to light, which greatly encourage the supreme officers in their efforts, and are naturally most encouraging to those whose self-sacrificing efforts of time and thought have brought them to pass. This is especially true with respect to the I.O.F. orphanage branch. Like everything now connected with the order the orphanage branch has assumed importance, so that it now affords protection to over seven hundred fatherless little children. It would be impossible to indicate in mere tabulated statistics the great measure of comfort which has been brought to a vast number of homes by the knowledge that thru the work of the I.O.F. the children are so well cared for. About fifty of the orphan children, the happy inmates of the beautifully located orphanage in Halton County, where they are clothed and educated. The children are a credit to the home, and have proved to be the brightest and most capable to win the honors of the whole county. This was especially gratifying, as he was without father or mother when seven years of age. The I.O.F. members are entitled to be proud of their children, and they are justified in boasting of the work of the orphanage branch, as it is an inspiration to all who are interested in the welfare of childhood.

Another equally grand and noble I.O.F. movement is the establishing of their sanitariums. The I.O.F. Sanitarium in the Adirondacks has a remarkable record. It has already afforded beneficial treatment to over one hundred and seven patients. This is the more gratifying from the fact that the treatment is given to each member of the I.O.F. free of cost, with every possible comfort, and that not a dollar of the expense is taken for his sick benefits, which he is entitled to receive during the time he is afflicted.

The I.O.F. tent is renowned for its spirit of hospitality, and a hearty invitation is tendered every Forester on the fair grounds to visit the tent. They are assured of a most cordial welcome, and to have every question answered regarding the workings of the institution.

MAKING A GRAND PIANO

Canada in the Forefront in the Making of High-Grade Pianos.

Just to what extent Canada is taking a first place in the higher things of art and culture is shown in different ways as one wanders through the buildings of the Exhibition and takes note of the exhibits.

This thought is brought home to anyone who has made an examination of the piano exhibit of "Ye olde firme" of Heintzman & Co., which all of their own manufacture. The exhibit as a whole is an art exhibit. But emphasis can be placed especially on the showing of grand pianos—in Colonial, Boudoir and Miniature styles. Each is a picture—some in mahogany, others in Circassian walnut, and in another the tone and style of the period of Louis XV. is reflected. In musical quality the Heintzman & Co. Grand ranks with the finest pianos made anywhere in the world over—so it has been adjudged by world-famous artists like Terrazini, Melba, and others who have used these instruments.

EATON'S

Gasoline Engine—Of Interest to Farmers

A great labor-saver on the farm is the EATON Gasoline Engine. It makes the farmer to some extent independent of hired help. The range of work a gasoline engine will do is almost inconceivable. It turns the wheels of many factories, runs saw mills, creameries and waterworks, and on the farm it will do almost everything from pumping water, separating cream and running the churn or washer to the heavier work of threshing, feed grinding, ensilage cutting and sawing wood. All this can be done with an EATON Gasoline Engine at an astonishingly small cost for fuel, and practically none for attendance. Our one horsepower can be operated at a cost of 1c to 1 1/2c for gasoline per hour. By actual test we have found that for threshing with one of our engines the cost per 100 bushels is 17c, and for grinding is about 1/2c per bushel, and for pumping water from an average well about 1c per 100 gallons. Steam power costs from three to six times as much. We can supply Gasoline Engines for almost any purpose and at very low prices.

---------------------------------------------	----------------------------------------------------------	----------------------------------------------

Our stock for next week's sales will undoubtedly be the feature of the year in the Toronto horse market, as we will have a large number of horses of all classes in addition to our SPECIAL CONSIGNMENTS, which will be unrivalled for purchasing opportunities. Several high-class shipments are on the way, making our offerings the most numerous and of the best quality offered for sale by public auction for some time. Our special lots are as follows:

MONDAY NEXT TWO CARLOADS OF CONTRACTORS' HORSES FROM THE YORK CONSTRUCTION COMPANY

These horses are all of extra heavy draught type, a number of which are mares, weighing from 1,400 to 1,700 lbs. each, all young and in the very best working condition. They are all of good size and conformation, and of the most fashionable breeding obtainable in Canada today. The majority of these fillies were purchased by Mr. Williamson for show purposes, but owing to delay in shipping they did not arrive in time, but they are sure to make a name for themselves wherever they go.

WEDNESDAY NEXT REGISTERED CLYDESDALES FILLIES AND STALLIONS

We shall hold a SPECIAL SALE FOR MR. ISAAC WILLIAMSON, the well-known horse buyer and importer, who has consigned to us for absolute sale a very fine shipment of

We have sold the importations of Mr. Isaac Williamson in previous years, and they have always met with the approval of Ontario horsemen and breeders. When we say this lot is, if possible, better than the last, we are telling you much. They are the fillies which Mr. Williamson elected to purchase after several months' travelling through the breeding country of the Clydesdale in Scotland. They are now in our stables, so why not visit us and see them? They are all of good size and conformation, and of the most fashionable breeding obtainable in Canada today. The majority of these fillies were purchased by Mr. Williamson for show purposes, but owing to delay in shipping they did not arrive in time, but they are sure to make a name for themselves wherever they go.

REMEMBER WEDNESDAY NEXT, SEPT. 4th, at 11 A.M. SHARP

MR. WILLIAMSON also brought over with the Clydes a fine WELSH PONY, grey mare, 5 years old, and well broken to harness, and her splendid foal by a high-class Welsh pony stallion. These will be sold immediately after the fillies are disposed of.

EVERY MONDAY AND THURSDAY WE ALSO SELL in addition to our regular consignments, a number of serviceably sound workers and drivers consigned to us by city people who have no further use for them.

ALL HORSES sold with a warranty are returnable by noon of the day following day of sale if not as represented.

YONGE, Dupont, Avenue Road, Belt Line and Church cars pass within half a block of our stables.

P. MAHER, Proprietor. GEO. JACKSON, Auctioneer.

With the first breath of Autumn comes the initial announcement of our Suit and Overcoat Section.

New Colored Scotch Suits and Overcoats in the New Styles for Now

Men who seek early and accurate knowledge of the weaves and colorings and designs for fall will note the following points in even a brief review of our remarkable display—now practically complete:

- That designers have gone far afield for novel and attractive effects, and have achieved exceptional success.
- That even the most modest mixtures reveal color combinations of beauty and the finest taste.
- That the diversity of new weaves and effects makes a distinctive suit or overcoat merely a matter of individual selection.

Huether's Pilsener

Delicious --- Hygienic --- Healthful

In the process of making Huether's Beer, from the beginning to the end, every care is taken to make the beverage that is not only palatable, but is absolutely pure.

The air, water, all the ingredients are purified to insure absolute cleanliness.

Many years ago we made sure that Huether's Beer was palatable, and we have had many imitators.

Huether's Beer costs no more than the ordinary Commercial product and can be bought at all the leading clubs and liquor merchants throughout the province.

It is the favorite beverage in the homes wherever it has been used. Insist on Huether's.

Foster, J. D. Wood, J. A. Wright, etc.

Canadian League

At Peterboro—The new Canadian League champions and the tall-order pitcher, held the Berlin champions to 5 to 0. The Peterboros also took the second game by a shut-out. Tracey twirled the 9 innings, passing but one man and his contrived together with the best of fielding, allowed him the double victory.

At Hamilton

At Hamilton—Poor work on the bases was responsible for London's defeat by Ontario 5 to 2. Tom Sisco, a London catcher pitched the first game. The hits he allowed came in bunches, but the local men threw away chances to win by base base running. Score: R.H.E. Hamilton 5, London 2.

SATURDAY MORNING, AUG. 31, 1912

THAT TEN PER CENT. CLAUSE.

In 1881, when the Canadian Pacific Railway Company got its charter, there was no railway commission, but the government had power to reduce the rate of any railway company earning a net profit of fifteen per cent. on the actual capital invested in the construction of its line.

The company has never admitted in so many words that the government had a right under the charter, to regulate its rates of tolls.

Almost invariably in the past, when permission was given the company to cut a main line, the order-in-council granting such permission provided that the money to be thus raised and expended should not be considered as a part of the actual capital invested in the construction of the line.

It is difficult at first to realize what an improvement the land tax is, but there is only one opinion where the reform has been adopted, and the Union of Canadian Municipalities has usefully emphasized the fact.

A WORLD MEMORIAL. That the late general of the Salvation Army deserves the honor of a lasting memorial will meet with universal acceptance.

It will be observed that the right of the government under the contract, to regulate the tolls of the Canadian Pacific Railway Company, does not depend upon the declaration and payment of any particular dividend; it is made to depend upon the profits actually earned.

The Globe, a zealous convert, albeit of the eleventh hour, thinks the finance minister should get busy; perhaps, but the members of the government will do well to do nothing until they meet parliament.

There is talk of a compromise by which the government will permit the melon, but regulate the size of the slices. We cannot favor this or any other compromise, nor any action behind closed doors.

Let parliament declare the policy of the country; let it assert jurisdiction over the rates of the Canadian Pacific Railway Company; let it deal with the railway grievances of the people and let it lay down a policy respecting the issue of new capital by railway companies.

Wait for parliament.

LAND VALUE TAXATION.

We trust Sir James Whitney will direct the attention of the assessment committee of the legislature to the proceedings of the Union of Canadian Municipalities, and their reports on the operation of land tax in the west.

The delegates made it absolutely clear that the land tax is not a single tax, and should not be confused with Henry George's single tax case.

Major Beckwith of Victoria strongly endorsed this method of taxation. Mr. J. N. Bayne of Regina pointed out how Saskatchewan was gradually removing the tax from improvements.

and placing it on the land by reductions from 60 to 45 and then to 30 per cent, which in two years will be reduced entirely.

Ald. Clarke of Edmonton pointed out that the land tax is a tremendous stimulus to building. He showed that the property valuation per capita varies but slightly over a period of years.

In 1906, with a population of 36,820,000, the assessment was \$22,535,000. In 1912, with 53,000, the assessment is \$123,902,500.

The building permits grew in the same period from \$1,568,000 to \$10,000,000, although at the former rate a population of 30,000 would have been required for such an expenditure under the old method of taxation.

In Vancouver the remarkable growth of the city was attributed by Ald. Hepburn to the land tax. To prevent any abuse of the exemption law the height of buildings is limited to ten stories, not to exceed 120 feet, with towers on buildings with 7000 square feet floor area rising to 200 feet.

There is no reason in the world why Toronto and the other progressive cities of Ontario should be handicapped by a system which puts a premium on sordid meanness and lack of enterprise.

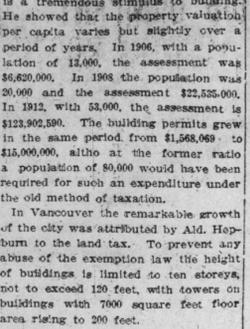

Ontario has enough to contend against without having an antiquated system of taxation to cripple her in her friendly competition with the western provinces.

It is in the cities especially that these facts are appreciated. People will not improve their property when they know that everything they spend will be noted by the assessor and extracted from them a second time in extra taxes.

The Hamilton Herald reports an incident in Young street, Hamilton, where the shacks were condemned as unfit to live in but the people pleaded not to be put out, as they had nowhere else to go where the taxes were on land and not on houses there would be more habitations and lower rents.

It is difficult at first to realize what an improvement the land tax is, but there is only one opinion where the reform has been adopted, and the Union of Canadian Municipalities has usefully emphasized the fact.

NEW STEAMERS FOR PACIFIC

Empress of Russia Launched at Glasgow, and Empress of Asia is Nearly Ready.

A cablegram has been received announcing that the Empress of Russia has been launched at Glasgow, and her sister ship, the Empress of Asia, will be launched in the course of the next two months.

The Empress of Russia is a magnificent ship, the C. P. R. by the Fairbank shipbuilding and engineering company of Glasgow, for their trans-Pacific service and will be ready to go into service early next summer.

They are very much larger than any of the previous fleet, being 590 feet in length, 95 feet beam and 46 feet in depth, and gross tonnage about 15,000.

The turbine system of propulsion has been adopted by the C. P. R. for the first time in these two vessels, which are to be propelled by four screws driven by four sets of Parsons turbines, and will have an average speed of about eighteen knots per hour.

They embody all the latest improvements both for the safety and comfort of passengers.

In the construction of these vessels a radical departure from the current practice has been made in constructing them with cruiser sterns and masts entirely underhung. This form of stern, besides giving the vessels a very distinctive appearance, increases the effective length of water line, thereby assisting propulsion, and also adds considerably to the available deck space at the fore end.

The vessels will have five decks and in addition a long combined forecastle and bridge deck. Above the bridge deck will be located the principal first-class public rooms for the officers' quarters and navigating bridge overhead.

In the dining saloon tables have been arranged to suit the demands of various passengers. Small tables will be provided to accommodate two and four persons, and larger ones for parties of six will be arranged in alcoves, while there will be still larger tables for other parties.

Accommodation is provided for 200 first-class, 100 second-class and 800 third-class passengers, the two latter classes being for Asiatics. A number of single berth rooms as well as double berth rooms have been provided so that there is a growing class of passengers who desire privacy can be taken care of.

There are also a number of suites consisting of bedroom, sitting-room and bathroom. Besides the usual spacious dining saloon, lounge, cafe, library and writing room, a large gymnasium has been provided on the upper deck. It is to be fitted up with a large variety of exercising machines. Another feature adopted for the first time is the provision of a hot water system of great convenience, especially in the hot weather on the China coast.

At Osgoode Hall

GREAT GROWTH OF ROYAL BANK

Since its Organization 43 Years Ago, This Institution Has Expanded Steadily Under Careful Management.

Probably no bank in Canada can show the same record of steady growth and expansion as the Royal Bank of Canada. Established in Halifax in 1869, or two years after the confederation of the province, the Royal Bank has grown and expanded with the marvelous expansion of the Dominion.

By an equitable demand by the down-east provinces is one for a cash bonus as a set-off to the vast areas of land transferred to Quebec, Ontario and the west by the Dominion. But here again an amendment will be required to the B. N. A. Act. Our constitution, on the whole, is an excellent one, but the theory that it is a treaty which cannot be amended without the consent of all the provinces may make it in time as irksome to the majority of the Canadian people as their rigid written constitution is fast becoming to the majority of the people of the United States.

SIR WILFRID'S QUEBEC MEETINGS. MONTREAL, Aug. 30.—(Can. Press.)—The first of Sir Wilfrid Laurier's meetings in this province will be at Mariville, Rouville County, on Saturday, Sept. 7. The party leader will be accompanied by many of the Liberal members of parliament and of the legislature in the Montreal district. Another meeting will be held at St. Cleot, Soulanges County, in the second week in September. This is one of the counties that has the honor of being represented in parliament by Sir Wilfrid. The meetings in each case will be regional gatherings.

Freight Conductor Killed. CHATHAM, Aug. 30.—(Special.)—John Flannery of this city, a freight conductor on the C. W. & L. E. Railway, was fatally injured at Wallaceburg, ten days ago. Four cars passed over his body and both of his legs were badly mutilated and his head cut. Flannery had charge of a freight train coming into the burg. The train was doing some shunting near the oil refinery, when Flannery was missed by the crew. They found him lying on the tracks, unconscious. He passed away three-quarters of an hour after the accident.

On account of Labor Day, the Canadian Pacific Railway will issue return tickets at single first-class fare (minimum charge, 25¢) between all stations in Canada, from either east, also to Niagara Falls and Buffalo, N.Y., Detroit and Sault Ste. Marie, Mich., going Aug. 30 and 31, Sept. 1 and 2. Return limit, Sept. 4, 1912. Full particulars from any C. P. R. agent.

Ten Million Dollar Terminal. VANCOUVER, Aug. 30.—(Canadian Press.)—The C. N. R. today applied to the city for a grant of part of False Creek, on which it guarantees to spend \$10,000,000 in terminal improvements.

LABOR DAY OUTINGS. By Express Steamers Cayuga, Chipewa and Corona. On account of the holiday Monday, the Niagara Navigation Co. offer very low rates for boat trips, particularly of which can be found in regular advertisement in this paper. Visitors to the city will have an excellent opportunity for delightful trips across the lake at low rates on the largest and fastest steamers. Full particulars at the ticket office, 46 Yonge street, corner Wellington street, or at wharf, foot of Yonge street, east side.

Church News. Rev. Dr. W. F. Wilson has just returned from the "old country" where he and his family have been spending holidays for the first time. Dr. Wilson will preach in Elm street Methodist church tomorrow, both morning and evening. Douglas Stanbury will sing at both services. At the evening service there will be a reception of new members and the sacrament of the Lord's supper will be administered.

MISS HASWELL SAYS GOOD-BY

Toronto's Favorite Actress and Her Popular Manager Bid Farewell for This Season.

Tonight Miss Haswell closes her third summer season in Toronto; her most glowingly successful season of all, which speaks much for that talented and versatile actress.

It is not too much to say that Toronto, quite as fair-minded as she is critical, now stands firmly convinced that Miss Haswell is the most wonderful actress in America. This much we know, that an actress who can hold a Toronto audience spellbound night after night, for as many weeks as this clever actress has done, can win success in any land under the blue skies.

Miss Haswell leaves Toronto to play the coming season in Old London, in which city her wonderful talent is sure to claim ready recognition.

Popularity in either writer or actor lies in their ability to please their readers or listening world. Miss Haswell's popularity has been phenomenal, still it is easily accounted for. Love of her art, abnormal ability to portray the characters impersonated, and hard work are the elements that spell popularity for her, and of these hard work is by no means least.

Of her supporting company, much that is praiseworthy might be said. Certain it is that in the selection of her company, Miss Haswell has shown that she is a capable judge of talent.

Of Manager Grove, who so modestly disclaim any great share in the success of the Percy Haswell players, a whole volume of truths might be written, to show his capabilities as a manager.

The truth is that Manager Grove, who as a manager, stands second to none in New York theatre circles, has proven himself quite as much a wonder in his own particular field as Miss Haswell has in hers, and his popularity is only a little less than that of the charming actress. Always courteous, pleasing and always "on the job," he has successfully plotted the Percy Haswell players thru three phenomenal seasons, and has made an army of friends among theatre patrons.

Of him Miss Haswell says: "He can do more work in a day and do it well than any man I ever knew. He is a wonder."

Of Miss Haswell, Mr. Grove says: "She is the only actress in America who can take a Shakespeare part on short notice and play it well. She is a wonder."

And thus rests the combination of success. Two wonders that are really wonders. In it any wonder that Toronto has been satisfied?

The Best Treatment for Itching Scalps and Falling Hair

To allay itching and irritation of the scalp, prevent dry, thin and falling hair, remove dandruff, scales and dirt, and promote the growth and beauty of the hair, the following special treatment is most effective, agreeable and economical. On retiring, comb the hair out straight all around, then begin at the side and make a parting, gently rubbing Cuticura until the scalp is thoroughly cleansed. Dip a soft flannel handkerchief in the lather and apply it over the head of the hair. An additional parting about half an inch apart until the whole scalp has been treated, the purpose being to get the Cuticura ointment on the scalp skin rather than on the hair. It is well to place a light covering over the hair, to protect the pillow from possible stains. The next morning, shampoo with Cuticura soap and hot water. Shampoo alone may be used as often as agreeable, but once or twice a month is generally sufficient for this special treatment for women's hair. Notwithstanding Cuticura soap and ointment are sold everywhere, those wishing to try this treatment may do so without expense by sending to "Cuticura," Dept. 4M, Boston, U.S.A., for a free sample of Cuticura soap and ointment, with 25-c. book on skin and hair.

BETTER QUALITY IN EXHIBITS BY WOMEN

Women's Building Has Many Features This Year—Indian Princess Gets Special Prize for Bead Overdress—Clay Modeling, Hand-made Jewelry, Wood Carving Shown.

"Better colors, better designs, better workmanship," was the way Mrs. Rennie, who has charge of the household exhibits in the women's building at the Exhibition, described the department. And it is the same in every detail. In some the number of entries fell slightly below last year's mark, but on the whole the entry list contains even more names. But better quality is the rule, which finds no exception.

Perhaps the most praiseworthy of the exhibits is that of the hand-painted china, the six pieces which won out being the work of Mrs. J. Green. The judge in this department, an English connoisseur of china painting, declared that the prize winning collection was the best he had ever seen in Canada.

For the first time in the history of the Exhibition hand-made jewelry was exhibited. There are necklaces and bracelets of hammered silver, which, it would seem, compare favorably with the best stock in jewelers' windows. The repousse casecarole carried off the prize for the brass work competition.

One of the most noticeable features of the exhibit was a portiere made from pods of the eucalyptus plant. The pod displayed prominently it attracted hosts of onlookers.

The bead work also proved an attractive exhibit. The first prize was won by a finely beaded chateleine, which represented weeks of careful work. An Indian overdress, sent to the Exhibition by the Princess Vuro of Oshawken, Ont., was favorably commented upon by the judges, and an effort is being made to have a special prize awarded for this entry.

It is interesting to note that the authorities in the women's building stimulate interest among the Indians of Ontario in their native industries.

A clay tablet entitled "The Piped Piper of Hamelin," carried off the prize in the clay modeling contest. Numerous as in other years, but there was more variety.

Wood carving of the renaissance Italian school, French styles was shown, also marquetrie, inlaid and stained.

The old ladies' work was exceptionally fine this year. Prizes were given in three classes for women over 60, over 70 and over 80 years of age. In the latter class were some wonderful examples of fine needlework.

More Rugs Shown.

More rugs were shown this year, but there were some as finely woven as last year's prize winners. The rugs shown in the women's building are all hand-tufted, and are worked either in formal patterns or to represent natural scenes.

Cakes, candies and embroidery shown by children under 16 years of age were awarded special prizes.

Among the other exhibits were those of tool-leather, raffia baskets and bookbinding.

Mrs. Oliver is in charge of the women's building. The women in charge of the several departments are: Embroidery and Mrs. Allan; household linen, Mrs. Kent and Mrs. Orr; lace, Mrs. Bristol and Mrs. Elliot; sewing apparel, Mrs. Rennie; quilts, Mrs. Stevens; crocheting and knitting and children's outfits, Mrs. George Gooderham; old ladies' work, Mrs. Franklin; household arts, Mrs. Cummings and Mrs. Sinclair; boys' and girls' work, Mrs. Kent and Mrs. Oliver; china, Mrs. Dugan; wood carving, metal modeling and miscellaneous, Mrs. A. W. MacLachlan.

COLD MEANS FAILURE OF MONTREAL MELON CROP

Much Cloudy Weather With Not Enough Sun Has Caused Fruit to Be a Month Late.

MONTREAL, Aug. 30.—(Can. Press.)—The local melon crop is a failure. This is the way a fruit dealer described the crop to-day. Fruit growers who make a specialty of growing Montreal melons are up against it. "The crop is at least a month late," he said. "There has not been enough sun or real warm weather to grow melons this summer and the way it looks now the kind of fruit will be clear loss."

PRESS MEN ATTENDED YESTERDAY'S BIG SHOW

RURAL EDITORS PRAISE FAIR DIRECTORS

Press Men, Who Have Done a Great Deal Towards Developing the Exhibition, Are Entertained by Management

Hon. P. T. McGrath Promises Exhibits.

Rural editors turned out en masse at the directors' luncheon yesterday and were given an opportunity to present proposals to the management on the great success of the fair, and to tell to what degree they were responsible for said success.

On behalf of the Canadian Press Association Mr. Bone stated that they all appreciated the courtesy extended to the press by the exhibition management, and they also appreciated the many excellencies of the exhibition itself.

Mr. Kent stated that with the present directorate the exhibition would always progress and such a policy would never be adopted.

hibit in the manufacturers' building every day next week to explain and demonstrate the principles of this wonderful invention.

Good Meals. During the busiest part of the day Naamith's are always able to avoid delay in the serving of their patrons.

Save the Matches. A unique device commanding considerable attention is the gas building in charge of Mr. M. Hazen.

Perfection in Player-Piano. "Perfect as the hand on the keys," is the manner in which the "Human Touch" device used in the Norheimer Player Piano, was described by one who heard it.

Karn-Morris Exhibit. The name of Karn-Morris, at once suggests to the reader a place that possesses the high ideals of the skilled artisan.

Maple Butter. Conspicuous for its tasteful decoration is the booth where Maples, Limited, are demonstrating the delicious and extraordinary food value of their pure maple butter.

City Dairy. City Dairy is very sorry that its many friends will not be able to get to the City Dairy ice cream in the exhibition grounds this year.

The Musician's Mecca. Steinway Pianos, Nordheimer Pianos and other fine instruments are on view at the Musician's Mecca exhibit in the manufacturers' building.

A Good Square Meal. A good square meal is what you get at the dining hall opposite the west end of the grand stand.

HAMILTONIANS WILL BE TOJNY'S GUESTS

They teach commercial, industrial, medical, public and high school subjects, etc. For full information call at 15 Toronto street.

The Theosophical Society will receive visitors during the Exhibition in Room 206, 22 College street, from 3 till 5 every afternoon. Address on Sunday evening at 7:15.

moving day

"Three moves are worse than a fire." —there's almost as much rumpus and more publicity.

The lady across the street washes her windows all day long so as not to miss her inventory of your brass beds and bric-a-brac.

The movers scorn your belongings—and put your prize mahogany table into the van, but leave the dilapidated rocker on the sidewalk—exposed to the sun's cruel glare.

Small boys attend the unloading—critical and frank, "Gee whiz, Mister, are you moving into that house?"

All told—the story is a sad one—but it has one gleam of light.

You can now have Hydro-Electric Lighting in the new house.

Just phone Adelaide 2121 and we will have the meter installed and connections made all ready for you.

If the house is not already wired, we will be glad to advise you what to do.

Just phone or send us a card. Toronto Hydro-Electric System Adelaide 2121 226 Yonge

KING EDWARD HOTEL ANNEX

PROPOSED ANNEX TO KING EDWARD HOTEL
E. J. LENOX ARCHITECT TORONTO

Fourteen-storey building to be erected at the corner of Scott and Colborne streets at a cost of more than \$1,000,000. The photograph shows the large street connecting the two buildings.

MILLION DOLLAR ANNEX TO KING EDWARD HOTEL

Fourteen-Storey Building With 300 Bedrooms Will Be Built at Colborne and Scott Streets—Roof Garden on Present Building.

It is proposed to build an annex in connection with the King Edward Hotel. The architect, Mr. E. J. Lenox, has under instructions from the King Edward Hotel Company, prepared plans for a 14 storey building to be erected as an annex in the rear of the present building. This building will be an absolutely fireproof building, fitted with the latest improvements. This annex will contain about 300 bedrooms with the necessary bath room accommodation, etc. When this annex is built, the King Edward Hotel will have over 700 bedrooms, making it the largest hotel on the continent, and one of the largest in the world. It is proposed to specially provide for and take care of the many conventions that come to Toronto by erecting in connection with the annex a splendid assembly hall, ball room and banquet room, so fitted up that they will be second to none on the continent. The city will be asked to allow the

the hotel company to erect a bridge over Colborne street to connect the present King Edward Hotel building with the annex building, as this annex is to be run directly in connection with and by the same management as the present King Edward Hotel, therefore it will be necessary to have this overhead connection. The hotel company have been induced to go into this further expenditure solely for the purpose of providing accommodation and to meet the growing demands of the traveling public flocking to Toronto. Spend a Million. In connection with the erection of this building and the improvements contemplated, the King Edward Hotel Company are prepared to expend over a million dollars to provide Toronto with the necessary hotel accommodation concerning which there seems at present to be so much criticism in not having sufficient hotel accommodation for the traveling public. It is also contemplated in connection with this annex, to erect a roof garden. It must be remembered that few

SUFFERED AGONY FROM DYSPEPSIA

"Fruit-a-tives" Makes Wonderful Cure

N. C. STIRLING, Esq.
Glencoe, Ont., Aug. 15, 1911.
"So much has been said and written about 'Fruit-a-tives' that it might seem unnecessary for me to add my experience. 'Fruit-a-tives' were so beneficial to me when I suffered with distressing Dyspepsia, that I feel called upon to inform you of the remarkable and satisfactory results I have had from using them. 'Dyspepsia and Indigestion, as everyone knows, can give you more uncomfortable hours and days than most common complaints. I am glad to be able to say to you that although in the past I suffered excruciating agony with Dyspepsia, I am now in perfect health. 'Fruit-a-tives' accomplished the desired result and I have to thank them for my very favorable and satisfactory state of health."

N. C. Stirling.

hotels in the world have such a view as can be obtained from the roof of the King Edward Hotel, over Toronto Bay and harbor, therefore it is proposed to expend a further amount in making use of this splendid view in providing a large sun and palm room on the roof of the building, where visitors as well as guests of the King Edward will have the pleasure the roof garden will afford. Ready Next Spring. The company has made all arrangements and intends to proceed with this building this fall and have it ready for the spring trade. It must not be forgotten that the present King Edward Hotel building was erected, ready for occupancy in 12 months, one of the most quickly erected buildings on the continent, and it is proposed to erect this annex just as expeditiously, to allow the traveling public the use of the new building next spring. The land has been purchased and everything done in the way of preparing plans and making other arrangements to proceed with the work as soon as the company can get the necessary permit to erect the proposed building in accordance with the ideas suggested.

FOR THE HOLIDAY. Attractive Water Trips, Olcott Beach and Hamilton. The Niagara Navigation Co. announce a very low rate of \$1 to Olcott Beach and return, and 60 cents to Hamilton and return for Labor Day. Either trip is very delightful and no doubt many will take advantage of the low rate for a refreshing ride on the lake. What happiness is there in this life without HEALTH? Who achieves success in any walk of life without ENERGY? To the swift the race, the battle to the strong. In this twentieth century of progress the man who reaches the front ranks is the PUSHER—the man with VIGOR. When he believes that when you laugh "the world laughs with you." Such a man will get to the front even if his education is limited to the "Rule of Three." When opportunity knocks at his door he is on the spot ready always to make the most of life's possibilities. What is the key to his success? MAGNETISM—ELECTRICITY. They are one and the same thing. His body laws, but has guarded his HEALTH—truly, man's greatest capital. If ever he has fallen into dissipation and excesses, he has not polluted his system with drugs, but has used Electricity—the DR. McLAUGHLIN ELECTRIC BELT—the natural remedy for restoring vitality—and thus again has quickly taken his place as "a man among men," and has profited by his experience.

Contrast this man with the other, who walks as though he had lead on his shoes, whose looks, whose sallow skin and shifting eye all tell the dark story of his misfortune; a body racked with pains and aches, shattered opportunities while his successful rivals walk away with all the prizes. You had just as good a start, but you allowed appetite, desire, passion, to get the best of you, and fooled away your chances. "It's never too late to mend." You can yet win out, as thousands of others have done, if you will let me show you the way. Yes, but you are taking some medicine now, and want to see what that will do for you. You can save your stomach that expense if you will come to me and tell me all about your case now. I want to show you what my DR. McLAUGHLIN'S ELECTRIC BELT has done in the way of curing Lost Vitality, sleepless nights and wretched days, nervous disorders, kidney and bladder troubles, weak back, loss of appetite, poor digestion, pains and aches, loss of energy and ambition.

Dr. McLaughlin: Credit Forks, Ont., Jan. 11, 1912. Dear Sir,—I feel it is my duty to write you as to the benefits received by the use of your Belt. I had been a sufferer from Rheumatism for the past fifteen years, and in that time I have lost an average of two months every year, and not only time lost, but what I had to suffer. I had tried many doctors, but their medicine had no effect on me at all. After two weeks' use of your Belt, I have felt no more signs of Rheumatism, and that is about three months ago. I am still using the Belt, as I think it is a good thing for other ailments, as well as Rheumatism, and I don't think it can be hurt. I am sure your Belt will do all you claim for it and more. With very best wishes for your success, I remain, respectfully yours, H. DOWNE.

BRIAR HILL PARK
A Genuine Opportunity for the Investor
Hundreds of investors are making fortunes from the development of Toronto's suburban real estate—notably in the Northern part of the city. Briar Hill Park is situated a little West of Yonge Street, less than half an hour's ride from King Street—in fact, it adjoins Alexandra Gardens, where the rise in values was so remarkable that many investors made several hundred per cent. profit on their payments.
BRIAR HILL PARK
As a Homesite No more desirable location could be found to build your home. Handsome, modern residences are being erected on every hand by people who appreciate the combination of city conveniences with all the joys of country life. The property is high and dry—transportation is of the best—every city convenience will be available—and the prices are very reasonable.
As An Investment The demand-to-day is for high-class, restricted residential property to the north of the city. Every indication is that the rush for lots in Alexandra Gardens will be repeated with Briar Hill Park, the adjoining property. Others are doubling and tripling their capital by buying and holding lots for a few months; why should you not share in the profits accruing to investors in Toronto residential properties?

ROBINS LIMITED'S MODEL CITY

which was barred Thursday by the city authorities from further display outside the Exhibition Grounds, is now located and ready for view in our present office, 22 Adelaide Street East.

It will be well worth your time—whether as a visitor in Toronto or a resident of our fair city—to see this exhibit. It is, briefly, a portrayal of Toronto's present area, showing accurately the marvelous growth of the city during the past few years.

We have a good deal of interesting literature on the growth and development of Toronto. If you are a visitor, you should have this among the mementoes of your Toronto visit. A cordial invitation is extended to you to call; or, should this be inconvenient, a line of request will bring the booklets to you. Let us hear from you.

OUR OFFICE IS OPEN EVENINGS

Our new building, to be devoted exclusively to the business of Robins Limited, is now in course of erection, at the northeast corner of Victoria and Richmond streets.

YOU ARE INVITED to INSPECT

one of our best offerings in Toronto real estate. The very great growth of Toronto has made it possible for many people throughout the country to make money in Toronto property. We invite you to enter one of our motor cars and visit

HAMPSTEAD PARK.

This is a splendid home property at the north-western edge of the city, selling to artisans for \$10 down, \$5 monthly. The demand for this property is brisk, and, by the way property values are increasing, we strongly recommend it as an investment. Our prices are only half what near-by property is selling for. Advanced prices must come soon. Act now. Phone or call for a place in one of our motor-car parties to Hampstead Park.

PLEASED WITH FILTRATION PLANT

Judge Winchester and Members of City Council Made Trip of Inspection Yesterday and Found Everything Satisfactory — Can't Maintain Inebriates at Jail Farm.

Accompanied by Judge Winchester and Commissioner Harris the board of control and a number of aldermen visited the filtration plant yesterday morning, and after a thorough inspection the opinion was freely expressed that the plant was in excellent condition. The pure water reservoir, the concrete pipe leading from this to the water-works conduit and the feed pipe joining the filtration bed with the pure water reservoir were all examined but only small leaks of minor consequence were found. Many of these, it was explained, would disappear when the reservoir was filled with water and the pressure from within was greater than that from without.

Commissioner Harris instructed Resident Engineer Longley to put the filtration plant in operation again last night and by tomorrow night it is expected that the entire city will be drinking filtered water again. This order was given for the benefit of the Exhibition visitors in order that there might be no hesitation in drinking Toronto water.

Oppose Single Tracks.
At their meeting yesterday afternoon the board of control decided to oppose the Toronto Suburban Railway Company's application to lay single tracks on Pacific avenue and Annette street. An effort will be made to show the company the wisdom of double track lines, but if they cannot be convinced the city will oppose their application before the Ontario Railway Board.

No Compulsion.
In a letter to the board Dr. Hastings and City Solicitor Johnston stated that the city could not maintain indigent inebriates at the jail farm unless they were committed there by a competent court. "Even if patients went to the farm voluntarily," the letter stated, "the city could exercise no control over them and could not legally detain them if they wished to leave. We do not think that legislation could be obtained giving this power to the city as it is an interference with the liberty of the subject."

The board took no action regarding the proposal to lease a portion of the St. Lawrence Market to the Swift Company. The company wants a ten-year lease and proposes to spend \$15,000 in repairing the property. At the expiration of the lease they want the city to reimburse them for their expenditure.

Water for Residents.
It was decided to extend a two-inch pipe to Wheeler avenue in order that the residents of that street might obtain water by means of taps which will be placed at different points. Commissioner Harris stated that this work would cost \$500.

To Close Streets.
As an additional precaution against fire the city will barricade about half of the streets every evening while the Exhibition is in progress in order to keep these thoroughfares for the exclusive use of the fire brigade should a fire break out. It is expected that this will also reduce the risk of accidents to pedestrians. The suggestion came from the Exhibition Association.

Ward Seven

The old town hall, which is now No. 9 police station, on Keele street, is undergoing some improvements. The old platform which used to serve as an approach to the fire station, and which now leads to the police quarters and civic offices, is being replaced by a wide concrete walk.

Mrs. Thos. Dudley of Louisville, Ky., is visiting Mrs. Thomas Musson at 466 Clendennan avenue.

The dust on Annette street, east of Keele, which was becoming a nuisance owing to the increased traffic lately, was laid yesterday by another sprinkling of oil.

Citizens of ward seven in business in the city, were delayed by a considerable time yesterday morning on their way to work by a car at the curve of Dundas street and Humboldt avenue. In backing around the "Y," the pole of the car left the trolley wire and became entangled in the suspension wires, and some time elapsed before it could be extricated.

Another subway is in process of construction beneath the C. P. T. tracks near Lambton. This one is west of both the Runnymede and Jane street subways, and is being built on Scarlett road, near its junction with Dundas street. It will be of concrete and steel and similar in construction to the other two recently completed.

Grand Opera Coming. Milton and Sargent Aborn, whose presentations of grand opera in England have established their reputation firmly in this and other cities in the past, will again send the Aborn English Grand Opera Company here for an engagement of one week beginning Monday, September 16, at the Royal Alexandra. On each of their former tours they have added one or two operatic novelties to their list, so that this year their repertoire is more attractive than ever, embracing eight operas as widely varied as "Madam Butterfly," "La Boheme," "The Tales of Hoffmann," "Hansel and Gretel," "Lohengrin," "Il Trovatore," "Carmen" and "Lucia di Lammermoor."

Button Economy. When making shirt waists that button up in front try making them with a double set of buttonholes. Then buy a set of really nice buttons and sew them on a strong tape. The same set of buttons will do for a dozen waists.

Notice the strategic location of **ELMWOOD** just north of the junction of Forest Hill Road and Bathurst Street and right alongside the Belt Line Railway. The site of the Forest Hill station is on the property.

ELMWOOD is right in the line of Toronto's rapid expansion northward over the hill. It is on Bathurst Street, one of Toronto's few main arteries running north.

ELMWOOD is no farther north from King Street West than Scarborough Beach Park is from Yonge Street.

ELMWOOD

Those who buy lots in this beautiful location will surely make money

You can buy lots in beautiful **ELMWOOD** for no more per foot than the prices asked for properties further northward. You can secure some choice Orchard lots if you desire.

Any lot in **ELMWOOD** is a good buy. Its approach is through the exclusive over-the-hill district, and its growth will be of the same desirable character. Reasonable terms and every lot restricted to prevent undesirable surroundings.

Call at the office for prices, terms and full information, or write for booklet. Better still, let us motor you over-the-hill to see the property.

KENT BUILDING.

For the Knitting-Basket. I have found that a rather large basket which has a handle is an excellent receptacle for holding knitting and crocheting. To the under side of the middle of the handle, tie a bonnet ring about one inch in circumference, with stout thread. Keep the ball of wool or cotton, with which you are working, in the basket, and, before starting to use it, slip the end thru the bonnet ring. This keeps the ball from falling on the floor whenever you pull the wool, and it is really very much easier to work when the wool or cotton is held in this simple way.

PREMIER IS ON THE OCEAN

Departure is Marked by Cordial Expressions — Declines to Discuss Sir Wilfrid's Navy Speech.

LIVERPOOL, Aug. 30.—(C. A. P. Cable)—The Victorian left Liverpool today in the rays of a glorious sunset. On board were Premier Borden and Hon. L. P. Pelletier.

They were met at the wharf before departure by Sir Walter Bowering, representing the Liverpool Chamber of Commerce, and Archdeacon Madden. Compliments of a very cordial character were exchanged.

To a group of newspaper men before leaving the premier expressed again his hearty thanks for the cordiality of the hospitality extended to them. Close alongside the Victorian was the Adriatic, also crammed to its utmost capacity.

Including navigable rivers, Great Britain has 403 miles of inland streams. Fourteen million dollars worth of heating apparatus is made and distributed in New York City annually.

FOREST HILL

The choicest residential district of Toronto. North-west corner Eglinton Avenue and Forest Hill Road.

EXHIBITION VISITORS will be well repaid by an investigation and investment. Toronto property is advancing rapidly.

Prices commence at \$23; terms are exceptionally easy, and profits will be exceptionally large.

A Discussion of Men's Fall Outfits

If you listen to the other fellows just now there's a long chance in favor of your finding clothing the topic of conversation.

The tang of Fall is in the air already, and summer suits are beginning to show the wear.

Here's a man who wears a spruce-looking business suit and always follows the latest in cut and materials, yet spends what seems a small amount for his clothing. He's probably a Simpson customer. Your friend, Jones, wears one of these new England "Durward" Raincoats. The Simpson Store handles them, and the prices are not out of your reach.

Read over this list of Saturday values and regular stocks and consider what a conservative outlay will do for you this fall at Simpson's Men's Store.

300 Suits--A Big Special at \$9.95

Just the day before the holiday. Suits made from fine English tweeds and worsteds in fancy stripe designs; cut single-breasted, three-button style, lined with mohair and tailored by expert workmen. These suits are samples, broken lines, etc., from a leading manufacturer, and sold regularly at \$16.50, \$18.00 and \$20.00. **A Half-Day Special, Today \$9.95**

Men's Worsted Trousers

Excellent English worsted materials, showing narrow and wide striped patterns, in good shades of grey. Best workmanship. Stylish garments worth \$3.00. Sale price **\$1.89**

New Fall Overcoats

Today sees one of the finest stocks of men's new fall overcoats marked, and in stock, ready for your inspection.

For \$10

Fall overcoat made from a fine English Cheviot cloth in black and Oxford grey. Cut single-breasted fly front style. Beautifully tailored. Price **\$10.00**

For \$12

One of the finest fall weight overcoats that we have ever offered at this price. The material is a fine English vicuna cloth in black and medium shade, plain, grey-fly front, single-breasted style—fine linings and silk facing. Best workmanship. Price **\$12.00**

"Durward's" English Fall Overcoats

Why not an English made overcoat? These have been awarded gold medals, for they embody practical ideas, are smart in appearance and made from materials of unique colorings and patterns. It is safe to say that "Durward's" English-made overcoats for fall and winter surpass anything yet attained in English made garments.

For \$25

A variety of designs and clothes are shown; a fawn covert, fall weight coat, with patch pockets, single-breasted, "Durward" make—a neat brown English tweed with Raglan shoulders, single-breasted to button to chin, "Durward" make—checked greenish fawn Irish tweed coat to button to the chin. Regular shoulder, large sleeves "Durward" made.

For \$26

Most desirable Donegal tweed in Balmacran style, loose full sleeve, Raglan coat. Excellent street coat—plain street design, a single-breasted Chesterfield, with ordinary shoulders. Beautifully tailored garment.

The Best Values in Boys' Suits

That we have ever offered. We cannot give a detailed description of each suit, as they are broken lines taken from our regular stock and include the very finest worsted cloths and most popular styles. Two-piece bloomer suits, Norfolk suits and three-piece suits. A splendid range of shades. Regular values \$7.50, \$8.50, \$9.00 and \$9.50. Special today, sizes 28 to 34, **\$4.49**

To Be Made a Millionaire

Next Monday (Labor Day) being a statutory holiday, this

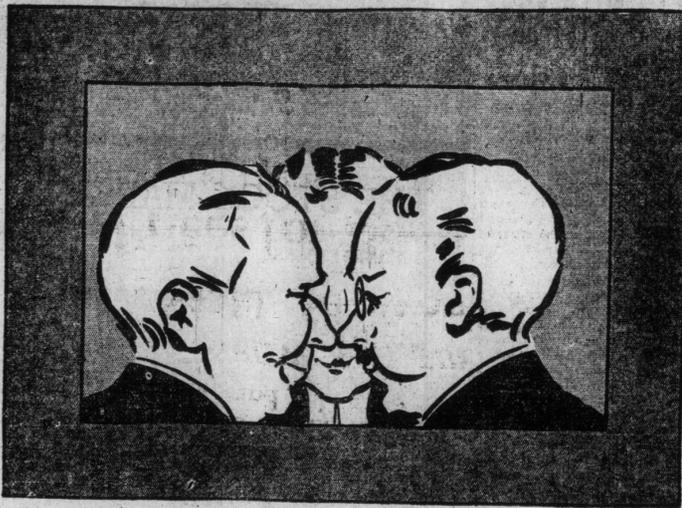

Store Will Be Closed

It will be Citizens' Day at the Great National Exhibition, and we invite everybody to join us in helping to

Boost the Fair to the Million Mark

The Exhibition management have made an attendance of one million the objective for this year, and every last member of the Simpson organization intends to be counted in that number.

Meet us at the Fair on Monday. The store is closed on Saturday at 1 p.m. as usual during the summer months.

Celebration Day Sale at Simpson's

The formal opening of the Simpson store after several years of continuous work in building and rebuilding takes place on

Tuesday, September 3rd and will be recorded in our store annals as CELEBRATION DAY

Even now we have to say everything is not quite complete, but the entire area of each great floor is at last open to customers, and we propose to welcome them with music and flowers, the brilliance of electric lights, and most of all, with hearty appreciation and enthusiastic service.

In preparation for this great day and the great days to follow, our buyers have assembled the most attractive stock of Autumn and Winter goods ever displayed in Canada. Without going into detail, we invite you to see for yourselves the latest products of the wide world for arraying the person, storing the mind, and beautifying the home.

Besides all this, manufacturers have co-operated with our managers to enable us to make on Tuesday an

Opening Sale of Brand New Goods

at very special prices, which will mean an immense saving to customers in providing for the season's needs.

Store Closes at 1 p.m. Today and Remains Closed All Day Monday

THE VICTOR SHOES FOR MEN

The "Victor" is our own production, of which we and Toronto are justly proud. No finer leather, no smarter or more dignified style, no longer wear, no better fit is obtainable in any shoe at any price. Whoever wears "Victor" shoes enjoys two sensations—that of being smartly shod and that of being comfortably shod; the most important details seldom combined in any other shoe.

"Victor" shoes are made over lasts that conform to the true proportions of the human foot. They fit all over—not in spots—and hold their shape until the end.

LET US SHOW YOU THE NEW STYLES

Just a Little Bit Different Simpson's Men's Furnishings

Every man's sartorial ambition is to be individual. Did you ever consider how great a variety of patterns, styles, cuts, new ideas and combinations it takes to give you that privilege of individuality?

The huge stocks and rapid turnover of the Simpson Furnishings offers unusual opportunities for the exercise of personal taste.

New goods just received for Fall wear are just a little different from those of previous years.

A finely woven pure wool taffeta shirt is going to be quite fashionable among the better dressed men. They are shown today at Simpson's in very narrow stripes in blue. They have double soft cuffs and coat front. All sizes **\$3.50** each.

Men's four-ply white silk underwear in shirts or drawers. Stalian Brand, sizes 34 to 44. Low priced at **\$3.50** a garment.

Silk Pyjamas are brighter in color this season. Our range of designs gives you a good choice. Put up in boxes, they make excellent gifts. All sizes, each **\$6.00**

Heavy Pure Wool Flannel Pyjamas of the newest designs for winter wear. All sizes **\$3.50** a suit.

Men's Heavy and Medium Weight "Wolsey" Brand Underwear, made from the finest yarns, are guaranteed absolutely unshrinkable. All sizes **\$2.00, \$2.50 and \$3.00**.

Our "Body Guard" Brand Combinations are being backed by Simpson's guarantee. All sizes at **\$3.00, \$3.50 and \$5.50**.

The Majority of the "New Model Neckwear" has bordered ends, but there are still many stripes in vertical or bias effect; Persian designs, brocades and plain bengalines are still among the new goods, of which we have an exceptionally large assortment, ranging in price from 50c to **\$2.50**.

500 Stiff Hats for Men

Samples, finest qualities English fur felt and up-to-date shapes, black only. Regularly **\$2.00 and \$2.50**. Saturday, 8 a.m. at each **\$1.00**
