HANQUET MR. BARTON

Canada will take advantage of the pending visit of Premier Barton of Australia to cement her friendship with the antipodean commonwealth. Mr. Barton, according to report, is a man of rare ability, and his speeches in the Motherland read like those of a statesman. He comes with prominent figures in the present Imperial movement, and Canadians will not be mistaken in doing him honor. Sir Edmund Barton is to be entertained in Montreal and Ottawa, and he will, no doubt, be given a glimpse of Canada's vast wheat-covered prairies and a taste of Winnipeg and Vancouver hospitality. Sir Edmund is, we are told, to take in the great Industrial Exposition and remain here from Sept. 1 to Sept. 4. Now, we in Toronto should like to get acquainted with this chief of a sister nation, and we are glad to hear that the Board of Trade is to banquet him.

CANADIAN GOODS IN ENGLAND

According to Hon. G. W. Ross, who has just returned from the coronation, there is a general desire on the part of English merchants to trade with Canada to an even greater extent than heretofore, and inquiries are being made at the High Commissioner's office more frequently than ever as to whether certain goods now on the British market, which were purchased abroad, could be supplied by Canadian dealers. While the home Britisher as a people may delay in granting Canada a preferential entry for her foodstuffs, the merchants of the Old Land, as individuals, seem disposed to favor the products of the Dominion. The removal of the new English "bread-tax" from colonial-grown grain and flour is what we had hoped for, but we should by no means despise the inclination of the British merchant to purchase Canadian rather than foreign goods.

RAN DOWN A SAIL BOAT

A crowd of people at Hanlan's Point witnessed a highly exciting wreck in which four people had a narrow escape from death. The Mayflower, loaded with people, ran down a small boat just as she was making the landing dock. The little vessel contained two young women and two men. The ferry boat crew saw that a collision was inevitable and stood by to help the occupants of the sail boat. As the two boats struck, the deck of the ferry was broken, and the women, who were extended above their heads, and they scrambled about without a scratch on their bodies. The boat, however, and drifted toward the wharf, where boat hooks were connected with the wreck and the small boat was pushed toward the shore. In a few minutes their danger was over, and the crowd on the promenade and those aboard the Mayflower were highly excited for a few minutes.

WHERE ARE CORONATION MEDALS

There is considerable dissatisfaction among the officers and men of the coronation contingent. They would like to know if they are going to get the coronation medals, from some quarters they have been told that they were entitled to them, but from other quarters they have been told that they were not. They think that an order should have been issued by the Minister of Militia before this, settling the matter one way or the other.

REGARDING THE EXHIBITION

In spite of the announcement that the public were prohibited from attending the Exhibition grounds, there were a good number of people there Monday watching the arrival of the exhibits and the work of the various departments. Several hundred of the various exhibits of the Exhibition arrived in the morning and at about 10 a.m. the various exhibits of the Exhibition were being taken to the Exhibition grounds. Another feature of the morning was the arrival of the exhibits of the Exhibition, which have been received in the Exhibition grounds. A hundred members of the Kirby company, who have been rehearsing in the Exhibition grounds, will be in the Exhibition grounds on Monday. The Exhibition grounds will be in the Exhibition grounds on Monday. The Exhibition grounds will be in the Exhibition grounds on Monday.

SAVING THE APPLE CROP

Ontario is soon to pick, pack and ship a large apple crop, and it behooves her to learn how this triple task may be effected with the best results. In the past, careless picking, slovenly or dishonest packing and reckless methods of transportation have made heavy inroads into the profits that the province should have reaped from her apple crop. In another column will be found an article indicating clearly just how the apple should be handled from the time it hangs on the tree until it reaches the shop of the English dealer across the ocean.

Wheat Varieties

Ninety-five varieties of winter wheat were grown at the Guelph Agricultural College this year. The ten varieties giving the greatest yield of grain per acre, starting with the highest, were as follows: Extra Early Windsor, Dawson's Golden Chaff, Imperial Amber, Bedgier Genesee Giant, Prize Taker, Economy, New Columbia, White Golden Cross, Early Ontario and Johnson. The Extra Early Windsor very closely resembles the Dawson's Golden Chaff variety. Those varieties possessing the stiffest straw were the Dawson's Golden Chaff, Extra Early Windsor, Johnson, Longberry and American Bronze. A deputation of ten persons from the Dominion Millers' Association visited the college during the past summer, and after examining the different varieties of winter wheat recommended that the following varieties be grown extensively in Ontario: Red wheat, Michigan Amber and Turkey red, and white wheat, Early Genesee Giant and Bulgarian.

Merchants After Pennington

Investigation into Charges Against the Assessment Commissioner Has Commenced.

NOTHING STARTLING DEVELOPED

Inquiry Adjourned Until Friday—Summary of Charges Made by Merchants' Association.

"This is too monotonous for a busy mind," remarked the Post Scribe, as he forsook the committee room in which Ald. Burns, Sheppard, Lynd and Oliver were as a special committee of the Council investigating the charges made by the Retail Merchants' Association against the Assessment Commissioner Monday afternoon. E. M. Trovorn was present representing the Retail Merchants, and he faced the Assessment Commissioner with a lot of details which were not in any connected form, and it was almost difficult to grasp the intelligent manner in which they were doubtless intended to be presented. This was not wholly Mr. Trovorn's fault, for it was a free-for-all discussion, in which the aldermen, the Commissioner, the complainant and the City Solicitor all mixed in, apparently each with a different idea.

FOR SOUTH AFRICAN TRADE

Sir William Mulock Writes on Contract for the New Canadian Freight Service.

MORE SHIPS IF THEY ARE NEEDED

Syndicate Will Put Themselves in Touch with Business Houses of This Country.

Secretary R. J. Young of the Canadian Manufacturers' Association on Monday received a letter from Sir William Mulock, Hotel Cecil, London, containing cablegram which recently forwarded the association, telling of the arrangements made for a steamship service between Canada and South Africa. Sir William's letter, in part, says: "I presume the companies forming the syndicate will put themselves in immediate touch with the business men of Canada. The contract contains a provision that the contractors will supply additional ships if the business warrants it, and the government trusts that the results will fully justify their action in having established the line."

Charge of Discrimination

There was but a faint attempt at system in conducting the investigation. Mr. Trovorn admitted that he had not considered the matter in a proper manner, and that the charge of discrimination was taken up first, but it seemed to cover all the other charges. Clerks with big books were kept on the move, and all kinds of figures were presented, but all that was shown really was a fact already known that in an assessment of nearly \$700,000 the Assessment Department in the opinion of the courts, was only about \$45,000 out. Ald. Oliver produced figures to that effect, and Mr. Trovorn said he was not going to accept Ald. Oliver's "cooked up" remarks, and an apology followed.

They Forced It

Mr. Trovorn's strong point was that the assessment of the T. Eaton Company had never been increased until his association had forced the increase. That, he said, was the "sting" of his charge. Ald. Oliver suggested that Mr. Trovorn should that property near Eaton's was assessed at more than Eaton's, and thus he could produce discrimination if there was any. All the properties in the block were taken up, and it appeared that they had been assessed on a fair basis. Mr. Trovorn wanted the value put in square feet, instead of so much per foot, and note the difference, but the committee agreed that this would be unfair, as rear property was not as valuable as front property. Mr. Trovorn, in reply, said that Eaton's was assessed at more than the latter had \$164,000 stock in the Dominion Bank. It was pointed out to him, however, that the law was at fault—namely, that the dividends could be assessed, and the bank paid on that assessment.

Were Eaton's Asked for

As the value of stock Mr. Trovorn said that smaller storekeepers had been forced by the Assessment Commissioner to sign declarations as to the value of their stock, whereas Eaton's had not even been asked to do so. Mr. Fleming will have to produce such documents, including any he may have from Eaton's, when the enquiry is resumed next Friday. In the meantime Mr. Trovorn will also furnish the information he is better prepared for a battle royal.

Judges for County Fairs

Fifty-eight fairs are now arranged in circuits running from two to three weeks each, commencing September 17, and going on to the middle of October, at which expert judges will be supplied by the Department of Agriculture. Each of the judges will be expected to give particulars and reasons for his decision.

Wanted to Hang Motorman

New York, Aug. 25.—Because one of a party of 15 Italians was run over at Grove-avenue and Potter-place by a trolley car, the men in the party attacked the motorman, John O'Neill, pulled him off the car and beat him and attempted to drag him to a tree, with the intention of hanging him. Then passengers of the crowded car interfered and lighting ensued, but police reserves appeared, drove the crowd of 2000 away, which took nearly an hour, and rescued O'Neill.

Picked Up Unconscious

Ottawa, Aug. 25.—A man was picked up unconscious on the C.P.R. track near St. Lawrence this morning. His skull was fractured and his arm broken. He was brought to St. Luke's Hospital, and is lying there in a critical condition. Nothing is known about him, but the name Bland is tattooed on his arm.

Across the House

Ottawa, Aug. 25.—On Friday Sir John Gordon Sprigg and members of his ministry voted with the Afrikaner Bund by crossing the House.

Ottawa Fair is on

Ottawa, Aug. 25.—The Central Canada Exhibition is now in full swing. The entries of live stock and industrial exhibits far exceed those of previous years.

HELPLESS.

The man trussed up so that he can neither move hand nor foot is in his helplessness a fair type of many a man affected by rheumatism. Often the disease only partially disables, and with crutch and cane the sufferer hobbles painfully about.

Rheumatism can be cured by the use of Dr. Pierce's Golden Medical Discovery. This great blood purifying medicine eliminates the poisons which cause the disease. It increases the activity of the blood-making glands, and so increases the purity and abundance of the blood supply, thus giving vigor and vitality to all organs of the body which depend for their health on plenty of pure blood. It builds up the body with firm flesh instead of flabby fat. The "Discovery" contains neither alcohol nor narcotics.

I had been troubled with rheumatism for twelve years, so bad at times I could not leave my bed, writes Mr. K. J. McKnight, of Cades, Williamsburg Co., Va. "I was badly crippled. Tried many doctors, and two of them gave me up for dead. I had no more to lose, and I tried Dr. Pierce's Golden Medical Discovery. My appetite was very bad. Everybody who saw me said I must surely die. I bought a bottle of the 'Golden Medical Discovery' and took it, and today my health is good after suffering twelve years with rheumatism. I am now able to do my work. Doctor Pierce's Pleasant Pellets cured me."

Wild Birds.

Birds in a wild state appropriate herbs and seeds innumerable. BIRD BREAD results from a lifetime's study of these herbs and seeds, and is so wonderful an article, it has been called "The Wonder of the Age."

EXHIBITION.

We invite our friends from a distance to our display of Chickering, Decker, Starr and other Pianos at the Music Pavilion, 9 and 11 Queen Street East.

BROUGHT IN FOREIGN LABOR

Fine Imposed for a Violation of the Canadian Alien Labor Law.

RENEGADE CANADIAN DEFINED

Police Magistrate Denison Makes Some Remarks in Action Against Carpet Weavers.

Two charges of violating the Alien Labor Law were presented in the Police Court on Monday against P. B. Hayes, secretary-treasurer of the Toronto Carpet Manufacturing Company, and a conviction was made in one. Magistrate Denison imposed the lowest possible fine, \$50. The maximum is \$1000.

In giving his judgment Magistrate Denison said that when a man left his country to become naturalized, he became a renegade.

FAIR "HOSSITROT" MUST GO.

Other Entertainment Will Be Provided at Fall Shows.

Steps are being taken by Mr. Creelman, superintendent of Agricultural Societies, and others interested in the success of township fairs throughout the province, to eliminate from the fairs in the future such attractions as horse racing, shell and other card games, the Wild Man from Borneo and female snake charmers and others of that tribe.

With this end in view, arrangements have been made for demonstrations in the art of packing apples, also in the dressing of chickens for the home and foreign markets, as well as in cooking.

The rings in the different fair grounds as they now exist will be converted into grass tracks for speeding purposes, and no horse racing will be allowed during the time of exhibition. Of course, it will be permissible at other times if the fair directors are not opposed to it.

The Wabash Railroad will make sweeping reductions in the one way second-class rates to California, Oregon, Washington and other Pacific coast ports.

Wants a Goat Colony. Father P. E. Grendon, O.M.I., of Rat Portage, has written Mr. Creelman of the Department of Agriculture, enquiring where he can get some goats, stating that there is plenty of rocky country in New Ontario for the raising of this class of live stock.

Improved Service to New York. It is possible to improve the service offered by the New York Central and C.P.R. for their patrons to New York, then the addition of the dining car on the evening train at 6:20 ought to be appreciated. First trip Aug. 22nd.

CHINA'S NEW PERIL.

Reports Indicate a Great Scarcity of Foodstuffs.

In a letter received on Monday morning from Rev. Dr. Sutherland, General Secretary of the Methodist Mission, from Rev. O. L. Kilborn, M.D., the head of the Methodist Mission in Chentu, Province of Szechuan, West China, it is stated that the crops in China are poor and prices for foodstuffs very high.

Estimating the Damage. A. W. Campbell, Deputy Commissioner of Public Works, was in his office on Monday, having returned from Winchester Township, where he had been examining the havoc, caused by the recent tornado.

The Cause of Strikes. R. Gloecking, secretary of the Bureau of Labor, is sending out a circular regarding any strikes or lock-outs that have occurred during the past year, and requesting any information that might be calculated to give an intelligent understanding of the causes of these troubles or suggest possible preventives.

NO SCARCITY OF BINDER TWINE

Local Dealers Say the Supply Will Meet the Demand.

An important factor in the harvesting operations in Canada's golden West is the supply of binder twine. From Winnipeg a despatch comes to the effect that the immense world-wide supply of this commodity to the acre, and that in addition to the scarcity of harvest hands, there is a probability of a shortage of binder twine. Discussing this phase of the situation with The World on Monday, W. J. Hobbs, manager of the Plymouth Binder Twine Agency in Toronto, said that while there was a great demand for the requirements of the farmers, the supply was not so great as it was last year.

Settled in Temiskaming. According to Mr. Southworth, commissioner of colonization, fully 3500 people are now settled in the Temiskaming district.

A Narrow Shave. Montague, Tenn., Aug. 25.-Miss Tucker and Sidney Cowan fell over a cliff 40 feet and stopped just short of a 300-foot drop to instant death. They were rescued.
