KITCHENER HEAD OF OVERSEAS FORCES

Appointed "To Mediterranean Command," But Opinion Is That Post Means Inspectorship of the Colonial Army.

(Canadian Associated Press Cable.)
LONDON, Aug. 6.—Lord Kitchener of Khartoum has been appointed to the Mediterranean command, succeeding the Duke of Connaught.

He will first visit Australasia, to inspect the troops there, and to advise on the best way to give effect to certain proposals for development which are being discussed by the Imperial Defence Conference.

In some quarters it is believed there is an intention to co-ordinate all the military forces of the empire and to place Lord Kitchener at the head of an organization which will have the imperial army for its special care.

"Events would seem to be moving in this direction," says The Daily Graphic, "and there can be no question that Kitchener is of all men the one best suited for a command of that kind."

The Express declares that Kitchener's new post is synonymous with an inspectorship of all the overseas forces.

Will Visit Canada And the Antipodes

LONDON, Aug. 6.—Lord Kitchener, commander of the British forces in India, has been appointed to succeed the Duke of Connaught as inspector-general of the Mediterranean forces, which post the duke recently resigned on the ground of his infirmities. Kitchener will take the rank of a general and the useless expense to the nation involved therein.

Lord Kitchener will take the rank of a general and the useless expense to the nation involved therein.

As soon as the trials at Petawawa are concluded, Baldwin and McCurdy will visit England with an all Canadian aerodrome, to carry out programs of flights which will be arranged later.

As the aerodrome stands upon Petawawa Common, it looks an amazing contrivance of wood, steel, wire and cotton. What its possibilities are as an exponent of aviation the next 24 hours will probably tell.

Put Feet on Desk In School Hours Teacher is Fired

BRANTFORD, Aug. 6.—(Special.)—Principal Gant has been dismissed by the Paris public school board as a result of dissatisfaction among the trustees over alleged misconduct during school hours.

Mr. Gant stated that he would hold the trustees responsible for his dismissal. His letter was filed by a vote of 6 to 5.

The principal is said to have placed his feet on the desk during class hours. His dismissal was not unanimous among the trustees, a number of whom have regarded the results shown as most satisfactory.

Baddeck No. 1 Ready For Flights To-day

If Successful, McCurdy and Baldwin Will Take 'Drome to England.

PETAWAWA CAMP, Aug. 6.—(Special.)—The finishing touches were given to Baddeck No. 1 this afternoon, and J. D. McCurdy confidently expects to attempt flights on Saturday when much is expected of the new aerodrome.

Casey Baldwin told The World today that "it was a refined product of the inventors' art."

As the aerodrome stands upon Petawawa Common, it looks an amazing contrivance of wood, steel, wire and cotton. What its possibilities are as an exponent of aviation the next 24 hours will probably tell.

ONE PER CENT. DAMAGE TO WHEAT

This Is Estimate of Grain Agent of C.P.R.—Board of Trade Reports Indicate Only Average Yield in the West.

WINNIPEG, Man., Aug. 6.—Thomas Acheson, general grain agent of the Canadian Pacific Railway Company states that reports of any damage to the grain owing to the storm will not reach him until tomorrow, but he does not anticipate anything serious.

Since the beginning of the season Mr. Acheson has kept faithful reports of all damage to growing grains and the amount covering the three large provinces of Manitoba, Alberta and Saskatchewan will not reach more than one million bushels. This is less than one per cent. of the total expected yield estimating the 1909 wheat crop at 120 million bushels, which is considered low. One per cent. damage is considered very light in comparison with other years.

"Of course," said Mr. Acheson, "the business communities generally will not feel such a slight loss. At specific points where the most damage has been done there will be a slight depression among the business men, but apart from the local points business men may so far rest easy."

Harvester Excursions. Grain-cutting in the northwest will be in full swing within two weeks, according to the latest reports.

Harvesters excursions to the grain provinces will be run on the 18th, 20th and 21st of September and the return rate will be \$10 going and the return rate \$18, applying to points east of Moose Jaw. The excursion from New Brunswick to the west will be run on Aug. 15th.

While the recent hail storms and intense heat have caused experts to lower their estimate of the yield the opinion prevails among correspondents of Toronto grain men that the crop will be an unusually large one.

Manitoba correspondents wired their principals yesterday as follows: "Portage Plains a little wheat will be cut next week, but the bulk is just beginning to turn and harvest will not be general here during the last week. The yield is just about an average one."

Winnipeg—"Intense heat has prevailed here during the last week, which is hurrying the crop too fast towards maturity. The yield will not be as great as would have been the case had the weather been suitable for natural growth."

In the States nothing has occurred to weaken confidence in a large yield. The reports of crop statistics in the Dakotas are being discounted. Grand Forks wires as follows: "You can't estimate as any factor in the crop of the state this year, cutting already begun and crop will set a new record for the state."

Yield of Winter Wheat. Milling correspondents report that the average yield of winter wheat to the acre, when figured on the acreage here during the last week, indicates the crops in the central, western and the southwestern and southeastern States.

Michigan 20 15,140,000
Ohio 17 24,880,000
Indiana 17 39,185,000
Illinois 16 31,160,000
Missouri 15 23,145,000
Nebraska 15 41,173,000
Kansas 15 88,420,000
Texas 16 6,740,000
Kentucky 12 7,923,000
Tennessee 11 6,602,000
Oklahoma 13 15,080,000

It is estimated that the yield of spring wheat in the three chief grain states, Minnesota and the Dakotas, will be 225,000,000 bushels.

The quality of grain in most states is high. The poorest conditions are in Tennessee, Kentucky and Ohio, caused by frequent rains at harvest. Many farmers are reported as refusing to sell wheat below \$1 and are stocking or storing it.

Forty-Five Bushels to Acre. STERLING, Alta., Aug. 6.—(Special.)—Reports of bumper crops in this district continue to arrive at the offices of the Townsland Syndicate. Word was received yesterday from the "Ward" four thousand acre farm, three miles south of here, that wheat cutting will begin on August 8. It is expected that the crop will run forty-five bushels to the acre.

Two new elevators are being erected in Sterling and will be completed in time to assist in handling the big crop.

JAPAN WILL GO AHEAD On Reconstruction of Mukden Railway Without China's Consent.

TOKYO, Aug. 7.—Japan to-day officially notified the powers of her intention to proceed immediately with the reconstructing and improving of the Antung-Mukden railroad without the consent of China, diplomatic negotiations having failed to overcome Chinese opposition.

This note declares that through the discussion China has had recourse to her well-known policy of obstruction and procrastination and has evaded the just and reasonable demands of Japan.

LONDON, Aug. 6.—(C.A.P.)—The Times remarks that one important result of the American tariff has been to increase the feeling in Canada in favor of an imperial preference.

On Monday at 11 a sale of the fixtures and furniture of the Arcade Hotel will be held by public auction by Bailiff Jas. McTanner. A warrant charging him with aggravated assault, Robert Foster, 1909 West Bloor-street, was arrested last night by Detective Mahoney of No. 7 division.

Federal Revenues Soaring, But Country Went Behind \$3,500,000 in July

OTTAWA, Aug. 6.—(Special.)—The revenue of the Dominion for the first four months of the present fiscal year exceeds the revenue for the same period of 1908 by about four and one-half million dollars.

The revenue up to July 31 this year was \$20,030,311, while last year it was \$25,502,299.

The expenditure on consolidated fund during the four months just ended was \$20,785,426, leaving a balance of about nine and one-quarter millions.

The expenditure on capital account to date is \$6,429,221. So that the revenue covers both expenditures and leaves a net balance of two and three-quarter millions.

But the story of July of this year is serious. The total revenue was \$3,437,428, and the expenditure \$11,368,678. So that on the month the country went behind three and one-half millions, and if the capital expenditure of two and one-half millions is added there is a total deficit for the month of six millions. The revenue for July of this year is two millions greater than for July last year, but one million more was spent, so that the net betterment is only one million.

As to the public debt, it has increased over five and one-half millions during the month. The total gross debt of the Dominion now stands at \$471,259,796, and the total assets at \$150,622,205, making a total net debt of \$320,637,591.

The report also announces that the expenditure during July leaped so far above the revenue demand serious contemplation.

NEW ONTARIO SPELLER FOR PUBLIC SCHOOLS

New Volume in Government Educational Series Issued at Half Price of Old Book.

Following the four Ontario readers published a few days ago comes the "Ontario Public School Speller," issued last night by the department of education.

The new book is in every respect a worthy lift in the new series, and while the old book was considered cheap at 15 cents, the new is better and only 15 cents.

It should be noted that the prices of readers and spellers are subject to a 20 per cent. discount, so that scholars in Toronto will save even more than was at first understood.

The present speller follows the English standard laid down by the government in adopting the "Concise Imperial Dictionary" as a criterion. Words ending in "our" retain the English form. Eight grades are marked corresponding with the several Ontario classes, and rendering the book available in other provinces.

The arrangement of the words strikes one as eminently practical and simple. Care was taken by the compilers, it is stated, to experiment in various schools with the lists of words, and which proved of most difficulty in this test have been grouped in review exercises.

It is a general remark among good spellers that their accomplishment depends on visualizing the words rather than by memorizing them by ear. This is recognized in the dictation exercises which are a feature of the book.

The lessons are not too long, but in the aggregate an immense field is covered and even a hardened newspaper man or a minor poet might improve his vocabulary by a course in the new speller.

The type, printing, paper and binding are a credit to the publishers, the Copp Clark Co. Ltd., and represent a long advance on Butter, that orthoepic monument of the past.

The primer in the new series will be issued next week.

MANY STRIKERS RETURN SITUATION NOT SO TENSE

Trades Unions Ask Government to Mediate—Grave Diggers Forced Back to Work.

STOCKHOLM, Aug. 6.—The tense situation arising from the general strike declared to-night that intervention by the government would be without result, as the difference between the men and the employers were too great to be settled in such a manner.

The increasing cost of living and the difficulty of obtaining food doubtless accounts for the large number of strikers who have returned to work. Public opinion was too much for the grave diggers and they were compelled again to take up their picks and shovels. The employees of the gas and electric works struck against the advice of the Socialist leaders because they resented the presence of troops protecting the plants.

The arrangement of the words strikes one as eminently practical and simple. Care was taken by the compilers, it is stated, to experiment in various schools with the lists of words, and which proved of most difficulty in this test have been grouped in review exercises.

THAW'S FIGHT TO END TO-DAY

Dramatic Outburst By Mother at Conclusion of Testimony—Alienists Certain He's Sane.

WHITE PLAINS, N.Y., Aug. 6.—Harry K. Thaw's latest struggle to regain his freedom will end to-morrow. The submission of testimony in his habeas corpus proceedings before Justice Isaac N. Mills, closed this afternoon, and all that remains is the final arguments of the attorneys.

Justice Mills will file his decision with the county clerk here on the morning of Thursday, August 12. Several possibilities confront Thaw. The court may grant his plea and make him absolutely free. It may decide that he has not established his sanity and refuse to interfere, in which case the state authorities probably will send him back to the Matteawan hospital for the criminal insane.

But Justice Mills has further discretionary powers. He may feel that the young man's mental condition is still in doubt, and for that reason delay the final order, meanwhile paroling Thaw in the custody of some officer or possibly on his own recognizance in the care of his family. Or, he may declare Thaw insane, but, moved by his mother's complaint regarding his surroundings at Matteawan, send him to some other state hospital not peopled by criminals.

Thaw left the court room this afternoon with jaunty step. "I am sure," he said, "that I shall be free."

Dramatic Outburst. The evidence presented in behalf of Thaw closed to-day with a dramatic outburst by his mother, Mrs. Mary Copley Thaw, who was the final witness. Her last words were a denunciation of District Attorney Jerome. Earlier in the day she had read a list of names distinguished in New York society. They were guests, she said, at a dinner she gave in New York, which Harry attended before his marriage. In concluding her testimony she referred to this list of names. "I brought in the names of those who attended that dinner to my son," she said, "because of the statements of Mr. Jerome regarding the company Harry was accustomed to keep."

"I do not have any special animosity toward Mr. Jerome, but he certainly has not behaved in this matter in a gentlemanly way, nor in a Christian way. Mr. Jerome always talks about Harry being a frequenter of the tenderloin, when he knows as well as any one that my boy never went to the tenderloin until he met a certain person who dropped him down."

"That," said Attorney Chas. Morchauer, "ends our case."

On the stand to-day Mrs. Thaw's testimony was again frequently interrupted by sobbing as she described Harry's surroundings at Matteawan. "That place seemed to me like the vestibule to the infernal regions," she said solemnly.

The principal witness to-day was Roger O'Mara, formerly chief of police in Pittsburg, and employed by the Thaws as a detective in Harry's case. He testified in corroboration of the stories about Harry.

Alienists Say Sane. The greater part of the day was devoted to a re-examination of Thaw's alienists, who struck to their assertions that whatever Thaw's mental condition might have been when he shot Stanford White, he was now sane. Thaw left the stand unshaken.

The Cement Merger. MONTREAL, Aug. 6.—(Special.)—All the denials to the contrary, the big cement merger with a capital of \$30,000,000, is assured. Of this amount \$11,000,000 will be preferred 7 per cent.—\$18,000,000 will be preferred 7 per cent.—\$19,000,000 is assured. The Bank of Montreal will be the bankers and the Royal Trust Company the trustees of the consolidated company.

29TH YEAR

RUSSELL'S BACK IN LIMA, OHIO, HOME

Mining Man Wanted for Fraud in Connection With Cobalt Flotations, Returns From S. America After Two Years.

The Lima, Ohio, papers contain long accounts of the return to that city of W. L. Russell, who will be remembered as the mining company promoter who was identified with the Silver Bird and Lucky Boys mines in Cobalt, and whose partner, Frank Law, was sentenced to a term in the penitentiary for obtaining money under false pretences in connection with the flotation.

Russell was out of the country all the time Law was prosecuted and the authorities were unable to locate him.

His peregrinations during the past two years are thus described by The Lima Republican Gazette:

W. L. Russell has returned to Lima after a sojourn of almost two years in South America. During that time he was located at Quito, Ecuador. There he had entered into and had fulfilled a contract for the completion of several hundred miles of telephone lines. Previous to the late contract he was after concessions of a large nature and the fulfillment of all conditions made it possible for him to interest other of the small American states to accept his plans, and the closing of his present contract has brought him to his paternal home in Lima.

Going back beyond Mr. Russell's departure for southern climes comes up the story of his former connection with the company in Cobalt, organized for the purpose of opening up the Cobalt fields in certain of the provinces. Many of the mines had proved to be a paying investment on a large scale, and the opening of the Silver Bird and Lucky Boys were projects in which Mr. Russell was especially interested.

Just when good results were expected the panic came and following a crash which destroyed not only the hopes of the promoters, but also of the many who had invested large sums of money, Mr. Russell was in England during a part of the time, trying to secure money to save both the company and the investors, and when the climax was reached he returned to the United States, where, if his presence had been demanded by the Canadian Government, he could have been secured at any time. After a lapse of two months he went south, and now returns to take up his residence in the city that he gladly calls home.

Mr. Russell was indicted by the Canadian Government following litigation which involved the firm of Law & Co., and while that indictment was pending over him there will be a strong fight against extradition because of the fact that he was unconsciously involved in a supposed violation of the Canadian laws.

The mines which he was instrumental in opening are now paying royalties, which goes to prove that he had secured an investment profitable to all concerned.

Eleven Warrants. The attention of Inspector of Detectives Duncan was directed to the clippings from the Lima newspaper which said there were eleven warrants out for Russell and that he knew extradition papers had been issued for service as soon as Russell was located. The local detective department will take no action until the attorney-general's department has decided what steps to take and instructs accordingly.

Hon. Mr. Foy was out of town yesterday. Deputy Minister Cartwright is on his vacation and Sir James Whitney would not interfere in a matter which strictly belonged to the attorney-general's department.

SIR THOMAS LIPTON Will Visit Canada This Year, He Tells Col. McLean.

ST. JOHN, N.B., Aug. 6.—(Special.)—Col. Hugh McLean, who arrived home from England to-day, where he has been before the privy council, announced that while dining with Sir Thomas Lipton, that gentleman told him he would be in Canada this autumn. Sir Thomas expects to spend some time visiting Montreal, Toronto, Ottawa and the western cities.

ANOTHER WARM DAY. Clear weather and warm—very warm, may be looked for to-day. Practically no wind conditions will prevail throughout Canada.

Yesterday was fine, and between the lakes and the maritime provinces, quite hot with scattered thunderstorms in Quebec and New Brunswick. Toronto temperature ranged from 62 to 85, quite a moderate glow, the some citizens, from the humidity thought it was 100 at least.

PANAMA BARGAINS. Summer in Canada. There are at least nine months left of straw hat weather. Now, here's a chance for a good purchase in a Panama Hat—Remember, a Panama will wear you for years. It is washable. Diamond Company received twenty dozen extra fine quality Panamas of the best of imported straw. The lot was purchased at very low figures—must be cleared at once. Two prices—one lot \$5 each, other lot \$6.50 each. Store open until 10 o'clock Saturday night.

FARMERS BADLY SCARED BY POWER RING AGENTS

Many Consulting Lawyers About Hydro Right of Way—Offer For Grimsby Park

HAMILTON, Aug. 6.—(Special)—Emissaries of the power ring are busy trying to obstruct the agents of the hydro-electric power commission, who are obtaining a right of way for the government's power line, and they have worked the farmers into a terrible state of excitement. They have got the farmers to believe that the commission pays for only a narrow right of way, and insists upon cutting down all trees, including fruit trees, for a width of 130 feet. The fact of the matter is that only big trees likely to fall across the power line will be taken out, and only for a width of 66 feet, and the farmers are being paid handsomely. So badly have the farmers been frightened that some of them have been consulting lawyers, who have applied to the attorney-general for a fiat. This has been refused so far.

The police have about given up hope of capturing Mark Tompkins' pals. Offer For Grimsby Park. The Beachland Realty Company, Cleveland, has made an offer to the auditors for the Grimsby Park, and the Cottage Owners' Association has approved of the offer, and will co-operate with the company, which promises to make many improvements. The general policy will be in the hands of the cottage-owners, who will be allowed free access to the park. Twenty-five bicycles have been stolen during the past two weeks by a gang of thieves. The parks board is taking steps to acquire a large park at Station 8 on the Beach.

Bigamy Charge Dropped. The charge of bigamy against John Patterson, alias John Kavanagh, has been dropped. Mary Visheau, who was supposed to be wife No. 1, made a signed statement to the police magistrate today, declaring that she had never lived with Kavanagh, they had never been married. It is charged that Kavanagh was married to Gertha Turner, under the name of Patterson, and the police are trying to make a new charge.

Archie Gibbs, 708 East King-street, has been summoned on the charge of turning in a false alarm of fire. William Faugh, a farmer living near Besseler, has asked the police to locate his wife, who disappeared some time ago.

No Speech-Making. An officious policeman refused to allow any speech-making at the picnic of the Women's Institutes in Dundurn Park yesterday.

Louis Sabo was committed for trial this morning on the charge of uttering a worthless \$50 Confederate bill. Captain Alfred Hunter, provincial government's new magistrate, fined William H. Corey, \$35 and H. Knapman, \$5 for fishing without license. Eight of the striking molders will start a foundry in the east end annex.

W. R. Mills has sold his hat store to MacNab and Langley, Toronto. Denis Tomis, 122 Papez-street, a Macedonian, who fell off a street car last Saturday night and sustained what were thought to be only slight injuries, was reported to be dying to-night. Special Officer Nichol took a turn for

the worse to-night and his family were summoned to his bedchamber. City Engineer MacCallum reported to the sewers committee this evening that some forty residents of the township had connected with the city sewers without permission, and they will all be forced to pay for the privilege or be disconnected. He also reported that it would take \$27,000 to build a new sewer to prevent flooding in the west end, but as the city has not so much money to spare just now the work will have to be deferred. The committee will spend \$500 on temporary repairs.

Trades and Labor Council. The Trades and Labor Council this evening instructed the municipal committee to try to secure an eight-hour day for city employees, who are now working ten hours. The following officers were elected: Charles Atchison, president; J. Gimblett, vice-president; W. R. Rollo, secretary; W. Penny, financial secretary; Chas. Meeghan, treasurer; Charles W. Wally, sergeant-at-arms; Allan Studholme, M.L.A., and Philip Obermeyer, trustees. Mr. Obermeyer was appointed delegate to the Dominion Trades Congress, which will meet at Quebec on Sept. 17. A committee was named to work with Jos. Marks in establishing a branch of The Industrial Banner.

Fire in Box Factory. Another fire started to-night about 9 o'clock in the Ontario Box Co.'s factory. It started in the furnace-room and making great headway when the firemen arrived. The sprinkler system held it in check and \$200 will cover the damage.

Hotel Marlborough. Corner Barton and Catherine-streets. Hamilton, modern and strictly first-class. Rates \$1.50 to \$2 per day. Phone 1465.

LAKE HURON AND LAKE SUPERIOR. A magnificent summer trip is enjoyed by taking this "fresh water sea voyage" from Sarnia, Ont., to Port William, Ont., through the Great Inland Sea. This year new steamers have been added to the Northern Navigation Co.'s fleet, and the finest and fastest vessels on the Great Lakes will fly the house flag of this popular company.

French Gold for Canada. Now is the Accepted Time to Interest Capitalists.

MONTREAL, Aug. 6.—(Special)—Lemoyne De Martigny, a French Canadian banker, who has for twenty years resided in Paris, where he also represents L. J. Forget & Company, is now in the city and says that the time is very ripe for educational work amongst French capitalists as to the resources of the Dominion.

They are, he says, particularly well disposed towards us, and all they want is the knowledge that the investment is safe. He says it was a great pity that C. P. R. shares had not got into the hands of French investors, when they went to Holland many years ago, for such a transaction would have been a great "ad" for Canada all these years on the French money market.

Speaking of the new government, Mr. De Martigny says that the conservative element, and especially the money people of the republic, are rejoicing over the advent of M. Cocheury to the department of finance. He is brother-in-law of M. Fallain, governor of the Bank of France, and is the right man in the right place.

Dog Scores One Bite. James F. McTaggart of 118 Riverside-avenue complained to the police last night that his wife had been bitten by a dog in front of 317 Gerrard-street. Enquiry revealed that a Mr. Butler lived there who owned a dog. When spoken to by the police Mr. Butler could hardly believe of his dog having bitten a lady's limb.

The bite is not considered dangerous, but the dog may be. Minerals For the Fair. A good and representative collection of the minerals of Ontario for display at the Toronto Fair is being prepared by the provincial department of mines.

Dry Dock For Longue Pointe. MONTREAL, Aug. 6.—C. C. Ballantyne, harbor commissioner, arrived home to-day after making arrangements with an English shipping firm for building a floating drydock at Longue Pointe.

O. Y. B. CHURCH SERVICE

The members of the O. Y. B. of York are requested to assemble at 100 Queen's Avenue, just north of Queen, on Sunday, Aug. 8, at 10:15 a.m. sharp, for the purpose of attending Divine Service at Parliament-street Methodist Church, Sermon by the Rev. Bro. C. E. Perry, P.O. Chap. of O.Y. Members of sister organizations cordially invited. Full regalia. Gordon Blair, Sec. M. Shelton Hornshaw, Co. Sec.

SHUTE THE SHUTES ON TOBOGGAN SLIDE AT THE ISLAND BATHS

Sand Bar, Hanlan's Point. The greatest and safest bathing place in the city. The temperature of the water is now 70 degrees. Equipments with electric chairs and crazy barrels (the management will give \$1.00 to any person who will hold a barrel for one minute, and \$10.00 to the person who will hold a barrel for one hour). New suits and new towels, sterilized after each using. Electric lights. Special attention to learners and children. Special instruction. Ladies' swimming. Saturday. Ladies' swimming. "Land Bath" suits allowed on club days. Ice-cream barge is safe. J. J. B. ATKINSON, Manager.

SAW THE PACIFIC

Mrs. Cuthbert's Touring Party Returns After a Royal Time. After journeying across the continent, and visiting the cities of the Pacific coast in their private train, the Cuthbert touring party arrived in Toronto last evening. They were lavishly entertained at Vancouver, Los Angeles, Pasadena and other places. Mayor and Mrs. Douglas, Vancouver, held a reception at their home in the person of the party, which was attended by 700 people, and the Spencer Store Company gave them a roof garden entertainment. At Vancouver, the chairman of commerce entertained them, and also the Pasadena Board of Trade. Throughout the trip the party had not only pleasant and rainy day, and no accidents marred the journey. The party were taken all the way in a special train including their own dining and sleeping cars.

Run Off at Woodbridge.

C. P. R. trains from the north were all behind time yesterday in arriving at Toronto owing to the wreck of part of a coal train at Woodbridge yesterday morning, which damaged the track for several hundred feet. A car near the end jumped the rails owing to a defective flange, dragging three other cars with it. A member of the train crew was injured but not seriously and was brought to a city hospital. The track was repaired and in commission again last evening.

Orilla and Picton Old Boys.

Orilla Old Boys and Prince Edward Old Boys will pay a visit to the home towns to-day, the former leaving by G. T. special at 7:30 a.m. and the latter by G. T. special to Picton about the same time. The Grand Trunk will also carry a bricklayers' excursion to Niagara Falls and a L.O.L. excursion to Sarnia and Goderich.

Music at the Regatta.

The band of the Royal Grenadiers under J. Waldron will play this afternoon at the Canoe Club Regatta to be held on the bay.

R. L. Borden's Return.

OTTAWA, Aug. 6.—R. L. Borden, leader of the opposition, will sail from England for Canada on Aug. 27. He will come direct to Ottawa and then proceed to Nova Scotia.

POLSON IRON WORKS LIMITED TORONTO STEEL SHIPBUILDERS ENGINEERS AND BOILERMAKERS

Fewest Joints, Easiest Installed and Easiest to Operate

ALWAYS INSTAL A PEASE "ECONOMY" FURNACE

Almost any man can assemble a "Pease-Economy" furnace himself--it has no few parts and requires little cement. Pease and Pease Ring is all cast in one piece of heavy iron. Ash Pit is one solid casting--thus no ashes or dust can possibly leak into the air chamber. Anti-Chimney Grate is all one piece. Fire Pot is two very heavy sections of cast iron, connecting with deep cup joints. Dome and Radiators are made of heavy wrought steel--closely riveted like a strong steam boiler. Write to-day for Catalogue. PEASE FURNACE CO., LIMITED, TORONTO AND WINNIPEG Manufacturers Sellers, Furnaces, Combination Heaters, Etc. Toronto Showrooms: 36-38 Queen Street East. 1215

Trotting Matinee To-Day

The Toronto Driving Club's matinee at the Dufferin Park track to-day, starting at 2 o'clock, should attract a good crowd, as the card offered is a good one. The entries in the different classes comprise the pick of the matinee horses in the city and some fast time will be needed off. The races are all mile heats, three in five. The club will enforce one of the rules of the N. Y. A. to-day, which has been neglected of late, compelling every driver to dress properly. If he refuses he will not be

The Toronto World

A Morning Newspaper Published Every Day in the Year.

BUILD BETTER ROADS.

The question of good roads is as old as civilization.

It is therefore all the more to the discredit of twentieth century Canada that her farmers must bump over bad roads that would not have been tolerated by the people of the Roman Empire two thousand years ago.

To the credit of the press of Canada, the newspapers in season and out of season have stood for good roads, and if the highways are better to-day than 50 years ago it is largely the result of an unrelenting campaign of education in which technical ideas worth while have been imprinted on the public mind.

Let a man dare to stand up on a public platform to-day and say, "I favor bad roads; they're cheap and cost less."

He would be howled down and possibly his sanity would be questioned.

But township councils do not part in endless discussion on empty-quit road improvement plans in which they spend ten dollars in too much to spend on the "elaborate" "minor" concession this year, and thereupon an amendment is moved to cut it down to five.

It all ends in mud gravel—then mud, and the money expended, small as the amount may be, is utterly lost.

The whole thing is futile. The question now is not that of good roads so much as that of administration by which money now being wasted will be used to build permanent roads, which, when once constructed, will be good roads thru all the centuries.

The provincial government must rise to this larger responsibility. If the public works department under the supervision of A. W. Campbell is allowed to build the trunk highways of Ontario the world is satisfied that the object lesson presented by standard methods and modern machinery will soon result in the county roads and concession lines becoming infinitely better than they are to-day.

TALENTS AS INVESTMENTS.

A good deal of reproach has been handed out for the last nineteen centuries to the man who would not take a chance, and who buried his talent in a napkin. Like Esau and Agag and a few other scriptural characters he appears to have been the victim of the system.

Numberless young men have developed grey hairs in the attempt to square the policy of putting their talents out to usury with the cold hard fact that 98 per cent. of all business enterprises started fall within a year. This is the testimony of the commercial agencies, and it conflicts radically with the representations of the parable to the effect that all the investors doubled their capital.

In the light of modern business experience the man who hid his talent in a napkin was a safe business risk; while the other fellows who put their capital on the market would have been looked at askance nowadays, and their securities carefully investigated.

No account is taken, however, in the parable of a class that abounds in America—those who, more reckless than the man with the napkin, start out with the best intentions, and find at the end of a year that their capital is sunk in fixtures and payments on account, and that the assignee is in charge of the stock remainder.

Probably the parable, had it specifically mentioned these bold adventurers, would have indicated some way of giving them another start.

They had no faith, and nothing in the world, nothing in life or in death is half so important as faith. The man who can trust himself around the great cosmic forces around him, certain that he will arrive somewhere, confident that he will gain as he goes, assured of his partnership in the great joint-stock concern of the universe, that man has faith in the real, active, vital sense.

The smallest portion of a man's talents is the money, the cash capital, he may have at his disposal. Even the talents of the parable have gone into tradition, not as mere dollars, but as mental and intellectual accomplishments, human faculties. And this leads up to some ideas that have been admirably expressed by John Burroughs, the naturalist.

"Success is not counted by dollars, nor is it to be purchased with great riches," says Burroughs.

"It seems to me that the only thing that keeps people in the city is that all the city is good for, and if they think money can make them happy or can purchase their contentment they are sadly mistaken, as they find out when they become millionaires."

"People spend their lives making a fortune and then find out that it was not what they thought it to be. There is a great inclination on the part of wealthy people to return to the country, but they go out in the wrong spirit. They set up an establishment with a lot of servants and get as far away from the true country as if they were in town."

"In order really to return to the 'Great Elemental Sanities' one must go with the right attitude of spirit, and that attitude is simplicity."

"It does not do us much money to live in the country. Money is good to buy books and pictures with, but it is not needed for much else. One can live in the country, if his mind is right, and enjoy the best books, the best of people, the best of life and never be troubled about his bank account."

TRAFFIC CONTROL.

Editor World: I noticed by The World of the 21st, where you were willing to accept any suggestions that could be made regarding controlling of the street traffic.

I would suggest that you start a voting contest, the prize being to send six of the most popular policemen to England to see and learn for themselves how the traffic is halted at the sign of the hand. At busy intersections two policemen are used, one at the east and one at the west, while the north and south traffic passes thru. When a sufficient number have passed they reverse their positions. The hands of the police down town do not seem to carry any force with them, and teamsters brush by in the old accustomed way. Another rule which should be enforced in the city is that drivers of covered delivery wagons should be made to give a signal when turning a corner or when cutting across the street from left to right. It is an easy matter to outfit a car with a bell. Then the driver in the rear will have some warning. As a chauffeur, I had my first experience with touring in London last year and could not help but admire the splendid way in which the traffic was kept moving. If our own policemen can't learn to have control, why, it would be easy to import a few London bobbies, as there are yet a few things we can learn from the mother country. Chauffeur.

TAXATION OF UNIMPROVED LAND.

Editor World: The writer was very much pleased at your recent editorial suggesting the full taxation of unimproved land in the City of Toronto, and was surprised that more since has not been heard of this valuable suggestion in your paper and others.

The writer had an experience the very day before your article appeared, showing how unjustly the present system operates. He came across a market gardener using about 25 acres of land (very suitable for workingmen's houses, which are very much required). He enquired from the owner if he would sell. His reply was "No, it is worth \$1500 per acre now, and I have a fixed assessment for a number of years, and will not sell until this expires." Now, the meaning of that simply "Blums"—for it crowds the workingman and his family so far out into the country that they can neither spare the time nor the money to travel back and forth to their work in the city, and so, for convenience sake, they crowd in the centre, and this is what makes "Blums" a problem.

It also increases the cost very much of administration of the affairs of the city, and this is not the worst, for it is this system that creates aristocracy of wealth "who toll not nor spit," and are kept at the expense of the real producer. Please push your suggestion thru a successful conclusion. Fiat Justitia Ruat Cœlum.

CITY SHOULD HOLD LAND HAVING BAY FRONTAGE

Civic Officials Lay Down Principle in Report on Poison Company Offer.

That the city retain the ownership of all lands fronting on Toronto Bay, is the suggestion contained in a joint report by City Engineer Hume and Assessment Commissioner Forman on the application of the Poison Iron Works for a dry-dock site on Ashbridge's Bay.

The officials bring forward two propositions. The first is to lease the firm a block of water lots, containing 33 acres, on the harbor front in a line with Parliament-street. The second is to sell the firm 24 acres of water lots fronting on the proposed 400 foot ship channel. The matter of terms is left to council.

The property first named has a frontage of 800 feet on the harbor and runs easterly 1700 feet to the west limit of the roadway allowance. The other block runs easterly 1200 feet along the proposed ship channel and has a depth of 1200 feet. A roadway 120 feet wide separates this area from the channel.

Mr. Forman states that the properties are about a quarter of a mile south of the lot on Cherry-street which the city proposes to sell to the National Iron Co., and that they are about 1000 feet north of the lake front. The plan for the reclamation of the marsh contemplates the cutting of a channel thru from the harbor to Coatsworth's Cut, east of the marsh. The properties under consideration are on the north side of the channel, and the proposed bridge and the other fronting on the channel. The land is all swamp and would necessitate heavy expense in filling.

The city proposes to sell to the National Iron Co., and that they are about 1000 feet north of the lake front. CITY SHOULD HOLD LAND HAVING BAY FRONTAGE

Civic Officials Lay Down Principle in Report on Poison Company Offer.

That the city retain the ownership of all lands fronting on Toronto Bay, is the suggestion contained in a joint report by City Engineer Hume and Assessment Commissioner Forman on the application of the Poison Iron Works for a dry-dock site on Ashbridge's Bay.

The officials bring forward two propositions. The first is to lease the firm a block of water lots, containing 33 acres, on the harbor front in a line with Parliament-street. The second is to sell the firm 24 acres of water lots fronting on the proposed 400 foot ship channel. The matter of terms is left to council.

The property first named has a frontage of 800 feet on the harbor and runs easterly 1700 feet to the west limit of the roadway allowance. The other block runs easterly 1200 feet along the proposed ship channel and has a depth of 1200 feet. A roadway 120 feet wide separates this area from the channel.

Mr. Forman states that the properties are about a quarter of a mile south of the lot on Cherry-street which the city proposes to sell to the National Iron Co., and that they are about 1000 feet north of the lake front. The plan for the reclamation of the marsh contemplates the cutting of a channel thru from the harbor to Coatsworth's Cut, east of the marsh. The properties under consideration are on the north side of the channel, and the proposed bridge and the other fronting on the channel. The land is all swamp and would necessitate heavy expense in filling.

FLORENCE LAKE MAY BE NEW SILVER EL DorADO

Large Section of Country Staked Up—Silver Discoveries Reported.

Florence Lake is one of the latest districts to attract the attention of mining men, and for some weeks there has been a stampede into this district.

Some Notable Veins. A number of claims have been staked out by this syndicate, and they have discovered a number of notable veins.

On the Allan and Orr claims some very fine showings have been obtained, a large quantity of cobalt bloom is found throughout the district.

Band at Island Park. By kind permission of Lieut.-Col. Robertson and officers, the band of the 4th Highlanders under the direction of John Slatter will render the following program in Island Park this afternoon from 3.30 to 5.30 p.m.

Is He Double-Faced? Special to Lindsay Warder from Linden Valley—Wm. Cruess wears a double smile these days as if the proud possessor of a young heir.

FLORENCE LAKE Forty miles west of Lady Evelyn Hotel, where many discoveries of silver have been made.

FORTUNES IN THE ORE HOUSES AT GOWGANDA

Engineer and Assayist Says 400 Tons Have Been Sacked Ready For Shipment When the Roads Are Ready.

John A. Montague, mine engineer and assayer, has just returned from Gowganda, where he visited a number of mining properties at the request of some citizens of Gowganda who desire that the facts concerning the development at that camp should be made known to the public.

The statement has been made, writes Mr. Montague, "that only two tons of ore have been shipped from the mine, which is considered an infallible sign of silver. More shots to-morrow will bring further results."

By profession he was a dentist, but retired some years ago. During the term of office of Hon. Richard Harcourt, as Minister of Education, a large collection of biological specimens was purchased by the government from him and he had been retained by the department ever since, to arrange the collections in the museum. As an entomologist, Dr. Brodie was very clever.

Apes Visit in Lavender Frock. Companies are being brought to London, altho—or perhaps because—they are greatly in demand for petting.

NEWEST LAWSON FIND SHOWS RICH VALUES

Average Assay 3904 Ounces and Width 15 Feet—Seventh Vein in Mine.

COBALT, Aug. 6.—(Special.)—Here are some facts about the newest find on the Lawson: It is situated about 200 feet from the Foster boundary, between north and south lines.

It is, up to date, the seventh vein on the Lawson property that promises to be a producing vein. This afternoon I went down the 90-foot shaft at the Ophir mine with Supt. Gilchrist and saw six strong-looking veins in the Kewatin formation.

OBITUARY

Dr. William Brodie. Dr. Wm. Brodie, who has been an entomologist of the education department for the last four years, died at his home yesterday. He was in his 70th year, and had been ailing for some months.

Charles K. Unwin. By the death of Chas. K. Unwin, which occurred suddenly yesterday, one of London's oldest and best known citizens.

At Belleville, Charles W. Pole. He was a superannuated inland revenue official, and a brother-in-law of Harry Corby, ex-M.P.

COBALT OUTPUT DOUBLES FACTS THAT CRY ALOUD

H. P. Davis, New York Silver Man, Analyzes Unquestionable Government Returns.

H. P. Davis of Cobalt and New York has been studying the output statistics of the big silver camp. "Figures which show an endorsement of responsible companies and government officials, however, are convincing, and no better illustration of actual conditions can be offered than a comparison of the output and dividends for the first six months of 1909, with six of the same period of last year."

The total shipments from the Cobalt camp for 1908, amounted to 25,452 tons of ore was shipped, an increase of over 60 per cent. This increase, if maintained, would result in a total for 1909 of not less than 40,000 tons with a gross value of between fourteen and fifteen million dollars.

"In 1908, \$5,225,815 was paid in dividends by Cobalt companies. The dividends for the first six months of 1909 were approximately \$4,500,000, or considerably more than the total for 1908. The total dividends and profits paid to private owners to date amount to over sixteen companies, five of which paid about eight and a half millions, divided as follows:

Table listing dividends for various companies: Nipissing (\$2,940,000), La Rose (\$2,134,194), Kerr Lake (\$1,040,000), Coniagas (\$1,040,000), T. & H. B. (\$1,033,546). Total: \$8,228,746.

Canadian Marksmen Well Pleased With Reception in England. MONTREAL, Que., Aug. 6.—(Special.)—Sergt. Morris of the 46th Bowmanville, Sergt. Russell, Major Jones, Sergt. Blackburn, and Private Gougeon of the Bisley team, landed here this evening, and were warmly greeted by a crowd of admirers, who had gathered on the wharf before the ship came ashore.

Use For Stilts. How often, says a writer in The Strand, an invention which at first was merely a patching of wood has been adopted for utilitarian purposes. Stilts are usually associated with a boy or with the cown at the circus, but some years since a Kentish farmer conceived the idea of putting them to a useful purpose by using them as a step-ladder by which to reach the top of the hop-poles for fixing or repairing the wires which are now so extensively used by hop-growers.

Hustlers Are Admired the World Over

MEAN WHO NEVER WILL ADMIT DEFEAT, BUT WILL KEEP ON FIGHTING TO THE END, ALWAYS MAKE THEIR MARKS IN THE WORLD. A COMBINATION OF HUSTLE AND FIGHTING SPIRIT IS HARD TO KEEP DOWN.

Do you want to feel like that? Then wear my second, life-saving appliance for two months at night. It will charge every nerve with electric life, and you will feel like a two-year-old. It puts steam into your run-down body, and drives away pain and renews youth.

Dr. McLaughlin: 181 Sanford Ave., Hamilton, Ont., May 7, 1909.

Dear Sir,—I am well satisfied with your Belt, as it had a wonderful effect upon me, as is shown by the fact that at the time I bought it I was in such poor health that my recovery was almost despaired of, but the wonderful effect of your Belt was felt before I had it one week. It has given complete satisfaction, and I consider the expenditure I made is a mere trifle as compared with the wonders it has worked in my case. I hope your Belt will prove such a help to others as it has to me. I never neglect the opportunity to recommend your Belt at any and all times. Yours very truly, CHARLES RUSE.

You can have freedom from pain and again be given life, energy and the vigor of youth if you will wear

Dr. McLaughlin's Electric Belt

Do you doubt it? If so, any man or woman who will give me reasonable security can have my Belt, with all the necessary attachments suitable for their case, and they can

PAY ME WHEN CURED

The Dr. McLaughlin Electric Belt is a cure for all signs of Breakdown in Men and Women. The Vitality of the body is Electricity—the force in the Nerve Cells. My Electric Belt will give you back this power and enable you to fight on in the Battle of Life.

BISLEY MEN HOME. QUEBEC, Aug. 6.—Five members of the Canadian Bisley team arrived here this morning on board the S. S. Tunisian, bearing with them the laurels and honors which they won in competition with the marksmen of the empire. Among those who arrived this morning were Lieut.-Col. Bertram, commander of the team; Major Mercer, adjutant; Major Jones, Prince Edward Island; Lieut.-Sergeant Morris, Bowmanville; Sergeant Russell and Private Gougeon. The unattached members who arrived were: Pte. Bloodfield, Lockfield, Ont.; Sergt.-Inspector Bayles, Toronto; Lieut. Mortimer, Quebec, and Col.-Sergt. Blackburn.

Don't Forget I used to fret at things I hated. An old friend has advised me. The faults in others that I saw—I was severe on any flaw. But now the burden of my song is this: "Cheer up! It won't last long!" If sick you'll soon be well again. Or dead and buried; even then they tell us we shall go on changing. And thru new worlds continue ranging. Still, if the theory be wrong, 'Twill be set right—it won't last long. —Chicago News.

COBALTS AND MARGINS BY THE LISTED STOCKS NOW FOR A BIG ADVANCE

We have not appeared in any large advertising for some time back, but our daily cards appear in all the Toronto papers, as well as throughout the country. We "fly a flag" and stick to it, that is "COBALTS ON MARGIN."

We Recommend the Purchase of Green Meehan, Beaver, Cobalt Central, Nova Scotia and Temiskaming, and among the higher class stocks, LaRose, Crown Reserve and Nipissing. Buy Now—Don't Wait Why Buy Outright? We will carry any active stocks selling above twenty cents per share on margin. You can carry four or five times the amount of stock by doing business in this way?

Buy the Listed Cobalt Stocks and buy them now. If you do not want to give up the business, put it through your broker, but take our advice and get into the market NOW. We will have a tremendous wheat crop this year, and there will be lots of money seeking investment, which will naturally tend to shove the price of higher levels. GET IN NOW and reap the benefit. Write us, Telephone us. Telegraph us. We want your business, and are always looking for more. If you are out of town, call long distance, and ask for Main 6204 Toronto.

COBALT--6000 Pound Nugget Found on City of Cobalt Property--COBALT

Cobalt Market is Broader Some More Advances Made

Poster Continues Strong and Sells Up Ten Points La Rose and Other Issues Firmer.

World Office, Friday Evening, Aug. 6.

A much better tone was apparent on the mining exchanges to-day, and public interest was more in evidence. Trading was broader than during the last few days, while several of the issues which have been inactive of late were selected for special attention, resulting in better prices for some half dozen of the Cobalt stocks.

As during the rest of the present week, Poster constituted the bulk of trading, and continued on the upward move. The opening quotations were around 90, two points above yesterday's close, and the shares sold up 8 days later, on profit-taking coming into the market. Closing quotations were 91 1/2. The market was quiet to-day, but this was due rather to the scarcity of the stock in the market than to the lack of buying orders. The best price reached was \$140, ten points below yesterday's high figures. Little of the stock came out to-day, and the shares closed at \$127 1/2.

On the other issues Beaver, City of Cobalt, Nova Scotia, Silver Bay, Temiskaming, Silver Leaf and some others were dealt in moderately, and advanced to a greater or less extent. The buoyancy exhibited by these issues is held to be due to the general strength of the market, rather than to any specific developments on the properties. Public interest has been so concentrated on the movement in Opah that the usual active specialties have been almost entirely neglected.

In the higher priced Cobalt stocks, La Rose continued strong to-day, selling up to \$8.20, an advance of fifteen points from yesterday. Nipissing and Crown Reserve were quiet, but the usual figures. Crown Reserve was strong at \$3.92.

The Standard Stock and Mining Exchange will be closed all day Saturday.

600-Pound Nugget.

A private wire dispatch to Messrs. Wallace & Eastwood yesterday afternoon reported the find of a 600 pound nugget on the City of Cobalt property.

Amalgamated Cobalt Mines.

The annual meeting of the Cobalt Mines was held in this city on Thursday last. A large number of shareholders were present, the absent ones being generally represented by proxies, and the report submitted was very satisfactory. About 319 feet of underground work has been done during the past year and about 3700 feet of surface work, while the showings have been encouraging. Some work has also been done on the Coleman property and a lease is about to be closed for the Toronto. When actual work will be pushed on both these claims. The shareholders all express satisfaction with the report submitted and the development work completed.

The directors elected for the coming year were: Mr. W. K. Kammerer, president; Senator Keer, vice-president; Messrs. J. E. Hachford, H. B. Willis and C. A. Hume.

One shipment to July 31, 1909, from Jan. 1, are 34,837,962 pounds, or 17,418 tons. Total shipments for week ending July 31 are 1,038,300 pounds, or 519 tons. The total shipments for 1908 were 25,468 tons, valued at \$10,000,000. The total shipments for the year 1907 were 14,000 tons, valued at \$4,000,000, in 1906 the camp produced 519 tons, valued at \$2,500,000, in 1905, 118 tons valued at \$10,217.

OUTLOOK NEVER BRIGHTER FOR THE COBALT CAMP

Burned Section of the Town Being Quickly Rebuilt--Values at Depth Stimulate Development.

Mr. F. L. Cody, manager of the Cobalt Light, Power and Water Co., a subsidiary company of the Great Northern Silver Mines, was in town yesterday, and expressed a very optimistic opinion of the future of the Cobalt camp.

"The outlook was never brighter," was the expression used by Mr. Cody, in discussing the situation with The World's reporter. "The recent finds at depth have conclusively demonstrated that Cobalt is here to stay, and the discoveries in the new formations have stimulated development to an extent never before witnessed. Work is being done feverishly on almost every property, and values are becoming quite an occasional occurrence. The recent veins uncovered run into excellent values, and I would not be surprised to hear of others of like importance at any time."

"The optimistic spirit of the camp is well demonstrated by the stories related in connection with the recent fire, which so nearly wiped us out," Mr. Cody said. "Our own loss was in the neighborhood of \$3000, and we have been kept hard at work, re-installing our lines, which I am glad to say, are all in now. The leases on the burned section were given out on Wednesday, and already work has been started in ten places, and excavating, foundation-laying, etc., are in full swing. I believe that within 90 days time all the burned portion will have been rebuilt, which is quite a record for Cobalt at large."

"Many of these leases have been taken up at greatly advanced prices, and the reporter speaks favorably of the prospects of the new town."

"As to the ultimate future of all the northern silver district," Mr. Cody went on to say, "I do not believe that the value will ever peter out."

Richer veins are being uncovered every day, as witness the great discovery on the Waldman claim, and it seems as if the ore in this district will join with every one who has ever spent any time in the camp, to say that Cobalt has made good, and that it is here to stay."

LUCKY ARGENTUM.

COBALT, Aug. 5.—One of the sensations of the Cobalt camp during the week has been the big strike on the Foster property of the Argentinum Mines, Limited, discovered on the 29th inst. While prospecting on the surface towards the Lawson line, a five-inch vein of native silver assaying 4800 ounces, was uncovered for about one and a half miles. This discovery will put the Argentinum up among the high-grade shipments of the camp, and will show that it has a complete plant for the necessary equipment for mining and marketing its ore. Argentinum Mines, Limited, has a capitalization of \$1,000,000 and controls another forty-acre tract east of the Hargrave, upon which several good surface showings have been found. A shaft will be sunk on this property immediately. A big demand has sprung up for Argentinum stock on the New York curb and in Toronto since the announcement of the strike.

"Waldman Discovery is Forerunner of Others"

Opinion of H. W. Hardinge, a Prominent Mining Engineer Who Has Reported on Nearly Every Cobalt Mine of Importance.

H. W. Hardinge, M.E., 43 Exchange Place, New York, is recognized as one of the leading mining engineers in America. His services are in demand wherever there are mines. He has been reporting on Cobalt properties ever since the camp began operations.

There is not a big property in Cobalt that he has not reported on at one time or another. His opinion receives the deference of capitalists on both sides of the line. He made an inspection of Waldman's strike on Waldman's Silver Mining Company's properties and in every particular verifies the first news of this remarkable find. His report to Mr. Waldman reads:

Toronto, Aug. 5, 1909.

Mr. J. H. Waldman,
President Waldman Silver Mining Co.,
Montreal, Canada:

Dear Sir,—Complying with your instructions I have visited your mining camp located in the Township of Coleman and "Gilles Limit," District of Nipissing, Ontario, and make the following preliminary statement, subject to a more detailed report, when future development shall justify my doing so.

The western portion, comprising about one-half of your mining claim of ninety acres, more or less, is composed of the Huronian, or conglomerate, while the eastern half is of the Keewatin formation, both being identical in character with those formations in the northern portion of Coleman Township, in which formation some of the richest veins of the district are found.

MAURETANIA OF NORTHERN LAKES MAKES MIDWINTER TRIP

New Steel-Hulled Steamer "Silverland" Latest Acquisition of Halleybury Navigation Co.

With much pomp and splendor, the "Silverland," Halleybury's new boat steamed from the dock yesterday on her maiden trip. About 100 passengers, all invited guests, were aboard, and as the boat sailed down the lake at the rate of 14 miles an hour against a heavy head wind, a picture of the progressiveness of Northern Ontario's boat struck that could scarcely be forgotten.

Last summer when South Lorrain was in its infancy the boat service to the camp did not satisfy demand, the most discriminating of the camp's sporters, and as a consequence, an expedition was put under way for a new boat. In a few days a company was formed and a small boat purchased to make the run. So great was the success of this boat, that a large steel-hulled steamer was ordered built, and the "Silverland" is the result of these efforts.

On board yesterday was Mr. Doty, Engineer of Goderich, and was their first attempt in Northern Ontario. The "Silverland" is a credit to their efforts, as she is by far the best steamer in the north to-day. About 100 people were aboard her yesterday, she was in no way crowded, and should carry double that number with ease.

The boat was built by the Doty Engine Works of Goderich, and was their first attempt in Northern Ontario. The "Silverland" is a credit to their efforts, as she is by far the best steamer in the north to-day. About 100 people were aboard her yesterday, she was in no way crowded, and should carry double that number with ease.

IMPORTANT SILVER STRIKE IN OX BOW LAKE DISTRICT

HAILEYBURY, Aug. 5.—(Special.)—A strike of native silver is reported to have been made on the Mitchell property in South Lorrain, in the district known as Ox Bow Lake. The find is a very good one, but so much importance is not attached to this as to the fact that it shows an extension of the mineral area farther to the south. The Halleybury Silver and several others of the large South Lorrain properties have recently acquired holdings in this district on the sole indications that it looked good to them. Now that the Mitchell has struck silver, a likely anticipation is that the other should get it with work.

The Maple Leaf Hotel of Halleybury is changing hands and the deal will probably be put thru to-day. Con Knapp of Sault Ste. Marie is the purchaser. This is the second change within the last few weeks, but the service of the town should not suffer as a consequence. Altho Halleybury has the best hotels in the north, still a better service will be a small advantage. This could only be obtained by the building of another hotel to relieve the congestion in the present. Within the last few weeks, but the service could be maintained, and the traveling public would be well taken care of.

All over Canada to-day great strides are being made in the way of extending the Young Man's Christian Association, but as yet hardly a suggestion of this institution has ever penetrated to the north. A wonderful opportunity is now awaiting the association in Halleybury, Cobalt, and in fact any town of silver land. Men are every night being turned from the hotels and lodging houses, many of them being obliged to sleep outside or walk the streets. In other parts of Canada philanthropists are giving their money for the erection of Y.M.C.A. buildings. Can we not in some way get a small corner of that money for a Y.M.C.A. in Halleybury?

HAS A GREAT PROPERTY

J. H. Waldman, Manufacturer, in the City.

At the King Edward Hotel yesterday, J. H. Waldman, the Montreal manufacturer of ladies' cloaks and mantles, who recently made a big discovery on the Waldman mine at Cobalt, was meeting customers of his firm, and as he put it quaintly, "doing business in the old line at the old stand."

"The Waldman vein," he said, "continues to be one of the wonders of Cobalt. There is a good waterway in the north when the property is brought to the point of greatest production with modern machinery and equipment. We have large staff of men at work, and the showings are better than ever."

During the day Mr. Waldman met many old customers of his Montreal enterprise, and was cordially congratulated on the extraordinary luck of his recent purchase at the Cobalt camp.

Recent Strike on Lawson.

A wire dispatch to Messrs. Charles Head & Co. yesterday says: The new 8 to 12-inch vein found by the La Rose Company in stocks at the Hargrave says 2900 ounces of silver. The importance of this discovery is that the new vein is in a different part of the Lawson property from that portion where the other veins have been found, being near the western side line and in the conglomerate formation.

Local Market is Stronger Sao Paulo Makes Advance

Strength of La Rose the Feature of the Exchange—Bull Market Continues in New York.

Word Office. Friday Evening, Aug. 6. Transactions were pretty well distributed through the list at the Toronto Stock Exchange today, despite the fact that trading was comparatively light.

The outstanding feature of today's market was the advance in Sao Paulo, which sold up over a point to 147 3/4. Much of the buying of these shares is said to come from London, where the stock is largely held. The bonds were also fractionally advancing.

On Wall Street. Erickson Peddins & Co. (Beaty & Glasco) wired: Stocks got up a good deal of steam in the last hour, and it looked as if there was a general round up of the shorts.

Special meeting of Mo. Pac. stockholders today. Westinghouse Electric gross earnings largest for any month in two years. New tariff law will impose tax of one per cent. on net earnings of all corporations except that they shall be allowed to deduct from such net earnings an amount sufficient to pay interest on any bonds not in excess of their capital stock.

There was no reaction anywhere in the Bank or Trust Company figures at the close of last week of the gain of \$6,000,000 indicated by the known movements of money. It will be surprising if the official sub-treasury record this week showing a loss by the banks to that amount. The loss according to the treasury records of funds is reduced to \$1,800,000, a net gain in cash from the interior of \$4,100,000.—News Bureau.

NEW YORK, Aug. 6.—(A.P. dispatch.)—Dispatches to E. G. Dun Co. indicate that less conservatism marks future operations in the business world, while current trade broadens.

FARM AND LIVE STOCK MARKET

FEEDING PORK.
Attention is drawn to our article in this issue re the feeding of hogs. Statistics and experience of practical farmers will be welcomed on these pages. Let us hear from you about this important industry. Address: purchased sales to the farmer's cash account, will find that pork-raising pays well even in these strenuous times.

WHEAT SHOULD BE A DOLLAR.
In view of the short supply of wheat in the world's granaries and the needs of the world's bread for the next year, farmers should at least receive one dollar per bushel for all their wheat. A momentary depression of prices should not force farmers to sell at a loss when wheat should ever go to the farmer.

A NEW FARM JOURNAL.
The Canadian Farm is the title of a new farm journal that is being published in Toronto and is edited by J. H. S. Johnston, late assistant editor of the Farmers' Gazette of Chicago. The first two issues are creditable indeed and in its sphere this new publication will do much good.

ALSIKE YIELDS AND PRICES.
Reports say that the yields of Alsike clover throughout Ontario are good. Other reports from the States are of the opposite nature. Last year's prices for alsike have been high and much money has been made by Ontario farmers in certain districts. This year's prices are not yet settled, but are as high as \$1.20 per bushel has been said at outside points for the crop. As high as eight bushels per acre are reported from the vicinity of Whitby.

PREPARING WHEAT LAND.
The tendency may be general in Ontario, under the influence of high prices for farmers to sow a larger acreage of fall wheat than usual. And it is a commendable thing if more good wheat can be turned out from Ontario farms, but where the desire to produce does not properly dispose of the conditions of soil and drainage on every particular field, the results will not be gratifying. Wheat will not grow in Ontario fields poorly prepared. It will be a waste to sow where experience and judgment have repeatedly demonstrated otherwise. The land must be well prepared, well top-worked and have a favorable surface for the escape of the spring floods.

COOL STORAGE FOR CHEESE.
The Farmers' Advocate has entered upon a crusade for more and better cold storage buildings for the cooling of cheese. This is a move along right directions for the Ontario cheese industry is of such importance that stagnation in it will mean being beaten out in the world's markets. What we have will hold—only by the continuous sweat of self-improvement.

POSSIBILITIES OF INTENSIVE FARMING.
On some New England dairy farms where the rule is a cow to the acre, farmers are obliged to practice a more intensive cropping system. Farmers' Bulletin 337, U.S. Department of Agriculture, describes the methods employed by several successful dairymen in their cropping system. Farmers' Bulletin 337, U.S. Department of Agriculture, describes the methods employed by several successful dairymen in their cropping system. Farmers' Bulletin 337, U.S. Department of Agriculture, describes the methods employed by several successful dairymen in their cropping system.

PROBABLE OAT YIELD.
"August reports from over 1000 correspondents indicate that early oat thrashings in the leading states are large at twenty-five to forty bushels," said E. W. Wagner in The Live Stock World. "Illinois and Iowa have evidently raised 40 per cent. more oats than in 1908. General corn condition as reported is high, but the August spring wheat condition declines two or three points."

Bank Manager Shot by Madman.
LOGAN, Kan., Aug. 6.—Thomas Mulvan, president of the state bank was shot and killed here last night by Gus Beaumont, a farmer, who then shot and killed himself. It is believed Beaumont had been mentally unbalanced for some time. He had threatened to kill other persons.

Cheese Markets.
KEMPTVILLE, Aug. 6.—Offering of 70 colored, all sold at 11 1/2c. PERTH, Aug. 6.—There were 1700 boxes of cheese boarded here today, 100 white and 1600 colored. All sold at ruling prices being 11 1/2c for white and 11 1/4c for colored.

DAWSON'S GOLDEN CHAFF.
This is the winter wheat that has beaten out all other kinds at the agricultural college for years. It is a white wheat and has a headless head with golden or reddish chaff. It weighs 60 lbs. to the bushel and has yielded

Wheat is \$1.47 Per Bushel When Made Into Pork

Ontario Farmers are Not Logical in Selling Out of Hogs Because Grain is Dear, As There is Just as Much Money to be Made Now As Formerly.

Does it pay to feed hogs now? To most farmers the hurling of this question will bring back a decided negative. But is this answer in harmony with the facts? Is there more or less money returnable to the farm with pork and feed at the present prices than when the feed and pork were both cheaper in the market? An analysis of the situation is interesting and must be instructive to the careful farmer and feeder.

Feeding grains have been high in Ontario for the past three years and this has had its effect upon cattle and swine production. So much has this been the case that the last government reports show a decline in both hogs and cattle. This goes to show that farmers prefer selling their grains to feeding live stock. This practice is not a wise one, for tillage and live stock are the two necessary conditions to a fertile soil.

Grain Prices Compared.

1909	1908	1907
Wheat	\$1.05	\$1.00
Oats	.55	.52
Barley	.54	.50
Rye	.75	.74
Buckwheat	.70	.70
Middlings	1.40	1.40
Bran	22.50	18.00
Corn	.76	.72

The above table shows the ruling prices for the chief hog feeds for the past three years.

Live Hog Prices Compared.

Per cwt.	1909	1908	1907	1896
Live hogs	\$8.10	\$6.75	\$6.75	\$4.75
Chicago	\$8.40	\$6.75	\$6.40	\$4.45

Hog prices were \$8.40 per cwt. for Chicago and \$8.10 for Toronto. The prices are much higher to-day than they were during the past three years, and decidedly better than the dull days of 1896.

If hogs pay when grain is cheap, where is the valid argument that can be used against their profitable feeding to-day? Farmers in various parts of Ontario have been losing valuable opportunities to stock up with good pure-bred brood sows, because they feared high prices of feeding grains this fall. This means that they would not be able to market the cereals at current prices rather than feed it to their hogs. This is a judgment that should be directed elsewhere.

CHANGED HIS NAME.
For a Consideration of Seventy Cents D. S. Kidd Becomes D. S. Burn.

By paying 70 cents and signing a deed poll, David S. Kidd, who expects to erect a million dollar rescue home for fallen women, yesterday changed his name to David S. Burn. The deed was done in the office of D'Arcy Hinds, judgment clerk at Osgoode Hall. The name change was made in order to qualify for a bequest of half a million dollars from Wellington George Burn of Melbourne, Australia.

Prof. Day's Data.

Weight of pig	Average Feed per Day	Feed per 100 lbs. Live Wt.	Gain per 100 lbs. Live Wt.
15 to 50	2.23	5.90	0.76
50 to 100	2.35	6.32	0.90
100 to 150	2.49	6.75	1.10
150 to 200	2.61	7.18	1.24

Prof. Day of the O. A. C. finds that the food to gain a pound of pork is a little cheaper than these figures. This is a little doubt due to the barley, wheat and corn diet given at the O. A. C. Corn and forms the diet in the States and it takes more corn to produce meat than it does of our cereals.

A Pen of Ten Hogs.
In order to get the following will be the grain cost.

1 bushel wheat at	\$1.20
1 bushel barley at	.64
1 bushel oats at	.50
1 bushel buckwheat at	.70
A total weight of 192 lbs. costing	\$3.04

—or approximately \$1.40 per cwt. And these prices are larger than the farmer actually gets for his grain, so that we have been eminently fair in the valuation of foods.

Big Prices For Grain.
What do these figures mean? They mean that the farmer who feeds hogs at the present day prices of feed and pork gets a valuable fertilizing manure for his farm and the following prices for his grain:

Wheat, per bushel	\$1.47
Oats, per bushel	.82
Buckwheat, per bushel	.70
Barley, per bushel	.75

P. D. Armour, Jr., of Chicago, made a test in 1894 with 18 pigs about four months old. He fed them wheat, crushed and soaked 24 hours and given three times per day. The lot weighed 1975 pounds on Sept. 15, and by Sept. 29 they had consumed 1650 pounds of wheat

NOVA SCOTIA CROPS

The Entertaining Secretary of Agriculture Issues Crop Report.

M. Cumming, secretary of agriculture for Nova Scotia and principal of the Truro Agricultural College, has issued a report of the crops of that province. This report will prove a valuable aid to farm producers and dealers in all parts, and those provinces who have not yet issued such reports would do well to follow suit.

There is a short deficiency of corn, but potatoes, roots and hay are well up to the average in acreage and condition.

Live Stock and Fruit.
Altho there was abundant feed gathered into the barns last season, yet the high prices offered for beef which prevailed during the winter tempted farmers to part quite freely with their cattle. The numbers, therefore, have not materially changed. Dairy cattle have increased about five per cent, and horses about three per cent. Sheep Stock of all kinds were generally well fed during the past winter, and now that the winter is over, the stock is in good condition for the most part in splendid condition.

Results From the Summary.
Farmers must do everything to minimize losses in young stock and from injudicious handling. It does not pay to starve a pig when young and hope to make it up when on the full rations for fattening. Pigs that run for a year before being marketed are a loss to any one. Pigs properly fed from birth to maturity and the best feeding methods will return a handsome profit to the farmer even in these times of high grain prices.

POTATO BUGS A GOOD CROP.
Farmers Report Extra Trouble With Them—Barley Crop Light.

The barley harvest is on. Of all the crops being harvested this year this is the lightest. Some very poor yields are reported.

CORN CROP A BUMPER.
If indications are fulfilled, the corn crop of central and southern Illinois will be one of the biggest and best on record. Much of the corn in the latter part of the season has been in the stage and weather conditions have been just right for rapid and perfect development. Farmers are expecting a yield of 60 to 75 bushels per acre and there are many fields which promise to do better.

VERY TOUGH BEEF.
A butcher in a certain town was famed for selling tough meat. One day a customer entered and asked for a large beefsteak.

British Cattle Markets.
LONDON, Aug. 6.—London cables for cattle are firm at 12c to 14 1/2c per lb. for Canadian steers, dressed weight; refrigerator beef is quoted at 10 1/2c per lb.

Some Short Buying at Chicago But Market Closes Lower

Modern Miller is Bearishly Construed by Traders—Winnipeg Futures are Weaker—Cables Lower.

World Office, Friday Evening, Aug. 6.
Liverpool wheat futures closed 1 1/2d to 1 3/4d lower; corn 1/4d to 1/2d lower.
Chicago Sept. wheat closed 3/4c lower; corn 1/2c higher; and oats 3/4c higher.
Winnipeg October wheat closed 3/4c lower; oats 1/2c higher.
Chicago car lots to-day: Wheat 38c, corn 37c, corn 35c, contract 70; and oats 18c, contract 55.
Winnipeg car lots of wheat to-day 77c against 77 1/2c last week.
Northwest car lots of wheat to-day 105c last year 117c.

Chicago Markets.
J. P. Bickell & Co., Lawlor Building, report the following fluctuations on the Chicago Board of Trade:

Wheat	Open	High	Low	Close
Sept.	98 1/2	100 1/4	97 1/4	98 1/2
Oct.	98	99 1/2	97 1/2	98
Nov.	97 1/2	99	96 1/2	97 1/2
Dec.	97	98 1/2	96 1/2	97
Jan.	96 1/2	98	96 1/2	96 1/2

ST. LAWRENCE MARKET.
Receipts of farm produce were 500 bushels of grain, 30 loads of hay and 1 load of straw.

Wheat—Two hundred bushels new sold at 82c to 85c.
Wheat—One hundred bushels sold at 84c to 86c.
Hay—Thirty loads sold at 18c for new.
Straw—One load of sheaf sold at 14c per ton.

FARM PRODUCE WHOLESALE.

Hay, car lots, per ton	\$13.00 to \$13.50
Straw, car lots, per ton	7.50 to 7.75
Potatoes, car lots, bag	0.07 to 0.08
Evaporated apples, lb.	0.12 to 0.13
Butter, separator, dairy, lb.	0.22 to 0.23
Butter, creamery, lb.	0.23 to 0.24
Butter, creamery, solids	0.23 to 0.24
Butter, creamery, 1 lb. tin	0.23 to 0.24
Eggs, case lots, dozen	0.23 to 0.24

GRAIN AND PRODUCE.
Grain dealers' quotations are as follows:

Oats—No. 2, white, 5c; No. 3, 4c, track, Toronto; Canadian western oats, No. 2, 4 1/2c; Toronto freights. (See oats, 4 1/2c.)
Manitoba wheat—No. 1 northern, \$1.22; No. 2, \$1.21; No. 3, \$1.20 1/2, f.o.b. lake ports.
Barley—New, 5c to 6c; old, 6c, nominal.
Manitoba flour—Quotations at Toronto are: First patents, \$2.20 to \$2.40; second patents, \$2.00 to \$2.20; third patents, \$1.80 to \$2.00; Glasgow freights.
Rye—No. 2, 7c, outside, nominal.
Corn—No. 2 yellow, 7 1/2c, track, Toronto.

NEW YORK GRAIN AND PRODUCE.
NEW YORK, Aug. 6.—Flour—Receipts, 15,700 barrels; exports, 2294 barrels; sales, 7000 barrels; market easier with a quiet local market. Oats—Patent, \$3.50 to \$3.75; Minnesota bakers, \$3.15 to \$3.50; winter patents \$3.40 to \$3.90; winter straights.

NEW YORK DAIRY MARKET.
NEW YORK, Aug. 6.—Butter—Receipts, 247; market firm to 10c higher. Steers, \$4.40 to \$4.85; bulls, \$3 to \$4.40; cows, \$1.75 to \$4.50. Exports to-morrow, 685, cattle and 4044 quarters of beef.

NEW YORK CATTLE MARKET.
NEW YORK, Aug. 6.—Cattle—Receipts, 1500; market steady. Steers, \$5.50 to \$7.00; cows, \$3.50 to \$5.00; heifers, \$3.50 to \$5.00; bulls, \$3.50 to \$5.00; calves, \$4 to \$8; stockers and feeders, \$2 to \$5.25.

NEW YORK SHEEP MARKET.
NEW YORK, Aug. 6.—Sheep—Receipts, 11,000; market 5c to 10c higher. Choice heavy, \$8.50 to \$9.25; butchers, \$6.50 to \$8.25; light, medium, \$7.00 to \$7.75; choice light, \$8 to \$11; packing, \$7 to \$10; pigs, \$7.50 to \$7.75; bulk of sales, \$7.00 to \$7.50; market for sheep steady and for lambs, 15c to 25c higher; yearlings, \$5 to \$6.

NEW YORK HOGS MARKET.
NEW YORK, Aug. 6.—Hogs—Receipts, 247; market firm to 10c higher. Steers, \$4.40 to \$4.85; bulls, \$3 to \$4.40; cows, \$1.75 to \$4.50. Exports to-morrow, 685, cattle and 4044 quarters of beef.

Free Receipt For Weak Men
Gentlemen Will Send It Confidentially, Free and Sealed, Every Week and Unable Man Who Writes for It.

I have in my possession a prescription for nervous debility, lack of vigor, weak eyes, manhood, falling memory and lame back, brought on by excessive, unclean drains or the follies of youth, that has cured so many worn and nervous men right in their own homes—without any medicinal help or medicine—that I think every man who wishes to regain his vigor, power and virility, quickly and quietly, should have a copy. So I have determined to send a copy of the prescription, consisting of a plain, ordinary sealed envelope, to any man who will write me for it.

The prescription comes from a physician who has made from special study of men, and I am convinced it is the surest acting combination for the cure of deficient manhood and vigor-failure ever put together. It costs \$2.50 to cure himself at home quickly and quietly. Just drop me a line like this: Dr. A. E. Robinson, 222 1/2 St. Nicholas, Detroit, Mich. and I will send you a copy of this splendid receipt, in a plain, ordinary sealed envelope, free of charge.

to \$3.30; winter extras, \$4.50 to \$4.90; winter low grades, \$4.40 to \$4.80; Kansas straights, \$3.50 to \$3.90.
Rye—No. 1, 7c; No. 2, 6c; No. 3, 5c.
Corn—Receipts, 51,225 bushels; exports, 10,000 bushels; No. 2, new, 60c; No. 2, old, 50c; No. 3, new, 45c; No. 3, old, 35c; No. 4, new, 35c; No. 4, old, 25c; No. 5, new, 25c; No. 5, old, 15c; No. 6, new, 15c; No. 6, old, 5c; No. 7, new, 5c; No. 7, old, 1c; No. 8, new, 1c; No. 8, old, 1c; No. 9, new, 1c; No. 9, old, 1c; No. 10, new, 1c; No. 10, old, 1c; No. 11, new, 1c; No. 11, old, 1c; No. 12, new, 1c; No. 12, old, 1c; No. 13, new, 1c; No. 13, old, 1c; No. 14, new, 1c; No. 14, old, 1c; No. 15, new, 1c; No. 15, old, 1c; No. 16, new, 1c; No. 16, old, 1c; No. 17, new, 1c; No. 17, old, 1c; No. 18, new, 1c; No. 18, old, 1c; No. 19, new, 1c; No. 19, old, 1c; No. 20, new, 1c; No. 20, old, 1c; No. 21, new, 1c; No. 21, old, 1c; No. 22, new, 1c; No. 22, old, 1c; No. 23, new, 1c; No. 23, old, 1c; No. 24, new, 1c; No. 24, old, 1c; No. 25, new, 1c; No. 25, old, 1c; No. 26, new, 1c; No. 26, old, 1c; No. 27, new, 1c; No. 27, old, 1c; No. 28, new, 1c; No. 28, old, 1c; No. 29, new, 1c; No. 29, old, 1c; No. 30, new, 1c; No. 30, old, 1c; No. 31, new, 1c; No. 31, old, 1c; No. 32, new, 1c; No. 32, old, 1c; No. 33, new, 1c; No. 33, old, 1c; No. 34, new, 1c; No. 34, old, 1c; No. 35, new, 1c; No. 35, old, 1c; No. 36, new, 1c; No. 36, old, 1c; No. 37, new, 1c; No. 37, old, 1c; No. 38, new, 1c; No. 38, old, 1c; No. 39, new, 1c; No. 39, old, 1c; No. 40, new, 1c; No. 40, old, 1c; No. 41, new, 1c; No. 41, old, 1c; No. 42, new, 1c; No. 42, old, 1c; No. 43, new, 1c; No. 43, old, 1c; No. 44, new, 1c; No. 44, old, 1c; No. 45, new, 1c; No. 45, old, 1c; No. 46, new, 1c; No. 46, old, 1c; No. 47, new, 1c; No. 47, old, 1c; No. 48, new, 1c; No. 48, old, 1c; No. 49, new, 1c; No. 49, old, 1c; No. 50, new, 1c; No. 50, old, 1c; No. 51, new, 1c; No. 51, old, 1c; No. 52, new, 1c; No. 52, old, 1c; No. 53, new, 1c; No. 53, old, 1c; No. 54, new, 1c; No. 54, old, 1c; No. 55, new, 1c; No. 55, old, 1c; No. 56, new, 1c; No. 56, old, 1c; No. 57, new, 1c; No. 57, old, 1c; No. 58, new, 1c; No. 58, old, 1c; No. 59, new, 1c; No. 59, old, 1c; No. 60, new, 1c; No. 60, old, 1c; No. 61, new, 1c; No. 61, old, 1c; No. 62, new, 1c; No. 62, old, 1c; No. 63, new, 1c; No. 63, old, 1c; No. 64, new, 1c; No. 64, old, 1c; No. 65, new, 1c; No. 65, old, 1c; No. 66, new, 1c; No. 66, old, 1c; No. 67, new, 1c; No. 67, old, 1c; No. 68, new, 1c; No. 68, old, 1c; No. 69, new, 1c; No. 69, old, 1c; No. 70, new, 1c; No. 70, old, 1c; No. 71, new, 1c; No. 71, old, 1c; No. 72, new, 1c; No. 72, old, 1c; No. 73, new, 1c; No. 73, old, 1c; No. 74, new, 1c; No. 74, old, 1c; No. 75, new, 1c; No. 75, old, 1c; No. 76, new, 1c; No. 76, old, 1c; No. 77, new, 1c; No. 77, old, 1c; No. 78, new, 1c; No. 78, old, 1c; No. 79, new, 1c; No. 79, old, 1c; No. 80, new, 1c; No. 80, old, 1c; No. 81, new, 1c; No. 81, old, 1c; No. 82, new, 1c; No. 82, old, 1c; No. 83, new, 1c; No. 83, old, 1c; No. 84, new, 1c; No. 84, old, 1c; No. 85, new, 1c; No. 85, old, 1c; No. 86, new, 1c; No. 86, old, 1c; No. 87, new, 1c; No. 87, old, 1c; No. 88, new, 1c; No. 88, old, 1c; No. 89, new, 1c; No. 89, old, 1c; No. 90, new, 1c; No. 90, old, 1c; No. 91, new, 1c; No. 91, old, 1c; No. 92, new, 1c; No. 92, old, 1c; No. 93, new, 1c; No. 93, old, 1c; No. 94, new, 1c; No. 94, old, 1c; No. 95, new, 1c; No. 95, old, 1c; No. 96, new, 1c; No. 96, old, 1c; No. 97, new, 1c; No. 97, old, 1c; No. 98, new, 1c; No. 98, old, 1c; No. 99, new, 1c; No. 99, old, 1c; No. 100, new, 1c; No. 100, old, 1c.

Liverpool Grain and Produce.

DR. MACLAREN BURIED LATE KNOX PRINCIPAL

Impressive Service Calls Forth Tributes From Friends and Colleagues.

"They that are planted in the house of the Lord shall bring forth fruit in their old age" was wonderfully fulfilled in the life of Dr. MacLaren, said Rev. Prof. Ballantyne in an impressive address at the funeral service of the late principal emeritus of Knox College.

A large proportion of the members of the Toronto Presbytery and of the congregation of Bloor-street church attended the public service. Bishop Reeves of the Toronto Anglican diocese was also present.

Rev. Dr. Wallace, pastor, officiated. The service opened with Dr. MacLaren's favorite hymn "Fight the Good Fight."

Rev. Prof. Klipatrick, who succeeded the deceased as professor of systematic theology, read the funeral sermon.

Rev. Prof. Ballantyne, as senior professor of Knox College faculty, delivered an appreciation of the life and services of his former tutor and colleague.

Prof. Ballantyne said that length of days was a scriptural blessing for which in Dr. MacLaren's case thousands had reason to feel thankful. Before he was 21 years of age, while he was one of the first students of Knox College, over 60 years ago, he put his hand to the plow and never turned his face backward.

Rev. Dr. Wallace said that for 21 years he had as pastor found Dr. MacLaren's life to be as pure and transparent as a mountain lake.

Rev. Dr. MacKay, secretary foreign mission committee, and Rev. Dr. Fletcher, Hamilton, ex-moderator of the general assembly, took part in the service.

The pallbearers were Wm. Davidson, John Wanless, Dr. Fotheringham, G. C. Ross, Matt Riddell, J. Harvey, Rev. Dr. Semmerville and Rev. Dr. Duncan.

The relatives present included Rev. David MacLaren, W. C. MacLaren, and Rev. A. Cameron, Brockville; A. A. MacLaren, London; Rev. P. McL. Forin, Belleville; Daniel and Charles MacLaren, Ottawa.

A magnificent wreath from Bloor St. Presbyterian Church was among the floral tributes. Two Toronto Chinese Christians, and friends from Buckingham were among those who sent similar tokens.

The interment took place at Mount Pleasant Cemetery.

BRITAIN'S PLACE IN CHINA

London Post Says United States Competition is to be Feared.

LONDON, Aug. 6.—The Morning Post this morning contends that in no other part of the world is there so fruitful a field for railway development as in China. It proceeds:

"It is not very encouraging to learn that materials for the new railway in Kwantung Province were supplied by the United States, Germany and Japan. This is one of the many signs that British commercial supremacy in China is not so assured as it was some years ago.

"British manufacturers and merchants in the far east will have to face a vigorous commercial campaign directed from the United States by President Taft. The resources of the Chinese market are perhaps hardly realized yet and they will grow apace as railway development advances.

"In a few years' time China will obtain a large number of engineers from the ranks of the hundreds of students now being trained abroad and in a new technical college in the empire itself, and if only the spread of education and enlightenment brings a higher standard of official integrity, one of the main sources of the weakness and backwardness of the Chinese race will be removed."

FOR NEEDY CONSUMPTIVES.

A cheque for \$350.00 has been received by the secretary-treasurer of the National Sanitarium Association from A. C. Hardy, Brockville, Ontario, towards maintenance of patients at Muskoka Free Hospital for Consumptives.

This week Mrs. H. St. Germain of Bedford Park, North Toronto, called at the head office of the association and handed Mr. J. S. Robertson, secretary-treasurer, a cheque for \$200, bequest from the late Mr. St. Germain.

Sailors Cling to Rigging.

CAPTOWN, Aug. 6.—Five members of the crew of the British steamship Masri, which ran on the rocks Wednesday night off Slang Bay, are still on board that vessel.

Through the clouds of spray dashed up by the terrific sea breaking over the wreck, the forms of the men can be distinctly seen clinging to the rigging.

Their position is most perilous. Lifeboats are attempting to rescue them.

Dies on Violet to Daughter.

MONTREAL, Aug. 6.—George Denmark of Belleville died while on his way to visit his daughter, a nurse in the Royal Victoria Hospital. He collapsed in the street, and a student picked him up and took him to the hospital in a cab. But he died on the way, and the daughter, who was waiting to welcome him, identified the body as that of her father.

PRIVATE DISEASES

Impotency, sterility, Nervous Debility, etc. (the result of folly or excess). Gleet and Stricture treated by Galvanism (the only sure cure, and no bad after-effects).

SKIN DISEASES, whether result of Scabies or not. No mercury used in treatment of Syphilis. DISEASES OF WOMEN, treated by Profuse Heat-strengthening and all displacements of the

50 Verandah Arm Chairs, strong hardwood frames, woven seat and back, red, green or natural finish. Regular \$3.75. Monday August Sale \$2.75.

The August Demonstration of Simpson-Black Silks

BLACK, one would naturally be excused for thinking, is black. If it is anything else it is not black.

To disprove that statement get together side by side two or three samples of black silks as sold at the average store. You will notice plenty of shades of green and blue and grey, but the pure unmistakably black black will not appear.

Now just compare a piece of Simpson's guaranteed black. There you will see black that is black—and a black that will stay black, too.

Just come to the Silk Department Monday and let us show you. We offer on Monday exceptional values, superior qualities, at 25 to 35% less than the regular price asked for these high class black silks.

Rich Black Mousseline Duchesse Dress Silk, manufactured by C. J. Bonnet et Cie, Lyons, France. This superb dress quality is pure skin dyed, 38 inches wide, extra special value. August sale price \$14.44 yard.

Rich Black Chiffon Taffeta Dress Silk, guaranteed C. J. Bonnet's make. 1 yard wide, unmatched value. August sale price \$11.15 yard.

Rich Black Satin Petticoat Dress Silk, fine heavy make, handsome jet black, extraordinary value. August sale price 98c yard.

50 only Boys' Pyjama Suits, of splendid wearing Madras cloths, in blues or tans, trimmed with frogs; for boys up to 18 years. Regular \$1.50. Monday \$1.19 suit.

New Styles Coming In

We are never satisfied with success. We are always trying to improve. The Victor Shoe for men is to be a better boot this coming season than it ever was. Some of the new styles are already in. We mention two comfort specialists:—

The "Victor" Bunion Boot, made of finest vic kid leather, single Goodyear welted sole, low heel, made to fit the foot and not show that bunion, pronounced as characteristic of ordinary shoes, extra wide width, all sizes and half sizes, \$4.50.

The "Victor" Cushion Sole Boot. This five dollar boot is made over a conservative last, with a round toe; the cushion consists of a layer of specially prepared live lamb's wool, covered with moisture proof kid, which conforms to every curve of the foot; made of finest vic kid leather, with oak soles and heels; all sizes, \$5.00.

Sale of High Class Black Dress Goods and Suitings Monday 83c

Silk and Wool and All-wool San Toys, Silk Embroidered and Shadow Stripe French Voiles, Fancy Openwork Voiles, French Chiffon Panamas, and All-wool Armures, Fancy Worked, etc. All new and fashionable weaves. Some weights suitable for tailored suits; others for the smart, dressy house and street wear dresses. Every yard is our guaranteed quality. Colors are rich, full, unfading blacks. 42 to 50 inches wide. Monday, per yard, 83c.

50c BLACK FARMER'S SATIN, 38c.

54 inches wide, rich Schreiner finish, and fast, permanent color; medium and light weight; this is a beautiful quality for coat linings, drop skirts, etc. 54 inches wide. Worth 50c. Monday, per yard, 38c.
