SAYS WIDER MARKETS CANADA'S PROBLEM

J. OBED SMITH GIVES VIEWS ON IMMIGRATION Plenty Farmers, Available in Old Country, He Declares ON LEAGUE STAFF

Former European Superintendent Hopeful of New Colonization Plans

IF CANADA can find a market for two or three hundred million more bushels of wheat and increased dairy products, there is no doubt the Old Land can produce the farmers who will help grow the same, said J. Obad Smith, formerly superintendent of Canadian emigration in Europe and recently appointed as expert on the permanent commission on emigration of the League of Nations at Geneva, to a Times-Star reporter this morning.

Mr. Smith arrived in the city last evening from Nova Scotia and left today at noon for Quebec, where he will stay for England on October 16.

35 YEARS IN SERVICE.

Mr. Smith has been 35 years in the public service, retiring in 1914 after 18 years as superintendent, in London, for Canadian emigration. He said that the announcement of the new colonization arrangement between the Hudson Bay Company and the steamship companies had some significance, but the present was a preliminary to considerations which he hoped would improve emigration to Canada. He has spent three months in the Dominion and has visited every province. This morning he conferred with Premier Buxton and F. Macleure Schender, commissioner of the Saint John Board of Trade.

Mr. Smith was reticent about immigration matters as affecting Nova Scotia. He said that he had cancelled all his speaking engagements and refused further interviews as his remarks might be wrongly construed particularly in view of the coming Federal election.

"I will say this," he added, "that there is no use in being people to Canada unless they succeed and my opinion is that the question of wider markets is the one vital question in Canada at the present time."

Four Extra Steamers Likely to Result From Conveyor Extension

Bigger Business Than For Many Seasons Anticipated by Scully.

A highly optimistic note over winter port business at Saint John this year was struck by J. J. Scully, general manager of the eastern lines of the Canadian Pacific Railway, this morning following an inspection of the terminal facilities at West Saint John.

"The extension of the grain conveyor system, small as it is, we figure will bring four extra steamers to this port this winter," Mr. Scully declared, "and we look to do more business here in Saint John this winter than for many seasons past."

Mr. Scully was accompanied on his trip by J. M. Woodman, general superintendent of the New Brunswick district. The general manager plans on making an inspection of all the C. P. R. lines in the province before returning to Montreal.

Canadian Channels Urged For Dominion Commerce

BY A. M. BELDING Staff representative of The Telegraph-Journal and Evening Times-Star, who is now on an active canvass of Canadian importers and exporters in behalf of the more general use of Canadian ports.

SHERBROOKE, Oct. 8.—One cannot be impressed by the intense Canadianism of the French-Canadian business man. By none has my mission been regarded with more favor, or with such warm expressions of sympathy, than by our French-speaking fellow-citizens. This morning, accompanied by the spokesman of each was eloquent in declaring for a better understanding and wider acquaintance of Canadians with each other. They all confine their business to Canadian ports, and assured me they would hereafter be more ardent apostles of Canadian trade through Canadian channels. AL SATISFIED WITH PROGRESS BUT GERMANS

Failure of Plan Means Disaster, Declares Chamberlain

PROMISE HELD OUT If Germany Joins, Aid Will Be Given to Overcome Problems

LOCARNO, Oct. 9.—Optimism over the outcome of the security pact negotiations here is shared by all the delegates except the Germans. The feeling of the majority was notably voiced today by Foreign Secretary Chamberlain of Great Britain, who declared he was convinced the delegates would leave Locarno with real progress achieved toward assurance of peace in Europe. Failure in this respect, he added, "would mean disaster."

Mr. Chamberlain asserted that no secret engagement would be negotiated here.

PROMISE GIVEN There will be no meeting today. Prior to a re-gathering of the statesmen on Saturday, the German delegates will be able thoroughly to absorb the arguments made to them yesterday by Mr. Chamberlain and M. Briand, France's Foreign Minister.

The desirability of Germany, in her own interest and that of the peace of the world, joining the League of Nations was impressed upon Dr. Luther, the German Chancellor, and Gustav Stresemann, Foreign Minister. A promise was held out to the Germans that aid would be given their country in overcoming the obstacles to which it objects in connection with article XVI of the covenant of the league regarding the application of penalties against an aggressor.

It is admitted that Germany's request for recognition of her military and geographical position as a prerequisite to her attaining membership in the League creates an extremely delicate problem for the Allies because of the fact that the Allies cannot give acquiescence on behalf of the other members of the League in any country by connecting with the question of security now under discussion.

GO L. WILLIAMS RETURNS FROM AIRPLANE TRIP

Speaks in Glowing Terms of Discoveries Made

GARDEN OF WORLD

More Territory Covered in Six Months Than Ordinarily In Lifetime

Canadian Press. MONTREAL, Oct. 9.—Colonel J. Scott Williams, who was in charge of the Canadian air forces at Borden after the war, prior to which he was O. C. at the Gosport Flying School in England, returned to Montreal yesterday from a six months' airplane prospecting expedition for gold in British Columbia and the Yukon. K—100,000,000—Che

The expedition, probably the first of its kind, made its headquarters at Lizard, 500 miles north of Prince Rupert, from which point parties were taken into the surrounding wilderness, left with supplies in favorable looking territory and picked up a week or two later.

MOUNTAINS OF GOLD

Col. Williams speaks in glowing terms of the discoveries made, describing "mountains" of gold, silver and coal. He said that by means of a 450 horsepower flying boat, more territory had been covered in six months than could have been explored in a lifetime by any other means, giving as an example an excursion to the party had made in three hours which had it not been by the airplane, would have required 20 days. Much regret was expressed by Colonel Williams that it had been American capital that had financed the expedition, adding: "Canadian pilots will soon be following the mechanists and mechanics across the border."

LAND OF PROMISE

Archibald Little, mining engineer of Detroit, was in charge of the prospecting expeditions, said the colonel, and he was at present submitting his report to the backers of the enterprise. "That country," concluded Col. Williams, "is the garden of the gods and gives promise of an amazing future."

Quite a sensation has been created in certain social circles over the wonderful wrinkle removing effects of the simple tannic mixture which any woman can easily apply at home. The results are remarkable that one has told others, who in turn have told many more, and now the new method bids fair to supersede all the patent "wrinkle removers," massage and other things used for the purpose.

SOMETHING BEING DONE FOR FAMILY

Parents and Five Children Are Found in Harness Room of Stable.

Rev. J. V. Young, of the Mission Church, St. John Baptist, said this morning that a family discovered in a destitute state at midnight last evening by Sergeant T. Sullivan in a harness room off a stable near the corner of Pond street and City Road belonged to his church. Father Young added that the conditions under which the unfortunate family were living were being investigated today and something would be done for the relief of their pitiable situation. He said that conditions such as this family had found itself in had prompted his appeal yesterday through the press for the destitute people of the Mission Church.

SUSPICIOUS.

Even a body whose purposes are so excellent as those of the Interparliamentary Union falls under the suspicion of a numerous class of Americans who mistakenly feel that Washington's warning against entangling alliances applies to conditions in 1925.

Donald gives us Singapore, or the coalminers the up industry, or the dele increases, or a squadron loses or nearly loses a naval battle, whether the Empire is to survive, down deep they know that question is not worth asking and does not deserve an answer.

Odds and Ends

"You never know what you'll find among the odds and ends."—From "Notes by a Wayfarer."

He Couldn't Hold It.

The station master of a railroad town sat in his office making his monthly report. He glanced up and noticed that the through express was due. Suddenly the station was filled with the thundering of the express, but above the noise echoed another sound.

The First Month Passes.

Sept. 30 was the end of the first month of the strike in the anthracite fields. It has been a disconcerting one to both parties to the controversy, and thus bear the blame for any price increases which may follow.

Goldwin Smith As Jester. (Bystander in Toronto Globe.) Goldwin Smith was not commonly regarded as a jester; in fact, the ponderous articles of his lifetime in Toronto both in historical volumes and in newspapers and reviews, gave the impression of a serious mind.

Mr. Rice-Oxley has a most diverting digression on prize poems, on which he observes that most of the quotations one hears are either "faked" or taken from unsuccessful poems.

Character in Footwear. It is said that one can tell a man's character by his footwear, remarks The London Mail.

A discerning tribute to the British Empire offered editorially by the Chicago Tribune: "For the British Empire and its ways are set for eternity. Days and years are as nothing. They just keep on going and although they ask themselves occasionally when Ramsay Mac-

planation, he will probably say that his one and only respectable pair of walking shoes is being mended and in the meantime he is carrying on with an old pair. But this is false economy, for in a month or two, the only respectable pair of walking shoes will be as shabby as his old pair.

As regards cleaning, be particular as to the kind of polish or cream that you use. Preparations containing spirit rot leather. Be careful when shoes are being cleaned to brush off all dirt and spots first, otherwise they show through the polish.

Patent shoes have to be treated still more carefully, otherwise they are apt to crack and look extremely shabby. It is a good idea to rub vasoline into them occasionally. This both softens and preserves the leather as well as cleans it.

A Joke Full of Laughs.

Socialist and radical officers in charge of the administration of what may be called the "Garland foundation," are enjoying what is known as a huge joke on the United States and its present social system.

The station master rushed out to see the cause, and an astonishing sight met his eyes. The express was disappearing around a curve, while sprawling out amidst a confusion of milk cans lay a young man. His hair was dishevelled and his coat torn. Going up to a small boy who was standing by, the station master asked, "Was he trying to catch the express?" "He did catch it," replied the boy, "but it got away again."

At sunrise, swimming out to sea. I heard a clear voice calling me. From the little wood whose branches lean Over the restless water— I heard, half dreaming that I heard The voice of some enchanted bird; And glancing back among the green I saw my little daughter.

When I must break the stiller sea, What stretches everlastingly before me, Beneath the starless unknown night, The darkness round me falling, May it be given me to hear, Life calling me as crystal clear— To glance back once through falling light, And answer that sweet calling.

Professors—"What is the commonest form of eye trouble?" Student—"Egotism, sir."

Speeding 'Em On. Ragged Rogers—"Me and me friend ain't no tramps, lady; we're a couple of wealthy club men walkin' across de country on a wagon."

Letter received from a telephone company: Gentlemen: I now take the steps to inform you that I have no property at present time with the restaurant which I keep so must take cheaper rate phone.

F. Watters Gets Special Cup for
Potatoes—E. Graham's Dairy
Herd Adjudged Best.

Glorious autumn with nature's bounty
was the dominant note struck at
the annual fair of the Loch Lomond
Agricultural Society held yesterday
afternoon. A large number of city people
augmented the residents and among
prominent visitors were Secretary of
State, Hon. W. E. Foster, Dr. Murray
MacLaren, and Dr. L. M. Curran. The
judges were Dr. Lawrence A. Donovan
for the horses and cattle; O. C. Hicks,
of the Dominion Experimental Farm,
Fredericton, for the grains, vegetables,
fruit and dairy products; Mr. Jones,
expert in poultry, from the same farm,
and the women's work was judged by
Mrs. J. H. Barton, of the city, Mrs.
J. F. Mosher and Mrs. W. J. Alexander.

It was a remarkably fine display
of agricultural products, live stock
and products of household science, includ-
ing butter-making, fancy work and
preserving. Like the Saint John City
and County Fair at Moosepath last
week, it indicated the bounteous yield
of the present harvest season and
showed that farmfolk are vigorously
pursuing the pursuits belonging to
the basic enterprise of all countries
which Lloyd George designated as
"Back to the Land." There was no
speech-making by the political leaders,
but all were impressed with the unmis-
takable signs of improving conditions
evidenced by the good crops and spirit
of contentment amongst exhibitors.
Secretary Alexander Johnston and his
co-workers, Mr. Boyce, were energetic
in conducting the open air competitions
and Miss Johnston and Mrs. Crozier
assisted in the secretarial work which
involved considerable labor.

SPECIAL PRIZES.
A silver cup was won by Fred Watters
for the best collection of potatoes
and Ernest Graham won a silver cup
for the best herd of dairy cattle.

The ladies expressed their appreciation
of the generosity of the Maple
Leaf and Five Crowns flour agencies
for prizes of flour in the baking com-
petitions.

criminatory in its application. N. B.
Douglas, secretary and general man-
ager of the Dominion Board, said he
had been informed by the Finance Min-
ister that the Government was anxious
to get rid of this tax as it was par-
ticularly vexatious and as it was al-
most impossible to properly adminis-
ter it.

There was also some support of the
resolution on the ground that it cost
the Dominion a lot to collect the taxes.

COUNSELS CAUTION.
Mayor W. G. DeWolfe, of St. Ste-
phen, New Brunswick, representative
here of the Dominion Council, said that
the Association should be careful, hav-
ing once asked for his form of taxa-
tion as one based on ability to pay.
There had been a persistent refusal
out to the merchants asking their
views.

On motion it was decided to leave
this resolution in the hands of the in-
coming executive.

The slate of officers elected was as
follows: Honorary president, A. E.
Everett, of Saint John; president, C.
C. Hayward, of Moncton; first vice-
president, C. R. Wason, of Saint
John; second vice-president, C. H.
Burt, of Fredericton; third vice-pres-
ident, J. W. Scoville, of Saint John;
fourth vice-president, Robert Strain, of
Woodstock; fifth vice-president, P. R.
Dickson, of Moncton; sixth vice-pres-
ident, D. A. McBeth, of Moncton; treas-
urer, H. Mont Jones, of Saint John.

PRESIDENT SPEAKS.
Mr. Hayward, in accepting the presi-
dency, said he had been opposed to
having his name go before the meet-
ing but, during the year and after
hearing the inspiring addresses of
previous night, had acquired a consid-
erable interest in the Association. The
representation had been pretty small.
The Association had a membership of
443 and there was no reason why fifty
per cent. more should not be added
this year. They would have to "sell
the Association" to those retailers not
belonging to it.

RESOLUTIONS ADOPTED.
The following resolutions were
adopted by the meeting:
Resolved, that we express our
appreciation of the service ren-
dered us by the members of the
Mutual Fire Association, both as to
the assistance and the value to
the members of the service.

Resolved, that we intend to extend
our thanks to the Dominion
Board for the assistance they have
given our province regarding the
smuggling evil, and that we strongly
urge them to continue keeping
before the Government the fact
that this evil is still prevalent in
our province.

Resolved, that we request the in-
coming executive to appoint a com-
mittee to look into the Landlord
and Tenant Act and to take steps
to have same revised, so that
goods, on which a lien is held by
the merchant cannot be seized by
the landlord for rent, and goods
and chattels against which liens
are registered will be at least ex-
empt from distress.

Resolved, that we thank the
Saint John Branch of the Y. M. C. A.
for kindly tendered us, the visit-
ing delegates, also the manager
and directors of the Admiral
Beatty Hotel for the room for our
meetings and the Press for giving
us such publicity.

Resolved, that we thank the
provincial officers for their faith-
fulness and untiring work through
the year, ever ready to give any
possible assistance at any time.

Resolved, that we thank Mr. N.
B. Douglas, our Dominion Sec-
retary, for his attendance at our
convention and the many services
he has rendered our province.

MONTREAL FIRMS WILL INCREASE USE OF CANADIAN PORTS

Give Telegraph-Journal, Times-Star Emissary This Assurance

DEVELOPMENT SEEN AS MARITIME NEED

Sympathy Expressed by Importers With Case of Seaboard

MONTREAL, Oct. 8.—A number of Montreal business firms will give instructions that their goods must be exported and imported through Canadian ports, according to A. M. Belding, of the Saint John Telegraph-Journal and Times-Star, who is touring Canada in support of the principle under which Maritime Province people claim that Canadian trade must flow through Canadian ports, says the Montreal Star.

FINANCE AND INSURANCE DEPARTMENTS HONOR VETERAN CHIEF

The members of the two departments which made a presentation recently to Hon. W. S. Fielding, who for nineteen years guided the affairs of the Department of Finance. They are as follows: Front row, left to right—D. G. McIntyre, B. G. Roberts, W. C. Ronson, Hon. J. A. Robb, Rt. Hon. W. S. Fielding, R. W. Warwick, C. E. Campbell, F. E. Searman, R. B. Vietz. Standing, left to right—G. P. Gordon, W. Duncan, J. C. Saunders, J. G. Macfarlane, G. W. Hyndman, G. D. Finlayson, Miss M. M. B. Macpherson, S. P. McCavour, T. Lawson, J. A. Russell, E. L. Brittain, L. B. Cohoon, W. L. Blair, F. R. Crosby.

does not go to Canadian taxpayers, nor does the American longshoremen or railroadmen help to pay the deficit on the Canadian National Railways, or the Canadian Government Merchant Marine.

Mr. Belding has interviewed exporters and importers in Montreal and Ottawa and says that he has not only been able to assure the people of the Maritime Provinces that their difficulties when clearly explained call forth expressions of sympathy, but that he has also gathered information which explains why a great deal of business must, under present conditions, pass through American ports. Taking grain as an example, Mr. Belding pointed out that this product must have a wide range of ports, including American, because of the small margin upon which the grain business was carried on, and because of the merciless competition for ocean tonnage at the lowest available rates. Milling companies explained, said Mr. Belding, that where a heavy order for flour was booked under a time limit for delivery abroad, it was not always possible to secure that delivery through a Canadian port. It was not, for instance, always possible to secure a Canadian steamer service to or from ports in South America, the Mediterranean or the Far East, thus necessitating the use of an American port. Flour he pursued, was also shipped to ports in Scotland that have no direct service from Canada. There is also the fact, he said, that where brokers operate it is frequently made to their financial advantage to route traffic through American channels.

Mr. Belding was of the opinion that from information received that the ports competing against Saint John and Halifax were becoming less formidable. Both ports would, he believed have an increased number of steamship sailings during the coming winter. Canadian National Railway officials, and representatives of steamship companies have assured him, he said, that there is danger of congestion at both ports unless the civic authorities and transportation companies co-operated to make use of every available terminal facility. The new work started to provide the C. N. R. with terminals at the head of Courtenay Bay, Saint John, would not be completed either for this winter or next. In other words, Mr. Belding said, in spite of all the expenditure at Saint John and Halifax these two national ports were not yet equipped to handle the traffic seeking accommodation during the coming winter.

The Maritime Provinces, Mr. Belding said, were of the opinion that the problem of fitting up Saint John and Halifax had its national aspect. He quoted Sir William Van Horne that the spot must be enlarged to poor Canadian traffic through Canadian ports. The enlargement of Maritime Province ports, he said, was long overdue.

Mr. Belding will visit Sherbrooke before visiting Ontario centres.

Radio Movies Foreseen In 1927 By French Astronomer

PARIS, Oct. 8.—Within two years we shall be able to reproduce on a screen in our offices or drawing rooms motion pictures projected in Paris or New York, according to the Abbe Theodore Moreux, director of the observatory at Bourges and frequent contributor on scientific subjects to the Paris press.

With only the time necessary for taking a photograph, he says, we may sit at home and watch a carnival at Nice or a ball at London, and in support of his statements he says that the problem of transmission of a picture over a great distance has been theoretically solved and that only technical difficulties remain to be overcome before radio stations thousands of miles away can reproduce the pictures sent out through photographic plates by high-powered lamps.

INVENTION'S BACKGROUND.

Writing in the Petit Journal on the background and future possibilities of the long distance transmission by radio of photographs he says: "It is a fact beyond dispute that before great inventions take shape they are first of all a dream, and they are realized. Photography as we know it today was preceded by the daguerreotype, and both the X-rays and wireless telegraphy were foreseen at a much earlier date than that of their discovery. The same thing may be said of seeing at a great distance. At the present moment no one knows how to transmit to a given point the reflected image in a mirror, but, marvelous as it appears to be, this transmission no longer seems a mere fairy tale, and already we can almost see the mechanism of the new invention."

"To understand the matter a little better one must go back to the year 1817, when Berzelius managed to isolate a body belonging to the sulphur family and which was called selenium. In its normal state selenium is but a mediocre conductor of electricity, but by the application of light it became an excellent conductor. Later, Graham Bell, to whom we owe the telephone, struck by this peculiar property of selenium, founded great hopes on it for the future of science.

SEEING AT DISTANCE.

"The idea of seeing at a distance should be realizable and today the applications of selenium are numerous in the domain of scientific research, where this strange body has already served in

MEIGHEN ASSAILS CAMPAIGN CIRCULAR

Says Canadian Press Man Denies Sending Out Alleged Report.

VANCOUVER, B. C., Oct. 8.—Rt. Hon. Arthur Meighen, dealing with freight rates during his address here last night, referred to a circular which had been distributed on the streets before the meeting reading "Who's the friend of B. C.?"

"I have asked the Canadian Press representative who was with me on the trip," said Mr. Meighen, "in the Maritime Provinces if he sent that message out, and he not only denied having done so, but declared that I have never mentioned the judgment of the railway board."

RALLY SOCIAL HELD

Portland United Church Event Last Evening Proves Very Enjoyable One.

The congregational rally social of the Portland United church held last night in the Sunday school rooms was a most enjoyable event and very largely attended. Rev. H. A. Shaw; readings, Miss Laura Farnjoy and Ronald Shaw, and solo, Harold Marley. The accompanists were Miss Phyllis MacGowan, Eugene Mott and Miss Sarah Corbett. The stage was very attractively decorated with flowers. The Ladies' Aid provided refreshments and the men assisted in serving. The reception committee consisted of Mrs. S. A. Kirk, Mrs. C. W. Higgins, Miss Henderson, Mrs. Iva Calhoun, Mrs. David White, Mrs. H. A. Goodwin, F. S. Thomas and S. A. Kirk. The program committee was Mrs. R. A. Corbett and Mrs. James Ferguson.

ROTARY GOVERNORS VISIT ST. STEPHEN

Maritime and Maine Officers Guests of Lieut.-Governor and Mrs. Todd.

ST. STEPHEN, Oct. 8.—An unusual event in the world of Rotary, the simultaneous visits of Rotary governors of two districts to cities only a few miles apart, was the occasion for a gathering of about 125 Rotarians and their ladies from Eastport and Calais, Me., and St. Stephen and Milltown, N. B., tonight at the Government House here as the guests of Lieutenant-Governor and Mrs. W. F. Todd and the St. Stephen-Milltown Rotary Club.

The Rotary governors, John A. Young, of Sydney, N. S., whose territory includes the Maritime Provinces and Newfoundland, and Eaton Sargent, of Nashua, N. H., governor of the district including Maine, New Hampshire and part of Massachusetts, and their wives were the guests of honor. Governor Young was an official visitor to St. Stephen-Milltown and Governor Sargent, to Eastport and Calais.

N.Y. PALACE IS HARD TO SELL

Late Senator Clark's Residence Goes Begging at \$2,000,000

Hundred and Twenty-one Room Mansion Cost \$7,000,000 25 Years Ago.

NEW YORK, Oct. 9.—The fifth avenue home of the late Senator William A. Clark, Montana "copper king," which cost him \$7,000,000 to erect 25 years ago, is for sale at \$2,000,000, with no one eager to take it at that price. Often called the most ornate and costly dwelling ever erected in this country, in the practical eyes of the real estate buyers it is worthless. The land on which it stands at the north corner of the avenue and Seventy-seventh street is of greater value, in their opinion, than the great granite pile with its 121 rooms and 31 baths. Brokers who have the property for sale have reported to the representative of the estate that the price must be cut if an early sale is expected. Professional buyers, to whom the property has been submitted, estimate the value of "Clark's Folly," as they term it, at \$1,600,000.

INCUBUS ON LAND.

Paradoxical as it may seem, they would pay more for the land without Mr. Clark's palace than as it is today. Should the property be sold the house will be pulled down to make way for an apartment house.

BUYS QUARRY AND FACTORIES.

To prevent contractors from overcharging him, Senator Clark purchased a quarry and cut his own stone. He also took over a woodwork plant and a plaster plant in Astoria, and a bronze factory in Manhattan. He wasn't "bleeced," but it cost him hundreds of thousands of dollars to beat the contractors. The house is built on a site 77 feet

LAYMEN GO INTO WORK OF CHURCH

Next Sunday to be Featured by Addresses in Anglican Pulpits

Meetings in All Parishes to Follow During Week—Objects Told.

The laymen of the Church of England throughout the province of New Brunswick are forming themselves into a laymen's association for the purpose of helping the work of the church in a way which has not been attempted before.

Addresses will be given in each of the following churches: Trinity, St. John's (Stone) and St. Jude's at both morning and evening services; St. Paul's and St. Luke's at the morning service; St. George's, St. Mary's, St. James, the Good Shepherd, Fairville, and the Mission Church of St. John Baptist at the evening service.

MEETINGS ARRANGED

Following the addresses on Sunday, meetings of laymen will be held in each parish during the same week, at which parish laymen's associations will be formed and officers elected.

The extension of the movement throughout the diocese will be proceeded with this fall and it is expected that an organization of laymen in each parish will be effected before Christmas.

A diocesan committee was appointed at the last synod with the following representation:

- Diocesan chairman—W. S. Fisher, Saint John; diocesan secretary, R. Frith, Saint John; diocesan treasurer, F. T. Short, Saint John. Saint John deanery—C. C. Kirby, vice chairman; S. G. Olive, Lieut-Col. W. H. Harrison. Kingstons deanery—C. Coster, vice chairman; Col. B. Armstrong, Dr. G. Acheson. Shediac deanery—C. E. S. Robertson, vice chairman; E. P. Smith; G. A. Dodge. Chatham deanery—C. P. Burchill, vice chairman; G. W. Ellis, E. J. Bisson. Fredericton deanery—F. deL. Clements, vice chairman; T. S. Armstrong, W. G. Quinn. Woodstock deanery—Hon. W. P. Jones, vice chairman; Alexander Ritchie, H. F. Seelye. St. Andrews deanery—W. A. Holt, vice chairman; C. H. Maxwell, J. Flewelling.

Therefore interest in it and also to overcome the disinclination to take an active part because it is not being generally done by others.

"To set an example to the rising generation worthy of one's churchmanship."

The objects of the association are:

"To bring home to laymen their responsibility for the success of the church's work, by organized study and consideration of what the work of the church actually is, and make every member familiar with the many and various activities of the church, by study, addresses and discussions.

"To consider the problems which have to be faced, and provide the means and methods by which they can be solved.

"To distribute the burden of the church work more evenly among laymen.

"To develop the special talents and knowledge of many laymen for the use of the church.

"To bring about a sense of corporate union between all parishes by means of which advice and assistance may be interchanged.

"To break down the present apathy to the work of the church now existing among laymen, which is largely caused by lack of knowledge of the work and

Grand Jury Finds True Bill But Authorities Can't Produce Body.

HALIFAX, Oct. 8.—Duncan Gammon, of Pictou, N. S., charged with the murder of his wife, Sarah Gammon,

an English war bride, was dismissed from custody this afternoon on nolle prosequi proceedings, following the return of a true bill against him by the Grand Jury, in the Supreme Court here at 12:30 this afternoon.

The theory of the police at the time of Gammon's arrest was that the woman had been murdered somewhere between Pictou and Truro, N. S., between the afternoon of September 9 and the morning of September 10. Since Gammon's arrest all attempts to find the body of his wife have been unavailing.

HAS GOOD WORD FOR HATCHERIES HERE

Ottawa Official Visits Loch Lomond Plant and Expresses Strong Approval.

Andrew Halkett, associate zoologist of marine biology, of the Federal Department of Marine and Fisheries, was in the city yesterday on his way to Newcastle, and paid a visit to the fish hatcheries on the Loch Lomond Road.

He was enthusiastic in his praise of the work of the hatcheries and declared them to be a magnificent plant, especially rich in the variety of the fish propagated.

Mr. Halkett visits the Maritime Provinces annually to carry out research work and this season he has been conducting his observations in Richibucto, Buctouche, Cocagne, Shediac and Cape Tormentine in New Brunswick and in Borden and Charlottetown in Prince Edward Island and at Mahone Bay in Lunenburg county, Nova Scotia.

He has been doing a great deal of microscope work this season and his research has been chiefly on the spawning functions of oysters, scallops, lobsters and smelts. In the preceding season he carried on similar work in regard to the habits of the quahaug.

During his work in the Maritime Provinces this season he addressed a lobster packers' meeting in Prince Edward Island, giving the packers an insight into scientific facts concerning the lobsters.

His report on his season's work is to be submitted to the department, which he said, would be favorable concerning the scallop beds of Mahone Bay.

The fish hatcheries are outside of his own special work, but he had visited both the hatcheries near Saint John and at Newcastle.

In the Saint John fishery he specially approved the fine culture of the more mature fish under artificial culture. He thought it was remarkable that there should be speckled, rainbow, Loch Leven and brown trout and Atlantic salmon all under special culture.

After his visit to Newcastle on leaving Saint John Mr. Halkett will return to Ottawa to carry to a further stage some of the research work he is engaged upon.

Baldwin and Marine preferred each opened a point higher.

CURRENCY ISSUE TO REPLACE BANK NOTE

Midland Bank Authority For Statement—Change Due in 1926.

Canadian Press. LONDON, Oct. 9.—The Daily Express gives the Midland Bank of which Reginald McKenna, former Chancellor of the Exchequer is president, as authority for the statement that British currency notes will probably be replaced some time in 1926 by Bank of England notes of the same denomination, namely one pound and 10 shillings. The monetary system, it is pointed out, would then be true gold standards as in 1924 except that no gold would circulate, notes being used instead.

Block Maloney: "We would get out on rallies with a view to replacing lower down."

Hornblower & Weeks: "We would stand aloof except in special instances where the action of whatever stock it may be sufficiently convincing to warrant its purchase. Would buy United States Steel."

OFFERS WEEKLY SAILING HERE

Anchor-Donaldson Line Asks Allotted Berth to Prevent Delay.

Cattle and Freight Business by Additional Service for Winter Port Being Gone Into.

AN offer of a trans-Atlantic freight and cattle service from this port with weekly sailings, provided the city will allot a berth at West Saint John, was placed some time in 1925 by James Harper, assistant manager of the Anchor-Donaldson line. Mr. Harper has been in the city for several days looking over the facilities here with the idea of making this the Canadian port of steamers of his line.

Accompanied by Harold C. Schofield he called upon Commissioner Bullock yesterday and made the proposition for this additional service out of Saint John. Commissioner Bullock promised to give the plan consideration and Mr. Harper will return to Saint John again soon to receive a reply from the city.

BERTH WANTED.

Mr. Schofield said last night that the Anchor-Donaldson people contemplated having weekly sailings from this port for the handling of freight and cattle, but they must be assured of a berth so that the steamers would not be delayed in loading and unloading. The company was reaching out for business and was willing to come to Saint John if provided with a proper berth. He said the steamers which would be used were the Parthenia, Salacia, Kastalia, Concordia and the Carmia, and should business prove adequate two other steamers of the Anchor-Donaldson line, were available to put on the route.

BOTTOM OUT OF HOCKEY MARKET

So Says "Tommy" Gorman, Manager of New York Club, Discussing Situation.

OTTAWA, Oct. 9.—The bottom has fallen out of the hockey market, according to Tommy Gorman, manager of the New York Hockey club. Recent raids by professional clubs on the ranks of the amateurs have been so successful, he says, that competition for places on the various teams in the east and west will be very keen.

"We have eighteen players on the roster of the New York club," said Gorman. "Six or seven of these would be disposed of before the season gets under way. We secured eleven from the Hamilton Tigers, three from Elmiston and four from other clubs in the National Hockey League. We have two men for every position and we intend to carry only ten or eleven. The same situation remains at Montreal, with 17 players under contract. Signed four first class amateurs, in Stewart, Kitchen, Seiber and Horne, and five all of last year's material. Besides, the St. Patrick Hockey Club has landed four brilliant amateurs, all of whom are seniors and three marvelous youngsters. The team will be the one to beat for the National League championship. Lou Landurand has signed three or four very promising prospects at Montreal, and Lionel Connacher has sixteen amateurs at Pittsburgh, all ready for the coming season. Art Ross has captured two youngsters from the western states and Boston will also be strong. Percy Thompson will have no difficulty in getting a first class team for Hamilton."

C. Hubbard, president, Mrs. L. H. MacLean, vice-president, Mrs. W. J. Bate, treasurer, and Mrs. W. F. Copp, secretary. The opening which took place at 2 o'clock was short but impressive, opening with an invocation by Rev. W. J. Bate, followed by an address by Dr. P. Nicholson and the dedicatory prayer by Rev. L. H. MacLean.

Gas Stomach Hurts the Heart

Thousands of Cases of Heart Failure Are Caused by Gas Stomach, Says Medical Writer.

Gas pressure from sour, acid, upset stomach is not only nauseating and highly uncomfortable but some day it may prove fatal.

When your meals are followed by bloating, a feeling of fullness or pressure, shortness of breath and pains around the heart, you may be sure that the acid condition of your stomach is producing a GAS that is pushing upwards and crowding your heart. The reason for the shortness of breath and sharp, stabbing pains.

Whether young or old, the presence of stomach gas is truly a danger and should always be given prompt and careful attention.

To quickly banish gas cleanse and sweeten the stomach, neutralize the acidity—don't take the daily or "as needed" use of ordinary Blaustrated Magnesia. It gives almost instant relief.

Any good druggist can supply Blaustrated Magnesia in powder or tablet form at very small cost—but be sure you get BLAUSTRATED Magnesia recommended by Doctors and Druggists throughout the civilized world for more than 15 years.

Too Many Bosses Lift German Costs

BERLIN, Oct. 8.—Excessive overhead in German production is due to too highly paid government, according to German trade unionists.

The unions have published statistics showing that more bosses are on the job now than prior to the war. The number of workers in the iron industry has increased 18 per cent, while the number of directors has increased 62 per cent. Krupp, for instance, employed 30,000 workers before the war, 10 directors and 190 managers. They now employ 28,000 workers, 37 directors and 730 managers.

PREMIER TALKS ON LABOR SITUATION

Tells Melville, Sask., Voters of Accomplishments of Liberal Government.

Canadian Press Staff Correspondent. MELVILLE, Sask., Oct. 9.—Closing his campaign in Saskatchewan, Premier King last night spoke in the C. N. R. centre of Melville, the constituency in which Hon. W. R. Motherwell, Minister of Agriculture, is the Liberal candidate. Questions of labor occupied a considerable portion of his speech. He emphasized that the present government had succeeded in restoring restoration of pension rights lost by Grand Trunk strikers over a decade ago. When the previous government had failed, he said, had:

1.—Given representation to labor on the Canadian National Railway Board.

2.—Given fair trial to government ownership and fair play to the C. P. R.

MIGHT ENLARGE BOARD.

He thought the Canadian National Board might be enlarged, with representation given to railway workers on the Hudson Bay Railway. He declared that expenditure necessary for completion would be worth while, if only to let the West realize that the East was not indifferent to western needs.

A crowd laughed when Mr. King declared that the government had been ordained by providence to reform the Senate. He was in favor of putting a limit on senators, mentioning 70 or 75, but adding that this was a matter to be worked out subsequently.

MORE GRAIN GROWN IN N. B. THIS YEAR

Crop Report For September Indicates Better Conditions For Farmers.

FREDERICTON, Oct. 9.—Harvesting of grain in New Brunswick has been slow on account of unfavorable harvest weather. The haying period on the marshes ended during the closing days of the month. There is yet a considerable acreage of oats to be housed—much of which is discolored and sprouted. The grain crop on the whole is an increase over last year and a great deal of it, especially the crop of Carleton, York and Victoria counties, is of excellent quality.

POTATOES.

An increase in the total production of wheat and oats is indicated. A heavy rain, consisting in large part of red clover, followed the removal of hay. Cows have milked well since being flushed. The Saint John river meadows are pasturing beginning October first. The supply of dairy products has been above the average monthly quantity throughout the whole season. The price for cheese at 4¢ but were an advance over those of the corresponding months of last year.

KREMER AND FERGUSON ARE SLATED FOR MOUND DUTY TODAY

RAIN MAY CAUSE POSTPONEMENT CONTEST TODAY

Pitching of "Vic" Aldridge Features Yesterday's Game

RAIN WASHINGTON, Oct. 9.—A chill, drizzling rain that began falling at about 8 o'clock this morning was threatening to cause postponement today of the third world series battle.

WASHINGTON, Oct. 9.—The next act in the world series drama will be staged in Washington, home of Bucky Harris and his champion Senators.

Whether the great battle will be renewed today was doubtful this morning, however. There was a fine drizzling rain falling when the fans awoke, and it seemed doubtful whether conditions this afternoon would make a game possible, though many fans were hopeful that a sudden clearing of the weather might prevent a postponement, and hundreds of them were out at the park in the waiting line, soaked but hopeful.

Fighting hard for every advantage they have gained in an ebbing and flowing battle of pitching genius, defensive skill and batting punch, the two great teams have every incentive before them in the third game, which is slated to see Alex Ferguson, right-handed veteran, take the mound for Washington against Ray Kremer.

For the Senators it is a homecoming before the notables and the everyday fans who have watched and cheered their sensational climb to baseball glory. For Pittsburgh it is a crisis in their fight to come back to heights they have not scaled in 16 years.

DOUBT ABOUT BLEUE. Chief among these stars the Senators' followers will welcome back is Walter Johnson, whose great right arm subdued the Pirates in the first game, gaining a triumph that keeps the champions on even terms with their rivals in spite of Vic Aldridge's victory over Stanley Coveleskie yesterday in the second game, a setback that contained added disaster in the injury to Ossie Bluege, third baseman, who went out of the game after being hit in the back of the head by a pitched ball.

Bluege came back with the team, but doubt remained this morning as to whether he would be in condition to play in the lineup in the event of a game being played this afternoon. In this respect the weather man appeared early today to be backing the Senators. With Bluege's brilliant fielding and batting prowess, the Harris outfit undoubtedly is under a very severe handicap, especially since another usually reliable infield cog, Roger Peckinpaugh, has experienced an unexpected slump and has rolled up three errors in two games. Delay would be all to the good for Washington, therefore as reports were this morning that while Bluege

Track and Field Meet For Girls In City Is Arranged For October 24

Along The Sport Trail

By JOHN J. DUNLOP. WRITING in the Halifax Herald, "J. E. A." says: "Nova Scotia carrying the M. P. B. by, and if the writer of this column were president, he would keep the Saint John crowd where they belong, which Mr. Millie will no doubt do. How about Nova Scotia having an association independent of the C. A. A. U. New Brunswick and the rest?" We would like to point out that the "Saint John" crowd referred to is not alone in its protest over naming Halifax as the place for the annual Springhill winners of the Nova Scotia baseball championship this year, and Amherst A. A. A. is definitely known to be opposed to this, and probably some other Nova Scotia clubs. Not to mention the Prince Edward Island clubs. All the "Saint John crowd" have done this year is to provide a Maritime championship baseball team; a Maritime championship basketball team, and the champion all-around athlete of Canada, who won his spurs at a meet in Halifax. Not to mention Maritime championship speed-skaters. Sure, Nova Scotia carries sport along down here!

SO FAR as we can learn there is not any desire on the part of New Brunswick clubs to smash up the branch now that matters are getting strongly organized, nor does there seem to be any hullabaloo from Nova Scotia clubs to withdraw from the Canadian Amateur Athletic Union. The line of reasoning of "J. E. A." is a bit difficult to follow on this matter. If a justifiable protest made by the majority of clubs in the province is not acted on by supporters of President Millie as a pretext for withdrawing from the Canadian Amateur Athletic Union, one is inclined to question the motives underlying such a proposal. Saint John clubs and others have made their protest, but there is not a breath of a threat to bust up the union because it is not acted on. We are in the union to stay because we believe it to be the best thing that ever happened amateur sport in this section. Just one instance alone—Halifax itself has benefited to the extent of being granted the Dominion track and field championship meets within three years. The M. P. B. has its faults, but what organization has not? In union there is strength. Nova Scotia clubs must know that the "Saint John crowd" is not blaming them for the arbitrary action of one man. That's sure. Positive. Definite.

would hardly be fit for a strenuous contest this afternoon, there is every prospect that another twenty-four hours' rest would put him back into shape. "Buddy" Myer, a recruit from New Orleans, filled Bluege's post for the last part of yesterday's game and handled himself well, but his presence adds an uncertain quantity because of his inexperience.

THREE HOME RUNS. Two home runs off Coveleskie and some superb pitching by Aldridge spelled the downfall of the Senators yesterday in as close a world's series battle that has ever been waged. Glenn Wright, who pitched for Pittsburgh and with a homer after Joe Judge had put the champion in the lead with a circuit drive and Cuyler came through with the thrust that clinched the game, a drive that hopped into the right field bleachers and scored Eddie Moore ahead of him. Moore was on base through an error by Peck.

T. J. Aldridge for his part, choked off Washington after the bases had been filled with none out. In the fifth he relieved the heavy artillery—Rice, Stan Harris and Goslin—without a run being scored. In the ninth, facing the same situation, he escaped with only one tally going across, that on sacrifice by Bob Veach, pinch hitter.

Thus Washington had its big opportunity to break through but failed where the club usually has measured up to its emergency. Rice, in a similar situation the day before, for instance, had driven in the deciding run, but yesterday he was the last man out in the ninth inning rally with two runners on base.

REDDICK LOSSES

STETTNER, Alta., Oct. 9.—The Canadian light heavyweight championship changed hands here last night, going to Bob Fox of Stettler. He defeated Jack Reddick of Moose Jaw, when the latter was disqualified at the end of the sixth round for hitting low. Reddick had been warned a couple of times about hitting low before the referee called a foul and awarded the bout to Fox. Fox went to his corner apparently in agony at the end of the round and the referee left the ring after announcing that Reddick had fouled the Stettler boy. Dr. Connelly, the club physician, examined Fox in his dressing room and announced that there was an injury to the groin.

Only one try was scored and that was by Bathurst who had a decided advantage throughout the first period, and after seventeen minutes of play, Art Auble got the ball from a throw in and cross-kicked to Gammon who went over the line. During the second period St. Thomas had much the better of the territory play and forced the Red and Black to touch for safety on two occasions.

**Winter Plans For
Beatty Discussed**

Plans for the winter months and for the development of business in that season were formulated at a meeting of the Admiral Beatty Hotel Co. yesterday, which heard reports of a successful summer. It was decided to encourage Saint John people to use the hotel as much as possible for afternoon teas, dances and other social functions.

Rates for winter accommodation were discussed. F. P. Starr presided at the meeting. Geo. H. O'Neill, of Montreal, general manager for Canada of the United Hotels Corporation was present.

Mr. and Mrs. J. W. Ellsworth, of 209 Duke street, accompanied by Mr. and Mrs. Ralph B. White, have returned home from an auto trip of four weeks through Nova Scotia, including Cape Breton.

Eighty-seven years old, 73 years with one firm—and still "going strong" says The London Telegraph, and then the writer asks: Is there another workman in England who can equal this remarkable record, which yesterday took Thomas Rogers to the board-room of Messrs. Waring & Gillow, Ltd., there to receive a gold watch and the congratulations of Lord Waring, the president?

For a month Mr. Rogers has been demonstrating at Waring & Gillow's Oxford street premises what an important part the wood-turner's lathe plays in the making of the home, but now he returns to Lancaster, where, over 70 years ago, he learned his craft on the old treadle lathe that has long since vanished in the march of progress. In the board-room at Oxford street he had some interesting things to say after Lord Waring had given him the watch to commemorate his 73rd birthday—an anniversary which he is convinced would be the last of its kind if he remained much longer in London. For the sake and benefit of the great city are too much for him.

50 SHILLINGS WEEK.

Chatting with the directors after the presentation Mr. Rogers recalled how, in 1852, when he first entered the Lancaster works, an industrious man could make 50 shillings a week at piece work. But he had to work from 6 o'clock in the morning until 9 o'clock at night for six days a week to do it. In 1870 piece work was abolished, and Mr. Rogers, who then had seven children to support, earned 50 shillings a week. But he received three "rises," and in the eighties was receiving 40 shillings a week. Now he puts in a 44-hour week at about 23 14 shillings a week. But to him his craft means more than the cash. His old eyes gleam as he talks of the work that his hands fashioned; of the seven centre-pieces that adorn the ceiling of Bradford's new Town Hall; of the cunning woodwork that proclaims the British craftsman's skill—his skill—in more than one of the world's noblest palaces. And he chuckles as he tells you that he has taught his boys—aged 18—to "walk in daddy's footsteps," and that his grandson will maintain the family tradition long after the two senior generations have departed. It is a touching survival of the guild spirit that one too seldom meets in modern industry.

BEST BRITISH TYPE.

Lord Waring suggested that it was the keen interest he took in his work that mainly accounted for Mr. Rogers' excellent health and remarkable service. Mr. Rogers the firm regarded as an outstanding representative of the best type of British workman, and they appreciated his loyalty to his employers as much as they valued the fine quality of his craftsmanship.

It had been intended that the presentation should be made in the presence of the whole staff, but Mr. Rogers became so perturbed at the prospect that the ceremony was transferred to the privacy of the board room. At his close the old man said, "I'm off tomorrow by the 1.50. I could not stand another fortnight of this. It's a lively spot to come to after 73 years in Lancaster." And when he gets home he will find Lancaster almost as lively as London, for the mayor and citizens of his own town have decided that he shall not escape a public welcome.

DURING August, Chevrolet, Oldsmobile, Oakland, McLaughlin-Buick and Cadillac presented a series of cars, better in appearance, higher in quality and lower in price than ever before.

General Motors assumed responsibility for the public statement that these cars "represent the greatest values ever offered in the history of the industry."

The proof of that statement has been furnished by the public response. The factories of General Motors of Canada Limited are running at capacity. During September, 1925, General Motors of Canada Limited established a new production record; this being the largest month in General Motors' history.

We thank the public for this splendid patronage. It is justified by the car values. Immense economies are possible in an organization like General Motors, which enjoys every advantage of quantity production and sells in every market in the world. Only through such economies would it have been possible to produce quality cars at prices so low.

**Giberson's Death
Was Accidental**

PLASTER ROCK, N. B., Oct. 8.—The adjourned coroner's inquest into the death of Harry F. Giberson which occurred here in an automobile accident on Aug. 30 last was concluded today after hearing the evidence of J. Ailie Barry, one of the occupants of the wrecked car who was very seriously injured in the accident and who has so far recovered that he was able to give his evidence before the coroner and jury at his own residence today. Barry's evidence was practically a corroboration of the evidence given by Levine, the driver of the car. Following the taking of Barry's evidence the finding of the jury was that the death of Harry F. Giberson had resulted from injuries received by being thrown from an automobile driven by James Levine, the wrecking of which was primarily caused by the blowing out of one of the front tires and that the death of Giberson was purely accidental.

R. T. HAYES ONE TO BE VOTED ON

Consents to Have Name Before Liberal Convention Tonight.

E. A. Schofield States Position—Other Names That are Mentioned

The Liberal convention to be held this evening to name candidates for the riding of Saint John-Albert is the centre of political gossip about the streets today. The convention is called for 8 o'clock in the Magee building, Charlotte street, campaign headquarters of the local Liberal executive. It was announced today that Dr. L. M. Curran, chairman of the Liberal executive, will preside.

R. T. HAYES CONSENTS

It was said in Liberal circles this morning that there was a strong possibility of the name of R. T. Hayes, ex-M. L. A., going before the convention as a running mate for Hon. W. E. Foster, Secretary of State. It is understood that Mr. Hayes, who is at present on a business trip in the upper provinces, has been communicated with and asked to allow his name to go before the delegates, and that he has wired his consent. It was said today that he had a strong chance for the nomination.

E. A. SCHOFIELD SPEAKS

E. A. Schofield, whose name has been mentioned as a possible candidate, said to The Times-Star this morning that he had never been in the running as a nominee. He had, it was true, been spoken to with the possibility of his name going before the convention but the duties of his own business and the fact that he had accepted membership on the N. B. Hydro Electric Commission made it practically impossible for him to give his time to the activity.

It was also said today that Lt.-Col. Alex. McMillan, D. S. O., did not desire his name to go before the delegates tonight unless his friends strongly insisted. Other names mentioned for the nomination are Dr. Lewis of Albert, Dr. W. P. Broderick, W. E. Scully, Dr. Curran and C. F. Sanford, K. C., Saint John.

IN ROYAL

Dr. D. H. McAllister, Liberal candidate in Royal, opened his campaign last evening with a meeting at Newton, parish of Studholm. He will address a Liberal gathering at Penobscot tonight, on Monday he will be at St. John's point and on Tuesday at Chipman.

Mr. Gilliland has been known here, having been stationed about 20 years at West Saint John as agent for the company. He is very popular over the entire district, and there is general regret that he is about to give up active work.

MAIN HIGHWAY TO HAMPTON IS CLOSED

More Cars Stuck There and Detour Ordered—Demand That Contractor Speed up.

The expected has happened, and the Rothery-Hampton road, which was closed to traffic today. Work has been going on there for some time, and there have been repeated references to it and to the disagreeable conditions. Yesterday it was said, more than 20 automobiles were stuck there, and today it was announced that the road was closed and cars would have to take the detour. There is a growing demand on the part of the public that the contractor on this piece of road be forced to speed up the operations.

As Hiram Sees It

MONTREAL.—We was out to see Brother Andre's Shrine back of the mountain—an I got talkin' with two o' the French Fathers. Well, sir—the both knowed Father Duke down to Saint John—an' one of 'em was in college with him. Wherever you go you meet somebody that knows somebody that you know. Don't it beat all? Did you know George Ham wrote a book about Brother Andre? Yes, sir—he did—an' they been great friends for years. They're both kind of feeble jist now. I reckon the Good Lord sint agonts fertit either one of 'em when he lays his burden down—an' that wont be fer quite a spell yet. "I can't heal you," says Brother Andre, "I kin only give my prayers to yous." He's jist that modest about it—an' I like that spirit in a man.
