THE MILITIA AND POLITICS.

St. John has had some experience of the present government's method of running the militia as an adjunct of the political machine, notably in the recent choice of a site for the new drill shed here.

The militia there have long been pressing upon the government the need for a drill shed and had obtained promises that one would be built.

When it came to the selection of a site trouble began. The spot chosen by a representative of the government and the provincial member for that constituency was a small clay pit formerly used as a brickyard. It is bounded on one side by the corporation stables and on another by a lot of very much dilapidated buildings and the houses of a local ice company.

THE SUNKEN FLEET.

Sailors and men well-versed in deep-sea lore.

That sunken ships never reach their depths, instead.

They float and moulder, drifting evermore.

Caught in some unknown current, far from shore.

Strange fets, whose sailors are the ghostly dead.

Sad fets, of'er whom so many tears are shed.

Helmsmen, distressed, unsped by sail or oar.

Unhaild, unless there comes a moaning cry.

From broken wreck to wreck, across the dark.

Or high-prowed Roman galley, passing by.

Dejected; or a Viking giveth hail To that lost schooner of his White's sale.

—Francis Halley Newton, in July Lippincott's.

SOLDIERS SENT HOME.

No Room at Sussex Camp for all the Militia—2000 Husars Had To Leave.

SUSSEX, June 29.—Something over 2000 men slept under canvas here last night. This is almost twice as many as last year.

The muster of the 8th Hussars is particularly large. Two hundred officers and troops have been obliged to return to their homes owing to insufficiency of accommodation at the grounds.

The camp routine, with the exception of a difference in drill detail, will be similar to that of previous years, but so far as attendance is concerned the number of men here is almost double the number of last autumn.

This is due to an increase in pay and also to the fact that militia members can leave home in midsummer with greater convenience than later in the season.

Efficiency pay has just come into practice and it is estimated that every well-drilled man will have twenty cents added to his regular half-dollar a day. Instead of receiving \$8 for their twelve days' encampment they will get \$24. This increase is for the first year. The second year his pay increases to 40 cents and in the third year the limit is reached, which is \$1 per day extra.

Last season there was for the first time a tender to discontinue the ration, but now there is not a murmur. The gentlemen connected with the commissariat department are evidently leading blameless lives so far as their professional duties are concerned.

A non-commissioned officer and two men will be selected from each infantry corps to act as camp police. They will carry the water lines to prevent waste, also the railway station. The field officer for the day will be detailed by the brigade commander, and all drills will be carried out as laid down in the syllabus of work for 1904.

Any damage done to government or private property will be assessed against the unit responsible, unless it is shown that the damage was unavoidable.

The camp field day will be held on Friday.

LOCAL NEWS.

All books are requested to be returned to the Free Public Library today, Wednesday, July 14.

Thomas W. Morrison, the Simonds street greener, has purchased from Miss M. Fair a lot of land on the south side of Main street, Fairville, where he intends erecting a large grocery store and dwelling house.

The death took place at 7:30 last evening of Mrs. Mary J. Stafford, widow of the late William Stafford, at her residence, 38 Brussels street.

Mrs. Stafford leaves three sons, Bernard, George and Fred, all of St. John. She also leaves two stepsons, William J. and Walter of Bedford and one stepdaughter, Minnie, at present in Worcester.

Mrs. Wm. Flynn and Mrs. Cornelius Murphy of Bedford, Mass., are sisters. Deputy of Bedford, 54 years of age, had been ill for a week, death being attributed to pneumonia.

The congregation of St. John the Baptist church, Broad street, intend holding a garden party on the Barrack square, July 5th, for which extensive preparations are being made.

Sports of various kinds will be held, and refreshments will be served at the party. The cost to all who wish to patronize the party.

The Donaldson str. Inland, Capt. Gillies, which is now over ten days out from Glasgow, should be here Friday.

She has a big cargo. It is expected she will discharge at the new corporation pier and the Pettigill wharf. After taking in cargo for Glasgow she will proceed to Baltimore to complete it.

William O'Neill, the originator of the O'Neill Lumber Company of St. Martin's, who is now carrying on extensive lumbering operations in Halifax county, N. S., was in St. John yesterday.

Mr. O'Neill got out between four and five million feet of logs last winter, which will be cut and shipped at Beaver Harbour, near Bedford.

The Mission Church was the scene of a very pleasant reunion last night, when the members of the congregation and their friends met on the occasion of the 23rd anniversary of the church's selection from the Barrack square.

Mr. O'Neill was warmly received. A most enjoyable programme of vocal music was contributed by Mrs. H. E. B. Sutherland, Beatrice Sutherland, Harold White, Chas. Knight, Mr. Ross and little Miss Ida White.

DOMINION PARLIAMENT.

OTTAWA, June 29.—The house after routine went into committee on the minister of justice's bill to amend the railway act. The first clause of the measure gives effect to G. T. F. contracts in division of receipts over the eastern section.

This division is to be appropriated by railway commission especially in the matter of apportioning through rates as between the G. T. F. and the companies using the eastern division. An amendment was added by Hon. Mr. Fitzpatrick providing for appeal by both parties to the railway commission.

Taking time to consider suggestions by Barker, McLean and others, the minister said he would hold the bill till next Tuesday.

Fielding submitted a copy of the auditor general's letter of resignation. It was read and the house adjourned at 5 o'clock was occupied in committee supply on the postmaster general's estimate.

Mr. William Monk admitted he had doubled book postage from four to eight cents per pound, and justified it on the ground that the United States charged an equally high rate.

Fielding tabled further supplementary estimates tonight for the present fiscal year.

Among public works chargeable to income are \$25,000 for St. John quarantine station, acetylene gas plant for hospital, etc.; \$40 to complete Ormoco to wharf, \$200 to complete ferry wharf, \$700 for Campbellton ferry wharf, and \$1,200 to give an additional grant to N. S. Indians.

Mr. Fielding introduced several changes in his new tariff. The duty on foreign window glass was reduced so as to give the British article only 2 per cent preference.

The admission of artificial teeth to the free list was deferred until April 1st, 1905. Mr. Fielding is retaining the right to direct importations from British ports. In regard to duty free printing presses not made in Canada the section will apply only to rotary presses.

The most important section is that the application of the increased duty on the budget will not apply if these goods are entered before August 31st. The duty on the demands of importers of woollens ordered and sold in advance of tariff changes. Other minor amendments were made.

OTTAWA, June 29.—R. L. Borden was made the recipient of a magnificent case of silver this morning on the occasion of his 56th birthday. In addition there were two handsome silver candelabra. The presentation was made on behalf of the Nova Scotia conservatives by F. C. Simpson and Wallace McDonald.

Mrs. Borden was not forgotten from the followers of her husband in Nova Scotia. She received a magnificent diamond pendant and diamond bracelet from the conservative members of parliament.

Then came the presentation by Mr. Monk of a loving cup to Mr. Borden from the junior conservative association, Halifax.

The proceedings were characterized by the utmost enthusiasm. Geo. Taylor, conservative whip, was president, and speeches were made by F. C. Simpson, Wallace McDonald, F. D. Monk, Senator Miller and W. R. Brock, F. P. Toronto Centre, A. E. Bell, T. C. Casgrain, James Clancy, Senator McDonald.

THE KING AS A DIPLOMAT.

(Sir Gilbert Parker in Smart Set.) Let us briefly inquire into those qualities which make the King successful as a diplomat, which give him his personal equipment. It is significant that his present sovereign has made no tactical mistakes; he has both a Prince of Wales and King, turned the flank of more than one opponent, and has his intelligence and skill, won the admiration of intellectual men. He has been called shrewd, but I prefer to think of him as a man of temper and imagination, with an instinct as keen as that of a dramatist or painter, and with the impulses of the instinct rationalized by wide and high experience, and by the best knowledge—that really gained via-voce from the ablest men of the world. In such associations, in this sort of tuition, he has had the heart of the local government under authority of an act passed at the last session of the local legislature, will be constituted as follows:

John Palmer, mayor of Fredericton, chairman; Kilgour Shives, Campbellton; Charles McDonald, manager of St. John Iron Works; St. John; Michael Kelly, secretary of the Longshoremen's Union; St. John; John G. Stevens, of St. Stephen, is to act as secretary.

It is understood that the committee will commence work without delay.

THE NAME "AMERICAN"

(From the Montreal Witness.) John Hay, United States secretary of state, has given official shape to the standing insistence of his people in speaking of themselves as the Americans by ordering that the United States embassies abroad should be designated "American." Heretofore, the official designation has been "The Embassy of the United States," which is held to be inaccurate because Columbia, Brazil and Venezuela are each united States, and the addition "of America" would apply equally to all of them. Established custom and universal practice have, however, confirmed the name United States on the republic of the northern continent. Certainly the objection to the phrase in use applies with tenfold force to the one now ordered. For the government of one country on one continent to assume exclusive right to a name that embraces two continents and a whole hemisphere is an amazing piece of impudence. It is not merely incorrect, it is a glaring falsehood, for nowhere in history, or geography, or the records of international comity, is there any mention of a nation called America. The Shah of Persia gave himself the title of "King of Kings" while Great Britain and Russia were making a pret-pret board of his dominions, and just before the Japanese took possession of him and his kingdom the little king of Korea assumed the title of emperor of all the world. But the United States has no need of swelling it after that fashion. That country is big very big, everybody admits, and there is no need for lying about its size. The United States of North America, as it is correctly designated, is not America in any meaning of the term and never will be the author of "Little Breaches" and wait Whitman to the contrary notwithstanding.

MANSLAUGHTER. NEW YORK, June 28.--The inquiry conducted by Coroner Berry and a jury into the General Slocum disaster was concluded today after nearly four hours deliberation a verdict was rendered, in which the directors of the Kalkreuth Steamboat Company, many of the captain of the Slocum, the commodore of the company's fleet, and others were held criminally responsible. Warrants for their arrest were issued. The mate of the Slocum, according to the jury, acted in a cowardly manner, and the misconduct of Steamboat Inspector Lundberg, it was recommended, should be brought to the attention of the federal authorities. The charge in each case was manslaughter in the second degree. Berry was fixed by the coroner in amounts varying from \$1,000 to \$5,000. The directors of the company are: Frank R. Barnaby, president; Chas. E. Hill, vice-president; James K. Atkinson, secretary, and C. Delacy Egan, Robert Story, Floyd S. Corbin and Frank G. Dexter.

ANOTHER CLUB HOUSE. The regular bi-monthly meeting of the St. John council, No. 123, of the Royal Arcanum was held in the Foresters' Hall. Arrangements are being made to hold a social reunion of the members after the holidays are over. Another matter under discussion was the feasibility of having a Royal Arcanum building in the suburbs within easy reach of the city for the accommodation of members and their families. This building will be used as a club house, and the full privileges will be granted to every member. As yet no site has been decided upon, and the building will not likely be in running order until next season. The membership of the council has now reached its highest mark. There are enrolled 161 members. The next meeting takes place on the fourth Tuesday of this month, when the matter of the club house will be fully discussed.

JARDINE-MARCHE. A quiet wedding took place yesterday afternoon at the residence of Geo. March, 124 Elliot row, when his youngest daughter, Louise, was married to David Townsend Jardine of Boston, Mass. The bride looked charming in a gown of pale grey silk voile and wore a travelling gown of navy blue, with hat to match. The happy couple left on the 8:30 train for their future home in Medford, Mass., and a large number of friends were present at the depot to bid them God speed. The many presents received by the bride showed the esteem in which she was held by her numerous friends. Mr. and Mrs. Jardine will arrive in Medford just in time to take part in the celebration of the twentieth anniversary of the marriage of the groom's parents, Mr. and Mrs. John T. Jardine, which will take place at their residence in Medford this evening.

BASE BALL. Portland, 9; Clippers, 4. The north end team made good again last night when, after a bad start, they won from the Clippers. The attendance was very small, but nevertheless the boys worked hard, even if they did not play any too good base ball. The Clippers are credited with six errors and the Portland with two, made by Friars on a fumble of a ground ball that allowed a man to make good, and a wicked throw to third after the man was safe at first. The Clippers' errors were costly, but they gave the leaders in the league race the game was their timely hitting and base running. In the last inning McLeod stole home from third on Friars' third strike, first baseman helping the runner by a pretty lent at a bunt. More play of this kind would aid up the game. As it is there is no effort to advance a man, with none out, when on first base, but try to kill the ball. It is poor form to say the least.

MONCTON FIRE LOSSES. MONCTON, N. B., June 28.--Humphrey & Kinsey's livery stable fire loss is heavier than at first reported. The firm lost \$10,000, with \$1500 insurance, and boarders lost \$2,000, with no insurance. Thirty horses were burned, of which sixteen belonged to the firm, worth \$5,000, some being valuable animals. They also lost about twenty carriages, one of which cost \$400, and over thirty sleighs, worth over \$1,500; also a thousand bushels of oats and a lot of feed, worth \$1,000. One matched team of boarders belonging to Charles Polley, was valued at \$200, and Mr. Polley also lost carriages, sleighs, robes, etc. W. S. Bonness, the P. E. Island horseman, had four horses in the stable, all burned. The stable was among the best equipped in the province, and only erected two or three years ago. Sporting News.

BASE BALL. Portland, 9; Clippers, 4. The north end team made good again last night when, after a bad start, they won from the Clippers. The attendance was very small, but nevertheless the boys worked hard, even if they did not play any too good base ball. The Clippers are credited with six errors and the Portland with two, made by Friars on a fumble of a ground ball that allowed a man to make good, and a wicked throw to third after the man was safe at first. The Clippers' errors were costly, but they gave the leaders in the league race the game was their timely hitting and base running. In the last inning McLeod stole home from third on Friars' third strike, first baseman helping the runner by a pretty lent at a bunt. More play of this kind would aid up the game. As it is there is no effort to advance a man, with none out, when on first base, but try to kill the ball. It is poor form to say the least.

Table with columns: Clippers, Woods, McDonald, Cooper, Paris, Norris, Case, Mitchell, Daley, D. McEachran. Rows: A.B.R.H.P.O.A.E.

Mr. Neale had been ill with nervous trouble at the Public Hospital for a week or two, and the doctors thought he would be able to leave that institution for good, today. Yesterday afternoon about 2 o'clock he started for a walk, and seemed to be feeling exceptionally well. When in front of the McLaughlin Carriage Company's warehouses on Union street Mr. Neale suddenly fell to the ground and was picked up in an unconscious condition by some persons who happened to be near at the time. The ambulance was summoned and he was taken at once back to the hospital, where artificial restoratives and every available means were used to revive him, but in vain. He had died in the ambulance while on the way to the hospital. Dr. Berryman has decided that no inquest will be necessary. He leaves a wife, two sons and one daughter.

In women's shoes the turn oxford are extremely popular, and there continues a demand for the Newport and Gibson types. These slippers, of course, are for semi-dress wear. Slippers for evening dress have not been shown in such a variety of styles and in such exquisite qualities for years. Slippers with two and three-inch heels for dancing and receptions are shown in a number of novelties. For the seasons and country, flat shoes are the most popular and doubtless will be worn almost as a summer shoe by the best dressers. Heels will be lower than the high fall and the women should be thankful, although it is a notice fact that a woman who has high heels will seldom admit that they are uncomfortable. There was news a few weeks ago when more attention was paid to the footwear of children, or when the styles were more carefully thought out. Broad toe and low heels are the sensible styles that are having the greatest sales--Shoe Retailer.

A HEALTH SEEKER'S PROTEST. To the Editor of the Star: Sir,—How is it that the board of health, if that body really exists and is not merely a name, can refrain from taking action with reference to the exposure of candy for sale of the public streets in reach of all manner of contagion. It is surely bad enough at any time to allow candy which stands for days, or perhaps weeks, almost on top of a catch basin and exposed to the fumes which naturally rise from the latter and especially when the dose is doubled by the supply of dust and dirt which is distributed over the candy by the wind, to be sold and eaten. The most disgusting feature in connection with this matter is when on a warm day the catch-basins are cleared out and within a foot or two of the candy laden cart stands a steaming mass of dirt which has been taken from the basins and thrown to one who will take the trouble to visit one of these candy-catch-basins, combining the dirt with the candy when a gentle breeze wafts the steam from the mass of filth and unhealthily distributes it gratuitously over the candy—a rare and appetizing sight swells him.

HEALTH. A NIGHT'S FROLIC. W. S. Harkins selected a comedy in which to introduce his new company to the theatre-goers of this city at the York Theatre, on June 29th and July 1st and 2nd. The fun in "A Night's Frolic" is said to be fast and furious, but clean and wholesome, the lines are bright, sparkling, bubbling over with genuine humor. The people engaged to interpret this clever piece are noted as one of the most talented on the American stage. From the rise to the fall of the curtain the audience is conveyed with laughter. Bright and funny as the lines are it is necessary to have talented artists to interpret their full meaning. A recent criticism says, "At first the laughter comes like the advance guard of a thunder storm—in large spots, but well apart. The first act is crossed before the storm of merriment really breaks. After that the laughter is a deluge. There is no attempt at a real plot. It is just pure fun. If you want to laugh see "A Night's Frolic."
