## INTRODUCTION.

By the Royal Charter granted in 1802, all the privileges of a University were conferred on King's College, which thus became the first University of British origin established in the Dominion.

A Provincial Act incorporating the Governors of King's College received the royal sanction in 1853. It provides that the Royal Charter of Incorporation shall not be affected by it further than is necessary to give effect to its own enactments.

The Patron of the University is the Archbishop of Canterbury, to whose approval "all Statutes, Rules and Ordinances" of the Board of Governors are subject, but King's College is open to students of all denominations, and imposes no religious test either on entrance or on graduation in any Faculty, with the exception of Divinity.

In 1871 a Curriculum was issued for a course of Civil Engineering, and the University has subsequently granted degrees and diplomas in that science, as well as in Arts, Law and Divinity.

During the past Academical Year many improvements have been made in the Meteorological Observatory. The Philosophical Apparatus, for purposes of general instruction has also been improved and largely increased, so that the College now possesses all that may be required for illustration in the most advanced course of Physical Science.

A system of Local Examinations has been instituted for those who are not members of the University.

Candidates for matriculation may now be examined at distant centres, under special regulations, which will be found in the Calendar.

The aggregate outlay necessary for the three years' residence and study qualifying for a degree will of course depend much upon the tastes and economy of the student, but may be estimated at about \$300 to \$350 per year. The mere money payment demanded need never, however, exclude a candidate really prepared to benefit by the course of instruction offered, inasmuch as many benefactors of the University possess the right of nomination. Each nominee is exempt from the payment of yearly fees, amounting to \$180 for the three years' course, besides the fee for a B. A. degree. There being some forty certificates conferring this privilege, it is easy for students to obtain it. If a scholarship is held besides, nearly the whole cost of the education will be covered. The Calendar supplies all necessary information with regard to these nominations.

## COURSE OF STUDY.

The object aimed at is to secure a good general education for all matriculated students, while every facility is afforded for the prosecution of special studies. Accordingly every matriculated student, except under peculiar circumstances to be approved of by the College Board, is required to attend the Lectures of all the Professors until he has passed his Responsions, which is generally done in the sixth term of residence. After this he is at liberty to select three or more of the subjects lectured on to form the subjects of his B. A. Examination, If the student is desirous of taking Honours at his B. A. Examination he can do so in any one of the subjects lectured on after passing the ordinary Examinations. The precise regulations will be found under the head of Examinations.

Students who do not intend to take the degree of B. A. are permitted to attend the lectures of any of the Professors, subject to all the usual Regulations, and can, moreover, under certain conditions, proceed to Degrees in Science and Engineering.

The schemes of Responsions and B. A. Examination will afford a general idea of the usual Curriculum, which, within certain limits, is varied as circumstances require.

Numerous Scholarships, Prizes, and Honorary Distinctions (which are more fully referred to elsewhere in the Calendar), are open to be competed for by students in the several faculties, the principal of these being the following:—

<i>Scholarship or Prize.</i>	<i>Annual Value.</i>
One Cogswell Scholarship .....	£24 sterling.
Ten Divinity Scholarships .....	£30 sterling each.
One Binney Exhibition .....	£16 sterling.
One McCawley Hebrew Prize .....	£ 9 sterling.
One Bishop's Prize .....	\$20 in books.
One President's Prize .....	\$20.
One Divinity Prize .....	\$12 in books.
One Almon-Welsford Prize .....	Interest of fund.
One Akins Historical Prize .....	\$30.
Three General Williams Prizes .....	\$60 each.
(a) For Mining and Mineralogical Sciences.	
(b) For Mechanics and Civil Engineering.	
(c) For Languages of Modern (Europe).	
Three Stevenson Scholarships .....	\$80 each.
One McCawley Scholarship .....	Interest of fund.

The following resolutions, passed at a special meeting of the Board of Governors of the College, are here ordered for insertion :—

"That gentlemen representing different schools of thought in the Church be appointed to lecture on Theological subjects in King's College, the attendance on which shall form part of the regular course."

And—

"That every opportunity be given to persons to contribute to the support or establishment of any particular Chair in the University, and that such contributions be scrupulously confined to the purposes specified by the contributors."

### TERMINAL EXAMINATIONS.

Every student will be required to undergo an examination at the end of each term in all the subjects in which he has attended lectures.

Every undergraduate, previous to presenting himself for any terminal examination, will have to obtain from each Professor whose lectures he has attended during the term, a certificate of attendance and good conduct.

No Professor will grant such certificate if more than two absences without leave, during the course of the Term, are recorded against the applicant, or if his conduct shall have been in any way reprehensible.

Such certificate will then be handed in by the Undergraduate to the Vice-President previous to the beginning of the Examination, and no undergraduate shall be allowed to present himself at any terminal examination, unless he shall have complied with these regulations.

The list of candidates who shall have passed the Terminal Examination shall be published in the hall after the close of the examination. The names shall be arranged in the order of merit. Any student whose name does not appear in this list shall forfeit his examination.

## The University Library.

---

The foundation of the Library is due to the efforts of the first Bishop of Nova Scotia, and may be placed in the year 1789. Several contributions in money had previously been received, but it was not till that year that efforts were made to obtain books.

The original fund at the disposal of the Governors was not more than £250 sterling, and was intrusted to Mr. John Inglis (afterwards Bishop), son of the Bishop, and a graduate of the University, who repaired to England in 1800, for the purpose of purchasing books. The names of Dr. Moore, Archbishop of Canterbury, Dr. Porteous, Bishop of Rochester, William Wilberforce, Sir S. Bernard Morland, John Eardley-Wilmot, M.P., and others, thus became connected with the early history of the Library.

Munificent gifts from the University of Oxford continued to increase the value of the collection, which was further enriched by gifts from various English gentlemen, and from others settled in Nova Scotia.

The room in the College building set apart for many years for a Library Hall, was completed in 1810 at the expense of Sir Thomas Strange and the Archbishop of Canterbury.

Subsequently valuable works were presented by Drs. Bayard and McCulloch, and by the Society for Promoting Christian Knowledge.

Among later benefactors may be mentioned Dr. Greswell, of Worcester College, Oxford; The Smithsonian Institute; The British and Foreign Bible Society; The Dean and Chapter of Westminster; T. B. Akins, Esq., D.C.L.; The Society of Incorporated Alumni of King's College; E. Binney, Esq.; C. Cogswell, Esq., M.D.; The Dominion Government; The Secretary of the Interior, United States; The Institution

of Civil Engineers; The Society of Engineers; The Royal Society; The Rev. G. McCawley, D.D.; The Rev. Canon Hensley, D.D.; General Sir W. F. Williams, K.C.B.; the present Bishop of Nova Scotia; and Her Majesty the Queen.

This large collection of books, now numbering about 7000 volumes, contained till the year 1870 in a single room in the College building, was then removed to the new Hall specially built for the purpose and presented to the University by the Incorporated Alumni. It contains a large number of standard works of reference in Theology, which is by far the richest department in the Library, and a fair selection of the great Greek and Latin classics.

In Modern History and Belles-Lettres it is very poorly supplied.

In Science some recent standard works have from time to time been added, and, next to Theology and Classics, this is the largest department. The languages of Modern Europe are not so well represented.

In spite of many blanks, the Library is one of the largest in the Province, and contains all the elements requisite for making it a thoroughly well appointed and efficient Reference Library.

There is no special Library fund except the fee from students, and the collection can only be increased by grants of money from the Governors, the occasional lapsing of the General Williams and Welsford prize moneys, and the benefactions of friends of the University.

### NATURAL HISTORY.

#### GEOLOGY AND MINERALOGY.

The Geological Specimens, many of which are very fine, illustrate the most prominent features of general Geology, but the majority have been collected in Nova Scotia and are especially adapted to show the characters of the Fossil Flora and Fauna of the Province. There are several collections, which may be discriminated as follows:—

1. The W. B. Almon Collection, presented over forty years ago by Mrs. W. B. Almon, of Halifax, contains, with many minerals and a few shells, a considerable number of rock specimens and a few fossils, chiefly from Scotland, collected by the late W. B. Almon, M.D.

2. The Governors' Collection consists of coal fossils obtained in 1860, at the expense of the Governors of the College; these were collected by Professor How with the valuable assistance of a party headed by Richard Brown, Sr., Esq., then agent at the Sydney Mines, who from long study was familiar with the district. Many of the specimens are exceedingly fine, and some are of large size.

3. The Alumni Collection consists of Silurian and Devonian Fossils, chiefly from Arisaig, N. S., collected, named and arranged stratigraphically by Dr. Honeyman; purchased and presented in 1861 by the Alumni of King's College.

4. The Australian Collection consists of specimens obtained through Col. Nelson, in 1863, from Sir William Denison, then Governor of New South Wales, in exchange for Nova Scotian specimens from the College Cabinet, sent by Professor How. It contains some beautiful fossils, and is

arranged stratigraphically; its value is increased by an accompanying large detailed colored section made by the Government Examiner of Coal Fields under instructions from Sir W. Denison.

5. A collection of British Fossils, chiefly Silurian and Devonian, obtained through Dr. McCawley in exchange for Nova Scotian specimens sent by Professor How from the College Cabinet, in 1860, to Captain, now Sir James Anderson.

6. A collection from Europe, illustrating chiefly the nature of crystalline and sedimentary rocks, purchased by the Governors.

7. Several collections, some of which are unnamed, and single specimens, given and obtained by exchange at various times; of these it will suffice to name: Reptilian Tracks of great geological interest, presented by the widow of their discoverer, the late Dr. Harding; valuable Fossils, chiefly carboniferous, presented by H. Poole, Esq.; Silurian Fossils from Arisaig, presented by H. Hill, Esq., Sheriff of Antigonish; Coal Plants from Cumberland County, presented by Rev. Mr. Townshend, Rector of Amherst; Cretaceous Fossils from England, presented by C. B. Bowman, Esq., and Dr. Honeyman; Silurian and Carboniferous Fossils of Nova Scotia from Professor How; Devonian Corals of Ontario and Canadian Rocks from Professor Spencer.

The mineralogical specimens represent the most important species of minerals,—some of them are of great beauty. They consist of those in the Almon Collection, of Zeolites collected at the expense of the Governors, and of various others obtained by gifts and exchange, as mentioned with regard to the geological department. Sir Rupert George; Rev. Dr. Robertson, Rector of Wilmot; H. Brown, Esq., Director of the Geological Survey of Victoria, formerly a distinguished student in science at this College; Rev. Mr. Ambrose; Rev. J. C. Cochran; C. B. Bowman, Esq.; J. Bowman, Esq.; Rev. D. W. Pickett; Hon. W. Odell, and Professor How, have presented interesting specimens.

## ZOOLOGY.

The Willis Collection consists of specimens fully illustrating Nova Scotia Mollusca, named, arranged, and presented by J. R. Willis, Esq.

The department is further illustrated by a collection of foreign shells, some interesting skulls and skins, and a limited number of preserved animals.

## BOTANY.

The Cogswell Herbarium, bound in five Imperial folio volumes, contains a fine systematically arranged collection of Phænogamous and Cryptogamous Plants of Great Britain, presented by Dr. Cogswell.

The Gossip Herbarium consists of a small number of Scottish Plants, presented by Dr. Gossip.

The Willis Herbarium consists of Nova Scotia Algæ and Terrestrial Plants, presented by J. R. Willis, Esq.

The Strange Herbarium consists of a considerable number of East India Plants, presented, in 1805, by Sir T. Strange.

The Ball Herbarium of Nova Scotia, consisting of about 250 species, presented by Rev. E. H. Ball.

There are also a few woods, barks, leaves, and fruits—from various sources—presented by C. B. Bowman, Esq., Hon. W. J. Almon, M.D., and other benefactors.

## THE GENERAL COLLECTION.

The General Collection consists of various curiosities from different parts of the world, and a small but choice cabinet of coins. Other interesting curiosities are the beautiful Indian Pipe from Queen Charlotte's Island, the models of the leaning Tower and the Baptistery at Pisa, and the memorials of Gens. Williams and Inglis, which include the sword worn by the former throughout the siege of Kars, and that used by the latter during the defence of Lucknow. There is also a model of the Cawnpore Memorial Cross, formed of wood from the house in the court-yard of which the women and children were massacred.

The College possesses also a number of autographs of royal and distinguished personages; one of Thomas Moore, the poet, inscribed in a copy of Lucian, presented by him on the occasion of his visit.

The Coins illustrate the Numismatics of Rome, and most of the countries of the modern world.

The different departments of the Museum are arranged in twenty-four flat cases, supported by the balustrade surrounding the gallery, and five large table cases, all glazed and provided with lock and key. The large specimens which could not be conveniently placed in cases are arranged on shelves, or distributed in different parts of the Hall.

The friends of Science in Nova Scotia and elsewhere are respectfully requested to contribute specimens to the Museum of King's College. The steps which have been lately taken by the Governors to provide suitable cases for the arrangement and display of the contents of the Museum in the fine Hall erected at the expense of the Alumni, offer a guarantee that the liberality of donors will be carefully recognized and faithfully recorded.

It is particularly requested that donors will send their contributions of Books, Coins and Curiosities, addressed to the *Librarian*, and of Natural History specimens to the *Natural History Curator*, King's College Museum, Windsor, N. S., in order that the receipt may be duly acknowledged, and the donations acknowledged in the yearly Calendars as heretofore.

A superb collection of Loyalist China, over three hundred pieces, arranged in three cases, was presented by Judge and Mrs. Weldon, on the 97th anniversary of the landing of the Loyalists in New Brunswick.

## REPORT.

---

The Executive Committee of the Associated Alumni of King's College, Windsor, on their thirty-fifth anniversary desire to present their customary report.

In our last report your attention was called to the withdrawal of the Government grant, and the necessity for some immediate action on the part of all interested in the welfare of the College.

It was hoped at the ensuing Session a grant of a portion if not of the whole sum formerly allotted to the several Collegiate Institutions throughout the Province, might be made. Such was not, however realized, nor has the action of the friends of the University been sufficient as yet to raise the permanent endowment fund,—which is absolutely necessary to continue the Institution in an efficient state. You may be able to recommend some further action, and each member in his individual capacity resolve upon using all his influence towards so desirable an object.

The Treasurer's account for the past year is herewith submitted.

Last year your Committee were able to advise the granting of a sum in aid of present expenditure. This year we have no further amount at our command than will suffice for the usual votes towards the salary of the Professor of Modern Languages and the necessary expenses of the Association. But we hope that the Act obtained at the last Session of the Legislature, under authority of clause 10 of resolutions passed at the last annual meeting, "that the Executive Committee be directed to apply for such an alteration in the Act of Incorporation as will enable the Alumni to fix the amount of the annual subscription and of the amount of composition for life membership, and if such legislation be obtained the annual subscription be two dollars,"

*An Act to amend the Act to Incorporate the Alumni of King's College, Windsor.*

"Be it enacted by the Governor, Council and Assembly, as follows:—

"1. From and after the passing of this Act the annual subscription to be paid, and the amount of donation to be at one time made,

to entitle parties to be annual or life members of the Incorporated Alumni of King's College, Windsor, under the second section of the Act hereby amended, shall be such as may be fixed by the said Alumni at any annual general meeting held under the ninth section of the said amended Act.

"2. Said subscription and donations, to be fixed as aforesaid, not to exceed the amount mentioned in section 2 of the Act hereby amended, to entitle persons to be admitted members of said Society," as it is intended to place membership within the reach of the majority of the Church people of the Maritime Provinces who have of right a part in the College, may be productive of good results in such an increase in numbers as will not only swell the revenue, but also add to the general interest in the Institution, that being the one thing necessary to its future prosperity and usefulness.

With this in view your Committee have caused postal cards to be sent to all the Clergy in New Brunswick and Nova Scotia not at present on the roll, soliciting them to allow themselves to be proposed at this meeting as members of the Association, under the above clause.

This year your Committee with exceeding regret have to place on the obituary list the name of one of their number,—the Rev. John Abbott, Rector of the Parish of St. Luke, who died at Halifax on Monday, the 3rd October, 1881, and who as a faithful parish priest had endeared himself to the hearts of his people. At the bedside of the sick, and amongst all who had need of kindly sympathy he was ever found,—active and zealous in his Master's service.

In addition to the other business to be brought before you, you are required to elect two Governors in place of the Ven. Archdeacon Gilpin, D.D., and John C. Halliburton, Esq., whose term of office has expired. The election of a Vice-President in place of William C. Silver, Esq., and three members of the Executive Committee in place of William D. Sutherland, Esq., B.A., the late Rev. John Abbott, and Charles W. Payzant, Esq., M.A.

By order,

CHARLES H. CARMAN, *Secretary.*

Halifax, June 13th, 1882.

"That the Synod of Nova Scotia elect Two Members of its own body as Members of the Board of Governors."

## NOTICE OF MOTION.

"Whereas, It is most important at the present time that nothing should be allowed to interfere with the prosperity of the Alumni Association, and whereas, some have maintained that 'Proxy' voting has been among the causes which have operated to prevent a larger attendance at the meetings and a more general interest being taken in the Association by Clergy and Laity; be it therefore resolved: That the Executive Committee be authorized to take such action as will make legal the doing away altogether with the practice referred to."

## RESOLUTION.

"That the Secretary of the Alumni obtain from every clergyman in the Dioceses of Nova Scotia and New Brunswick a list of names of persons in his Parish or Mission who ought to be members of the Associated Alumni, and that the Secretary send a printed invitation to each person whose name is received inviting him to become a member of the Association."

*Graduate and formerly Scholar of Corpus Christi College, Cambridge,  
late Sub-Rector of Bishop's College School, Lennoxville, Quebec.*

This School is in direct connection with King's College, and is subject to the supervision of the President and Vice-President of the College, under instructions from the Board of Governors.

Pupils belonging to the Church of England will attend the Services in the College Chapel, but those of other Denominations may, if required by their parents, attend the Sunday services of the Denomination to which they belong. In the latter case certificates of proper attendance and good conduct will be required from the Minister.

While ample provision is made to prepare boys for the University and high Civil Examinations, the utmost attention is devoted to imparting such a training as may fit them for all pursuits and professions, and enable them to take that position in society which is conceded only to men of liberal education and refined habits.
