

# GEN. HAIG'S REPLY TO COALITION PLAN STILL HANGS FIRE

## HAIG'S MEN CLEAR OUT THE ENEMY

**Position Near Cherish Captured by Germans Sunday Re-Taken.**  
**TERRIFIC ARTILLERY BATTLES RAGING**  
**Extremely Violent Firing South of Ypres and at Vimy Ridge.**

The violent infantry engagements of Saturday and Sunday on various sectors of the front in France gave way on Monday to intensive artillery duels. The infantry remained inactive, except on several positions of the British line where Field Marshal Sir Douglas Haig's men carried out minor operations.

Before the lull the British had finished the task of clearing out the Germans from the single post they had held as a result of their attack of Sunday near Cherish, southeast of Arras, but the Germans were still holding the footing they had obtained late Sunday in an attack on French front line positions northwest of the Froidmont farm.

**Violent Artillery Battles.**  
To the south of Ypres, around Wytschaete and on the famous Vimy Ridge sector, between Lens and Arras, extremely violent artillery duels were in progress between the British and Germans, while the French and Germans were engaged in spirited duels with the big guns west of Brays-le-Château, and on the Craonne-Chevreaux sector.

**British Statement.**  
London, June 4.—The British have recaptured the advanced post near Cherish taken by the Germans on Saturday night's attack. The following account of military operations was given on officially today:  
"The post southwest of Cherish, mentioned in the communique yesterday morning, which remained in the enemy's hands at the conclusion of the fighting in that neighborhood was recaptured by our troops last night. Hostile raids were repulsed during the night southwest of Labasse and in the neighborhood of Neuve Chapelle. The enemy's trenches were entered by us east of Vermelles."

**Artillery Activity.**  
London, June 4.—Considerable activity was displayed by the artillery on both sides along the British front in France today in several districts, including the neighborhood of Vimy and the Ypres sector. British raiding parties and airmen also were busy in numerous successful operations. The official statement, reporting these activities reads:  
"Successful raids were carried out by us during the day north of Armentières and south of Wytschaete. In addition to other losses inflicted upon the enemy we captured 57 prisoners including one officer.  
"Our own and the enemy's artillery has shown considerable activity during the day south of Lenscourt, in the neighborhood of Vimy Ridge and in the Ypres sector.  
"In the course of bombing raids on Saturday night our airplanes obtained hits upon four enemy trains one of which was completely destroyed.  
"In air fighting six German airplanes were brought down and one other was driven down out of control. Four of our machines are missing."

**FRANK MORAN BEATEN.**  
New York, June 4.—Carl Morris of Oklahoma, outfought Frank Moran of Missouri in nine out of ten rounds last night.

## THE KILTIES HAVE REAL LARGE TIME

**There Was Something Doing Nearly All Day Yesterday and Last Evening.**  
**Special to The Standard.**  
Fredericton, June 4.—Nature smiled on the 23rd Battalion, the Kilties, today, the farewell field day of the popular and energetic unit.  
The day was formally opened at ten o'clock and the first part of the programme was the athletic events. Shortly before ten o'clock the famous Kilties' Brass Band, attired in kilts, marched down the street to the officers' square, where a large crowd had already congregated.

**Many Visitors.**  
Early this morning the visitors began to arrive in the city. By automobile and by wagon, by train and many crossed over from the other side in canoes and motor boats. The hotels did a capacity business in every instance, and it is estimated conservatively that there were at least one thousand visitors to the city. Friends and relatives of the members of the 23rd Battalion, fathers and mothers of the boys, simply pouring in to witness the last formal entertainment of the Kilties Battalion.

**Clowns for the Kiddies.**  
The officers' square attracted hundreds of children and these little ones were well entertained by Gaudet, Arsenault and Ralston, exceedingly clever acrobats. A clown in the person of Pte. D. J. Gregson, attired in a ridiculous costume paraded the streets and caused unlimited amusement.

**Boston Recruits Arrive.**  
Shortly after twelve o'clock Colonel Percy Guthrie, accompanied by Capt. Black and Capt. McNally and six of the recruits which were secured in Boston for the Kilties, arrived on the officers' square, where they were accorded a hearty greeting.

**Athletic Programme.**  
The athletic programme consisted of seven events, the 100 yards dash, won by: 1. Q.M.S. Kerrling; 2. Capt. Godfrey; 3. Pte. Atkins; the sack race, which caused a great deal of amusement, was won by Sgt. Lawney; 2nd, Piper Smith; in the running broad jump, H. Baldwin carried off the honors; putting the shot, Lieut. Watson being the winner of this event, with Lt. Corp. McKeerick 2nd; the high jump was won by Lt. Baldwin, who cleared the pole with the grace and ability of a gazelle; in the 120 yard hurdle race the order of the contestants was as follows: Sgt. Burden, Sgt. Kuhring and Sgt. Lawney; the one mile race, the runners breasting the tape in the following order: Sgt. B. Burden, 1st; Pte. Loanan, 2nd; Corp. Cromwell, 3rd. Time, 4:29 sec.

**Elbow Dislocated.**  
During the sack race a regrettable accident occurred. Private Kidman, one of the participants in the race, fell and dislocated his right elbow.

**Military Tournament.**  
This afternoon the grand military tournament was held at the Exhibition Barracks. An exhibition of trench warfare was realistically given.  
Tonight there was a grand carnival of music, dancing and games.

## ATTORNEY GENERAL STUBBORN

**Rejects Valuable Suggestions by Hon. Mr. Baxter on Compensation Bill.**  
**STRENGTH OF THE ACT IS GREATLY IMPAIRED**  
**Altogether Hon. Mr. Byrne Had Somewhat Uncomfortable Time.**

**Special to The Standard.**  
Fredericton, June 4.—Valuable suggestions made by the Hon. Mr. Baxter on the compensation act were rejected in the house this evening by Hon. Mr. Byrne who again landed himself into an absolutely absurd position with respect to the legislation he forced through the house. In fact Hon. Mr. Byrne's stubbornness in refusing to accept the practical suggestions of the former attorney-general have greatly impaired the strength of the act inasmuch as he put through amendments tonight which are directly in conflict with other sections of the existing act.

**Takes Him to Task.**  
It was little wonder that Hon. Mr. Baxter should take the Attorney-General to task for his refusal to accept suggestions emanating from the opposition benches. As Hon. Mr. Baxter mentioned, the Premier and Hon. Mr. Robinson had been pleased to accept the suggestions he had made in regard to bills which he had not offered. He had not offered one single suggestion which he had not offered honestly and with a desire to improve the measure under consideration the member for Moncton had been obliged enough not to resent as personal criticism any suggestions he had made and he appreciated that spirit, but the house could not get on if a man was small enough to consider suggestions from the opposition as reflections on his alleged incapacity.

**An Unworthy Remark.**  
So much assistance has been given from the opposition a remark made tonight regarding obstruction is not worthy of a member of the government. After proffering assistance at the opening of the session to the Premier and Hon. Mr. Byrne, Hon. Mr. Baxter has given freely of his energy, ability and experience to the consideration of measures before the house and both sides recognized and appreciated his great worth. Time and again he has been instrumental in helping the government out of serious difficulties and as he said tonight he had nothing to gain or nothing to lose from this course.

**Vice-President Quits.**  
San Francisco, June 4.—Vice-President Feng Kwok-Chow handed his resignation to President Li Yuan-Hung today, according to a cablegram received here by the Chinese World.

**CONDITIONS FOR CAPTURE OF FOX THE FUGITIVE IN CITY OF ST. JOHN.**  
1st—Lay hands on him. (Women need only to confront him.)  
2nd—Present him with copy of The Daily Standard of same date, showing him first page so he can read date line.  
3rd—Say to him: "You are Fox The Fugitive. Do you deny it?"  
N.B.—All non-residents of the city and people employed in newspaper work and their families barred from participating in capture and rewards. Fix the sole arbiter.

## UNCERTAINTY IN NEW YORK CITY

**Clubs Wielded and Arrests Made—Emma Goldman, Anarchist Leader, Present.**  
**Country Will Know in Day or Two What Liberals Decide.**  
**COALITION MAY YET BE ACCOMPLISHED**  
**Premier and Sir Wilfrid Again Confer—Pardee and Carvell Leave.**

**Special to The Standard.**  
Ottawa, June 4.—Sir Wilfrid Laurier has asked and Sir Robert Borden has granted a delay to enable the Liberal party to make up its mind on coalition. With his party torn by schism and practically dominated by the anti-victory, anti-coalition reactionists, Sir Wilfrid waited upon the Prime Minister at his office this morning and requested another day before giving his decision he had promised today. Determined to leave no stone unturned in his efforts to achieve national unity Sir Robert Borden gladly acquiesced and all that can be said tonight is that the chances for coalition have not been definitely given up as yet.

**REMARKABLE INCIDENT AT HUB CHURCH**

**IS FINALLY RESCUED BY PRIEST OF PARISH**  
**Firemen, Police and Thousands of Citizens Assemble at Edifice.**

**Woman Climbs on Roof and for Two Hours Threatens Suicide.**  
Boston, June 4.—A woman sat on the edge of St. James Roman Catholic church threatening suicide for more than two hours today while three priests parleyed with her through a skylight, a congregation at mass below prayed that she might be stayed from her purpose, police reserves attempted to reach her, and firemen spread nets to arrest what would have been a 75 foot fall had she jumped. After St. Rev. Phillip J. O'Donnell had partly crossed the roof toward the woman, he prevailed upon her to approach for counsel and eventually she was escorted back through the skylight.

**Parishioner.**  
At the Psychopathic hospital, where she was taken, the woman said she was Mrs. Celia Vennard, a parishioner of St. James church. Relatives, she said, were trying to have her committed to an insane asylum and she intended to kill herself rather than submit.

**Priest to Rescue.**  
To the priests who hurried to the roof the woman said she was going to jump. Sitting on the sloping surface her feet resting against the snow-guards she told the clergymen her grievances, while they attempted to allay her fears and have her return to safety. She opposed their advances with the threat that she would jump if they came nearer, and the police were forced to cease rescue attempts by similar threats. Firemen set up long ladders with which to reach the roof, but decided not to risk the possibility of the woman jumping to evade them.

## REVOLUTION IN CHINESE REPUBLIC

**President Li Yuan Hung Virtually Prisoner and Expected to Resign.**  
**DR. SUN YAT SEN AGAIN IN LIMELIGHT**  
**Eleven Provinces of China Decline to Recognize Pe-kin Government.**

**Peking, June 3.**—Eleven provinces of China, including the province of Chi Li, in which Peking is situated, now no longer recognize the authority of the Peking government. The provinces of Ewang Tung, Mwang Si and Yun Nan, are supporting President Li Yuan Hung. The provisional assembly of Ewang Tung, in assuring its loyal support to the president and parliament, demands that the military governors be dismissed and punished. Dr. Sun Yat Sen, former premier Tang Shao Yi and other revolutionary leaders, are proceeding hurriedly to Canton.

**Parliament Convened.**  
Parliament was convened today to consider a bill calling for a declaration of war against Germany, but there was no quorum owing to the fact that 250 members had left Peking. Attempts are being made to influence President Li Yuan Hung to resign rather than to dissolve parliament, the object being to throw the military or any disturbance upon the militarists.

**Provisional Government.**  
Shanghai, June 3.—General Chang Hsun, military governor of the province of Anhwei arrived in Tien Tsin Saturday evening and after a conference with the militarists, a provisional government was formed. Hsun Shih Chang was appointed dictator; Wang Shih Chen, the acting premier, was made premier; Tuan Chi Kwel, brother of Tuan Chi Jul, former premier was named minister of war; Thiao Jui, who is believed to be strongly pro-Japanese, was given the portfolio of foreign affairs, and Tung Hsu Lung, former minister of communications, was chosen as minister of the interior.

**N. B. Officer in Despatches.**  
Among the Canadian officers recently mentioned by General Haig, commander-in-chief in France, appears the name of Lieutenant George R. McCord of Sackville. N. B. Lieutenant McCord prior to enlisting was a law partner of A. B. Opp, M. P. He was also recommended for high award after the battle of Courcellette and Regina trench in the fighting on the Somme.

**Instead, they disposed of their life nets to catch her below.**  
The watch of the priests were broken by Rev. John J. Fitzgerald by the necessity of celebrating mass. When he appeared at the altar he called upon the congregation for prayers for the woman above, and then continued the service. Meantime, a crowd of several thousand had collected outside the church and the streets in the vicinity were roped off, to prevent a possible drop into the crowd.  
The woman had been on the roof nearly three hours when the priests brought her to safety.

# TEUTONS MAKE STRONG ATTACKS ON CANADIANS

## GERMANS DISPLACE FRENCH AND CANADIAN TROOPS

### French Yield Advanced Positions on Salient Near Froidmont—Canadians Give Up Electric Light Station Near Loos—Canadian Soldiers Abroad Want Quebec to be Under Compulsion.

Paris, June 4.—The Germans have forced their way into French advanced positions on the salient near Froidmont, according to an official statement issued by the war office this morning. The Germans attacked the salient last night.

Throughout Sunday, with every little shelter from the German positions occupied in the early morning, the westerners tenaciously held the ground under a grueling fire. When in the evening a strong German counter-attack was directed upon the electric station, it was evacuated under pressure, the Alberta men returning to their former outposts in a group of ruined miners houses seven-fifty yards to the west.

The enemy undoubtedly lost heavily in his attack but he has the distinct advantage in the shelter in the numerous fortified points on the slopes leading up to Avion and Lens in which his men gathered for the advance. The prisoners taken during the engagement numbered 112.

## FEW DROPS AND CORN LIFTS OUT COMPLAINTS OF UNIONS

### Says there is no excuse for cutting corns and inviting lockjaw.

Sore corns, hard corns, soft corns or any kind of a corn can harmlessly be lifted right out with the fingers if you will apply directly upon the corn a few drops of freezone, says a Cincinnati authority.

It is claimed that at small cost one can get a quarter of an ounce of freezone at any drug store, which is sufficient to rid one's feet of every corn or callus without pain or soreness or the danger of infection.

This simple drug, while sticky, dries the moment it is applied and does not inflame or even irritate the surrounding tissue.

This announcement will interest many women here, for it is said that the present high-heeled footwear is putting corns on practically every woman's feet.

## BIG EXPLOSION SHAKES PARIS

Paris, June 4.—All Paris was awakened about 4 o'clock this morning by a powerful detonation, followed by several small ones. A factory in Auberville, a suburb, had exploded with such force that nothing was left of the structure itself, while the roofs of nearby buildings were carried away. Other damage of consequence was done in the neighborhood, but no casualties from the explosion thus far have been reported.

## "Nature" chose Assam

Scientists tell us that Assam in northern India was the original home of the tea plant. Thousands of years ago "Nature" chose the climate and soil of this favored region as most suitable for growing tea.

It is, therefore, natural that the hillside gardens of Assam (see picture) grow the teas which to-day are famous for their flavor, fragrance and rich strength.

It is of these Assam teas, skillfully blended with choice Ceylons, that Red Rose Tea consists. It is this rich Assam strength that users of Red Rose Tea must thank for its splendid economy—for the greater number of cups it yields to the pound, fully one-third more than ordinary teas.

To make certain that these Assam qualities are fully preserved for you we put Red Rose Tea into dust, odor and air proof sealed packages. Red Rose Tea reaches you pure, fresh and full strength—we guarantee it.

## IMPORTANT LEGISLATION AT OTTAWA BENEFITS FARMERS

### Drive at Loan Sharks—Mr. Carvell of Carleton Says Some Manufacturers Are Using Marine Dye in Coloring Sugar.

Ottawa, June 4.—Important amendments to the bank act that will go far toward protecting the farmers and livestock men from the operations of "loan sharks" were laid before the House this afternoon by Sir Thomas White. Briefly stated, the amendments give to the chartered banks of the dominion authority to make loans to farmers upon horses, cattle, sheep and swine and to have a simple lien upon the livestock as security, subject always to provincial laws.

The bill which was given first reading after a discussion upon the introductory resolution had shown how fully the house agreed with its purpose, is practically a substitution for sections inserted in the bank act last year. Last session provision for loans to farmers was made in the bank act but the security required under those sections was either a bill of sale or a chattel mortgage. Little use was made of the legislation, largely, it was stated, owing to the objection of the farmers to giving such security.

The registration of liens is not provided for in the bill before the house except that under its provisions may legislate in that direction.

The opening of the sitting upon a recommendation of the agricultural committee that 25,000 copies of evidence given before the committee by J. H. Grisdale, director of experimental farms, on the work of those farms and the feeding of livestock be printed. Mr. J. A. ## OUT OF THE RUNNING AT 40 YEARS OLD

Men at 40 should be doing their best work. This is impossible unless health is good. Many a man at 40 thinks he is getting old and out of the running because his back aches, his joints are swollen and sore, or he is the victim of rheumatism.

We have records on file of men who felt just like this but who took Gin Pills and quickly regained the young spirit and energy that goes with good health.

So much depends on the kidneys, whose function is to carry away the poisons from the blood stream. If the kidneys are not working right, though a man is only 40, the poisons will make him feel old before his time. Don't delay if you have a sore back, cannot lift weights, limp with rheumatism, suffer from kidney or bladder trouble, lumbago, inflammation of the bladder, uric acid deposits, or other urinary disorder. Try Gin Pills.

Gin Pills are noted, too, for their pleasant action as a laxative. If you are troubled with constipation, here is the remedy.

Try Gin Pills. We will refund your money if you fail to get results. All good druggists and dealers sell the Pills. Sample free upon request to the National Drug and Chemical Company of Canada, Limited, Toronto.

## THE HONORABLE ATTORNEY GENERAL BECOMES PEEVED

### He, Hon. Mr. Baxter, Former Premier Murray and Others Have Animated Discussion When Workmen's Compensation Bill Discussed.

(From Official Reports.)  
Special to The Standard.

Fredericton, June 4.—The House met at 8:45 p. m.

Hon. Mr. Baxter presented the report of the committee on law practice and procedure.

Hon. Mr. Vanier introduced a bill to amend the act incorporating the Bathurst Electric and Water Power Company.

Hon. Mr. Robison presented four petitions from the city of Moncton in favor of a bill to amend the act incorporating the city to enable the council to sell certain lands to authorize the issue of debentures and to amend the law relating to collection, etc., of rates and taxes in the city.

The House went into committee with Mr. Potts in the chair and agreed to the bills to amend the act relating to the Richibucto and Reston Electric Light district, and also the act relating to the Bathurst Electric and Water Power Company, the latter with certain amendments. They also had under consideration the bill to confirm the agreement between the town of Edmundston and Fraser, Limited, and progress was reported.

## The Schools Act

The House again went into committee with Mr. Magee in the chair and took up the bill to amend the Schools Act.

Hon. Mr. Byrne explained that the bill proposed to give authority to the school boards of the city of St. John to increase the annual assessment for 1917-18 from \$150,000 to \$200,000. He said that similar legislation had been promoted by the city of Moncton. The bill was agreed to.

Hon. Mr. Baxter expressed his regret that the compensation act in force in other provinces was not in force in this province. There are boards of arbitrators to whom notice is sent as soon as the accident happens, the matter is gone into and the amount is paid over at once. Under the act in force in this province there was always delay because the employers do not have to pay but leave that to the insurance company and don't pay until they are obliged. Some provision should be put in the act for securing prompt payment to the workman or his family after the accident has happened.

Hon. Mr. Baxter expressed the view that considerable benefit would arise from the lawyers in the House get together privately and discuss the bill. If it went through as drawn it would conflict in many cases with the present act. He was anxious to see as workable a measure passed by the House as possible, and for that reason he would suggest that it be referred to the law committee to be taken into consideration.

He regretted very much that his hon. friend the attorney-general seemed to think that every suggestion he (Baxter) made reflected upon his (Baxter's) intelligence, but he would at any rate for the future hold his peace and let the mistakes go through.

The bill was then agreed to.

The bill to facilitate the work of the commission to inquire into the working of the Ontario and Nova Scotia Workmen's Compensation acts was then taken up.

## U. S. TO DRAFT MORE THAN A MILLION MEN

### Exemptions Will Probably Reduce Number to 625,000 for Immediate Service.

Washington, June 4.—Plans of the war department to draft from 900,000 to 1,500,000 men of the 10,000,000 who are in the military age, were disclosed today by Provost Marshal General Crowder to the senate military affairs committee. Exemptions, he said, probably would result in reducing the number to 625,000 for immediate service.

While the war department had originally planned to first select 500,000 men, General Crowder told the committee the plans have been revised, and it is now proposed to require 625,000. To secure this number, he said, it probably will be necessary to draft at least 900,000 and possibly 1,500,000, because of expected exemptions.

Dear Isle, June 3.—Although the sardine weirs are all repaired, the fish are not yet in this vicinity. So far this season is the poorest experienced here in many years, and the weirs, some of which are very expensive, were all down, the outlook is gloomy indeed.

# FOX THE FUGITIVE IN TOWN SHOWN THROUGH WORKS

Over \$110.00 in Rewards Combined in One Man Hunt Appears to Give Fox the Fugitive More Apprehensions as to the Consequences of His Daring to Come to St. John.

Makes Friends on His Arrival with One of Our Best Cops and is Entertained at the Ammunition Works on the Marsh Road.

Fox Gives the Readers Some Hints of the Best Way to Spot a Fugitive on Sight—Follow His Adventures Closely and You May Find Him.

## FUGITIVE NOW HIDING IN ST. JOHN

The Standard Will Pay \$50 to Man, Woman or Child who captures Fox the Fugitive, according to conditions.

This offer is made only to residents of the City of St. John, of whom nobody is barred except newspaper employes and their family connections.

The conditions published daily are simple. There is no "catch" about them whatever. It costs nobody anything, and no one is obliged to participate in this chase. Fox the Fugitive has been chased in cities and country towns very largely in Canada and the States for eleven years. He is fully endorsed as to the clean, square manner in which he treats the public. He must be the arbiter of a capture. If that is not satisfactory to you don't spend time in looking for him.

His stories written by himself tell you of each day's adventures and are reliable. If he turns down anyone who does not comply with conditions he will describe the incident fully the next day.

soften the hardship of a hunted man. I enjoyed a trip by ferry out where I could overlook St. John harbor. I was very strongly impressed by the expert handling of the good ship ploughing the waves and responding with gentle bumps to the drawing tautly of the chains by the quick-stepping and powerful hands who passed us off in safety.

I had expected mail—under an alias—at the Clifton, but found none there for me. The bright, blonde youth, in the morning on his job of clearing decks for the day, launched me a smile that drove the bad weather mood all out of me. Later the satisfaction of taking on a larger cargo of smiling welcome from the dapper clerk, a young gentleman who speaks softly in measured terms, compensated me for the droning I got in the course of my rambles.

The sturdy, stalwart policeman with gray moustache at the crossing of Princess and Water streets gave me directions I had asked with the equally generous smile I got at the Clifton, and with the friendly hand laid on my shoulder, such as conveyed to me, a fatherly interest. I never knock policemen, nor do I ever challenge them. Like everybody else I appreciate the good natured cop. He is a public benefit, while the surly cop is a nuisance. I don't bar the cop, nor do I flout him, for his time is not his own. And he is under as strict espionage as I am, only of a different sort. He is constantly in the public eye and subject to criticism which is often unmerited. I get well acquainted with many of them.

Desiring to learn the roads and

lanes—the features of this city—I found my way out on the Marsh road, they call it—Rothney avenue is the general form I presumed when I noticed on the wall in the office at Mr. George McAvity's ammunition works a schedule of daily production in which the term "The Rothney Avenue Ammunition Plant," or works was used.

And they harbored the Fugitive out there—admitted him to their office? Certainly! Why not? More than that, they entertained the Fugitive. Not that Miss Shied, or Mr. Murdoch, or Arthur Farmer knew that they had the Fugitive with them. But I guess it was his good looks; or perhaps because he used the name of his friend James T. Cummings, of New Glasgow; or perhaps it was be-

cause they thought he was speedy, since the Fugitive gave them his name as A. W. Speed. However, young Farmer very nicely steered me through the plant.

And gave several hundred ammunition workers a fine, first hand view of the Fugitive, which now gives them the chance to shut up shop, go out on the street and pick him up.

(Written by Fox The Fugitive exclusively for The Standard.)

What have I got into, coming this way in hopes of retreating safely across the line into the States? "Pick him up wherever you find him and bring him in," cries The Standard which has had its sluttish all over New Brunswick trying to head me off.

At the Boston boat Cuts Curly, the keeper of office, turns me back with that threatening look he gave me. At the railroad station that bunch in the baggage room gave me warning glances, when I left my hand bag on the baggage room thinking to get out on a Boston train.

Then I pick up the St. John papers hoping to read of Roosevelt heading 400,000 men for Europe, and behold glaring headlines—

"Have you seen The Fugitive? Get after him. Leave him no place to hide. Give him no chance to get out of Canada."

When I demand the reasons for this hostility what do I learn?

The Daily Standard putting up a roll of cold cash; organizing a posse of citizens to run me down.

Mobilizing cash rewards from the enterprising merchants.

Emil Gaboury, the French consul at Halifax gets after me, probably wanting to get even for what I pulled over him.

He sends this shot after me: "I will mail my personal check for ten dollars to the man, woman or child who captures Fox the Fugitive."

And The Standard—

Pays fifty dollars in cash to the man, woman or child who captures Fox.

When you catch a fugitive, you've got to detain him—lay hands on him—

You must also serve the warrant. Without you've witnessed his offence and arrest him summarily, you can't deprive any person of liberty without a certified warrant, in a free country. And you must tell him who he is.

Those are the conditions The Standard imposes, which you will find in another column. As very often a capture is made when there is no outside witness; and very often the zeal of the pursuer puts him against the fugitive in a very excited mood; it must rest with me whether or not he has complied with conditions.

If he has, I will surrender without a protest. If he has not I will cut him out, and tell him all about it in my story the next day. If he finds nothing mentioned when he supposes Fox has turned him down, he is assured that he got the wrong man.

Women are very often my captors. I could wish nothing better than to "fall into the arms" of lovely women. Often they complain of the embarrassment condition I would occasion them. So instead of being asked to grab hold of the suspect, women are recognized as having complied with that condition when they face the fugitive; putting themselves in his way and presenting to him the "certified warrant."—The Standard of date—complying with conditions 2 and 3.

That I am bound to meet with great difficulty in holding my liberty any length of time, is apparent from the united stand taken by St. John business men against me.

The business houses seem to find it very much to their interest to offer rewards, giving the chase additional impetus.

Naturally every reward should depend on a specific condition. That which costs no effort is not worth going after. The Standard assumes no responsibility for the reward except its own. And each rewards depends on the fact that the capture is made according to the newspaper conditions and is admitted by The Fugitive.

Here are the rewards, over \$10.00 and the specific condition for each of them:—

**REWARDS FOR FOX THE FUGITIVE**

The Standard, Cash \$50.00.

French Consul Emil Gaboury, of Halifax, cash \$10. Hand fugitive with warrant a tin of Forest and Stream.

F. A. Johnson, dry goods store, Mill street, cash \$10. Hand Fugitive with warrant their advt. cut out of The Standard, to be signed by Fox.

F. A. Dykeman, dry goods, cash \$10. Hand Fugitive with warrant, sales slip from that store dated within 48 hours.

A. A. McClaskey, representing J. Bruce Payne, cash \$5. Hand Fugitive an Overland or Pharaoh Panetela cigar.

Imperial Tobacco Co. Cash \$10. Offer Fugitive a box of Murad cigarettes.

Waterbury & Rising, shoe dealers, Cash \$10. Show Fugitive shoes or boots purchased from that store.

Allen Gundry, Jeweler and optician, Cash \$5. Say to the Fugitive: "Go to Gundry's for your glasses."

One hundred and ten dollars (\$110) the aggregate rewards offered for the capture of Fox the Fugitive. Now, gather them in, and you'll be "going some."

While it was the easiest thing to do, finding my way into St. John. How I'll get out is another question. If I am to tell you that this thing gets on my nerves, don't think that I am making a light statement. The life of a fugitive, even in a game like mine, becomes a burden of apprehension. There is no minute in the day or night one can shake it off. You don't have to see danger to shrink from it. You feel its presence, even when you are thoughtless of it. Only a few years ago a defaulting bank clerk from Toronto, after he had stood the torture, as he said, of dodging through months of fearful dreads, gave himself up. And facing a long term of imprisonment, which he expected, he declared it was a happy moment for him.

One tries to make himself believe he is safe. One is always in the shadow. There are in one's walks and actions physical manifestations of the fear that is dogging him. There is the halting, uncertain, lingering step to be easily recognized by an intelligent person who is on the watch. There is the quick, furtive look over the shoulder when quick steps are heard approaching from the rear. In speech, action and mannerisms, there is the indescribable but well recognized hunted manner.

Landing in St. John early in the morning I had already a clear and decidedly planned arrangement to find cover with friends who appreciate my situation, and can somewhat

## MY TIRED FEET ACHED FOR "TIZ"

Let your sore, swollen, aching feet spread out in a bath of "Tiz."

Just take your shoes off and then put those weary, shoe-crushed, aching, burning, corn-pestered, bunton-tortured feet of yours in a "Tiz" bath. Your toes will wriggle with joy; they'll look up at you and almost talk and then they'll take another dive in that "Tiz" bath.

When your feet feel like lumps of lead—all tired out—just try "Tiz." It's grand—it's glorious. Your feet will dance with joy; also you will find all pain gone from corns, callouses and bunions.

There's nothing like "Tiz." It's the only remedy that draws out all the poisonous excretions which puff up your feet and cause foot torture.

Get a 5-cent box of "Tiz" at any drug or department store—don't wait. Ah! how glad your feet get; how comfortable your shoes feel. You wear shoes a size smaller—if you desire.

TO THE PEOPLE OF THE EMPIRE—Every fighting unit we can send to the front means one step nearer peace.

PROVINCIAL FINANCES.
The mere mention of provincial finances seems to have a disturbing effect upon the esteemed Telegraph. It will be remembered that during the election campaign of 1908, that newspaper indulged in spasms of indignation over the "bugged" surplus which it discovered in the financial statement submitted by the government led by its present day friend, Hon. C. W. Robinson. For more than nine years it has not had occasion to deal with statements of finances prepared by a provincial government led by Mr. Robinson, or one in which he was at all interested.
Yesterday, however, the Telegraph broke out afresh. The Carter government, in which Augustus body Former Premier Robinson occupies a proud place in the forecastle, has been going over the finances of the province under the capable businesslike administration led by Hon. Mr. Murray, and the Telegraph would have its readers believe that its sleuths have uncovered a shocking condition of affairs. In fact, if we are to believe our Canterbury street contemporary, it is a matter of rare good fortune for the people of New Brunswick that the disloyal and untrue canvasses used by the Carters on February 24th proved sufficiently strong to defeat Hon. Mr. Murray's Government. Otherwise Mr. Murray and his associates might have squandered the resources of the province that nothing would have remained to satisfy the financial hunger of Mr. Carter's friends. According to the Telegraph the Carter victory alone saved the province from being sold out for debt, so carelessly was the public money squandered and so shamefully did the expenditures exceed the revenues.
A close analysis of the Telegraph's revelations however gives some hope that with care the patient may recover, even after the Carter specialista have completed their probing. Such portions of the Murray Government's accounts as have been uncovered appear to be in a very healthy condition, a condition which, in fact, may be expected to provide material for interesting comparisons after the Carters have had their fling at the public treasury for a period.
Of course the Telegraph does not purpose to wilfully misrepresent—perish the thought—nothing so miserable would be resorted to by the newspaper which for years has been identified with the most respectable sort of machine politics, and which (through shame?) was forced to remove the "No Graft, No Deals" motto from its editorial column when it passed under the control of the machine wing of the Grit party. But it does appear strange that a publication so eminently fair and honest as the Telegraph should deliberately present to its readers a financial statement of the alleged operations of the Murray Government, while charging against that administration every cent of expenditure made by it and including some items which, obviously, cover a longer time than the period claimed should carefully conceal the fact that by far the greater part of the provincial revenue for the year has not yet been received and, therefore, the deficit the Telegraph claims will show on the operations of the full year is, like Mr. Robinson's last surplus, more fancied than real.
The Telegraph makes much of the fact that the expenditures of the Government from November 1st to May 10th are in excess of the receipts. There is no mystery about that, no evidence of wrongdoing or reckless finance. The Telegraph's own statement of receipts, misleading though it is, merely requires a glance to show that only a small portion of the provincial revenue for the year has been received, while a much larger proportion of the year's expenditures has been made. That being the case the expenditures must necessarily exceed the receipts.
The Telegraph's statement of territorial revenue is given at \$70,029.48 for the period from November to May 10 and the alleged deficit is figured on that. Just how misleading such a method of figuring is, may be seen by the fact that the territorial revenue for 1915 amounted to \$591,955.14, while the estimate for the fiscal year of 1916 was \$550,000, and for the full year will probably reach that sum. On such a basis some \$480,000 of territorial revenue is yet to come in. When this is received the showing will be vastly different from what the Telegraph would seek to convey, unless, indeed, the Carters squander the money as prodigally as they did when last in power.
Not only in the matter of territorial revenue does the Telegraph misrepresent, it affects to find something sin-

MOMENTOUS DAY IN THE REPUBLIC

Millions Will Register as Possible Raw Material for Fighting Legions Today.

New York, N. Y., June 4.—Final arrangements have been completed for the registration tomorrow, and possibly 10,000,000 Americans between the ages of twenty-one and thirty-one inclusive to serve with the Allies in the war against Prussian autocracy. The plans for the first step of selective conscription have taken on the magnitude of a national election.
Minor disorders here and there, which usually mark election day, are anticipated but state and federal authorities are co-operating to meet promptly and adequately any organized resistance to the draft measure. In accordance with President Wilson's proclamation that Tuesday be considered a day of patriotic devotion a general holiday has been declared in most centers where the country meetings will be held throughout the country this evening and appropriate exercises will take place Tuesday. The stock exchanges will be closed.
British Slackers.
It probably will be days before accurate recruiting tolls can be announced, but the work of sifting the flower of American manhood for service at the front will begin immediately.
Loss of their citizenship faces British slackers in this country who refuse to respond to the recruiting pleas of the British mission headed by Brigadier-General W. A. White, which will begin recruiting at 280 Broadway on Wednesday.
In statements issued by General White and his staff plans for forcing the slackers into line were revealed in detail.
Need of Her Sons.
"It is naturally expected," said General White, "that a large number of Englishmen in this country will come forward voluntarily. But it should be borne in mind that compulsory service is now in force in England and probably will be put in force in Canada, and as the citizen of any country accepts the obligations as well as the privileges of his citizenship, it may be for political reasons that the man of military age who does not offer his services should not expect to retain the privileges of citizenship. The British Empire has need of all her sons."

Little Benny's Note Book.

Mary Watkins was setting on her front steps, and I was setting there talking to her, and Mr. Cunningham waked past us and sat on his front steps, me saying to Mary Watkins, There's Mr. Cunningham, have you ever saw his hat without his hat on it?
No, we? sed Mary Watkins, and I sed. It hasn't got a hare on it. Not one single hare? sed Mary Watkins.
No, just like a egg, I sed.
Maybe his hat will blow off so I can see it, sed Mary Watkins. Being pritty windy and we watched to see if it would, wich it dident, and I sed, I tell you wat, lets wawk past him and ill tip my hat, and then he will tip his, and then youll see it.
Wich we did, me tipping my hat and saying, How do you do, Mr. Cunningham, and Mr. Cunningham jest saying, How do you do, Benny, without tipping his.
Hes not very pullite, I dont think, sed Mary Watkins, and I sed, Maybe hes afraid of catching cold in it.
Wich jest then he got up and went in the house, and I sed, I tell you wat, ill ring his doorbell wich hes still near the door, and you stand there and watch, and he will open the door without his hat on, and then youll see it good.
And I ran up his front steps and rang the bell and Mary Watkins stood down on the pavement and Mr. Cunningham came and opened the door, and darn if he still didnt have his hat on, saying, O, its you, Benny, well? Well?
Sir? I sed.
Dident you ring this bell? sed Mr. Cunningham.
Yes sir I thavt maybe it didnt work rite, I sed.
You better go see a doctor, sed Mr. Cunningham. And he slammed the door and me and Mary Watkins went back and sat on her front steps agen.

A QUESTION OF TIME.
In their eagerness to find some way of stabbing compulsory military service in the back, certain Liberal newspapers are objecting to the proposal on the ground that it has come too late. Such assertions are made solely for political effect and do not take into account certain facts that should be evident even to the dullest mind.
It was not unnatural that in a democracy such as Canada there should be a demand that the voluntary system should be given every opportunity to prove its value before any method of compulsion was considered. The voluntary method has done much and it is but fair to say that up to a few months ago it was furnishing sufficient recruits to maintain our divisions at the front.
From a national viewpoint it would not have been wise or politic to rush conscription upon the country without preparing the public mind for its reception. A measure of education was necessary and, it may be said, nowhere more necessary than among those very people who are now complaining that the compulsory measure does not come sufficiently soon to be of real value.
It must be apparent to everyone that up to the time of the entry of the United States into the war conscription in Canada would have been impracticable. With the border line of nearly three thousand miles there would be no effective way of preventing slackers crossing from this country into the States to avoid military service. In this regard Canada's case cannot be compared to that of England where the seas offered the only avenue of escape for slackers and measures to prevent them getting out by vessels could be easily enforced.
Now the United States has conscription, the period of registration in that country opening today. Precautions have already been taken to prevent slackers crossing from this country to that to avoid service, and even if some succeeded in getting across the border the number who could find safe refuge there would be so small as to be negligible. To go from Canada to the United States to avoid military service would be jumping from the frying pan into the fire. A few months ago compulsory service might only have succeeded in driving young men out of this country, it will now succeed in bringing them into the ranks of the Canadian army where they are needed and where they will be of real value to their country and the Empire.
Canadians should not allow themselves to be distracted from support of the Government by loose talk about the compulsion measure being too late, if it had been necessary, or if it could have been adequately enforced before, Canada would have had it. Now it is necessary, and it can and will be enforced. Those who talk of its being too late have an eye to the slackers' votes and are more concerned with politics than with patriotic Empire service.

A TONIC FOR THE NERVES
Nervous people who have not yet developed a disease that can be recognized and treated by the medical profession have the greatest trouble in finding relief. Irritation, headaches, sleeplessness, nervous dyspepsia, all these discomforts make life miserable, but are endured rather than run a doctor's bill without definite hope of an improved condition.
Every sufferer should know the danger of such a condition to the nervous system. Nervous debility and even paralysis may result if the tone of the nerves is not restored.
The one big fact that brings hope and relief is that the nerves can be restored by building up the blood, it cannot be too often repeated that only through the blood can nourishment or medicine reach the nerves. Dr. Williams' Pink Pills make the blood rich and red and quickly restore vitality and energy to a weak, nervous system. A nervous person who gives these pills a trial is almost certain to see good results. What is more, the benefit will be lasting because the trouble is attacked at its root. This blood makes weak nerves; building up the blood restores the nerve force. That is why people who occasionally take Dr. Williams' Pink Pills always feel bright, active and strong.
If you are weak, nervous or feeling "out of sorts," give Dr. Williams' Pink Pills a trial, and you will be surprised to see how quickly the nervousness will pass away and your former energy return. You can get these pills through your medicine dealer; or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

**ADMIRAL SIMS GETS GREETING**

London, June 4—Vice-Admiral William H. Sims, U. S. N., was most enthusiastically received when he arose to speak yesterday at the great religious thanksgiving service held in the Opera House in Kingston to commemorate the battle of Jutland. Admiral Sims said he was glad of the opportunity on behalf of the American navy to express profound admiration for the British heroes who had so gloriously given their lives in that battle and to voice the sympathy of the United States navy and the American people who realize that the bloodshed on that day was shed for the cause of freedom throughout the world. Admiral Sims is a native of Canada.

**GERMAN SPY SYSTEM IN THE U.S.**

Several Arrests Made at New York for Sending Information Through Mails.

New York, June 4—With three men under arrest who are alleged to be minor figures in a conspiracy to transmit information of military value from the United States to Germany through neutral mail channels, the federal authorities and city detectives today indicated further arrests which they said might result in disclosures of a German spy system.

Two of the men are said to be American born and a third a naturalized citizen of Sweden. Examination of mail seized by federal agents indicated transmission of information on steamships to Mexico, and thence possibly by wireless to Germany.

**Clergyman Has Recovered**

Was Unable to Fill Appointments and Greatly Discouraged by Continued Ill-health.

Gananoque, Ont., June 4—The many friends of Rev. George Alton are pleased to learn of his recovery after a long period of ill-health from biliousness, stomach troubles and severe headaches.

Mr. Alton had become very much discouraged over his inability to obtain relief, and thought he would have to quit the ministry, when fortunately he read about Dr. Chase's Kidney-Liver Pills and began their use. He tells the particulars of his case in this interesting letter:

Rev. George Alton, Gananoque, Ont., writes: "I had been suffering from bilious attacks for four years. I was very weak, had headaches, and my stomach was so bad that I could hardly eat anything without being troubled by it. I had tried many cures, herbs, pills and salts, and was under the doctor's care for some time, but instead of getting better I seemed to get weaker. I was unable to fulfill my appointments on Sabbath and had to secure help. I used to take dizzy spells and could not walk across the floor straight. I had almost given up all hope, and my wife said that if I did not get better we would have to quit the work of the ministry. However, in looking over the 'British Whig' the well-known Kingston paper, I saw Dr. Chase's advertisements in it, and read how Dr. Chase's Kidney-Liver Pills had helped others who were troubled as I was. I resolved to give these Pills a trial, and I must say that in a short time I obtained relief. I continued taking them for some time, and now I am able to resume my work again. From the benefit I have obtained from these pills, I would recommend them to all who suffer as I did."

Rev. C. Cunningham, 124 First Avenue, Toronto, writes: "I certify that I am personally acquainted with Rev. George Alton of Gananoque, and believe his statement with reference to Dr. Chase's Kidney-Liver Pills to be true and correct."

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25c, a box, 5 for \$1.00, at all dealers, or Edmondson, Bates & Co., Limited, Toronto.

**NO MORE PAARDEBURG DAY FOR THE I. O. D. E.**

Victoria, B. C., June 4—The annual session of the I. O. D. E. came to a close here with the passing of a number of important resolutions, including one to discontinue the celebration of Paardeburg Day; that April 22, the anniversary of Langemarck be added to the number of festal days observed, and that the government be asked to pass an ordinance that the national anthem be sung at the opening of public performances, rather than at the close.

**TWO ENGLISHMEN MUST STAND SECOND TRIAL**

Washington, June 4—Ralph E. Blair and Dr. Thomas Addis, British citizens, by a supreme court ruling today, must undergo a second trial at San Francisco on a charge of conspiring to violate American neutrality in recruiting Englishmen in this country for service in the British army before the supreme court will determine, squarely upon the merits, new and intricate legal questions regarding foreign recruiting on American soil. The court today refused to interfere with a second trial ordered.

**PACIFISTS AND SOCIALISTS IN BIG CONCLAVE**

Big Leeds Meeting Favors Russian Policy of No Annexation and No Indemnity.

Leeds, June 4—Eleven hundred delegates, ten per cent. of whom were women, assembled in the Coliseum here yesterday to hail the Russian revolution. They represented the extreme pacifist and Socialist organizations, including the Independent Labor party. Robert Smille, the miners' leader, presided.

Telegrams of congratulation were read from the executive of the workmen and soldiers' delegates at Petrograd. Chairman Smille, in the course of his speech, said it was evident that there would be no knockout blow, and it was the wish of the convention to concentrate the attention of the people on peace by negotiation. The proceedings were rather lively at times, but eventually resolutions were adopted proclaiming sympathy with the work directed to the accomplishment of peace without annexations or indemnities and demanding that the British government support the formula in harmony with the Russian government.

Other resolutions were adopted favoring freedom of the press and speech and calling for the establishment in Great Britain of a workers and soldiers' group on the Russian model to work for "a people's peace."

**WOOL GRADING AT SUSSEX**

Special to The Standard.

Sussex, June 4—The grading of wool for the co-operative sale is now going on at the Agricultural School, G. E. O'Brien of the Live Stock Branch, Ottawa, is in town, accompanied by Mr. Fred M. Jennings, expert wool grader of the Dominion Department of Agriculture. It was first intended that the wool grading should be done June 1, 2 and 4th, but owing to the decided lateness of the season this year the dates have been extended until Saturday noon, June 9. Farmers therefore can send their wool into the Wool Growers Association, Sussex, all this week, and have it graded and sold co-operatively through the association, of which M. A. McLeod is the secretary. In this way a standard is established for Maritime Provinces wool, and the farmers receive the highest prevailing prices, since the manufacturers are buying a graded product and know what they are buying. Wool Arriving.

Wool is coming in from points in Kent and Westmorland counties and even as far as Amberst, for grading and sale on the basis, with a large quantity coming in from places in Kings county. Each man's wool is graded separately on regular grading forms, and farmers who have wool for sale are well advised to send or take it into the Wool Growers Association, Agricultural School, Sussex, if they desire to dispose of it at maximum prices on a graded basis.

**MINNIE DESTROYS HUN STEAMER**

Copenhagen, via London, June 4—A steamer flying the German flag was lowered into the mine field which the Germans have laid south of the Danish islands to close the entrance to the Baltic Sea to Entente submarines. The steamer, which was of about 1,500 tons, was destroyed, but the crew was rescued by one of the German warships, constantly on guard in the vicinity.

Save the Food and Serve the Empire! The Average Canadian Family Wastes Enough to Feed a Soldier

'The Kitchen must help as well as the Workshop and the Trenches.' Lloyd George.

INTELLIGENT economy in the kitchen can do much to prevent the threatened world famine—can counteract the effect of high prices—and can replace growing debt with systematic saving.

Careful investigations show that before the war the average British family wasted 25% of their food—and we Canadians were even more extravagant.

This waste is not in a few big things, but in many little ones, each, we used to think, too small to bother about—such as careless peeling of vegetables and fruit—failure to make good use of dripping and 'left-overs'—and such others as will occur to every thrifty housekeeper.

For the Empire's sake as well as your own, hunt up and cut out those leaks! You'll be helping to relieve the food shortage—saving your own money—and putting yourself in a position to buy Canadian War Savings Certificates and help win the war.

War Savings Certificates are issued in denominations of \$25, \$50 and \$100, to be repaid in three years at full face value. They cost \$21.50, \$43 and \$86 respectively, at all Money Order Post-Offices and Banks, thus yielding over 5% Interest. Should you need it, you can get your money back at any time.
