TEN THOUSAND SOLDIERS AND POLICE **GUARDED U: S. EMBASSY IN PARIS**

Paris, Oct. 23—Ten thousand soldiers and policemen guarded the United States embassy and neighboring streets today to prevent a threatened demonstration by French Communists in protest against the conviction for murder in a Massachusetts court of Niccola Sacco and Bartolomeo-Vensetti, but no Communists appeared there.

Leng before the hour set for the concentration of the Communists at Porte Maillot, three thousand troops were on the scene while others manned machine gluss on top of the city wall commanding a view of the entire square. A few Communists emerged from the subwey station at Porte Maillot but they were hustled outside the city walls before they could organize and start a procession to the embassy.

Fine Tribute To Late Lady Beck

Sir Adam while America's horsemen cheered.

Not only did Lady Beck help her young daughter to emulate her as a horsewoman, but from her childhood determined that she be a singer. So closely did she guard her that Marion was not allowed to sing a note until she began last year in Paris to study. No less a person than Medba undertook to train the seventeen-year-old Canadian girl and great things were prophesized for her. Lady Beck had looked forward to overseeing the training this fall.

It was Lady Beck who first sang "Keep the Home Fires Burning" in Canada during the recruiting days of the Great War. Few women by their faithful service in the home and in the state did more.—Cornelia in The Toronto Telegram.

The beginning of the word "L" meant that the foundations of the church were "laid in love." The "O" was for "open hearts and open pockethooks," for building up the charch. The. "V" was for "victory" over disaster, the replacement of the church after the fire in 1877, and the "B" designated the "extension" work that is being carried on now and will be carried on by the coming genera-tion in St. James".
