### FAILURE OF GERMAN MINISTERS RIVER THAMES TO CONSULT REICHSTAG ON U. S. ON RAMPAGE NOTE LEADING TO GOVT. BREAK

Position of Dr. Simons Is Imperiled - Reply to American Message of Rejection Is Dispatched From Berlin Today-French and British Premiers Meeting to Discuss Additional Penalties.

Berlin, April 23 .- A cabinet crisis appears imminent here as a result of the discontent aroused by the Government's failure to consult the Reichstag before asking President Harding of the United States to mediate between Germany and the Allies relative to reparations. The position of Dr. Walter Simons, foreign minister, is particularly imperilled.

### LLOYD GEORGE AND BRIAND TO DISCUSS PENALTIES

Lympne, Eng., April 23.-Exchanges which have been going on for some weeks between the British and French foreign offices relative to what can and bught to be done to collect reparations from Germany will be continued here late today by Premier Lloyd George and Premier Briand. The two states-men will meet at the villa of Sir Philip Sassoon, where they have held confer-ences in the past.

The French plan is, broadly, a project for administration and taxing for the benefit of the Allies the Ruhr coal basin and some parts of the Westphal-ian industrial district of Germany. Mr. Lloyd George arrived at Sir Philip's villa Bolcaire, last night, and advices from Paris today stated that M. Briand, ac-companied by Philippe J. L. Berthelot, general secretary of the French foreign office, had left at 8:40 o'clock this morning for England. The two premiers were understood today to be in agreement as to the general plan to be followed, but it was said they wished to have a com-plete mutual understanding of what was to be done early in May. If in the interval the German Government does not submit acceptable proposals. Information gathered here this morn-

ing indicated that Germany's latest offer to assist in the reconstruction of deva-stated areas in France and Belgium would not be probable to exert any influ-ence on the deliberations of the French and British premiers. It was pointed out that Germany made a similar sug-gestion at the London conference early in March, and that it was not seriously considered. On that occasion France replied she had already spent upwards of £1,000,000,000 on reconstruction and looked for Germany to remunerate her. It appears that the present German Government is in a weak position, infor-mation to this effect being received from ommissions in Berlin.

### BERLIN SENDS A REPLY TO U. S. NOTE OF REFUSAL

London, April 23.—Germany has sent to Washington a reply to the United States note, rejecting the role of ar-bitrator of the reparations question between Germany and the Alies, says Central News dispatch from Berlin The terms of the note sent to President Harding were not divulged to party leaders up to the time it was dispatched at noon today, and its con-tents will not be made known until later in the day. Leading politicians declared to have been angry because members of the cabinet did not consult them before the original communica tion was sent to the United States.

### **LONDON YOUNGSTERS PUTTING MORE CASH** IN THE PENNY BANK

Average Deposit for January and February Is 36 Cents.

COLBORNE ST. HEADS LIST

Savings for Dominion in Two Months Totals \$125,598.

Water Has Risen Six Feet in Past Forty-Eight Hours.

CAR TRACKS UNDERMINED

Part of Abutment at Wellington St. Bridge Swept Away During the Night.

The River Thames has risen about six feet within the last 48 hours and the flood is still increasing. On the south branch of the river the current is sweeping down with terrific force, and the water is of a deep brown tint At the Wellington Street Bridge the great rise in the volume of water is very apparent, and during the night one of the abutments at the south end of the bridge was considerably damaged by the rushing river. Owing to the collapse of the boarding which pro-tected the embankment at this point, tons of earth gave way and were pre-

As the street railway crosses the oridge part of the track was under-nined by the washout, and thus rendered unfit for traffic. The result was that this morning the cars on the Richmond route were held up at the north end of the bridge and passengers further up the hill on High street had to walk that part of the trip.

A large gang of men was immediately set to work to repair the damaged track, and early in the forenoon the ar service was resumed.

If the wet spell continues the flood mark is expected to reach one of the

### **ELECTION BATTLES** IN NORTH IRELAND ARE ANTICIPATED

Nationalists Expected To Secure Twenty Out of Fifty Seats.

SOUTH IS INDIFFERENT

Lieutenant-Governor May Be Forced To Make Appointments There.

Dublin, April 23.-Moderate organiza tions formed in Southern Ireland to put candidates for the Southern Ire land Parliament and to work out the Home Rule act have been dissolved Members of the Dominion League will not intervene unless the British Government promises the parliamentary elections will be treated as furnishing a constituent assembly, charged with task of discovering a solution of the Irish problem.

Lord Decies, a representative peer

of Ireland and a member of the House of Lords is said to intend to offer himself for election to the South Irish Parliament from North Kildare. Sinn Fein leaders would welcome his candidacy and have promised that, should treatment. fought, the Nationalists and Sinn Feiners having agreed upon mutual candidacies, and the full strength of the Na-tionalist Catholic vote will be polled.

Situation in South Ireland. Belief is expressed here that the Nationalists will secure twenty out of 52 seats in the Northern Irish Parliament but this party's candidates have pledged themselves to refuse to attend meetings of the body, which will, nev-BAILIFF IN WAREHOUSE

If bill without wetting their bodies. If they should become wet, they ought to are all suitable for duck raising.

Some Useful Hints.

Cold and rain are very injurious. duckling that has got wet by rain or otherwise in the first eight or ten days of his life is in great danger of dving. He drowns quickly in little water. It rot leave wet ducklings in the sun for the purpose of drying them, they might get sunstruck and die. Do not let them take a bath until eight or ten days after birth, and then only for a very short while, and if for market they are better kept from swimming at all. If no running water is available, or there is no pool big enough so that they can swim freely, a tank should be set up with a sloping board at both ends, so that the ducklings may easily

go up or come down.

When the duckling is a month old, if for stock purposes, it may be given its entire freedom, if there is a stream in proximity. All it requires is a meal at oon, and one at night. Ducklings well in regularly increasing rations, are ready to market at two to three months

Ducklings that are reserved for breeding purposes should be selected among the most thrifty specimens and from an early hatching

study is the uncertainty of each field trip. A ramble afield may yield nothing new in the entire trip, but the exnectation of at any time finding a rarkeeps the enthusiasm at high pitch, so every hour is enjoyed to the full. The most interesting finds usually happen when least expected; so it proved on a little trip last January 6. Two of us went to Mr. Roger Hedley's at Dunwork. On passing a dense row of spruces at the back of his orchard, a ash of white was seen deep in one of he trees. The bird wasn't seen again owever, until we had crossed the chard. A grey bird, with some white on wings and tall, flew to a tree. At his distance the coloring embled a Shrike, but when it began t once aroused. Upon closer inspection proved to be a Mocking Bird. This ird is becoming established at Point breeding there sparingly, but outside of Essex and Kent this is per-haps the only Ontario record. The Mocker in size and shape resembles the Cathird, but is greyer, without the black cap, and with white in wings and tail.

It would indeed be addition to our avifauna.

### HONEST ELECTRICIANS J. ALLAN KAY IS TAKEN FOR BURGLARS ELECTED AS MAYOR

Little Girl Sees Them Breaking Into Chesley Avenue School.

SPREADS THE ALARM

Brave Janitor Crawls Through Cellar Window While Neighborhood Stands Breathless.

One perfectly honest electrician and als assistant were the centre of much excitement in the east end of the city one night recently when scores of indignant citizens, suspecting that they were burglars, attempted to effect a capture. It happened thusly: A little girl of perhaps 11 years of age

passing the Chesley Avenue School she saw dim figures stooping low before a cellar window. In a few minutes they Young and Norman Andrews. lisappeared into the regions below. Immediately the girl's imagination began to work overtime. Just imagine wo burly burglars robbing her beloved school. Hurrying home she breathlessly told her parents that two men had broken into the schoolhouse and were stealing everything in sight.

Phoned Principal.

Her parents, being taxpayers, were naturally indignant, so they passed the word over the telephone to E. Gibbs, principal of the school. Meanwhile the ttle girl, with some exaggeration, spread recent shooting outrages, refused to lend themselves as targets to the would-be burglars by entering the building.

pledged himself to further the fourfold life of the boy.

Ross Taylor and R. De Courcy, Free

Janitor to Rescue. Mr. Gibbs called the janitor, a re-turned soldier, who had braved worse terrors than facing two burglars. The Eight Ballots were spoiled. janitor, armed with a bunch of keys, rushed to the scene and boldly entered entered lows: the school. The spectators held their

### L. R. C. ASKS WHY **BILLS NOT OPPOSED**

OF BOYS' COUNCIL Displeased With Passing of McCrae and City Gas Measures.

Because they believed that the majority of the Labor members in the Provincial House were not true to the spirit of their party when they failed election held Thursday and Friday even-ings in the armories over Harold Rich-bill and the City Gas Company's private bill, the members of the Labor Representation Committee voted on Friday night to send a resolution to Harvey Adair and Dave Finlayson, the protest to each Labor member who

failed to oppose the bills.

The matter was discussed at length during the meeting. None of delegates could understand why the Labor members as a whole did not strenuously oppose the bills, for in the opinion of the L. R. C., they represented everything to which the Labor party Dr. H. A. Stevenson, M. P. P. for this city and one other Labor member of the House were the only ones to show fight while the bills were under debate.

Favorable reports were received from the organization committee. The committee, profitting from mistakes made by its predecessors in the past years, they at once launched a campaign which from all fronts was fought squarely. campaigns owing to the fact that the organization work was started only few weeks before the opening of each

Much routine work was accomplished.

### MANY CHANGES IN **LONDON CONFERENCE**

Rev. Dr. Chappelle of Washinton, D. C., To Be Special Speaker at Annual Meeting in June.

Rev. Dr. Chappelle of Washington, D. C., will be the special preacher at the opening of the annual meeting of the London Methodist Conference to be held here in Askin Street Church on June The ministerial sessions commence on June 4. The stationing committee

will meet on June 2. This year there will be many changes in the London Conference, at least five ministers being transferred from London City and many from the small churches in the London district.

Those who have completed the four-year term in London are Rev. R. G. Peever, who goes to Hamilton. Rev. Dr. Sparling of Hamilton will take the pastorate of Rev. Mr. Peever. Rev. B. H. Robinson of the Memorial Methodist Church goes to Leamington. Rev. W. E. Pescott of Dundas Centre goes to Teachers from all parts of the prov-nce will again be taken on a trip brough New Ontario this summer at Wellington Street Methodist Church, will be transferred, and also Rev. H. T

of the Methodist Church for 50 years and a short time will be set aside in the program for these to give The Ladies' Aid of the Askir continue until September 4, and will Street Methodist Church is in charge of

# REMODELS INTERIOR

Owing to an expansion of business which exceeded all expectations, the We Canadian Bank of Commerce in this city has found it necessary to rearrange a portion of the interior of the main branch at Dundas and Richmond streets. The alterations now practically completed give considerable added space to the banking room and facilitates cus tomers in transacting business.

A room in the southeast corner of the building, which for some years had served as a rest room for the patrons of riotic Society has been turned into an office for the collection department. It the stenographers of the bank. The par-titions which formerly separated this room from the main room have been re-

Perhaps one of the greatest advantformerly was used by the collections have been remodelled into a teller's office. This innovation will enable the clerks who formerly worked in rather crowded quarters to give better and quicker service to the customers. Downstairs a dressing and a cloak

London Station Secures Over The appointments will be effective on 75 Per Cent.

BUT LATELY ORGANIZED

Will Represent City in Competition at Montreal.

London's G. T. R. Station, No. 1, First Aid team was successful in securing more than the required 75 per cent of the total number of marks when it tried the preliminary examinations in connection with the Chamberlain Trophy First Aid competition, according to an official announcement received locally today. The examinations were tried on Thurs day last under the supervision Call, general organizer for the First Aic department of the G. T. R. system. Local officials are highly

the success of the team, which is com posed of P. J. Gravelle (captain), P. Madden, E. Schaefer, A. Lafontaine and D. Finlayson. The accomplishment of the team is the more outstanding when it is considered that the team has been organized but two months, and that every member was new to First Aid work before that time. H. Call, the examiner, passed many complimentary remarks concerning the work of the team.

### If Buzz Ever Goes In For Indoor Ball, He'll Pick On Delaware as Camp

It's Still Pouring Down On Tecumseh Squad, Who Do Their Work in Gym-Team Will Leave Monday or Tuesday.

BY G. H. TOWNSLEY.

Delaware, Ohio, April 22.—And still it rains. The Tecumsehs had two corking good workouts in the gymnasium today, however, and had little time to loaf while they were in togs.

Manager Wetzel is getting his outfit ship-shape for the season's program and is experiencing now just the kind of weather that made 'em the league pennant winners last year. The rainy weather is worrying Buzz a little, though, for he is anxious to keep his tossers in the dusty diamond, where they can have some real training.

Kuhn had his forefinger snagged to-day by a hard pitched ball, and he left

this afternoon for Tiffin, where he can

have it nursed, incidentally he expected

to book a pre-season clash with a crowd

of sand-lot players. It will probably be the first meeting the Canadians will

have after pulling stakes at the train

ing camp here early next week. As the final to this afternoon's program, Wetzel lined his aggregation up for a relay meet

on the indoor running track. There were

no reports as to the winners, so the impression is given out that it was a tie

match. The track with its padded curved surface was rather difficult for

the heavy path hitters, but they got

their warming up just the same. Unless the weather man continues to shed his

Canadians will stage their game with the Delaware Moose. Wetzel has announced

that Quinn and Wheeler will hurl for the London combination, while he ex-pects to lend Hall and Pinto to the

Moose, thus giving four twirlers a chance at some slab work.

factor in the rating of some of his rookies. Just when Buzz will break

camp here is not yet definitely known,

he had previously planned. He would

like to get in a couple of games with the collegians before starting north.

### MRS. LEAVITT FACES CHARGE LAID BY MEDICAL SOCIETY

### Defendant, a Cancer Specialist, Claims Patient Died From Pleurisy.

Mrs. M. J. Levitt, cancer specialist, 390 Ridout street, was tried by Magistrate A. H. M. Graydon in police court yesterday afternoon on a charge of violating the Ontario medical act, but decision was reserved. The information was laid by John Fyfe of the Ontarlo Medical Society.

W. R. Gleason, whose wife was a pa tient of Mrs. Levitt, said that his wife dled of cancer. He said that he had been promised a permanent cure by the

U. A. Buchner, counsel for the defence, producted a contract by which the witness and defendant had agreed that the witness was to provide his own medical attention and was to purchase the plasters.

Mrs. Levitt told of the method adopted to combat Mrs. Gleason's cancer. On March 17 and 18, 1920, plasters were placed on her, after it had been ascertained that she was suffering from cancer and the size of the cancer was found. Linseed poultices were then put on for six or seven days. This was repeated twice and then from April 15 to April 29, while the patient was still at Mrs. Levitt's, salve was put on her.

Gleason's account was for six plasters at \$55 each and \$30 worth of salve.

Crown Attorney J. B. McKillop said that the ingredients for the plaster were all cheap. Mrs. Levitt replied that she only made 20 per cent profit.

She said that she did not charge for that she only made 20 per cent profit.

She said that she did not charge for ranges of 3,000 miles and 2,500 miles anything else. The law says that a person to practice medicine or surgery contrary to the Ontario medical act must do it for gain.

Mr. Buchner stated that his client Mr. Buchner stated that his client miles; and there are 39 Canadian Governerely sold the plasters. He also said that the action should have been brought within a year from the 17th of March, when the alleged offence was said to have been committed. It was claimed that Mrs. Gleason died of the the Covernment of Canada are owned by the Covernment. These on the Parameter is and there are 39 Canadian Government of the small statement of

WITH WIRELESS

Government Improving Modern Long Distance System-Controls Coastal Points.

MONTREAL, April 22.—Wireless has become such an essential factor in the transmission of news that any nation desirous of keeping pace with world progress must give continual attention to the improving of its system of modern long-distance communication without wires. Canada has been quick to recognize the importance of wire-less in her economic existence, in her shipping and trade, even in her forests and fisheries, and realizing what it means to the future of the Dominion's development, has kept well to the for n wireless developments.
Government wireless in Canada comes

under the radiotelegraph branch of the naval department, which owns the sta-tions, but has let several by contract for operation to the Marconi Wireless Telegraph Company of Canada. The primary object of the government service is to provide facilities for communication with ships at sea for the purpose of assisting in navigation and the safeguarding of lives. Incidentally the service undertakes the handling o mercial messages with ships, and ilso provides means of communication points not reached by existing telegraphs.

Has 563 Wireless Stations. The total number of Canadian the east coast, and have ranges from 100 to 1,500 nautical miles; 8 are in Ontario on the Great Lakes, with ranges of 350 nautical miles each; 10 on the west coast in British Columbia, with ranges of from 150 to 350 miles; 2 pub-lic commercial stations in Cape Brethe third being for receiving only; 2 in Hudson Bay have a range of 750 miles each; 11 private commercial stations, with ranges of from 100 to 200 miles; and there are 39 Canadian Gov-

pleurisy.

Crown Attorney McKillop stated that the information was laid on April 6, Passage, Nova Scotia, and the three ted since April 6, 4090 By. the information was laid on April 6 Passage, Nova Scotta, and the theorem and been committed since April 6, 1920. He maintained that a clear case had been made out, and that there should be a conviction.

The passage, Nova Scotta, and the clear case, and the clear c owned by the Government, but are operated by the Marconi Wireless Tele-graph Company under contract, by by

FREDERICTON, N.B., April 22.—

To have the hist-year conege work taken care of by the city high schools, training. Many of the operators on Govunsatisfactory though this would be.

This is part of a plan for the formation of an "All-Red" system of wireless communication which is to girdle the British Empire and link up all the Dominions. A station at Newcastle, N. B., taken over by the Marconi Company in 1919, is to be used as the connecting station with cross-Atlantic stations and licenses have been issued to the same company for point stations at Winnipeg, Coronto, Montreal and other locations which will act as feeders for the trans-Atlantic service and at the same time erve as a commercial service between

Forestry Service Uses System. Wireless within the Dominion itself is experiencing continual expansion at the hands of both provincial governments and business corporations. A very fine service has been built up in the forestry service of the Province of British Colmbia as one of its precautions against forest fires and to keep ranges in in stant touch with each other and headquarters. A system of stations is advo-cated for Northern Manitoba to bring this region into communication with Winnipeg. Several pulp and paper companies have received licenses to operate systems and last year the Shawinigan Water and Power Company, at Shawini-gan Falls, Quebec, received a license to operate a station there to communicate with their head offices in Montreal, a distance of \$2 miles.

HE CAN'T MAKE IT!

### **VICTORIA HATED** FEMINISTS, BOOK OF PERIOD SHOWS

Advocate Should "Get a Good Whipping."

KEPT PRINCE IN AWE

Showed Little of the 'Weaker Sex' Spirit in Treatment

LONDON, April 22.-Right back into plunges Lytton Strachey's book "Queen Victoria," one of his series of "Eminent Victorians," published today. Women who vote and smoke in restaurants, jet who are old enough to remember well the vigorous personality which ruled Great Britain for two generations during the time hat Britain consolidated for her modern greatness, still read with a shock the letter quoting the Queen's views on

"The Queen is most anxious to enlist everyone who can speak or write," runs one of her letters written less than fifty years ago, "in checking this mad and wicked folly of 'women's rights' with all its attendant horrors Used To Adorn Hats and For Used To Adorn Hats and For Software Sof

self.

"God created men and women different—then let them remain each in their own position. Tennyson has written some beautiful lines on the difference between men and women in "The Princess." Woman should become a most hateful, heartless and disgusting human being were she allowed to unsex herself; and where would be the protection which man was intended to give the weaker sex?"

the weaker sex?"

Made the Prince Tremble.

Right on the heels of this is related an incident showing that whatever the Queen's views on "woman's rights," she had more than one trait disproving the property of the strength. Awaited, Do Not Even Exist
On Paper Yet.

Vancouver, April 22.—The University of British Columbia is in a parlous state. The financial appropriation granted by the Provincial Government is insufficient to "carry on" in a satisfactory manner, and the institution is faced with the disagreeable possibility of having to restrict the number of students.

For seven years—since its inception in 1913—the university has been doing its work under most trying conditions, but now a real crisis has developed, and only the wiseast statesmanship can avoid a calamity. During the war the staff put up with all sorts of shortages and got along as best they could in the temporary buildings inside the city limits, nuvoing themselves with the hope that pool of creations, and undoubtedly the hope that guently in Parls ballrooms than silk and functional and conditions, and undoubtedly the fashion in finish the disagree of the low prices, and that a systematic effort must be made to make late queen's views on "woman's rights," since the armistice, with only a few limportant orders to relieve the financial important orders to relieve the financial apropriet to the armistice, with only a few limportant orders to relieve the financial important orders to relieve the financial important orders to relieve the financial apropriet to the strain. W. M. Butler, head of a Calais syndicate, confirms the reports that only is the queen's vitew on the and more than one trait disproving she had more than one trait disproving she had more than one than deed manded a Calais and Equations of a Calais syndicate, confirms the reports that only a Calais syndicate, confirms the reports that on the strength of the great ministers like Gladstone, but not the winter of a Calais syndicate, confirms the reports that of a Calais syndicate, confirms the repo

Lace gowns are to be seen more frequently in Paris ballrooms than silk and gold creations, and undoubtedly the movement will reach American dressmakers. But the biggest offer of the Calais industry to interest women is the fact that for dainty undergarments lace actually is cheaper than anything to be found on the Paris fashion mart.

DUNDAS CENTRE ANNIVERSARY—The congregation of Dundas Centre of the declaration of Dundas Centre of Strachey gives astonishing details of Strachey gives astonishing details of

rrom the eyes of any but the most privileged.

"Everything within these precincts was as it had been at the time of the prince's death," he writes. "But in addition to this Queen Victoria had commanded that her husband's clothing should be laid out tresh each evening upon the bed and that each evening water should be set ready in a basin as if he were still alive; and this incredible rite was performed with scrupulous regularity for more than forty years. Even Windsor Castle had no running water.

"Every bed in which Victoria slept," says Strachey, "also had attached at the back above the right pillow a photograph of the head and shoulders of her consort as he lay dead surrounded by a wreath of immortelles."

### MILLERAND DEFIES ART SHOW CUSTOM

Refuses To Open Annual Salon Internationale, As His Predecessors Did.

PARIS, April 22.—President Alexan-ire Millerand gave the French public mother taste of his independent spirit his week when he abandoned the tradition which compelled the President of france to open the annual Salon Internationale des Beaux Arts. In fact, President Millerand decided that the high office to which he was elected must be raised to the dignity it deserves; that it must not be merely a political sidetrack where men of ability can be shunted to keep them quiet. He insists on conferring not only with the French cabinet ministers, but also with group leaders in both the Senate with group leaders in both the Senate and Chamber of Deputies, and has startled some of the cabinet ministers by calling in provincial politicians to explain intricate points in new problems in connection with which he was unable to get the information he desired in Naturally a man of this type is not

going to pass his afternoons saying pretty things to struggling artists and bowing to the plaudits of a social few at varnishing day ceremonies. However, officials of the salon are re

ported to feel somewhat peevish and gloomy over the refusal of M. Millerand to open the exhibition this year, while pessimists of the old school are mourn-ing that it means a new mark of French decadence when the President of France prefers statesmanship to daubings.

Meanwhile a spirit of independence

of the salon has broken out in another section, for some capable young artists in the Quartier Latin have decided that the regular salons do not offer so much chance for profitable sales of their works as do private viewings, and they have organized what is known as "cafe salons." With the walls of the cheap cafes lined with their works, these artists sit at the tables there, quaffing Bock's aperitifs and listening to critisisms, but when an opportune moment omes they introduce themselves to pro spective clients with a view to closing

In one of these cafes 40 paintings were

### **CURRY AND PRICE CROSS SWORDS IN** HEATED DEBATE

man of Public Accounts Committee Is Sitting On Lid."

SOME OVERCHARGES

Admitted by Witness During Cross-Examination At Today's Hearing.

tested against what he professed to regard as "sitting on the lid" by J. W. Curry, K.C., M.L.A., Southeast Toronto, chairman of the public accounts committee of the Legislature, at the sitting today, when William Dawson, former director of the motion picture branch of the Ontario Government, was on the witness stand. had stated that he had gone from the Government employ to the employ of the Aero Film Company, but had left that company. Colonel Price question-ed the witness as to why he had left the company, and Chairman Curry ruled that the question should not have been put in that form.

"Strike it out," the chairman said. Sitting On Lid.
"Personally, I don't care if the chair

man rules the question out," retorted Col. Price. "Everyone knows he has been sitting on the lid. He has been doing everything he could to keep out evidence."

"You have said enough; you will sit down," the chairman commanded.
"You have been trying to block this
lnquiry," declared Col. Price. "You will

not make me sit down."
"That is absolutely untrue, and you know it," retorted Chairman Curry.
In the meantime the witness, Dawwill reach \$7,500. The power building of the old Traction Company will be listed to the company, but owing to the idea of the company, but owing to the sed volume of business the complex of the company substantial of the committee making a move until the company submitted to the committee what terms was opposed to the committee what terms the company submitted to the committee what terms the company, be expected from the company. regularities.

Some Overcharges. Questioned about alleged overcharges by the Aero Film Company on films sold to the Government, reference to which had been made yesterday, Dawson said the matter had come up, while he was with the film company, after November 1, 1920, shortly after Mr. Samson had been made general manager. He drew Mr. Samson's attention to a film— "Niagara—Summer and Winter," which he thought had been charged twice. Dawson said he had pointed out to the general manager that "Lake Ontario" and "A Day's Pleasure" was a case of one picture being billed under two subwindow, crashing to the pave-below. Herbert had been out of since February and was de-lent.

The properties of a second-jects, possibly through a misunder-standing. He had not reported this to the Government board, as Mr. Samson said he would take it up with the board.

"I think we have gone far enough to show some overcharges," said Col.

Price. "The best thing we can do is to have an examination of the invoices and negatives. It would take some "How far back?" asked R. L. Brackin M.L.A., West Kent.

"Just a year," replied Col. Price. "No, away back in 1917," Mr. Brackin suggested.

Decision as to having an examina-tion of the films sold to the Government also the invoices, was deferred until further evidence is taken. TOTAL DRY MAJORITY

# IS STILL UNCERTAIN

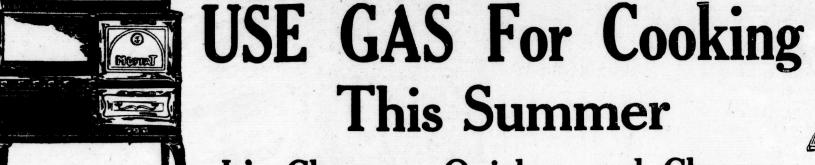

Ben Spence Claims His Calculations Show Approximately 200,000 Majority.

TORONTO, April 22.—In a statement issued this afternoon, Rev. Ben H. Spence, secretary of the Dominion Alliance, claims that the majority in favor of prohibition outside of Toronto is 155,817, and that his figures account for 75 per cent of the vote.

The votes cast in favor of prohibition, according to his computation, aggregate 311,594, and those against it 155,-781. The Toronto "wet" majority of 5,000 would indicate a total dry majority of 150,000. If the proportion of the "wet" and "dry" vote in the remaining uncounted ballots is the same as those accounted for, the "dry" majority will be approximately 200,000. jority will be approximately 200,000.

MAY GO TO REGINA.

MONTREAL, April 22.—Liquor supply houses, which will have to close down here on May 1, owing to the new Quebec Government control law coming into effect, announce that they will ship their stocks to Regina, and continue to their stocks to Kegina, and continue to supply Ontario customers from that point until barred by the importation restruction that will be passed on the strength of the referendum result last

A TRIBUTE TO THE CHURCH.

The heads of banking institutions occupy a unique position to appreciate the value of integrity in a comthe part of its members. The security of society and of business alike the measure of her fidelity and lead-

Church Federation movement, there tions. recently appeared in the newspapers town, the banks could not stay a of insistent robins. to live and raise a family. Along for our dull forgetting vision. the line of righteousness, it is urged, lies stable and continued prosperity, and upon that side every time the bankers wish to put their influence. for the express reason that the church is the one institution which has for its chief business the inculcation of the principles of honesty and right-dealing. The bankers in their statement go down to fundamentals in showing that the churches develop faith, which is needed before the individual will risk his savings, and labor in a project or institution which he hopes will mean much to the city and its workers. This confidence underfines the whole tabric of modern life and affairs. As a further reason for their support, bankers . have found the churches the ally of everything that is good and opposed to what is wrong, and upon that platform these financial managers stand. They conclude their announcement by urging church attendance upon people every Sunday, and to be on

> "The financial achievements of life assurance companies are so vast as to challenge the imagination. Canadian policyholders have increased from two hundred and forty-two thousand to three millions during the last 25 years, and insurance in force from \$308,000,000 to \$2,188,-000,000." Life companies loaned the Government for war purposes \$182,538,350, and were prepared to loan \$50,000,000 more if wanted. In the United States life insurance constitutes 85 per cent of estates administered in the probate courts, and in Canada the percentage is 40. This shows that life insurance is not yet taken advantage of in Canada to the same extent as it is in the United States, and the difference should be equalized. The difference is the opportunity for in crease in Canada.

> > APRIL IN LONDON.

"Once more in misted April
The world is growing green,
Along the winding river
The plumey willows lean."

It would seem that Bliss Carman must have made this lyric of springmunity, and of agencies that promote time at the place of pictures in and conserve a sound morality on London, where the river flows in clear brown ripples along a curved way of snowy stones for silvery has its roots, directly or indirectly, laughter, and great green-touched In religion, which it is the particular willows for lovely shadows. With function of the Christian Church to an April sunset of grey and pale promote and conserve. By reason of amber for a background, a single human element, the task may not white gull follows the bend in river be perfectly achievable, but the very in lingered, dreaming flight; robins disparagements sometimes aimed at do their utmost to rival the song the church show what is expected of the water, and an oriole "a scrap of her, and are a possibly uninten- of sunset dowered with a voice," tional tribute to her Divine ideals. gives its intermittent whistle of Her business is the welfare of thoughtful happiness, in its busy humanity, and no other organization inspection of the nearby trees. THE BUILDING OUTLOOK. Large employers of labor report labor has resulted in a considerable reduction in building costs, and that as a result contractors are able to put in lower bids on construction work. The significance of this statethat the proportion of direct labor in the total cost of a building varies from 40 to 50 per cent, and in the case of materials the labor charge is from 65 to 85 per cent of the total part of

manufacturing cost. The cost of 48 building materials has declined 16.6 per cent from the and history. Parents who are anxious high mark of last May. In a number enough for their children to have a muhigh mark of last May. In a number of instances materials have receded their lessons on Saturday instead of upto the basis of replacement costs, setting the whole public progress and material well-being of and have even gone below that point. This factor, combined with allowing pupils to absent themselve greater efficiency on the part of music lessons. The state owes the boys labor, may lead to greater activity education at least and nothing excepting during the building season than was sickness should be taken as a legal exanticipated. ### OTHERS' VIEWS

[National Bank of Commerce Bulletin.]

Banking credit cannot be substituted for reduced capital and credit lines must be commensurate with present assets. Business must now recognize that it the same extent as before capital was impaired. It is unsound to attempt to maintain the former high aggregate er rates would not alter this fact. No stitution of capital loans for current

borrowings with serious effect upon the Fortunately, some of the very factors which have combined to make credit adequate volume of business possible on a smaller credit base. It will take less money to do business on a lower measured by physical volume, may take towards conservation should bring about more rapid turnover. For a time also it may well be that even when measured by physical volume, the total of business will be smaller and with sharper competition goods will be bet-

ter made and replacement requirements appreciably lessened. NO TIME FOR TRIFLING.

[New York Times.] The 1st of May is drawing near. Germany's past record leads to the fear that there will be a new German pro-posal late in the afternoon of April 30, intended only for discussion and de-The French are not in a mood to wait much longer. Whatever counter-proposals Germany has in mind must this time be honestly intended, and they must be made in good time, if they are to be seriously considered in Paris. The Germans have had opportunity after opportunity to settle the indemnity ques tion by showing a real willingness to that an increase in the efficiency of the French application of force next month, the fault will be almost entirely

SCORES FADDISTS.

[Chesley Enterprise.] County residents of Kent were fined for keeping their children ment is realized when one considers out of school to take music lessons. Then R. L. Brackin, M. P. P., gets a clause inserted in the public school act reliev ing parents from being subject to a fine non-attendance of their children on certain days when they are taking music Music may be an essential education but it is not so important as learning to read, spell and write well, and have at least an elementary grasp of arithmetic, geography sical education should have them take lum and interfering with the teachers' work-by irregularity of attendance and cuse from parents for their children absenting themselves during school hours If the 14 years is too low, make it 15 school law stuff of having 400 hours a at school of those who have not passe the necessary examinations or are ex cused by being ill or at work. This par accommodation and teachers, and the should be committed to the bug house.

THE TARIFF QUESTION.

[New York Times.]

For a mostly illusive and impossible advantage to the farmers the Young omergency tariff is going to jack the cost of living. The American will have to pay more for his meat, beans, bread, potatoes, onions, rice, lemons, milk, cheese, butter, apples, cherries, more for his cotton and his woolen

cloth. Americans will not be too pa-tient with this levy on all for the sup-posed interest of a class. Foreigners will not be discriminated against with-outs retaliating. So far the Republican sages at Washington show only the smallest signs of understanding the fundamental fact of the situation. Has the Republican party learned nothing? Is a makeshift, political tariff the measure of its business capacity and its comprehension of the inter-related business of this country and the world?

NO CAUSE FOR PESSIMISM.

ANSWERS TO YESTERDAY'S QUESTIONS.

Since confederation, the Dominion Governmeat has granted \$20,575,490 in subsidy allowances to Saskatchewan (1919).

Dr. B. C. Borden is president of Mount Allison University.

Lake Wabamun is a popular beach resort 40 miles west of Edmonton of Henry Hudson, an Englishman, discovered Hudson Bay, but the French first established trading posts there.

The marine department has charge of river and harbor police.

The marine department has charge of river and harbor police.

NO CAUSE FOR PESSIMISM.

Elbert H. Gary, chairman of the United States Steel Corporation, in an interview appearing in May System, declares, "There was never more opportunity than now. One has only to look to see it."

"There is now and always has been ample purchasing power in this country. The normal replacement of things that wear out and have to be renewed is enough to keep a very fair business going. It is not possible, unless prices are out of all reason, for people in general to change their habits; and to without what they have for long been accustomed to. We have a high standard of living: it will continue and will increase. But it is a sign of strength and not of weakness for people to insist upon getting their money's worth through a period they became over-cautious. That will wear away.

We have today a greater immediate

became over-cautious. That will wear adopted in Upper Canada during the time of the union of the two Canadas. It meant "representation by population," and was adopted when the population of Upper Canada exceeded Lower Canada, but the number of parliamentary representatives loomic facts."

CAPITAL, LABOR AND PROSPERITY [Financial Post.!

Once again the common-sense of the British workers is saving the country in a labor crisis which promised a grave industrial upheaval, if not violent revolution. The activities of the disciples of force failed to secure the support which would have made the pro the posed tie-up of industry a success and more moderate counsel prevailed. The radicals, losing confidence that their general strike order would be obeyed by the rank and file of the workers, were forced to fall in with the program of the saner element.

Apart from the psychological factor there was behind the course of events a very strong economic factor. It was realized that the proposed industrial war the people, including the strikers thembe playing directly into the hands of countries which seek to destro British supremacy in industry and trad -and the nation as a whole would bear the consequences.

The success of the trade union has

been largely through the close organiza-tion of small groups of skilled workers thus enabled to impose demands upon the community as a whole. This principle can only be carried so far. the number of organizations increases it means that one must impose its demands upon other groups as well as the unorganized public. Thus in England when the coal miners enforced their earlier demands they advanced the price of coal for the transport workers and the members of other unions, besides creating manufacturing costs under which British industry suffered in competition with other countries, with atendant industrial depression and unemployment.

Commodity prices the world over are declining. The cost of living is going to ower levels. Workers whose wages are being maintained are better off than six months ago. But in order to prevent un-employment it is necessary that the cost of production should be reduced so that normal consumption will be encouraged.

> BIG PROSPECTS. [Winnipeg Tribune.]

The Swift Current Herald, in a com-prehensive review of Western Canadian opportunity, says "even Canadians in Vestern Canada are lamentably lacking taken by and large, in knowledge and appreciation of the unlimited resources and immense possibilities of our Western domain." This is a straight citation of fact. In the midst of world-wide stress, and daily mental contact there with through the marvelous informa ion facilities of our day, there is much distraction, and practical thought is often turned away from the job which is ours and at hand.

First essentials in the success of any enterprise are knowledge and confidence Our duty as westerners is to understand more fully our advantages of nature and this will beget the confidence neces

The Herald declares that "Western Canada is the salvation of the Domin This is a proud and almost defiant boast. Western Canadians have a great initiative part in these con-struction days, and the task requires concentration and a co-operation which eems to be broadening and growing in strength daily.

FROG MUSIC.

birds and your wrens

Just listen to the music of the gobblers and the hens,

And the guineas, and the ducks! There's a voice, too, from the bogs,

makes a right good tootle; it's the hollerin' of the frogs! They come in early spring, about horse radish time;

They sing a song of bees and flowers, or place for summer's clime; But, anyways, they've got the bulge on all the birds that sing; there's so darned many of them

that they make the whole air ring

You walk about at evening, when the ground has thawed out warm; There's an early moon a-flirtin' with

the stars in proper form;
And you hear an orchestry tune in some still roadside pool, With a treble, bass and tenor to beat any music school! Some folks say it's creepy-like, and

solemn, when frogs sing— all hear what we're listenin' for, or sad or sweet-by jing! ear a whoop-te-doodle of the good kind of hope a-gettin' set, and that's

enough for me!

Talk about your thrushes and your martins and your jays; sing or squawk their hearts out in a hundred different ways; hear the sweetest music, and it helps

my trials and clogs,
When Nature whispers: "Let 'er go" to half a million frogs! A CLEVER HUSBAND.

Wife-Mrs. Jones has another new Hubby-Well, if she were as attrac tive as you are, my dear, she wouldn't have to depend so much upon the milli

THE CALL O' THE ROAD. [Jean Knox.] ken a road, a bonnie road, An' the like o' it's unco few— Where the fairies dance to the Pipes of

Pan An' sport in the mornin' dew; Where the violet raises her modest head In the lush-green grasses, as by I tread.

Ah! 'Twas built for me an' you.

Through the forest, green and gay

May preach for you ilka day; Feathery ferns an' columbine:

ken a path, a bonnie path Through a wavin' field o' grain,
Turning from green to mellow gold, Washed sweet by the summer's rain With scarcely at all a weed in sight, It fills the soul with a keen delight, And a grateful heart's refrain

ken a road, a bonnie road. That stretches alang by the heathery An' the lea where gowans hide

Where the laverocks soar, and sweetly sing, An' the gay-hued foxgloves and bluebells A message, "Come ower wi' th' tide

ken a path, a narrow path, An' it leads to the Hills o' Hame, Sometimes it is smooth, an' sometimes

rough

Yet we'll reach there just the same: As we journey on frae year to year-Ah! to hear the "Welcome Hame."

### PARKHILL WOMEN **NOW CONTEMPLATING COMMUNITY LAUNDRY**

Mrs. Dawson Addresses U. F. W. O. Clubs On Community

anning centre" were explained recently by Mrs. M. C. Dawson of Parkhill, when she spoke before a union meeting of the various U. F. W. O. clubs of Oxford County, held in the Y. W. C. A., Woodstock.

This meeting was largely attended.

of Oxford County, held in the Y. W. C. A., Woodstock. This meeting was largely attended.

Mrs. Dawson, who by the way, is editor and proprietor of the Parkhill Gazette, gave a most enthusiastic account of the manner in which the community canning centre at Parkhill is flourishing under the auspices of the Women's Institute. She reviewed its beginning in 1916, when it was started for Red Cross purposes. For the first two years all the products from this centre were sent overseas. Included in the last were fruit, vegetables and chickens, etc., all of which were donated. With the close of the war it was decided to use the equipment for the benefit of the home community, and so the community canning centre was established. All the articles, said Mrs. Dawson, are cooked in steam jacketed retorts and ten pounds pressure of steam may be used. Enamel lined tin cans, which are automatically capped by a capping machine, are used. The cost is placed at 10 cents a can plus 3 cents a can for cooking, with the customer supplying her own goods. All the work

would be

TO OFFER A SILVER **CUP AT JUNE GAMES** Ontario President Meets With

the fresh air is worth it, if delivered according to contract. A much simpler, more dependable, and rather less expensive way to get plenty of good fresh air in a school-room at all times is by equipping the Local Committee To Plan For Championship

Games.

At an informal meeting of the local Name women's golf committee concerned with arrangements for the big championship window screens and go to it—there'll games to be held here during the first week of June, when golfers from all over Ontario will be present, some interesting plans were made. This meeting was held yesterday afternoon at the coal bill, too. Better managed the "Kennels." Mrs. Leonard Murray Measurements: Bust..... simple ventilating method and found of Toronto, president of the Ontario Women's Golf Union, and Miss Effie it satisfactory. Perhaps if somebody Women's Golf Union, and Miss Effiction would gild the screens and do them up in a lot of fancy wrappings, New Mrs. E. B. Smith, president of the Mrs. E. B. Smith, president of the local golf club, presided. At this meet-Dr. John B. Todd of Syracuse has observed the use of cloth screens in city and country schools and before New York or any other town squaners any more good money on playis it might be well to look into dd's reports carefully.

ONS AND ANSWERS.

Milk Diet.

At this meeting it was announced that the local golf club was offering a silver cup to be known as the "London Cup," to be competed for at the June games. There will be fifteen or sixteen prizes and cups in all offered at this Ontario championship golf competition, among them the Ontario championship cup, now held at Hamilton, and a "runner-up" cup offered by Mrs. Leonard Murpress.

ray.

Testerday's meeting was most enthusiastic, the visiting women being loud in their praises of the local links, which they declared to be a distinctly championship course. Had the weather been more favorable they had intended to play over the course vesterday.

Canning Centre.

The next step to be undertaken by the Parkhill women is the establish-ment of a community laundry, and Mrs. Dawson enlarged on the work that would be eliminated in the home it such were the case. As to establishing a community canning centre, Mrs. Daw-son suggested to the women that they

A Comfortable Work Dress or Apron.

direction of Dr. H. W. Hill will be of great benefit to nurses and to the community at large. Nurses will be given a six months' course in this very important work of public health nursing, and will then be available for service in the cities, towns and rural sections of this district.

of this district.

Day Nursery.

Knowing of what inestimable value a day nursery would be to the working mothers of London, the Red Cross agreed to equip the "Creche" and finance it for the first year of its existence. The year is almost completed, and the Red Cross feels that the need and usefulness of the "Creche" has been well demonstrated.

The sum of \$4,500 has been given for this purpose by the society.

The above report was submitted by Miss Ruth Robinson, the honorary corresponding secretary.

Sport in every line has apparently come back to pre-war conditions this year. The evidence is unmistakable now, whereas last year there were still traces of the hang-over from a stalemate produced by the five war years.

Tennis is the latest sport to come in

for wider organization, which will bring growth with it. Not only has the game been organized provincially but West-ern Ontario with its Tennis Association means that more attention will be concentrated on the game than has been its portion in the past. This summer will see in Western On-

This summer will see in Westera On-tario, a big impetus toward track ath-letics—an impetus due in a big measure to the interscholastic meets which have been staged in connection with Western University and to the program of the churches embraced in the C. S. E. T.
Organization and affiliations that will give entry to the larger arenas of sport is what a good many pastimes are in need of, and quite a few are now having that need filled.

The baseball public responds probably to extremes with the greatest alacrity of any public, but even its patience and faith can be strained beyond at least immediate recovery. This was amply shown in the inaugural game of the White Sox at home Wednesday. No gaily bedecked stands, joyous

throng or bands playing featured the opening. It was drab. There were big, gaping holes in the stands that told only too plainly that Chicago fans could not easily get back the faith that had been shattered by misdeeds of the blackened players. And whatever course is taken by law for the punishment of these men, it will have little restorative effect on the fans' betrayed loyalty.

At an amatering recently, we tirely upon the triple to the triple triple to the triple passing the hat, it was more or less striously suggested that it would be a good plan to enlist the help of a sort of female auxiliary to do this stunt.

It's a notorious fact, and those who tote the hat will all attest to this, that a great many who will see a hall game. HARRISTON BOWLERS

Bunch of Old Battle Creek Artillery Expected Monday At Sarnia.

SARNIA, April 22.—Five pitchers, including one southpaw, and three catchers will be among the first batch of players reporting to Manager "Hump" Pierce for the Port Huron-Sarnia Mint League club next Monday. Training of the players will commence on that day with a light workout session to be prescribed by the manager, either on the Driving Park diamond or in Sarnia on the park lot. All the slabmen to report were with the Battle Creek Club in the M.-O. League last year, and all have signed contracts for the coming

The cast of the twirlers is unknown quantity to Manager Pierce He has had each of the quintet under his wing previously, and is pretty well aware of their respective merits and attributes in the role of ball heavers. While not in the least boastful in his assertions, "Hump" firmly believes that there is some good talent and ability among the list of gunners that once turned into form will give the Port Huron-Sarnia Club a strong offensive front. He plans to give the twirling staff particular attention, and a training course that may serve to round then into mid-season form as quickly as pos sible. The string of pitchers to report are: H. D. Horne, Clarence Winters Herman "Lefty" McMillan, Volney "Doc" Bullard, and Jack Worth. The first four did the bulk of the gunning for Battle Creek last year.

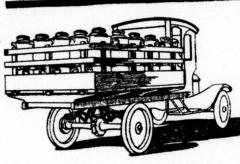

### M. A. A. A. ACCEPTED BY A. A. A. U. AS CHAMPIONS

### MODERN PUBLIC HEALTH

(University Extension Board of Western University.) BY H. W. HILL, M.B., M.D., D.P.H. Director Institute of Public Health of Western University, London, Ontario, Canada.

A Column Devoted to Public Health In All Phases. Guestions Addressed as Above Will Bo Welcomed.

THE MODERN PHYSICIAN. Early Studies.

A hundred years ago the physician had, as mentioned last week, risen from slavery and become a respected member of society, but his methods of learning medicine were still looked at askance by the public. In so far as dissection was concerned, for instance, they felt, as already stated, that the physician should know all about the human body, but they did not want him to learn it by the only possible method—at first hand, by minute, painstaking examination of every part, inside and out. They still believed in magic enough to expect the im-possible—they wanted their bricks made without straw, in the Biblical phrase. They were ready to jump on any ignorance the physician displayed, but were at the same time unwilling to let him have the only method of avoiding ignorance—which

ls study.

MEDICAL SECRECY.

that day, The physician of that day, there-fore, was driven to secrecy—he dissected in secret, he snatched his knowledge almost guiltily (in the public mind), and he was equally secretive about all his methods of pharmacy, diagnosis and treatment. This atmosphere of mystery, portentous silence, impressive dictatorship without explanation, suited out magic-loving forefathers. They abused and persecuted the medical student in his studies, but once he was graduated they elevated him as their attending physician into a sort of demi-god, half man, half devil. who knew all sorts of occult things, but would not tell them—who had a mysterious insight which they could not follow—who knew what was the matter with them without examining them, so that a call from a physician of that day had some of

the thrills of a spiritualistic seance. The best of the practical scientific ends in the investigation and cure of disease by lending themselves, unwillingly enough, to this superhuman pose demanded of them by their patients. The worst of them, the venal, the fake, found in this pose the very best cloak for ignor-ance that could be devised—a really exquisite system for putting over any sort of careless, negligent, stupid work, of patching up mis-takes, or even of hiding intentional injury. This was, remember, in the days when the best medicine was itself in darkness, when surgeons lost from 80 to 90 per cent of all major operations through blood-poisoning, when women in child-birth died like files of puerperal septicaemia, conveyed to them un

wittingly by their own physicians, when nurses were the most ignorant old scuts, who drank hard cider as a matter of course, following, be it said, the physicians, who did the same, although less openly. same, although less openly.
'KNOWING THE CONSTITUTION." It was in these days that there rew up a very remarkable absurdity, the outgrowth of our fore-fathers' belief in a doctor's magical insight, combined with a most lamentable lack of stopping to think

about things. That absurdity was generally put in this form—"I must go to Dr. So-and-So—he knows my go to Dr. So and So—he knows my constitution—no new physician will know that." So far so good—if it were true. But here are the exquisitely simple, delightful fallacies. First of all, this exalted belief in a particular physician's understanding of a particular constitution was derived in many cases from the simple fact of having consulted that physician once before for five minutes, during which time he five minutes, during which time he looked at the patient's tongue, held his pulse a moment and ordered some calomel or laudanum for him! The intent eye of the physician, his grim silence, his lordly manner, gave the patient, ready enough to believe anything unbelievable, to accept anything impossible as gospel truth, the firm conviction

that now and forever after that physician "knew his constitution" and could tell infinitely more about what to do for him in subsequent illnesses than any other physician in the world possibly could. The second fallacy was their second fallacy was this—granted that the first physician could in five minutes of "tongue and pulse and staring" divine the stranger pa-tient's "constitution" so perfectly. what on earth was to prevent a new physician arriving at the same complete knowledge in the same way in any other five minutes contact. But no, our ancestors would not have it so—once their allegiance

### HOW RHEUMATISM CAN BE OVERCOME

was given to a certain physician, by

Not by Rubbing, But by Enriching the Blood.

Rheumatism is a disorder of the blood t attacks people when the blood is over-charged with acid and impurities, thus setting up inflammation in the muscles and joints. Wet weather or cold weather may start the tortures of rheuma-tism, but it is not the cause. The cause is in the blood. Victims of this malady have every reason to fear the first dull ache in the limbs and joints, followed by sharp pains through the flesh and muscles; these are the symptoms of poison in the blood, which will shortly leave the victim painracked and help less. Liniments, hot applications and rubbing may give temporary ease, but cannot possibly root the trouble out of the system. That can only be done by enriching the blood. This new blood drives out the poisonous impurities, and the rheumatism disappears. If you are a sufferer from this painful malady, be gin the use of Dr. Williams' Pink Pills and see how soon the pains and stiffness of the joints fade away. Among those who have benefited by the use of these pills is Mr. Freeman Irving, Bax ter Harbor, N. S., who says: "Some time ago my blood was in a terrible condition leaving me very much rundown, and with boils breaking out on my body. To add to my misery, rheumatism set n. and I not only suffered greatly from the pain, but could only get around with the greatest difficulty. After trying several medicines without much su I decided to give Dr. Williams' Pink Pills a trial, as they had been warmly recommended to me. I think I used nine boxes altogether, but the results met my very expectation, as both the boils and feel that I cannot praise the pills too

nighly." You can get Dr. Williams' Pink Pills

Toronto, April 22.—Women are already equiring at the Government employment the merest accident of time and oureau if their services will be required place and necessity, that physician, good, bad or indifferent, was to be worshipped thereafter all other phyyears past. Fruit-picking camps are besicians were unfortunate accidents, blots on the universe. Any other ing established in Clarkson Burlington patient less supremely lucky might

tended by the one great physician of IS THERE ANYTHING IN IT? There really is a certain point in this "knowing the constitution"— but it is entirely different from the point our forefathers thought it to

have to go to them—but our pa-tient with "his constitution known" was chosen of the gods to be at-

The old time family physician, who had brought children into the world, seen them through their various vicissitudes as babies, tended them as they grew up, did know their medical histories at first hand, and could in the course of years of such experiences (not in five minutes of tongue and pulse and staring!") if he were careful, observant and retentive, recall those medical his-tories, and use this previous knowledge, crudely and uncertainly it is true, as a rough guide in a new

For instance, if the physician had already attended the patient through an attack of smallpox, he would know that another attack he might be called to see could not be that disease at least—because people do not have smallpox twice, or so seldom that a second attack is a medical curiosity. So also if he knew the family had tuberculous members, he would be careful to take tuberculosis into account as a prob-able cause of any lung affection which his patient might develop. If he attended one of the children through an attack of scarlet fever and found a complication of acute nephritis, he would treasure up that fact in his memory and watch the kidneys thereafter very carefully. Physicians of today do the same thing, but much more exactly and perfectly, by substituting for these years of intimate contact and slow learning through experience the taking of a careful, minute medical his tory from the patient by detailed questioning and an hour, a day or two, or a week of intensive exami-nation. That the patient's "con-stitution" can be learned thus by any properly-equipped physician much more accurately and completely than by the old method, and in many directions not even dreamed of in the old days, all in one one-thousandth of the time, is the true basis of the advances in medicine to its present status.

Speeding Up Medicine.

Just as our forefathers traveled by "fast," coach (ten miles an hour) and communicated by "fast" post (15 miles an hour), and thought themselves very wonderful, so we travel 150 miles an hour by aeroplane and communicate at 180,000 plane and communicate at 180,000 miles a second by wireless, but without thinking ourselves wonderful at all—so in medicine. Moreover, the coach and the fast post were mysteries, romantic marvels to our forefathers—while the aeroplane and the wireless are plain business propositions that have no magic or wonder in them, except the wonder of hard work, the magic of persist-ent, careful delving into the intri-cacles of physics, chemistry and electricity.

CHANGES IN THE PHYSICIAN. The physician of today parallels the engineer or the electrician of today. He has lost his mystery pose, but gained immensely in that he really knows some real facts.

Modern medicine is no longer a cult, a system, a philosophy, a religion, as it was amongst savages it is a straight physical, chemical, biological business; an intricate, involved, difficult business, requiring x years of the the university campus for the student to make an adequate beginning; but yet a business, in which the trained, skillful man gives to his patients real, definite value in real service based on real knowled CHANGES IN THE PUBLIC.

The public of today is very different from the public of 100 years ago. There were few public schools then, and what schools there were taught no science, no physics or chemistry or biology. So the ordinary citizen, who makes, remember, 99 per cent of the population, knew nothing outside his own business. Knowledge that is now quite commonplace in our high schools and public schools was then rare even amongst edu-cated people, who, after all, were but a tiny part of the whole race. Now, however, every citizen knows something of physics and chemistry and biology-enough at all events to and biology—enough at all events to know that they are not different forms of magic and are not direct teachings of the devil. A man today may know very little of electricity, but if he wants an electrician to do something for him he knows enough to want a good one, and he gets a trained man, with proper certificates to show. He may know very little of chemistry, but know very little of chemistry, but he does know that it is a definite business, as definite as his own; that there are good chemists to be had, and when he wants chemistry done, he inquires for a trained man, with proper certificates to show. So with medicine. Today people understand as never before that medicine is a science to be one to the control of the contr is a science to be learned by hard work, and they want a medical man who can show that he has had the training that would teach him his

MAGIC LOVERS STILL WITH US. But not all people. There are people even now left—back numbers mentally, belonging really to the times at least one hundred years ago—who think that all science is humbug and that most humbug is science—who believe in mystery and the occult applied even to business propositions—people propositions — people who consult wizards (themselves starving!) about wall street speculations—people who plant their gardens in the dark of the moon and won't start anywhere on a Friday! Such people, of irse, sneer at science their brains; and they cherish hum-bugs—because their brains, from disuse, have turned to butter,

even something not half as useful.

As education increases, as more people are educated, as people learn to see out of their own eyes, and above all, to think, such relics of the dark days become scarcer—but we still have them, and will continue to have them as long as we have ignorance and feeble-mindedness.

# The Most Beautiful Car in America

### Master of the Highway

The owner of a Paige 6-66 model is, indeed, Master of the Highway.

He drives with the serene confidence and tolerant good nature of the true sportsman.

For his car is the speed marvel of modern times—a car that the sporting world has tested and officially proclaimed champion.

The world's stock car record for speed now belongs to Paige—and Paige alone.

When our "Daytona 6-66" model thundered down the beach at 102.8 miles per hour, it proved itself not only a marvelously fast car, but a superlatively good car.

Only giant strength and endurance could survive such a heroic

So these are qualities that you will find in any Paige 6-66.

Because they were fine enough to win a world's championship, it must follow they are fine enough for all amateur demands in years of service.

All this—and more—you can es= tablish for yourself.

We invite you to take one thorough demonstration behind the exclusive 6=66 motor and make a record of the tests.

Then ride in any other car—at any price—and compare the results.

We do not urge you to buy the Paige because of its very great ad= vantage in cost.

We urge you to buy it because irrespective of cost-it offers all that any man can require in luxurious and strictly modern motoring.

"SECRET SERVICE," STARRING ROBERT WARWICK AND WANDA LEY, NEXT FRIDAY AND LEY, NEXT FRIDAY AND ROBERT WARWICK and Wanda ley, will be the main feature at the new of the first and saturday of next leek. The scenes of "Secret Service" are laid in Richmond at the crucial time, when the capitol of the Southern Confederacy was seriously threatened by the federal army. A beautiful romance is woven into the theme, presenting a fast moving story with plenty of human touches, making it an admirable screen subject. In the sup-

tractions which will be shown at the Allen Theatre during the coming weeks. The pick of the film market: Norma Talmadge in "The Passion Flower"; Dorothy Phillips in "Man-Woman-Marriage;" Sylvia Breamer in "Unseen Forces;" R. A. Walsh production "The Oath," starring Conway Tearle; Katherine MacDonald in "Trust Your Wife;" Constance Talmadge in "Lessons in Love;" James Oliver Curwood's "The Golden Snare;" John Barrymore in "Jim the Penman;" Reginal Parker's production "Snowbird;" and many other special productions.

### MAJESTIC.

At the Majestic on Monday, Tuesday and Wednesday the following vaudeville bill will be the first to be produced:

Martelle and West, a snappy, steppy, dancing pair; Dale and Boyle, variety novelty act; Madam Marion Beauclair, the Belgian operatic soprano, from the Opera Comique, Paris, Royal Opera, Brussels and Petrograd, in an artistic song revue, with Jose Robinson at the plano. Beauclair will give her interpretation of "Geisha" and "Carman," in which parts she has achieved much fame and success all over the European continent. Gowns and costumes worn by Mme. Beauclair were specially designed and executed by Malson d'Estelle, Paris, France. Ted and Corrine Breton, in a comedy, singing, talking and musigal act; Sid Lewis, who is here to make you laugh, and the Five Cameo Girls, late feature act with the 'Gayeties of 1920," in a classy singing and dancing act, with beautiful costumes and scenery, will round out what might well be classed as a fine vaude-ville opening.

EVA FAY AT MAJESTIC. VAUDEVILLE AT MAJESTIC.

have been troubling the seekers of knowledge, and 80 per cent of the answers are correct.

Mrs. Fay is one of the most learned persons in the world in the psychic and occult lines. A real daughter of India and her absolutely puzzling and astounding powers were taught her by the Indian Yogis. Years and years of concentration and study are required before an advancement can be made in the science, and while something like ten years of her life have been devoted to deep study, the strides she has made surpass that of many Yogis who have spent their entire lives in attaining the desired pinnacle. Mrs. Fay possesses natural gifts that make her seem uncanny, yet claims nothing for her work other than to give entertainment. If you have any questions on your mind that you need help in solving, ask Mrs. Fay. It may be possible that she can show you the light.

"THE SPORTSMAN."
One hundred thousand dollars worth of fun is being offered by the Grand, where "The Sportsman," a new Larry Semon comedy, will be shown on Monday, Tuesday and Wednesday.
From the moment Larry Semon's feet appear beneath his palm leaf blind as he stalks the rabbit backward, until his final surprising escape from a coil of terrifying circumstances, the audience is kept roaring with laughter.
Besides its mirth-provoking qualities, "The Sportsman" contains many spectacular scenes, including a dance hall in the harem of the sultan of Turkey. ELAINE HAMMERSTEIN IN "THE DAUGHTER PAYS."

DAUGHTER PAYS."

Elaine Hammerstein will essay in her latest picture, "The Daughter Pays," which comes to the Grand next Thursday, Friday and Saturday, a role that offers greater dramatic and emotional opportunities than any she has yet appeared in. In the screen version of the story by Mrs. Baille Reynolds, the star reveals two striking domestic questions that cannot but retain the interest of motion picture audiences.

Miss Hammerstein is cast in the role of a serious, refined and sensitive girl,

Miss Hammerstein is cast in the role of a serious, refined and sensitive girl, who is forced to bear untold humiliation in her marriage of convenience with a wealthy man, whose one object in life is to make the daughter pay for an injury done him by her mother.

Robert Ellis has an important role in the supporting cast, and he also officiated in the capacity of director. Norman Trevor will be seen in the leading male role, and Theresa Maxwell Conover is prominent in the supporting cast. Also on the same program a special

when it was repeated to her vice protested:

"I am not great. I am not even well known, even in Russia. I have played in St. Petersburg only one season. In Moscow and in some of the smaller towns they like me a little, I think."

Now on the screen her popularity and reputation have reached every part of the world.

"Clothes?" she repeated the question.

"Clothes?" she repeated the question.
"I like to dress my parts as they should be dressed. Of the stage I do not care for them. I always wear black, and the plainest, least expensive things. I prefer to feel comfortable always. I do not care for jewels, either."

The picture program further consists of a Torchy comedy, "Jazz Janitor," and Loew's Screen Pictorial; also the usual vaudeville.

ETHEL CLAYTON WANTS REAL HOME. Ethel Clayton, the charming Para

I want," said Miss Clayton, in speaking of her hope, "but it will do. I really want to return to one of the old domestic dramas like I used to do."

Miss Clayton does admirable work in contrasting the simple domesticity of her Australian home and the complex management of the England estate.

Together with a Capital comedy and Loew's Screen Pictorial and the usual vaudeville.

### "Purify the Blood"

THIS is the doctor's advice to most people whose blood he analyzes at this season of the year.

Overeating of artificial foods, combined with too little outdoor exercise, leaves the human system clogged with poisonous impurities.

The li er is torpid, the bowels constipated and the kidneys so overworked that they become ineffective as filters of the blood.

The most rational treatment is Dr. Chase's Kidney-Liver Pills because of their combined action in arousing these filtering and excretory

organs to healthful activity. Mrs. Albert Brunet, R.R. No. 1, Ottawa, Ont., writes:

"I have used Dr. Chase's Kid-ney-Liver Pills for the past two months, having been afflicted with kidney trouble. I used two doctors' medicine previous to this, without any good results. A friend told me to use Dr. Chase's Kidney-Liver Pills, and the seckidey-Liver Pilis, and the sec-ond box made me feel a good deal better. I have now used about six or eight boxes, and am completely relieved. I shall al-ways praise Dr. Chase's Kidney-Liver Pills, and tell my friends about the benefit they have been

tourists will find living conditions much the same as they were before the war. Americans motoring through Germany or traveling on trains are courteously treated. There is no longer any disposi tion to resent the use of the English

It is almost impossible under present on to pay a special tourist tax of 2½ fixed schedule in Central Europe, espeto 6 francs a day if a bill which has cially if their trip necessitates the cross-

normal between Berlin and Prague and Berlin and Vienna. There are no fast boat trains now between Berlin and Hamburg and Berlin and Bremen, such as existed before the war.

The great German steamship lines coperating with American lines now operate touring companies of their own, which are prepared to conduct parties throughout Germany at a fixed price, the sun, starting at the rate of 1.100 fares, guides and carriages. The rates are higher than before the war, even the favorable American exchange into consideration.

# **JAPS TURN EYES**

Nipponese Influence Sought To Be Extended To Aid Mediterranean Trade.

PARIS, April 22 .- Japan has just aken an important step in furtherance of her interests as a world power and has appointed a high commissioner to Constantinople, who later will have the rank of ambassador. Japan had no diplomatic representative at the Turksh capital before the war.

In taking this step, Japan's first aim is probably to make her strength as the principal power in Asia felt, even in Asia Minor. Her second aim is to keep watch over Russia in the west as

vell as in the east.

Her third purpose is to extend her field of political action with the great powers beyond the sphere of the Pacific and the Far East.

For Turk Nationalists. With a view to limiting Russia's renewed territorial expansion in the Near East, Japan seemingly intends to sup-port the claims of the Turkish Nationiste In this she will find herself in agreement with France and in disagreement with Britain. At the same time, Japan's general policy harmonizes rather with that of Britain than France. This situation, it is expected here, will This situation, it is expected here, win enable Japan to negotiate profitably with both. In return for support against the United States in questions relating to Shan-Tung, Siberia and the Pacific Islands, she will have something definite from the western powers in the

Japan's policy since the peace confer- and pain from your body. ence has been in striking contrast to that of the United States. Japan has no faith in the League of Nations and

obtains first hand information of all the activities of the league and supreme council, defends her own interests in

both and at the same time accepts no definite responsibility in Europe. Japan profits by all privileges granted her under the peace treaty of Ver-sailles without even bothering to asl herself whether the acceptance of these privileges harmonizes with her more general policy of "Asia for the Asiatics," for example. Like Britain, France and Italy, she has two delegates on the Dardanelles and Bosphorus Straits commission, which controls all communication between the Mediterranean and the Black Sea. The two places accorded the United States on this commis-

ion still are vacant.

If Japanese commerce in the Eastern Mediterranean and Black Sea fails to prosper, it will not be the fault of the Japanese Government.

# **PASTOR SAYS EARTH**

Destruction.

DETROIT, April 22.-The world traveling on its way to destruction at the rate of 600,000 miles a day, so the Rev. George T. Gullen of the West man and that man's life on it is per-Grand Boulevard M. E. Church believes. In the smaller cities and villages the That was a sure thing, he declared, and further he said there are at least eight other ways in which the old world may come to its end before the fatal ending of the "death journey."

First, he declared, the axis of the earth moth decide to shift about a few anditions for tourists to travel on a degrees, with the result that the oceans would sweep over the dry lands and deing of boundaries. Passports offices are stroy all life before an ark could be frequently crowded. Much time is lost in getting visas and trains have interminable waits at customs stations. in getting visas and trains have interminable waits at customs stations.

Through trains are now operating between Paris and Warsaw, which makes the rail trip to Poland and the Baltic States far easier than it has been since the armistice. Trains will soon be run from Berlin to Riga, Latvia. Barring passport annoyances, travel is almost earth passing through the tail of a cornel, between Berlin and Prague and ormal between Berlin and Prague and comet, or this planet might collide with

which are prepared to conduct parties, the sun, starting at the rate of 1,100 including hotel accommodations, railway miles an hour and be consumed. If the rate of rotation were accelerated the earth would fly out into a temperature of 400 degrees below zero and the oceans would be frozen to their utmost depths. Other ways by which Mr. Gullen could see the world come to its end were the closing up of all volcances and other vents for gases, the inevitable result of which would be a terrific explosion that would shatter the world or bring

## Minister de l'Agriculture de la

### Province de Quebec

Service de l'horticulture.

Quebec, le 6 Avril, 1921

Messrs. Tilbury Brick and Tile Co., Ltd. Tilbury, Ont.

Gentlemen: -

I acknowledge receipt of your shipment of 25,000 four inch tile which reached Portneuf last week.

Allow me to congratulate you on the way these goods were loaded on the cars. If we keep in mind the distance existing between Tilbury and Portneuf, it is surprising to note that out of a total of 25,000 tiles only 170 were broken. This testifies highly in favour of your factory, the quality of your tile and the care taken in view of protecting same.

I am having your account settled at once...

Thanking you for your prompt attention in this matter, I am,

Yours truly,

(Signed) J. H. Lavoie,

Chief of the Horticultural Service.

JHL/IM

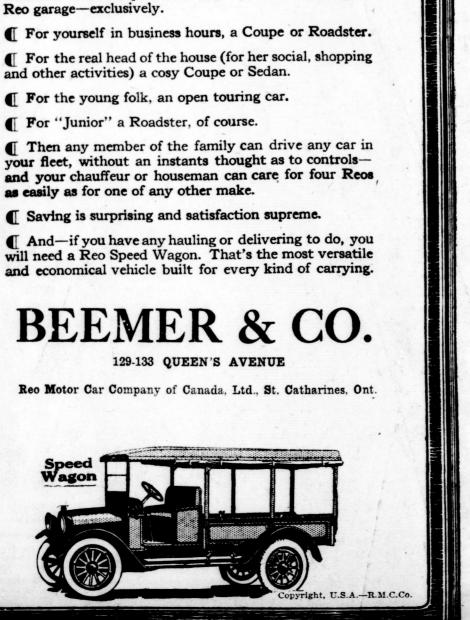

Portneuf is situated 137 miles northeast of Montreal, and is 670 miles from Tilbury. The freight rate is nearly as great as the cost of the tile at Tilbury.

Cars shipped to Portneuf were switched at least five times. It takes exceptionally good ware to stand this strain.

Ontario Agricultural College tests show that "Tilbury Tile" stand greatest breaking strain, and are unexcelled in all other tests.

Buy "TILBURY TILE."

THE TILBURY BRICK & TILE COMPANY, LTD. TILBURY, ONT.

are doubtless influencing and will con-tinue to influence other exporters to transfer their business to other ports,

unless there be a speedy and radical improvement in the terminal and shipping facilities of the metropolis.

Transportation conditions in New York last year were made particularly difficult by the strikes of the truckmen

and the stevedores, which for a time almost paralyzed freight traffic. This

condition alone alienated much commerce from the port of New York. Fur-thermore, with the exception of the Bush terminal development and the

plant of the New York Dock Company, this port has little or no terminal facili-ties now available that can compete

with cities which have railroad trackage connecting trunk lines directly with their ocean piers, and extensive and

convenient warehousing and storage facilities in connection therewith. Whatever rail-borne freights destined

for export may arrive in Manhattan must be transported to ocean piers by trucks, and the cost of trucking last

year, in the opinion of many extensive

shippers, became well night prohibitive. If the merchandise for export arrives at

all this, warehousing and storage facili. ties in this port are notoriously inade-

Many shippers from New York, fur-thermore, complain that they suffer be-cause of the stranglehold maintained

will not permit a tobacco shipper to put

his own experienced men on that Job even though he be content to pay the

union wage scale. In Philadelphia and New Orleans, shippers say, union re-strictions are not so ironclad. "In Philadelphia," said a representa-tive of the Swedish concern, "railroad

idings in most instances run .irectiy down to the ocean piers. But, whether they do or not, our cargoes there are

delivered either by rail or by trucks on the piers, and are even unloaded by the railroads. The freight charge includes all transportation, and our only extra

expense is for recoopering. We have no trucking or lighterage to pay at exorbitant rates, and we have the privil ege of storing our tobacco on the upper

quate and costly.

Nothing Else is Aspirin

### hiladelphia, with the remaining onethird divided about equally between New Orleans and Charleston. In the current ear according to the American reple-ABANDON N. Y. PORT sentatives of the Swedish tobacco mon-opoly, fully one-half of their total exort of domestic tobaccos will be shipped from the port of New Orleans. The other half will be divided between Philadelphia and Charleston, with New

York shipping virtually none of it.

There are several reasons why the port of New York has lost this export business, and the same reasons which have caused a change of policy on the part of the Swedish tobacco monopoly

A DRAWBACK

Indications That Exporters

New York, April 22.—Costly and in-adequate shipping and terminal facilities have caused the Swedish tobacco mon-opoly to abandon the port of New York almost entirely as a base from which to export tobacco to the Swedish ports of Stockholm and Gothenburg. Philadelphia, New Orleans and Charleston are the ports most favored now by this exporting organization.

This shift of base is only one more

illustration of the vital need of New York to extend and improve her port terminal and transportation facilities f she does not desire to see a great proportion of her ocean-borne com-merce gradually absorbed by other

The importation of tobacco into Swe Operating for export only, the United States office of that organization is ocated at 135 Broadway. It supervises the New Jersey terminals, then the heavy cost of lighterage becomes an equally important factor. In addition to located at 135 Broadway. It supervises the export from United States ports of about 7,000 tons of tobacco a year, of an approximate value of \$2,000,000. In 919, when the demand for ships to carry export cargoes was great and shippers had to do the best they could almost egardless of cost, the greater part of export trade was shipped out of

New York harbor.

But not a pound of it has gone from New York now in many months. During stance, must be packed in hogsheads, and with a nicety attained only by x-perience. But labor organizations here will not permit a tobacco shipper to put

### JAPANESE NAVY **GROWING DAILY**

Nippon Folk Keep on Building War Craft in Accordance With Set Program.

TOKIO, April 22.—Japan's present naval program which, say officials, will be completed whatever may be ar-ranged with foreign powers as to future curtailment, means more than the creation of the so-called "eight and eight" units.

eight" units.

The phrase "eight and eight" signifies, according to the official view here that Japan will build until she has eight first class battleships and eight first class battle cruisers, but it also signifies another "eight," namely, that when one of the above sixteen units reaches the age of eight years, that unit passes to the second line, to be replaced immediately by a new ship of the latest design. Will Have 16 First Class.

It is pointed out therefore that Japan's future navy, as at present out lined, will have sixteen first class fight-ing ships of the latest construction as well as numerous ships of the second line to which the warships now build-ing will fall when a period of eight years makes substitution necessary. Hence, adherence to the "eight and eight" plan means constant building and constant big expenditure. It is this continuing outlay to which Ex-Minis-ter Yukio Ozaki takes objection in his campaign for an international agree-ment for naval restriction on the ground that the budget involved will prove disastrous for his country.

Comparison of Strength.

A comparison of the strength of the navies of Japan and the United States shows, according to the view held here, shows, according to the view head here, that in 1921 Japan will have one fewer major ship, two more light cruisers, 220 fewer destroyers and 11 fewer submarines than the United States. By the end of 1923, if the programs of the respective countries are carried out the United States will lead Japan 16 in major warships. She will have 231 more destroyers and 24 more submar-ines, but on the other hand the Am-erican light cruisers will fall behind Japan's to the number of three. By the end of 1927, Japan will have two fewer hig ships, three more light cruisfewer big ships, three more light cruisers and 47 fewer destroyers. Japan is,
however, devoting herself to submarines and it is expected that by 1927
she will beat the United States in
submarines to the number of 32.

Will Be in the Same Position,
If the United States does not start
a new program after 1923 (either replacing old ships transferred to the

placing old ships transferred to the "second line" or augmenting her fleet) Japan, it is held here, after big expenditures and continuous building at her maximum capacity will, in 1927 only be in practically the same relative position as she is today, 1921. If, on the other hand, the United States, after 1923 adopts a new building program of only replacing the ships ing program of only replacing the ships going into the "second line," which is regarded as not only a reasonable assumption, but almost a certainty, then, it is the contention here, that Japan in 1927, will occupy the same relatively weak position that she will have in 1922

have in 1923. United States Disregarded. Those favoring Japan's entering an international restriction agreement ex-press the opinion that Japan's plans are laid without any thought of the United States policy after 1923. And further, that if Japan seriously favored or desired disarmament for herself she would take the lead in trying to force the world to accept it, immedi-ately, rather than sit back and permit the United States and Great Britain to

ately, rather than sit back and permit
the United States and Great Britain to
take the initiative.

Appearances here indicate that Japan is doing everything to expedite her
building program. Admiral Kato, the
minister of marine, recently told the
Diet that the following in England of
the principle of the division of work
made it possible to build more quickly made it possible to build more quickly and at the minimum expense.

British Policy Adopted.

Heretofore it has been the policy of the Japanese navy to make each navy

complete a unit as po

When the policy of rapid naval expan when the policy of rapid naval expansion was adopted, it was found that such yards were not capable of quick expansion, in the meantime, private manufacturing facilities have developed to such an extent that the navy can now depend on some of them to supply much of its required materials

hard, the Missubishi torpedo fastory have been considered with being the large of Nayoga and Sasebo, the development of the ordnance section of the Muroran Steel Works and numerous other small projects are believed to

can now depend on some of them to supply much of its required materials. It therefore is considered probable here that the British policy cited by the minister of the navy has been adopted by the Japanese navy deposit Mutsu. Kaga and Tosa will be in comment.
The largest simultaneous establishment of the new naval gun factories at Hiro and Sasebo, the naval arsenal in Sunoki, which includes 800 acres of land, the Mitssubishi torpedo fastory

battle-cruisers Amagi and Akagi are expected to be placed in commission by that year. By 1927, six new battle cruisers are expected to be added

making a total of eight.

Turning Out Submarines. In addition to pushing this contin ous building program it is understood that Japan is turning out submarines that Japan is turning out submarines as fast as possible, realizing that under-water craft are best adapted to the defence of her empire which is composed of so many islands, and believing that, finding shelter as they can in the rocky inlets, they will offer a serious menace to ships advancing to attack in the dangerous channels that surround the Nippon

was summoned to administer the last rites. He was John Reilly, the former soldier, who was taken from his home at Ballycar by armed men Wednesday night and shot to death

The priest was called after Reilly had been severely wounded. With the arrivel of the priest, the raiders poured pistol shots into Reilly, killing him. A abel was pinned to the body, reading Executed by the Irish Republicar Army. Getting them at last. Beware!

ATTEMPT CONFERENCE

Following the recent visits to Ireland of Lord Halldane and Sir William Sutherland there arrived in Dublin last evening another reputable emissary of the Government, the Earl of Derby. Whether he comes authorized to speak officially for the Government is a subject of eager speculation here. It is understood that neither Lord Haldane nor Sir William was so empowered, and the efforts of the former to secure an interview with Eamonn De Valera and Arthur Griffiths falled on that account. Lord Haldane, however, is reported to have talked with Professor John MacNeill in Mountjoy prison.

Information from Republican sources

# BEWARE OF

neglecting a cold, or exposure to wet and inclement weather. It begins with a tightness across the chest, difficulty in breathing, and a wheezing sound comes from the lungs. There is a raising of phlem, especially the first thing in the morning. This is at first white, but later becomes of a greenish or yellowish color, and is occasionally streaked with blood.

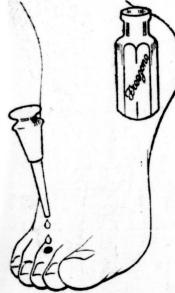

On the first sign of bronchitis you should check it immediately by using Dr. Wood's Norway Pine Syrup, thereby prevent it becoming chronic, and perhaps developing into some more serious lung trouble.

Mrs. Brice Culham, Sheffield, Ont., writes: "In December, 1319, I was very ick with bronchitis, and had to stay in he house all winter. One day I saw Dr. Vood's Norway Pine Syrup advertised.

I got a small bottle which helped me ery much: I then got a small bottle which helped me ery

### **BIG TURNOVER ON NEW YORK MARKET**

Dealings Are Approximately Largest of Any Session This Year.

NEW YORK, April 22.—On dealings approximating the largest turnover of any session so far this year the stock market today moved forward in ah impressive manner, numerous issues sharing in the extreme gains of 2 to 5 points.

Points.
Factors which contributed in varying degree to the advance included easier money tendencies, more favorable trade prospects and cables from London which seemed to justify hope of an early and satisfactory outcome of the British coal strike

strike.

Much of the day's advance was ac-Much of the day's advance was ac-complished at the expense of an exten-sive and over-confident short interest, tut no small part of the movement was credited to cumulative buying for the long account, including out-of-town de-

mand.

Dealings comprehended an unusual variety of popular issues, although oils, motors and kindred shares were especially prominent and scored the most substantial gains. Outstanding features of those groups comprised Studebaker, General Asphalt and Mexican Petroleum

Crucible and United States Steels and several of the popular equipments also evinced unwonted activity. Rails held back until the last half of the session, when they were brought forward with many dormant sneedalties.

many dormant specialties.

Profit-taking proved a strong temptation in the final hour, reactions of 1 to 2½ points resulting from selling of that character, together with a suddenties in call money from 6 per cent to 6½ per cent. The total sales of stocks amounted to 1.125,000 shares.

Declings in foreign exchange were Dealings in foreign exchange were comparatively light to yesterday's activity. Germany's latest mediation plea

without visible influence on rates was without visible influence on rates o London and continental points, aside from recovery in marks. In the bond market all Liberty issues strengthened and local utilities alto improved. Success of the Goodyear offering was regarded as indicating a petter investment inquiry. The total sales of bonds, par value, aggregated 23 175 000.

TORONTO RAILWAY MAKES FAIR GAINS

Closes 3 1-2 Points Up-Winnipeg Also Advances -Both Active.

TORONTO, April 22.—Riordon still struggled for stability on the Toronto Stock Exchange today. It was apparent that negotiations were proceeding with a view to surmounting the company's financial troubles, and while that lasted the stock was in an uncertain position. At first there was a good upward movement in the morning, carrying it up to the stock was in a structure of the stock was in an uncertain position. The upward tendency of the wheat ment in the morning, carrying it up to 45, but afterwards it weakened to 33, market began at the opening, and with and closed at 39%, a loss of 31% points only brief interruptions continued to be manifest throughout the day. Aside

and closed at 33%, a loss of 3½ points for the day. The position of the company seems to have resolved itself into a matter for the banks and other backers, it being understood that certain American interests were figuring in the negotiations. Other papers were inclined to be steady.

Toronto Railway and Winnipeg Ra!!—way supplied the chief constructive developments of the day. The former at 72 closed 3½ points up, and the latter 1½ points higher at 41, both being uncommonly active. There was no freshnews regarding Toronto Railway, which not not continued to be disposed to realize freely. Export sales to Belgium and Germany helped to bring about rallies, however, and the market closed at the top most figures of the day.

Corn and oats were strengthened by for the sale of its subsidiaries. To day's high at 72¼ was close to the high of 74 early in the year, which had not been reached by Toronto Railway for some years. Brazilian was somewhat erratic.

As a matter of fact, the closing prices of Canadian stocks for the day were generally reactionary from the prices of Canadian stocks for the day were generally reactionary from the prices.

some years. Brazilian was somewhat erratic.

As a matter of fact, the closing prices of Canadian stocks for the day were generally reactionary from the prices prevailing around noon. In several instances there was a pronounced rally which was not maintained. This gave the market something of an appearance of insecurity, and led brokers to leave the exchange at the close without any market confidence for the morrow. Both issues of Steamships moved up, but failed to hold their high for the day. Nipissing rallied after the publication of its annual report, closing 17c up at \$6.92. Dome was steady and closed unchanged at \$23.50. McIntyre and Lake Shore made appreciable gains.

Victory bonds were steady, and the statement of the minister of finance that the \$19,000,000 taken over from the market committee had been disposed of to actual investors by February 21, and that any weakness in the market since then could not be attributed to the absorption of that block.

Total trading: Listed stocks, 3,400 shares; unlisted stocks, 10,145 shares; bonds, par value, \$207,650.

TORONTO SALES.

Provisions advanced on packers' buying. At first, however, the market was weak, owing to a temporary break in the value of hogs.

PEG GRAIN MARKET

IN STRONG ADVANCE

At Close Registers Gains For Both July and May Wheat.

WINNIPEG, April 22.—The local wheat market today again showed a strong advance, especially for May, and at the close a gain of 6½c was registered for May, and 1½c for July. The tight situation in the May contract was responsible for the strength. The July future was not displaying the same strength, thus increasing the already

# An Opportunity That May Never Come Again

"There is a tide in the affairs of men which taken at the flood leads on to fortune,"—Shakespeare.

The time has come for every Canadian citizen to do hard thinking, and act quickly. Oil in vast quantities has been discovered in the Fort Norman area, and the "Last Great West" seems destined to become The World's Greatest Oil Field.

What does this mean? To those with sound judgment and foresight, it is the opportunity of a lifetime, a chance to get in on the ground floor and share generously in the profits which are bound to result when oil in quantities is struck.

Nine months ago the skeptics laughed at the idea of there being a gusher area in the Canadian West, but the first well drilled at Fort Normal resulted in a 2,000 bbl. a day flow. Following this, they claimed it was impossible to market the oil, due to distance and lack of transportation-today large river steamers ar running on regular schedules, gasoline launches, motor tractors and pack trains are being employed, three railway companies have

asked for charters to run lines into this territory, and hundreds of tons of the most modern machinery for development purposes is being rushed forward. IF SUCH PROGRESS CAN BE MADE DURING THE WINTER MONTHS, WHAT WILL THE RESULTS BE THIS SUMMER?

Grasp this opportunity. Invest in a real Oil Company while you have the chance and the price of shares is low. When the boom comes, and it's coming shortly, you won't be sorry. We strongly recommend the purchase of shares in

The Fort Norman Oil Company, Limited

(No Personal Liability) a company having extensive acreage in the Fort Norman fields, on the same structure and within one mile of the Imperial Oil Company properties, where the big 2,000 bbl. gusher was struck. This company also holds leases on 2,308 acres at Windy Point, Great Slave Lake,

where the Imperial Oil are now drilling. Complete drilling equipment, sufficient to drillthree wells, has been purchased. This is being shipped at once to enable development work to commence on the Fort Norman properties this Now is the time to purchase shares, before the boom sets in. What will shares in this and other companies be worth once the development work this summer gets under way? You can

We offer a limited amount of these shares at \$1.00 Per Share

TO THRIVE ON EGGS

BILLINGS, Mnt., April 22 .- An egg is an egg-in Montana-and it is also a poker chip with some of the ranchers and settlers on homesteads which have not for the past two years paid very liberaly on the investment because of

little friendly game of penny ante. It's the nature of the westerner to court chicago, April 22.—Forty feet under ground Chicago has one of the most unique subway systems in the world. Devoted entirely to the hauling of freight, it keeps the congested loop district comparatively free of heavy traffic venicles. Officials of the little quiet game with the neighbors.

3,000 freight cars hauled 6,000,000 tons of merchandise and 230,000 tons of contents of baskets being gingerly carried of an evening to some particular neighbor's home. Housewives, accusneighbor's home. tomed to depending on the "egg money"

the unusual drought and accompanying

Scores of downtown office buildings and stores receive their freight direct from the railroad depots via the subway. Their coal comes by the same route, and at night the ashes are hauled away through the underground tunnels, to be dumped on the lake front, where acres of land are reclaimed yearly. The ground on which the lands of the substitution of the lake another, recognized in the past as denendable in doing his bit to supply the

# HEAVY OFFERINGS

Buying Competition Is Not So Keen-Montreal Prices

OTTAWA, April 22.—Offerings of eggs from Ontario country points are heavier, indicating the buying competition is not so keen. Eggs in storage, April 1, 16.—223 cases; fresh, on floor, 17,299 cases; frozen, 610,555 pounds.

Toronto—Unchanged: country shippers offering storage packed firsts at 38c, f.o.b., cases free.

Montreal—Firm; unchanged.

Edmonton—Receipts increasing; fairly liberal quantities moving into storage; consumptive demand reported heavy.

Vancouver—Firm; country points, 31c; specials, 34c; jobbing, specials, 37c; do., firsts, 35c.

St. John—Receipts costing 28c; jobbing, 34c; retailing, 38@40c.

Chicago—Unchanged.

New York—Unchanged; tendency to lower levels.

POULTRY:

ower levels.

POULTRY:
Edmonton—Few frozen chickens, jobing, 33@37c; fowl. 30@35c.

MONTREAL. April 22.—There was a
irm feeling in the egg market today.

A strong feeling developed in the but-

A strong feeling developed in the butter market.

Butter—Choicest creamery, 52½@55c.
Eggs—Fresh, 38c.
NEW YORK, April 22.—Butter—Unsettled; receipts 5.859 tubs; creamery, higher than extras, 44½@46½c; do., extras, 92 score, 44@44½c; do., firsts, 88 to 91 score, 40@43c; state, dairy, tubs, good to finest, 43@44c; packing stock, current make, No. 2, 21c.

### IMPROVED TONE IN WHOLESALE GROCERIES

LIVERPOOL, April 22.—Cotton—Spot, quiet; prices easy.

American middling, fair, 10.49d; good middling, 8.44d; fully middling, 7.89d; middling, 7.24d; low middling, 6.19d; good ordinary, 4.94d; ordinary, 4.18d. The sales of the day were 4,000 bales, including 2,800 American bales. The receipts were 14,000 bales, including 9,500 American bales. The futures closed quiet and steady.

LIVESTOCK. The following comment on the market situation as regard foodstuffs appears in Canadian Grocer this week:

Business in wholesale circles during the week under review has shown a better tone, and an improved movement is noted. Retail business has also been better, apparently retail merchants are gaining more confidence, buying more freely as the markets are gradually showing a greater, tendency towards stabilization.

The strength of the nut market is

CHICAGO.

CHICAGO. April 22.—Cattle—Receipts 6,000: market generally steady: top vearlings, \$9.25; top heavies, \$8.65; bulk beef steers, \$7.75@8; fat cows and heiters, mostly \$6@7; bulls, weak; bulk, \$5.50@6.50; veal calves, steady to higher; bulk vealers, \$8@9.

Hogs—Receipts 29,000 market active; opened 10c to 25c lower; lights off most, closing steady on lights, and steady to strong on others, compared with yesterday's average; top, \$8.50; bulk, \$7.75 @8.35; pigs, slow, 15c to 25c lower; desirable pigs, \$7.75@8.25.

Sheep and Lambs—Receipts 10,000; lambs, generally steady; medium kinds, weak; top wooled lambs, \$10.50; bulk shorn lambs, \$9@3.75; no sheep or yearlings here; choice 62-pound shearing lambs, \$8.50. The strength of the nut market is the strength of the nut market is the rhaps the real feature this week, nder heavy buying on the part of imprers, supplies in primary markets, rticularly on French shelled makets, porters, supplies in primary markets, particularly on French shelled walnuts, show signs of becoming exhausted long before the new crop is harvested. Almonds are also firmer, and prices have advanced several cents per pound. Pecans are holding strong under an active demand for the small supplies available. The free deals on some brands of laundry soaps as announced last week have been withdrawn, and a straight reduction is in effect. This reduction has stimulated buying on soaps, as stocks in retail stores have been fairly light for some time.

Wholesalers in Toronto report an increased demand for canned fruits, for which, during the past season, there has been little sale. One wholesaler stated that during the week their sales run to over 200 cases of fruits. Canned vegetables are ruling fairly steady at

getables are ruling fairly steady at hanged prices.

There is a rumor of a monketting of jams, which is likely tohave the effect of stabilizing prices and putting all brands of jams on the same price basis. Some wholesalers in Toronto have advanced their prices on jams on certain brands, more in line with manufacturers' price lists.

Dried fruits are ruling fairly firm on all lines. Rices are weak and lower. Teas and coffees are unchanged, the market holding firm.

Flour and cereals are in a weak position with prices reduced. Millfeeds also show a reduction.

There are now new developments in the sugar market, refined sugar is steady at the refiners' price basis, although many wholesalers are selling at irregular quotations. The raw sugar market has been fairly steady during the week.

The egg market has firmed up with

the week.

The egg market has firmed up with prices higher. This is attributed to some extent to storage operations becoming more general. Butter is weak and lower prices are likely. Hogs and hog products are also weak with lower prices in sight.

### MORE PRICE CHANGES

Hardware and Metals in this week's issue says:

Price changes continue on many hardware lines this week. Galvanized wares, including palls, tubs and garbage cans are reduced in price. Other reductions include plated butts, barrel bolts, shelf brackets, wheelbarrows, drag scrapers, seine twine and coal oil. Lower quotations are made on some makes of wash boards, ratchet braces and steel squares.

A new design has been introduced in a well-known safety razor, and the older patterns are being reduced in price. Hockey sticks for fall booking are slightly reduced. A firmer tendency is visible in linseed oil and turpentine, although prices are unchanged. Little change is shown in basic lines of iron and steel, though some slightly lower quotations are reported on sheets, plates and bars. The scrap market remains dull, and ingot metals show little increase of activity, but are inclined to be firmer.

In the primary steel markets the active of the Steel Central steel. In the primary steel markets the activity of the Steel Central steel. Building, London, at the close of the steel central steel.

A year ago Mr. Pushwell purchased in and the property on Main street near the claimed. creek bridge, the creek running through it. Mr. Pushwell decided he could find no better location for a store so he receke. The cellar of the building is 60 feet long, 40 feet wide and 10 feet high. The cellar bottom is planked with four-inch hardwood plank. The creek runs ens all American manufacturers, be under the building.

Drops Into Deep Hole.

The creek for half a mile before reaches the building averages 10 feet deep, then drops into a deep hole, the water under the building being 25 feet

The creek is inhabited by perch, sunfish, reach and bullheads and is known as one of the best fishing streams in this

section. Mr. Pushwell is an ardent fisherman New Year's morning, he went to his cellar, removed a plank, took a long fish line with a hook and sinker on the end of it, baited the hook with salt pork, drove a nail into the plank tied one end of the line to it, dropped the hook into the creek and returned to his office. An hour later, Mr. Pushwell went to the cellar, pulled the line from the creek and landed a perch eight inches long. The nanded a perch eight inches long. The next afternoon, he put his fishing rod together, went down cellar, removed a plank and fished. In an hour's fishing, he landed 11 sunfish, 16 perch and 18 roach. His catch weighed 25 pounds.

Was Always Rewarded. During the long winter evenings, Mr Pushwell took his rocking chair to the cellar, and fished, and was always re-

warded. For several weeks Mr. Pushwell pre-sented his customers with a mess of fresh fish. He would laugh when asked fresh fish. He would laugh when asked where he caught them, and his customers were puzzled. One evening, weeks ago, the fish mystery was solved. Mr. Pushwell's neighbors had been trying to find out where he secured the fish. They passed his store late in the evening and saw a light in the cellar. Mr. Pushwell had forgotten to draw the curtain over the window. There he sat in his rocking chair, rod in his hand, smoking and fishing. The next morning the neighbors accused Mr. Pushwell of fishing in his cellar and he admitted it.

Invited Them To Join Him.

Mr. Pushwell invited the village to

NEW YORK, April 22.—Raw sugar was quiet today, and as no fresh business was reported prices were unchanged at 4%c for Cubas, cost and freight, equal to 5.64c for centrifugals, with uncontrolled sugars quoted at 5.27c for centrifugals.

Refined sugar was easier with prices unchanged to 25c lower. Fine granulated was quoted at \$7.20 to \$7.50.

There was renewed selling in sugar futures, and prices at mid-day were 8 to 11 points net lower under selling by trade and commission houses.

METALS AND OILS. Mr. Pushwell invited the village to enjoy the sport with him. Evenings, rom 10 to 20 members of the "Ike" Walton Club can be found in the cellar fishing. Each fishermen has his camp Three rows of plank are remove the entire length of the cellar, so that all can fish. Large catches of perch, METALS AND OILS.

# To Double Your Crops

Dr. F. M. Wood in His Laboratory.

As yeast leavens flour, so Soil Vaccine leavens soil and makes plant food available and doubles production.

The Nitro-Bacter Soil Vaccine is a The Nitro-Bacter Soil Vaccine is a milky liquid swarming with the needed beneficial nitro bacteria in polyvalent form so many strains of these bacteria kept alive and virile for six months by our patented, improved method of preparation, that any soil inoculation with them may be 100 per cent successful.

### Cost 50 Cents an Acre— Returns Equal \$30 Nitrates

The Nitro-Bacter Soil Vaccine cuts he cost of nitrates, which crops must The Nitro-Bacter Soil Vaccine cuts the cost of nitrates, which crops must have. At present, nitrates for use on the farm cost in the neighborhood of \$30 for each acre, while this liquid Soil Vaccine can be produced for 50c an acre. The nitrifying bacteria thus supplied to the soil are supplied in greater numbers and more uniformly to all parts of the soil and can be more readily applied than by cropping to any leguminous crop (clovers, etc.). These Nitro-Bacteria, when applied to the soil, multiply enormously and change the decaying vegetable matters, manures and all nitrogen-containing manures and all nitrogen-containing fertilizers into nitrates of soda and potash, and continue their action and multiplication as long as any humus or dead vegetable matter is present in the It is Nature's method of nitrification reduplicated and intensified.

What is it?

After seven years of exhaustive re-search and extensive experiments Dr. F. M. Wood of the State of Illinois, has succeeded in giving to farmers this new method of doubling production on he same acreage and with the same labor as used by their old methods. Nitro-Bacter Liquid Vaccine is a milkly-appearing liquid, which contains a strong virile culture of the Nitro-Bacteria most valuable for soil inoculation.

What it Will Do

When applied to the soil in this liquid form, these Nitrogen Bacteria produce nitrates, supplying food for the plants, which double and treble produc-

tion.
This Soil Vaccine does not in any sense compete with any other nitrogen-producing fertilizer on the market. It makes the nitrogen in all fertilizers, in-cluding animal manures and refuse, available as plant food through the direct action of nitrogen bacteria. It

begins to act at once, when applied to the soil about the roots of plants. It may be applied directly to growing crops, fruits, or flowers. It hastens their growth in making plant vegeta-tion vigorous by supplying available nitrogen.

nitrogen.

It saves the necessity of cropping with clovers or other legumes by supplying nitrifying bacteria direct, so that crop after crop may be grown without using the leguminous crop. It thus saves time as well as money for the farmer. This vaccine makes it possible for any farmer to intensify and greatly increase his production at very little cost.

Testimonials

The value of Nitro-Bacter Soil Vaccine is proven from coast to co. Hundreds of testimonials attest and

"I am confident that this vaccine is "I am confident that this vaccine is the key which unlocks the humus in the soil, and will lead to maximum production wherever it is used. From the results which I have obtained it seems reasonable to expect that this vaccine will prove a great boon to farmers and gardeners who may be fortunate enough to use it on their crops."—E. B. T., Edison Park, Ill.

"For the past three years I have observed the effect of the use of your soil Vaccine on garden vegetables and truck, and results have been truly marvelous. The increase in production when it is used on corn, peas, beans, and tomatoes, has frequently been better than 50 per cent over gardens on which the vaccine has not been used."

—E. E. T., Finlaystown, N. J.

"I have observed the results of the "I have observed the results of the use of your Nitro-Bacter vaccine on all kinds of garden vegetables during the past three years. On tomatoes, cabbage, corn and beans the effect during the growing period is rapid increase in size and vigor of green foliage. During the fruiting period there is a large increase in the size and quality of the fruitage."—L. C. J., Hugo, Oregon.

# Nitro-Bacter

### "The Liquid Leaven That Inoculates the Soil"

How To Apply

The farmer will use this vaccine by spraying the barnyard manure load by load as it is hauled from the yard, or by means of a gravity or other sprayer direct to the soil or crop. One barrel of the vaccine is diluted with eight barrels of water. After the eight barrels stand as per directions, they are then diluted one barrel to fifty barrels, making a total of 400 barrels, or four barrels per acre. This will develop or add approximately the same amount of nitrogen per acre as is added by cropping to clover or any leguminous plant. This method of nitrification should give even better results than the cropping to the leguminous plants, because of the enormous increase in the number of bacteria added to the soil. It may be calculated to approximate from 132 to 140 pounds of nitrogen per acre.

### A Comparison

If you have any doubt as to the work of these nitrogen-producing bacteria, or if you are not familiar with the growth of germs, a comparison may be interesting. For example, it is a well-known fact that a very small vial of virulent typhoid germs added to the water supply of a community or city may reach every individual, which would cause many deaths, great suffering and loss of life. Just as there are evil germs that cause such terrible results, so also are there good germs—notably those propagated and supplied by the Nitro-Bacter Soil Vaccine, which bring only the greatest benefits to mankind through increasing crop production and greater prosperity because of the work they do in the soil, propagating just as rapidly as the typhoid germ, but doing only good—stimulating and making possible the greater growth of the plants, which produce food for mankind and live stock.

DUBLIN, April 22. - Official indica-

ion that the Irish elections will not be

for the north and south together, and NOT PROBABLE

A new act of Parliament would be required for separate elections. Nationalists of all shades of opinion

the northerners are not inclined to

postponed, as had been suggested in some quarters but will be held in May may contained in on official notice concerning the election which appeared in tonight's Dublin Gazette.

AGREEMENT COMES TO

END FIRST OF JULY

M. C. R. Calls Officials and Employees

gan Central Railway has given official partment on the Canadian division that decision No. 119 of the United States Railway Labor Board, dated at Chicago April 14, 1921, terminates July 1, 1921. and existing national agreements and other working conditions established by the United States railway administra tion. The decision calls upon railroad officers and employees to confer and agree upon the rules and working con ditions to govern the various classes of employees. It is the desire of the Michigan Central Railroad Company to promptly comply with this direction of the labor board, and meetings will be arranged at the earliest possible date You will be advised of date and place of meetings, and will be requested to send to such meetings designated authorized representatives to negotiate a conclusion as directed by the labor board. The order is signed by Henry L. Shearer, general manager at Detroit,

### Remarkable Achievement of a Federal Client

IN September, 1920, the Ruggles Motor Truck Company, Limited, placed their entire advertising program in the hands of this agency.

The Ruggles Motor Truck Company, Limited, has successfully completed its financing and the company's modern - truck - building plant, having a capacity of at least 2,400 trucks per year, has been erected.

This building is of a permanent character, of reinforced concrete and trussed steel frame, 87x430 feet, with a separate power plant 40x85 feet. The Ruggles Motor Truck Company, Limited, is now in pro-

duction of its four standard models on the basis of 100 trucks The phenomenal development of this new Canadian industry to its present successful position in the truck-building world has been possible largely because of

the thorough co-operation and service given to the management from the very beginning by this agency. The Ruggles achievement is truly a remarkable performance, in which the value and worth of advertising, judiciously executed, was never more thoroughly demon-
