♍ Scorpio,
Secrets.

♑ Capricorn,
Knees.

♓ Pisces, Feet.

Eclipses of the Sun and Moon for 1870.

This year there will be four eclipses of the sun and two of the moon.

I. A total eclipse of the Moon, January 16-17, invisible.

II. A partial eclipse of the Sun, January 30, invisible.

III. A partial eclipse of the Sun, June 28, invisible.

IV. A total eclipse of the Moon, July 12, invisible.

V. A partial eclipse of the Sun, July 27, invisible.

VI. A total eclipse of the Sun, December 21, invisible.

Moveable Feasts and Fasts for 1870.

Shrove Tuesday.....	March 1	Rogations.....	May 23
Ash Wednesday.....	March 2	Ascension.....	May 26
First Sunday in Lent.....	March 6	Whit Sunday.....	June 5
Palm Sunday.....	April 10	Trinity Sunday.....	June 12
Good Friday.....	April 15	The 23rd Sunday after Trinity.....	Nov. 20
Easter Sunday.....	April 17	Advent Sunday.....	Nov. 27

Chronological Cycles for 1870.

Dominical Letter.....	B	Solar Cycle.....	3
Lunar Cycle.....	9	Roman Indiction.....	12
Epact.....	28	Julian Period.....	6583

Synchronism of the Year of Our Lord 1870.

The year 6583 of the Julian Period.

The year 5630-31 of the Jewish Era.

The year 2623 since the foundation of Rome, according to Varro.

The year 378 since the discovery of America by Christopher Columbus.

The year 94 of the Republic of the United States of America.

WONDERS OF MODERN CHEMISTRY

*Important Truths for the consideration of Thinking
Men and Women.*

WONDERFUL IMPROVEMENTS RECENTLY MADE IN MAKING DR. RADWAY'S REMEDIES,
KNOWN THROUGHOUT THE WORLD AS

**Radway's Ready Relief,
Radway's Sarsaparillian Resolvent,
Radway's Regulating Pills.**

FAMILY NECESSITIES!

Twenty-five years hard and studious labor in the vineyard of Medical Science has enabled Dr. Radway to complete the great work commenced a quarter of a century since, of perfecting his three great curatives—The Ready Relief—Sarsaparillian Resolvent, and Regulating Pills.

A good medicine requires time and experience to complete; and although when a quarter of a century past, these remedies were first introduced, they were, in their several special ranges of cure, considered as wonders of Modern Chemistry—effecting the most astonishing cures, that had resisted the most skilful treatment of eminent medical men, and popular advertised remedies, they have each in the process of manufacture, and the facilities that have been recently afforded Dr. Radway, in obtaining their ingredients, undergone a great and wonderful improvement, so that now as CURATIVES for the complaints, ailments, diseases and infirmities, they are specially recommended for, are as perfect in their medicinal combination, as active, thorough, rapid, and safe for the cure of the sick, and preservers of health as it is possible for the skill and ingenuity of human wisdom, in the present state of medical knowledge, to complete. The chief improvement of these universally approved Remedies consists of a new process recently discovered by Dr. Radway, in obtaining the active medical properties from vegetable substances. The ingredients used in these medicines (as will be shown hereafter) are all active extracts from vegetable substances (prepared in vacuo), that is to say, in receivers from which the atmospheric air has been withdrawn; hence the volatile elements of the materials cannot be dissipated in the process of extraction, and all their most active properties are concentrated and preserved. These are the only remedial agents in vogue that are prepared on this principle—as it is well known that the ordinary preparations of Sarsaparillas and Pills, as well as lotions, liniments, &c., are made from the crude roots, powders, and common alcohol, that contains 80 to 90 per cent. of inert and worthless matter, that overloads the stomach and retards the process of cure. Hence one ounce of the curative principle of medicinal extracts, obtained under Dr. Radway's process, is purer, better, quicker, than 20 lbs. of the crude drugs, powders, roots, &c., of the most popular of the advertised remedies in general use. This fact will be realized the moment either of Dr. Radway's Remedies are taken—for, as quick as thought, (more especially in the Ready Relief) their wonderful power is experienced—and when seized with pain, the most excruciating paroxysms are instantly subdued.

The uniting of ingredients, so as secure perfect harmony and contribute an assisting power to each other in their several properties of cure, fulfills one of the most important aims of the chemist.

This is most beautifully illustrated in the **READY RELIEF**—and this is the grand secret of its success—in not only with electrical velocity stopping the most excruciating and agonizing pains, cramps, spasms, aches, and in fact the most distressing agony of *Neuralgia*, and all other pains either inside or outside of man, woman or child,—but cures, with singular rapidity, the most malignant and frightful forms of Asiatic Cholera, Yellow Fever, Small Pox, Diphtheria, and such diseases that strike terror to people when it is known that a visitation of these scourges are threatened. This is claiming great and wonderful merit for this simple remedy; yet we do not claim one jot or tittle more than it has done, and will do. There is no such medicine in vogue as the Ready Relief, for the cure and prevention of the class of diseases it is recommended for.

People who for a quarter of a century have used it, and cured themselves of all kinds of pains, aches, and infirmities, know but very little of its truly great power in the more dangerous diseases. In all cases where an external embrocation or liniment is required, or where there is pain, inflammation congestion—or where there is a disturbance inwardly, such as cramps, spasms, diarrhoea, sickness at stomach, headache and other simple ailments, they know very well that the Ready Relief will remove all these difficulties in a few seconds; but in the more fatal diseases, such as Small Pox, Yellow Fever, Asiatic Cholera, Typhoid Fever, and the class of diseases that terminate fatally in a few hours, they little know that in **RADWAY'S READY RELIEF** they have a life-preserver that will cure them, and protect them against attacks of those fatal diseases, and yet this is true, and it is the only remedial agent in existence that will absolutely **CURE AND PREVENT** these diseases.

The solution of this great medical problem is plain and simple, for in the **READY RELIEF** we have a Counter-Irritant; a Disinfectant; a Diffusive Stimulant; an Ant-Acid; a Diaphoretic; an Anti-Spasmodic; a Rubefacient; an Anti-Septic; a Sudorific; an Anodyne; a Nervine; and Tonic. Each of these properties are so harmoniously combined and associated that each perform with singular and marvellous rapidity its independent duty, and each, as a part, assists the other; and when the symptoms of disease indicate their united influence, the Ready Relief instantly supplies this important requisite.

In Asiatic Cholera—and the same properties are called for in Yellow Fever, and other malignant malarias)—an Anodyne is called for to assuage the pain, stop the vomiting and purging; a Disinfectant, to kill, destroy or neutralize the poison or acid of cholera; an Anti-Spasmodic to allay the spasms and cramps, vomiting and purging; Anti-Septic to prevent mortification and to purify the gases of the stomach; Diffusive Stimulant, to impart warmth throughout the chilled and cold body—and arouse the paralyzed organs, the functions of which have been stopped, and to start the congested blood in circulation; Counter-Irritant, to withdraw inflammation from the engorged blood vessels and congested nerves and impart to the nervous system a new supply of electricity; a Diaphoretic, to arouse the sluggish vessels of the skin in the secretion and promotion of perspiration; these indications being accomplished, a cure is effected, and in ninety-nine times out of a hundred, the most violent cases of Asiatic Cholera are cured by the simple use of **RADWAY'S READY RELIEF**.

This same principle secures the same happy results, in all other diseases and ailments, either applied externally or taken internally.

In Congestion of the Lungs, Inflammation of the Bowels, Bilious Cholc, Neuralgia, Rheumatism, Inflammation of the Bladder and Kidneys—in fact,

in all forms of disease where there is pain, the **READY RELIEF** will in a few minutes stop the most excruciating and agonizing parozysms. To be sure in many of these diseases, after the pain is cured, or removed, the **RADWAY PILLS** should be taken to restore functional harmony, and empty the bowels, and keep the bowels regular; but it is all important, when seized with pain to get rid of it as soon as possible, and where there is a fatal disease existing in the system to arrest its progress.

It is in the combining of these several properties together to secure their harmonious action, wherein the secret of success exists, and this, as we see, is fulfilled in the **Ready Relief**,—and the **Ready Relief** is the only medicine known possessing such marvellous powers, that can be used with such perfect success, in all cases of pain.

There are hundreds of liniments, Paints and Embrocations, under different names, made from the common alcohol, with it fusel oil, with common hartshorn, and other ingredients to imitate, in appearance and scent, the **Ready Relief**; but unlike it in all other respects, these preparations are carelessly thrown together, are made from the crude materials, and those who are induced to purchase them because they are cheaper, become disappointed, because the makers of these cheap stuffs are ignorant of the true science of harmonizing the properties, and have no process by which to separate the crude and inert from the active and pure properties of the ingredients. With the **Ready Relief**, every one is sure to derive immediate benefit from its use.

In using medicines to stop pain great caution is required against using those agents that inflict injury on the system;—Opium, Morphine, Chloroform, Ether and Carbolic Acid, that enters largely into these paralyzing and freezing liquids ridiculously called *Paint*, stop pain by destroying the sense of perception, when the patient loses the power of feeling. Now this is the most destructive practice in vogue and if continued for a length of time, will kill nerves, and produce general paralysis. **Radway's Ready Relief** increases the vital powers of the body—imparts new life to the nervous fluids. Avoid all such preparations that are capable of producing death by an overdose—or paralysis by continued painting the body with ridiculous liquids called *Paint*.

AS FAMILY NECESSITIES.

DR. RADWAY'S REMEDIES, more especially the **Ready Relief** and **Pills**, are indeed the most important necessities of every family. There are hundreds of families that for 25 years have had no other medicine or medical attendance than the **Ready Relief** and **Pills**.

Persons who live regular, by taking a dose of **Pills**, or **Ready Relief**, as the case may require, when the first sign of sickness is felt, will cure themselves so quick, that the disease or sickness seldom becomes of sufficient importance to require medical attendance. Let the reader bear in mind that all diseases give warning of their presence. In case of sudden pain or uneasiness, sickness or nausea, headache or dizziness, and in fact any sign, whereby there is unpleasantness, take a dose of the **Ready Relief**, and if necessary a dose of **Radway's Pills**. If the bowels for a few days have been constipated, then 4 or 6 should be taken; and if it is necessary to have a quick operation, pulverize six of the **Pills**, and take in water or preserves. In 30 minutes they will operate. Let all bear this in mind, that simple preventive measures, may save a serious illness.

TWENTY-FIVE YEARS.

The public in a quarter of a century are capable of telling whether a medicine possesses merit or not, and no medicine can in this country remain

popular over three years, let alone 25 years, if it is deficient in merit. There are but very few proprietary medicines that have remained popular that length of time. It is foolishness, therefore, for ignorant men, who come from no one knows where, and endeavor to gain popularity for a discarded stuff, that gives a little temporary ease by paralyzing the nerves of sensation during the painful process,—to run down medicines so long and favorably known as Dr. Radway's Remedies, which have grown with the growth of this great city and country, and hailed as household necessities in almost every family in this city and many in this country.

The Ready Relief is sold for 50 cents per bottle or \$5.00 per dozen bottles; and one bottle will save many Doctors' bills; the Pills are 25 cents per box, or \$2.50 per doz. boxes. These, as a family physic, are the best Pills in the world,—one or two Pills are sufficient to keep the bowels regular, and secure *perfect digestion*. The aged who have to resort to injections to secure stools, will find Radway's Pills a blessing—one to four per day as the case may be, will keep the bowels regular, and what is of very great importance—

SECURE FREE EVACUATIONS WITHOUT STRAINING.

There are many ailments where straining when at stool is hurtful—among which are Piles, Diabetes, Bright's Disease, Ulceration of the Kidneys, Spermatorrhœa, or involuntary loss of the life-fluid, Leucorrhœa Falling of the Womb, and Uterine difficulties, &c., &c. Radway's Pills will prevent this, and any one troubled with these difficulties should take them,

There is another rule which, if the sick or ailing will follow, will prove of great service. When rising in the morning rub the body for 15 or 20 minutes with a horse-hair flesh brush; after this if you are troubled with pain or weakness in the chest, weak lungs, cough, or consumption, sponge the lungs and chest with a solution of Ready Relief and water—one tablespoonful of Relief to a basin of water. This will do a world of good. Let those who are ailing try it.

Another great improvement consists in overcoming the most serious difficulty that has heretofore set at defiance the most vigilant watchfulness and keenest observation, and that is, the wicked adulteration of imported foreign roots, barks, leaves, gums, &c. To such an alarming extent has the practice of adulterating Sarsaparilla, Buchu, Calisaya and Peruvian Bark, and the many valuable roots, with spurious and worthless substances, that Congress, as a measure of safety for the public health, created the office of Inspector of Drugs for every port of entry in the United States; but this has failed to cure the evil, and these roots, now sold in the market and used for medicinal purposes, contain as much spurious admixtures as ever. How can it be otherwise?—when it is borne in mind that these roots are gathered and sold by the lazy, ignorant, half-civilized rabble, Hottentots, &c., and sold to traders who are little better than the miscreants who gather them. Of course very little care is employed in selecting the proper species, and this is the reason why Importers, on examining their packages, find limbs, barks, roots, all jumbled up together. Neither the Chemist, the Pharmacist, nor Physician, can depend on the medicinal properties of substances and extracts derived from these roots. Take the article of Quinine for instance, which is obtained from Peruvian Bark,—as Sarsaparillian is derived from the best Jamaica Sarsaparilla,—the physician, prescribing, say 5 grains of Quinine, finds that it has not the strength of one grain of the pure; he, of course, is puzzled to find the cause, when, if he should examine the quality of the bark, he would find a miserable substitute of the spurious Maricabo. So with Sarsaparilla, there are some 30 different species of this root—each differing from the other—and only one kind that is truly valuable, and that is the Jamaica (red), imported by Dr. Radway, and the only kind recognized by the English and French Physicians—and yet there is none of this species (unless that of Dr. Radway's importation) in the United States. Most of the Sarsaparilla makers here claim to use "the best Honduras" which in reality is one of the poorest species, not better than the Yucatan, Vera Cruz, Mexican, Caracas, all of which are considered inferior species, growing wild, and gathered by the rabble. The Jamaica Sarsaparilla, from which Dr. Radway obtains the extract called Sarsaparillian, is cultivated with care, and grown on the estate of a gentleman in Jamaica, from whom Dr. Radway's

...ent obtains it direct,--contains 40 per cent. less starch and resinous principle, and it yields 60 per cent. more of the extract than the most choice Lisbon or Basillian, or any other species of Sarsaparilla in the world.

No wonder that the medical profession has lost faith in the curative virtues of Sarsaparilla, and that the makers of these large bottles of their weak Sarsaparilla decoctions, so extensively advertised, fail to give satisfaction to the public. The fact is the makers of these Sarsaparilla decoctions are unacquainted with the various species; all they know is, that Sarsaparilla has a reputation, and they purchase such as the market affords. If, by chance, they get a good lot, so much the better; but being deficient of practical or botanical knowledge, are just as likely to boil up the spurious as the true; hence the failure of these decoctions of becoming established. Again, a good, pure article of Sarsaparilla root is worth at least 50 cents to \$1 per lb.--(the cheap stuffs are good for nothing);--one pound of the root under the best process of extraction (Dr. Radway's) will not yield over one ounce. The ordinary dose of the fluid extract is from ½ to 2 drachms; and of the crude root, in a powder, as used by the makers of these advertised decoctions, two to three drachms; and when it is remembered that these great bottles that retail for one dollar, are sold to the trade at from fifty to sixty cents, and yet yield large profits to the manufacturers, how much true Sarsaparilla, that will cure, think you, you get in these large bottles? Now, gentle reader, do you wonder that the medical profession as well as the public have lost faith in the curative virtues of Sarsaparillas made in this fashion?

Sarsaparilla, the pure and good (Jamaica) is entitled to all the credit that has ever been bestowed upon it; it is rich in purifying, cleansing and healing properties, but it requires great care in selecting the right species, and the utmost vigilance and attention in securing the extract; no heat should be used, and the only process thus far that secures a bountiful yield of all its properties in the Sarsaparilla, is that of Dr. Radway's.

Dr. Radway, to secure the true species of the foreign roots, barks, gums, &c., used in his remedies, have employed intelligent agents to superintend the gathering of the several ingredients, at the proper season. These agents are under pay to perform this important duty. They pass into no second hands, but are gathered, packed, and sent direct to Dr. Radway's Laboratory in the city of New York. Agents for this purpose are stationed as follows:

Brazil, S. A.	Pareira Brava, Bahia, and Para,
“ “	Poaza, “ “
Jamaica, W. I.,	Sarsaparilla (Red), Kingston.
Hindustan, Asia,	Hemedismus Indicus, Calcutta,
Persia, }	Amygdale Persica, Constantinople.
Turkey, }	
Japan,	Newly discovered Roots, by correspondence.

The same difficulty has attended the securing of Pareira Brava. We do not believe that outside of Dr. Radway's Laboratory, there is one pound of pure Brava in the United States.

And this is one of the most important medicinal roots in the vegetable kingdom. Very few outside of the medical profession know the importance of this wonderful curative agent,--and yet this great curative has been extolled by the most eminent scientific medical men in the world. Sir Benj. Brodie, in its crude state, used it as a specialty as a lithontriptic in dissolving stone, and for Jaundice, Rheumatism, Leucorrhoea, Diabetes, and all diseases of the Kidneys, Bladder, Womb, and Urinary Organs. Nothing that the earth has ever brought forth excels or even equals this wonderful root as a curative agent. From this root Dr. Radway obtains the principle of CISSAMPELINE and this forms one of the chief ingredients in the Sarsaparillian Resolvent.

TO PHYSICIANS.

We are now prepared to supply those of our medical friends, on a more extensive scale, with our well-selected imported PAREIRA BRAVA ROOTS, so that where they find it necessary to prescribe this root for the purpose of making a tea or decoction (as many give it in this form), they can rely on securing the pure and only true medicinal species, as used and recommended by Brodie, Gwaffry, Hockner, Pison, Descortel, Nicholas Joaquim Morevia, Garrod, Johnson, Du Barry, Ricord, Dungleon, and others, and we will guarantee that one pound of our imported root will yield a much larger quantity of the curative principle, than 5 lbs. of the species sold under the name of Pareira Brava in the shops. The price per package, containing five pounds of the root, \$5.00.

PAIN CURED IN AN INSTANT.

TIME AND ITS LESSONS.

*Twenty Years Experience and Study in Perfecting a Good Medicine Secures
a new source of Happiness to Millions ! !*

WONDERFUL IMPROVEMENT

IN

RADWAY'S READY RELIEF.

Dr. Radway's newly discovered process for securing medicinal extracts (in vases), from vegetable substances, adds greatly to the improvement of the Ready Relief.

IN AN INSTANT it stops and cures the most violent PAINS, ACHES, CRAMPS, SPASMS, with electrical velocity.

It removes every Ache, Cramp, Spasm, or Pain that may exist in the **INSIDE** or **OUTSIDE** of Man, Woman, or Child.

HOW TO APPLY IT.

Rub the part of the body where pain exists freely with the Ready Relief, soak a flannel in the Relief, and lay it across the parts where there is a pain or inflammation. If the parts are too sensitive for rubbing, bathe the body with the Relief with a sponge. Pain, the most excruciating, will subside in a **FEW MINUTES.**

CONGESTION OF THE LUNGS,

Bowels, Kidneys, Bladder,—and in all cases where there is inflammation, the Relief should be applied freely, either with the hand by rubbing, or a sponge by bathing. or by a flannel soaked with Relief, and laid across the painful parts. In a few moments all pain will cease, and the cause that occasions the pain removed.

TAKEN INTERNALLY.

Ten to 30 drops in half tumbler of water, will, in five minutes, stop Pain, Cramps, Spasms, Colic and inflammation of the mucous membrane of the internal viscera, this dose repeated every 15 minutes, will cure the worst forms of

Canada Cholera, Cholera Morbus, Diarrhea, Dysentery,
and all painful discharges from the Bowels.

FEVER & AGUE, CHILLS & FEVER.

If exposed to the malaria of this poison, take 20 to 30 drops of the Ready Relief, in water, two or three times a day. If seized with it, rub the spine of the back, hands, head, feet, &c., and take large doses of Radway's Pills, 6 to 8, every night,—this is a certain cure for Fever and Ague. It is better however to prevent it—by taking the Relief in water, and one or two of Radway's Pills every night.

LARGE BOTTLE, 25 Cents.

Radway's Ready Relief, 25 cents, contains more than 3 bottles of the 15 cents Pain Killer—one-third more than the 25 cent bottle of Liniments, Pain Killers, &c., and will do more good in less time, and answer for better purposes as a family remedy, for it can be used with the assurance of doing good, in all cases when suddenly seized with sickness, or in case of accidents, Burns, Scalds, Sprains, Strains, Bruises, Bites, in fact whenever any accident or illness takes place—use the Ready Relief at once—it will always do good.—Price 25 Cents per bottle.

TAKEN INTERNALLY

20 drops to a teaspoonful in water will stop the most violent pains: Cramps and Spasms in a few minutes.

If seized with Asiatic Cholera, Canadian Cholera, Pain in the Stomach, Bowels, Diarrhea, Dysentery, Colic, Sick Headache, Sour Stomach, Sickness or nausea at Stomach, Wind, Flatulence, Heart Burn, Chills, Bad Colds, Influenza, or pain or uneasiness of any kind, 20 drops, of the Ready Relief, in water will afford instant cure, and the dose repeated every hour will effect a speedy cure.

This method of application should be resorted to in all cases of Spinal Affections, or Weakness, Rheumatism, Nervousness, Neuralgia, Lumbago, Spasms, Sciatica, Gout, Paralysis, Numbness, Diseases of the Kidneys, Bladder, Urethra, Difficulty of Passing Water, Pain in the Small of the Back, Cramps and Spasms, Pain in the Hips, Back and Thighs, Weakness and Laeness in the Back or Legs.

And in all Female Complaints, such as Leucorrhoea, Weakening Discharges, Obstructions, Retention, Weakness, Prolapsis Uteri, Hysterics, Headache, &c., &c.

In these cases, the entire length of the Spine should be rubbed for 10 or 30 minutes, three times per day. In many instances the most severe and agonizing pains will cease during the process of the First Rubbing. Its continued use a few times will cure the patient of the most aggravating and long standing diseases.

Persons suffering from either of the above named complaints, should not hesitate a moment to apply the Ready Relief, as directed. *It will surely cure.*

The Rubbing should be continued until a sense of heat and irritation or burning is experienced. If you succeed in securing this action on the skin and back, you may feel perfectly satisfied of a cure—it is a sure sign.

By Rubbing the part or parts of the body where the disease or pain is seated, with the Ready Relief.

In ninety-five cases out of one hundred, the most severe pains will cease by one Rubbing with the Relief.

In Attacks of Sore Throat, Hoarseness, Croup, Diphtheria, Influenza, the Relief should be applied to the Throat and Chest. In a few moments the Soreness, Irritation and Inflammation will cease.

Let the Ready Relief be applied in this manner for the following complaints :

Rheumatism, Tio Doloureux, Toothache, Headache, Earache, Inflammation of the Stomach, Bowels or Kidneys, Sprains, Strains, Cuts, Bruises, Wounds, Cramps, Burns, Scalds, Pimples, Blotches, Mosquito Bites, Stings of Poisonous Insects, Chilblains, Deafness, Sun Stroke, Apoplexy, Epileptic Fits, Asthma, Lumbago, Soreness and Pains in the Legs, Feet, Joints, &c., Lameness, Swelling of the Knees, Feet, Legs, &c., Sore Eyes, and in all cases where there is pain or distress, the Ready Relief, if applied over the part or parts, will afford immediate ease.

There is no other remedy, Liniment, or Pain Killer in the world that will stop pain so quick as Radway's Ready Relief.

TAKEN INTERNALLY.—One teaspoonful or more, if necessary, to a wineglass of water every hour until relief is afforded. One dose in most cases will prove sufficient.

Asiatic Cholera, Diarrhoea, Bilious Colic, Looseness of the Bowels, Sick or Nervous Headache, Foul Breath, Hysterics, Worms, Cholera Morbus, Wind Colic, Spasms, Purging, Heartburn, Fits, Seasickness, Dysentery, Vomiting, Cramps, sour Stomach, Hysteria, Convulsions, Bad Dreams :

—ALSO.—

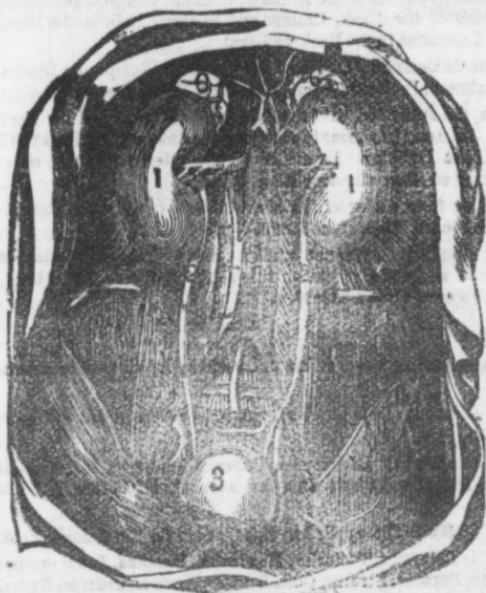

FEVER AND AGUE,

CHILLS AND FEVER.

One dessert spoonful every three hours during the interval of fever. Also, take four to six of Radway's Pills every second night.

Persons subject to Chills and Fever, Ague, &c., can prevent these attacks by taking repeated doses of Radway's Ready Relief, daily, during the prevalence of this complaint.

FOR A CURE.—The Relief should be taken on rising every morning, before eating, and a dose of 4 to 6 of Radway's Pills taken every night. This treatment will cure Fever and Ague, without subjecting the patient to the horrors entailed by the copious use of Quinine, Calomel, Arsenic, &c.

THE TRUE FORMULA—A RECEIPT
THAT WILL CURE.

RADWAY'S SARSAPARILLIAN RESOLVENT.

In accordance with the urgent request of many eminent practitioners in Europe, South America, and the United States, as well as several of our medical friends in the Dominion of Canada, we present a formula of some of the ingredients that enter into the composition of SARSAPARILLIAN RESOLVENT, withholding only *Three* of the most important vegetable remedies, hitherto unknown either in Pharmacy or Botany.—Such herein of the ingredients as we publish, their medicinal properties being obtained by Dr. Radway's new process, are superior to any other medicinal agent, for the cure of the sick seized with the diseases, they are prescribed for in the world.—One bottle of this medicine will prove the truth of this statement,

R

Ext. Radix Hemedesmus Indicus $\frac{3}{4}$ V
 " Radices Innominata " V
 " Radix Tarxacum " IV
 " " Sarsaparillian " iij
 " " Pareira Brava " ij
 " " Ipecacuanha ℥ i

ENGLISH.

Indian (East Indies) Sarsaparilla.
 Newly discovered Roots, name unknown.
 Ext. of Dandelion.
 The Crystalline Principle free from inert properties, gum or starch of the root.
 The only name. Native of Brazil.

ENGLISH.

Lixivæ Fuci.....	℥iv	Only name given,
Spiritus Rectificatus	“v	Rectified spirits, pure.
Syrup Simplex.....	“ij	Simple syrup clarified.
Oleum Amygdale Persica.....	℥i	Persian Oil from the kernel of a nut, a native of Persia and imported by Radway & Co.

The medical properties of the ingredients in the above formula are known to every physician and to many of the people as obtained under the old Pharmaceutical process ; but the public and physicians have but slight conception of the remedial strength and activity of their properties secured by our new process of extracting the active principles of the roots. It is the *modus operandi*, of obtaining the pure properties of every root, plant, or medicinal vegetable on which their curative powers depend.

HEMEDESMUS INDICUS.—In India used for Diseases of the Kidneys, Cutaneous Eruptions, &c., is a tonic diuretic and alterative, has proved eminently successful in Chronic Diseases, Scrofula and Syphilis, where Sarsaparilla officinalis failed. The native practitioners of India employ it in nephritic complaints and sore mouths of children—(U. S. D. 439, also Garrods Materia Medica, 285.)

TARAXACUM.—Tonic, Diuretic, Aperient, has a Specific action on the liver, exciting it when languid to secretion and resolving its chronic engorgement. In Congestion and Chronic inflammation of the Liver and Spleen and in Dropsical affections it has acquired a high reputation. (U. S. D. 826, Essentials of M.M. British, 271.)

© PAREIRA.—This is one of the most important remedial agents in the materia medica. Few medical men know its wonderful virtues, or it would long since have become one of the chief if not the recognized specialty in all cases of Bladder, Kidney and Urinary difficulties. It has no equal in the materia medica, for calculous affections, Chronic inflammation and Ulceration of the Kidneys and Bladder, Leucorrhœa, Dropsy, Hæmaturia or Bloody Urine. Some wonderful cures have been effected by this root. It has been employed with success in Jaundice and Rheumatism. Sir Benj. Brodie used it with much success in Gravel, Stone in the Bladder, &c. It is far superior to Buchu leaves or any other Diuretic, Lithontrypic in use. For other evidence of its virtue (U. S. D. 719.)

RUMECES.—Astringent, Tonic, Alterative—Valuable in scorbutic disorders, Cutaneous Eruptions, Salt Rheum, Scrofula, Syphilis—and the Itch—(U. S. D. 719.)

IPECACUANHA.—This remarkable agent, at one time was looked upon as the most important remedy in vogue ; it made such wonderful cures in several varieties of disease that John Helvetius, the physician who introduced it in France as a secret remedy, received from Louis XIV, a large sum of money and public honors to make its name known (for account of its extraordinary virtues. See U. S. P. 480, 481, 482, 483, 484, 485.)

LIXIVÆ FUCI.—Too much cannot be said in condemnation of the process of the shops in the preparation of Fuci for medicinal purposes. Heat should never be used. Dr. Radway's process is far in advance of burning the plant, the medical properties of which, being essential, pass off and are lost by this method. By the Radway process of lixivating (in vacuo) (purifica-

tion) places it above comparison, with all known curatives, in Chronic, Constitutional, Scorbutic, Syphilitic and Cutaneous diseases. The Lixivæ of Fuci, "increases the appetite and flesh, removes abnormal tissue, climenating the material by the channel of the kidneys. There are but few diseases in which it has not been tried.

M. Oke reports "its success in the cure of Cholera after repeated failures with Iron."

M. Gendrin, V. Glendenny, Mr. Spencer Hill, (Surgeon) used it with success in Gout."

M. Arrigan employed it with astonishing success in Albuminurida," (Brights disease of the Kidneys.)

Dr. Williams of London [England] cured various forms of secondary Syphilis, also the removal of hard periosteal nodes and tubercular forms of venereal eruptions, and considers it one of the best alterative remedies in mercurial Syphilitic sore throat."

Dr. Handfield Jones of London, and Ricord of Paris, bears testimony of its efficacy in that form of Rheumatism characterized as wandering pains in the bones. "M. M. Guillott & Melsens, for mercurial tumours and lead poisoning. During the cure, these metals were found in the urine."

Dr. Parish of Philda, employed it successfully in strumorous inflammation of the eye. "Dr. de Renzy of Carew, Ireland, administered it with success in hæmoptysis (spitting or expectorating Blood,) so swift is the remedy in passing into the circulation that it has been detected in the Urine six minutes after being swallowed."

A Remedial Agent, possessing such wonderful curative powers, over so many forms of disease as ascribed to it, by the well known authorities above quoted, and so imperfectly and loosely prepared; how great must be its power over disease when prepared under the scientific process of lixivation (in vacuo) and combined with the other great curative remedies that form Radway's Renovating Resolvent; A Remedy composed of ingredients of such extraordinary medicinal properties included in the above receipt, is as *perfect*, pure, and good, as it is possible for the science, genius, and skill of man to make. For the diseases the Renovating Resolvent is prescribed for, it has no equal in the world. It is Quick, Thorough, Pleasant, Safe, and Permanent, in its treatment and cure.

Having presented for the information of the public the formula of the Renovating Resolvent, and the medicinal properties of its several ingredients, with the published views of the most eminent medical authorities throughout the scientific world, of its pharmaceutical combination and fitness as a curative agent in treatment of Chronic, Scrofulous, Syphilitic, Skin, Constitutional and Inherited diseases, we propose to present for the consideration of the reader, a few of the more general complaints it is specifically adopted for—we have not space in this limited review to enumerate the greater portion of diseases by their several names, or to present the voluminous testimony of these gentlemen who have so generously and zealously endorsed its extraordinary virtues, for a more complete history of its numerous achievements, as a medicinal agent—and the diseases it should be used for, we refer the reader to our other publication.

If afflicted with either of the following named maladies, the sick will experience almost immediate relief, and a quick cure by the use of the Renovating Resolvent according to instructions, accompanying each bottle.

ALARMING INCREASE

OF DISEASES OF THE

Kidneys, Pancreas, Bladder, and Urinary Organs, involving—Calculous Deposits, Stone in the Bladder, Albuminuria or [Bright's Disease of the Kidneys,] Irritation of the Bladder and Ureters, Diseases of the Prostrate Gland, Retention or Incontinence of Urine, Bloody Discharges from the Urethra [Hæmaturia] Diabetes, Weakening Discharges from the Urinary Organs, Leucorrhœa, Female Weakness, Retention, Chlorosis, Prolapsus Uteri, Ulcers and Tumors.

The Cause, the Prevention, the Remedy, the Cure explained.

INTEMPERANCE THE PRINCIPAL CAUSE,

RADWAY'S RENOVATING RESOLVENT

THE CURE.

The scientific combination of ingredients that forms the Renovating Resolvent, are so prepared as to harmonize with each other, making a cure of all diseases of the Kidneys, Bladder, Ureters, and Womb, positive and quick. One of the ingredients of this remedy is so rapid in its action on the Kidneys and Bladder, that it has been detected in the urine in **SIX MINUTES** after it has been taken.

Its presence in the urine is readily detected, by adding to the water when cold, a portion of starch, and then a few drops of nitric acid, when a blue colour will be produced. A remedy so swift as this in its action on disease, supplies a want that has ever existed in pharmaceutical science.

The application of Radway's Ready Relief to the entire length of the spine, and across the small of the back, will in a few minutes relieve the patient of the most intense pain, and greatly assist the Resolvent in effecting a cure. Professor Lawrence Reid, late of the New York Hospital, has used it with great success. Rub the spine with Relief until it becomes reddened. [A sense of heat or burning, not unpleasant, will sometimes be experienced for several days after the application of the Relief. This is a true sign of increased vitality of the parts affected, and should be hailed with delight by the patient.]

Without going into a pathological investigation of the numerous symptoms of kidney and urinary diseases, or of the functions of these glands, we will only notice in this review, the general influences that induce these ailments, and the cause of their rapid increase. Christison regards granular degeneration of the kidneys as owing "to a *vice* of the system of nutrition." [See Tweedie's Library of Medicine, 2d Amer. edit. vol. 3, p. 271.] When we consider the large amount of refuse matter rejected by the absorbents and other secretions, to repair the waste of the body and form healthy material to

sustain life, that is not ejected through the alimentary canal, or by perspiration through the pores of the skin we can readily appreciate the importance of the kidney, bladder, &c., in secreting and discharging through the urine those humors, which, if left in the blood, would cause death. We can at once realize the important influence of the food we eat, and the liquids we drink, over the kidneys and the glands depending on their secretions. The rejected humors, or fluids, either pass off through the alimentary canal, the pores of the skin, or are discharged by the kidneys. Liquids, either water or ale, liquors, and other fluids, received into the stomach and taken up by the absorbents the kidney is the organ through which they find a natural exit; so with regard to food. Although the intestinal canal is the natural outlet, a portion of its element is carried off by the kidney. The healthy condition of the kidneys, bladder, and pancreas, are more particularly governed by the quality and quantity of the food we eat and the liquids we drink, so far as the natural condition of the kidneys are concerned. True, these organs are more or less impaired through sympathy or symptomatic condition of other organs and glands in the system. Derangement of the liver, spleen, stomach, bowels, skin, or any other organ of the system, will derange the functions of the kidneys; but the primary cause of the great increase of kidney and other diseases is indebted more to the effects of the style of living, quantity and quality of food, and immoderate use of intoxicating drinks, than from all other causes combined.

In presenting the Renovating Resolvent as a curative for all forms of Kidney, Bladder, and Urinary complaints, we are governed by experience. 1st. It possesses the elements of cure in its combination, that has proved most successful in every country, climate, and variety of character, where it has existed. Some of these ingredients, administered as specifics by the most eminent practitioners, have achieved unexpected success, and now that they are associated or combined with other agents of no less, and with some of far greater, remedial power, in the Resolvent, failure is improbable, and almost impossible. Let those afflicted try it, use the Relief as an adjunct, and if a purgative, aperient medicine is required, take Radway's Pills, and a cure may be relied upon as an absolute certainty.

CALCULUS CONCRETIONS, STONE IN THE BLADDER,

DISSOLVED BY RESOLVENT.

The diseases of the Kidneys, Bladder, and their kindred glands and organs, are among the most difficult of treatment and cure. Yet if physicians would cast aside the popular prejudices of the profession against secret and well-known popular remedies, much misery would be saved the patient and better reputation reward the physician. We have witnessed the cure of hundreds of patients afflicted with many of the worst forms of kidney and other complaints, by Radway's Resolvent, Pills, and Ready Relief. A gentleman connected with the New York Sunday Courier, published by James Smith, Esq., reported a case to us in 1859, where a friend of his had suffered the most agonizing pains for several days, from inflammation of the bladder, kidneys, and ureters, owing, it was supposed, to calculous concretions. The physician in attendance had exhausted all means and remedies that medicine afforded, without relieving the patient. His friend having great faith in Radway's Remedies, was determined to try them.

The doctor stated that he could do no more, and considered the case hopeless. His friend then applied the Relief to the spine and small of the back, and bandages saturated with the Relief, across the body, gave the Resolvent in doses of a dessert-spoonful, every three hours, and six of Radway's Pills every nine hours. In a few hours after rubbing the spine with the Ready Relief, the pain ceased, and in two days the patient recovered so as to attend to business. This case was, we believe, published in the Sunday Courier, at the time, by the gentleman who witnessed the cure.

There is no physical condition of the human system where the courage, endurance, fortitude and patience of the afflicted, is required more than in calculous concretions, or stone in the bladder, kidneys, or ureter. The passage of these concretions, however minute, from the kidneys through the ureter into the bladder is attended with the most agonizing pain, and not unfrequently of fatal results.

It is therefore of the utmost importance that whenever calculous diathesis is indicated, either by voiding with difficulty bloody urine, or micturating urine in drops, attended with sharp, burning, and pricking pain along the urinary canal, in the region of the kidneys, frequent fits of vomiting, numbness, cramps in the thighs, followed by inflammation of the kidneys, &c., immediate application of the Ready Relief to the entire length of the spine and small of the back should be made. Radway's Pills in doses of from four to six every six hours, to promote active digestion add to withdraw all irritating humors from the region of the kidneys, and from the blood and juices of the stomach, pancreas, &c., and purge these humors from the system. Radway's Pills are the best and, in fact, the only purgative medicines that should be used in these cases, owing to their mild, soothing, healing, and thorough expulsive power. *Straining* when at stool is avoided. The Resolvent should be given every eight hours, in doses of two teaspoonfuls, it being a powerful solvent, diuretic, alterative, and lithontriptic remedy—it readily assimilates with the urine, thus preventing the formation of concretions, and dissolving the calculi, or at all events rendering it brittle, and facilitating its passage through the ureter in the bladder.

Under the most favorable conditions of the system, the passage of calculous concretions, or their retention in the kidneys, ureters, or bladder, involves much agony, and considering the alarming increase of the diseases of these organs and urinary difficulties, inasmuch as calculi is more or less occasioned by the morbid state of the urine, great caution should be used in preventing its formation. Whenever a turbid state of the urine appears, or deposits of brick-dust, albumen, or other sediments at the bottom of the vessel is detected, the use of Radway's Relief, Pills, and Resolvent, should be immediately resorted to, they will soon remove these symptoms, and prevent further trouble.

Notwithstanding the general disbelief of many eminent medical men, of dissolving or removing stone in the bladder by medicines given internally, we have good and sufficient authority to claim this power for the Renovating Resolvent. We have several marked cases where the solvent properties of the Resolvent has accomplished it. One of the ingredients used in the composition of the Resolvent, as early as 1688, was held by European practitioners as possessing the properties as a diuretic, aperient, tonic, and lithontriptic, in the highest degree; and for many years it has cured, both in France

and Engiand, calculous, chronic inflammation, and ulceration of the kidneys and bladder. Sir Benjamin Brodie (see U. S. D. 638.) found it "useful in chronic inflammation of the bladder, allaying irritability and correcting the disposition to profuse mucous secretion." Prepared as it now is, and combined with other powerful remedial agents, in the Renovating Resolvent, there can be no question, or doubt, but that its administration in all forms of calculous concretions will be beneficial.

DOSE.

When there are no special directions, the general dose of Resolvent for an adult is from one to three teaspoonfuls, three times per day, half an hour after each meal.

Infants aged from	1 to 5 years,	6 drops
" "	5 to 10 years,	10 drops
" "	10 to 15 years,	15 drops
" "	15 to 20 years,	one tea spoonful.

OFFICIAL ENDORSEMENT OF THE UNITED STATES INSPECTOR OF MEDICINAL PREPARATIONS FOR EXPORT.

AS TO PURITY OF MATERIAL, VIRTUE OF THE INGREDIENTS AND EXCELLENCE OF PHARMACEUTICAL COMBINATION.

MEDICAL DEPARTMENT.

UNITED STATES BONDED WARE HOUSE, R. R. R. LABORATORY,
87 Maiden Lane, New York, Nov. 23rd, 1867.

To whom it may concern,

In my official capacity of United States Inspector of the Medical Bonded Ware House, at the Laboratory of Dr. Radway & Co., 87 Maiden Lane, New York, I certified that the ingredients used in the formation of the remedies known as RADWAY'S READY RELIEF, RENOVATING RESOLVENT, and REGULATING PILLS, prepared under my inspection, have been carefully examined by me, and I find them to be of great purity and virtue as remedial agents, and that in my opinion the process of the *pharmaceutical combination* of their several ingredients, as prepared by Dr. Radway, secures a more perfect compound than could be obtained were the formula of same prepared or made up by the best Pharmaceutist in this city or elsewhere.

(Signed,)

A. D. OLMSTEAD, M. D.

All the medicines of Dr. Radway sent into Canada, are prepared under the supervision of an officer appointed by the United States Government, hence the purity of Dr. Radway's Medicines are beyond doubt.

AS SHE APPEARED AT THE COMMENCEMENT OF THE 12 BOTTLES RESOLVENT.

A remarkable Instance of Personal beauty restored to a lady—disfigured by the ravages of a brightful disease of the skin—and suffering from weakning discharges, irregularities, and uterine difficulties. Cured completely with 12 bottles of the Sarsaparillian Resolvent.

This lady was rescued from a miserable existence through the instrumentality of Dr. Radway's Resolvent. Two years since she was an object of pity and almost aversion; her personal appearance repulsive, her blood impregnated with corruption, gradually consuming her vitality. Infirm, wretched and almost hopeless, discharging ulcers on her neck, her skin covered with Sores, Pustules, Tetters, insects under the cuticle in the form of black spots, her head divested of hair, her scalp with ridges of dry scabs, stumourous discharges of offensive matter from her ears, her arms covered with eruptions, her hands swollen and incruusted, her nails worn off, her strength wasted by continued leuchorrea discharges, and pain and inflammation in the kidneys, bladder, and uterus. Much of her sufferings were undoubtedly augmented by improper treatment. Mercury, Iron, Potash Sarsaparillian, Sulphuric Acid, Unguents, Lotions, were tried. Baths of Sulphur, Mercury, and, in fact, every remedial agent known were used until her strength was exhausted. Such was her condition in the early part of 1866 when she commenced the use of Radway's Resolvent (aided with Radway's Pills, to augment the expulsion of the acrid and corrupt humours though the bowels, sweat, and urine). She commenced taking two teaspoonfuls of the Resolvent three times per day, and from two to four Pills every other night.

FIRST BOTTLE.—At the end of the first bottle her strength, appetite, add spirits were improved, and the small pimples, blotches, pustules, disappeared, Applying the Resolvent over the surface, with a fine sponge, relieved the inflammation and itching, and served as a reliable antiseptic in cleansing and purifying the putrid flesh.

SECOND BOTTLE.—At the end of the second bottle signs of improvement in the discharges from the uterus, inflammation, pain, and swelling abated, the Skin greatly improving, the Eyes growing brighter, strength and appetite increasing.

THIRD BOTTLE.—Dry scabs on the scalp, and sores on the arms, and incruusted scales of the hands, gradually disappearing, leuchorrea greatly lessened, water becoming clear, and kidneys and bladder improved.

HER APPEARANCE AT THE END OF THE TWELVE BOTTLES.

FIFTH BOTTLE.—Finger nails growing, hands and arms clear and smooth, hair growing on the scalp, bowels regular, and skin free from irritation, face clear of sores.

SIXTH AND SEVENTH BOTTLES.—Ulcer on the neck greatly improved, leucorrhoea discharges stopped, menstruation regular, pain of the abdomen, irritation in the uterus, bladder, and kidneys stopped, face clear of all spots, hair covering the scalp, great increase of flesh, spirits buoyant, step elastic, and appetite good.

NINTH BOTTLE.—All signs of disease gradually disappearing, frequent rides in the Park, great improvement in personal appearance, hair continuing to grow rapidly, skin smooth and clear, and the ulcer on the neck healed.

TWELFTH BOTTLE.—Continuing the Resolvent after all eruptions had disappeared, she gained in flesh and personal beauty. No more trouble in the uterus, kidneys, &c. Bowels regular, digestive organs regular, blood pure, her nails perfect, hair growing luxuriant, spirits excellent, she exhibited to her friends a picture of health and beauty.

For six months after the use of the twelfth bottles she continued taking three teaspoonfuls of the Resolvent per day, and two of the Pills three times a week. On the—day of October she presented us with her photograph (as above) of her present appearance, with permission to publish the course of treatment and cure, but requested us to withhold her name.

In this wonderful cure a lesson may be learned in regard to the true means of securing personal beauty. Good pure rich blood will make healthy fiber and clear skin, beautiful complexion and luxuriant hair. Cosmetic powders, painting the skin with brushes, applying greasy substances and alcoholic lotions to the hair, is injurious. The paint, powder, &c., clogs up the pores, obstructs the free escape of sweat and insensible perspiration, thus preventing the absorption of oxygen in the atmospheric air, so essential for the vitality and purification of the blood and fluids of the skin, &c. Pure blood is secured by the Resolvent, and all who use this medicine will enjoy the possession of its blessings.

R. R. Resolvent is sold at \$1 per bottle, at No. 87 Maiden Lane, N. Y., and 439 St. Paul Street, Montreal, P. of Q.

NEW MADE MAN.

THE MOST WONDERFUL CURE ON RECORD.

Never since the practice of medicine became a subject of scientific investigation has such a cure been effected. Time and patience in such cases is required if the patient will only think of the length of time that bad and impure blood has been circulating through its system—and from this impure material—his flesh, bines, fibre and the entire body, has grown on this impure fluid, and made up from it, that some time is necessary to change this depraved and unsound structure, and supply the waste with good blood. NINE MONTHS is a remarkable quick time to mote prohibit and healthy. a body eaten up with disease. In this case it took a little over one month before a ravourable change was experienced; but when it was found that the medicine, had acquired an influence, then hope revived. In these old cases, some little time is required for the Sarsaparillian to get a fort hired, but just as soon as this is accomplished the work of regeneration will be rapid.

A gentleman well-known in the oil trade contracted, some years since, through imprudent exposure a serious disease, but unfortunately neglected, to consult a respectable physician or to resort to proper remedies. Medicines were used that smothered the disease only. In a short time it appeared again in a different form. First it would be in groin, next in the legs, then scalp, next in the neck. Sores in the nose, on the face, arms, the mouth, chin, corner of the eyes, threatening blindness and the loss of the eye, destroying his complexion, eating like a cancer into the flesh and bones, until he became repulsive in appearance and incapable of social communion with friends—cut off from the association of men and condemned to solitude and misery. For seven years this gentleman of high intellectual and social qualities suffered with this terrible disease, a wreck of defaced humanity. Not a sound or healthy particle of flesh or fibre existed in his body. This case was desperate. We could hold out no encouragement of absolute cure. He, however, commenced the use of the Resolvent in January, 1866, (when prepared under the old process) by taking one tablespoonful three times per day, and a dessert spoonful every night. Every morning he would bathe his body with tepid water and Relief, and apply the Resolvent to the sores. At one or two o'clock every morning he would take a dose of Radway's Pills—sometimes two and at other four or six as the bowels were costive or laxative.

This course was continued for one month without deriving any marked improvement, other than better spirits and a relish for his food. This gave him encouragement to continue the Remedies. Two Weeks later and his urine was less scanty, more agreeable odor, and without the scalding pain during its passage through the urethra. Sores began to disappear from his body, and day by day he became stronger. He thus continued the use of the Resolvent for *nine months* and his head was clear of sores and all marks of disease, his face clear of the ulcers around his mouth and chin, and all trace of the disease about the eyes exterminated; appetite good, digestion good and regular, perspiration good, skin smooth, ulcer on the neck healed, and the legs sound.

He reduced the quantity and frequency of the doses of the Resolvent and Pills, taking only one teaspoonful three times per day and one Pill every other night. This treatment be continued for six months more, when he considered himself perfectly cured.

We are not at liberty to use this gentleman's name. The oil merchants of Maiden Lane, Gold, Water and Pearl Streets, are astonished at the remarkable change in personal appearance of the elegant dressed gentleman, with such beautiful, clean, smooth skin, classic features, redolent with health and physical strength—from the infirm shambling gait of the pitiful object of commiseration and disgust, that for seven years suffered so terrible a penalty of an immoral indulgence. In this cure we have an illustration of perseverance under the most trying and discouraging difficulties, that few would have the PATIENCE and COURAGE TO CONTINUE. There are, doubtless, hundreds equally as severely afflicted, that may be cured if they will follow the same course. The Resolvent will surely do good [if not as soon as expected] quicker than any known remedy in use. We have known it cure some of the worst cases of syphilitic and uncured mercurial diseases by a single bottle—others have required a dozen bottles. The time of cure depends upon malignity of the blood and the length of time corruption has existed in the body.

CONSTITUTIONAL taint, inherited by transmission, is curable if the body undergoes a complete change of flesh and fibre once in seven years. The Resolvent will make sound flesh and pure blood, in place of a diseased body and Scrofulous taint.

Section of bone showing mercurial Deposits--Honey-comb ridges and ulcers

Mercury is one of the poisons that accumulates in the system, and becomes deposited in the bones, muscles, ligaments, &c.

Radway's Resolvent is the only remedy in general use that possesses the power of driving this destructive agent out of the system. By the aid of a powerful microscope, globules of quicksilver may be seen in the urine of a patient suffering with mercurial ulcers, &c., after taking the Resolvent.

MERCURIAL SORES.—These sores are caused by the use of mercury, and affect the limbs, joints and other parts of the body wherein mercurial deposits are settled. They first appear as red pimples, similar to Salt Rheum. In cases where the patient has been frequently salivated, severe pain is experienced in the bones, which it frequently consumes. In cases where mercury is given in fevers, sores attack the bones and causes the spongy or honey-comb appearance. The teeth and gums likewise suffer from mercury. In these cases, Radway's Pills should be given at night, and the Resolvent three times during the day.

SORE HEAD CURED.—By six bottles of R. R. Resolvent. This disease is frequently the result of carelessness in persons, inoculated by the use of brushes and combs that have been used by persons with sores on the scalp, &c.

Take Resolvent in doses as presented for children, and bathe the sores with the Resolvent. Also wash the head with soap suds of Castile soap.

ITCH.—This disgusting disease is augmented by filth, and is supposed by many to be caused by an insect in the skin. Renovating Resolvent should be given in doses as prescribed, and the parts bathed with the Resolvent. Ready Relief, diluted in water, should be applied over the body with a sponge. Two to six of Radway's Pills, every night.

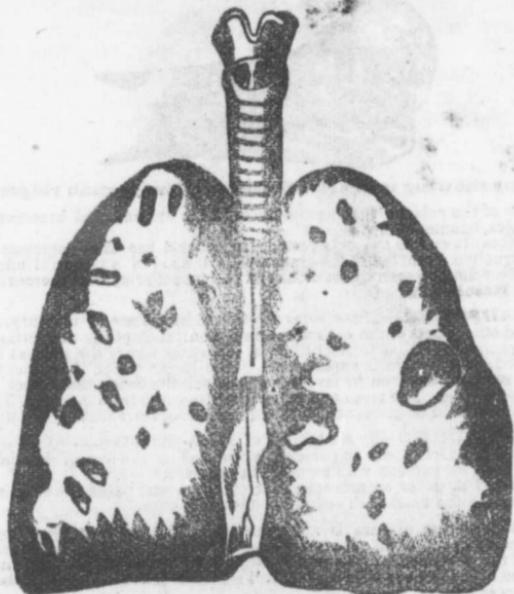

RING WORM.—Is an eruption on the skin in small vesicles, with a reddish base, forming rings red and scaly. Renovating Resolvent and Radway's Pills will quickly cure it. As an ointment, ten drops of oil of tobacco to one ounce of fresh lard, applied to the ring worm will quicken the cure.

③ **SALT RHEUM.**—Is detected by a dry, rough, fevery and cracked state of the skin. It appears most generally on the hands, hollows of the arms and neck, back or about the seat. R. R. Resolvent to purify the blood. A few days' use will in most cases cure. The parts afflicted should be sponged with Ready Relief diluted with water. Take two or three of Radway's Pills three times per week. The worst cases of Salt Rheum, and all scaly eruptions, are quickly cured by this method.

SPOTS IN THE SKIN.—These little unsightly irritants, frequently seen under the skin, is coagulated lymph, caused by the suspension or retention of sweat, or insensible perspiration, in the excretory vessels. This arises from impaired or interrupted action of the excretory glands, or vessels, in throwing off the exhalations from the fluids that seek their escape through the pores of the skin, or from the pores being clogged or obstructed by Cosmetics, Powders, Paint, Chalk, &c., applied to the skin to hide deflection. Now this lymph, being impure humors, is impregnated with life and becomes an insect. Out of the foul humors of the blood and rejected elements of the secretions insects and worms are generated. Vermin thrive most where there is filth and impurities; hence to rid the skin, body, and other organs of living animalculæ insects and vermin, keep the blood pure. Radway's Resolvent and Pills will protect the system against the generation and presence of insects, and will arouse the impaired vessels to throw them out of the body through the natural channel. Bathe the skin with Ready Relief, diluted with water. This will open and cleanse the pores, and destroy the vermin, keep the blood pure. Radway's Resolvent and Pills will protect the system against the generation and presence of insects, and will arouse the impaired vessels to throw them out of the body through the natural channel. Bathe the pores, and destroy the vermin. Every organ, gland and secreting vessel of the diseased body is infested with insects.

All Skin Paints and Cosmetics, applied to the flesh, is injurious, and they render the complexion sallow. All metallic substances sugar of lead, arsenic, Bismuth, clog up the pores and cause paralysis. The best guarantee of health and beauty is pure blood, and the healthy action of all the secretions of the skin cured by Radway's Ready Relief, in water, applied to the skin as a lotion, and the Resolvent to renovate the skin and other organs.

PRICKLY HEAT.—Is caused by acrid humors in the blood and obstructed perspiration, and irritant properties of the sweat. The Renovating Resolvent divests the blood and sweat of all humors. The Relief, applied with water, will instantly stop the itching. This annoyance is immediately removed by these medicines.

ULCERATED LUNGS.

**THE GREAT PHEGMAGOGUE,
A CURE FOR DISEASED LUNGS.**

Few persons but are troubled, more or less, with difficulty of raising Phlegm, a thick humor or matter that obstructs the air passage and glands of the Bronchi, &c.—the accumulation of this matter leads to ulceration, tubercules and consumption, and the patient suffers great distress until it is removed. One tea-spoonful of the Resolvent will loosen the Phlegm and enable the patient to expectorate with ease. Every person troubled with Cough, Bronchitis, Catarrh, Tightness of the Chest, Phlegm, Inflammation of the Lungs, Congestion, &c., should take a tea-spoonful of the Sarsaparillian at once, and bathe the Chest with Radway's Ready Relief. If the Cough is constant, take the Resolvent regular—three or four times a day—or whenever a fit of spasmodic cough seizes you.

In cases where there is a constant waste of the lungs, as in tuberculous diseases, the Sarsaparillian Resolvent arrests this waste, and repairs the diseased parts with sound material made from pure, rich blood.

It secures a good appetite, makes sound and healthy flesh and fibre, gives strength to the weak, and repairs the waste with healthy material. Let not the Consumptive neglect this warning, nor reject the hope held out. Exclusive direct remedies, that act only on the lungs, will never cure; they may smooth and soften the path to the grave, but never will they restore the patient to health. It is foolish for people to reject a remedy that cures so many diseases. It is not the remedy that makes the cures—it is the Blood, and Pure Blood will cure the Consumption just as certain as it will remove Pimples, Blotches, and Pustules from the Skin—and those who wish to have their system invigorated with Rich, Pure, and Strong Blood, must use **DR. RADWAY'S SARSAPARILLIAN RESOLVENT.**

PRICE \$1 PER BOTTLE, SIX BOTTLES FOR \$5.

Sold by all Druggists. Persons who are unable to purchase this remedy at the drug stores in their respective towns or villages, will address **DR. RADWAY & Co., 439, St. Paul Street, Montreal.** On the receipt of \$1, one bottle will be sent: on the receipt of \$5, six bottles will be sent with a copy of **DR. JOHN RADWAY'S** new medical book, "Illustrated," called "**FALSE AND TRUE.**"

N. B.—ASK FOR DR. RADWAY'S SARSAPARILLIAN RESOLVENT.—TAKE NO OTHER.

THE SARSAPARILLIAN RESOLVENT cures disease by Purifying the Blood, and repairing the waste of the Body; imparting strength and vigor to deprived and enfeebled systems, it communicates its curative and purifying powers, through the Blood, Sweat, Urine and other fluids of the system.

The wonderful power this remedy has in Curing Mercurial Sores, and uncured Syphilitic and Venereal diseases, places it in France, England, Austria, and in the United States, in the estimation of Physicians who have used it, far above the Mercurial treatment and the practice of Ricord, Velpeau, and others that recommend Vapor Baths of Mercury, Arsenic, Sulphur, &c., that merely suppress disease but never cure. In all cases of

Skin Diseases, Caries of the Bones, Humors in the Blood, Constitutional, Chronic and Scrofulous Diseases, Scrofulous, Syphilis, Fever, Sores, Ulcers, Salt Rheum, Erysipelas, Rickets, Scald Heads, Sore Legs, Cankers, Glandular Swellings, White Swellings, Nodes, Sore Ears, Sore Eyes, Strumorous Discharges from the Ear, Ophthalmia, Itch, Constitutional Debility, Wasting and Decay of the Body, Skin Eruptions, Pimples, and Blotches, Tumors, Cancerous Affections, Dyspepsia, Water Brash, Neuralgia, Chronic Rheumatism and Gout, Diseases of the Kidneys, Bladder, Urethra, Strictures, Difficulty of passing Water, Calculous Deposits, &c.

CONSISTENCY!—Physicians condemn, and unthinking men doubt, the curative efficacy of the Sarsaparillian Resolvent, because it is recommended for the cure of so many diseases; not thinking that although custom has designated disease by many names, and that the virus of all diseases is in the Blood, and depends upon a cure by exterminating the poison from the Blood,—also that in 90 cases out of every 100, Calomel or Mercury in some form, enters into the prescription of every Physician.

PHYSICIANS, before you censure the Sarsaparillian Resolvent, for "Curing so many diseases," limit the range of diseases for which you give Calomel.

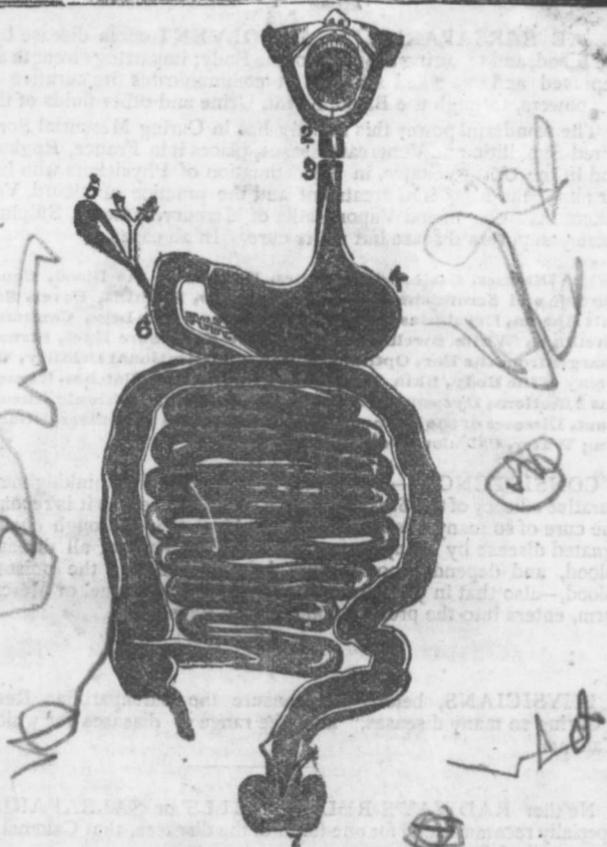

Neither **RADWAY'S RELIEF, PILLS** or **SARSAPARILLIAN,** is specially recommended for one-tenth of the diseases, that Calomel or Mercury is prescribed for.

When a Physician is at a loss for the proper medicine to use—he prescribes Calomel or Mercury in same form,—Better give the R. R. R.

HUMOURS AND SORES OF ALL KINDS.

And all diseases entailed from **SMALL POX, MEASLES, ERYSIPELAS, FEVER AND AGUE, YELLOW FEVER, TYPHUS, AND OTHER FEVERS,** such as **DROPSY, DEAFNESS, FITS, LOSS OF MEMORY, &c.**

When infants and young children are afflicted with **SORES OF THE GUMS, CANKER IN THE MOUTH, SORE HEADS, EARS AND EYES,** either from Worms, Teething, or any other cause, **RADWAY'S SARSAPARILLIAN RESOLVENT** will speedily eradicate every particle of disease and re-invest the child with health.

THE DIGESTIVE ORGANS.

Showing the course of substances taken into the stomach along the Gana.

1. The Mouth. 2. The Trachea. 3. Esophagus. 4. Laid Stomach. 5. Gall Bladder. 6. Duodenum. 7. The Anus.

IMPERFECT DIGESTION.

The above diagram shows the course of substances taken into the stomach, through the alimentary canal, and here we may remark the importance of every one desiring to enjoy perfect health, to secure perfect digestion. This desideratum will be accomplished by taking one of Radway's Pills every morning about ten o'clock, as a Dinner Pill. By so doing, Dyspepsia, Headache, Full Stomach, Biliousness will be avoided, and the food that is eaten contribute its nourishing properties for the support of the natural waste and decay of the body.—Imperfect Digestion frequently occurs when the bowels are regular, the constituents of solids that are not absorbed in the circulation, from imperfect digestion, are frequently directed to the kidneys for its escape; in such cases serious damage is done to the kidneys, as the urine secreted from imperfectly digested substances or food, i. e. those constituents not secreted by the liver or gall duct, establishes a foreign secretion in the form of Albumen, Sugar, Urea-Uric Acid, Lithic Acid, causing Bright's Disease, Diabetes, Dropsy, Renal Diseases of the Kidneys, Congestion, Degeneration, Ulceration, Gravel, Bloody Urine, &c. To prevent these serious and often fatal difficulties, take one of Radway's Pills every morning two hours before dinner.—Imperfect Digestion may be known by a voracious appetite, craving for food, great thirst, dryness in the mouth, dry skin, hot fetid breath, restlessness, swellings in the abdomen, chest, legs, cold feet, frequent desire to urinate, varied colored urine, &c. Where these symptoms are present, the Resolvent should be taken three times per day, and the Pills one to six, as the case may require. As soon as digestion becomes perfect these unfavorable symptoms will disappear.
