FIGURES GO HIGHER NEW ST ELMO MINE AT THE ABE LINCOLN TO SHIP THEIR ORE

WEEK SHOWS A GOODLY INCREASE.

Two Dollars a Year

HEAVY SHIPMENTS FOR LE ROI A PROSPECT OF WORKING ON A AND LE ROI NO. 2-CAS-

CADE BEGINS.

The week ending last night showed a substantial increase in the ore ship- the ensuing year is more than likely to ments for the camp, the aggregate te among the most prosperous in the output being 5830 tons. Of this the history of the city. It is on the cards Le Roi produced 4500 tons and the Le Roi No. 2 1300 tons. The Cascade and operate generally on a larger scale, but that several properties not now rethen shipping list for the first time with 30 tons to its credit. The shipment was made on Friday, and the company figure on sending out 60 tons per week as long as the sleighing continues.

THE OUTPUT. The output from the Rossland camp for the week ending January 11, 1902, was as follows, together with the total for the year to date:

Le Roi 4500 Le Roi No. 2 1300 1950 30 Cascade 30 Totals 5830 9180

Work has progressed steadily in all the mines. A feature of the week has been the introduction of a number of additional steel ore dumps to the rolling stock of the Red Mountain railsteel cars having a substantially larger

way steadily, and excellent progress has been made. The drifts on the 900 opment of the property on a much larger than been made. The drifts on the 900 opment of the property on a much larger than the correct from alternating to cified in an advertisement appearing claim

Le Roi No. 2.—It will be seen from the shipping list for the week that stoping operations in the No. 1 and Josie mines of the Le Roi No. 2 group a few cents per ton for handling be-Josie mines of the Le Roi No. 2 group have been especially active, and that the mines have about attained the average tonnage to be produced weekly for the next few months until another advance is made. Development has shown up gives promise of a bright future. for the next few months until another advance is made. Development has also been carried on steadily along the usual lines, those of opening up the ore bodies at the lower levels. The result of the development has been

eminently satisfactory.

Nickle Plate.—Development work only has been carried on at the mine, this has made steady progress and good results have been obtained.

Kootenay.—About 20 men are employed at the property steadily on development work by contract. The drifts on the 400 and 600 foot levels have gone ahead during the past week rapidly, and the ore bodies are showing day. The ore body is now ten feet wide, up in a most satisfactory manner.

is expected that shipments will be reis expected that shipments will be resumed on or about the end of the month. The principal features of the development have been the extension of the cost drift on the 600 foot level ping on a small scale at the

the crosscut to the north on the 100 penses of the mine. foot level. After the company has opened up the ore body as far as desired in this direction it is expected that town the last few days on a tour of insinking will be resumed at once, and spection. the announcement to this effect may

and steady progress has been made without incident of special interest.

On Monday it is the intention of the

TRIBUTES TO **CLARENCE KING**

vate life has died in recent years whose death has called forth such genuine and heartfelt press notices from his friends in the highest stations in life and editorials in all the leading New York daily newspapers as the late Clarence of the control of the life and of triumphant public career.

une. Mr. King had a large circle of friends among the uning men of British Co-lumbia, who will be giad to read these tributes to his memory. I first made his THE SMELTERS acquaintance in a stage-coach on the Kaslo and Slocan road in 1895 and found bim then and ever afterwards one of the most charming and delightful men I ever met.

When Mr. Stedman places Clarence King on an equality intellectually and socially with John Hay, his close and intimate friend, the present secretary of state of the United States, enough has been done to give a fair and just estimate of his ability, culture and standday. Interviewed by the Tribune on ing He is interesting to Rossland in this at least, that he was the first eminent expert and geologist to pronounce favorably upon its mines. All others who had preceded him had reported adverse upon them. When it became know that his opinion was favorable the cam-

became a favored place for investment.

On one occasion when speaking to unit of copper, that is, if the ore carries one per cent copper the loss is \$1 a ton; if two per cent, the loss is \$2 a ton, and me of his travels and specified scene he had seen, he said that the most beautiful landscape his eyes had ever rested upon was from a point back of Nakusp, about 400 feet above Arrow lake; and on a splendid day. Before him, he said, lay the limpid waters of Arrow lake. Away to the south, as far as the eye could reach, rolled the silvery Columbia, walled on either side by high mountains. Across on the western side of the lake rose those great mountains covered with great forests whose autumnal changes in leaf made a scene enchanting. Away above and beyond the forest line rose in majestic splendor those bare rugged shoulders filled in here and there all the way almost to Revelstoke with great glaciers and their peaks covered with the everlasting snows, He said in all his travels in rope, South America, Mexico or the United States he had never beheld such a landscape.

He is gone, and we shall never look upon his like again.
J. B. McARTHUR,
Atlantic City, N. J., Jan. 4.

and the most refined. His friends have compare with the prices that have ruled said of him, as was so often said of in former years?

Lawrence Oliphant, that he might do or be whatsoever he chose; but he was even more various, and brilliant than Oliphant, and, notwithstanding his de-lightful conjugation for narradox far more in 1806 210 29. The order of the compare with the prices that have ruled in former years?

The price today for Lake is \$12.25.

During 1900 it averaged \$16.25 and 1899 the average was \$17.61, and in 1898 the average was \$17.61, and in 1898 the average was \$17.61, and in 1898 the average and of the prices that have ruled in former years? lightful genius for paradox, far more in 1896 \$10.88. The price for Lake logical and steadfast. His literary style, given, as that grade is the one on whirh logical and steadast. His literary style, given, as that grade is the one on which although he rarely had the leisure for writing, was alluring from the outset. I writing, was alluring from the outset. I recall a single paper, a prose fantasia, price averaged \$24.27, and it dropped to \$20.74 in 1870. In 1872 it averaged \$31.38, bring." by which any writer might be daily newspapers as the late Clarence king, who died the day before Christings, who died the day before Christings, who died the day before Christings, who died the most commandate the m servative of these, which appeared in him. His devotion to his nearest kind- it had dimbed up to \$14.87, but the next the New York Tribune, and also E. C. Stedman's tribute to his memory. I hope wou will find space in the Miner to publish them. His devotion to his nearest kind-it had dimbed up to \$14.87, but the next year it dropped to \$12.31. In 1890 \$14.73 was the average, and in 1891 \$13.14, in 1892 \$11.50, in 1893 \$10.75, and in 1894 it price was \$10.76. These figures show that the price of copper has had a wide range in 35 years, and the average is not far from the price ruling in New York yesterday. The United States produces more than half of the copper production in the world, last year its total being 272,536 metric tons as against 492,625 tons as the world's total.' How low, in your opinion, could the price of copper go before it would reach the cost of production?

Paul Johnson, who is admitted to be one of the best practical smelting men one of the best practical smelting men in Nelson Fritzers. I believe we can produce copper in the Boundary at in British Columbia, was in Nelson Fri- a cost of 7 1-2 cents a pound."

Altogether, I am a new woman. I always recommend Paine's Celery Compound to my friends."

THE LARDEAU RAILWAY. Rails Now Laid to Poplar Creek,

Twenty-three Miles up. H. F. Forrest, Dominion inspector of railways, and J. J. Sullivan, engineer in charge of the construction of C. P. R. lines, returned yesterday from the Lardo, where Mr. Forrest was inspecting that part of the which the rails have been laid, says the Nelson Miner. Mr. Sullivan states that the track is now laid as far as Poplar creek, 23 miles from the lake. The track-laying gang has been taken off and from this time on will be employed in doing riprapping on the part already finished. This inspection is not final and trains will not run regularly for some time as there is little ore to come down yet, most of it being held of way and grading will be continued

Mr. Sullivan states that the spur to the Marysville smelter site is comenterprises in the southwest and in on the situation as it exists. A 10 per of J. P Vance, who was formerly in the office of Mr. Gutelius in Nelson. Another work the C. P. R. has now in hand is the building of a cutoff at Field, on the main line. The cutoff is in the nature of a betterment for though it does not shorten the route it will lessen the grade very a point where it was rather bad.

CHOSEN BY CITIZENS KILLED IN ENGLAND A VISITATION

Candidates for Civic Honors Whose Appeal Should Be Successful.

Men Whose Records in and Out of Office Give Guarantee of Efficiency.

mittee present to the electors of Rossland for their approval on Thursday next appeals to every citizen who desires to see the corporation governed by men whose records are unimpeachable, whose presence at the city hall will be an absolute guarantee that the city will have a clean administration in which the machinery of the stultified to serve private aims and secure class revenge. "Rossland for Rosslanders" is the slogan of the can-Rosslanders' is the slogan of the can-didates on the Citizens' ticket; and in the face of this patriotic motto, "Ross-of the Board of Works, admittedly one land for Agitators" will appeal to none but those whose interest in the city does not rise above the policy of wreck and ruin which the demagogues openly advocate at this juncture.

THE MAYORALTY. The Citizens' candidate for the mayoralty-John Stilwell Clute-is too well known to require introduction to Miner readers, being one of the pioneers of the camp-one of the men who came to the city in the days of its infancy and who has pinned his faith to the city from the start. Mr. Clute is a native son of British Columbiaborn, brought up and educated in the Pacific Province. He was called to the bar in 1893 and came to Rossland in 1895, two years after entering his profession. From the start Mr. Clute was identified actively with social, fraternal and political life in the Golder prior to the incorporation of the municipality, and was a member also of the board of trade on its organization.

His record in the city council covers a period of four years. In 18 8 he took in such a way as to best serve the comhis seat at the board as a representa-tive of Ward 3, being elected by acclamation. In 1899 his election was contested, but Mr. Clute returned to the council at the head of the poll in his council at the head of the poll in his ward. In 1900 and 1901 this splendid record was repeated, and Mr. Clute now has the distinction of having been elected alderman in the premier mining camp of the Dominion in four successive years, once by acclamation and thrice at the head of the polls. In 1898, the first term, he was appointed chairman of the fire, water and light committee. For the remaining three has officiated as chairman of the finance committee. In this capacity he has had much to do with the conduct of the city's financial business; and the manner in which he performed these of the corporation recordless of classes. years of his service as alderman he but unqualified commendation.

In addition to his aldermanic duties, Mr. Clute has for the past three years merical growth of the city and whose held the appointment from the provincial government of license and po-lice commissioner. The clean and effied his share of the police and license must sink or swim with the city, and commissioners' tasks is familiar to when a business man is chosen who of reproach has never been pointed at this board despite the trying posiprovince, and that he has been prominently identified with every movement

city and in the eyes of the world generally since 1895. and true citizen who has been under public eye as a servant of the municipality for four years, without having had it said of him that on any occasion did he depart one jot or tittle from the path of rectitude with respect to his discharge of the public trusts committed to his charge.

WARD I.

from Ward 1 as endorsed by the Citi- intended to offer himself as a candizens' Committee are Charles R. Hamilton and Thomas H. Armstrong, both suggestion of the Citizens' Committee of whom have served the city well and he gallantly offered to carry their truly as members of the city council in standard in the Third ward, a course 1901 and previously. Alderman Hamil- of action which will insure to him ton has been amember of the city coun- the solid support of a strong section cil for two years, and his record is ab- of the ratepayers in that section. Mr. solutely clean and without a blemish. Dunlop, if elected, will be a stalwart At the council board his keen legal mind representative at the council board of has been invaluable in determining nice points arising in connection with the corporation's business, and he has brought to all matters a discerning and unbiased study such as might be expected from a man whose stakes are planted deep in the soil of the Golden City and whose interests all lie within the city walls. The services of such men to a corporation such as Rossland cannot be estimated in dollars and it is safe to predict that the citizens of Ward 1 will recognize this fact in the most practical manner on election day.

Alderman Hamilton was chairman of the Fire, Water and Light committee last year and managed this department of the city's business with painstaking care and splendid results. The efficiency to which the fire department has attained may be attributed in no small measure to the work of Alderman Hem-

ilton during the past year. Thomas H. Armstrong, who is Mr. Hamilton's running mate in the First ward, has numerous sterling qualities to commend him to the electors of the ward. He occupied a seat alt the council board last year, and was prominently identified with the work of several of the committees. In the discussions at the board Aldernan Armstrong brought to bear on the various questions the opinions of a business man whose interests were bourd up with those of citizens as a who'e, and he invariably added something toward the conclusions reached. By his manly and businesslike stand on all matters of importance af- Wood's Phosphodine is sold in Rossland fecting the interests of the city Alder- by Goodeve Bros. and Rossland Drug Co | the city.

derman Alexander A. MacKenzie re-election, and Mr. Harry Daniel asks of the most important departments of United States delegates considered the the municipal system. To his duties in question. Mr. Dobell was head of the respect to this office Alderman MacKen- extensive Quebec lumber and mercanzie brought a mind actuated by one motive only-that of securing in his department the best possible service for he founded many years ago, and was the city as a whole on the most econo-mical basis. The watchworld in the many ways. He was also an ardent Im-Board of Works for the past year has been "Economy," and in some quarters it has been thought hat the motto was carried to excess. To those on the inside, however, the fact is evident that under the conditions existing during the past year the presence of a man of Aldeman MacKenzie's callibre at the head of the Board of Works was almost pro- that there is a nominal surplus of \$6,vidential, Financial matters were in 016,024 over ordinary expenditure. such condition that only the most stringent economy in the discharge of the department's business prevented a deficit in the department that would have City. He was a member of the first staggered the ratepayers. The demands Ratepayers' Association in the days on the department were incessant, and for every dollar expended there were applications on file for twenty dollars of appropriations. To distribute the trifling amount at the committee's disposal munity generally and to obtain 100 cents' value for every dollar expended out the solution in an eminently satisfactory manner, devoting many hours each day to the city's service. With this record he once more asks the suffrages of the ratepayers of Ward 2 and the respomse should be unanimous if it is to go down in the annals of the corporation that true, arduous effort to serve the best interests of the city at the council board is to have its reward.

Mr. Harry Daniel appeals to the manner in which he performed these important duties has elicited nothing but unqualified commendation.

Interest in the corporation regardless of classes and the corporation regardless and the men who are identified with the commotives cannot swerve from the proper channel. With men of his calibre th corporation's well being hands. The business men of Rossland of men who may be depended upon to of the extra demands upon the Daniel as a candidate in the Second quent he consulted physicians

ward. WARD III. Alexander Dunlop, candidate for election to the council as a representative of Ward 3, is eminently qualified for the office he seeks. It may be The candidates for aldermanic honors mentioned that Mr. Dunlop originally date in another ward, but that at the the workingmen of Rossland. Himself a workingman, he is an expert tradesman, a loyal and patriotic citizen and a man against whose record the finger of the traducer has never been directed. Candidate Dunlop is a sample of the Canadian workingman par excellence, of the man who is the backbone of the community in which he resides. The electors of Ward 3, viewing the approaching contest from the standpoint of common sense and reason, must come to the conclusion that in Mr. Dunlop they will have a representative at the council who will look after their interests thoroughly, who will bring to bear on questions involving the interests of the community as a whole that sensible consideration expected from any man who has made a name and reputation for himself as an expert workman and who will worthily represent his ward and the city generally under all circumstances and at all times.

This is the class to stand a strain, and in consequence ed to head the Citizens' ticket—a tried safeguard the interests of the community in every quarter, and therefore extent that epilepsy or falling sickness the Citizens' Committee had no hesi- resulted, and these lapses into uncontation in advancing the name of Mr. sciousness becoming alarmingly fretook some remedies, but without beneficial results. Finally seeing Dr. Williams' Pink Pills advertised he decided to give them a trial. As to the result Post cannot do better than give Mr. Gauthier's story in his own w 'Yes," said Mr. Gauthier, "for nearly four years I suffered from epilepsy or falling fits, which took me without warning and usually in most inconvenient places. I am just twenty-four years of age, and I think I started business too young and the fear of failing spurred me to greater efforts perhaps than was good for my constitution, and the consequence was that I became subject to those attacks, which came without any warning whatsoever, leaving me terribly sick and weak after they had passed. I got to dread their recurrence very mu I consulted doctors and took their remedies, to no purpose; the fits still troubled me. I saw Dr. Williams' Pink Pills advertised and determined to try them. I did so, and the medicine helped me so much that I got more and kept on taking them, until today I am as well, yes better, than I ever was, and am not troubled at all by epilepsy or the fear of the fits seizing me again. Thinking there may be others similarly affected, I give my story to the Post; it may perhaps lead them to give this great medicine a trial."

Dr. Williams' Pink Pills are a posi-

tive cure for all diseases arising impoverished blood, or a weak or shattered condition of the nervous system. Every dose makes new, rich blood and gives tone to the nerves, thus curing uch diseases as epilepsy, St. Vitus dance, paralysis, rheumatism, sciatica, eart troubles, anaemia, etc. These pills are also a cure for the ailments that make the lives of so many women a constant misery. They are sold in boxes, the wrapper around which bears the full name—Dr. Williams' Pink Pills for Pale People. Can be procured from druggists or will be sent by mail, post paid, at 50 cents a box, or six boxes for \$2.50, by addressing the Dr. Williams' Medicine Co.,

OF SMALLPOX

Opening of Coronation Year.

War Office Orders for Vo**lunteers** Cause Trouble.

LONDON, Jan. 11.-On all sides in the United Kingdom extensive pre cautions are on foot to deal with the unprecedented outbreak of smallpox The total of smallpox cases in London now only amounts to about 900, but the cases are so scattered that they create the greatest anxiety. Medica men point out that the danger lies not so much in the proportion to population as in the proportion to the usual smallpox figures of the metropolis, which, generally, scarcely amount to a score per annum. London's laboratories are all busy in turning out lymph, thousands of tubes of which are daily supplied. But even then the demand cannot be met. Almost all the large firms are ordering their employees to be vaccinated, and it is doubtful if ever a city in the history of the world contained so many sore arms as London does today. Expert opinion prophesies that the epidemic ble will not reach its height until May. If the cases increase only at the present ratio, and not at double and treble the present rate, as some people declare, there will be several thousand smallpox victims in London. The effect of blooded murder was committed at the such a state of things on the corona-

lish trade is almost incalculable The orders relating to the volunteers between the government and the volunteer arm of the service, and according to many high officers will bankrupt a majority of the regiments. According to the new rules every regiment must put its members in camp for one week each year, and the government grant will be reduced in proportion to the number of absentees from the camp. The volunteer commanders say it is impossible to get more than 40 per cent of the men together the same week, so different are the occupations of the volunteers. In addition the war office refuses to recognize drills which are not attended by a percentage of men which it has hitherto been found quite impossible to attain, and enforces battalion parades of such strength that no drill hall or drill ground in London would enable the battalions Gives His Experience for the Bene-fit of Other Sufferers From This tents is Col. Eustace Balfour, a brother of the cabinet minister, A. J. Balfour, who commands the London teer force, so the colonel of one of the can war, showing strongest London regiments said, will governmental control of the cable. dwindle to nothing. In the mean-while, the war office is still waiting anxiously for an answer to its call for Africa.

Now that W. C. Whitney's Derby candidate Nasturtium and his stable companion are safe at Newmarket, and the English experts have had a dian Northern railway arrived at Port chance to see him, Nasturtium has become a prime favorite for the Derby, the Lake of the Woods Milling company. sharing with the Duke of Westminster the top price, 6 to 1 against. There is every reason to believe that under anything like favorable training conditions the American entry will carry more money than any other starter in the coronation Derby. The sporting papers devote columns to describing Nasturtium and the bookmakers are counting on a plethora of American They are determined to make trans-Atlantic customers pay high for their patriotism. Seldom has a horse with the exception of Flying Fox, (the Duke of Westminster's is a remarkable sequel to the drown-horse, which won the Derby of 1899), ing of Dan Corcoran at Hardwick iswho was known to outrank all com-land. He disappeared from his camp petitors, started at Epsom with odds there 10 days ago and now his body on, yet it is anticipated that this will has turned up at Growler cove, 50 be Nasturtium's penalty for fame. miles up Johnstone strait, whither it There is more or less speculation as to had been carried by tides and curwho will ride Nasturtium, and there rents. Corcoran was a well known is some talk that Mr. Whitney will logger. send over a new jockey. Second only to the interest taken in the Derby is the anticipation regarding the Ascot meeting. This fashionable event, coming just a week before coronation day, omises to be of more or less brilhas entered a number of important open New York entries out of 68 candidates for the Ascot cup the race cannot fail to attract Americans. Mr. Whitney is undoubtedly responsible for one or two of the New York en-tries, which probably includes Nasturtium, while the Keenes and Mr. Croker have two such entries. The King is entering Lauzen. The Keenes are evi-

ter cub. The papers here announce that the coronation of King Edward will be marked by an international athletic tournament in London, in which the world's champions in boxing, fencing and other branches of sport will compete. Jeffries, Fitzsimmons, Corbett, Sharkey and McCoy are said to be likely to appear, in addition to amateur boxers from Yale and Harvard, who will meet representatives of Oxford and Cambridge. One of the largest halls in London has already been pro-Robert Robertson, the well known Nelson wholesaler, spent yesterday in the city.

It is doubtful if the Earl's present efforts will stimulate interest in the matter or meet with a satisfactory response.

THE WIRELESS

Its Possible Effects on the Cable Business Discussed.

Before the House Committee.

WASHINGTON, Jan. 11.-The effect of wireless telegraphy on the future of at the same time been popular abroad. the submarine cable was developed to kensome extent today by the house committee on commerce in connection with the hearing on the proposed Pacific ca-

Vice-President Ward of the Pacific Commercial Cable company, continuing his statement of yesterday, said he believed the company he represented would be able to make exclusive traffic arran gements from points beyond the Philipplines and connecting with China and forced upon us have brought in Japan.

Chairman Hepburn asked a series of questions as to the effect of wireless telhave stirred up strife to an extent egraphy on submarine cables. Mr. Ward which has not existed for many a year replied that the new system presented serious question. He was not certain that the Pacific cable project would have been undertaken if the long distance experiments blad occurred earlier. As to the claims that wireless signals blad ben conveyed two thousand miles across the Atlantic, Mr. Ward said that if the claims were good they would deter people from laying any more cables. When asked as to the effect thus far on the cable business Mr. Ward said that it had depressed cable interests.

Mr. Stewart wanted to know if the "cable companies had not chased Mar-comi out of Canada," to which Mr. Ward replied that he believed the cable companies had insisted upon certain exlusive rights they held.

Mr. James Ford stated that the American Asiatic Association, doing business in the Orient, favored a cable under private control. It was opposed to the a government entering the field of private

enterprise.

Refers in a Speech to Animosity of Foreign Powers.

The Strong Loyalty of the Colonies a Welcome Offset.

LONDON, Jan. 11.-Mr. Joseph Chamberlain, the colonial secretary, speaking at Birmingham tonight took occasion to notice, without entering into a controversy or making a rejoinder, the sarcasms showered upon him in the Reichstag during the past week, especially Count Von Buelow's castigation. Referring to the animosity of foreign nations, he said he was The Pacific Cable Project well aware that it was in some quarters attributed to "indiscreet oratory of the colonial secretary." "What I have said," continued the secretary, "I have said. I withdraw nothing; I qualify nothing; I defend nothing. As I read history, no British minister has ever served his country faithfully and I, therefore, make allowance for foreign criticism. I will not follow the example that has been set me. I do not want to give lessons to a foreign minister, and I will not accept any at his hands. I am responsible only

to my sovereign and my countrymen. "I do not depreciate the importance of the good will of the foreign nations, but there is something more important, it is the affection and confidence of our kinsfolk across Even our great es in the war that their train one blessing of infinite and lasting importance. That war has enabled the British Empire to find itself, and has shown to all whom it may concern that if ever again we have to fight for our very existence against the world in arms, we will be support-ed by the sons of Britannia in every

quarter of the globe. "How can I," said Mr. Chamberlain "be made responsible for what Lord Grey has called filthy lies and what Lord Rosebery describes as 'vile, infamous falsehoods,' which have been disseminated in foreign countries without a syllable of protest, without the slightest interference by the respon sible authorities? My opponents must find some other scapegoat; they must look further for the causes of hostility, which I do not think deserved but which always come to the surface when we are in difficulty, and which I am glad to say have never done us

Mr. Chamberlain said that when the present ministry came into office it was at a time when the country was at peace with the world, but the cabinet had to meet at least six burning questions of international importance. Those legacies which Lord Salisbury ernment successfully grappled with and disposed of.

"Our American kinsfolk," continued Mr. Chamberlain, "have agreed to a treaty to enable the construction of an inter-oceanic canal which I believe will be of great advantage to the commerce of the world, as it will be of great advantage to the United States. I might have included the struggle for supremacy in South Africa, but I say these are solid achievements in the cause of peace; and if we have been unable to remove continental settle many substantial difference which might have caused international

Extolling colonial patriotism, Mr. Chamberlain said: "Only a day or two ago I read in an influential Canadian paper an editorial which declared that the pro-Boers in England were injuring the empire abroad and destroying the unity which is our national safeguard.

"This is only a sample of the loyalty expressed in every colony of the empire. This is a new factor in politics. You must hereafter consult the colo nies upon every vital question of Imperial politics.'

Mr. Chamberlain concluded by paying tribute to Lord Kitchener's stern resolution, the army's cheerful courage and Lord Milner's wise administration.

THE ARLINGTON MINE.

Unfavorable Rumors Concerning the Property Corrected.

NELSON, Jan. 11.-C. E. Smitheringale, editor of the Slocan Drill, of Slocan City, is in Nelson and was asked concerning the report which was recent. ly industriously circulated to the effect that the Arlington mine had run out of ore. He replied in substance as follows: The report is not true. The Arlington mine today is in first-class shape, has as much ore in sight as at any time upper camp that is in better shape. There has been considerable trouble since last fall over the marketing of its whatever party has its swmpathy, and snow came, however, the management being an intolerant partisan. A MATTER OF SUPREME IMPOR-

TANCE.

A matter which is of very much importance to this section of the province of British Columbia is one to which attention has just been called, namely, the danger of a complete monopoly of the coal and coke product of the Crow's Nest region being established unless immediate steps are taken by the Do minion government to thwart such a move. The Crow's Nest Coal company, with which is associated Mr. J. J. Hill, the railway magnate, is likely soon to be in a position to take the mine owners of British Columbia by the throat and make them their slaves slaves in every sense of the word. That this is no idle statement, but one based upon a knowledge of the exact conditions, will be seen if one will take a map of the Crow's Nest Pass region and attempt to apprehend the situation there in respect to the development and exploitation of the immense coal acreage in that particular section. It is well known that there are only four points in the district at which it is possible to tap the great coal seams. These are Michel, Coal Creek, a point northwest of Morrissey and a point southwest of Morrissey. The first three mentioned points are in the hands of the Crow's Nest Coal company. The last mentioned point is where the Dominion government wisely reserved for its own jurisdiction 50,000 acres of coal vital point of the situation hinges upon other side of the line, where they have we have no doubt as to what the outwhat disposition the Dominion government may make of that particular In reserve of 50,000 acres. fact, it is not too much to say that the future of this section of British Columbia and the very fate of the mining inSifton that there is only one duty for body of citizens who have the true in the past, or shall they be placed undustry depends upon the particular dishim to perform, that he will make no and best interests of the town at der the guidance and direction of men a mine owner myself, I naturally symthe grant transferring the conposition which the government makes of delay in meeting the wishes of the heart—men who have large stakes in representing large property interests that reserve. The grave danger which country in this respect. menaces the mining industry of the province in this matter lies in the ability which the Crow's Nest Coal com pany will have to work to the disaster of this section of the country by tying up our coal and coke supply, and util- tors of Rossland will deal with on izing the product of that section to Thursday next is the most important build up rival smelters on the other side one since the city was incorporated. of the line. That this scheme is one The future of the place, the success would not hesitate to put into effect is an almost incaculable extent upon the est protest against that company being

That such a protest will go up we have no doubt whatever, but with the atterance of that protest should be coupled the demand that the one remedy which it is possible to put into effect to prevent the complete tying up in the hands of a gigantic monopoly of the mining industry of this country should be applied at once. The remedy immediately suggests itself. It is this the Dominion government should re-Mease its coal reserve to some company who will exploit it and work in harmony and sympathy with the Canadian Pacific Railway company. Just here we may explain that unfortunately the Canadian Pacific Railway company is debarred from being an applicant for the privilege of working the reserve we have mentioned This is due to the fact that it entered into an agreement with the Crow's Nest Coal company not to engage in the coal mining industry for a period of time in that district, but there is nothing to prevent a company being formed which would immediately commence the exploitation of that re serve, and act in sympathy and co operate with the Canadian Pacific Railway company for the distribution of its product. We mention as an essenmay be made with the Dominion government that the reserve should be prosper? Are they desirous that we \$15,973,626 for wages paid; \$3,088,007 for present conditions.

work in conjunction with the C. P. R., quietude after the turmoil and disasfor the reason that it is absolutely nec- ter with which we have contended? ssary that the company with facilities No, is our answer; and that answer for handling the product and reaching will find an echo in the breast of every the guarantee that they will have the it in their hearts-to have such power same competitive facilities as will be placed in their hands in connection given smelters on the other side of the with the management of the municipal and Jim Hill's railway.

which have been reserved south of Morrissey, will make no mistake if he immediately consents to the arrangement which will meet with the approval of every man in Western Canada who is free from Crow's sumptuous and insolent demagogues Nest Coal company influence; and we and incompetents succeeded in their do not think that he will display much scheme. What would be the consehesitancy in the matter.

with this subject is that early in July community knows what it would be. nie, and will then be in a position to feed the smellters on the other side of in the stability of the city would be lost in opening the reserve in the manner ner we hvae suggested, allowing the new company to commence work at the earliest possible opportunity in order to be in a position to compete with the Crow's Nest Coal Co., Mr. Hill and his

That a grave danger lies in delay, or in a refusal of the Dominion government to do what ought to be done in the matter, will be seen when it is realized that already the mining interests of this section have suffered because of the disposition on the part of the Crow's Nest Coal company to discriminate against them. It has been charged, and we believe charged with truth, that the coal company have supplied an inferior quantity of coke to the smelters in this section, sending to the smelters on the

Mr. Sifton cannot just issued, Premier Dunsmuir says: but be aware of the pit "The memorial of the mine owners setthe laws may work a hardship, because restriction. Hon J. H. Turner last session announced as minister of finance that the question of taxation as a whole two per cent tax as between high grade in the proposed legislation. Mining is affected by measures both Dominion and under the guise of the style and title Provincial in their nature, and if the natural resources, that he could emof the Municipal Labor League, to secure Dominion government at Ottawa will ploy his power to the advantage of the such supremacy in Rossland's munici- join with us we are willing to agree pal affairs as may enable them to turn to a joint commission in which all phases of the industry may be investigated and reported upon at one time."

PAUL PRY AND THE "CLOSED DOORS."

Mr. Ferris complains of the treatment ecorded to him when he obtruded him-

kers. He was politely informed by the chairman that unless he was prepared to support the Citizens' Party in the that it will be demonstrated that union approaching election he should retire from the meeting. Was there anything objectionable in this treatment? The only possible object which Mr. Ferris could have had in attending the meeting was to pry into the methods proposed to be adopted by his opponents. Would any such Paul Pry be tolerated in the meetings of that patriotic clique to which Mr. Ferris belongs and which calls itself the Independent Labor party? We rather think that rougher from the domination of a few men who treatment than a polite request to retire would be accorded to any such indivi-

***************** CURRENT COMMENT

Mr. J. J. Hill's Game.

The conspiracy which seems to be The conspiracy which seems to be W. B. Allen was nominated tonight afoot, and in which the members of for the position of U. S. senator for and Mr. Jas. J. Hill, the president of and Mr. Jas. J. Hill, the president of nated to succeed himself at the the Great Northern Railway company, piration of his appointed term. are the principal actors, for obtaining vote of the control of the coal and coke output of both cases,

East Kootenay in the interests of the smelting and refining industries to the uth of the line, and to the detriment of those in our own country, is wel son Tribune which appeared in the Coast papers yesterday as a dispatch from that city. The concealed attempt on the part of these people to obtain from the government another grant of coal lands in that district, so as to obtain an absolute monopoly of all the accessible coal lands of the Crow's Nest Pass, is not unlikely to be successful unless such a cry is raised throughout the province as will bring the matter strongly and intelligently before the attention of the governmen

at Ottawa. The leading members of the Crow's Nest Pass company are all prominent Liberals, and have in the past, and do now use their positions in the party for their own personal purposes. That and it is not in any way questioning say that it will require the best per day in the "muckers'" wages is efforts of the people of this province

As the Tribune points out, coal min at Michel, at our at Michel, at Morrissey's Creek, and on land south of Morrissey. The company is already operating a south of Morrissey, in which even of all the accessible coal lands in the Pass. The land south of Morrissev ion government. The company, which is asking for land south of Morrissev.

UNFAVORABLE TO ROSEBERY

THURSDAY January 16, 1902

the London Liberal Association.

A Letter Sent by Emperor William to King Edward.

LONDON, Jan. 13.—The inaugural meeting of the London Liberal association at St. James hall tonight has been awaited with great interest, principally because it was probable that light would be thrown upon the future relations between Lord Rosebery and the Liberal party. Taken as a whole the demonstra-tion could hardly be taken as an enthusiastic welcome to Lord Rosebery's re-appearance in public life.

Lord Rosebery was not present at the meeting, at which Sir Henry Campbell-Bannerman, Liberal leader in the house of commons, and Earl Spencer were the principal speakers The temper of the meeting was distinctly hostile to the ex-premier. The speech of Sin Henry Campbell-Bannerman clearly indicated that if Lord Rosebery returned to the Liberal fold he must come unreserved-ly and in full accord with the present

policy of the Liberal party.

The hall was crowded. Sir Henry Campbell-Bannerman and Earl Spence were greeted vociferously. Miss Hob-house, who was the first person to agitate regarding the condition of the concentration camps in South Africa. was called to the platform and received an ovation. In the meantime pamphlets denouncing Lord Rosebery as a traitor to the party were thrown broadcast from the galleries. The reading of Lord Rosebery's letter of regret was received with mingled cheers, hoots and hisses, the latter predominating. In his letter Lord Rosebery said he hoped that the meeting would aim to "secure the unity of commonsense Liberalism," to which the writer hoped he had contributed in his recent speech at Chesterfield.

LONDN, Jan. 13.—The grand jury today found a true bill against Dr. Krause, the former governor of Johannesburg, on the charge of inciting Cornelius Broeckman, the ex-public prosecutor of Johannesburg (who was executed September 30th last) to murder John Douglas Foster, an English lawyer who was attached to Lord Roberts'

will be deputed to represent Emperor ers themselves.

WASHINGTON, Jan. 14.-Mr. Choate, special representation of the United States government. As a matter of fact, however, the United States ambassador is a very important figure in the cere-monies, and is in almost every instance attendant upon all the functions in which the special representatives participate. General J. H. Wilson had a conference with Secretary Root at the war department this afternoon and formally accepted the appointment of military member of the special embassy to London at the coronation of King Ed-

ward. BERLIN, Jan. 14.-The correspondent of the Associated Press has received a telegram from the North German Lloyd Steamship company at Bremen saying that the date of Prince Henry's sailing has not yet been fixed. This tel-egram concludes as follows: "It is probable that the new company will send a fast liner not in the published salling schedule to convey Prince Henry

to New York." An arrangement has been made be-tween the German admiralty and the North German Lloyd Steamship com-pany by which the Imperial yacht Hopany by which the Imperial yacht Hohenzollern, when she arives at Hoboken, will be freshly painted in order to remove all trace of her long voyage and that she may present her bandsomest appearance for the festivities.

German newspapers print long cablegrams from New York dwelling on the interest evoked by Prince Henry's pro-

grams from New York dwelling on the interest evoked by Prince Henry's projected visit, describing the tentative plans for his entertainment and giving the comment of the New York press on the matter. These latter have created the best impression here. Prince Henry will arrive at Berlin next Thursday, where he will remain for the court feeti-

A MINISTER'S DUTY.

A Glowing Tribute to the Sterling Worth of Dr. Agnew's Catarrhal

OF "ENGAGED" BY THE DRA-MATIC CLUB

THE PLAY ATTENDED BY AN AUDIENCE THAT CROWDED THE HOUSE.

Rossland amateurs won fresh laurels Arrangements in Regard last night in the production of the farce Another Body of Troopers comedy "Engaged" by the Rossland Amateur Dramatic club. The bill was different in many respects from those essayed previously by amateurs in the Golden City, but it was carried through with vim and dash from the start and resulted in an eminent success, not less in any respect that the productions by the same organization and others in the has been issued summoning parliament

Reference to the entertainment would be incomplete without complimentary by the orchestra were rendered with an excellence that provoked hearty applause and contributed in no small

measure to the evening's enjoyme Rossland is justly proud of the dramtic talent in its midst. Few, if any, cities of the same population are in a position to turn out two distinct and independent amateur dramtic organizations, both capable of placing on the boards performances that wou credit to most of the professional com-panies which visit the city. That the Rossland Dramatic club and its felloworganization may flourish and produce many plays in the future is the sincere hope of Rosslanders generally.

hope of Rosslanders generally.

Y. M. I. BANQUET.

A Very Enjoyable Affair—Presentation to Rev. Father Welchi

On Monday evening the Young Men's Institute, a society connected with the Church of the Sacred Heart, held its annual banquet. The hall had been tastefully decorated for the occasion, and at 7 p. m. the members, who were present in large numbers, sat down to a splendid repast. One of the features of the evening was the presentation of foreign opinion or action. Sometimes he allows himself to use an expression that may appear offensive to the statesmen of other countries, as when, referring to Russian machinations in the far east and her statesmen's disregard of solemn pledges he hinted that "he who sups with the devil needs a long spoon." But his own countrymen who know him well and who are mindful of the great work that Mr. Chamberlain has achieved in the interest of the Empire, and especially of that of the colonies, will agree with the colonial secretary that a course likely to molof the evening was the presentation of a very handsome dressing case to their worthy chaplain, the Rev. Father interests. Few of us but will applaud

Weich.

Mr. Donnellan, the president, on behalf of the Institute, made the presentation and spoke of the affection and esteem which all the members entertained towards Rev. Father Welch in consequence of his deep interest in their society and his never failing sympathy and kindness. Mr. Quirk, as vicepresident, seconded President Donnellan's remarks and expressed his opinion that the present prosperity of the Y. M. I. was in a large measure due to Rev. Father Welch's efforts.

Rev. Father Welch responded in his

Rev. Father Welch responded in his usual pleasing manner, expressing in feeling terms his appreciation of the handsome present and spoke most en-couragingly and cheeringly of the fu-ture of the Y. M. I.

Powder.

"When I know anything worthy of recommendation I consider it my duty to tell it," says Rev. James Murdock of Hamburg, Pa. "Dr. Agnew's Catarrhal Powder has cured me of catarrh of five years' standing. It is certainly magnetical in its effect. The first application benefitted me in five minutes." IS. SUMMONED TRAIN ALTERATIONS TO BE MADE ON ACCOUNT OF THE NEW BRIDGE.

Ottawa Houses Called to ROSSLAND CONNECTIONS WITH BOUNDARY AND NELSON TURNED ABOUT.

Commencing next week, the new bridge across the Colum; bia river at Castlegar, recently turned over to the Canadian Pacific railroad by the Doninion Bridge company, of Montreal, will be incorporated as a practical section of the Kootenay-Boundary division. For the first week the bridge will be utilized for freight traffic only, but during the next following week the passen-senger trains will be run over the bridge, while the filling at the east approach and the cut at the western end will be and the cut at the western carried along by the construction trains. The alteration will affect the present system of operation. In future the Boundary trains will run through from Nelson, and the Rossland trains will run through to Nelson. The train crews are not affected, but the ferry crew and the switch gang at West Robson will probably not be required at that point in future. After the change takes place the trains now leaving Rossland son, for the past 25 years grand sec-retary of the grand lodge of Quebec A. F. A. M. and well known in Masonic daily at 8 a. m. for Boundary points will connect with the new Boundary train out of Nelson at Castlegar, where Boundary passengers will be transfer-red. Then the train will run through to Nelson, returning the same evening and picking up Rossland passengers from the Boundary at Castlegar. The 6 p. m. local will be run out as usual at night. controversy, which aroused much in-terest in Anglican church circles local will be run out as usual at The Fournier buffet car will be run has been settled. Archbishop Bond, it will be remembered, inhibited Prof. into Nelson instead of to Smelter Junction. This feature has now been in op-Stein, a member of the faculty of the eration for several days, and has ma diocesan college, from preaching in a distinctly favorable impression with passengers to and from the Boundary. The food served is of excellent quality the diocese on account of erroneous

utterance to. The discussion of the and well prepared, while the tariff is de-cidedly reasonable as judged from a question gave rise to some unseemly incidents, and finally resulted in Stein western standpoint, suing the archbishop. As a result of the settlement Stein withdraws his The Canadian Pacific will erect a handsome depot at Castlegar, where suit, apologizes, retracts his erroneous doctrine and is restored to his standpassengers from the east and west-main-line for Rossland and Boundary points BELLEVIEW, Ont., Jan. 14.—Gilbert transfer. The building will probably he offered to erect a public library building abundant at Robson.

Milline Milling CITY NEWS

HIS NATAL DAY-Master Reginald Mackintosh celebra-ted a birthday yesterday, and the event and one of the first duties of the new occasion of much merritea and dancing during the afternoon, winding up with a pleasant drive after nightfail.

THE BURNS CONCERT-

The Scotch lecture and concert to be given in Masonic hall on the evening of the 24th promises to be a rich treat Rev. Dr. Robinson, it is understood, will describe Ian McLaren and present scenes in Drumtochty. These will be interspersed with Burns' best in song by Rossland's leading singers.

SLOCAN STAR CASE-

by Chief Justice McColl, granting the Star Mining company permission to examine the underground workings of the Slocan Star, has been refused, with 3 costs, by the full court at Victoria. The examination will therefore proceed.

OFFICIALS HERE-

Charles Coit, assistant superintendent, C. H. Prescott, master mechanic, and M. J. Duffy, general roadmaster, all of the Spokane Falls & Northern road, were in the city yesterday on a business trip. While here the officials inspected the improvements recently made in the vicinity of the Black Bear works.

UNDER ESTIMATED-

That the Miner's estimate of the ore production from the Rossland camp for the year ending December 31 was conservative is indicated by the fact that the sworn statment as to the output of the Iron Mask shows a production of 4185 tons. The Miner's figares with respect to the Iron Mask were only 3733 tons.

THEORY VS. PRACTICE-

In theory the Miners' Union works along broad lines for the benefit of all, including the community generally in which the union is located. In practice the theory does not work out, as was brought home to a property owner yesterday when a tenant gave notice of removal because the owner had not bowed his neck to the agitators' yoke

BUGLERS BOLDER-

The bugle band of the local militia company has organized a hockey team and will probably meet a team composed of members of the company at an early date. The militiamen have introduced ping-pong at their mess rooms, and some clever players are City. being evolved from the abundance of raw material. The game is making a big hit with the citizen sordiers.

DOGS BARRED-

powers that be at the court house barring all dogs from the building, neat sign in gold letters notifies the public of the new order. In the past canines were not specially barred out, and the result was that several of the doors were so scratched by impatient pups as to put the government to some expense for re-var-

GOOD YEAR-

John Kirkup, government agent, has completed his work for the year in connection with the assessment roll and the collection of taxes. The past year was one of the best in the history of the office in respect to the collection of taxes, the levy coming in unusually well. The government office staff is now engaged in winding up the clerical work arising out of the year's work. Incidentally Mr. Kirkup is overseeing the laying of the first installment of the linoleum specially imported for the courthouse.

ICE AGAIN-The regular January thaw appears have petered out for the present, and ing out of the seizure of vessels owned winter sports are once more in full swing. The hockey boys are to recommence at once and negotiations will be re-opened immediately with the Trail and other teams who desire games. The curlers also resumed play last night, and until further notice the devotees of the roarin' game will be daily attendants at the rink. The skaters found the ice at the rink in good condition again last night and this pastime is also under way with unabated enthusia

NEW TEACHER-The school trustees have filled the position on the teaching staff of the public schools rendered vacant by the resignation of Miss Olding by the apointment of Miss Clements, now on

the public school staff at Fernie. Miss Clements will arrive in the city shortly to assume her duties in the Rossland schools. The class which she will take charge of comprises some 90 junior pupils, and as this number is altogether day. too large for one teacher to handle in two and secure the services of an additional junior teacher.

THE BOXERS-

at the International on Thursday night next are working hard in their respective quarters. Young Sully is Perry Davis'. testing his long arm swings on George Washington Brown's punching bag and incidentally meeting all comers, while Al. Jones is working hard in another section of the city. The "go" between the boys should be fast and interesting from the drop of the hat. Several lads are eager to go on in will be experienced in arranging this year 1902 was agreed upon. Lewis Nixfeature of the programme.

SOCIAL AND

some few months ago, and the complaint companied any players, amateur of professional. I was the only member of the jolly crowd to think of either omen, and your pring-pong fever was very rife in Scoths been rapidly spreading until now, Ping-pong fever was very rife in Scot-land and some of the more lately acquired British possessions last winter, and the germs were no doubt carried here by one or more Rosslanders coming back from a visit to the Old Country. We have made a slight study of the fever and have come to the conclusion that it is extremely infectious. The principal symptoms in the earlier stages are very curious and consist of an intnese desire on the part of the victim to strike an almost imaginary ball with a diminutive racquet, imagining that the ball will go in a certain direction. Those symptoms are accompanied by varied contortions of the body, varied considerably according to the physical build victim, in the endeavor to recover the stricken ball, which in nine cases out of nine, in the earlier stages, has found a resting place in some almost nacessible corner. The disease up the present has confined itself chiefly to nembers of the Legal Profession, and we believe our future Mayor has a slight touch of it, though, we are gla to say, not enough to interfere with his atcive contest. There are also a few victims amongst the Bank Managers and their assistants, and some of them have got it bad. At least one Architect in Town has it, in fact we believe her is responsible to a great extent for the spread of the fever here, he having brought the first germs with him from Glasgaw. It has broken out n a mild form on the Stock Exchange, and we hear that the Secretary of the Skating Rink has a very aggravated attack, accompanied in his case with an intense desire to infect all his friends. At least one Mucker at the Le Roi has it, and it has affected him in a most remarkaway. He is under the impression that \$2.50 per day is enough for such unskilled labor and that he would rather have \$2.50 at the Le Roi than \$3 in any other Camp in British Columbia, But the saddest case of all is that of the Rocky Mountain Rangers, A few members of No. 1 Company got the infection

is rapidly spreading through the whole to explain that the so-called fever is a new indoor game called Ping-pong, and a few words as to origin and rules may nterest our readers. The game was introduced some six years ago under the name of "Parlor Tennis," but did not catch on wor th a cent, as our American Cousins would say. Last Winter, howver, it was renamed Ping-pong and eemed to catch the public fancy, for thousands of people all over the World have taken it up and it is now being made the subject of cartoons in the

in the early part of the week and it

Comic Papers and Punch. The game is played by two persons, not necessarily British Subjects, and the implements consist of small parchment covered racquets and balls made of celluloid. The game is played on an ordi nary extension table about 4x8, across which is stretched a net about six inches in height. It practically amounts way, being forced to camp in a snow- to tennis on a table, as the first name implied, and the rules of tennis, with Hockaday was tired out, and the other a few exceptions, are adopted. It is one

> A lawyer in town says he could not Jim.'

'but he is so used to three balls he can't "make out mit one."

A prominent member of the Stock Exchange has gone in for it and is so pleased he is going to give up bearing stocks from now on. The man with the Irish Terrier says

A late member of the Canadian hou says it is his main pleasure and that

A Mining Broker of Scotch extraction says "It's a fine game, but no' up ta curlin'."

A recent arrival from Atlin thinks the game could be improved upon. He suggests that the table be made longer and broader, the net lower and the racque A Broker says he would go in for it

but he has just bought 64,000 Winnipeg and has orders for 56,000 more, and can't afford it. A Banker says he is the best player

before he leaves for Greenwood.

The Chemists vary considerably in their estimate of the game, One says it is a good evening game, another that he is too stout for it, a third that the ball rolls too far for him and one says if he were only tall enough he would take it up tomorrow.

A boy's account of the trip of the Rossland Amateur Theatrical society, which presented "Confusion" at Nelson, Grand Forks and Greenwood:

My name is Dick. They call me a litmacy to get myself "booked" as a mem-ber of the Rossland Amateur Theatrical

There is a homely old saying that you ber of the Rossland Amateur Theatrical ber of the Rossland Amateur Theatrical society on the occasion of its recent trip.

I hardly know where to begin; there

There is a nomely out saying must live with people to really know them. The crowd I have been writing them. is so much to say and so little space available in which to say it—but, having eral days. There were no contentions been brought up under Christian influ-ences, I was early taught that goodness better because of the journey and the

kept it to myself, and appeared to the gayest of the gay company. Just as I had driven from my mind every discomforting apprehension on this score, another fact came crowding into my brain, and in the language of one of the "Confusion" cast, made "my heart of the appelling fact that Indigestion is a trouble that is very

suffer." This was the appalling fact that our party numbered just thirteen—not counting the "baiby" and the dear little pug, "Minnie"—the sweetest little dog, A mild epidemic broke out in Rossland and the best performer that ever ac

At last the baggage is dblecked, the last sleepy member of the cast has arrived, and we are off. Oh, the joy of a ride down the mountain in the early morning! You who are permitted to enjoy it often have probably little appreciation of what it means to one who had never taken it before. I cannot dwell up on it now. The editor of the Miner has kindly but firmly assured me that he cannot give me the space—so I very re-ductiantly refrain; but I must refer—at the risk of having this returned as rejected manuscript—to the ride from Trail to Robson, along the majestic Co-lumbia. Do you think "majestic" too strong a word for that deep blue river, its swift current mushing through the grand old mountains in which probably for centuries to come progressive and for centuries to come progressive and lets for a few days the vomiting and energetic men will continue to find diarrhoea ceased; she began to imtreasure? Very well, then, we—(isn't it inspiring to take on thus early the editorial "we"?) we will call the entire scene majestic— a scene in which the beautiful river takes a most prominent part. Especially grand and inspiring is for a child."
the scene at Robson, where the ferry is These table in waiting to convey us across, and the glorious sunshine comes out for a moing us renewed hope that the ill omens attending our departure are of little mo-

And now, we rush along in the train to Nelson, that beautiful city perched on the hillside sloping to the lake, where we find, to our discouragement, that our advent had not been heralded to the extent that we had hoped, and been led to believe. Indeed, very many of the prominent citizens had no intimation of our approach); so it became necessary for the gentlemen of the company to proclaim the fact from street corners and from electric cars that the Rossland Amateur Theatrical society were to give "Confusion" that evening, while the la-dies of the society, with the able assistance of Mr. Parry and a separate detachment of the gentlemen, endeavored to equal the arrangement of the stage which was so successful at Ros To the uninitiated it may be as well Mr. Phair, of the charming hotel of the same name in Nelson, lent numerou properties, and but for him and Mr. Parry, and Dr. Armstrong, the would not have attained its usual

ment.

standard in Nelson. erform-So well were all these things ed that when the curtain rose ,punctu-

which came down in torrents.

We have been led to believe from what we learned on all sides that "Confusion" gave good satisfaction in Nel son. Certain it is that the people of Nelson were kind, considerate, and appreicative of the efforts of the Rossland

Amateurs. After the play Mr. John McKane entertained the Rosslanders at supper at the Phair hotel. This was a most enjoyable affair-a very handsome ment on the part of Mr. McKane.

Bright and early on Saturday morning we started for Grand Forks, Once more one. Time and space forbid my telling the office of the court," will be held at of the joys of that day. Immediately on our arrival at Grand Forks we met Commodore E. S. Biden, owner and means to send it to the "Old Man and manager of the opera house, whose reputation for whole-souled hospitality is well deserved. He showed us every atone wants to leave one's watch or diamond ring in safe keeping for a few days before the 15th, says he "vood blay" but he is so year to the leave one's watch or diamond ring in safe keeping for a few days before the 15th, says he "vood blay" but he is so year to the leave of the ladies a beautiful souvenir. Mr. and Mrs. George Fraser, formerly of Bossland, did much to make our stay pleasant and the presentation of "fusion" a success. The audience and appreciative, and we

large and appreciative, and we left Grand Forks with genuine regret. Our next appearance was at Green-wood. The play was produced there under the auspices of Boundary Lodge No. 38, I. O. O. F.,—and we are glad to chronicle the fact that it was a success in everp particular—a substantial sum being added to the treasury of the Odd

We were shown much attention by the citizens of Greenwood, especially by Mr. H. B. Munroe, and other leading Odd Fellows. We were shown through the smelter and other places of inter est We must not forget to mention that our pleasure and comfort at Greenwood was enhanced because of the thoughtfulness, eare and attention of Col. and Mrs. Armstrong. We were all sorry, especially the writer, when we had to turn our faces homeward. The holiday had been all too short, especially for Dick.

I have not told half what I want to

in Town and if any person doubts it is have not told half what I want to the is willing to put the mit on any time tell. I was in a position to see and over tell. I was in a position to see and over hear very much which I suppose I ought not to tell. I think I may be permitted to say that all of the were loud in their praises of Judge Nelson, who they insist is the best mans

CHILDHOOD INDIGESTION.

Often Leads to Serious Troubles Un less Prompt Steps Are Taken to Check it-How This Can Best be Done.

ommon in infancy and early childhood, and unless prompt measures are taken to control it the result is often very serious. It prevents the proper growth of the child and weakens the constitution, so that he is unable to resist other diseases that are more dangerous. Fortunately, however, the trouble is one that is easily controlled Proper food-not too much, but abso lutely pure—plenty of fresh air, and Baby's Own Tablets, freely administered according to the directions, will soon put the sufferer right, and make both mother and child happy. Mrs. W. E. Bassam, of Kingston, Ont., is one of the many mothers who have proved the truth of this statement. She says: "When my little girl was about three months old she had indigestion very badly. She was vomiting and had diarrhoea almost constantly. She was very thin, weighed only four pounds, too petite her food did her no good whatever. I had tried several medicines but they did not help her. heard of Baby's Own Tablets and procured a box. After giving her the tabprove at once and grew plump and fat. I always give her the Tablets now when she is ailing, and the result is always good. Baby's Own Tablets are the best medicine I have ever used

These tablets will promptly cure all the minor ailments of little ones, such as sour stomach, indigestion, colic, ment, illumining the spectacle, and giv- constipation, allay the irritation accompanying the cutting of teeth, etc. They are good for children of all ages, and crushed to a powder or dissolved in water can be given to the youngest infant. If you cannot obtain Baby's Own Tablets at your druggists, they will be sent post paid at 25 cents a box by addressing the Dr. Williams Medicine Co., Brockville Ont.

A GUARANTEE-"I hereby certify that I have made a careful chemical analysis of Baby's Own Tablets, which I personally purchased in a drug store in Montreal. My analysis has proved that the Tablets contain absolutely no opiate or narcotic; that they can be given with perfect safety to the youngest infant; that they are a safe and efficent medicine for troubles they are indicated to relieve and cure.' (Signed)

The Nominations Made by the Citizens' Committee.

legislature has been called to meet on An Exceptionally Strong Ticket Placed in the Field.

The headquarters of the Citizens geles. She lost her sails in a typhoon Committee was crowded to the doors south of Japan in October, and again last night with an enthusiastic gathin the blow of Christmas night off the ering of cleaters. The feature of the evening's proceedings was the selec-

It was pointed out that as the corporation was taking over the public schools and would in future be rehad been seen off there and Indians at sponsible not only for the conduct of the local education system along the said it was seemingly a three-masted lines calculated to obtain the best results for the pupils, but for a considerable portion of the funds necessary to operate the schools, it was essential that the new school board should be composed of men in whom citizens would have implicit confidence both as to their special ability for the positions and with respect to their busilost on a reef between Grey and Green ness acumen. The sentiment was unanimously endorsed and candidates were selected by ballot. The result was the selection of a ticket that must recommend itself to every ratepayer. The men chosen by the citizens and unanimously endorsed are as follows:

Hiram P. McCraney. A. Casimir Galt. William M. Wood Robert W. Grigor.

George Agnew. The card as given above carries with it an assurance of the best possible school system in Rossland with the least possible burden on the ratepayers. The gentlemen named are all men of standing in the community beyoud the shadow of criticism, and the municipality is extremely fortunate in having in its midst men of this calibre who will devote the time to the man-agement of the school system.

Mr. McCraney, who heads the list given above, is a citizen and ratepayer whose services will be invaluable on the school board. He has been identified for years with the Rossland school board, and has every detail of the schools at his finger tips, backed up with an extensive experience of the systems of other cities in the west. lulu January 3rd, and received via These facts are so apparent to all that it seems unnecessary to comment fur-ther upon Mr. McCraney's candidature

probability that shipments will soon become better. As yet the prices of ore blave not been settled. It seems, however, that an advance ranging from 8 to 10 per cent of certain Mesaba ores is urgently advocated and may be accepted.

The buying of foundry pig continues on a good scale and is widely distributed, consumers of all classes taking ad-

to engage a doctor when his children teacher, rising to a principalship, attaining to the position of inspector and then serving as a trustee. Thus equipped, Mr. Wood has all the qualifications to constitute him an espe cially desirable candidate for school board in a city placed in Rossland's position with an intricate school system thrown on its hands. Mr. Wood's experience is a recommendation to the electors that cannot be nugget that weighed 82.18 ounces, troy overlooked. It is such men that will make the schools of the Golden City a source of pride and gratification to

every citizen and parent. Robert W. Grigor is so well and favorably known to the electors of Rossland that it seems almost superfluous to point out his special qualifications knowledge in a community where he has resided for some years and made hosts of friends and few critics. Mr. Grigor will bring to the school board sure of earnestness that will constitute him one of the best trustees that could be obtained were the city to be gone over with a fine-tooth

Last, but decidedly not least, is Mr. VanSant this afternoon announced that he would call an extra session of the legislature for the middle of Training and whose record as an edge. These qualifications speak louder than volumes and should ensure Mr.

The ticket placed in the field by the Citizens' Committee is beyond the shadow of a doubt the strongest list of candidates ever placed before the electors of Rossland, and that this fact is thoroughly appreciated will be de-monstrated on Thursday.

FOREIGN SETTLEMENT.

FROM ADDLED PATES

THENCE CAME THE STORY OF A DEFICIT IN THE CITY'S FINANCES.

ASSAILANTS OF THE COUNCIL PROVE THEMSELVES TO BE IGNORAMUSES.

yesterday came out with specific charges against the financial administration of John Stilwell Clute, candidate for the mayoralty on the Citizens' ticket. As might be expected, this daring venture into the realm of facts proves on examination to be an exhibition either of crass stupidity the part of the person who evolved the wonderful and fearful story produced or of deliberate and malicious misrep-

Under the caption "Twenty Thousand Dollars Behind" the statement is MARCONI THE GUEST made that the city accounts for 1901 would, if published, demonstrate a deficit in the general accounts of \$12,000 and in the waterworks accounts of \$8000, a total deficit of \$20,000.

statement was laid before Mr Clute by the Miner, and he effectually disposed of the innuendo in the following terms:

"The arrears of taxes up to end of 1901 amount to \$12,022.94, which arrears bear interest at the rate of six per cent per annum. The arrears were oc casioned largely by the depression caused by the labor trouble, and the council in order to carry on the necssary works and avoid unduly pressing ratepayers for payment and thereby working a hardship on those unto pay, secured from the city's bankers the necessary funds at the same rate of interest (namely 6 per cent) as the unpaid taxes bear. This

sum amounts to \$12,438.94. "Thus it will be seen that the actual overdraft on which the general public is paying interest is \$416

With regard to the alleged deficit in the waterworks account, the statement of the city engineer shows a the towns between which the famous total profit in this department for the year 1901 of \$5467.33, after paying from the waterworks revenue the sum of \$8985.84 for sinking fund and interest on debentures sold together with all other necessary and incidental expenses properly charged to water- be present, as he would like "to meet account. The so-called deficit is found to be the sum of \$9094.77 bor- mental audacity to attempt and suc- lack of exercise during the night, lagrowed against the \$85,000 of unsold waterworks debentures issued as authorized by the people and expended on capital account for construction only, leaving a balance of \$75,906.23 to the credit of the city to be expended for the completion of the reservoirs, developing our additional water rights and bringing in additional water for domestic and industrial purposes and for fire protection so soon as these de-bentures can be satisfactorily sold."

Every fair-minded reader will recognize that in the foregoing Mr. Clute has briefly but none the less conclusively disposed of the ridiculous charges brought by the agitators' organ, and that the city's fiscal position s by no means unsatisfactory, in fact that it is in a shape that must afford gratification to ratepayers in view of

conception of the subject of finance than the veriest babes and sucklings. than the veriest bases and sucklings.
It is really surprising that men who seek to pose as financial reformers should have thus displayed such ignorance of the topic that would have disgraced a fourth book school boy.

The charge that the city councillors

are now in the hands of p conceal, and the innuendo that they did not discharge the city's business in an honest and capable manner is an insult to honest men who served their constituents faithfully and well.

NEW YORK, Jan. 13.-William Marconi, the inventor of wireless telegraphy, was the guest of honor this evening at the annual dinner of the American Institute of Electrical Engiers, held in the Astor gallery of the

Waldorf-Astoria hotel. The decorations were elaborate, among them being two black tablets laced some distance apart, the word in electric lights on one being Poldhu on the other St. John's, the names of wireless test was recently made. The only formal addresses were those by made. As soon as the dawn President Charles Steinmetz, Signor Marconi, Prof. Elihu Thomson and men, who were so weak that they fel Dr. Michael I. Pupin. Thomas A.

Signor Marconi on being introduced first described what his system had accomplished. He then referred to the rave. He had now become so weak prevailing opinion that when a message was sent into space any one with a similar apparatus can intercept that message and read it. He said: "Messages can only be read when the receiver and transporting or attimed walked over a precipice with a fall of ceiver and transmitter are attuned. 500 feet. It was here that Hockaday This attuned system as perfected is collapsed into a state of utter unconcause of the possibility of aid being

required in cases of danger."

LOST IN THE STORM

THE SAD DEATH OF SAMUEL HOCKADAY IN THE SLOCAN MOUNTAINS.

CAUGHT IN A BLIZZARD AND RENDERED HELPLESS BY FATIGUE.

NELSON, B. C., Jan. 14.-A terrible story of awful sufferings of a party of miners in a blizzard is told by John
P. Stevens and William George
Thomas. It is full of dramatic and exthey found the trail, which had been of miners in a blizzard is told by John citing details, one of which was the death of Samuel Hockaday, the well known miner. There were four in the party which left Slocan City on Saturday, January 4th, to go by the trail to the Bondholder mine, which is located high in the mountains, where the storms rage at this time of the year storms rage at this time of the year with great violence. The party included the three above named and who knows the passes and trails thereabout by heart, and who is a veteran mountaineer, went along a portion of the way to show them the trail to the Bondholder. The party had accepted a lease on the property and Matthew Walls. Robert Long, a packer accepted a lease on the property and were to work it under tribute. There was seven feet of snow on the ground, and the men floundered through it, sometimes waist deep in snow, until 3:30 p. m. , when a packer coming the opposite direction told them to turn back. Walls followed his advice and returned to Slocan City, but the others, like the youth in Excelsior, refused to heed the friendly warning and decided to push on over the icy steeps that lay

fore them. For two hours they plowed their way through the snow, when a halt was called because Thomas was so exhausted that he could go no further, and a fire was built and a rest taken for an hour. The trio then resumed the journey, and in an hour Stevens became so badly frost-bitten that a halt was made for the night in a clump of timber which afforded some shelter. In the morning camp was broken and in an hour the Bondholder cabin was reached, where there was both food and shelter. The worn-out rested there the remainder of Sunday and Sunday night, and on Monday morning started out for the purpose of securing their supplies, which they had cached at the junction of the Ottawa and Bondholder trails on the upward journey. On arriving at the place where the provisions were cached each partook of a sandwich. There is another important lesson stevens took a 50 pound sack of flour taught by the World's silly essay into on his sholders and Hockaday loaded taught by the world's siny essay have figures. That is that the men who are asking ratepayers to place them in a ing 56 pounds. Thomas was laden position where they will be in charge with a smaller pack, as he was the of the city's finances have no more only one unprovided with snowshoes. All went well until they came to the range where the ground is steep. Stevens, who seems to have been the most agile, soon arrived on the summit; Hockaday had great difficulty, slipping constantly owing to the steepare seeking to conceal the city's financial business is equally made of whole cloth. The figures up to December 21 were submitted, and nothing could be found therein to make capital for raced a fourth book school boy.

The charge that the city councillors assistance, but such little progress was made that on the advice of Stecloth. The figures up to December 21 were submitted, and nothing could be found therein to make capital for the first time since the present municipal campaign opened the World vesterday came out with specific charvesterday came out with specific charvesterday came out with specific charves and the considerable of the trail. These two one-half left on the trail. These two overtook Stevens, and by this time it were submitted, and nothing could be found therein to make capital for the agitators. Since the end of the street was getting dark, and owing to the failing light considerable difficulty was found in keeping to the trail. At was found in keeping to the trail. States being renewed, the Dominion was found in keeping to the street was found in keep council having concluded to issue the snow, which made it impossible to se combined reports in pamphlet form an arm's length, while the driving for the information of all ratepayers. icicles cut any exposed portions of The council of 1901 has nothing to their persons. Added to this the peneblinded and discouraged, they strug-gled on and when within three-quarters of a mile of the camp Stevens storm, for several hours, and the realization was slowly but surely forced upon them that they were hopelessly lost and that death from the itter cold stared them in the face. Meanwhile the blizzard continued to increase with awful fury, and the icicles blown in their faces stung as though they were being pursued by thousands of vicious bees. They con-

trating cold made progress or stand-ing still equally dangerous. Almost the government be memorialized that no threw down his sack of flour, declar-ing that he would carry it no farther. of Trade, in response to the invitation of the executive council of the Dominion Board of Trade, appoint two delegates cluded to halt, and the only shelter they could find was a snow bank four feet high, which was a shade better than nothing. In this there was a hole into which Hockaday crept. Stevens made a little trench a few feet long with the aid of his snowshoes, and in this he and Thomas walked to and fro in order to keep the blood in circulation and thus prevent them from freezing to death. They tried vainly to light a fire, but their matches were wet and the rude breath of the storm scattered their kindling and the torn up calendars they had with them far and wide. They repeatedly warned Hockaday to come out of his shelter, but he refused, declaring that he was warm and comfortable where he was.
All that anxious night the blizzard continued and the twain walked to and fro in the narrow trench they had Hockaday was aroused and the three Dr. Michael I. Pupin. Thomas A. as they made their way through the Edison wrote that he would be glad to be present, as he would like "to meet the cabin of the Bondholder. Hockathe young men who has the more." the young man who has the monu- day, who was numbed by reason of his ceed in jumping an electrical waye ged wearly behind, while Thomas and clear across the Atlantic ocean," but he was unable to accept the invitation. of their long fast. They halted at a large rock, where Hockaday becar that he was unable to walk, and his This attuned system as perfected is confapsed into a state of the anotat present in use on ships. It has been deemed necessary that each ship should be equipped with apparatus which will permit of their reading a message sent from any other ship, befind the cabin." This was done. The search for the cabin was continued.

tance. The worn out men slowly wended their way to it, and when they eached its welcome shelter they col-apsed on the floor from exhaustion. lapsed on the floor from exhaustion.
After a half-hour's rest a fire was kindled and the first food from the time they had left the junction of the Ottawa and Bondholder trails was partaken of. As soon as they were rested they started out to find their companion, but the blizzard which still prevalled had completely obliterated their trail and they returned to the cabin exhausted and disappointed. They went to bed and got up at 4:45. the cabin exhausted and disappointed.
They went to bed and got up at 4:45, improvised a rough sleigh, and again took up the hunt for their partner. This was kept up till dark, and no trace of him could be found. Returning they picked up the sack of flour. Next day (Friday) the storm had abated and the sun came out bright and warm. At noon they returned to opened up by the sun melting the snow in their tracks. It was in an was cold and stiff in death. The body was removed to the cabin, and subsequently to Slocan City, where an inquest was held. Thomas and Stevens

MATTERS TO BE BROUGHT BE FORE ASSOCIATED BOARDS OF TRADE.

PREPARATIONS FOR THE MEET ING TO BE HELD AT KASLO NEXT MONTH.

An official call has been issued the fourth annual convention of the Associated Boards of Trade of Eastern British Columbia. The convention is to be held at Kaslo on February 26, and will continue until the business brought before the session is disposed of. Appended are the resolutions forwarded by various boards up to the present time for presentation to the convention:

By Kaslo:
"Resolved, that, whereas the Province of British Columbia is represented in the parliament of Canada by six members of the house of commons and three senators; and, whereas, the population of Kootenay and Yale, shown by the recent census, is about one-third of the population of the whole province, and of the nine members of both commons of the nine members of both commons and senate only one is resident in the southern interior of British Columbia, where the business interests are diverse from those of any other part of Canada. "Be it resolved, that this Board respectfully submits that in the event of a vacancy occurring in the senate representation of British Columbia such vacancy should as a matter of fair representation."

"Resolved, that, whereas mining companies are compelled to pay royaltie on timber used from their own ground royalty be collected on such timber use for mining purpose

"Resolved, that the Associated Boards to attend a convention of the repr tative of the commercial bodies in the Dominion to be held at Ottawa early in the year 1902, to take into co the question of improved trade relation with Great Britain."

"Resolved, that the minister of fin-ance for the Dominion and the Domini ion parliament be memorialized to amend at the approaching session of parliament the tariff of customs

parliament the tariff of customs duties as applied to lead products, increasing the duties to a parity with the duties levied upon similar classes of goods coming into Canada."

"Whereas, the experience of another year has demonstrated the utter inability of government officials whose time is wholly occupied with other duties to give attention to the prevention of forest fires or the prosecution of those forest fires or the presention of those responsible for the same; Resolved, that the Provincial government be memorialized to make provision at the present session for the appointment of timber rangers, whose duty it shall be during the summer months to enforce the law in regard to bush fires, and where possible to have incipient fires extinguished."

By Trail—

By Trail—
"Whereas, Canada is becoming a large producer of pig lead, and its product is being sold to a very limited extent in Canada, white the bulk of it is being disposed of in China, Japan, Germany and other foreign countries, and
"Whereas, Dastern Canada is today importing from Canada is today importing from Canada is today." By Trail-

importing from Germany practically all of the white lead it consumes; "Be it resolved, that the Dominion government be again requested to so in-crease its duties as to make the manu-facture of white lead and other manufacture of white lead and other manufactured lead possible in Canada, and so allow the producer of pig lead in Canada an additional market in his own country for his product."

"Whereas, the smelting and refining interests are of immense importance to the province and to the Dominion of

Canada.

"Be it resolved, that means be discussed of encouraging the smelting of Canadian ores in Canada as opposed to their treatment in the United States, providing such means do not in any way impose a deditional hunders. npose additional burdens upon the

It is likely that additional matter that it is in a shape that must afford gratification to ratepayers in view of the trying circumstances of the past year.

required in cases of danger."

Signor Marconi declared that shortly it would be possible to send many messages over the sea at the same time.

the following headings: Preservation of forests, mining roads in city limits the lead industry, the wagon roads, general railway act, East Kootenay railway, Toronto exhibition, to safeguard fuel supply, Dominion minister of mines, provincial representation, mem-bers for Boundary, Shuswap & Okana-gan railway extension, sanitarium for consumptives, county boundaries.

ADRIFT ON THE OCEAN.

SANTA BARBARA, Cal., Jan. 14. Adrift on a capsized boat in the Pacific for 17 days without food or drink was the terrible experience of Captain Harry Olsen and Pete Wallace, two crab fishermen, and but one lives to tell the story of their terrible sufferings. Olsen was picked up by Arturo Valdez, a fisherman, just beyond the Kelp, of Goldetal.

Olsen and Wallace were residents of San Pedro, and left that port 17 days ago. While cruising several miles south of Santa Cruz island a heavy sea rose and capsized their craft. Clinging to the overturned boat, wihtout food or water. they drifted, suffering tortures. On the 14th day Wallace's strength gave out and, crazed and starving, he slid off the boat and disappeared under the waves. For three days longer Olsen held on, and was finally rescued yesterday half dead from exhaustion. It is thought that he will recover from the effects of his terrible exposure.

PORTIA GETS DAMAGES.

The Duke of Manchester Pays Her Five Thousand Dolalrs.

LONDON, Jan. 14.—The breach of promise suit brought by Miss Portia Knight, the American actress, against the Duke of Manchester has after all been settled out of court, the Duke paying Miss Knight £1,000 and defraying the costs of the legal proceedings. An agreement was reached Saturday and the final papers will be signed Wednes-day next, when the money will be paid The lawyers in the case say nothnig in the nature of a grave scandal would have developed had the suit come to trial, but unpleasant notoriety would have attended the reading of love letters, etc.

DISCHARGED FROM CUSTODY. Richlard Cole, Suspected of Connection With the Dennis Affair.

WASHINGTON, Jan. 14.-The police tenight discharged from custody the colored man, Richard Cole, who was arrested yesterday because of the belief that he might know something in con-nection with the mysterious assaults upon Mrs. Ida Gilbert Dennis, the maker, last month. His arrest was based on the statement of a resident of the locality of the Dennis house, who saw a man in the immediate vicinity on of the assault, but investi gation failed to show that Cole was the person he had seen.

For some days the streamer at the Labor Party's committee rooms started out with the word "Indipendent." Yesterday someone passed a joke on the faulty spelling, and the sign was done over with more satisfactory refrom an orthographical standpoint.

John Boyd of this city was notified by wire that on Sunday his eldest son, and affable manner. He was 34 years of age.

TRAIL ELECTION-

The elections at Trail yesterday were by acclamation, the following gentle men being returned without opposition:
For mayor—Noble Binns; for aldermen
—J. H. A. Schofield, James P. Byers, Robert E. Strong, W. J. Furnell, James Dawson and Alexander E. Steele; for school trustees—George F. Weir, T. W. Coleman, A. B. Mackenzie. W. J. Devitt, city clerk, officiated as returning

WOULDN'T RUN-The Municipal Labor Party had placed Samuel Forteath in the field as a candidate for the aldermanic delegation in Ward 1. Mr. Forteath was not consulted in the matter, and when it was brought to his attention he turned the Labor Party outfit down and flatly declined to be mixed up with then in any shape or form. At the last mo-ment, therefore, it was decided to thrust Fred Girard into the breach, which was done yesterday, the nomination pa-pers being hurriedly fixed up for the oc-

THREE HUNDRED TONS DAILY-THREE HUNDRED TONS DAIL!—
The Centre Star and War Eagle mines are to resume shipments after the first of the month with an output of 300 tons per day. This is on a basis of not less than 9,000 tons per month amd will bring the camp's weekly output to the 8,000 mark. Later it is expected the two mines will increase their shipments substantially. The Canadian Pacific ore & Western branch after the mines closed down in Rossland will be brought back before the end of the month.

CERTIFICATE OF IMPROVEMENTS

Gigantic mineral claim, situate in the Trail Creek Mining Division of West Kootenay District. Where located: On Dominion mountain.

Take notice that I, Kenneth L

Burnet, agent for Charles Dundee Esq., Free Miner's Certificate No. 3. 56063, intend sixty days from the date hereof, to apply to the mining recorder for a certificate of improvements, for the purpose of ob-taining a crown grant of the above taining a crown grant of the above claim.

And further take notice that action inder section 37, must be commenced before the issuance of such certificate of improvements. Dated this Sixteenth day of Janu-

ary, A. D. 1902. KENNETH L. BURNET.

THE STOCK MARKET

STRENGTH AND ACTIVITY DIS-PLAYED DURING THE PAST WEEK.

MOST OF THE PROMINENT STOCKS SHOW ADVANCES

IN PRICE.

Last week was the most active the tock exchange has seen for some time, the total business of 88,000 shares exmonths back. With the activity there has been a considerable degree of strength, most of the prominent stocks keeping their prices up to a higher netcht

The leader in point of strength is Rambler-Cariboo, which opened the week at 71 and climbed steadily to 75. The sales at the latter figure yesterday were 6,000 shares.

Winnipeg has also been active and strong, a great many shares changing hands at advanced prices The opening price was 4 1-2, and during the week the stock reached 5 1-2, closing wih

Centre Star fluctuated somewhat, with fairly substantial sales, but made a loss of half a point on the week. Cariboo McKinney has been among the strong stocks, advancing from 18 1-4 to 22 in actual transactions.

There has been some disposition to trade in stocks of Republic camp, Black Tail and Tom Thumb especially showing strength.

The sales on 'change for ere as follows:	the week
Thursday	15,500
Friday	12,000
Saturday	11,500
Monday	10,500
