NEWCASTLE, NEW BRUNSWICK, TUESDAY, OCT. 2, 1923

FIVE CENTS PER COPY

5—Days More—5

This Great Sale will positively close
Saturday October 6th at 10 o'clock

A Merchandising Triumph

We cannot call it otherwise, and it is due to our patrons, who realized our sincere efforts in serving them. This success is due to the quality of merchandise sold. It is due to the very low prices for such quality goods. It is due to the fact that no line of goods was advertised unless we had a sufficient quantity to satisfy the demand.

Nothing develops and stimulates confidence like giving the public more than they anticipate. That is just what our sale did.

Five More Days yet and we are anticipating them to be record breakers.
Do Not Hesitate! He who hesitates is lost! Act Now!

Fall Caps
\$1.75

A new cap always is a pleasant addition to one's outfit, particularly at this price.

Boys Underwear
95c

Per garment, your boy will be comfortable in this fine all wool ribbed Underwear soft and warm.

All wool jersey Stylish and Warm

Women's Stockings
49c

Medium Weight Cashmerette—Black only

Men's Sox
49c

Pure wool ribbed or plain assorted colors.

A. D. FARRAH & CO.

A New Industry For Newcastle

A new industry for the Town of Newcastle is practically assured. In May last, the Union Advocate stated that New Brunswick was to receive an impetus in the hardwood lumber industry, and Newcastle has been the point selected for such, after an extended investigation throughout the province by those interested in the project. St. Leonard's and Bathurst have been strong contenders for the industry, but apparently Newcastle has outclassed them, and it is expected that within a very short time the work of construction will be commenced.

Some time ago options were taken on several properties in town and on Saturday Mr. Moore and Mr. Parminter, representing the Canada Creosoting Company of Toronto were again here renewing the options. On Saturday afternoon at 4 o'clock, these gentlemen met the Town Council and explained their intentions and put a proposition to the Town Council to consider, which if accepted will materially assist in securing the industry for Newcastle. In fact it is felt that Newcastle will secure the industry and the proposition placed before the Town Council is such, that the Town government think there is no difficulty in coming to terms with the company.

Messrs Moore and Parminter explained to the meeting that their company has for some time been seeking a site to erect a creosoting plant in New Brunswick and after consideration of many points in New Brunswick, Newcastle was considered as the most suitable. Options on 62 acres of land belonging to Andrew Crocker, J. W. Hierlby, C. Parks, Ed. Falconer, I. Nevin and Joseph and Michael Foran, lying between the main C.N.R. line and the deep water terminus spur line has been secured for the purpose of establishing a creosoting plant; also an option on the old Hickson mill property, which would be used as a subsidiary plant for the manufacture of cross arms, conduits, piling poles and other timber.

Their company was a large one and had a number of such plants in U.S.A., and several in Canada. Newcastle had been selected as the site for the new plant and they wished to know if the Town Council would grant their company certain concessions, if it was definitely decided to settle here. They asked the Council if it would be willing to give them a fixed valuation of \$10,000 for ten years, said valuation not to apply to School Assessment purposes; electricity at cost from point of delivery and

water at the rate of 5 cents per 1000 gallons, if they decided not to bore wells on their own property. They thought they would require about 15,000 gallons of water for steam purposes per day and would also require water for fire protection. They expected to handle 300,000 or 500,000 railway ties per year at the commencement of operations and would employ 50 men at the beginning. In time the business would grow to larger proportions and as a result more employment would be given until possibly 250 or 300 men would be employed. Mr. Parminter explained that their company liked Newcastle very much indeed, and he, personally, was very much impressed with the natural resources which Newcastle possessed but it would be necessary for the town to concede certain inducements in order to get new industries to come into the town and he thought that the few concessions which he had asked were so small that the council should have no difficulty in conceding them. The new industry would greatly assist in the hardwood industry development in this section and no doubt other industries would follow in due time. He had very little doubt but what his company would locate in Newcastle, providing that satisfactory arrangements could be made with the Town Council on the few matters which he had brought to their attention. The Town Council informed Mr. Parminter that they would consider favorably the proposition he had placed before them and give him a definite answer in the very near future.

Mr. Parminter left on Sunday for Toronto and before leaving, informed Mayor Creaghan that the workers would be here immediately and about 6 or 7 miles of track would be laid within the next three or four weeks.

Red Cross Work In Newcastle

Miss Ethel H. Jarvis, secretary of the provincial division of the Red Cross Society was in Newcastle recently and met with the local Red Cross workers. While here, Miss Jarvis was the guest of Mrs. Charles Sargeant, president of the Newcastle Red Cross Society. She addressed a large meeting in the Miramichi Hospital and it was decided to organize for the Japanese Relief Fund.

Tid-bits on the Tip of Everybodys Tongue

Vol. 1 No. 7 NEWCASTLE, N. B. OCT. 2, 1923 FREE

Trinidad to Ontario:

As a suggestion of how far the fame of Moir's Chocolates and Biscuits is spreading, one day brings orders from Demerara, Grenada and Trinidad, from St. Pierre, Newfoundland and England, as well, of course, as from the Maritime Provinces, Quebec and Ontario. This particular day there were none from Western Provinces but on others shipments

as far as British Columbia run into carloads.

"What part of the turkey do you care for?" I'm not fussy; just give me some of the meat".

That's the way many people feel about Moir's Chocolates—Hard Centres, Soft Centres, nuts or fruits—it doesn't matter as long as they are Moir's.

That's a great idea! Moir's Fig Bar Biscuits in miniature—dainty for afternoon serving. Ask for them under the name Fig Newton.

REGULAR MEETING TOWN COUNCIL

The regular monthly meeting of the Town Council was held on Thursday, Sept. 20th at 8 o'clock p.m. Those present were: Mayor Creaghan and Aldermen Atkinson, Crocker, MacKay and McGrath. Minutes of meetings of July 19th and August 16th and 23rd were read and confirmed.

Communications:
A request from A.D. Farrah for consideration of his tax bill was submitted and on motion of Ald. Crocker, seconded by Ald. Atkinson was referred to the Petition Com.
Reports of Committees:
The Finance Com. recommended payment of the following bills:
Weldon & Co.—\$1.40
J. D. Creaghan Co.—\$8.50
A.L. Barry—\$77.73
Woodburn Conservatories—\$50.00
St. Mary's Convent—\$25.00
Newcastle Band—\$50.00
Mrs. Wm. Richards—\$15.00
North Shore Leader—\$41.75
On motion of Ald. MacKay the same were passed and ordered paid. A bill for \$167.40 from the St. John County Hospital for board of Mrs. Julia Taylor to August 31st was presented and it was moved by Ald. Crocker, seconded by Ald. MacKay and carried that the Mayor be authorized to consult the Town's Solicitor regarding the Town's responsibility in the matter and to take steps to end the liability, if any exists.

The Chairman of the Finance Com. reported that tax collections for the past four months showed a small total, greater than during 1922, but that the proportion was lower. It was the opinion of the Council that more energetic measures should be taken to enforce payment of taxes and the Finance Com. was instructed to take whatever drastic action might be necessary to make collections.

It was also shown that the returns for electric lighting showed a decrease of about 25% over 1922.

The Light and Water Com. recommended payment of the following bills:

T. McAvity & Sons, Ltd.—\$1.03
Miramichi Foundry—\$1.48
Sumner Co. Ltd.—\$94.50
Stohart Mercantile Co.—\$534.54
F. Uncles—\$3.65
J.W. Maloney—\$27.00
Can. Gen. Electric Co.—\$33.13
Northern Electric Co.—\$31.70

The bill of F. Glover recommended by the Police Com. was passed and ordered paid on motion of Ald. Atkinson seconded by Ald. Crocker.

On motion of Ald. MacKay, seconded by Ald. Atkinson, Mr. Chas. Farrah was heard regarding his representation it was moved by Ald. Crocker seconded by Ald. MacKay and carried that the bill be paid by Mr. Farrah and that the matter be referred to the Petition Committee for recommendation as to whether a refund should be made or not.

PASSED SCALER'S EXAMS

A list of those passing the Scaler's Examinations has been published. Those from the Miramichi district are:

Chatham—Wm. Luke, Dennis Kirby, Fred S. White,
Nelson—Geo. McLeod, Charles J. Dolan, Lyman J. Dolan,
Chelmsford—William Harper,
Millerton—Guy H. McEachren.
Ten of the candidates examined failed to qualify.

Pulpwood Embargo Facts

Sir,
I can quite realize that my "bombardment" of the newspapers with letters advocating an embargo on unmanufactured wood may be irritating to those who may have some selfish interest at stake, although it is meeting with the unqualified approval of those whose only interest is the public welfare.

Some opponents of the embargo have endeavored to create prejudice by personal attacks on me and my motives in so earnestly advocating an embargo. They lose sight of the fact that it is not a personal question at all but one of national concern, and if my arguments are sound and logical it matters not to the public what my business in-

terests are now or may have been in the past. However, for the discomfiture of those who would try to draw the proverbial red herring across the trail, I will make a few plain statements of fact, all of which can very easily be proven with regard to this securing autonomy of a man who, retired from active business, is willing to devote his time and means to a matter of public interest solely from an altruistic motive.

In the first place, I am merely a plain ordinary man, whose chief qualification is a capacity for hard work and an ardent love of my country. My situation is that having acquired a sufficiency of this world's goods, I divided one-half of my property among the members of my family several years ago and the remaining half I have now dedicated to the work of forest conservation. For the information of those who have insinuated that there are other interests behind my movement, I will say that I am conducting a purely personal campaign which was conceived in my own brain and financed out of my own pocket, and that with the single exception of a casual meeting with one man I have never met nor do not know by sight any of the pulp or paper manufacturers in the Dominion of Canada.

Some of the hirelings of the American opponents of the embargo have suggested that lands which I or my family own in the United States would be benefited by an embargo and that my pulp mill in Nova Scotia would also derive be-

LIFE BURDENED BY DYSPEPSIA

Health and Happiness Come With "Fruit-a-tives"

From Fruit-a-tives and Tonics made from the juices of the most healthful fruits and berries, the greatest means of curing the country of our day.

"Fruit-a-tives" is bringing health to hundreds and thousands of people who suffer from indigestion, biliousness and depression.

Mr. Frank Hall of Weyburn, Ont., says: "I purchased a box of 'Fruit-a-tives' and began the treatment. My condition improved immediately. The doctors ceased to bother me, a lot of my life has been saved, and I was freed of constipation."

50c. a box, 6 for \$2.50, trial size 25c. At dealers or sent by Fruit-a-tives Limited, Ottawa, Ont.

neit. For their confusion I will state that I do not own an acre of land or any interest in any land in the United States, direct or indirect, and that the entire holdings of all my relatives combined in land in that country not stripped of pulpwood amounts to less than thirty-five thousand acres. Since the pulp mill in Maine, in which they are interested does not either own or control an acre of land other than through the above small holdings, it will readily be seen that they will be in exactly the same boat as all other pulp and paper manufacturers in the U.S. when the embargo is applied. With regard to my ownership in the 490,000 acres which I control in Nova Scotia, since this is all fee land from which the wood is now exportable to the United States, these opponents to the embargo will not have the temerity to say that there can be any selfish interest at stake in this connection.

Insofar as a wood supply for my Nova Scotia mill is concerned, as this mill only consumes a matter of some 14,000 cords annually, it would leave me a large surplus of wood for export if I so desired. This mill is at present buying all its supply from the farmers, thereby saving from export at least that quantity of wood, although I have urged the farmers time and again, not only in Nova Scotia, but in all Canada, to conserve their trees just as long as possible in order that they may reap the full benefit of the higher prices that are coming in the immediate future owing to the exhaustion of the wood supply. The fact must be borne in mind that there are some eight other pulp mills in Nova Scotia which are largely dependent on farmers' wood for their existence. It is perfectly safe to say at the rate land and wood are being bought up in Nova Scotia by American interests within three years time the wood-using industries of that Province which have not a sufficient supply on their own lands will be out of business.

Now as to the suggestion that since a "royal commission" has been appointed to investigate the pulpwood situation everybody should fold his hands and sit quietly by to await the outcome of the deliberations of that august body—deliberations which, the chairman himself has explained, will occupy months if not years to conclude.

"If" there was anything for a royal commission to discover that was not already only too well discovered; "if" a commission had been appointed competent to deal with the matter; and "if" the forest situation was not so alarming, it would be quite in order to await the findings by that body, as suggested, notwithstanding the truism of Disraeli particularly applicable in this case, that "royal commissions are appointed to discover things already known

to the people." Any reader of the newspapers of ordinary intelligence is fully apprised as to our forest losses from insect pests, fires, wind storms and our rapidly increasing exports, aside from the necessities of our rapidly increasing wood-using industries. Attempts have been made to minimize the loss by reference to the amount of wood subject to salvage, but it is a fact that only a very small portion of fire-killed timber can be salvaged, owing to the astounding swarms of borers that are now infesting our burned-over areas. I have just received a letter from a large timberland owner who had quite a large area destroyed by fire the present season, in which he says: "I have had the land carefully examined and find that the pine is already badly bored, and that it will only be throwing good money after bad to try to cut and save it." And what is true in his case is true in most.

We must not take the suggestion of the Premier of Quebec that the placing of an embargo is ultra vires of the Federal Government too seriously, as Mr. Taschereau in the past has been perhaps the strongest advocate in the whole Dominion of Canada for home manufacture for not only our pulp wood but all other raw materials, even going so far as to say that Quebec's raw materials should be manufactured in Quebec, because insofar as our pulpwood is concerned, with the enormous losses we have recently suffered through insects and fires, the necessity for conservation is far greater to-day than when this wise policy was first propounded by Mr. Taschereau. Consequently, as I said before, we must not take any recantation on the part of the Premier too seriously. An explanation, sooner or later, will doubtless be forthcoming.

I am glad to know that my suggestion as to an embargo, even at first blush, seems a reasonable means of conserving our pulpwood resources to a critical St. John news paper. This Journal states that only 12% of the pulpwood used in the making of paper in the United States is cut from Canadian land, but as a matter of fact out of a total consumption of pulpwood by United States mills of some 5,500,000 cords, Canada will probably export to that country the coming year nearer forty per cent, with a possibility of its reaching fifty per cent. Many American pa-

"My Heart Would Palpitate, I Had Weak Spells"

Mrs. L. Whiting, 202 King St. West, Brockville, Ont., writes:—

"I took very sick with my nerves and stomach, and seemed to be all run down. At times my heart would flutter and palpitate so and I would take such weak spells in the pit of my stomach that I sometimes thought I would never get better. I had almost given up hope when a friend advised the use of Dr. Chase's Nerve Food. I did not stop until I had taken twenty-five boxes. It has done wonders for me and I want to recommend it to everyone."

To avoid imitations, always look for the signature of *Wm. D. Feltcher*
 Proven directions on each package. Physicians everywhere recommend it.

SLASH BURNING AGAIN PERMITTED

Fall slash burning in New Brunswick under permit and supervision is again being allowed by the Department of Lands and Mines. While the extent of the period during which slash burning may be conducted will be governed entirely by weather conditions, upon which the degree of forest fire hazard is dependent, it is anticipated that considerable slash refuse will be disposed of.

It is pointed out that no slash burning will be allowed during the spring and summer months of 1924 in view of the danger past experiences have shown of forest conflagration commencing from such sources. Many operators have already taken advantage of the fall supervised burning periods to dispose of large quantities of slash on their limits. After October 15th permits for burning will not be required as the fire hazard is practically negligible after that date.

Symptoms Of Anaemia Canada's Total Export for August

An Inherited Tendency to Anaemia May be Overcome.

Some people have a tendency to become thin-blooded, just as others have an inherited tendency to rheumatism, or to nervous disorders. The condition in which the blood becomes so thin that the whole body suffers comes on so gradually and stealthily that anyone with a natural disposition in that direction should watch the symptoms carefully. Bloodlessness, or anaemia, as the medical term is, can be corrected much more easily in the earlier stages than later. It begins with a tired feeling that rest does not overcome, the complexion becomes pale, and breathlessness on slight exertion, such as going up stairs, is noticed.

Dr. Williams' Pink Pills are a home remedy that has been most successful in the treatment of disease caused by thin blood. With pure air and wholesome food these blood-making pills afford the correct treatment when the symptoms are noticed.

You can get these pills from any dealer in medicine or by mail postpaid, at 50c a box, from the Dr. Williams Medicine Co., Brockville, Ont.

Canada's Total Export for August

The value of Canada's total exports for August exceeded the value of total imports by over two and a half million dollars, as shown in a report compiled by the Dominion Bureau of Statistics.

Value of total imports is given as \$78,425,990 and total exports as \$81,040,990. Of the imports, \$22,700,000 worth was dutiable goods and \$55,725,990 on the free list. Canadian produce accounted for 10 per cent of the total value of goods exported during the month.

Famous Old Trees.

The New York State College of Forestry takes exception to the statement attributed to H. G. Wells to the effect that the famous Bo tree of Ceylon is the oldest of living trees. Mr. Wells is reported to have said that "in Ceylon there is a tree which is probably the oldest living thing in the world. It was planted from a cutting of the Bo tree, the tree under which Buddha had his remarkable spiritual experience, and it has been tended with extraordinary care through the centuries. Its limbs are supported by pillars. How many more generations of men it may look down upon we cannot foretell, but we know how many it has already seen come and go. It was planted in 245 B. C."

While it is impossible to tell the age of trees until they have been felled and their rings counted, it is quite possible, says the College, that trees as old as any that have been examined still stand in the great Sequoia forests of California, and that many of them are as old as and older than the famous Bo tree of Ceylon. The Sequoia requires no props and no coddling by human hands. It reaches a height of 350 feet and a circumference of 78 feet, and has remarkable vitality.

PHYSICIANS RESTORE DEAD GIRL TO LIFE

London, Sept. 24—A remarkable story of a child dying during an operation and then being brought to life for a short time was told to a Coroner at Westminster last night at the inquest on the death of a nine year old girl.

The girl had undergone several operations and recently underwent another. Her heart stopped beating. She died. Massage and other remedies were applied and her heart began to beat again. The heart kept on beating for an hour and a quarter and the girl began to breathe. Thereupon she was taken back to the ward in the hospital from which she had been brought for the operation but she collapsed there and died.

The hospital doctor said the girl's death was due to heart failure. She had been suffering from a blood disease. The Coroner said a miracle had been performed and had it not been for the condition of the girl's blood the chances were that she might have recovered completely.

Neighbors Included.

Little Mary, six years old, was industriously applying the unheated curling iron to her dollie's hair, when Mrs. McCarty, a neighbor, dropped in.

"You don't know anything, do you, Mrs. McCarty?" asked Mary bluntly, indicating that she could be doing one thing and thinking another at the same time.

"No, I don't, Mary," said Mrs. McCarty, amused and curious as to what was on the child's mind. "Why do you ask?"

"Cause Johnny (her brother) said he knew everything. Nobody knows everything but God and the neighbors, do they, Mrs. McCarty?"

"Recipes for Home Made Bread"

The expert baker at the Quaker Mills has collected a number of original recipes for home made bread. They are the recipes of successful home bakers. Every one has been tested and proven in our own bake shop. By using them you can make baking a real pleasure and can be assured of getting good results every time.

We will gladly send the recipes to you, free. Write for them to-day and see for yourself how easy it is to make your own bread.

Nova Scotia Interior as Moose Pasture

Nova Scotia is a country of lakes and streams, offering many ideal canoe trips, and the interior is a great moose pasture. Moose, too, is the moose hunting, because both the canoe and automobile are used by hunters and guides, thus saving many miles of weary hiking through the wilderness. On the Liverpool chain of lakes reached from South Milford via Annapolis Royal or Digby, and on Lake Kedgemoore, Lake Rossignol, Lake Munro, Leon Lake and the Liverpool River expert Indian and white guides use the canoes for long distances and even call the moose to the shore with their birch bark horns. When some distant point is to be reached from "Del" Thomas' South Milford camp, canoes, guides, hunters and duffle are loaded upon a big motor truck for the journey.

South Milford is 15 miles from Annapolis Royal and is a favorite outfitting point. So is the Kedgemoore Rod and Gun Club, on famous Lake Kedgemoore, in the heart of the wilderness 26 miles from Annapolis Royal. Both of these camps have ample accommodations and plenty of canoes and reliable guides.

The Nova Scotian moose season lasts from Oct. 1 to Nov. 15. Deer are as plentiful as moose, and the open season for this game lasts from Oct. 16 to Nov. 31.

Although large numbers of moose are shot each year, many with magnificent "sprags," the annual increase is said to equal the kill. Such guides as Louis Herlow, half-breed Miemie and Sam Globe, full-blooded Indian, are expert moose catchers and stalkers and rarely disappoint the hunter. The cleverness with which they simulate the calls of the cow moose with a simple roll of birch bark fashioned into a horn, is sure to fool the wisest old bull in the wilderness. When the calling season is past, the moose no longer comes to the hunter and the hunter must go to him. Neither canoe, nor automobile figures much in this phase of moose hunting except that one, or both, may help the hunter near the place where the quarry is supposed to be and carry him home when the hunt is over.

WANT GOVERNMENT INSPECTION

At a meeting in London, Ont., on Saturday night, of western Ontario Home Bank depositors at which over 200 persons were present, immediate action was urged on the part of the government for investigation into all Canadian Banks. The meeting was unanimous in demanding a complete probe of the Home Bank affairs and that every chartered bank in Canada be inspected by government auditors.

CRIPPLES AT SCHOOL

One of the phenomena in the educational development of recent years is the provision of special classes and special schools for little people of special needs. We have been witnessing the setting up of auxiliary classes, door classes for the tuberculous, for mentally retarded children, orthographic classes for those whose eyes are weakened, and we have for many years had schools for the blind, and schools for the deaf and dumb. Is anything being done for the crippled child? Or do crippled children fit satisfactorily into the life and work of any ordinary school.

Those who have had long and intimate experience with crippled children are of the opinion that a crippled child who is able to do so profits by attending an ordinary school. But it is also acknowledged by these experts that a large proportion of crippled children are not really able to attend an ordinary school. They need special care which only a specialized school or class can give them. The advantages of the special school or class are obvious. In the first place transportation to and from school is provided for the pupils. In the second place they are given remedial exercises at stated intervals during class hours as prescribed by the doctor. Then, too, they are under the supervision of a teacher who is specially trained to conduct the studies of physically handicapped children. Hours are set apart for rest. Hot lunches are prepared for the children under the direction of the dietitian who knows the needs of the pupils. Class room equipment is specially suited to the requirements of the cripple—seats and desk tops are adjustable, asties are made wide so as to permit a comfortable disposal of little braced limbs without interfering with the progress of anyone who wishes to walk up or down the aisle. A school built expressly for the use of crippled children may have, not only classrooms, a dining room and a kitchen, but a surgical dressing room as well, so that children may report for dressings without unnecessary loss of time. The close co-ordination of school work and remedial activities under the joint direction of teacher and doctor is an advantage which of itself is enough to justify the establishment of special classes for cripples. Intellectual growth in such a school is not attained at the expense of physical growth. Both are now acquired together.

ROYAL YEAST CAKES
RICH IN VITAMINES
MADE IN CANADA
The importance of Vitamins in food is being recognized at the present time to a greater extent than ever before. It has been conclusively demonstrated that yeast is rich in this all important element. Many people have received great benefit physically simply by taking one, two or three Royal Yeast Cakes a day. Send name and address for free copy "Royal Yeast Cakes for Better Health."
E. W. GILLE COMPANY LIMITED
TORONTO, CANADA

There is another advantage, however, which ought not to be overlooked or minimized. The school for cripples may give to those children who need it, a chance to fit themselves for the task of earning a livelihood. An experiment of this sort has been very satisfactory in its results. Boys and girls who attend the Montreal School for crippled children may elect to take a commercial course, with shorthand, typewriting and bookkeeping. The hours of classwork are short enough to prevent undue fatigue, but pupils receive a greater amount of individual instruction than is possible in the ordinary business school, therefore it is not surprising that graduates of this school have been able to take down town positions and compete successfully with graduates of other schools. This phase of the special school is of course a great boon to those crippled who come from homes of the poor and lower middle classes.

Unfortunately, the special educational opportunities now offered in Canada to the crippled child are almost negligible. For the most part we let the cripple either drag himself to and from the public school or get along at home as best he can, with results that are frequently deplorable. This lack of policy is to be regretted. The remedy lies probably within the reach of the ordinary citizen. Groups of men and women in other countries have been able by concerted effort to make adequate provision for the education of cripples in their own community, and governments have been persuaded subsequently to take over the responsibility for carrying on the activities thus inaugurated. There is every probability that Canadian citizens will devote themselves to meeting this need and that ultimately the provision of special classes for cripples by our Boards of Education will become a matter of course.

All of us grow tired of doing things we do not want to do. We grow weary of struggle, weary of fighting against the indulgences which are pleasant. There seems to be no reason for struggle. We see no gain from it. It seems useless to refrain from doing anything that we want to do. That is a superficial, unthinking view. Analyze men and we learn that no great character is formed without struggle. We may see no tangible result of effort. We see no material fruits. But the fight is always worth while for what it does to the fighter.

Your children will clamor for bread. — just wholesome, home-made bread and butter, if you bake with **North West Flour** THE BREAD FLOUR

"North West" is the ideal flour for bread-making. But we don't recommend it for pastry. No hard wheat flour makes as good pastry as a soft wheat flour.

The best flour you can buy for all pastry making is **Sensation Flour** FOR CAKES AND PASTRY

It is economical too. Use "Sensation" for cakes and pies, and "North West" for bread and buns if you want to guarantee success for all your baking.

Both brands sold by dealers everywhere.

Post Mortem Indicates Death by Violence

The result of the post mortem examination of the remains of James Godin, whose body was found two weeks ago beside the Jacques River Bridge, was mailed to Attorney General Byrne on Monday by Drs. MacKinnon and Coffin of Bathurst who were the physicians instructed by the Attorney General to have the body exhumed and the examination made. Their report bears out the opinion of the people of Jacques River that the unfortunate man met his death as the result of foul play. It states that as the body was badly decomposed, they could form little idea of outward injuries, but that they examined the head and brain and found that besides having a badly broken nose there was an injury to the head consisting of fracture of the skull. An examination of the brain disclosed the presence of clots of blood both in the front and back, which would confirm the evidence of fracture. The man's injuries they classified as severe and could be the result of a bad beating.

Up to the present no further evidence has been found to assist the authorities in their clearing up of the mystery of the man's tragic

Panama canal tolls for April amounted to \$1,878,987.

About \$2,800,000 is to be spent on the construction of roads and bridges in the province of British Columbia this year.

The Customs and Excise revenue for April amounted to \$20,500,000, an increase of \$5,000,000 over the receipts of April of last year.

Emigrants numbering 15,000 left Scotland for Canada during the first four months of the year, according to consular estimates in Glasgow.

Canadian flour has at last been placed on the Panama market. One boat has just loaded the first consignment of any size, 1,000 barrels being taken.

Seventy-five per cent. of the copper produced in Canada in 1922 was the output of British Columbia mines. The Canadian production for the year was 48,321,402 pounds, of which British Columbia accounted for 32,432,521 pounds.

The famous Chateau Frontenac husky dog team, remembered by visitors during last winter's sports season, is being perpetuated. One of the dogs has just given birth to three pups, and if the youngsters turn out to be like their parents the Chateau Frontenac team is likely to continue winning dog derbies.

Fishing licenses in the Maritime Provinces have been reduced. The special fishery regulations for Nova Scotia, New Brunswick and Prince Edward Island have been amended to provide that in many instances where the license has been more than a dollar it will now be one dollar.

No limit will be set to the help to be offered to new settlers in the agricultural sections of the province of Quebec, according to Premier Taschereau. The latest government provision is to pay colonists at the rate of \$1.00 per acre for land cleared on their colonization lots since 1920. \$7,000,000 has been voted for provincial colonization.

The decision of the Canadian Pacific Railway Company to scrap agreements of sale with 30,000 Canadian farmers in the west and enter into new contracts with them, extending over 34 years on an amortization basis, will affect agreements of a value of approximately \$100,000,000, and relieve many farmers of heavy, pressing debts.

The new motor ferry operated between Victoria, B.C., and Bellingham, Wash., develops a speed of 14 knots in adverse weather. This motor driven vessel, recently launched, is the first of its class to be used in this service and the first to be added to the Canadian Pacific fleet. It has a capacity for 50 automobiles.

Abraham Martin, first Scotch settler in Canada, first King's Pilot on the St. Lawrence and first farmer on the Plains of Abraham, which were named after him, has been honored by the Canadian Pacific Steamships, Ltd., at Quebec by the erection of a granite shaft. Hon. Albanese David, Provincial Treasurer of Quebec, officiated at the unveiling ceremony recently.

Two thousand Canadian Red Men are expected to participate in the Calgary stampede and to move on to Banff for their celebrations and row-wow on the Indian Days, July 15th and 17th during which the citizens of Banff will act as hosts. Pony racing, wrestling on horse-back, shooting with the bow and arrow, tent-pitching and canoe making contests are among the features.

SCHOOLDAY SCALP TROUBLES
CHILDREN at school and at play, frequently exchange caps and clothing, and in this way contract ringworm, scald-head, scalp sores, and other distressing skin humors. Harassed mothers will find the Zam-Buk treatment both preventive and curative in these prevalent troubles.
Shampoo a child's scalp with Zam-Buk Medicinal Soap to keep the skin and hair healthy. Where the red itchy spots, patches or eruptions, have already appeared apply Zam-Buk without delay. This powerful antiseptic balm soothes and purifies the tissue, kills off the disease parasites, and ensures speedy growth of new healthy skin.
Mrs. E. Webster, 519, Seignours Street, says:—"My little girl got scalp disease at school. Bad gatherings and sores formed all over her head, and we feared she would lose all her hair. It was pitiable to see her. Fortunately we tried Zam-Buk, and a few days treatment with this magical herbal balm effected splendid improvement. The sores soon began to heal and we continued the Zam-Buk treatment until the last trace of disease had gone."
Zam-Buk 50c. box, is equally good for ulcers, bad legs, piles, varicose sores, poisoned wounds, abscesses, boils, cold-sores, etc. **FREE SAMPLE BOX** of Zam-Buk is obtainable by sending 1c. stamp to Zam-Buk Co., Toronto.

Here and There

The total quantity of sea fish landed on both the Atlantic and Pacific coasts during the month of July was 822,043 cwts., valued at \$2,771,449 to the fishermen, compared with a catch of 873,332 cwts. valued at \$2,846,750 in July, 1922.

Cattle in north Alberta's livestock herds now number more than 2,000,000. This industry and also the swine industry have increased amazingly in the northern part of the Province in the last few years.

Carrying large consignments from the Dominion Government and the British Columbia branch of the Canadian Red Cross, the Canadian Pacific S.S. Empress of Russia was the first ship from the American continent to arrive with relief for the earthquake and famine stricken people of Japan.

Nearly \$10,000 in fur royalties was collected in The Pas, Man., by the chief game warden last winter. This does not include the royalties collected from the Hudson Bay Company and Revillon Freres, which will more than double this amount. This does not include moneys secured through taxes, licenses and other sources of revenue.

Creamery butter made in Alberta took a total of 144 prizes out of 200 prizes offered, or 72 per cent., at exhibitions at Edmonton, Calgary, Regina, Brandon, Saskatoon and Vancouver this year. Out of 11 open championships offered, Alberta but-ter took 8. In the Calgary exhibition six provinces competed, in three others four provinces competed, and in two others three provinces com-peted.

British Columbia has reached the peak of the biggest tourist season in her history, and it is estimated that as a result of the enormous travel and the expenditure of transients while in the province this summer, will be worth at least \$30,000,000. The opening of the Banff-Vindermere motor highway through Canada's rock garden was largely responsible for this increase in tourist traffic through the Pacific province.

Gold producers in the Province of Ontario during the first six months of 1923 report production of 354,446 ounces gold and 65,444 ounces silver, of a total value of \$7,244,031 shipped by the Porcupine producers, and from the Kirkland Lake producers 69,691 ounces gold and 6,515 ounces silver, of a total value of \$1,402,873, or from the two camps a total value of \$8,646,904.

The Canadian Pacific Railway will contribute \$25,000 for the relief of the sufferers in Japan and have also decided that supplies of Canadian food-stuffs and clothing donated, or purchased with money donated for relief work, will be transported free over the Company's rail and steamship lines. President E. W. Beatty made this announcement while making a tour over the Company's lines in the West with a party of directors. He added that this action had been taken because of the reports of the intense hardships due to the disaster, and notwithstanding the fact that the Company had lost heavily by the catastrophe.

The following editorial recently appeared in the Windsor "Border Cities Star": A recent cargo of silk, en route from China to New York, was shipped via Vancouver and the Canadian Pacific Railroad and crossed the St. Lawrence to Ogdensburg, New York, instead of being sent across the United States from San Francisco. The incident offers something for Canadians to think about. It proves that a good service the Canadian Pacific offers in its rail and steamship lines. In a country like Canada, transportation is all essential, and the way the Canadian Pacific has carried on, in spite of the business difficulties which began with the war and are not yet smoothed out, is a credit to the nation which conceived it.

Again, the incident calls attention to Canada's splendid gateway to the East. Although China is in a chaotic political condition just now, the huge Oriental nation offers wonderful trade chances in the future. No nation is better placed for getting its share of this business than Canada.

**Notice Of Sale
Timber At Auction**

There will be offered for sale at Public Auction in front of the Post Office in the Town of Newcastle on Wednesday 3rd day of October next at 12 o'clock noon, the following:

PERSONALS

Mr. Charles Robinson of St. John was a visitor to town on Friday.

Rev. W. J. Bate is spending this week in Fredericton.

Mrs. P. F. Cummings of Lawrence Mass., was a visitor to town last week.

Mr. J. W. Spurden was in town last week making his half yearly audit of the town's books.

Mr. Wm. Stymiest was in Charlottetown, P.E.I. last week attending the Exhibition.

Rev. A. W. Brown attended the Maritime Methodist Theological Institute held in Sackville.

H. P. Zick of the Bank of Nova Scotia has returned from a pleasant vacation spent in Chester, N.S.

Jack Sproul left last week for Montreal to enter McGill University where he will study dentistry.

Mrs. James Bernard and daughter Miss Ella spent a few days last week with Mr. and Mrs. Fred McLaughlan of Bathurst.

Mrs. Wm. Young returned on Saturday from a pleasant visit spent with relatives in Cambridge, Mass.

Mr. and Mrs. J. P. Whelan and family motored from Bathurst on Thursday to attend the Chatham Exhibition.

Misses Margaret Thompson and Minnie Russell left Friday morning for Lawrence, Mass., where they will enter the Lawrence General Hospital as nurses in training.

Mr. Isaac Preston of Newcastle celebrated his 93rd birthday on Saturday, the 15th ult. Mr. Preston is still in good health and his many friends wish him many more years of health and happiness.

Friends of Mrs. Clarence Wrigley, who is seriously ill at her mother's residence, will be pleased to hear that she is slowly improving and that good hopes are held out for her recovery.

Mrs. J. M. Falconer and daughters Misses Addie, Ruby and Gertrude left yesterday for Hamilton, Ont., where they will join Mr. Falconer and in future reside in that city.

Mr. Thomas Clarke of Halifax, N. S. has assumed the management of the local branch of the Royal Bank of Canada succeeding Mr. J. P. MacRae who has been transferred to Sault Ste. Marie, Ontario.

Mrs. S. H. Scribner and daughter Mrs. Charles J. A'Haran of Moncton who have been visiting Mr. and Mrs. Peter A'Haran, Radio Street returned home on Thursday, they were accompanied by Master Hudson Taylor who is much improved after his recent illness.

WEDDINGS

WEATHERHEAD—ROBINSON
Wednesday morning at 7:30 o'clock in St. Andrew's Presbyterian church, St. John, Miss Isabella Mona Jean, daughter of Mr. and Charles Robinson, 16 Horsetfield St. was united in marriage with Charles Wellsley Weatherhead of Boston, son of the late Mr. and Mrs John Weatherhead of St. John. Rev. J.S. Bonnell officiated. The bride who was given in marriage by her father, was attended by Miss Mona Lindon of Newcastle and the groom was supported by Frederick Shannon, Benson and Everett Robinson, brothers of the bride, were the ushers.

The bridal party entered the church to the strains of the wedding march played by Mrs. MacKay. Mrs. Thomas Guy sang "Oh Perfect Love" during the ceremony. Mrs. MacKay sang a selection while the registry was being signed.

There were about forty guests present at the dainty wedding breakfast served at the bride's home following the ceremony. The bride was assisted in receiving by her mother and by Mrs. Thomas Alexander, sister of the groom.

Mr. and Mrs. Wetherhead left about ten o'clock for Chatham and Newcastle by motor. They will return to St. John for a few days and then proceed to Boston, where the groom is in the employ of the Ward Bakery.

Many beautiful gifts in cut glass, silver, china and checks, were received, and included a beautiful casserole from the Workmen's Compensation Board, and a dozen silver tea spoons from the New Brunswick Electric Power Company where the bride was employed.

OBITUARY

JOHN SIMPSON

The death of John Simpson occurred at the home of his daughter, Mrs Allan A. McTavish about 9 o'clock Sunday morning, following a short illness. Mr. Simpson, who came town from his home in Redbank on Thursday, became ill while at the hotel and was immediately taken to the home of his daughter, where he died Sunday morning. Heart failure and a general breaking up of the system caused his death. Deceased was 78 years old, was born in Redbank and was a highly respected and life long resident of that place.

He is survived by five daughters and three sons, Rose, registered nurse, Cambridge, Mass., Dorothy nurse in training at Cambridge, Mass. Hospital, Jessie in Saco, Me., Mrs. Harry Smith, Latogue, P.Q. and Mrs. A.A. McTavish of this town. Walter in Alberta, Wm. in Saskatchewan and Douglas at home. Mrs. David Barron of Millerton and one brother Robert in the West.

The remains were conveyed to his late home in Redbank Sunday morning and the funeral was held on Monday afternoon at 2:30. Services were conducted by Rev. Mr. Girdwood and interment was in St. Stephen's Presbyterian Cemetery. The pallbearers were Albert Burns, R.M. Chaplin, James Power, Wm. Lawlor, Jas. Parks and Joseph Ferguson.

**NEW LAMP BURNS
94% AIR**

Beats Electric or Gas

A new oil lamp that gives an amazingly brilliant, soft, white light, even better than gas or electricity, has been tested by the U. S. Government and 35 leading universities and found to be superior to 10 ordinary oil lamps.

It burns without odor, smoke or noise—no pumping up, is simple, clean safe. Burns 94 p c air and 6 p c common kerosene (coal oil).

The inventor, J. M. Johnston, 246 Craig St. W., Montreal, is offering to send a lamp on 10 days' FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him today for full particulars. Also ask him to explain how you can get the agency, and without experience or money make \$250 to \$500 per month.

MRS. MISENER'S ACHES AND PAINS

Vanished After Using Lydia
E. Pinkham's Vegetable
Compound

"Branchton, Ont.—When I wrote to you for help my action was mostly prompted by curiosity. I wondered if I, too, would be cured by your medicine. It was the most reliable action I had ever taken. I had suffered from rheumatism for many years. I had taken every medicine I could get, but I had no relief. I had taken Lydia E. Pinkham's Compound Tablets and a bottle of Lydia E. Pinkham's Blood Medicine, and I can honestly say I have never been so well before. I had suffered from pains and other troubles since I was fifteen years old, and during the 'Great War' period I worked on munitions for two years, and, in the heavy lifting which my work called for, I strained myself, causing pelvic inflammation from which I have suffered untold agony, and I often had to give up and go to bed. I had doctored for several years without getting permanent relief, when I started to take your medicines."—Mrs. GOLDWIN MISENER, Branchton, Ont.

Write to the Lydia E. Pinkham Medicine Co., Cobourg, Ontario, for a free copy of Lydia E. Pinkham's Private Text-Book upon "Ailments of Women." C

WE LEAD! Others Follow!

The Ontario Equitable was the first Canadian Co. to give a Total and Permanent Disability Clause providing for payment of \$20 per month for each \$1000 of Insurance.

The Ontario Equitable now leads in introducing a Combined Life, Health, and Accident Policy. Under this new form of protection a policy of \$5000 can be issued to provide for the following payments:
Death\$5,000
Accidental Death....\$10,000
Monthly income in event of Total or Permanent Disability \$100.00

Monthly income for Temporary Disability from Accident or Sickness for a period of twelve months \$100.00
Get this Policy and you are Insured.

INSULIN

Issued under the Auspices of
the Medical Society of
Nova Scotia

Because of many misconceptions which exist in the mind of the laity with reference to insulin, it may be desirable to explain how this substance acts, and to indicate the extent of its usefulness in the treatment of diabetes.

In the normal condition a certain amount of carbohydrate food is required, not only for the production of energy but also for the maintenance of the body's heat. Carbohydrate mainly from foods of vegetable origin. All forms of carbohydrate are normally changed in the body into sugar, and this sugar is either utilized at once in the production of energy, or is stored up for future use in the form of glycogen.

A fascinating story could be told of the manner in which physiologists and biochemists gradually and systematically demonstrated the part which certain portions of the organ called the pancreas play in determining the fate of the carbohydrate we consume. But it must suffice to say that, in health, these portions of the pancreas secrete a substance which enables the body to make use of sugar. In the absence of this substance, the carbohydrate cannot be properly utilized and the sugar derived from them is largely or wholly wasted, while the corrective influence of these foodstuffs upon the fats and protein is reduced and perhaps lost. To this last factor we must attribute the most serious symptoms of diabetes.

The chemistry of the animal body is exceedingly complex, and the difficulties to be overcome in the isolation of this substance which we now know is insulin, was so great that when our own Banting and his co-workers succeeded in establishing a method for obtaining it for use in medicine, it may be claimed that one of the greatest triumphs of man's ingenuity was achieved. By the administration of insulin to diabetics, the deficiency due to disease of the pancreas can be overcome to a great extent, and an enormous saving of life and of suffering will undoubtedly result.

It is to be noted that Banting and those associated with him, in this great work, have been the first to point out that insulin is not to be regarded as a curative agent. It has already brought many persons back from the very brink of the grave, and restored them to years of comfort and usefulness, but it does not recover a pancreas which has already been damaged beyond repair. In many cases, apparently, it has been instrumental in assisting in the restoration of function when the pancreas has not been too seriously crippled; but when the organ is destroyed or very seriously diseased, the insulin which it should secrete must be supplied artificially

throughout the life of the individual. In all cases most careful attention must be given to the diet, and in quite a large proportion the result of the diet is all that is required. Obviously, such a treatment depends particularly upon the extent to which the disease has advanced at the time treatment is commenced. Diabetes is a very common disease, and the greatest work has been done in its treatment.

In strict accordance with the traditions of the so-called "regular" school of medicine, Banting and his co-workers have given their discoveries to the world without reservation and without thought of personal profit. For the protection of the public against the host of fakirs who are ever ready to exploit thoughtless sick people for their own enrichment, an arrangement has been made by the University of Toronto, and has patented the method of producing insulin. This, however, is only to assure the production of reliable insulin at the lowest practicable price. Any reputable concerns which will undertake to make insulin in conformity with Banting's method under the general supervision of the University, and at a price which can be shown as reasonable, will not only be permitted to manufacture it, but will have, free of any charge, all the assistance the University can render. This splendid service by a great University will be appreciated by every one who has the welfare of the public at heart.

GUARD THE BABY AGAINST COLDS

To guard the baby against colds nothing can equal Baby's Own Tablets. The Tablets are a mild laxative that will keep the little one's stomach and bowels working regularly. It is a recognized fact that where the stomach and bowels are in good order that colds will not exist; that the health of the little one will be good and that he will thrive and be good and that he will thrive and be happy and goodnatured. The Tablets are sold by medicine dealers or by mail at 25c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

GERMANY HAS TO ADMIT DEFEAT

Germany has decided to end unconditionally her weaponless and moral fight against the occupation of her economic stronghold, the Ruhr, and an immediate resumption of work has been ordered in all fields of activity affected by the policy of passive resistance.

Chancellor Stresemann, making this announcement, after a long conference with representatives of labor industry and the civilian populations of the Ruhr and Rhineland, said the government's efforts for the present would be directed toward obtaining the release of prisoners and the return of deportees. Attempts to accomplish these purposes, as well as to obtain guarantees of the restoration of German sovereignty in the occupied region, had been unsuccessful, the chancellor said, thus passive resistance had lost its purpose and had become even harmful to the best interests of the country.

The Conference at which the decision to capitulate was made was attended, by 300 Germans representing all political parties, the industrialists, the labor organizations and the local administration in the Rhineland and Ruhr. It was of

Canadian Pacific Directors on Annual Tour

E. W. Beatty, president of the Canadian Pacific Railway, is now on his annual tour of inspection of the Company's lines. He is accompanied by a number of Canadian Pacific Directors, and the trip will probably prove of more than usual importance in view of the many questions connected with transportation that are under discussion in the West.

The party of directors consisted of Sir Herbert Holt, Montreal; Sir Augustus Nanton, Winnipeg; J. K. L. Ross, Montreal; F. W. Molson, Montreal; and W. N. Tilley, K.C., of Toronto. They accompanied the President as far as Port Arthur. The party left Montreal on September 6 and made the first stop at Toronto, leaving next day for Fort Arthur and Fort William. The next stops were made at Winnipeg, Brandon, Moose Jaw, Medicine Hat, Calgary and Revelstoke. At Winnipeg a meeting of the board of directors was held, this being the first time in the history of the Canadian Pacific Railway that such a meeting has been held in Western Canada. Vancouver was reached on September 15th, and the party then proceeded to Skagway by the Canadian Pacific Coast Steamship Service. They will return to Vancouver on September 24th. The return journey will be made via Nelson, Lethbridge, Calgary and Edmonton. A short stop will be made at Nelson on September 30th, at Lethbridge, on October 1st, Calgary, October 2nd, Edmonton, October 3rd, Saskatoon, October 4th and at Winnipeg the following day.

The Chancellor told the conference that a continuation of the Ruhr struggle would mean that Germany would bleed to death and that the continuation of the adherence of the occupied regions to the republic would be threatened. "In the course of battle," he said, "it sometimes becomes necessary to surrender or evacuate a fortress because it requires too many men, too much food and too much ammunition

unanimously agreed that Germany could hope to gain nothing by continuing to oppose France and Belgium. But there was some difference of opinion on the advisability of negotiating directly with France.

It was of negotiating directly with France.

FRETTING NAUGHT BUT FOLLY

But Many Sermons on the Subject
Have Failed to Convince People
of Its Uselessness.

In that doleful, delightful book, "The
Education of Henry Adams," occurs a
passage, "the folly of fret," which is
better than the usual expression, "the
uselessness of worry."

Many sermons have been preached,
many lectures delivered, many medical
opinions pronounced, many household
homilies uttered, on that theme.

The trend of applied science in our
century is toward the reduction of
friction and the elimination of waste.
And a big part of friction and of
waste is worry.

We worry about the human machine.
We imagine that all sorts of dreadful
things are about to happen to us. Our
thoughts ought to be on our work—and
they are diverted by our worries.

We worry about losing a position in
business or our standing in society.
There would be less excuse for anxiety
if we would spend the energy con-
sumed in trying to do our work still
better, trying to serve more satisfac-
torily the community we live in, striv-
ing to discharge the various and deli-
cate offices of friendship with in-
creased tact and perception and sym-
pathetic selflessness.

Worry is quite another matter from
a proper carefulness, that weighs a
proposition and looks all round its ob-
ject ere acceptance.

A man who investigates before he
buys, who considers alternatives and
who asks questions before deciding,
who makes no leap in the dark, is not
open to the reproach of one whose
"folly of fret" merely leads him in
crankle circles, like a tethered donkey.
All his fuss and clamor issue in noth-
ing but an ecstasy of motion and emo-
tion.

Man power is too precious to be
thrown away in these gyrations that
are the pantomime of futility.

Give us more of the calm, big men
who plan and then proceed.
They seem to have time. They do
not operate in a flutter and a fever
resembling the hen yard or the stock
pen. They make up their minds and
preserve their equanimity. Seeing
them so cool and controlled, those who
do everything in a panic or a paroxysm
try their best to excite them by tell-
ing them the house is burning down
or the world is coming to an end.

But these quiet and capable ones
are not deceived. They know that it
is not for man to say when his own
life or his own work shall end. In
trust and peace they continue on their
way—avoiding "the folly of fret" that
victimizes and weakens other men.—
Philadelphia Public Ledger.

Relics of an Extinct Race.

Relics of an extinct Indian race are
being uncovered on the Santa Ynez
river by a road construction gang un-
der the direction of Ranger R. For-
sythe of the Santa Barbara national
forest. The discovery is at a point
two miles upstream from the foot of
the grade of the San Marcos road on
the other side of the mountain.

One such relic brought in to Forest
Supervisor Thomas B. Sloan's office
was a matter of much speculation. It
appears to be a piece of black soap-
stone in the shape of a cylinder about
1 1/2 inches in diameter and four
inches long, with a half-inch hole
the length of it. The relic is highly
polished, and when first excavated was
said to be of a softness that permitted
scarring its surface. Exposure to the
air evidently had hardened it, how-
ever, in a few hours.

Forsythe said two other relics sim-
ilar to this one have been uncovered,
and one of the bones of the forearm of
a man also has been found.—Santa
Barbara Press.

Some Exceptions.

Among the witnesses called in a
trial in a southern court was an old
dandy.

"Do you swear that what you tell
shall be the truth, the whole truth and
nothing but the truth?" intoned the
clerk.

"Well, sah," returned the witness,
shifting uneasily, "dis lawyer gem-
man kin make it a pow'ful lot easier
on hisself an' relieve me of a mighty
big strain ef he'll leave out anything
about gin an' chickens. 'Cepting to
dose, Ah guess Ah kin stick to de
truth."—The American Legion Week-
ly.

No Joke.

Ex-Chancellor Day of Syracuse uni-
versity, bewailing the high price of
books, clothes and what-not, said at
a dinner:

"Will this thing never end? I
heard a story the other day. A chari-
table lady on a seashore boardwalk
dropped a nickel in a beggar's hat.
But the beggar returned the nickel to
her, saying in not unkindly tones:

"Excuse me, lady; I don't want to
hurt your feelin's, but I'll have to
return this here nickel back to you.
If we take less than a dime we lose
our union card."

Mansfield Uses Phonographs.

Appreciation of music is taught in
the schools of Mansfield, Ohio, with
the help of phonograph records. In
the seven schools of the town there
are 37 phonographs. The machines
were paid for by the pupils' music
club, which includes 600 boys and
girls. Each school has a complete li-
brary of records and the phonographs
and records represent an investment
of more than \$5,000. A special text-
book in music appreciation guides the
teachers in this work, and the music
supervisor of the town schools consid-
ers the teaching successful.

PULPWOOD
EMBARGO FACTS

Our mills have been closed since
operations in their own country
and are beating Canada with
a fact which makes the attitude of
the Canadian Government
in dealing with the Embargo
of criminal.

The argument also advanced by
this journal that it would be as
reasonable to place an embargo on
wheat as on pulpwood is, to say
the least facetious. Wheat is a
crop of which there is a world sur-
plus, while of wood there is a
world shortage. Wheat can be
raised in one season, while trees
take from fifty to one hundred and
fifty years to produce. The same
newspaper asks why try to force the
growth of the paper industry in
Canada when, by natural processes
it is bound to grow any way. Well,
I ask in all seriousness, whether
the "natural process" would not be
to allow insects and fires to des-
troy and our increasing exports to
diminish our wood supply to such
an extent that it would not
only be impossible for it to grow
but under this "natural process" the
industry will instead only too
soon have to curtail.

The main reason for the disin-
clination on the part of the Ameri-
can paper manufacturer to move
his mill to the Canadian side is
patriotic. He prefers to manufacture
our raw material in his own coun-
try, thereby giving employment to
American labour—as well as in-
creasing American taxes at Can-
ada's expense and in this worthy
cause he is being ably assisted by
our Canadian Government.

The newspaper further offers in a
gratuitous suggestion that "Mr.
Barnjum would be well advised if
he were to confine his praiseworthy
efforts to prevent the immense
waste of Canadian forests by
fire." My reply to this suggestion
is that when I see the Liberal Gov-
ernment at Ottawa take the only
action that will produce a large
measure of immediate conservation
of our forest resources without ex-
penditure of one dollar of the
people's money, namely, by the sim-
ple process of passing the Order-
in Council prohibiting the export of
unmanufactured wood, I shall then
be ready to devote every moment of
my time and every dollar at my
command to an endeavor to prevent
our appalling forest fire losses. But
I fail to see any sound logic in ex-
pending time and money
in protecting a wood supply merely
so that it may be exported for the
benefit of another country.

FRANK J. D. BARNJUM
Montreal, September 24th, 1923.

LORD RENFREW
UNABLE TO ATTEND
VETERANS BANQUET

Sept. 27—Regrets that he would
be unable to accept the invitation
of the army and navy veterans as-
sociation to attend their annual
banquet, owing to having promised
not to accept any public engage-
ments on his western trip, was ex-
pressed by Lord Renfrew, on his
arrival in Calgary, Tuesday afternoon
from Banff. After a stay of about
seven minutes at the Canadian
Pacific Railway depot, the train was
switched on to the south main
line and Lord Kenfrew and his party
continued the journey to High River,
arriving there at 7 o'clock and then
drove to the E.P. ranch.

Lord Renfrew enjoyed his trip to
the mountain resort very much. He
is completely captivated by the
Rockies and fairly fell in love with
the golf links.

Alone From Uscilug to Milwaukee Via Canada

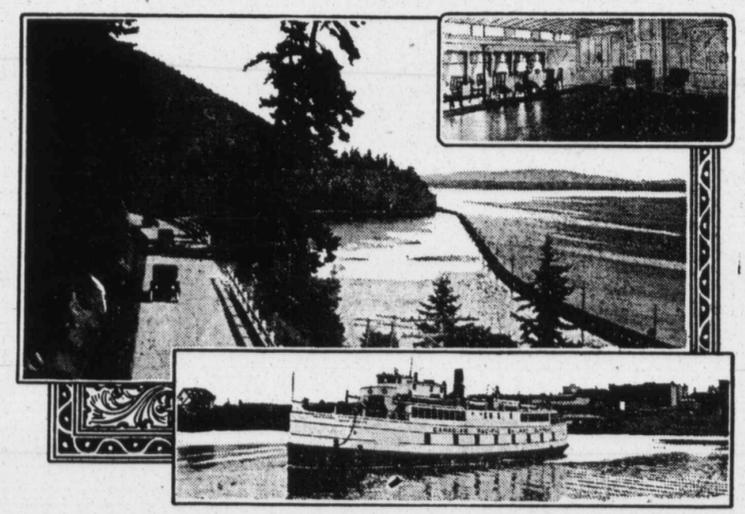

Eleven-year-old Polish Boy Makes Long Voyage Alone.

TRAVELLING does not tire or trouble this little fel-
low. Though he does not speak any English other
than two or three words which he picked up en-route,
he travelled alone from his home at Uscilug on the
Russia-Austria boundary to Milwaukee, burdened only
with a small valise and a sheaf of tickets and immigra-
tion documents. Kech Herz is his name. Orphaned by
his mother's death three years ago, he was going to
his father in Milwaukee, who had made arrangements
for his transportation.

When Kech arrived at Warsaw he was conducted
by an agent of the Canadian Pacific Railway to Antwerp,
where he was given a ticket almost as long as himself
which would carry him through to his destination.
Passing to England he sailed on the "Metagama," be-
ing, from the time he left Warsaw, under the care of
the Canadian Pacific. The direct mileage from Mil-
waukee to Uscilug is not by any means the full mileage
of his travels. The ship's officers estimate that he ran
at least twenty miles a day over the vessel, and the
port officials had an anxious time when he made sur-
reptitious peregrinations in search of someone who
spoke his own tongue. He was glad, of course, to meet
his father, but what an adventure it is to travel far and
alone!

West Coast Motor Tour

1. The C. P. S. S. Motor Princess. 2. Chuckaut Drive, a link in the Pacific Highway. 3. Dance floor on the ferry.

NOT only have Bellingham, Wash., and Victoria,
B.C., been brought into closer connection and more
friendly relations by the recent inauguration of a
ferry motor transport service by the new Canadian
Pacific "Motor Princess," but western tourists as a
whole have been provided with a new route to the
Capital City of British Columbia, and one that has
the alluring charm and refreshing diversion of a
three and a half hours' water trip. The new water
route for touring motorists from the mainland to
Vancouver Island forms the base of a triangle which
provides a circuit tour from Victoria through
Nanaimo and Vancouver and via the beautiful Pacific
Highway through New Westminster and Belling-
ham to Oregon and Washington destinations. This
tour takes one through some of the most beautiful
scenery on the continent. Exhilarating sea breezes
are enjoyed along the whole route, which is through
country the climate of which is so delightfully
equable, that the semi-tropical foliage is pleasing to
the eye and fragrant the year round.

In addition, the ferry links the wonderful roads
on Vancouver Island with the California Bee Line,
the western arc of the great 6,000 mile circle tour
which embraces twelve national parks in the United
States and three in Canada, and of which the Banff-
Windsor Highway through the Canadian Rockies,
to be officially opened on June 30th, forms one of
the most delightful parts.

The ship which has made this Mainland-Island-
Circle tour possible was specially designed for the
service and possesses many distinctive features. She
has parking space for 50 automobiles on two decks
and accommodation for 250 passengers. A saloon,
smoking room, restaurant, dance floor and deck
spaces for promenading have been fitted up for the
convenience of the travelling public, and the vessel
is equipped with twin diesel engines which ensure
a speed of 14 knots in all weathers.

It shows the month and year to which your subscription is paid. If you are one of those in arrears, you will confer a favor by attending to the matter within the coming few days.

Here and There

Gold production in Canada in 1922 passed the million ounce mark for the first time since 1902.

Public works to be undertaken in Vancouver this year will cost in the neighborhood of \$10,000,000, of which \$3,000,000 will be spent by the Canadian Pacific Railway on pier construction.

The Canadian Pacific steamship Montcalm carried 900 emigrants for Canada on her last voyage from Liverpool, the largest number of emigrants to leave that port this year.

Work was commenced last week on the new elevator at the Ballantyne pier, Vancouver, which will cost approximately \$2,000,000 to complete. The new elevator will have a storage capacity of 1,500,000 bushels.

Three thousand seven hundred licensed grain elevators in Manitoba, Saskatchewan, and Alberta have a total storage capacity of over 100,000,000 bushels. Ontario, Quebec and Maritime provinces have storage elevators with capacity up to 33,180,000 bushels.

The first lodge of Free and Accepted Masons in the history of the Merchant Marine was recently organized on the Canadian Pacific liner Empress of France, when cruising the Mediterranean Sea with a party of 800 Canadian and United States tourists.

Four thousand seven hundred and eighty-four cars of last season's fruit crop have been shipped out of the Okanagan district of British Columbia up to February 14th, according to a statement made to the Vancouver Board of Trade recently by F. W. Peters, general superintendent of the Canadian Pacific Railway, B.C. Division.

Sault Ste. Marie.—The new downtown ticket and telegraph office of the Canadian Pacific Railway and the Dominion Express Company at the corner of Queen and McDougall street, in the building formerly occupied by the Public Utilities Commission, is one of the finest in the province. There are some larger offices in the larger cities, but none that are better equipped.

Herald Rindal, divisional engineer for the Canadian Pacific Railway, who has been located at Vancouver for the past thirteen years, and F. W. Alexander, divisional engineer for Alberta at Calgary, have exchanged posts, it being the company's policy to develop its engineers by giving them experience with the varying conditions in different parts of the Dominion.

A number of western interests have combined and chartered the Canadian Pacific steamship Pretorian, and the vessel will sail from Montreal on August 1st for Port Churchill, for the purpose of proving to the satisfaction of the interested parties whether or not conditions of navigation to and from Hudson's Bay can be made a commercial success. Between three and four hundred passengers from the west will make the trip.

J. S. Brown, president of the Brown Fruit Company of Edmonton, Alta., returned on the Metagama last week from a three months' visit to Europe. He was present in Germany when the French invaded the Ruhr, and he said that the feeling was very bitter between the two races. On the other hand, a Canadian, American or Britisher was given a cordial welcome; this being largely due to a speech in which Lloyd George advocated a compromise. Travel in Germany, he said, was surprisingly cheap, he having made one trip of nearly 150 miles for the sum of fifty cents in Canadian currency.

When the Canadian Pacific steamship Metagama, which left St. John's on March first for Glasgow, reaches her destination, Captain G. B. Evans, O.B.E., her commander, will have completed his last voyage in command of the vessel. Captain Evans, who is the oldest and one of the most highly esteemed commanders in the service of the Canadian Pacific Steamships, Limited, is retiring after a career at sea of 48 years, during which time he crossed the Atlantic in command 578 times, and conveyed 247,923 passengers, of whom 71,000 were Canadian and American troops. He was in command of the Misamis when this ship was sunk by the Germans in 1918, and he will be remembered by many passengers as the captain of the Minnedosa, the Montcalm or the Empress of Scotland.

Prepare to purchase your winter's supply of vegetables, fuel, etc. at the Big Festival and Auction on October 18th.

LOST

Take advantage of this sale and make your dollars buy the most.

WARM DEBATES
MAY MARK SYNOUS

A spirited debate is anticipated when the Presbyterian Synod of the Maritime Provinces meets in St. John this week. The principal issue will be the proposed transfer of the Halifax financial to Toronto. This change is one of the developments arising from the church union question. Hitherto, funds raised and disbursed within this territory have been handled at the office of the synod located in Halifax, but it is proposed to centralize the financial affairs at one office in Toronto. It is understood that this change will call forth a warm argument at the synod.

One Cent Rexall Sale at C. M. Dickison & Sons October, 11th, 12th, and 13th.

LARGE CROUDS AT EXHIBITION

Chatham was crowded with visitors all day Wed. train, boat & auto served as a means of conveyance for the many who wished to see and enjoy Chatham's big exhibi-

Every day of your life you can have a good loaf of Bread if you bake with **REGAL FLOUR**

The big attraction was the ten round bout between "Bill" Groff of Winnipeg and Frankie Burns of St. John. This proved to be a fast thrilling mill and went the full number of rounds, Burns being awarded the decision. Both fighters mixed things considerably but up to the sixth round one had no great advantage over the other. Burns, however, had the best of three of the remaining five rounds. The two preliminaries were neat scraps and were full of pep from the sound of the gong. They each went three rounds. Lockhart won from Nicholson, while Malley and McCausland fought to a draw. E.W. Watling refereed the three bouts in a most satisfactory and impartial manner.

Another attraction was the auto races for Fords only. These were held on Chatham's fast speed way. There were five entries in this class. The course was 1.1/2 mile laps. Allan McLennan won with his Ford roadster. Judging went on all day in the live stock classes. Many enjoyed the dancing which was carried on at night on the large pavilion in the main building. Dance music was furnished by the Newcastle band. "Miss Canada" opened the dance, and with her was "Miss Miramichi" Miss Annie Robertson Newcastle.

One Cent Rexall Sale at C. M. Dickison & Sons October, 11th, 12th, and 13th.
