GERMANS REPORT LOSSES AND GAINS.

BERLIN, To-day. A statement to-day from the army headquarters is as follows: East of Ypres, the British yesterday used grenades and bombs which developed asphyxiating gas. On the South slope of Lorette Heights, Northwest of Arras, a small German point appui, six yards long and fifty yards deep, was lost; in the Champagne, north-

In Egypt British airmen have bee dropping bombs on Turkish encampment near the border, while a French cruiser fire of which was dirested by aeroplane has been throw ing shells on the Turks near Elar ish where the army for the invasion of Egypt has its headquarters. These operations were undertaken presumably to harras the Turks, and the Turks have not shown any intention of attacking the British since their last repulse along the Canal. In the Carpathians there has been fighting but no battle which could be compared with those which the arrival of Spring brought to close. The Austrians officially report that they have repulsed the Russian attacks to the Southeast of Lupkow Pass, inflicting heavy losses on their adversaries, but elsewhere comparative calm prevails. The French have again been active in Vosges capturing an important height near Metzer-The British, too, have attacked the Germans in the neighbourhood of Ypres where fighting is still in progresss when the last report was despatched. It is again stated that German efforts to bring about accord beween Austria and Italy have failed, report which if confirmed is likely magnifiy in the eyes of Italians the Thontier incident which occurred yesterday. According to latest reports the Austrians who were passing over Italian territory actually fired upon the Italian troops who repulsed them Mr. E. H.
