GRECO-ITALIAN AFFAIR CLOSED.

PARIS, Sept. 26. The Greco-Italian affair was brought to a close to-day, so far as the Inter-Allied Council of Ambassadors is concerned, when that body decided that fifty million lire be deposited by Greece in the Bank of Switzerland, as security for the indemnity which should be paid to Italy. The payment was ordered as a penalty for Greek dilatoriness in searching for the assassins of Italian Boundary Mission near Janina, the slaying of which brought about the Italian-Greek crisis and the subsequent occupation of Corfu Island by Italy. The Ambassadors upheld their decision that in view of Greece's action in fulfilling the terms laid down by the Council, including the payment of indemnity, saluting the Allied fleet at Phaleron, and rendering honors to bodies of slain Commissioners, Italy was in duty bound to evacuate Corfu. It was announced that this evacuation was already begun and would be completed to-morrow.

PRECAUTIONARY MEASURES TAKEN IN MUNICH.

MUNICH, Sept. 26. Dr. Von Kahr former Premier, was to-night appointed General Commissioner for Bavaria, with full power to proclaim any exceptional state, and adopt any other military or police measures to protect Munich against insurrection from reactionary or radical sources. The appointment follows upon the activities of Hitler Guards and other so-called patriotic leagues, who are mobilizing for a general review on Friday. This official action is viewed as purely a local precautionary measure and is in no wise aimed at the central government. The rumor that exceptional state has been proclaimed, is officially denied.

COMMUNISTS AND SOLDIERS CLASH.

SOFIA, Sept. 26. A decisive battle in the Communist uprising is being fought in the city of Ferdinand, and the village of Berkovitsa, which are four miles apart, and half way from Sofia to the Danube. According to a statement issued by the War Office, five thousand Communists and Agrarian Allies are besieged there, after having proclaimed a Soviet Republic and established complete control over the area. Four thousand soldiers aided by civil

ian volunteers, have been carrying out enveloping operations during the past five days.

MARTIAL LAW IN BAVARIA.

PARIS, Sept. 26. Martial law has been proclaimed in Bavaria, according to late advices from Berlin, and former Premier Von Kahr has been appointed General Commissioner of the state. Dr. Von Kahr has issued a proclamation announcing he will take action against all acts of hostility to the country and against any resistance to his orders, by every means at his disposal.

NINE VILLAGES DESTROYED BY EARTHQUAKE.

ALLAHABA, British India, Sept. 26. Nine villages were totally destroyed and twenty-two partially destroyed by earthquakes which shook the vicinity of Buland, Persia, last Thursday, says a message from Meshed, Northeastern Persia. The shock caused the death of one hundred and fifty-seven persons and injured one hundred and forty-six.

ELECTED CHAIRMAN OF TRADES UNION COUNCIL.

LONDON, Sept. 26. Miss Margaret Bondfield, well known leader among women workers, was to-day elected chairman of the General Council of the Trades Union Congress for the ensuing year. She is the first woman to hold this post, which is the most important in the Trades Union movement in Great Britain.

Discoverer of Insulin Has New Rejuvenator.

LONDON, Sept. 15.—It is reported here that Dr. Banting, discoverer of insulin, the diabetes remedy, also has discovered a new "rejuvenation" technique. He is said to have told some of his friends here on his recent visit to this country. It is declared to be a distinct departure from the monkey gland method hitherto used in rejuvenation cases.

Harbor Grace Notes.

Miss Ida McRae left town recently enroute to Halifax, where she will spend some time.

Mrs. Katherine Lehey, sister of the late Mrs. P. Farrell, Proprietress of "Cochrane House," left by Thursday morning's train for St. John's, where she will take the Sackem enroute to Boston. Mrs. Lehey will in future make her home with her niece, Mrs. James Gorman. We wish her much happiness in her new home.

Miss May Garland left here on Friday morning for Port William, N.S., where she will visit her sister, Mrs. Ralph Regan.

Mr. Bert Simmons of Messrs. Gray & Goodland's, St. John's, arrived in town by Saturday night's train to spend his vacation with his mother, Mrs. H. Simmons.

Since the Shooting Season has opened on Thursday last, many of our local sports have paid a visit to the country, and some of them have secured a fine showing, while the majority complain of being very much handicapped by not having a dog with them.

Mrs. John Casey, accompanied by her daughter, Miss Carmel, and son, Rev. Fr. Casey, with whom she had spent the summer at Fortune Harbor, N.B., returned by the "Prospero" on Sunday week. The boat called here by special arrangement as Mrs. Casey's health, which was much improved during her visit North, has not been so good of late.

Mr. Frank Murphy, son of Mr. and Mrs. Thomas Murphy, is spending a holiday here with his parents and friends.

Mr. Ray Courage arrived in town by Thursday night's train from Brooklyn, New York, on a two weeks' holiday to his mother, Mrs. T. Courage, and sister, Mrs. L. Farmiter.

Misses Gladys Russell and Mary Whitway, of Bay Roberts, spent the week-end here with friends and returned by this afternoon's train.

Miss May Davis, of E. Simmons', is spending her vacation in the West Coast, is now in town enjoying a brief holiday. Mr. Davis is a student at Queen's College, and will resume studies again next week. His many friends here are glad to see him home, and wish him success in his high calling.

Colonel and Mrs. Cloud, the new Salvation Army leaders, for Newfoundland, accompanied by Staff Captain Tilley, S.A., St. John's, paid their first visit to Harbor Grace recently, having come to town by Saturday night's train. Meetings were conducted in the Citadel here by the above mentioned officers on Sunday, and were most interesting and inspiring to the large congregation present. We trust that Col. and Mrs. Cloud's stay in Newfoundland may be a happy and profitable one, as they carry on their noble work for the lifting up of humanity.

Mr. Wm. Harris, son of Rev. Wm. Harris and Mrs. Harris, of the "Parsonage," having spent the summer holidays in town with his parents, goes out by Tuesday morning's train for "Queen's University," Kingston, Ont., to continue his studies there. Although Mr. Harris was, so to speak, a stranger when first coming here, he has made many friends since, whose good wishes follow him.

Mr. Thos. Walsh of the Riverhead has had a load of coals arrived here recently, which has been discharged at the Government Wharf. The town now is pretty well supplied with coal. The above cargo sold for \$12.30 per ton, and met with good sale. It was said to be an excellent class of coal.

Work on Glover Road is going on at the present time, and quite a number are given employment in this manner. The work is under the management of the Road Board.

Mr. and Mrs. Wm. Parsons, of Bear's Cove, accompanied by their two sons, Walter and Ernest, intend leaving for Toronto, Ont., on Tuesday, and will make their future home there in the future. They have two sons, Messrs. Hayward and Allan residing there. It is to be regretted that so many have to leave "old St. John's," and settle elsewhere, and especially of late, we find this going on. We wish them

much happiness in their future home.

Miss May Stevenson, of the West End, has been accepted at a teacher of the Methodist School on the South Side, to replace Miss A. Rose Pelley, who taught there last year. Miss Stevenson has begun her work for 1923-24. This is her first school, and we hope she will be successful.

Miss Gerlie Parsons, daughter of Mr. and Mrs. D. Parsons, of Bear's Cove, who has taken a position of stenographer in the office of Messrs. Steer Bros. St. John's, and left town last week to begin her duties. We wish her well.

CORRESPONDENT.

St. John's, Sept. 24th, 1923.

"Carnival" Proves Itself Most Gorgeous Picture

"Carnival," the long-awaited international photoplay recently released by United Artists and which is being shown at the Majestic Theatre to-day, is a picture gorgeous in production and beautiful in setting. Harley Knoles who produced it so outdistances any picture ever made abroad by an American technical staff that there is nothing with which to compare it. The picture was made in Venice, the picturesque canals forming no small part of the film's attraction. The carnival scenes of revelry are truly magnificent, so magnificent and so prolonged that you forget the object of the play, almost, the real interest of which is crowded into the last half-hour or so of an exhibition that lasts for the better part of two hours. Mr. Matheson Lang, as Silvio, has never done anything finer on either stage or screen. The spectators burst into applause, spontaneous and prolonged—a thing which rarely happens during the actual screening of a film, but in this instance it is more than justified. Miss Kilda Bailey and the other members of the cast all acquitted themselves perfectly.

Gravenstein Apples.—We had a big shipment of these excellent apples, last week and have another big shipment landing ex Rosalind to-day. We get our apples direct from the Orchards and from the very best packers. EDWIN MURRAY.
Sept. 27, St. John's.

The Optimist.

It'll keep me gay
Though the skies be grey,
And the clouds hang low and lowly,
Though the lyric lute
Of the birds be mute
And the days be dark and showery.

No fault have I
Be it wet or dry,
For there's no use in repining,
In an atmosphere
Where there's ale and beer,
And wine while one is dining.
—Harvey McKenzie.

M. G. Band Concert, Bannerman Park, 8.15 to-night. Last concert this season.

PRELIMINARY ENQUIRY.—The preliminary enquiry into the death of the young lad Griffiths, who was killed by Whitway's car on the Southside Road about five weeks ago, will be heard before the Magistrate's Court, commencing on Thursday next.

Face Disfigured With Large Pimples Cuticura Healed
"For some time my face was affected with pimples and skin eruptions, which by times would be very itchy. The pimples were very hard and large, and turned bluish when rubbed or picked, which caused disfigurement. I was treated but it did not prove satisfactory. I read an advertisement for Cuticura Soap and Ointment and decided to try them, and after using two cakes of Cuticura Soap and two boxes of Cuticura Ointment I was healed." (Signed) Mrs. Earl Cooks, Box 374, Napassee, Ontario.

Cuticura Soap daily, with Cuticura Ointment occasionally, prevents pimples or other eruptions. They are a pleasure to use, as is also Cuticura Talcum for perfuming the skin.

Small each 15c. Large each 30c. Address: Cuticura, Inc., 146 St. Paul St., Montreal, P.Q. Canada. Cuticura Soap shows without cost.

Railway Officials Return

OPERATIONS ALONG RAILWAY PROGRESSING FAVORABLY.

Mr. H. J. Russell, Manager Government Railway, with Messrs. F. Pittman, General Passenger Agent, W. F. Joyce, Engineer, and Ernest Taylor, Freight Agent, who were on a tour of inspection at the respective divisions along the railway since Wednesday last, returning to the city Tuesday morning. Mr. Russell and his assistants covered every inch of the railway between here and Port aux Basques, and report that the line operations all over are working most satisfactorily. The road bed which has been a source of much trouble in the past has been re-conditioned. The heavy congested traffic which has accumulated during the past two months has given the road a good test, and not a single run-off accident has occurred, whilst all trains are running on regular schedule and without losing very much time. The winter supply of coal is now being forwarded from North Sydney to the sections at Lewisporte and Clarendville. The road masters at the respective divisions were interviewed in connection with the handling of freight. A system has been inaugurated whereby there will be no further delays, and all freight trains will be pushed forward in the future as rapidly as possible. The trains are now running over the first diversion from the main line between Howley and Grand Lake. Another four miles of new track will complete the job. The old track at Sandy Pond Crossing is now flooded out, and the water in this section is rising gradually at about one inch per day.

Of Interest to Tourists.

CASH'S TOBACCO STORE IS NOW READY FOR THE TOURIST TRADE.

The man from England or the United States or any other country when visiting our City, will find his favorite brand of Cigars, Cigarettes, Tobacco and other Requisites at Our Store. We also carry a full line of Picture Postcards and Books of views of Newfoundland. Our Soda Water Fountain is now in full swing. Our Ice Cold Coca Cola and other syrups are pronounced by all to be the very best in the City. A good smoke—a cool drink and a visit to our beautiful Bowling Park will linger in your memory for many years.

Pat Harrington in Special Programme.

BIG SHOW AT THE CRESCENT THEATRE TO-NIGHT.

An unusually good show can be witnessed at the Crescent Theatre to-night. Pat Harrington has prepared an excellent bill of songs and dances with a few real novel surprises that will appeal to all who like snappy entertainment. The film attraction is of particular interest, being Wesley Barry's great masterpiece "School Days." It is the youthful star seen at his very best. Never before has this clever boy actor been given a role in which he has done so much justice. He is simply great. In the photoplay the patron witnesses the joys of the days of childhood with its sorrows and pranks. There is a delightful vein of human interest that runs thru the story that is guaranteed to fascinate the spectator.

To-morrow night another Amateur Contest will be held, and Mr. Harrington who is conducting it says that it will be more interesting than the previous one as he has quite a large list of contestants and a big night is assured all who are fortunate to gain admission, as there is going to be a rush for seats. Patrons are therefore advised to attend early.

Children's Garden Party.

The children's garden party held yesterday afternoon at St. Patrick's Convent was largely attended and the proceeds were up to expectations. Through the kindness of Rev. Bro. Ennis, the Mt. Cashel Band was in attendance during the afternoon and night, and rendered a very excellent programme of musical selections.

Will the party who took rag from motor car whilst parked on Queen Street last night return same to this office immediately and save further trouble.

Obituary.

WALTER J. DUGGAN.

(H. F. SHORTIS.)

A cable was received from East
Cambridge, Mass., U.S.A., last even-
ing by Mr. William Duggan an-
nouncing the death of his brother,
Walter J., which occurred early yes-
terday morning, in the 67th year of
his age. The deceased gentleman was
born in the old homestead in St.
John's West sixty-seven years ago
and was for several years employed
as weigh-master in the enterprising
firm of Messrs. P. & L. Tessier. About
17 years ago, like so many of his
countrymen, he decided to seek his
fortune in the United States, and on
he entered the well-known and
extensive firm of Scoville & Co., where
many of his countrymen have
been, and are still employed. By
strict attention to his duties and the
natural talent always exhibited by
Westfoundlanders abroad he quickly
rose to a responsible and remuner-
ative position in the Lard Department
of the above extensive firm, which he
held throughout. Some twelve months
ago his health commenced to fail, and
after he entered the Massachusetts
Hospital to undergo an operation for
serious internal complaint, and de-
ficient in the medical skill of the
physicians of that famous institution.

fortified by all the rites of the Roman
Catholic Church, he passed peacefully
and resignedly into the hands of his
Creator yesterday morning. The de-
ceased was a fine type of a Newfound-
lander, and always took the deepest
interest in the welfare of his native
land. He was of the old school, a man
of exceptional qualities of heart,
honest and conscientious, and a
staunch and pious Catholic. His quiet
unassuming manner, his readiness to
offer a helping hand to his country-
men who came into contact with him,
won for him innumerable friends in
the land of his adoption. He visited
his native city upon two or three oc-
casions since he left our shores—
principally during the Old
Week excursions, and always man-
ifested the greatest delight at the many
improvements which he witnessed
after his long absence abroad. The
deceased was the second youngest
son of the late Walter and Mary Dug-
gan, and descended from probably the
oldest families (born on the paternal
and maternal side) in St. John's West,
having been one of the first to erect
a residence, which stands to-day in
that portion of the district. There are
left to mourn a wife (nee Miss Kelly,
daughter of the late Mr. Michael
Kelly, South Side), two brothers, Wil-
liam, caretaker of the Museum, Thos.,
who lived with deceased in East Cam-
bridge, and one sister residing in the
old homestead, West End of this city.

to whom the Telegram extends sin-
cere sympathy in their sad bereave-
ment. Requiescat in pace.

Finger Reading More
Thrilling Than Sight.

LOUISVILLE (A.P.)—Laborious as
finger reading may appear, it pos-
sesses all the delights and charms that
sight reading gives, and perhaps it
has even an added thrill because
greater concentration is possible. In
the opinion of Miss Susan B. Merwin,
Secretary for the American Printing
House for the Blind, Miss Merwin is
actively engaged in the work at the
printing plant here, which is the lar-
gest establishment of its kind in the
world.

The embossed book, according to
Miss Merwin, is the cornerstone of the
education of the blind. "The books of
the American Printing House for the
Blind go to libraries throughout this
country, to the Philippines, Hawaii
and other distant parts of the world.
The federal government yearly
gives \$50,000 toward the upkeep of
the printing institution. In addition
to text books, the printing house
turns out the best in literature and
music, with a considerable supply of
current fiction.

Through the co-operation of the Am-
erican Bible Society and other orga-
nizations, the Bible is made available
to the blind in several kinds of em-
bossed print. The embossed books
are necessarily large and cum-
bersome.

tunity of enjoying the musical treat
that only hitherto has been heard in

The Diver's Reward.

Daily Telegraph: The romance of
the Laurentic's gold when it comes to
be told in detail will, we doubt not,
rival any of the stories of the sea in
which schoolboys revel. The diver's
fight with dogfish, the accidents that
befall him, the conveyance of the
gold to Chatham and thence to the
Bank of England, have the authentic
ring. But the diver remains the hero
of the tale. None will grudge him his
share of the findings—reduced by
one-half because he found and saved
so much. The right of the salvor to
his due regard for the rescue or pro-
tection of property at sea is a heri-
tage from Roman law. Indeed, the
very word "salvage" is, properly
speaking, descriptive of the reward
rather than of the service rendered.

Household Notes.

On a busy sewing day it would be a
distinct help not to have to stop to
thread needles. In a leisure moment
thread a number of needles on a spool
of thread without breaking it, and
fastening it in a notch.

An inexpensive and attractive cake
cover can be made with a tin or alu-

Our Milk Supply.

Police Court cases in which the defendant is a milk vendor are not often heard in St. John's. When such does happen, and the accused is found guilty of adulteration or supplying milk below the standard required by law, it attracts attention.

One dishonest milkman covering as he does a considerable section of the city in his round is a menace not only to his customers, but to those other vendors who take every precaution in the matter of cleanliness and who pride themselves upon the purity and the quality of their milk.

We have in the city a Child Welfare Association, a band of voluntary workers, who are trying in every way to improve the physique of our infant population, to assist those who are suffering from malnutrition and by their efforts they are succeeding in reducing the death rate among children.

However much good their efforts may achieve, a plentiful supply of pure wholesome milk can do more; further, their work of years can be undermined in a short time by an impure or adulterated substitution. The dishonest milkman is in the same category as the shopkeeper who sells his customer underweight, with this difference that his action affects for the most part defenceless children.

We are paying for milk at the rate of twenty cents a quart, a price which makes it prohibitive for the poor, and considerably reduces the consumption in the families who are in better circumstances.

In view of these circumstances, we call attention to the warning issued by the presiding Judge in the Magistrate's Court yesterday, and trust that it will have a salutary effect.

Much Ado About Nothing.

The Advocate asserts that the opinions of the Evening Telegram count for nothing. Nothing therefore was the cause of its wrath and violent language on Monday. Nothing prompted it to cover half of its Editorial page yesterday. In fact it wholly disproves the theory that out of nothing, nothing comes.

Dr. Hanson's Visit to the City.

Last night at the Presbyterian Hall the first of a series of services was held in preparation for Dr. Hanson's visit. The minister took as his study "Revelation in the Bible, their nature and manifestation." Special prayer was offered for Dr. Hanson, the people of the Kirk and community. Much interest has already been manifested in Dr. Hanson's visit which will increase as the days go by. October 14th will commence the week of special services, there will be teaching services each morning of the week and the evening services will be of a more general nature. We repeat there will be nothing denominational about these meetings to which all interested are invited.

Crepe de Chine Blouses, two for the price of one at Templeton's Clearance Sale.—Sept. 27.

Serious Shooting Accident.

As a result of a gunning accident which occurred shortly after 7 a.m. to-day, Mr. Archibald Wiseman, foreman at Bartlett's Tonsorial Parlor, had to have his left arm amputated. As far as can be learned Mr. Wiseman left his home Hayward Avenue at 7 a.m. to go shooting in a marsh near Horwood's Bridge. Proceeding along the old railway track he attempted to get through a barbed wire fence. In doing so the trigger of his gun caught in the wire, with the result that the weapon was discharged and the shot entered his left arm above the elbow, shattering the bone in three parts. His cries for assistance were heard by several people in the neighbourhood, including Mr. Frank Bugden of the Telegram and James Wiseman, of Aldershot. The former went to the police station and reported the matter whilst the latter rendered first aid. The injured man, suffering great pain, was taken in a box cart to Dr. Macpherson's, where he received further attention. The police in the meantime arrived on the scene in a motor car and had the patient removed to hospital. His many friends in the city will regret to learn of the accident to Mr. Wiseman, following so closely on his convalescence from an operation for appendicitis. This morning the hospital reported he was doing well after the operation but he was not out of danger.

Magistrate's Court.

A Danish sailor for vagrancy was remanded for eight days.

Two school boys of tender years were tried in the Juvenile Court charged with the larceny of five pkgs. cigarettes valued at \$1.00, the property of Wm. Dawe. The youths confessed their guilt and promised they would not offend again. Sentence in this case was suspended.

Seven fishermen residing at the Battery were summoned into court at the instance of Hon. G. Grimes, Minister of Marine and Fisheries for setting Bultows within 3 miles of the fishing grounds on 21st September, contrary to the Fishery Rules and Regulations. Judge Morris contended that the fishermen who made their own laws in connection with the above regulations, should have been first warned by the Inspector of Fisheries to keep the Bultows out of the water. The date set for Bultows does not come into effect until Oct. 1st, and it is up to the fishermen to change the date if they so desire. In this case they broke their own laws but the rights of the poor class of fishermen must be protected. They were each fined \$1.00 and costs. Mr. Barron, B. L., appeared for the Marine and Fisheries, Mr. W. J. Higgins, K.C., for the defence.

Rosalind Arrives.

S.S. Rosalind, Capt. James, arrived in port at 1 p.m. after a speedy run of 42 hours from Halifax. The ship brought a full general cargo and the following passengers:—

From Halifax—Misses Dorothy Blake, Elizabeth Scott, Carrie Spangier, Louise McIntyre, Margaret Hall, May O'Mara, Minnie Knight; Messrs. Charles Kench, H. Spangie, J. Welch, C. Cole, S. Marchie, C. Dover. From New York—Misses Frances Ryan, C. Clarke, R. Fawcett, Margaret Doyle, E. McClure, Lillian Perfelt, Ruth Wenface, May Malone, Beatrice Lillie; Messrs. H. Houghteling, N. Warrell, R. Innes, and J. Malone, beside five round trippers.

Nfld. Highlanders Ladies' Association are having a Social afternoon in the Presbyterian Hall on Monday, October 1st, at 3.30 p.m. A very attractive musical programme has been arranged. Some nice work will be disposed of. Please come and bring a friend. Admission 30c. including tea.—Sept. 27, 28, 29, 30.

Bye Election Contest.

It is reported that in the coming bye elections, at least one seat will be contested by an Independent candidate. As far as can be learned the Opposition party in the House of Assembly will not be placing anyone in the field.

Moir's Chocolates at the Blue Puttee. We have just received a large shipment of Moir's in great variety. Step in on your way home to-night and get a box for your wife. She'll appreciate them just as much as she did before you married her.—Sept. 27.

Personal.

Miss Margaret Doyle was a passenger by the Rosalind from New York. Mr. R. E. Innes, who has been in Canada on business for his firm returned by the Rosalind to-day.

Board of Trade Favors Flour Mill Project.

After a debate lasting nearly one hour and a half and in which quite a number of speakers took part the Newfoundland Board of Trade at a meeting this forenoon expressed itself in favor of the proposed flour mill project. The Board of Trade in general meeting favors the project for mill proposition, it being understood that only duty on wheat and not sales tax was remitted. At the close of the resolution was added stating that it was the general opinion of the meeting that St. John's would provide the most suitable site. The proposition was made by Capt. A. Kean and seconded by Hon. W. J. Ellis. Mr. Palmer the promoter of the flour mill was present by request and answered to the satisfaction of everyone the many questions put to him. Regarding the employment he stated that the mill would employ 90 employees in the mill with 80 to 85 coopers, and 3 to 400 men in the woods annually. The packages he said would be made from spruce fir and birch regarding the feasibility of the project he thought that was a matter for the promoters. They were asking no subsidy from the Government and will pay the usual sales tax. They, however, required that the proposition be ratified by the Government. The site he stated had not been decided upon. The plans called for a half million bushel elevator and the full plant would cost \$650,000. Port Union he said was not considered for a site nor had the Hon. W. P. Coaker anything to do with the proposal. The principal speaker at the meeting, Capt. A. Kean, replied at considerable length to all the objections raised at yesterday's meeting, quoting from the report in the Telegram of yesterday's meeting he demolished the arguments put forward by the opponents of the project. He thought it ridiculous to assume that if the duty on the flour was lost to the Government that the people would not have the money to spend otherwise. The loss to the truckmen would not be anything and they would benefit by cheaper mill flour. If the mill were at Shoal Harbour its products would still have to be distributed in the city by the truckmen. Regarding light dues instead of a loss there would be a gain as the milling company was employing two ships to bring the wheat here. Regarding the number of men employed it was preposterous to argue that 65 men could run the mill and cut the lumber to be used in making packages, etc. As to the third grade flour which would be produced and which would have to be marketed abroad, he thought it was the only justification so far put forward for the establishment of a West India Service for with flour and feed to export, the prospect for the service looked good. Mr. J. R. Bennett took the position that the project by its far reaching effect on the country in general should be brought before the Legislature. Other speakers were Mr. G. R. Williams and Hon. Dr. Robinson. The latter expressed himself pleased with the frank manner in which Mr. Palmer answered all the questions put to him. The resolution passed was to be forwarded to the Executive Government this evening.

Fire on Rennie's Mill Road.

Shortly after 10 a.m., a still alarm brought the Central and East End Fire apparatus to the residence of Mr. E. Stanott, M.H.A., where the roof was in a blaze. The fire, which originated by sparks from a chimney, was put out by use of the chemical engine. The roof was considerably burned but no damage was done to the interior of the building.

Musical Marvel.

To-night at the No. 1 Citadel, Gower St., there will be a great musical treat given by Commandant and Mrs. Urquhart, who are clever musicians, and can bring music out of almost anything. Among the instruments he will play: Trombone, Trumpet, Sleigh Bells, Hand Bells, Wood Pipe, Musical Saw, Tomato Tin, Banjo, Guitar, Violin, and others.

What the Hesperian News says about them: "A great musical treat was provided at the Methodist Church recently, and it is doubtful if two cleverer musicians than Commandant and Mrs. Urquhart ever appeared in Hesperian. They are two stars. They played instruments of various kinds, and it seemed that they got music out of any article—ever a Saw and a Jam Tin. They gave very pleasing selections, and were obliged to respond to many encores, which were given without any hesitation."

Commandant Hard, who is leaving for Canada Saturday, will preside. This will be his last meeting. All are welcome.

A Specialist's Advice.

In matters of investment you should always seek the advice of one whose knowledge and experience qualify him to advise you. Your income from savings properly invested should be as large as is consistent with safety. I specialize in safe investments yielding from 7 per cent to 10 per cent. If you have funds invested at lower yield, it will pay you to consult me. RICHARD C. POWER, Investment Specialist, Bishop Building, St. John's.—Sept. 27.

TO-DAY'S MESSAGES.

JAPAN AGAIN VISITED BY SEVERE EARTHQUAKE.

TOKIO, Sept. 27. Another severe earthquake occurred in Japan Monday in Hiroshima district. The extent of the damage is not yet determined as communications are disrupted. Floods have followed a typhoon in the Fukagada and Honja, wards of Tokio. Many have suffered as thousands of refugees were encamped in rude shacks in the wards. The storm damaged rice and other crops in many prefectures.

EXPLOSION IN OIL PLANT HAS SERIOUS RESULTS.

BAYONNE, N.J., Sept. 27. One workman was killed and several badly injured in an explosion in an oil plant of Dodge and Olcott Linsed Oil Company yesterday. Six persons all badly burned were at Bayonne hospital and officials said their recovery is extremely uncertain.

GERMANY'S FOREIGN TROUBLES ARE NOT YET OVER.

BERLIN, Sept. 27. Germany's foreign troubles are just about to commence and the time to speak of "capitalism" has not exactly arrived for the fate of Ruhr is intimately interlocked with the impending resumption of the reparations problem. This is the gist of a candid statement by a Government leader to a private audience of Berlin editors. Our troubles are only beginning he continued, and we have yet to learn of the attitude towards our abandonment of passive resistance and whether the occupying Powers are really desirous of co-operating with us in the complex task of restoring order.

CONSTITUTIONAL RIGHTS IN GERMANY FIXED BY PRESIDENTIAL DECREE.

BERLIN, Sept. 27. A Presidential decree has been issued curtailing the number of constitutional rights in Germany and conferring executive power in the Minister of Defence. Among the rights restored are the freedom of the press and right of meeting.

REVOLUTION IN BULGARIA OVER.

SOFIA, Sept. 27. A semi-official statement says that the revolutionary movement in Bulgaria may be considered as approaching the end. The statement adds that the leaders are surrendering in parties saying they were involved in the movement.

C. L. B. Camp.

Brigade Headquarters were busier than ever Tuesday night, showing

own vitality in the departments. The Nfld. Regt. in this one year old and still going strong. Nine officers and 132 other ranks were on duty. Physical drill under Lieut. Job Taylor was underway with Lieut. Leslie Hooke training his recruits, Lieut. Hubert Hooke, his platoon of lads, and the eagle eye of Captain Stick, Adj., overseeing everybody else was doing his bit.

The training of all B. Sergeants in bayonet fighting and physical training commenced on Thursday night. Capt. Stick, Adj., will undertake it assisted by Lieut. Major John Andrews. All the Sergeants finish their course the Companies will be trained.

On Thursday night President Chafe and the Old Comrades will hold their Annual Meeting. He will read the Annual Report for the year and the Election of the Executive will take place. All Old Comrades will please therefore report at 8 p.m. on Thursday night in the Old Comrades Club. Let every man answer the roll. Lt. Col. Walter Rendell and Major Williams will also attend. Lieut. Major Johnson has done good work and completed a fine last year's illustration work in the Red Cross department. Capt. Burdell, M.D., in his department well organized, giving the lads a good sound educational course this season in First Aid.

The officers held a conference at 9 p.m. presided over by Lt. Col. Rendell. President Chafe of the Old Comrades and Sergeant Weaver of the N.C.O.'s Mess were present. The conference was mainly on financial connection with the budget system, representatives of each department reporting progress as to the status towards general Brigade expenses. Income from Band Concerts this year was very poor due to unfavourable weather, but everybody has full confidence in reaching their objective.

The regular meeting of the Officers' Mess was held on Thursday evening at 8 o'clock. All officers will please attend and report. Ptes. A. Dave and W. England have been granted permission to rejoin. The gymnasium will be opened up Mondays and Fridays from eight to ten fifteen. Lights out at 10.30 sharp. On Tuesday night the Brigade invites all non-members to use the gymnasium in order to assist in their training for the boxing tournament on November 14th when Nfld.'s young Jack Denny puts on the gloves against "Foxy Junior." The Brigade's expert management Committee have matters well in hand and this alone is a guarantee of success.

Will intending competitors start training at once—matches are nearly always won in the training period. The Brigade Executive have rented the Armoury building for the last week in November for the Annual Poultry Show. Messrs. Perlin and Fred E. Reid have been granted periods of leave. On October 2nd the squad of recruits now in training will be examined to be fitted for promotion to Companies. Recruits buck up, you have only a few days left before your exams, when if successful you will be permitted to have your kit and join the Company. Lieut. Harold Hayward, Acting Captain of A. Co., has been granted two weeks leave from October 2nd.

The Brigade will hold a nice complement a few days ago when a young chaplain who carries the work of the Brigade hands over a life insurance policy for the thousand dollars payable to the C.L.B. and the premium of the policy will be paid by him during the term of the policy. The donor prefers to remain unknown. We thank him for his appreciation of the Brigade's work in Newfoundland. God bless these encouraging "to the who are trailing upwards through the night."

Former Letter Carrier G.P.O. Paid \$200.00.

The postponed hearing of the charge of tampering with the mails, preferred against a young man Alway, a letter carrier of the G. P. O., was continued yesterday afternoon in the Magistrate's court, before Judge Morris. The accused who formerly entered a plea of "Not Guilty," thru his counsel, Mr. J. Higgins, K.C., withdrew the plea and entered a plea of "Guilty." By the sentence of the court was paid to the G. P. O. a sum of \$200.00. Mr. Higgins delivered a strong plea on behalf of his client, Judge Morris in summing up, spoke of the tampering with the mails, and the sentence of the court was paid to the G. P. O. a sum of \$200.00. The accused had been sentenced to a term of twelve months imprisonment was imposed.

The Unfriendly Arctic.

(Saturday Night.)

When the arctic Canadian explorer Vilhjalmur Stefansson invented his catchy phrase "The Friendly Arctic," he coined a good title to sell a book with but at the same time he promulgated a grotesque fallacy, that has wrought tragic mischief. Allen Crawford of Toronto and the other young lads who accompanied him on his last Wrangel adventure no doubt left civilization under the delusion that the Arctic was friendly. They paid the penalty of this mistake with their brave young lives. No one can read the tale unfolded by Harold Noyce who headed the relief expedition, so long delayed that it failed of its object by many months, without experiencing the deepest pain and anger at the tragic folly of the whole Stefansson enterprise. The whole literature of sea adventure contains no narrative more harrowing than Noyce's story. The episode of the Eskimo woman, Ada Blackjack, who for two months lived alone in this desolate waste, with the dead man Knight in a tent near by, awaiting death by starvation, appeals to the imagination. Equally appalling are the circumstances of Knight's death and those surrounding the end of Crawford and his companions wandering on the ice between Wrangel and the coast of Siberia, details of which will never be known.

Noyce without openly censuring anybody makes it clear that the lives of all these victims could probably have been saved had there been a clear plan or adequate preparations in connection with Stefansson's Wrangel expedition. The lads he took with him were for the most part services who went in a spirit of adventure and knew little or nothing of what they had to face. Elementary precautions against the prospect of starvation appear to have been overlooked. The neglect to provide a proper craft that could be used to hunt walrus in northern waters was a contributory cause of the ultimate tragedy. Again the lack of means and precautions to protect food supplies against marauding animals made the maintenance problem still more serious. It is quite possible that a party of experienced Arctic voyagers provided with sufficient ammunition might have been able to maintain life for an indefinite period on Wrangel, but Crawford and his companions were novices led away by a false lure and with little real knowledge of the problems with which they had to deal. Thus they perished while the author of the wild enterprise was far away talking nonsense about the supposed strategic importance of Wrangel. That adventurous lads of so fine a type as Crawford and his companions should needlessly perish, is something difficult to forgive.

The utter folly of Stefansson's project is apparent from the reply sent by the British Foreign Office to the Moscow Government's protest against the supposed seizure of Wrangel. The protest was of course made at a time

when it was not known that the members of the expedition were dead; and when Stefansson was in London talking of the importance of Wrangel as an aerial base from which to carry on war against Siberia. Lord Curzon makes it clear that Great Britain had no intention of disputing Russian sovereignty, and that the Stefansson expedition was a private and unauthorized affair. Noyce's narrative of course explodes the theory of the feasibility of Wrangel as a base for aerial warfare; but if it could be used for that purpose, what advantage could Britain reap from bombing Kamchatka? What gain would it be to the Empire to annex the desolate wastes of North East Siberia? It is to be noted that the parochial London Morning Post which loses no opportunity to harpoon Canada but is strong for sticking up the British flag in places where it can only serve to annoy other nations, tries to throw the blame for the Wrangel tragedy on the Canadian Government. Why should the Canadian Government have set the seal of its approval on a piece of folly primarily to advertise Stefansson's business as a platform lecturer? This country has no plans of annexation, and needs no strategic bases from which to make war on other nations. Canada's fault if any was in allowing Stefansson to embark at all. And in indulging in some jingoistic boasting about it afterward.

THE ARCTIC'S TRAGIC PAST.

The bright spot in the Wrangel expedition, apart from the heroism of the victims is the fact that there is no evidence of corruption or dishonesty in connection with the provisioning of the expedition. That has not always been true of Arctic exploration. The death of Crawford naturally recalls the fate of the Sir John Franklin expedition, which left England in 1845 on two ships the Erebus and Terror to discover the North West Passage. That tragedy was on a much greater scale, since it involved the loss not only of the ships but of over one hundred officers and men. Investigations showed that Franklin actually had discovered the North West passage, before his death in June, 1847, but the channel was not actually navigated until 1905 when it was accomplished by Roald Amundsen. The splendor of Amundsen's later achievements at the South Pole have dwarfed this earlier and perhaps more important exploit. Readers of Franklin's story will recall that for nearly fifteen years after his departure, Lady Franklin spent a large fortune in sending out expeditions to ascertain the details of her husband's achievement and the circumstances of his death. These expeditions were in course of time fruitful not only in attaining their main objective but in adding immensely to the world's knowledge of Arctic geography.

The elder generation of Canadians will remember a retired naval officer, Commander Cheyne, who spent his declining years in Toronto and who had as a younger man participated in one or two of Lady Franklin's expeditions. Commander Cheyne used to assert that evidence was found of ship chandlery on the part of the Erebus and Terror. They supposed to contain canned mutton and other victuals, were discovered which had been opened by the starving voyagers and found to contain sand and gravel. The writer of these words has often heard Commander Cheyne's voice tremble with indignation at the recollection of this crime, which, if it did not cause, certainly hastened the deaths of Franklin and his men. No reference to this sinister phase occurs in the many accounts of Franklin which occur in reference books; and it is very probable that the British Admiralty was by no means anxious that so foul a blot on the record of the British ship contractors of 30 years ago, should be published to the world.

Fifty Million Acres Stocked With Baby Forests.

(By Dr. Clifton D. Howe, Dean, Faculty of Forestry, University of Toronto.)

Canada possesses at least 50,000,000 acres of old burned forest areas that are reproducing the commercial softwood species entirely by natural methods in sufficient quantity to assure a future timber crop. These areas should be segregated by the various Provinces and be given intensive fire protection and eventually managed under agricultural methods. They could be created into forest reserves and they would be reserves indeed. Here we have over 50,000,000 acres as a free gift of nature well stocked with young trees only awaiting adequate fire protection and intelligent guidance by the mind of man to supply for all time not only the wood using needs of Canada, but those of the whole Empire as well. The challenge is to Canadian business sagacity, to Canadian citizenship and above all to Imperial patriotism.

In British Columbia some 60,000,000 acres have been burned and are now covered with young growth of some kind. It is safe to say that one-half the area is covered with second growth

PRESIDENT COOLIDGE

Calvin Coolidge, President!
Was it written in the stars?
Did God whisper His intent
To the dreamy lad who leant
On the weathered pasture bars?
Did the little boy in school
Know that some day he should rule?
Did the gentle mother know
Something others never knew
In that happy long ago,
Him she loved and cherished so
"Had a mighty work to do?"
Did God ever let her see
Little Calvin's destiny?

Did God whisper: "Train him well,
Teach him to be strong and true,
For some day a tolling bell
To a sorrowing land shall tell
"Why this son was sent to you?"
Did God tell her ere she went
She had borne a President?

Calvin Coolidge, President!
Once a lad behind a plough,
Whistling gaily as he went,
With his humble place content,
And a mighty ruler now,
Surely 'tis God's hand we see
In a great man's destiny.

Future of the "Times."

HISTORICAL TRADITIONS TO REMAIN UNCHANGED.

The "Empire Review" publishes an article by Major J. J. Astor, M.P., the chief proprietor of the "Times," in which he states that arrangements are being made so that in future no person shall hereafter acquire an interest in the controlling shares of the paper unless with the approval of a body of trustees, to be chosen from among the occupants of certain exalted positions in the community. In this way there will be substantial security that the historical traditions of the "Times" will not be changed unless for weighty and high principle reasons. Major Astor adds that, generally speaking, the "Times" will support the Government of the day.

Would Exclude Aliens.

Senator George S. Lynch-Staunton, K.C., Hamilton, Ont., in the course of a letter to the London Morning Post recently dwelt on the bad condition of trade in Great Britain and says unless England can open markets for her people which she can monopolize, conditions must grow worse instead of better.

"Where are those markets in the Dominions?" Senator Staunton asks. "Of course Canada is the best customer the United States has, Canada has been coaxing England to take that trade for 30 years, but England has refused to have it. She pretends to be a free trade country, but she will not and cannot be a free trade country any longer."

"If she will give us Canadianas, as we have given her, a preference over foreign nations we will sell more to England and if there is anything in the teachings of free traders, England will sell more to us. With a mutual preference both countries will shut out the foreigner from our markets as they have shut us out. The Dominions will grow and England's markets will expand."

Senator Staunton adds that an enormous trade is to be had by adjusting the British tariff, so as to foster trade with the Dominions.

By mutual agreement it was agreed that the game would consist of two twenty minute periods instead of the accustomed thirty. Mr. Ern Church-ill was referee, and though games were exceedingly fast, everything went as smooth as a "flat." Both the Saints and Guards gave a splendid exhibition and it would undoubtedly have ended scorelessly had not Clouston been fouled inside the penalty area just four minutes before full time; and Charlie Quick's unerring shot found the platoon enmeshed in the Saints' twines. The great applause from the Guards' supporters. In the all too brief remaining moments the Saints made a wonderful rally in an effort to equalize, but the ref's whistle ended their hopes and aspirations—at least for this year. Three more games end the 1923 Football season, viz:

Seniors—Guards and Cadets.
Juniors—Wesley vs. Cadets; Holy Cross vs. winners of first game.

ANSWERS.

"Two Spot"—The world's amateur record for the three-quarter mile is 3 mins. 24secs. by T. P. Conneff, which the little Irishman accomplished at Travers Island, New York, in 1895. This is perhaps the greatest of all amateur records and it will take a lot of beating.

"A Winner"—We understand the prizes won at the Scouts Sports are being imported from England and are due shortly, when they will be immediately presented.

"Interested"—Yes, Mr. Jack Tobin, the well known athlete, has undertaken to train the two Lineagar boys. We also heard that the older brother is a better runner, but this remains to be proven. Your closing paragraph does not come within the province of "Sportographs" so you don't mind our not publishing it, do you?

INJURY WILL NOT KEEP ZEV OUT OF PAPYRUS RACE.

New York, (Special).—Sam Hildreth, Hancocks stable trainer, at Belmont park recently refuted published reports that the American 3 year old champion Zev had broken down as the result of his win of the Realization Stakes last Saturday.

It developed that his laborious home coming during the final quarter mile of that classic was the result of Zev's casting the frog off his left forefoot. Hildreth stated that the colt is all right and would be ready to fill the bill if selected to run in the international match race against Papyrus at Belmont park on Oct. 20. Hildreth stated that he would protect the colt against further foot injury by means of an aluminum plate, which will

make it possible for him to go on training. On Sunday Zev favored the foot to no uncertain degree, but Hildreth, who is conceded to be one of the best men in America in the treatment of foot troubles of thoroughbreds, quickly remedied it.

HOOPER WILL PROBABLY QUIT.

DULUTH, Minn.—Walter M. Hoover who lost the diamond skulls at the Henley regatta on the Thames this summer and the Philadelphia gold challenge cup, emblematic of the world's sculling championships, here recently, is planning to forsake rowing, he said here to-day. Hoover asserted that he had a sore arm, had done little training and was 15 pounds overweight when Gilmore, of Philadelphia, beat him by four lengths here Monday.

"I have no definite plans for my future in the rowing world," said Mr. Hoover. "In my present frame of mind, I am through. One thing is certain, I will never row under the colors of the Duluth Boat Club so long as certain members of the directorate of that club are in power. I received some very shabby treatment from several of them."

LADY'S CHALLENGE TO VARDON.

When the Prince of Wales went golfing at Le Touquet, he played with Harry Vardon, who is one of the humorists in professional golf, and no doubt he would do much to enliven the round. Harry Vardon laid out the course, and he goes there every spring on a sort of business holiday. During one visit he received a "remarkable" challenge. A lady to whom he had been giving a stroke a hole offered to play him level; if he would use only one club of her choice.

Vardon agreed, and possibly he expected that she would select his putter. That would not have troubled him. To his amazement, however, she handed him a light niblick from her own bag. He was completely taken aback, but at once thought he had made a very bad match. But there was no drawing back, and—well, he went round in under eighty, and won by a handful of holes. But fancy doing Le Touquet in under eighty with a niblick!

ENGLAND'S HOPES.

(By OLYMPIAN.)
 The search through England for a heavy-weight boxer who might become champion of the world, which was instigated by British sportsmen in America and conducted by Mr. Tex O'Rourke, resulted, as that gentleman announced at a luncheon the other day, in the finding of five possible hopes.

These are: Henry A. Walker Macran, a Bristol policeman; Isaac Ingelton, an employee of a Liverpool sugar factory; Basil Price, another Bristol man; William Maurice Prestage, a Birmingham product; and fifthly, and lastly, a burly London policeman whose name had not been divulged at the time of writing this article.

Macran stands 6 ft. 3 ins. in height, weighs 154.7 ins., and is twenty-two years of age. He is described as being tremendously aggressive, the fiercest natural fighter one has ever seen.

The Malvern Camp.

Isaac Ingelton was discovered loading bags of sugar, each weighing 200 lb., on to a dray. He has done some boxing, but decided that he would do no more until he had been taught.

Basil Price is the son of the proprietor of the Spa Hotel, Clifton; stands 6 ft. 2½ ins. high, and weighs 15 st. 10 lb.

William Prestage is 6 ft. 3 ins. in height, weighs 14 st., and has a reach of 80 ins.

The London policeman is the son of an architect, is twenty-one years of age, stands 6 ft. 3 ins., and is declared to be a model of an athlete. These five men, who are about to go into a training-camp at Malvern, are to be trained according to American methods, and are to be ready to fight in six months' time.

So much for the men and the money. But the question which forces itself upon my mind is this: Can one find a heavy-weight boxing champion in this way?

I very seriously doubt it. Either a man has the fighting instinct and the force of character and control, in a Ring sense, that go to the making of a boxing champion, or he has not. It might be possible to impart it with suitable instruction, and the right kind of training, but—well, I must confess myself a pessimist where this particular campaign is concerned.

Size Not Everything. Height, weight, and strength are desirable qualities, of course, in the making of a heavyweight champion, but they are not everything. America has produced quite a crop of very big men in the heavyweight division, some of them more than useful; but Jack Dempsey, the holder of the title, is well under the weight of Jess Willard, Carl Morris, and Luis Firpo, for example, and he has a very convincing record.

Pittsblmmons was little more than a middleweight. Charlie Mitchell, ditto. The names of other famous boxers who laid low many a giant will come readily to mind. But most of them took to fighting or boxing by freedom of choice. Nobody went out to search for them.
