NOTES AND NEWS OF LAWRENCETOWN

Gypsy Lass Gets Surprise.—Citizen Has Adventure With Odorous Wild Beast.—Personal and Social Items.

Lawrencetown.—Mr. E. Jefferson is a guest at the home of his father, Mr. S. Jefferson.

Mrs. W. L. Wallace is in town, came to meet her brother, Dr. G. Morse, of Vancouver.

Mrs. Mary Durling has been spending some time with her daughter, Mrs. R. Leonard, of Paradise.

Mr. and Mrs. C. Pakrey are the guests of Mrs. Walter Palfrey.

Mrs. D. M. Balcum, all will be glad to hear is better.

Mrs. Prince and Mrs. Wheelock are expected home from Boston, at an early date.

Mr. M. R. McDonald, and Miss L. Whitman were married in the Anglican Church on Tuesday morning. Mr. and Mrs. McDonald went to Halifax, where they will reside in future.

Quite a number of Lawrencetown ladies attended the lectures on Art, Fashions and how to look lovely. These lectures were much enjoyed.

Quite a party of friends visited Mrs. C. F. A. Patterson for the week end.

Miss Jessie Phinney and Miss F. Archibald are attending college.

Mr. Lindsey Graves was in town on Tuesday.

The new school house is a noble looking building. It stands on higher ground and can be seen for a long distance. A good land mark.

Our town was visited by Gypsies one day last week. Mothers looked after their children, merchants after the money bag, timid people locked the doors.

"A Gypsy lass" rushed into a store thrust her hand into the pocket of a big, strong, store keeper, but in that particular pocket was only a knife, in the other pocket twenty dollars rested safely. The lady was firmly clasped by a strong hand, and was as the boys say "run out" loudly screaming, at the somewhat unusual treatment.

Another of our well known citizens had an adventure with a wild beast. As our friend was going on his way in a fine car, at a lonely part of the way, the animal came out went along for a short distance, then got in front of the car. He dared not go over it, or near it, for the small creature could take a terrible revenge. By skillful management the danger was avoided, and the car and driver got home. Only the cool, sweet air of a September day was perceptible.

Anglican Ladies Guild met at the home of Mrs. W. Bent.

Ladies Aid, United Church, held two meetings in the vestry last week. Woman's Institute met at the home of Mrs. H. Daniels, Bridge Street.

W. F. M. S. of the United Church will meet on Wednesday, at the home of Mrs. L. Durling.

Mrs. McKay and daughter, left on Friday, for New Waterford, C. B.

Mrs. P. Whitman, mother of Rev. A. H. Whitman, had a bad fall, though painfully bruised, no bones were broken, and the venerable lady will soon recover.

Mrs. Clowery, Mrs. Warwick and Miss Blackadder, went to Bridgetown on Friday. A call was made upon Rev. P. and Mrs. Coldwell. Mr. Coldwell has been an invalid for years, tenderly nursed by his faithful wife.

Rev. A. H. and Mrs. Whitman, also called upon Mr. Coldwell, an old college friend, who spent a year as the minister of the parish where Mrs. Whitman had her home.

Friends met in the vestry of the Baptist Church, where Mr. W. McKee was the guest of honor. Deacon McKee had held that position.

OBITUARY
Mrs. Williams
There passed away after a short illness, Friday, October 2nd, Mrs. Williams, of New York, at the home of Mr. and Mrs. Avard Burrill, Deep Brook, where she had been a guest for the summer.

An impressive funeral service was held on Tuesday afternoon, October 6th, conducted by Rev. Frank Smith, pastor of the Deep Brook Baptist Church. A large number of neighbours and friends met to pay their tribute of respect to one who was almost a stranger. The floral offerings were many and beautiful. The underbearers were Robert Curtis, R. V. Dittmar, Augustus Purdy and C. V. Henshaw. Interment took place at Clementsport.

UPPER GRANVILLE
Mrs. George Wheeler, a number of years a resident here and in town, is leaving for Boston in November, for permanent residence with her husband, who precedes her a few months ago. Many friends here and elsewhere wish them success in their adopted home.

A number of our Granville young people are now employed in different parts of Uncle Sam's domain, which is regrettable. We need them here and hope many will be lured back in the near future.

Miss Helen Beeler is a student in town, resuming Grade "A" work.

Mrs. I. F. Longley recently appointed President of St. John Red Cross Society, made a brief visit with relatives here this week, returning to her home in that city on Saturday.

Road repairing is about at an end for this season.

Autumn tints have been varied and beautiful, as ever the Valley attracts all lovers of nature, "now frosts and shortening days portend. The aged year is near its end.

DEEP BROOK
Miss Jennie Marsters spent a few days last week in Bear River, the guest of her daughter, Miss Neva Marsters.

APPO-KRISPS TO MIDDLETON

New Industry Seeks Place of Manufacture—Freight Rate Differential Puts Bridgetown out of Running—New Plant Will Employ About 50 Persons—Opens About First of Year

At a meeting of the Directors of Appo-Krisp held on Monday afternoon at Kentville, it was definitely decided to select Middleton as the most suitable town in which to commence the manufacture of the new breakfast food. Each town from Windsor west as far as Annapolis has been using every effort to induce the Company to locate in their particular locality and in a general way setting off one advantage or disadvantage against another, there has not been a very great deal possessed by one over another.

All the town affected have naturally been very anxious to secure a new industry, and they all need not one, but several. Middleton, we understand, offered power at 1 cent per K. W. H., but this, which much lower than a private company would extend was not, we are informed, the real deciding factor in the case. It was one of railway rates. For some little time back it has been unofficially reported that the choice of site lay between Middleton and Bridgetown. Both have two lines of railway, the D. A. R. and the C. N. R., and Bridgetown had further the advantage of water communication. So far as the C. N. R. is concerned, Middleton has a daily train, while the train operating on this end of the line runs but once a week.

The crux of the situation, however, was in freight rates. Middleton having the advantage of 3 1/2 cents per hundred pounds. This differential, it is stated, settled the matter. Middleton is to be congratulated upon making a successful bid for the new plant, but it is now plainly up to Bridgetown to enquire fully through its Board of Trade as to why a differential of 3 1/2 cents should exist. An adjustment of this question will no doubt later have an important influence on the securing of industries here and it is well worth looking into. In connection with Appo Krisps, while other town may feel somewhat disappointed not to secure this industry, it is still pleasing that the Annapolis Valley will be the scene of operations and while the point of manufacture will benefit most particularly, still with the industry developed to the extent proposed ultimately the influence of its operations will be felt all through the apple belt.

A splendid case was put up for Bridgetown by Mayor Hicks, when directors of the Company met representatives from the various Valley towns.

About the time we go to press representatives of the Appo Krisp Company, are visiting the various sites offered in Middleton and will make definite selection. It is expected that ground will be broken within the next ten days on construction of the new plant. The building will be 100x150 and two stories in height, and will probably be built of interlocking tile. Once the contract is let construction will be carried on as rapidly as possible and it is expected to have the plant in operation by the first of the year. Employment will be given to 50 persons and, manufacturing will be carried on the year around.

Those research folks might try to find a way to make baldness attack the chin instead of the head.

OFFICERS OF BRIDGETOWN FLORAL CLUB ELECTED FOR YEAR
On Tuesday evening last a meeting of the Bridgetown Floral Club was held at the home of Mrs. F. M. Graves. Plans were discussed for a "bigger and better" Flower Show for next year and the following officers were elected:

EXERCISES AT PARADISE SCHOOL

Fire Prevention Week Suitably Commemorated.—Mr. Down Addressed Institute.—Social and Personal Items.

The church committees are making preparations for a social evening in the vestry on Hallow-e'en, A real attractive and amusing programme is being provided. A "jolly time" for us all to look forward to.

Mrs. Rupert Chesley has arrived home from Middleton, where she has been visiting friends.

On Friday evening the boys of Mr. Fred Balcum's class and those of Mr. Charles Longley's class, met for a social evening at the home of Mr. and Mrs. J. S. Longley. Games and music were heartily enjoyed, as were also the dimly refreshments served. Mr. Balcum presented prizes to his class for best attendance at Sunday school. Donald Gillis winning first and Malcolm Corbett and Eugene Longley tied for second.

J. P. Mitchell of Sterling, Mass., who has been a guest at the "Paradise Inn" during the summer months, has returned home.

J. C. Wilkinson, of O'Leary, P. E. I., was the guest of his niece, Mrs. Joseph Longley, last week.

Miss Leola Banks visited friends in Hillerov recently.

R. R. Layte left for New York on Friday. He has been the guest of his parents, Mr. and Mrs. H. P. Layte for the past two weeks.

On Friday afternoon the Junior Crusaders Club of Paradise school provided an hour's interesting programme on "Fire Prevention" and invited the primary classes to join them in their exercises. After the business meeting of the Club the following numbers were given:
Song—O Canada, School.
Talk—Fire, and its origin, history and importance, Edgar Bent.

WE LIVE AND LEARN

Philadelphia Leaders: If Great Britain is losing control, as certain developments seem to indicate, the directive force in British imperial policy is undoubtedly shifting to Canada—not the Canada of today, but the Canada of the future. For it is not a matter for reasonable doubt that Canada even today is seriously competing with the Mother Country for control and direction in British foreign affairs.

BRITAIN AND YUGO-SLAVIA

Belgrade "Zeitung": If Great Britain does not always see eye to eye with Yugo-Slavia in political matters—and that may largely be the fault of Yugo-Slavia—the British show a keen economic interest in the country, which is worthy of response. The conclusion of a new treaty ought to dispel much of the prevailing mistrust in Great Britain against Yugo-Slavia. In any case, economic circles in Yugo-Slavia await with the greatest interest the conclusion of a commercial treaty which would draw the two countries more closely together.

BRITISH SETTLERS STILL BEST

Sidney Bulletin: A great deal is to be said in a general way for the idea of settling 500,000 British settlers; and though there is a reason to believe that the British community is not all it was before the industrial downfall and the establishment of the debt system, there is no reason why, under sane conditions, the descendants of the immigrants that are available should not prove valuable English-speaking citizens, and infinitely superior to the progeny of the Mediterranean races who are ready to throw themselves on our shores in unlimited numbers, at their own or their Governments' expense.

ORDEAL BY PORRIDGE

London Observer: Till the modern age porridge had the reputation of being a wholesome food, but today Harley Street looks upon it askance. It is true that Scotland is a great nation, and that Scotsmen eat (or did eat) porridge, but that argument is waved aside by Dr. Woods-Fitch, first in true Johnonian style. "The secret," he says, "of their wonderful success, both mental and physical, lies in the fact that any nation trained to survive a diet of oatmeal and the shorter catechism could survive anything and flourish anywhere." Recently Scotland is said to have abandoned porridge in favor of white bread and tea, with the result of rickets and consumption; which looks as if the new diet agreed neither with its body nor its soul.

SEE THE MARITIMES

(St. John Globe.) "Boost the Maritimes," has been the slogan for years past. To sell his goods a salesman must know and believe in his line; must have an honest enthusiasm which he can impart to others. Maritime people do not know as they should the realizable gifts of nature in the province, which win the warm approbation of seasoned travellers in the richness of their farming lands, forests, and mines. English journalists recently expressed their surprise at the ex-

65,000 GIRLS DISAPPEAR EVERY YEAR IN THE STATES

Sixty-five thousand girls disappeared in the United States last year without leaving a trace. The great majority were lured to the big cities from small towns and farms. They have dropped from sight and their fate is an unsolved mystery. This story was brought to the National Congress of Mothers, Parents and Teachers' Associations convention at Washington, with a plea for the creation of a central bureau to help find missing girls. Plans are being made to ask the convention to launch a vigorous campaign against "loose morals." Mrs. Waul Moran and Mrs. Wm. Ullmann of the Missouri State organization, are prepared to introduce resolutions demanding the abolition of dancing, the knee-length dress; diaphanous attire; rouged, suggestive dances; objectionable movies.

FAILURES IN CANADA FEWER

Marked Improvements in Conditions During the Present Year.

OTTAWA—Commercial failures in Canada in June this year showed a continuance of the tendency evident in the previous months of the present year.

Both the number of assignments under the bankruptcy and winding up acts, and the extent of the liabilities being considered under May of this year and also less than those in June last year. Assignments in the Dominion during June numbered 145, as compared with 160 in May this year and with 162 in June last year. The liabilities of the assignors in June this year totalled \$2,648,954 as against \$3,275,485 in May and \$5,977,492 in June last year.

By provinces the business failures in June this year, the estimated grand total of assets and the estimate as follows respectively:

Nova Scotia three failures with assets of \$3,275 and liabilities of \$11,190; New Brunswick six with \$16,230 and \$29,588; Quebec 42 with \$640,778 and \$659,234; Ontario 67 with \$1,956,635 and \$1,669,775; Manitoba seven with \$32,235 and \$35,639; Saskatchewan five with \$19,643 and \$26,351; Alberta six with \$16,241 and \$28,254; British Columbia eight with \$223,524 and \$198,887.

PROHIBITION FOR GREAT BRITAIN

Vigorous Campaign to Be Opened October 19th.

London—The biggest prohibition campaign yet attempted in Great Britain is about to be launched after many months of secret preparation. The Daily Mail says the organizers of the movement will not begin by advocating outright prohibition but local option. The keynote of the campaign will be an appeal to the women of the country. The movement will be inaugurated in Manchester, October 19, and meetings will be held afterward in other large cities. The speakers will include Mrs. David Lloyd George, wife of the former premier; Philip Snowden, former Chancellor of the Exchequer; Lady Donald MacLean, and Sir George Hunter.

MRS. B. H. HART SICK FOR YEARS

Wants Women to Know How She Was Made Well by Lydia E. Pinkham's Vegetable Compound

Cornwall, Ontario.—"I am now giving your medicine a fair trial and it surely is doing me good and I am going to keep on taking it. I used to feel so tired in the morning that I didn't want to get up, but that feeling is leaving me now. I also sleep better and feel more like working. For seven or eight years I have had headaches, tired feelings, pains in my back and across my body. I read letters in the newspapers saying what good Lydia E. Pinkham's Vegetable Compound had done others. My husband says I quit too soon, but I am not going to stop taking the Vegetable Compound and Lydia E. Pinkham's Blood Medicine until I am better and haven't an ache or a pain. Isn't that the right way? I have great faith in your medicines. They must be good when those who take them speak so highly of them. I am recommending them to my friends and I will gladly answer letters from women asking about them."—Mrs. B. H. HART, Box 1081, Cornwall, Ontario.

Here and There

It is understood a Scottish syndicate has purchased sixteen acres of land adjoining the best residential section of Vancouver, B.C., and will erect one hundred residences there.

Although only three years old the Oliver district of British Columbia has already become noted for its production of very fine cantaloupes. This year the production is expected to be about 25 to 26 carloads.

The 1,250,000-bushel Government Terminal grain elevator being built at Prince Rupert, B.C., will be completed by November 1st, when a test shipment of ten carloads of grain will be made through it.

Notification has been received by the Hon. John S. Martin, Minister of Agriculture for Ontario, that his showing of white Wyandottes at the New York State Fair at Syracuse, had captured the trophy for the best display for the twentieth consecutive year.

By a recent Order-in-Council of the Lieutenant-Governor, premiums for clearing land, which had previously been set at \$6 an acre, were increased to \$8. The Order also provides that the premium will be paid for a maximum of twenty acres of land and, as a result of it, a settler may obtain a grant of \$160 from the Government as a reward for his work.

Considerable progress has been made during the past few years by R. M. Palmer, at Cowichan Bay, B.C., in the cultivation and propagation of new species of gladioli. In his garden, Mr. Palmer has at present growing about 150 different varieties, bulbs having been secured from all parts of the world, even Central Africa contributing its quota to this wonderful collection.

Having completed their tour of Canada as the guests of E. W. Beatty, chairman and president of the Canadian Pacific Railway, the ten British journalists left Canada early in October for England, to relate the story of their experiences and to give their readers the impressions they have gained of the Dominion.

During the month of August 1,132 vessels, comprising 131 trans-Atlantic, 35 coasting and 966 inland steamers, entered the port of Montreal, these having a total net registered tonnage of 1,936,945, while in the same period 1,141 vessels went out, these representing 1,932,145 net registered tons. Since the opening of navigation 757 ocean-going vessels, representing 3,468,965 net tons, have entered the port, as compared with only 649, representing 2,280,072 net tons last year; these figures being up to the midnight of September 5th.

F. F. Norcross, a well-known Chicago lawyer, had an amazing experience recently while staying at the Banff Springs Hotel and playing on the golf course there. His approach to the ninth hole was disrupted by a huge bull elk which tossed its antlers and stood pawing the ground with evident hostility as the lawyer prepared to play his ball. Mr. Norcross was about to observe the better part of valor when the bull's attention was distracted by the appearance of a cow elk which made an effective substitute for the golfer and both animals disappeared into the neighboring bush.

Travelling in a five-passenger 1925 improved model Ford touring car from Halifax to Vancouver, J. L. S. Scrymgeour and E. Pickering are performing a feat unique in the annals of motor travel in this country. From Franz, near Sault Ste. Marie, they travelled on the tracks of the Algoma Railroad to Fort William, having been granted the use of the lines by the Canadian Pacific Railway. The whole run of about 4,500 miles took nearly eight weeks, and a series of still and moving pictures were taken en route to commemorate the adventure.

BRUNN SHOWED FIGHT

Yarmouth.—The woods are apparently full of bears. An exciting incident has occurred in the moose hunting trip of Fred Phillips and Charles Poole, of Yarmouth, when they encountered a bear on the shore of Mill Lake. The angered animal showed fight and started for the two hunters but was shot. The skin of the bear is one of the finest seen in a long time.

WEDDING

MacDonald - Whitman

Lawrenceville.—Rev. Robert Miller was the officiating clergyman at a very pretty wedding in St. Andrew's Church at eight thirty o'clock Wednesday morning, when Lillian Rebec, youngest daughter of the late J. B. and Mrs. Whitman, Paradise, became the bride of Malcolm Ronald MacDonald, son of Mr. and Mrs. Alfred MacDonald, Halifax.

The bride, who was unattended, was given in marriage by her mother and looked charming in an ensemble suit of chateau green with black velvet picture hat, carrying a bouquet of pink and white carnations.

Immediately after the ceremony the wedding party repaired to the home of the bride's mother, where a dainty wedding breakfast was served, after which the bride and groom left for a tour through the Annapolis Valley and South Shore, returning to Halifax, where they will make their home.

Among the out-of-town guests at the wedding were Mrs. Alfred MacDonald, B. MacDonald, Mrs. Publisher, Miss Minnie MacDonald and Mrs. and Miss Herman, all of Halifax.

The bride, who has a wide circle of friends in Halifax, was for several years on the teaching staff of Bloomfield School. The groom is in the engineering service of the Canadian army. They were the recipients of a choice collection of gifts attesting to the great popularity in which they are held by their numerous friends and acquaintances.

Helps Children Grow SCOTT'S EMULSION

RICH IN COD-LIVER OIL AND HEALTH-GIVING VITAMINS

TO REDUCE COST OF TRANSPORTATION

An innovation designed to reduce the cost of railway transportation to extraordinary cheapness was tried out recently on the Canadian National Railways between Montreal and Ottawa. It consists of an oil-electric train of one split-coach operated by a Diesel engine, the whole built up by the mechanical staff of the Canadian National road, under the supervision of C. E. Brooks, superintendent of motive power of the National Railways.

Mr. Brooks explained that the new coach, which easily traversed the route in scheduled time, and could have bettered it, if schedules permitted, has been built after close observation of similar coaches built in Sweden. The advice of the "best brains of Great Britain and the United States" had been taken, and the result was that the weight of the engine in Canadian experiment had been reduced to one-third, thereby removing one of the principal objections to this type of engine.

PACIFIC ROUTE IS GAINING OVER SUEZ

Canada Benefits By Diversion of Traffic Across Dominion to Orient.

Judging from the large amount of travel to the Orient from Europe via Canada this year, it is shown that the trend is steadily away from the Suez route in preference to the North American, according to Canadian Pacific officials, who have made a study of the Pacific route is gaining at a rate close to twenty-five per cent each year, they declared, and this gain has been so apparent for some years past that it justified the addition of two modern liners, the Empress of Canada and the Empress of Australia, to the Pacific fleet of the company, whose services have been regularly maintained throughout the succeeding years.

There was a time, and not too far back either, when every European booked for the Orient selected the eastern route in preference to the western. Now, word comes from the company's European headquarters, there is a feeling in England and all over the Continent, that there is something worth while seeing on the trans-continental trip through Canada.

The Pacific ocean service instituted by the company in 1877 with three small ships, is at present maintained by four luxurious Empresses, the Canada, Australia, Russia and Asia. They hold all records between the Orient and this continent and are recognized as the largest, finest and fastest steamships on the Pacific. They operate between Victoria and Vancouver, in Canada, Yokohama, Nagasaki and Kobe, in Japan, and Shanghai and Hong Kong, in China; sailings from their terminal ports, Vancouver and Hong Kong, occur fortnightly.

The schedules of Pacific and Atlantic sailings of the Canadian Pacific are so arranged that a passenger on landing at Montreal or Vancouver, say, can take the trans-Canada train that night and arrive at Vancouver or Montreal within a day or so of the departure of a liner from those ports. Thus the minimum time is lost and the whole journey can be made comfortably in a little over three weeks.

The development of this world highway means the diversion of an immense amount of important traffic to the Dominion, from which much benefit will accrue.—Montreal Gazette

TOO MANY MILES THE BIG PROBLEM

SIR HENRY TELLS WHY C. N. R. DOES NOT PAY
Says Revenue Would Not be One Dollar Greater if Ownership Changed.

Montreal.—If the Canadian National Railways could be transferred from public to private ownership, it would not earn one more dollar than it does today, said Sir Henry Thornton, President in an address here Monday.

"The fact that it is a state owned institution is not the trouble at all," declared Sir Henry. "The whole difficulty is due to the fact that a decade, or so ago, in an outburst of enthusiasm and perhaps undue optimism, several thousand more miles of railways were built in this country than there was any immediate necessity for. You cannot build railways in a new country and expect them to pay at once."

Sir Henry said he was convinced that too much mileage and too fast construction were responsible for Canadian National Railways troubles. He thought that more population would be a great help in settling the C. N. R. on its feet.

The speakers saw a great and prosperous future for the Dominion and he described as "nonsensical" the stories in circulation about National disaster being just around the corner.

SIR ANDREW DUNCAN NAMED TO INVESTIGATE N. S. COAL INDUSTRY

Halifax.—The government of Nova Scotia announces that pursuant to a request in that behalf, the British government has designated Sir Andrew Rae Duncan, K. B., L. A., LL. B., formerly coal controller for the British government and now chairman of the advisory committee for the British Mines Department, to be chairman of the commission of inquiry into the coal industry of Nova Scotia.

SOLVES PROBLEM TRANSPORTATION OVER DEEP SNOW

Necessity is the mother of invention. As body says it. They tell us that bound wildernesses of Alaska and the machine, chewing gum, aeroplanes and all members of old Mother Necessity's growing family.

And now the transportation branch of circle has been added to by the advent healthy and important youngster who is promising future ahead of him. He is Snow Motor, a name which gives him his amazing ability to move himself, a that was attached to him as easily over snow as an ordinary wheeled vehicle paved road.

The Snow Motor was invented by has spent the greater part of his life bound wildernesses of Alaska and who depended upon his ability to transport certain weighty commodities, such as his stance, over vast snow-covered areas either his life or his lumber.

It did not take more than a few frozen north to convince this gentleman, by the way, is F. R. Burch, of Seattle, that there was something radically wrong with the ordinary means of transport, when falls of snow were common and inevitable. Not only was this true, he thought, in hauling of heavy loads but in the transport of the inhabitants themselves who are able to carry on the ordinary pursuit of business during the winter months: whole communities had either to put a fight against the snow with sledge or else, what is sadder still, resign to being snow-bound for the winter and cut off from the rest of the world.

And so, urged on by Mother Necessity and his associates conceived the idea Motor. And this is what the Snow Motor floats over snow and, in floating, packs down smoothly and makes a very satisfactory for other vehicles to travel over. It runs loads over snow of any depth; it runs from the forest, ore from the mines, pulp mills, mail to rural snow-bound communities.

LARGEST SAVINGS BANK IN WORLD

It is Situated in New York, And Has Resources of \$200,000,000.

New York.—The dinner given at the Hotel Biltmore this week in commemoration of the seventy-fifth anniversary of the opening of the Emigrant Industrial Savings Bank in this city, calls to mind the amazing progress that has been made by savings institutions in the United States since 1815-1816, when the first incorporated banks of the kind were opened almost simultaneously in Boston, Philadelphia and New York.

When the Emigrant Industrial Savings Bank was opened for business in 1850 it had a working capital of less than \$4,000. Today it has resources approaching \$200,000,000, and in this respect it is the largest savings institution in the world. It is interesting to recall that the bank project had its inception in the mind of Archbishop Hughes, who took the initial steps in organizing the institution. His object was to found a bank to protect the savings of Irish immigrants and to co-operate with the Irish Emigrant Society, of which he was president in affording them a safe method of sending their earnings back to Ireland. The bank was opened in October, 1850 and by the end of the year it boasted of 265 depositors, who had about \$35,000 to their credit. By 1916 the number of depositors had grown to 125,000 and the deposits exceeding \$100,000,000.

SAYS CANADA NEEDS YOUNG FOLKS AT HOME

Editorial Talks Maine Body May Want U. S. Ban.

Belfast, Me.—"Help us by keeping us out of your country," Dr. H. B. Bridges, head of the Provincial Normal School of Fredericton N. B., told the Waldo County Teachers' Association here today. "Canada has a big war debt to pay and it is the younger generation which must help bear the burden. Our boys and girls have a strong temptation to come across the border into your country, but we need them at home, and many of us would be glad if you would prohibit immigration from Canada."

SIR ANDREW DUNCAN NAMED TO INVESTIGATE N. S. COAL INDUSTRY

Halifax.—The government of Nova Scotia announces that pursuant to a request in that behalf, the British government has designated Sir Andrew Rae Duncan, K. B., L. A., LL. B., formerly coal controller for the British government and now chairman of the advisory committee for the British Mines Department, to be chairman of the commission of inquiry into the coal industry of Nova Scotia.

The commission will be composed of a chairman and two associate members and will have the assistance of experts upon the various phases of the inquiry.

Sir Andrew Duncan will sail from England, about the middle of October, and the commission will meet towards the end of the month.

The names of the two associate members are: Rev. H. P. McPherson, rector of St. F. X. University and Mr. Hume Cronyn.

SOLVES PROBLEM OF TRANSPORTATION OVER DEEP SNOW

(Upper) Rolling heavy sleds loaded with fire through an ice covered city street. (Center) Side view of the Fordson Snow Motor. (Lower left) Road breaking over snow six feet deep with load of lumber. (Lower right) Side view of Fordson Snow Motor.

Necessity is the mother of invention. At least everybody says it is. They tell us that is why we have the telephone, the radio, the electric washing machine, chewing gum, aeroplanes and bobbed-hair; all members of old Mother Necessity's vast and ever growing family.

And now the transportation branch of the family circle has been added to by the advent of a very healthy and important youngster who has a bright and promising future ahead of him. He is called the Snow Motor, a name which was given him because of his amazing ability to move himself and anything that was attached to him as easily over six feet of snow as an ordinary wheeled vehicle does over a paved road.

The Snow Motor was invented by a man who has spent the greater part of his life in the snow-bound wildernesses of Alaska and whose livelihood depended upon his ability to transport himself and certain weighty commodities, such as lumber for instance, over vast snow-covered areas without losing either his life or his lumber.

It did not take more than a few winters in the frozen north to convince this gentleman, whose fame by the way, is F. R. Burch, of Seattle, Washington, that there was something radically wrong in the matter of vehicular traffic in countries where very heavy falls of snow were common and inevitable occurrences. Not only was this true, he thought, in regard to the hauling of heavy loads but in the transportation of the inhabitants themselves who, are often quite unable to carry on the ordinary pursuits of life and business during the winter months: months when whole communities had either to put up a hopeless fight against the snow with sadly inadequate equipment or else, what is sadder still, resign themselves to being snow-bound for the winter and completely cut off from the rest of the world.

And so, urged on by Mother Necessity, Mr. Burch and his associates conceived the idea of the Snow Motor. And this is what the Snow Motor does. It floats over snow and, in floating, packs the snow down smoothly and makes a very satisfactory surface for other vehicles to travel over. It hauls twenty-ton loads over snow of any depth; it hauls lumber from the forest, ore from the mines, pulp wood to the mills, mail to rural snow-bound communities, passen-

gers from one city community to another, and in fact does practically everything that an automobile or a tractor does in places where there is no snow.

The Snow Motor is a wired working contrivance which rides the crests of the deepest snow drifts, sinks over 7 feet, stands on its double-harrelled nose and drives its great loads behind it without any apparent effort. As manufactured at present it is attached to Fordson tractors which provide its motive power. Later it will also be used on standard automobiles, when it will travel at a rate of twenty-four miles an hour.

Stripped of its motive power it consists of two cigar shaped cylinders or drums to which flanges, resembling over screws are attached. These cylinders literally float on the top of snow drifts, for they displace snow equal in weight to the weight of the machines, just as a boat displaces water in proportion to its own tonnage. For heavy hauling the Fordson Tractor straps of its wheels and axles, is mounted on the Snow Motor and the cylinders are caused to revolve with the result that the Motor wears its way along by means of the screw arrangement on the cylinders. For lighter, or passenger traffic the wheels and axles of an automobile are removed and replaced by the Snow-Motor. In summer the wheels can be put back again.

In snow-bound districts, up to the present, every effort has been directed to find ways and means for the removal of snow as the only way of opening up traffic. Now, however, the Snow Motor comes along with its funny looking cylinders and floats merrily over soft snow drifts, hard ice, in fact any condition of snow and as it goes makes a road for light vehicles to follow immediately and, after thorough packing, for loads of any weight.

Such is the latest and most important addition to Mother Necessity's family of inventions. It is built by Snow Motors Incorporated in Detroit, Michigan, under the presidency and general management of A. E. Knoblock. It has already proven its ability to do the surprising stunts referred to above and there seems to be very little doubt that it will be in general use in mining and lumbering operations during the coming winter. It is expected that each succeeding winter will find some new use it can profitably be put to and it is difficult to imagine just where the limit of its adaptability should be placed.

HARMONICA BANDS IN ENGLAND

It seems that the rapidly-growing popularity of the mouth organ is not confined to Canada and the States. The Editor of Music Trades Review of London, England, says: "Until recently the mouth organ or harmonica was generally regarded in this country as a novelty or toy, but in the United States and Canada these last two and a half years, it would seem that the decision was at least an ill-considered one. Over there the youth of the nation have taken up the mouth organ with avidity, and today literally millions of them are sold every year. School and Scouts organizations and similar bodies have formed harmonica bands, and from accounts in the music professional and trade press, with surprising results. No longer is it a despised toy, but is fast claiming general recognition as a real musical instrument. Contests are arranged between bands who play classical symphonic music, and if the result is not the equivalent in effect of the Queen's Hall Orchestra, some surprising results are obtained, and a very real regard for further musical training engendered. In fact, most young children have an inherent sense of music, and though the modern psychology gives as acquiring the mastery of an intricate instrument, such as the violin or piano, the facile success in musical expression on the mouth organ creates the desire for the greater accomplishment. We understand that, realizing this, a prominent music house in this country is considering the project of teaching the youth of England to play the mouth organ, and it is not at all unlikely that the near future will see the first English harmonica band performing at a leading London hall."

Mr. Benjamin Goldsmith, of Annapolis Royal has purchased the Elias Piggott property on Church Street and has moved in. We welcome Mr. Goldsmith and family to the town. Mr. Goldsmith referred to above is a brother of Mr. Hugh Goldsmith of this town.

Mr. and Mrs. Tom Eason, of Morristown, Kings Co., were Sunday guests of Mrs. I. J. Parker.

Mr. Benjamin Woodworth, of Kingston, was a guest over the week end at the home of Mr. and Mrs. Lawrence Willett.

The many friends of Miss Annie Bent will be glad to know she is recovering from her recent serious illness.

Mrs. William E. Bent and Miss Cora Parker spent Thursday at Granville Ferry with Mrs. William H. Mill.

On Thursday evening, October 9th, about thirty friends of Mr. and Mrs. Jack D. Bent gathered at their home and gave them a surprise, the occasion being their fifth wedding anniversary. The evening was very pleasantly spent in games, after which refreshments were served. Just before leaving for home H. G. Parker presented Mr. and Mrs. Bent

with an envelope containing a sum of money, as a token of esteem in which they are held by their friends here.

At a late hour the party broke up, wishing the bride and groom many more years of happiness.

Mr. Lawrence Willett and Miss Josephine, were host and hostess, at a very enjoyable tea on Wednesday afternoon, when about twenty lady friends were present. The parlor was decorated with lovely asters. Mrs. (Capt.) J. A. C. Willett poured.

On Friday evening Miss Myrtle Troop was given a surprise by her friends, when about forty gathered at her home, the occasion being her twenty-first birthday. The evening was pleasantly spent in games. Refreshments were served. At a late hour the party broke up, wishing Miss Troop many happy returns of her birthday.

Mrs. R. L. Dodge, returned last week from Bridgewater, where she visited her son, Mr. Fred Dodge.

NOTES AND NEWS OF LAWRENCETOWN

(Continued from Page One.)

for fifty years. His only son, and a young grand-son, gave their lives when Canada called her sons to the Great War. A faithful servant of God, a loyal citizen, a kind friend and neighbor, Mr. McKeown has "worn the white flower of a blameless life, a Christian gentleman, without fear or reproach."

Mrs. C. Merry will spend the winter in Boston, where Mr. Merry has a good position. Mrs. Merry Sr. will remain in town.

The Friday evening lectures in the United Church are better attended; are growing more interesting. Mr. Higgins Bible talks are very instructive. Our young people are losing a great opportunity of gaining knowledge of the Bible by not attending these lectures.

Dr. and Mrs. W. C. Archibald left on Friday for Lexington, Mass., where Dr. Archibald will practice and where they will reside in future. Mrs. Archibald was formerly Miss Grace Jefferson, of this place and one of the towns most popular and highly esteemed young ladies. Both she and Dr. Archibald are very popular in all social circles of the community as well as among a host of friends who regret to see them leave.

VIRGINIA EAST

Miss Hilda Harris has returned to her home in Sisseton, after spending a few weeks with her friend, Miss Ethel Potter.

Miss Alice Banks has returned to her home in Bear River, after spending the past week with her sister, Mrs. Avard Rohar.

Mr. and Mrs. George Cross and daughter, Agnes, Miss Dorothy Wambolt and Roland Potter, of Clements-ville, spent Tuesday evening last with Mr. and Mrs. John Riley.

Mr. Samuel Wright has sold a horse to Mr. Arthur Pancy, Millford, and purchased a fine horse from Mr. George Beeler, Clements-ville.

A "sing" was enjoyed at Mr. Forest-Rohar's Sunday evening last. All spent a very pleasant time.

JURY AWARDS HUSBAND \$4,000

Annapolis Plaintiff Wins In Suit Over Wife's Affection.

Annapolis Royal—At the Supreme Court sessions Tuesday, with Judge Mallah presiding, the case of Cecil Phinney, plaintiff, and Harold Caldwell, defendant, was the only one disposed of. This was a case concerning the alienation of a wife's affection, with Daniel Owen, K.C., for plaintiff, and A. L. Davidson, Middleton, for defendant. The jury brought in a verdict in favor of the plaintiff, who was awarded \$4,000 damages.

BORROWED STORY.

A colored preacher had just concluded a sermon on "Salvation am free" and announced that a collection would be taken up for the benefit of the parson and his family. A member in the audience objected to the paradoxical nature of the proceedings and received this bit of logic in response:

"'Spose yo' was thirsty an' come to a river. Yo' could kneel right down an' drink your fill, couldn't yo'? An' it wouldn't cost yo' nothin'. Dat water would be free. But, 'spose yo' was to hab dat water piped to yo' house, yo'd have to pay, wouldn't yo'? Waal, brudder, so is it wid salvation. De salvation am free, but it's de habit it piped to yo' dat yo' got to pay for."

SUNDAY'S GALE DOES DAMAGE AND GIVES FORETASTE OF WINTER

Sunday saw the first snow of the season in the Valley. A heavy gale prevailed all day and the weather conditions were anything but pleasant. Large quantities of apples were blown from the trees inflicting very considerable loss on orchardists. The storm was not so severe as in New Brunswick, where sixteen inches of snow was recorded in some parts, while light and telephone poles blew down by the hundreds. The local Electric Light Company got by quite easily, as the force of the storm blew down only eight.

TUPPERVILLE

Quite a number from Tupperville attended Chautauqua at Bridgetown last week.

Mrs. L. W. Chipman was a delegate from the Benville Auxiliary, to district meeting at Bear River on October 1st and 2nd.

Miss Jennie Inglis left on Tuesday for Boston, en route to Orlando, Florida, where she intends remaining for the winter.

Apple picking is well under way. The crop is much below average in this vicinity.

DEFENDANT IS AWARDED \$10

Auto Damage Case Settled at Annapolis—Wages Decision Reserved.

Annapolis Royal—In the Supreme Court.

In the case of W. DuVerget Cummings, plaintiff, and Fred R. Burbridge, defendant, arising from an automobile accident, a verdict was given in favor of the defendant, with \$10 damages. W. G. Parsons, K.C., acted for plaintiff and A. L. Davidson for defendant.

In the non-jury case, involving a question of wages, between Ida Amery, plaintiff, and Frank Wilson, defendant, with Oliver S. Miller for plaintiff and Daniel Owen, K.C., for defendant, no decision was given.

The disputed property non-jury case, between Lawrence Orde, plaintiff, and Phoebe Scroule, defendant, was also finished, but no decision given. W. A. Livingstone acted for plaintiff, and W. G. Parsons for defendant.

TO THE ELECTORS OF Annapolis--Digby--Clare

Having been Nominated at the largest and most enthusiastic Convention ever held in this Constituency to be a Candidate of the Liberal-Conservative Party to represent them in the forthcoming Election. You are aware that this is one of the largest Constituencies in area of any in the Province and it is therefore impossible for me to make a personal canvass of each section, and it is only by this means that I can present to you, what policy I stand for if elected to be your representative in the next Parliament. There is one issue more important to Nova Scotia than all others and that is Maritime Rights and a revival of our industries. That is the issue that I stand for and shall work for and will use my best endeavours to secure for Nova Scotia a square deal. I will put Province before Party every time.

The Conservative Candidates throughout Nova Scotia have all declared themselves to support Maritime Rights and with a united stand on their part there is not the least doubt but what the interests of the Province will be thoroughly looked after, and if the Meighen Government is returned to power on October 29th, there will be a body of men pledged to see that we get our Rights. Soliciting your support and if elected as your representative I will by my aim to bring about better conditions in this Province.

GET THE DICTIONARY HABIT.

A great scholar once declared that no man is educated until he has learned how and when to use the dictionary. Many people seem to think their need of a dictionary ceases when they quit school. The only way they seem to be able to make of such an unwieldy book is to hold the door open on a warm day. But not many ever enter the dictionary. A gray-haired American educator says that in his youth he used to look forward to the time when it would be unnecessary for him to refer to his dictionary to settle the linguistic disputes. But the time has never come. In his old age he finds that he must turn more and more to his trusty guide as the years pass by. He has learned that the need of a dictionary increases with the increase of knowledge and experience.

A good dictionary is more than a mere list of definitions arranged in alphabetical order; it is a book containing thousands of useful facts compressed within the smallest possible space. Remember the man who spent fifteen minutes every day reading the dictionary. Later when he was elected to congress his colleagues marvelled at his great store of practical knowledge. Yet he had never gone to school a day in his life. He learned from his dictionary what others acquired by spending years in college.

This proves, as Dr. Fernald says, that the dictionary knows more than any one man. It also has a better memory. The person who keeps a right hand acquaintance with his dictionary never stops learning; he goes to school all his life to the most accomplished of all teachers. Every household should have a point out which particular one is best, but it should be selected with care. There are dictionaries and dictionaries--their name is legion. The most important thing to bear in mind in selecting a dictionary is that you judge it by its cover or the kind of paper it is printed on. Neither is it necessary a good one because your great-grandfather had one like it. Some dictionaries are good, others are fair, and still others are abominable. But any kind is better than none. If you can't afford a new one get a poor one--but get one. The best of us will never learn all there is in the poorest dictionary published. Before making the purchase consult someone in a position to judge. The essential thing is to get one that is suited to your need and use it.

Time spent at the dictionary is time well spent. Always keep your dictionary within convenient reach. A business man should have a dictionary in his office as well as his home. Have your dictionary so close at hand that you will continually be tempted to use it. The man who frequently goes to the dictionary to look up a new word or to refresh his memory on an old one has a decided advantage over his opponent. His reasoning will be sounder, his knowledge broader and more accurate, and his expression will be clearer than that of the man who last consulted the dictionary when he quit school--Pathfinder.

NEW LAMP BURNS 94% AIR

Burns Electric or Gas.

A new oil lamp that gives an amazingly brilliant, soft, white light, even better than gas or electricity, has been tested by the U. S. Government and 25 leading universities and found to be superior to 16 ordinary oil lamps. It burns without odor, smoke or noise--no pumping up, is simple, clean, safe. Burns 94% air and 6% common kerosene (coal oil).
The inventor, J. M. Johnson, 246 Craig St. W., Montreal, is offering to send a lamp on 10 day's FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him to-day for full particulars. Also ask him to explain how you can get the agency, and without experience or money make \$250 to \$500 per month.

DO YOUR CHILDREN GROW FAST ENOUGH?

Are They Sturdy, Healthy, and Strong, Or Pale, Weak and Run Down?
Growing children need a great deal of food, and sometimes they will not eat the kind of food that they need for strength—then they become thin, pale, and run down.

This condition of undernourishment can be corrected by taking Father John's Medicine which does contain just the food elements such as children need, and that is why so many children gain weight regularly while they are taking this old-fashioned family medicine.
Father John's Medicine is an expertly blended preparation of cod liver oil with other ingredients in such a way that its food elements can be easily taken up by those who are weakened and run down. Your friends and neighbors know its value. Thousands of mothers depend upon it to keep their children well and strong.

DEACON HAS 50 YEARS RECORD

Lawrencetown Church Celebrates Election of Deacon W. B. McKeown
Lawrencetown.—Last evening at the close of the quarterly business meeting of the United Baptist Church, Lawrencetown the church celebrated the fiftieth anniversary of the election of Senior Deacon William Burpee McKeown to the office of deacon.

That Deacon McKeown, who is now in his 83rd year, has held the office so long, and has so faithfully discharged his duties, winning the respect and love of successive generations, called forth expressions of hearty appreciation from many present at the meeting, including the pastor, Deacons T. G. Bishop, J. S. Hatt, E. C. Shaffner, and W. A. Hunt, and from L. D. Hauley, Byron Morse, Councilor G. A. Charlton, and Miss E. Blackadder.
A banquet of asters was presented to Deacon McKeown by Mrs. A. H. Whitman on behalf of the ladies of the church. To all these tokens of good will, Deacon McKeown feelingly responded.

HUNTER BADLY WOUNDED BY ONE UNKNOWN

Colored Man, Shot Near Granville Ferry, in Serious Condition at V. G. Hospital.

Granville Ferry.—Hugh Fowler, a colored man, about twenty-seven years of age, was rushed by auto to Halifax, Wednesday evening to enter the hospital for surgical attention to a bullet wound received that afternoon.

Fowler and a companion, who had gone to the woods together, were seated on a log when a bullet, fired from the gun of an unknown person, entered his body under the collar bone and lodged in the flesh. A second shot missed its mark, because the men had risen from the log.

The victim of the shooting was assisted to his home, and Dr. P. F. Smith was called. At a consultation held by Dr. Smith and Dr. L. B. Braune, of Annapolis Royal, it was decided that it was expedient to send him to Halifax immediately.

It is not known why the shot was fired, but it is presumed that it was fired by someone out hunting, who mistook the man on the log for a moose or deer, both of which are now to be found on the North Mountain.

POLE IS LUCKY OBSTRUCTION

Granville Ferry.—E. C. Hall, of Bridgetown, returning from a business trip to the communities to the west of Granville Ferry Tuesday afternoon, was preparing to get another car pass his, when a nut dropped from the steering gear of his car, rendering it useless. Just at the part of the village where the accident occurred the street runs along the bank of the river, and the car was prevented from going off the bank by collision with a telephone pole which was broken by the force of the impact. Mr. Hall escaped unharmed. The car, which had its radiator badly bent, was towed to a garage in Annapolis Royal for repairs.

BOOTLEGGING IN KENT COUNTY

How Some American Tourists Secure Liquor Supplies.

Stories are reaching the city of a plethora of smuggled liquor in and around Buctouche, and it is said that residents of the vicinity indulging in the trade that is known as "bootlegging" are doing a rushing business. Contraband liquors of the best quality may be had "for a song," owing to the fact that the supply is much larger than the demand, and the best whiskeys are being quoted at \$2.25 per bottle.

In the matter of sales, one general store is said to eclipse all others, and the proprietor has his system regulated to a degree of unusual fitness. A tourist drives up to the store, parks his car outside, and enters. "I would like some whisky, please?" "Yes, sir, how much?" "Oh, about two cases." Certainly, sir, money please." Whereupon the proprietor presses a small button behind the counter, the tourist leaves the store, and discovers two cases of liquor in his car. The button signalled a clerk in the cellar, who placed the booze in the car. In this way the storekeeper is protected, because if the tourist is caught by inspectors, which happens very seldom, he cannot swear that he obtained the liquor from the storekeeper, as he did not accept it, nor did he see it taken from the store and placed in his car.

It is said that many American tourists coming to Saint John do not stay here but proceed to Moncton and beyond in order that they may obtain the liquor at reasonable prices. On the return trip, the tourists manage to arrive here about 9 or 10 o'clock in the evening, and passing through the city reach Houlton, Me., in the small hours of the morning, while it is still dark. At this hour, the International Bridge is deserted, so the motorist has no trouble in entering Maine. He proceeds for a short distance and catches the prized liquor. Returning to Houlton, he enjoys a nap, as it is necessary for him to report to the immigration and customs inspectors, and this he does by daylight. Nothing untoward is discovered in the car, and he is allowed to proceed unmolested. He gathers up the hidden liquor on the way, and goes to his home, laughing up his sleeve at the ease in which the desirable beverage is obtained.
Owing to the abundance of liquor in Kent, it is believed that stories recently circulated regarding "rum-running" along the Kennebecasis and around Renfrew may be well founded on fact.—St. John Globe.

THE RIFF

The inhabitants of the Riff, although they are as simply and primitively Mohammedan in religion as the Arabs themselves, are superior to the latter in the arts of war and peace. They are easily distinguishable from their neighbors in physical appearance, being a race of blue-eyed, strong-limbed men and sturdy unvelled women—descended their leaders believe—from the Norse raiders and marauding bands of the twelfth century. Mohammed ben Abd el-Krim, forty-two years old, Moorish lawyer, guerrilla warrior, captor in 1921 of General Navarro's entire force of twenty thousand troops, acknowledged Sultan and sovereign of the Riff and the Riffi established leader of the Riffi movement in North Africa, has nothing in common with the bandit chiefs of the nineteenth century or with the semi-savage Raisuli.
Abd el-Krim, as he is commonly called, is the elder of two brothers, whose fortunes are intimately connected. The younger, who was educated in Madrid as an engineer and mineralogist, has been proclaimed heir apparent to the Sultanate of his brother in defiance of the tradition that only descendants of the prophet are eligible for royal power. Between them they have succeeded in giving to their cause the character of a holy war, utilizing for this purpose a white-hot intensity of fanaticism which filled the savage and semi-savage border Arabs who were attracted to the victorious Riffian leaders. The Riffi themselves, he it observed, are warlike and redoubtable enough, but in a jovial and hearty way reminiscent of the Nordic race from which they sprang, and with none of ecstatic military fervor of their allies and co-religionists.
A newspaper correspondent, Vincent Sevan by name, one of the three correspondents who have gone into the Riff since the Melilla disaster, is of the opinion that whether the Abd el-Krim brothers have or have not exploited the fanaticism of the border Arabs the movement now has all the force of a jihad. But he is also of opinion that they have no desire to excite a general Islamic revolt which might put an end not only to Spanish rule, but even to French rule in Africa. It seems clear, however, that the Riffian leaders, while contented with nothing less than sovereign rights over the largest part of the Spanish zone, and full recognition by the powers, they are too intelligent to suppose that they can beat the French in the field, but they know also that the French will not attempt to invade their country which the French strategists consider impregnable. What they want is a recognized independence and freedom to exploit the immense iron and copper wealth of the country.

Spain, says the Vancouver Province is really the chief difficulty. The French, of course, cannot colonize Morocco, but they are certainly governing it. Marshall Leger has established there what in Mr. Sevan's opinion is probably the most effective and benevolent despotism of modern times. Schools, hospitals, roads and police have been established in French Morocco in numbers and character which would do credit to France itself; the work done under French imperialism being on a par with that of Imperial Rome, with British rule in Egypt and with American administration in the Philippines. If Spain would consent to sacrifice the last vestige of her Empire on the altar of common sense, peace might be established in North Africa.

ANNAPOLIS COUNTY BAPTIST DISTRICT MEETING

One of the most helpful of District Meetings was held with the church at Hampton on September 21-22. Our veteran President, Rev. M. W. Brown, D.D., occupied the chair. Visiting ministers invited to seats were Rev. W. B. Crowell and Rev. H. H. Philney.
Rev. P. R. Hayden delivered a most instructive sermon on the words "Deliver us from evil," Matthew 6:13. The readings of the Authorized and Revised Versions were made the basis for considering the abstract and concrete or personal views of evil. The fact of the prayer is an assurance of God's willingness to answer and to deliver us from every evil.
Rev. D. Dron gave a thought-provoking, expository address from 2 Pet. 1:20, "Knowing this first, that no prophecy of the Scripture is of any private interpretation." The following conclusions were drawn from the text: Scripture is not human in its ultimate origin; 2, It is a divinely given interpretation of things; 3, All Scripture is divinely authoritative; 4, Christians are assured of the divinity of Scripture; 5, It revealed a truth of primary momentousness.

Rev. W. D. Wilson addressed a full house on the subject of Temperance. He pointed out that a liquor profit of \$381,000 indicated conniving at violation of law. That "richness" exalteth a nation" was the explanation of our attitude on the temperance question. He appealed to all to do their best for God, for home and native land. The address was informing and very much appreciated.
Routine business included appointment of denominational allotments to the churches; endorsing the license of Bro. Lindsay Graves of the Lawrencetown Church and the appointment of I. J. Whitman, Esq. of Torbrook, to represent the County at a meeting of the Annuity Committee in Halifax.
Inspiring solos were sung by Mrs. Jones, Mrs. J. Marshall and Rev. H. H. Philney, while special music was rendered, most acceptably by the choir.
A resolution was passed expressing appreciation of the labors and fellowship of Rev. M. B. Whitman, regret at his removal from our district and wishing him the blessing of God in his new field of labor. Another resolution voiced the gratitude of ministers and delegates to the pastor and people of Hampton for their kind and generous entertainment, and to the organist and choir for their assistance. Rev. D. W. Dixon briefly replied. This was directed to a close and most inspiring series of meetings, and the delegates separated to meet in special session with the church at Victoria Beach on October 21-22.

DEATH OF MRS. WILLARD P. SMITH

There was much sadness expressed in the community Saturday afternoon when it was learned that Mrs. Annie J. Smith, the wife of Willard P. Smith who only two days previous had returned from Nova Scotia with her husband, had passed away. The couple had been spending the season at their summer home at Deep Brook, N. S., but as Mrs. Smith was feeling well returned at an earlier date than had previously been their intention.
After their arrival by Rowley a change for the worse set in and Mrs. Smith was attended by a number of physicians, but gradually grew worse until the end came on Saturday afternoon. Mrs. Smith was a daughter of David and Emma J. McClelland, and was born in Annapolis, N. S., in 1856, her age at her demise being 59 years. On Sept. 7th, 1897 she was united in marriage to Willard P. Smith of this town, the ceremony taking place at Clementsport, N. S. They have since made their home except during the summer months for several years which they have spent in Mrs. Smith's former home town, Deep Brook, N. S. Mrs. Smith was a lady of refinement and exemplary Christian character, and previous to her marriage was a trained nurse. She was a devoted member of the Rowley Congregational church, a great worker in the Benevolent Society and other church departments, and will be a great loss to the church and community, as she was most highly esteemed and respected by all who knew her. Besides her husband she leaves a son, Malcolm E. Smith, a recent graduate at Brown University, and who recently accepted a position as teacher in Maine. She also leaves a number of other relatives and family connections, one of whom is a niece, Miss Marion McClelland, a teacher in the Rowley Center school, besides a very large circle of friends in this village where she has made her home for over a quarter of a century. The funeral will take place at her late home on Summer street on Tuesday afternoon at 2:30 to which all relatives and friends are invited. The burial will be private.—Rowley Paper.

WOMEN'S HANDICAPS

Headaches and Backaches Often Make Life Miserable.

A woman's health handicaps her almost always. She has pains and disabilities which do not afflict men. Nature does not give her a fair chance. Her blood is more often thin and poor than a man's, and she often neglects the first beginnings of ill-health. Many women who seemed destined to a life of frequent suffering have been freed entirely from their suffering through the wonderful blood-making qualities of Dr. Williams' Pink Pills. Many a woman tells all day with a pain in her back and side, a burning headache, and a sense of having no spine left.

What a pity women will not listen to their friends whom Dr. Williams' Pink Pills have saved from their misery. Whenever a woman suffers they will help her—in youth, middle-age and afterlife. Mrs. John Mitchell, of Middleville, Ont., gives her experience for the benefit of other women sufferers. She says:—"Some years ago I was so badly run down I could hardly walk around the house. I tried to do a few chores but was able to do very little. My boys and husband had to do the rest. If I started up stairs I had to go very slow or I would fall, and I was just played out when I got to the top of the stairs. My head ached terribly, and my heart would beat violently. In this deplorable condition I began taking Dr. Williams' Pink Pills. When I had finished six boxes I felt much better. Then I got a further supply, and by the time I had taken these I could walk anywhere without being exhausted, the headaches had disappeared and I am now perfectly well. Any woman who is run down should not hesitate to begin Dr. Williams' Pink Pills at once, as I am sure from my own experience they will build her up."
You can get these Pills from any medicine dealer or by mail at 50 cts. a box from The Dr. Williams' Medicine Co., Brockville, Ont.

WEST PARADISE.

Miss Alma Shaw, Miss Mary Varner, Miss Mary Martin, Miss Marion Whitman and Mrs. J. B. Saunders enjoyed a motor trip to Bear River and Digby on Saturday.
Miss Elsie Sheridan and Mr. Harold Sheridan spent the week end at Dalhousie, guests at the home of Mr. David Shipp. They were accompanied on their return by Miss Mabel Shipp, of Lawrence, Mass.
Mr. and Mrs. B. W. Saunders spent Sunday at Clarence, guests of Mr. and Mrs. C. G. Foster.
Miss Elizabeth Rhydel, of Malden, Mass., and Mr. Harcourt Daniels, of West Lynn, Mass., are visiting Mr. Daniels' parents, Mr. and Mrs. Norris Daniels. Miss Rhydel and Mr. Daniels came by motor.
Mr. and Mrs. Norris Daniels, Miss Rhydel and Mr. Harcourt Daniels, spent Sunday at Berwick, guests of Mr. and Mrs. George Whitman.
A party of four, among them Mr. Newman Daniels and Mr. Nelson McLeod, were successful in shooting a fine moose the first morning of the open season. The party had only been hunting twenty minutes when they had brought down their game.
Miss Hazel Bent and Mr. Albert Bent are spending a few weeks at Wolfville.

GIRLS AS GOOD AS EVER, VIEW

Auto Replacing Front Porch, That's All.

Chicago.—The modern girl is swinging merely at the other end of the pendulum on which her mother and Victorian grandmother dangled. Otherwise it's the same old psychological clock ticking out the same minutes and hours and days.

Or, as Miss Harriett Comstock, executive secretary of the Central Eleanor Club, analyzes the temperament of the working girl after years of study given to the problem. Miss Today is frank and less conventional than Miss Yesterday.
"It's an age of frankness, or fewer repressions, we're living in," she summed it up. Girl psychology hasn't changed any to my mind.

"It's an age of adjustments. If a girl gets into trouble, it is lack of judgement, not her bobbed hair or short skirts. Lack of judgement, however, is not confined to girls only. We're all bewildered as to what the real things in life are because there are so many things to choose from.

"The modern girl rouges, and perhaps she's guilty of bad taste in doing it publicly, but her mother probably pinched her cheeks privately because rouge wasn't so available in her day. The psychology is the same, only the expression is different."
Miss Today, as she is viewed by

Miss Comstock, goes to a cabaret because the modern apartment does not afford enough room for a crowd of young people to get together; she goes on automobile rides because she hasn't any front porch to sit on; she bobs her hair but her mother went to the other extreme of wearing false hair pinned under her own.
Be a self starter and don't make a crank out of the boss.

MISS MOLLY CONNELL "SHOWERED"

On Wednesday evening of last week Miss Molly Connell was tendered a miscellaneous "shower" at the home of Mr. and Mrs. S. C. Turner and friends to the number of about seventy were present.

The rooms were nicely decorated and the bride to be was the recipient of a large number of valuable gifts, including silverware, porcel, linon, china, etc. Here and there among the decorations were numbers of presents, while the parrot color predominated. A very pleasant evening was spent by all present and dignified refreshments were served.

Miss Connell has taught in Saskatoon for several years and previous to this had charge of one of the departments in Bridgetown, her home town. She has here a large circle of friends who were pleased indeed to be present at the "shower" and whose good wishes follow her this week as a bride to her Western home.

MEETING IN INTERESTS OF SCHOOL FOR THE BLIND

Mayor Hicks presided on Sunday night at a meeting held in the interests of the School for the Blind, in Prince's Theatre.

The gathering was addressed by Mr. Downs, who has for some years been working in the interests of this splendid school. He told graphically of the efforts and perseverance of Mr. C. E. Fraser, in founding this school.

Mr. Fraser, losing his sight early in life, was sent to the United States to be educated. He returned home and worked very hard to enhance prominent men about the need of a school.

This school now has more than a hundred pupils, whom they train from kindergarten to university course. There is a broom factory in connection with school. Many are here taught to make a living for themselves. Others are asking to be admitted. On account of funds they cannot accommodate more now. The lecturer told of the success of many graduates. Some returning to help in the school.

Mr. Downs asked the people of Bridgetown to give what they could to help with the work.

Before showing the film of the work in the factory, Mrs. McKinnon sang very sweetly "The Better Land."

After the film was shown, Mayor Hicks made an appeal for the citizens to help. The meeting closed with singing the National Anthem.

The Women's Institute are soliciting for funds. No amount too small or too large. They will canvas the town next week.

MERCHANTS IN SESSION

Messrs. B. N. Messinger of this town and George L. Harris, of Lunenburg, attended the Annual Convention of the N. S. Provincial Board of the Retail Merchants Association of Canada, held in Halifax last week.

A very brief resume follows below from the Acadia Recorder.

The delegates were welcomed by Mayor Kenny and ex-Ald. Ackhurst, representing the Halifax Board of Trade. Replies to the addresses of welcome were made by G. A. Smith, President; Norman B. Douglas, Secretary and General Manager of the Dominion Executive Council and Dominion Board, Ottawa, and A. J. Reid, Shubenacadie, 5th Vice-President of the Dominion Executive Council.

This was followed by an address on fire insurance by Norman S. Jones, Canadian Manager of the North West-ern Mutual Fire Insurance Co.

A business session was held in the morning and after the election of officers in the afternoon the delegates were given an auto drive. A banquet was held in the evening.

ONTARIO SUPT. OF EDUCATION VISITS BRIDGETOWN

Dr. Merchant, Superintendent of Education for the Province of Ontario was in town this week conferring with Inspector Foster on the matter of Bi-Lingual Schools. This is an issue of considerable and growing importance in Ontario and the Superintendent is getting further light and leading in this matter by investigating conditions in other provinces which have the same problem. In Nova Scotia matters in this connection appear to work very smoothly.

The deer shooting season opens to-morrow (Thursday) and several local hunters are going to the woods this week.

Considering the very unfavorable weather the Sapper in the vestry of the Baptist Church on Wednesday evening last, was very successful. Some \$56.00 was cleared.

Mr. Avarad Beeler maintains his well known record as a hunter. Five years in succession he has got a moose, in time varying from -two and a half hours to one hour and a quarter after going into the woods. This week he plans a deer hunting trip and will no doubt be equally fortunate.

Messrs C. B. Longmire, R. White-way, A. B. McKenzie, of Bridgetown, and Dr. Boyd Crowe, of Annapolis, arrived home from a moose hunting trip last week. They secured a fine moose, Dr. Crowe being the fortunate hunter.

Messrs. V. A. Lloyd and Murray Darling returned from a successful hunting trip with the skillful and veteran guide, Mr. Freeman Shipp.

SPLENDID RECEPTION ACCORDED REV. AND MRS. J. H. FREESTONE

Last evening the Ladies' Benevolent Society, of Wesley United Church, Yarmouth North, entertained a large gathering of the congregation to supper, in the vestry. Following the supper, Dr. S. W. Williamson took the chair and, on behalf of the congregation, welcomed the new pastor, the Rev. John H. Freestone, and his wife, in very gracious words.

The pastor, in acknowledging the kindly expressions extended to him and Mrs. Freestone, also took the opportunity to outline some of the things that he had in mind as a programme for the congregation.

Rev. J. W. O'Brien, pastor of the Central United Church, also spoke, and in very happy words brought the felicitations of himself and his congregation to the new pastor.

The following programme was then thoroughly enjoyed, each performer being heartily encouraged: Piano Duo—Messdames John and George Killam; reading—Mrs. Kenneth Morrell; solo—Miss Brenda Williamson; solo—Wm. R. Wyman, Brooklyn; reading—Mrs. W. N. Allan; remarks—Rev. W. G. Lane; solo—Miss Eula Gardner; prayer—pastor; National Anthem. (Yarmouth Herald.)

WHEN EDITORS TELL THE TRUTH.

Only a short time ago the Editor of a paper in Indiana grew tired of being called a liar, and announced that he would tell the truth in the future—and his next issue contained the following items:

"John Burtin, the latest merchant in town, made a trip to Beville last Monday."

"John Coyle, our groceryman, is doing poor business. How can he expect to do much?"

"David Conkey, died at his home on Tuesday. The doctor gave it out as heart trouble. Whiskey killed him."

Married—Miss Silvia Rhodes and James Collins, last Saturday at the Baptist Parsonage, by the Rev. Gordon. The bride is a very ordinary girl who doesn't know any more about cooking than a Jack-rabbit and never helped her mother three days in her life. She is not a beauty by any means and has a gait like a duck. The groom is an up-to-date loafer. He has been living off the old folks at home all his life and is not worth shucks. It will be a hard life."

Mr. Lloyd secured a handsome moose, a portion of which the Editor and family had the pleasure of sampling.

"THE RED BAND on the punchon is the purchaser's guarantee, that it is the Genuine article sold at the same price as inferior quality molasses. Please give it a trial."

NEWSY NOTES FROM ANNAPOLIS

Community Service—Interesting Concert—Miss Florence Ritchie "Showered"—Personal Items.

Annapolis Royal.—A most interesting concert was given on Friday evening at the Baptist Church, by the Mission Band, under the direction of Mrs. A. Gibson, and presided over by Mrs. W. C. MacPherson. The various members of the attractive programme were well presented, consisting of the following:—Hymns—by the choir; Dialogue in costume—by Mrs. C. Allen, and the Misses, Annie Longmire, Blanche Harnish, Lillian Dixon, Violet Harnish, Averil Coombs, Evelyn Harnish, Daisy Spurr, Ola Harnish, Ella Canavar, Ruth Carr, Addie Spurr, and Muriel Barnjum; Quartette—"Sometime, Somewhere" by Mrs. Allen, Miss Annie Longmire, and the Misses Evelyn and Blanche Harnish; Exercises and Recitations—by Alton Coombs, Allan Gibson, Elsie Rawding, Clifford Beeler, Bertha Barnjum, Ruby Carr, Muriel Barnjum, Annie Coombs, Violet Rawding, Willetta Taylor, Eleanor Douglas, Donald Willis, Harold Barnjum, Addie Spurr, Vivian Munroe, Kenneth Spurr, Harold Ritchie, and Alice Carr. The silver collection, which was taken up by Addie Spurr and Averil Coombs, amounted to over eighteen dollars.

The Community Service for October was held in the Town Hall on Wednesday evening, with Rev. B. C. Burden, acting as chairman, Rev. A. Gibson, of the Baptist Church, and Rev. R. A. Neish, and Rev. R. B. Thomas took part in the prayers and Scripture reading, and the principal speaker was Rev. S. J. Woodroffe, who is acting as Rector at St. Luke's Church, during the absence of Rev. T. C. Mellor. A number of the favorite community hymns were sung with Mrs. Robert Hardwick presiding at the organ.

Messrs. John and W. H. Harris, J. N. and Eric McCafferty, returned on Friday from their hunting trip with a fine buck, which they had captured early that morning. They were also successful in bagging a number of partridges.

Laurel Munroe, son of Mr. and Mrs. Horace Munroe, of Upper Clements, has joined the staff of the local branch of the Royal Bank of Canada.

Mr. R. S. Miller, and his son, William, have rented apartments in Yarmouth, and Mrs. Miller will join them there the first of the month. The removal of the family, who have been residents of Annapolis Royal for over thirty years is much regretted, and Mrs. Miller, who is an active member of Fort Anne Chapter I. O. O. E., and a Sunday school teacher of St. Luke's Church, will be missed by a large circle of friends.

A pleasing function took place on Friday evening, when the friends of Miss Florence Ritchie, met at the home of Mrs. Edgar Wentzell, St. Anthony's Street, and "showered" her with a large collection of beautiful and useful gifts. Miss Ritchie's marriage takes place on October 22nd, after which she will make her home in Boston.

Mr. and Mrs. Fred Corning are receiving congratulations, on the arrival of a little daughter.

Mr. Reginald Buckler of the Railway Mail Service, with his family, expects to move to Halifax next week. Both Mr. and Mrs. Buckler are natives of Annapolis Royal, and their departure, with their bright little family, is a source of deep regret.

Mr. J. Herbert Howard, of Newport, R. I. is a guest at the home of his uncle, ex-Councillor, A. G. Herbert.

Messrs. Walter and Charles Buckler, of Boston, former well-known residents of Annapolis Royal, have been spending a short vacation here.
