The copy filmed here has been reproduced thanks to the generosity of:

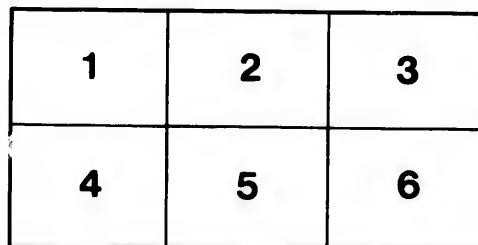

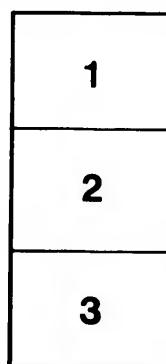

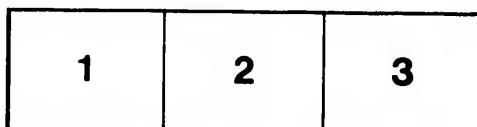

Library of the Public Archives of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol → (meaning "CONTINUED"), or the symbol ▽ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hard corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

La bibliothèque des Archives publiques du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole → signifie "A SUIVRE", le symbole ▽ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

A Farmer's Open Letter to Farmers.

FELLOW FARMERS,—In common with all intelligent yeomen I am a reader of the press, but perhaps I am a little exceptional in that I read both sides of the press. I take one side and I find one set of facts and figures, and I take the other side and I find another set, until sometimes my mind is so confused between them that I cannot believe either. I have given up paying much attention to these evolved figures because men specially hired for the work handle them for their own particular parties, put in what suits them and leave out what don't. But I do know this, and so do all farmers, from experience, that no matter who is in or out the expenses go on. Nor can I say that this is unnatural. Public affairs, like private, must be carried on at an expense, and in a new country like this the expense is great, because we need so many new public works. Both parties have given us some great and useful public works, without which the new parts of the country could not have been developed, so I find no great fault with either party upon that score. **What we have to consider is where the money to pay for these works is to come from.** Some say abolish the tariff and let goods in free from the United States and elsewhere, and let us raise the money by direct taxation. **That means to put all the taxes on the land, to which I object.** Mr. Blake said in a speech in West Durham, which I read in the *Globe*, that most of the tariff would have to stay, because we

need so much money to conduct public affairs, **but that he would take the duty off coal and breadstuffs.** If we take the duty off of coal we will have to put it on tea and coffee, and as tea and coffee are of more use to me as a farmer I would sooner have them free and a duty upon coal, of which I have little need. **Then the duty upon breadstuffs is the only thing in the tariff that favors farmers at all.** If Mr. Blake takes that off, while he leaves the present protection to manufacturers, as he promises to do, we shall be the losers for the benefit of the large cities and towns. Now, fellow-farmers, this is the way I look at the matter: As Mr. Blake says we must have the tariff, **let us have the whole tariff, and not put all the taxes upon the land, neither take the duty off grain, in which we are interested,** and leave it on those things in which cities and towns are interested. It is for this reason that I shall continue to support the National Policy, not for party, but because it is the best thing offered us so far by either party. We must consider our own interests, as other people do.

A FARMER.
