RUSSIAN SUCCESSES CONTINUE; GERMANS AND TURKS ARE BEATEN DECISIVELY

LISBON, Nov. 23. — (Monday, delayed) — Parliament met today and the government proposed that Portugal "intervene in a warlike manner" whenever it should be found expedient, in the present European war. The proposal was unanimously accepted and the allies were enthusiastically cheered. The minister of war will issue a decree for partial mobilization.

SUFFRAGETTE OVATION
Hall Crowded — Handkerchiefs Waved — Miss Pankhurst Calls for Recruits.

A deputation of grain growers from the western provinces was presented to the prime minister and a number of his colleagues this afternoon by E. G. Henderson of Windsor Ont., president of the Canadian Manufacturers' Association. He explained that a committee of the C. M. A. had recently conferred with representatives of the western farmers at Winnipeg and while there were some points in dispute between them, they agreed upon a printed memorial to the government. The memorial set forth the need of legislation dealing with the national situation, the tariff and the transportation problem, but these demands were considerably stepped down as transmitted by President Henderson to the government.

As to transportation he confined his remarks exclusively to the necessity for better highways, alleging that it cost the English farmer but 7 cents per ton mile to transport his produce to the railway station, while the Canadian farmer twenty-five cents. "I am not dealing with the railways," explained Mr. Henderson, "but only with the haulage from the old to the new."

The tariff was lightly glided over with the suggestion that, if in any respect it was unjust to the farmer, such changes should be sought in Canada.

For Government Banks.
Roderick McKenzie, secretary of the Grain Growers Association, insisted that the government should also enquire into the transportation charges by rail and water including ocean freight rates.

He said that the government bank which would loan the postal savings and other government funds to the farmer at six per cent, and quoted from the legislation of West Australia. It was unfair, he said, for a government to receive deposits from the farmer and not by federal legislation. He thought relief should be sought in Canada from the provincial governments in stead of from the Dominion.

BRITISH WARSHIP SHELLS Put Zeebrugge in Flames

Two Battleships Did Deadly Work and German Submarines Left to Escape Destruction—Previously the Allied Squadron Shelled Trenches Effectively.

AMSTERDAM, Nov. 24. (via London, Nov. 25, 1:30 a.m.)—"Yesterday, after British aviators had reconnoitered cleverly hidden German gun positions along the coast," says The Tilt's Sluis correspondent, "a combined attack was undertaken by the allied infantry against the German trenches. The attackers were aided by a bombardment from the Anglo-French squadron, consisting of three small cruisers and numerous torpedo boats and torpedo-boats destroyers, which came close to the coast. The Germans replied with a heavy artillery fire. During the afternoon a second squadron appeared between Ostend and Weendun, but neither here nor at Nieuport was there any success for either one side or the other.

Near Westende two German batteries were silenced, but the British and French squadrons were forced to retreat owing to the good marksmanship of the German artillery, which damaged one of the destroyers.

The second squadron then steamed to Zeebrugge, probably with the intention of destroying German submarines. Before sunrise the electric works were severely burning and also the Palace Hotel and other buildings. The church steeple at Helit was damaged, and it is reported that the sluices at Zeebrugge were destroyed.

The German firing suddenly stopped, and the German submarines left the port. After some manoeuvring the British fleet disappeared in the fog. Part of Zeebrugge was burning, and the population had fled in all directions.

The British admiral last night announced that on Monday all points of military significance in Zeebrugge were subjected to a severe bombardment by two British battleships. The German opposition was feeble. The extent of the damage done is unknown. The British ships returned safely.

Popular Dog in the West End Has a Real Funeral.

Thus Runs Inscription on Silver Labeled Casket — Flowers Too.

Our faithful friends of the animal kingdom are not, as a rule, accorded any great ceremony when they die. As a rule a dead dog or cat simply means a hole in the garden, or for a coffin a nearby ash can. But the death of "Friday" has considerably altered things, and he will be accorded all honors. He will rest in a grave all his own out in the quiet country near Aurora, in a coffin with silver handles and Latin inscription.

The History of Friday.
Friday was a collie, the ordinary everyday variety of Scotch sheep dog, faithful and devoted to his master and mistress, Mrs. J. D. Todd, of 378 West Queen street. They reared him from puppyhood, some eight or nine years ago. He was acquired when but a wee ball of fur, and had been the constant pet and companion of his mistress up until the day of his death, yesterday, from old age.

A Friend of All.
To the residence, vicinity of Queen and Crawford streets Friday was particularly well known. He was a constant companion of the children of the neighborhood, with whom he was popular on account of his gentle nature. He was willing to be mauled by anyone.

Yesterday Friday died, as all dogs eventually do, and tomorrow he will have a real funeral.

The undertaker was summoned shortly after his death yesterday, and when a "World" reporter called last night Friday was laid out in state in a yellow silk-lined coffin, with a silver name-plate inscribed in Latin: "Amor gignit amorem." "Love begets love." A large purple chrysanthemum was also very much in evidence.

All that is mortal of Friday is taken to Aurora for burial.

OTTAWA, Nov. 24.—The Northwest Mounted Police, who have been refused permission to go to the front, because their services are required to keep order among the 175,000 aliens in the northwest, have responded with a decision to give one day's pay per month until the war is over. The pay of the ordinary constables is only \$1 per day. This splendid contribution means about \$1,500 per month.

WILL ATTEMPT TO BREAK THRU AT THE COAST

Germans Are Planning a Concerted Attempt to Reach the Channel.

BATTLE LINES FROZEN

Paris Reports That Ground Was Captured From the Invaders.

Special Direct Copyrighted Cable to The Toronto World.

LONDON, Nov. 24.—In the western theatre of war, the present lines of battle seem to be frozen into position. Rheims, Soissons and Ypres all continue to be under bombardment, but there has been no renewal of the German plan to break thru to the coast. There are indications, however, that this may be attempted at any moment. British warships again bombarded Lombardwyde and Zeebrugge, on the Belgian coast.

The Petrograd correspondent of The London Morning Post reports that the British embassy at Constantinople has been ransacked and the Russian hospital there also has been pillaged. All foreigners are said to have been more or less abused.

Conditions are so unsatisfactory that the entire countryside seems likely to return to a state resembling the period of the religious wars in the 16th century, there the famishing population resorted to stealing, plundering and smuggling.

More German Failures.
Advised by the Petrograd correspondent, the determined efforts of Germany to turn the left wing of the allied armies, to penetrate the Allies to clear a roadway to Dunkirk, have resulted in failure. In a summary of the operations of the last six weeks, The Bulletin of the British Army, published in London Nov. 1, so that the annihilation of Belgium might be proclaimed on that date, has been further told of order issued by the Crown Prince of Bavaria and Duke Albrecht of Wurtemberg, exhorting the soldiers to win success for their emperor, who would be at the battle front to "assist" them.

French troops on Monday defeated the Germans in the Argonne district and captured ground of strategic value in the hands of the invaders.

GERMAN GUNS SILENCED.
The British bombardment of the Flemish coast in the vicinity of the German base near Zeebrugge, continued briskly today until late afternoon, when it slackened, apparently satisfied that it had silenced the German guns.

A huge factory building in which the Germans are believed to have housed a plant for the manufacture of gas for Zeppelins, was set on fire.

There are said to be signs that the Germans are planning to undertake a concerted attempt to break thru the allied lines in the channel coast. Still more troops are being rushed up and it is rumored that the Kaiser's plan is to reach the French coast by Dec. 10.

Was to be Leased.
The property in question was leased on Bond Company about three years ago, for a \$3,000,000 consideration, but the deal fell thru some time ago, owing to the condition of the money market. It has a frontage on King street west of 90 feet by 218 feet in depth, and was originally bought by the bond company as a hotel site.

Mr. Daek, however, turned the offer down and incidentally stated that the property, in his estimation, was worth \$10,000 per foot and regular would hold out for that amount.

RUSSIANS NOW IN PURSUIT OF BEATEN ENEMY

German Force of Four Hundred Thousand Badly Cut Up.

REINFORCEMENTS SENT

Another Great Battle North-west of Lodz is in Prospect.

PETROGRAD, Nov. 24. (via London, Nov. 25, 2:37 a.m.)—An official report issued here tonight says there have been continued Russian successes on the Czestochowa-Cracow front where on Nov. 22 the Russians took 6000 prisoners.

A severe German defeat in Poland had been stand between the Warthe and the Vistula Rivers.

Von Hindenburg's army of 400,000 men is said to have been badly cut up and thousands of prisoners are reported to have been taken by the Russians who are now in pursuit.

Reinforcements, however, are arriving, and another great battle is likely to develop on a line nearer Czestochowa, northwest of Lodz.

The official German statement today says there has been no result in the fighting west of Warsaw. Additional information given to the press in Berlin, says the Austrians have abandoned several passes in the Carpathians to superior hostile forces.

A bomb thrown by a German aviator fell in front of the American consulate at Warsaw, breaking the windows and killing several persons who were in the street. No one in the building was injured.

In Full Retreat.
The latest reports of Germans received from Russian Poland along the River Buzza, where a wherlin strategy was thrown to the Germans to have characterized the German advance in this district a victory must be achieved at any cost.

In spite of their frightful sacrifices of men and material, the Germans are unable to break thru the Russian line and they are now in full retreat from their advance positions between Strykow, Zogierz and Wlozki, retreating toward the River Warthe.

FALL BACK 25 MILES.
Special Direct Copyrighted Cable to The Toronto World.

PETROGRAD, Nov. 24.—The Russian army of Grand Duke Nicholas now holds the advantage in Poland. For the moment the German forces of General Von Hindenburg which advanced boldly at Warsaw, for a second time are put on the defensive.

In some places the Germans are said to have fallen back 25 miles.

Last week Berlin declared the great hope of the eastern campaign was placed on the outcome of the battle along Lodz. The German forces there, with those which had advanced to the Russian defenses between Lovic and Skierskiewicz. This necessitates the lengthening of the entire line extending to the southwest to protect the German flank and line communication.

in a Wet Numbers.
The Russians are declared to outnumber the Germans by at least two to one, but on every hand the wonderful organization of the German army had been brought into play toward raising its mobility to the highest degree.

It is realized that weather conditions are much more favorable for the Germans than at the time of the first march upon Warsaw. The Russian road in which the German artillery fired down at that time are now frozen hard and firm and this has enabled the invaders to transport heavy guns with little trouble.

REINFORCED AT LODZ.
Private advices from Berlin state that the Russian reinforcements now in the neighborhood of Lodz are sharpshooters from the fortresses along the River Vistula.

The German army's present position in southern Poland is considered favorable.

The Germans admit that if they are victorious they will be unable to pursue the Russians with their present inadequate forces assembled in this region.

FLEEING TO PRUSSIA.
The Russians have gained a decisive victory on the front from Plock to Ilesza, and the Germans, after heavy losses, are fleeing to the Prussian frontier, says a special from Petrograd to The Mail.

MONTREAL, Nov. 24.—C. C. Lacroix, formerly manager in London, England, of the Bank of Paris, has arrived in Montreal and will open an office here as a purchasing representative of the French Government. He is understood to be negotiating two million orders for the placing a \$10,000,000 order. Mr. Lacroix says there has been such a heavy demand on French factories that the government is compelled to place orders outside the republic.

SIX MILLION BUSHELS OF SEED BOUGHT

Government Purchases Two Million Each of Wheat, Barley and Oats for West.

PLENTY FOR FARMERS

Forty-Eight Per Cent. More Land Prepared for Crop Than Before.

Hon. Robert Rogers, minister of public works, was in town yesterday and Ottawa was last night by the Canadian Northern. He met Sir Rodmond Roblin here, on his way home from Winnipeg, from Mount Clemens, Michigan, where he was under treatment at the sanitarium there. He was considerably improved and left for Winnipeg tomorrow.

Mr. Rogers told the press that as acting minister of the interior he had the views of the immigration and agriculture expert of that department to make a report on farming conditions in the west. The findings of Mr. Walker now in the hands of the minister, showed that forty-eight per cent. more land had been got ready for the crop this year in the west than in the previous year. This one fall made the outlook for next year's crops as the most encouraging in the history of improved conditions next year in Canada.

Seed Wheat Purchased.
But more than that, his department had bought two million bushels each of seed wheat, of barley, of oats, and the government would see that not a single farmer in the west lacks for seed and that of the best. More planting and lots of seed would be the feature of the 1915 crop.

Mr. Rogers also thought that a let-up in the war was in sight, and that next year would be a boom time for Canada.

Inspected the Harbor.
The minister made an inspection visit of the new harbor improvements which come under his supervision as minister of public works, in Toronto, yesterday, on one of his periodic trips, made an inspection visit of the new harbor improvements, which come under his supervision as minister of public works. He expressed himself as much pleased with the progress of affairs.

He was quite emphatic in denying that important contracts were being let outside of Canada. The United States was getting nothing that could be supplied by Dominion firms.

The minister refused to be drawn into the "Hughes" controversy, claiming that his absence from council meetings prevented him from being in close touch with the affair. He also confessed ignorance of any "panic" in the country.

Great Rush of Young Canadians to Colors—Room for Twenty-Five Thousand More.

By a Staff Reporter.
OTTAWA, Nov. 24.—It is reported that 25,000 of the 50,000 men who are to be recruited have been enrolled, so great is the rush of patriotic young Canadians to serve the empire. This leaves 25,000 of the 50,000 to be recruited.

The disposition of the new infantry regiments is expected to be as follows: Five or six to Ontario, two or three to Quebec, four to Manitoba and Saskatchewan, three or four to Alberta, two to British Columbia and one or two to the maritime provinces.

The closing appeal was for the men to give their lives for the great ideal for which the allies were at war, and for the women to give the lives of those they held dearer than their own. Onions as a "Sure Cure" As Useless as Their Odor

By DR. LEONARD KEENE HIRSHBERG A.B., M.A., M.D. (Johns Hopkins).

Medicines, like men, must deliver the goods independently of their titles. No king's stamp and no clinical professorship can make a metal or a man any better or heavier than he is.

Onions, eaten at night, says one of the traditional "home-cure" recipes, are soporific and laxative. There are many scientific pharmacologists, tho, who agree that onions are rather terrific and provocative.

The Fire Commissioner

When the board of control sent on the recommendation to the city council that Chief Thompson be appointed the new fire commissioner, the board of control was merely playing with the question. This did not immediately appear, but since the meeting of the board, the board of control has been expected from the controller's well-known ambiguous and erratic methods.

It is not at all clear whether Mayor Hogben will support the proposal in council, and he stated distinctly at the meeting that Controller McCarthy would not. Consequently the recommendation that goes to the council is a minority one, and does not represent the true views of the board of control at all.

The aldermen should not be pattered with in this way. The board of control has no right to shuffle out of a clear responsibility with an attempt to unload it on the aldermen. It is the business of the board of control to nominate a candidate for the new office of fire commissioner, and nothing less than a bona fide nomination should satisfy the council. If the aldermen do not receive such a nomination they should send back any bogus nomination to the board.

It is most unfortunate that such an important question is being dealt with by the dying days of the council. With the strong political influences which have always been associated with the fire department, and the reluctance of the aldermen to incur hostility from any section of the voting population, it is practically impossible to get a fair verdict from the city council at this season. There is all the more reason, therefore, that the board of control should fulfil the function for which it was created, and give a lead to the aldermen in the circumstances.

It should be thoroughly understood that there is no enmity in the action taken by any section of the council towards Chief Thompson. He has served the city well in his time, but the city has outgrown the system and the methods under which these services have been rendered. When reorganization is demanded it is simply folly to continue the present men and the present methods, and to raise their salaries and think that any new recruits will come out of the old machine. Chief Thompson desires to remain, but a new official is necessary, and the public of Toronto will not be content with any old "Could kale het again."

A new man, even if he has to be sought across the ocean, must be found, who will be independent of the old traditions, the old policies, the old political ties, and the old slipshod ways of doing things. If such a man can be found in Toronto, all the better. But he must be found.

One problem with which he must deal cannot be handled by the old system, nor by the men of the old system. It is the problem of fire prevention. This is a tremendous problem when the public interests are considered. Nothing short of reorganization will enable the citizens to get what is needed in this direction.

The board of control has a splendid opportunity of doing something worth while in this question, and the aldermen should insist that the controllers shoulder their responsibility, and send forward the name of a man who will command the respect and support of the council, and the confidence of the citizens.

A Benevolent Neutral

No doubt can exist about the trend of Italian sentiment towards the participants in the pan-European war. It is not only distinctly but so overwhelmingly in favor of the allies, that even were the government otherwise disposed could not with safety be believed that it, however, no reason to believe that in this respect the judgment of the government differs from that passed by the people, and in addition to con-

WATERED WITH HUMAN TEARS

Considerations of sentiment, come those of Italy and her Mediterranean interests, closely bound up with those of the allies, Italy won independence and unity at a great price, and the traditional hatred of Austria has not only survived, but has been fostered by the fact that unredeemed provinces yet remain under Austrian control.

Preparation is Not All

One does not know whether to deplore or admire the diabolical ingenuity displayed by the German militarists in preparing for this war. Their secret service agents have been active for years in every part of the world, sowing disaffection in India, Egypt, South Africa and other of the British dependencies and dominions, where opportunity offered for its propagation.

Neighbors Quarreled About Use of Well—Osgoode Hall List.

Chief Justice Meredith at Osgoode Hall yesterday handed out judgment for John Milner against Thomas Brown, in respect to the use of a well. Milner, who is the owner of a farm at the northeast corner of lot 26 in the 9th concession of the Township of Tilbury, claimed the use of water from a well on the neighboring farm, owned by Brown. The claim is based on an agreement entered into in 1882 by the defendant that he had the right to discontinue the use of the water at any time.

THE UNEMPLOYED.

Editor World: The winter is here with its cold and snow, and just what to do with the unemployed is a serious problem. Men do not want charity, they want work that will give them money with which to give each man, say a few dollars of life. Now there are hundreds of houses that do not want to be occupied, and the cleaning up of the snow, I would suggest that these people send their names and addresses to some place where they would be kept in record and give each man, say about five houses to look after for the winter. Perhaps the ashes would be sifted or carried out, and the man be able to get enough work to supply him with money till the spring.

OFFERED HIS WIFE MONEY.

George Goulding had had difficulties at home so his wife, Annie Goulding, had him brought to court yesterday on a charge of non-support. He claimed that he did not earn enough. Later he admitted that he was living with another woman in West Toronto, and offered his wife four dollars a week. They have been married 17 years. The case was remanded to the 27th.

AVIATORS HEARD OF NEW MACHINE

Raid on Zeppelin Plant at Lake Constance Soon Followed. Special Direct Copyrighted Cable to The Toronto World. LUCERNE, Switzerland, Nov. 24.—Commander Briggs, the British aviator, wounded after the daring raid on the Zeppelin plant at Lake Constance Saturday afternoon, was wounded in the temple and hand, it has been learned. The only British aviator as a result of the raid, is a smashed window. It is believed that the raid was made by the French and British aviators as a result of information received that the huge dirigible which has been under construction there, under the personal supervision of Count Zeppelin, had been filled with gas preparatory to a test trip.

W. J. O'REILLY RESIGNS FROM LIBERAL CLUB

Will be Guest of Honor at Dinner Where Liberal Leaders Will Speak. After eight years' service as secretary of the Ontario Liberal Club, Wellington street, W. J. O'Reilly will retire on Thursday evening next, and incidentally will be the recipient of a signal mark of favor on behalf of the members, to wit, a dinner of 50 covers. Mr. O'Reilly is very well known not only to members of the Liberal Club, but also to many members of the opposition, and his retirement will come as a surprise. He has occupied his present post for the past eight years, and is very popular in downtown circles. With the dinner will be a private affair to a certain extent, many well-known Liberals will be present. Two well-known members of the party, Hon. G. P. Graham, and Hon. Mackenzie King, have signified their intention of being present.

SUIT FOLLOWS SALE OF STOCK IN O'KEEFE'S

Executors of Widmer Hawke Are Asked for Huge Commission. In the non-jury assize court yesterday Fred Westbrook of Brantford sued W. H. Kerahan, W. H. Garvey and Charles Miller and Company, for the sale of the stock in O'Keefe's Brewery, Ltd., amounting to \$860,000. The sale was supposed to have been made last January to Charles Miller and Company, who were held with her on the same charge of non-support. Kerahan is manager of the brewery, and the stock belonged to Widmer Hawke, who owned 60 per cent of the stock in the company, of which Kerahan is manager. The defence deny that Westbrook was their agent.

NEW TECHNICAL MUST BE "MADE IN CANADA"

Board Will Pay Difference in Price of Imported Materials. "Made in Canada" was the motto adopted by the advisory industrial committee of the board of education yesterday afternoon. The question was raised by the labor representatives in the committee, who pointed out that the doors and wooden framework for various parts of the central technical high school could be procured in Canada at a slight percentage over those imported from the United States. It was decided to pay the difference to home labor benefited.

EXTENSIVE PLANS FOR HAVANA MEET

Racing Will Open in Cuba Early in the New Year at New Course.

HAVANA, Nov. 24.—Most extensive plans have been mapped out by the chamber of commerce of this city for the entertainment of visitors to Cuba this winter.

A conservative estimate of the number of tourists to the "Pearl of the Antilles" this winter is 100,000. The policy of the government is to foster every enterprise that will bring to the island with the idea of making Cuba the winter playground of North America.

It is for this reason that President Menocal and his associates in office are lending every aid to the success of the race meet to be given by the Cuban American Jockey Club at its new course at Marianao, which is scheduled to begin early in January.

The management of the new venture realizes that the ideas of the horsemen must be listened to and given consideration. It is more than possible that the purse list will be raised to a big figure.

As yet the full staff of officials has not been announced. Strong efforts are being made to induce Jas. Rowe to accept the position of presiding judge.

There is a popular not only with the horsemen but in the public mind. He is the ideal man for the position.

At Clushing I visited a refugee haven at midnight, and saw one of the most pathetic sights I have yet seen.

The long flight ahead there, in which were lying 600 men, women and children, was hushed with the peace of slumber.

Down the long rows of sleeping human beings, we passed some of them lying in the glare of the flaring gas jet, that had crawled away into the shadow of the rafters.

At another refugee camp I visited the hospital. Men and women were all in the same ward.

Belgian soldier lay and when my interpreter told this man I was a Canadian and that thousands of my countrymen were coming to fight for his country's liberty, his whole face lighted up.

Three Fast Basketball Games at Central Y

In the Central Y.M.C.A. Basketball League last night three fast and exciting games were pulled off, and although the first time in many months, the team of Valdez, supported by eight Krupp players, defeated the team of the Y.

The second game brought together Bradford and Cook, and this game resulted in one of the fastest of the series. Right from the first minute, in most of the scenes saw, and at half time Cook was leading by 12 to 10.

The third game, also one-sided, showed that Hanson has a team that will give Lee a great argument when they meet next Tuesday night.

The league now had, Hanson and Lee each having won four games and the team of Valdez, who dropped the ball, and the final whistle blew, leaving the score 22 to 12 in his favor.

The curtain contest will come Saturday when Navy meets Army. Army is picked to win on the season's showing.

PLAYGROUND BASKETBALL

The first City Playground Parks Department Basketball League has been started. There are 24 teams formed into three divisions: Junior and Juvenile leagues. The senior league has been divided into: A, boys of any age or weight; B, boys of any age but under 16.

WEST END BASKETBALL

The basketball season in Toronto will start with a rush when the Bradford Saturday night and the West End four teams should be a good turnout of fans. As West End have about the only senior team in the city at the present time, with the exception of Valdez, Bradford have entered their team in the proposed new International League, together with Detroit, Hamilton, West End and Erie.
