CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 86 pages } \$1.00 PER YEAR (The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. XI.

TORONTO, MONTREAL AND WINNIPEG, SEPTEMBER 21, 1904

No. 34

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co' of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL

310 MCINTYRE BLOCK, WINNIPEG.

31 GREAT ST. HULKS, LONDON, E. C.

The Weekly Lumberman - Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman - A 32-page journal, discussing fully and impartially subjects pertaining to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

BRENNEN & SONS MFG Co. Hamilton,
Ont.

FOR SALE

Large Tract of Timber
in Central Ontario

THE PROPERTY OF

THE CANADIAN LAND AND IMMIGRATION
CO., OF HALIBURTON (LIMITED)

This company has a large tract of well timber-
ed land about 125 miles northeast of Toronto.
There are large quantities of Cedar, Hemlock,
Spruce, Balsam, Basswood, Cherry, Birch, Maple,
also considerable Pine, Elm and Ash on this
tract. It is well served by two railroads. The
Company are prepared to sell this timber in
blocks ranging from 5,000 to 10,000 acres, or
more if desired.

There are several good mill sites on the prop-
erty. This would be a good opportunity for
parties who are at present cut out and looking
for a new location.

Maps and plans and further particulars can be
had by applying to

W. H. LOCKHART GORDON,
Managing Director,
157 Bay Street, Toronto.

The saw mill of the King Lumber Mills,
Limited, at Cranbrook, B.C., is reported to
have been destroyed by fire a few days
ago.

CURRENT TRADE CONDITIONS.

ONTARIO.

During the past week there has not been any definite increase in lumber activity, and some dealers express dissatisfaction with the way in which the fall trade is opening up. It was thought that the decline in manufacturers' prices which occurred during the summer season would stimulate buying early in the fall, but so far this has not materialized to any extent, the number and volume of orders booked being considerably less than one year ago. Retail dealers are not buying with much snap, but appear to be relying upon the heavier stocks that are carried at the mills as an assurance that prices will not advance. In this they may be building upon false ground. A few buying orders from wholesalers would, in our opinion, cause a stiffening of prices, and after the Presidential election in the United States is over there may be a sharp recovery in the grades of white pine which have declined the most. The dealer who buys at present prices for his winter and early spring requirements is not likely to make much of a mistake. Local sentiment has improved on account of the settlement of the strike in the building trades, and there is likely to be an active demand for lumber for building purposes during the next two months, with the most enquiry for finishing material. Hardwoods are rather featureless but maintain their firmness. Another decline has taken place in the price of British Columbia shingles, which are now selling for Ontario delivery at \$2.60 for XXX, \$2.80 for XXXX and \$3.10 for XXXX. This is a decline of ten cents from the last quotations. White pine shingles are slightly easier in sympathy.

QUEBEC AND NEW BRUNSWICK.

We cannot report any improvement in the demand for spruce lumber. An occasional order is received for stock for shipment to the Eastern States, and South American specifications are in some demand, but otherwise the market is quiet. Clapboards are selling very slowly but have not weakened in price to any extent. The large mills at St. John have yet about three months for sawing operations, but it is likely that owing to the condition of the market the manufacturers will close down earlier than usual. There is a plentiful supply of lath, which are not in great request, and the expected advance in price has not yet taken place. New Brunswick cedar shingles are reviewed at some length in another column. The range of prices is quiet wide, with the lower grades showing more firmness than Extras.

MANITOBA AND BRITISH COLUMBIA.

The crop reports from Manitoba and the Territories have been more favorable during the past week and it is now reasonably certain that the yield will be up to the average. There is a disposition, nevertheless, to buy lumber only for immediate requirements. Many of the retail dealers are now carrying fairly heavy stocks, and as the farmers are not building at the present time, country trade is slow. In Winnipeg, however, the demand continues good and the tendency of prices is to stiffen. One of the Winnipeg dealers recently secured the contract for the lumber for the Eaton departmental store building, amounting in all to upwards of one and a half million feet. The British Columbia mills are not particularly busy, although there is a fair demand for fir and a slight improvement in the call for shingles. For XXX shingles, 6 x 2 inches, the present price is \$2.25 for delivery throughout Manitoba and the North-West on a fifty cent freight rate. Current prices at the mills are XXXXX, \$1.70; XXXX, \$1.50; XXX, \$1.40.

UNITED STATES.

There is a fair movement of lumber throughout the United States, but conservatism still characterizes operations. The idea is still prevalent in the minds of some dealers that prices will go lower during the winter months, and for this reason stocking up has not been much in evidence. The manufacturers, however, are of the opinion that the fall and winter trade will be of a satisfactory volume, as it is well-known that the stocks of retail dealers throughout the North-Western and Eastern States are very low. Buying for immediate requirements is expected to represent an aggregate amount of business of considerable proportions. Stocks of unsold lumber at the head of the lake are getting low, and it is possible that the cut will be shipped closer to the saws than usual. Half of the lumber to be sawn between now and the close of the season is already sold for eastern shipments. The settlement of the packers' strike in Chicago has been followed by an increased demand for lumber. Building operations are active and there is a large consumption of common boards. While

the demand for hardwoods is not particularly strong the condition of the market is satisfactory. Birch and oak are the leaders and the supply does not seem to be as plentiful as earlier in the season.

A scarcity of lath has developed in the Lake Superior district. Stocks seem to have faded away before it was fully realized and the demand is as strong as at any time during the summer. At the recent meeting of the Mississippi Valley Lumbermen's Association it was suggested that lath prices might be advanced, and while no change was made, the condition of supply and demand may bring about considerably higher prices in the near future.

GREAT BRITAIN.

The Board of Trade returns show that during the first eight months of this year there were imported into the United Kingdom 3,719,278 loads of sawn and plain lumber, a decrease of 173,189 loads as compared with the corresponding period in 1903. The import of Canadian lumber was 62,850 loads, as compared with 871,334 loads in the previous year. It will be seen, therefore, that two-thirds of the decrease in the lumber imports is due to lighter shipments from Canada. This explains in part why Canadian stock has not declined in price as much as the Baltic lumber. The stock on hand, while ample, is not excessive, and prices are about steady. There is still some fear, however, that the bottom has not yet been reached and there is little inclination to purchase in anticipation of an advance in prices this fall. While there has been some improvement of late, it has not been sufficiently marked to entirely restore confidence, and only a few who are willing to take heavy risks are buying in a speculative way. The latest transaction reported from Liverpool for spruce was on the basis of £6 2s. 6d. per standard c.i.f.

NEW BRUNSWICK CEDAR SHINGLES.

The volume of business in this line is fairly good but prices are decidedly unsatisfactory. Extras are being freely offered, f.o.b. Boston rate, all the way from \$3.00 to \$3.25 per M, with the bulk of the sales probably being made at \$3.05 or \$3.10. Clears are comparatively stiffer and range in quotations from \$2.60 to

\$2.80. Second clears are in most excellent demand and we would call the market stiff at \$2.25 to \$2.35. Clear whites are quoted at from \$2.00 to \$2.25, with the bulk of the sales being made at \$2.10 to \$2.15. Extra No. 1's are mainly sold in the Provinces.

The New Brunswick manufacturers have generally small stocks on hand of extra No. 1's. The manufacturers in the Province of Quebec are not on the average so well cleaned up. While some mills are completely sold out, certain others have fairly long stocks. On the whole, however, we would say that the average stock of extra No. 1's was about the normal and that the fall demand will probably take care of this grade all right.

Our opinion in regard to the future is that the market will eventually adjust itself to the old-time difference in price as between extras and clears. In other words, the clears will shortly bring within 25 or 30 cent. per M as much as extras. The stock of clears and second clears is likely to be cleaned up this fall and the probabilities are that the demand will considerably exceed the supply on these two grades.

In spite of the low prevailing prices on extras, and the rather apathetic demand for this grade, still we expect to see the manufacturers at the close of the season with reasonably bare yards.

There is no occasion for any further decline in price on any grades, as extras are now selling at Boston as low as the B. C. red cedar shingles. It may be that after the Presidential election in the States is over the market will revive, but this may be questionable, and our opinion is that all manufacturers will consult their own interests by going into the woods this winter for a very small stock, and furthermore omitting the winter manufacture to a considerable extent, so as to give the market a chance to recover before spring.

For the average manufacturer there is no profit in shingles at present prices, and the only thing that can bring prices back to a profitable level will be a decided curtailment in the output by the manufacturers concerned.

The saw mill of A. A. Brown at Salisbury, N.B., was burned last week. There was a small insurance.

STOCKS AND PRICES.

P. G. Keyes, Secretary of the Department of Interior, Ottawa, will receive tenders up to October 12th for a license to cut timber on Berth No. 1,176, comprising Sections 21, 22, 23, 26, 27 and 28, in district of Saskatchewan, N.W.T.

Morris S. M. Long, wholesale lumber dealer, Hamilton, has secured the order for the lumber to be used in the construction of a large factory and warehouse for the Paris Plough Company, Paris, Ont. The order calls for 150,000 feet of pine and hemlock.

The Sprague Lumber Company, of Winnipeg, have secured the order to supply 1,500,000 feet of British Columbia fir lumber for the Eaton departmental store building now in course of construction in Winnipeg. There will be 12,000 pieces 3 1/4 and 18.

A dispatch from Fredericton, N.B., dated September 15th, says: "The corporate drive left Perth yesterday, and as the water above the city has risen considerably in consequence of the heavy rain, the logs are expected down very soon. Prominent lumbermen express the opinion that they will all be down in the course of a few days."

Messrs. S. P. Musson, Son & Company, of Barbadoes, write as follows under date of August 27th: "The fortnight has been quite barren of arrivals and the lumber market shows some signs of improvement. We have sold a cargo of white pine to arrive at \$26 for merchantable and \$20 for second quality, and we value next arrivals of this at about same prices. Spruce is in light stock, and although this is not the season when there is much enquiry for this class of lumber, yet a small cargo would probably do well. There has not been any arrival of shingles since our last. Long Cedar and Dimension shingles are wanted. Cedar Laying are in fair supply, but would probably realize in the neighborhood of \$2 to \$2.10 according to quality."

NEW BRUNSWICK LETTER.

(Correspondence of the CANADA LUMBERMAN, ST. JOHN, N.B., September 15, 1904.)—The lumber trade has shown no great activity in this vicinity during the last month. Shipments from this part of all kinds of lumber have been very light. This means, of course, an increase in stocks, which are not yet, however, large enough to cause their owners any inconvenience or uneasiness. The market for short lumber has shown no improvement since last writing. Shipments during August and so far during September have been very light compared with the same period last year. Laths are quite plentiful and promise to continue so. Sales are only fairly brisk

and enquiries are fewer than they have been. It is generally felt by dealers here that a rise in price is about due, but the chances are that it will be late in the fall before any increase in demand will affect prices, owing to the stocks which must be got rid of. Provincial laths are worth at present about \$1.85 per M, and American \$2.15 per M, L.o.b. St. John. Freight to New York on laths are quoted at 65 cents per M. Cedar shingles are moving quite briskly, although prices have shown weakness during the past two months. Stocks of high grades are only moderate, while the lower grades are practically cleaned up. It is generally felt by those interested that shingles have now reached the rock-bottom figure, and that the next change will certainly be in favor of the manufacturers. This expectation is based on the fact that shipments of shingles have been light and also that the supplies at the lumber yards throughout the Eastern States must be accordingly small. American cedar shingles are worth L.o.b. St. John Extras, from

\$2.65 to \$2.95; clears, \$2.40 to \$2.45; 2nd clears, \$1.90; No. 1, 90 cents. Freight rates on shingles to Boston are quoted at 22 1/2 cents per M. Spruce boards are moving slowly. The demand for them is less than has been the case for several seasons past. They are plentiful at \$9.75 to \$10 for Provincial and \$11.50 to \$12 for American, all on wharf at St. John. The outlook is now that large quantities of all kinds of lumber will be wintered at this port, and in some cases it may mean that a cessation of operations will be necessary before the winter sets in, owing to lack of wharf room. With one or two exceptions, the mills on the St. John usually close down about the middle of December, resuming again early in March, but, owing to the conditions mentioned above, the chances are that many mills in this vicinity will have ceased sawing by mid-November. The barquentine Lovisa will load lumber at Weymouth, N.S., for Buenos Ayres or Rosario at \$9.

NOTES

The saw mill of the Kamloops Saw Mills, Limited, Kamloops, B. C., was destroyed by fire on September 9th. The loss is estimated at \$50,000, confined to

the mill plant, 40,000 feet of dressed lumber and a few logs. The loss is mostly covered by insurance.

Andre Villani, lumber merchant, of Villanville, Labelle county, Que., has

made an assignment. The list of liabilities is an unusually large one, amounting to about \$300,000. The estate consists of 200,000 logs in the Rouge river and other business operations in Montreal and

different parts of the province. W. H. Walsh, of Montreal, has been appointed provisional guardian of the estate. A meeting of the creditors will be held about the 28th inst.

ROBERT STEWART LIMITED, GUELPH, Sole Canadian Representative for The Southern Cypress Lumber Selling Co. New Orleans, La.

A NEW COMPANY.

We are advised of the formation of the Export Lumber and Shingle Company, Limited of Vancouver, B.C., to carry on business as wholesale dealers and shippers of British Columbia lumber products. The promoter of this company is Mr. H. H.

Spicer, who recently retired from the management of Woods & Spicer, Limited, Vancouver. Mr. Spicer has had over fifteen years' experience in connection with the manufacture and sale of British Columbia lumber and shingles, and is particularly well informed as to the requirements

of the lumber dealers in Canada and the United States. Customers may, therefore, feel assured that the company will intelligently supply their needs with such lumber products as are manufactured in British Columbia. The other incorporators and first directors are: Thomas

Kirkpatrick, shingle manufacturer; J. W. Hackett, of Robertson & Hackett, lumber manufacturers; J. G. Scott, manager Pacific Coast Lumber Company; T. E. Atkins, president Red Cedar Lumber Company, all of Vancouver. Mr. Kirkpatrick is president and Mr. Spicer manager and secretary.
