## Technical and Bibliographic Notes / Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming are checked below.

- Coloured covers / Couverture de couleur
- Covers damaged / Couverture endommagée
- Covers restored and/or laminated / Couverture restaurée et/ou pelliculée
- Cover title missing / Le titre de couverture manque
- Coloured maps / Cartes géographiques en couleur
- Coloured ink (i.e. other than blue or black) / Encre de couleur (i.e. autre que bleue ou noire)
- Coloured plates and/or illustrations / Planches et/ou illustrations en couleur
- Bound with other material / Relié avec d'autres documents
- Only edition available / Seule édition disponible
- Tight binding may cause shadows or distortion along interior margin / La reliure serrée peut causer de l'ombre ou de la distorsion le long de la marge intérieure.
- Blank leaves added during restorations may appear within the text. Whenever possible, these have been omitted from filming / Il se peut que certaines pages blanches ajoutées lors d'une restauration apparaissent dans le texte, mais, lorsque cela était possible, ces pages n'ont pas été filmées.
- Additional comments / Commentaires supplémentaires:

L'Institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

- Coloured pages / Pages de couleur
- Pages damaged / Pages endommagées
- Pages restored and/or laminated / Pages restaurées et/ou pelliculées
- Pages discoloured, stained or foxed / Pages décolorées, tachetées ou piquées
- Pages detached / Pages détachées
- Showthrough / Transparence
- Quality of print varies / Qualité inégale de l'impression
- Includes supplementary material / Comprend du matériel supplémentaire
- Pages wholly or partially obscured by errata slips, tissues, etc., have been refilmed to ensure the best possible image / Les pages totalement ou partiellement obscurcies par un feuillet d'errata, une pelure, etc., ont été filmées à nouveau de façon à obtenir la meilleure image possible.
- Opposing pages with varying colouration or discolourations are filmed twice to ensure the best possible image / Les pages s'opposant ayant des colorations variables ou des décolorations sont filmées deux fois afin d'obtenir la meilleure image possible.

This item is filmed at the reduction ratio checked below / Ce document est filmé au taux de réduction indiqué ci-dessous.

10x	14x	18x	22x	26x	30x
12x	16x	20x	24x	28x	32x

The copy filmed here has been reproduced thanks to the generosity of:

National Library of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol → (meaning "CONTINUED"), or the symbol ▽ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Bibliothèque nationale du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole → signifie "A SUIVRE", le symbole ▽ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

**BULLETIN No. 191**

**BRAN, SHORTS, & CHOP-FEED.**

OTTAWA, November 2, 1909.

**W. J. GERALD, Esq.,**  
Deputy Minister of Inland Revenue.

SIR,—I have the honour to submit herewith the results of analysis of 545 samples of Bran, Shorts and Chop Feeds, collected throughout Canada, in April, May and June of this year.

These are classified as follows:—

Bran .....	148 samples.....	(See Table II)
Shorts and Middlings ..	258 " .....	(See Table III)
Chop-Feeds.....	135 " .....	(See Table IV)
Exceptional .....	4	
Total .....	545	

This collection has special reference to the requirements of the Commercial Feeding Stuffs Act, of this year. Under the Act mentioned, which becomes operative with the beginning of the new year (January 1st, 1910), it is obligatory upon manufacturers of Feeding Stuffs, with certain exceptions, to place them on sale with a definite guarantee of their value in protein and fat, and to specify the maximum amount of crude fibre they contain.

Exceptions are made in the following cases: Hay and Straw, Roots, Grains ground or unground either from a single species or mixed species; wet brewers grains, Bran or Middlings.

The reasons for these exceptions will appear on consideration of the facts that, in the cases of hay, straw and roots, the purchaser is competent to judge the value of what is offered to him. Wet brewers grains are assumed to be fairly definite in value, and on account of their low value, to be little liable to adulteration. Bran and Middlings (Shorts) are definable under Section 26 of the Adulteration Act. Whole grains of mixed or unmixed species, and ground or unground, may be designated as Chop-Feed or Mouliné and on this assumption, may be defined under Section 26 of the Adulteration Act.

Since Bran, Shorts, (Middlings) and Chop-Feed are Feeding Stuffs, which may be sold without registration or guarantee, it is necessary that Bran, Shorts and Chop-Feed should be defined in terms of protein, fat and fibre, in order that the purchaser may be legally protected under Section 26 of the Adulteration of Food Act.

This was the position taken by me in June, 1908, when the Feeding Stuffs Act was in contemplation, and it is clearly stated in Bulletin No. 156. I was less assured as regards Chop Feeds, than regarding Bran and Shorts; (See Bulletin 156 p. 6), and am still in doubt as to the possibility of defining this term so as to be quite fair to the

manufacturer, and at the same time to give efficient protection to the purchaser. I am convinced that manufacturers of high grade Chop-Feeds will find it to their advantage to state, on the package, the value of their product, in protein and fat, and fibre, just as in the case of mixed feeds, where such statement is required by law.

My justification for this contention will be found in a study of Table IV. It will be seen that, for 135 samples sold as Chop-Feeds, the extreme and mean values are:—

	Maximum.	Minimum.	Mean.
Moisture .....	13.92	3.05	10.38
Fat .....	11.75	0.87	3.09
Proteids .....	16.19	6.63	10.70
Crude Fibre .....	25.80	1.21	8.69
Ash .....	7.64	1.04	3.24
Carbohydrates .....	74.59	47.89	64.45

Considering alone the three components, proteids, fat and fibre, upon which the value of the food, as defined under the Act (Sec. 2, e) is judged, we find the variations so large as to make it difficult, if not impossible, to say what should constitute a typical chop feed. The proteids may apparently vary from 16.19 per cent to 6.63 per cent the fat from 11.75 per cent to 0.87 per cent the crude fibre from 1.21 per cent to 25.80 per cent.

Great variation was found in 28 samples of Chop-Feeds, reported in Bulletin 156 (p. 7). The mean results upon both inspections, may be presented thus:—

Mean results for Chop-Feed in—

	Protein.	Fat.	Fibre.
28 samples (Bull. 156).....	11.44	2.72	7.80
135 " (Bull. 191).....	10.70	3.09	8.69

I would respectfully recommend that the following limits be made legal for Chop Feeds, under the condition named.

When Chop-Feed is sold or offered for sale without a registration number, and without a special guarantee from the manufacturer or agent, it must contain not less than 10 per cent of proteids, and not less than 2 per cent of fat, and not more than 10 per cent of crude fibre.

It is however strongly recommended to manufacturers of Chop-Feeds, i.e., feeds made from mixed or unmixed grains, ground or unground, that they register such feeds, and sell them under a definite guarantee.

*Bran.*—In table II will be found the results of analysis of 148 samples purchased as Bran. The extreme and mean results of their examination are as follows:—

	Maximum	Minimum.	Mean.
Moisture .....	13.37	7.90	10.69
Fat .....	9.52	1.42	3.92
Proteids .....	17.56	11.81	14.67
Crude Fibre .....	13.20	3.96	9.26
Ash .....	7.16	3.16	5.53
Carbohydrates .....	64.25	50.06	56.01

The analysis of 27 samples of Bran (reported in Bulletin 156) in June, 1908, gave very similar results.

The mean findings for protein, fat and fibre are as below :—

MEAN RESULTS FOR BRAN.

	Protein.	Fat.	Fibre.
27 samples (Bull. 156) . . . . .	14·74	3·48	8·69
148 " (Bull. 191) . . . . .	14·67	3·92	9·26

The following limits for Bran are recommended :—

When Bran is offered for sale without a registration number, and without a special guarantee from the manufacturer or agent, it must contain not less than 14 per cent of proteids, and not less than 3 per cent of fat, and not more than 10 per cent of crude fibre.

SHORTS OR MIDDLINGS.

It has been found impracticable to distinguish between these terms; and for purposes of trade they appear to be synonymous, at least so far as Stock Feed is concerned. In table III will be found the results of analysis of 258 samples purchased as Shorts or Middlings; chiefly under the former name, which is that more commonly used, so far as I can learn. The findings may be thus summarized :—

	Maximum.	Minimum.	Mean.
Moisture . . . . .	13·56	6·45	10·54
Fat . . . . .	6·88	0·95	4·04
Proteids . . . . .	18·93	10·00	15·25
Crude Fibre . . . . .	12·15	0·22	5·63
Ash . . . . .	5·74	0·88	3·63
Carbohydrates . . . . .	74·18	51·04	60·55

Bulletin 156 contains the results of analysis of 36 samples purchased as Shorts or Middlings. The mean values are as follows :—

SHORTS OR MIDDLINGS.

	Proteids.	Fat.	Fibre.
36 samples (Bull. 156) . . . . .	16·37	4·00	7·75
258 " (Bull. 191) . . . . .	15·25	4·04	5·63

The following limits for Shorts or Middlings as Stock Feed are recommended :—

When Shorts or Middlings is offered for sale without a registration number, and without a special guarantee from the manufacturer or agent, it must contain not less than 15 per cent protein, nor less than 4 per cent of fat, nor more than 8 per cent of crude fibre.

Four samples, which do not fall into either class of Feed Stuff herein considered, were collected in mistake, and are not further referred to in this report.

For the guidance of those interested the Commercial Feeding Stuffs Act is printed as an appendix to the present report.

I beg to recommend the publication of this report as Bulletin 191.

I have the honour to be, sir,

Your obedient servant,

A. McGILLI,  
*Chief Analyst.*

## 8-9 EDWARD VII.

### CHAP. 15.

#### An Act respecting Commercial Feeding Stuffs.

[Assented to 19th May, 1909.]

HIS Majesty, by and with the advice and consent of the Senate and House of Commons of Canada, enacts as follows:—

**1.** This Act may be cited as *The Commercial Feeding Stuffs* Short title.  
*Act, 1909.*

**2.** In this Act, unless the context otherwise requires,—

Definitions.

(a) "Minister" means the Minister of Inland Revenue; "Minister."  
(b) "commercial feeding stuff," "feeding stuff" and "feed" mean any article offered for sale for the feeding of domestic animals, and feeds claimed to possess medicinal as well as nutritive properties, excepting only hay and straw, roots, the whole seeds or the mixed or unmixed meals made directly from the entire grains of wheat, rye, barley, oats, Indian corn, buckwheat or flax seed; wet brewers' grains; the bran or middlings from either wheat, rye, oats, peas or buckwheat sold separately and not mixed with other substances;

"Commercial feeding stuff."

(c) "registration number" means the specific number given "Registration number." by the Minister, under this Act, to each brand of commercial feeding stuff;

(d) "agent" means any person whose name has been filed "Agent." with the Minister as provided by section 4 of this Act;

(e) "guaranteed analysis" means the valuation of a commercial feeding stuff by the manufacturer or agent, in terms of "Guaranteed analysis." its minimum content of protein and fat, and its maximum content of fibre.

**3.** Commercial feeding stuffs shall be considered as of distinct brands when differing either in guaranteed composition, trade mark, name, or in any other characteristic method of marking. Distinct brands.

Name of foreign manufacturer's agent or representative in Canada to be filed with Minister.

Default of filing.

Registration number.

Fee.

Application for registration number.

Registration number, how affixed.

Statement required.

Notice of change of composition and application for new number.

**4.** Where the manufacturer of any commercial feeding stuff has his factory or chief place of business elsewhere than in Canada, he shall file with the Minister the name of a person resident in Canada and acceptable to the Minister, or a corporation having its head office in Canada, as the agent or representative of such manufacturer for all the purposes of this Act; and any notice to, or communication or dealing with, such agent or representative by the Minister shall be effectual for all the purposes of this Act.

**2.** In default of such filing, the Minister may take any proceeding or action under this Act *ex parte*, and without any notice to, or communication with such person or corporation.

**5.** Every brand of commercial feeding stuff offered for sale in Canada shall bear a registration number, which shall be permanently assigned to the particular brand of feeding stuff for which it is issued. The number shall be granted by the Minister on the application of the manufacturer of such brand of feeding stuff, or his agent, and on payment of a fee of two dollars.

**6.** Every application for a registration number shall be accompanied by a statement giving the following particulars:—

- (a) Name of brand for which the registration number is asked, and trade mark, if any;
- (b) Name and address of manufacturer;
- (c) Name and address of the person applying for registration;
- (d) Guaranteed analysis;
- (e) The material of which the food is composed. This is required to be filed in the department, for the information of the Minister, not for publication.

**7.** The registration number must be affixed by the manufacturer, or agent, in a plain and legible manner to every package of commercial feeding stuff sold or offered for sale, and shall constitute an identification of the brand. In addition to the registration number there must be legibly printed, on every package of feeding stuff sold, the statement set out in schedule A to this Act. This condition shall be held to be fulfilled if a printed tag bearing the registration number, and the statement required, is securely attached to the package.

**8.** If a manufacturer elects to change the composition of any commercial feeding stuff for which a registration number has been granted, he shall notify the Minister to that effect, and shall apply for a new registration number to designate the new or altered feeding stuff; and the former registration number shall be cancelled, and shall not be reissued.

**9.** No manufacturer of commercial feeding stuff, and no <sup>annual</sup> ~~license to sell.~~ agent of any such manufacturer, shall sell or offer for sale com- mercial feeding stuff, as defined by section 2 of this Act, unless he has a license under this Act authorizing the sale thereof.

2. Upon application of any such manufacturer or his agent, <sup>Fee.</sup> and upon payment of a fee of five dollars therefor, the Minister may grant a license authorizing the sale of such brands of com- mercial feeding stuff as are named in the license.

3. Such license shall be in such form as the Minister pre- <sup>Period of validity.</sup> scribes, and shall confer authority to sell during the calendar year in which the license is issued.

4. The Minister may renew any such license from year to <sup>Renewal.</sup> year.

**10.** Any purchaser of a registered commercial feeding stuff <sup>Purchaser registers feeding stuff may obtain analysis.</sup> may obtain from the Minister an analysis of the feed as delivered to him, by making application for such analysis, accompanied by a sample of the feed of at least one pound weight, and taken in accordance with the directions given in schedule B to this Act; and on payment of a fee of one dollar. <sup>Fee.</sup>

**11.** The officers of Inland Revenue, the officers of Customs, <sup>Certain officers to act as inspectors.</sup> the inspectors and deputy inspectors of weights and measures, <sup>act as inspectors.</sup> and the inspectors of food, drugs and agricultural fertilizers <sup>R.S., c. 133.</sup> acting under *The Adulteration Act* shall, when required so to do by any regulation made in that behalf by the Governor in Council or the Minister, act as inspectors of commercial feeding stuffs, and shall procure and submit for analysis samples of feeding stuffs offered for sale in Canada.

**12.** Every inspector of commercial feeding stuffs <sup>Inspectors to procure samples for analysis.</sup> will, when ever instructed by the Minister so to do, obtain fo sample of every feeding stuff offered for sale in the strict for which such inspector is appointed.

2. Every sample so obtained shall be transmitted to the <sup>Analysis and publication of results.</sup> Minister for submission to the chief analyst for analysis; and the result of all such analyses shall be published annually by the Minister in such manner as he sees fit, together with such other information pertaining to commercial feeding stuffs as he deems it desirable should be published.

**13.** If any feeding stuff is imported for the personal use of the <sup>Feeding stuff imported for personal use.</sup> importer, and not for sale, this Act shall not apply thereto, but such importer may secure an analysis of the feed as delivered to him, on application to the Minister and on payment of a fee of five dollars. The sample submitted must be taken in accordance with the requirements of section 10 of this Act. <sup>Analysis.</sup>

**14.** This Act shall not apply to feeding stuffs which are manufactured to the order of the purchaser and are not in <sup>Feeding stuff made to order, and not for sale.</sup>

tended for sale, unless such feeding stuffs be actually sold by such purchaser: but such purchaser may secure an analysis of the feed as delivered to him, under the conditions stated in section 10 of this Act and on payment of a fee of five dollars.

**Analysis.**

**Penalties for non-compliance with Act.**

**Proviso as to evidence of fraudulent intent.**

**Forgery of certificate, registration number, etc.**

**Penalty.**

**Unlawful use of certificate, tag or number.**

**Penalty.**

**False certificate.**

**Penalty.**

**Application of fees and penalties.**

**15.** Every manufacturer or agent, or purchaser in cases provided for in the next preceding section, who sells or offers or exposes for sale any commercial feeding stuff in respect of which the provisions of this Act have not been complied with, or who sells or offers or exposes for sale any feeding stuff which does not contain the percentage of constituents mentioned in the manufacturer's statement or certificate accompanying such feeding stuff, shall be liable in each case to a penalty not exceeding fifty dollars for the first offence, and for each subsequent offence to a penalty not exceeding one hundred dollars and, in default of payment of such penalty, to imprisonment for thirty days; provided that a deficiency of one per cent of the protein, or fat, or an excess of two per cent of fibre claimed to be contained in the feeding stuff shall not be considered as evidence of fraudulent intent, if the total value of the feeding stuff in nutritive materials is substantially equivalent to the guaranteed statement made by the manufacturer or agent.

**16.** Every person who forges, or utters or uses knowing it to be forged, any manufacturer's certificate, registration number, or certificate of analysis required under this Act, is guilty of an indictable offence, and is liable to imprisonment for a term not exceeding two years, with or without hard labour.

**17.** Every person who wilfully applies to any commercial feeding stuff a certificate, or tag, or registration number given in relation to any other package or lot of feeding stuff, and every person who sells an unregistered feeding stuff, and every person who lowers the nutritive value of a feeding stuff by mixing any other substances therewith, after the said feeding stuff has been placed on the market by the manufacturer or agent, shall be liable, on summary conviction, to a penalty not exceeding five hundred dollars and, in default of payment, to imprisonment for a term not exceeding twelve months.

**18.** Every person who gives a false certificate in writing with respect to a commercial feeding stuff sold by him as a principal or agent shall be liable on summary conviction to a penalty not exceeding five hundred dollars, and in default of payment to imprisonment for a term not exceeding twelve months.

**19.** All fees paid and penalties recovered under this Act shall form part of the Consolidated Revenue Fund of Canada.

**20.** This Act shall come into force on the first day of January, <sup>Commencement of Act.</sup> one thousand nine hundred and ten.

## SCHEDULE A.

### STATEMENT TO BE ATTACHED TO PACKAGE.

1. (*Name of brand.*)
2. (*Registration number.*)
3. (*Name and address of manufacturer.*)
4. (*Analysis as guaranteed by the manufacturer, which shall show the percentage content of protein, fat and fibre.*)
5. Notice: Any purchaser may have an analysis made by the Department of Inland Revenue, on payment of one dollar. Samples must be taken in conformity with the regulations. For regulations address the Deputy Minister of Inland Revenue, Ottawa.

## SCHEDULE B.

### INSTRUCTIONS FOR TAKING SAMPLES OF FEEDING STUFFS TO BE SUBMITTED FOR ANALYSIS IN ACCORDANCE WITH SECTION 10.

Samples of feeding stuffs submitted by a purchaser for analysis must be inclosed in glass jars or bottles, and properly sealed. The samples must be taken in the presence of the vendor or of his representative.

#### *Process of Sampling.*

In lots of five tons, or less, portions shall be drawn from each separate package, and from at least ten packages; or if less than ten packages are present, all shall be sampled. In lots of over five tons, at least ten per cent of the packages shall be sampled. The portions so taken shall be thoroughly mixed in the presence of the parties interested, and from this mixture the sample sent to the Minister is to be taken, and must bear the signature of vendor and purchaser; and at the same time a duplicate sample is to be left with the party whose goods are inspected, subject to the call of the manufacturer or agent.
