Two Thousand Homeless. There was probably thirty-six mil-lion feet of lumber in the yards burn-ed up in Beaudette. With the excep-tion of a few old buildings on the river front and the railway station, there is not a building left standing, altho the Zigler sawmill, two miles down the river, was saved.

Two thousand people are homeless, and a tran load of about eight hundred were sent to International Falls, Minn., this afternoon. A great many tents, clothing, and bedding will be needed to protect them. It is estimated that 100 cople have perished in the woods.

education), Murdoch Macdonald, S. H. Armstrong and Controller Ward. The Indian Winner, George, of Beaver-ton, was as modest as Longboat. Scholes, who has won the boys' maces at different times at the Ward Marathon, went out in the big race and won a gold watch, finishing ninth. The beautiful Ward Trophy goes to Beaverton. The bonds were signed for it on Saturday night, and George takes it along with him.

MONDAY MORNING, OCT. 10, 1910.

TORONTO'S RAILWAY PROBLEM. Nothing is more needed in furthering the cause of public ownership han a thoro consideration of all the conditions involved in any particular plan. The city at present is confronted with the necessity from the standpoint of the public welfare of taking over and operating the street car service as a public utility. With this is included the construction and operation of lines to supply all newly annexed territory, and the construction and operation of an underground system for rapid communica tion between the outside districts and the city centre.

This is a fairly large order, but it is not beyond the city's ability to handle. The opponents of public ownership would like nothing better than to provide conditions by which their pessimistic prognostications might be fulfilled, and the city be led into schemes which are not germane to the municipal service, and which may overweight it to a dangerous degree. The proposal has been made that

the city acquire the radial railway on the Lake Shore-road, with a view to the future acquirement of all the radials leading into the city. This looks like a proposal to load up the city ownership of the street railway with enough cargo to sink the whole galley outfit

There are five radial roads at present affecting the city streets, whose franchises expire at different dates. the first falling in on Dec. 31 next year. Notice is to be served by the city so that as far as the city limits are concerned this franchise may be abrogated. A similar step must be taken in each of the other cases. A perpetual franchise is claimed on the Yonge-street line north, but some arrangement may be effected with respect to the portion within the city boundaries.

William Mackenzie, Mr. Mackenzie cessful stage. The city council of St. is to meet the city council this morning at 11.30 to discuss the possible sale of the railway to the city. He has not committed himself in any way to any proposal tentative or other-We believe that Mr. Mackenzie has sufficient public spirit and enough regard for his own interest to acquiesce in any proposal that will harmonize both these factors. In other words that. Mr. Mackenzie is a reasonable man, and has not the remotest idea of biting off his nose to spite his face. If the city can make Mr. Mackenzie an offer for the street railway which will, on re-investment, give him and his shareholders an approximately equivalent return, with something over for the trouble of making the change, there need be no anxiety about the conclusion of an agreement. Mr. Mackenzie has a wide enough field for the expansion of his interests in the radial railway projects in which he is interested around Toronto. We can imagine that if the city wishes to turn him out of all the activities in electric railroads about the city in which he has been engaged, he may demur, and it is a question whether the city should endanger the proposal in which it is vitally interested for the sake of taking up a project which may lie outside its sphere. bon Suppose the Lake Shore-road was acquired, and the city franchise still dragged on between the devil and the deep sea (which only figuratively re- ly, an efficient application of the old present the city and Mr. Mackenzie), public ownership would be loaded up with the questionable success of a stub radial line, out of touch with the central system. The World has no objection to taking over the whole ladial and street railway series of systems now controlled by Mr. Mackenzie if that could be done. But that is quite another thing from making plecemeal attempts to run stub lines in different parts of the .municipality in the face of a determined ocrporation hostility There is a point that might be negotiated at the present time with very much better advantage to Toronto. It is the acquisition of all franchise rights from the radials on streets inside the city boundaries, or prospectively that may come within the city boundaries whenever an extension of the city limits occurs. This point might be more readily settled now than at any other time. Whether the city may eventually acquire all the radials or not it is certain that complications already exist thru the

Toronto cannot afford to allow any ation to control the streets inside the city limits, now or at any future time. We believe, therefore, that /it is more important to make terms for the immediate surrender of any radial rights possessed by the corporations under Mr. Mackenzie's control on streets inside the city, and the subsequent surrender of any further portion of such roads annexed to the city than to commence a pro hopeless campaign for the possession of the whole five-fold radial system. Even if Mr. Mackenzie volunteered to sell all the radial lines to the city

to-day, would the ratepayers vote the nany millions necessary? As between the desirable and the possible there is little choice.

What the city should do' is to get the street railway; build the new lines. needed; extinguish any radial rights that exist inside the city limits; and get ready for rapid transit on a tube system. All this implies the admission of the radial roads to the olty on terms to be agreed upon. Two new roads on the cast and on the west have already secured entrance rights, and if steps be not taken atnce, there will not long be anything left to negotiate.

nox, K.C., for defendant. This was an action for wrongful arrest on the civil side. Judgment: In order to succeed the plain-tiff must prove that the defendant ob-tained the order by some deceptive prac-tice on the judge, that he either stated or suggested something that was untrue, or omitted 'to state something within his knowledge that was material and which would or might have caused the judge to refuse to grant the order, and also that in applying for the order, and also that in applying for the order, and also that seted maliciously and without any rea-scrable and probable cause for so doing. The real explanation of the arrest is, in my opinion, referable to the trouble which existed in order to get a settlement be-tween the tenant Fitchett and his land-lord, Lloyd (over 30 years of age), for whom Walton acted as banker and spe-cial-agent in the matter of settlement. The affidavit for arrest, as it stands, produces a false effect by suppression and was in-tended to be used for the intimidation of the plaintiff so as to coerce bim into mak-ing a settlement. These elements afford sufficient evidence of malice as legally used to justify this action. Fitchett was in jall 17 days before bis discharge. At the last trial the jury gave šlis00 damages; this is too much, but 1 think justice will be served by a verdict for 5500 and a dis-charge of the judgment recovered on the three ncies with costs of that action in favor of the plaintiff. The plaintiff should get all his costs of this litigation. Before Falcombridge, C.I. Johnston v. Thousand Island Ry. Co.-J. L. Whiting, K.C., and J. A. Jackson, Garanoque, for plaintiff. G. H. -Appointment of Dr. Hastings a Foregone Conclusion Now.

Confidence prevails among the memers of the city council who advocate the appointment of Dr. Charles Hastngs as medical health officer, that this afternoon's session will finally dispose of the issue. The vote of last Thurs-day made it quite clear that neither Dr. Goodchild nor Dr. William Hill of Minneapolis, the only other real con-tenders, has a sufficient following, but unless there is a change of attitude on the part of some aldermen, the appointy ment of Dr. Hastings will be by a nar-row margin.

row margin. A feeling, however, exists that, see-ing the hopelessness of supporting other nominees, council will not em-barrass the new incumbent by a show of strong opposition, and it would not be surprising if he were given a two-thirds vote. Any doubt as to the board of control again recommended

Any doubt as to the board of control again recommending him is set aside by Controller Foster's statement that he will stand shoulder to shoulder with Controllers Ward and Church. The board meets at 10.30 a.m. to-day to send on the recommendation. With Ald. McMurrich an absentee, there should be 24 council members present to-day. At Thursday's meet-ing, the united vote for the other two candidates was 11. With Ald. Mc-Carthy and Hambly present, the vote should be 13 to 11 for Dr. Hastings, even without the expected slump in his favor. his favor.

Inspector Greer and Acting Inspector Boyd went to Toronto Saturday afternoon and will return here on Monday to secure more witnesses for the inquest, which opens at 7.30 p.m. Friday. It is surmised that a leading counsel when several witnesses swore they saw him with the girl at various times be-tween 8.15 and five minutes to 10 o'clock on the fatal night. Jardine from Toronto will then appear to exmine witnesses, somewhat after the fashion of the Kinrade enquiry, inasstill sticks to his story that he saw Lizzie Anderson last talking with a strange, clean shaven young man wearing a brown suit and brown derby much as the latitude allowed in getting at the facts is more than in a court enquiry.

Within two hours an arrest was made of a stranger, who had been notic-ed by the police as seeming to have no particular business. The suspect, after examination at the police station, final-ly admitted being Silvester. A crook-ed finger aided in the identification. The child, a healthy boy of 8 months, was located soon after Silvester's ar-rest. and is being cared for at the home of Chief Raynor.
Silvester was a prosperous grocer of South Bend, and as a result of domestic troubles his wife obtained legal sepa-ration from him and custody of their child. Silvester disposed of his busi-ness, and, watching his opportunity, stole the baby from its carriage while his wife's sister was wheeling it on the street, and made good his escape.

east of the city in hopes of finding some clue to the perpetrators of a bold hold-up of a branch of the Royal Bank late last night. The bank is situated on Park Drive in Grandview, an east end suburb. Assistant Manager Huggett was just closing the front doors at 10 o'clock, when he was confronted by two masked men, armed with rifles. Huggett and R. Jardine; man-ager of the bank, were forced to march back into the vault, the door of which the robbers closed. The robbers then ransacked the various cash drawers, tak-ing \$500. Then they reopened the vault doors, and, having freed the officials, sauntered out to the street and disappear-ed.

\$340 PIANOS FOR \$240 OUR MENDELSSOHN PIANO CLUB

The Mendelssohn Piano Club secures for its members unusual advantages in price and terms as the result of cumulative buying-fifty people joining together and buying fifty pianos of the same style and make at one time.

A membership in the Club provides :

- 1. The opportunity to purchase a \$340 piano of a popular style and favorably known make for \$240.
- 2. The privilege of paying for this piano in very reasonable instalments, with only a small advance over the spot cash price instead of interest.
- 3. The guarantee of the makers, and also our broadest guarantee, which carries the privilege of exchange within five years for any of the other makes of pianos which we sell.

Details of these advantages are more fully given in the succeeding paragraphs. Read them carefully, and above all remember that the offer is made by the firm of Gourlay, Winter & Leeming, whose knowledge and standing in the trade are your very best guarantee.

As the club is limited to fifty members, we need scarcely say that prompt enrolment is advisable. Inspection and Comparison are Invited Now.

TRIAL OFFER TO OUT OF TOWN MEMBERS-To our out-of-town buyers we offer to mail descriptive illustrations and further to use for them our knowledge and experience in making good selection, and, on receipt of references as to reliability, to ship piano, on the understanding that the piano is to be thoroughly examined and tested before they forward to us the cash payment. If satisfied, cash payment to be at once forwarded, whilst if for any reason piano should not prove as represented, or satisfactory, then piano to be returned to us within, say, fifteen days, we agreeing to pay return freight.

GOURLAY, WINTER & LEEMING, 188 Yonge St., Toronto

In a word, we not only guarantee satisfaction, but ask no payment until you yourself decide the question of satisfaction. Could any offer be more fair to an out-of-town customer?

First "Pop" Band Concert.

Military band concerts are features of old country life. In the summer they play on the promenades, as they do in the parks here, where there is too much crowding for promensaing to be pleasant. And in winter they play in the great covered-in spaces, like the Waverley Market in Edinburgh. This feature has been lacking in Toronto, and in some means to see the Imand in some measure a very notable start has been made to supply it in the concert given on Saturday night the band of the 48th Highlanders under Conductor John Slatter. When ten or more for the return trip at a one goes to hear a military band it is fraction over single fare. The fac not orchestral music one expects to that there will be an afternoon as well hear, and probably none made such a as an evening performance, will give mistake on Saturday night. What the a splendid opportunity to those living widdince did hear was a most excellent within reasonable distance to see this audience did hear was a most excellent rendering in traditional military band style of a first-class program. The audience was a good one, and enjoyed itself heartily and encored nearly every number, and Mr. Slatter was good-humored enough to acquiesce. There were three parts in the program, class. ical, miscellaneous and popular. But it was all popular and indeed the classical items received as loud ap-plause as any." Herold's "Zampa" overture is an old favorite and there is no more picturesque. overture written. The band brought out all the fine qualities possesses and the delightful clarionet parts received full justice. The tone poem by Jean Sibelius. "Finland-ia," followed and the dynamic effects of drums and harsh brass combinations were given with great power.

Wagnarian influence is strong in the composition, but it contains fine melodious passages and the splendid chorale-like movement was greatly appre-ciated. This was the first encored item, and Liszt's Hungarian Rhapsody. The charming No. 2, was also encored. dance, themes were played with fine delicacy, and the abandon was not wanting which is the essence of this gipsy music. In the second part, fifteen of the band sang Barnby's setting land. of Tennyson's "Sweet and Low" in geous markedly slow time, with unusually mpressive effect. It was sweetly done, nd a catch was rendered as an encore. quartet from Verdi's "Rigoletto" vas taken by two cornets, alto and trombone, the trombone having the solo. This was done in excellently smooth and mellow style, the tone for and intelligent story. The piece is aba trombone being a revelation in sweetness. "The Bells of St. Martin's" introduced a fine cathedral chime and the piece proceeds to a climax of bell clamor and clangor. As an encore a xylophone solo was given. The last part included two fantasias, a military nedley and a hunting scene. A very

charming Egyptian serenade was giv-en with a capital nightingale imitation. These spirited numbers were all en-cored, and the audience was loth to hear the national anthem at 10 o'clock.

THE LAW OF HABIT

Rev. W. A. Cameron's Address to Young Men.

"The law of habit" was the subject of an address given yesterday afternoon by Rev. W. A. Cameron, B.A., at a mass meeting of the men's Bible class in the First-avenue Baptist Church. He considered that the ignorance and thoughtlessness of men regarding the laws governing their own nature was lamentable and appalling. The human conquest with the self was of primary importance, as. its result was inevitably the outer conquest.

He criticized society in distinguish ing between great and little sins, and as an example pointed to the "white lie" as a term frequently used to cover the nakedness of a deliberate falsehood. The speaker laid stress on the fact that the tendency of habit was to make actions, good or bad, easier; and that custom is so powerful that it can even transmute pain into pleasure. "Some men in Toronto have sinned day end his life.

against their constitutions," said Mr. Cameron "Nature knows no reversal of her detrees. She is inexorable, and the trembling, palsied limbs of these men are the evidence of the lives they have lived. There are men in this city who have flung away their social op-portunities. If you could read their history and go back with them to the days of early manhood, before they trified with delicate things, and violeted their own consciences, and injured their fellows, you would wonder how their lives could ever come to be what

"Some of you meant well at the age of 20," said he in conclusion. "At 30 or 40 you think you are ruined. You know how it feels to have missed the third ball, and to have heard the um-pire cry "Strike three," the batter's out."

line

The contemplation of this line sug-gents a possible theory as to the C P.R.'s intentions regarding the use of its two stations, on the waterfront of its two stations, on the waterfront and at North Toronto. It is logical to suppose that eventually the thru passenger traffic from Buffalo and Detroit will be handled at North To-rento, and that from that station a permanent express service will be maintained over the northern line to Montreal and Ottawa, while a new train, starting at the Union Station, will run over the southern lake shore line to Bathurst or Perth, and thence

PASTOR RUSSELL'S SERMON

ZIONISM IN PROPHECY Meeting-The Hippodrome in

NEW YORK, Oct. 9.—Pastor Russell of the Brooklyn Tabernacle to-day ad-dressed a Jewish mass meeting, in re-sponse to a request sent to him by a. Jewish Mass Meeting Invitation Com-mittee. The invitation was signed by many prominent Hebrews of New York City

City. The Hippodrome is really an im-mense and elegant opera house with a capacity of about five thousand. It was crowded to-day and many falled to gain access. The Jewish people of this city, who number more than a million, have become deeply impressed by various discourses which Pastor Russell has recently delivered and were alert for to-day's meeting-to hear his alert for to-day's meeting-to hear his presentation of Zionism as foretold by the prophets. The speaker held his imense audience spelbound for near-two hours, all apparently as uncon-dous of the flight of time as was the speaker himself. After the service the Hebrews could be seen in little knots and groups here and there in the corridors and in the streets discussing the subject. The speaker's views were evitly shared by the majority. Altogether the meeting was something unique. Never before did Jews give such attention to the message of a Christian minister. And never before did a Christian character before did a Christian minister give such a message to the Jews.

The speaker read to he audience many quotations from the prophecies of the Bible relating to Zionism, the first one of which was Psalm cli, 13-18 — "Thou shaft arise and have mercy upon Zion; for the time to favor her, yea, the set time, is come. For thy servants take pleasure in her stones, and favor the dust thereof. Then shall the Gentiles fear the name of Jehovah, and all the kings of the earth thy and all the kings of the earth thy glory. When the Lord shall build up Zion, He shall appear in His glory." Pastor Russell declared that while once he had been inclined to discard the Bible as unreliable along the lines of higher criticism, he had subsequently given it very earnest study, entirely apart from all creeds and theories of men. This study had great-ly enlightened his mind and had given him a very different view of the sacred book. He now has absolute condi-dence in it. He now realizes, not only that there is a great Creator, but that He is definite, orderly in His dealings with humanity, in His shaping of earth's affairs. For instance, the first be dated B.C. 588. If this be true it could make a difference of but 18 years Psalm quoted mentions the time, yea, the set time, for the return of divine favor to Zion. So he finds matters all thru the scriptures. In due time David, Solomon and others represented Jeho-vah in the Kingdom of Israel and "sat upon the throne of the kingdom of the and give the date 1932. Pastor Rus-1914 date:

The speaker would not preterable. The speaker would not pre-tend to say the day or month or year in which these things would be accom-plished—in which the Gentile lease of earth's dominion would expire and Messiah's kingdom assume control. He did, however, offer a suggestion: So far as he could discern, the time for ing blessings.

These Worsted Suits are

Great Favorites

If men would allow their wives, sisters, cous-

ins or aunts to choose their clothes, about three

out of four of them would be wearing blue wor-

sted suits. There's a touch of refinement about

them that most women like; manufacturers seem

to take more pains in making up blue or black

worsteds, and the result is that the best looking

ready-to-wear suits on the market are made up of

this material, and in these colors. Here are three

lines at three popular prices that should start

quite a goodly company of men into the winter

Men's Fine Quality English Clay Twill Worsted Suits, in thoroughly fast navy blue and black shades; cut in the latest three-button single breasted sack style,

months with a new blue suit.

Men's Dark Navy Blue and Black English Worsted Suits; a soft, firmly woven, smooth finished material, with a fine diagonal twill; cut from the popular 3-button single and double breast-ed sack models, slightly conforming to the figure, and with broad shoulders; carefully tailored and perfect fitting. Sizes 34 to 44. Price \$15.00.

Men's Extra Quality English Worsted Suits; a soft clay twilled material, in rich dark navy blue and black shades; also a fine quality black vicuna cloth, cut from the new fall and winter models, in single and double breasted styles, with nicely moulded shoulders, and long, shapely lapels, finished with A1 quality twill mohair body lining, and haircloth, and thoroughly shrunk duck inter-linings; tailored with first-class workmanship. Sizes 36 to 44. Price \$18.00.

To Withstand the Chill of Autumn

Men's Fall Weight Underwear, made from fine English natural wool; it is soft to the skin, free from burrs, and is guaranteed unshrinkable; made especially for us, and bears our own registered trade mark, "Body Guard." Shirts or Drawers. Sizes 34 to 46. Tuesday \$1.00.

Men's Ceylon Flannel Pyjamas, neat stripes and good washable colors, military collar, silk frogs, and white pearl buttons; just the kind for present wear. Tuesday, a suit \$1.50.

EXTRA SPECIAL.

150 Men's Pure Wool Sweater Coats, knitted in a fancy stitch, fastens at neck with silk cords and heavy white pearl buttons; these coats are made from fine selected Scotch yarns; they look neat, feel nice, and fit perfectly; we know they are superior to any coat sold elsewhere at the price we are selling them. Tuesday, special price \$2.50.

New up-to-date Fall and Winter Shapes, in Men's Derby Hats, made from very fine grade pure English fur felt, with good quality silk bindings, and easy fit-ting cushion leather sweatbands; a splendid hat at a special price; color black only, for \$1.50.

Men's Square Crown Stiff Hats, a very dressy hat for mid-dle age or older men, fine English make, at \$2.00.
