### WITH the British Army in France, March 31.—The wheels of the war mill continued to turn slowly on the British battlefield yesterday, although there are many indications that intense speeding up may come at any moment.

### How great have been their losses during the whole ten days it is impossible to compute. The Germans have now put into the crucible of the battle over 80 divisions of infantry, and all have been more or less unmercifully hammered. Within the last few days comparatively no new German divisions have been thrust into the line, which probably means that the enemy is preparing a second attack, for which may fall at any time with all the tremendous weight that was behind the first blow. That blow failed. Nowhere did the Germans make that gap which was the whole end of their endeavor, and today we stand unshaken across their path.

### ENEMY ARTILLERY WEAK

### Allies' Guns Overpower Inferior Opposing Batteries—Much Hand to Hand Fighting.

### Then Rode Thru Heavy Fire, Occupied Position and Held It Till Ordered to Retire.

### It became known late Sunday night that the officers commanding the cavalry and infantry detachments sent out to prevent the French mob attacking the drill hall were both wounded. Lieut. Monzarat of Montreal, who commanded the mounted troops, had his horse killed by a flying missile. Lieut. Bourdeau, a returned soldier who formerly belonged to the 52nd Battalion of the Canadian adian regiment which distinguished itself at Courcellette, who had charge of the infantry last night, was also slightly injured by a bullet which penetrated his chest.

### Along the rest of the battlefield comparative inactivity continued. In fact, the status of affairs in the tenth day of the battle, and while no one can foresee what trends such vast operations will take, there are many things to support the following interpretation of the situation: For two days past there has been a cessation along the major portion of the northern front of the bitter warfare waged at the outset. Undoubtedly this is in accordance with the German plans, for it was impossible for the enemy to proceed further without pausing to bring forward his supporting forces, reorganize his fighting forces and establish communications. These things are now being accomplished. The main factor deciding the operations is the question of time.

### From the region of the Somme southward to where the battle line turns eastward, furious fighting has continued on various sectors, but everywhere the enemy has been held and even pushed back at some points. Nowhere has he been able, altho he continued to throw great masses of men into the fray, to gain ground, except an infinitesimal tract at the French front near Mesnil. British and French machine guns and riflemen, as in days past, again tore great holes in the ranks of the field gray as they endeavored to press on.

### April Fool

Today was the date set for the German entry into Paris, according to an interview Von Hindenburg gave the German newspapers some time before the offensive began. He told the reporters how the German army would break the allied line and roll right onward into the French capital. Easter Sunday has now passed and Paris is 70 miles from the battlefield. Moreover the French have defeated a powerful German attempt to break thru their line.

Paul street. The mob smashed in the windows and ransacked the floors, taking anything that would be useful as a weapon.

While this was in progress Armand Lavergne, noted Nationalist politician, rushed up and addressed the rioters. He asked them to cease their disorders and announced that troops were coming that way.

Mr. Lavergne told the gathering that unless the military authorities were here all would be well; that the foreign soldiers (meaning western troops brought here to quell the riots) would be sent here to look after the enforcement of the Military Service Act in a proper manner.

The crowd cheered Mr. Lavergne. Before dispersing several men said that if the outside military were not withdrawn as promised, they would wait on Mr. Lavergne tomorrow night and urge him to lead them in further raids.

The First Shootings. The first shootings of the riots were reported to the military authorities at ten o'clock. Arthur Quart and the two Misses Roach were struck by bullets and slightly wounded while walking along a street seven or eight blocks from where a disturbance was going on down town in connection with the raid on the Martineau hardware store. The affair was a mystery, for no one heard the shots fired.

The city is crowded with troops, and squads of men with fixed bayonets and machine guns patrol the uptown and downtown sections of the city. In addition, all buildings that have been attacked—the offices of the Quebec Chronicle and L'Evenement, and the registrar under the M.S.A.—are surrounded by soldiers.

A special guard was placed around the Grand Allee apartments, where Col. Landry, the officer commanding the local military district, resides. A number of regiments from different parts of Canada reached Quebec today to supplement the local forces.

SCORE'S GUARANTEED IRISH BLUE SERGES.

Serges are so scarce—so hard to buy and cost so much when a merchant goes to market these days, that it would seem as though there could be little possibility of meeting the demand for Irish Blue Serge Suitings. But Score's foresight in purchasing extra lots of them in the earlier days of the war, when the markets were yet normal and the demand was full, put them in a position today to fill every blue serge want that comes to them at about pre-war prices, and they are offering the demand of their special today, regular \$40.00 value, made to your measure in the Score way, at \$34. STEAM PLUG STRIKES AND KILLS WORKMAN

William Hearst Meets Sudden Death at Plant of British Forgings.

When the steam plug on the boiler on which he was working at the British Forgings blew out and hit him on the side of the head about 10.30 last night, William Hearst, 527 Eastern avenue, was almost instantly killed. He was rushed to the emergency hospital in connection with the plant, where he expired in a few moments. He was married and about 45 years of age. The body was removed to the morgue, where an inquest will be held.

WAR SUMMARY THE DAY'S EVENTS REVIEWED

Paris reported last night the slackening of the battle. After the defeat of the Germans in their endeavor to break the French front they made yesterday less violent and less numerous attacks. They also began to dig themselves in with expectation about Laessigny, showing their intentions of standing on the defensive. The British army straightened their line at several points north of the Somme and checked the enemy south of the Somme. It is gathered from a statement of Lloyd George that Britain is going to make fresh sacrifices to meet the German attack, and that this will include the raising of the age limit for compulsory service. The allies expect that the battle is still in its first stages, and that it will last as long as the second battle of Verdun. This is not what the Germans planned. They aimed to reach Paris on April 1.

The action in which the French checked the German was a formidable attempt to break their front near the junction point with the British line, and it was the most violent that had developed since the first few days of the conflict. It proceeded from Laessigny to Moreuil, a 40-mile front. The mere fact that the enemy turned his chief efforts against the French shows that he had given up these attempts against the British, having learned from experience that the British were too strong for his best troops. The British line just north of its junction with the allies, near Demun, also became involved as far as the Somme, but the British clung tenaciously to their positions, and where they gave a little ground they regained it in counter-attacks.

Moreuil was the point of the most furious fighting. The Germans, who also heavily attacked other sectors, came again and again to the assault, and Moreuil changed hands several times. The last charge of the allies, which ended the attempts of the enemy for the time being at least, also carried some heights beyond Moreuil. It was an international effort, for British and French troops charged in the same ranks together. The battlefront presented the form of a triangle, with the most furious efforts of the enemy breaking themselves against its southern side. Moreuil, which is on a main highway from the southeast of Amiens and 12 miles out of that town, formed the apex of the triangle, and it also marks the farthest point attained by the German spearhead.

Von Hutier, one of the ablest German generals, had command of the

Lloyd George Calls on Canada For Further Reinforcements

Duke of Devonshire Receives a Cable Congratulating Dominion on the Way Her Troops Have Fought.

Ottawa, March 31.—The Duke of Devonshire, governor-general of Canada, has received the following cablegram from Premier Lloyd George: "I have been inspired during the past week with the constant news of the dauntless courage with which the Dominion troops have withstood the desperate assaults of vastly more numerous German troops. This battle shows that the empire has reason to be proud of all its sons. Our armies cannot have too many of these splendid men. As already announced, we propose to ask parliament to authorize immediate measures for raising fresh forces. I would also urge the Government of Canada to reinforce its heroic troops in the fullest possible manner and with the smallest possible delay. The struggle is only in its opening stages and it is our business to see that our armies get the maximum measure of support that we can give them. Let no one think that what even the remotest of our dominions can now do can be too late. Before this campaign is finished the last man may count."

CATEGORY "B" MEN TO BE CALLED UP

Those Who Reported for Service Will Report at Once.

NO RE-EXAMINATION

This Will Be Done Only in Special Cases as Directed.

Indications are that all men in class I of medical category B will be called to the colors. The Ottawa announcement stating that B men would be called up did not say how many, but a statement made by C. Leslie Wilson, provincial registrar, shows that practically all B men will be asked to serve in the Canadian Expeditionary Force. He says that the 600 B men who last fall reported as ready to join the colors will receive their notices to report for service during the present week. There were 600 other B men who claimed exemption. The registrar will send questionnaires to them "at once." Upon the questionnaires being returned to the registrar the B men will be directed to appear before exemption tribunals. The expectation is that by May 1 all their cases will have been disposed of. There is to be no general re-examination medically of the B men. This will only be done when a tribunal so instructs, by special order. The B men will be placed in all branches of the army in which men of their medical category can serve. These branches are railway construction battalions, pioneer and labor battalions, forestry, army medical corps and the army dental corps. The calling out of the B men is an action which has caused much surprise, as attention is being drawn to the fact that reports received from England stated there were thousands of soldiers in that category who were available for work on the lines of communication of the western battlefield.

WAR SUMMARY THE DAY'S EVENTS REVIEWED

offensive, and his plan was to swamp the French lines with the weight of his attacks, constantly throwing in fresh troops for each new effort. The French met him with counter-attacks, and they fought their way into confusion. They disputed every inch of ground, and they mowed the Germans down with their snipers in thousands. The French soldiers never fought better. A Canadian cavalry regiment also played a notable part. After losing a hill, it re-formed and charged through a hurricane of fire, storming and retaking the summit. North of Moreuil the British also engaged and counter-attacked the Germans like the French. Although they lost some ground they later regained it. The struggle with the British is for the head waters of the Luce also for a ridge to permit the enemy to obtain observation towards Amiens. The French also frustrated an attempt of a German battalion to establish a bridgehead across the Oise. They captured or killed the whole German force employed in this attempt.

North of the Somme the British had distinctly the better of the fighting. They gained ground in several local attacks, notably about Serre, and they also occupied a village east of Arras after repulsing a German attack. They smashed several German heavy attacks and they are holding their long line in strength. The eleven days' resistance has sufficed to enable them to make the necessary dispositions apparently to establish an equilibrium. It is not improbable that the expected second serious German attempt, expected from the lull allowed by the enemy before employing his additional fresh troops, was the attempt of Von Hutier against the French. This general had tried the tactics which he found successful against the Russian, but he miscalculated the resisting powers of Anglo-French troops, and so he adequate return from his military investment.

It is expected that the unifying of the allied forces under the single command of General Foch will enable them to resist the enemy with more economical expenditure of effort. The allied forces will be more united in the past the chief assistance came from the politicians. The entire American force will come under General Foch, and the exhausted American units, their training completed, have begun their march to join the allied strategic reserves.

Statement by the Premier on Subject Will Probably Be Made on Tuesday.

By a Staff Reporter. Ottawa, March 31.—Upon the resumption of parliament there is likely to be a spirited and prolonged debate upon the administration of the Military Service Act. The gigantic battle now raging on the western front, the war situation in Quebec, and the recent disturbances in Quebec, and the action of the government in calling out the men in category B all combine to make the question suddenly acute. The government would prefer to state now regarding on Tuesday, but it is believed that the discussion will be precipitated on Tuesday either upon

## BATTLE TO EXTEND INTO LONG STRUGGLE LIKE VERDUN FIGHT

French Troops Foresee For-  
midable Assaults Con-  
tinuing Indefinitely.

### SURPRISED BY STAND

German Commanders Did Not  
Anticipate Formidable Re-  
sistance From British.

With the French Army in Franco, March 30.—The impression among the troops fighting along the front is that the battle will develop into a long struggle similar to those at Verdun and the first battle of the Somme. The Germans are making strenuous efforts to bring their heavy artillery forward to support their infantry, which has borne the brunt of the whole engagement thus far. It is considered probable that they will make another formidable rush with all their available reserves, but the allied commanders view the future with confidence. They regard the situation as a general one, as satisfaction and believe that the only change will be toward improvement.

Germans in Pocket.  
The Germans now occupy a sort of pocket in the Franco-British lines, which leaves them open to flank attacks. For this reason they extended their attacking line to the eastward of Arras for the purpose of something out a sharp salient; but in order to be successful they will be compelled to pay a heavy price. Whether they will be able to afford the extremely heavy losses they have sustained is for them to decide.

They used up a larger number of divisions of their reserves than they foresaw would be necessary to make the progress they have already achieved, for the resistance of the British was unexpected, considering their immense disparity of numbers as compared with the attackers.

Allies in Harmony.  
The front now extends approximately 55 miles and the French occupy the line to within a few kilometers south of the Somme River, everywhere the French and British working in complete harmony, using their newly-occupied positions with wonderful celerity. On Thursday, when the Germans occupied a hill called Mount Renard, the

### MACHINE GUNS BUSY

Men Only a Few Hours in the  
Fighting Line Acquitted  
Themselves Splendidly.

By W. A. Willison.  
Canadian Army Headquarters, March 31.—From early Friday night until Saturday morning the noise of guns has been persistent upon the whole front from the south to Hill 70 in the north. Steadily for over ten hours our heaviest field guns, trench mortars and machine guns maintained their fire on thousands of yards of front against the enemy trenches, support and assembly areas, communication lines and strong points. At 11 o'clock and again at 5.30 our artillery fire increased to battle intensity, the enemy assembly and concentration areas and communication roads being raked with creeping barrages. The intensity and duration of the fire was such that no enemy attack developed north of Oppy.

Before the great battle began two enemy attempts were made to raid our lines. At one point an enemy party was sent over to see if our front line was occupied. It was challenged by one of our bombing patrols. The enemy attacked the post in the fighting which followed the Boche was driven out of our trenches by rifle fire and pursued by a Canadian bombing squad. Two prisoners were captured and numerous casualties were inflicted on the Hun. Our casualties were nil.

Raid is Defeated.  
Another raid against our positions was completely defeated with estimated enemy casualties of 20. The raids were preceded by heavy artillery and trench mortar barrages. The enemy placed a box barrage around one of our posts and advanced to attack in two parties, one 20 strong and the other 15. The Canadians broke up both attacks with rifle and machine gun fire before the enemy got within 30 yards of our line.

Another sharp encounter took place between a German cavalry regiment and four other ranks and a much larger party of Boches. Hearing the voices of the enemy the officer crawled up to the shell hole and to within 10 yards of their post. Alarmed, the Germans sniped the positions for 15 minutes and then rushed the shell hole. Emptying his revolver, the officer succeeded in fighting his way through the 10, regaining the rest of his party,

Heavy Fighting Develops in Luce  
Valley Against Strong German  
Efforts.

### THOUSANDS OF CASUALTIES

Enemy Infantry Advanced to As-  
sault in Four Waves—Beaten  
by Counter-Attacks.

London, March 31.—The British have restored their line south of the Somme in the Luce Valley after a vigorous counter-attack, the war office announces.

Two strong attacks by the Germans against the British front from Marcel Cave to the Somme were repulsed with heavy losses to the enemy. German attacks north of the Somme were made with four waves of infantry, which were beaten back at all points.

In the neighborhood of Serre (north of the Somme, seven miles above Albert) the British advanced their line, taking 230 prisoners and forty machine guns. The statement follows: "South of the Somme our line in the Luce Valley was restored yesterday, after a vigorously executed counter-attack. Two strong attacks made by the enemy in the course of the day against our front from Marcel Cave to the Somme were repulsed, in each case with heavy loss to his troops. In his attacks delivered yesterday immediately north of the Somme the enemy's infantry advanced to the assault in four waves, and were repulsed at all points by our troops. In his attacks delivered yesterday immediately north of the Somme the enemy's casualties were estimated in the thousands. The trial, upon the outcome of which is declared to hang the fate of the syndicalist movement in the United States, may last for six months, in the opinion of federal officials.

British Revenue Has Increased  
From All Sources But Excise  
London, March 30.—The treasury department for the financial year ending today shows a revenue of £707,334,885, an increase over the preceding year of £123,808,983. Nearly all sources of revenue show increases except those from excise which dropped £4,322,000. The chief increases were £30,294,000 from excess profits and £34,476,000 from the income tax. Expenditures amounted to £2,696,221,406, as compared with £2,188,112,710 last year. National war bonds brought in £614,215,000.

## INDUSTRIAL WORKERS OF WORLD TO FACE TRIAL OF CONSPIRACY

Chicago, March 31.—More than 100 Industrial Workers of the World will go to trial here tomorrow, before Federal Judge Landis charged with conspiracy to disrupt the government's war program.

The government's charges against the defendants include allegations of sabotage, including the slowing-down of production and the wanton spoliation of material, propaganda for strikes to delay the output of war munitions, and covert intrigue against military service.

## NATIONAL LABOR BOARD TO PREVENT STRIKES

Washington, March 30.—An agreement that there shall be no strikes or lock-outs during the war and a recommendation that all industrial disputes be settled by a government mediation body are the principal provisions of a national war labor program projected by representatives of capital and labor and made public tonight by Secretary of Labor Wilson.

The program was drawn up by six representatives of capital, six of labor, and two men representing the public, after conferences lasting more than a month. The public representatives were former-President Taft and Frank P. Walsh.

The mediation body will be known as the national war labor board, to be made up as was the board that prepared the program. In addition there will be local boards in the industrial centres to deal immediately with any controversies that might arise.

FOR NINETY-NINE YEARS.  
Germany Will Utilize the Rumanian Oil Fields for That Length of Time.  
Copenhagen, March 30.—The Taeghische Rundschau (Berlin) says that the agreement between Germany and Rumania regarding the petroleum industry will secure for Germany the utilization of the Rumanian oil fields for the next 99 years, and exclude all other countries. Germany has secured occupation which, it is pointed out, will guarantee this. This Rumanian will put part of Germany's war cost, the value of the monopoly being estimated at millions of dollars.

CANES FROM BELGIUM.  
Kings and Presidents Presented With Sticks Made From Door of Ypres Cloth Hall.  
Washington, March 31.—Liaut.-Col. W. G. MacKenzie of the British army has presented to President Wilson a cane made from the door of the celebrated Cloth Hall of Ypres, Belgium. Similar canes have been given King George of England, King Albert of Belgium, President Poincaré of France, Lloyd George, premier of England; Gen. Haig and Gen. Petain.

CONDENSED MILK BARRED.  
Great Britain Prohibits Import After Today and Seizes All in Transit.  
Washington, March 31.—Great Britain has issued an order, which the allied provisions export commission communicated today to the war trade board, prohibiting the import of condensed milk after April 1, except by the government, and requiring that new incomes for export of condensed milk now in transit which may arrive after that date. The war trade board accordingly has decided not to grant new incomes for export of condensed milk to England except as approved by the provisions commission.

## SITUATION BETTER BATTLE ONLY BEGINS

Lloyd George Issues Statement on Appointment of Foch to Supreme Command.

### NEW MEASURES ADOPTED

Indomitable Bravery of British Soldiers Gradually Stopped Enemy's Advance.

London, March 31.—Premier Lloyd George yesterday announced the appointment of Gen. Foch as commander of the allied armies on the western front. In making the announcement the premier said: "For the first few days after the German army had launched upon our lines an attack unparalleled in its concentration of troops and guns the situation was extremely critical. Thanks to the indomitable bravery of our troops we gradually stemmed the enemy advance until reinforcements could arrive and our faithful ally could enter into the battle. The situation is now improved. The struggle, however, is only in its opening stages, and no prediction of its future course can yet be made.

"From the first day the war cabinet has been in constant session and in communication with headquarters and with the French and American governments. A number of measures have been taken in concert between the governments to deal with the emergency.

"The enemy has had the incalculable advantage of fighting as one since the battle began, taken a most important decision. With the cordial co-operation of the British and French commanders-in-chief, General Foch has been charged by the British, French and American Governments to co-ordinate the action of the allied armies on the western front.

"In addition to the action taken to meet the immediate needs of the moment, it will be necessary to bring into operation certain measures which have long been in contemplation should a situation such as the present arise.

"It is clear that, whatever may happen in this battle, the country must be prepared for further sacrifices to ensure final victory. I am certain that the nation will shrink from no sacrifice which is required to secure this result, and the necessary plans are being carefully prepared by the government and will be announced when parliament meets."

### TWO MEN ARE DEAD FOLLOWING ACCIDENT

Sam Green and Jerry Nelson Were Both Fatally Injured.

### TWO OTHERS INJURED.

Car Failed to Turn Properly at Patterson's Corners, Todmorden.

Two men were so severely injured that they died later and two others were badly cut and bruised in a motor accident at Patterson's Corners at 230 Saturday afternoon. A motor car driven by Jerry Nelson, aged 55, sanitary contractor, 115 Jarvis street, Toronto, crashed into a telegraph post. Nelson was hurled thru the wind shield and sustained a fracture of the base of the skull, which caused his death in the General Hospital at 10 o'clock Sunday morning. Sam Green, aged 54, blacksmith, Todmorden, who was also sitting in the front seat, was thrown to the ground and died on the way to the hospital, while John Dart, Plains road, and J. Bell, Leslie street, Todmorden, were knocked senseless by the impact.

An inquest will be opened this morning at 11 o'clock by Dr. George W. Graham in Trulls Undertaking Parlors.

Nelson, Green, Dart and Bell were riding north on the Don Mills road when the corners were reached the driver turned to follow the road east again. The car did not make the turn successfully, but shot into a telegraph post on the north side of this part of the road. Green, sitting in the front seat, was crushed, before being thrown from the car. Nelson was jammed behind the steering post, which the impact of the collision caused to break, while part of his body went thru the wind shield. Dart and Bell were sitting in the back of the car and were thrown out. Dr. R. H. Fleming, Bee street, was summoned. He rendered first aid and ordered Green and Nelson to the General Hospital in Washington and Johnson's private ambulance. Before the hospital was reached Green died and Nelson, who sustained a fracture of the base of the skull, died at 1 o'clock Sunday morning.

### ELEVATOR MAN FOUND CRUSHED AND DYING

Before He Could Be Released From His Position By Police, He Died.

Robert Freeman, aged 26 years, employed as a day elevator man at the C.P.R. building, corner of King and Yonge streets, was almost instantly killed yesterday morning when he was crushed between the cage and the frame work of the elevator. It is not certain at what time the accident happened, but the discovery was first made by Nickleson, a C.P.R. operator, who arrived about 8.45. He stated he heard a groan and looking down into the pit, saw the figure of a man doubled up. He immediately notified the police, but when they arrived the man was dead. The body was removed to the morgue, and the chief coroner was notified, and it is probable that an inquest will be held.

No one seems to know just how the unfortunate man met his death, but the police were of the opinion that Freeman must have been cleaning the brass work on the cage and the first floor, and in some manner touched the controlling gear in the cage, which started upwards, and he was caught between the cage and the framework, and then fell over into the pit. The cage in the shaft where the accident happened was found at the top of the building, and scattered all over were blood stains. Freeman lived at 25 Hayer street, and had been working for the C.P.R. for about three months, but very little was known about him. The force with which he was crushed was evidenced by the fact that the marble

How Shannon Progressive Methods Have Won Confidence

Only a few years ago Shannon began with ONE CAR. Today there are ten of these splendidly equipped plumbing cars covering the entire city. The value of Shannon prompt service was soon recognized by householders and business firms alike. It was an innovation, and was readily measured both by its utility and dollars and cents value. Anywhere, at any hour—home, factory, store or warehouse, whenever anything goes wrong. Prompt and reasonable.

work at the top of the cage and the metal work on which the indicator was mounted, were pushed right out of place, and plaster was scattered all over the floor.

### DROWNED IN LAKE.

Young Boy Disappeared From Home on Bathurst Street.

The body of Alexander Oliver, aged 8, 46 Bathurst street, was taken from the water off the National Yacht Club, foot of Bathurst street, yesterday afternoon about three o'clock by members of the life saving crew. The boy is thought to have been drowned on Saturday afternoon while picking up fire-wood around the docks.

According to the police the lad was last seen about 12.15 Saturday afternoon when he was sent with a bag to gather up chips for the fire. When he did not return the police were notified of his disappearance and they after making inquiries, in turn notified the life saving station. Although uncertain whether the boy had fallen into the water or not the members of the crew got out drags and finally located the body of the boy in about six feet of water. The body was found about 3 o'clock Sunday afternoon and was removed to the morgue. The bag the boy was using to carry the fire-wood in was found some distance from the scene of the accident.

### YARDMAN INJURED.

Hand Cut Off and Leg Badly Mangled.

Yardman John Crony, 144 Weston avenue, of the Grand Trunk Railway Parkdale yards, was seriously injured at 7.15 Saturday night when he fell from the running board of a light shunting engine in charge of Engineer Isaac Belyea. Crony fell from the side of the engine and one of his hands was cut off at the wrist when it fell across the track. His right leg was badly mangled. He was rushed to Grace Hospital, where he was attended by the company's doctor. He will recover.

### FELL FROM STREET CAR.

George Fulton, 69 Robinson street, was removed to the General Hospital last night in the police ambulance suffering from injuries received when he fell from a Church street car at the corner of Isabella and Church streets. He sustained a severe scalp wound.

### MRS. E. B. LANCELEY DEAD.

She Died Suddenly While Sitting Talking to Her Family.

The death occurred suddenly at her residence, 14 Park road, of Mrs. Lanceley, wife of Rev. E. B. Lanceley, pastor of the Central Methodist Church, Deer Park. Mrs. Lanceley had been ill two weeks ago, but had recovered sufficiently to dispel any doubts as to her recovery. On Saturday afternoon at half-past 12 she was seated with her family when she fell heavily forward and died almost immediately.

Mrs. Lanceley was a native of Strathroy, and had been married more than twenty years. Those who survive are her husband, her mother, Mrs. Hannah Jane Eastman, and her two daughters, Miss Winifred Lanceley and Mrs. Cecil Roberts, both of Toronto. The funeral will be held from the parsonage, 14 Park road, on Tuesday afternoon at 3 o'clock.

### RETAINING WINTER FIGURE FOR MILK

Milk Producers Think Cost of Production May Increase.

### MANY CLAIM A LOSS

Long Discussion Before Decision Was Arrived at.

What was justly characterized by its president as a most successful meeting of the Milk Producers' Association of Toronto has ever held, resulted on Saturday afternoon in the decision to continue the winter figures on sale prices of milk and cream to the retailers. The prices for the winter season were \$2.50 for an 8-gallon can of milk, delivered to the dairy, and 66 cents a pound for cream and butter fat, freight paid, and cans and jackets supplied. The vote on this matter was practically unanimous, despite the clever, forceful arguments of the minority.

Price Regulation Difficult. The president, E. H. Stonehouse, congratulated the gathering upon its size and calibre. It was a notable testimony, he said, to the urgency of the situation in the world. The price of milk was a matter with which the producer was fully conversant. Owing to unsettled conditions the regulation of prices had proven a difficult task. The farmer had been unselfish enough to consider both the retailer and the consumer. The speaker did not believe that the farmer's position had been properly understood. He has wrongly been accused by unthinking people of profiteering. Investigation would disprove this fallacy.

Continuing, Mr. Stonehouse pointed out the need of feed for milkers, and the restriction of the feeding brought about thru the need of grain feed for both the whole object of the association, concluded the speaker, was a fair return for the labor involved in producing milk.

Would Have Price Remain. R. F. Hicks moved that the price of an eight-gallon can of milk delivered at the dairy remain at \$2.50. This was the price during the winter months. John Newhouse favored this course. Feed had risen in price, and with the increasing cost of barley at perhaps an even higher figure. He advocated the sale of butter-fat and cream at 66 cents a pound. Manning Doherty, of Malton, moved an amendment calling for the sale of milk at a price offering a margin of 100 cents. This was the price of production had amounted to 23-23 cents a gallon, or \$2.88 for an eight-gallon can, which is 38 cents more than the sale figure current in Ontario last winter. Today milk production was costing the farmer 30 cents a gallon, and with the increasing rise in cost of materials would itself rise considerably above 30 cents.

Opposed to Raise. E. A. Orr opposed the amendment. He felt it would be necessary to be both the consumer and the retailer. A. Sanderson of Malton did not favor Mr. Orr's point of view. He had paid \$6000 for his barn, his cows were often ill, and he had to get to church even, he was so busy. The officials of the association are E. H. Stonehouse of Weston, president; A. J. Reynolds of Hampton, secretary-treasurer, and E. A. Orr of Clarkson, vice-president. Among the directors are John Newhouse of Snelgrove, Forestburg, Oakham and R. F. Hicks of Newtonbrook.

### J. S. MACDONALD DEAD.

He Was Well-Known in East Side Business Circles.

In the death of James S. MacDonald, 97 Shuter street, the east side has lost an old and highly respected resident who lived in that locality for over 40 years and owing to his business connections formed a wide acquaintance. For some years he was partner in the firm of MacDonald Bros., and of late years was engaged in the barrel business. He leaves a widow. The funeral will be held today at 2.30 from his late residence, 97 Shuter street, to Mount Pleasant Cemetery.

### JAMMED UNDER FENDER.

Only the presence of mind of a street railway motorman saved the life of Jimmy Levine, aged four, 131 Baldwin avenue, when he ran in front of a southbound Harbor car on Spadina avenue opposite Baldwin avenue yesterday. When the child ran directly in the path of the car the motorman jammed on the brakes and dropped the fender. The boy's body

### MURDERER IS KNOWN.

The police, after careful investigation, are aware of who killed Domenico Zangarrie, the Italian who was found dead in his home at 44 Henderson avenue Friday afternoon. The murderer is said to have taken place at 7 o'clock Friday morning.

**The New Wash Materials Are As Dainty and Smart As They Can Be**

Supposing you've come here to spend Easter—it's more than likely that you've brought a shopping list "as long as your arm." And, of course, new wash materials will have an important place on the list. These are particularly attractive:

**White Embroidered French Linen**, 30" wide, the coarse, open weave that is so much in vogue, embroidered in small ring design; worth \$1.25 a yard. Today **85c**

**White Voiles**, 36" to 40" wide, a wide range of plain weaves as well as self checks and plaids. The value, 75c a yard. Today **49c**

**Pink Nainsook**, a fine silk finished fabric for lingerie... 50c

**White Wool Flannels**, materials that are very scarce today, so lines like these are specially interesting; English all-wool gauze flannels, much in demand for summer nightgowns, etc. \$1.25 a yard; soft Curzon flannel, of heavier weight, pure wool and unshrinkable, a beautiful quality that looks like fine cashmere, per yard **\$1.25 and \$1.50**

**Women's Fine Ribbed Cotton Vests**, "Harvey" make, low neck, short sleeves and sleeveless, finished with neat shell edge and flat lock seams. Sizes 34 to 38, 75c; sizes 40 to 42 **\$1.00**

**Women's Fine Ribbed Cotton Drawers**, to match, same quality and finish, umbrella knee, both styles. Sizes 34 to 38, 75c; size 40 **\$1.00**

**Ribbed Swiss Cotton Vests**, sleeveless, a beautiful quality, having plain lace yokes with silk medallions, 85c; same quality, with V-neck **\$1.00**

**The Boy Who is at Home for the Holidays Must See About Getting New Spring Clothes**

To the average boy the Easter Holidays are among the red letter days of the year—and while they are great days for jollifications of various kinds, part of the freedom from "durance vile" must be given up to getting the Spring clothing in order.

Wherefore we strongly advise an early visit to our Boys' Outfitting Section. It's a department that offers boundless attraction from every standpoint. The merchandise is compactly arranged, the qualities are the best, and the prices are most reasonable. We mention in particular our standard **NAVY CHEVIOT NORFOLK SUITS** for boys, of which we have a full stock in sizes 26 to 35. Two qualities priced at **\$12.00 and \$16.50**

**MURRAY-KAY, Limited**

**Towels and Towellings at Prices That Speak for Themselves**

Here are unusual values in towels and towellings—such prices in connection with such merchandise are becoming rarer—so we strongly advise good housekeepers to take full advantage of them.

**500 yards RED CHECK GLASS CLOTH**, 23 in. wide, extra strong, very absorbent and lintless. The value is 35c a yard. Today **28c**

**200 yards PLAIN OR RED BORDER LINEN ROLLED CRASH**, 17 in. wide, good drying quality, strong and lintless. The value 50c a yard. Today **35c**

**60 dozen HUCKABACK TOWELS**, size 20" x 36", manufacturer's "Seconds," that is to say, slightly imperfect, extra strong and absorbent. Today, per dozen **\$3.00**

**150 dozen large size WHITE TURKISH TOWELS**, just received after being on order nine months. Value 40c each. Today, per dozen **\$3.00**

MONDAY MORNING, APRIL 1.

Demobilization.
While the war is not over yet by any means, and more men must be sent overseas for some time to come, there is a growing feeling that the end is in sight.

Many of the best authorities believe that the demobilization should be spread like the mobilization, over a term of years.

The men released from military service after the war must have work and a living provided for them if we are not to face anarchy.

There are three classes of returned men in evidence at present, and it must be said for the great majority that their conduct is admirable.

There has been some not unnatural nervousness as to the issue of the huge offensive directed by the Germans against the allied armies.

Those who are disheartened by the retreat of the British know little about fighting.

Those who are disheartened by the retreat of the British know little about fighting. The man who can step levelly in the ring generally gets the decision, and it is the knockout blow that is needed to secure a decision.

they are clumsy in their estimates. Von Hindenburg gave it out with great pomp that he would be in Paris on April 1.

There is another reflection which will not sweeten German thoughts of the battle, tho it should increase respect for the "contemptible little army."

It will probably be found when all the returns are in that our men killed as many more Germans than they themselves numbered, and probably twice as many casualties in all occurred in the German ranks as there were British engaged in the retirement.

A reasonable moderation marked the conclusions of the convention of the Ontario section of the Labor party of Canada last Friday.

The increasing business of the Yonge and College branch of the Royal Bank has new buildings.

The new building, which is 25 feet by 80 feet, is a distinct departure in branch bank architecture in Toronto.

An Unkind Insinuation. It was most unkind of Mrs. Loring to put me in the position she had, by her remarks.

Temperamental, like all artists, Mrs. Loring remarked. "Yes, I guess I am."

Nothing more was said of my awkwardness at the restaurant, nor of my giving way to tears on the way home.

George would be at home in a few days. Mrs. Sexton had gone back to her quiet, friendly manner of the first days when we were alone.

## BLUE SHIRTS WON THE STANLEY CUP

Defeating Vancouver in Fifth and Deciding Game by One Goal.

NO SCORE TILL THIRD Checking Close Throat and at Times Sides Were Reduced to Five Men.

The Toronto blue shirts won the Stanley Cup and the world's championship that accompanies it when they defeated Vancouver before a small crowd by a 2 to 1 score at the Arena on Saturday night in a game that was slow in spots and spectacular in others. Both teams were out to hold their opponents down and for that reason the checking was very close and there were numerous penalties for minor offences. This was the first time since the inception of the game that the teams were reduced to five men a side. They played the first two periods without a score, which shows how close the checking was. All the scores were made in the final session. Skinner grabbed the first one when he drove in a long shot from over the right boards, which Lehman ducked and the puck went in over his shoulder. The period was half over before Vancouver evened it up, when McKay took the puck down the side and passed over to Taylor right in front of Holmes. It fell to Denneny to score last goal when he took the puck at centre ice and worked his way thru four of the Vancouver team and then pulled Lehman out of his net and pushed the rubber past him. It was the greatest piece of individual play that was seen at the Arena in a long time.

Great Defence Work. First period—Vancouver were the first to get started and rush in on Holmes. Toronto went down and Noble and Misking combined and went in close, but Lehman turned the shot across. Good back checking by the blue shirts held the Vancouver team out and their efforts were mostly long and pushed the corner. Cameron promptly slid in and sat on it until the whistle blew. The officials checked and handled the game with excellent style.

## ARGONAUT MEMBERS ARE ALL IN THE WAR

The Argonaut Rowing Club will hold their annual meeting in two weeks when officers will be elected and the decision reached to keep the doors open the coming season, but with no possibility of racing. It was found last year impracticable even to hold races for boys, as the thirty youngsters who joined found their way gradually to the R.M.C., the naval college or one of the services. Practically every eligible member of the Argonaut Rowing Club is in the war.

Both teams suffered greatly from penalties, and the bench was seldom empty. The offences were mostly minor trips and holdings. Individual rushes were the order, and the work of Cook and Cameron featured. Third period—Skinner drove a hard one on Lehman's pads right at the start. Then the puck was stopped from off-side, and Skinner, getting the puck at the face-off, tried another long one with the result mentioned above. Taylor and McKay evened it up nine minutes later when McKay took the puck down and passed over to Taylor when the latter was thru the defence. Denneny grabbed the goal that won the championship when he took the puck at centre ice and went in thru the whole Vancouver team and drawing the goalie aside pushed the puck past him for one of the greatest individual plays ever seen in the Arena. Play became very rough and at this time, and the westerners moved their whole team up in an effort to tie it up again, but the Toronto defence tightened up and the forwards stuck to their men like leeches and succeeded in holding them out, and the bell rang, giving the blue shirts the world's professional championship. The Toronto players received \$289.12 each as the winners' share of the series.

The players were all trying hard and it would be impossible to select any stars, but owing to the earnestness of the players it produced some amusing incidents. Once in the dying moments of the game when the westerners had their whole team up trying to tie the score the puck went into the corner. Cameron promptly slid in and sat on it until the whistle blew. The officials checked and handled the game with excellent style.

## CANADIAN WHEELMEN'S ASSOCIATION'S ANNUAL

The 37th annual meeting of the Canadian Wheelmen's Association held at the Queen's Hotel, Toronto, on Saturday, was one of the most successful conventions of the fine old organization on record. The reports of all officers for the past year reflected the optimistic and progressive spirit which is found everywhere in Canada; trade circles, and there were many predictions for a big racing year. The meeting received the announcement that the Canadian Bicycle Dealers Association, Ontario section, had decided to boost the racing idea under the auspices of the C. W. A. The sport-governing body will also issue sanctions as usual for the various provincial championships. The Ontario section will continue its war-time policy not to hold national championships this year in deference to the scores of racing men who are now fighting overseas. That the scope of the C. W. A. is once more being extended to all parts of the country was indicated by the various reports. One indication of the movement was the acceptance of the application for membership of the Vancouver Bicycle Club, the president of which is "Con" Jones. Secretary Henry Richards reported that the association had realized \$740 from patriotic races last summer, and this amount had been distributed to military hospitals. A complete cricket outfit had been presented to the Newmarket Military Hospital. E. A. O. Johnston, chairman of the Dominion Racing Board, announced sanction for racing in 1917 were more than three times as great as in 1916. During the year he had issued 163 racing licenses to riders. Announcement was made at the meeting that Vice-President Robert Falconer had been appointed to the executive of the Sportsmen's Patriotic Association. It was also announced that W. M. Gladish, Toronto, had been appointed the official in charge of the Canadian racing prize bureau of the United Cycle Trade directors of New York. A number of valuable prizes for Canadian races will be the United States. It was also decided to have several thousand copies of the C. W. A. constitution and racing rules printed. These rules will be revised. Officers elected for 1918 were as follows: Honorary president, J. H. Ross, Waterloo; president, Ald. Louis Ruel, Montreal; vice-president, R. H. Fairbank, Toronto; treasurer, Jack Smith, Toronto; secretary, H. E. Richards, Toronto; corresponding secretary, W. M. Gladish, Toronto; Dominion Racing Board chairman, F. A. O. Johnston, Toronto; membership committee chairman, H. E. Marshall, Toronto; rules and regulations, Sgt. R. E. Coupland, Bradford; transportation committee chairman, W. R. Granger, Montreal.

## Chicago Soccer Team Lost Two in East

New York, March 31.—The Joliet soccer team of Chicago came here today from Bethlehem, where they were knocked out of the National Challenge Cup competition yesterday by the Steel Workers of the crack New Yorkers. A large crowd turned out to witness the champions of the middle west, 3000 spectators in a win for the home side, 4 to 1, both scored by Puxty, while Smith responded for the westerners.

## Indian Strategy Still Favored

Hamilton, March 31.—The Hamilton Gun Club tournament, which was brought to a close here Saturday afternoon, following two days' shooting, which was considerably above the average, was featured by the marksmanship of Joe Jennings of Toronto (Todmorden), who won the gold medal for grand aggregate by breaking 378 out of 400.

## But Printer's Ink has taken the place of the War Paint of Old.

Wars were once fought by bearded men. That they are not now fought by bearded men is due to the light which science has been able to throw on the subject of sanitation and to the inventive genius of men, which produced the safety razor, when the old fashioned type of razor failed to keep pace with the march of civilization. Soldiers do not wear beards today, because they are not permitted to wear them. They are not permitted to wear beards because the wearing of beards impairs their efficiency as soldiers. But even at that soldiers would now be wearing beards, were it not for the invention and subsequent improvement of the safety razor. This is the reason that the old type of flat bed razor cannot stand up under active service conditions. Most men know how difficult it is to keep a keen edge on an old-fashioned razor, at the best of times. All soldiers know that it is next to impossible to keep it sharp under the stress of actual war conditions. The mechanically perfect, universally known safety razor helps to keep the soldier at the peak of efficiency, and it helps to keep him out of reach of the heavy hand of those who deal with violations of K. R. and O. It is doing its bit.

## CRICKET CHAMPION ENLISTS

Vancouver, March 30.—Bert Kortland, an international sportsman, has enlisted voluntarily in the Sixth Canadian Field Artillery in training. Kortland in the years of 1909 and 1910 was, according to the averages, the leading Australian cricketer through Canada and the United States and England, as well as in Australia.

No Chance for Sunday Baseball in Maryland

Annapolis, Md., March 30.—The Sunday baseball bill, by a vote of 50 to 37, was laid on the table in the lower house of the Maryland Legislature this afternoon. This kills all hope for legalizing Sunday baseball in this state for at least two years, as the legislature adjourns sine die on Monday next.

PARI-MUTUELS ARE POPULAR ON NEW ZEALAND RACE TRACKS.

The totalizer, which is the New Zealand term for the pari-mutuel wagering machine, is in use on the race tracks there, and recently several records were broken in the amount of money handled.

REFEREE DECIDES IN HEAVYWEIGHT TILT

If There is no K.O. in Bout Between Willard and Fulton.

The agreement between Jess Willard and Fred Fulton to fight for the heavy-weight championship calls for a battle to a referee's decision. If there is no K.O. in the first and separate agreement that Mike Collins, Fulton's manager, signed with the promoter of the contest or its location geographically, there must be a referee's decision entered at the finish of the contest, whether that finish comes with a knockout or if the men are both on their feet at the end of the announced limit.

## Sugar and Children.

More than half of the solid matter in a baby's natural food is sugar—sugar of milk. Consequently we hold that children need and must have a liberal ration of sugar or sweets in or with or immediately following their regular food, not at irregular times between meals. The sugar, for older children, may be in the form of cakes, purse candies, or best of all, brown sugar or molasses on the bread and butter. The belief that "sugar makes worms" is unworthy of a moment's consideration by any intelligent parent.

But, just because Old Doctor Nature gives the wee wee babies lots of sugar, don't jump to the conclusion that a baby can be raised on an all-sugar diet.

Certain signs point strongly to the ill-effects of sugar feeding in a bottle baby, and we briefly list these signs for the information of mothers:

When the sugars are fed in excess the bowel movements are apt to be sour, foamy, irritating (causing redness and soreness), watery, frequent, and brownish like thin mustard. The reduction of the amount of sugar in the feeding formula, or the addition of this barley or oatmeal gruel to the food, will relieve this.

Sugar, either cane sugar (sucrose) or malt sugar (maltose) in excess is fattening, but the fat is flabby and the baby anemic and rickets is likely to occur. Sugar in considerable amount is readily digestible by a young baby; that

is probably why Old Doctor Nature uses it to make up over half of the bulk of formula. But the mere digestibility of a given food is no criterion to employ in determining the suitable diet for a baby. Babies fed on food containing an excess of the sugars are noticeably more subject to the acute acid intoxication (sometimes called acute intestinal indigestion) which the granules used to (well, they still do) consider the sure indication of "worms."

Certified milk, or if that is unobtainable, then say fresh raw milk, should be handled under clean conditions, as under the supervision of the health authorities, constitutes a splendid substitute for breast feeding.

## QUESTIONS AND ANSWERS.

### The Dentist's Advice.

My dentist had an X-ray photograph made of my jaw, which shows one tooth requires treatment and another requires extraction for infection at the root. As these teeth have not troubled me, I am worried. What shall I do?

ANSWER.—Your dentist has told you what you should do. The teeth will trouble you later, either locally or by causing some serious systematic trouble, like "rheumatism."

### Cancer of the Lip.

Is cancer of the lip catching? Is there any cure for it besides operation? Would X-rays help it?

ANSWER.—There is no reason to believe cancer is contagious. Ordinary cleanliness is all the precaution neces-

## BUREAU AT STATION AIDS SOLDIERS' FRIENDS

Over Two Hundred Convalescents Reach Toronto on Saturday.

Two hundred and twenty-nine returning convalescent soldiers arrived back in Toronto on Saturday morning. In the party were nearly 150 hospital cases. Motor transport was needed to convey these to their destinations. Inauguration of an official information bureau at the North Toronto station, so that all facts about the returning war veterans might be gained without delay or confusion, took place in connection with the arrival of Saturday's contingent. The bureau was under the auspices of the Toronto Soldiers' Reception Committee. Corp. R. J. Buchanan of the Ontario Soldiers' Aid Commission, and a member of the P.P.C.L.L., were in charge.

One of the war-veterans in the contingent had been awarded three decorations in recognition of his valorous services on the field of battle. This was Pte. Martin Paulkanits, born in Glasgow, Scotland, but who prior to enlisting had lived for 11 years in Montreal. His decorations are the Distinguished Conduct Medal, the Military Medal and the Russian Cross of St. George. At Vimy Ridge, where he suffered the loss of a leg thru wounds, he put two German machine guns out of action with bombs. For this act he received both the Cross of St. George and the D. Medal at the Somme, for carrying an important message 900 yards under heavy fire, altho wounded.

The proprietor not being able to do business on a gratis basis, knocked at the door and asked him to leave the hotel, but an abusive answer was the only reply that was forthcoming. Policeman Boyd was then called, the constable finding it necessary to force the door in order to gain entrance. Leary put up a great fight, and finally had to be handcuffed by the officer. Boyd was badly injured about the hands in the tussle.

Five bottles of whiskey were found in the club bag of the man, hence the double charge. He will appear in the police court today.

## WALKS IN AND TAKES POSSESSION OF ROOM

Bag With Five Bottles of Whiskey Form Ground for Second Charge Against Intruder.

John Leary, aged 30, who gives his address as Meadowville, Ontario, was arrested at 7 o'clock Sunday evening by Policeman Boyd (663) on a charge of trespassing and a breach of the Ontario Temperance Act.

According to the police, Leary arrived in town early yesterday afternoon and went to the Simcoe House, corner of Queen and Simcoe streets, and then took possession, locking the door.

The proprietor not being able to do business on a gratis basis, knocked at the door and asked him to leave the hotel, but an abusive answer was the only reply that was forthcoming. Policeman Boyd was then called, the constable finding it necessary to force the door in order to gain entrance. Leary put up a great fight, and finally had to be handcuffed by the officer. Boyd was badly injured about the hands in the tussle.

Five bottles of whiskey were found in the club bag of the man, hence the double charge. He will appear in the police court today.

## BEAUTY CHATS

By EDNA KENT FORBES.

### Beautiful Teeth

No other part of the body can be improved as easily as the teeth. And this, of course, includes the mouth, and even the chin; for the shape of these depends largely upon the formation of the jaw. And frequently the correction of some defect in the teeth improves the shape of the chin.

Sometimes the teeth grow too close together, which means that in time they will overlap, probably in front, and push out the upper or lower lip in a most becoming way. Sometimes the eye teeth will grow out from an upper part of the gum, giving a curious look, like fangs, and holding out the lips at the sides. Sometimes, growing in wrong, the teeth make the whole mouth stick out and give the chin a receding look.

These things can be remedied by good dentists. In place of the laced wires, most of the advanced dentists are using little wedges, which are taken out and renewed in varying thicknesses from time to time. It is remarkable how, by so slightly the shape of the jaw, the whole expression of the lower face is improved.

Of course, the smile is ruined if it discloses uneven, dark teeth. This is a matter, too, of regular visits to a good dentist which should never be pulled, if there is the slightest chance of saving over the bone.

As a matter of fact, I don't know whether a patriotic to use castor oil in the Canadian Red Cross Society, and the badge was pinned on by Pte. Woodworth.

## Too Little Exercise

**T**HE necessity of using medicine to regulate the action of the liver, kidneys and bowels is largely due to the changed conditions of life during recent years.

Our fathers lived a life of activity in the open air. If they ate heartily they had sufficient exercise to keep the liver and bowels active and to thereby remove the poisonous waste from the body.

To-day we get too little exercise and too little fresh air. The food we eat is more concentrated and artificial. The result is much discomfort and the development of serious disease from constipation of the bowels and torpid condition of the liver. Kidney disease, rheumatism, lumbago, backache—all have their begin-

ning in the inactivity of the liver and bowels.

The great secret of keeping in health is to look to the regularity of these filtering and eliminating organs, and Dr. Chase's Kidney-Liver Pills is the most satisfactory medicine obtainable for this purpose.

If you read the reports appearing in this paper, from time to time, from persons who have used this treatment with good results, you will find that Dr. Chase's Kidney-Liver Pills are effective where ordinary medicines fail. This success is due to their combined action on the liver, kidneys and bowels. One pill a dose at bedtime as often as is necessary to keep the bowels in healthful action, will also ensure the regularity of the liver and kidneys and thereby keep the blood pure and the system free from the accumulating poisons which cause disease and suffering.
