WILHELM BLAMES HIS MINISTERS FOR CAUSING THE WAR
Germany Disrupted By Stories of Corruption in Past Three Weeks

KAISER WOULD SHIFT BLAME FOR CONFLICT

William Tries to Place Responsibility for War Upon Von Bethmann-Hollweg and Von Jagow, Also Upon Russia.

Copenhagen, Dec. 1.—Further revelations showing that former Emperor William of Germany is seeking to escape responsibility for bringing on the war are contained in an article by Dr. George Wegener, appearing in The Cologne Gazette, recounting a conversation which the writer had with the emperor just before he fled. In this interview, the emperor attempted to shift the blame for the world conflict to the shoulders of Dr. Theodor von Bethmann-Hollweg, former imperial chancellor, and Gottlieb von Jagow, former minister of foreign affairs.

"Your majesty must take this voyage in order to maintain peace. If your majesty remains here, it undoubtedly means war and the world will lay to your charge responsibility for the war."
"Well, I then undertook the voyage. During all this time I received no report from my government concerning current events. Strictly speaking, I only learned from Norwegian newspapers of what was occurring in the world and in this way I learned of the Russian mobilization measures, but when I heard that the British fleet had put to sea, I returned of my own accord. They had nearly caught me. On my return, German ships were turned at once to the security of Norwegian harbors. Later it would not have been possible for them to do so."

Russian Mobilization.
The emperor then mentioned the mobilization of the Russian army. He declared that he had not ordered the mobilization, but only readiness for mobilization. The emperor, however, insisted on the correctness of the first declaration, according to which the czar had been caused by the kaiser to recall his order for mobilization. He declared that he had not ordered the mobilization, but only readiness for mobilization. The emperor, however, insisted on the correctness of the first declaration, according to which the czar had been caused by the kaiser to recall his order for mobilization.

"In fact," said the kaiser in ending the interview, "Russian troops were already over our frontier before war was declared."

FIVE SURVIVORS AND TWO DEAD MEN
Raft Bearing Part of Crew of Missing Steamer Comes Ashore.

Trenton, Ont., Nov. 30.—A raft with seven members of the crew on board the bow section of the steamer Northwest when it broke away from the large Schoelcraft on Lake Ontario, drifted into Weller's Bay, on the southeast shore of Prince Edward County, this morning. Two of the men were dead and the other five in a state of exhaustion thru exposure.

The steamer Northwest had been cut in two to bring her through the Welland Canal and was to have been put together at Montreal for entry into ocean freight service. The barge Schoelcraft was towing both parts to Montreal when, during the night, the bow section broke away, and the landing of the raft is the first sign that has been seen of it since, although the lake from Charlotte to Welland had been thoroughly searched.

BIG MONEY IN SIGHT.
Ontario to Provide Work on Roads and Power Development.
The Ontario Government is framing up a plan for carrying on quite a lot of public work, especially good roads, throughout Ontario, in order to provide work for returned soldiers and any other unemployed by reason of the war. It is believed that the government can arrange large credits with the Ottawa Government for such work, and that even Sir Adam Beck will now be able to get whatever money the Hydro may need for power expansion and radial development.

CANADIAN TROOPS TO RETURN FAST

Arrangements Provide for Coming Home Within a Year.

London, Dec. 1.—Allowing for every possible contingency, every Canadian soldier should be back home in Canada in a year, the Canadian Press was told today at Canadian headquarters. Men of second class categories are already being returned in large numbers. This means that men of the fighting class can be transported with the least possible delay when the general mobilization begins. Arrangements have already been effected with the British ministry for returning Canadian troops, and the eventual demobilization being surprisingly rapid.

OTTAWA GOVERNMENT SITS ON A VOLCANO

Crerar Credited With Bringing Ultimatum From Western Grain Growers.

Ottawa, Dec. 1.—The government's demobilization scheme which has contemplated the returning of men to Canada according to selection by occupations, length of service and economic needs, may be changed to meet the generally expressed wishes of the military units. The government has been receiving some strong representations from various military units, and the plan of selective return was made known to the Canadian corps. The men want to come back with their comrades and officers in battle, and with their flags flying and their own bands playing. They seem to be under the impression that under the selective principle there will be a lot of pull and favoritism shown, and they say they want to come back together on the return to Canada.

Moreover, the scheme of selective demobilization is found to be more difficult to work out than was first expected, according to the advice from the officers in charge overseas. Under the circumstances it will not be surprising if the military department decides to let the men have their own way about it, and come back by conventional routes. It is understood that the whole matter is now under reconsideration.

FARMERS' PLATFORM NOW COMPLETED

Six Resolutions, Forming the Eleventh Plank, Are Announced.

Winnipeg, Dec. 1.—Six resolutions, forming the eleventh plank of the Canadian farmers' economic platform passed on Sunday evening by the Canadian Council of Agriculture, were announced Saturday by Norman P. Lambert, secretary.
The council completed the platform arranged by the council during the conference. One of the resolutions urges the placing in the field at the next general election of candidates who will support the platform enunciated by the Canadian Council of Agriculture. Following are the new resolutions passed on Friday night:

"That this council recognize the great importance of such an educational system as will train the rising generation in the highest ideal of citizenship and that we co-operate with those who are promoting a national congress on education.
That this council approve strongly of the work done by the laboratory in Winnipeg and urge upon the Dominion Government the elaboration and extension of the system of laboratories for making accurate millings and making tests of Canadian wheat in order to secure more nearly the intrinsic value of the wheat upon the market.
That the executive take steps to investigate the conditions surrounding the marketing of stock, particularly the various items of expense that are charged against the producer.
That the post-discharge allowance to returned soldiers be increased to cover a period of six months instead of three months.
That the executive be given authority to take action in connection with any movement towards national standardization of text books on the schools of Canada.
That this council recommends to the provincial associations that they take action in whatever manner they deem advisable to secure the nomination and election of candidates to the next federal election who will endorse and support the platform adopted by this council."

BIG OUTCRY RAISED AT CORRUPT ACTS BY BERLIN RULERS

Storm of Vehemence Bursts Over Germany as Enormous Expenditures.

BACKING FROM ARMY

Von Hindenburg Supporting German Government, Which is Unpopular.

Amsterdam, Dec. 1.—The German "Volkszeitung," according to estimates made by the Berlin correspondent of The Cologne Volks Zeitung, has spent 800,000,000 marks in the last three weeks.
The newspaper declares that a storm of vehemence has burst against corruption in Berlin, which, it is noted, will sweep away the dishonest "cable." The newspaper continues: "Unrestrained resistance is offered to the country by the government, into terrible misfortune. All that can now be done for the healthy regions is for them to take affairs into their own hands. On the Rhine and on the Danube there exists a strong resolve to do this."

Men Are Anxious to Come Back With Colors Flying and Bands Playing.

Moreover, the scheme of selective demobilization is found to be more difficult to work out than was first expected, according to the advice from the officers in charge overseas. Under the circumstances it will not be surprising if the military department decides to let the men have their own way about it, and come back by conventional routes. ANOTHER KING QUILTS

Copenhagen, Dec. 1.—The King of Wurtemberg has formally abdicated, according to reports from Stuttgart.

THE LATE CAWTHRA MULOCK.

Word was received in the city yesterday of the death from influenza, on Sunday, of Cawthra Mulock, in New York, where he was staying while on a business trip. The deceased gentleman was well known in business circles throughout the province. He was the second son of Hon. Sir William Mulock, chief justice for the Province of Ontario, and was born in 1844. He was educated at the Upper Canada College and the University of Toronto. The body will arrive in the city this morning and the funeral will take place from his late residence, 575 Jarvis street, tomorrow afternoon to St. James' Cemetery. Mr. Mulock was married to a daughter of Sir Glenelg Mulock, and had four children.

Mr. Mulock had many business interests in addition to his position as president of the Cawthra Mulock and Company, bankers and brokers, with head offices at 12 East King street, and a branch in Hamilton. He was president of the National Iron Corporation, the pioneer enterprise on a large scale in the Ashbridge's marsh industrial district, president of the Canada Bread Company, president of the Guardian Trust Company, president of the Royal Alexandra Theatre Company, and a director of the Imperial Bank and of the Confederation Life Assurance Company. He was the first president of the Maple Leaf Milling Company, but severed his connection with that company several years ago, and also a large shareholder in the O'Keefe Brewery Company. Cawthra Mulock had a marvellous way of associating with able business men, and if he undertook to organize a project, to pick able men to join him in it. Most of his ventures were successful.

ALLIES IN BLACK SEA TAKE SEVEN WARCRAFT

Paris, Dec. 1.—The allied naval squadron, which arrived off Sebastopol a few days ago, took possession of the Russian battleship, the Olga, one destroyer and five German submarines. Fourteen German merchantmen were found in Black Sea ports and are to be used by the allies as transports.

50,000 DEATHS FROM "FLU" IN SOUTH AFRICA

Cape Town, South Africa, Dec. 1.—Governor-General Buxton, thanking voluntary workers for their efforts during the recent influenza epidemic, said it was estimated that there had been 50,000 deaths in South Africa among Europeans and colored population.

TURKISH STATE FUNDS DISAPPEAR WITH ENVER

Geneva, Switzerland, Dec. 1.—Coincident with the departure from Constantinople, of Enver Pasha, the former Turkish minister of war, and his colleagues, the disappearance of twenty-five million Turkish pounds of public funds placed in various banks was noticed, according to The Tribune of Geneva.

CAWTHRA MULOCK DIES SUDDENLY FROM "FLU"

WAS ON A TRIP TO NEW YORK WHEN HE WAS STRICKEN WITH THE DISEASE—ONE OF CANADA'S BIG FINANCIAL MEN.

Word was received in the city yesterday of the death from influenza, on Sunday, of Cawthra Mulock, in New York, where he was staying while on a business trip. The deceased gentleman was well known in business circles throughout the province. He was the second son of Hon. Sir William Mulock, chief justice for the Province of Ontario, and was born in 1844. Mr. Mulock was married to a daughter of Sir Glenelg Mulock, and had four children.

The money that he inherited, several millions, was mainly invested in mortgages. He went into the matter carefully and decided as it matured to switch it over to business enterprises of one kind or another, where there were larger returns and a measure of speculation. And he followed this course consistently, and it is believed largely increased his wealth. He had, also, a great knack of absorbing the views of the financiers and business men he associated with, and if he approved of them he could re-state them in a rather impressive way. He started a trust company, an iron foundry, a bread company, a milling company; he was on several boards and he exhibited sound judgment in connection with most of them.

ALLIES MAY CALL ON CROWN PRINCE TO ABDICATE ALSO

Kaiser's Document of Renunciation Omits Name of Frederick William.

SURPRISING TO BRITAIN

London, Dec. 1.—The formal abdication of the German emperor caused surprise in England. It had been supposed on the strength of the announcement made by Prince Maximilian of Baden, while chancellor, and the reports of the Berlin council of soldiers' and workmen's delegates, that William Hohenzollern had abdicated before he left Germany for Holland.

BIG BERTHAS SHIPPED TO CENTRAL GERMANY

With the American Army of Occupation, Dec. 1.—The inside facts regarding Big Bertha and the other monster German guns may be locked up with the numerous secrets of Germany. Information that reaches the American army officials is to the effect that the German guns of heavy calibre at various points have been shipped to the interior on flat cars. Shipments of many of big gun emplacements also are reported. Germans interrogated as to the disposition of "Big Bertha" and the other large calibre cannon claim to be ignorant of their present whereabouts.

TRUP TRAIN ARRIVES IN WLD CONFUSION

At North Toronto Station in the early hours of this morning a record crowd of 4000 relatives and friends waited in the bitter cold to welcome the first contingent of 560 heroes of France to Toronto's mother arms. The train was late, the platforms were crowded, the gangways blocked. Nothing seemed to be overlooked to make the return a thorough failure. In the words of Mayor Church to the press men present: "It is an example of the greatest mismanagement ever seen in the handling of returning troops. Better to send the soldiers by New York," said the mayor, "when they would be properly housed, fed, and taken care of by the Canadian government railways, sending their own baggage and suitcases, and the interest of the men."

EFFORTS TO RESTORE OLD GERMAN REGIME

Allies Suspect Kaiser of Merely Temporizing With Them--Form of Abdication Does Not Satisfy the Requirements.

Special Cable to The Toronto World.
London, Dec. 1.—The ex-kaiser's abdication is now a formal, definite fact, but the form thereof does not satisfy requirements here unless the actual text differs from the cable reports. The great objection lies in the fact that the document appears to concern the kaiser only and says nothing about the other members of the royal house, while its form indicates that the previously expressed intention of abdication amounted to mere temporizing with the allies.

BRITISH LABOR PARTY MAKES MANY DEMANDS

Wants Allies to Retire From Russia, Land Nationalization, State Controlled Rentals and Government Ownership of Public Utilities.

London, Nov. 30.—An election manifesto issued by the Labor party condemns any form of economic war and demands, as an essential part of the peace treaty, that the international labor charter be incorporated in the very structure of a league of free nations. It demands immediate withdrawal of the allied forces from Russia, immediate restoration of the workers' international, claims freedom for Ireland and India as a democratic right, also self-determination for British subject peoples and advocates the removal of all war-time restrictions and the complete abolition of conscription.

Land Reorganization. The manifesto says the party means to introduce large schemes of land reorganization. It regards land nationalization as a vital necessity. It demands the immediate building of a million good houses by the state, which could be obtained by the tenants at fair rents and declares opposition to tariffs. It suggests international labor legislation whereby imports produced by sweating shall not enter into unfair competition with home manufactures. A special tax on capital is urged in payment of the war debt, and insistence is laid on the heavily graduated direct taxation with the raising of the exemption limit.

KING GEORGE APPRECIATES WELCOME BY FRANCE

Paris, Dec. 1.—King George has sent a message to President Poincare expressing his deep gratitude for the manifestation by the president, the French Government and the people of Paris of cordial friendship towards himself and his two sons. "The splendid welcome which we received," says the King, "will be considered by the people of the United Kingdom as proof that France appreciates the true effort of the empire for the common cause."

President Poincare, in replying, said that France had seized joyfully the occasion to testify to the King her sentiments of true friendship towards the United Kingdom. "France," continued the president, "will be devoted as much in peace as in war to the cordial alliance which enabled the overthrow of German imperialism, the defence of human rights and the salvation of liberty."

LABOR DELEGATES MEET IN PARIS

International Conference Expects to Unofficially Aid Peace Movement.

Washington, Nov. 30.—Delegates of the American Federation of Labor to the international labor conference, to be held at Paris while the great peace conference were sitting, were announced today by the executive council. They are: Samuel Gompers, president of the federation; Wm. Green, secretary-treasurer of the United Mine Workers; John R. Alpine, president of the plumbers; James Duncan, president of the International Association of Granite Cutters; Frank Duffy, secretary-treasurer United Brotherhood of Carpenters and Joiners.

Frank Morrison, secretary of the federation, said the purpose of the international conference "is to help in peace discussions and to establish a new international trade union federation." The executive council of the federation, he said, would issue invitations to the trade organizations of all nations to participate, and he added that representatives of all the principal nations were expected to attend.

PIONEER OF OXFORD IS CALLED BY DEATH

Oxford, Dec. 1.—One of Oxford County's oldest and most widely known residents, in the person of John Thompson, died at his home, West Charles street, early this morning. He was in his 91st year, and had been confined to the house for about a month. Mr. Thompson was a native of England, having been born in Yorkshire. He came to Canada in 1841 and settled in Markham Township. In the year 1849 he came to this district, settling in Dereham Township, then an unbroken forest. He followed farming, and was most successful. Thirty-seven years ago he removed to this town, where he had since resided continuously. Mr. Thompson carried his years lightly, and up to a month ago enjoyed full possession of his faculties.

GERMANS REQUESTED NOT TO HOARD CASH

Enormous Withdrawals Made From Imperial Bank in Period of Seven Weeks.

Berlin, Dec. 1.—Addressing the central board of the Imperial Bank of Germany, Rudolf Hevenstein, president of the bank, urgently admonished the people not to hoard cash. He said that between Oct. 1 and Nov. 23 there had been withdrawn from the bank 2,882,000,000 marks as against 37,000,000 marks last year, and this after 4,000,000,000 marks had already been drawn out in the third quarter. Moreover, President Hevenstein declared, more than another 1,000,000,000 marks of new currency had been circulated in the same period by coupons and the notes of private banks and communes, making the total emergency money 5,000,000,000 marks between the above dates.

WILLIAM GIVES UP IMPERIAL OFFICE

Kaiser Signs Formal Abdication Document in Holland, Renouncing Rights.

Amsterdam, Nov. 30.—William II, who has definitely renounced all future rights to the crowns of Prussia and Germany and has released all officials and officers from their oaths of fealty, according to the text of a document signed by the former emperor, which is quoted in a telegram received here from Berlin. "The abdication decree, according to the message, expressed the hope that 'the new regent' would be able to protect the German people against anarchy, starvation and foreign supremacy. The use of the word regent in the message is commented upon here as possibly significant.

Berlin, Nov. 30.—The text of the former German Emperor's act of renunciation, which was issued by the new German government "in order to reply to certain misunderstandings which have risen with regard to the abdication" follows: "By the present document I renounce forever my right to the crown of Prussia and the rights to the German imperial crown. I release at the same time all the officials of the German Empire and Prussia and also all officers, non-commissioned officers and soldiers of the Prussian navy and army and of contingents from confederate states from the oaths of fealty they have taken to me as their emperor, king and supreme chief. "I expect from the munitiary organization of German empire to exist, that they will aid those who effectively hold the power in Germany, to protect the German people against the menacing of anarchy, famine and foreign domination. "Made and executed and signed by our own hands, with the imperial seal, at Amersongen, Nov. 28. Signed 'William.'"

ALL RESTRICTIONS OFF THE SALE OF GASOLINE

Ottawa, Dec. 1.—Removal of all restrictions on the retail sale of gasoline is announced by the fuel controller. Dealers may therefore continue to do business as in the past. The recent regulations were adopted following upon an investigation and report by Dr. McFall of the cost of living branch of the department of labor. Since then a further investigation and report has been made and submitted by him, and as the conditions which necessitated regulation of the gasoline trade have now been relieved by the practical cessation of the war, an order-in-council has been passed on the fuel controller's recommendation, entirely canceling the present regulations. Dealers may now sell gasoline without license from the fuel controller, and the fees already paid will be returned to the applicants. The repeal of the regulations in question also removes the restrictions regarding the sale of gasoline on Sunday.

MRS. DOUG. FAIRBANKS GETS HER DIVORCE

New Rochelle, N.Y., Nov. 30.—Mrs. Beth S. Fairbanks today won an interlocutory decree of divorce from Douglas Fairbanks, movie picture actor, in the supreme court here. She was awarded the custody of their son, Douglas Fairbanks, jun., eight years old. The record of the testimony in the case refers to the co-respondent "as an unknown woman." Mrs. Fairbanks is the daughter of Daniel J. Sully, cotton operator. The Fairbanks were married in 1907 at Watch Hill, R.I.

THIRTY-THREE MILE GAIN MADE UP PINEGA RIVER

Archangel, Dec. 1.—An American detachment, assisted by Russian volunteers, has advanced 30 versts (32 miles) up the Pinega River, clearing the Village of Kurichniska of the Bolsheviks and taking prisoners. For the first time since the Bolshevik revolution, the shoulder straps of the old Russian army have been restored to the officers enlisted with the Russian forces in the northern region.

NEW FUEL IS CHEAPER THAN GAS

The Washington War Office Officials' Invention a Success.

Washington, Nov. 30.—"Liberty fuel," vastly cheaper than gasoline and possessing many advantages over that product, has been invented by officers of the war department and is now being produced in large quantities, it became known today. The new fuel is the result of more than 500 experiments conducted by Major O. Zimmerman and Captain E. C. Weinberger of the research and development divisions of the general engineering depot here. The base of the new oil is kerosene. Major Zimmerman said. The other ingredients are of low cost, and can readily be obtained. The process of manufacture is exceedingly simple. The tests, which proved conclusively the value of "liberty fuel," have been most exact and rigid. They were conducted under the supervision of the bureau of standards here. "That no leaf was left unturned to test its practical suitability is shown by the fact that the fuel was used extensively in automobiles, motorcycles, trucks, tractors, stationary engines and hydro-airplanes, in cold and warm weather, under violent variations of load, with poor and good operators," said Major Zimmerman.

Arrangements had been made for quantity production before the armistice, much of which would have gone to the forces abroad. The new fuel is odorless, tasteless and non-corrosive. Tests for corrosion were made in a motorcycle that covered 23,000 miles of variable operation. It leaves less residue of carbon than gasoline, requires less air or oxygen for combustion and develops greater horse power.

ONTARIO'S COAL SUPPLY IS BELOW EXPECTATIONS

Provincial Fuel Administrator Announces Available Tonnage Will Be Ten Per Cent. Less Than Promised and Gives Advice on Consumption.

The following official announcement has been issued from the office of the fuel administrator for the Province of Ontario. The coal administrators have purposely deferred making a public statement as to the anthracite coal situation in order that they might make careful inquiries at the mines and elsewhere as to the effect of peace on the production of coal.

Early this year following investigations made by the Administrator, it was evident there would be a shortage in anthracite coal. An allotment was therefore made at Washington dividing the available and hoped for supply among those states of the Union and provinces of the Dominion which are dependent on anthracite coal.

As a result of this allotment the tonnage of prepared sizes of anthracite to be supplied to the Province of Ontario for this winter was cut down 20 per cent. as compared with the amount consumed last year. But in this connection it must further be stated that the tonnage received last year in Ontario was far below our needs, and hardship was experienced in a number of places.

Mines Not Producing. For some time, however, it has been doubtful whether the mines will produce sufficient anthracite coal to supply the tonnage divided among the states and provinces on the original allotment, and the best information now is that there will in all probability be a shortage.

Many circumstances have unfortunately conspired to make the situation worse. One with which the public is familiar is the epidemic of Spanish influenza, the result of which has been to cut the anthracite coal production to two weeks' period by 1,500,000 tons. It is hardly possible that any portion of this tonnage can be made up. The Spanish influenza has also prevented anxiety as to labor and transportation and further epidemic.

Public Safety Needed. The problem of how to get on with an inadequate anthracite coal supply cannot be met by the Dominion fuel controller or the Ontario fuel administrator unless with the close cooperation and loyal support of the public, and it is proper at this time to advise the public of the difficulties which have been created to meet this situation and the steps already taken or in contemplation by way of regulation and control.

Individual Complaints. By the order-in-council each municipality is empowered to appoint a local fuel commissioner who deals with the distribution of coal in his municipality and comes into direct contact with coal dealers and the consumer. It is impossible and never was intended that the provincial fuel administration should deal with individual complaints, and some weeks ago notice was issued to all municipalities that the provincial administration would only deal with the fuel difficulties of such municipalities as had appointed fuel commissioners.

are available, dealers should urge their customers to take a mixture of prepared sizes anthracite coal.

Considerable criticism has been directed against the provincial fuel administration with regard to the supplying of anthracite coal to farmers and dealers in rural towns and villages. The dealers have been ordered not to supply anthracite coal to farmers who can secure and use either wood or bituminous coal. It is quite evident that this order will cause considerable inconvenience to many who for years have depended on anthracite coal for their heating and cooking purposes.

Co-operation of Women in the State.

"Women and Reconstruction" is the title of a pamphlet issued by the Canadian Reconstruction Association, which is intended to assist the solution of economic and industrial problems arising from the participation of women in the national life.

To suppose that such work is not "painful" is one of the unfortunate errors into which political economists have fallen. It arises from failure to understand the principle of co-operation or partnership.

The contribution of women to the state in the raising and rearing of children has never been recognized in a practical way. Every new immigrant is valued at \$2000 at least to the state.

The appeal of this pamphlet, however, is directed more to the woman as a potential factor in assisting production, her co-operation being regarded as necessary to the fullest output.

highest achievements of genius. It is believed that favor will never influence the winning of this distinction, and as only men of genius are to receive it it will become with every generation a more coveted honor.

Marshal Foch has been regarded as the man who won the war. He had retired from the field command in April, 1917, at the age of 64. His experience in this respect recalls that of Lord Roberts before the Boer war.

With him in that campaign was the present chief of staff of the British army, Lieutenant-General Wilson. Wilson had long been a favorite of Lord Roberts, and he was trained in all his school of strategy.

Wilson had studied the frontiers and the battle areas of France and Belgium annually for 25 years. He was thoroughly at home with the French army. He is himself a master of strategy.

WILL PREPARE FOR ANOTHER EPIDEMIC

Statistics Show Possibility of Another Influenza Outbreak in 1919.

Chicago, Nov. 30.—Plans for combating another influenza epidemic, which is expected to sweep the country in 1919, will be considered by health authorities from all parts of the United States.

Members of the association say that all the influenza epidemics since 1918 have been recurrent for from two to three years after the initial outbreak.

It was early in 1913, according to Dr. W. A. Evans, former health commissioner of Chicago, that the influenza epidemic was first reported in the United States.

Possibly it was the largest crowd that ever saw a soccer game in Toronto Saturday at the Varsity Stadium on the occasion of the soldiers' return benefit game between Bethlehem, United States champions, and the All-Toronto stars.

It was a bracing day with the new fall of snow interfering little with the play, except for the fact that the goal posts were not so easily seen.

From one of the Bethlehem's good combination runs Butler worked on a brilliant drive, the ball hitting the upright and coming out to the right.

Bethlehem were now easily the better team and only the other goalkeepers Campbell, Brownlee and Brown kept an open goal, shooting again missed.

All-Toronto (0)—Helliwell, Campbell, Brownlee, Acourt, Worrell, Brown, Barre, Hefner—Banks.

The mayor and W. P. A. welcomed and entertained the visitors, winding up with a dinner Saturday night at the Carleton Hotel.

Sporting Gossip

Owners in England still think a lot of their horses. At a recent sale at Tattersall's a reserve of \$200,000 was placed on a two-year-old, The Panther, considered the best colt of his age in England.

In the States they call Joe Jeanette an old man because he is 37 years of age, as far as ring doings go, this is a rather antiquated period of life to be actively engaged, yet even in boxing days Joe recently defended his title as holder of the Louisiana belt as featherweight champion of England, and has been seen just the same number of summers and winters. He beat Joe Conn, a much younger boxer, in 17 rounds.

Well-known United States athletes whose careers ended on the battlements of Europe or in various branches of the government's service, gaining gold stars in the sport service flag, include: Eddie third-baseman, Sturtevant, Yale oarsman; Alex. Wilson, Yale football player; Johnny Fox, Princeton football player; Mills, Harvard football player; Reid, Princeton baseball player; Savage and Gantz, University of Pennsylvania oarsmen; Shull and Godard, Chicago football players; Curly Vanderbilt, football stars; Overton, Yale distance runner; Thomas, Princeton athlete.

Mike O'Dowd, the middleweight champion, now in France, hints that there is an excellent reason for the failure of so many boxers to enlist. Mike says that nearly all the fighters' managers are well along in years and are dependent on their boxes for support—theory, the soft-hearted pugilist class their mentors are dependent and refuse to leave them.

George Slater, now a lieutenant in the chemical warfare branch, denied a chance to go to France and was refused because of peace, is winning fame in another way. Recently at Camp Kendrick, Lakewood, N.J., where he has been in training, they had an athletic meet among the officers. All Slater did was to make a clean sweep of the four events on the program, the 100-yard dash, the punting of a football for distance, drop kicking the football for accuracy and distance and throwing a baseball for distance.

Three players in the big league had the distinction of driving the ball into the bleachers last season without getting credit for a home run.

The trio were Babe Ruth, the slugger of the Red Sox; J. Franklin Baker, the "chase run king" of the Yankees; and Emil Messers, the young outfielder of Philadelphia Nationals.

BOLAND WON SIX-MILE RACE

New York, Nov. 30.—Max Boland of the Paulist Athletic Club of this city, won the national winter cross country championship of the Amateur Athletic Union over the six-mile course at Van Cortlandt Park today. His time was 33 minutes and 22 seconds, less than who he won the national junior title over the same course two weeks ago.

PLANS FOR FUTURE RACING IN CANADA

The Day of High Profits to Tracks and Jockey Clubs is Thing of the Past.

You go away from home for the news According to a Lexington despatch, Kentuckians interested in the preservation of the thoroughbred horse breeding industry and the sport of racing have heard with gratification the powerful influences are working in Canada for the reopening of the race tracks in the Dominion on a basis such as will insure the elimination of the profit-hunting promoters and guarantee permanent under the seal of popular approval.

The owners of the older tracks, that is to say the stockholders in the long-established associations, have been the situation at length, and they have felt the public pulse during the fifteen months of the "dry" period. They are satisfied the day of high profits is passing in the Dominion, and that the preservation of the industry and the dividends—5 to 8 per cent.—on a fair capital is the better class, which is to say that the stakes and purses must be more moderate, over and over again, claiming a reasonable percentage of the future needs of the industry and the public benefit.

EASTERN CANADA AMATEUR HOCKEY

PLAYS PICTURES AND MUSIC

"Take It From Me"

With plenty of dainty, pretty girls, the "Take It From Me," musical comedy will open a week's engagement at the Royal Alexandra Theatre tonight. This new comedy produced by William Moore Paton, is said to be out of the ordinary run of musical comedies, in which much of the music is of the stereotyped form, and is said to be a real fashion show, along with plenty of mirth and music of the usable type.

"Going Up," Cohan and Harris' best musical play, with a cast of 75, is announced for production at the Princess Theatre Monday evening, Dec. 2, and all week. It is uproariously funny. The hero is a young American writer who, according to have a wonderful flight in one of his novels, is regarded as the dashing aviator when he seeks rest at a stylish inn situated in the Berkshire Hills. He is challenged by a French aviator, who is his rival for the affections of a girl staying at the inn, and the way in which he prevails is the most amusing and winsome of all.
