# Anarchist Hurls Bomb At New York Police Dispersing a Meeting

Union Square Scene of Outrage Resulting From Attempt of Unemployed to Hold Demonstration.

WOULD-BE ASSASSIN HIMSELF TERRIBLY HURT

NEW YORK, March 29 .- A red flag fluttered in Union-square Saturday; a bemb fell; two men lay dying in the people's playground, and New York awoke to the fact that it harbored those prepared to give their lives in armed resistance to constituted authority.

The bomb was intended for the police. who, with rough firmness, had broke up a meeting of 10,000 unemployed. It exploded prematurely in the hands of the assassin, horribly wounding him. killing his companion, injuring slightly four policemen, and throwing to the ground a score of those who were mass-

ground a score of those who were massed in the vicinity.

Last night Union-square Park, where the public demonstration had been made, was roped off from pedestrians; a hundred police patrolled the boundary streets, and at the station-houses 1500 reserves, armed with revolvers and night sticks, awaited in readiness to throw themselves into any scene of ricting. No further disorder, however, developed.

developed.

Bomb-throwing in the foreign settlements of the east side is a rather common occurrence, but for the first time Saturday saw an engine of destruction openly and deliberately directed against a squad of police officers. It was meant for Capt. Reilly's squad of twenty men, and a longer or slower burning fuse would have perfected an instrument of death for probably every man of the squad.

How It Began. A labor, or, more exactly, a laborless, meeting, without police sanction, had been advertised to be held at the park. In the thousands that gathered were many of a riotous disposition, a large number wore red hats, and here and there a red flag was displayed.

Suddenl yan order to clear the park was given, and the 150 police, half of them mounted charged the jeering.

themselves with keeping the paraders moving. Encouraged, the procession grew; shouts of derision and oaths directed at the police filled the air, and then, as the by pre-arrangement, the strains of "The Marseillaise" rose from 10,000 throats. The police, hastily reinforced, held themselves in restraint.

CONVICTION IS JUST. Governor Hughes Declines to Reprieve Chester Gillette.

ALBANY, March 29.—Goy. Hughes o-night announced that he had de-tied the application for reprieve for Chester Gillette, and no act of the governor that can now be foreseen will interfere with Gillette's executio at Auburn prison early to-morrow, for the murder of his sweetheart, Grace, or (Billy) Brown of South Otselic, Chenango, at Big Moose Lake, in the Ad-irondacks, on July 11, 1906. The mother of the herself appealed to the governor.

The governor dismisses the theory based on the alleged new evidence resented by John H. Dugan of Albany, who appeared for the Gillette family before the governor, as "wholly intenable" and declares that "if reason is to be our guide, and all the es-ablished facts are taken into consideration, there is no escape from the conclusion that a brutal murder was ommitted and that the conviction was

Briefly expressed, the new play advocates the startling theory that the way to win a woman is to whip her. Of head-strong, vixenish, warm-blooded, beautiful Italian girl. If ever a woman deserved a whipping, this Italian vixes did, and, what is more, the whiping seement of the faithful and seement of the wife sheep have said that no woman could love a man who had raised his arms against her, and that Sir Philip, in raising the whip against Gloria, destroys, all possibility of inspiring love in her. While the figures are not officially given, it is understood that the dark blues nade the distance in 19 minutes 37 seconds, and were going strong when they created the finish at Putney. Cambridge on Saturday, however, did a better trial than this, covering the course in 19 minutes 37 seconds, but the light blues had the advantage of being paced, with more favorable water conditions. between Winchester and McCaul. The Winchester boys were taller, but they could not get very far away from the plucky little McCaul lads, who checked hard and managed to score a goal once in a while. The half time score was 17—14 in favor of Winchester, and the final score 31—22 in favor of the same school. Landsberg and Perlman for McCaul, and Bell and Ferguson for the winners did extra good work for their teams. Teams: Winchester (31): H. Ferguson, H. Bell, L. Brown, B. Jackson, R. Niven.

McCaul (22): J. Landsberg, D. Brody, D. Perlman, C. Swartz, J. Irvine.
Referee—J. E. Hunnisett.

The final senior game between Rose and Wellesley was a close, hard game from start to finish, with very little choice between the teams. At half time Rose led by two points, and at full time the score was 39—28 in favor of the same team. Rose scored five field shots to Wellesley's 2.

For Rose, Davidson and Cole, and for Wellesley, Fåder and Poole were very steady the whole game. Teams:
Rose (39): R. Davidson, O. Burkart, E. Stiff, A. Cole, P. Brown.

Wellesley (23): H. Fader, N. Connery, S. Poole, A. Beacock, G. Granger.

Referee—J. E. Hunnisett.

The final junior game was between Lansdowne and Winchester. The first half was close, each team scoring two field goals; in the second half Burns of Lansdowne, who had been playing a good game all night, played a whirlwind of a game, and won the game by dropping six field baskets. He was the best jurior player on the floor. The game ended 4—24 in favor of Lansdowne.

Referee—G. F. Smith. Timer—J. L. Hughes, Scorer—R. Roddick.

The basketball games were run off in splendid style, under the able direction of Taylor Statten, secretary of the boys' department, and his committee. The first game was between junior teams from John and Lansdowne. It was a semi-final game and was one of the best of the evening, both teams playing some good combination. At half time the score was 20—11 in favor of Lansdowne, During the second half John worked hard and scored more points than Lansdowne, but not enough to overcome the lead of the first nalf. McRoberts and Halden for John and Burns for Lansdowne were the stars. Teams:

Such secrecy is not unprecedented, but it is regarded as unsportsmanlike for amateurs and strictly at variance with varsity traditions. A sporting paper recalls the fact that Ten Eyek adopted similar tactics at Henley in 1896, and provoked the virtuous indignation of the varsity Blues.

Sporting writers at this time consider that Cambridge has the superior crew.

Made Good From Start.

Wagner was dear to Paterson fans from his appearance before them. His wonderful fielding and batting, his good-nature and willingness to play any position he was assigned to, made him the idol of his team-mates and the patrons alike. I was very fortunate that season in picking up other players of great promise, who afterwards became more or less famous, such as Emmett Heldrick, Bill Armour, George Smith, Dick Cogan, Bill Taylor, Patsy Flaherty and others. Altho beaten out of the pennant on the very last day of the season by one of the Foxy Deacon Ellis' three-games-in-one-afternoon stunts, we won the Soby Cup series, ending one of the pleasantest and most successful seasons of my baseball career. I have had many good hall teams before and since—teams that won pennants—but never one that had so much natural ball-playing talent and ability—players who needed only development and experience to make stars. Like all Germans, Honus liked his glass of beer, but had no use for "lushers" and "called" more than one of the boys in his quiet way when he thought a defeat had been caused by the bad effects of too much celebrating the night before. None of them ever resented this, however, for they all knew that his everlasting desire to win was the reason for his lectures: He was so big and rawboned that he sometimes appeared awkward, and anyone seeing him for the first time would imagine he couldn't get out of his own way. That was one of the reasons why Made Good From Start. A City Lacrosse League, with three clubs, has been organized in Belleville. The clubs are: Y.M.C.A., 15th Bugle Band and Stations. The following officers were elected: Hon. president, H. Burrell; vice-president, C. Symons; secretary, Wallace O. Man; treasurer, Bert Shepperd; corresponding secretary, W. Hudson.

The West End Y.M.C.A. Lacrosse Club's meeting will be held on Wednesday at 8, and not to-night, owing to the dinner. A full turnout is requested.

The Crescents of Brooklyn are already at practice. Their schedule of games is as follows: April 4, Columbia, at Bay Ridge; 11, Stevens, at Bay Ridge; 18, New York L.C., at Bay Ridge; 25, City College, at Bay Ridge; May 2. PROGRESS OF BOWIN TRIAL. Women Tell of Young Man's Movements Prior to Crime.

Mrs. Cornelia Welch, was the star witness for the prosecution at Saturday's session of the Bowin trial. The Millen girl testified that she became acquainted with Bowin last fall, at No. 69 Beaubien-street, where

both were boarding. Some time in September the Millen girl became an inmate of Mrs. Welch's place. She had been here about a week, she said, when young Bowin came to see her. She testified that she gave him money on different occasions, Bowin telling her he wanted the money to pay room rent and get something to eat. Por-tions of the girl's testimony were of an unprintable nature.
Miss Florence Gibbons, now living at home in Walkerville. Ont., testified

that Bowin called at a Randolph street resort one night and asked for Myrtle Millen. Bowin then said he was going to Chicago with a girl nam ed Marie. Further testimony concerning Bowin's last visit to this place and his leave-taking of the young woman was given by Georgie Riley, keeper of the resort, who said Bowin FIRST RACE—Pantoufle, Winning Star, Kingsessing.

## STREET THRU MOUNT PLEA-

Less than three miles from the city's lake front a barrier exists to its natural and legitimate progress, that can only be removed by the act of the legislature. The barrier in question is Mount Pleasant Cemetery, extending from Yonge-street to the second concession east, a full mile and a quarter. Thru this extensive area not one street has been provided for by the cemetery trust: rather has it exhibited the most determined opposition to any effort to obtain a right-of-way for traffic. While Toronto is handicapped in other directions, particularly in its northeast secpeople are prepared to expend the money necessary for the construction the cemetery block. For one mile and a quarter the people north of the burial ground must for all time be restricted to the second concession or to Yongestreet. No other route is or will be open if the trustees of the cemetery are allowed to stand in the way of

The city, York Township and the Town of North Toronto are all deeply interested in breaking up this blocktwo municipalities. The council of North Toronto has tried on several occasions to get the cemetery company to allow a right-of-way into the town thru its property, but their requests have never received the slightest consideration: A special bill was presented to the legislature for the same purport of the other two municipalities. was that a sufficient strip he left free from interments until it was required to be opened as a street. Adequate compensation was offered for the land used, but even this did not appeal to the cemetery trust. The rapid extension of the cemetery eastward makes it essential that something be done street is to be procured. The question is quite serious enough to be considdemand is reasonable in itself and would receive the support of the members of the house whose constituents are asking for the improvement.

The World has undertaken to publish a series of studies in "Student Problems," with a view to having every student at the university placed birth. ## PARTISAN POLEMICS.

Premier Whitney can afford to ignore the partisan attacks of the opposition organs on his policy and administration. Bitter tho these are, there is an evident and uneasy con-dose of Nerviline—simply wonderful sciousness behind them that the stand- the change it makes-stomach is setard of judgment applied to the provincial government is very different from sand times for keeping Polson's Nervithat deemed apprepriate for the federal line handy.

cabinet. Liberal newspapers, prepared at all times to glaze over and condone the incapacity of their political friends, and the gross scandals in which they have been and are involved, cannot complain if discredit is cast upon their professions of fidelity to the cause of good government. Rabid partiality of this kind defeats itself by its own violence and effrontery, nor is it made more paratable by a veneer of unctuous morality. Open defence of questionable political methods is less

profane than partisan piety. That the civil service of the Dominion has suffered severely from its utilization for party purposes has long ENGINEER WAS HURLED been matter of common knowledge. As to women being too emotional to vote properly, Mrs. Wells referred to the transports of feeling shown by men during the South African war. War was created by a few politicians who traded on the ignorance of the people.

Another reason why women should vote was that they were being crowded more and more into the labor market. Woman's sex did not prevent her being for any offence.

Ability to fight was not a voter's it in closing Mr. Foster announced that he would hold a series of meetings in North Toronto, the first to be at Association Hall on April 10. World Office, Saturday Evening, March 28. week on Wall-street has been one of buoyancy not unmarked by irmore general, and is easily an evidence of an attempt to put out stock, and the result of reaching stops in speculative accounts. The high priced railroad shares almost without exception show very little improvement in price for the week, but the low priced issues and several of the industrial companies' shares are well up in price from a week ago. Several common stocks of railroads, which a short time ago were week ago. Several common stocks of railroads, which a short time ago were said to be heading for the receiver's hands, such as Erie, Southern Railway, have a definite intrinsic value, and it is

cific as a guide to the general market's action, the argument being that sentiment is entirely subservient to the movements of this stock. Union Pacific has certainly filled the position during the week, and its various swings have served to carry most of the other listed stocks with it. On Wednesday the directors of this road met and made arrangements for carrying out another increase in bond indebtedness. This served to provide a diversion, and the only one of importance for several other reason than the distribution of

days was the advertising of Lawson. Altho the majority of traders express the utmost contempt for the Boston Althor-the majority of traders express the utmost contempt for the Boston operator, they are still suspicious of his ability to control the market. The present upward movement in the market has been in effect now for nearly six weeks, and it can be no longer doubted that something more than a run in of the shorts is contemplated. No more opportune time could have been selected for the placing of the blocks of securities, concentrated by the collarse of last. by the collapse of last year. Funds are now abundant with the financial institutions, and all the latitude required is now given the commission houses to take on a full supply of speculative accounts. The incoming crop, if good, is expected to make amends for many of the drawbacks occasioned for many of the drawbacks occasioned by over extravagance, and nothing definite in this regard can be ascertained for several weeks yet. If the winter and spring seeding should show favorable results, no better aid to the market could be desired, and this would supply a foundation for generous speculation previous to the activities of the presidential campaign. Should the crop outlook prove unfavorable the market leaders can be relied upon to sell stocks on the level of prices which

ment scarcely promises another reduction in the bank rate for the present, and recent flotations on the London market tend to show that money has not yet become too plentiful to command attention. Money is plentiful at New York and will be more so after the April disbursements. The only active operations at the Toronto exchange this week occurred in the various foreign securities, principally the Rios. It is certain that the increase in transactions was not due to domestic buyers, and it is believed to domestic buyers, and it is believed that the manipulation was principally for the effect that it might have on the London market. Red Rock, Green-Meehan and Silver Leaf have formed the chief attraction and all have appreciated in price on the buying demand. The demand for Red Rock was on account of a recent valuable strike made at this property, which has no further confirmation than rumor. The Green-Meehan claim has not yet been reopened for work, since its shut down last fall, and many holders are wondering when this is to be done. The higher priced issues are for the time being in the hands of traders, who are doing their best to keep the prices down until sufficient outside stock has come into the market to enable them to cover the stock sold and not is not an anomaly and only indicates Commerce—6 at 161¼.

Hearing of Case Given by Interstate Commissioner.

NEW YORK, March 28.-Hearing in a complaint made by the Hecker, Jones, Jewel Milling Co., charging discrimination on export and domestic grain rates by several railroad companies, was given to-day by Charles A. Prouty of the interstate commerce commission. Among the railroads named in the complaint are the Baltimore & Ohio, the Erie, Pennsylvania, New York Central and Hudson River

New York Central and Hudson River Railroad, the West Shore.

Wm. G. Kallmann, second assistant freight manager of the New York Central lines east of Buffalo, said the principal reason for a lower rate on wheat for export than for domestic consumption was because of competition by water with rail interests in the country, and competition with grain from Russia and other foreign countries.

After Kallmann had testified that export flour was given free storage, up to 30 days after it had left the up to 30 days after it had left the point of shipment, Commissioner Prouty said that while the discrimination appeared to be obvious, he was

MUST CUT TIMBER.

B.C. Lessees of Limits Told to Build Mills and Produce.

VANCOUVER, March 29.—(Special.) Owners of timber lands in British Columbia, whether the holdings are provincial or Dominion, are much interested in an order just issued from Ottawa, that forthwith lessees of Dominion lands must start logging of each leasehold and must also build and operate sawmills. The question was discussed by the British Columbia Lumber and Shingle Association. The timber lands in the railway belt of the lower Fraser River are practically all affected. V

It is pointed out by lumbermen that in a great majority of cases these lease. holds are held by men who have never expected an order for immediate and continuous logging, and they are not fluancially in a position to comply with it.

The federal government has intimate ed that it may reconsider the order that mills must be built to cut timber taken off Dominion lands, and permit lessees to sell to mills already built. A large meeting of interested lumbers men has been called for this week.

situation must almost necessarily be of a builish character. Prolonged drought in the southwest or damage fro minsects, or a revival of the cash demand would put a different aspect on prices. Crop reserves are undoubtedly the lightest in years and even with good crops moderately high prices should prevail. July and September should work up to a parity with May and think deferred deliveries should be bought on the breaks. Corn—Holders have sold freely to-day and a lower range of values has been established. Receipts are increasing and the cash demand is very sick with ho inquiry from any direction. Under natural conditions prices should work lower, but the market is still under control of the big bulls, who can manipulate values at their pleasure. Receivers generally are not looking for a big run of corn.

Oats—Have been dull and featureless thruout the week, following the general trade of corn wheat. Receipts have been liberal and the cash trade dull and without feature.

"Don't Neglect a Cough or Cold.'

It can have but one result. It leaves the throat or lungs, or both, affected. Dr. Wood's Norway Pine Syrup is the medicine you need. It is without an equal as a remedy for Coughs, Colds, Bronchitis, Sore Throat, Pain in the Chest, Asthma, Whooping Cough, Quinsy and all affections of the Throat and Lungs.

A single dose of Dr. Wood's Norway Pine Syrup will stop the cough, soothe the throat, and if the cough or cold has become settled on the lungs, the healing properties of the Norway Pine Tree will proclaim its great virtue by promptly eradicating the bad effects, and a persistent use of the remedy cannot fail to bring about a complete cure.

Do not be humbugged into buying socalled Norway Pine Syrups, but be sure and insist on having Dr. Wood's. It is put up in a yellow wrapper, three pine trees the trade mark, and price 25 cents. CHRONIC BRONCHITIS .

Mr. Wm. O'Hara, Souris, Man., writes: "Having suffered for a long time with a severe attack of Chronic Bronchitis, which I could not get cured, I eventually tried your Dr. Wood's Norway Pine Syrup and I am glad to state it has given me a complete cure." FAIR FINANCE-YUKON \$10 Thanks to that mighty horse-sense public, whom, the great Lincoln said, no man could fool a second time, that public which in 38 years has never failed to back me up in my public exploitations, I landed Yukon on Saturday a splendid success an all-record-breaking success. In a two-hours' trading day 700,000 shares

were sold. Never before in the history of stocks, even in a full trading day of five hours, have even 250,000 actual shares of any stock been sold by one interest. In spite of the great, good-natured mob, which trampled upon rules and regulations, and swept aside the extra police detailed to Wall and State streets, my programme went through on schedule time. A great section of the public now own the 700,000 shares. Another and large section have been left-belated. They will come into the market to-day and following days, and their buying will advance the price to 10, perhaps to 15, its actual worth now, and later to whatever price is justified by the splendid dividends it will pay.

Never has any stock affair so uniformly benefited everyone concerned in it—sellers, buyers, brokers and speculators. All classes have made money, particularly the brokers, who, because of the way in which it was handled, have made for themselves in one day's trading, besides their commissions, \$250,000 to \$350,000 which otherwise would have come to me.

While Wall and State streets had a wild time of it, as they always must have when the great public, bent on real business, visits them, it was such a good-natured, jolly time that their hats should be in the air along with their huzzas, but, instead, a section of both localities are surly at my success, as they always have been, and probably always will be. They say now that I am leaving Yukon to "the street," that they will see that it does not go above 8 for some time to come. I should leave the stock to "the street," but the attitude of these growlers has decided me to stay with it for a week longer, to show them that to keep a stock in great demand at, say, 10 for the present, even though it has all been turned over to the public at an average of 7, and even though they, the public, are to secure all the benefits of the rise, is as easy as it is to sell 700,000 shares in two hours, when the combined efforts of "the street" cannot market half that amount of stock in two weeks. The growlers will see, too, how prettily a stock will perform for the public when the real public comes to town to buy it.

I have carried out my prgramme to the letter, and the public have all the Yukon which will be sold to them unless, when it is found impossible to keep the price below 15, it should become necessary to let out some of the Exploration Company's 2,800,000 shares, which President Daniel Guggenheim has assured me will not be sold but at much higher figures than now prevail.

Therefore, I say again to the public everywhere: Buy Yukon at any price under 15 as an investment, and I say to all who have already bought, don't part with any of your stock under 10. I ask both classes to watch the movements of Yukon in all the different markets where it will be most actively traded in from now on, and to judge by its price whether some of us know as much about market operations as we do about talking to the people through the press megaphone.

# CHARTERS NOMINATED TO CONTEST IN PEEL

Conservatives Hold an Enthusiastic Convention - Nomination Was Unanimous.

BRAMPTON, March 29 .- (Special.)impassable roads and weather conditions had no effect upon the most united and enthusiastic Conservative convention ever held in Peel County as candidate for the local house on Saturday afternoon at Brampton. The convention assembled at the concert hall, and delegates thronged in by train and packed it to the door, a larger number having to stand. The gallery was filled with ladies. Robt. McCulloch, president of the Conserva-tive Association of Peel County, took the chair. Samuel Egan, Bolton, was child in a culvert at Pottersburg, near nominated as well as Mr. Charters, but this city, has been cleared up. It apdeclined to stand and spoke in favor of Mr. Charters, who was unanimously chosen amid great enthusiasm. Mr. Charters thanked his supporters for their efforts in his behalf at the last two elections, and said he was ready for the third contest. He felt

quite hopeful that he would redeem the county Richard Blain, M.P., among other matters declared Mr. Charters deserved to be elected for the way he had conducted himself in the last two elections. He had come out stronger each time, and now the party was

more united and enthusiastic than it ber for the Dominion house.

A resolution was adopted endorsing the Whitney government and compli-menting Mr. Charters, Another was passed in which Mr. R. L. Borden's work was recognized and special notice was taken of Mr Blain's industry and efforts in parlia-ment in Mr. Borden's behalf.

Cheers for the candidate, for the ladies and for Mr. Blain brought the meeting to a close.

There is no reasonable doubt of Mr. when Samuel Charters was nominated | Charters' election. He was defeated by only 25 last election. John Smith, the sitting Liberal member, will not run again. The restoration of Albion Township to the riding brings back a Conservative majority of 100.

The major portion of the evening was taken up with the discussion of the advisability of urging the council to establish recreation and playgrounds Rev. W. G. Back of the Eglinton

Presbyterian Church was the principal speaker on this subject. He thought that the Ratepayers' Association was working in the right direction, in try-ing to establish recreation and playgrounds in town, "for man is not made of mind only, but of flesh, brain and brawn," said he. We should develop the whole man, the spiritual and the physical. The physical side of our life is very often neglected. He complimented the North Toronto Hockey ("lub on their work level") Hockey Club on their work last season, but thought the little chaps had no chance on their rink. "We must have something for the little fellow and for the older people," and the churches should enter into the sports of the young ones, and provide for healthy sport for the body as well as for the soul.
