THE STRINGENCY IN THE MONEY MARKET

**Bank of England Raises
Its Discount
Rate**
CHECK GOLD EXPORT
Wall Street Market Broke
Badly at the Opening and
Montreal Was Also Weak
—Bank of England
Statement.

LONDON, Aug. 15.—The directors of the Bank of England after a prolonged discussion today raised the bank's rate from four to four and a half per cent. owing to the monetary situation on the Continent and in New York, and the anxiety of American houses to place finance bills and notes which in turn indicate possible gold shipments to New York in the near future.

The recent foreign competition for the gold arrivals evidently helped the directors to arrive at their decision and the usual demands for Egypt as well as South America, must be met before the year end. The reserve will be sufficiently depressed without such a demand from New York as that experienced last year. The hope is expressed in financial circles that Secretary of the Treasury Cortelyou will assist the New York market by increasing to prevent gold shipments from here, which undoubtedly would cause another advance in the Bank of England's discount rate.

The stock market experienced a renewed depression this morning, chiefly owing to yesterday's break in New York and although not much stock changed hands, prices weakened in all directions, the pressure being accentuated by the advance in the bank rate. Consols declined 1/8 to 8 1/8. Americans started 1/2 to 5/8 below yesterday's prices and fell quickly when the high bank rate was announced, but went up later and ruled steady at about parity level.

The weekly statement of the Bank of England shows the following changes:
Total reserve, increased, £ 1,300,000
Circulation, increased, 515,000
Bullion, increased, 72,418
Other securities, decreased, 932,000
Other deposits, decreased, 1,127,000
Public deposits, increased, 1,427,000
Notes reserve, increased, 1,322,000
Gov't securities, decreased, 1,505,000

The proportion of the bank's reserve to liability this week is 50.85 as compared with 49.90 per cent last week.
NEW YORK, Aug. 15.—Another sharp break in the prices of stock characterized the opening of the stock market today following the lead set by London, where the prices in American stocks slump off today on the announcement of the increase in the Bank of England's rate of discount. Amalgamated Copper, which has been in the strong centre of price depression lately, again was the leader of the downward movement of the day's opening here, scoring an initial drop of 3 1/4 points from yesterday's closing price of 99 1/4. The first sale today was at 96.

IN MONTREAL.
MONTREAL, Q., Aug. 15.—(Special)—Stock prices declined again today as a result of the Mexican break to 37 3/4 and MacKay to 59 1/4. Can. Pac. Ry. which went below 162. New York reached a low key today on decline here at 162 1/4.

LOCAL POLICE LAND MAN WITH UNPARALLELED RECORD

A smooth gentleman, who has served a term in Dorchester penitentiary for stealing and has a number of other charges against him, was nabbed this morning and landed under arrest by Patrolman James Scoble, at the instance of George D. M. Gibe, of Osborne, Mass., who alleges that the prisoner, who gives the name of Samuel A. Chisholm, stole his overcoat from the man's waiting room in the Union Depot while he went out for a smoke.
Chisholm, who was evidently putting up a big game of bluff, walked along quietly to central station, and the patrolman did not even have a hand on him.
"To a Times man Gibe said that in company with his uncle he had come here from Amherst, N. S., and is going through to the States. Finding that he would be unable to proceed on his journey until tonight, he left his overcoat in the waiting room at the station and went out to have a smoke. On returning, however, he found his overcoat had vanished. Gibe thought it would not be amiss to take a turn up street and had been out only a few minutes when he spied Chisholm with the overcoat over his arm and walking quietly up to him asked him where he got it. Chisholm replied that he had just purchased the coat in one of the clothing stores. Gibe was sure the coat looked like his and said "That's my coat that you just carried away from the station." Gibe had purchased some candy and related points and placed them in the pocket, but the candy was gone. He declared the coat was his, and Chisholm told him to take it, as he would rather lose what he paid for it than have any trouble. Gibe thought it would appear strange to walk up to a man in the street and take an overcoat especially as there were many men like his own, and told his story to patrolman Scoble, who was near at hand.

NEW YORK MEN ON A HOLIDAY

**E. M. and C. L. Scovil, Natives
of This Province, Revisiting
Kings County.**
E. Medley-Scovil and Charles Lee Scovil, of New York, arrived in St. John on Saturday to spend a few weeks. They come to visit their grandmother, Mrs. W. E. Scovil, of Rothesay. For the greater part of the time E. M. Scovil will be the guest of Senator Donville, at Rothesay, and C. L. Scovil, of Rothesay. The brothers Scovil, who are natives of New Brunswick, are well situated in New York. The first named is on the financial staff of the New York Times, and his brother is statistician for the well known brokerage firm of Spencer Trask & Co. They have had a few days fishing at Grassy Lake, as the guests of the Sussex Fishing Club, and are greatly enjoying their holiday. Incidentally E. M. Scovil is informing him regarding industrial and general conditions in the province, in his capacity as a newspaper man. He is much interested in the coal development in Queens county and the probable effect upon the province of the construction of the Grand Trunk Pacific.

AWFUL DEATH OF A MONTCON GIRL

**Laura Mitchell, Twenty Years
Old, Had Her Neck Broken
in a Freight Elevator This
Morning.**
MONTCON, Aug. 15.—(Special)—Attempting to ride down stairs in an elevator intended only for freight, twenty-year-old Laura Mitchell, employed as a domestic by Dr. O. B. Prie, had her neck broken this morning. A little girl who was passing down stairs saw the face of the dead girl protruding, caught between the wall and the elevator box and immediately gave the alarm.
The girl had been there probably half an hour before she was discovered and a medical examination proved that her neck was broken. No inquest will be held as no one saw the accident, the circumstances point to a pure accident. The girl belonged to Beersville. The elevator is a box affair and was used for carrying coal, ashes and other heavy articles. A small boy employed by Dr. Prie had often ridden down in it, but the girl, who was quite tall, was too large for the box. When she stepped into it, it shot down beneath her weight and her head protruding, was caught between the top of the door and the bottom of the box, breaking her neck.

Prices are quoted as follows: Salmon, 20, 25, and 28c per pound; cod, 5c, haddock, 5c; mackerel 15c; halibut, 15c; smelt, 12c; pickerel, 10c; finnan haddies, kippers and bladders the same as usual. THE FIREMEN'S CONCERT

The Firemen's Concert tonight in the Opera House under the auspices of the mayor and common council of St. John promises to be one of the best musical events heretofore for some time. Box office sales were reported brisk and indications are that the St. J. O. F. sign will be hung out at an early hour. The programme is published in another portion of this issue.

A FOOLISH LITTLE BOY

The small boy with the solemn eyes, who was again perched on the Times newspaper's desk this morning.
"Have you seen the Victoria grounds lately?" he asked.
"I have," said the new reporter. "I run an excursion there nearly every evening for lawnmower-Teddy and I."
"Looks good—doesn't it?" said the solemn eyes. "It's a playground now."

FREDERICKON EN FEÉ TO DAY TO WELCOME THE VICE-REGAL VISITORS

**Earl Grey and Party Left for the Capital on the Elaine This
Morning and Will Reach There at Three O'clock—
Elaborate Programme for Their Reception.**

FREDERICKON, Aug. 15.—(Special)—Frederickon is en fête today in honor of His Excellency, the Governor General, who will arrive from St. John at three o'clock and who will be given a welcome worthy of the capital city.
The citizens of Frederickon give place to the glories of the past and confidence of the loyalists, who gave up their homes, established in luxury, so carve out new ones under the old flag of Britain.
The weather conditions are ideal and the visitors are certainly enjoying their sail on the river.

The Elaine will land her passengers at City Wharf at the foot of Regent street and the mayor and aldermen will be on hand to welcome the visitors to the city. His Excellency will be received by a guard of honor from the 7th Regiment in command of Captain Osborne.
Immediately after the disembarkation the party will take barouches and proceed to the Opera House where the mayor will present the civic address.

The interior of the Opera House and the stage have been elaborately decorated with potted plants and bunting and the "Welcome," in large letters is conspicuously displayed above the proscenium.
At the conclusion of the proceedings at the Opera House the party will again enter barouches and make a detour of the city visiting the chief places of interest including the old government house and the University buildings. At six o'clock the visitors will repair to the Queen Hotel which will be their headquarters while here.

The lieutenant governor and members of the government and their ladies will dine with His Excellency at seven o'clock in the private dining room at the Queen. The public reception in the legislative building commences at 9:30 o'clock and will be a brilliant function.
The staff of decorators have been at work since yesterday on the interior of the building and a heavy draft has been made on the two local cooperatives for potted plants and cut flowers.

Earl and Countess Grey will receive in front of the speaker's desk in the assembly room as the conclusion of the reception a programme of twelve dances will be given.
A temporary platform has been erected in the corner to the right of the speaker's desk for the use of His Excellency and party.
The supreme court chamber will be utilized as a robing room by lady guests, and the ladies will furnish music.

It will be closed on to midnight when the function comes to a close and the government luncheon at the Queen Hotel will then be called on. It is understood that either Governor Tweedie or Premier Robinson will preside and that covers will be laid for forty guests.
Frederickon's Address
The address to be presented to His Excellency in Frederickon is as follows:
To the Right Honourable Sir Albert Henry George, Earl Grey, Viscount Howick, in the County of Northumberland, in the peerage of the United Kingdom, and a Baronet; Knight Grand Cross of the Most Distinguished Order of St. Michael and St. George, etc., etc., Governor-General and Commander-in-Chief of the Dominion of Canada.

TURKS AND BULGARIANS

**Thirty Killed in a Severe Engage-
ment Near Melnik.**
ATHENS, Aug. 14.—A despatch received here from Salonika reports a severe engagement between Turkish troops and a band of Bulgarians at Dermandjos, near Turkey. In Scro province, European Turkey, the Bulgarians and the leader of the band were killed. The Turkish losses also were heavy. The Bulgarians used a short scimitar and set fire to thirty houses in Dermandjos. Several peasants were badly burned.

A Race on the River

A race from St. John to Frederickon between the Victoria and the Elaine, two of the largest and fastest steamers on the route, with the governor general and party on one of the competing boats, was certainly not a part of the vice-regal programme. Nevertheless that is what was inaugurated at Indiantown this morning. The Elaine has always been favored, but between these two steamers, and it is whispered that there were special reasons why the Star liner was chosen to beat out the Elaine today. The Victoria was held over her regular time, it is said, for the express purpose of a contest, and left off most immediately after the Elaine.
The latter, however, has the advantage in that the Star line boat has the mooring, and returned trip down this morning, reports having passed and saluted the vice-regal steamer off Brundage's wharf about 9:40, and the Victoria just previously off Day's landing; both steamers were going at a high rate of speed. As Day's landing is about a mile above Brundage's wharf, the Star liner would seem to have had the better of the race up to that time.
The steambot met in Indiantown, however, while declaring that the Victoria is the faster, believe that the Elaine will be at the Celestial City first.
They point out that the Victoria would not have the same chance as the other steamer as she has her stops to make, and further, as one steamer captain said, "the old man," referring to Captain Peatman, "knows all the short cuts."

MONCTON NEWS

MONTCON, Aug. 15.—(Special)—A number of Springfield miners who are out of the collieries on strike, have come to Moncton and accepted work at the new I. C. R. works. It is stated that about 25 miners have given employment at the new works within the last few days and more are expected.
John Brookes, of the Maritime Employment Bureau, here, went to Springfield to engage men for a number of firms. He wants about 500 men and expects to hire this number principally from the striking miners.
Daniel Mitchell, mate of the steamer Hampstead, met with a painful accident when the boat was at Gagetown on Tuesday evening last. She had just come to the wharf; Mitchell was hurrying off to make fast a line, when he tripped over the gang plank and fell heavily, dislocating his shoulder and breaking one of his ribs. The injured man was carried into the cabin and Dr. Caswell summoned. After the necessary medical attention, Mr. Mitchell was brought to the city. He will be laid up for some time.

The Victoria grounds are now open as a supervised playground, and happy children are playing over the level greensward today, under the care of Miss Robertson and Miss Bentley. These teachers are pleased to express their appreciation of the beautiful grounds, which contrast so greatly with the copped-up school yards.
Lawns, swings, croquet, the kindergarten tent, balls and bats and other equipment were taken down yesterday, and when a Times man visited the grounds this morning there was great activity in preparation.
Tomorrow should see a great crowd of attendants, and all next week these grounds, and all next week these grounds, take them in baby carriages, for there is ample room on these grounds for all who care to attend, and it will be good alike for mothers and children to spend a morning or afternoon on the green field. EARL GREY'S ADDRESS

In his address before the Canadian Club, yesterday, Earl Grey took pains to remove any impression that may have been conveyed by the report of his Halifax speech to the effect that he advocated an immediate contribution by Canada to the support of the British navy.

Another question discussed at some length by the Governor-General, was especially of local interest. It was that relating to the fisheries. There is too much reason to believe that his criticism was deserved when he stated that owing to their conservation and reduction to adapt to the best methods of catching and curing fish our people have not developed the industry to anything like its full capacity.

His excellency's remarks concerning the function of Canadian clubs were particularly pleasing to his auditors. The success of the club in St. John has been one of the notable features of recent civic life.

There is much significance, at a time of financial stringency, in the remark of an exchange that: "If productive activity is to be maintained in a healthy state, self-denial must be practised in good times, though not in so great a degree as it is enforced in bad times."

The city council may now be able to find time to consider the fact that the city is still without an active engineer or director of public works, and that Engineer Peters is saddled with a task far beyond the capacity of a man of his years.

A NEED REVEALED. Recent Canadian Club luncheons have emphasized a need in this city that has been recognized before, but never so

strongly as now. There is not in St. John a suitable place in which to hold these luncheons. The membership of the club has grown so rapidly, and its luncheons are so popular, that better provision must be made for accommodation.

A FEW EXTRACTS (Earl Grey at Canadian Club.) "Gentlemen, if you consult history which chronicles the causes of the decay which has led to the ultimate extinction of the great republics you will find that the corroding influence which has undermined them and brought them crumbling to the ground has invariably been that of local and individual selfishness and a fierce party spirit bent on the unscrupulous attainment of its own aggrandizement."

"Gentlemen, the prosperity of a nation lies not in its area or in the numbers of its population but in its soul. And I do not know where I should look for the soul of Canada in preference to the province where the spirit of the United Empire Loyalist still beats, I rejoice to hear, with undiminished force in the hearts of the people."

"Canada and the empire are necessary to each other. Without the support and strength which Canada enjoys as a portion of the British Empire, she would soon lose her national existence. On the other hand the British Empire without Canada might soon cease to be an empire."

"I confess to a belief that the maritime provinces of the world have from time immemorial been the centres of culture, infusio, power and civilization."

It is a fact worthy of more than a passing thought that of 201 immigrants deported from Canada because of diseased condition, during the fiscal period ending in March last, no less than 192 were English, while the healthiest immigrants coming here are the Galicians. The crowded life of English cities is seriously affecting the physique of the people, and there is the greater need that more of the young men and women should seek the bracing air and the open life of Canadian fields.

Dr. Goldwin Smith celebrated his eighty-fourth birthday on Tuesday last. The Toronto World says: "Through his years have far exceeded the Psalmist's span of three-score years and ten, and though it cannot be said, with that degree of truth to which he has himself always aspired, that his eye is not dim nor is his natural force abated, yet certain it is that Dr. Smith is as clear of intellect and as masterly in expression as at any point of his distinguished career."

The Valleyfield cotton operatives have not chosen the most opportune time to call a strike. The company say they can better afford to close the mill than grant the increase in wages.

TRIBULATIONS OF MR. BUCKWHEAT

HANNAH SAYS SPRING IS COMING. Editor Times: Sir,—I thought we had escaped this year, but when I came in from feeding the pigs the other day, Hannah was mixing a jar of sulphur and molasses.

"The melancholy days have come, The saddest of the year!" Three days passed, four to come—we are doing as well as could be expected.

"Her pretence 'an' she lied on man And then she made the lawless O!" I went in the house, lit the pipe, sat down in an easy chair, made out of an old barrel.

"I said it was like wedding cake, Hannah said it would be a good many moons before she'd get me a good one."

"I thought she swore a little, but she said it was only the language of ladies of the smart set, when playing various games."

"That was the first round, I was down and out. She took each of the children by the nose, the good old-fashioned way."
