WANT TO PASTEURIZE

It is reported that many people in the country are now seeking to find out how they can have their milk pasteurized or can themselves pasteurize it. It is also said that many people who had no taste for milk as a drink formerly are now enjoying the pasteurized product.

For those who wish to pasteurize milk in their summer homes the directions are given. Heat the milk to 145 degrees in a double boiler and keep it at that temperature for thirty minutes, then cool it immediately to fifty degrees or fifty-five degrees; place it in a sterilized bottle and cover, leaving it in a cool place. A dairy thermometer is needed to make sure the temperatures are correct and ice is needed to have the milk cool quickly.

MADE IN CANADA

NEWEST EGYPTIAN STAMP IS DELIGHT TO PILATELISTS

Produced by New Process, Bears Portrait of King Fuad, Himself an Expert Collector for Many Years.

London, May 16.—(By mail.)—Egypt has given us the sensation of the year in the unearthing of an ancient Pharaoh's tomb. It comes as a curious contrast that the newest King in Egypt has just given us the very latest thing in modern stamp production, writes Fred J. Melville, in The London Daily Telegraph. The first distinctive stamps of the independent kingdom of Egypt introduced a new and beautiful process of manufacture, and depict for the first time in the history of stamps, the Pharaohs the portrait of the reigning sovereign. King Fuad is a connoisseur in the matter of stamps, and is the possessor of some very fine collections, which are at present in process of being rearranged. He has been collecting for many years, and with his familiar knowledge of stamp designs, and the too frequent occurrence of caricature in stamp portraiture, he has sought to give his people a series of stamps which represent him with photographic likeness.

The portrait is of His Majesty's own choosing, and the frame is well subordinated to it, and is ornamented with lotus flowers. The inscriptions are all in Arabic, except that in order to conform with the regulations of the Postal Union the denomination is also shown in European figures. Hitherto the Egyptian stamps have borne English or French inscriptions, but independence asserts itself in these postal emblems, as we have seen in the Irish stamps.

The new Egyptian stamps are produced by a process to which the name collagraphure has been given. It is of the character of photogravures, of which it is an improved form, without

JUST BEFORE YOU RETIRE:

—How Do Your Eyes Feel? If after a hard day's work, your eyes feel ready to close up on you—if on arising they do not feel entirely rested,

—then you are drawing on your nerve force and are sapping your vitality.

YOUR EYES NEED HELP

A properly fitted pair of glasses will give you the help you are in need of. They remove the excessive strain, soothe the nerves and allow you to forget that you have eyes.

"It pays to take care of your eyesight."

BOYANER BROS. LIMITED

Optometrists.
111 Charlotte Street.

screen or grain. It is claimed that it combines the softness of photography with the accuracy of the more familiar processes of stamp production. It certainly produces a very realistic result in these new Egyptian stamps, and the only query that suggests itself is whether it can be maintained with the uniformity that is considered so important in stamp manufacture. Most photogravure processes are liable to considerable variation in detail of the image and in the inking. Harrison & Sons, Ltd., who have produced the Egyptian stamps by this process at their Hayes works, consider that any slight variations in these respects are fully covered by the protective factors of the specially coated and water-marked paper and the accurate perforating. On the score of cost, as well as in consideration of the beauty of these stamps, the process will appeal to other countries where the output of stamps is not enormous. The process is cheaper than recess plate engraving, but it can only be worked effectively with elaborate machinery and highly skilled workmanship.

WOMEN CONSTABLES ARE DECLARED TO BE NEEDED IN LONDON

Enrolment in Ranks of the Metropolitan Police Force Regarded as Great Benefit to Welfare of the City.

London, May 5.—(By Mail.)—The enrolment of twenty women in the ranks of the Metropolitan Police Force, with full power of arrest, is a politico-social event of some importance," according to Holford Knight, writing in "The London Daily Mail."

of woman. As the ingenuity of man develops inventions by which he contrives to conceal this antipathy take on more (seemingly) reasonable forms. At the best, a marked solicitude for the shielding of women from heavy duties is proclaimed. This finds a suitable recognition in the official announcement that the women constables will not be left unattended to the discharge of duties in excess of their physical strength. For myself, experience has taught me to question the supposed inferiority of women to men. "I stress this aspect of the matter because it was clearly uppermost in the public mind and because the service of the women constables will be

Walnut Bedroom, 7 Pieces, \$246.85

A Seven Piece Suite of Genuine Walnut for \$246.85—more than that, it's three tone walnut and of generous proportions in the William and Mary period. \$246.85 Seven pieces for

Large Circassian graining and black bordered inset panels create a triple tone combination. They show in the bow-end Bed, the Chiffonerie with its removable trays, the large Dresser and Vanity. Latter has drawers on each side and centre pier glass mirror giving full length view.

With bench, chair and rocker to match, and all genuine walnut, this is real value in furniture.

Plain White Duck, stitched toe cap and white fibre sole and heel \$3.75. Yachting and Tennis Sneaker Oxfords and Boots in White, Brown or Black Canvas and rubber soled, from \$1.35 FOR MEN. Grey Elk with brown apron and toe foxing, raw rubber crepe sole and heel, \$8.50. Sneakers, Oxfords and Boots, from \$1.35.

Francis & Vaughan Nineteen King (Exclusive agents St. Andrew's Golf Shoes.)

tested by its demands. For the service of woman in the modern state must satisfy the same test as is applied to the work of man, the test of social utility. Unless the public welfare is promoted by their duties, the women constables cannot hope to persuade society to retain their services.

"The further aid that society will receive in the protection of its members by women constables is of high importance. A whole range of conduct comes within closer supervision. Put bluntly, we are rearing a brood of girls and women in London and our large members of their own sex. "Again, in the detection of lying, the assistance of woman is beyond price. In those numerous cases which depend upon charges formulated by women and girls assistance in the testing of their veracity is vital to the proper administration of justice. It is common knowledge in the courts that exhibitions of acting in the witness box reach a very high standard of art—and deception. When our women barristers are ready for such tasks their assistance will be welcome. Meanwhile, however, we must rely upon women constables to help in sifting the female wheat from the chaff. I do not question their success.

against her, was as full vindication as she possibly could obtain.
Mrs. Henrietta Farrar, mother of Geraldine Farrar, opera singer, left an estate of \$8000, according to her will filed for probate here. The estate, consisting principally of jewelry, was bequeathed to her husband, Sidney D. Farrar. Mrs. Farrar died on Jan. 24.

NO MINISTER TO WASHINGTON FROM AUSTRALIA

Melbourne, June 1.—Australia does not consider the appointment of a minister to Washington necessary, and no trade will be taken, according to Premier S. M. Bruce. He said that a special commissioner to the U. S. had been appointed, Donald MacKinnon, director general of recruiting during the war, and a former minister in the Victorian cabinet. Mr. MacKinnon, who will arrive in the U. S. in July will succeed Sir Mark Shadon, former commissioner for Australia, and will occupy the New York offices.
Mr. Bruce asserted that the new commissioner's duties would in no way overlap those of the British ambassador.

THE NEW IRELAND.

The collapse of De Valera's mad campaign has directed attention to the general condition of affairs in the Irish Free State, and there is much favorable comment on the unwavering course pursued by the Government and what it has been able to accomplish in spite of the rebellious acts of the Republicans. The trade of the country is increasing and there is a growing prosperity. No difficulty is found in floating a loan in the United States, and the wisdom of the rulers of the Free State has inspired confidence everywhere.

The Ottawa Journal says:— "There is a current belief in this country that Irishmen have done nothing during the past two years but fight among themselves. The reality is that Ireland, with a population only one half as great as Canada, did an international trade in 1922 that was much greater than Canada's. And while the Free State Government is dealing with a heavy deficit (the budget starting with a heavy deficit) it has shown a gap of about seventy millions between expenditure and revenue) there is every indication that it will easily make its way. That, at all events, is the opinion of such a sound economist as Mr. Hartley Withers, the editor of the Economist, and it is also the view of New York financiers, who are preparing to absorb an Irish loan. Thus far, certainly, the Free State has been a pronounced success. It has a Government which has shown strength and genius in administration; a second Chamber that is a credit to the nation; it has built up a smoothly working army, and efficient economic machinery; and it has functioned successfully in every department of Government. In a word, Ireland stands today a nation in fact as well as in name; a sister nation of the British Commonwealth, preparing to take that vacant chair at the coming Imperial Conference. And while her people will find that self-government has no magic cure for most of the problems of life, there is no reason why the Celtic genius for politics, which has contributed so richly to the upbuilding of other lands, should not work out in the Green Isle a democracy both invigorating and beneficial to the Empire as a whole."

The Boston Herald discusses Irish affairs in a similar vein. It points out that both in the north and south there is peace, and the people of the Free State may now rejoice in the security "which has followed the victory of the Parliament and Government over the anarchic forces of destruction." The insurrection, says the Herald, "had become a thing of ugly and baffled reminiscence, an object of public abhorrence, and the parliamentary representatives and the parliamentary representatives of the nation wisely preserved their dignity by ignoring the words of the dying voice of insurgency." Of the future task of building up prosperity in peace, the Herald says:— "A good beginning was made with the budget of April 13, in which President Cosgrave and his colleagues showed how heavily the enemies of the Free State had burdened it with liabilities for reparation and reconstruction. The estimates called for a total of \$222,500,000 to meet the year's expenditures, and the expected revenue fell short of that amount by nearly \$100,000,000. But, the Government shouldered the task with courage and confidence. A loan would be necessary to carry the country through its early years of financial independence, and who had any fear that the credit of the Irish Free State would not be honored in the best money markets? The confidence was not mistaken. American bankers welcome the negotiation of a loan of \$25,000,000."

In the course of a long article the Montreal Gazette says:— "To Irishmen everywhere the latest news from Ireland is welcomed as signifying the dawn of a genuine peace peeping through the clouds of tumult. Those who have watched and waited through the long night of anarchy and terror have suffered many disappointments, but never have they been disheartened, not even when death stalked in their midst and carried off their greatest leaders and dearest friends. Those staunch Irish hearts knew full well the dawn would come, and they waited fearlessly and patiently. The rebels have come to the end of their resources; they have found the Free State Government, elected and supported by ninety per cent. of the country, too strong for them. It is the time to settle. . . . The wicked spell under which Ireland has so long rested seems at last broken. We may at last hope confidently that Ireland's great destiny will be fulfilled."

The infant death rate in St. John is considerably more than twice as high as in New Zealand. Pasteurized milk helps to lower the infant death rate. New Brunswick, thanks to Hon. Dr. Roberts will get more of the benefit of the new insulin treatment, which has had such wonderful effects in the treatment of diabetes.

THESE PROVINCES CONCERNED.

The New York Tribune says a complete tie-up of the building trade in that city has been averted for this year. It says:— "A study of the developments of the last few days shows that of the 115,000 building trades workers in greater New York, 46,000 are members of unions which have concluded new wage and working agreements with the various corresponding units of employers holding membership in the Building Trades Employers' Association. These agreements, which are basic for the entire local industry despite the fact that not more than 20,000 or 30,000 of the workers are employed by association members, carry wage increases of 81 a day and are to be in effect from June 1 to January 1, 1924. In addition to the agreements already reached, negotiations for similar contracts either have been begun or will be instituted this week. The association groups concerned and other unions representing about 15,000 workers, with it is believed, excellent chances for success in virtually all cases. This accounts for 61,000 of the building trades workers. Of the 54,000 remaining the 5,000 bricklayers are on strike, the 2,000 plasterers appear to be satisfied with \$12 a day and no agreement, the recently increased 4,000 plasterers and masons' laborers appeared willing to continue for the time being without a contract, the 400 mosaic workers have asked for negotiations, no conference has been arranged with the 600 house shapers and the rest of the building trades workers—such as art glass workers, blacksmiths, etc.—have made no demands and thus are not involved in the controversy."

The strike of the bricklayers has either held up or crippled building projects to the value of \$200,000,000. Whether these will be resumed or not depends upon whether the men's demands are granted. They are the more independent because many of them have been given work by speculative builders, who pay them the \$12 per day they demanded of the Mason Builders' Association, and bonuses in addition. The old Building Trades Council had also threatened to strike, and it represents 80,000 workers, but they have postponed action until June 8, as many of the crafts represented had either got satisfactory terms or negotiations were progressing in a satisfactory manner. Of course the matter is not settled, even if a general strike is averted. There remains the fact that the cost of building is too high. Building projects involving immense sums which were planned but not begun will be held up. The loan companies will not provide funds for new work except for that which is of an emergency character. Thus if labor wins in this fight it also loses, because very much less work will be available as the season advances; and it would be better in the end to have steady employment at a somewhat lower wage.

New Brunswick and Nova Scotia are interested in the situation that has developed not only in New York but in some other cities. Bradstreet's last week noted the fact that there was a slackening in demand for lumber for later delivery. If this should continue, the effect upon lumber prices here might be considerable before the end of the year.

DISEASE IN MILK.

The death rate from tuberculosis in Ontario in 1921 was 71 per 100,000. In New Brunswick it was 104. Milk from tuberculous cows is one source of the disease. In the British Medical Journal of Feb. 24, 1923, Frederick Hobday, C.M.G., F.R.C.V.S., F.R.S.E., Honorary Veterinary to His Majesty the King, writing on "Certain diseases of the cow and their interest to the Physician," says:— "In the prevention of tuberculosis much good can be done by collaboration (between physicians and veterinarians). Until the law is altered so as to compel the milk vendor to guarantee tubercle-free milk, so long shall we have the human deaths from bovine tubercle infection. Most things are sold as guaranteed free from adulteration, and why not that most essential of things milk free from this contamination? Here one has a food, necessary to infants and invalids, and yet it may contain living cultures of the most insidious and terrible poison in the world."

Dr. Howarth, the medical officer of health for London, says that out of fifty consecutive samples of milk purchased in the city no less than one in four proved to be tuberculous and Dr. Biggers, at the last meeting of the Statistical Society of Ireland, asserted that 5 per cent. of all deaths from tuberculosis were due to drinking tuberculous milk. In the police court yesterday afternoon, Mr. Speight was fined \$200 for selling liquor in his beer shop in Main St.

THE LIVING DEAD.

(Charlotte Becker.) We count it sad that we forget the dead. Give them no grieving through our busy days, Banish their memories from our crowded way, And scarce recall the wisest words they said; Of fickle haste our modern lives are bred, And we, who once staked all on some loved friend, Now at a newer shrine our fancies bend, Even remembrance of old sorrow fled, Yet, far more tragic is it when we pass, Unrecognizing, one who has been part Of our interests of head and heart In hours forgotten now as last year's grass; The buried dead! 'Tis not disloyalty, But oh, how hurt the living dead must be!

DIVING FOR MILLIONS.

(New York Herald.) The British season for deep sea treasure hunting in 1923 fashion has got fairly under way with the signing of a contract by a firm of British marine engineers who will try to bring up the \$25,000,000 worth of bullion estimated to be in the hold of the torpedoed Lusitania, and the arrival of the British navy salvage ship Racer at the scene of the wreck of the liner Lusitania off Lough Swilly on the Irish coast.

The attempt at salvaging the gold in the Lusitania is the latest of these operations, although last summer it was announced that two American companies and one English concern were about to begin work on the wreck. These projects came to nothing, but as the newest enterprise has the approval of Lloyd's underwriters it appears that this attempt may be more promising. The work of the British navy salvage corps on the Lusitania is now in its fourth season. Bringing up the bullion from this vessel was "re-started" in July, 1921, up to which time the Admiralty divers had recovered upward of \$5,000,000. In August, 1922, it was officially reported that bullion to the value of \$7,500,000 had been recovered "in the last two years," which would leave about as much more in the ship's hold. The earliest announcement about this salvage work gave the amount of bullion aboard the Lusitania as \$15,000,000, although other estimates have put it as high as \$25,000,000. Other expeditions that will go diving for sunken treasures this spring and summer in British waters include those of a Swedish engineering firm which proposes to attempt the salvaging of \$5,000,000 in gold from the wreck of the P. and O. liner Egypt, sunk off Ushant in October of last year; resumption of work at the wreck of one of the Spanish Armada galleons in Tormore Bay on the Scottish coast, and an enterprise in the way of an attempt to recover King John's fortune, said to be sunk in The Wash many centuries ago.

THE DISCOVERY OF VULCANIZING.

(Halifax Herald.) Charles Goodyear's discovery of the art of vulcanizing rubber was accorded by many other important discoveries. Goodyear did not live to be an old man. He was killed in New Haven in 1850 and died in New York in 1860. But his discovery was the means of developing one of the world's important industries. Goodyear was not much of a success until the fortunate accident happened which sent him on the way to wealth and influence. He had tried many good enterprises, but had failed in all of them. He was most of the time in debt, and unable to satisfy his creditors, and at times had to serve prison terms on account of his inability to meet his liabilities. The tide turned one day when he was experimenting with a plant at Roxbury. While his discovery was accidental, it is to be said of him as well as of others who have wrong success out of several desperate conditions, that he was continually fighting against evil fortune, and that he bravely conquered it. He knew how to wait. He was experimenting with a sulphur-containing rubber sample and it accidentally became scorched. He found that the scorched had produced the change in the rubber which he had been vainly trying to bring about. The secret was unlocked to him. His diligence and perseverance were rewarded. The "rubber people" are now proposing to erect a monument to Goodyear. It would hardly seem to be necessary. The name is a household one throughout the world. The accident made him great.

IT TOOK TOO HARD.

(Medical Journal.) Some one asked Prof. Steinhilber of Vienna, whose rejuvenation experiences are well known, if there wasn't considerable danger in the process. "Of course, the thing can be overdone," he replied, with a smile. "I am told that a woman met a friend of hers on the street wheeling a perambulator in which sat a chubby infant. 'I did not know you had a baby,' said the first woman, in surprise. 'I haven't,' replied the other dependently. 'This is my husband—he has been to Dr. Steinhilber.'"

A WOMAN'S CAREER.

(Guelph Mercury.) At a recent graduation from the University of Manitoba, with seventy-seven graduates, the graduates themselves declared their chief hope in life was to "have a home, and a husband and the other perquisites." The career, with independence, is not always as alluring as it appears to be. Nature seems to have decreed a career for women, that is for most of them, and those who fight against it fight to their own destruction.

A short conference regarding the matter of the expropriation by the Federal Government of the foreshore rights of the Municipal Home for the Courtenay Bay development was held yesterday afternoon in the Mayor's office by the committee appointed by the Municipal Council for the purpose. H. A. Powell, K. C., solicitor for the Municipal Home in the matter, was present. It was announced that the case would come up for hearing on June 16, the Government's offer having been refused.

RECORD RECORDS.

(London Punch.) We have nothing but approval for the movement in the direction of producing educational gramophone records instead of the often "very noisy though fairly harmless" music which is emitted by that instrument. We welcome therefore a new series of parliamentary and unparliamentary records of actual incidents at Westminster. Every citizen who is also the proud possessor of a gramophone will surely wish to have the wonderful "Wild Life in the House" record, descriptive of a present-day scene in the House of Commons. Against a background of mingled voices engaged in a variety of activities the sonorous "Order, Order!" of the Speaker's mace, the majestic form of parliamentarianism and unparliamentary records of actual incidents at Westminster.

NEWSPAPER CABLE.

(New York Times.) When Professor Roland G. Usher, who teaches history in George Washington University, St. Louis, said some three months ago, that cable dispatches in the American newspapers did not give trustworthy information, because only a few lines were telegraphed and the rest was padding added by editors, he only excited wonder whether he knows as little about history as he does about journalism. When, a little later, Paul Patterson made much the same statement about the expansion of cable dispatches it was explicable to newspaper men only on the theory that he made the grave logical error of arguing from the particular to the general.

But in Chester S. Lord's book, "The Young Man and Journalism," there is a passage strangely similar in tenor, and this, naturally enough, has been eagerly seized upon by those—a reviewer in The New Republic, for instance—who like to deny the veracity of newspapers. Certainly if Mr. Lord now does not know all there is to know about the making of a newspaper it is because he has forgotten some of it since his retirement from the managerial position he held so long and so ably on the old Sun. Yet in this book, so full of sound instruction and good advice for the young man entering journalism, he writes in seeming approval of printing as part of a cable dispatch material sent by mail or written from material in the office! Nobody can deny that Mr. Lord is high authority, and yet—well, put it that one must regret that he should have used his authority in a way that only can throw needless doubt and discredit on foreign news printed in the American papers. For the fact, as not as he stated them, and if ever they were it was many long years ago, when few of our papers could afford to pay cable tolls and even the most prosperous ones cut this expense to the minimum compatible with getting, directly, any foreign news at all. Mr. Patterson and Mr. Patterson were answered and refuted as soon as their statements were made, but as Mr. Lord's "revelation" has received every word in its subject, it seems judicious to repeat with all possible emphasis the previous denials that cable dispatches are padded—that they are not exactly what they seem to be. The New York Times does not assume to speak for the whole American press, but in its own column which is printed as having come from abroad, either from its own correspondents or from press agencies, did come in that way and appeared, except for occasional enforced condensation, exactly as it was sent.

MISS CANADA'S PROGRAMME AT GLACE BAY, N. S.

(Glacé Bay Gazette.) Elaborate preparations for the reception to Miss Winifred Blair, "Miss Canada," are being made by the firemen's and citizen's committees. Several committees have been appointed and all have completed their plans. The programme for both days, June 3 and 4, is announced as follows:— Sunday, June 3—Reception committee meets at Glacé Bay hospital. She will be met by the Fire Chief and Mrs. James MacKenzie while in Glacé Bay. Monday, June 4, 9.30 a. m.—Civic welcome and visit to Glacé Bay schools. 1.2 o'clock—Lunch at the Dominion Coal Company's club. 2.30 o'clock—Visit to No. 2 schools. 3-4 o'clock—Visit to No. 2 mine. 4-6 o'clock—Recreation. 6 p. m.—Dinner at Central school, attended by "Miss Glacé Bay" contestants, firemen and lady friends. 8 p. m.—Crowning of "Miss Glacé Bay" by the short programme. 9 p. m.—Dancing at the Rex and Palais academies. Though the stores will be open on Monday, merchants and citizens in general are requested to decorate their places of business and residences. The veterans' band and other musical organizations will be in attendance at the different functions on Monday.

DIAGNOSES DISEASE BY MEANS OF PHOTOGRAPHY.

Binghamton, N. Y., June 1.—Diagnosis of disease by means of photography will be the next step in medicine if tests now being conducted by Dr. Alfred B. Hitchins, director of the Anso Research Laboratory are successful. In an address before the Broome County Academy of Medicine, Dr. Hitchins declared each disease has a specific photo reaction which, if properly studied, will identify the ailment from which a patient is suffering. Dr. Hitchins' experiments come under the head of spectroscopy, while the device he uses in photographing disease reactions has been termed refractography. The new method will be most valuable in identifying diseases through the chemistry of the blood.

BLIND MAN IDENTIFIES SUSPECT BY HOLDING WRIST.

Worcester, June 1.—By taking hold of the suspect's wrist, John Daly, a blind man living at the Bethel Mission, identified Fred Gibault, twenty-four, in the District Court as the thief who stole \$40 at the mission. The testimony of the blind man, who recognized Gibault by sense of touch, as the man who was in his room, was accepted by Judge Uttley. Gibault was bound over to Superior Court in \$500 on a charge of breaking, entering and larceny. Daly said that he was awakened when the man entered his room and that he caught him by the wrist and held him for a time before he broke away.

PUBLIC EXCITEMENT IN EDMONTON.

(Edmonton Journal.) The three citizens who turned up at the meeting called on the south side for the discussion of the money bylaws must have been our old friends, "Anxious Householder," "Constant Reader," and "Pro Bono Publico." Two youngsters were bitten by dogs yesterday, bringing the total for the last two days to three. Little Arthur Palmer was bitten by a bull terrier owned by Mrs. Mary Ralph, 111 Britain street. The dog was destroyed. A youngster was bitten last night in Erin street by an Alredale and the police are looking for the dog.

Our Gift to June Brides. A 12 Piece Aluminum Set. With every purchase of an Enterprise Cooking Stove or Range. The set includes Tea Kettle, Double Boiler, Covered Pot, Saucepan, etc., of glittering solid aluminum. And remember— ENTERPRISE COOKING STOVES AND RANGES have been preferred by housewives for efficiency, convenience, beauty and economy for over thirty years. Come in and see this lovely aluminum set—and Enterprise Cooking Stoves and Ranges. Emerson & Fisher, Ltd.

Laundry called for on Wednesday and returned Thursday. We trust this service will be appreciated by all who make these beautiful suburbs their home. Phone M. 1707. For Real Service.

Lady Hylton, wife of the captain of the King's Guards, declares her photograph days are over.

RECENT WEDDINGS

Fanjoy-Barton.
Miss Yetta Muriel Barton, daughter of Mr. and Mrs. T. A. Barton of Cumberland Bay N. B., and Raymond Fanjoy of the same place, were united in marriage Wednesday afternoon by Rev. H. W. Hopkins.

RECENT DEATHS

Captain Henry Robinson.
Word has been received here of the death of Captain Henry W. Robinson of Hopewell Cape. His death occurred in Washington, Oregon. He leaves his wife, one daughter and several other children by his first wife.

Mrs. Elizabeth Mosher.

The death of Mrs. Elizabeth Mosher occurred suddenly at her home last night in her fifty-ninth year. She was a general favorite and was prominently identified with sociable and charitable work. She is survived by eight daughters and two sons. Mrs. George N. Hatfield, wife of the city road engineer, is a daughter. The funeral was held this afternoon.

TWO VALUABLE RECIPES.

One Egg Cake.

1/4 cupful Borden's St. Charles Milk, diluted with 1/4 cupful cold water.
1/4 cupful vegetable cooking oil, scant.
2-3 cupful sugar.
1 egg.
1/2 teaspoonful salt.
1 1/2 teaspoonfuls baking powder.
1 1/2 cupfuls sifted flour.
1/2 teaspoonful vanilla.
1/2 teaspoonful lemon extract.

Beat the egg light and cream it with the sugar, salt, and flavoring. Combine the milk, diluted, with the cooking oil. Sift together the dry ingredients and add them alternately to the first mixture with the milk. Beat thoroughly, turn into a lined, medium-sized pan and sprinkle nut meats, chopped raisins or cocoanut over the top. Bake in a moderate oven for thirty minutes.

Strawberry Short Cake.

2 cupfuls flour.
2 teaspoonfuls baking powder.
1 teaspoonful salt.
2 rounding tablespoonfuls butter.
2 rounding tablespoonfuls granulated sugar.
1 cupful Borden's St. Charles Milk, undiluted.

Sift all the dry ingredients together, work in butter, as you would for pie crust, add the milk, beat with spoon (it will be very stiff) and bake twenty minutes in an oblong pan. Split the cake with a hot knife, butter the two sides and put them together with two quarts of strawberries which have been cut into small pieces, sweetened and allowed to stand before placing on cake.

EAST ST. JOHN FIRE PROTECTION

A committee from the Community Club of East St. John, composed of Richard Magee, Councilor Alexander Magee, W. F. Burditt and Rupert Taylor, held a conference with Commissioner Wigmore last evening in connection with fire protection for their district. The proposed fire district will extend from the One Mile House to the East St. John school house, and it is estimated that the cost will be between \$3,500 and \$4,000. The installation of seven hydrants and 1,000 feet of hose is considered adequate for houses within a radius of 1,000 feet of the main pipe. A conference will be held later with Commissioner Thornton to arrange for the services of a fire engine.

This Beautiful Walnut Dining Room Suite \$404.00

M. R. A. Ltd. The Home of Fine Furniture.

On first thought you might consider \$404.00 quite a price, but when you know that the Suite is in genuine walnut—that it is in quaint old Dutch period design—and that chairs are all upholstered in real leather, the price seems moderate enough.

It is really a beautiful suite and consists of 60 in. Buffet, China Closet, Extension Dining Table, 5 Side Chairs and 1 Arm Chair. Very simple in pattern and easily kept looking its best.

If you are interested in the kind of furniture found in better homes, we would like you to see this suite.

NOTE—Above Dining Room Suite may be purchased on the Home Maker's Plan if desired. This means one quarter of the price at time of purchase, and the balance in stated payments monthly.

(Furniture store—Market Square.)

Forty-Five Years In Fire Department

The forty-fifth anniversary of the entrance of Charles Jackson in the St. John Fire Department comes today. He is assistant chief, following his father, John Jackson, who held this position some years ago. He has worked under three chiefs, A. C. Smith, John Kerr and George Blake. Chief Blake has also been a member of the department for more than forty-five years, having joined in 1875, two years before the big fire. In 1914 he was appointed chief and has held that position since. Both men are recognized as first class firemen.

rested at the instigation of the attorney-general of Nova Scotia. The witnesses testified they did not hear Bruce use the language attributed to him. Fire in the Briton Hotel in North Sydney yesterday morning for a time threatened the destruction of the central part of business and residential section of North Sydney. The Briton was a three and a half story structure and suffered severe damage. There was \$7,000 insurance on the building.

Gouraud's Oriental Cream

The Breaking Point

By Mary Roberts Rinehart

(Copyright 1922, by Mary Roberts Rinehart, Published by Arrangement With McClure's Magazine.)

(Continued From Yesterday.)
"You must remember this, sir. I had been with Mr. Clark for a long time. I knew the situation. And I thought that he had gone away that night to throw suspicion from her to himself. I was not certain what to do. I would have told all in court, but it never came for trial. Basset was satisfied on a fairly content. After the Frenchman's departure he sat for some time, making careful notes and studying them. Supposing the man Melis had seen were Clifton Hines, a good many things would be cleared up. Some new element he had to have, if Gregory's story was to be disproved, some new and different motive. Suppose, for instance, He got up and paced the floor back and forward, and just one way of verifying it. He sat down and wrote out a long telegram, and then got his hat, and carried it to the telephone office himself. He had made his last throw. He received a reply the following day, and in a state of exhilaration bordering on madness packed a bag, and as he packed it addressed it, after the fashion of lonely men the world over. "Just one more trip, friend cowhide," he said, "and then you and I are going to settle down again to work. But it's some trip, old arm-breaker." He put in his pajamas and handkerchiefs, his clean socks and collars, and then he got his revolver from a drawer and added it. Just twenty-four hours later he knocked at Dick's door in a boarding house on West Ninth Street, found it unlocked, and went in. Dick was asleep, and Basset stood looking down at him, with an odd sort of paternal affection. Finally he bent down and touched his shoulder. "Wake up, old top," he said. "Wake up. I have some news for you." To Dick the last day or two had been nightmares of loneliness. He threw caution to the winds and walked hour after hour, only to find that the street crowd, people who had left a home or were going to one, depressed him and emphasized his isolation. He had deliberately put away from him the anchor that had been Elizabeth, and followed a treacherous memory, and now he was adrift. He was homesick, for David, for Lucy, and with a tightening of the heart he admitted it. Elizabeth and he had no home. He thought of Reynolds, bent over the desk in his office; he saw the quiet tree and the streets of the town, and Reynolds, passing from house to house in the town, doing his work, usurping his place in the confidence and friendship of the people; he saw the very children named for him asking: "Who was I named for, mother?" He saw David and Lucy gone, and the old house abandoned. He had moments when he wondered what would happen if he took Beverly at her word. Suppose she made her confession, re-opened the thing, to fill the papers with great headlines, "Judson Clark not guilty. A strange story." He saw himself going back to the curious glances of the town, never to

The committee on constitution and by-laws for the St. John branch of the National Council of Social Hygiene met yesterday afternoon in the Health Centre to transact the task assigned to it before the organization meeting which is scheduled for this afternoon. Those present at yesterday's committee meeting were as follows: Dr. William Warwick, Dr. J. A. McCarthy, Mayor Fisher, Miss H. T. Melickjohn, A. M. Belding, A. C. Skelton, Miss K. Greaney and E. J. Henneberry.

A WOUND IS AN OPEN DOOR

Absorbine Jr. enables you to shut the door quickly.

The skin is Nature's own protection against germs. When it is bruised, broken or cut, that protection is withdrawn. The door is open. As quickly as possible Nature closes it by forming what we call a scab and renders you comparatively safe against infection. But this scab sometimes takes days to form and until it has fully sealed the wound, even until the wound has thoroughly healed again you must furnish the required protection yourself. A few drops of Absorbine Jr. in the water will give you an antiseptic wash that will kill all possibility of infection and help nature to heal the wound. As well as being a very powerful germicide, Absorbine Jr. will draw out the inflammation and bring instant relief. Absorbine Jr. is antiseptic, germicide and liniment in one container—handy to keep always in the house; easy to carry around if you travel. \$1.25 at your druggist's.

prepared by the mother, and especially when the temperature runs from 20 to 60 degrees higher than that allowed to be used in the pasteurization plants? Mothers who have been compelled to use for their babies other than their own milk, have been using a form of pasteurization for years and did not know it, with indigestion in many cases resulting, as well as other forms of illness.

Insurance Companies will insure babies a day old, and they strongly advise the use of scientifically pasteurized milk when other than the mother's milk is used. Their reason is obvious. The Insurance Companies do not want to pay Death Claims if they can avoid it. The Board of Health in passing the pasteurization law, did so after much careful study, and they passed it knowing that it would be a medium through which the lives of infants and children would be saved.

The death of Mrs. Eva McCarthy, wife of Charles McCarthy, of East Weymouth, Mass., occurred in a sleeping car on the Halifax train in the Union depot about 2 o'clock yesterday afternoon. She was on her way to Prince Edward Island for her health following an attack of influenza. Her condition became serious on the train and Dr. M. H. Case was called when it reached St. John. He arrived too late, however. Coroner H. A. Porter gave permission for the removal of the body to O'Neill's undertaking rooms.

Mrs. McCarthy was twenty-one years of age and was accompanied by her mother and her infant child.

Milburn's Laxa-Liver Pills The Great Liver Regulators

The duty of the liver is to prepare and secrete bile and serve as a filter to the blood, cleansing it of all impurities and poisons.

Therefore when the liver is inactive and failing to secrete bile in sufficient quantity constipation and other liver troubles soon follow.

Mrs. H. D. Hutchinson, Peterborough, Ont., writes: "I have been using your Milburn's Laxa-Liver Pills and they have done me a lot of good."

"My liver bothered me a great deal; I was drowsy and tired all the time and didn't feel like doing anything, let alone my housework. I tried everything, but your Pills seemed to do the work far better than anything I had ever taken."

Price 25c a vial at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

"My Hands Trembled and I Could Not Sleep"

Mr. Thomas Honey, Brantford, Ont., writes:—

"When I began taking Dr. Chase's Nerve Food, I was so nervous that when I picked up a cup of tea my hand would tremble like a leaf. I could not sleep well, could not remember things, and there were neuralgic pains through my body. After taking seven boxes of Dr. Chase's Nerve Food, however, I am in perfect health."

DR. CHASE'S NERVE FOOD

50 cents a box, all dealers or Edman, Bates & Co., Ltd., Toronto.

PASTEURIZED MILK FOR INFANTS.

(From the Board of Health)

Complaints have come from time to time to the Board of Health since the pasteurization of milk has been made compulsory, that the baby will not drink it, the supposed reason being a been heated by her, and invariably heat. We wish to advise that this is largely the imagination of the mother, for the reason that since the world began to be civilized and an infant was fed upon milk other than the mother's, it has been heated by her, and invariably heated to a higher temperature than that used in scientific pasteurization. It is the high temperature that will cause the change in flavour. Physicians under certain conditions of the health of the baby will order milk to be boiled. Does the baby object to the change in flavour caused by boiling if the doctor order it? No. It is considered by the mother as a correct food for the child, and no particular notice is taken as to whether the child likes it or not. Why should the infant object to scientifically pasteurized milk, as done in an up-to-date milk plant, when they do not object to milk heated, trebled and

MRS. SANFORD IS PRESIDENT

Election of Officers by the Methodist W. M. S. in St. Stephen This Morning.

(Special to The Times.) St. Stephen, N. B., June 1.—The W. M. S. of this morning elected: President, Mrs. C. F. Sanford; 1st vice president, Mrs. W. A. Thompson; 2nd, Mrs. G. M. Young; 3rd, Miss Alice Quilting; recording secretary, Mrs. W. H. Baker; corresponding secretary, Mrs. P. S. Enman; treasurer, Mrs. T. A. Clark; sec. of circles and bands, Mrs. E. A. Westwood; treasurer of circles and bands, Mrs. Geo. Sample; supt. of Christian stewardship, Mrs. F. S. Dinger; stagers' secretary, Mrs. G. E. Dawson; delegate to board, Mrs. G. F. Dawson; alternate, Mrs. G. E. Full; F. S. Dinger. A quiet half-hour was led by Mrs. F. Holmes. The corresponding secretary reported membership of 2925. Little Light Bearers, 266. Associate members number 117. Together with the band the members make a grand total of 7877. Woodstock has invited the Branch to meet there next year.

This Case Made The Court Session Lively

An amusing case, in which colored people were involved, was aired in the public court this morning. Mrs. Lillian Kirby charged Joseph Snag with assaulting her whereas the defendant brought witnesses to prove that it was Mrs. Kirby who had assaulted him. Both complainant and defendant and their witnesses were given free scope and for some time the air was charged with sarcastic and amusing repartee. Mrs. Kirby swore that the defendant had pushed her and then caught her by the throat, while the defendant swore that Mrs. Kirby had offered with him while at work in their house in Main street and had struck him in the face. When a witness for the complainant had completed giving her version of the dispute the defendant was asked if he wished to ask her any questions. He started by addressing her as 'Florence' and was quickly brought to task. Her answer was 'I've got a title to my name, 'Mr. Snag.' She said she had witnessed the assault and had interfered.

The defendant then took the stand and swore that while at work doing some repair work in the back room Mrs. Kirby had struck him in the mouth with her fingers. He said he had not struck her but said: 'Woman take your hand out of my face.' He called a witness who explained that she saw Mrs. Kirby rush at Mr. Snag and strike him. She said the complainant acted like a wild woman. In answer to Magistrate Ritchie as to what the defendant thought she answered: 'I don't know—I wasn't in his brains.'

After considerable argument and cross questioning the evidence was concluded and the magistrate dismissed the case and advised the defendant to find some other lodging house.

ROAD CONTRACTS

(Special to The Times.) Fredericton, N. B., June 1.—Highway construction contracts are awarded as follows: Norton to Bloomfield, five miles to Parker Currier, Fredericton, price about \$22,000; Renous to Derby, ten miles, to Concrete Builders Limited, Fredericton, about \$30,000; Victoria County Line north, five miles, to Guildford Hammond, Burden, N. B., about \$80,000; Boltonston north, ten miles to Concrete Builders Ltd., about \$50,000. The department states that the tenders were some twenty per cent below estimates.

ENTERTAINMENT OF NEWSPAPER PARTY PLANNED

Meeting This Morning to Arrange Details—Luncheon and Drive About City and Surrounding Country on the Programme.

Preparations for the entertainment of members of the Weekly Newspaper Association of Canada here on June 16, while on their way to a convention in Halifax, were about completed at a meeting held this morning in the Mayor's office. Those present included His Worship, Commissioners Prink and Thornton, representing the city; H. A. Forter and R. E. Armstrong, of the Board of Trade, and J. C. Berrie, secretary of the N. B. Automobile Association. The visitors will arrive in the city about noon and will be entertained at luncheon at the Paradise, Ltd., dining rooms. This will be followed by a drive about the city and suburbs. An item of entertainment in the evening is listed but has not yet been definitely arranged.

The delegates will spend the night in the Pullman cars at the station and will leave on Sunday morning by the steam-er Empress for Digby.

MONCTON FIRE

Moncton, N. B., June 1.—Fire about 2:30 o'clock this morning did considerable damage to a one story block owned by J. W. McCarthy, corner of St. George and Lutz street. So far as could be learned the blaze originated over the Priest Chinese Laundry, located in part of the block. Occupants of the building upstairs escaped with nothing but their night clothing. Two families lived upstairs, Mrs. James Walker and three daughters and Judson Kinnie Allison Wall, who boarded with Mr. Kinnie, was also a loser and barely escaped being overcome by smoke. Mr. Wall's loss is estimated at \$1,000. Mrs. Walker and daughters also lost their personal effects and had no insurance. Mrs. McConnell carried insurance as did Mr. McCarthy. The loss is estimated at least \$2,500.

TELEGRAPH AND TRUSS TELEPHONE LOCAL NEWS

Day—Main 2417. After 6 p. m. and on Sundays—Main 2417 or 2418. If one number is busy please call the other.

SOCCER MATCH. A soccer game will be played this evening on the North End Playgrounds between a team from the Old Country Club and one from St. Andrew's Club. The game is scheduled to start at 7:15 sharp.

ENGAGEMENT. Mr. and Mrs. Robert J. Cox wish to announce the engagement of their only daughter, Etta May, to Robert Olive Pugh, son of Geo. L. Pugh of Nashwaakiss, N. B., the marriage to take place in June.

FUNERAL. The funeral of Miss Amelia V. Hoyt was held yesterday afternoon from her late residence, Kingston, to the Kingston chapel, by Rev. Canon A. W. Daniel. Interment was at Kingston.

MORE TAKEN OUT. The withdrawals at the St. John branch of the Dominion Savings Bank during May greatly exceeded the deposits, it was announced today. The figures were as follows: Deposits, \$69,283.91; withdrawals, \$92,171.08.

BOATS CANCELLED. Boxing bouts scheduled to take place in Sussex last evening were cancelled as a result of a local promoter's license being cancelled. It is understood that a license to run the bouts was granted, but as a result of a witness protesting it was revoked. 'Kid' Burns and Johnny Sullivan of this city were carded for the main bout, and 'Machine Gun' Smith was to be matched with some other welterweight.

AUTO CASES. Robert Crawford, provincial constable, has reported three automobile owners for speeding and reckless driving in Rothesay avenue last night. These cases will be brought before Magistrate Allingham in the Fairville court tomorrow morning. He has also entered a charge against a firm for operating an auto truck loaded with furniture last night without having any head lights and also for using dealers' tags. This case will be taken up in Hampton next week.

A case against T. Earle McKay, who was charged with driving a street car at an excessive rate of speed along Charlotte street, was withdrawn by the complainant, in the police court this morning.

BOARD OF TRADE INQUIRIES. A letter was received this morning by the secretary of the Board of Trade from a man in New Zealand who wishes to make a tour of Canada late this year and to leave for the United Kingdom from this port. He asked for literature regarding the city and its points of interest, as he said he would be staying here for some time. A San Francisco firm wrote asking for the names of local handlers of soda fountains and a Prince Edward Island writer wished information about the wharf and port charges of St. John. A list of builders and contractors in St. John was asked by a firm in Nova Scotia.

EXPRESS POSITIONS. Allen Paton of Toronto, grand president of the Brotherhood of Dominion Express employees, arrived here last evening on the S. S. Empress after a tour through Nova Scotia. He is endeavoring to have Dominion Express employees who lost their positions as a result of the change on the C. N. R. placed with the Canadian National Express Company. He said the officials of the Canadian Express were working in conjunction with them and as a result nearly all of the men will be taken over by the Dominion Express. The Dominion Express Brotherhood have twenty-five lodges in Canada and have a membership of more than 1,800. Today the Dominion Express terminated their services over the C. N. R. and the business east is being handled by the Canadian Express.

MAY SIGN HOWARD. Arthur Howard, who formerly played on St. Peter's and the G. W. V. A. baseball teams, returned home today for a fast feller here and Mr. Howard was recommended. In Wednesday evening's game he was responsible for the Fredericton team's victory over Casey's Boston All Stars, having a three base hit with three on. In last evening's game he made a sensational catch. According to reports from Fredericton his playing was highly satisfactory and he may be offered a regular position with the club.

DAVID L. KIMBALL. A citizen for more than half a century engaged in the building trades of St. John, including such important construction as the rebuilding of the city after the great fire of 1877, passed away yesterday at his home in the death of David L. Kimball, 89 years of age, mason and plasterer. He had been ill a long time. Coming to this city with his father from Ohio when twenty-six years of age he was always busily engaged, living a thrifty, temperate Christian life. Last December Mr. Kimball and his wife celebrated their golden wedding anniversary. Mrs. Kimball was Catherine E. Olan-ton of Queens county, Manford V. Hall of the C. N. R. roundhouse staff and Mrs. Fred McColgan of City road are the only surviving children. Mr. Kimball attended the old Brussels street Baptist church for more than thirty-five years and there his wife was associated with its many activities. He was also an Oddfellow.

CUSTOMS DECLINE

The St. John customs figures for May show a decrease of \$247,923.97, in comparison with the corresponding month of last year. The total receipts for May, 1923, were \$474,967.57; in 1922 they were \$722,891.54. The figures for the departments follow: 1923. 1922. Customs import duties \$377,700.28 \$558,143.34 Excise tax 82,448.92 61,748.72 Excise duty 8,775.40 6,818.49 Sundry 562.76 380.29 Total \$474,967.57 \$722,891.54 Steamboat insurance fees 246.00 746.00 Marine dues 1,084.96 2,000.00

AN INCREASE IN THE WOODSTOCK ELECTRIC RATES

Judgment Rendered by the Public Utilities Commission Contains Temporary Schedule for Operation of Steam Power Plant.

Judgment authorizing the Woodstock Electric Railway, Light & Power Company, Ltd., to enforce temporarily an increased schedule of rates while supplying current by steam power, was rendered by the New Brunswick Board of Public Utilities in session here this morning.

In the new schedule the rate for domestic lighting is increased from four to six cents, power for water pumping from two to four cents, and ordinary power from three to six cents.

In delivering judgment the chairman, J. D. P. Lewin, said that owing to the floods and the destruction of the company's hydro plant on April 29, the board had ordered the company to operate its steam plant to supply the necessary light and power for Woodstock, and had ordered a schedule of rates sufficient to meet the operating cost of the plant. The company will be required to file statements every month with the board, showing receipts and expenditures, and the board is to retain jurisdiction until May 1, 1924. The income allowed by the schedule of rates, Mr. Lewin said, was considered sufficient to meet the operating costs of the plant, but did not allow for depreciation reserve or any return on the capital to the shareholders by way of dividends. The schedule, he said, may be revised by the board at any time, being only a temporary arrangement until the company has an opportunity to reconstruct its hydro plant or connect with some other hydro operation.

ONLY ONE WAS IN FORM REQUIRED

Nine Applications Received by Utilities Board Under Blue Sky Law.

Although nine applications for licenses under the newly enacted 'Blue Sky' securities law, were submitted today to the N. B. Board of Public Utilities Commission, only one was in the form required by the act. It was decided to take this application under consideration and refer the others back to the applicants for compliance with the regulations. The application which was in order was presented by J. H. A. L. Fairweather on behalf of E. E. Brown & Co., Ltd. Others were from J. M. Robinson & Sons, Credit Alliance Financial, Ltd., represented by Maxwell MacRae; Thomas, Armstrong & Bell, represented by Allan Thomas; Newcombe & Winchester, Eastern Securities Corporation, all of St. John; Colonial Securities Co., Ltd., of Moncton, and Winslow & Winslow, of Fredericton.

J. D. P. Lewin, who presided, said that the act requiring that applications should be in writing and certain information which requires should be submitted and certified to by oath. A fee of \$15 should accompany each company's application, with a further fee of \$5 for each salesman employed. No particular form was laid down for the application. Messrs. Fairweather, Thomas and MacRae were the only representatives of applicants present at the session. Mr. MacRae said his company wanted to sell part of its capital stock and to license six salesmen. Mr. Thomas' application was for the licensing of his firm as general brokers in real estate. He said he had sold that one license would cover all the members of the firm, but that a separate license was required for each salesman.

Bread Up A Cent

The price of bread advanced one cent a loaf here today. One of the leading bakers interviewed by a Times representative, said that the increase was due to the gradual rise in the price of flour. He said they have been selling bread during the last eighteen months lower than they should have and that they are now in line with other places throughout the Maritime Provinces. Bread is now being sold for eleven cents wholesale, and for twelve cents retail.

DENTAL EXAMS.

The professional examinations of the Dominion Dental Council of Canada are being held now in all the provinces of the Dominion with the exception of British Columbia and Quebec. Those passing the examinations are qualified to practice in any of the seven provinces affiliated with the council. Dr. A. F. McAvenny is the examiner for New Brunswick. The examinations were commenced here on Tuesday and will continue until next Tuesday. There are thirteen taking the examinations here, ten of them being graduates of the Royal College of Dental Surgery, Toronto. They are Gordon C. Smith, J. B. Wilkes, J. E. Dunham and H. E. Dunlop of St. John; A. W. Taylor of Yarmouth; S. K. Donald of Moncton; A. W. Good, B. R. Ross and J. E. Edgcombe of Fredericton; G. R. Lawson of St. Stephen; Miss Bessie Maloney of Regerville; E. R. Kay of Edmundston, and L. A. Cameron of Antigonish.

SEEMED WORSE. Fredericton, N. B., June 1.—The average temperature during May when everybody shivered and kept their fur-naces going, was only one degree colder than the average for the last fifty years and only three degrees colder than the same month of last year.

During the months of June, July, August and September our stores close at 1 p. m. on Saturday. Open Friday until 10 p. m.

Your Family's Health Demands Barnet Protection

True, the Barnet costs more than an ordinary refrigerator, but money cannot balance against your family's health. And remember, when you buy a Barnet it is for life and you have an economical and absolutely sanitary refrigerator. Wisdom urges you to replace your ordinary refrigerator with its unsanitary drain pipe with the BARNET—and be SAFE. The BARNET Demonstration at our store is now in full swing. Come in and let the manufacturer's representative show you why the BARNET is in a class by itself.

BELIEVE OUR PORTS SHOULD BE CLOSED UNTIL U. S. OPENS

M. P.'s. Think American Fishermen Should be Treated as Canadians Are

DECISION REMAINS TO BE MADE YET

Minister of Marine Says His Opinion is if U. S. Persists in Keeping Ports Closed Canada Should Shut Hers.

Ottawa, May 31.—Hon. Ernest Lapointe, Minister of Marine, announced in the House of Commons tonight that the question of withdrawing from American fishing vessels, the privilege of using Canadian ports was still under consideration. "A decision will be reached shortly," he added. He explained that during the war the use of ports by fishermen had been extended reciprocally by both the United States and Canada. After the war the American ports had been kept open to American fishermen for a small license fee. This had been of advantage to certain Canadian traders but a disadvantage to Canadian fishermen. American fishermen had been able to ship free of duty in the United States from Canadian ports, while Canadian fishermen had to pay a heavy duty. "My own opinion," concluded the Minister, "is that if we cannot get similar provisions from the United States, it is only fair that we should close our ports to them."

Notices of Births, Marriages and Deaths, 50 cents

BIRTHS

MOWAT—At Quispamsis, on May 26, to Mr. and Mrs. Randolph W. Mowat, a daughter, Phyllis Ruth. JOHNSON—At the Evangeline Maternity Hospital, on May 30, to Mr. and Mrs. K. S. Johnston, a daughter, Phyllis Carmea.

DEATHS

KIMBALL—At his residence, 106 City Road, on May 31, 1923, after a lingering illness, David L. Kimball, aged 80 years, leaving a loving wife, one son and one daughter to mourn. Funeral Saturday from his late residence. Service at 2:30 o'clock.

WORDEN—Suddenly at Samondale, Queens Co., on May 30, Thos. C. Worden, leaving three sons and five daughters to mourn. Funeral at Thornetown Friday, June 1.

JOHNSON—At the home of his nephew, Stanley C. Webb, 80 Victoria street, on Friday, June 1, Arthur W. Johnson of Clarendon, aged forty-nine years, leaving two sisters and one brother to mourn. Funeral at Clarendon on Monday, June 4, at 3 p. m.

DEVEAU—Suddenly, on May 31, 1923, Charles Deveau, in his thirty-seventh year of his age, leaving his wife and one daughter to mourn. Funeral from Fitzpatrick's undertaking rooms on Saturday morning at 8:45 to the Cathedral for high mass of requiem. Friends invited.

IN MEMORIAM

STOKES—In loving memory of Margaret M. Stokes who departed this life June 1, 1899, aged 6 years. As long as life and memory last, we will remember Maggie.

FAMILY

FLOYD—In loving remembrance of Flurry Morton Floyd died June 1st, 1919. Our love, a love that is deathless. Still follow you where you roam. Over the hills of God, Daddy, I'll be beautiful hills of home. —WIFE AND LITTLE DAUGHTER

CARD OF THANKS

Mrs. Geo. A. Earle and family desire to express their sincere appreciation of the kindness and attention of the members of the police force for their wreath and kindness shown.

FUNERAL NOTICE

Members of the Brick Layers and Masons' Union are requested to attend the funeral of the late DAVID KIMBALL, 106 City Road, Saturday at 2:30 o'clock. By order of the president, ALBERT J. HARRIS.

KEY OF OLD FORT ANNE, AT ANNAPOLIS ROYAL, BACK HOME AFTER MORE THAN TWO CENTURIES

The huge key, more than 9 inches long, shown above, got back home recently after an absence of 212 years and couldn't find its key-holes. That key-hole was in the massive gateway to Fort Anne, Annapolis Royal, Nova Scotia, but both gateway and lock had vanished long ago. When Col. Francis Nicholson and his New England troops captured the fortress in 1710, the key was taken to Boston and remained there until September, 1922, when it was returned to Fort Anne by the Massachusetts Historical Society. In accepting the key, L. M. Fortier, honorary superintendent of Fort Anne, now a National Park, expressed the hope that the society was taking such good care of it, "our fathers left the gateway and the gate to which this key belonged, go to pieces and utterly disappear so that we only know of their existence and location by the old plans, tracings of which are in our museum." The remainder of old Fort Anne, however, is well preserved, and each year thousands of tourists visit it, walk along its grass-grown ramparts, inspect the French powder magazine, pass through the quaint sally-port and view the interesting relics in the museum which

was built as officers' quarters by Queen Victoria's father, the Duke of Kent. The fort covers 31 acres, overlooks beautiful Annapolis Basin and is exceedingly picturesque. Sienr de Monts and Samuel de Champlain discovered and founded Port Royal (now Annapolis Royal) in 1604, four years before Quebec was settled. The first fort was built in 1635 and the present one between 1638 and 1710. It was the armed outpost of Acadia and defender of Evangeline's people, and was besieged thirteen times. Annapolis Royal, easily reached from Boston and St. John, N.B., is but one of many picturesque places in Nova Scotia. Near by is Grand Pre, made famous by Longfellow, from which Evangeline and her Acadian neighbors were expelled in 1755. The site of her home is a park from which Evangeline in bronze seems to scan the Basin of Minas in unending quest of her lost lover, Gabriel. There are good hotels at Digby and Kentville, and the Liverpool chain of lakes and Lake Kedgemoak are favorite resorts for lovers of canoeing, camping, fishing and hunting.

and twenty-three against. There was some lively talk too, when the committee was considering an amendment to the Act and a substitute for that amendment—both brought in by the minister—providing for independence of audit of the banks. The substitute amendment of Mr. Fielding reads as follows: "No auditor and no member of any firm of auditors shall be eligible for appointment as auditor of a bank hereunder for a period of two years if he or any member of his firm while acting as auditor of a bank, accepts any retainer or other employment, or employment on behalf of or at the instance of such bank, or any officer thereof, whether at the expense of the bank or not other than that of auditor hereunder." Mr. Fielding's original amendment provided that an auditor should never accept other employment, but the change provides that he may after two years. Clause to Be Redrafted. General S. C. Newburn, Conservative, Hamilton, opposed the change, arguing that auditors should be free to accept other employment. Mr. Fielding: "The principle of this was settled by a Great Authority long ago who said whom we may serve and whom we may not. The principle of this provision is to preserve public confidence in the independence of the audit." Finally, after some discussion over a point raised by P. M. Marler, Liberal, Montreal, the clause was laid over for redrafting. Mr. Marler's point was that it should be made clear whether or not a customer of a bank could employ the bank's auditor for a certain purpose. A clause providing that an auditor might not become a director of the bank employing him was passed.

GOOD THINGS COMING TO THE THEATRES OF ST. JOHN

BOX OFFICE SALE DUMBBELL TICKETS

Mail Orders Being Accepted Now and Box Office Rush Will Start Monday, the Holiday, at 10 a. m.

The real genuine original Dumbbells will receive another welcome like that of their former visits here being proven by the demand for seats for next Wednesday and Thursday performances. The mail order demand has been large, the box-office rush Monday and afterwards is sure to be heavy. This big show will have over thirty performers, whilst the other organization heard here some weeks ago, had but sixteen. Ross Hamilton, Al Plunkett, Morley Plunkett and singers from the several wonderful soldiers shows on the road are in this grand aggregation of stars, backed up by a special orchestra of ten pieces in addition to the regular theatre orchestra. The "Dumbbells" is a thundering big production, new in every way, far ahead of all former efforts and has been "cleaning up" as the saying goes, right across the continent.

Doug Fairbanks, Jr., Will Make His First Picture At Salary Of \$1,000 A Week

DOUG, JR., AND HIS MOTHER, FORMERLY MISS BETH SULLY DAUGHTER OF DAN SULLY "THE COTTON KING" AS THEY SIGN \$1,000 A WEEK MOVIE CONTRACT.

Los Angeles, June 1.—Young Doug Fairbanks gets his big chance to star in the movies because he's the father's son. After that, he'll have to go on his own reputation. So says filmdom, which is awaiting with interest the arrival of 13-year-old Douglas, Jr., now on his way here from New York with his mother to make his first picture. The mother, who was divorced from Doug Fairbanks several years ago, was formerly Miss Beth Sully. Her father, Dan Sully "the cotton king," now lives here. Gossip says that necessity for money has nothing to do with the mother's encouragement of the son's ambitions; for not only is Mrs. Fairbanks wealthy, but Douglas, Sr., is as well as he is able to provide for the boy's needs. Douglas Jr., however, has long been fired with an ambition to emulate his father. His mother took him to a school in France largely with the idea of getting movie ideas out of his youthful head. Finally she gave in with the result that the boy has just been signed by Famous Players-Lasky for one picture at \$1,000 a week, and an option on his service for five additional pictures. "He's worth a thousand a week because of his name," said a Hollywood insider, "and he's worth a thousand more on talent values, for just one picture. If the kid makes good with the American public on this first film, he'll be worth a thousand and more a week on future pictures. But if he doesn't make good—well, he'll find he can't go long on anybody's reputation but his own." The boy's first picture is undecided. It may be "Tom Sawyer."

SUSSEX PERSONALS

(Sussex Record.) J. H. McFadden, barrister, left for Boston on Monday. Harold Connors of Cannon City, Colorado, is visiting his uncle, George H. Sharp and Mrs. Sharp, Apohaqui. Mrs. Emma DeWane and granddaughter, Gaynell McElroy of Hartland, are the guests of Mr. and Mrs. Myron V. Stokoe. Miss Kitty MacManus, R. N., will leave this week for Salem, Mass., after spending a few weeks with her mother, Mrs. Eliza MacManus. Mrs. Harry Cameron, who recently underwent an operation in the Moncton Hospital, returned home on the 24th, much improved in health. Mrs. Wm. J. McSwen left last Saturday for Portland, Me., where she will visit relatives for some time. She was accompanied by her grand-daughter, Miss Hazel Garrett. Mr. W. O. Cain of Moncton, accompanied by her sister, Mrs. F. A. Perry, and granddaughter, Isabel Callahan, left on Saturday for Sharon, Mass., where they will visit Mr. and Mrs. P. Callahan. Mrs. William Thomson of Lynn, Mass., who has been spending some time in Piccadilly, returned to her home on Saturday. She was accompanied on her return trip by her mother, Mrs. Martha Wortman, and little Miss Myrtle Willis of Piccadilly and Miss Elsie Tabor of Pooleville. On Tuesday evening at the home of the Misses Henderson, Peters St., a novelty shower was tendered to Miss Marion Mann in honor of her approaching marriage. She received many beautiful gifts. A social evening was spent and dainty refreshments were served. About midnight the party broke up wishing Miss Mann much happiness.

LOCAL NEWS

"RITZ" DANCING TONIGHT. Always sure of a pleasant evening. 1888—6—5

CHANGE OF TIME. Steamer Hampton leaves 2 p. m. on Saturdays (daylight).

BETTER PRICES NEXT SEASON (Hartland Observer) Produce shippers along the valley received on Monday news from Cuba of vast importance that will have a very beneficial effect on the potato market next autumn, unless the law is again changed. The message received by cable announces that a bill to prohibit the importation of potatoes from Europe has passed the Cuban Congress, has been signed by the President and become law. Scotland, Holland and Denmark have been the heaviest competitors against New Brunswick potatoes in the Cuban market, and the arrival of such shipments in huge cargoes just at the time of the arrival of New Brunswick shipments has frequently resulted in loss to shippers of both continents. Very recently cargoes of potatoes from Scotland, badly damaged by heat, were dumped on the wharves at Havana, a total loss, and a nuisance to the health authorities.

LARGE LOBSTER CATCH. (Chatham World.) Large catches of lobsters are reported at Tracadie Gully, Pt. Sapio and Escuminac. The catches are being measured by the ton, over six tons being received in one day at a factory of the W. S. Loggie Co. It is estimated that there are 40,000 traps fishing in twenty miles of water—ten miles either way of Escuminac. The labor in handling such a vast number of traps, set in 50 or 60 feet of water, must be very great. Fortunately there have been no storms as yet to interfere with the work. The W. S. Loggie Company schooner Warren E. arrived port on Thursday with a cargo of canned lobsters from the company's factories on the coast.

DID NOT CROSS BAY. The C. P. R. bay steamer Empress was unable to leave on her regular trip this morning on account of engine trouble.

At Johnstone's Hotel

Upper Loch Lomond. Special chicken dinner and supper Sunday and Monday. Week-end parties accommodated. Boats and fishing. Beautiful scenery. Wots not plan to spend the holiday with us? 18869—4—1

LORD BYNG AT SUSSEX.

(Sussex Record.) His Excellency Lord Byng of Vimy, Governor General of Canada, will visit Sussex on Wednesday, July 11th, at noon and remain in Sussex until 1.30 p. m. He will be accompanied by Her Excellency, the Lady Byng of Vimy, Miss Walpole and four members of the household staff. It is proposed to present His Excellency with an address, which will take place in the new school building, after which a reception will be held by their Excellencies. It is particularly desired that as many returned men as possible from the county be present. Those who fought with Lord Byng in France will be assured of a warm welcome by His Excellency, who has never forgotten the valor of the Canadians he led at the front. It is probable that all places of business will be closed during the stay of the Vice Regal party and citizens are requested to decorate their premises in honor of the visit of the distinguished party.

FREDERICTON PERSONALS.

(Fredericton Gleaner.) Miss Hilda Stevenson of Winnipeg, is the guest of her sister, Mrs. O. S. Crockett. M. A. Tweeddale left last night for Pembroke, Ont. Miss May Doohan, of the C. P. R. Telegraph Office, will be assured of a visit to her sister, Mrs. Edouard McDade. Mrs. Thos. Giles and Mrs. Chas. Hill, of Fairville, are the guests of Mrs. H. J. Mawhinney, Woodstock Place. Miss Louise Kinghorn, of Fredericton, N. B., is the guest of Mrs. Williams and Miss Williams, Georgia street, Vancouver. Rev. A. B. Bates, rector of Fredericton, and Rev. Canon Smithers will leave this evening for Halifax to attend a meeting of the Board of Governors of King's College.

LUMBER OPERATIONS

(Sussex Record.) The big lumber plant of the Pelebec Company of Bath at Great Salmon River Village, St. John County is now in operation, the company not having been greatly hampered by the recent freeze. The big corporation expects to ship 8,000 cords of pulp wood, and 8,000,000 feet of sawn lumber during the summer. W. D. Seely and G. W. Wallace of the company say that in their opinion conditions in the Salmon river and wood business had so improved that it was time to resume full operations. These officials say that the company expects to get out 20,000 cords of pulp wood and 8,000,000 feet of lumber in the season of 1923-24. The pulp wood cut will be divided equally between the Irish and Great Salmon rivers and the lumber will be all cut on the Great Salmon River. The Pelebec Company is one of the largest industries in St. John County and Sagadahoc County, Me.

LARGE COAL SHIPMENTS.

(Glouce Bay Gazette.) Cape Breton coal, which had been temporarily displaced in the St. Lawrence market by importations from the United States, has more than regained its ground in that territory. The pre-war figure of two million tons is likely to be exceeded this season. Notwithstanding the handicap of drift ice, which delayed the opening of navigation in the St. Lawrence, the shipments to Montreal and Quebec during May amount to nearly a quarter of a million tons. A large fleet of coal boats is engaged in the traffic and barring industrial troubles, which are not now anticipated, the present summer is bound to be one of the most active in the history of the Breton coal trade. The colliers also are prepared to handle a largely increased demand, and are today capable of producing something approaching the tonnage of pre-war days.

Coming Home Again.

The Record has been informed from a reliable source that a number of mechanics who recently went to the United States from the province of New Brunswick, propose returning home again in the very near future. As one of our exchanges aptly stated, "Distant fields look green." The man who throws up a good job to go after easy money is on a par with the amateur stock market gambler. He may get what he is after but the chances are he will lose and others will follow. They have found that the show is not what the posters and the press notices cracked it up to be. There is lots of work and good wages in Canada, so hang on!

SEEDING IS LATE

(Hartland Observer) Chatham World.—Owing to the backward condition of the season seeding is much later than usual. Farmers, especially on wet land have been unable to do anything so far. Some potatoes have been put in in the higher ground. It is hoped, however, that seeding will be well under way next week.

THEY WANT THE CURRENT

(Hartland Observer) The proposal to construct an electric transmission line from Bridgewater to Woodstock, serving all the villages and towns of Carleton and Victoria, has created great interest among the business men throughout the country. So thoroughly in earnest are the business men of Hartland, Florenceville, Bristol, Bath and Centreville that yesterday more than 80 separate telegrams were sent by individuals doing business in these towns to Premier Veniot, urging his attention to the proposed electrical transmission line. A big and a strong delegation will wait upon the Premier.

MEDIUM TRAPPED BY ELECTRIC LIGHT

First Claimant of Scientific American \$5,000 Prize Detected in Test

Result Told Prematurely by Houdini, One of the Expert Watchers, Who Says He Made No Promise of Secrecy.

(New York Times.) Harry Houdini, president of the Society of American Magicians, called up The New York Times by telephone yesterday and denounced as "an outright fake" alleged spirit manifestations by George Valentin, spiritualistic medium of Wilkes-Barre, which he and other members of a special test committee observed at a seance arranged by The Scientific American at its offices in the Woodworth Building last Wednesday night.

Houdini then proceeded to tell what happened at the seance, at which a Times reporter was present. By agreement, the results of the test have not hitherto been published.

J. Malcolm Bird, associate editor of the Scientific American, said last night that while the statements made by Houdini about the incidents of the last seance was substantially correct, Houdini's revelations were made without authority and in violation of an understanding shared by all members of the committee which managed the tests that none of the result should be made public until authorization was given by the Scientific American.

"And please say," added Mr. Bird, "that Mr. Houdini is through right now as a member of that committee to make it plain that he is through because he has violated that understanding."

Houdini's reason for making his statements was, as he explained, that he had been taunted by his friends for 'being such a simpleton' as to take any stock in the seance proceedings, and he could not permit his friends to believe that he was convinced of its genuineness. He asserted that he attended the demonstration under no restriction.

Keep your silken garments colourful and lovely this way

Dainty garments cannot stand the wear and tear of ordinary washing.

For such delicate fabrics as silk, crepe, georgette and lace, Lux is ideal.

The thin, satin-like Lux flakes, made by our own exclusive process, dissolve instantly in hot water, leaving no particle of solid soap to stick to the delicate fibres.

Washed in the gentle Lux suds, your daintiest garments will remain as soft and lustrous as when new.

but equipped with various ingenious devices to detect fraud. Here is Houdini's story of the results: "The man came there to win the \$5,000 prize, and we had agreed to act like a lot of boobs to see what his game was. I went there at the invitation of the Scientific American, and I feel at liberty to tell just what happened. There was no string tied to my invitation and I was not pledged to secrecy, although there has been a awful lot of reliance on the part of those who were present."

"The chairs of the judges were arranged in a circle, with the chairs of the medium and his assistant in the middle of the circle. The chairs in which the medium and his assistant sat were rigged with electrical contacts, so that when the medium got out of chair contacts were established, and excited an electric light in an adjoining room."

"In the adjoining room sat other observers, including a young woman stenographer who, as I understand it, listened through a dictaphone which indicated whether the 'spirit voice' of the medium or his helper originated in the circle of the circle, either one or the other sat or came from some part of the room."

"While the seance was in progress the test lights in the adjoining room repeatedly came up, proving that the medium had left his chair—for instance, probably at the moment when Dr. Stumm of the Scientific American was whacked on the nose with the end of the trumpet and lost his glasses. The girl in the adjoining room kept a stop watch and recorded the time of each word spoken by the medium in the guise of a spirit. It was simple enough to check the time the medium left his chair by the lights in the adjoining room and the stop watch and the dictaphone furnished whatever else was needed in the way of evidence showing that the medium had to leave his chair before the spirits could tap the judges on the knees or wave a trumpet over their heads."

"Gee, I got an awful clout on the head," continued Houdini. "And ever since they learned that I was one of the judges, my friends who have read stories about the 'seance' have been asking me whether I was such a simpleton and a fool to believe all that bunk."

"I never saw such awkward work in all my life. Yet that medium had made a statement, which he asked me to believe, that he had often been lifted off the floor by spirits, and that the spirits had placed him on a table. He got off that bunk before he started his performance."

"And we said, 'Is that so?' and 'How remarkable!' and 'Can you just imagine a thing like that?' That man thought he had us fooled."

"There wasn't a chance at any time that this magician fooled us. I think these people ought to be put in jail for preying on the most sacred of human emotions."

Says His Mind Is Open. Houdini was asked if he believed in spiritualism. "I am willing to believe," he replied, "but of all I have seen I have never found anything that couldn't be explained by human effort. My mind is open. I am a human being, and I have loved ones on the other side. I would like to get in touch with them if it were possible."

He was asked if he had any faith in Sir Arthur Conan Doyle's psychic pictures and other evidence supporting spiritualism. Houdini explained that Sir Arthur was one of the guests invited to a magic dinner given by the Society of American Magicians a year ago, at which Sir Arthur mystified many of the magicians and their guests with an exhibition of motion pictures of dinosaurs and other prehistoric animals

FREDERICTON PERSONALS

(Fredericton Gleaner.) Miss Alice Ladd, daughter of the late Mr. and Mrs. J. A. Ladd, of this city, will leave tomorrow night for Everett, Washington, where they will make their home with Miss Woods' sister, Mrs. H. W. White.

Miss Kathleen Rowan of Lincoln and Miss Ethel Sweeney of South Devon are to leave this evening for Philadelphia where they will enter hospital to train as nurses.

Miss Ethel Rainsford, who has been visiting her sister, Mrs. LeBaron Bull, for some time, has gone to New York, where she will engage in social service work in connection with Trinity Church.

Donald MacDonald, of the staff of the Bank of Montreal, in this city, has been transferred to Toronto. Mr. Geldert of Amherst has been transferred to the bank here.

A very enjoyable family reunion was held last evening at the home of Mrs. Christina McFarlane, Nashwaakias, in honor of her brother, John S. White, who has been visiting her for some time and who will leave this week for his home in Connecticut.

TOO MANY APPLICANTS? Fredericton Gleaner.—Applications for Normal School Entrance Examinations are being received at the Education Office in large numbers and present indications are that the total number will be in excess of last year. The new regulations, adopted by the Board of Education recently, limiting the total number who will be admitted to the Normal School to 400, becomes effective this year and it is believed that the number of applicants will exceed this total.

REFUSES RAISE IN SALARY, THINKS HE WILL NOT EARN IT Boston, June 1.—In a letter received by the Waltham board of recreation, John L. Leary, athletic instructor at the high school and supervisor of playgrounds in the city, refused a proffered raise of \$250 a year in pay. He gave as his reason for the refusal the fact that he intends to take a course of physical culture instruction at the Harvard summer school this season and will not be able to devote as much time as usual to his work, and so thought he was underserving of the raise. Leary was formerly with the St. Louis Browns and is well known locally in athletics.

PRIESTS DOWN LADDERS FROM BURNING HOUSE
 Montreal, June 1.—Four priests escaped from the presbytery of the Notre Dame de Mount Carmel church in the east end yesterday when fire broke out

Headaches Are Usually Due to Constipation

When you are constipated, not enough of Nature's lubricating liquid is produced in the bowel to keep the food waste soft and moving. Doctors prescribe Nujol because it acts like this natural lubricant and thus secures regular bowel movements by Nature's own method—lubrication.

Nujol is a lubricant—not a medicine or laxative—so cannot gripe. Try it today.

Nujol
 A LUBRICANT—NOT A LAXATIVE

In the basement of the building. When the firemen arrived there was considerable smoke, which prevented the priests who were on the second floor from descending the stairs. Ladders were placed against the window of their room and they were able to come down in safety. The fire was quickly under control.

At the local bureau of the Employment Service of Canada, since its opening in July of last year, there were 2,355 applications for work received and places were found for 2,522. In the women's division 453 applications were received and 923 were placed. The difference in the figures is due to the fact that many were placed more than once. The month of May was the best, a total of 469 placements being made in the men's department in that time.

LEGS CAN'T KEEP GOOD MAN DOWN; HENRY COMES BACK ON NEW PAIR

Motorman Helms, Maimed Hero of New York Trolley Runaway, On Feet Again in New Job and Repaying Tribune Fund by Helping Cripples.

(New York Tribune.) Henry Helms has a new pair of legs. He's back on the job, and, from latest reports, he's making good. But perhaps you've forgotten Henry Helms. Helms was a motorman for the Third Avenue Railway Company. On October 7, 1920, he was taking a car filled with passengers down the hill that starts on Amsterdam avenue at 138th street. The brakes failed to work and the car ran away. Helms might have jumped, but he stayed at his post struggling to stop the car and calling to the conductor to get the passengers out of the rear door. Men and women hurried under Helms' directions. Some of them were thrown off, but all were saved. The runaway car crashed into another car that had just come out of the barn at the foot of the hill near Manhattan avenue. Out of the wreck came a rescuing party dug Helms, caught among the controlling apparatus which had fallen him. Both legs were crushed. He was taken to Knickerbocker Hospital and his legs were amputated. There he was, twenty-three years old, with a mother, a young brother and a sister to support, and no trade and no legs. On October 12 Clarence Day, Jr., wrote to The Tribune and inclosed a check to help Helms. The Tribune published Mr. Day's letter and started a fund which grew to \$1,286. A reporter was sent to give this money to Helms. Dr. John Culbert Farley, director of the Institute for Crippled and Disabled Men, 248 East Twenty-third street, became interested. A man with artificial legs was sent to see Helms to show him that life was not hopeless. So Helms began to get a grip on himself again. He was fitted with a pair of artificial legs. The Institute taught him to operate a switchboard, to do typing and general office work. Then he took a course in bookkeeping. "I never realized until I came out of the hospital," he said yesterday, "how much I really wanted to make my life worth while. There is something in the idea of fighting against odds that makes you try all the harder. I shall never forget the day that reporter from The Tribune came to see me. I made up my mind then that I would show the public I was worth what they had given me. "It wasn't easy and there were times when I almost gave up. But every time I passed a beggar I felt that I would rather go through anything than sit on a street corner. You see," he smiled, "I never had done inside work. As soon as I got back from overseas I went to work as a motorman. That was the hardest part—learning to settle down after the excitement." Helms enlisted in the 21st Field Artillery in 1916. He was under fire, but came out unharmed. Last week he went to work in the claims department of the Third Avenue Railway. They say he's doing well. And he spends his spare time in the Institute doing his best to help others get on their legs again.

ARE YOU THE WOMAN YOU WERE MEANT TO BE?

Every woman was meant to be healthy, happy, and fill her sphere in life to the best of her ability; but, alas, how few have the health or physical endurance to live up to their ideals! Over-ambitious, many of them develop nervousness, irritability, headaches, backaches, irregularities, and often more serious ailments which retard their progress in life. Women in this condition should turn to Lydia E. Pinkham's Vegetable Compound, a root and herb medicine which has been proven to benefit 95 out of every 100 women who try it. Let Lydia E. Pinkham's Vegetable Compound make you well and strong, and the woman you were meant to be.

The members of Marlborough Lodge, Sons of England, celebrated ladies' night last evening in Orange Hall.

Both Mr. Justice Wilson and Chief Justice Martin have declined to act and the Attorney-General has been appealed to for a solution of the problem, says the Montreal Gazette. The newspaper adds that it is generally thought that the Delorme case will not be brought up at all this term, and if not, it will go over to the September term of the court of King's bench here.

At a meeting of the Council of the Board of Trade yesterday, H. C. Scho-

field acted as chairman in place of the president or vice-president, both of whom were out of town. Some of the members pressed the need for more immigration to Canada. A resolution expressing appreciation of the work of A. C. Skelton, who is to leave shortly for Hamilton, Ont., to take over the management of the Bank of Montreal there, was unanimously adopted by the meeting.

MILTON WINS

500 Mile International Sweepstakes, at Indianapolis

ON Firestone CORDS

Tommy Milton in a H. C. S. Special won today on Firestone Cords at average speed of 91 44-100 miles per hour, being the only driver in the history of this race classic to win a second time. Hartz and Murphy and Cooper, who relieved Hearne, finished second, third and fourth in order named, in Durant Specials, giving clean sweep of first four places to Firestone Cords. Eight of ten cars to finish in money were Firestone Cord equipped. Not once in the entire 500 miles was any driver using Firestone Cords forced to pit with flat tires.

At Indianapolis were gathered the most famous drivers and the foremost racing cars of the world. It was a contest of driving skill, a competition of automotive science and a "Battle of Tires."

Around this sand-surfaced brick oval, Firestone Cords swept through to victory. The grinding wear, the scorching heat, the terrific pace were conditions that only staunch cord plies and scientifically compounded treads could subdue.

The tough, wear-resisting tread and the heat-defying carcass of Firestone Cords reigned supreme, just as they have long done in the daily service of millions of car owners.

By insulating each cord in rubber Firestone protects tires from heat. This process is the development of an organization of specialists—whose sole purpose is to build constantly better tires.

This triumph supplies additional evidence of Firestone's ability to set new standards of tire building year by year.

Like the winning driver you, too, can trust these powerful tires to give you the utmost in performance. If you're not using them, equip all round with Firestone Cords—and set new standards of comfort, safety and economical mileage.

Moncton Girl Has Not Missed School In 8 Years

Moncton, N. B., June 1.—Miss Dorilla Melanson, who has nearly completed her studies in grade 8, Mouncton Road School, and expects to enter High School next term, has a remarkable school attendance. Since she entered she has never missed a school session. This information was given to the Moncton Trustee Board at a meeting on Tuesday evening by Dr. L. N. Bourque, who said that some action should be taken by the board in the way of recognizing Miss Melanson's record. A resolution favoring the proposal was adopted. She is a daughter of ex-Alderman Celine Melanson.

Henry H. Stuart, principal of the Sunny Brae graded school, has accepted the principalship of the Superior School at Petticoat. Miss Rhoda E. McKinnon, teacher of grades 3 and 4 in the Sunny Brae School, will join the Moncton school staff next term.

EXPECT ALL CAPTIVES TO BE FREED IN FEW DAYS

Tien Tsin, June 1.—All the foreign captives now held by the Suchow train bandits in their Paotzuku stronghold will be released in a few days, according to Major Robert A. Allen, U. S. army medical corps, who arrived here last night, accompanied by W. Smith, an Englishman, the two men having been released by the outlaws yesterday.

LOCAL NEWS
A two-story frame house in the Golden Grove road owned by William Record was completely destroyed by fire which broke out on Wednesday evening in one of the upper rooms. The efforts of a bucket brigade were of no avail and the building was lost. A barn near was saved on account of the direction of the wind. The house was insured for about \$1,000.
The closing night of the Hilton Belyet fair in West St. John was well attended last evening and the features were well patronized. The different games were keenly contested. The prize winners were as follows: Door prize, five tickets on Jewett car, Hazel Burnett, devil among the tailors, fancy ring, W. McAnley; air gun, ladies umbrella, Mrs. Wilson; gentlemen's clock, Urban Miller; bean toss, pyrex dish, Mrs. Geary; fancy rug, Herbert Mayes.
GO AWAY TO GET WORK
Geo. E. Creed, son of F. S. Creed of Sussex, who graduated from the U. N. B. with the degree of B. Sc. in electrical engineering, Ontario, is away to Hamilton, Ontario, to take up his work with the Westinghouse Company.
Larry E. Gilmore, who graduated this year from U. N. B. with the degree of B. Sc. in Forestry, has accepted a position with the St. Maurice Pulp and Paper Company.

Call Off The Big Strike In Belgium
Brussels, June 1.—The National Union of Railwaymen has just decided to call off the strike that has paralyzed transportation and caused serious inconvenience to industry in the last few weeks. Delegates were sent throughout the country to appeal to the strikers to resume work immediately.
The union made its decision in order to clear itself of charges that the strike was financed by German money.

Thug Methods In Paris Politics
Youths Beat and Otherwise Abuse Deputies — Even Attack Wife of One.
Paris, June 1.—Thug methods were introduced in Paris last night by a band of glided youths, adherents of Leon Daudet, a Royalist deputy. The band known as the "King's Peddlers," ambushed Deputy Marc Sangnier, a Social list, gave him a beating and tried to pour tar on his head and administer a dose of castor oil. M. Sangnier managed to escape more or less damaged.
Another "peddler" waylaid former Minister of Subsistence Maurice Viollette and drenched him and his wife with ink. The "peddler" was arrested. A third youth administered a beating to the Socialist Deputy Marius Moutet. He also was locked up.

Handing over the baton in the inter-school relay race between Sir Walter and St. John's school at Stamford Bridge.

Good Sale For Beaver Board
The genuine Beaver Board is selling fast this year. It is easy to repair broken plaster with it and without all the objectionable muck and dirt.

Use the Want Ad. Way Use the Want Ad. Way Use the Want Ad. Way

Inspected by the premiers of the three prairie provinces, a shipment of thirty cars of livestock left the Union Stockyards, Winnipeg, over Canadian Pacific lines recently, on their way to the Atlantic coast, where they will be exported to the United Kingdom. This shipment was part of a consignment of 1,000 cattle assembled from 125 farmers of the western provinces, and will be marketed under the co-operative pool plan. The upper picture shows the cattle lined up for inspection. Inset, left to right: Hon. John Bracken of Manitoba, Hon. Chas. A. Dunning of Saskatchewan, and Hon. Herbert Greenfield of Alberta. Lower left: A fine specimen which weighed 1,400 pounds. Lower right: Some of the new C. P. R. cattle cars in which the consignment was shipped.

Pulp And Paper

Springfield, Mass., June 1—Five hundred delegates representing all parts of the U. S., Canada and Cuba, were present at the opening of the International Convention of the American Pulp and Paper Mills Superintendents' Association yesterday. It was reported that three new divisions—in the Chicago district, in Quebec and Montreal, and in the Connecticut Valley—were formed in the last year. The convention will continue for three days.

MARK WENT BELOW THE AUSTRIAN CROWN

Berlin, June 1—Standing at one time yesterday at 70,000 to the dollar, the German mark for the first time slipped below the Austrian crown in value. Before the war 100 marks would buy a crown, while yesterday it took one hundred paper marks to purchase 98 crowns.

FLEEING THE PUBLIC

New York, June 1—A small pocket volume clearly and briefly describing thirty-three waters by which irresponsible sellers of securities fleece inexperienced and unwary investors, has been published by the Better Business Bureau of this city and is being widely distributed.

The articles embodied in the booklet are by H. J. Kenner, president of the Better Business Bureau and formerly director of the National Vigilance Committee. They were first published as a series in a New York newspaper and attracted wide attention.

PARROBORO NEWS FROM PARRSBORO

Parrsboro, N. S., May 30—The tern schooner Minas King arrived here yesterday from New York in ballast, and went on the beach today for calking and overhauling before going to Bear River to load lumber.

U. S. Sends 1,000,000 Persons To Canada

Dominion's Population 12 Per Cent. American-Born, Says Railroad Bulletin.

(New York Times.)
It is estimated that there are approximately 1,000,000 people in Canada who were born in the United States, or about 12 per cent. of the Dominion's population. Most of these are to be found on farms in the Western Provinces. Nearly 100,000,000 acres of Western Canadian land has been settled by homesteading, and citizens of the United States have accounted for 30 per cent. of such settlement, as against 20 per cent. on the part of British. In addition, United States citizens are each year the heaviest purchasers of privately held and improved lands and farms.

Resumption on a larger scale of the movement of farmers from the United States to Canada is looked for this year, according to those most closely in touch with the situation. Even greater, it is anticipated, will be the number of visiting prospectors, to investigate Western Canadian conditions and to decide as to their own settlement there and that of their neighbors the following year. It is pointed out that many renters, facing discouraging conditions and dropping behind with their payments, are anxious to get on cheap lands, where they might soon hope to be landowners outright, while the desire for expansion and the possession of larger acreages induces the same trek which is always in evidence.

The movement of American farmers to Canada, according to the Canadian Pacific Railway, was in the ascendant when the war broke out, and the pinnacle was reached in the year 1913, when some 180,000 American citizens crossed the border into the Dominion. Since the war the annual contribution has ranged around 50,000 per year until the year 1922, when only some 24,000 arrived. The flow has, however, maintained the same high quality and was almost purely agricultural and possessed of considerable means. While United States settlers always lead all nations in the purchase of improved and other lands, last year they also led in the number of homesteads filed on. The average wealth brought in by the United States settler in 1919 was \$242; in 1920, \$272; in 1921, \$312, and in 1922, \$402.

A single instance may illustrate what American farmers are doing for Canada while furthering their own best interests. In the middle of March, S. Ebert, a farmer of Lewiston, Minn., left for Manitoba, where he had acquired land. He sold out 90 acres of his Minnesota land at \$200 per acre and about 160 acres at \$150 per acre, having \$46,000 to invest in his new farm, which consists of 720 acres, all cleared and in crop for several years, but which he nevertheless secured at an average price of less than half for which he sold any of his American land.

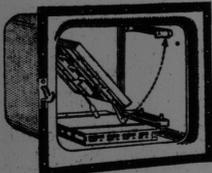

The inducement which is annually luring American farmers to Canada is the possibility of acquiring at very cheap rates land which is not only equal in every respect to the highly held farm lands of the United States, but which every year outyield them in most crops.

"In this connection it is well for the farmer hesitating on the brink of decision, procrastinating in the matter of making a move," says the railroad, "to realize that this situation cannot exist forever. Each year settlement and cultivation are effecting substantial increments in the prices of Canadian farm lands. The average acre of Canadian farm land was worth \$91 in 1906, had risen to \$35 in 1915, was \$41 in 1918 and \$44 in 1922. Taking Alberta prices as an average for the Prairie Provinces, where most United States farmers locate, the average occupied farm could be bought for \$18 an acre in 1906; in 1915 it was necessary to pay \$23, and in 1922, \$24. Western Canadian land values may be low, but not so low as they were a few years ago. There is constant progress in land settlement, cultivation, railroad construction and other improvements which elevate land prices. The farm which the United States settler acquired a few years ago for nothing, or a mere trifle, he is holding today at a high price, justified without effort on his part. The farm which the settler can purchase today for a low figure he will have to pay increasingly for in the years to come."

Nothing can touch the coils—trouble proof.

Two Points Higher

Seamless, round cornered porcelain enameled oven operates like a Fireless Cooker

Makers of

McClary's Electric Range

London, Toronto, Montreal, Winnipeg, Vancouver, St. John, N.B., Hamilton, Calgary, Saskatoon and Edmonton

THE thing that attracts and impresses and holds attention—the splendid achievement that fascinates and impels admiration and creates desire—is the one which, among its kind, stands out alone—two points higher.

McClary's Electric Range

The Electric Range of distinction—of efficiency—of service—of durability—embodies two points that set it higher than all others.

1. *The Protected Element*, which heats quickly and in which the wiring is protected against damage by being embedded in tough porcelain.
2. *The Seamless Oven*, welded, round-cornered, porcelain enameled, which affords not the slightest lodging place for food-juice laden steam. It is smooth, easy to keep clean and absolutely sanitary.

MC 2035

The Viscount of Sibour playing in the Hard Courts Tournament at Hurlingham.

Ronald McNeill, British under-secretary for foreign affairs, whose recent speech on the Russian situation caused a violent scene in the house.

Ding-Dong-Dell, Charlie's in the Well. Doug and Mary do the rescue stunt.

Mr. John Coogan, who now bathes in the reflected glory of his young son, Jackie.

The last strongholds of the men are being invaded. Mrs. Katherine Nelson of Jersey City, has become a competent welder and her wages run as high as \$30 a day.

One of the largest military reviews since the war recently took place near Berlin. Field Marshal Von Hindenburg is shown reviewing the troops of the new republic, whose military ardor seems undimmed.

The Prince of Wales making a tour of the east end of London where a street collection was being taken up in connection with the Lifeboat Day celebration.

The marionette players from a theatre in Rome, which are now performing at the Scala Theatre, London, are creating a great deal of interest. Above is shown a scene from "Puss in Boots."

Hon. Ann Kinnaird, daughter of the late Lord Kinnaird, has become a Salvation Army lass and recently received her captaincy.

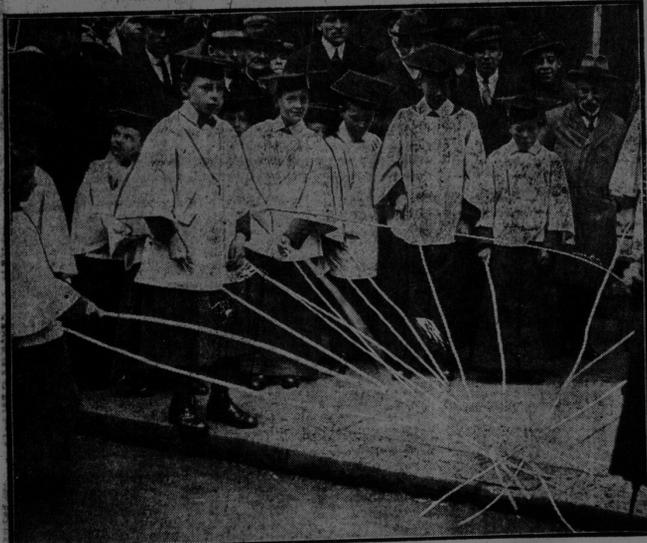

Anita de Alme, famous concert star, is working as a stewardess on an Italian liner in order to obtain sufficient funds to continue her operatic studies.

Barbot, a French aviator, who was the first man to cross the English Channel in a glider, photographed immediately after the feat had been completed.

Mr. and Mrs. Jimmy Wilde arrive for the bout with Pancho Villa, former American flyweight champion.

Performing the ancient and unique ceremony of "beating the bounds" of the Parish of St. Clements Danes, London.

Lord Wodehouse, one of England's premier polo players, returning to the game after several weeks' absence, due to injuries.

A testimony for insulin. Frank A. Vanderlip, internationally known banker, who was seriously ill with diabetes and took the treatment discovered by Toronto doctors, is now able to umpire a baseball game in the most approved manner.
