Great French Victory

Drive Back Huns Already Two To Four Miles Along Whole 25-Mile Front—Thousands of Prisoners, 20 Guns

London, July 18—(Offensive)—The French have gained from two to four miles everywhere on the 25 mile front of their offensive today between the Aisne and the Marne, according to reports reaching London this afternoon.

The French have captured several thousand prisoners and about 20 guns.

BRILLIANT BIT OF WORK BY ITALIANS

Drive Back Germans by Attacking Near Pancy

Many Savage Encounters by Companies or Battalions, Sometimes Meeting Midway Between Lines—French Regain Ground

On the French front in France, July 17—(Wednesday night, by the Associated Press)—While both the enemy and allied armies generally were marking time, the Italians this evening carried out a brilliant counter-attack near Pancy, north of the Marne, after the Germans had hurried them by incessant attacks during the day. They drove the enemy back into the valley of the Arno river.

Other sectors both north and south of the Marne saw many small local actions. Most of these operations, although limited in extent, brought about most violent encounters between small detachments, the number engaged sometimes being only a company or a battalion.

Often both sides had prepared for an attack at the same time, consequently the men met at full tilt midway between the lines. Numerous hand-to-hand encounters resulted.

The enemy is still trying hard to make progress toward Epernay by way of Vendeuil on the north and Oulley and Montvoisin on the south of the Marne. Montvoisin changed hands several times, the French eventually gaining some ground.

Nowhere along the front did the Germans obtain an advantage. Heavy fighting with constant attacks and counter-attacks had been taking place in the vicinity of Courton Wood, where, owing to the nature of the ground the situation is most difficult.

East of Rheims the day was comparatively quiet, but the French recaptured some trenches in the vicinity of Pannay and repelled attacks between Beaumont and Sillery.

EVERY POLICEMAN A TRUANT OFFICER

CHIEF FINLEY'S IDEA

Hamilton, Ont., July 18.—The police chiefs have passed a resolution asking the government to increase the fees paid crown witnesses and to pay witnesses called by the crown in the preliminary hearing in criminal cases.

Chief Finley, Fredericton, would make every policeman a truant officer, for he believed that most of the juvenile criminals were habitual truants from school.

Under Niagara Bridges

Niagara Falls, Ont., July 18.—Two Beamville aviators yesterday flew under both bridges of the Niagara River, the first time this has been done.

Crown Prince Tries To Convert Big Failure Into Showy Minor Success

Wants Something to Placate People at Home for Loss of 100,000 Men—Evidently Trying for Epernay

Paris, July 18.—The German Crown Prince, military observers here say, is now trying to convert a large scale failure into a showy minor success, which will make up in the eyes of the German public for the 100,000 men he has sacrificed. His goal now apparently is Epernay. The operation includes two parts. In the first the Germans who crossed the Marne in the Dormans region are struggling to widen and strengthen the bridgehead on the south bank. In the second, the German right flank, which at the beginning of the action was along the Dormans-Rheims road, facing southeast, is now pivoted on Colonel de Thomassin.

THE PLUMBERS

Discipline Gives Way Under Stress of Fighting

A master plumber, in conversation with a Times reporter today, said that there was no denying that the journey men's strike was over. At a meeting of the master plumbers on Monday evening it was announced that the city ranges from \$3 to \$4 a day for an eight hour day and occasionally higher for special work.

At the meeting arrangements were completed to hold a meeting of the New Brunswick Society of Sanitary Engineers at Loch Lomond next month. A large number of delegates are expected from outside towns. The plumbers will motor to Loch Lomond, following a business session, will enjoy the sailing.

JAPAN AND THE WAR

London, July 18.—A meeting of the Japanese advisory council called for Monday to approve a decision taken by the government, was postponed owing to the opposition of Messrs. Takino and Hara, says a dispatch to the Times from Tokyo dated Monday. It was reported that Mr. Takino represents the views of the Saitama clan, and that the situation is not yet critical enough to necessitate Japanese action and that it would be perilous to state Japan's fortunes before a German invasion actually endangers Japan.

The council, it is added, was then ordered to meet on Tuesday.

MAY DEVELOP THE LATITE COPPER MINES

An important industry is likely to be developed in New Brunswick in the near future, according to the announcement made yesterday by Lewis Connors, who said that he was negotiating with a Boston concern for the sale of the copper mines at LaTite. A mining expert from the United States, who visited the property recently, says that he had found the ore from the LaTite properties among the richest he had ever examined. Copper from this property assays \$60.00 to the ton, and lead \$25.00 per ton.

SIGN CONVENTION

Lima, Peru, July 18.—England and Peru have signed a convention establishing a peace and arbitration commission.

L. DeVester Lyon, an old and respected resident of Kingston, passed away last Saturday at the advanced age of ninety years. He was born at Long Reach and was of Loyalist descent. He is survived by two daughters, one son, a sister and two grandsons.

YESTERDAY'S ACCIDENT

At noon today it was reported that Albert D. Cox, C. P. R. brakeman injured near Grand Bay yesterday, was resting as comfortably as possible. Dr. W. F. Roberts said that so far as could be ascertained at present there were no internal injuries.

DOUBLE SHOWER FOR BRIDES OF SOLDIERS

Two soldiers' brides were honored with a real old-fashioned party and dance at the home of Walter Peacock, Sandy Point, on the Kennebec coast last Sunday. The bridegroom and numerous friends from the city and surrounding section attended. The young ladies upon whom this bride-shower party was bestowed were Mrs. Charles Stevens and Mrs. Charles McManet, whose husbands are members of the Depot Battalion and Halifax unit respectively. The gathering was made all the happier by the presence of Robert Turner, a returned soldier, brother of Mrs. McManet, and a popular boy with everybody.

SAY MAN TAKEN IN MONTREAL WAS DESERTER FROM OLD 60TH HERE

Montreal, July 18.—Hend Desroches, alleged to be a deserter from the 60th battalion, St. John, has been picked up by the military police in the course of their search of the St. Lawrence district for draftees following an attack on federal officers last week. Desroches' home was at St. Lazare.

The restrictions in the consumption of milk and cheese in Paris restaurants are to be abandoned.

ADMITTS HE WAS A GERMAN AGENT

Means Says Other Prominent N. Y. Lawyers Also Were

THIS WAS BEFORE U. S. WENT IN

Tells of Large Sums Received—Plot to Tie up Building of "Mesquite Fleet"—A Countess Arrested—News of League Comes Out

Chicago, July 18.—Admissions that he had served as a secret agent of Germany before the United States entered the war, and the allegation that some of New York's most prominent lawyers had done as he did, were made yesterday by Gustav B. Means in testimony at a hearing to determine the legality of one of two wills purporting to dispose of the \$2,000,000 estate left by the late James C. King of Chicago.

Means, who appeared as a witness for the estate of Mrs. Mead A. King, for whose alleged slaying he was tried and acquitted in Chicago, N. C., in 1915, freely admitted receiving money for acting as a secret agent of the German government before the outbreak of the war with the United States. Quietly he told of receiving \$25,000 at one time and \$50,000 at another, for his services to Germany, and of delivering \$1,200,000, which he received on a check of Captain Boy-Ed, one of Germany's chief spies in this country, who was subsequently expelled.

He also admitted that he and German spies in this country were to tie up the building of electric boats, the "mesquite fleet" building for the Allies in this country. Means said that he found that the boats had gun emplacements and that Captain Boy-Ed called this to the attention of the neutrality board at Washington.

"President Wilson then very properly asked him why he was doing detective work in the United States," declared Means, "and now for the first time the public knows why Captain Boy-Ed was sent back to Germany. I turned all my information over to the government."

Countess Arrested.—Means, who is suspected of having been associated with Dr. Friedrich R. A. Von Sips, a German propagandist, in this country, the Countess Alexandra Vlasova Von Schiele was arrested here yesterday as a dangerous alien enemy. Orders to detain her were taken at Bellevue Hospital.

They Had A League.—New York, July 18.—Examination of George Voth, former managing editor of the New York Staats Zeitung by the United States district attorney, it was said last night, showed that soon after the war began German sympathizers in this country organized the "League of the Iron Cross of German Patriots in America," and Von Skal was elected treasurer. C. Rechan appears in the records as chairman, and Dr. Gustave Schuler as secretary.

A certificate of membership was given to each contributor to the fund, which was the "support of surviving dependents of the Iron Cross." The organization, it was said, became popular and had thousands of contributors.

FOOD SITUATION IN ENGLAND BETTER BUT ANXIOUS TIME HAS NOT YET ENDED

Washington, July 18.—Drought, early frosts and labor shortage in England threaten to reduce somewhat previous estimates of food production, according to cables advices to the British food ministry, and among the American Atlantic coast. The food situation is described as better than last year, but the season of anxiety is not yet over.

Early optimism about the possibility of wheat crops will have to be revised owing to difficulties of newly broken ground and lack of labor. Berley and oats, potatoes and root crops also suffered.

F. J. FOWLER IS KILLED IN ACTION

Ottawa, July 18.—Casualties: INFANTRY. Killed in Action. P. J. Fowler, Fairville, N. B.

M. Atkinson, Smithville, N. S. RAILWAY TROOPS. Died. A. McQueen, Ironville, N. S.

D. C. Smith, Woodstock, N. B.; G. H. Goodine, Fredericton, N. B.

STEAMER SUNK WITH THE LOSS OF 26 LIVES

Vancouver, B. C., July 18.—Passenger on a trans-Pacific liner brought news of the sinking of the New Zealand coast, the steamship Wimmera, a vessel of 8,000 tons, with a loss of twenty lives. A heavily charged mine in the shipping route between Sydney and Auckland did it. The Niagara passed within a few hundred yards of the spot about thirty minutes before the Wimmera went down.

C. P. R. Earnings. Montreal, July 18.—C. P. R. gross earnings for the second week of July were \$2,688,000 as against \$2,867,000 for the corresponding period last year, a decrease of \$179,000 or 6.2 per cent.

French Launch Attack On Twenty-Five Mile Front

MAY BRING RUTH LAW TO ST. JOHN

Talk of Project That Will Give City Something to Talk About

The Great War Veterans Association may be the means of making little old St. John, up and gone again. The boys did it frequently when they were chasing Fritz among the shell-holes, but this time they may supply thrills of another brand. There is a movement on foot to bring Ruth Law, famous daredevil stunt artist to St. John in aid of the building fund.

Miss Law is not exactly a stranger to this city, as she was here with her husband, Rodman Law, contemplating a mad dash through the Falls for movie purposes. However, when she got down to the water's edge and made a close inspection of the gauntlet and threatening rapids, her stout heart failed her and she did the trick in less dangerous water down in Maine.

The daredevil girl is an international figure. She has flown from New York to Chicago with the U. S. army, and has been seen in London, leaping from steeples and doing all sorts of hair-raising feats, all of which have been in the illustrated papers and movies. Only the other day she was the main attraction among a party of military aviators on a tour of the Falls.

The Veterans want to wipe off the mortgage on their home. It is the desire to have the place absolutely free of debt. So far the Club has been a boon to the boys and it is not improbable when the war is over and people get straightened back to real life again that a handsome new memorial building will materialize on a new site. In this case the present building can be sold to advantage.

In the meantime the Veterans are keeping their eyes peeled for "knockout" attractions—purely a figurative term—and Miss Law looks a good bet.

DAY OF BLACK FAST WITH JEWS

Local Hebrews Commemorate Sorrowful Events in History of Their People

In the Hazen Avenue synagogue last evening at sunset and again at different hours today orthodox Jews in sorrowful mood, seated on low stools to accept the fast, were observing what is known as the Black Fast, commemorating the destruction of the first and second temples in Jerusalem, and in more modern times the wholesale expulsion of Jews from Spain.

The anniversary demands of the Jewish race is largely represented, simulation of sorrow is carried to greater lengths. Shoes are removed and calling is indulged in, but in the New World these pronounced forms of sorrow have gradually died out.

WEATHER REPORT

Issued by Authority of the Department of Marine and Fisheries, B. F. Sturges, Director of meteorological service.

Synopsis.—The barometer is now highest to the west of the Great Lakes and lowest in the maritime provinces and along the American Atlantic coast. The weather is showery in Nova Scotia and New Brunswick and fine in the other provinces.

Lakes and Ottawa Bay, Upper St. Lawrence, Ottawa Valley, Lower St. Lawrence and North Shore.—Light winds, moderately warm today and Friday.

Fair and warmer. Maritime.—Moderate variable winds, showery; Friday moderate winds, fair and moderately warm.

Superior.—Light winds, fine and warm today and on Friday. Western Provinces.—Fine and very warm.

New England.—Fair tonight and Friday, gentle winds mostly west and northwest.

It Is Big, Says London, and Progress Is Good

Prisoners Come in Soon After Charge; Historic Fontenoy Northern Point of Attack; British on Mile Front Gain Success

London, July 18.—News received in London indicates that an attack started by the French this morning on the front between Chateau Thierry and Soissons is on a considerable scale. The attack was believed to be making good progress.

Advices this afternoon stated that the Germans had made no further attacks east of Rheims and that the French at various points of the front had regained ground.

The French, the reports state, have recaptured Montvoisin, south of the Marne, at the point where the Germans had advanced farthest toward Epernay and Chene La Beine, to the west, and took as well, the heights west of these villages, overlooking the Marne.

BETWEEN AISNE AND MARNE

On the French front in France, July 18.—The allied forces today are engaged in an important counter-attack between the Aisne and the Marne, north of Chateau Thierry.

Paris, July 18.—The French this morning delivered an attack along the line from the River Aisne as far as the region of Belleau, a front of about 25 miles, and made progress at certain points of between a mile and two miles. The situation on the Marne and Champagne fronts is unchanged. Early in the movement prisoners taken in the advance began coming in.

AT FONTENOY

The northern point of the front of attack in the town of Fontenoy, nearly a mile north of the Aisne. In the fighting on the front of the German offensive, the French last night stopped the Germans in the face of violent attacks which the enemy launched, southwest of Nanteuil La Fosse, between the Marne and Rheims. On the front beyond Rheims, east of the Vesle River, an attack by German Guards units was completely repulsed.

This morning's attack represents what apparently is an important strategic move by General Foch to counter the German blow further south along the Marne and on the line of Rheims. If further pushed, as it seems bound to be, the entire huge salient created by the Germans in their previous drive south of the Aisne and enlarged in their present offensive will be seriously endangered.

PERSHING'S CHEERFUL REPORT

Washington, July 18.—General Pershing's communique for yesterday reports that in the American sector on the Marne the enemy has been entirely driven from the south bank.

BRITISH GAIN ON MILE FRONT

London, July 18.—Southeast of Villars-Belconneur, south of the Somme, the British line has been advanced on a front of more than one mile, says the official statement today from British headquarters in France. The British position to the east of Hebuterne and more improved somewhat.

FRENCH LEARNED OF ENEMY PLANS

French Army Headquarters, July 18.—(Reuter's Ltd.)—It becomes increasingly clear that the enemy's strategic objectives was to occupy the whole right bank of the Marne from Chateau to Chateau Thierry, in order to use the river as a shield for his uncovered flank in a final march towards Paris. The attack failed mainly because General Gouraud was able to keep constantly posted regarding the enemy's intentions and his sector was thoroughly prepared for an attack.

SWANEE RIVER LADS HELP HOLD LINE

With the American Army on the Marne, July 18.—American negro troops are helping to hold the allied line against the German offensive. They requested the favor of being permitted to take over a part of the line of attack, though they had been holding a piece of a French sector for the last three months without relief.

QUEBEC CROPS

Quebec, July 18.—Figures issued by the Quebec Provincial Bureau of Statistics, indicate an increase of twenty-two per cent in the acreage in wheat, two per cent in oats, less hay and more vegetables on page 2, seventh column.

Whole Serbian Crop Seized; They Face Starvation; Reign of Terror

London, July 18.—(Reuter's Ottawa Agency)—It is learned from official sources in Serbia that Austro-Hungary has confiscated the whole of this year's Serbian harvest, as well as the rations allowed the previous year. The Serbian people, therefore, are faced with starvation, besides which they are experiencing a further reign of terror and cruelty.

ROWDY WORK IN WEST END FROWNED ON BY OFFICIAL OF BASEBALL LEAGUE

The following letter has been received by the Sporting Editor of The Times from President John White of the West Side League:

Sporting Editor Times, Dear Sir.—It has been brought to my notice that the baseball players from the east side were stoned by a group of boys, and I regret to say, young men, soon after leaving Queen Square diamond last evening between the Vectors and the Glants. The former team won by a score of 4 to 3.

JOHN WHITE, President of the West Side League. Weather permitting, the baseball team from Military Headquarters and the Acadias will play on the Barrack Square this evening. The game promises to be an interesting one as both teams are out to win and will have their strongest line-up on the field.

An interesting game of baseball was played on the Queen Square diamond last evening between the Vectors and the Glants. The former team won by a score of 4 to 3.

C. P. R. Earnings Less. Toronto, July 18.—Gross earnings of the Canadian Northern Railway for the week ended July 15, were \$8,841,000, a decrease of \$1,500,000 from the corresponding period last year. From July 1 to date they were \$1,655,800, a decrease of \$162,100 from last year.

British and European—Frederick A. Smyth, 20 Lodgegate Hill, LONDON, E. C., England. The Audit Bureau of Circulations audits the circulation of The Evening Times.

THAT SECRET AGREEMENT.

By a secret agreement made in 1912 the former provincial government took from the city council of St. John for twenty years its right to assess the railway property of the St. John Railway Company and, of course, its successor, the New Brunswick Power Company. This outrageous usurpation was plotted and planned without the knowledge of the city council of that day. The government of that day was willing to trade upon the rights of the citizens of St. John for its own purposes, just as it traded on lumber operators, railroad contractors and others. Evidently it believed the St. John representatives in the legislature could be silenced. They, however, appear to have regarded this as too barefaced an act, even for such a government as that to which they ordinarily gave such docile support, and the order-in-council was not supplemented by legislation. It is still on the record, however, as an order-in-council, and apparently led to the elimination from the St. John assessment bill of the clause fixing the assessment of the company at 1/2 per cent. of its gross income. The city council now asks that the provision in the order-in-council be eliminated, so that the city may exercise its right to assess. This exposure adds another blot to the black record of the old government, and reveals to the citizens the sort of people they are dealing with when they do business with the power company. This whole question should be further enlarged into, especially in view of Hon. Mr. Morrison's letters to Mr. W. Frank Hatheway. The latter has performed a public service by directing attention to the devious ways of the power company in its efforts to get more privileges and more revenue at public expense.

WHERE GERMAN LOSSES.

The committee of the iron and steel trade, in its report to the British Board of Trade, makes drastic recommendations in regard to trading with the enemy. A summary of the report says: "It is recommended that all imports of manufactured or semi-manufactured products of iron and steel from present enemy countries be prohibited during the period of reconstruction; that all necessary ores and minerals be admitted free, and that no raw materials be sent to present enemy countries from British Dominions or Colonies or from mineral or other resources under British control. It is further recommended that British ships shall not carry raw materials or manufactured iron and steel from neutral ports to ports in present enemy countries, or to neutral ports for ultimate despatch to present enemy countries, and that careful consideration be given to the question of allowing enemy ships to coal at any British coaling station." The report points out that the experience of the last three years has shown that under the stress of modern war the safety of a nation is in great part determined by its command of resources of iron and steel, and that the more nearly self-sufficing a nation can become the greater will be its power of self-defence. In addition, therefore, to the proposed legislation aimed directly at enemy conditions, the committee makes the following recommendations:

"That anti-dumping legislation be introduced in the United Kingdom similar to that in force in Canada. "That no iron or steel shall be imported into the United Kingdom which does not bear clearly and indelibly a readily recognizable mark of origin. "That every endeavor should be made to co-ordinate the economic policy of the United Kingdom with that of the Dominion and of the Empire generally. "That customs duties be imposed upon all imported iron and steel and manufactures thereof, and that a specific duty should be levied upon each class of commodity. "That there should be maximum, general, and minimum tariffs, and that the amount of specific tariff should be varied readily according to the changing demands of national policy. "That foreign syndicates and their accredited or unaccredited representatives should carry on commercial and industrial activities in the United Kingdom only under license from the government." Of course the recommendation that customs duties be imposed will be stoutly opposed by free traders.

The most interesting part of the report is that which shows a determination to prevent Germany from exploiting British trade as she did before the war, and the implied development of Imperial resources and industries which goes with the proposed new policy for the iron and steel trades are not alone in expressing this determination and advocating this policy.

Drought, early frosts and labor shortage have reduced previous estimates of food production in England. This means of anxiety is not yet past. The secretary of Canada and the United States, and further emphasizes the importance of preventing food waste.

DECLINED WITH THANKS.

A private firm has offered to contract to clean the streets of Toronto and collect the garbage. The leader of the Star to make some vigorous remarks, as follows: "Probably if the waterworks employees were to quit another private firm were to pump the water. Running the city parks would be a rich plum for a third firm, which would cheerfully promise to do it at half the present cost. The city is 'much obliged,' but is under the pressing necessity of saying 'No, thank you.' If Toronto's streets were cleaned with the same regard for public convenience as has marked the management of the Toronto Railway Company, there would be a cinder in every man's eye. If the waterworks had to earn such dividends as are paid by the Consumers' Gas Company, Toronto citizens would be burdened, as Montreal citizens are burdened, with excessive water rates. If the city's parks were run a la service of the Metropolitan Railway, they would be open about one day a week. There are enough privately-owned public services in Toronto already. This city has no intention of jumping out of the frying-pan of a civic strike into the fire of a privately-administered scavenger system."

Halifax Echo: "It is a matter of solemn pride, not boastfulness, to all women that when the crucial moment came, our nursing sisters proved themselves the equals of the brave soldiers whose wounds they were tending. No man can ever again bring the foolish charge against woman that she would not show courage on the battlefield. She has shown supreme coolness, bravery and self-sacrifice under an even more trying ordeal, when a defenceless hospital was made a shambles. The Canadian nation is composed of men and women of equal valor and daring. Perhaps the proof of this is the only thing we owe the Hun. If we ever doubted it, there is no room for doubt now."

The German thrust at the heart of France has not achieved success, but it is too soon to say that the danger is over. Espionage seems to be the German objective. It was to have been reached the first day, but the stout French resistance blocked the road. If it should be taken Belgium would be in great danger. The reports from French official sources still express confidence. We are nearing the crisis of the battle and the next few days will stamp the German effort as success or failure.

Mr. F. R. Taylor asserts that if the New Brunswick Power Company does not get an increase in rates it will discontinue its street railway service. It has been gradually discontinuing that service for some time, and might eventually, no doubt, come to a full stop. But what about the rights of the people?

Evidently the system of scaling logs in this province under the old government was of such a happy-go-lucky character that the Foster government cannot too soon introduce the better system which it has in course of preparation.

Hon. Mr. Dugal is not a bit sorry he gave such valued service in connection with the exposure of the old government. The Standard must not build hopes on Mr. Dugal. He knows the Standard and its friends.

We continue to hear more about the success of the Czech-Slovaks in Russia than of the Bolsheviks. The latter still rule in Petrograd and Moscow, but sentiment opposed to them appears to be growing in the country at large.

Yesterday was not a good day for corporations at City Hall. There was a manifest feeling that this is a corporation-ridden city, and that some kicks are due somebody.

It is nearly time for the Kaiser to tell his dear somebody once more how God has strengthened the German army and made it invincible.

The sins of the Flemish government are still finding it out. That secret bargain with the St. John Railway Company finds no defender.

Mr. Hatheway has stirred up a considerable nest of somewhat angry hornets. Hear them buzz.

The evidence of Hon. Mr. Currie puts a different face on the matter of Sealer Murchie's charges.

Was St. John represented in the legislature in 1912?

All Thought Out. "Brown's debts don't seem to worry him." "No," he says if he looked worried it would worry his creditors, and then they would worry him into worrying some more."

ROYAL YEAST

Has been Canada's favorite yeast for over a quarter of a century. Bread baked with Royal Yeast will keep fresh and moist longer than that made with any other, so that a full week's supply can easily be made at one baking, and the last loaf will be just as good as the first.

RECENT WEDDINGS

Griffin-Nickerson. A quiet wedding took place on July 17 at 19 Broad street in the presence of a few friends, when Annie E. Nickerson was united in marriage to Private Frederick Griffin, of Grand Manan. The ceremony was performed by the Rev. G. B. Trafton, of 229 City Road.

Heather-Farnham. A very pretty wedding was solemnized yesterday afternoon at the home of the bride's brother, J. U. Farnham, 106 Dorchester street, when Ruthen Pearl Heather, of Oxford (N. S.), was united in marriage to Miss Lottie Belle Farnham, of this city, by Rev. D. J. McPherson. The bride was becomingly attired in a traveling suit of navy blue broadcloth with hat to match. The bride has been a member of the staff of F. A. Dykeman and she was splendidly remembered by fellow employees. Among the many costly gifts received was a cheque from the bride's mother, while the groom's present to the bride was a string of pearls. The bridal pair left for Moncton where they will start on a motoring tour of the provinces, after which they will take up their residence at Oxford where the groom is a prosperous farmer. Good wishes of the bride's many friends go with her in leaving St. John.

War Gardener Bulletin

PRACTICAL DAILY GUIDE FOR VACANT LOT AND BACK-YARD GARDENERS EN-LISTED IN GREAT-ER PRODUCTION CAMPAIGN

Issued by the Canada Food Board in Collaboration With Experts on the Staff of the Dominion Experimental Farm

MARKETING GARDEN TRUCK.

Nine out of ten war gardeners are able to use most of the vegetables they grow but among those who have gone in for vacant lot gardening there will be some who will want to market their produce. The community spirit pays in this as in most other things.

A case in point is a project put forward by the Women's Canadian Club of Ottawa. Last year they made a way-side market and through this medium \$750 was made on the sale of vegetables. This year they are to have a motor truck which will bring the produce right into the city to be sold at street corners.

This is a novel scheme that might be adopted in other cities. The wayside markets have proved lucrative as they have been well patronized by motorists and wayfarers of every class.

A motor truck in a country community may be made the means of transporting to the city market the produce of a score of war gardens. Fresh, good-looking vegetables are always easy enough to sell. The biggest difficulty presented as a general rule is transportation. This may be overcome by team-work on the part of war gardeners.

Mrs. Jean Muldrew's Address. Mrs. Jean Muldrew made good her title of food control and concentration expert in her address given under the auspices of the Housewives' League in the war veterans' hall yesterday afternoon when she expounded the work of the food board and told of the individual responsibility which rests upon every Canadian and American to save food for the Allies and for the neutral nations of Europe.

She had complete knowledge of her subject and presented it in a very understandable and interesting manner. Announcement was made at the meeting that the food board has undertaken to pay the rent of the Calvin church basement for three months so that, if the local government will equip the building with food demonstrations will be held there. It was also brought to the notice of the meeting that this morning the city commissioner will be interviewed, on the subject of the wrapping of bread in the city, the authorities at Ottawa having signified their willingness for local opinion in this matter.

U. S. Officers Decorated. London, July 17.—General John J. Pershing has been awarded the grand cross of the Order of the Bath and General Tasker H. Bliss, American representative at the supreme war council has been given the grand cross of the Order of St. Michael and St. George. This was officially announced today.

STOMACH TROUBLES ARE DUE TO ACIDITY

Tells Safe, Certain, Speedy Relief For Acid Indigestion.

So-called stomach troubles such as indigestion, gas, sourness, stomach-ache and inability to retain food are in probability nine cases out of ten, simply due to the fact that excess secretion of acid is taking place in the stomach, causing the formation of gas and acid indigestion.

Gas distends the stomach and causes that full, oppressive, burning feeling sometimes known as heartburn, while the acid irritates and inflames the delicate lining of the stomach. The trouble lies entirely in the excess development or secretion of acid.

To stop or prevent this souring of the food contents of the stomach, it is necessary to neutralize the acid, and make it bland and harmless, a teaspoonful of bisulphated magnesia, a good and effective corrector of acid stomach, should be taken in a quarter of a glass of hot or cold water after every meal. This sweetens the stomach and neutralizes the acidity in a few moments and is a perfectly harmless and instantaneous remedy to use.

An antacid, such as bisulphated magnesia which can be obtained in tablet form enables the stomach to do its work properly without the aid of artificial stimulants. Magnesia comes in several forms, so be certain to ask for and take only Bisulphated Magnesia, which is especially prepared for the above purpose.

Coconut Oil Makes A Splendid Shampoo

If you want to keep your hair in good condition, be careful what you wash it with.

Don't use prepared shampoos or anything else that contains too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Just plain unperfumed coconut oil (which is pure and entirely greaseless) is much better than anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily and removes every particle of dirt, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.

You can get unperfumed coconut oil at most any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for months.

Hairs Will Vanish After This Treatment

(Toilet Helps) You can keep your skin free from hair or fuzz by the occasional use of plain delatone and in using it you need have no fear of marring or injuring the skin.

A thick paste is made by mixing some of the powdered delatone with water. Then spread on the hairs and after 2 or 3 minutes rub off, wash the skin and all traces of hair have vanished. Be careful, however, to get real delatone.

DEPARTMENT OF RAILWAYS AND CANALS, CANADA. CANADIAN GOVERNMENT RAILWAYS

Siding, Mile 21 1/2, Truro Subdivision. SEALED TENDERS addressed to the undersigned and marked on the outside, "Tender for Construction of Siding, Mile 21 1/2, Truro Subdivision," will be received up to and including twelve o'clock noon, Wednesday, July 22, 1914, for the construction of a siding 2,800 feet long, at mileage 21 1/2 from Moncton on the main line to Truro.

Plans, specifications and blank form of contract may be seen at the office of the Chief Engineer of the Department of Railways and Canals, Ottawa, Ont., at the office of the Chief Engineer, Canadian Government Railways, Moncton, N. B., and at the office of the Resident Engineer, Truro, N. S.

All the conditions of the specifications and contract forms must be complied with. Tenders must be put in on the blank form of tender, which may be obtained from any of the offices at which plans are on exhibition.

Each tender must be accompanied by an accepted bank check payable to the Honourable the Minister of Railways and Canals for an amount of \$1,800.

The lowest or any tender not necessarily accepted. By order, J. W. PUGSELEY, Secretary, Department of Railways and Canals, Ottawa, July 8, 1914. 7-31

WIEZEL'S CASH STORE 243-247 UNION STREET

THE EVENING TIMES AND STAR, ST. JOHN, N. B., THURSDAY, JULY 18, 1918

And Now Today Starts

OAK HALL'S ANNUAL MID-SUMMER SALE

IF FATHER TIME COULD ONLY DRAW BACK THE CURTAIN and allow the public to peer into the future and realize what OAK HALL qualities of today will sell for only a few short months from now—even this—Eastern Canada's Greatest Ready-to-Wear Store, could not begin to handle the crowds that would flock to our Mid-Summer Annual Sale, where prices are reduced far below even normal values of today.

AS WORTHY MERCHANDISE becomes scarcer and scarcer, and prices continue to climb upward, it behooves everyone to look at something more than the price of a garment if disappointment is to be avoided in buying wearing apparel.

WE HAVE ALWAYS MAINTAINED that the character of the store is one of the most important things to be considered when buying merchandise. The size of a store, its resources, buying power, its record for square dealing and value giving—these things are more important now than ever before.

FOR IN THESE CRITICAL TIMES when there is not enough good merchandise to go around, it is the big and thoroughly sound organization with its spot-cash buying power, progressive enough and courageous enough to buy far in advance of immediate needs, that can obtain dependable merchandise in any quantity worth mentioning.

OAK HALL IS JUST SUCH AN ORGANIZATION—being far and away the largest spot-cash buyers (in our special line) in Eastern Canada. We have utilized our resources and knowledge to the limit during the past six months in preparing for this Mid-Summer Sale, so that today all our departments are offering exceptional opportunities to protect our friends and customers against future higher prices.

WE HAVE DONE OUR PART—we have accumulated the merchandise—at prices that most assuredly cannot be lightly passed over today—we offer this opportunity to you—and now we are sure your careful judgment will lead you to take advantage of this exceptional offer before it is too late.

Upholds Sunday Baseball.
A letter protesting against a military baseball match being played at Hythe on Sunday, having been written to the Hythe Town Council, by the Rev. A. G. Lloyd, Wesleyan minister, a trenchant reply was addressed to Mr. Lloyd by the Town Clerk (Mr. B. C. Drake), on the instructions of the Town Council.
The Town Clerk says: "The council has no sympathy whatever with your objection or protest, nor does the council

consider the playing of baseball or any similar clean, manly, and healthy sport any desecration or misuse of the sacred day of Sunday, or the slightest harm to the highest principles of religion."
World's Series Assured.
Assuming that the "work or fight" order will not interfere with major league baseball this year, it is a sure

thing that the world's series will be played in October. The rumpus over the Perry case will not cause a baseball war until some time next winter. If then there is so much money in the world's series for players and managers that the games will be played regardless of political difference between the big circuits. As a matter of fact the public isn't a bit interested in the quarrels of the magnates. The game is the thing and the fans care for nothing else.

Kalamazoo Grand Circuit.
Exciting finishes and large fields featured the races at Kalamazoo yesterday. Walter Cochato won the 200 pace, taking two out of three heats; best time 2:07 1/2. Betsy Hamlin won the 210 pace, taking two out of three heats; best time 2:09 1/2. The 212 trot for three-year-olds was captured by Chestnut Peter in straight heats; best time 2:11 1/2. The Comet won the 216 trot, two out of four heats; best time 2:08 1/2.

Polarine

FRICION REDUCING MOTOR OIL

"Makes a good car better"

For Piston Rings

A piston ring "seal" maintains the power of your engine for bucking steep grades, for racing at top speed and for loafing along on high. When the oil film between the piston rings and cylinder walls has the correct body and lubricating qualities it holds compression tight, keeps your engine running quietly, makes your motor responsive to the slightest shift of the throttle.

IS YOUR CAR A GOOD CLIMBER?

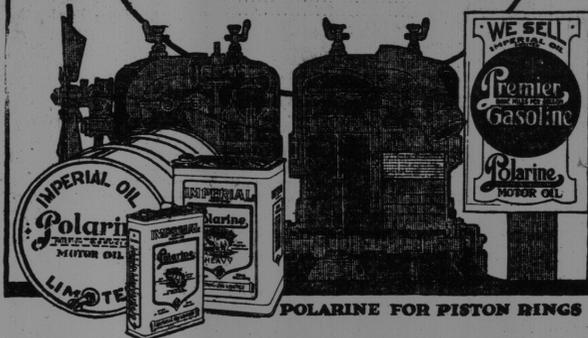

Almost any car makes a good showing along smooth pavements and up gentle grades. But to take stiff grades on high, to get a flying start when you open the throttle, to get most miles and most power out of every gallon of gas, requires piston rings made gas-tight with an oil of the right body and lubricating quality—an oil that forms a seal between piston rings and cylinder walls, that minimizes wear, that helps the gas to give full value in dependable power.

has just the right body to form this gas-tight seal between the piston rings and cylinder walls. It does not break down or lose its lubricating qualities under intense heat. It doesn't gum in summer nor congeal in winter. It overcomes friction and lessens carbon trouble—lengthens the motor's useful life and keeps it in prime condition the year round.

Polarine is made in two grades—Polarine and Polarine Heavy. It is supplied in one-half, one and four gallon sealed cans, also in 12 1/2 gallon steel kegs, barrelhead half-barrels. There are also Polarine oils and greases for effective transmission and differential lubrication.
Buy Polarine where you get Premier Gasoline—at the sign of the "Red Ball."
Write us at Room 709 Imperial Oil Bldg., Toronto, for interesting booklet on Polarine for Automobile Lubrication

LOCAL NEWS
THE BANK CLEARINGS.
 St. John bank clearings for the week ending today were \$2,214,746, corresponding period last year, \$2,116,198; corresponding period 1916, \$1,792,169.
ON MISSION WORK
 Rev. George Daly, C. S. R., who was recently transferred from Regina, Sask., to St. Peter's church, arrived in the city yesterday and has taken over his new duties. He will leave this evening for Nova Scotia where he will conduct missions for a short period.
BURIED TODAY
 The funeral of Mrs. Alexander McAfee took place this afternoon from her home in Quispamsis following burial services conducted by Rev. Mr. Mortimer of Hanington. Interment took place in Fernhill.
 The body of Mrs. Harriet Howard was taken to Fairfield for interment following funeral services which were conducted at the home of J. Harvey Brown.

BERRY PRICES VARY
 The berry market at Indiantown today was brisk with quotations by the crate rate of thirteen cents. Evidently the promised slump of week has not yet arrived, if indeed it is going to arrive at all. The lowest figure to date was ten and eleven cents Friday. A Sussex train official told The Times at noon today that twenty-seven crates were being asked for strawberries in the section he travels this morning, the scarcity evidently being due to large shipments to Montreal. Agents from the upper Canadian city have been buying up all the berries they could find at fancy prices.
LEG BADLY CUT
 Edwin Davis, son of Dr. E. N. Davis, Wentworth Hall, Elliot row, is confined to the house with rather severe injuries to his leg inflicted on a stone while bathing at Hatfield's Point a few days ago. It was while diving that Mr. Davis received the gash, in which it was necessary to take eight stitches. After the accident the young man was hastened to the city in an automobile but the auto broke down because of the condition of the roads in the downpour of that day. The delay fortunately did not cause any serious results to the swimming accident, however. Edwin Davis is soon to join the flying corps.

SOUTH END PLAYGROUND
 The opening of the south-end playground may have to be postponed, only eight men were at work there last evening. These, on the way home at dark saw other men at the corner and along the street who are not yet convinced that they should do everything to make the south end safer and better for its boys. A fine, large playground is in the making and the few men who are helping to make it deserve more support than they are getting. There is a good deal of grading yet to be done before the ground can be rolled. Twice as much should have been done last evening as the eight men were able to do. The South End Swimming League will be organized on Monday evening next, get behind this recreation field and for other useful purposes.
ROCKWOOD PLAYGROUND
 It is expected the seventeen acres at the entrance to Rockwood Park, presented to the Historical Association by Joseph Allison to be used as a recreation field will be transferred at once to the city. Mr. Allison has long advocated that the whole park be taken over by the city and if possible made more accessible to the people. As soon as the recreation field is transferred, the city will be in a position to expend the thousands of dollars recently received to make a baseball diamond and half-mile running track as a beginning of recreation development for the entrance to the park. The mayor and president of the Playgrounds Association discussed the matter with Mr. Allison yesterday afternoon in Rockwood Park.

MRS. JOSEPH MATHEWS
PASSES AWAY IN STATES
 The death of a former resident of St. John in the person of Mrs. Joseph Mathews occurred recently in Jamaica Plain, N. Y. Mrs. Mathews, who was eighty years of age, resided in this city at the time of the great St. John fire, her husband being in business here at that time. She is survived by two sons, Joseph and Christopher, three daughters, Mrs. E. Browning and Mrs. H. Weddihoffer of Jamaica Plain and Sister St. Paul of the Cross, who is in the Convent of the Precious Blood, in Cuba.

CANADA ALREADY HAS 38,000 PENSIONERS
 Vancouver, July 1.—Commander J. K. L. Ross, chairman of the Pension Board of Canada, said here yesterday, that if the federal government does not see its way to give the Pension Board a free hand in the administration of its own affairs he will be compelled to resign as a member.
 He said that on June 30 last, there were 38,000 pensioners in Canada, representing an annual total payment of \$19,000,000, and by March 31 of next year, at the present rate of increase, pensions will call annually for \$17,000,000.

AUTOMOBILE TRAFFIC TO AND FROM P.E.I. SUSPENDED FOR TIME
 Moncton, July 18.—The large amount of freight now offering between the mainland and P. E. Island and vice-versa, has made it imperative that automobile traffic of Nova Scotia and New Brunswick cars to the Island and Island cars to the mainland be temporarily suspended. The embargo, which was issued by General Manager Hayes of the C. G. R., to-night, will take effect on Monday, July 22.

BONUS FOR LETTER CARRIERS AND OTHERS
 Ottawa, July 18.—Col. P. E. Blondin, Postmaster General, told J. C. Watters, President of the Dominion Trades and Labor Congress, yesterday, that the letter carriers, sorters and porters, will receive the bonus voted them by parliament last May. Colonel Blondin has just returned from overseas.

British Bank Amalgamation.
 London, July 18.—The Times understands the government has sanctioned the amalgamation of Lloyd's Bank and the Capital and Counties Bank and of the National Bank of Scotland and the London and River Plate Bank.

GUNNER KING
KERR IS DEAD
 North End Soldier Succumbs in Hospital in Etaples, France
 The all-too-familiar yellow slip bearing the information that a loved one has passed away in France has brought its sad message to yet another St. John home. This morning a telegram was received by John Kerr, 74 Camden street, notifying him of the death of his son, Gunner King Kerr in the 28th Central Hospital, Etaples, France. His death occurred on July 17.
 The result of his illness was seriously ill was received by his family some time ago, but as the young man was of rugged build as a cheerer, worker who endeavored himself to all. On the outbreak of war he enlisted in the First Divisional Ammunition Column, but on account of his ability and experience, he was transferred to the postal corps, going overseas with that unit. On arrival in France he found the life of a postal clerk rather tame, and, craving the excitement which can be obtained only "up the line," applied for and received a transfer to the artillery, where he had remained since.
 It is a coincidence that the news of Mr. Kerr's death should come at the same time as the news that Driver Harry Carson was suffering from blindness, a result of a deed of heroism in sacrificing a quantity of blood to help more unfortunate comrades in France. The young men had been close friends all their lives, and it was partly in order to be with his pal that Mr. Kerr transferred to the artillery unit, of which Driver Carson was a member.
 Gunner Kerr was a prominent member of the St. John branch of the L. O. L., and his father and four brothers also are members. He was a brother of Francis Kerr, barrister, of this city. An older brother, John, who enlisted in Winnipeg, was recently in the city after being discharged from the army. A third brother, Harry, is now serving with the Royal Dublin Fusiliers in Palestine.

IN HOSPITAL WITH FRACTURED RIBS
 News of Pte. Wm. A. Smith as Casualty Reaches Wife Here
 Word was received this morning by Mrs. Annie Smith, 212 Charlotte street, that her husband, Pte. William A. Smith, had been admitted to the Second Field Ambulance, France, suffering from two fractured ribs.
 Private Smith enlisted in 1915 with the C. M. R., afterwards transferring to the P. E. L. O. He has been acting as a dispatch rider, and it is presumed that he met his injuries while carrying on with duty. Private Smith is a veteran of the Boer War, having served with an imperial unit in that campaign.

GAVE LIFE IN WAR
 This is a picture of Sergeant Joseph Alfred Biddiscombe, son of Mr. and Mrs. Joseph Biddiscombe, of Chapon, N. B., who was killed in action in France on June 23. He was a brother of Detective Biddiscombe of the local detective staff.

WAS TEACHER HERE FOR MANY YEARS
 Miss Harriet O. Howard, aged sixty years, sister of Mrs. J. Harvey Brown, "Crigit Lee," East St. John, and also of Mrs. Thomas Ratcliffe, Saco, Me.; Mrs. James Moffat of Perdue, Sask., and John N. Howard of Brooklyn, Wash., will be buried beside her parents in the Fairfield Burying Ground, near St. Martin's, St. John county, this afternoon, Rev. Mr. Cox of this city, officiating.
 Miss Howard died on Tuesday at the home of Mr. Brown after a long and patiently-borne illness. She will be remembered very kindly by a large circle of friends, and particularly those who came in contact with her sweet and helpful personality in the public schools. For nearly a quarter of a century Miss Howard was a teacher, most of that time in the Victoria Burying annex, where her pupils were of the junior grades.
 Many men and women who today have families of their own, will read of Miss Howard's death with tender memories of their childhood days under her watchful care and tutelage.

COAL MAN HERE
 Alex. Dick, general sales manager of the Dominion Coal Co., Sydney, passed through the city on the Montreal express today. He was met at the train by Frank P. Starr, of R. P. & W. F. Starr. Mr. Starr conferred with Mr. Dick during the lunch time between trains.
