General Announcement.

The Thirty-fourth Session of this University, being the Fourteenth under the amended charter, will commence in the Autumn of 1866.

By virtue of the Royal Charter granted in 1821 and amended in 1852, the Governors, Principal, and Fellows of McGill College, constitute the Corporation of the University, and under the statutes framed by the Board of Governors with approval of the Visitor, have the power of granting degrees in all the Arts and Faculties, in McGill College and in Colleges affiliated thereto.

The Statutes and Regulations of the University have been framed on the most liberal principles, with the view of affording to all classes of persons the greatest possible facilities for the attainment of mental culture and professional training. In its religious character the University is Protestant, but not denominational; and, while all possible attention will be given to the character and conduct of students, no interference with their peculiar religious views will be sanctioned.

I. MCGILL COLLEGE.

THE FACULTY OF ARTS.—The complete course of study in Arts extends over four Sessions, of eight months each; and includes Classics and Mathematics, with English Literature, Logic, Mental and Moral Science, Natural Science, and Modern Languages: all of which subjects are imperative in the three first years of the Course; but in the fourth year options are allowed in favour of the Honour Courses in Classics, Mathematics, Mental and Moral Science, Natural Science, and English Literature. Certain exemptions are also allowed to Professional

Students. There are also Special and Partial Courses, and facilities are afforded for the practice of Meteorological Observations, and for the Study of Hebrew and Oriental Literature. The degrees given are B.A. and M.A.

THE FACULTY OF MEDICINE.—The complete course of study in Medicine extends over four Sessions, of six months each, and leads to the degrees of M. D., C. M.

THE FACULTY OF LAW.—The complete course in Law extends over three Sessions, of six months each, and leads to the degrees of B. C. L. and D. C. L.

[Details of the above courses of study, with the fees and the dates of commencement of the classes, will be found in subsequent pages.]

II. AFFILIATED COLLEGES.

Students of these Colleges are matriculated in the University, and may pursue their course of study wholly in the Affiliated College, or in part therein and in part in McGill College, and may come up for the University Examinations for Degrees on the same terms with the Students of McGill College.

MORRIN COLLEGE, Quebec, L.C.,—Is affiliated in so far as regards degrees in Arts and Law. The ordinary Course in Arts includes Classics, Mathematics, English Literature, Mental and Moral Philosophy and Logic. There are Honour Courses in Classics and in Mental and Moral Philosophy.

[Detailed information may be obtained from the Rev. John Cook, D. D., Principal.]

ST. FRANCIS COLLEGE, Richmond, L. C.,—Is affiliated in so far as regards degrees in Arts.

[Detailed information may be obtained from J. H. Graham, M. A. Principal.]

III. AFFILIATED THEOLOGICAL COLLEGE.

Affiliated Theological Colleges have the right of obtaining for their Students the advantage in whole or in part of the course of study in Arts, with such facilities in regard to exemptions as may be agreed on.

THE CONGREGATIONAL COLLEGE OF BRITISH NORTH AMERICA, Montreal, is at present the only affiliated Theological College.

IV. AFFILIATED SCHOOLS.

THE HIGH SCHOOL OF MCGILL COLLEGE affords the Classical and Mathematical training necessary for entering the College course, with a good English education fitting for business pursuits.

THE MCGILL NORMAL SCHOOL provides the training requisite for Teachers of Elementary and Model Schools and Academies. Teachers trained in this School are entitled to Provincial diplomas.

THE MODEL SCHOOLS OF THE MCGILL NORMAL SCHOOL are Elementary Schools, divided into a Boys' Department, Girls' Department and Primary School. Teachers in training in the Normal School are employed in these Schools, under the supervision of the Head Master and Mistress.

[Detailed information respecting these Schools will be found in subsequent pages.]

The next Session of this Faculty will commence on September 17th, 1866, and extend to April 30th, 1867.

The classes of Students recognised under the following regulations are:—(1) *Undergraduates*, matriculated for the whole course of study for the degree of B.A., extending over four years, except in the cases specified in Section first. (2) *Students in Special Courses*, matriculated and studying for the diploma in such special courses. (3) *Partial Students*, matriculated and taking two or more courses of lectures. (4) *Occasional Students*, not matriculated, and taking one course of lectures.

Fee for each Session, for Undergraduates and Special Students, \$20; in addition to which every student is required to pay for the Library, \$2, and for the Gymnasium, \$2.

Fee for Partial and Occasional Students, \$5 for each course of lectures.

Matriculation \$4, required only in the year of entrance.

Fee for Degree of B. A. \$5, to be paid before the examination.

Students in Arts are permitted to board in the City; but arrangements have been made for receiving Students who may desire to reside as boarders in the College, and for placing such Students under the immediate superintendence of Rev. Prof. Cornish, to whom application may be made.

EXTRACTS FROM THE REGULATIONS.

§ 1. MATRICULATION AND ADMISSION.

Candidates for Matriculation as Undergraduates are required to present themselves to the Dean of the Faculty, on the 17th of September, for examination; they may, however, enter after the commencement of the Session, if on examination, found qualified to join the classes.

The subjects of examination for entrance into the First Year are Classics, Mathematics and English.

In Classics.—Latin Grammar, Greek Grammar, and one easy Latin and one easy Greek author. The authors recommended are Cæsar: Sallust; Virgil (*Æneid*, B. I.); Xenophon (*Anabasis*, B. I.); Homer (*Iliad* B. I).

In Mathematics.—Arithmetic; Algebra, to Simple Equations inclusive; Euclid's Elements, Books I. II. III.

In English.—Writing from dictation.

Candidates may be admitted to the standing of students of the Second Year, provided that they be found qualified on examination. Such Examination shall include, in addition to the Matriculation Examination, at least so much of the subjects of the First Year as may be necessary for entrance into the classes of the Second Year, and shall be reckoned as a Matriculation Examination.

Students of other Universities desirous of continuing their studies in this Faculty, may be admitted, on the production of certificates, to a like standing in this University, after examination by the Faculty.

Candidates for Matriculation as Students in any Special Course, or for Partial Courses of Study, will be examined in the subjects necessary thereto, as may from time to time be determined by the Faculty.

Persons desirous of entering as Occasional Students, may apply to the Dean for entry in his Register, and may procure from the Secretary tickets for the lectures they desire to attend.

Every Student is expected to present, on his entrance, a written intimation from his parent, or guardian, of the name of the minister of religion, under whose care and instruction it is desired that the

Student shall be placed, and who shall thereupon be invited to place himself in communication with the Faculty on the subject. Failing any intimation from the parent or guardian, the Faculty will endeavour to establish such relations.

§ 2. SCHOLARSHIPS AND BURSARIES,

Sixteen Scholarships have been placed by the Governors at the disposal of His Excellency the Governor General. Application must be addressed to His Excellency, through the Provincial Secretary. Candidates for such Scholarships must pass the usual Matriculation Examination.

By command of His Excellency, four of these Scholarships will be offered for competition in the Matriculation Examination of the ensuing session.

Eight other Scholarships will be granted by the Governors, from time to time, to the most successful Students who may present themselves as candidates. One of these will be given annually to the *Dux* of the High School.

In the event of any Academy or High School in Lower Canada offering for competition in the Faculty of Arts an annual Bursary of not less than \$80, the Governors will add a scholarship thereto.

Any Academy, or High School, sending up in one year three or more candidates competent to pass creditably the Matriculation Examination, will be entitled to a scholarship for the most deserving of such candidates.

One Scholarship in Arts may be given annually to any teacher holding the Model School or Academy Diploma of the McGill Normal School, recommended by the Principal and Professors of the School, and passing creditably the Matriculation Examination in Arts.

All of the above Scholarships shall entitle the Students holding them to exemption from the ordinary Class Fees in the Faculty of Arts.

Two Bursaries, of \$50 each, have been granted by the Board of Agriculture for Lower Canada in aid of Students in the Special course of Agriculture. For terms of competition, see notice of Special Course of Agriculture.

§ 3. COURSE OF STUDY.

FOR THE DEGREE OF B. A.

Undergraduates are arranged according to their standing, as Students of the First, Second, Third and Fourth Years; and, as such must attend all the courses of lectures appointed for their year, and those only, except by special permission of the Faculty.

First Year:—Classics; English Literature; Pure Mathematics; History; Elementary Chemistry.

Second Year:—Classics; French or German; Logic; Pure Mathematics; Botany.

Third Year:—Classics; French or German; Mental and Moral Philosophy and Rhetoric; Mixed Mathematics; Experimental Physics; Zoology.

Fourth Year:—Classics; Mental and Moral Philosophy; Mixed Mathematics; Experimental Physics; Mineralogy and Geology.

Honour Courses.—Courses of study leading to the Honours of the College and University are provided in the following subjects:—

(1) Classics; (2) Mathematics and Physics; (3) Logic and Mental and Moral Philosophy; (4) English Language, Literature and History; (5) Natural Science.

(For details of the Ordinary and Honour Courses of study, see under Sect. 9.)

Undergraduates are required to study either French or German for two years, (viz., in the Second and Third Years,) taking the same language in both years. At the beginning of the Second Year the student must state which language he selects as obligatory. No change can afterwards be made without the special permission of the Faculty. In addition to the obligatory, there are other Lectures, attendance on which is optional, but Students who shall enter on these Courses of Lectures shall be held to the same rules in regard to attendance and conduct as in the case of the obligatory Lectures.

The Lectures in Modern Languages will be so arranged that Students competent and desirous to take in the same year the Lectures in French and in German, may do so.

Students who intend to join any Theological school, on giving written notice to that effect at the beginning of the Second Year, may take Hebrew instead of French or German.

§ 4. EXAMINATIONS.

COLLEGE EXAMINATIONS.

There are two examinations in each year; one at Christmas, and the other at the end of the Session. In both of these, Students will be arranged according to their answering, as 1st Class, 2nd Class, and 3rd Class.

Students who fail in the Christmas Examination may be allowed a Supplemental Examination, on written application to the Faculty, stating satisfactory reasons.

Failure in two or more subjects at the Sessional Examination will involve the loss of the Session. The Faculty may permit the Student to recover his standing by passing a Supplemental Examination at the beginning of the ensuing Session. But such permission will not be granted except in cases of sickness, or for other special reasons. For the purposes of this regulation, Classics, and Mathematics with Physics, will each be regarded as two subjects.

The time for the Supplemental Examinations will be fixed by the Faculty; and such Examinations will not be granted at any other time, except by special permission of the Faculty, and on payment of a fee of \$5.

UNIVERSITY EXAMINATIONS.

I. FOR THE DEGREE OF B. A.

There are three University Examinations; that for Matriculation, the Intermediate, at the end of the Second Year, and the Final, at the end of the Fourth Year.

1. The subjects of the Matriculation Examination are stated in Section I.

2. In the Intermediate Examination, the subjects are Classics and Pure Mathematics, with Logic and the English language. The subjects for the Examinations of 1867 are as follows:—

Classics.—Greek.—Polybius.—Book III., Chapp. XX. to LX. inclusive.

Latin.—Livy.—Book XXI.

Latin Prose Composition.

Mathematics.—Arithmetic.

Euclid, Books I. II. III. IV. VI. and def. of Book V.

Algebra to Quadratic Equations inclusive.

Trigonometry, including use of Logarithms.

Logic.—Thomson's outlines of the Laws of Thought.

English.—Spalding's History of English Literature.
An English Essay.

3. In the Final Examination the subjects are Classics and Mixed Mathematics, with any two of the following:—(1) Mental and Moral Philosophy, (2) Natural Science, (3) Experimental Physics, (4) One Modern Language and Literature (or Hebrew) with History. The subjects for 1867 are as follows:—

Classics.—Greek.—Aeschines.—Contra Ctesiphontem.
Sophocles.—Philoctetes.

Latin.—Tacitus.—Annals, Book I.
Terence.—Adelphi.
Latin Prose Composition.

General Paper in Grammar and History.

Mathematics.—Mechanics
Hydrostatics } As treated in Galbraith and Haughton's Ma-
Optics } nuals.
Astronomy }

With any two of the following:—

- 1 *Mental and Moral Philosophy.*—Mansel's Metaphysics,—Part 1.—Psychology; Schwegler's History of Philosophy; Whewell's Elements of Morality.
- 2 *Natural Science.*—Geology and Mineralogy, as in Lyell's Elements and Dana's Manual of Mineralogy.—The Zoology, Botany and Chemistry necessary to the study of the books above named: or as in Dallas' Outline of Zoology, Gray's Structural and Systematic Botany and Silliman's First Principles of Chemistry.
- 3 *Experimental Physics.*—Electricity.—Frictional and Voltaic. *Magnetism.*—Acoustics.—Theory of Undulations.—Production and Propagation of Sound.—Vibrations of Rods and Plates.—Vibrations of Fluids.—Musical Sounds. Lardner's Handbooks.
- 4 *History and English Literature.*—Smith's Student's Gibbon.—Smith's Student's Hume.—Marsh's Handbook of the English Language.

Or, instead of History and English, candidates may take any of the following:—

- (a) *History and French.*—History as above. The Course in French for the Fourth Year.—Bossuet.—Discours sur l'Histoire Universelle; Boileau.—Art Poetique. Translation into French, and French Composition.
- (b) *History and German.*—History as above. Schiller.—Geschichte des 30 jährigen Krieges; Goethe.—Iphigenie auf Tauris. General paper on Grammar, Translation into German, and German Prose Composition.
- (c) *History and Hebrew.*—(Theological Students only). History as above. Hebrew Grammar; Translations from first four chapters of Isaiah; any three of the Psalms; the Chaldaic portions of the Scriptures; Targum of Onkelos on Genesis I. Modern Hebrew Poetry, Halevi or Gabirol.

Candidates for B. A. Honours may omit at the Ordinary Examinations for the Degree, any two of the four subjects appointed, and also the Lectures on such subjects in the Fourth Year, provided that they shall not have been placed lower than Second Class in the Third Year's Examinations in such subjects. For the two subjects thus omitted, the Sessional Examinations at the end of the Third Year will be reckoned as Degree Examinations.

No student shall be entitled to the above privileges, unless his attendance on Lectures and progress in the subject in which he is a Candidate for Honours shall be satisfactory to the Professor, nor unless he shall have obtained a Certificate of creditable answering in the Honour Examinations.

II. FOR THE DEGREE OF M. A.

Bachelors of Arts, of at least three years standing, are entitled to the degree of Master of Arts, after such examination and exercises as may be prescribed by the Corporation. The exercise at present appointed is the preparation of a Thesis on any literary, scientific, or professional subject, to be selected by the candidate, and approved by the Faculty; the Thesis to be submitted to the Faculty and reported on to the Corporation.

§ 5. SPECIAL PROVISIONS FOR PROFESSIONAL STUDENTS.

I. LAW AND MEDICAL STUDENTS.

Students of the Third and Fourth Years, Matriculated in the Faculties of Law or Medicine of this University, are entitled to the following exemptions:—

In the Third Year, they may omit any two of the following subjects: Zoology, Experimental Physics, Rhetoric, and Modern Languages.

In the Fourth Year, they may omit Greek and also Geology or Experimental Physics.

In the ordinary B. A. Examination, they may, in Classics, pass in Latin alone; and, in Mixed Mathematics, in Mechanics and Hydrostatics alone.

To be allowed these privileges in either year, they must give notice at the commencement of the Session, to the Dean of the Faculty, of their intention to claim exemptions as Professional Students, and must produce, at the end of the Session, certificates of attendance on a full course of Professional Lectures in the year for which the exemptions are claimed.

II. THEOLOGICAL STUDENTS.

(Specially applicable to the Congregational College of British North America.)

Such Students, whether entered as Matriculated, or Occasional, shall be subject to the regulations of the Faculty of Arts in the same manner as other students.

The Faculty shall make formal reports to the Governing body of the Theological College, to which any such student may belong, as to:—(1) his conduct and attendance on the classes of the Faculty; and (2) his standing in the several examinations; such reports to be furnished after the Christmas and Sessional Examinations, severally, if called for.

Matriculated students shall be allowed no exemptions in the course for the degree of B. A., till they have passed the Intermediate Examination; but they may take Hebrew in the Second and Third Years, instead of Modern Languages.

In the Third and Fourth Years they shall be allowed exemptions from the following subjects:—

In the Third Year they may omit Astronomy and Optics, Experimental Physics and Rhetoric.

In the Fourth Year they may omit Experimental Physics and English Literature.

Certificates of attendance on the full course of lectures in the Theological College must be produced by Students who avail themselves of these exemptions, before entering upon the B. A. Examination.

§ 6. MEDALS, HONOURS, PRIZES AND CLASSING.

The *Logan Gold Medal* for Geology and other Natural Sciences.

In event of none of the candidates for any Medal fulfilling the required conditions, the Medal will be withheld, and the proceeds of its endowment for the year may be devoted to prizes in the subject for which the Medal was intended. (Under this regulation a prize of \$64 will be offered in the Honour Course of the Second Year in Mathematics, to be awarded at the beginning of the Session of 1866-7.)

2. HONOURS, of First or Second Rank, will be awarded to those Matriculated Students who have successfully passed the Examinations in any Honour course established by the Faculty, and have also passed creditably the ordinary Examinations in all the subjects proper to their year.

3. CERTIFICATES of high general standing will be granted to those Matriculated Students who are placed in the First Class in the aggregate of the studies proper to their year.

4. PRIZES, to those Matriculated Students who may have distinguished themselves in the studies of a particular class, and who have attended all the other classes proper to their year.

Students taking B. A. Honours will be placed at the head of the Degree list: and Students who pass the Ordinary Degree and Sessional Examinations will be arranged as 1st Class, 2nd Class or 3rd Class, according to their answering.

The names of those who have taken Honours, Certificates, or Prizes, will be published in the order of merit; and with mention, in the case of students of the First and Second Years, of the Schools in which their preliminary education has been received.

§ 7. ATTENDANCE AND CONDUCT.

All Students shall be subject to the following regulations for attendance and conduct:—

1. A Class-book shall be kept by each Professor and Lecturer, in which the presence or absence of Students shall be carefully noted; and the said Class-book shall be submitted to the Faculty at all their ordinary Meetings during the Session.

2. Professors shall note the attendance immediately on the commencement of their Lectures, and shall omit the names of Students entering thereafter, unless satisfactory reasons are assigned. Absence or tardiness, without sufficient excuse, or inattention or disorder in the Class-room, if persisted in after admonition by the Professor, shall be reported to the Dean of Faculty, who may reprimand the student, or refer to the Faculty, as he may think proper.

3. The number of times of absence, from necessity or duty, that shall disqualify for the keeping of a Session, shall in each case be determined by the Faculty.

4. While in the College, or going to or from it, Students are expected to conduct themselves in the same orderly manner as in the Class-rooms. Any Professor observing improper conduct in the College building or grounds, may admonish the Student, and if necessary report him to the Dean.

5. Every Student is required to attend regularly the religious services of the denomination to which he belongs, and to maintain without, as well as within the walls of the College, a good moral character.

6. When Students are brought before the Faculty under the above rules, the Faculty may reprimand, report to parents or guardians, disqualify from competing for prizes and honours, suspend from Classes, or report to the Corporation for expulsion.

7. Any Student injuring the furniture or building will be required to repair the same at his own expense, and will in addition be subject to such other penalty as the Faculty may see fit to inflict.

8. All cases of discipline involving the interests of more than one Faculty, or of the University in general, shall be immediately reported to the Principal, or, in his absence, to the Vice-Principal.

1. Students may receive books from the Library, on depositing the sum of four dollars with the Librarian, and signing a receipt for the books received: such deposit to be returned to the Student on his returning the book uninjured. Books of reference and works containing valuable illustrations, may not be removed from the Library.

2. Students may receive only two volumes at one time, and must return them within two weeks, on penalty of a fine of one shilling for each additional week.

3. Any volume or volumes lost or damaged by a Student, shall be paid for by him at such rates as the Faculty may direct, having reference to the value of the book and of the set to which it may belong.

4. Students may consult books in the Library at such hours as may be determined by the Faculty.

5. Professors and Lecturers may receive from the Librarian any books required by them for their duties in the College, not exceeding ten volumes at any one time. Books so borrowed must be returned at or before the close of each Session.

6. Persons not connected with the College may consult books in the Library, on obtaining an order to that effect from any of the Governors, or from the Principal, the Dean of Faculty or any of the Professors; and Donors of books or money to the amount of Fifty Dollars, may at any time consult books, on application to the Librarian.

7. The times and conditions of study in the Museum will be arranged by the Professor of Natural History.

Morell's *Outlines of the Philosophy of Mind*.

B. A. Honour Course in English Language, Literature and History.

I. Language.

Klipstein's *Anglo-Saxon Grammar*.

Thorpe's *Analecta Anglo Saxonica*.

Marsh's *Lectures on the English Language*, by Smith.

Craik's *Outlines of the History of the English Language*.

Tyrwhitt's *Essay on the Language and versification of Chaucer*.

Trench's *Study of Words*.

Trench's *English Past and Present*.

Trench's *Glossary*.

II. Literature.

Required from the Student a general acquaintance with the works of the English Classical authors, and a more minute study of the following portions of English Literature :—

Shakespeare's *Plays*.

Chaucer—*Canterbury Tales* ; *The Prologue and the Knight's Tale* ; *the Flower and the Leaf* ; *The House of Fame*.

Spenser—*Faerie Queen* ; Books I., II.

Marlowe—*Faustus and Jew of Malta*.

Milton—*Paradise Lost* ; *Comus* ; *Lycidas* ; *L'Allegro*.

Dryden—*Absalom and Achitophel* ; *Annus Mirabilis* ; *Dedications to his Translations of Virgil's Æneid and the Satires of Juvenal*.

Pope—*Dunciad* ; *Essay on Criticism* ; *Rape of the Lock* ; *Eloisa and Abelard* ; *Prefaces to his Translations of Homer's Iliad and Odyssey*.

Bacon—*Essays*.

Required to be read, in connection with this part of the Course :—

Craik's *History of English Literature*.

Hallam's *Literary History of Europe*—the parts relating to English Literature.

Johnson's *Lives of Milton, Dryden, Addison, Pope*.

Dunlop's *History of Fiction*.

III. History.

Required a general acquaintance with the History of England to the year 1714, and a more minute knowledge of the Anglo Saxon period, of the 13th and 14th centuries, and of the period from the accession of Elizabeth to that of George I. The following books are recommended :—

Hume's *History of England*.

Godwin's *Life and Times of Chaucer*.

Pauli's *Life of Alfred the Great*.

Froude's *History of England*.

Macaulay's *History of England*.

Clarendon's *History of the Rebellion*.

Hallam's *Constitutional History of England*.

FRENCH LANGUAGE AND LITERATURE.

Professor, P. J. DAREY, M.A.

First Year.—For Students commencing the study of French :—Student's Companion to the study of French; FÉNELON, le Télémaque.

For Students having already a knowledge of the French Language:—MOLIÈRE, l'Avare; POITEVIN, Grammaire française; Gems from the Spectator (to translate into French); Dictation; Parsing.

Second Year.—Elementary Course:—Student's Companion to the study of French; MOLIÈRE le Bourgeois gentilhomme, Le Misanthrope.

Advanced Course :—MOLIÈRE, Tartufe, Les Femmes savantes; POITEVIN, Grammaire française; Gems from the Spectator (to translate into French); Dictation; Parsing; Composition.

Third Year.—Elementary Course:—Student's Companion to the study of French; RACINE, Iphigénie, Esther; Dictation; Vicar of Wakefield (to translate into French).

Advanced Course :—POITEVIN, Grammaire française; RACINE, Phèdre; CORNEILLE, Cinna; SHAKESPEARE, As You Like It (to translate into French); Lectures upon the French Literature of the 16th, 17th, and 18th centuries—Text-Book :—DEMOGÈOT, Littérature française.

Fourth Year.—CORNEILLE, Le Cid, Horace; RACINE, Les Plaideurs; Lectures upon the Literature of the 19th century.

GERMAN LANGUAGE AND LITERATURE.

Professor, C. F. A. MAREGRAF, M.A.

First Year.—A Preparatory Course for Students unacquainted with the Language. Text-books—Schmidt's German Guide (1st Course); and Schmidt's German Reading Book for Beginners.

Second and Third Years.—The exercises of the Elementary Course will consist of recitations, reading and analysis, translations, oral and written, and writing from Dictation. Special regard will be had to the affinities of the German with the English. Text-books :—Schmidt's German Guide (1st—3rd Course); Schmidt's Reading Book, and Adler's progressive German Reader.

In the *Advanced Course* the theory of German Grammar will receive greater expansion, and the Exercises will comprise select readings in German prose and poetry, composition in the various styles of writing, and translations from English writers.

The Text-book for this course will be made known at the commencement of the Session.

During the *Advanced Course* a Series of Lectures will be delivered on the History of German Literature, from the earliest periods down to the classical age of Goethe and Schiller;—closing with a brief notice of the state of German Literature in the present day.

Fourth Year.—An additional Course of German Literature, for Students desiring a more complete knowledge of the Language.

HEBREW AND ORIENTAL LITERATURE.

Professor, REV. A. DE SOLA, LL.D.

Elementary Course.—(For Students of the First and Second Years)—Grammar:—The Text-book employed will be Gesenius' Hebrew Grammar, with exercises in Orthography and Etymology.

Reading:—Translation and Grammatical Analysis of Historical Portions of the Scriptures—Syntax—Mishlé Shualim—Fables, &c.

Advanced Course.—(For Students of the Second, Third and Fourth Years.)—Introduction to the Study of Hebrew Poetry—its spirit and characteristics Lowth and Sarchi as Text Books. Translations from the Psalms, Lamentations and Isaiah. Ancient compared with Modern Hebrew Poetry; the productions of Halevi, Gabirol, &c. Grammar, Exercises, &c., continued.—*The Chaldee Language*, Grammar, Mebo Halashon Aramith of J. Jeitteles. The Chaldee portions of Scripture. Targum of Onkelos and T. Yerushalmi, *The Syriac Language*, Grammar, (Uhlemann's) and Translations.

The course will comprise lectures on the History of the Hebrew Language and Literature in particular, with a general notice of the other Oriental Languages, their genius and peculiarities. Comparative Philology, affinity of roots, &c., will also receive due attention, while the portions selected for translation will be illustrated and explained by reference to Oriental manners, customs, history, &c.

SPANISH LANGUAGE AND LITERATURE.

REV. PROFESSOR DE SOLA.

(Extra Fee for this Class, \$5.00. Spanish may be taken by Students instead of French or German).

The study of the Spanish Language on this Continent, being generally pursued with special reference to commercial purposes, it will be sought to impart in this Course a practical knowledge of the Castilian, the richest and most harmonious of the Peninsular languages—as well as an acquaintance with its Literature.

Ollendorf's Spanish Grammar by Valazquez and Simonné, and the Reader of M. Valazquez are the Text-books employed in the Junior Class, who will also be exercised in composition by both written and oral exercises. In the Senior Class, Fernandes' Exercises, continuation of Grammar and Composition, Cervantes' Don Quixote, Quintana Vida del Cid, and Marianas Historia will be the subjects of study. Besides a special comparison with the Portuguese Language, a general notice, literary and historical, of the Basque and other dialects will be given.

MATHEMATICS AND NATURAL PHILOSOPHY.

Professor, ALEXANDER JOHNSON, LL.D.

MATHEMATICS. (First Year.)—Arithmetic.—Euclid, Books 1, 2, 3, 4, 6, with Definitions of Book 5 (omitting propositions 27, 28, 29, of Book 6). Galbraith and Haughton's Edition.—Colenso's Algebra, part 1 to end of Quadratic Equations.—Galbraith and Haughton's Plane Trigonometry to end of Solution of Plane Triangles.—Nature and use of Logarithms.

MATHEMATICS. (Second Year.)—Arithmetic, Euclid, Algebra and Trigonometry as before.—Remainder of Galbraith and Haughton's Plane Trigonometry.—Conic Sections treated Geometrically: (The Parabola as in Drew's Conic Sections, the definitions of the Ellipse and Hyperbola, with the fundamental properties of their tangents.) Euclid, Book XI, Props. 1 to 21; Book XII, Props. 1, 2.

The Course for the Intermediate University Examination consists of the Mathematics for the first two years, except Conic Sections and Solid Geometry.

MATHEMATICAL PHYSICS AND ASTRONOMY. (Third Year.)—Galbraith and Haughton's Mechanics, (omitting chap. 5 of Statics), Hydrostatics, Optics and Astronomy.

At the Ordinary Examinations, answers to questions in Mechanics on the Chapters on Friction, Collision of Bodies, and Projectiles, will be taken into account only in determining the relative positions of those whose other answers shall entitle them to be placed in the First Class.

EXPERIMENTAL PHYSICS. (Third and Fourth Year.)—1. *Light*—Theories—Reflection.—Refraction.—Dispersion—Interference and Diffraction.—Double Refraction.—Polarization. 2. *Heat*—Dilatation of Solids, Liquids and Gases.—Specific and Latent Heat.—Radiation and Conduction of Heat. 3. *Electricity*—Frictional and Voltaic. 4. *Magnetism*. 5. *Acoustics*—Theory of Undulations.—Production and Propagation of Sound.—Vibrations of Rods and Plates.—Vibrations of Fluids.—Musical Sounds. Text-Books—Lardner's Hand-books and Tyndall on Heat. This Course extends over two years.

The Lectures in Mathematical and Experimental Physics will be illustrated by Apparatus.

Honour Courses.

MATHEMATICS. (First Year.)—Mulcahy's Modern Geometry, first five chapters.—Townsend's Modern Geometry.—Wood's Algebra.

MATHEMATICS. (Second Year.)—Young's or Todhunter's Theory of Equations.—Hind's Plane and Spherical Trigonometry.—Salmon's Analytic Geometry, first thirteen chapters.—Hall's Calculus, Chapters 1, 2, 3, 4, 6, 7, of Diff. Cal., Chapters 1, 3, 4, 5, of Integ. Cal.

MATHEMATICAL PHYSICS.—(*Third Year.*)—Todhunter's Statics, (omitting Chap. 13.)—Sandeman's Dynamics of a Particle.—Besant's Hydrostatics, Chaps. 1, 2, 3, 5.—Walton's Mechanical Problems.—Griffin's or Parkinson's Optics.—Hymer's Astronomy, (selected course.)

Course for the Anne Molson Prize.

Hall's Differential and Integral Calculus.—Salmon's Conic Sections. The value of the prize is about \$64. Candidates must have completed their Second Year of study. An examination for it will be held in the beginning of the Session of 1866-7.

B. A. Honour Course.

PURE MATHEMATICS.—Hind's Plane and Spherical Trigonometry.—Young's or Todhunter's Theory of Equations.—Hall's Differential and Integral Calculus.—Boole's Differential Equations, (selected course.)—Gregory's Examples of the Calculus, (omitting the last 2 chapters.)—Salmon's Conic Sections.—Salmon's Geometry of three Dimensions, (selected course.)

MECHANICS.—Todhunter's Statics.—Sandeman's Dynamics of a Particle.—Griffin's Dynamics of a Rigid Body.—Besant's Hydrostatics and Hydrodynamics.—Walton's Mechanical Examples.—Walton's Examples in Hydrostatics.

ASTRONOMY.—Hymer's Astronomy.—Sir John Herschel's Outlines of Astronomy (Part II. on the Lunar and Planetary Perturbations.)—Godfray's Lunar Theory.

Newton's Principia, Lib. I, Sects. 1, 2, 3, 9, and 11.

LIGHT.—Lloyd's Wave Theory of Light.

HEAT.—Lardner's Hand-book. Tyndall's "Heat considered as a mode of motion."

ELECTRICITY. }
MAGNETISM. } Lardner's Hand-book.

The examination for B. A. Honours will continue for *four* days, during six hours each day.

The examinations for Honours in the other years will continue for *two* days.

Engineering Students may be candidates for Honours.

At every examination (whether Ordinary or Honour) in the first two years Students are liable to examination in all the subjects of the previous course; and in the last two years, in all the subjects of the third and fourth years.

NATURAL HISTORY.

Professor, J. W. DAWSON, LL.D., F.R.S., F.G.S.

I. BOTANY.—(Second Year and part of the Third Year.)

1. *Histology and Morphology of the Plant*, or description of its elementary tissues and organs.
2. *Physiology of the Plant*, or investigation of its functions of Nutrition and Reproduction.
3. *Systematic and Descriptive Botany*, or the principles of the Classification of Plants, with descriptions of the more important Natural Orders, special notices of the Flora of Canada, and instructions for collecting and determining Plants, and for the use of the Microscope.
4. *Geographical Botany*, or the distribution of Plants over the Globe.
Text-book—Gray's Structural and Systematic Botany.

Students desiring a more complete knowledge of the subject, or who have collected Plants in the summer vacation, will have the benefit of an additional Course of determinative and Canadian Botany in the two first months of their third Session. Prizes will be given in this course for the best collections of Plants, and the greatest proficiency in their determination. The prize collections or duplicates of them to remain in the College Museum.

II. ZOOLOGY AND COMPARATIVE PHYSIOLOGY, (Third Year.)

1. *General Zoology*, including the elements of the Histology, Comparative Anatomy and Physiology of Animals, with the Principles of Classification, and the division of the animal Kingdom into Provinces or Sub-Kingdoms.
2. *Descriptive Zoology*, including the characters of the classes and orders of the Animal Kingdom, illustrated by typical examples, and as far as possible by Canadian species.

Text-books—Synopsis by the Professor, with Agassiz and Gould's Principles.

III. MINERALOGY AND GEOLOGY, (Fourth Year.)

1. *Mineralogy*.—Chemical and Physical characters of Minerals, including Crystallography, the methods of determining species, and Descriptive Mineralogy; with special reference to those species most important to Geology, or useful in the Arts.
2. *Physical Geology*.—Composition of Rocks and their structure on the small scale.—Origin of Rocks, considered as aqueous, igneous, or metamorphic. Arrangement of Rocks on the large scale; stratification, elevation and disturbances, denudation.
3. *Chronological Geology and Palæontology*.—Data for determining the relative ages of formations. Classification according to age. Fauna and Flora of the successive periods. Geology of British America.
4. *Practical and Economical Geology*.—Methods of observation and of making Geological surveys. Applications of the science to Mining, Engineering, and Agriculture.

Text-Books—Dana's Manual of Mineralogy and Lyell's Elements of Geology.

PROFESSOR DAWSON.

A course of Lectures on this subject is delivered at the Normal School, and additional Lectures and instructions are given to students in the special course of Agriculture.

SPECIAL COURSE OF AGRICULTURE.

Matriculation.

Students entering on this course must pass the Matriculation examination in Arithmetic, and writing English from dictation. Occasional Students may enter on satisfying the Professor that they are competent to proceed with the work of the class.

Course of Study, &c.

First Year.—Elements of Agriculture as in Dawson's First Lessons.

<p><i>Chemistry,</i> <i>Vegetable Physiology & Botany,</i> <i>English,</i> <i>French,</i></p>	}	<p>As in the First and Second years of the College course.</p>
---	---	--

Second Year.—Advanced Agriculture, as in Johnson's Scientific Agriculture, and in suitable text-books in practical Agriculture.

<p><i>Experimental Physics,</i> <i>Animal Physiology & Zoology,</i> <i>English,</i> <i>French,</i></p>	}	<p>As in the Second and Third years of the College course.</p>
--	---	--

Fee for the Course, \$20 per Session, or for Agriculture alone, \$5 Matriculation, \$4. Library and Gymnasium, \$4.

On passing the examination, Students will be entitled to certificates.

Bursaries, &c.

Two Bursaries of \$50 each, provided by the Board of Agriculture for Lower Canada, (and for the present session exemption from the sessional fee of \$20) will be granted on the following conditions:—

Candidates must not be less than 16 years of age; must produce certificates of good character, and must pass creditably the Matriculation Examination in Arithmetic and English. They must also declare their intention to apply the education received to the prosecution of practical Agriculture.

Should more than two candidates apply, the Bursaries will be given to those who shall pass the best Matriculation Examinations.

Free scholarships exempting from the Sessional Fees, will be given to students who, in addition to the course stated above, shall pass the Matriculation Examination in Mathematics, and pursue creditably the College course therein for one or two sessions.

Mr. Price, student,	Prepared specimen of a Frog from Dominica.

The Library of the Faculty of Arts contains about 5,000 volumes of standard works, selected with especial reference to the wants of Professors and Students, and open to their use during the Session.

The Apparatus includes Electrical and Pneumatic Instruments of the largest size and most modern construction, several Microscopes, a Telescope, and instruments illustrative of Statics, Dynamics, Hydrostatics, Heat, Optics, Astronomy and Geodesy. The Laboratory is fitted up with the apparatus necessary for the pursuit of practical researches in Chemistry. The Observatory is in constant use for Magnetical and Meteorological observations.

The Museum consists of:

1. The general collection in Zoology, including specimens illustrative of the leading types in all the classes of Animals.
2. The general collection in Geology and Palæontology, including specimens illustrative of all the Geological periods.
3. The Holmes collection of 2,000 Canadian and Foreign Minerals.
4. The Holmes Herbarium, containing specimens of nearly all the plants indigenous to Lower Canada, and a large collection of exotic plants.
5. The Logan collection of 475 characteristic Canadian Fossils and Rocks.
6. The Couper collection of 2,400 Canadian Insects.
7. The Carpenter collection of Mazatlan Shells.

All these collections are used to illustrate the lectures, or are open to the inspection of Students.

The thirty-fourth Session of the Medical Faculty of the McGill University, will be opened on Monday, 5th November, 1866; and will be continued during the six months following.

To meet the circumstances of General Practitioners in British North America, where there is no division of the profession into Physicians and Surgeons exclusively, the degree awarded upon graduation is that of "Doctor of Medicine and Master in Surgery." This designation is also appropriate, from agreeing with the general nature and equable character of the previous curriculum demanded of the candidates for this double rank, as is fully specified hereafter. The degree is received by the College of Physicians and Surgeons of Lower Canada, and upon ownership being proved, admits the holder to become a Licentiate of that body, and to practice Physic, Surgery, and Midwifery.

To intending students desirous of information upon the best manner of pursuing their studies, the following suggestions are made by the Faculty:—

(1.) Exclusively of general education, professional reading for some time previously to matriculation is advised as a preparation, whereby familiarity with technical terms will be gained, and an insight obtained into the subjects to be brought under notice during lectures.

(2.) Though three years constitute the shortest time required for College attendance, yet the Student is at liberty to extend this as much further as he pleases; the addition of a year, or even two, is considered to be a great benefit, for it obviates the crowding of branches within too brief a term, and permits of a more extensive attainment of the topics they embrace.

(3.) Attention is recommended to be given during the first Session to the primary branches entirely: during the second Session an increase is proper, and two of the final courses may be profitably conjoined with such of the antecedent as are required; while during the remaining period further advance is to be made by completing the curriculum required of the candidate for graduation. Clinical courses should not be taken out during the first Session.

Matriculation is necessary every Session; it is required upon entrance or as nearly afterwards as possible, and always before any class tickets are procured. The Register is closed annually in the month of December. Class tickets are payable in advance, and if not taken out within the prescribed period of the current session, will not be granted after its expiration.

The ample and varied means which are placed at the disposal of the student by this school in its spacious accommodations and abundant provisions, together with the large hospitals in connection with it, are briefly referred to in the following pages.

Courses of Lectures.

The number of Professors in the Faculty is nine; the number of Classes, ten; two of the classes (often conjoined in European Schools) being held by one Professor.

1. ANATOMY.—(Prof. Scott)—The fresh subject is chiefly employed in the illustrations of the Lectures in this branch, aided however, by dried preparations, wax models, plates full size of life, &c.

The Dissecting Room is under the direction of the Professor, aided by the Demonstrator of Anatomy. It is open from 8 a.m. to 10 p.m., being lighted with gas. All the usual conveniences are supplied, and the Demonstrator will be in attendance to assist the pupils in their operations.

2. CHEMISTRY.—(Prof. Sutherland)—Inorganic Chemistry is fully treated; and a large portion of the course is devoted to Organic Chemistry and its relation to Physiology. The branches of Physics bearing upon or connected with Chemistry, also engage the attention of the class. For experimental illustration, abundant apparatus is possessed by the Professor, among which

may be enumerated, a powerful Air Pump—Oxy-Hydrogen Microscope—Polariscope—extensive series of Crystallographic models—Electrical and Galvanic apparatus, &c., &c.

3. MATERIA MEDICA.—(Prof. Wright)—This course is illustrated from a Cabinet of Pharmacological objects; by plates of Medicinal Plants, (Wagner, Roque, Stephenson and Churchill)—by dried specimens; by carefully prepared Microscopical objects, &c., &c. Analytical experiments with the ordinary re-agents are also shown; and diagrams, with other illustrations, are used.

4. INSTITUTES OF MEDICINE.—(Prof. Fraser)—Under which are comprised *Histology, Physiology, General Pathology and General Therapeutics*. The minute Structure and Composition of the various Organs, and the Fluids and Tissues of the body in health and disease are explained and illustrated by Microscopical Preparations, Plates and Preparations from the Museum.

5. PRACTICE OF MEDICINE.—(Prof. Howard)—The extensive series of plates contained in the Library, Libert, Cruveilhier, Carswell, Hope, Alibert, Willis, Bateman, &c., &c., will be employed; also Morbid Preparations and models of diseased parts.

5. SURGERY.—(Prof. Campbell)—Divided into Principles and Practice, including Surgical Anatomy and Operative Surgery, exhibited on the subject.—Quain's large plates, Maclise, Dalrymple, &c. The various surgical instruments and apparatus exhibited, and their uses and application explained and practically illustrated.

7. MIDWIFERY.—(Prof. Hall)—Including diseases of females and infants, illustrated by a series of Drawings on a large scale; by humid Preparations; by models in wax; and by the use of the artificial Pelvis.

8. MEDICAL JURISPRUDENCE.—(Prof. McCallum)—Includes Toxicology—the modes of testing for poisons are exhibited, and post-mortem appearances illustrated by plates—Insanity, Public Hygiene, and Medical Police are touched upon.

9. CLINICAL MEDICINE.—(Prof. McCallum)—Taught by lectures and at the bed side—Physical Diagnosis taught practically, and each pupil invited to take part in it.—Examination of the urine, chemically and microscopically explained and illustrated.

10. CLINICAL SURGERY.—(Prof. Craik)—Taught in similar manner. For both these Classes ample material is afforded by the cases at the Montreal General Hospital.

11. BOTANY AND ZOOLOGY.—(Prof. Dawson)—In addition to the above classes, Students are required to attend one course of Botany and one course of Zoology, on which subjects separate courses of Lectures are delivered to Medical Students. For details see announcement of the Faculty of Arts.

Library and Museum.

The Library contains upwards of 3,500 volumes, including the most useful books for reference, as well as the most elementary ones; the works of the older authors as well the most recent. It is open to the Student without charge, under necessary regulations for the care of the books. The Museum contains a large number of preparations, chiefly pathological; also, wax and papier mache models.

Faculty of Law.

The Principal, (ex-officio.)

Professors—BADGLEY.

ABBOTT.

TORRANCE.

LAFRENAYE.

LAFLAMME.

CARTER.

Dean of the Faculty,—HON. J. J. C. ABBOTT, Q.C., B.C.L.

The several courses of Lectures in the Faculty of Law, comprise every branch of Legal Study.

The Educational Officers of this Faculty have felt that the Law of Lower Canada, though in many of its details purely local, retains, as its leading characteristics, the noble and imposing features of the civil law, and that the principles established in the Roman jurisprudence, still form the groundwork of many of its departments. The Lectures, therefore, though prepared with especial reference to the Law of Lower Canada, have been as far as consistent with their primary object, divested of any purely sectional character, and are made to inculcate such comprehensive principles, as form, to a great extent, the basis of every system of jurisprudence.

It is considered that this system will afford to students of the Laws of Lower Canada, a better foundation for their subsequent studies, and tend to give them a more extended and comprehensive grasp of legal subjects, than a course of instruction conducted solely with reference to local law; while it is hoped, in view of the increased importance which the study of civil law is everywhere assuming, that the advantages offered, and the mode of education adopted by this Faculty, will open to it an extensive field of usefulness.

The complete course of study in this Faculty extends over three years; but may be shortened to two years, when the student matriculates in the third year of his indentures.

The following are the subjects comprised in the complete course of three years :—

Extracts from the Regulations.

1. Any person desirous of becoming a Matriculated Student shall apply to the Dean of the Faculty for examination, and for entry in the Register of Matriculations, and shall procure tickets of Matriculation and of admission to the Lectures for each Session of the Course.

2. Candidates for Matriculation shall be examined in at least one Latin Classic and in English or French, the standard being such as may be determined by regulation of the Faculty, approved by the Corporation.

3. Students in Law shall be known as of the First, Second, and Third Years, and shall be so graded by the Faculty. In each year Students shall take the studies fixed for that year, and those only, unless by special permission of the Faculty.

4. The register of Matriculation shall be closed within two months after the commencement of the Session, and return thereof shall be immediately made by the Dean to the Registrar of the University. Candidates applying thereafter may be admitted on a special examination to be determined by the Faculty; and if admitted, their names shall be returned in a supplementary list to the Registrar.

5. Persons desirous of entering as Occasional Students shall apply to the Dean of the Faculty for admission as such Students, and shall obtain a ticket, or tickets, for the classes they desire to attend.

6. Students who have attended Collegiate courses of study in other Universities for a number of terms or sessions, may be admitted, on the production of certificates, to a like standing in this University, after examination by the Faculty.

7. All Students shall be subject to the following regulations for attendance and conduct:—

(1) At the present time the Class-books are not kept during the Session.

(2) Pupils who commence their studies thereafter without having persisted in the Faculty of the Faculty he may (students in the Class-rooms, or sary, repositary).

(3) When the Faculty meet for the purpose of expelling a student.

(4) Any student who fails to repair the penalty as a condition of readmission.

(5) The Faculty may disqualify a student from the Faculty.

(6) All students who are absent from the University for a period of more than one month.

8. At the end of the Session the Examiners shall be conducted by the Dean of the Faculty.

Answers to questions shall be decided by the Examiners.

9. Each year of each year of the Faculty shall be examined by the Faculty.

10. No student shall be admitted to the Faculty, unless he has attended the Lectures, or the end of such a course of study.

11. The Faculty shall be shown, to give particular consequence, to the Students registered in the Faculty.

12. The Faculty shall be shown, to give particular consequence, to the Students registered in the Faculty.

of a Thesis, approved by the Faculty, and such final Examination.

(1) A Class book shall be kept by each Professor and Lecturer, in which the presence or absence of Students shall be carefully noted; and the said Class-books shall be submitted to the Faculty at all the ordinary meetings during the Session.

(2) Punctual attendance on all the classes proper to his year is required of each Student. Professors will note the attendance immediately on the commencement of their lectures, and will omit the names of students entering thereafter, unless satisfactory reasons are assigned. Absence or tardiness, without sufficient excuse, or inattention or disorder in the Class-room, if persisted in after admonition by the Professor, will be reported to the Dean of the Faculty, who may reprimand the student or report to the Faculty, as he may decide. While in the College building, or going to or from it, students are expected to conduct themselves in the same orderly manner as in the Class-rooms. Any Professor observing improper conduct in the Class-rooms, or elsewhere in the building, will admonish the student, and if necessary, report him to the Dean.

(3) When students are reported to the Faculty under the above rules, the Faculty may reprimand, report to parents or guardians, disqualify from competing for prizes or honours, suspend from classes, or report to the Corporation for expulsion.

(4) Any Student injuring the furniture or building will be required to repair the same at his own expense, and will, in addition, be subject to such penalty as the Faculty may see fit to inflict.

(5) The number of times of absence, from necessity or duty, that shall disqualify for the keeping of a Session, shall, in each case, be determined by the Faculty.

(6) All cases of discipline involving the interests of more than one Faculty, or of the University generally, shall be reported to the Principal, or, in his absence, to the Vice-Principal.

8. At the end of every Session there shall be a general examination of all the Classes, under the superintendence of the Professors, and of such other Examiners as may be appointed by the Corporation, which examination shall be conducted, as far as possible, by means of written or printed questions, answered by the students in writing, in the presence of the Examiners. The results shall be reported as early as possible to the Faculty, which shall decide the standing of the Students accordingly.

9. Each Professor shall deliver one Lecture in each week to the Students of each year, and each Lecture shall be of one hour's duration; but the Professors and Lecturers shall have the right from time to time to substitute an examination for any of such Lectures.

10. No Student shall be considered as having kept a Session in this Faculty, unless he shall have regularly attended at least three Courses of Lectures, one of which courses shall be on the Civil Law; nor unless at the end of such Session he shall have passed the Sessional examinations to the satisfaction of the Faculty.

11. The Faculty shall have the power, upon special and sufficient cause shown, to grant a dispensation to any Student from attendance on any particular Course or Courses of Lectures, but no distinction shall, in consequence, be made between the examinations of such Students and those of the Students regularly attending Lectures.

12. The final Examination for the Degree of B.C.L. shall be conducted in the same manner as in ordinary Sessional Examinations, but the Preparation of a Thesis, either in Latin, French, or English, upon some subject previously approved by the Dean of the Faculty, shall form an essential part of every such final Examination.

13. The Elizabeth Torrance Gold Medal in the Faculty of Law shall be awarded to the Student who, being of the Graduating Class, and having passed the final Examinations, shall have prepared a Thesis of sufficient merit in the estimation of the Faculty to entitle him to compete, and who shall take the highest marks in a special examination for the medal, which examination shall, in all cases, include the subject of Roman Law.

14. The exercises required, under the 3rd Art. of the 7th Chapter of the Statutes of this University, to entitle the Student to receive the Degree of B.C.L. in this Faculty, shall consist of attendance upon Lectures and submission to Examinations as hereinbefore prescribed; and no distinction in respect thereof shall be made between Students applying for their Degrees, whether their attendance upon Lectures shall have been for two or three years.

15. The fees exigible in this Faculty shall be as follows:—

Matriculation Fee.....	\$ 2 00
Sessional Fee by ordinary Students.....	15 00
Sessional Fee by occasional or partial Students for each course.....	5 00
Graduation Fee, including Diploma.....	5 00

All of which Fees shall be paid in advance. But Students already on the Books of the University shall not be required to pay any Matriculation Fee, and Students simultaneously attending Lectures in the Faculty of Arts shall be received upon such terms as shall be fixed by that Faculty.

Applications for admission may be made to the Dean of the Faculty or to the Secretary of the College. The classes will be opened on the 6th November, 1866.

This School offers the higher kind of instruction and the mental training which together constitute the foundation of what is called a *Liberal Education*. As a Department of the University, it offers a thorough preparation for the College Course.

The Course of Instruction includes the *Latin, Greek, English, French, and German Languages; Geography and History; Arithme-*

tic, Algebra, Logarithm, Writing, Rifle Association, Boys and Instruction from Pupils subjoined shew that, nence which vision is Commercial language

tic, Algebra, Plane Geometry, Plane Trigonometry with the use of Logarithms, Mensuration, and the Elements of Natural Philosophy; Writing & Book-keeping; Drilling & Gymnastics. A Volunteer Rifle Association under Military Drill has been formed of the elder Boys and is recognised by the Military Authorities. The Religious Instruction is not sectarian, and attendance upon it is required only from Pupils who are Protestants. Details of the above Course are subjoined in a Programme for the year. An examination of it will shew that, whilst the Latin and Greek Languages have that prominence which necessarily belongs to them in Higher Education, provision is made to impart at the same time a thorough English and Commercial Education, and that French, as being one of the colloquial languages of the country, is much cultivated.

The complete Course extends over a period of six or seven years; but Pupils are admitted for any portion of that time into any Form for which, upon examination, they are found qualified.

The Session, which is divided into four equal Terms, commences on the 1st September, and with the exception of a fortnight at Christmas and a few days at Easter, continues to the 1st July.

The full School hours are from 9 to 12½ o'clock, a. m., and 2 to 4 p. m., every day in the week except Saturday, but the time for the Preparatory and the First Forms is shorter by an hour each day.

The School is divided into seven Forms. The Preparatory Form is a Lower School, in which young boys receive the training necessary to fit them for the commencement of the regular Curriculum.

For admission into this Form, it is required that the Pupil shall have attained the age of seven years, and be able to read moderately well. Regular early training is of so great importance that the entrance of a pupil should not be delayed beyond the age of nine. The best time for entrance is at the commencement of the Session, when, owing to the promotions that take place, the classes are remodelled for the year.

The Pupils of the First, Second, Third and Fourth Forms next above the Preparatory are not allowed any option in their studies, but must take the whole course of instruction prescribed for them. The Pupils of the Fifth and Sixth Forms are divided into two "Sides". The "Classical Side" is intended for those boys who desire a more extended and accurate knowledge of the ancient Languages. The "Commercial Side" is adapted for those who are to enter upon

mercantile pursuits. When a Pupil has reached the Fifth form, his Parent or Guardian may select either of these sides for him; but, the choice having been made, the Pupil must pursue all the course of instruction appointed for the side to which he belongs.

Special Reports are sent, whenever it seems necessary, to the Parent or Guardian of any Pupil who has been absent, negligent of any study, or incorrect in his conduct. A Quarterly Report is made of the progress, attendance, and conduct of every Pupil, shewing his rank in his Form for each study.

At the end of each term, Class Examinations are held, both Written and Oral, and at the close of the Session, a Public Examination takes place, followed by a Distribution of Prizes and Award of Honours, the lists being published. The Highest Honour is the Davidson Gold Medal, which is awarded to the Head Boy of the School for the year, provided the Examiners are satisfied that his attainments reach a certain standard.

In the beginning of January a special Examination will be held of Candidates for the School Certificate issued by the University. The Conditions regarding this may be seen by reference to the Calendar of the University.

The Pupils are required to prepare themselves every evening in their work for the ensuing day, as exhibited in a Time-table. *As their progress will depend very much upon the diligent performance of this duty, Parents are particularly requested to allow no arrangements to interfere with it.* Parents having sons at the School are earnestly invited to frequent intercourse with the Masters, so as to aid them in securing that regularity and industry so necessary to success in Education. The classes are visited periodically by a Committee of the Board.

The School Building is in a healthy and airy situation, and has convenient interior arrangements, with those modern improvements which secure proper warmth and ventilation. A very good Gymnasium has been erected in the play-ground adjoining the School.

The Rector, who resides a short distance from the City, has made arrangements to receive a limited number of Pupils of the High School to board with him. Mr. Gibson, Mr. Rodger, Mr. Kemp, and Prof. Darey, Masters of the School, have also accommodation for Boarders.

McGill Normal School.

Affiliated to the McGill University, under the control of the Superintendent of Education and the Corporation of the University.

J. W. DAWSON, LL.D., F.R.S., &c.,—Principal, and Associate Professor of Natural History and Agriculture.

WILLIAM HENRY HICKS, ESQ.,—Ordinary Professor of English Language and Literature.

SAMPSON PAUL ROBINS, B.A.,—Ordinary Professor of Mathematics and Natural Philosophy.

PIERRE J. DAREY, M.A.,—Associate Professor of French.

JAMES MCGREGOR, B.A.,—Instructor in Classics.

MR. JAMES DUNCAN,— “ in Drawing.

MR. R. J. FOWLER,— “ in Music.

MR. JOHN ANDREW,— “ in Elocution.

The Institution is intended to give a thorough training to teachers, especially for the Protestant population of Lower Canada. This end is attained by instruction and training in the Normal School itself, and by practice in the Model Schools; and the arrangements are of such a character as to afford the greatest possible facilities to Students from all parts of the Province.

The Tenth Session of the school will commence on the third of September, 1866, and extend to the first of July, 1867.

The complete course of study extends over three years, and the Students are graded as follows:—

1. *Elementary School Class.*—Studying for the Elementary School Diploma.

2. *Model School Class.*—Studying for the Model School Diploma.

3. *Academy Class.*—Studying for the Academy Diploma.

1. *Conditions of Admission.*

Candidates for admission into the Junior Class will be required to pass an examination in Reading, Writing, the Elements of Grammar, Arithmetic and Geography. Admission into each of the higher classes requires a knowledge of the subjects of the previous one.

All Students must produce certificates of good moral character from the clergyman or minister of religion under whose charge they have last been, and also testimony that they have attained the age of sixteen years. They will also be required to sign a pledge that they purpose to teach for three years in some public school in Lower Canada.

2. Privileges of Students.

On complying with the above conditions, all students will be recognised as *Teachers in Training*; and as such, will be entitled to free tuition, with the use of text books, and to bursaries in aid of their board, not exceeding \$36.00 per annum in the case of those in the two first Classes, or \$80.00 in the case of those in the Academy Class, should they be successful in obtaining the diploma at the final examination. A portion of this allowance will be advanced to such students as are not resident in Montreal, on their passing the semi-annual examination at Christmas.

Under the regulations subjoined, and with the view of extending the benefits of the school to all parts of the country, those who reside at a distance of more than ninety miles from the city of Montreal, will also be entitled to a small allowance for travelling expenses proportionate to the distance.

Students resident in Montreal may share the bursary fund, on producing certificates from their minister or clergyman that such aid is absolutely necessary to their continuing in attendance at the school.

In addition to religious instruction of a general Protestant character by the Professors, arrangement will be made for special religious instruction by ministers representing the several denominations with which the students may be connected.

No boarding-house is attached to the institution, but every care will be taken to ensure the comfort and good conduct of the students, in private boarding-houses approved by the Principal: Board can be obtained at from \$9 to \$12 per month.

At the close of the first year of study, students may apply for examination for diplomas giving the right to teach in Elementary Schools; and after two years' study, or if found qualified at the close of the first year, they will, on examination, be entitled to diplomas as teachers of Model Schools.

Students having passed the examination in the Model School Class, or having advanced to the requisite knowledge, may go on to the Academy Class, and, on examination, may obtain the Academy Diploma.

The *Prince of Wales Medal and Prize* will be given to the Student taking the highest place in the Model School Class, provided that such Student shall attain to the standard fixed by the Regulations of the Council of Public Instruction for this Medal.

All the preceding regulations and privileges apply to female as well as to male students.

Persons holding the degree of B.A. or M.A. of any University in Lower Canada, may receive the Academy Diploma on passing an examination in the art of teaching, and in such other subjects, necessary to the Academy Diploma, as may not have been included in their University examinations.

EXTRACTS FROM THE REGULATIONS.

Special Regulations for admission of Pupil-teachers.

Article First.—Any person desirous of being admitted as a pupil-teacher, must apply to the Principal of the Normal School, who, on his producing an extract from the Register of Baptisms, or other evidence, showing that he is fully sixteen years of age, with the certificate of character and conduct required by the 16th article of the general Rules and Regulations, approved by His Excellency the Governor General in Council, on the 22nd December, 1856, shall examine the candidate.

If upon his examination, it is found that the candidate can read and write sufficiently well, knows the rudiments of Grammar in his mother tongue,—Arithmetic as far as the rule of three inclusively, and has some knowledge of Geography, the Principal shall grant him a certificate.

Article Second.—The candidate having thus obtained the certificate of the Principal, shall then, (in the presence of two witnesses who, with the Principal, shall countersign the same,) sign an application in writing for admission containing the declaration required by the 23rd general regulation. This shall be forwarded to the Superintendent of Schools, together with all the certificates and other documents required, and if the whole be found correct the Superintendent shall cause the name of the candidate to be inscribed in the register, and notice thereof shall be given to the Principal.

Article Third.—The pupil-teachers shall state the place of their residence, and those who cannot reside with their parents, will be permitted to live in boarding-houses, but in such only as shall be specially approved of. No boarding-houses having permission to board male pupil-teachers, will be permitted to receive female pupil-teachers as boarders, and *vice versa*.

Article Fourth.—Every pupil-teacher on passing the examinations, will be allowed a sum not exceeding £9, to assist in paying his board.*

Article Fifth.—Every pupil residing at a distance of more than ninety miles from the City of Montreal, shall be entitled to receive an allowance for travelling expenses, proportionate to the distance, but not to exceed two pounds ten shillings *per annum*.

* Except in the case of Teachers training for the Academy Diploma, who may receive a sum not exceeding £20.

Article Sixth.—The total amount of allowances paid to pupil-teachers under the foregoing articles shall not exceed £333 6s. 8d. currency, yearly—that being the sum granted for this object; and when the whole of this amount is appropriated, such pupil-teachers as may apply for admission shall not be entitled to any portion thereof, until vacancies shall occur.

Special Regulations for Government and Discipline.

Article First.—Pupil-teachers guilty of drunkenness, of frequenting taverns, of entering disorderly houses or gambling houses, of keeping company with disorderly persons, or of committing any act of immorality or insubordination, shall be expelled.

Article Second.—There shall be no intercourse between the male and female pupil-teachers while in the school, or when going to, or returning from it. Teachers of one sex are strictly prohibited from visiting those of the other.

Article Third.—They are on no account to be absent from their lodgings after half past nine o'clock in the evening.

Article Fourth.—They will be allowed to attend such lectures and public meetings only as may be considered by the Principal conducive to their moral and mental improvement.

Article Fifth.—Proprietors of boarding-houses authorized by the Principal, shall report to him any infraction of the rules, with which they may become acquainted.

Article Sixth.—The Professors shall have the power of excluding from the lectures for a time, any student who may be inattentive to his studies or guilty of any minor infraction of the regulations.

Article Seventh.—Pupil-teachers shall be required to state, with what religious denomination they are connected; and lists of the students connected with each denomination shall be furnished to one of the ministers of such denomination resident in Montreal, with a request that he will meet weekly with that portion of the pupil-teachers or otherwise provide for their religious instruction.

Every Thursday afternoon, after four o'clock, will be assigned for this purpose.

Article Eighth.—In addition to punctual attendance at the weekly religious instruction, each student will be required to attend public worship at his own church, at least every Sunday.

Any additional information that may be desired, may be obtained on application to the Principal, or to either of the Professors.

MODEL SCHOOL OF MCGILL NORMAL SCHOOL.
