THE THREE KEYS BY FREDERICK ORMOND.

(Continued) CHAPTER IX. In the week that followed, Lathrop did not once call on the Trevors, although he spent a portion of his time daily in the office of the financier. He could not bring himself to go to the house, for the fact that he could not look into the eyes, earnest eyes of Carla Trevor without revealing within his own the guilt which weighed down his spirit. Moreover, he had been very busy. The plot hatched in the early hours of the morning when Jack Millington was called to Chicago, was beginning to unfold itself, and now Lathrop discovered to his vast astonishment that he possessed a real aptitude for business. A genuine zest for it thrilled in his blood; his brain grappled easily with all the problems offered, and mastered them. Cummings had snapped at the bait thrown out to him, and had swallowed it greedily, so that it was now but a matter of days ere the forecast made by Millington would become a fact. Yet, despite his devotion to the manoeuvres in behalf of his friend, Lathrop's mind held continually in its recesses the hateful consciousness of his infamy in the matter of the stolen securities. His one dominant anxiety was to regain possession of these, in order that they might be replaced in the vaults of the safekeeping company before the return of Millington.

Then, one morning, he received a note from Carla Trevor in which she requested him to call on her that afternoon, at four o'clock. At exactly that hour, he was ushered into the drawing-room of the financier's mansion. The maid standing in the centre of the room, awaiting him, was Edna.

"Smith," she said composedly to the butler, "you need not take Mr. Lathrop's card to Miss Trevor just yet. I wish to talk with him for a few moments before my sister comes down."

"Why, Edna," Lathrop said, with an air of rafterly before the servant, "you seem very much the woman of business this afternoon. Then, when the butler had left the room, he continued curiously: "How did you know that I was coming at this time?"

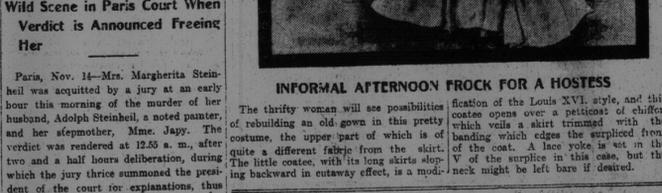

"I didn't know it. I saw you from the window. But I should have gone to your rooms again this evening, if you had not been here today."

"You must not do that, Edna," he replied. "It is not at all the proper thing to do."

Palpitation of the Heart.

One of the first danger signals that announce something wrong with the heart is the irregular violent throbbing. Often there is only a fluttering sensation, or an "all gone" sinking feeling, or again, there may be a most violent beating, with flushings of the skin, and visible pulsations of the arteries.

COLORADO HAS FREE EMPLOYMENT BUREAUS

There are Three of Them in the State and the State Maintains Them—They are of Great Benefit

L. A. Tangany, of Pueblo, Colo., one of the delegates to the American Federation of Labor in Toronto, is an ex-convict of the State of Colorado. After leaving the penitentiary he was appointed Deputy Labor Commissioner of Colorado, and when, four years ago a state free employment bureau was established in Pueblo—a city of 30,000—he was chosen as superintendent.

"No one who values his political life could think of proposing that this should close," said Mr. Tangany in conversation with The Toronto News. "It is doing a great work for the unemployed. There are three in the state, at the capital, Denver; at Pueblo, and at Colorado Springs. At the first about 1,200 are given employment each month, and at each of the others 800, making 25,000 or 30,000 a year.

"The bureaus have proved very successful and deal with both skilled and unskilled labor. There is no charge made by the state for securing a position for anyone, and there is the additional advantage to the employer that we have no interest in placing the first man who offers for the sake of the fee, as private bureaus have, and our best to send him only those whom we know are well fitted. These three bureaus are maintained at the expense of the state."

CHANGE IN CRIMINAL LAW SUGGESTED

Annual Report of Department of Justice for Canada—Some Statics for Year

Ottawa, Nov. 14—A rather startling proposal is contained in the annual report of the department of justice, which has just been laid before parliament. This is nothing less than that the power of fixing the time which a hardened criminal shall serve should be taken from the judge and left to the penitentiary officials.

The penitentiary officials say that under the fixed sentence system scores of dangerous criminals are annually released to become a menace to society from which they have been for a time removed.

"From our experience there was one increase in 1908, while only 14 pardons were granted. The report declares that the parole system has proved most valuable, and it is recommended that the provincial authorities make provision for supervision of convicts, paroled from provincial institutions.

Hard times appears to be a flourishing condition for criminality, for during the twelve months ended March there was a 29 per cent increase in the population of the penitentiaries, whose average daily attendance numbered 1,825, against 1,418 during the previous year. There was one escape during the year and the man is still at large. Three men who had escaped during previous years were recaptured. In ten years nineteen convicts have escaped and of these nine have been recaptured.

Canadian born convicts constitute 50 per cent and foreigners 23 per cent. Convicts of British birth number 310; there are 68 life convicts, of whom 33 are confined in Kingston; ten per cent are under 20 years of age; 15 per cent are unable to read or write; 17 per cent have been total abstainers, and 40 per cent have been intemperate.

In respect to creeds, 671 are Roman Catholic, 343 are Anglicans, and 185 Methodists, 175 Presbyterians, 75 Baptist, 31 Lutherans, 15 Hebrews, and 28 have no creed.

MONCTON MATTERS

Moncton, Nov. 14—The funeral of W. H. T. Sumner, Moncton's oldest citizen, took place here Saturday afternoon and was one of the most largely attended seen in Moncton. The church is filled by citizens of all classes. Interment took place in Elmwood cemetery, a very large number of teams being in the funeral cortege. The pall-bearers were F. W. Sumner, son of deceased; F. C. Sumner, grandson; E. C. Cole, H. F. Wood (Sackville); J. B. Reade and R. E. Dickson.

YORK LOAN ARREARS FROM THE DIVIDENDS

Liquidator's Statement—Efforts to Avoid Costs

Toronto, Nov. 14—The National Trust Company as liquidator of the York County Loan and Savings Company has issued the following statement:

As a number of enquiries have been made by shareholders direct to the liquidator and through the newspapers as to the basis upon which the dividend of 25 per cent. was computed, it is advisable that a public statement should be made.

At the date of its failure the York County Loan and Savings Company had issued shares to some 114,000 persons, there being ten different classes of shareholders. Each class had a separate form of stock certificate and was subject to special by-laws providing for the method of payment by the shareholder and as to repayment by the company either on the withdrawal or upon the stock being fully paid.

The rights of shareholders of the different classes all differed from one another and it was necessary to determine the order in which the dividend could be made of the estate if it was necessary that these rights should be passed upon and defined by a court.

Costs Were Kept Down Under the procedure provided by the Winding-Up Act at the date of this liquidation it would have been necessary to ascertain the rights of the parties to have personally served a very large number of shareholders, each one of whom might have appeared by his own solicitor.

The costs and expenses of such a course of proceeding would, however, have been ruinous. The liquidator, therefore, applied to the Minister of Justice at Ottawa and secured an amendment to the Winding-Up Act dispensing with the necessity of individual shareholders being represented by a counsel appointed by the referee. This explanation is necessary in order that shareholders may understand why they were not notified from time to time as to the progress of the litigation.

A SPECIAL DAY IN PRESBYTERIAN CHURCHES

Presbyterian churches throughout the maritime provinces made special efforts yesterday to reduce the debt in the foreign mission department. In every church in the provinces a special collection was taken for this object. This collection was ordered by the Maritime Presbyterian Synod at its last session and the amounts realized will be transmitted to the treasurer, Rev. Dr. McCurdy, of Halifax. The total amount is about \$12,000, but as the result of yesterday's collections it is expected to be materially reduced. The returns from the collections will not be known for some days.

FREDERICTON NEWS

Fredericton, N. B., Nov. 14—George A. For years he had been prominently identified with the Orange order. He was forty-six years of age, and a bachelor. His mother, two brothers and three sisters survive.

SOMETHING TO NIBBLE

(Boston Herald) The girl who is spoiling her appetite as well as her complexion by eating too many sweets, had better substitute her will power with a few things other than sweets that are as nutritious when nibbled as she must. I think one of the chief reasons why she has such a craving for candy as she reads or sews, is not that she is hungry for sweet stuff, but that she must nibble and chew to get off her superfluous nervous energy.

COUGHING BURST BLOOD VESSEL

Says Danger Avoided and Cures Cough in 5 Hours A writer for the medical press states that coughing is responsible for the bursting of blood vessels quite frequently. A cough or cold causes inflammation (fever) and congested and thickened air indicates that the body is full of poisons and waste matter. Simple relief, as found in patent cough medicine, and which is often result in a severe cough, is that they cause more congestion. A tonic-active cough syrup will work marvels and here follows a prescription which is being sold in famous form by its prompt relief and thorough cure. It rides the system of the cause, excepts the consumption, and waits for consumption to grasp its victim, but begin this treatment which cures some in five hours. Mix in a bottle one-half ounce fluid wild cherry bark, one ounce compound essence cardiol and three ounces syrup white pine compound. Take twenty drops every half hour for five hours. Then one half to one teaspoonful three or four times a day. Give children less according to age.

HALIFAX MAN TRYING TO GET JEFFRIES TO VISIT THERE

Shrub and Longboat Again—Lowell Loses Pitcher—Directum is Dead—Ring, Turf, Aquatic and Athletic News

Manager Maher was some time ago in correspondence with Jim Jeffries in regard to his visiting Halifax, but his trip to Europe caused negotiations to be broken off. Since his return Mr. Maher has been making another effort, and today received a letter from his Canadian representative, who said he had just returned from New York, where he had a chat with him, and the trip to Halifax was mentioned. Jeffries says he intends to go on the road with one or two sparring partners and Frank Gotch, and that he will probably visit Montreal and Quebec, and would like to visit Halifax, but feels that it would be an expensive trip.

Billy Papke, the Illinois thunderbolt, and Frank Klaus of Pittsburgh, fought six very hard rounds before the National A. C. of Pittsburgh, Thursday, and Papke had all he could do to break even with the strong Pittsburgh lad. For five rounds the first round Papke missed a hard swing for the head and went to the ropes from a hard counter which the Pittsburgher landed. This shook up Papke considerably. From that time he fought more cautiously and at the end of the first round had Klaus fighting in his own camp. In the second Klaus slipped and went to his knees, and Papke who started a hard swing from him, had great difficulty in checking himself so as not to lose the fight through hitting his man down. The slip of Klaus was real and Papke helped him up. The sixth round was all Papke's.

In a ten-round boxing exhibition in Quebec on Thursday evening between Kid Duane, of Lewiston, and Larry Doyle, London, Eng., the latter won on a foul in the fourth round. Duane had the best of the fight throughout and thus was considerable disappointment at the result.

"Caught Cold."

Had a Distressing, Tickling Sensation in The Throat.

Mr. Albert MacDoe, Chignecto Mills, N.S., writes: "In Oct., 1908, I caught cold by working in water, and had a very bad cough and that distressing, tickling sensation in my throat, so that I could not sleep at night, and my lungs were so sore I had to give up work. Our doctor gave me medicine but it did me no good so I got a bottle of Dr. Wood's Norway Pine Syrup and by the time I had used two bottles I was entirely cured. I am always recommending it to my friends."

back of the navy football team, who has been paralyzed from his neck down since an injury to his spine, sustained in the Naval Academy-Villa Nova game four weeks ago, is not quite so satisfactory to him as it has been since the operation was performed last Sunday. The injured midshipman is not so strong tonight. There has been no improvement in the paralysis, but he is getting on his feet. His recovery will be extremely slow, it is said.

Another Football Victim. Washington, Nov. 14.—Football has claimed another victim in Archie Christian, the eighteen-year-old halfback of the University of Virginia team, whose injury in the game with Georgetown University yesterday was followed by death at Georgetown University Hospital this morning. The body was taken to Richmond today for burial.

An autopsy disclosed that death was due to cerebral hemorrhage, following concussion.

Athletic. Alfred Shrubbs has arrived at Fort William, and has received a telegram arranging a race with Longboat in Winnipeg next Saturday night.

Amherst, N. S., Nov. 13.—(Special).—Fred Cameron, of the Ramblers, not satisfied with breaking the maritime province record for five miles on the Wanderer track in Halifax this summer, when he lowered the mark to 28 minutes 4.5 seconds, has now broken the Canadian amateur ten mile record, which, so far as could be learned in Amherst, is 54 minutes 54 seconds. Cameron ran 40 miles Saturday in his race with Bob Fowler, the American, in 54 minutes 46 seconds.

In a drizzling mist, the remarkable record of the distance in the remarkable time of 54 minutes 46 seconds, doing the first five miles in 25 minutes 45 seconds, while he finished his first mile in 4 minutes 45 seconds and finished the last hundred yards of the race in slightly over 11 seconds.

Prerata, South Africa, Nov. 13.—The sprinter Donaldson ran 120 yards in 11 1/2 seconds today. This is a new world's record.

R. E. Walker, the South African runner, ran 120 yards in 11.25 seconds last December, while B. J. Wefers had the previous record of 11.45 seconds, made at Traralgon in 1908.

A dinner given to Sir Thomas Lipton by the New York Yacht Club in New York City, Sunday, Nov. 14, was a protest against the demands of the New York Yacht Club in insisting upon the old American Cup rule for international races instead of allowing the regular rules in use for all of the club races to prevail.

Are the Manchester Yacht Club people going to act on the same principle upon which the New York Yacht Club people seem to be acting in regard to the American Cup?

Baseball. Alfred W. Address on the Georgian Bay Canal Project By A. J. Forward in Arnprior—He is Secretary of Federation of Boards of Trades and Municipalities

Arthur J. Forward, secretary of the Canadian Federation of Boards of Trade and Municipalities, addressed the Arnprior board of trade on the subject of the Georgian Bay ship canal. He said: "Mr. President and Members of the Board of Trade, The Georgian Bay ship canal has been a subject of discussion in the Ottawa valley for half a century or more, and there have been many times in the past when it has been proposed to build it. Signs are multiplying, however, that the period of probation is near at hand, and that we are rapidly approaching the time when it will be the fruit of our great national enterprise, taking it well known, even if we had not his specific declaration last year that 'If Providence spares me, and the friends at the head of affairs, it will be our duty to take up the Georgian Bay canal as soon as the resources of the country permit.'"

In a Million Canadian Homes

Taylor's Infants' Delight Soap is in constant use today. There are reasons for this amazing preference.

We have been soap makers 44 years. No expense is spared in procuring materials. The purity of our olive oil is proved by our own chemist's test.

We import our own cocoanut oil from Ceylon. Otto of Roses, that costs us six dollars an ounce, lends delicate fragrance. To this we add just sufficient boracic acid to soothe and heal the delicate tissues. Each cake of

Infants' Delight Soap takes twenty-one days in the making—200 people have part in it! It comes to you as firm and seasoned as if it had been on your shelf six months. It will wear to a wafer.

If you wish a beautiful skin, soft and free from roughness, use Taylor's Infants' Delight Soap.

COMMENT ON NEW SUGAR REFINERIES

Commenting on the news item which appeared in a recent issue of The Canadian Grocer in reference to the formation of three new sugar refining companies in Canada, a writer in the Montreal Gazette, who signs himself "Mercator," deals with conditions which, in his estimation, must be met. He says that "we have on the carpet at the moment a proposed refinery in St. John, N. B., at Toronto another at Chatham a third and at Vancouver a fourth."

It is generally known in this city at this time, that those already in operation five in number, are not fully employed, and the government return of the consumption, which in 1908 was less than 5,000 barrels a day, and of this the St. John project is modestly proposing to supply 3,000 barrels. Its first business, therefore will be to sell, not only those now in existence, and some of the new ones projected, and this undertaking will certainly operate in the postponement of dividends all around.

GOOD SUITS \$18

A customer recently told us that when we recommended a suit as "good" he regarded it as a high endorsement—higher than the superlatives in which so many freely indulge.

We believe most of our customers have greater confidence in us because of our conservatism in praising our offerings. And most of them realize that suits which term "good" are sure to prove satisfactory.

In this particular case we sincerely believe that the values are better than we have been able to offer previously. In our \$18 line we offer several distinctive styles, which are especially pleasing to young men, as well as models suited to men of more mature years and more sober taste.

Fabrics, patterns, cut and tailorings are fully up to the usual 20th Century Standard. Could a higher recommendation be desired?

WEDDING DRESS ONE OF ARTICLES STOLEN

Martha Mountain, in Court Today, Brings Mysterious Mrs. Smith into Case

In the police court this morning, Martha Mountain, a 15-year-old girl, rather attractive in appearance, faced Judge Ritchie on a charge of stealing a number of valuable articles from the home of A. C. L. Tapley, Douglas avenue. She was remanded.

She told His Honor that her parents were living in Amherst, and that she had left her home there without their consent. She had worked with Mrs. L. Banks and Mrs. Currie in that city, and when she came here lived for a time with Mrs. Anderson in St. James street.

She claimed that two of the articles which she was accused of stealing, were given to her by a relative of Mrs. Tapley, a woman aged 70, named Smith. A. C. L. Tapley, told the court that the girl had worked in his home for about two weeks. She said she had come from Amherst and had not lived in St. John before. He missed a dish, a butter knife and some other articles before last Monday, when the girl also was found to be missing. She had not given any intimation that she was going to leave his household, when she went several articles had disappeared. The articles produced in court were Mr. Tapley's wife's wedding gown, a silk dress and opera cloak and opera cloak and the under garment from she left she was told that her services would not be required later than the following evening.

Detective Killen asked the witness if he knew of Mrs. H. W. Smith having stayed in that house on Sunday night last, but was told that the witness knew nothing of it.

The detective was sworn and said that in consequence of a message which he had received, he had made some inquiries and found that the defendant had left home on Monday for Amherst, after having attempted to pawn some articles. The detective followed and found the defendant in Amherst and brought her back along with the articles.

The girl said that she had received the opera cloak and the under garment from Mrs. Smith in St. John, who told her she was a cousin of the plaintiff and who had accompanied her to Amherst. The girl also told him she belonged to a place called Sand Hill, about one mile from Amherst. The prisoner was remanded.

POLICE COURT

Cigarette Case—One Man Who Should Be Thankful He Was Arrested

A quartette of Saturday prisoners, three men and a woman, faced Judge Ritchie in the police court this morning on charges of drunkenness, and their cases were speedily disposed of.

Frank Boyer, clerk in Frank Porter's drug store, Union street, appeared in court to answer a charge of selling cigarettes to Thomas Bonner, a minor and pleaded guilty to the charge. He gave a straightforward explanation of the charge, however, saying that young Bonner had told him the package was for his brother who was at home. Boyer said that he knew Bonner as a truthful boy and had not known him to smoke cigarettes.

His honor gave Boyer a warning on the subject and said he would allow a fine to stand against him.

Leo Comeau, a Frenchman, told the court that he had come from Yarmouth and, having met some of his friends in a fishing packet in the harbor front, on Saturday had celebrated a little. They produced a jug of whiskey, and the result was that he was fined \$2.

James Shaw and Jane Odell were fined \$8 for similar offences.

Bertie Artiss was fined \$4 on a charge of being drunk near the I. C. R. station on Saturday. I. C. R. Policeman John Collins, who made the arrest, said that the prisoner had a narrow escape from death as he was lying helpless on the railroad track with a shunting freight train approaching. It was fortunate for him that he was arrested or he might not now be able to return to his home at Fredericton Junction.

Scott E. Morrell was granted a further postponement in the case of Alfred Monague of Halifax, who was reported for doing business in the city without a license. The case will come up on Thursday, but Mr. Morrell will interview the mayor in the matter in the meantime.

ANDOVER CLEAR OF FEVER EPIDEMIC

In conversation with T. J. Carter, of Andover today, the Times was informed that the fever epidemic at that place was practically a thing of the past, and that there were now only two people suffering from the disease. These were expected to be all better in a few days. The water system had been examined, and, having been found to be injurious to the citizens, efforts were made to purify it and no cases have since been reported.

The City Cornet Band's fair, which has been so successfully conducted during the past two weeks, will be brought to a close tonight when the drawing of tickets for the great lottery will take place, and the goods on hand will be sold at auction.
