The point which Mr. Tilley tries to make with reference to black tea pay-The point which Mr. Tilley tries to make with reference to black tea paying more than green, is equally far-fetched and untenable. The average price of the black tea imported into Canada is 26 cents per lb., and the average duty 18½ per cent. The average duty is 18½ per cent. The average duty is 18½ per cent. The average duty is 18½ per cent. Therefore the duty on both teas is precisely the same. The effect of the imposition of specific duties on tea instead of advalorem duties is that people use in the deep local reports and making all possible allowances for the strength of the Conservatives. Who secured Confederation And a stunning office, fat And the Railway to Newcastle, With the little Branch thereat, Running through my Shipyard For the which I safely got Sixteen thousand public dollars All to my own private lot.

" Peter's transaction with Peter."

Ho, ye Richibucto Roaders And Northesk Electors, too Likewise ye men of Derby, Blackville, Blissfield, Ludlow, throu All along the fertile valley Of the teeming Miramichi, Ye whom I have hoodwinked nicely Come and rally now round me

Tis true ye men of Chatham That had I cared for you, The Railway might have neared yo And thence been carried through To Richibucto, via Glenelg,
But, then, I did not own
A foot of land along that route To bring me in a crown.

My dear friends, too, at Redbank And those near Indiantown, Where Robinson, by his Survey, Did lay the Railway down, Must not think hard of me because I did not leave it there, For one's own pocket ought to be His first and greatest care.

I had no shipyard at Redbank To sell at fancy price, I had no homestead there to rent For offices so nice, No Beaubear's Island, owned by me, At Indiantown did lay, Where I might make them pile up rails At handsome rental pay.

mustn't mind them when they say The Imperial Guarantee
Would ne'er been given had the Line
Not crossed the Miramichi. I know that's true, but I am bound To swear that it is not, And you'll believe me—won't you, now, You're such a stupid lot.

Now you, my friends, to whom I've given
Fat offices and pay,
Don't fail to be on hand near me On each election day,
And never laugh or smile when I
The old, old story drone
About the Railway by the North, Secured by me alone

And when the people tell the truth And urge that my own ends As much as public benefit Impelled my course—my friends Whom I have helped to offices And contracts and such things, Must shout that I'm a purist, and Ne'er went for forming rings.

Whene'er the people get waked up
To see the games I've played,
To help our different rings along
When we our money made,
I'll cry, "but for me how could you
—And let the tale go forth—
Have had Confederation or The Railway by the North!"

But don't, please don't cry back agai

Until I lost the reins, But send, oh send me back again, Midst those I love so dear, And after this election's o'er You'll never see me here.

> Tabusintac, Sept. 7, 1878. To the Editor of the Miramichi Advance. In this week's issue of the Advocate tw letters appear purporting to come from Electors and Liberals of Tabusintac. It Electors and Liberals of Tabusintac. It is evident that the writers themselves were either absent from the meeting referred to or else care little for the ninth commandment. I subjoin the names of the electors who I know to have been present at that meeting and challenge either Elector or Liberal to add any names to the list. I never claimed influence over the free and independent voters of Tabusintac, although I flatter myself that if required I could exert as much as either of my critics. I am inclined to think both are one and the same person, the junior foreman of the Echo. I hardly think any man in Tabusintac is so dishonest as to state that Mr. Mitchell did not make the assertion at tributed to him in my letter. Mr. Adams can please himself about coming down to Tabusintac; it is is his own affair, but if there are only two Grits in Tabusintac and those without influence, would an inferior person not do as well, and so spare that distinguished statesman the trouble of coming so far and leave him to use his imperson of coming so far and leave him to use his imperson of the comming so far and leave him to use his imperson that the complete of coming so far and leave him to use his imperson to the complete of coming so far and leave him to use his imperson to the complete of coming so far and leave him to use his imperson to the complete of coming so far and leave him to use his imperson to the complete of coming so far and leave him to use his imperson to the complete of coming so far and leave him to use his imperson to the complete of coming so far and leave him to use his imperson to the complete of coming so far and leave him to use his imperson to the complete of coming so far and leave him to use his imperson to the complete of coming so far and leave him to use his imperson to the complete of coming so far and leave him to use his imperson to the complete of coming so far and leave him to use his imperson to the complete of comple is evident that the writers themselves two Grits do not expect to be made at once Lighthouse keepers, fishery overseers, and mail contractors. Preparing for the Worst.

Mr. EDITOR :- How is it that you have not referred to a recent visit of Mr. Peter Mitchell to Restigouche? His business is said to have been connected with the representation of that County, involving no less important a proposition than the stepping down and out of Mr. Haddow to let Mr. Mitchell in. Mr. Haddow, however, it is said, could not see it. As sure as you are alive Peter expects defeat in Northumberland and it is time he did. Truly yours,

Election for the Electoral District of Northumberland, 1878 MITCHELL.

Peter Mitchell, City of Montreal, Gentleman.

SNOWBALL.

Jabez Bunting Snowball, Chatham, Merchant,

The cross within the space occupied by Mr. Snowball's name indicates that the Vote has marked his ballot for that gentleman. Any voter desiring to vote for Mr. Mit. chell will, of course, not make the cross in the space in which it is shown above. Should the voter be unable to read, or from any other cause be unable to understand how to mark the Ballot, the Deputy Returning Officer and the representatives, who have previously been sworn to secrecy, will retire with the voter, who will then be privately asked for whom he wishes to vote, and the Deputy Returning Officer will mark, in the presence of the representatives, the Ballot as designated by the Voter. The voter on returning to the outer room, will present his Ballot to the presiding officer who will tear off and destroy the counterfoil and place the Ballot in the box. Our friends who know voters who may not be able to preparely understand the

SECRECY TO BE KEPT UNDER PENALTIES.

No elector shall be allowed to take his Ballot paper out of the Polling Station, or (except in cases of persons who through incapacity must be assisted as above in making the Ballot) to show it when marked to any person so as to allow the name of the candidate for whom he votes to be known, under a penalty of two hundred dollars; and no person shall directly or indirectly induce, or endeavor to induce any voter to show his Ballot paper after he has marked it, under a penalty of two hundred dollars for so doing and for each case of such offence.

COUNTING THE BALLOTS.

for so doing and for each case of such offence.

COUNTING THE BALLOTS.

Immediately on the close of the Poll the Deputy Returning Officer shall, in the presence of the Poll Clerk and the Candidates or their Agents, and, at least, three Electors, open the Ballot Box and proceed to count the Votes given for each Candidate. In doing so he shall reject all Ballot papers which have not been supplied by the Deputy Returning Officer, all those by which votes have been given for more Candidates than are to be elected and all those upon which there is any writing or mark by which the Voter could be identified.

The good Ballot papers, being counted, a proper list shall be made of the number of votes given to each Candidate and the good and rejected Ballots made up in separate packets, endorsed and replaced in the Ballot Box, which shall be locked, to be sent to the Returning Officer. or the last four years, and are now offering to the BEST MOWER, BEST MOWER,
ombining greater 'excellence of méchanical similicity together with greater durability and entire seliability for all the requirements of the field, than my other Mower estant.—In construction they are similar to the celebrated Walter A. Wood's from Frame Mower, and the Richardson Buckeys, both American Machines. Of the former there are over 90,000 in use, and the extraordinary number of 20,000 were manufactured and sold last senson, by the Wood Company of United States. We have ver 500 of our manufacture now in use, every one of which for exceptions) stands as a menument of the grand and unprecedented success of home manufacture and our enterprise. A list of our Agents in this section of the Province will be found appended, and farmers are requested to ask information of them relative to our Mowers in use in their respective localities, which will establish beyond doubt their unquesti-nable superiority over my other mower to be had in our majes.

The facility of procuring all parts of pieces with in a nominal length of itm emust show beyond the shadow of a doubt the claims such an enterprise has upon the farmers of the Maritim Profession. For the coming harvest of 1877 we will manufacture LARGELY in excess of our numbers of last season, and trust that our growing enterprise may find such inducements held out to it as will be commensurate with its merits.
