GOVERNMENT WILL INSIST ON THE COMPLETION OF BRIDGE

Phoenix Company Will be Held to the Contract—Senator Ferguson is Better—Michigan Tunnel Delayed by Strike of Underground Workmen.

MONTREAL, Sept. 6.—Sir Wilfrid Laurier accompanied by Hon. L. O. David and others, paid a visit to the scene of the Quebec bridge disaster on Tuesday last. The Premier was deeply moved by what he saw, expressing himself in feeling terms both to the officials and to the relatives of the men who had lost their lives in the catastrophe. Though no formal official announcement has yet been made in this connection, it is stated on high authority that the Dominion government will take a very firm and definite stand in its attitude towards the Phoenix Bridge Co. as present indications tend, the piers had nothing to do with the disaster. The government will hold the company liable and will insist upon the rebuilding and completion of the bridge as though no accident had occurred. The government will also impose the full penalty clauses if the company is shown to be responsible under the law. Sir Wilfrid is determined that the bridge shall be rebuilt, and the government, it is stated, will press the company to the fullest extent of its obligations under the contract.

MOROCCAN OUTLOOK IS REGARDED AS SERIOUS

French Have Done Their Best With the Forces Now Available, But Will Have a Hard Job in Making Any Impression on the Native Fanatics.

PARIS, Sept. 6.—The Petit Parisien declares that another complication has arisen in the shape of grave disquiet among the Senegalese tribesmen near Oudja and the Algerian frontier. Oudja, which is in Morocco, has been occupied by a French force for some months. The military authorities, the paper declares, are most anxious, and are preparing to send in troops from Algeria.

The newspapers today have adopted an altogether graver tone in discussing the Moroccan situation. The more comprehensive reports of the engagement of Tuesday show it to have been much more serious than was first stated. The correspondent of the Matin at Casablanca telegraphs as follows: "The engagement of Tuesday gave some idea as to the obstacles that an expedition into the interior would have to encounter, and the number of men needed. The march made by the French troops Tuesday was the longest one yet made, and marks the utmost that General Druce can possibly accomplish with the force at his disposal. The column had all the cavalry and field artillery, yet this strength made up of picked men whose armament can be described as crushing, as compared to that of the Moors, was heavily engaged throughout the entire encounter. It was compelled to give ground in three places at once and it was turned by Moors who got within a quarter of a mile of the camp.

"It cannot now be said that the wild energy of the foreigners is due to ignorance of our forces. On the contrary they return to the fray with greater courage and increased numbers after each engagement." TANGHER, Sept. 6.—Responding to a request of the diplomatic corps that he take steps to arrest the needless excesses of people from Tangier, caused by the prevalence of local disorders and the circulation of false alarming reports, the Moroccan War Minister El Gabbas today proposed the institution of a summary tribunal before which malefactors and persons guilty of circulating damaging rumors could be brought. A note setting forth the purposes and powers of the proposed tribunal was sent to the legations and all the representatives of powers with the exception of Spanish Minister Signat.

TWO CHILDREN BURNED BY EXPLOSION OF A LAMP

WILLIAMSPORT, Pa., Sept. 6.—By the explosion of a lamp in an upstairs room, the two young children of Aaron Anderson, of Coleman Hollow, Potter County, were burned to death last night. Anderson and his aged father were helplessly ill in a room downstairs. Mrs. Anderson and her ten year old son tried to rescue the children but they failed. Before they could drag the two men out they were so badly burned that they too will die. Mrs. Anderson had to care for her two weeks' old baby.

ALBERTA'S CROPS ARE SATISFACTORY

All Grains Have Made Progress So Far—Increase in Acreage

Reliance Still Placed Upon Oats on Account of Excellent Quality and Heavy Yield

EDMONTON, Sept. 6.—Alberta is not yet an important grain-growing province, but she is making strides which promise to give her a good position among the producing communities of the Dominion. According to an estimate made by the Department of Agriculture at this time last year, the grain crop for that season consisted of 2,322,292 bushels of spring wheat, 307,421 of winter wheat, 13,192,150 of oats, 2,911,719 of barley, and small quantities of flax, rye and speltz. The department is not prepared to issue a similar statement now, owing to the fact that the crop season is later than it was in 1906, and estimates are more difficult to make at this time. Unofficial reports which have been received here, however, indicate that the conditions are more favorable to heavy yields during the present season than they were in 1906. The weather has been better, on the whole, and, with the exception of the late part of the season, there have been no drawbacks. It is fair to suppose, therefore, that a more satisfactory yield will be obtained. The factory yield will be obtained. The acreage under spring wheat this year is estimated at 125,543 acres, as compared with an estimate of 97,700 a year ago. That under winter wheat is 22,223 as compared with 43,601; under oats, 254,344, as compared with 222,222, and under barley, 74,835, as compared with 75,773. The increase in the acreage for both spring and winter wheat is most satisfactory, especially in view of the excellent condition in which those crops now are. An estimate of the aggregate wheat yield of the province is not available at this stage, but even if the average production were only the same as the output on account of the increase in acreage would be 2,559,882 bushels larger, showing a gain of about 80 per cent. This is appreciable, but these men do not pay strict regard to the possibilities of climatic interferences. With favorable weather from now until the middle of September, a doubling of the present yield may be expected, with some degree of reason.

ADVANTAGE OF MIXED FARMING

One of the recent bulletins issued by the department laid stress on the fact that the agricultural enterprise of the province did not rest on success in grain production alone. This bulletin said, in part: "This province occupies a unique position in that the present year demonstrates in a most forceful way the advantages of mixed farming. True, the grain production is encouraging, but the returns from horses, cattle, sheep, hogs, poultry and the dairy form no inconsiderable part of the revenue of the province, and in large measure make the farmers independent." It also mentioned the progress made by the various grain crops to the first week of August, and referred to the possibility of frost as the only obstacle to a huge production. Continuing, it said: "Should unfavorable weather conditions prevail and early frosts put in an appearance, it is only a small section of the province that will be affected, and these districts are not depending entirely upon grain. In those sections that depend upon grain conditions are so far advanced that the grain may be considered safe. Grass has been abundant, making luxuriant pastures and a heavy crop of hay. Cultivated grasses are doing well. It is gratifying to know that in a year when so much uncertainty prevails about the crop, the farmers of the province are in such a fine position, with their mixed farming methods, as compared with those of other prairie provinces who depend entirely on grain. It is also pleasing to know that the portion of the province liable to frost has over fifty creameries and half a dozen cheese factories."

RELYING UPON OATS

Alberta still looks with confidence upon oats as the principal cereal. What is gaining headway, but it has able weather conditions prevailing and early frosts put in an appearance, it is only a small section of the province that will be affected, and these districts are not depending entirely upon grain. In those sections that depend upon grain conditions are so far advanced that the grain may be considered safe. Grass has been abundant, making luxuriant pastures and a heavy crop of hay. Cultivated grasses are doing well. It is gratifying to know that in a year when so much uncertainty prevails about the crop, the farmers of the province are in such a fine position, with their mixed farming methods, as compared with those of other prairie provinces who depend entirely on grain. It is also pleasing to know that the portion of the province liable to frost has over fifty creameries and half a dozen cheese factories."

VESUVIUS' LATEST OUTBREAK IS NOT AN ERUPTION

Frank A. Perret, of the Observatory Staff, Says the Dense Clouds of Dust are Caused by Landslides—Vesuvius Has a Regular Schedule

NEW YORK, Sept. 6.—Frank A. Perret, an assistant in Vesuvian Observatory, whose action in remaining at his post during last year's eruption of the volcano, gained him general commendation, and who is now at his home here on a brief vacation, spoke interestingly in an interview regarding the cable reports of a new eruption of Mount Vesuvius. He declared that there could be no eruption at this time, but there had been landslides in the crater and that the clouds of dust arising therefrom perfectly resembled a new eruption.

TYPEWRITER TRUST SAID TO BE FORMED

Several Well Known Capitalists are Interested in the Merger.

NEW YORK, Sept. 6.—The possibility of a typewriter trust was made public today by the Herald. A new company, with Allan A. Ryan, son of Thomas F. Ryan, as president, has been formed. It has been stated, Chas. M. Schwab, the Guggenheims, other capitalists are interested. The Royal Typewriter Company is the new name of the big enterprise and according to rumors it will endeavor to acquire all the largest typewriter interests in this country and will also try to obtain control of the business all over the world.

Though the Engineer on the C. P. R. Train, Ditched at Orangeville, Who Had Been on Duty for Over Eleven Hours, Says He Had Control.

TORONTO, Sept. 6.—Excessive speed was advanced as the reason for the Horseshoe Curve wreck by two witnesses at the resumed inquest held by Coroner A. Jukes Johnston at Orangeville last night, touching the death of Richard Bell, of Shrilley, one of the victims. Mr. John Fairbairn, the company's divisional engineer, stated that this was the only cause he could suggest. Possibly stronger evidence was given by Simon Mosson, a locomotive carpenter, employed by the company, who was repairing a culvert five hundred feet from the scene of the wreck when it occurred. The speed of the train so impressed him that he called to his gang to jump the fence in order to be out of danger before the train reached the curve. Against these statements was that of the engineer, who said that he had the train in control and it was only running from fifteen to twenty miles an hour. He could give no reason for the engine leaving the track.

Replying to Mr. Robbette, witness said that when he was on duty twenty minutes he was on a straight level track. Replying to a jurymen's question as to whether he was on duty from 10:15 on Monday night until the accident at 9:30 a. m. Tuesday, without any lay-off, he had about 11 1/2 hours on Monday. The inquiry was adjourned until Thursday.

THE LORD CHANCELLOR WILL VISIT CANADA

Lord Loreburn Has Left the Great Seal in Safe Keeping—His Absence From Britain Unique

LONDON, Sept. 6.—The Lord Chancellor, Lord Loreburn, sailed for Canada on the Empress of Britain today. He will visit Niagara and possibly New York. This is the first occasion on which a Lord Chancellor has left the Great Seal of which he is the custodian, be taken out of the country. It is supposed to be constantly kept in his personal custody, but Lord Loreburn has arranged for safeguarding the seal during his absence.

SPORTING MATTERS WILL DECIDE GOLF CHAMPIONSHIP TODAY

WINDSOR, N. S., Sept. 5.—Notwithstanding the heavy rain today, play was continued in the golf tournament. Interest in the final result for the championship which will be played tomorrow, is very keen. The driving competition was won by Miss Unkalo. The results were as follows: First, Miss Unkalo, 322 yards; second, Mrs. Smith, 272 yards; third, Miss G. Bullock, 244 yards. In the third round today for the championship, Miss Thompson beat Miss Unkalo, 4 up, 3 to play. Miss Unkalo played a fine game against the champion of Canada. Mrs. Handcomb beat Miss Stetson 3 up and 1 to play. A very exciting game is expected when Miss Thompson meets Mrs. Handcomb in the final tomorrow. The approaching and putting competition was won by Mrs. Handcomb; second, Miss Thompson; third, Miss G. Bullock and Mrs. Mitchell. Miss Thompson and Mrs. Handcomb tied for first place, with a score of 13. In the play of Mrs. Handcomb scored 12 (four threes) to Miss Thompson's 14. In the inter-provincial match to be played tomorrow the following will represent their respective sides: Nova Scotia—Mrs. Handcomb, Miss Unkalo, Miss Bigelow, Miss Sircom, Miss G. GEO. E. DAY ELECTED SCHOOL TRUSTEE OVER R. MAXWELL. Treasury Board's Recommendation That No New Civic Work be Undertaken Will be Put into Immediate Operation—Shillington Farm Claim Settled for \$160—R. D. Isaacs Asks About Concessions for Car Works Project

The Common Council held its regular monthly meeting yesterday afternoon. The meeting was quite lengthy, but not particularly interesting. The reports of the various boards were received and with few exceptions adopted as read. The third section of the treasury board's report recommending that owing to the stringency of the labor and money markets, no new construction work be undertaken by any of the civic departments, was passed only after considerable opposition. The opponents of this section forced it to be put into immediate operation, with the result that several sections of the water and sewerage board's report, which recommended carrying out of certain minor pieces of work were struck out, the work mentioned therein being considered to be non-essential work. The appointment of a new school trustee to take the place of Robert Maxwell, whose term of office had expired, was the most important thing done. The appointment went to Geo. E. Day by a large majority.

BE RUN FOR THE CIRCUS

Norris & Rowe Have Arranged Special Round Trip Rates for Their Big Shows. During the past season, Norris & Rowe were often commended for their successful efforts in promoting cheap round trip rates for excursions to their all new big shows. It enables those living some distance from the scene of the exhibition to attend the circus at the same cost as to those living in the town where the exhibitions took place. Therefore the local merchants were benefited to the request of the circus men for reduced fares for the round trip, with a ticket to the shows, and the innovation was satisfactory to all concerned. It enabled those living at a distance to come to town to attend necessary shopping and at the same time enjoy a well-deserved holiday, therefore the local merchants were benefited as well as the showmen. For the present tour of the Greater Norris & Rowe Circus, Mr. C. I. Norris will act as special traffic and excursion manager and devote his entire time to the arrangement alone. It will be his constant effort to obtain reduced round trip rates for those living away from the towns in which his circus will exhibit. The dates of the running of the trains and the half fare concessions will be announced in ample time for all to make the necessary arrangements. The season's tour has been so arranged that there will be no doubt of the success of this year. This will enable the parade to start on its advertised time every day. Shows will exhibit at St. John Saturday, Sept. 14th.

ASK ABOUT CAR WORKS CONCESSIONS

R. D. Isaacs asked for information concerning the concessions that could be granted by the city to the company which proposed to erect car works costing \$250,000 and employing 300 men. The matter was referred to the boards of treasury and public safety. Mr. Ring, manager of the West End Nickel, asked that the rent of the old Carleton City Hall, in which the moving pictures were shown, be reduced from \$9 a month to \$4. It was decided that if Mr. Ring gave bonds for six months the rent would be reduced.

Walks Streets of London Dangling Card Which Appeals for Light Employment. LONDON, Sept. 5.—A godson of Benjamin Franklin, and a kinsman of the poet himself, is walking the streets of London in search of employment. People in the Strand turned and stared curiously at a man wearing a top-hat and a silk-faced frock coat, and his gloves, who dangled before him a card which read as follows: LIGHT EMPLOYMENT WANTED. THROUGH TERRIBLE HOSPITAL CARELESSNESS. Particulars of case, also a copy of a high-class original poem (240 lines), on penny. KINDLY BUY A COPY. The police moved him from the Strand, so he took to the Embankment, where an Express representative found him. His name is Tom Moore Swinden, and he is 45 years old. "I was on the stage," he said, "and I have played with Charles Mathews, Barry Sullivan, Adelaide Neilson and Mrs. Hoadley." He was posing as an artist's model when his leg was broken, and, through the carelessness, he alleges, of the house surgeon at a hospital he was laid up for several years and crippled. As for the poem, he claims to have read it to Charles Reade, the novelist, in 1881. "I am in such a state of poverty," said Mr. Swinden, "that I came to selling matches or bootlaces. Then I thought I would publish the poem and sell it."

DIOCESAN BOARD MEETINGS OVER

The diocesan meetings held here this week in the Church of England, instituted came to a close yesterday. The meetings were preparatory to the synod meeting which will take place early in October. Much business correspondence was transacted. At the synod meeting it is expected that several prominent clergymen from points outside the province will be present and take part. The following board of missions, board of education, board of church literature, committee of Sunday schools, committee on the state of the diocese as well as the standing committee and the executive committee of the synod. There will also be a meeting of the Cathedral chapter. It is expected that the board of education will make an important report and recommendation with regard to the assumption of church control over Rothesay Collegiate School.

Queen's Rollaway

"Tonight is 'ladies' night' at the Queen's Rollaway. This is the first since the reopening of this popular resort. Gentlemen will please remember the rules that are in force on 'ladies' night' and fast skating is strictly prohibited. With the skates and floor in perfect condition tonight should be a pleasant one at the Queen's. Rockwood Park Any fine weather today and tomorrow should be taken full advantage of by recreation seekers going to Rockwood Park, as the park as an amusement centre will be closed on Saturday for the season. This has been found necessary on account of the unpleasant weather. In the meantime lunches will not be served at the restaurant in the pavilion.

CHEAP EXCURSIONS TO BE RUN FOR THE CIRCUS

Norris & Rowe Have Arranged Special Round Trip Rates for Their Big Shows. During the past season, Norris & Rowe were often commended for their successful efforts in promoting cheap round trip rates for excursions to their all new big shows. It enables those living some distance from the scene of the exhibition to attend the circus at the same cost as to those living in the town where the exhibitions took place. Therefore the local merchants were benefited to the request of the circus men for reduced fares for the round trip, with a ticket to the shows, and the innovation was satisfactory to all concerned. It enabled those living at a distance to come to town to attend necessary shopping and at the same time enjoy a well-deserved holiday, therefore the local merchants were benefited as well as the showmen. For the present tour of the Greater Norris & Rowe Circus, Mr. C. I. Norris will act as special traffic and excursion manager and devote his entire time to the arrangement alone. It will be his constant effort to obtain reduced round trip rates for those living away from the towns in which his circus will exhibit. The dates of the running of the trains and the half fare concessions will be announced in ample time for all to make the necessary arrangements. The season's tour has been so arranged that there will be no doubt of the success of this year. This will enable the parade to start on its advertised time every day. Shows will exhibit at St. John Saturday, Sept. 14th.

WEDDINGS

THAYER-WILLIAMS. A very pretty wedding took place last evening at St. Mary's Church, the contracting parties being Harry Allen Thayer of Holyoke, Mass., and Miss Arrie L. Williams, formerly of St. John, but lately of New York. Rev. W. O. Raymond performed the ceremony. The bridesmaids were Miss Katlo Bates and Miss Pauline Ring of the wedding party. The bride was wearing a white tulle gown with a white silk cushion by the pages. The latter were Josephine and Helen Ring of the wedding party. The marriage will take place in St. Pauls church on Thursday, Sept. 12th, of Miss Francis Humphries to Sanford M. Scott of Sydney.

TOURIST ARMY SWAMPS BOSTON

Stations and Wharves Piled High With Baggage of Returning Vacationists

BOSTON, Sept. 5.—With the departure of "dog-days" and the advent of September, every gateway leading to Boston from the mountain, shore and lake resorts is crowded with a returning army of tourists and summer vacationists. In order to accommodate the great throngs returning from all sections of New England and the Maritime provinces, the trains have to be split in sections, the baggage rooms at the wharves and railroad terminals are choked with trunks and other luggage, and the steamers are crowded to their capacity set upon them by the federal authorities.

Interesting features in connection with the passage of the great army of vacationists through Boston is that many who have been visiting shore and lake resorts will visit the mountains before returning to their homes. This phenomenon of summer tourists spending the whole or a portion of the autumn at the White Mountain resorts is of comparatively recent origin.

In addition to the tourists who are traveling by steamship and railroad lines, thousands of others are making their autumn tours in automobiles. Especially in the White mountains is the automobile in evidence many coming from as far distant as St. Louis, Chicago and New Orleans.

The mountain hotels are filled and, it is said, the reservations for rooms extend through the present month and well into October.

OUT OF TIN

Canneries at Eastport and Lubec Cannot Handle the Crop of Sardines

(Eastport Sentinel)

With the present plentiful supply of fish comes the disheartening report that a shortage of tin-plate and cans is imminent, which, if true, means less work for employes in a short time, and perhaps a shorter packing season. In the destruction of the large can making plant at North Lubec in the early spring, the sardine canning industry in this section suffered a severe blow. Many packers, however, thought that the output of the American Can Company would be able to supply the demand, as indeed it did during the first part of the season, but with the increased supply of the present time, the output is found to be easily inadequate to the demand, and the outlook today for a busy and profitable fall season is becoming discouraging alike to manufacturers and employes. From present indications it now looks as if by the pack of 1907, which promised to be so large along the Maine coast at the outset, would not be more than one-half that of last year or thereabouts. The packers in this city and Lubec will probably endeavor to keep their factories open as long as possible while the run of fish continues so abundant, but they are beginning to realize that they will soon have to lessen their forces, and disperse with out-of-town help if conditions do not soon change for the better.

KOCH'S INQUIRY INTO "SLEEPING" SICKNESS

The Famous German Professor Making Many Cures Among the Natives in Central Africa.

BERLIN, Sept. 5.—An account of some of the recent experiences of Prof. Koch in Central Africa whose prolonged inquiry into "sleeping" sickness is making and has reached a medical friend of the professor in this city. About eighteen months have elapsed since Koch left Germany on his present mission. The letter received here is dated from Sese, near Uganda, July 6, and relates how five messengers from the sultanate of Kibira, situated some 200 miles southward, in German territory had been imploring the "great white wizard" to come and cure their dying relatives. The professor, accompanied by Drs. Kuddeke and Feldman, went to the great village of Kibirama, consisting of about 1,000 huts. The physicians were joyfully received by the natives and huts were ready for the party, an extraordinary large one, as big as the sultan's house, being built for the work of Prof. Koch and his assistants.

Within a few days 200 sufferers were brought to the hospital enclosure and injected with anti-toxine and the usual excellent results followed. In all the patients and his assistants treated about 400 natives.

Prof. Koch also went to the shrill region and treated between 50 and 50 natives. His fame appears to have spread throughout Central Africa as appeals to him for help came from the remote districts where it is impossible for either the professor or his assistants to go.

An English naval officer tells this story of a servant named Andrews: "We were practising with a pistol in my brother's quarters, and Andrews was in the small dressing room adjoining, when a ball went through the door and clipped off part of an ear. Most men would have made some remark. He did not, and we knew nothing about it until by chance, looking into the room, we saw him groping about under the table for something he had lost. 'What are you looking for, Andrews?' said my brother. He drew up, stood at attention, and replied in an apologetic tone, as if deprecating his master's wrath: 'I was only a-looking for a bit of my ear, as come off when you fired that shot through the door, sir.'"

Stranger—That's a splendid pair of pigs. What are they worth now?" Farmer—Under a motor car they are worth at least three hundred marks.

Some people doubt that they tell a story of having entered the serpent clear across the river one day by floating it with berries from their boat. They are commencing to think that he is harmless and is a little inclined to regard him as a pet.

MUSICAL INSTRUMENTS.

UPRIGHT Pianos, \$4.00 A MONTH.

A good way of buying a Piano if you do not feel like fully deciding now, is to rent one for six months and then buy it. You can come here and choose a new Piano assuming no responsibility beyond giving the trifling sum agreed upon—\$4, \$5, or \$6. You can keep it as long as you wish, and should you decide to purchase after a few months, we will allow from the price all the rent paid.

Summary—Substantial demand for stocks in loan crowd in spite of covering of shorts on Thursday's advance. No truth in Morgan Union Pacific control.

NEW YORK, Sept. 6.—Evidently London did not take kindly to the announcement of the extra Burlington dividend and instead was more influenced by the deterrent factors as the failure of Watson and Co., and the action of the Inter-Met directors.

Possibly London may be a seller of our stocks this morning but the strong tone which prevailed yesterday afternoon will hardly be counteracted by any selling for the foreign account. The increase of the dividend rate in the Burlington stock means an additional one million dollars a year to be divided between Great Northern and Northern Pacific and the extra dividend will give them over six million more. The position which they will make of the dividend is not known, but it is rumored that it will be distributed to the stockholders immediately in a separate dividend.

We look for a firm undertone in our market during the day.

LONDON, 2 30 p. m.—Generally speaking the securities markets are dull and in some sections there is a disposition to sag. The foreign houses show a heavy tone and British home calls after an advance are easing. Foreigners disclosed irregularity early but have steadied and South African mining issues are improving. Hedging in America has been quietly increasing in advance of the stock exchange holiday tomorrow and the Jewish holiday on Monday next. The operations are mainly professional and it is to be noted that there is an absence of real pressure.

LIVERPOOL, 2 p. m.—Futures quiet 2 to 4 1/2 net lower.

EMIGRATION TO AMERICA IS STRONGLY OPPOSED

NEW YORK, Sept. 6.—After a tour of inquiry into the immigration situation abroad, which carried them through Great Britain and Continental Europe, the members of the sub-committee of the U. S. Immigration Commission which Senator W. P. Dillingham, of Vermont, as chairman, arrived here today on board the steamship Cedric. The members have obtained data which they believe will aid in solving many immigration problems. The whole committee will meet later and prepare a report. Senator Dillingham said today: "The commissioners gave special attention to the methods employed by the transportation companies in handling emigrants, the effect of the United States immigration laws upon European immigration and the attitude of the various countries towards the departure of their subjects to other lands. The question of preventing the coming of criminal

BRIGHT DAYS IN STORE FOR DOMINION STEEL

HALIFAX, Sept. 6.—The work of the directors of the Dominion Iron and Steel Company has been concluded and the majority of them have returned home. At the meetings held the last two days, many matters of importance, not only regarding the operation of the plant, but the development of the raw material of the concern was discussed. According to Senator Forget, it was definitely decided to undertake as soon as convenient the further development of the iron ore at Wabana, not only for the purpose of supplying the Sydney plant but also for sale and export trade. The directors appear confident that the properties at Wabana are practically inexhaustible and see in this departure a new source of revenue. It has also been concluded to go forward with the development of coal areas so that the company will not be dependent on outside collectors for this most important element in the successful operation of the plant.

FREDERICTON HOSPITAL DOCTORS COMPLAIN

That Partly Has Been Shown by the Heads of the Institution in Receiving Patients

FREDERICTON, Sept. 6.—The trustees of the Victoria hospital held an investigation last evening in respect to certain complaints made by the medical staff against the institution.

Four of the medical staff were present, viz: Drs. Atherton, G. J. McNally, Bridges and Weaver.

Dr. Atherton was heard and made a statement to the effect that a certain physician named Dr. VanWart had received favors at the hands of the management to the injury of the rest of the staff; that he had known of certain occasions on which his own patients had been denied admission to the hospital; while he knew that at the time of shortly after, others were allowed to enter; Dr. McNally corroborated Dr. Atherton, while Drs. Bridges and Weaver did not wish to make any statement.

Miss McAlpine, the matron, denied the accusations made by Dr. Atherton and called for any definite charge when she was prepared to meet it. The object has ever been the advancement of the institution. The investigation adjourned at midnight to meet again next Monday.

STEAMER LADY EILEEN IS ASHORE AT GASPE

GASPE BASIN, Que., Sept. 6.—About 2 o'clock this morning the steamer Lady Eileen, of the Interprovincial Navigation Company, grounded in the harbor about two miles from the wharf. The night was dark and rainy and the captain in all probability was confused by the lights on the schooners and other vessels in the bay. The vessel is resting on sand, but makes her position difficult in that the grounding occurred at high tide and at the low tide of the morning, there was hardly three feet of water about the boat.

The Government steamer Princess is in port, and will try to float the Lady Eileen at the next high tide in the afternoon. Quite a number of passengers are on board the Eileen, but they are in no danger whatever, as no wind can affect the boat in the harbor, and it is expected that she will be got off within a short time.

The dredge Beaver will be placed at work on the northern side of Sand Point ship for high water work and will complete the work on Mc. Mayes' contract at low tide. The dredging at the twenty-two feet depth on the face of the 600 ft wharf will be begun at once.

CHINESE SMUGGLING CASE WILL COME BEFORE JUDGE RUSSELL

HALIFAX, Sept. 6.—The matter of the seventeen Chinamen held in jail in Sydney on suspicion of having been smuggled into Canada from Newfoundland to escape the head tax, is to come before Justice Russell on Tuesday on habeas corpus proceedings. An application for an order for a hearing was made today, and the judge intimated he would grant it this afternoon, returnable Tuesday. Counsel for the Chinamen takes the ground that there is no provision in the statute for holding the Chinese without a warrant and further that they are Canadian citizens, in proof of which one of the Chinamen exhibits a certificate showing that Wong Wing Yun, aged 14, the head tax at Vancouver December 10, 1902.

LOCAL NEWS.

One lonely drunk was found the usual amount in the police court this morning.

It cost Miriam Lodge, I. O. O. F., about \$75 to entertain a grand lodge last month.—Beacon.

Officer George Henry, of the North End, returned from his holiday trip to New York, Boston and Portland today.

The high levels in the city will be short of water from 10 a. m. tomorrow until some time on Sunday afternoon. The water will be turned off while repairs are being made to the reducer at the Marsh Bridge.

Yesterday afternoon about 6 o'clock a horse slipped on a decaying covering of a sewer man hold on King street. The covering crumbled and fell in the hole, but the horse escaped injury. A new cover was placed on last night.

The Portland Y. M. A. will be represented in the M. P. A. A. championships at Halifax by two members, Bovard and Giggey. Sterling had also been training for the sports but finds he cannot attend owing to a slight illness. The P. Y. M. A. representatives are entered in the 100, 220 and 440 yard dashes.

The ladies residing at Renforth have presented to James R. McManus a beautiful mahogany outfit box. McManus is the baggage master on the suburban express and the presentation is a token of approval of the many kindnesses shown by him to the travelling public during the past season.

The death of Mrs. Ellen Beaulieu, of Buctouche, occurred on Wednesday, September 4th, in this city. Mrs. Beaulieu leaves one sister, Mrs. Mary Gifford, of Mirford, and two brothers, Patrick and Peter McFadden in Buctouche. The funeral was held this morning to the Cathedral, where a requiem mass was celebrated by Bishop Casey and Father Moehan. Interment was in the New Catholic cemetery.

The Bangor News of Wednesday prints an excellent cut of O. B. Fernandis, chief of the Old Town fire department and grand marshal of the Maine division in St. John firemen's parade. In an interview Assistant Engineer Frank Granville says: "The time of our lives. They couldn't do too much for us. We were royally entertained from the moment we landed until we left."

The steamer Bay State due yesterday did not arrive until this morning, having been delayed by the weather. The steamer Yale, Captain Pike, also arrived this morning, and for a time matters were quite lively with the discharging of freight and the disembarking of passengers. On Tuesday next the Yale goes off the route, and on the 13th goes on the New York route. Captain Pike is to take charge this month of the large new turbine Camden.

A number of laborers working on the new I. C. R. freight shed on Pond street have struck for an increase in wages. They claim that they are getting \$1.00 per day and being paid monthly, while other laborers are receiving \$1.75 per day and are paid weekly. They believe that they should be paid a like amount. It is understood that the I. C. R. officials are investigating their claims.

Joseph Taylor, stage carpenter of the Opera House, received an internal machine yesterday. Mr. Taylor became suspicious, owing to the fact that one had damaged Harry McMahon several years ago at the theatre. Mr. Taylor inspected the machine, which was inside a pencil box, in water and then turned it over to the police. The parcel was given to Mr. Taylor last night and was securely wrapped up. Although it was stamped it had not been sent to the post office. Mr. Taylor does not know who could have sent him the box and Detective Killen is now working on the case.

The annual business meeting of the W. M. S. of Queen Square Methodist church was held on Thursday afternoon. The following officers were elected for ensuing year:—President, Mrs. G. M. Campbell; 1st Vice President, Mrs. Gronlund; 2nd Vice President, Mrs. H. V. Marr; Rec. Secretary, Miss B. Thompson; Cor. Secretary, Mrs. S. B. Bustin; Treasurer, Mrs. Dales; Auditor, Miss C. Grant. Special mention was made of the loss by death of two of the oldest members of the Auxiliary, Mrs. Barlow and Mrs. Quinon, and of the death of Frances Bustin, of the Mission Band. Mrs. Gronlund will represent the society at the convention in Charlottetown, Sept. 25th inst.

The Massey Harris Co., Ltd. will shortly remove from St. John to Moncton, which latter town will henceforth be the distributing point for the Maritime Provinces. It is felt that the transportation facilities from there are more convenient than in St. John for the business of this company. A commodious building is being erected in Moncton and will be ready in a couple of months. By the first of December the company will vacate the premises now occupied on German street. St. John, hereafter will conduct an agency in this city, although of course the work now being done here will be almost wholly done here. It is not yet known who will occupy the German street building when the Massey Harris people leave, but it is understood that the P. E. Williams Co. have an option on it. There is, however, said to be some objection on the part of property owners in the vicinity, who oppose the idea of the Williams concern opening a pork packing plant there, which the believe is the intention. The building is owned by Dr. Walker, of South Bay.

GREAT PREPARATIONS FOR VISIT OF GENERAL BOOTH

Over Two Hundred Army Officers from Different Parts of the Provinces are Expected—Governor Tweedie Will Preside at Meeting in Opera House

The Salvation Army officers are making elaborate preparations for the reception of General Booth who is expected to arrive at Rimouski on the steamer Virginia on the twentieth inst. He will proceed direct to this city arriving here on Saturday the 21st at one o'clock. He will be greeted at the depot by the mayor and other officials besides the leaders of the Army in the maritime provinces. On arriving at the depot, where a short public reception will be held, the general will be driven to the residence of Joseph Bullock, Germain street. During his visit to this city he will be the guest of Mr. Bullock. On Saturday evening he will be present at an officers' meeting in the auditorium of the new Salvation Army barracks. On Sunday the Opera House will be held and meetings will be held at eleven o'clock in the morning, three in the afternoon and seven in the evening. At the afternoon's meeting His Honor the Lieutenant Governor will preside. Over two hundred Army officers from the surrounding districts will come to the city to attend the meetings. On Monday night the general will leave for Halifax. General Booth is accompanied by four members of his staff on the trip from the old country. These gentlemen are Commissioner Nicol, Lieut.-Colonel Mapp, Colonel Lawley and Brigadier Cox, private secretary to the general.

JEWISH NEW YEAR BEGINS ON SUNDAY

Several Feasts are Coming in Succession—The Services to be Held in St. John.

On Sunday at sun-down the feast of Rosh Hashan, the Hebrew New Year, begins, and lasts until Tuesday. The feast of Rosh Hashan marks the beginning of the year 5668 in the Hebrew calendar and the new year will be ushered in with the usual thanks for the prosperity of the year that have passed and prayers for continued prosperity and happiness in the years to come.

In the absence of a permanent rabbi in the synagogue on Hazen street a reverend gentleman, who has not yet been decided on, will come from New York to conduct the services. The services in the Carlton street synagogue will be conducted by Revs. Seigle and Horenstein. Services will be held in both synagogues Monday and Tuesday morning, afternoon and night. They will consist of the usual prayers of the New Year feast and the ceremony of blowing of the ram's horn at noon by the officiating rabbi in each synagogue, the blowing of the horn signifying peace to all the world. During this feast all true Hebrews close their places of business and there is a general suspension of trade.

Ten days after the feast of Rosh Hashan comes the feast of Yom Kippur. This is the most solemn and is most religiously observed by all good Hebrews. It is a day of strict fast extending from sundown of the day preceding to the sundown of the day of the feast. Three days after the closing of Yom Kippur the feast of Sukka. This continues for eight successive days and on the last day of which the chief of the Hebrew Bible is read, the last page turned, and the first page is brought out. The New Year is then well on its way, there being no more feasts of any great importance until the feast of the Passover.

TWO GIRLS WERE STRUCK BY A MAIN STREET CAR

But Theresa McMurray's Coolness Saved Her From Serious Injury.

There was great excitement on Main street at noon today when street car No. 25, while coming down the hill near Harrison street, ran into two children returning from school. The children were thrown to the ground but escaped serious injury.

On account of the wet condition of the rails the motorman found it hard to stop the car on the down grade, and he was horrified to see three children on their way home from school attempt to cross the track in front of the fast moving car. The children who are pupils in St. Peter's school, are the daughters of Thomas McMurray, Chesley street.

The younger girl was thrown beyond the track and lay there for a few moments. The older girl, Theresa McMurray, was picked up by the fender. She remained cool and settled down in the net out of harm's way. After advancing some seventy-five yards the motorman succeeded in bringing the car to a stop, and the girl stepped from her perilous position unharmed. Bystanders say that it was the girl's coolness in sinking into the fender that saved her from receiving serious injury.

THE FRANCIS CASE IS BEFORE COUNTY COURT

When the county court opened this morning to hear the trial of John Francis who is charged with receiving stolen money knowing it to be stolen, it was found that the panel of jurymen had run out and only six were available. Constables were sent out to hunt up some more jurymen and shortly after noon others were obtained and the following jury was empanelled:—Wm. Craft, John Walker, Thos. Logan, Sidney Gibbs, R. R. Patchell, Jas. H. McHugh, W. H. Drake, Walter H. Bell, Caleb Bolivar, Walter H. Carnell and James Wales.

After the charge was read H. A. McKewen for the Crown outlined the case. Daniel Mallin appeared for the defense. The first witness called was Wm. Lounsbury, who told how his money was stolen from him by Martin Ferrish in her house on Sheffield street. He then described the money and identified the money found on Francis as similar to the bills stolen from him.
