There is considerable amusement here today as a result of the supreme court judgment in the Carleton election trial matter. It is generally believed that the government postponed calling the legislature awaiting the judgment of court with idea that trial would be commence at Tuesday as a fixed by Judgment of the supreme court judgment, proceedings will have to be begun all over again, and that will take time. The law provides that the first of the session and must commence at twenty days before the session opens. winnipeg, Feb. 12—The Liberals have accepted Premier Roblin's challenge to prove that men were refused and cheated out of their franchise in the preparation of the lists for the last electon. He is trying to sidestep the issue of stuffed lists by hiding behind the subterfuge that no one was improperly kept off, maintaining that his challenge refers to that only. They expect to prove gross corruption and partizanship in the making up of the lists.

SUICIDED BECAUSE HE WAS NOT NOMINATED

CHICAGO, Ill., Feb. 12.—Alderman Joseph A. Kohout, long a Democratic leader in the city council committed suicide today by shooting himself in the head in the basement of his home. His wife found the body. Alderman Kohout was a candidate for re-election. He was a participant in a spirited contest to obatin the nomination. Disappointment over the failure of his ward club last night to endorse him for re-nomination is supposed to have prompted the suicide.

The Brock & Paterson Association held their annual dinner last evening at White's restaurant. A most enjoyable time was spent. There were about thirty members in attendance with Georg Z. Kirk presiding. After doing justice to the good things the usual toast lists were proposed and responded to. The address of W. F. Washburn in replying to the toast of 'Departed Friends' was very ably given. A fine programme was carried out.

Micolas Dascoline, a native of Austria, who was arrested last week on a warrant charging him with forgery, as he was about to sail for his home in Austria, and who was later discharged by Magistrate Kay at Moncton, was again arrested yesterday by Provincial Constable Gibbon for debt on a writ issued by Sheriff Ritchie. Dascoline intended salling for home on the Empress of Ireland, but unless he pays the amount of the debt, \$150, he will be unable to do so.

The police report that the catch basin at the corner of Princess and Water streets is stopped up and that yesterday afternoon a pool of water about sixteen inches deep formed there. During the afternoon Sergt. Baxter, who is on duty there, saw six women and several men step into the hole. The sergeant spent as much of his time as possible at this point, and even placed a large stick in the centre of the pool, but in spite of this many of the people whose business called them to that vicinity got wet feet. The water and sewerage department were notified early in the day but did nothing to relieve the situation.

In the ordinary dirigible balloon the two merhanical devices which control it are a propeller which sends it forward and a rudder which governs its course. In Mr. Anthony's invention other devices are added. Besides the propeller and the rudder he has a second propeller directly beneath the centre of the frame, which operates vertically and lifts or lowers the airship at the will of the operator. He also has added a mechanical device which at the call of a few dots and dashes, releases a clutch which drops a small weight representing a charge of dynamite to be used in warfare.

"READY FOR SAILING ORDERS." During a two hours' trial Wednesday the inventor sat at his keyboard in one end of the building and caused the balloon to do everything that any one asked. After being inflated it was placed in an attitude of about 15 feet from the floor, at one end of the long shed, and Mr. Anthony announced that he was ready for "sailing orders."

"Send it ahead," said one of the visitors.

air it would work even better outside than it works in here, because in this shed there are many eddies and cur-rents of air that affect the gas bag. I may say, however, that I could take the instrument over to Manhattan or to Newark, leaving the balloon here and get precisely the same results you have seen here."

Only small storage batteries were used in the trials, but in the full size machine Mr. Anthony said he would use compressed air motor for motive power, instead of gasolene motors.

It is Mr. Anthony's idea that the invention will be used chiefly for military purposes. He says then or a dozen

HAS TAKEN OUT PATENT.

Mr. Anthony has already taken out patents on various features of his device in this country and in most of the countries of Europe. He said Wednesday last that, while several inquiries had been made by representatives of foreign governments concerning his invention since the first publication of it in the Herald last December, he had made no efforts to dispose of his patents and was not particularly interested in that part of the enterprise at present.

"My chief desire," he said, "is to perfect the invention to a point where its practical use may be demonstrated. I know in my own mind that the secret of wireless control of aerial craft has been discovered, but it is necessary for the world to be able to prove it before the thing will amount to anything. I am very near that point now. I am now prepared to demonstrate, as I have done here today, that we have the correct principle, and its singular that more serious accidents have not occurred as some of the streets were not visited by the sand man at all.

BRITG RESUL BRIMG RESULTS

WILL BE NO IMPROVEMENT IN FARM OR DRAFT HORSES

"Although the introduction of thoroughbred stock into New Brunswick cannot have other than a pronounced effect," said Dr. P. F. Blatten in conversation with The Sun yesterday, "the improvement may by no means be looked for among ordinary draft and farm horses. To breed the imported animals with inferior stock would not be productive of any results worth while."

Wednesday morning Mrs. Atwater slept late after the galety of the regatta ball. Anna had watched her smilingly the night before, from the closely packed windows where the villagers and servants of the summer people pressed to see. As her mistress glided lightly down the room in a maze of carfs and lanterns and paper flowers, Ana saw their possibilities on the morrow. Once she turned to her little charge, sleepily leaning against her side.

was distracted from her game of bridge, with which she beguiled the tedium of her night at home by the clatter of dish-washing, and rose to warm Anna to silence, for in the shell-like cottage every sound was audible.

The game soon after dre wto a close, ladies' light laughter as her mistress recounted her afternoon at an auction.

It has been the lot of but few in the life of the world to rise from the obscurity to the highest offlice in the gift of a nation; rarer still for any man to accomplish, as Lincoln did, such advancement solely by his own unaided efforts. Yet Lincoln, born in almost abject poverty, handicapped by the impossibility of intercourse throughout his earlier years with persons of education, friendless until his personality commanded friendship, rose from a childhood of ignorance and obscurity to the pinnacle of power and responsibility in the great American republic.

It is frequently remarked that every determined man finds his opportunity; it is equally true that the occasion finds the man, and the American union was at the most serious crisis in its history when Abraham Lincoln, to the surprise of the nation and of himself, was called to be the chief executive. The country was rent asunder, families were divided against themselves, for the abolition of slavery was brought home to every citizen as was brought home to every citizen as than had been the movement toward independence. On the result of Lincoln's administration depended the whole future of the Republic, and perhaps no nation ever took a greater chance than by entrusting to an unlettered countryman, the duty of solv-

FUKESHUKE IU C.P.R. IN EXCHANGE FOR STRIP

At a meeting of the council of the of a resolution approving the transfer. Board of Trade held yesterday it was W. E. Foster presided at the meeting.

Board of Trade held yesterday it was unanimously decided to approve the transfer by the city to the C. P. R. of the foreshore back of Sand Point in exchange for the sixteen hundred foot strip south of No. 1 controlled by the railway corporation.

The council met to consider the report of T. H. Estabrooks, who recently visited Ottawa in company with His Worship Mayor Bullock and Ald. Frink as representing the city in the matter's disposal.

Mr. Estabrooks reported that the negotiations stood in precisely the same position as they did before the trip to the capital had been made. He said that the delegation had had a long interview with the Minister of Public Works, who was strongly in favor of the transfer being made. They had returned from Ottawa, however, with the matter still in abeyance.

A lengthy discussion followed the reading of the report. It was brought to a close in the unanimous adoption

The city, it is understood, has contended throughout the progress of the negotiations that the deeding of the rarticular foreshore asked for by the C.

P. R. would interfere with the approach of other lines seeking terminal facilities at the port and for this reason the pilgrimage to Ottawa was made. It is said, however, that the delegation has been disabused of this idea and that when the committee next meets the transfer will be recommended without more ado.

EXPERT REPORT WARMLY ADVISES SECURING THE RADIAL FEEDING LINES

OTTAWA, Feb. 11.—The report of the two commissioners appointed last September by the Minister of Railways to investigate the present traffic conditions and possibilities of the branch railway lines in New Brunswick and Nova Scotia tapping the Intercolonial, with a view to having these branch lines absorbed into the government trunk line was presented to the commons today by Hon. Geo. P. Graham.

The commissioners, Superintendent Tiffin of the I. C. R. and D. A. Storey report on each of the thirteen branch lines in the two provinces, and their conclusions are summed up strongly in favor of the absorption of nearly all of these roads by the Intercolonial, thus giving one strong management and adequate equipment and facilities for radiating small roads, many of which are now badly equipped and are of little practical use in the development of the country.

Company has paid since November, 1906, between \$2.75 and \$3 per ton, and will of course, be refunded them. The company is also entitled to get a large sum for short delivery prior to 1906 and for the shutting down of works. These are but fiea bites, however, to what comes next, when damages are assessed for 99 years for breach of contract. The tonnage used breach of contract. The tonnage used is about a million a year, which, at contract price, would make it about a million and a quarter dollars. The Coal Company said it would not supply coal for steel making at less than \$2.50 per ton, and I believe that the simple sum in arithmetic will bring damages payable to Steel Company to be ween seventeen and twenty millions of dollars."

LINCOLN'S CENTENNIAL OBSERVED IN ALL THE LARGER CITIES OF THE UNITED STATES

(Continued from page one.)

LONDON, Feb. 12. — The English to appreciations of Abraham Lincoln. There was no celebration in London, but in the mayor's house at Manchester there was a small gathering this afternoon, at which the Right Rev. James Welldon, Dean of Manchester, presided. Alfred Hopkinson, Vice-Chancellor of Victoria University, moved a number of eluogistic resolumoved a number of eluogistic resolu-tions, and Church Howe, the American

tenary was generally observed throughout the islands today by pa-triotic exercises held in the schools. BOSTON, Feb. 12.—The tribute of Massachusetts to the memory of Abra-hem Lincoln today was as graphaneous Massachusetts to the memory of Abraham Lincoln today was as spontaneous as that which marked the prompt response to his call for troops in 1861. While not a general holiday, there were gatherings of patriotic citizens in nearly every city and town, patriotic songs were sung, aulogistic addresses delivered, and the Gettsburg speech declaimed by many a schoolboy and notable orator. Flags flapped in the breeze from all public and many private buildings, Lincoln's face looked out of the windows along the business streets, momentos of the war were out of the windows along the business streets, momentos of the war were again displayed, and old soldiers re-told their stories of siege and battle. School exercises in the forenoon were

afternoon.

CHICAGO, Feb. 12.—Fifty public meetings, a city fairly buried beneath flags, bunting and portraits of Abraham Lincoln, show windows filled with civil war relics and Lincoln mementos the streets crowded with marchers and military bands, this is the spectacle which Chicago presented today in the celebration of the 100th anniversary of the birth of President Lincoln. The federal, county and municipal departments and many branches of business were closed to make the holiday a proper climax to Lincoln centennial

week.

At the principal demonstrations of the day held in the auditorium the orator was Woodrow Wilson, president of Princeton University. Wm. J. Calhoun was chairman. This was followed by the firing of a presidential salute by Civil War veterans at a spot near Lincoln monument in Lincoln park. A feature of another meeting was the arrangement of members of a chorus to represent a gigantic American flag. Speakers selected for other meetings included J. A. MacDonald, of Toronto. NEW YORK, Feb. 12.—The booming of guns at Fort Hamilton, Fort Wadsworth and on Governor's Island, from warships in the harbor and by batteries of the National Guard early this warships in the harbor and by batteries of the National Guard early this morning, ushered in the celebration in this city on the one hundredth anniverdary of the birth of Abraham Lincoln As the city bestirred itself, thousands who remained at home for the holiday prepared to go to church and synagogue for service in honor of the great emancipator, while school children made preparations for exercises at the 561 schools throughout greater New York. At 2 this afternoon the exercises in Cooper Union with Mayor McClellan presiding were to begin.

Perhaps the greatest celebration of the day will be held in Carnegie Hall tonight when General Horace Porter will preside with a chorus of five huniren. from the United German Singing Societies as one of the special features. Other celebrations will be held the day will be held in Carnegie Hall tonight when General Horace Porter will preside with a chorus of five hundren. from the United German Singling Societies as one of the special features. Other celebrations will be held at University of the City of New York and the various armories in the city in addition to minor ceremonies.

HODGENSVILLE, Ky., Feb. 12.—Reverent and curious Americans to the number of several thousand to day dedicated the mean little cabin in which Mberty wrought her last great miracle. The present head of the nation, the governor of Abraham Lincoln's native state, two eminent leaders in the struggle through which Lincoln brought forth the nation reunited and free, another, late the governor of the state Rayen like Kentucky between the fires of sectional devotion and duty, all these and a host of others in the forefront of American life, joined in the act of consecration. Something of the uncouthness so inseparable from Lincoln during his life was distinct in the heart of the ceremony of today which celebrated his outer beach near Saint Andrews Bay. was distinct in the heart of the ceremony of today which celebrated his one hundred birthday. The tent which served as auditorium was roped off from the crowd. In its center, beside the platform is the cabin itself, its logs worn smooth where the bark was pealed off or rotted.

CAPTAIN OF THE GEORGIA TELLS A THRILLING TALE

Cast Away on an Island in the Midst of a Snow Storm—Escaped by Climbing Ice Covered Cliff.

Capt. Isaac H. Smith, of the schooner Georgia, which was wrecked on Munroe Island, off Owl's Head, Me., reached the city today with the crew of the vessel. The other members of the party are:: George E. Smith, mate of Parrsboro; Bonjamin Morris of Australia, John Dhal of South Africa, Geo. Apgood, of Newfoundland, and Fred Clark, the steward, of Sweden, Me. Captain Smith said that the vessel Captain Smith said that the vessel struck in a very thick snow storm about two o'clock on Wednesday morning. The wind was to the eastward at message: "The Lincoln city flag

ALD. BAXTER HELPED TO LIVEN COURT PROCEEDINGS

In Case of Contractors vs. St. John -Minor Witnesses Being Disposed of.

FREDERICTON, N. B., Feb. 12—The McArthur and McVey case vs. the City of St. John was resumed this morning in the supreme count chamber. Ald. Baxter joined the counsel for the city and assisted in livening things up a bit. Levi Hall, who had been foreman on construction work, was first examined. He described the nature of the rock cuttings and told of the difficulties encountered by the centra tors. ties encountered by the contractors.
Robert J. Porter was next called and told of the part he took in laying the reinforced concrete work. Under cross-examination by Mr. Baxter he admitted that the contractors were able to lay the concrete work in a five foot trench.

OVERCOATS BELOW COST

We have cut the prices on many of our overcoats to less than the gar-ment cost us.

Nothing philanthropic in this—it's just plain business. We want to move ALL the overcoats, to make room for the new incoming lines. We would rather sell at cost or below, than to carry them over until next season.

So HERE AIND NOW is the time and place to select a good, nonestly made and really handsome overcoat at a price that will be at least \$6 to \$10 less than you would ordinarily pay.
