**PUBLIC IS URGED TO  
HEED NATURE'S WARNING**

**Thousands of People Suffer Permanent Loss of Health  
Because of Neglect—Nature Has Set the Danger Signals  
for Us and We Cannot Afford to Pass Unnoticed the  
Warning That She Gives Us.**

Good digestion means good health; bad digestion means  
bad health.

A sound stomach is worth a hundred times its weight in  
gold. Probably eighty per cent of all diseases originate in  
the digestive organs. Dyspepsia, or what is more commonly  
known as indigestion, is not only one of the most prevalent,  
but it is one of the most difficult to treat of all present day  
diseases, and has for years baffled the skill of leading speci-  
alists everywhere.

Stomach trouble is almost always  
followed by a complication of dis-  
eases. One of the first being an over-  
worked liver, with all the symptoms  
of biliousness, followed in turn with  
headaches, coated tongue, nausea,  
dizzy spells, pain in the back, palpi-  
tation of the heart and other distress-  
ing symptoms. Sooner or later the  
kidneys will become involved and that  
is just why these danger signals  
should be heeded in time. A wise  
man puts out the fire before there  
is too much destruction; the same  
theory should apply to stomach trou-  
ble.

Gas in the stomach means fermenta-  
tion instead of digestion; decay, in-  
stead of nutrition for fermentation  
produces poisons, which are absorbed  
by the blood, and which frequently  
brings on the condition known as  
auto-intoxication or self-poisoning.  
This is also why we develop acidosis,  
which brings on so many compli-  
cations such as rheumatism, hardening  
of the arteries, high blood pressure  
and other conditions, which may mean  
permanent loss of health. Acidosis is  
one of the main forerunners of  
Bright's disease and diabetes, hence  
it is evident that if we have stomach  
trouble, however slight, we are fool-  
ish indeed if we do not take prompt  
steps to correct it.

If we are not fit as a fiddle in the  
morning; if we don't feel better than  
when we went to bed; if our breath  
is offensive; and if we have that bad  
taste in the mouth; nature has set the  
danger signals for us and we cannot  
afford to neglect the warning that  
she gives us. That is just why the de-  
mand for Tanlac, the great Stomachic,  
Systemic and Reconstructive tonic has

grown so large and so widespread.  
Tanlac is the only medicine that  
restores the digestive system to its  
normal condition, and thus prevents  
the complications of indigestion.  
Tanlac is the only medicine that  
restores the blood to its normal  
condition, and thus prevents the com-  
plications of anemia.

**Lendendorf Always  
In Controversies**

**Forced into War, He Says, to  
Defend the Fatherland —  
Didn't Want War.**

Berlin, Sept. 14.—(By Dominion  
News Service.)—Lendendorf seems  
unable to be without contro-  
versies. No sooner does one of his  
raising his voice than he plunges head-  
long into another. At a muster of  
former body guards at Frankfurt-  
am-Main he delivered himself of the  
following astounding assertions:

"When we were forced into the war  
in 1914 we entered it to defend the  
fatherland. No responsible German  
ever wanted war, and here, where for  
the first time since the end of the war  
I have the opportunity of speaking to  
soldiers, I should like to emphasize  
that throughout the entire war peace  
with the enemy was not possible be-  
cause the enemy desired our destruc-  
tion, while we were ready for peace  
at any moment. We fought for our  
existence and honor, not for territorial  
acquisition."

In an attempt to exonerate the  
German Government so far as the ori-  
gin of the war was concerned, Lenden-  
dorff will have the support of the ma-  
jority of his fellow countrymen. How  
fair an echo he will find for his  
other statements is clear from the  
sharp comments of the official organ  
of the Centre party, which denies that  
he, at any rate, has the right to range  
himself among those who did not  
fight for territorial acquisition, and  
points out how the pacific action of  
the Pope in 1917 was brought to naught  
by the calculated alliance of Ger-  
many on the question of Belgium.

**Too Much Fresh  
Air Brings Death**

**Five Weeks Old Baby Suffo-  
cated from Ride in Chara-  
bane.**

London, Sept. 14.—(By Dominion  
News Service.)—A five-year-old baby  
has died from suffocation as the re-  
sult of a ride in a charabanc.

Mrs. Shorter, of Plumstead, took  
her baby daughter, Peggy, for a ride,  
and on arrival at the village of West-  
on the child was taken ill, and died  
from suffocation, a doctor said.  
At yesterday's inquest, when a ver-  
dict of accidental death was returned,  
the coroner spoke strongly of the  
folly of taking a young baby in a  
charabanc, especially at night. The  
vehicle rushed through the air at 20  
miles an hour. Had the baby not been  
suffocated it might have developed  
pneumonia, or have been injured by  
the unusual shaking up, and its brain  
affected, so that it might never have  
been any good for the rest of its life.

Many Deportees On White Star Steamer

When the Red Star liner Zealand sailed on Saturday from New York she carried 89 persons deported under the U. S. immigration restriction law, who were being sent back because the August quota of immigrants from their respective countries had been filled. The deportees are reported to have been in great distress, as they had already sold all their possessions in Europe and had nothing to go back to but want. An ironic side of the situation was that the steamer, in which these people sailed, passed coming in another of the same line, the Kronland, bringing several hundred people like themselves, chiefly Poles and Czech-Slovaks, who will be admitted in the September quotas of their respective countries.

Soldiers Making Good On Lands

Mrs. Jean Muldrew Says 25,000 Ex-Soldiers Settled and 15,000 of Them Married.

Mrs. Jean Muldrew, who has been for some time connected with the Soldier Settlement Board, was in the city yesterday to attend a meeting of supervisors. Speaking by a Standard representative last evening she was enthusiastic over the way the soldiers who elected to go on the land have made good and their success she said had been at least equal to the average of civilians. They were meeting with difficulties but they were grappling with them in the right spirit and in the great majority of cases, coming through all right.

There were now in Canada about 25,000 ex-soldiers settled on farms by the Soldier Settlement Board and of this number 15,000 were married. They were principally in the four western provinces, Alberta having the largest number of any single province. It was simply wonderful the way the men had taken hold and the enormous acreage which had been brought under cultivation through their efforts. They were doing the work of pioneers and doing it well.

Water Main Is 83 Years Old

Ten Inch Pipe Being Removed from Prince Wm. Street—in Service Since 1838.

The city water works department is excavating on Prince William Street for the purpose of renewing the ten inch main with a sixteen inch main extending from the front of King to Princess Street. It may be of interest to state that the present ten inch main in Prince William Street has been in service since the year 1838, a period of eighty-three years. The source of supply was obtained by means of a wooden box conduit from the tall race of Gilbert's water power grist mill at the outlet of Lily Lake. When the water system was installed, the head or source of supply was the outlet at Lily Lake from which the water was conveyed through a wooden box conduit to a steam pump located on the northern side of City Road, about one hundred feet west of Marsh Creek. By means of the pump the water was driven via Brussels and Carmarthen streets to the old reservoir in what is now the city pipe yard on the corner of Leinster and Carmarthen streets. From this point the main pipe was extended to King Street East and westward to the foot of King Street.

A Fair Trial And a Shave

Unique Request from Prisoner Charged With Assaulting Wife—Other Cases in Police Court.

"A fair trial," "justice," and a "shave," formed part of the request of William Butler, of Britain street, who was before Magistrate Ritchie yesterday on the charge of assaulting his wife. As the trial progressed an animated discussion broke out between the defendant, his mother-in-law and the Magistrate, and was only terminated when Butler was sent below.

Mrs. Lasher, a neighbor, stated she knew Mrs. Butler, who had been in poor circumstances for some months past. She produced a grocery bill which included a list of supplies she had been obliged to buy for the woman, and said she had given her a pair of her own shoes, as Mrs. Butler had no shoes on her feet.

Mrs. East, the mother of the complainant, also had come out from England in July to be with her daughter, who was to have a child early in October. She said things had been going badly since her arrival, Butler did not maintain his wife, and Tuesday he had assaulted her by pushing her against the wall. Previously he had threatened and abused her. She also said her daughter looked very thin as though she was not getting proper food.

Mrs. Walker and Elsie Henderson, two other witnesses also testified against the husband. After commenting on the kind of man who would hit a woman, especially his wife, and more especially when she was about to become a mother, the magistrate asked Butler if he had anything to say.

In reply the prisoner Butler launched forth in a tirade against the character of his mother-in-law which called forth a vigorous denial from the latter. After some little time the court interrupted to ask the defendant if he had anything to say. "Yes, I want Mr. Tilley as counsel." "Yes, I want a shave."

"Very well, take him below sergeant and be sure and see that he gets the shave," said the magistrate, and adjourned the case till 2 o'clock this afternoon.

Total Assessment Of Water Taxes

About \$1,500 Less Received During Discount Period Than Came in Last Year.

About \$1,500 less was received from the citizens this year during the discount period for the payment of water taxes than came in last year but all things considered the chamberlain expressed himself as well satisfied with the result this year. The last two days of this year's days of grace broke all records and the entire staff was kept busy both Monday and Tuesday waiting on the crowds who came to pay, so much so that the mail payments had to be left over until yesterday morning before they could be checked up.

Inconvenience To The Street Cars

Cars Only Using One Track on Prince William and Haymarket Routes Owing to Street Repairs.

Yesterday the street railway had one more difficulty added to the already long list under which it is at present operating, when the workmen of the water and sewerage department started the work of digging up the water main in Prince William street from King to Princess streets and until that job is completed the Prince William street cars will not be able to run south on that street but will go via King, Charlotte and Duke to Pitt and St. James running up Prince William street on the westerly track.

At the present time practically every route is disrupted more or less on account of street work and the company are having difficulty in maintaining their schedule. On the Haymarket, Square route cars can only be operated in one direction because of the paving of Prince Edward street. The East St. John car is running but cannot be brought to the car barns at night because of the work being done on Haymarket Square and has to remain at East St. John all night.
