

The Union Advocate

Established 1867. NEWCASTLE, MIRAMICHI, N. B. WEDNESDAY, MARCH 29, 1893.

Crown Land Report

We have been favored with a copy of the thirty-second annual report of the Crown Land Department of New Brunswick for the past year.

Table with columns for Land Sales, Labor Fund, Investments, etc. Total amount paid by persons in the three Northern Counties: \$1,283,319.60.

Annual Report of the Schools of New Brunswick

This report for the past year is before us. The Chief Superintendent is happy to be able to report substantial progress in almost every department of educational work during the year.

Table showing school statistics for various counties: Kent County, Northumberland County, Gloucester County, etc. Total expenditure during the year: \$1,412,681.21.

"My Country 'Tis of Thee"

ANNUATION DURING THEORE THE BOSTON SOCIAL HISTORY CLUB.

By unanimous consent Mr. Murray was granted more time. He continued his statements ever made, and which remained undisturbed, is that the United States abrogated the reciprocity treaty negotiated by the late Earl of Egin in June, 1854, and abrogated in 1869 by the United States, that the action of the latter was for the sole purpose of forcing the Provinces into annexation, Yankee shrewdness and purpose, and he had yet to learn that the American allows his temper to get the best of his good sense in matters where dollars are involved.

The facts are these; under that treaty an extraordinary increase in trade took place, which was greatly in favor of the United States. The increase rose from \$8,074,291 to \$20,000,000, and at the same time a large amount of the import and export traffic between Great Britain and the Province was carried in bond over the canals and railways of the United States.

In the later years of its continuance the civil war in this country gave a great advantage to Canada, so that in the last years of the treaty the exports of the States amounted to \$24,714,883, whereas the balance of trade continued to be in favor of the United States, and under the operation of the treaty, New York, Boston, Portland and other American seaports, were so largely used for the trade of the British Provinces, that the transportation reflected to and brought from foreign countries, in bond over the railways and canals and in the ocean ships and steamers of the United States became an important element of revenue to their chief lines of transport.

It was old enough to know something about these matters, and while Canada demagogues (who were talking for a title), declaimed and appealed to the passions and prejudices of their people, and successfully too, the impression still prevails, that that treaty was cancelled for the sole purpose of forcing the provinces into annexation, the plain truth is that the necessities of the United States government consequent to the war, made the imposition of an internal revenue tax unavoidable, and in order to escape from the payment of this tax, certain manufacturers had their plant set, and sent to Canada where they conducted their business, and sent the goods back into the markets of the United States free under the treaty, making the abrogation a matter of self preservation.

The effect of all this at a time, when jealousies and heart burnings had arisen, held greatly towards the adoption of the confederation act and the Dominion of Canada was born so as to secure the markets of the lower provinces to the manufacturers of Ontario. But "coming events cast their shadows before" and without comment he read a long letter from one who has had an excellent chance to acquaint himself of what he speaks in reference to this view of the question.

Where spades grow bright, and idle swords grow dull. Where jails are empty, and where barns are full. Where doctors foot it, and where farmers ride. Where age abounds, and where youth is multiplied. Where school yards are frequent trees. Where court yards woody, silent and forbore. Where these things are they surely indicate. A happy people and a well governed.

As Mr. Murray is a very rapid speaker and his abrupt report does him scant justice, the speech was frequently applauded and when concluded he was surrounded by many, who lavished compliments upon him. To whom he said that he had always met opposition and scorn with composure; but a stream of praise disconcerted him.

Mr. Brophy made some lengthy remarks in opposition to annexation, stating that it would be the folly of us to attempt to jumpstart our strength by annexation. In his soul he felt there was trouble awaiting this country and he wanted to be prepared to meet it. In reference to the need of capital he said:

Sumner cannot account for Canada's lethargic condition on a result of the difficulty in getting money with which to exchange products; I agree that in a large measure this is so, but there is much more money in the Dominion than he stated, and progress in Canada has not been commensurate with its increased volume. From the banking returns published in the Canada Gazette it appears that the banking capital has more than doubled in four years by a steadily progressive increase. The tables are imperfect, owing to some of the banks having omitted to make the requisite returns; but while the following tabular statement is an illustrative view of the accumulating fruits of industry within the Dominion—

Table titled 'BANKING CAPITAL OF CANADA' showing capital for 1870, 1871, 1872, 1873, 1874.

BANK DEPOSITS. Post Office Savings Banks, 83,267,265. Government Savings Banks, 3,862,676. Total, 87,129,941.

Baro Wheeled. Vehicles have been in use round town for some days past.

Children Cry for Pitcher's Castoria.

Recent Deaths.

Word has been received of the death in New Zealand of Captain Medley, third son of the late metropolitan. He had Crimen and other medals for service.

Moncton, March 26.—This community was shocked on Saturday morning by the sudden death of Samuel J. McKean, the well known bridge inspector of the Intercolonial railway. Mr. McKean had been indisposed for some days and Dr. Church was called and advised perfect quiet for some days on account of heart trouble. Mr. McKean appeared to be better on Friday and appeared at 3 o'clock on Saturday morning got up, but fell over in a faint and immediately expired. Deceased was born at St. George, N. B. in 1831, and was consequently fifty-eight years of age. He has been permanently a resident of Moncton for the last seven years, but first came to this town some thirteen years earlier. His appointment as bridge inspector of the I. C. R. dates from 1882, but he is one of the oldest railroad men in the province, having occupied a position on the old Goroupan and North American railway before it became a part of the Intercolonial system. He leaves a wife, one son and five daughters; one of the daughters is Mrs. Williamson of New York, the others reside in this town. Deceased was a prominent Mason, being a past master of Keith Lodge, No. 23, and a past high priest of Botsford Royal Arch Chapter of this city. His funeral took place this afternoon under Masonic auspices, and was largely attended.—Sun.

The sudden death of Mr. Edward Whitney, of Northesk, at the St. James' Hotel, Moncton, on Thursday, was learned with regret by very many friends in Miramichi. Mr. Whitney left Newcastle on Tuesday night of last week en route to Michigan to visit his three sons.

A Montreal paper says: Mr. Whitney went to bed and asked to be called in time to catch the "Star" train. No answer being, however, obtained to repeated calls, the door was broken open and the old man was found lying across the bed quite dead. No doubt the cause was the cause of the sudden taking off.

Another account attributes his death to the effects of coal gas. His remains arrived here by the express on Sunday morning. He was 68 years of age.

The death of Emma, wife of W. D. Carter, Esq., and daughter of the late Z. Plimley took place at Richibucto on Monday evening last.

126 Years Old. St. Andrew's Lodge, No. 1, A. F. & A. M., of Halifax, N. S., reached its one hundred and twenty-fifth anniversary on Sunday last, and the event was celebrated on the afternoon of that day by a meeting at which there was a large attendance. In referring to the history of St. Andrew's Lodge, Rev. E. B. Moore, one of the speakers, said:

Worshipful master and brethren, that you can trace the records of this lodge back through one century and a quarter of human history is no small matter for congratulation. 125 years ago this, the number of the lodge of Nova Scotia, was established by warrant from the grand lodge of Ancient York masons in London, bearing date 26th March, 1768, and you have made good your claim to be not only the oldest lodge of Nova Scotia, but the oldest lodge of Canada.

What an interesting retrospect that period of time would present could the mind! Among the early records I find this item: In 1815, the sum of thirty shillings was voted to an American prisoner of war at Dartmouth. That is a work in which Masonry never fails, and her charities embrace both friends and foes. Side by side with the list of good deeds will be found the names of honorable in history, honorable in history, which Masonry and history will never forget, and whose influence is a moulding power in our daily life. But it is not my purpose to give a historical sketch of the lodge. It is a matter entrusted to able hands. Arrangements are being made to carry out an elaborate programme at the first regular meeting next month.

Bathurst Notes. I must this week correct an error made in last week's notes. Mr. Wheeler does not attend the school. Mr. O'Brien as Principal in the Grammar school, Mr. Wheeler teaches a class of Protestants only. The classes are held in Boss' Hall. Mr. Barton, of Saint John, fills the position vacated by Mr. O'Brien.

Congratulations to Mr. and Mrs. Percy Wilbur on the arrival of a little baby girl.

We are delighted to see Mr. Geo. W. Cooke again, and looking so well after his trip to the west.

Dr. J. G. Sprout, of Chatham, spent a few days here last week.

Messrs. J. & A. McMillan's popular traveller, Mr. George Frost, was in town during the week.

A number of our boys drove to Petit Rocher on Thursday to attend the races there.

A branch of the C. M. B. A. was started in Beresford on Saturday. A number of the members of the society here drove up to attend the inauguration meeting.

A very joyous party drove to Salmo Beach on Saturday evening to attend the District Division Meeting there. Among the number were Misses Ella Ramsay, Emma Stour, Messrs. Herb Ramsay, J. Melvin, J. N. McGivney and A. Edly. A most enjoyable time was spent. Two of our members went out to the country on Saturday for sport. What success boys!

GUMPHYS CURE. Bathurst, March 27, 1893. Baro Wheeled. Vehicles have been in use round town for some days past. Children Cry for Pitcher's Castoria.

Norhampton Circuit Court.

HIS HONOR D. L. HARRINGTON, JUDGE. The Circuit Court of Northumberland County met yesterday. The following is a list of the grand jurors: D. G. Smith, foreman, James Brown, Wm. Kerr, Stephen A. Strang, Andrew McLeish, Ephraim Hays, Donald L. Longie, Jas. L. Seward, Henry A. Mulhead, Wm. Lyons, Alex. Robinson, James R. Lawlor, Jas. Nowlan, John Handie, Thos. A. Flett, David W. Ward, Daniel P. MacLachlan, Joseph McKnight, Wm. R. Gault.

His Honor in addressing the grand jury said:—It gave him great pleasure to meet them at the opening of this circuit. This was his first visit to this county since his elevation to the position he now occupied and he considered it a privilege as well as a pleasure to meet the representatives of the intelligence, worth and interests of the county.

It was important always that gentlemen who are summoned on the grand jury should give their attendance although there was inconvenience and expense attendant to that duty. It was a privilege because they had an opportunity in the capacity they held as grand jurors of standing before the crowd and welfare of the people of the county, and before calling their attention directly to the causes that were to be submitted to them he would refer to the question of the abolition of the grand jury, stating that his opinion was and always had been against that abolition.

His Honor pointed out the great importance of the grand jury, not only as criminal cases but in all matters that may possibly affect the county. He then took up the two criminal cases that were before the court, namely, the Queen vs. Fidele Russell. This was a charge of larceny against defendant for stealing some 180 lbs from one Stewart. The evidence, he said, was very slight and he thought that a matter such as this should have been settled by a civil suit. He stated the facts of the case to the jury, instructing them that if after they heard the witnesses they came to the conclusion that the charge was proven they should bring in a true bill. The other criminal case was a charge against one Wm. Wright, of Chatham, for robbery and for an assault on Bushrod Smith. His Honor charged the jury that the evidence in this case was very strong and that he thought they would have little difficulty in bringing in a true bill.

The grand jury found a true bill in the case of the Queen vs. Wright, and no bill in the case of the Queen vs. Russell.

The grand jury presented His Honor with an address of congratulation on his elevation to the bench. His Honor thanked them for the kind expressions made in honor of him, and he was afterwards tried to do his duty to his country and to all. He referred to the death of the late Justice Wetmore, whose position he now filled, and said he would endeavor to fill the same in such a manner that his lasture would not be harmed by him. He also referred to this county and to many of its able representatives at the local legislature, mentioning particularly the names of Hon. John M. Johnson and Hon. P. Mitchell. He pointed out to the young men what a grand country they had, and how they ought to do all they could to advance its interests.

The following civil case was entered for trial: James H. Gould vs. Alex. E. Alexander, L. J. Tweedie for plaintiff. This was an assessment case; damages were assessed for the plaintiff for the sum of \$841.

The Queen vs. Wm. Wright. The prisoner was arraigned and pleaded guilty. He was sentenced to six months in the common goal.

The New Waterbury. The new waterbury has been thoroughly and neatly fitted up and the rooms newly furnished and carpeted, and will be ready for the accommodation of guests on Friday next. The office entrance is on the corner and leads into the smoking room, and both are being fitted up with the requisite furniture, a d table with a marble topped savoratory in one corner. The front or the main entrance into the hall will be the ladies entrance. The dining room is on the ground floor, and is well and neatly fitted up.

The parlor is up stairs. The bedrooms are large and pleasant, the front rooms having a fine view of the river. The house is thoroughly heated by a hot water system.

It is the proprietor's intention to make it one of the best and coolest hotels in the country, and every attention will be paid to the wants of his guests.

To Those in Arrows. Those of our subscribers who are indebted for subscriptions to THE UNION ADVOCATE or for advertising or job work, are requested to remit. Money is scarce with us just because that which rightly belongs to us is kept by who had almost said dishonest persons, but certainly very careless persons, and we are injured thereby. The issues of dollars are due us and yet we find it hard to meet the current expenses which our business demands from us. Will those indebted to this office, irrespective of whether the sum be large or small, kindly take the matter into consideration. Their indebtedness may be a trifle to them yet in the aggregate amounts to a large sum to us, the want of dollars are due us and yet we find it hard to meet the current expenses which our business demands from us. Will those indebted to this office, irrespective of whether the sum be large or small, kindly take the matter into consideration. Their indebtedness may be a trifle to them yet in the aggregate amounts to a large sum to us, the want of dollars are due us and yet we find it hard to meet the current expenses which our business demands from us.

New Blacksmith Shop. Mr. Ernest Adams has opened a blacksmith shop at Strathadam, Northesk, and hopes to receive a share of public patronage.

Local excursion return tickets will be issued for the Easter holidays at one first class fare. Read the ad for full particulars.

Must Label Canned Goods. A bill has been introduced in the Dominion parliament by the Minister of Trade and Commerce providing that after July 1st every canner of goods must label the product with the name of the firm by whom it was packed. The informer will be given part of fine.

Excursion Tickets. Local excursion return tickets will be issued for the Easter holidays at one first class fare. Read the ad for full particulars.

The Local Legislature.

At a meeting of the local legislature, the following resolutions were passed: Resolved, That we extend our hearty sympathies to his bereaved parents and family, praying that the just God will lighten their sorrow with merciful consolation.

Resolved, That we extend our hearty sympathies to his bereaved parents and family, praying that the just God will lighten their sorrow with merciful consolation.

Persons.

Mrs. and Miss Gjerz returned last week from their visit to Boston.

Mr. J. J. Anslow and Mr. Herold Anslow were in town on Thursday and Friday last having been to Dalhousie to the funeral of Mr. Anslow's youngest daughter.

The Native African Choir. Speaking of the above choir, we quote some of the press, and other comments on their performance to show how they had performed: "I am pleased to see you all here this afternoon and I have admired your singing very much."

The London Times. The entertainment is decidedly effective in some respects touching. To hear the choir's song is worth all the money paid. Tickets are for sale at Mr. E. Lee Streets, and they are going off rapidly, over 100 reserved seats having been sold up to yesterday.

A Pleading Sinner. Of health and strength renewed and of ease and comfort follows the use of Serravallo's Tonic, as it acts in harmony with nature to effectually cleanse the system when ossified and bilious. For sale in 75c bottles by all leading druggists.

Evo Water. The famous Serravallo's Eye Water is unequalled for the cure of weak, sore, and inflamed eyes. After some delay, it is again on sale at Lee Street's drug store. Train men and other workers find it a grand remedy for extracting cinders or particles of dirt from the eye.

Wants it Refined. The special correspondent to the St. John Sun, in his notes dated Ottawa, March 23, says: The St. John and Halifax members received a cable to read from Kennedy F. Burns, M. P. for Gloucester, who is now in London, urging the ratification of the French treaty, on which event he says depends the conclusion of several large transactions in Canadian lumber and lobster.

A Pleasant Trip. Dr. R. F. Goggin returned by the C. P. R. yesterday from a trip of a month's duration. During his travels he visited Washington, St. Paul, and other cities. He speaks very pleasantly of his trip.—Telegraph 24th.

No Weather. Fine bright days and cold frosty nights have been the rule for the past week, with the exception of Friday night last when rain fell. Having about town is done and the sidewalks are again clear of snow. Spendid travelling on the ice and the skaters have been enjoying it for some days.

Removed. The warehouse on the former John Fish store property, now owned by Messrs. Ritchie, has been moved out to a position on Ritchie's wharf and alongside the other warehouse there. It will be used as a salt store. Mr. Geo. Brown superintended the work. It was sunk last fall in readiness for its removal.

Dog Tax. Mr. J. H. Phinney and Mrs. Goughly claim to have been amongst those whose names ought to have appeared in the list of those who had paid their dog tax for the past year.

Burned. The Montreal Herald building was totally destroyed by fire on Monday evening. The editorial and composing staff had barely time to escape with their lives as rapidly did the flames spread through the building.

New Paper. The Pioneer Plan has been purchased by Mr. T. W. Brown, of Ontario, and the first number of the "Northern Enterprise" has been published. It makes a good appearance and we wish it a full measure of success.

Dent Steel. If the party who is making a practice of stealing cut dry fire wood from the Advocate Office wood pile will call at our office we will endeavor to make arrangements so that there will be no need of having to steal what they want in this line.

In attendance. Quite a number of persons were in attendance at the Circuit Court yesterday. There were grand jurors, professional and occasional petit jurors, lawyers, witnesses and the usual number of spectators.

Married. At the residence of Mr. Wm. J. Russell Newstead, on the 23rd inst., by Rev. W. A. McKean, Mr. Allan B. Scott to Miss Annie Scott, daughter of Mr. Thomas Scott, all of Newcastle. We return our thanks or compliments of good wishes.

Dominion Parliament. (Continued from 1st page) Hon. Mr. Foster replied:—If the amendment passes, it will not be by any aid of friends of the government.

METEOROLOGICAL

Reported for the Dominion Government by J. F. CONNORS.

MARCH.

Table with columns: DATE, Hour of observation, Temperature (Barometric, Thermometric, Maximum, Minimum), Wind, Clouds, Humidity, etc.

The maximum and minimum column show the highest and lowest temperature in the 24 hours.

The minus sign thus — at the left hand of the notes below zero, its absence denotes above zero.

Miscellaneous.

It is not the extremes of heat and cold so much as the sudden changes in temperature that cause cures in climates to be unhealthful.

Madam said the tramp, 'I'd like to chop that wood for you; I would, really, but it would be against my principles—my generous nature couldn't stand it.'

Why? Because, if I was to do it I'd be less wood for some other hungry man to chop.

Minard's Liniment relieves Neuralgia.

C. J. RICHMOND & CO. In driving over the mountains I took a severe cold which settled in my back and kidneys, causing me many sleepless nights of pain.

Minard's Liniment relieved me that I fell into a deep sleep and complete recovery shortly followed.

Annapolis. JOHN S. McLEOD.

Minard's Liniment for Sale everywhere.

The trouble with most cough medicines is that they spoil the appetite, weaken digestion, and create bile.

Away they went—eight canoes—each handled by an expert.

Head of them all was the shining Pickered, propelled by a pair of hands that were strong and skilful, if they were white.

But what was this? The ridiculous little dug-out that had created so much amusement, as it swung into line, was stealing alongside the Rivermaid—had passed it, and was pressing hard upon the Pickered!

Steve did not see it. His head was half turned, watching for the one difficult place in the course, where a sudden rock made a powerful eddy, dangerous to the frail shell beneath him.

Was that dug-out bewitched? With a sudden spurt it sped past the Pickered, and raced away toward the goal. Steve saw it as it glided by, and bent to his work recklessly. He would win! The Pickered, the best canoe in the shanty town, was a Florida dug-out.

YOUTH'S CONTEST.

RACE OF THE "SWAMP SKEETER."

What is that, boys here, that craft making out from under the willows?

That's Joe Lansing, in his dug-out. Wonder if he intends to enter for the race, laughed a tall boy in a natty boating suit.

Steve Sinclair looked down at his trim little craft, with a superior smile, 'I should like to see him beat the Pickered,' he said.

The boys watched the comical little dug-out as it approached. The owner was as comical to look at as his boat—red-haired and freckled—a typical Yankee boy.

Madam said the tramp, 'I'd like to chop that wood for you; I would, really, but it would be against my principles—my generous nature couldn't stand it.'

Why? Because, if I was to do it I'd be less wood for some other hungry man to chop.

Minard's Liniment relieves Neuralgia.

The trouble with most cough medicines is that they spoil the appetite, weaken digestion, and create bile.
