

## Music Lovers Amazed by Edison's Daring Test

All told, 2,000,000 music lovers in Canada and the United States, on more than 1,500 different occasions, have gone to one of their local theatres filled with curiosity regarding a startlingly novel musical recital to which they had been invited.

In each case they have come away amazed at the almost unbelievable demonstration which had taken place before their very eyes, and ears—the most daring test of a phonograph or talking machine ever made. They saw a noted Edison artist stand beside

## The NEW EDISON

"The Phonograph with a Soul"

They heard the instrument sing in the artist's voice—in other words, *recreate* her voice. Presently the artist herself began to sing, note for note with the instrument. Musically trained ears strove in vain to distinguish the faintest shade of difference between the actual voice and the Re-Creation. Then, suddenly and without warning, the artist ceased singing, leaving the instrument to continue the air alone. Only by watching the artist's lips did the audience know that she had ceased singing and that they heard the instrument alone. This is the famous Edison Tone Test.

Only Edison makes this test. Only Edison can make this test, because only the New Edison actually *re-creates* the human voice and the music of human-played instruments with every tone quality and every shade of expression. Ordinary phonographs, and talking machines, merely reproduce.

If you have not been fortunate enough, to witness an Edison Tone Test, you may at least hear Edison's wonderful new phonograph at our store. Make the time to suit your convenience.

## Relieve Your Rheumatism For 25c.

NR does it by improving digestion, assimilation and elimination—the logical way.

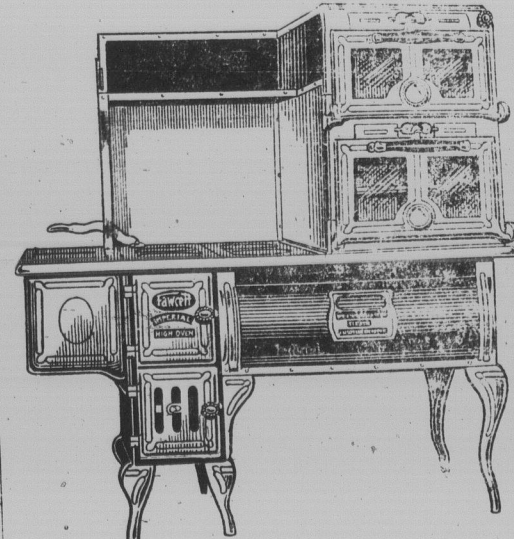

### NR Today—Relief or No Pay

There are three vital processes of human existence—the digestion of food, the extraction of nourishment from it and the elimination of the waste. Let anything interfere with these processes and there is interrupted or imperfect circulation, and sickness of some kind follows. Poor digestion and assimilation means failure to get the full nourishment from the food that is put into the body. And this means that the body is not getting the full benefit of the food that it is eating. And this means that the body is not getting the full benefit of the food that it is eating. And this means that the body is not getting the full benefit of the food that it is eating.

## YOUR CUP OF TEA

Your cup of Tea means much to you. It is more than an item in the daily fare. It is the one thing that "rounds off"—or spoils—an enjoyable repast.

Tea is fortunately so cheap in this country that there are few who cannot afford Choice Tea. The cost per pound is only slightly higher than ordinary Tea, while the increased pleasure you get from every cup you make is worth many times the difference. It is true also, that a FLAVOR-FULL Tea like KING COLE Orange Pekoe will actually spend further—that is, make more cups to the pound. KING COLE Orange Pekoe is prepared particularly for lovers of Choice Tea.

## BULGARIANS KILL SERBIAN CITIZENS

Systematic Effort to Kill Every Prominent Serbian and Kill National Pride.

Vranja, Serbia, Oct. 29.—There is the story of a cold blooded butchery without an equal even in this war. It is the tale of deliberate, systematic effort by the Bulgarians extending over three months to exterminate the national spirit of Serbia by killing everyone in parts of country they had occupied, whom they thought capable of maintaining it. To my mind the facts which I am about to relate are crimes which will earn for Bulgaria the odium of civilization. During these massacres, the Germans by contrast with the Bulgarians, appeared to the inhabitants of Serbia, as protectors, and agents of mercy.

The small corner of Serbia in which I gathered, during the last three days, from many different sources, information and evidence which establishes Bulgarian guilt beyond all doubt, is the region which lies around Vranja between Kumovo and Leskovitz. Here, directly they had established themselves, on Serbian soil, the Bulgarians began to change the Serbians by force into Bulgarians. After forbidding the use of the Serbian language, closing the Serbian schools, compelling everyone to change the ending of his name from the Serbian to the Bulgarian.

After installing Bulgarian mayors, bishops, tax collectors, and military police they arrested in every town and village all the men who belonged to what may be called the intellectual class. These were parliamentary deputies, judges, teachers, lawyers, priests and employers of labor, formed them into gangs and marched them away. From that time until the defeated Bulgarians evacuated Serbia the other day the friends of these people heard nothing of their fate. But now the ghastly story is known in detail.

**Bulgars' Slaughter House.** Men, numbering at least 2,000 from the towns and villages of Vranja region alone were taken, in detachments of about fifty at a time, to a place where the Bulgarians chose as their slaughter house and there, every night one party after another from December, 1915 to March, 1916, had their throats cut or were stabbed to death.

One village, whose name the Bulgarians have made terrible, is a small place called Surdulitza, twenty miles northeast of Vranja, near the Bulgarian frontier. I went there yesterday and saw the bones, the graves and surviving relatives of 2,500 victims of Bulgarian savagery who there met their end. Doomed men against whom the Bulgarians had no other charge whatever except that they were patriotic Serbians, and likely to keep up the national spirit among their fellow countrymen, would arrive almost every day at Surdulitza under strong Bulgarian guard. They were locked up in houses which I saw and then at night marched down to a gully which I visited, where, tied four or five together with ropes, they were stabbed or bayoneted to death and buried where they lay by local gypsies collected for the work by the Bulgarians.

**Half Savage Gypsies.** Graves of hundreds of them were

Extraordinary Success which "Fruit-a-lives" Has Achieved

One reason why "Fruit-a-lives" is so extraordinarily successful in giving relief to those suffering with Constipation, Torpid Liver, Indigestion, Chronic Headaches, Neuralgia, Kidney and Bladder Troubles, Rheumatism, Pain in the Back, Eczema and other Skin Affections, is, because it is the only medicine in the world made from fruit juices.

It is composed of the medicinal principles found in apples, oranges, figs and prunes, together with the nerve tonics and antiseptics of proven value.

shown to me yesterday. Moldy human bones were still lying about in a little stream bed, where one winter's night after another the slaughter was carried out. The peasants of Surdulitza offered to dig up the graves to let me see how the heads were severed from the body and I talked through an interpreter with one of the half-savage gypsies who had done the burying and who were in obvious terror at his forced share in the work might bring him punishment.

Not all the killing was carried out in this gully. On the other side of the village is a little wood. Every night the peasants of Surdulitza, who were forbidden to leave their houses after sunset, heard men's screams coming from among those trees. They knew too well what was happening, but did not dare go near, and the following morning flocks of dogs would bring into the village streets human arms and even heads which they tore off the bodies of the murdered men. Twenty-five hundred is the local estimate of the number of Serbians who at Surdulitza forfeited their lives to their nationality during the first three months of 1916.

Not more than forty persons, were actually killed at Vranja itself, but once a fortnight all surviving men were ordered out of the town, where the Bulgarians ransacked and robbed their houses under the pretext of searching for arms, and sometimes also to bring the women to the north of Vranja, 120 men, women, and children, the entire population were killed in one day.

**Peasants Were Ransacked.** At Vladichli all the women were collected and some of them violated. The rest were tied up and left until two days later when the Bulgarians came back and completed their work of outrage.

Last year at Yelassnitz and Krivofaja, innocent peasants were stripped naked, tied down to braziers, and roasted over slow fires to make them confess that they possessed hidden arms. Leba and Leskovatz were probably the worst martyred towns of all. At the former place twenty persons were beaten to death. The information about these last townships comes from the Serbian municipal officials and the principal inhabitants of Vranja, several of whom were there all through the Bulgarian occupation. Personally I am entirely convinced of the sincerity of these men and of the truth of the terrible charges they bring. I spoke with them myself in French or German, and there was too much spontaneity in the answers and too much resemblance between the accounts which different individuals gave at different times for the idea of a fake up tale to be admissible.

What is to be done to punish this cynically planned and brutally executed policy of murder? The names of the Bulgarian officers directly responsible for these butcheries are known. The peasants of Vranja and other towns with the same dread as that with which the same dread as that with which men of the English west country must have spoken of Judge Jemmy after the Boston massacre.

## KING GEORGE TO RETURNED HEROES

Enthusiastic Scenes at Hyde Park on Sunday—Soldiers Greet King.

London, Nov. 26.—There were scenes of wild enthusiasm in Hyde Park on Sunday during the King's review of the "silver badge" men—those who have served in the forces and since have been discharged on account of wounds or other physical disabilities. As King George, with the Prince of Wales, the Duke of Connaught, General Sir William Robertson, commander of the forces in Great Britain, and the staff officers, rode past the lines, the men forming three sides of a square, there were remarkable demonstrations of loyalty.

When the King reached the third section the men suddenly broke ranks and crowded about him, grasping his hands. Others surrounded the Prince of Wales and the Duke of Connaught and shook hands heartily with them. In the meantime, another crowd of the discharged soldiers gathered around the carriage in which were the Queen Mother, Alexandra and the Princess Victoria. The men climbed on to the footboard and the back of the vehicle in their eagerness to shake hands with the royal ladies. "God bless you, dear boys," exclaimed the Queen Mother, as she shook hands with as many of the men as she could.

An attempt was made to take the horses from the carriage so that the men might pull it themselves, but officers and mounted police restrained them to fall into line again. The King then rode to the saluting base and the men marched by.

In his address to the men the King said:—

"I am glad to have met you to-day and to have looked into the faces of those who, for the defence of home and the Empire, were ready to give up their all and have sacrificed their limbs, sight, hearing, and health. Your wounds, the most honorable distinction a man can bear, inspire reverence in your fellow countrymen. May Almighty God multiply your sufferings and give you strength to bear them. As your King, I thank you. We all honor you and admire the unflinching way in which you have done your duty. That you may live long and enjoy with happiness the peace which you have so bravely won is the most earnest wish of my heart."

**GERMAN PLANTS ALL EMPLOYED**

Enough Orders to Keep them Busy Two Years.

Berlin, Nov. 26.—Most of the large industrial plants in and about Berlin already are working. No unemployment is reported as a result of the cessation of war industries work. Sigismund Bergmann, who is said to have once been connected with Thos. A. Edison, and to have been one of the founders of the General Electric Company in the United States, but who is now one of the leading industrialists in Germany, said to-day:—

"On the second day of the revolution we started into work on peace orders, of which we have enough booked to keep our 60,000 employees busy for two years.

"This holds good for virtually every plant of any importance in Germany. The country has been literally worn threadbare in all lines. Just as we have been turning our garments inside out we have helped ourselves along with a multitude of substitute devices in other directions.

"We are badly in need of rolling stock, agricultural implements, turbines, and a thousand other things in the line of heavy steel construction. Our houses need new roofs and new paint. We must start in making everything fresh, from the clothespin to the automobile. We also are a ready market for finished products."

Heir. Rosenmann was not apprehensive of disturbances if the food situation holds out.

"Of the 2,000,000 or more men now coming from the front are given three square meals a day and steady work," said Heir. Bergmann, "there will be no Bolsheviks in Germany. The German workingman will not think of mischief so long as he has a comfortable fireside and something to keep him busy."

"The fighting men, too, are well disciplined. I have implicit faith in their ability and willingness to adjust themselves to normal life after four years of war. All that is needed is to keep them healthy, and well clothed.

"We are in urgent need of copper, leather and cotton; but the 'full dinner pail' is the first consideration. Germany has the money to pay for the food and everything else she will be compelled to buy abroad."

Why She Couldn't See Him. The young lady was dejected you a man accused of burglary, and the woman whose house had been entered was under examination.

"Madam," asked he, "what time of night was it when you saw the prisoner in your room?"

"Close to two o'clock in the morning," came the reply.

"Was there a light in the room?"

"No."

"Could you see your husband at your side?"

"No."

The lawyer frowned impressively and shot a side glance at the jury as he fairly thundered: "Then, please, madam, explain how it was you could see the prisoner and not see your husband?"

"My husband," was the quiet answer, "was at the club."

## CAUSE OF FIRE.

It appears that the fire at the Hotel Dieu Hospital was not caused directly from fumigating as that work had been completed by three o'clock, and the Building had been visited several times with no sign of fire. It is said that the cause of the fire was defective wiring. The fact that the rooms were being ventilated after fumigating is responsible for the rapid spreading of the flames.

THICK, GLOSSY HAIR FREE FROM DANDRUFF  
Girls! Try It! Hair gets soft, fluffy and beautiful! Get a small bottle of Dandrine.

If you care for heavy hair that glistens with beauty and is radiant with life, has an incomparable softness and is fluffy and lustrous, try Dandrine. Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff. You can not have nice heavy, healthy hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp, the hair roots famish, loosen and die; the hair falls out fast. Surely get a small bottle of Knowlton's Dandrine from any drug store and just try it.

## GOOD-WILL AND SAINT

ANDREW'S DAY MEMORIES  
Far away on some outlook yonder,  
Where the hills of Auld Scotland  
blend and enshrine  
Their aisles wreathed with hawthorn and heather,  
There delight we to open and ponder  
The tome of the Auld Langsyne,  
Wherein the soul-gifts of dreamland  
inspire  
An anthem for brotherhood's shrine.And the hour for singing that anthem  
Is with us again to-day.  
Re-intoned by the chiming of passing events,  
Taking part in the roundelay:  
The flutings of war, we would ban them—  
A pseudo-godfathering of peace,  
As we greet the good-will our patron  
presents  
A corrective to hatred's empire.With hand then in hand, let us strengthen  
The now by our pride in the then.  
Is with us again to-day.  
In a well-doing Empire's democracy,  
Yea, the daylight of love we would lengthen.  
Illumed by our forebears' reason—  
Aye fostering the cause that is ours to enhance,  
While good-will cometh into its own.

After a long illness of several years duration, Georgina J. Hodgins, Bellefleur River, passed to her rest, on Thursday, Nov. 27th. She bore her sufferings with Christian patience as "seeing Him who is invisible." The funeral took place on Saturday, the Rev. R. J. Coleman being the officiating clergyman. Many friends from Campbellton, Bathurst and other places were present, thus testifying to their esteem for the deceased lady. **Miss Laura Gavey.**

The death occurred Saturday Nov. 9th of Miss Laura Gavey at Pasphebie, P. Q. It is difficult for us to realize that this dear girl who we knew and loved has been cut off so suddenly at the threshold of life. In her duties as central telephone and telegraph operator here, we came in constant contact with her, and learned to fully appreciate the beauty of her nature. Industrious, willing and willing in her work, she was endeared to the whole community, and her control was considered the best conducted on the coast. For many a day we shall miss her gentle voice, her kindly smile, the light and airy, her life a gap which cannot be filled. To her parents, Mr. and Mrs. Charles Gavey we extend our heart felt sympathy for their irreparable loss. We cannot bring her back, but we join with them in the morning of their loved daughter who has gone before.

**The Cause of Heart Trouble**

Faulty digestion causes the general state of weakness which interferes with the regular action of the heart, and leads to the development of heart trouble. It is not the rain that falls on the pile which causes loss, but the water which runs through the pile and drains away the bottom.

**FOOD TO BE DISTRIBUTED AMONG ALLIES FIRST**

Paris, Nov. 27.—(Havas).—Herbert C. Hoover, American food administrator, is here and is taking up with the Allies the repatriation of disposable foodstuffs. The plan under consideration would give food first to the Allies, then to neutrals then to enemy countries. Mr. Hoover desires that a commission meet at Brussels to examine the merits of German requests for food and to decide upon means for meeting them.
