Important Auction Sale Live Dry Goods and Fancy Goods Business. Thos. G. Whiskard, Retiring From Business.

Reasons for Selling—Sickness at Home.

The business known as "Whiskard's Three Dry Goods" will be sold at public auction at the rooms of J. W. Jones, 212 DUNDAS STREET, LONDON, ON TUESDAY, FEBRUARY 17, at 2:30 p.m. at a rate of one dollar. The stock amounts to between \$20,000 and \$30,000. This business is one of the most profitable in Canada. It is known all over the province as such. The stock has been well bought at cheap prices. The business is strictly cash. This is a fine opportunity for one or two good men to step into a first-class established business. The purchaser can rent either the two or three stores for a term of years. Terms of sale: 25 per cent at time of sale; sufficient to make one-fourth in five days thereafter; the balance payable in two, four, six and eight months, interest bearing 6 per cent per annum, secured. Stock and inventory can be seen on the premises by intending buyers. 14c-17c J. W. JONES, Auctioneer.

TENDERS.

For the proposed addition to the Cold Storage Buildings must be in by 1 o'clock Saturday, Feb. 14. Plans and specifications at 63 Byron avenue. 15c

HEART FAILED AT THE ALTAR

Bridegroom Fled to His Mother While Guests Waited.

Bridegroom, Conn., Feb. 10.—If Irving W. Miller's heart had not failed him, Miss Lillian Ellery would now be Mrs. Miller. Her father, who was in readiness, when he was discovered that the prospective bridegroom was missing. He had excused himself for a few minutes, saying he would return shortly. He could not be found, and the carriage was dismissed, and the guests sent home and the minister informed.

Miss Ellery then went in search of her fiance, and found him at the home of his mother in Stony Point, N. Y. His only excuse for his desertion was that he was taken with an attack of "heart trouble."

Miss Ellery's presence helped his heart, and they will be married this week if his cardiac weakness doesn't return.

Russian Jews to the number of 24,000 came to New York during 1902.

The savings bank deposits of the United States equal the national debt multiplied by three.

BUSINESS CARDS.

UPSTAIRS GIRL WANTED AT Britannia House. 15c

GIRLS FOR BISCUIT DEPARTMENTS. Apply McCormick Manufacturing Company. 12c

THE BODY OF SWEETHEART

Sensational Evidence in Trial of Graveyard Ghoul.

WAS PAID \$30 FOR EACH CORPSE

They Looked Over the Death Returns and Decided Upon the Most Suitable Subjects.

Indianapolis, Ind., Feb. 10.—The trial of Dr. Joseph C. Alexander, demonstrator of anatomy at the Central College of Physicians and Surgeons, charged with knowingly receiving stolen bodies of dead persons for dissection, which has been in progress for some days, has been full of sensational incidents. It was shown that many bodies had been delivered at the college by Rufus Cantrell and his band of negro ghouls.

Cantrell testified on numerous occasions to the local board of health officers, where the doctor looked over the death returns and then gave him instructions about getting the bodies. The defense got in a strong point when it produced a report from the war office at Washington, showing that Cantrell had enlisted in the regular army in 1897, and a year later was discharged, on a surgeon's certificate, because of "epilepsy," which was followed by confusional and homicidal insanity, existing prior to service.

Cantrell told his story in a straightforward manner. He said he was persuaded by Dr. Alexander to enter the grave-robbing business and was given a contract to deliver bodies at the college for \$30 each. He asserted that Dr. Alexander made arrangements with a lively stable to let him have a rig whenever a body was to be stolen. Dr. Alexander also gave him money with which to buy revolvers, the witness added.

The witness testified to numerous night excursions to country graveyards, and gave the names of thirty persons whose bodies he had stolen, and also the date on which the graves were robbed. Cantrell said Dr. Alexander paid him the contract price for every one of the bodies.

When Cantrell mentioned the theft of Meredith McMullen's body from the Lick street cemetery, a sob broke upon the stillness of the court room. The sob was uttered by Mrs. McLaughlin, a sister of Mrs. McMullen. The graves of two of her brothers were robbed and neither of the bodies was recovered. Cantrell was much affected by the woman's emotion.

SOLD HIS SWEETHEART'S BODY.

In describing the stealing of the body of Catherine Dochting, the witness narrated that Dr. Alexander accompanied him to the German Catholic cemetery, and helped him locate the grave. Regarding the body of Stella Lick, who had been buried at the home of her parents, he did not know whose body he was stealing.

Dr. Alexander accompanied him to the home of her parents, and told them that Stella's body was at the Central College, but he did not make his identity known. He admitted on cross-examination that he received \$30 for the body, but added that he would not have stolen it had he known whose it was.

When Cantrell was being cross-examined he was asked whether he had identified the college the body of a Chinaman who had been murdered, and he replied that he had not. It was an attempt to connect him with the murder of "Doc" Lung, a Chinese laundryman, who was murdered in his laundry. That murder is still a mystery.

It was alleged that Cantrell had acted as a demonstrator of anatomy asking whether they could use a Chinaman's body and that this occurred on the night of "Doc" Lung's murder.

SUBSIDY AND LAND GRANTS

Grand Trunk May Ask for Both in Building the New Line.

Ottawa, Feb. 9.—All sorts of speculation has been indulged in concerning the nature and the amount of the aid which the promoters of the Grand Trunk Pacific expect to receive from the Government. It is reported that the promoters are planning to carry out their enterprise, assistance in both land and cash is likely to be asked for. Just what quantity of land per mile or how large a subsidy in cash the supporters of the enterprise will endeavor to obtain is not definitely known, but it is believed that the application will be for from 5,000 to 7,000 acres of land, and from \$5,000 to \$7,000 in cash per mile.

The ratification of the action of the Brussels beet sugar conference by France saves the Government \$20,000,000 a year in sugar duties, and leads it to reduce the tax on sugar 50 per cent. This will reduce the retail cost of sugar from 11 to 5 cents a pound.

It is claimed for the mercury vapor lamp, which illuminates by the incandescence of mercury converted into vapor in the vacuum tube by electric light. It will take but one-third the energy required for the arc light, and but one-eighth the energy used by the incandescent filament.

Professor J. J. Thomson tells us the emanation from the radioactive substance is a mixture of Roentgen rays and cathode rays, and must, therefore, if current theories are correct, consist not of etheric waves like light, but of swiftly moving corpuscles, the fragments of atoms.

The Illinois Legislature has been asked to reappropriate \$5,000 for a statue of Miss Frances E. Willard, to be placed in Statuary Hall, Washington, the time limit of the first appropriation having lapsed. The failure to draw the appropriation was due to the delay of the artists in submitting their competitive models.

SAYS A CRISIS IS APPROACHING

Mr. Hill Warns Americans to Prepare for a Great Industrial Depression.

New York, Feb. 9.—After briefly discussing the anti-trust law and the proposed department of commerce, James J. Hill, president of the Northern Securities Company, said: "As labor unions killed industrial England, so are they destined to bring about a grave financial reverse in the United States and the country is swiftly approaching that crisis. It may come in a year; it may be deferred until the presidential year, but it is bound to come."

Mr. Hill denied flatly, but depreciatingly, that, as the average person believes, the United States is the leading manufacturing nation, and is rapidly gathering to its bosom the markets of the entire world. This misapprehension, he averred, is the result of the fact that over one industrial victory the country sets up a louder shout than England, Germany or France makes over a dozen.

"There seems to be too much confidence in the ability of the country to walk ahead of all other countries in manufacturing," continued Mr. Hill. "The country can do it, but not without trouble, and not without changing its present course. It is indeed a grave crisis we are approaching, although few seem to appreciate it. A few years may see the closing of many factories and the throwing out of work of hundreds of thousands of men. We have been reaping the harvest and the reverse is coming. How quickly we recover it will depend largely on who is at the head of the country when the break comes."

LABOR PROBLEM IN SOUTH AFRICA

Mines Cannot Afford to Pay White Men and Want to Force Kaffir Labor.

London, Feb. 9.—The eloquent and powerful letter from Sir William Harcourt, published on Thursday, raises a question which must soon engage the serious attention of Parliament. Sir William protests against the introduction of compulsory black labor into the Transvaal for the benefit of the mines. He points out that the Government of the late South African Republic, which was never accused of any tenderness for the native races, expressly refused the demand that Kaffirs should be forced to work in the mines. He quotes Lord Milner, who said that the administration had nothing whatever to do with the control of the labor market, and on the other hand, he cites the significant admission of Mr. Lionel Phillips, the leading manufacturer of the Rand, that he and his fellow-capitalists cannot afford to employ British miners at good wages. It is to be remembered that one of the chief arguments by which the support of the working classes was obtained for the war was the better position white labor would enjoy when the tyranny of President Kruger had been abolished. There is, of course, no danger that slavery as such will be recognized in any British colony. Mr. Chamberlain has strongly condemned the introduction of Chinamen, which Mr. Phillips does not hesitate to suggest. This precious scheme has been definitely abandoned, but Mr. Chamberlain was much less clear on the subject of excluding practical competition upon the Kaffir by taxing him beyond his means unless he worked in the mines. This is slavery, call it what you will, and it is against this that Sir William Harcourt takes up his pen.

proper methods of settlement could be reached. The world in which strikes occur, which are called war, is a world which society at large has so far refused to recognize, except in the case of New Zealand. I apprehend that one of the greatest results to be hoped for from this commission is that you will push forward one step farther the evolution of the development of some organic authority in that field of conflict.

Mr. Lloyd was followed by former Congressman Charles M. Brumm, who occupied the time up to the adjournment at 5:45 p.m. His argument was principally in support of the demand for recognition of the union. Mr. Brumm charged that the coal companies were responsible for the presence of the large foreign population in the coal regions, and said: "They can't bring the Hottentots here because it is too warm, and they can't get the Chinamen because the law will not let him in. Mr. Brumm was directing many of his remarks at Mr. Baer, who was sitting close to him. The Reading's president gave him close attention, and when Mr. Brumm, in an oratorical flight, said that Mr. Baer denied at the eleventh hour that he had ever said that 21 murders were committed in the coal region—that he did not deny it until the statement was permitted to go over the country and received full effect, Mr. Baer jumped up and exclaimed: "Wasn't it a lie? Did I ever say it?"

"The suddenness of the interruption evidently did not disturb Mr. Brumm, who replied, "One moment; I will answer that." Mr. Baer was not satisfied and said with great earnestness, "You said I did not deny it until the eleventh hour. What do you mean?" "I said you did not deny it until quite recently."

To which Mr. Baer replied, "Oh, if you had waited, Mr. Brumm, you would not have asked the question."

"What is it you want to make out? That I did say it?" persisted Mr. Baer. Mr. Brumm: "No, I said you didn't say it."

"That's different," remarked Mr. Baer as Chairman Gray rapped order and requested Mr. Brumm to proceed with his argument. Mr. Brumm, however, returned to Mr. Baer's remarks: "I do criticize you, however, for not denying it at the time that it appeared in the newspapers."

THEY JOKED AT DEATH And Both Are Buried on the Same Day and Date.

Buffalo, Feb. 10.—Two funerals occurred here Monday of well-known young men who, two weeks ago at the funeral of Actor "Billy" Mason in this city, in an argument which happened to be brought up, took the stand that it did not matter whether a man joked about death or not, that when it came time for him to die, he would have to go anyway; that there was an appointed time for every one to die, and they would shuffle off the mortal coil no sooner or no later.

These men were John Jordan, for several years stage manager at the Star, and William G. Guine, a prominent politician. Mason had been playing the part of the undertaker with Rose Melville, "Sis Hopkins." In this part his lines made him to be a death Stewart Murray, a Buffalo actor, had created the role of the undertaker, and the song, "More Work for the Undertaker," was written for him. He died a few months ago and "Billy" Mason, also of this city, was engaged for the part.

Mason died a few weeks ago and Jordan and Guine were pallbearers at his funeral. On the way out to the cemetery they laughed at others of the pallbearers who were arguing that because Murray and Mason had barbed death they were stricken down the sooner.

Jordan soon afterward became afflicted with gastritis and died last Friday afternoon. His brother, going to Guine's home to notify him, discovered crepe on his door. Guine had also died from a cold he contracted at the funeral. Both were buried today.

CAUSE LOSS TO CANADIANS

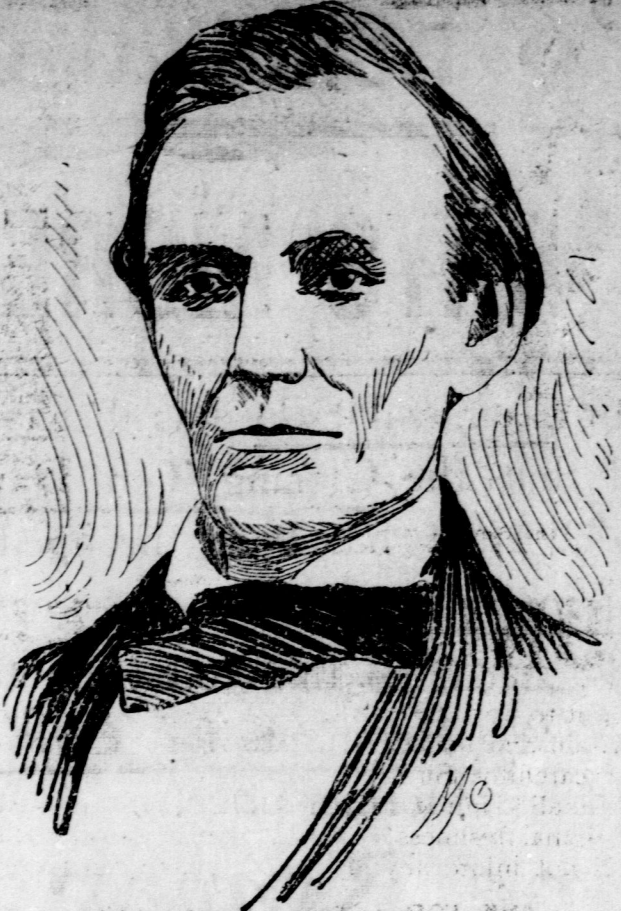

New Brunswick Lumbermen Want a Bill in Maine Assembly Blocked.

Ottawa, Feb. 10.—Hon. John Costigan has brought to the House of Commons notice a bill before the Maine Legislature which threatens serious injury to Canadian interests. A company in Maine asks authority to construct a dam by which the waters of the Allagash River would be diverted into the Penobscot. The natural flow of the Allagash is into the River St. John, and lumbermen, both American and Canadian, with interests in this district, say that great loss would result from lowering the water in the River St. John.

The Ottawa Government is asked to protest to Washington against the passage of the bill in Maine. Sir Wilfrid Laurier has asked Mr. Costigan for a statement of the facts, which will likely be forwarded to the American capital through the British ambassador.

BULGARIA APPEALS TO THE POWERS TO HAVE C. P. R. TO HAVE ATLANTIC SERVICE

Considers Turkey's Warlike Moves as a Menace. Arrangements Made With the Elder-Dempster Co.

BRITAIN WILL NOT INTERFERE YEARLY DIVIDEND DECLARED

Should Russia Undertake the Task of Punishing the Sultan for His Sins. In View of Competition Company Decides to Make Further Improvements.

London, Feb. 10.—Telegrams from Paris this afternoon reiterate that the Sultan of Turkey is mobilizing 200,000 soldiers in Macedonia, and that Russia and Austria are making military preparations, in case the Sultan refuses certain reforms which they are about to submit. There is no desire in England to interfere with any possible crushing of Turkey's power for evil.

BULGARIA REPLIES. Sofia, Feb. 10.—Having received information regarding Turkey's decision to mobilize two army corps at Adrianople and Monastir, the Bulgarian Government yesterday addressed representations to the powers invoking their good offices at Constantinople to procure the cessation of the Turkish military preparations.

A MENACE TO BULGARIA. It is felt here that whilst Turkey's reinforcement of her troops in Macedonia may be justified in view of the internal situation and the Austria-Servia military preparations, the mobilization at Adrianople can be regarded only as a menace to Bulgaria. It is stated that the Government will refrain from any counter demonstration, and only mobilize the Bulgarian army in the case of extreme necessity, it being fully recognized that even a successful conflict with Turkey would mean financial ruin to Bulgaria.

FOOT ELM KEEPS SHOES SOFT

Ever notice how quickly the leather gets hard and cracks and your shoes are worn out sooner than you expected? "Foot Elm" keeps the leather soft and pliable and prevents cracking. You get fully 50 per cent more wear out of your shoes by using "Foot Elm," and have the added satisfaction of comfortable feet. "Foot Elm" is 25 cents a box of eighteen powders at druggists or by mail from SPOTT & JURY, BOWMANVILLE, ONT.

PALLIATIVE MEASURES ONLY. Constantinople, Feb. 10.—The plan for the proposed reforms in Macedonia which the Russian and Austrian embassies will present to the Porte this week is understood to contain no proposal of a political character, both Austria and Russia desiring the maintenance of the status quo. The scheme simply proposes palliative administrative measures.

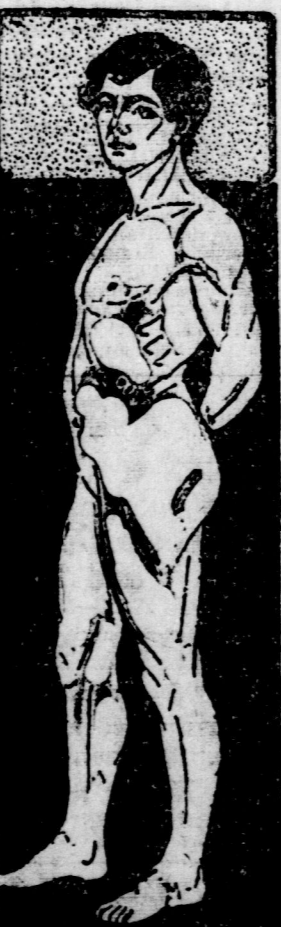

ATTAIN FULL MANHOOD

Be Strong! Have Pure Blood, a Clear Eye, Steady Nerves, Energy and Force.

Now-a-days it is the energetic man that succeeds. To be in the race for position, wealth and power, an abundance of strength and endurance is absolutely essential. But if the blood is thin and watery, the nerves unsteady, digestion and assimilation imperfect, there can be no such thing as strength or staying-power.

Weakness Conquered By FERROZONE

The greatest of strengthening medicines is Ferrozone. It is a tonic that makes new beings out of broken-down men and women. It vitalizes and reconstructs the entire system; eliminates poisons and impurities; supplies lots of rich, red blood to nourish the nerves; restores wasted powers and gives strength to the stomach to digest and assimilate. Ferrozone banishes mental depression and exhaustion, replacing them by a new era of happiness, exhilaration, buoyancy and vim. Try Ferrozone and watch the results. Price 50c per box, six boxes for \$2.50. At druggists or by mail from THE FERROZONE COMPANY, Kingston, Ont.

MURDER AND LOOT IN PHILIPPINES MR. CHAMBERLAIN AND THE BOERS

Serious Charge Made by U. S. Senator. Necessary to Keep a Firm Hand on the Extremists.

ANGLO-AMERICAN FRIENDSHIP MARCONI LIKES THE CANADIANS

Society Formed in New York for That Purpose—Prospects of a Big Strike. Emigration From England Expected to Stimulate Imperialistic Spirit.

Washington, Feb. 10.—Speaking in the Senate yesterday on the Rawlins' resolution, calling for the records of court-martial of officers serving in the Philippines, Senator Carmack (Tenn.) asserted that there was an organized system of torture in the Philippines. "It is a further fact," said Mr. Carmack, "that though this was notorious throughout the whole army, it was continued for months and years. No effort was made to suppress it, and no single torturer was ever punished for the crime. It is a fact that men of high character and standing, the representatives of leading Republican administration newspapers, went in person to the commanding general and told him that they had not only seen a perfect orgy of looting and plunder, but that they had seen wounded prisoners butchered before their very eyes, and that he did not deny it, he ignored it. It is further noted that the fact was brought to the attention of the Secretary of War in a letter over the signature of Robert M. Collins, the chief agent and conciliator with the Associated Press in the Philippine Islands, and he did not suggest the propriety of an inquiry or an investigation. He merely said that the company in the Philippines had become too common, he said, to bear investigation, which answer seems entirely satisfactory to our noble and generous and humane Secretary of War."

There will always be extremists among the Boers, but Mr. Chamberlain's reception in the Transvaal led him to believe that the moderates constituted a more numerous section, and were entirely well disposed towards the British. The correspondent, however, still believes the bark of the Boer is worse than his bite, and it is possible a sufficiently firm attitude has not been adopted in Orange River Colony, and the authorities have failed to pursue an easy-going attitude and policy of conciliation being surrounded by so many friends. But the Boer will only support a conciliatory policy thoroughly impressed by accompanying firmness.

W. T. R. Preston, the Canadian Commissioner of Emigration, interviewed here yesterday, said: "We want to keep up the emigration from England. It stimulates the imperialistic spirit now existing in the colony." The Pall Mall Gazette still presses the British-Canadian Wheat Raising Company by saying that the investors will look to the name of the Parr's bank and ask the kind of a guarantee the company is offering for respectable commercial undertakings, and will find themselves grievously disappointed a few months hence.

Signor Marconi, interviewed on his arrival here, contrasted the attitude of the British and Canadian Government with regard to his wireless telegraphy operations. The Canadian Government, he said, had given all the assistance needed to develop the system, and he said that the great dissatisfaction existed in Canada at the obstacles placed in the way of establishing a commercial service by the British Government.

Marconi will return to Canada two months hence, after visiting Italy. He is now carrying on a spirited campaign against the British permanent officials who refuse to negotiate an establishing a commercial service between England and the American continent, and is applying over their heads to Austen Chamberlain.

NORTHERN PACIFIC THE NEXT

The Road Also Wants a Share of Canada's Good Things.

Winnipeg, Man., Feb. 10.—The Tribune came out last night with a startling heading that an application will be made for a charter this session which will readmit the Northern Pacific Railway to the province, and a meeting of the legislature, who knows what is going on, confirms the news that the charter applied for by Mr. Hamilton, of Minneapolis, and mentioned some time ago, is for the N. P. R. that will operate in the province, but there is no room to doubt the report. The proposed line will traverse a very rich section of the province, and the railway will be able to enable them to commence work in the spring.

Some girls are perfectly natural, and others try to improve on nature. The average woman can't hold her tongue, even with a mouthful of hairpins.

VITAL FORCE Is Crushed by Chronic Troubles. One of the most weakening, undermining troubles, which mankind is heir to, is hemorrhoids or piles. The victim is careless and neglectful of the disease in its first stages, the pain is slight and the bleeding may only occur occasionally, or he may be reassured by the occasional disappearance of the symptoms. Any physician who has developed a rational remedy to soothe the inflammation, he would probably never have had a return of this irritating malady.

Into the Wrong Hole. "Put it Here," Said He to the Driver, and the Driver Obeyed. Washington, Feb. 7.—Charles J. Bell, banker and relative of Alexander Graham Bell, the inventor of the telephone, has a fine residence on Connecticut avenue, near Dupont Circle. A day or two ago Mr. Bell's supply of coal ran short. After considerable interviewing of coal dealers and the payment of a good stiff price, he secured two tons to be delivered to his house. The coal came along just as the driver was leaving the house for the bank today. "Where'll I put it?" asked the driver. "Here," said Mr. Bell, tapping with his cane what he thought was the cover of the coal hole.

"Sure?" asked the driver. "Sure," said Mr. Bell. The driver piled out the iron cover and dumped the two tons of coal into the hole. When Mr. Bell reached the bank they told him his butler wanted to talk to him on the telephone. The butler was somewhat excited, but after a time Mr. Bell managed to make out that he had picked out the wrong hole and that instead of going into his cellar the coal had been dumped into the sewer.

Questions Answered. GLENDALE.—D and B have a division of the fence and location. D calls in fence viewers, and two of them are objected to by B. The county judge appoints two in their place. The three meet at the fence, and agree to have a surveyor to lay out the line, assuming certain facts to be proven, and giving them to the surveyor. The fence viewers have two or more meetings with B at the office of his solicitor, where they discuss the matter and arrive at certain conclusions. The solicitor prepares the award. D was never informed of these meetings until the award was completed. Is the award good? Ans.—Until it is set aside. You can appeal. The facts stated justify an appeal if it is not otherwise a fair and proper end to the dispute.

People who have suffered from piles for years are advised to apply at the instant relief experienced from the first application. Another important advantage is the fact that anyone can use the remedy without detention from business or interference with daily occupation. "I feel it my duty to recommend the Pyramid Pile Cure, for after suffering ten years with a most distressing form of piles, I am entirely cured, thanks to this remedy. Anyone doubting this can write to Margaret Brady, 156 Whitman street, Cleveland, Ohio." 16-n-yv

PATENTS PROMPTLY SECURED. We solicit the business of Manufacturers, Engineers and others who require the advisability of having their Patent Applications Transacted by Experts. Preliminary advice free. Charges moderate. Invention Help. Patent cost upon request. Marion & Marion, New York Life Bldg Montreal, and Washington, D.C. U.S.A.

WOMEN—Are Especially Liable to COLDS

Colds Invariably Result in Catarrh Which Sets Up a Host of Distressing Diseases.

PE-RU-NA BOTH PREVENTS AND CURES A COLD—READ PROOF.

Mrs. Carrie James

Miss Ella Pittaway

Mrs. Carrie James, Woodward avenue, Memphis, Tenn., writes: "I gladly recommend Peruna for I have found by experience that it is the best medicine to cure a cold or influenza; in fact, any throat or lung trouble. I have experienced immediate relief if I took a few doses after catching cold, and endorse it heartily." —Mrs. Carrie James.

CATCHING COLD. How Prevented—How Cured—By the Renowned Medical Author and Physician, Dr. Hartman.

There is no fact of medical science better established than that a teaspoonful of Peruna before each meal during the winter season will absolutely protect a person from catching cold. Now if this is true (and there is no doubt of it), thousands of lives would be saved and tens of thousands of cases of chronic catarrh prevented, by this simple precaution within the reach of everyone.

After a cold has been contracted a teaspoonful of Peruna every hour will shortly cure it, leaving no trace of it behind. After chronic catarrh has become established, or the first stage of consumption has been reached, it will take longer to effect a cure. It seems strange that as well known and as well established as these facts are that anyone should neglect to profit by them, and yet no doubt there are many who may little or no attention to them, and go on catching cold, acquiring chronic catarrh and consumption.

Mrs. Mary E. Sampson, West Derby, Rockingham County, N. H., writes: "I had terrible headaches, both ears run and I was nervous all the time, also had trouble in my month, was deaf in one ear for 30 years. I took six bottles of Peruna and one of Manthin, and am happy to say that it is the best medicine I ever used. I am not so nervous, my appetite is good, every thing I eat agrees with me, and I am feeling better in every way. Since I took the second bottle of Peruna, my ears ceased to run. I think Peruna is a God-send to women, and a blessing to suffering humanity."—Mary E. Sampson.

A Senator's Wife. Mrs. Verona E. Roach, wife of United States Senator Roach, from North Dakota, writes:

"I can cheerfully recommend Peruna. Indeed, I know of no other remedy as good. It is great for colds and many of my friends have used it for catarrh with good results."—Verona E. Roach, Larimore, N. D.

Miss Olive Carlisle, 137th-first street, Brooklyn, N. Y., writes: "Last winter coming home from a ball I was suddenly chilled and caught a severe cold, which settled on my lungs, and in my head. I tried all remedies all in vain, and soon found myself with a bad case of catarrh and worse condition. Peruna was recommended to me, and I gave it a trial, and in less than a month all trace of catarrh had left my head and throat in perfect condition. Peruna was recommended to me, and I gave it a trial, and in less than a month all trace of catarrh had left my head and throat in perfect condition. Peruna was recommended to me, and I gave it a trial, and in less than a month all trace of catarrh had left my head and throat in perfect condition."—Miss Olive Carlisle.

Miss Ella Pittaway, No. 35 Primrose avenue, Ottawa, Ont., writes: "I cannot speak too highly of Peruna as a medicine of special value during the inclement weather. I was subject to catarrh of the head and throat until I tried Peruna, and now I find that a few doses taken in time invariably cures me, and also that it acts as a special preventative of throat difficulties." "It keeps me in fine health, and I value its qualities very much."—Miss Ella Pittaway.

London, Tuesday, Feb. 10.

Montreal's Long-Distance Power

On Saturday the city of Montreal for the first time was in receipt of eight thousand horse power over the transmission lines from Shawinigan Falls, a distance of eighty-four and three-tenths miles. The lines and plant will be extended so as to supply 30,000 horse power for the use of the Canadian metropolis. This is the most important long-distance electrical system east of the Mississippi River. The transmission line consists of approximately 4,500 cedar poles, 19 inches in diameter at the base and 7 inches at the top, with a minimum length of 35 feet, the poles being set 6 feet in the earth and in line at a distance of 100 feet from each other. Four feet below the top and bolted to each other, is a Georgia hard pine cross arm 42 inches square and 6 feet long, which has been treated in liquid asphalt. Each of the three cables is composed of seven strands of No. 6 B. and S. gauge aluminum wire, one strand forming a straight core around which are twisted the remaining six wires. The diameter of the cable is one-half inch, and it weighs a trifle over 2.3 ounces per lineal foot. As there are seven wires in each of the three cables, it follows that 1,771 miles of aluminum wire were used on the entire line, and that the total weight of wire used was over 250,000 pounds. The work of construction did not commence until August last, so that the system has been completed with remarkable rapidity. It is estimated that it requires, on an average, about 20 tons of coal to produce one horse power for 24 hours per day for a year of 365 days, and that the Shawinigan Falls will develop energy equivalent to that produced by six million tons of soft coal per annum. The city of Montreal is to be congratulated on the successful result of this great enterprise. It shows what the possibilities of Niagara are.

A Biography of Laurier.

Mr. J. S. Willison's biography of Sir Wilfrid Laurier, to which he has given a busy editor's spare time for some years, is about ready for publication. It is understood the work will be more than a biography—a political history of Canada from Confederation. Mr. Willison's qualifications for the task are admitted. He has been for years a close personal friend of the Premier, and has been privileged to study him from the most intimate aspects. As the editor of the Globe, he has been also in confidential relations with many of the other leading public men of Canada, and has had something to do with shaping the events which he now undertakes to describe. We have no doubt the subject will be well handled from a literary standpoint. Mr. Willison has already made successful essays in authorship, and his latest and most ambitious effort is awaited with great interest.

The Cigarette.

Petitions from all parts of the Province will be presented to the legislature, asking for the prohibition of the manufacture, sale and importation of cigarettes. The great majority of smokers will join heartily with non-smokers in supporting the movement. The man who enjoys a pipe or a cigar usually has a thorough contempt for the cigarette, and most of the dealers would prefer to be rid of it for business reasons, as it lessens the demand for better and more expensive quantities of tobacco. The cigarette is chiefly dangerous as the popular vice of the small boy. The habit is terribly prevalent among the youth of the country, and appears to be growing in spite of the restrictions thrown around the sale of cigarettes in many municipalities. The beneficial effects, mental and physical, of cigarette smoking, come particularly under the observation of teachers from whom there is a mass of testimony in support of the desired legislation. Principal Palmer, of the Mt. Allison Academy, Sackville, N. B., says: "Having had an experience of nearly twenty years as teacher in the schools and academies of New Brunswick, a large number of boys and young men from the ages of twelve to twenty-one years have passed under my direct notice. On such youths the evil effects of cigarette smoking have been very evident in the impaired physical development, and especially in the retarded mental growth and deranged nervous system. Students addicted to the tobacco habit have less power of application and concentration of thought than those not using this narcotic. This is only one of hundreds of testimonials to the same effect. The physical instructor of the Y. M. C. A., in this city, has detected a number of cases of heart palpitation among boys which he traced to cigarette smoking. The boys are not far out in nick-naming the little tubes "dopes" and "coffin-nails."

Death Rate in Cities.

London shows up well in the Provincial medical health officer's last annual report. The death rate in the cities was: St. Catharines 2.90 Kingston 2.73

Miss Maude Gonne.

Toronto 2.25 Ottawa 2.32 Brantford 2.10 Hamilton 1.80 St. Thomas 1.65 Windsor 1.64 Guelph 1.56 London 1.50 Stratford 1.40 Chatham 1.32 Belleville 1.30 Woodstock 1.02 Typhoid fever was responsible for 500 deaths, as against 632 the previous year. There were 7 deaths from small-pox out of 3,000 cases. Other deaths were: Measles 181, scarlatina 268, whooping cough 166, diphtheria and croup 772, influenza 694, blood poisoning 572, cancer 1,094, tuberculosis 3,243. Of the deaths from tuberculosis 984 occurred in cities, compared with 1,081 the previous year. Has it occurred to the provincial health officer these must be great defects in the registration of vital statistics? We are loth to believe the death rate in St. Catharines was nearly triple that of Woodstock. Some local authorities appear to need a rap over the knuckles.

We agree with the Woodstock Sentinel-Review that it is about time the Court of Appeal gave judgment in the East Middlesex, South Oxford and Lennox election cases.

The Minneapolis Tribune describes Hobson, of Merrimac fame, as "the most intolerable nuisance ever inflicted upon an unhappy Government." It is easier to become a war hero than to remain one.

The New York Post is of the opinion that Russia did not know precisely what she was selling the United States in 1825, and that it would puzzle a congress of diplomats and geographers to say just what the coast of Alaska is. The Post does not take the absurd position that there's nothing to arbitrate.

The Free Press knows it is willfully misrepresenting when it says The Advertiser shows an "arrogance" to Mr. Egan. We have a great respect for that gentleman—too much respect for him, in fact, to think that he wanted the chairmanship of the Library again after holding it two years. The party bosses pressed it on him in order to prevent a Liberal being elected. The people are taking the Mayor's measure and are finding out what an exceedingly small man he is.

The C. P. R. has acquired the Elder-Dempster fleet of steamers, running between Montreal and Liverpool. The other day we read of a train of thirteen cars, loaded with raw silk, passing through Winnipeg. It had been shipped from Japan for the European market, via Canada. The purchase of an Atlantic fleet may enable the C. P. R. to develop a great traffic between Asia and Europe, in addition to the advantage of being able to route Canadian products straight through to the European markets.

Bobbie's "Scoop."

[Life.] "Bobbie, did you know I was going to marry your sister?" "Oh, yes. When did you find it out?"

Burns' Cottage.

[Robert Green Ingersoll.] Though Scotland boasts a thousand names of patriot, king and peer, The noblest, grandest of them all Here lived and cradled here. The loving cottar-king, Compared with whom the greatest lord is but a titled thing. 'Tis but a cot roofed in with straw, A hovel made of clay; One door shuts out the snow and storm. One window greets the day; And yet I stand within this room And hold all thrones in scorn; For here beneath this lowly thatch, Love's sweetest bard was born. Within this hallowed hut I feel Like one who clasps a shrine, When the glad lips at last have touched The something deemed divine. And here the world through all the years, As long as day returns, The tribute of its love and tears Will pay to Robert Burns.

Both Went Back.

[Life.] Briggs—"Bilkens didn't get along with that rich girl he married, did he?" Griggs—"No. She went back to her family, and he went back to his creditors."

Both Went Back.

[Life.] Briggs—"Bilkens didn't get along with that rich girl he married, did he?" Griggs—"No; she went back to her family and he went to his creditors."

Putting It the Right Way.

[Cleveland Plaindealer.] "I have no doubt you have heard some stories to my discredit," he said. "I don't like to put it in that way," she quietly replied. "How then?" he hopefully asked. "I have never heard any stories to your credit," said she.

Ready for Anything.

[Washington Star.] "If you don't pay me my salary," said the leading lady, "I shall denounce you from the stage." "All right," answered the manager, placidly. "Let's fix a date and I'll advertise it. Maybe it would make a hit."

Some Time.

[Eugene Field.] Last night, my darling, as you slept, I thought I heard you sigh, And to your little crib I crept, And watched a space thereby; And when I stooped and kissed your brow, For oh, I love you so— You are too young to know it now, But some time you shall know.

Some time when, in a darkened place, Where others come to weep, Your eyes shall look upon a face Calm in eternal sleep; The voiceless lips, that wrinkled brow, The patient smile shall know— You are too young to know it now, But some time you shall know.

Look backward, then, into the years, And see me here tonight; See, oh, my darling, how my tears Are falling as I write; And feel once more upon your brow The kiss of long ago— You are too young to know it now, But some time you shall know.

Quality, Not Quantity.

[Toronto Globe.] The efforts to induce immigrants to settle in Canada should be limited to the United Kingdom and the United States, and might hereafter in these countries be limited to the character in attractive form of perfectly trustworthy intelligence regarding the districts available for settlement. While the Dominion was staggering under a load of debt incurred to secure the construction of the Canadian Pacific Railway there was some defense for a strenuous immigration policy and for paying little attention to the character of the immigrants; but that time has gone never to return, and now the immigration policy need not be overdone while undesirable immigrants may usefully be dispensed with.

Coal Down in New York.

New York, Feb. 10.—A reduction in the retail price of anthracite from \$7 50 to \$6 50 a ton has gone into effect in the yards of the retail dealers throughout Greater New York.

Festivals of Music.

Ottawa, Feb. 10.—His Excellency the Governor-General has notified Mr. C. A. E. Harris that the Premier of Great Britain, the Right Hon. A. J. Balfour, has consented to act as honorary patron of the cycle of musical festivals to be conducted throughout Canada in April and May by the eminent composer, Sir Alexander Mackenzie.

Success is the only road on the map that leads to prosperity.

THE MARKETS.

LOCAL MARKET.

Tuesday, Feb. 10. The smaller lines of produce were not very well represented.

Hay and straw—Nearly 40 loads of hay were on sale.

Butter and Eggs—While the supply was light, prices seemed to be easier, especially for eggs, which sold at 18c to 20c per dozen.

Potatoes were in moderate supply at \$1.20 to \$1.30 per bag.

Poultry—The supply was light, principally turkeys, which sold at 14c to 15c per lb.

Table of market prices for various commodities including Wheat, Oats, Corn, and various meats.

Table of market prices for live poultry including Ducks, Turkeys, and various breeds.

Table of market prices for various types of meat including Beef, Pork, Mutton, and Lamb.

Toronto, Feb. 9.—Baled Hay—Steady; cars of No. 1 Timothy on the track here are quoted at \$9 to \$9.50.

ENGLISH MARKETS. LIVERPOOL. Liverpool, Jan. 9.—Closing—Wheat—Spot steady.

Dairy Markets. PITSBURGH. Pittsburgh, Pa., Feb. 9.—The oil market opened at \$1.50.

AMERICAN MARKETS. NEW YORK. New York, Feb. 9.—Flour—Receipts, 27,065 bbls.

Chicago, Feb. 9.—Cattle—Receipts, 20,000; good to prime steers, \$4.40 to \$5.75.

LONDON. London, Feb. 7.—Prices continue steady; Canadian cattle are quoted at 11c to 12c per lb.

SUFFERING MEN CAN BE CURED.

A Remarkable Discovery by a Famous Doctor in Michigan.

Any man who is suffering from physical weakness, loss of vitality, resulting from excessive use of stimulants, loss of strength and memory, weak back, varicose veins, etc., etc., should write at once to Dr. S. Goldberg.

DR. S. GOLDBERG, The World-Famous Specialist on Nervous Diseases.

So certain is he that the cure he offers is infallible that nothing need be paid by the patient until a cure is effected.

Toledo, O., Feb. 9.—Wheat was weak today on bearish statistics.

Chicago, Feb. 9.—Wheat was weak today on bearish statistics.

Detroit, Feb. 9.—Beans were very weak yesterday, closing with a loss of 3c to 4c.

Chicago, Feb. 9.—Cattle—Receipts, 20,000; good to prime steers, \$4.40 to \$5.75.

London, Feb. 7.—Prices continue steady; Canadian cattle are quoted at 11c to 12c per lb.

Liverpool, Jan. 9.—Closing—Wheat—Spot steady.

AMERICAN MARKETS. NEW YORK. New York, Feb. 9.—Flour—Receipts, 27,065 bbls.

THE ADVERTISER, LONDON, ONT. TUESDAY, FEBRUARY 10.

THE ACCUSED TELLS HIS STORY.

Think the Child May Have Eaten Cheese on Which Strychnine Had Been Spread.

Collingwood, Ont., Feb. 10.—The adjourned inquest on Janet Clark, the 2-year-old child of Alex Horton Clark, whose death was occasioned by strychnine poison, opened here yesterday before Coroner Stephen.

Water Could Be Supplied by the Saskatchewan and Bow Rivers.

Ottawa, Feb. 10.—The Government, it is understood, has under consideration a proposition from the Canadian Pacific Railway Company in regard to the selection of the 3,000,000 acres in its original main land grant which remains to be allotted.

The necessary irrigation works are to be drawn from the Bow, Saskatchewan and other rivers, and under its benign influence what is now a desert will be transformed to a waste of 5,000,000 acres into cultivated fields.

THE FATHER'S STORY. A. H. Clark, the prisoner, was then called, and told his story. He said: "I am a stonemason, 30 years of age, and a native of Scotland.

Is There a Weak Spot That Is Likely to Develop Disease? PAINE'S CEREAL COMPOUND. Quickly Reaches the Affected Parts Fortifies Them and Imparts New Life to the Blood.

Are you conscious of a weak spot in connection with any of the great organs of the body? Do your kidneys give you backache, are your eyes bothering you? It may be that you are suffering from a weak spot in the small of the back.

Detroit, Feb. 9.—Beans were very weak yesterday, closing with a loss of 3c to 4c.

Everybody drinks

Ceylon tea. The people are alive to a good thing once tried. Sold only in lead packets. 25c, 30c, 40c, 50c and 60c per lb. Black, mixed or green. By all grocers.

FOR LOVE OF A LADY
ALICE MAUD MEADOWS
Author of "One Life Between," "The Eye of Fate," "Days of Awe," etc.

She noticed, and disliked, the familiarity of his tone, but she followed him, smiling pleasantly, and she shut the door.
"Now, what can I do for you?" she said. "Anything I can, I am sure I shall do most faithfully."

"On your word of honor, this goes to further," he said.
"On my word of honor, no."
"Then the door was open. I did go into the room, and, what's more, I heard footsteps pass the flat-hurried footsteps. I didn't mention this because I didn't want to be more mixed up in the case than I could help, and it seemed to me that evidence was already strong enough against the murderer."

CHAPTER XXII.
"You are the most independent woman I ever met, Miss Bloor, and yet you tell me you've never been about that you were born at Mildura and have lived there all your life."

"As far as I could make out from my aunt's letter, she was going to meet me if I happened to be pretty; it isn't I was to look after myself. I suppose ugly girls are quite safe in London, and pretty ones are not. As my father wrote back a true description of my charms, she will, of course, not meet me."

GALT'S FAST TEAM WERE TOO MUCH FOR ST. JOHN'S
Local Team Worked Under Many Disadvantages.
Other Teams Defaulted to the Forest City Club.

By Way of Comment.
The duties of a referee are nerve-straining, and in many cases extremely aggravating. The man with the whistle is subject to all kinds of abuse, some of it comes from the crowd, but the kind that is harrowing comes from the players themselves.

C TEAM BEAT B TEAM.
Another good game was played in the Collegiate Institute series at Princess rink yesterday afternoon, when C team defeated B team by a score of 3 to 1. Gilbert Ward was a capable referee, and satisfied both teams.

HOCKEY.
ST. JOHN'S TEAM DEFEATED.
The only record which the St. John's O. H. A. team brought back with them from Galt was a knowledge that they had been defeated, and that the score was one which made them feel that the Galtites were the speediest bunch they had yet run up against.

ALDERBARN, BY ALLERTON.
The subject of this illustration is Alderbarn, a 2-year-old colt by Allerton, 2:09 1/4, dam by Baron Wilkes. He is one of the best bred colts in Canada, and is owned by Mr. Richard Lee, the well-known poultry man, of Richmond street north. A few months ago Mr. George McCormick offered Mr. Lee \$2,000 for the horse, which he wished to secure for breeding purposes.

WON AGAINST MALONEY.
London, Feb. 9.—At the National Sporting Club tonight Spike Sullivan, of New York, gained an easy victory over Alvin Smith, of West Superior, and counted out in the first round of what had been arranged to be a 15-round contest for \$1,000.

BASEBALL.
ILLNESS WILL KEEP LAJOIE BACK.
Cleveland, Feb. 9.—Larry Lajoie may not be able to play until late in the season, owing to his illness. The incident made in his side may not be sufficiently healed to permit him joining the Cleveland team early.

THE OAR.
CAN CHOOSE EITHER PLACE.
Hamilton and St. Catharines are the most frequently mentioned places as likely to be selected as the permanent course of the Canadian Association of Amateur Rowing. Suitable water can always be had at either place, but the association requires for each regatta nearly \$500, and it has always been a difficult matter to raise this money.

THE TURF.
THE LOUISIANA MEETING.
New Orleans, La., Feb. 9.—Favorites won three of the six races on today's card. Armande, Harry and Chickadee being successful. The weather was clear and the track slow.

THE PRISCO MEET.
Inclusal, Feb. 9.—Weather clear; track slow. Results:
First race, 5 furlongs, selling—Terelus, 8 to 1; 1. 2; 3. Lady Gull, 11 to 1; 2. 3. Time, 1:02 1/2.

THE OTTAWA ICE RACES.
Ottawa, Feb. 9.—The last day of the Central Canada Association ice races today furnished considerable sport. Two events being pulled off, much to the satisfaction of the 500 spectators. The events were:

Named race:
Birdie Hayes, Proctor, Cooks, 3 4 1 1
Andi Pendi, Macpherson, Montreal, 1 3 2 3
Gerald, Wall & O'Neill, Ottawa, 5 1 2 3
Minnie Miller, Lyons, N.Y., 2 3 4 4
Time—2:25 1/2, 2:28, 2:28, 2:29 1/2.

WINSOR DRIVING PARK ASSOCIATION WILL TRIP TWO-TIME PLAN WILL BE TRIED.
Windsor Driving Park Association will trip two-time plan this year in a majority of its events, and it is said that big purse events will have the old system. A meeting of the directors will be held today, at which the stakes will be announced and the programme decided upon for the summer meeting. It is likely that the association will offer a purse for the match race between the pacers Wayne King and Great Guy, the trotting horses that are likely to be matched within the near future.

GETTING ANOTHER HEARING.
Louis Smith, the jockey whose ride on Mervy Aerobal got him into trouble with the stewards of the Jockey Club, is to receive another hearing, at which he is confident of establishing his innocence. Smith's case interests Canadians, for it was on tracks in this country that he first made his mark, and from the additional fact that he is married to a Toronto girl.

ARE WELL-KNOWN FIRM.
The firm of Dalgety Bros. is one of the best known in Canada as importers of Clydesdale horses. The Canadian Sportsman. They have brought a lot of valuable horses to this country, and they are firm believers in the humble penny they never hold for fancy prices, but are satisfied to dispose of their horses at a reasonable profit. One of the most important shipments ever made from their headquarters in Scotland will arrive in this city (Toronto) about the end of this month, a lot of sound, fresh stallions ranging in age from two years upwards. They were selected personally by the two brothers, and included in the consignment is some of the choicest show-birds of the time.

GLENCEON WON.
Glenceon, Ont., Feb. 9.—A very fast and exciting game of hockey was played by Delroy and Glenceon at the Glenceon rink tonight. Good combination was used by both teams, but

Glenceon's excellent defense did fine work. The score at the end of the first half was 5 to 0 in favor of Glenceon, both teams scoring two each during the last half, making the final score 7 to 2 in favor of Glenceon.

played on their own ice counted a good deal, and repeatedly the rubber was shot at Rodgers, who made many clever stops and allowed only the impossibilities to get past him. There was a lack of judgment in the Galt and the Galt score must have been discouraging to the locals.

With a complete team the St. John's can hope to compete on even grounds with the Galt team, and that the match which will be played tomorrow at the Princess rink will be interesting beyond doubt. The games which will be played from now on promise to be as enthusiastically received as any of the championship games were.

Another good game was played in the Collegiate Institute series at Princess rink yesterday afternoon, when C team defeated B team by a score of 3 to 1. Gilbert Ward was a capable referee, and satisfied both teams. The line-up was: B—Goal, Dillon; point, Moore; cover point, Towe (Capt.); forwards, A. McArthur, Turner, Spencer, McLean, C—Goal, Atkins; point, S. Little.

Winnipeg, Man., Feb. 9.—The feature of this morning's play in the interspiel was the preliminary of the international trophy match played between the Canadians and Americans. It was a spirited match between representatives from both sides of the border. When the nine games were over and the scores totaled, it was found that the Canadians had won by ten points. Playable Linday, was in this, and beat Smith, of West Superior, one point. With a couple of exceptions all the scores were very close. Only two Americans beat their opponents. There were also two ties. The Scotch rifled badly in the American-Abell competition. They are sure of a trophy to take home, however, as they were able to get each other for second place in the Royal Caledonian.

Does it not seem more effective to breathe in a remedy, to cure disease of the breathing organs, than to take the remedy into the stomach?
Vapo-Cresolene
Established 1879.
Cures Whoie You Sleep
It cures because the air rendered strongly antiseptic is carried over the diseased surface with every breath, giving prolonged and constant treatment. It is invaluable to mothers with small children.
Is a boon to asthmatics.

Was Very Weak and Nervous.
Heart Palpitated—
World Get Dizzy Spells—
Many Canadian Women Troubled in this Way—
Are You One of Them?—
If so, You Can Be Cured!
MILBURN'S HEART AND NERVE PILLS WILL DO IT.
Mrs. Denis Hogan, Hazelton, Ont., writes:—During the year 1901 I was troubled very much with palpitation of the heart, followed by a fluttering sensation and great pain. I would get dizzy, and was very weak and nervous. Being advised to try MILBURN'S HEART AND NERVE PILLS, I procured three boxes, and since taking them I have not had a bad spell, and feel better than I have for years.
Price 50c per box, or 3 for \$1.25; all dealers or The T. Milburn Co., Limited, Toronto, Ont.

Without good oats the Tillson kind of oatmeal is impossible.
Without half a century's experience, knowledge of sources of supply, knowledge of qualities in different localities, the Tillson uniformity of selection is impossible.
Without uniformly good oats uniformly poor oatmeal is the result.
And then there is the making.
Tillson's own Pan-Dried process makes the best oatmeal in the world.

Packages Only. All Grocers.
Ready to Cook--Served Hot.
Made in Canada 50 Years.
Tillson's Oats
Pan-Dried. A Food, not a Fad.

RADWAY'S PILLS. Always Reliable. Purely Vegetable. Perfectly tasteless, elegantly coated, purge, regulate, purify, cleanse and strengthen. Radway's Pills cure all disorders of the stomach, bowels, kidneys, bladder, nervous diseases, dizziness, vertigo, costiveness, piles.

Persons advanced in life often suffer from indigestion, and from paralysis or inability to evacuate from the bowels; likewise from urinary difficulties. We have the evidence of a large number of aged persons from 60 to 80 years of age, who have been cured of this defect who had been compelled to resort to injections to empty their bowels by the use of Radway's Pills and Resolvent. The regular life may be extended to a much longer period. By keeping the liver, stomach, bowels and kidneys in a healthy condition, the blood will continue pure and disengage itself from the impurities which would otherwise be accumulated in the system. A weak, feeble and decaying body can be brought to a healthy condition by the use of these remedies—the faculties will remain in a healthy condition, a weak, feeble and decaying body can be brought to a healthy condition.

Be sure you get RADWAYS and see that the name is on what you buy.
RADWAY & CO., 7 St. Helen St., Montreal.
CURLING.
COLTS' FINALS ON THURSDAY.
Thursday next will see the playing off of the finals in the Colts' League at the Simcoe street rink. The term "colt" signifies that a player has not been enthused by the game for over five years, but every player who commands the best players are to be found in their ranks, and excellent contests can be expected. The clubs that have been mentioned in this series are Stratford, St. Marys, Gloucester and Hensall, and either Paris or Ingersoll, and Forest City Club of St. Thomas, who have yet to play the deciding match, Tuesday. The Forest City contest will be argued this afternoon, while Paris and Ingersoll will also meet before Thursday. The contest is considered to be attached to much interest.

DEFAULTED TO FOREST CITY.
It was thought that the primaries in the western tankard series for group 7 would be played today, but the Forest City Club have learned that the other clubs, Woodstock, Clinton and Godfrey, have defaulted. Both London clubs will now play for the trophy.
THE BONSPIEL AT WINNIPEG.
Winnipeg, Man., Feb. 9.—The feature of this morning's play in the interspiel was the preliminary of the international trophy match played between the Canadians and Americans. It was a spirited match between representatives from both sides of the border. When the nine games were over and the scores totaled, it was found that the Canadians had won by ten points. Playable Linday, was in this, and beat Smith, of West Superior, one point. With a couple of exceptions all the scores were very close. Only two Americans beat their opponents. There were also two ties. The Scotch rifled badly in the American-Abell competition. They are sure of a trophy to take home, however, as they were able to get each other for second place in the Royal Caledonian.

THE RING.
ENDED IN A DRAW.
London, Feb. 9.—Geo. Dixon, the American colored pugilist, fought a 20-round draw with Harry Ware, of London, at Northampton, tonight. The stake was \$1,500 and a crowd of 3,000 witnessed the contest. Ware seemed to be the cleverer of the two at the start, but he suffered terrific punishment about the body. There was heavy fighting until the fourteenth round and Dixon tired out, but could not himself land a knockout blow.

WON AGAINST MALONEY.
London, Feb. 9.—At the National Sporting Club tonight Spike Sullivan, of New York, gained an easy victory over Alvin Smith, of West Superior, and counted out in the first round of what had been arranged to be a 15-round contest for \$1,000.

BASEBALL.
ILLNESS WILL KEEP LAJOIE BACK.
Cleveland, Feb. 9.—Larry Lajoie may not be able to play until late in the season, owing to his illness. The incident made in his side may not be sufficiently healed to permit him joining the Cleveland team early.

THE OAR.
CAN CHOOSE EITHER PLACE.
Hamilton and St. Catharines are the most frequently mentioned places as likely to be selected as the permanent course of the Canadian Association of Amateur Rowing. Suitable water can always be had at either place, but the association requires for each regatta nearly \$500, and it has always been a difficult matter to raise this money.

FOOTBALL.
START FOR HOME ON 12TH.
London, Feb. 9.—The Canadian footballers will leave for home on the Pretorian on the 12th, except Marshall, of Hamilton, and Farrell, of Halifax. The latter has just got a commission in the West African frontier field force and is going there in a few days. The tour has been a failure financially, and the team members are hit hard. The outing has been enjoyable, and the hospitality splendid, but the team lost games entirely because of the superior passing of their opponents.

SUCCESS is sure to crown your efforts after taking either a SHORTHAND or Business Training in the F. O. B. C. LONDON.

You Like To Look Into your well-filled wardrobe of suitable and seasonable garments. We make them as they should be made.

O. Labelle, 372 Richmond St. Our cut rates on bicycle repairing lasts one month longer, until March 1.
