The Birchall Case.

Woodstock, Aug. 21.—As the time appaches for the trial of J. Rex Birchall the murder of F. C. Benwell, the soner is well in body and catim, if not cerful in mind. He eats and sleeps well d takes a lively interest in all that aches him within the restricted circle of staily life. He takes delight in exercise, talent he has for pen and ink draw. In the products of his art. The line of fense is a subject of general speculation, loose who favor Birchall's side seem to feel

confident of the result of the trial, basing their confidence apparently upon the tone of the people engaged in the defense. One thing is pretty clear, however, there will be no attempt to prove an afibi and the case will go upon the merits of the evidence collected by the two sides.

adhesion is doubtful.

The Italians Pleased.

ROME, Aug. 21.—The Mexican Government has granted concession to ex-Deputy Orsini for an exhibition of Roman art which it is proposed to open in the City of Mexico in 1892 and continue until 1895. The Italian Government will support the scheme. The concession has created a grateful feeling among the Italian public toward Mexico.

TORONTO, Thursday, Aug. 21.

Five young Toronto lads, whose ages range from 12 to 15 years, are in custody in Sarnia, awaiting the necessary funds to bring them back to Toronto. The young-sters went to Hamilton on the Civic Holiday excursion, and missing the eturn boat thought to steal a ride home on the railway. They stowed themselves away in a freight car, and were surpised to find themselves landed in Sarnia.

The vacancy in the directorate of the Bank of Toronto, consequent on the decease of the late W. R. Wadsworth, has been filled by the election of Mr. John Leys, of Rice, Lewis & Son (limited), hardware merchants.

county, who egoing up to look over the guarded.

Sir Charles Tupper has received 150 applications in response to letters inviting plications in response to visit Canada. Nine or eleven will be selected, who will start two or three weeks hence.

THE CYCLONE'S WORK.

Pennsylvania Wind Storm.

WILKESDARRE, Aug. 20.—The Ninth Regiment is on duty, assisting the police in maintaining order. Unemployed men will to-day be pressed into service to raise the embargo laid upon very many of the streets by falling trees, telephone and telegraph poles. Many owners of building have already set about the reconstruction of the injured portions of their property. A careful estimate places the number of buildings demolished and partially destroyed at nearly 400, and some estimate that it will exceed this figure.

The loss will probably reach nearly, if not quite, \$1,000,000.

KILLED AND PATALLY INJURED.

The loss will probably reach nearly, if not quite, \$1,000,000.

In the City Hospital several victims are cared for. Some of them cannot survive. So far as can be ascertained this morning the following are known to have been killed and fatally injured:

Instantly killed — Nettle Thompson (colored), aged 10 years; E. Martin, baker, Hazle street; John Fritz, aged 16, Hazard Wire Rope Works; Peter Rittenmyer, 25 (Inderella street; Mrs. Eliza J. McGinley, 28 Soott street, and her infant; John McGinley, aged 13; John Kern, milkman, Modesa atreet; Adam Frantz, of Jones & Frantz; George Hamilton, employed at Stegmair's brewery.

Fatally injured—Franklin Welsh, hurt at wire rope works; John Housch, John Long, wire rope works; John Housch, John McGinley, John McGinley, John Housch, John McGinley, John M

At Philadelphia Elizabeth Jones (colored) yesterday drowned her 8-months-old child in a tub of water and then hanged herself.

The widow of General Garibaldi is about to marry Dr. Gabriel Tanferna, a physician stationed at the Italian Naval Academy at Leyborn.

without abandoning the positions they have gained.

CITY OF GUATEMALA, Aug. 21.—The capital is jubilant and the people are happy, to for the peace agreement has been signed at last. Barrilas has accepted the suggestions of the diplomatic body and accepted their plans. At the beginning he persisted in refusing to sign unless Ezeta was removed, but at last convinced of the necessity he signed the protocol, which will be published here within five days, when it will be ratified.

LONDON'S SEWAGE

Very Unsatisfactory Confer Owen Sound, Aug. 20.—The Health Difficers' Association concluded its annual meeting to-day, and their labors done, in-luiged in the convivality of a banquet endered them by the town this evening. The proceedings have been of popular increast. ence with Vice-President Webb.

the wretched sanitary condition of the town in 1884, when the Public Health Act came into Soperation and the considerable advance that has been made since that year. A \$290,000 system of water supply had been put in and a \$80,000 sew-age system woted for. The sale of milk had been brought under a strict municipal inspection, contraction of epidemic diseases had been provided for and piggeries, privy pits, cesspools and slaughter houses had been abolished from the city. Dr. Griffin did not advance Brantford, as claiming any superiority of work done, but he wished rather to show what may be accomplished in a few years in the improvement of sanitation.

LONDON SEWERAGE TROUBLE.

Dr. Hutchinson and Ald. Taylor, a member of the London Board of Health, asked the association to give some consideration to the hardshap their city suffers under in connection with the disposal of its sewage. They laid before the meeting the difficulty the townships on either side of their city had forced upon it by their antagonistic attitude and the position it had been left in by the suit in the courts to prohibit it emptying its sewage into the river.

Dr. Bryce said he thought it could not be

prohibit it emptying its sewage into the river.

Dr. Bryce said he thought it could not be permitted London to pollute the River Thames just because it was a growing city and wanted to find n easy and cheap method of sewerage, especially when the conditions are so favorable for the establishment up there of an irrigation farm. The secretary of the Provincial Board then a gave Owen Sound some advice on the posal of its sewage. He was followed by posal of its sewage. He was followed by conditions switch home this city and was selected by the benefit of the experience Brockville has gained during the establishment of its complete system of sewerage. Somewhat in opposition to the water service system of the St. Lawrence River town, Mr. Macofith a stone in opposition to the water service system of the St. Lawrence River town, Mr. Macofith as the stable water specially passed beds at the granted him the conditions of the problem, except where only a water service system is possible.

Ald. Taylor made a couple of attempts to a the case of the Forest City sympathetic in the conditions are so favorable for the establishment of the same of the service system of the exception of the service system of t IN AUSTRALIA.

MELLEOUBLE, Aug. 20.—Owing to the strike the Tasmanian Shipping Company has laid up its boats and many steamers have stopped running. Their owners are vainly making offers of prolonged engagements at high wages.

The shew, in point of attractiveness, promises to surpass all previous exhibitions. One of the most interesting departments to the many thousands. attractiveness, promites to surpass all previous exhibitions. One of the most interesting departments to the many thousand visitors will be the main building, in which the first time in the history Canadian shows, will be witnessed operation machines of almost every known description, illustrating the practical in the manufactories of London and the West. It will be a grand sight to see the workmen of the McClary Manufacturing Company turning out tin and other ware with almost lightning velocity; to witness the London Machine Tool Company's hands making screws; the looms of the Dufton woolen mills weaving cloth; the workmen of the London pottery producing their ware; Bryan & Co.'s men making brushes; Wm. Ward's employes making eigars; the Globe Tobacco Company—London's new industry—turning out its fine cut; Pigot & Bryan's artists decorating their chinaware; and Reid Bros.' employes making feather-bone corsets, of which the public have heard so much recently, not to mention the tafly-making industry, which will be convented by Mr. Fred Fysh, and many others now being arranged for.

From outside London, Secretary Browne

taffy-making industry, which will be conducted by Mr. Fred Fysh, and many others now being arranged for.

From outside London, Secretary Browne has been successful in securing the attendance of many enterprising manufacturers and others will follow if they study their own interests. Mr. Browne paid a visit to Galt, Berlin, Hamilton and Toronto this week, and the result of his labors is highly satisfactory. Indeed, he had but to show the advantage of being represented in a show that will be visited by many thousands of the best buying population in the Province—that was enough; the enterprising manufacturer could no longer resist the temptation. Among other manufacturers to be represented will be Cant, Gourlay & Co., Galt, who will exhibit their woodworking machines, now being made for the works of the Bennett Furnishing Company, of this city, in Glasgow; Cowan & Co. will show new planers; Sherley & Dietrich, Galt, will show saws, the Ontario Cotton Company, of Hamilton, give an exhibition of cotton weaving in the main building. If act, all these manufacturers, as well a fact, will have their machines in operacotton weaving in the main building. In fact, all these manufacturers, as well as others, will have their machines in operation for the edification of the sightseers. The proprietor of the Berlin Button-Morks is also likely to put in a button-making machine. It would be a good idea, and a profitable one for this Berlin manufacturer, to set up his machine and turn out anch curious souvenirs as is within its reason. The Appendix of the proper of the proper is the proper of th

Canada.

The Manitoba Government will have a special exhibit of the products of that

The C. P. R. will have a large collection of grains, fruits, flowers and minerals from the far Northwest. From the Ontario Agricultural College will be sent the cream of the products of

will be sent the cream of the products of the year.

The Ottawa Agricultural College will make a similar exhibit.

An interesting study will be the special exhibit of the Haras Nationel of Quebec, Their Percheron stock will be well worth coming many miles to see.

Another great collection will be they Southern Inter-State exhibit, which will embrace the products of fourteen of the Southern States, embracing figs, rice, cotton and other articles just as they grow; carpets made from the leaves of the pine, herbs for medicine, and garden products, including also live alligators from Florida. No mention need be made here of the display of general cattle, horses, sheep, pigs, dairy produce, fruit and picture display at the Western Fair. These departments are always good; this year promises to be no exception to the rule.

The Western Fair, indeed, has no competitor in point of general attractiveness.

anties Not Reflected by the Camera Beauties Not Reflected by the Camera.
The lovely Miss Calvert, of Baltimore, (now Mrs. Carroll Bulmer), had her photograph taken once, but could never be prevailed upon to go through the performance again. When questioned as to the cause of his wife's antipathy to the camera, Dr. Bulmer said: "Her features are not regular, and she takes a horrid picture. Her beauty rests upon her deep, liquid eyes, coral lips, rich auburn hair, and a delicious, creamy complexion, the qualities precisely a camera rich auburn hair, and a delicious, creamy complexion, the qualities precisely a camera cannot reflect. There is Miss Clinton, on the other hand, who is pock-pitted, dull of eye and faded of hair, takes an excellent likeness, because she has a straight nose and pretty fair outline of features." Now, is it not fortunate for humanity that those qualities in which beauty for the most part consists are the very ones that can be cultivated; while all the skill and science in the world cannot turn a nez retrousse into a Roman or even a Grecian nose? And what produces all this brightness of complexion but pure red blood coursing beneath a skin rendered transparent and beautiful by the free and unobstructed action of its millions of oil glands and pores, through the use of the Cuticura Soap, an exquisitely perfumed skin beautifier.

Peculiar
In the combination, proportion, and preparation of its ingredients. Hood's Sarsaparilla accomplishes cures where other preparations entirely fail. Peculiar in its good name at home, which as "tower of strength abroad," peculiar in the phenomenal sales it has attained, Hood's Sarsaparilla is the most successful medicine for purifying the blood, giving strength, and creating an appetite.

What She Wanted to Sec.—"So this is the mint," exclaimed a visitor to one of Unele Sam's coin factories. "Yes, miss." "Oh, please won't you show me the mint juleps I have heard about?"

Nothing impure or injurious contaminates Peculiar

juleps I have heard about?"

Nothing impure or injurious contaminates the popular antidote to pain, throat and lung remedy, and general corrective, Dr. Thomas' Eelectric Oil. It may be used without the slightest apprehension of any other than salutary consequences. Coughs, rheumatism, earache, bruises, cuts and sores succumb to its action.

"Well, if that isn't cheeky," remarked the summer maideu as her seaside acquaintance suddenly kissed her on the velvety jaw.

**The Visite into Contact on Visite in the Contact of the Contact of the Contact of the Contact on Visite in the Contact

crivial and satisfied with the way Chairman Langmuir—There was a report that your jailer and his family were sick with malaria on account of the bad sanitary arrangements.

Witness—Oh, yes; there was such a report, but my section was always well ventilated and the county has since put in a ventilated large enough to ventilate the Whole county.

To the commission—About one-third of the United States—professional crooks—who make up the worst class of criminals. The cause of crime with me, to a great extent, is because Detroit is on the other side of the rive. (Laugher.) Four-fifths of the criminals admitted that drink was the cause of their downfall.

JAILER KELLY, LONDON.

Jailer Patrick Kelly, of the London is 1883, and previous to the was a lass, and previous to the was a lass and the wa they were incarcerated for some persoffense.

To Chairman Langmuir—Insane prisoners were also compelled to associate with the other prisoners, as also had the civil offenders. A great many prostitutes were confined in the jails and they were in the same wards as other girls committed for trivial offenses. Something should be done towards providing employment for the prisoners. I am satisfied with the way things are now going.

Chairman Langmuir—There was a report that your jailer and his family were sick with malaria on account of the bad sanitary arrangements.

extent, is because Detroit is on the other side of the criwinals admitted that drink was the cause of their downfall.

Jailer Patrick Kelly, of the London jail, was then called. He said he was appointed in 1883, and previous to that he had been turnkey for 32 years. There were nine corridors in his jail, three of which were set aside for women. Last year there were 1,042 prisoners in the jail, but that was the largest number he had ever had in at any time. There were hut 39 cells in the jail and he had sometimes as many as 52 prisoners to get into 39 cells. There was not a chance of classifying the prisoners as they should be. Prisoners that are frequently recommitted are drunk and disorderly characters, larceny being also committed by the same class.

To Chairman Langmuir—The drunk and disorderly class are mostly young and unmarried men, many of whom are habitual drunkards. The best cure for the complaint was imprisonment and hard work. Such a system would not apply to married men, because it would be punishing their families instead of the of-

of the school books of the litthrepublic, in so far as the apple episode is oncerned, declaring it a mych.

A Dinner Pill.—Many personsaffer exeruciating agony after partaking a hearty dinner. The food partaken of is he a ball of lead upon the stomach, andustead of being a healthy nutriment it soomes a poison to the sytem. Dr. Parmer's Vegetable Pills are wonder ful correcties of such troubles. They correct acidity, open the secretions and convert the food ptaken of into healthy nutriment. They as just the medicine to take if troubled wir Indigestion or Dyspepsia.

A peculiarity of Hood's Sarsapara is that while it purifies the blood, it in arts new vigor to every function of the body.

Meek but Dignified.—"Have v traitors in our midst?" cried the oror. "I haven't any in mine," replied a gemmarian who sat in the front row.

No one need fear cholers or an summer complaint if they have a bottle o'r. J. D. Kellogg's Dysentery Cordial read for use. It corrects all looseness of the bowels promptly and cause a healthy an natural action. This is a medicine adapt for the young and old, rich and poor, and rapidly becoming the most popular meeine for cholera, dysentery, etc., in the pract.

WESTERN ONTARIO.

The second row of spiles for the C. P. R. slip at Windsor is completed.

T. Cuthbertson will succeed Mr. R. T. Brooks as architect of the Woodstock court house.

The Pushinch Farmers' Club Seed Fair will be held in Guelph on Saturday, Aug. 30.

Isaac Carman, of Ekfrid, was fined \$2 and costs for ill-treating a horse, causing its death.

Detective Murray is subpoenaing witnesses for the Birchall trial at Woodstock eaxt month.

The Guelph Board of Trade is studying the pros and cons of the assessment or business tax question.

The Delaware town bell has been placed on Mr. Lewis' blacksmith shop and its tones are heard four times daily.

Miss N. Odell, of Belmont, has received the appointment of an assistant teacher in the Port Eigh High School.

McColl, of Tilsonburg, has been sentenced to nine months in jail on a charge of stealing \$22 from Thomas Taylor.

The Brantford city assessors are still at work, and are advancing the valuations of property in almost every instance.

The Saengerfest Committee of Waterlook have made great preparations for their big event this week—Weinesday, Thursday and Friday.

Tuesday was G. T. R. pay day in Stratford, an event looked forward to by the of itzes, as it puts about \$30,000 in circus.

porating the two towns into a city at next session of the Legislature.

WESTMINSTER.

The Council of the township of Westminster met at W. L. Odell's hotel on Aug. 5, with a full representation of members. Pathmaster Gilders complained of a wire fence across the side road, between lots 36 and 37, on the bank of the river, which, upon motion, was ordered to be removed. After considering the estimates for county, township and municipal school grant, it was decided to strike a rate of 5 mills on the dollar for the current year. A statement of the amount expended in London South from the 1st of January to the 1st of May, 1890, was presented by the treasurer and clerk, and a copy was ordered to be sent to the City Treasurer. The changes in the school section boundary, made necessary by the annexation of London South to the city, will be considered at the next meeting of Council, which will occur on Tuesday, Sept. 2, at the same place. The clerk was ordered to notify all parties interested. The collector's salary was raised to \$150. The rates and taxes must be collected and paid to the treasurer before Jan. 1, 1891. James Craig was appointed collector for 1890. The following amounts were ordered to be paid: Expenses of the Westminster Board of Healti, \$36; special grant to the Pipe Line road, \$50; Advertiser, for printing, \$8; Free Press, advertising, \$150; J. I. Anderson & Co., stationery, \$173.

London, Thursday, Aug. 21.

PARKS AND PRISONERS. tario Prison Commission complained of the lack of work for prisoners under sentence in jail, and suggested that their labor ould be utilized in laying out and beautifying a public park on the River

An Advertiser representative has since interviewed Mr. Langmuir, chairman of commission. He expresses the belief that the Ontario Government would have no objection, under proper supervision, to have the work of idle prisoners turned to public benefit in s

The idea is a good one, and is well worthy of being carried out. Now let the Water Commissioners, the aldermen and the men of progress in the city not in office get to-gether and put the matter in shape.

There is a splendid opportunity to country a popular resort at little expense, and at the same time aid in effecting a reformation in a class that are rendered less able to resume their position as free citizens by being kept in hopeless and unprofitable idleness while under detention.

THE TALE OF TWO CITIES.

On the Toronto civic holiday a big crowd of Toronto Orangemen went on an excursion to Hamilton, and their doings in the latter city has ever since been a fruitful source of discussion in the papers of the respective places. All three Hamilton journals described the proceedings of the excursionists as nothing short of a disgraceful drunken orgie. In reply, the Toronto Orange leaders

asserted that the men who were guilty of rowdyism and worse were not Orangemen, and that the body could not be held responsible for To this the Hamilton newspapers them. To this the Hamilton newspa visitors who so shockingly misbehaved wore Orange uniforms and carried battle-axes, and thus the matter stands. In this connection the Hamilton Times makes the suggestion that "a law should be passed to forbid carrying axes, swords and other deadly weapons, which, in the hands of such fellows as Toronto appears to abound menace the public safety." We sup-it will have to come to that if there are to be repetitions of the Hamil-ton experience with lawless Torontonians. Men arrested with loaded revolvers in their possession are liable to severe penalties, and yet they are not likely to be more dangerous to the public than drunken blackguards who go careering through a crowded street with a heavy axe or a sharp sword ready to be aimed at any person who interferes with their liberty to do and say as they please.

SIR FRED'S REVELATIONS.

Sir Fred Middleton has issued a parting address to the people of Canada, defending himself against the charge of looting in the Northwest which led to his resignation of the command of the militia. The General now confesses that he was in error when he ordered the confiscation of the whole of Bremner's furs and agreed to the distribution of a portion among members of his staff. He founds his reason for so agreeing on a recollection that looting had been sanctioned in the Indian mutiny in which he took a part, and also on the fact that Commissioner Hayter Reed, who was sent to him as Dominion Government legal agent, advised or concurred in the confiscation. But the most interesting statement which the General makes is entire-ly new. It implicates the Minister of Militia, who had first ordered the General to do as he liked with other looted property, and then telegraphed, under date June 12. 1885, when the "war" was still in progress:

Blue of the Ontario Bureau of Statistics is replete with information of great interest to armers, merchants and manufacturers and the people generally. Indeed, no matter yields of the cereals based upon the reports of 793 correspondents at date. The acreage of fall wheat is taken from the ssessment rolls, while all other areas and

As the ADVERTISER has, in a measure, anticipated, the agricultural and business the crops over those of the last two years will be gleaned from the following table:

Crops.	Acres.	Bushels.	Yield per
Fall Wheat \begin{cases} \begin{cases} 1890 \\ 1889 \\ 1882 - 9 \end{cases}	822,115	14,832,240 13,001,865 18,056,560	15.8
Spring Wheat \begin{cases} 1890 1889 1882-9.	601,753 398.610 565,385	9.628,180 5.697,707 8,804,318	14.8
Barley	875,286	16,311,370 23,386,388 20,218,930	26.7
Oats	1,923,444	56,572,613 64,346,301 57,041,035	33.5
Rye	103,061 90,106 108,179	1,617,535 1,431,679 1,766,767	15.5

Beans	39,452 21,830 22,170	840,018 371,893 451,855	17.0
Hay and Clover. \(\begin{pmatrix} 1890 \ 1888 \ 1882.9. \end{pmatrix}	2,462,002 2,386,223 2,236,622	4,305,915 3,728,313 3,041,077	1.56

The corn area is 41,000 acres more than the average of the previous eight years and the buckwheat area more by 29,000 The root crops have an area of 22,000 acres above the average, the prin cipal increases being in turnips, mangel-wurzels and potatoes, but no estimate of the yield of these crops has yet been re-

Fall wheat in Western Ontario is genrail wheat in western Ontario is generally a fine crop. In the eastern counties, where comparatively little fall is sown, about one-half of the crop was winter-killed. There was little or no injury from drought or insects, but the weevil, midge last fall the grain appears to have been generally sown late, especially on heavy clay, many fields of which were bare during the winter. With the excessive rain of spring, followed by great heat, came such a rush of plants that much rust and shrinkage were expected, but the damage is slight and will not materially affect the sample. The berry is generally reported plump, the straw bright, and the crop the best for years. Spring wheat is a fair crop, but on low-lying land, owing to the wet spring, the yield is poor. The bearded varieties, especially Colorado, are most praised throughout the Province, and White Russian, French Imperial and Wild Goose are rather more commended than the Fyfe seed wheats, whether of Scotch or

Manitoba growth.

The barley crop is not up to the average, a decreased acreage being sown and the wet spring, followed by dry, hot weather, being against it. Reports respecting the imported two-rowed barley—of which small samples were sown by many farmers—are perhaps about equally divided for and against. It has been ascertained that this variety is from a week to ten days later in maturing than the ordinary six-rowed barley, but as it had been cut in hardly a single instance it was difficult to express a definite or reliable opinion upon it, and the

reports are very guarded in this respect.

The oat crop, as a whole, is a short one It suffered severely from the early climatic changes as also from a red, rusty blight. From Huron, Bruce, Grey and Simcoe, however, there are reports that the crop will be up to the average. Early varieties on wellfrained land have been most successful Professor Panton of the Agricultural College was consulted respecting the blight on dats, and in a report on the subject to the Bureau he says:

Bureau he says:

Some time ago samples of affected grain were sent to me from the eastern part of the Provence of the provide of the providers. It at first appeared as if an insect was the cause of the trouble, but in the specimens examined I saw none. Some observers have noticed in samples the pupa cas s of the Hessian fit, but not in such number, as to account for so general a blight upon the grain, in the cases where rust affected the blades, it is likely that this resulted after the plant had become weakened and its vitality so impaired as to render it liable to attack by a parasitic plant ike rust. It seems to me that the trouble is due more to climatic conditions, such as frost or excessive moisture, than to insects or to parasitic plants, and at present I am inclined to the view that excessive moisture was largely to blame. As far as I can learn no different control of the course of the blight, along his has commanded a good deal of attention both in Canada and the United States.

Rye is a fairly good grop, and of peas

Rye is a fairly good crop, and of peas there seems to be a fair but uneven yield. The latter crop suffered from almost the same causes as barley and oats, especially in the Lake Erie district. The peas I should like you to bring back some souvenirs of your campaign for Sir John, Sir Heotor and myself—leave to you to select whatever you consider of interest. The knowledge that this telegram existed may have had something to do with the remarkable reluctance of the Dominion Government in ordering an investigation into to any marked degree. Worms have also to any marked degree. Worms have also done some injury in Huron, Bruce and Grey. The area of the bean crop in Kent has been largely increased this year. Such broad requests, coupled with Hayter Reed's advice and subsequent conduct, tell a good part of the story.

It is to be regretted that when the matter was finally adjudiented upon Sir Fred Middleton was more anxious to save his imployers than his own good name. They acrificed him to save themselves, and they sked the people to condone their grievous roag-doing because they hanged Riel.

A favorable crop of corn is promised in Essex and Kent, and in parts of Elgin Children Cry for Pitcher's Castoria.

central counties of the western peninsul the indications are not so good, but else where, and especially in the eastern part of the Province, there will probably be an abundant supply of fodder corn. Reports as to roots vary according to the nature of the soil and the situation. On low

in which walk of life we move, we are all dependent upon the success of the farmer for good times. The report shows the condition of the crops and the estimated very large to the state of the seed rotted, but on well-drained or high ground better results followed. Turnips suffered from the fly and all the root crops, owing to the wet, were beset by a great crop of weeds that were beset by a great crop of weeds that were hard to combat.

It is perhaps piper's news to report that the apple crop is a big failure. Only about one-third the average yield is promised. statistics are compiled from returns made
An Advertiser representative, who spent
a couple of weeks in Grey county, found as average crop there, but from almost every other part of the Province the reports are anticipated, the agricultural and business depressing. The pear crop also is poor, outlook is brightened by these official reports. The significance of the changes in black-knot and curculio are doing deadly work. Peaches will be very scarce, but there is a trifle of balm in Gilead in the report that grapes will be a "glorious yield," particular mention being made of the big crop in the Lake Erie region.

Pasture and live stock are in fair condi-tion, and it is probable that feed will be pretty plentiful for the ensuing winter. There will not be as many animals as usual Western part of the Province complain of the low price of milk. The general health of bees has been good, and the average yield of honey per hive will be 40 pounds. yield of honey per hive will be 40 por The supply of farm labor has been about equal to the demand, but very rarely in ex-cess of it. Year by year the demand for outside help is gradually falling off with the ore general use of binders and other laborsaving machinery, so that many farmers with their sons (if they are fortunate enough to have sons who will stay on the farm) now do the whole of the work themelves, and hardly find the work of harvest heavier than that of any other season. The rate of wages has ranged from \$1 to \$1 50 by the day, and from \$15 to \$25 by the month, according to the efficiency and supply of labor. The rate was slightly lower in the eastern part of the Province than elsewhere

PERSONAL AND GENERAL. -If, as is reported, the "sun kink" was sponsible for the latest railway disaster, it is high time that a reward was offered for a device to prevent rail-spreading through

-Toronto merchants do not seem to take much stock in the attempt to extend Canadian trade with other countries while retaining a high tariff on imports. Only about fifteen members of the Board of Trade and rusts effected some injury in almost every county. Because of the drought of Dominion Commissioner to the forthcoming of that city attended the meeting called to exhibition in the island of Jamaica.

-It is announced that Sir Henry Tyler. president of the Grand Trunk Re who is now on a periodical inspection the great road's property in this country will participate in the coming opening of the international tunnel at Sarnia. This enterprise, which owed its inception to the Grand Trunk managers, promises to be a thorough success. Paradoxical though it may seem, it will continue to be regarded as a big bore.

-It is announced that Hon. Mr. Bowell will take a trip through the Rocky Mountains by a route of which no information eems to be obtainable. Thus, while som of Mr. Bowell's colleagues meditate taking to a fat office and others to the woods, the Minister of Customs flees to the mountains. Salt Creek will, however, be the common rendezvous when the electors get a fair chance to pronounce upon the mismanagenent of public affairs.

Save Your Hair

BY a timely use of Ayer's Hair Vigor.
This preparation has no equal as a dressing. It keeps the scalp clean, cool, and healthy, and preserves the color, fullness, and beauty of the hair.
"I was rapidly becoming bald and gray; but after using two or three

gray; but after using two or three bottles of Ayer's Hair Vigor my hair grew thick and glossy and the original color was restored."—Melvin Aldrich, Canaan Centre, N. H.

"Some time ago I lost all my hair in consequence of measles. After due waiting, no new growth appeared. I then used Ayer's Hair Vigor and my hair grew

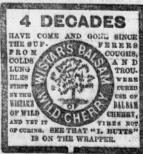

Thick and Strong. It has apparently come to stay. The Vigor is evidently a great aid to nature."

—J. B. Williams, Floresville, Texas. —J. B. Williams, Floresville, Texas. "I have used Ayar's Hair Vigor for the past four or five years and find it a most satisfactory dressing for the hair. It is all I could desire, being harmless, causing the hair to retain its natural color, and requiring but a small quantity to render the hair easy to arrange."— Mrs. M. A. Bailey, 9 Charles street, Haverhill, Mass.

"I have been using Ayer's Hair Vigor for several years, and believe that it has caused my hair to retain its natural color."—Mrs. H. J. King, Dealer in Dry Goods, &c., Bishopville, Md.

Ayer's Hair Vigor,

Dr. J. C. Ayer & Co., Lowell, Mass.

The Great Blood Purifier.

A Word to the People.

THE remarkable effects and most satisfactory results, in every variety of disease arising from impurities of the slood, which are experienced and made manifest from day to day, by those who have taken NORTHROP & LYMAN'S VEGETABLE DISCOVERY, for complaints which were pronounced incurable, are surprising to all. In many of these cases, the persons say their pain and sufferings cannot be expressed, as in cases of Scrofula, where apparently the whole body was one mass of corruption.

This celebrated medicine will relieve pain, cleanse and purify the blood, and cure such diseases, restoring the patient to perfect health after trying many remedies, and having suffered for years. Is it not conclusive proof that if you are a sufferer you can be cured? Why is this medicine performing such great cures? It works in the BLOOD, the Circulating Fluid. It can truly be called the

GREAT BLOOD PURIFIER

The great source of disease originates in the BLOOD, and no medicine that does not act directly upon it, to purify and renovate, has any just claim upon public attention. When the blood becomes lifeless and stagmant, either from change of weather or of climate, want of exercise, irregular diet, or from any other cause, NOETHROP & LYMAN'S VEGETABLE DISCOVERY will renow the Blood, carry off the putrid humors, cleanse the stomach, regulate the bowels, and impart a tone of vigor to the whole body.

The conviction is, in the public mind as well as the medical profession, that the remedies supplied by the VEGETABLE KINGDOM are more safe and more effectual in the cure of disease than mineral medicines. The Vegetable Discovery is composed of the juice of most remarkable roots, barks and herbs. It is pleasant to take, and is perfectly safe to give an infant. Allow us to ask you a candid question:—Do you need it? Do not hesitate to try it. You will never regret it. All druggists have it for sale.

Mr. JOHN C. FOX. Olinda, switze:—"Northway & Lyman's Vegetable Dis.

Mr. JOHN C. FOX. Olinda, switze:—"Northway & Lyman's Vegetable Dis.

Mr. JOHN C. FOX. Olinda, switze:—"Northway & Lyman's Vegetable Dis.

Mr. JOHN C. FOX. Olinda, switze:—"Northway & Lyman's Vegetable Dis.

druggists have it for sale.

Mr. John C. Fox, Olinda, writes:—"Northrop & Lyman's Vegetable Discovery is giving good satisfaction. Those who have used it say it has done them more good than anything they have ever taken."

IN ITS WORST FORM.—Miss Julia A. Pilsworth, Toronto, writes:—"I had Dyspepsia in its worst form for over a year, but after taking three bottles of Northrop & Lyman's Vegetable Discovery, a perfect cure followed. I take great pleasure in recommending it to anyone suffering from Dyspepsia."

Mr. W. Thaver, Wright, P.Q., had Dyspepsia For twenty years. Tried many remedies and doctors, but got no relief. His appetite was very poor, had a distressing pain in his side and stomach, and gradual wasting away of tiesh, when he heard of and immediately commenced taking Northrop & Lyman's Vegetable Discovery. The pains have left, and he rejoices in the enjoyment of excellent health; in fact he is quite a new man.

SWIMMING.

WAS IT A HOAT?

LONDON, Aug. 21.—Three "Oxonians"
wrote to the Times concerning the alleged
feat of Davis Dalton, the American
swimmer, who claims to have swam across
the English Channel on his back. They
assert they watched the fe-boat which
was to pilot Dalton, for fear hours from
Boulogne and never saw Dalton in the
water. Moreover they delare that the
"dingey," which was supposed to attend
the swimmer, was towed uncompled behind
the life-boat.

back he stood there as calmly a if he felt no pain. "Two," cited the depuy warden, and the cat came down with grater force than before, cutting the skin, and on the poor unfortunate's back stood out large drops of blood. He stood there, however, unmoved, with his teeth set and es closed. When the tenth lash had falle he raised his head and waited impatient for his freedom. The straps were looserd, and as he cast a lingering, degged loik at the guard, passed sullenly up to his cll.

Frederick Sheedy was the last victim to be placed on the rack—a his young fellow, 25 years of age, abouting feet eight inches in height, with breath and and blue eyes. His face as h walled showly toward the whipping out was ghastly pale, and he appeared so weak and nervous that he could harry stand. When the first lash fell upon Sheq's back he shrieked, "Oh! my God," and opt like a child. The strokes fell rapidly, t deputy warden and guard being apparent sick of their task. The prisoner's back we purple and many deep furrows could be sen, but there was no blood drawn.

"A Preson who snores doesn't know what it is to have a quiet nap.

We have no hesitation in saying pat Dr. J. D. Kellogy's Dysentery Cordial is withen the doubt the best medicine ever into duced for dysenitery, distributed in the county jails and the cou

Second Day—Thursday.

The Prison Commission recommenced their inquiries at 9:30 c'olock. The first witness called was Jailer Nelson Moore, of Eigin County Jail. He testified that the jail staff consisted of jailer, two turnkeys, a matron and jail surgeon. There were sixteen cells and four wards, and also a dungeon cell. The highest number of prisoners confined at one time was 21. It was very frequently necessary to drop all attempts at classification. To insure proper classification it would be necessary to have as many more wards as were in the jail at present.

To Chairman Langmuir—I have known a prisoner to instruct a boy in crime. He was trying to get the boy to steal for him. Chairman Langmuir—Do you think that the mixing of prisoners is the cause of a great deal of crime, and to remedy this it would be necessary to have larger jails and prevent petty offenders from being mixed with professional criminals.

Chairman Langmuir—Do you not think that 23 dranks is a pretty good record for a place the size of St. Thomas?

Witness—Yes; that would be a pretty good record for a place the size of St. Thomas?

Witness—Yes; that would be a pretty good record if they were all got in jail.

Commissioner Druy—Do your policemen arrest peaceable drunks?

Witness—Yes; that would be a pretty good record if they were all got in jail.

Comman Langmuir—What would you suggest as the proper treatment of drunkards?

Witness—Yes; they do. I have seen men arrested for being drunk and taken to my jail that were much more sober than the policeman.

Chairman Langmuir—What would you suggest as the proper treatment of drunkards?

Witness—Yes; they do I have seen men arrested for being drunk and taken to my jail that were much more sober than the policeman.

Chairman Langmuir—What would you suggest as the proper treatment of drunks way they could help to support their families.

Chairman Langmuir—What class of men constitute the drunkard? What causes are non discontinually went to cure of the commission—I have met case of a falson of the

marriages. I know several cases where their wives were as much to blame as the drunkards.

To Chairman Langmuir—I am not favorable to solitary confinement as a treatment for untried prisoners.

To Dr. Rosebrugh—It would be much better to keep a boy in a ward by himself until he was tried than to allow him to associate with hardened criminals.

Chairman Langmuir—Would you recommend a poorhouse as a means of taking care of old vagrants.

Witness—Yes; it greatly aids in the proper management of the jails. It keeps them from being crowded with vagrants.

Dr. Rosebrugh—Have you any means of classifying female prisoners?

Witness—No; I had a very distressing case once. A young girl of respectable parents was committed on a technicality and sent to jail for stealing a spoon from a neighbor. There were three prostitutes in the jail at the time, and this girl had to be locked up in the same ward with them until I got a special order to allow her to occupy my family quarters. I am convinced that it was a put-up job on the part of some parties to get the girl into the jail with the prostitutes. The girl since married and saved herself, but if it had not been that she was taken away from them she would have been lost.

Dr. Rosebrugh—Have you known cases

Chairman Langmuir—Would you favor the scheme of the Government taking over control of the jails?

Witness—Yes; It would be much more economical and give better satisfaction all around. On one occasion when about \$2 worth of repairs were required to be done at my jail there was an inconvenient delay, and after calling a meeting of the jail committee at the cost of \$15 the \$2 job was ordered to be done.

To Chairman Langmuir—I think idleness, intemperance and ignorance are the three great cause of crime.

To Commissioner Drury—I think that criminals begin their downward career in early lite. I am convinced that men who come in for petty offenses should be looked after better, because they are willing to do better if they had a chance. I think that temperance societies do very well with the youthful offenders, but with hardened criminals they have not much influence.

Commissioner Jury—Among the boys that you have had to deal with were any of them sent out by the Barnardo McPhearson, and these English societies?

Witness—I can't say anything about boys, but I have had charge of some of their girls and they are very bad characters drawn from the slums of Old London.

SHERIFF DOUGALL BROWN.

The next witness called was Sheriff

SHERIFF DOUGALL BROWN.

expensive to establish a poorhouse for those few who are worthy, but something should be done towards helping those unfortunate old people who are committed to jail as vagrants. I would be willing to have the Government control the jail if they paid the bills. The Government could have the honor of management. I am in favor of the establishment of an industrial school and think that boys should have everychance of reformation before they are confined to jail along with the hardened criminals.

way they could help to support the support way they could help to support the families.

Chairman Langmuir—What class of ment constitute the drunkard? What causes can you give for their drinking?

Witness—They are mostly married men. I think their fall is occasioned by improper marriages. I know several cases where their wives were as much to blame as the drunkards.

To Chairman Langmuir—I am not favor their wives were as much to blame as the drunkards.

To Chairman Langmuir—If you want to cure drunker men you must build up the physical part of the man, must you not? Witness—By strengthening the body the mid is strengthenic, and this helps the patient to resist the disease.

Dr. Rosebrugh—Have you seen any of these imported waifs that are sent from England?

Witness—Yes; a great many of them in the jail here.

the jail here.
Dr. Rosebrugh—What class of children

Dr. Rosebrugh—What class of childrenare they?

Witness—More than half of them are of small stature; not deformed, but far from being well developed children, showing that their parents were very young. The waifs are diseased and weakly, afflicted with skin diseases and weakness of the cyes. They are not fitted for the country, and the importation of them should be restricted.

JAILER HUGH NICHOL.

them from being crowded with vagrants.

Dr. Robrugh—Have you any means of classifying female prisoners?

Witness—No; I had a very distressing case once. A young girl of respectable parents was committed on a technicality and sent to juil for stealing a spoon from a neighbor. There were three prostitutes in the jail at the time, and this girl had to be locked up in the same ward with them until I got a special order to allow her to occupy my family quarters. I am convinced that it was a put-up job on the part of some parties to get the girl into the jail with the prostitutes. The girl since married and saved herself, but if it had not been that she was taken away from them she would have been lost.

Dr. Rosebrugh—Have you known cases where girls have been corrupted by evil associations in the jail?

Witness—I have no doubt about it. I have known a number of young girls, good girls, who have been locked up with prostitutes and could not help being corrupted by their associations.

Chairman Langmuir—Would you favor the scheme of the Government taking over control of the jails?

Witness—Sys. It would be much more conomical and give better satislaction all around. On one occasion when about \$2 \text{ worth of repairs were required to be done at the control of the pails?

Mr. Job Scales, of Toronto, writes: A

paper in the window."

Among the pains and aches cured with marvelous rapidity with Dr. Thomas' Eelectric Oil, is ear-ache. The young are especially subject to it, and the desirability of this Oil as a family remedy is enhanced by the fact that it is admirably adapted not only to the above ailment, but also to the hurts, disorders of the bowels, and affections of the throat, to which the young are specially subject. young are specially subject.

They Have Arrived.—Another shipment of those \$10 bedroom suites at TRAFFORD's, 91 King street, west of market.

Florida cabbages, cucumbers and tomatoes. Havana pineappies. A. Mounzyov, City Hail.

their quote, and between them will expen the sum of \$600,000, which will be a welcom stimulus to the iron trade." They Decided to Separate The attention of the Police Court was o cupied for half an hour this morning with the airing of a family grievance. Wm. Patten was charged by his wife Emma with assaulting and beating her. Mrs. Patten said her husband had struck her Patten said her husband had struck her three or four times the other morning, besides pulling some of her hair out and using bad language. Patten said he was a muchabused man, as his wife had been telling falsehoods about him to her relatives, and on the occasion in question she had called him vile names. Then a rapid cross-firing began between husband and wife, in which innumerable family matters were dragged up. The Magistrate listened patiently to it all, and decided that the best thing for both of them would be to live apart. "I will suspend sentence, Patten, upon your promise not to go near your wife," said the Magistrate; and then, addressing Mrs. Patten, "See that his things are packed up, and let him go and fetch them or send some person for them with an order."

BASEBALL.

The return much between the Brown Baseball Club, at this city and the Wolverines, of Londot, was played at Atlantic Park yesterday atternoon, and as on the former occasion, he Browns, though much the lighter andsnaller of the teams, were victorious. The was a fair attendance of spectators. The Wolverines went first to bat, and at the end of their ninth inning had scored eight runs, while the Browns had made eleum in their eight innings. Mr. J. Curri, of London umpired the game.—[St. Thenas Journal.

me were arrested by Lachlin Campbell yeaterday on the charge of interfering with him in the discharge of his duty at Port Stanley on the occasion of the Irish Benevalent Society picnic, were brought up before Mr. D. McLaws, J. P., and bound over in \$500 cach to appear on Sept. 1 for trial.—[St. Thomas Times.

—Alonzo Burris was charged with drunkenness at the Police Court this morning. As it was Burris' first visit, and as had a wife and family on his hands the Magistrate allowed him to go. John Roach, a cripple from Sarnia, was also in the dook for the same offense. G. T. R. Constable Allinson said he had been hanging around the station, and at night fell aslege on a truck while drunk, and had to be wheeled to the patrol wagon. Réach was given five minutes to leave town.

Assault in East London.

A racket occurred last night at Maker's Hotel, East London, and in which H. Higgins, who has been giving evidence in the recent liquor cases, was soriously injured. How the trouble arose is not known, but Higgins received blows in the head, left ear and face. Somebody carried him over to the office of Dr. English, who found it necessary to put several stitches in his lead and ear. His injuries are of such a character that he will be confined to the house for some time.

all Broken Down Conditions of the System.
WATFORD, ONT.

My daughter, after a severe attack of Scarlet Fever, was completely broken down. I spent hundreds of dollars in dectors' bills with but little satisfaction. Before she had taken one bottle of Burdock Blood Bitters there was aremarkable change, and now she is entirely cured.

Mrs. Hopperton.

P.J. WATT, 131 Dundas St. & 12 Market Square GROCER.

is the Standard

Washing Compound As pure and harmless as the finest imported castile

soap. Washes the coarsest and finest things equally well. As it does away with most of the rubbing, it reduces the wear and tear on both yourself and your clothes. Over one million families use it. Do you?

Beware

Peddlers and some unscrupulous grocers are offering imitations which they claim to be Pearline, or "the same as Pearline."

It's false—they are not, and besides are dangerous. PEARLINE is never peddled, but sold by all good grocers.

LONDON AND ENVIRONS.

-Miss Nina Phillips, of Rochester, N. Y., is visiting her aunt, Mrs. Howden, of this city.

this city.

—Mr. John Carlin, of Ingersoll, who has been visiting relatives in the city, returned home yesterday.

—Alderman W. W. Fitzgerald, of this city, is attending the Orange Grand Lodge, of B. N. A., at St. John, N. B.

—Miss Mary Black, of Central avenue, lett on a six weeks' visit to her brother, Mr. Isaac Black, of Sarnia, and other friends up the lakes.

—Mrs. Charles F. Potter has returned from her visit with friends in London. Her sister, Miss Ross, accompanied her home.— [Port Huron Times. [Port Huron Times.
—Mrs J. P. O'Byrne and Miss Edie have gone to Toronto to spend a couple of weeks with the former's brother-in-law, Mr. B. O'Byrne, of the Public Works Department.

O'Byrne, of the Public Works Department.

—Capt. R. Dillon (the efficient rifle instructor with the Seventh Battalion when in the Northwest) was prostrated by heat in New York a short time ago, but is recovering at his home in Oshawa.

—Thomas Jackson, charged with obstructing the sidewalk, did not appear at the Police Court this moraning, but his wife explained his absence. The charge was withdrawn.

Lecord.
—Sir Fred Middleton says that the Do-inion Government generally ignored his ecommendations to confer special honore in those who aided him to put down the re-cilion. Among other advancements which e recommended was that of Captain beters, of the Seventh, to be major.

During the course of the dinner on —During the course of the dinner on Tuesday the 7th Fusiliers (London) played a number of selections outside the Kerby

Telegram.

—Yesterday afternoon and evening a very enjoyable social was held at the residence of Mr. H. Mathewson, Queen's avenue, by the young people of the First Congregational Church. The afternoon was occupied by the Ladies' Aid Society in laying out plans for the winter's work. In the evening about 100 friends of the church gathered on the lawn in front of the house and spent a very pleasant time with songs and recitations.

and recitations.

—The pleasant afternoon drew a large crowd, principally ladies, to Victoria Park yesterday to hear the concert by the band of "P" Company, I. S. C. The programme consisted of popular selections, and the audience evidently enjoyed the specialties which are generally introduced in these concerts by way of variety. The "Hen Convention" was something novel and particularly well rendered, the vocad crowing interjections reflecting great credit on the imitative powers of the performers.

—Giea, Mundy and Edward Gorman com-

and particularly well rendered, the vocasi crowing interjections reflecting great credit on the imitative powers of the performers.

—Geo. Mundy and Edward Gorman complied with a request to appear at the Police Court this morning, and answer a charge of fighting and being disorderly on Aug 12. Both of them were sworn. Mundy deposed that Gorman was sitting in front of Brown's Hotel on King street, singing and otherwise disturbing the peace. He was trying to pull him inside the door, when the policeman came along. Gorman admitted he had partaken of five or six glasses of ale and was singing Salvation Army songs on the strength of it. He did not remember anything of the tussle. The Magistrate discharged them both.

Lena Jacobs, a married woman living on Colborne street, attended the Police Court this morning in answer to a summons issued by her neighbor, Mary Gench, and charging her with using abusive language. The complainant was put in the box and repeated the offensive words for the delectation of the court. A couple of neighbors were also sworn and corroborated Mrs. Gench's assertions. Mrs. Jacobs vehemently denied using such language and launched forth luto a lengthy detail of the grievances to which she and her child had been subjected at the hands of the complainant. The Magistrate considered that she had had too much to along the first annual picnic of the National Union of this city was held on the Griffith' property, near Woodland, yesterday, a large representation of the membership being present. The most amusing feature of the day was the baseball match. One side was captained by Mr. B. McDonald, and the other by Mr. W. L. Graham. The latter's side won after ten innings had been played, by a score of 20 to 19. An excellent programme of atthletic sports was then introduced, the winners in the several events being: Fat men's race, J. Trebicock, 1; W. J. Blackburn, 2; W. L. Graham, 3. Hop, step and jump, John Lockyer, 1; John Talbot, 2; H. Davidson, 3. Three-legged race, Messra. Gibson and Glen, 1; McDona

Sing Their Own Praises.

There are few, if any, in the great army of smokers who have not been, by experience, placed in a position to judge as to the merits of the "Norma" 10-cent cigar manufactured by H. McKay & C.o., of London. In almost every cigar store and hotel in Canada this pat of all lovers of 10-cent goods has found its way, and is finding rapid and constantly increased sale. Unlike other similar goods, its fame is not of a transient nature. The Norma" contains all the merits of the imparted cigar, and has in many cases supplanted its more expensive rivals, and each successive season but adds to its host of admiring consumers. expensive rivals, and each successive season but adds to its host of admiring consumers. The Eric is the only line running through
Canada that gives the people of London, the
above service, and it is to be hoped they
will take advantage of it by purchasing
their tickets via the favorite Eric and save
themselves the annoyance of changing cars
and jumping off the trains for meals.

Teas and coffee—For genuine value ge vm. Gilmour, Market Lane.

"EL PADRE" CHARS have no rival. The millions sold annually fully demonstrates their superiority over all others. 94-ff ywt J. B. Cook, dentist, 2112 Dundas street. Vitalized air, electricity or cocaine for pain-
