MAYOR GAYNOR OF NEW YORK SHOT BY DISCHARGED EMPLOYEE WHEN ABOUT TO SAIL FOR EUROPE

Sensational Attempt to Assassinate Chief Executive of the American Metropolis by Man Who Says Mayor "Took Away His Bread and Butter-Assailant Is Captured and Confesses to Act---Gaynor in Hospital and Is Likely to Recover.

New York, Aug. 9.-Mayor William J. Gaynor, of New York City, was shot and probably fatally wounded on board the steamer Kaiser Wilhelm Der Grosse, as he was sailing for Europe.

The man who shot the mayor gave his name as Jules James

It is ascertained that Gallagher was employed as a watchman in the department of docks up to June 1.

SHOT IN HEAD.

New York, Aug. 9.—Another report is that Mayor Gaynor's wound is probably fatal. The bullet entered the head just behind the left ear and apparently ploughed its way straight in. The mayor was bare-headed at the time, and was standing on the forepart of the cabin deck, bidding good-bye to friends,

According to report, the shot fired struck Mayor Gaynor in the mouth. He was walking on the promenade deck of the steamer when the shot was fired.

Detectives were immediately rushed in numbers from Manhattan headquarters to the scene of the tragedy at the Hoboken steamship pier.

Mayor Gaynor was about to start on a month's vacation abroad. He was to go unaccompanied for a trip of two weeks in Northern Europe. He was looking forward to a well-earned rest, for he has been at his desk in the city hall for from twelve to fourteen hours a day for many months.

TAKEN TO HOSPITAL.

Mayor Gaynor was carried from the ship on a stretcher at 10:10 a.m., and placed in the ambulance which had been summoned by the police. He was carried to St. Mary's Hospital in Willow avenue, Hobokent. When he reached the hospital he was still conscious He was immediately taken to the operating room, where he now is. Three shots were fired, two of which missed. One struck him in the neck.

He was talking with Commissioner Thompson, Corporation Counsel Watson, and his secretary, Robert Adamson, when the man walked up behind and shot him.

Policeman Kiley, Detective Sergeant Gutheil and some dock hands who heard the shots, rushed on board and seized the mayor's assailant before he could escape. The greatest excitement prevailed in and around the dock. Hundreds of men and women heard the shots, and when it was known that the mayor was the victim, a panic ensued.

ENGINEER MOORE HOME

Had a Most Enjoyable Time in Europe-Tourist Traffic

Mr. John M. Moore, formerly waterworks engineer of the city, has returned from a three months' trip abroad, much improved in health. He reports that he had a most pleasant voyage. "We had an enjoyable trip," stated to The Advertiser, "The weather few disagreeable days. The tourist traffic this year has been exceedingly heavy. The number of American visitors was very large. Business seems to be good in England, in fact, the old

worry over conditions." TO SAVE THE BEACHES.

Toronto, Aug. 9.-The city engineer has again advised the construction of groynes to prevent the destruction of the beaches by the lake and recommends that they be built at the foot Leuty avenue, MacLean avenue and Berth avenue. The groynes would be 1,250 feet apart and would cost approximately \$11,500.

Black Voile and Resilda Our August For Early Fall Wear

From every source of information, from Paris, London and other fashion centres, black is pointed to lead the fashion for the coming season, and judging by the inquiries already, there seems to be a general feeling in that direction. In the color series blues look strong, and will probably take next place, or share equal honors with black. We have provided on a much larger scale in our variety of blacks for the coming fall season, and much of our staple stock is already to hand, and the present demand seems almost confined to plain Black Voiles and Resildas, apart from increasing inquiries for Worsted and Broadcloth Suitings, which will undoubtedly be the correct materials for tailored suits, of which we have already our complete range for

Black Voile 75c to \$1.50

Fine hard-twisted close weaves, pure wool and uncrushable. There is no substitute in woollen or worsted dress fabrics of the same weight that makes up so well or wears like Voile. It will also retain its finish and appearance to the end. Our Voiles are bought and imported direct from the manufacturers in England, "Priestley's" and other renowned makers' lines being represented in our stock, and being directly in touch with the mills, the qualities we are showing at the different prices, we feel confident (from the quantities we sell) are the best that can be procured anywhere. Samples freely given (for comparison if you wish). 44 to 46-inch Black Voiles in the fine weaves, yard 75¢, 85¢, \$1.00, \$1.25, \$1.50 54-inch, heavier thread, medium weave, at per yard\$1.25 44-inch, "Priestley's," canvas weave, at per yard\$1.00

"Priestley's" Black Resilda \$1 and \$1.25

This is a registered fabric, a recent production of "Priestley's" pure wool, in light and medium weight, with sufficient mohair woven with the wool to give it the appearance of silk, the mohair used being chemically softened to make it plyable for mixing and weaving it with the finest wools, thus producing one of the handsomest dress fabrics which has been introduced in years, and is acknowledged one of the greatest achievements that has yet been accomplished in weaving. Resilda is not only beautiful, but serviceable. One of the most notable features is that it is non-crushable. It pleats beautifully and stays in pleat, yet it will stand all sorts of crushing and never show a crease, which is a great advantage. It is bright, light and

Black French Broadcloths \$1 to \$1.50

There is not a doubt but Broadcloth will be one of the leading cloths for Ladies' Tailored Suits this fall. Our numbers are already complete in the fine French glove-finish Broads, and our season's supply has been contracted for months ago at old prices, so we are in a position to show the best values, as our contracts are made direct with the makers. We are now offering three special qualities, 52-inch Broads, at yard. \$1.00, \$1.25, \$1.50

Black English Worsteds \$1 to \$1.50

These will be popular for Ladies' Tailored Suits, and are already being taken freely in both black and colors. We are now showing a good variety in fine, medium and heavy twills (also diagonal effects), all pure wool English goods, 48 to 52 inches wide, at per yard...\$1.00, \$1.25 and \$1.50 Samples Ready For Mailing. LAWYERS WRITING TO DR. CRIPPEN

Women, Too, Send Him Mess ages, But Jailer Stops Them.

Quebec, Que., Aug. 8.-Letters and telegrams addressed to Dr. H. H. Crippen are accumulating at the provincial jail, but he is allowed to receive or adopt only the cable messages from Arthur Newton, his London attorney, relating to the preparation of his defence at his approaching trial for homicide. Fully a dozen letters and as many

messages have never reached the

prisoner, because Jailer Morin has ad-

judged them improper to deliver to a man in Crippen's situation. All are from the United States or Canada. and most of them from attorneys, but at least one or two are inclosed in dainty square envelopes and addressed in distinctly feminine handwriting. Inspector Dew returned to Quebec today after a sightseeing trip in Central Canada. He visited the jail to carry Crippen a cable message, but

did not see the prisoner. Like others, the message did not pass the censorship of the jailer, and its contents have not been revealed. During his absence the Scotland Yard inspector was not so successful as he had hoped in preserving his ineognito, and his opinion of American newspapers does not improve. He expressed it freely when he found the

reporters still on the watch here, but otherwise he was as uncommunicative as ever. For the first time since her arrest

LONDON, TUESDAY, AUG. 9. THE SHOOTING OF GAYNOR.

There would be a curious irony in the fate of Mayor Gaynor if he succumbed to the wounds inflicted today by a would-be assassin. COSTLY GENEROSITY.

It is announced that Sir James Whitney has made a present of the province's rights in the new Readers to Prince Edward Island. In this instance he is very generous with the people's money

The auditors' reports show that since 1906 the provincial treasury has been asked a friend in the hospital. drawn upon for \$25,256 06. The estimates up to Oct. 31, 1911, include an item of \$30.000 for "Text-book committee preparing Readers and plates."

The editing, copyright privileges. type-setting, plate-casting, illustrating of these Readers-a good deal more than half the expense of most illustrated books-have all been paid or are to be paid by the province. Prince Edward Island may share the opinion of the Ontario teachers, that they are dear enough at the cost of paper and binding.

The gift is doubtless the more acceptable as it carries the condition that the necessary improvements in making or to be made upon the Readers, are to go automatically along with the rights to use the original

We may expect any day to hear of Sir James claiming it as a commendation of the Readers that Prince Edward Island has accepted as a gift what has cost the province a sum

approximating \$50,000. MR. ASQUITH'S POSER.

Mr. Asquith raised a perplexing question the other day in his speech on imperial preferential trade. A prefon foodstuffs, he said, could not advantage some of the colonies. which, like South Africa, were exporters chiefly of raw materials, Here is his poser for the tariff reformers:

"I suppose the amount of food imported from South Africa is very small. But South Africa does send us a large quantity of hides and wool, the raw materials of some of the most important of our industries Even in the case of Canada the exports to this country are not entirely cereals. Canadian timber is one of the most important of the exports from that country. I ask againare you going to discriminate between our different colonies? You say you are not going to tax raw materials. In other words, you have to give preference to Canada because she is a food exporting country, but refuse it to South Africa hecause she is a raw material country. Are you going to differentiate between the different industries of Canada, and say to the Canadian farmer, 'You shall have a preference.' but say to the Canadian Jumberman, 'You shall have no p. . erence of any sort or kind?' How are you going to work this thing out? It you come to the concrete working

out of colonial preference it it re-mains as nebulous, as full of practi-spirits, and she did her very best to an inconsistencies and absurdities amuse and please him. And she must cal inconsistencies and absurdities today as it was seven years ago."-Mr. Asquith might have cited Au-

stralia and New Zealand also. They are great exporters of wool, but Great Britain could not afford to give Australian wool growers a preference by taxing foreign wool.

With a tariff covering thousands of imported articles, it was a simple process for Canada and Australia to make reductions in favor of the mother country, but Great Britain must revolutionize her fiscal policy as a first step toward a preference; and the problem is made even more difficult in her case because she will have to tax food and raw materials to confer these benefits on the daughter nations. They send her nothing else in any great quantity.

TO THE VALUE OF FRUIT What is "FRUIT-A-TIVES"

Medical men are just beginning to realize the possibilities of fruit in curing disease. Its action on the liver kidneys and skin is wonderful. Yel fruit in its raw state is impracticable in treating disease because of the minute quantity of the active or curative principle contained in fruit juice.

A physician in Ottawa, after years of patient work, discovered a process whereby the medicinal or bitter principle of fruit juice is increased in quantity, and thus a more active and more valuable substance is ob-

ELEVEN KILLED IN COLLISION

A Freight and Passenger Came Together in California.

SMOKER TELESCOPED

Terrible Accident Said to Be Due to

Conductor Disobeying His Orders.

[Associated Press.] Ignacio, Cal., Aug. 9.-Disobeyance of orders, according to the railroad officials, on the part of a conductor, was responsible for a head-on collision between a passenger and freight train on the Northwest Pacific last night, that took a known toll of eleven lives, and resulted in the injury of about twenty. The unidentified bodies of three others are reported to

be under the wreckage. Smoker Telescoped. The smoking-car of the passenger train was telescoped by the engine of the freight, and aside from those mem bers of the train crews who were hurt. all of the killed and injured occupied the smoker. With the exception E. W. Banks, of Rockford, Illinois, who was killed outright, all of the dead and injured whose names have been obtained, were Californians, most

occurred. The most seriously injured were taken to San Francisco. Flaherty, conductor of the freight train, who is accused by General Superintendent W. S. Haller and other officials, of violating telegraph structions to remain in the Ignacie yards until the passenger had passed thus causing the smash-up, is in a state of collapse today, and is unable to make a statement.

Frightful Havoc. Frightful havoc was done in the smoker. Passengers scrambling out the rear cars and running forward beheld a fearful spectacle. The headless trunk of a man lay beside the tracks, and from the windows of the smoker protruded the lifeless bodies of two

The engineer of the passenger train. Robert Reynolds, jumped from his cab. The baggage car sprawled like a husk atop the smoker, partly enveloping it, but through the windows the rescue party could see the shricking injured and the silent dead pinned under overturned seats. For hours it was im possible to reach them.

Frank A. Meyers, of Petaluma, ran trains were sent out and physicians and nurses from various points up and down the line hurried to the scene on special trains and in automobiles. Many of the injured are thought to be in a critical condition.

TYPOS FLOURISHING

The Annual Convention of Printers Opens at Minneapolis.

Minneapolis, Minn., Aug. 9.-Secretary-Treasurer John W. Hayes' annual report, read at the opening of the International Typographical Union annual meeting yesterday, showed the organization to be in a flourishing condition. The borrowing of a large sum from the old age pension reserve is suggested in a report of the international executive council. This will be submitted on the floor of the convention without recommendation. The proposed loan would be used to secure a site and erect a suitable headquarters building in Indianapolis, with the idea of making Indianapolis the permanent convention place of the union. Although the International Typographical Union offers to pay interest on the money to be borrowed from the pension fund for the purpose of financing the proposed building, many of the delegates are firmly against any

Everything Nailed Down.

Chatham, Aug. 9.—Over five hundred Americans came over by boat to Chatham Sunday to visit friends in the Detroit Motor Boat Club, who were anchored here for the day. They arrived here at two o'clock nearly famished for something to eat, but owing to the strict enforcement of the Lord's Day act in this city, they were unable to get dinner anywhere. It was too late for hotels, and the restaurants were all closed. The visitors could not even get ice cream and cake to appease their hunger. Many of the Americans went away swearing it would be a long time before they would visit Canada on a Sunday again.

As a fact, however, there is a constant tendency to use cream with all cereals, and the best authorities seem to allow that cereals are slightly deficient in fats. The use of fats, excepting cream, in hot weather is not advocated to any extent, but the cream for the berries, the cereals and similar uses seems to be the one oily element which nature easily assimilates without difficulty or overheating the system in summer. At all times the cereals for people in normal health should have milk or cream in comparatively liberal supply.

Karl was excited, and for their ardor I was truly thankful, for it concealed from

Expert of Japanese Art of Jiu-Jitsu Trains Women's Freedom League.

London, Aug. 8. - A most reexhibition of suffragette markable has been given by Mrs. Garrud, an expert in the Japanese art, and two policemen. Mrs. Garrud is one of the organizers of the women athletes' branch of the Women's Freedom League, and her object in giving the exhibition was to show what a formidable weapon for defence jitu-jitsu may be made by properly trained women. "If you're sure you aren't frightened of getting hurt, I think I'll throw you." And the big policeman smiled. It was so very, very foolish. His great red hands played idly about

his forty-two inch chest, and in a moment of vanity he clenched his right fist so that the muscles of his forearm stood out in heavy lumps. Mrs. Garrud is four feet ten inches in height, and she, too, smiled. "I'm glad you're not more than two hundred pounds," she murmured. The policeman immediately became generous. "Yes, there are tots of fellows in the force heavier than I am," he said. "In any case, I'm too big for a little woman like you. Why, you couldn't even hold me." "I'm glad you're not more than two hundred pounds," repeated the gentle suffragette, "because the heavier you are the more I'd hurt you, and I sim-

ply hate to, you know." Then the struggle commenced. As a huge mastiff would bend down upon an insolent kitten, the man swooped on the woman. First, he tried for a catch-as-catch-can body hold, but the suffragette eluded his grasp. Their hands met, and the giant tried to pull her to him, but that was the very last thing she intended to allow. Pulling away from him, she ran lightly backwards, with the policeman pressing heavily after her. Desperately he exerted all his strength striving to push the woman off her balance and

Then, suddenly, the thing happened. In a flash the woman fell flat on her back, with the massive policeman towering above her. Up shot one of her feet to meet his diaphragm. Her little arms strained, and as he pulled against himself, the man lost his balance, swirled over her head, turned a somersault in midair, and fell heavily on the back of his head. In less than seconds the suffragette had thrown the policeman. Five minutes later, when he once more condescended to stand upright, the pazzled policeman again carefully regarded Mrs. Garrud. Contempratively he scratched his head. "If that had happened on the pavement instead of these mats the police one man short at this noment," he said. "That fall would

To those who have suffered long and hopelessly with eczemas, tetters and similar torturing, disfiguring eruptions, the immediate relief afforded by the first warm bath with Cuticura Soap and gentle application of Cuticura Ointment is almost beyond belief. In even the severest cases, when treatment after treatment has been tried in vain, the itching and burning generally stop at once and sleep becomes possible. No stronger proof of the success and economy of the Cuticura Remedies in the treatment of affections of the skin and scalp, from infancy to age, could be given than such remarkable testimonials as these:

GRATEFUL FOR WONDERFUL CURE"

I have been treated by doctors for twenty-five years for a bad case of eczema on my leg. They did their best, but failed to cure it. My own doctor had advised me to have my leg cut off, but I said & would try the Cuticura Remedies first. He said, "try them if you like but I do not think they will do any good." At this time my leg was peeled from the knee down, my foot was like a piece of raw flesh and I had to walk on crutches. I bought a cake of Cuticura Boap, a box of Cuticura Ointment and a bottle of Cuticura Resolvent. After the first two treatments the swelling went down and in two months' use of the Cuticura Remedies my leg was cured and the new skin grown on. The doctor could not believe his own eyes when he saw that Cuticura had cured me and said that he would use Cuticura for his own patients. But for the Cuticura Remedies I might have lost my life. I am truly grateful for the wonderful cure that Cuticura wrought. I have many grandchildren and they are frequent users of Cuticura and I always recommend it most highly as a sure and economical cure for skin troubles.

ULCER HEALED BY CUTICURA REMEDIES

Some time ago I suffered from an ulcer which was caused by varicose veins. I was sitting, off my foot, for three months and had a physician attending me, but the ulcer seemed to be getting worse and was breaking out in another place. I was, however, advised to use Cuticura Soap and Cuticura Ointment by the physician. The ulcer gradually healed by using Cuticura Soap and Cuticura Ointment and a perfect cure was the result. I do believe that only for the Cuticura Remedies the ulcer would never have been properly cured.

CHARLES SPARROW, 7, Virginia St., Belfast, Ireland.

"WOULD HAVE DIED BUT FOR CUTICURA

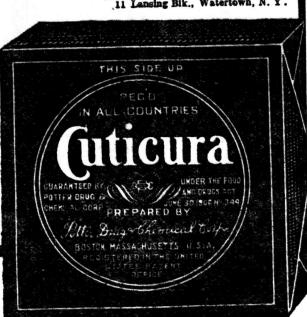

When my boy was about three months old his head broke out with a rash which was very itchy and ran a watery fluid. We tried everything we could but he got worse all the time, till it spread to his arms, legs, and then to his entire body. He got so bad that he came near dying. The rash would tech so that he would scratch till the blood ran and a thin yellowish stuff would be all over his pillow in the morning. I had to put mittens on his hands to prevent him tearing his skin. He was almost a skeleton and his little hands were thin like claws.

He was bad about eight months when we tried Cuticura Remedles. I had not laid him down in his cradle in the day-

time for a long while. I washed him with Cuticura Soap and put on one application of Cuticura Cintment and he was so soothed that he could sleep. You don't know how glad I was he felt better. It took one box of Cuticura Cintment and pretty near one cake of Cuticura Boap to cure him. I think our boy would have died but for the Cuticura Remedies and I shall always remain a firm friend of them. He was cured more than twenty years ago and there has been no return of the trouble. MRS. M. C. MAITLAND, Jasper, Ontario. BEDRIDDEN WITH ECZEMA SIX WEEKS

I suffered severely with a terrible eczema, being a mass of sores from head to feet and for six weeks confined to my bed. During that time I suffered continual torture from itching and burning. After being given up by my doctor I was advised to try the Cuticura Remedies. After the first bath with Cuticura Soap and application of Cuticura Ginement I enjoyed the first good sleep during my entire filness. I also used Cuticura Resolvent and the treatment was continued for about three weeks. At the end of that time I was able to be about the house, entirely cured, and have felt no ill effects since. I would advise any person suffering from any form of skin trouble to try the Cuticura Remedies as I know what they did for me.

Stroud and Warhop Do Great Work For Their Teams-Cobb's Single Wins.

Detroit, Aug. 9.—The Tigers climbed into third place and shoved the Highlanders, who a short while ago had strong hopes that the 1910 flag would fly in New York, down a peg when they

captured their fifth straight and made a clean sweep of the series with Stallings' men by a 2 to 1 score.

Unlike the rest of the games in the series, yesterday was a great battle between Ralph Stroud and Jack Warhop, and, like most twirling duels, the result was made possible by an error that looked small at the time, but that enabled Ty Cobb to drive in the winning abled Ty Cobb to drive in the winning run in the third inning.

This idea of getting in enough runs early in the game seems to be a habit with the Tigers of late, and they have made that old ninth inning finish unnecessary. In the last five games, all of which were won by the Tigers, they have made enough tallies before the third man was out in the fourth inning to

ENEMIES OF THE TREES The latest enemy of the national forests on whom war has been declared by the forestry service is the fretful porcupine. The quill-armored rodents are destroying hundreds of fine trees, and the biological survey has sent experts to Colorado from

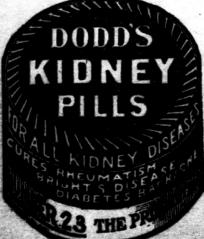

Washington to study and devise some way to exterminate the pests. The destruction of timber by porcupines is worse in the Routt national forest than any other place in Colorverous, their diet consisting principally of grass, shrubs and roots, but heavy snows in the mountains cover all this substance, compelling them to seek other food. As a consequence they go to higher altitudes and eat the bark from the Englemann spruce and lodge pole pine circling the trees with their sharp teeth, and eventually causing them to die. No statistics save been gathered as to the total destruction caused by porcupines, but it has been approximated that many thousands of trees are annually destroyed day for Vancouver, B. C., where they by them. The fact that a reconnoissance party on the Routt forest recently killed 21 porcupines in two Adrian, Mich., are guests of Mr. and days in a comparatively small area will give an idea of the large number

of the animals there. Yesterday Dr. N. Dearborn, of the biological survey, arrived from Washington and left for the Routt forest this morning to study the porcupines and study out some means of either Mayor stopping their ravages or exterminat-

LIVESTOCK.

TORONTO, Aug. 8.—Cattle—Trade was fairly active at the Union stock yards this morning, and prices were well main tained for all classes of good stock. Especially for the best grades of butcher and export cattle there was a keen inquiry, and all such marketed were picked up early. "Present indications are that there will be active markets all this week," said a commission man. "For the last few weeks the demand for butcher cattle has not been particularly strong, on account of so many people being out of town, and the disinclination of the butchers to hold more stock than absolutely necessary over the warm weather. The cool spell last week had an invigorating effect on the butcher market." A feature of today's market was the presence of a large quantity of Manitobal stockers. These averaged in weight from 750 to 1200 lbs, and were quoted at \$450 to \$550. The receipts were 139 cars, containing 2938 cattle, 72 calves, 83 hogs and 220 sheep. Only about two-thirds of this longering was of a quality to justify good prices. The balance, however, was disposed of before noon at satisfactory prices.

States Position in Regard to John Weaver.

G. Ben Blackstock, ex-dog catcher, and John Weaver, his former assistant, have not been exemplifying that David and Jonathan regard for each other that would be expected from fellow-laborers on the G. T. R. Mr. Weaver is ill with typhoid fever at his home employ of the Grand Trunk, and that the nearest he ever got to being a railroad man was when he watched the trains go by. Blackstock indignantly denies the accusation, and in the following classic epistle gives a version of the difficulty. It is an effort worthy of Shakespeare, and should be placed in the archives of Canadian literature:

POLICE LAY RICE CRIME TO ROBBERS

Abandon Theory That Clever Land Lawyer Was Killed for Revenge.

Cleveland, Aug. 9.—The theory that William L. Rice, the wealthy attorney whose body was found near his Euclid Heights home Friday night, was assassinated for revenge, was practically abandoned by the police last evening. The discovery of new clues yesterday, all of which point to attempted robbery being the motive of the crime, have confirmed their opinion that hold-up men are responsible for the lawyer's death.

A reward of \$10,000 for the apprehension of the slayer has been offered. \$5,000 by Mr. Rice's law partners, and New York. This has brought a host of amateur sleuths into the field, but the police maintain their pessimistic attitude as to the mystery of the crime ever being solved.

From some source which they refuse to divulge, the police profess to have learned that a robbery had been planned by professional the local court of sessions called neighborhood of Mr. Rice's home on for the appearing of Crippen and Miss the night of the crime.
